Men's Summer Shirts and Underwear

The man who knows how to dress properly won't grumble very much about hot weather. He chooses shirts and underwear that are soft, cool and airy. He doesn't believe in having his dress needs starched as "stiff as a board." He selects the negligé shirt and, as a result, has no dread of a hot spell. Come and see our negligé shirts. Also the light weights in underwear.

ELECTRICAL DEVELOPMENT AND MUNICIPAL OWNERSHIP.

The secret is out. Great Britain's backwardness in electrical development is owing to the prevailing view for government and municipal ownership. Such is the judgment of the writer of a letter in a recent issue of The London Times. This is a peculiar statement to make, in view of the fact that the British Government has been compelled to go into the telephone business because private ownership had proved an unqualified failure. Great Britain found herself behind the United States in the case of the telephone business because the company that held the monopoly charged excessive rates, and thereby prevented an extension of the service. Since the Postoffice Department took over the telephone there has been rapid development in the United States. Rates have been reduced, and the number of subscribers is increasing very rapidly. Government ownership promises to be the salvation of the telephone business in Great Britain. Some of the papers of the country are using the argument of the writer in The Times to discourage public sentiment in favor of municipal ownership. In view of what is transpiring daily in this country and the United States, we think such papers will not make much of an impression on the public mind. If the government had adopted a policy of public ownership for the development of electricity at Niagara Falls, we would be in a much better position to-day than we are under corporate ownership. The government's policy of private ownership in the development of power at Niagara Falls has signally failed. Under private ownership, development at the falls has languished ten years, and when the monopolists see fit to make a move and develop current, how will the public be benefited? There will be no benefit at all. The people will be forced. They will have to pay dividends for the capitalists of two or three stock-watered corporations. The company that owns the franchise will, however, be benefited. We, the people, will be benefited by the government's policy of public ownership. The government's policy of private ownership in the development of power at Niagara Falls has signally failed. Under private ownership, development at the falls has languished ten years, and when the monopolists see fit to make a move and develop current, how will the public be benefited? There will be no benefit at all. The people will be forced. They will have to pay dividends for the capitalists of two or three stock-watered corporations. The company that owns the franchise will, however, be benefited. We, the people, will be benefited by the government's policy of public ownership.

HIGH SCORES ON SATURDAY

Large Attendance at the Long Branch Rifle Ranges and Weather Favorable for Shooting.

FIRST DAY OF LEAGUE SHOOTING

Wheeler and Wilson Competitions Continued--Highest Score of the Day Made by Major Orchard.

Delightful weather favored the marksmen who journeyed out on Saturday afternoon to the Long Branch rifle ranges. The attendance was the largest of the season, 34, A. Scherer, 33, G. Mortimer, 33, T. S. Bayles, 33, G. E. C. H. R. 33, A. Rose, 31, G. O. Bell, 31, J. H. Simpson, 31, A. Elliott, 31, T. Mitchell, 31, J. Buchanan, 31, J. Lead, 31, M. S. Mercer, 29, C. P. Phillips, 29, S. J. Perry, 29, W. C. Hall, 27, J. D. Stenham, 27, R. Clarke, 27, H. S. Jevons, 27, R. Dougherty, 26, W. Kelly, 26, E. A. Fenell, 26, D. Craig, 26, T. McElduff, 26, W. D. Spradley, 26, G. C. Howard, 22, D. Armstrong, 22, A. Farrier, 21, W. R. Kingsford, 21, J. J. J. 11.

RUSSIA HAS BACK THE UNITED STATES.

The action of the United States in imposing a countervailing tax on Russian sugar is costing that country very dear. If the United States had not already lost all its trade with Russia, it soon will do so. According to a St. Petersburg dispatch, the Russian Government has decided to take a retaliatory step, and has announced that it will increase the Russian duties on sugar from 20 to 30 per cent. over the rates paid by other countries, which means virtually that the United States manufacturer is to be absolutely shut out of a market he had found most profitable. Most of the sugar that is imported into the United States is produced in Germany, whose manufacturers are immensely pleased with the United States' policy of extortion and greed.

DEATH OF SQUIRE PHILLIPS.

Old and Respected Resident of Picking Township Taken Off. Buckingham, Ont., June 16.--Mr. John Phillips, better known as Squire Phillips, died here this evening. Mr. Phillips was born in New Brunswick about 1817, being in his 84th year at the time of his death. He had been a resident of Picking Township for the past 30 years, and was a Justice of the Peace. He was a member of the Methodist Church, and a great number of Phillips' most prominent citizens came under his tutelage. He was a man of high character, and his death is a great loss to the community. He was a member of the Methodist Church, and a great number of Phillips' most prominent citizens came under his tutelage. He was a man of high character, and his death is a great loss to the community.

FROM CELLS TO HOSPITAL.

Mrs. Mary Cole Was Taken Suddenly Ill at the Court-Street Prison. Ald. J. J. Graham, who is agent for the Children's Aid Society, went to a house in the rear of 19 Agnes-st., on Saturday night, to take charge of the six-year-old child of Mrs. Mary Cole, when he first noticed her in a state of collapse. The mother, who was slightly under the influence of liquor, was taken to the hospital. Mr. Graham, before leaving the place, took Mrs. Cole into custody, and had her brought to the hospital. She was found to be suffering from a severe case of pneumonia, and was taken to the hospital. She was found to be suffering from a severe case of pneumonia, and was taken to the hospital.

SAYS THE MEN ARE BEATEN.

General Manager Evans of the Maine Central Says He Has His Men. Portland, Maine, June 16.--General Manager Evans of the Maine Central Railroad, when interviewed to-day about the strike of his section men, said that there was really no strike. It was over, that he had been ready to fill all the places, and that many of the old hands were heartily sick of the position they had placed themselves in by listening to reckless advice. He said that there was no truth in the claim of the section men that other organizations would join them, that the other organizations were well satisfied with their treatment, and had also expressed the opinion that the increases offered the section men were all that could have been expected. He said that he could not hope to get for very many years yet.

NOTES FROM OTTAWA.

Ottawa, June 16.--Lord Strathcona has cabled that the Loyds have developed two systems of wireless telegraphy, and that the authorities here that Loyds have instructed him to say that every factory will be afforded to any extent from Canada which may be delegated to witness experiments about to be made at the Lloyd station. An Order-in-Council has been passed, transferring all payments of bounties on lead and iron from the Customs to the Trade and Commerce Department, from July 1 next. It is also likely that bounties on lead will be handled by the Trade and Commerce Department. This will entail very little additional work.

CAPT. CREAN'S MOVEMENTS.

Montreal, June 16.--(Special.)--Capt. Crean of the West African Frontier Force left here this evening for Boston. He spent the day with his brother, E. J. and Gordon Crean. Unknown Cripple Killed. Utica, N. Y., June 16.--An unknown man, aged 20, was killed by a train here this morning. The man was a cripple, who was selling coat plaster about the city, was instantly killed, and his body removed by a Central train here this morning. How you tried Holloway's Corn Cure? It is an equal for removing these troublesome excrescences, as many have testified who have tried it.

MOUNTED RIFLES TAKEN PRISONERS.

Continued From Page 1.

upon what they can capture from us they must be in sore straits. The first in our ranks were Major Kaler. There are persistent rumors of European intervention, but these have always failed to be proved unfounded. I have reason to believe that the Queen of Holland did make urgent representations to the German Emperor on this subject and that the Emperor, knowing how popular such a step would be with the German people, privately inquired what support it would receive from the other powers. But there is no reason to suppose that Russia or France would be willing to interfere, and isolated interference is out of the question. After all, England has a navy which no power or group of powers would care to confront. It is no disadvantage to her rivals in China and elsewhere that her army would be locked up in South Africa. If, therefore, the Boers are relying upon external aid they are walking in a vain shadow. What their own resources may be for continuing the struggle I do not know. Lord Kitchener is said to be popular. So is Mr. Kruger, but Lord Kitchener is on the spot, and Mr. Kruger is not. The deaths in Refugee Camps. The record of infant mortality in the refugee camps which The Daily News has published is exceedingly reading. The subject is likely to be brought before Parliament. The deaths of these poor children may have been unavoidable, and I believe it will be contended on behalf of the government that if the Boer women had not been removed into these camps they would have died in the hands of the Kafirs. But on their behalf this statement is indignantly denied. They affirm that they are kept in prison to make their husbands submit. Would Give Boers Independence. It is exceedingly difficult to ascertain how far public opinion about the war has changed since the general election. At a meeting at Northampton last Wednesday--drawn from the whole country, merely the town--a moderate resolution in favor of colonial self-government for the Boers was rejected by an amendment in favor of total independence was carried by a large majority. This was against the wishes of the promoters of the meeting, and it went beyond the speeches of Messrs. Merriman and Sauer, who had previously spoken. In another Midlands county--Warwickshire--where an election is pending for the Stratford division, the Liberal meetings have been forcibly broken up, because the Liberal candidate is a strong opponent of the war. These instances it will be absurd to denigrate, but I think myself the most popular course the government could take would be to leave the whole matter in the hands of Lord Kitchener. This, however, they will not do, and perhaps the government could so far delegate their constitutional responsibility. As to Concessions and Taxation. Two reports upon South African affairs have been published during the week. The first was from the three commissioners--one of them a Boer-appointed by Mr. Chamberlain to enquire into the validity of the various concessions granted by the South African Republic. This report clearly shows that some members of the Republican government were corrupt, and establishes a strong case against Dr. Leyds, but proves also that the worst of these concessions, the dynamite monopoly, was extremely unpopular, and that President Steyn, of the Orange Free State, declined to support President Kruger. It is believed in a Dutch conspiracy for driving the British out of South Africa, and that the British government is not for me to say. The second report is Sir David Barbour's. Sir David was sent to examine the finances of the annexed territories. He does not think that the Orange River Colony can contribute anything or the Transvaal such to the cost of the war, but he recommends that the taxation of the gold mines shall be doubled. It will be remembered that extortionation was one of the chief complaints made by the Uitlanders before the war. ANDRIES DE WET COMING. Berlin, June 16.--Andries Dewet, the Boer leader, says he is going to the United States in the middle of July to lecture. RAILWAY SURGEONS MEET. Adopt a Plan to Instruct Trainmen in How to Render First Aid to the Injured. Dr. B. L. Hordan and C. H. Dickson of Toronto arrived here Sunday morning from Milwaukee, where they have been attending the annual convention of the International Association of Railway Surgeons. The association adopted the plan of instructing railway employees how to render first aid to the injured, and a book of instructions, prepared by Dr. Hordan and Dr. Dickson, was adopted. The book is intended for classes, which can be arranged at terminal points, at times when the men are on duty. The association will supply the books and material, and the surgeons will give a course of five lectures. The idea is copied from the St. John's Ambulance Association of England, and found general favor. The association will meet in St. Louis next year. Dr. Hordan visited St. Paul and Minneapolis during his absence, and found the people of those cities of the opinion that Toronto capitalists are attempting to secure control of the Twin City Rapid Transit Company. A. E. Ames of Toronto has been elected a member of the board of directors, and other Toronto capitalists hold large blocks of the stock. SHOWS POOR SUCCESS. Presbyterian Sunday Schools Report Presented at Ottawa on Saturday--Expectations dashed. Ottawa, Ont., June 16.--Sunday school work in the Presbyterian Church in Canada last year did not accomplish all that was expected of it, and the Rev. John Neil, secretary of the Sabbath School Committee, in giving his annual report Saturday, urged the assembly members to do their best to bring up to a higher standard the work of the churches. The statistics show a decline of 1 per cent. in attendance. A scheme to set aside men who will look specially after the Sabbath school work of the church is proposed. The statistics show that there are 8044 schools, 180,700 scholars and 290 teachers. The scholars gave \$113,007 for all purposes of the church. Rev. J. McVicar seconded the report. POLICE ON THE WARPATH. Visits Made to Alleged Gambling Resorts and Disorderly Homes--Seven Arrests. The greater part of Saturday night was spent by Inspector Hall and Policemen Crowe and Sackett, in visiting places where gambling was supposed to be in progress in the downtown district. No arrests were made, but the officers secured plenty of evidence at certain places, which may be used if the keepers are brought into court. Two alleged houses of ill-fame were called on yesterday, and several arrests made. At No. 4 Bond-street, the home of Kate Mackle found, besides the keeper, Nellie Train and Lillie Graham, who were taken into custody. They were afterwards admitted to bail. Policemen Crowe and Sackett went to 285 Victoria-street, and there arrested Mary Taylor, Lillie Smith, Robert and Thomas Burns. They were taken to the police station, where they were charged with keeping or frequenting disorderly houses. If you neglected to purchase yesterday's Sunday World, do not fail to have next week's delivered to your house. Miss Berthe Egan of St. John, N.B., daughter of Mr. G. B. Egan, is on a visit to Miss Rita Murray, 180 Cowan-avenue, for a limited time.

HERZL APPEALS FOR FUNDS

Declares a Critical Moment Has Arrived in the History of the Hebrews.

SULTAN OF TURKEY THEIR FRIEND

Now or Never the Oppressed Nation Should Settle in Its Historic Home.

Notes from London, Ont.

London, Ont., June 16.—Dr. Theodore Herzl, founder of the Zionist movement, makes the following appeal for funds in behalf of the proposed Hebrew migration to Palestine:

"A critical moment has arrived in the history of the Hebrews. Despite every misrepresentation the Sultan of Turkey is a friend of the Hebrews. Indeed, I say boldly that the Hebrews of the world have no better friend than the Sultan of Turkey."

"How much money is needed for their object in this great historical religious enterprise? No greater sum than that which a hundred patriots commercial companies are donating."

London, Ont., June 16.—The amount already in our coffers, which is less than a dollar a head, and this great sum the Jews will have to raise.

London, Ont., June 16.—The amount already in our coffers, which is less than a dollar a head, and this great sum the Jews will have to raise.

THE BIG CIRCUS IS HERE.

Sunday An Unusually Quiet Day for the Hands, Only Necessary Work Being Done.

STREET PARADE AT 10 A.M. TO-DAY

Undoubtedly the Largest Circus That Has Visited Toronto in Many Years.

The circus is here. Young Toronto was excited this week and yesterday morning.

It was with hope and expectancy of getting a view of the tented field, which had been created in a night.

Older folks were not exempt from the contagion, and it is safe to say that three out of four people in Toronto had been thinking of the glitzy wagons, the menagerie and the allegic dragons, to the exclusion of other thoughts.

Brook's big circus came in from Barrie about 6 o'clock Sunday morning, in three flatbeds, and for a couple of hours all was bustle on the somewhat rugged field north of College-street, near Spadina-street.

Only those who have seen a big show come into town have any conception of the systematic work of the army of followers, whose business it is to get the grounds in shape. No sooner has the first section of the big show run into the siding, when the tent-raisers and general help turn out with long ladders under the wagons or the sleeping cars, and under the superintendence of the various foremen, lead the hundreds of horses from the stalls to the wagons containing the acres of canvas and hundreds of supporting poles, are slid down the ladders from the ends of the flat cars, and as each is safely detached, six or eight horses are attached to it and the journey to the grounds is begun.

Occasionally the elephants are used to push the heavy wagons about until they are out of the railway yard. The celerity with which the trains are unloaded is a revelation to the inexperienced, but this work is only a small part of the detail of moving a circus from one place to another.

Within a couple of hours of the arrival of the first train, the tents are being taken down, ready for the housing of the top of the great poles, which are made secure by stout ropes. There are no apparent ladders, every man has his position, and the whole outfit works like a machine.

Yesterday being Sunday, only the necessary work was performed by the employees of Ringling Bros. show. The animal tent, which is a stupendous affair, had to be raised for the protection of the menagerie. Another large tent was put up for the horses, and a tier-roofing lot of animals has sections come from Barrie.

Another tent is used for the commissary department. The large tent for the horses and the several other tents, if necessary, will be put up this morning. The "tail out" will sound at 5 o'clock and work will begin on getting the grounds in shape for the two performances to-day.

Sixty-five cars are required for the transporting of the big show from place to place. There are over 1000 people traveling with the show, a small army in itself. Over 600 horses, 20 elephants and several tons of rare beasts of the jungle are carried by Ringling Bros. The main tent is 300 feet long by 210 feet wide, with a roof of 15,000 poles. In the tent are three rings, two stages, 200 chairs, 200 tables, flying swings necessary for the mid-air acts of acrobats. The cost of the show to the owners is said to be \$100,000.

Everybody connected with the circus is a specialist in his own line. The men who are in charge of the animals are paid according to the number of animals they take care of. The men who are in charge of the horses are paid according to the number of horses they take care of.

The men who are in charge of the elephants are paid according to the number of elephants they take care of. The men who are in charge of the lions are paid according to the number of lions they take care of.

The men who are in charge of the tigers are paid according to the number of tigers they take care of. The men who are in charge of the bears are paid according to the number of bears they take care of.

The men who are in charge of the monkeys are paid according to the number of monkeys they take care of. The men who are in charge of the snakes are paid according to the number of snakes they take care of.

The men who are in charge of the birds are paid according to the number of birds they take care of. The men who are in charge of the insects are paid according to the number of insects they take care of.

The men who are in charge of the plants are paid according to the number of plants they take care of. The men who are in charge of the minerals are paid according to the number of minerals they take care of.

The men who are in charge of the metals are paid according to the number of metals they take care of. The men who are in charge of the stones are paid according to the number of stones they take care of.

The men who are in charge of the gems are paid according to the number of gems they take care of. The men who are in charge of the jewels are paid according to the number of jewels they take care of.

The men who are in charge of the pearls are paid according to the number of pearls they take care of. The men who are in charge of the diamonds are paid according to the number of diamonds they take care of.

The men who are in charge of the rubies are paid according to the number of rubies they take care of. The men who are in charge of the sapphires are paid according to the number of sapphires they take care of.

The men who are in charge of the emeralds are paid according to the number of emeralds they take care of. The men who are in charge of the opals are paid according to the number of opals they take care of.

The men who are in charge of the amethysts are paid according to the number of amethysts they take care of. The men who are in charge of the garnets are paid according to the number of garnets they take care of.

The men who are in charge of the tourmalines are paid according to the number of tourmalines they take care of. The men who are in charge of the quartzes are paid according to the number of quartzes they take care of.

The men who are in charge of the corals are paid according to the number of corals they take care of. The men who are in charge of the shells are paid according to the number of shells they take care of.

The men who are in charge of the bones are paid according to the number of bones they take care of. The men who are in charge of the teeth are paid according to the number of teeth they take care of.

Goodyear Welt Slator Shoe

Are You an Expert? Even an expert may be deceived by an imitation Goodyear Welt.

Many shoes sold as Goodyear Welt shoes are not the lumps, threads, tacks and discomform of imitation welts, which they are.

Even the dealer who sells them to you likely as not bought them for real welts—even he cannot always tell by appearances.

Wear "Slator Shoes" and you will get nothing else but Goodyear Welt shoes, because no other kinds of shoes but Goodyear Welts are made in the "Slator" factory.

Be careful that you get a real "Slator Shoe" with the slate frame on the sole or the lining—the words "The Slator Shoe" and the price—nothing more. Sold only by "Slator Shoes" agents—\$3.50, \$5.00.

ST. CATHARINES, ONT. Slator Shoe

AUCTION SALE

Villa Lots at Mimico and the Lake Shore

Brick Residence at Mimico

Saturday, June 22, 1901.

The undersigned has received instructions from the Mimico Strathcarron to sell by public auction, in order to wind up the affairs of the company, the following lots, being situated on a high plateau, overlooking the Hamlet of Mimico, and having splendid natural drainage.

Some of the lots front the Lake Shore-road, and on the beautiful beach, and have a depth of 300 feet.

The sale will be held on the grounds, corner of Lakeshore-road and Superior-avenue, Mimico, on Saturday, the 22nd day of June, at 11 o'clock a.m.

Terms of sale (which are very liberal) and full particulars may be obtained from John H. Hardy, 1554 Toronto-street, George Fullerton, 31 Victoria-street, Toronto, or from the auctioneer, HENRY RUSSELL, Auctioneer.

LAWN SOCIAL AT DOLLAR.

Industrial Schools Association at East Toronto-Will Establish a Pigery.

Toronto Junction, June 16.-The "Bobs" Bicycle Club took a run to New Toronto yesterday afternoon, and when near Mimico Asylum, at a point where the path along the side of the road ceases, eight of them wheeled out on to the road, which is very bad, and which was being improved by a masonry wagon, with a small jag on, a little ahead. The wheelmen whistled, but this had no effect on the driver. Then they asked him to give them a little of the travel path, but his answer to this was to draw his wagon nearer the centre of the road.

An appeal to his chivalry was made because of the ladies in the party, but this was wasted breath. At the New Toronto Hotel, the party halted, and waited for the farmer, and, as he did not appear, the constable, who was with the party, took the horses by the head, and asked him his name. Then he took out his whip to lash the horses and the constable, and was urged into not giving his name by the crowd of New Torontoans at the hotel veranda. The constable showed his badge, and then the farmer gave his name as James Jennings of Port Credit. Mr. Jennings will have the right of bicyclists explained to him when he appears in the Police Court.

The first championship lacrosse match in the Junior City League was played yesterday on the Victoria-avenue grounds, when Weston was an easy victor of the Shamrock, the score being 13 to 2 in favor of the Junction team.

On the Humboldt grounds yesterday afternoon the Bantams beat the Willows by one run. At Carlton, Brown's team beat the Park Nine by a score of 9 to 8.

An overhauled stowpilot at the residence of Mr. Burton, No. 125 East Annet-st., gave the fire brigade a run yesterday. The damage was slight.

County Council To-Day. The members of York County Council, after a week's adjournment to complete seedling, which was thrown late by the continued rains of last month and the movement of this, will again assemble at the court house today to finish the work of the June session.

The annual garden party of the Baptist Church, York Mills, was held on Saturday afternoon on the spacious grounds of Mr. David Duncan at Don. The attendance was fully in keeping with that of past years, and the Toronto Orchestra made the afternoon a pleasant one, with numerous selections.

Some idea of the amount of produce that would be brought into Toronto if a complete railway trolley system were in existence, can be formed when, during last week, Mr. W. J. Ponnell sent in over the Metropolitan road over four tons of butter, in addition to hundreds of dozens of eggs and a large quantity of poultry.

Councillor Armstrong, left on Friday for a visit to his son at Petrolia, and a month's trip through the province.

The services at the Lenten Mission yesterday were conducted by Mr. Hewitson of Trinity College, who will also undertake the charge during Mr. George Johnston's absence in England.

After over ten years of service the old trolley wire on the Glenora division of the Metropolitan Railway, was replaced yesterday by a new and much heavier wire. The old wire has been a source of much annoyance, years past, owing to the frequent breaks, and the improvement will no doubt be highly appreciated.

The annual baseball match between Eglinton and Davisville was played on Saturday afternoon on the latter's grounds, the home team winning by a score of 9 to 7.

Chief Wainman, who has been in the office of the coroner for some time, has been promoted to the position of coroner.

Her. F. C. Keane is a poor health, but still continues to undertake the duties of the circuit.

The first ice cream social of the season, under the care of the Epworth League, was held on Friday evening in the grounds of Miss Bowes. The proceeds were very encouraging, and will act as an incentive to future weekly efforts.

E. Abraham and Miss Mary of Scarborough were visitors during the week at the home of the Misses Dyer.

Mr. and Mrs. J. Deen, and Miss Cook and Miss Cooper of Concord have returned.

after an enjoyable trip to the Buffalo Exhibition. The yearly garden party of Trinity Church will be held on Thursday next at the annual spring garden. A first-class repast is promised, and the village band will be present.

East Toronto. Cambridge Lodge, S.O.E., held their annual banquet yesterday. They marched from their lodge, Little York, through the village to St. John's Church, Murray, headed by the bugle band of the Britannia Naval Brigade. There were upwards of 200 members in line, including several visiting brethren from London, Manchester and other cities. Corporal Richard Spicer (late of Brabant's Horse, South Africa), and R. D. Dwyer of the Royal Canadian Dragoons were also in line. Rev. W. T. Baynes, rector of St. John's, and president of the lodge, assisted by Messrs. Jones and Ward, read the lessons, and the Rev. Dr. Osborne preached an eloquent sermon. After the service the members decorated the graves of their deceased brethren with flowers.

The I.O.F. Lodge, Court York, held their annual church parade yesterday morning to the Hope Methodist Church, where about 30 of their members attended. Rev. Mr. Baldwin preached.

The railway company have made an improvement by putting up an electric light in the corner of Berkeley-street and Kingston-road.

The Toronto Hunt Club are having a rapidly put down their grounds. Mr. Banks, the sculptor, who has recently purchased the Dr. Dymally property on Newbury Hill, is being seriously ill through eating toadstools.

Dollar. The lawn social held on the grounds of Mr. Nees, under the auspices of the Zion Methodist Church, was very largely attended, and was in every respect successful. Tea was served under the spreading trees, with a prodigality characteristic of the ladies of Dollar. Thousand-dollar bills added very much to the pleasure of the evening. An interesting feature of the gathering was a series of contests among football teams representing Concord, Buttonville, Richmond Hill, High School, Dons and Milliken's Corners. The score was as follows: Richmond Hill, 10; Concord, 10; Dons, 10; Buttonville, 0; Dons, 10; Concord, 0.

The victory of the Milliken club was very popular and President Oliver Henderson, Messrs. Clayton and Prentice, general managers, were justly proud of their success. The receipts, some \$75, were considered eminently satisfactory, and will be devoted to church purposes.

Unlawful. Shortly before 3 o'clock on Saturday afternoon a fire was discovered in the warehouse of C. H. Stiver, general merchant of this village. The warehouse is separated from the street by a very narrow space, and it was only by heroic efforts on the part of the firemen that the very serious fire was averted. Mr. Stiver's driving horse was slightly burned before it could be rescued, and a considerable quantity of merchandise was destroyed. This fire only emphasizes the need for more efficient fire protection in America, and will probably be the means of instituting some system whereby a plan of fire protection will be secured.

On Kingston Road. The young people of St. Margaret's Church, Spadina-avenue, had their first outdoor Saturday afternoon, at the beautiful summer residence of John Macdonald, Kingston-road. A very pleasant day was spent by nearly 100 young people in connection with the grove, and in other sports. A large bonfire was a feature of the evening's program.

Establish a Pigery. The annual meeting of the Industrial Schools Association was held on Saturday afternoon in East Toronto. President Caldwell presided. Satisfactory reports were given. It was shown that the association had a surplus of \$30,000. All the old officers were re-elected, and it was decided to establish a pigery near the school this summer.

QUEEN'S ROYAL RADIANT. The annual garden party of the Baptist Church, York Mills, was held on Saturday afternoon on the spacious grounds of Mr. David Duncan at Don. The attendance was fully in keeping with that of past years, and the Toronto Orchestra made the afternoon a pleasant one, with numerous selections.

BEAUTIFUL RAINBOW CITY.

Everything in Shipshape and the Rush of Visitors to the "Pan" Commenced.

COLOR SCHEME SUCCESSFUL

Canadian Exhibits Attractive— Things to Be Seen on the Midway—A Great Exposition.

Buffalo, N.Y., June 16.—(Special).—The Rainbow City has opened wide its arms and the faces of its people. The Pan-American Exposition, the pride of every man, woman and child, may now be said to have fairly commenced its career, which is destined to be rapidly successful. It is the most important of the kind ever held in this country, and it is estimated that from 15 to 20 million of the English-speaking people will be attracted to it.

The visitor is struck with bewilderment. The architecture is such grandeur and such diversity of the growth, industrially and otherwise, of the countries represented, never imagined. Literally the first view of the Exposition takes one's breath away, and the wonder gradually grows as one solves it seems as if they would never cease.

In the first place the site of the Exposition is an ideal one. It is easy of access, and the grounds are so arranged that probably the best way to enter the grounds, if one has an eye for natural beauty, is by following the course of the water, which is the most beautiful of the kind ever seen. In the distance, overlooking the trees, loom the towers of the great dome of the Exposition, and the universal regret of all is that it is not possible to see it from the water.

The exhibits of one's own country are naturally of great interest, and it will be pleasing to know that Canada is not only well represented, but that the exhibits are of the highest quality. The exhibits of the provinces are arranged in a most attractive manner, and the exhibits of the Dominion and of the United States are of the highest quality.

The color scheme has been carried out successfully, and the exhibits are of the highest quality. The exhibits of the provinces are arranged in a most attractive manner, and the exhibits of the Dominion and of the United States are of the highest quality.

PROFITS FROM BOOKS.

Interesting Facts Concerning English Novelists—Effects of American Competition.

New York, June 16.—(Special).—The Post's London letter says: In view of the constant assertion that New York is rapidly displacing London as the centre of the world's publishing trade, special inquiries have been made among novelists, at the instance of the editor of The Bookman.

It seems that there are not more than 40 novelists in this country who can live in a reasonable way on the profits of their books alone, the 30 can live by what they receive from the publication of their novels as serials, as well as in volume form. This is in contrast with the case in America, where the number of persons attracted to the profession is estimated at from 15 to 20 million of the English-speaking people will be attracted to it.

The visitor is struck with bewilderment. The architecture is such grandeur and such diversity of the growth, industrially and otherwise, of the countries represented, never imagined. Literally the first view of the Exposition takes one's breath away, and the wonder gradually grows as one solves it seems as if they would never cease.

In the first place the site of the Exposition is an ideal one. It is easy of access, and the grounds are so arranged that probably the best way to enter the grounds, if one has an eye for natural beauty, is by following the course of the water, which is the most beautiful of the kind ever seen. The Toronto Security Co. "LOANS." Address Room 10, No. 6 King Street West. Phone Main 4233.

ing, there are no vexatious waits, and everything that goes towards making travel a luxury is found.

The people of Buffalo are prepared for an influx of visitors, no matter how large the number, and it is a high honor and is very reasonable.

The Exposition grounds also no longer are in a state of confusion. Everything is conducted in a business-like and administrative manner, and the visitor is not only wanted to see everything, but to go away perfectly satisfied.

THE RAILROAD IS OPEN. Halifax, N.S., June 16.—The southwestern part of Cape Breton is now open for the first time since the opening of the railway.

The Inverness and Richmond Railway, which will eventually traverse the full length of Inverness County, was opened on Saturday from Broad Cove to Port Hastings. Fifty-seven miles of the road are now in operation. The road was constructed by Mackenzie & Mann.

Obituary. Mr. George Metcalfe, who for a number of years was connected with the old Mass Manufacturing Company, died on Saturday night at his residence, 119 Crawford-street, Montreal. He was a high and respected citizen, and his death was a great loss to the community.

Prof. H. H. Wood, the greatest interest taken by the visitor in the electrical display. That wonderful display, which has never been secured by harnessing Niagara, is a sight which appeals to the eye and the heart.
