When they entered the water, kind of the party and the children join hands, and they all waded into the river and walked along a sandbar which stretches out into the stream at that point.

They had gone some distance from the shore when suddenly the whole party disappeared beneath the water, having in the darkness stepped from the sandbar into the deep channel.

The children struggled and screamed, fighting desperately to reach the sandbar, where the water was only a foot or so in depth. Riley, who is said to have been a good swimmer, is thought to have been made helpless by the girls clinging to him and hampering his efforts to save them.

The only one in the party to regain the sandbar was Mary Timiny, 8 years old. The child is unable to tell how she saved herself.

He was cutting a field of wheat, when an electrical storm came up. There was a blinding flash of lightning, fillowed by a deafening crash of thunder immediately over his head. The thunder frightened the horses and they became almost unmanageable, dragging the binder at a gallop to the end of the field. When the team slowed up Mr. Keachie saw a shock of wheat burning at the spot a few feet behind where the crash of thunder occurred. It is an unusual thing for a shock of wheat to be struck by lightning.

topsy shows that death was not caused by drowning.

The body has not been identified, but probably will be to-day. It is the intention of the authorities to keep it as long as possible. It does not seem probable that a child 8 months old can be put out of the way without it being missed by some neighbors, who will furnish information to the police or press which will lead to the identity.

On Tuesday afternoon a man and woman engaged a boat at Hicks' boathouse at Munro Park. They remained away about an hour. On Wednesday they returned, bringing with them an infant, and again engaged a boat, stating that they might remain longer than the hour. They paid for the use of the boat for an nour, They never came back. The boat was found drawn up on the shore Thursday morning near the eastern gap. The oars and cushions were intact. There is nothing to show, or lead to the supposition, that this is the same infant whose body was found at Coatsworth's Cut, excepting the fact that these people who rented the boat did not return.

Harry Nokes, who rented the boat to Mass parties on both occasions, cannot man were about 30 years of age, both about 5 ft. 6 in. in height. They were ooth slight in appearance. The woman wore a print summer costume with a pink or red effect. The man wore a grey suit.

At the inquest, which was opened last night by Coroner Pickering and adjourned for a week, the only witness was Warnett Damer, 48 Coxwellavenue, who found the body. Mr. Nokes was present and viewed the beat. The clothing of the dead infant was more elaborate, had more embroidery and lace work on it, altho both infants were dressed in the usual stays of the clothing of the little chap lying in the morgue was the usual baby outfit and lace hood, tied with pale blue ribbon strings. best of health and had been well, taken care of.

Murdered by Baby Farmers?

As usual, there are a number of theories. One is that the baby was one of those that are "always in the way" and had been given to some one to take care of. These parties had been well paid, in a lump sum, for undertaking the task, and having received the money they concluded to get rid of the child. If the missing man and woman turn up to-day, it will simplify matters very much for the police.

It may be that the crime was committed by a desperate mother, or a heartless woman.

Mr. Morley's conclusion of the whole matter was aptly summed up in the legacy handed him by John Stuart Mill—"Keep yourselves in the full air of the world, and play your part in the world's affairs; always study rather than be passive; do not be so unreasonable as to expect more from life in the world than life in the world is capable of giving."

SIR WILPRID SMASHING "SACRED"
CONTRACTS.

In connection with the telephone monopoly, when it was discussed in parliament, the minister of justice, Sir Wilfrid Laurier and Hon. Mr. Blair made speeches which were nothing but special pleadings in favor of vested rights. They were more than glib on the sanctity of contracts. Now, however, they have been forced by public opinion to introduce a law which will make the American Tobacco Trust in this country abolish its practice of asking from its customers a contract binding them to handle the goods of no other concern. Dr. Sproule's Question.

Dr. Sproule asked how, then, it was that the engineers brought from the United States to work on the Grand Trunk Pacific had been hanging around all summer, and were still here.

Mr. Cowan said that these men could not be sent back under the present law, because Canada exempts the same classes as does the United States, and, in 1903, the American congress had exempted members of the learned professions from the operation of the law.

Dr. Sproule asked where, then, was the use of playing the farce that had been going on all summer with regard to the engineers of the G.T.P.?

Mr. Cowan replied, declaring that the bill before the house went further than the existing law. The engineers in question could be deported if the bill passed. passed.

Andy Ingram regarded alien labor legislation as improper on both sides.

The citizens of these two countries should be allowed to come and go as hey pleased.

Major Fowler said the bill was a old brick. It would allow faborers to be brought in from any part of Eube brought in from any part of Europe.

Sir Wilfrid Laurier agreed with Mr. Ingram that there should not be restrictive laws between Canada and the United States, but Canada could not submit to being slapped in the face and turn the other cheek every time.

Fance Logan said the objectionable immigrants were not brought by contractors direct from European countries. The Syrians, Austrians and Galicians that were brought into Canada were imported from the United States, and this the immigration bill before the house would head off.

Dr. Kendall of Cape Bretor made a long speech on the relations of capital to labor.

New York Tribune: Haicheng has been abandoned, and Kuropatkin's whole army is in danger. That is the news, on Kuropatkin's own authority. The retreat from Haicheng he openly announces, the only consolation or mitigating circumstances being that he was able to do so in perfect order and without molestation. The peril of his army is announced between the lines in his report that the enemy is superior to him in numbers, in this expression of a mere hope, and nothing more, that he will be able to hold his ground in the "last ditch" into which he has confessedly been driven—"main position" is the euphemism for it—and in the anxiety amounting almost to panic which euphemism for it—and in the anxiety amounting almost to panic which prevails at St. Petersburg, where news appears to have been heard which has not yet been imparted to the world at large. Indeed, the loss of Haicheng alone would mean grave peril to his army, or at least necessity of speedy retreat; for, while such withdrawal means a concentration of his army, it also means a concentration or a closer approach and co-operation of the three Japanese armies which are confronting him; and those three armies outnumber him by a fearful manifolity. The Pussian Empire may outnumber the Japanese by three to jority. The Russian Empire may outnumber the Japanese by three to one. In Manchuria the Japanese troops outnumber the Russians by three to one. That is the key to the whole situation

Space in Process Building is All Taken - Three Art Treasures

It is announced that a somewhat diferent procedure from that which obtained at the exhibition last year in the display of manufactures will be followed this year. Instead of grouping all manner of exhibits in the Manucturers' Building, discrimination being used to the end of allocating separate buildings manufactures con ing under the same general classification. This course has been made nec-

The carrying out of the plan of selection spoken of can be illustrated by a mention of the uses to which the Women's Building will this year be pin. Instead of displaying fancy work merely, it will contain exhibits of manufactures specially designed for, and therefore of particular interest to, womankind. It may be said that a special feature of this building's display will be that of conceits in lace loaned for the occasion by private owners. A number of historic pieces will be included, and all will bear descriptive cards.

FREE TO MEN

Men! think of the value of a remedy that has been a success for nearly 40 years: I invented my Dr. Sanden Electric Belt that long ago, and have since cured thousands of men every year. It is no experiment with me, but if you have not tried it, it may be with you, and for that reason I ask you to call or write and get one without pay and use it until you are cured. I will not ask one penny in advance or on deposit. You only

and the price then is as low as \$4 in many cases. If you are debilitated from drains, losses or varicocele; have confusion of ideas; fear to act and decide; gloomy, timid and fretful; without confidence; avoid friends and company; or suffer from rheumatism, lame back, stomach, etc., you need this treatment, for electricity will cure where all other treatments fail. Anyway it will cost you nothlug to try mine if it falls. But get the genuine—the Dr. Sanden. It is largely imitated, of course—all good things are. My belt and advice of 40 years' experience is yours without charge until cured. Call or sead to-day for one, or if you want to look into the matter further get my two little books with full treatise of electricity and its uses. Free, scaled, by mail. DR. A. B. New York, Aug. 5.—Philip Gold, who claims to be the official interpreter of the United States court and supreme court of Boston, for the oriental languages, was arraigned before U. S. Commissioner Shields to-day, charged with operating a "moonshine" still at his home on Staten Island. The revenue officers testified that when they forced an entrance to the cottage where Gold has lived for a month past with his wife and two children, to-day, they found a 100-gallon twin copper still and about 600 gallons of yeast and sugar mash.

## The Doctor Writes of Counterfeiters.

CHAS. H. FLETCHER, New York City.

Hyannis, Mass., May 12, 1900.

Dear Mr. Fletcher: - I wish to congratulate you on your numerous victories over counterfeiters and imitators of Castoria, and trust the time is not far distant when these inferior and dangerous mixtures will be entirely suppressed.

You are right when you say in your advertisements that it is "Experience against Experiment."

I feel it to be an outrage, and an imposition upon the parents of little children that my name should be associated with imitations of Castoria, dangerous to the health and life of these little ones who too often fight their battles for life in vain.

Let me again commend you for the high standard you have maintained in the preparation of my prescription, and I confidently believe it is due to this scrupulous integrity you are indebted for the wonderful sale of Castoria to-day, and the steady growth it has had since I gave you the details of its manufacture in my laboratory thirty-three years ago. They come every day from everywhere. There is not a town or hamlet in the country which has not cures by Dr. McLaughlin's Electric Belt.

Now, what does this mean to you, dear reader? If you are not what you ought to be, can you ask better proof to make you try it? Is there a remedy which is as simple, as easy to use, as sure to cure and as cheap as Dr. McLaughlin's Electric Belt? In justice to yourself and those who look to you for their future happiness, try it now. Act this minute. Such a matter ought not to be delayed.

scarcely stoop over. Urine was full of sediment. Had a desire to urinate frequently. Family doctors, so-called specialists, patent medicines, electric beits, all falled. I was discouraged. I had spent bundreds of dollars in vain. Finally I consulted Drs. Kennedy & Kergan as the last resort. I had heard a great deal about them and concluded from the fact that they had been established over 25 years that they understood their business. I am delighted with the results. In one week I felt better, and in a few weeks was entirely cured. Have gained sixteen pounds in weight."

Deputy Chief Noble: "No fire department in the world would raise the water tower in six minutes. Ten minutes would be fast time. I would bet a thousand dollars on it."

Mr. McCuaig said his report would not be ready for two weeks, and Ald. Ward moved that the matter be laid over for that period. Ald. Ramsden held there was no use waiting. There had been an opportunity to bring forheld there was no use waiting. There had been an opportunity to bring forward proof, and if the report came in, an investigation would be necessary, and they could then take it up again.

Ald. Harrison thought the committee should place itself on record. He did not think the fire department was at fault, and it should not be left under any stigma. It had got down to a question between the department and the underwirters.

"Yes," said Dr. Noble, "the underwirters.
"Yes," said Dr. Noble, "the underwirters are smarting yet from the big fire, and the merchants are smarting from the increased rates."

Aid. Ward's motion for delay was lost, and Aid. Harrison's resolution, expressing the satisfaction of the committee, was then adopted.

Change in Algrm Boxes.
The chief then called attention to the style of fire alarm boxes in the business district. About 30 boxes had the style which requires a turning of the handle, this ringing a bell, which most people consider sends in the alarm, and, accordingly fail to pull the hook inside. Electrician Craig reported that a keyless system was much better, and it was ordered that the boxes be changed.
The Labor Day parade was brought up in a report from James Simpson on the action of the Distrie Labor Council, in regard to withdrawing the invitation to the department to participate.

LIBERALS LEFT HOUSE a Protest Against Application of

London, Aug. 5-There was an exraordinary scene in the house of commons this afternoon during the discussion in committee stage of a bill designed to frustrate the devices of the Welsh county councils, who are endeavoring to refuse to carry out the Education Act.

Premier Balfour moved the closure but on division the opposition mem bers, raising a storm of uproariou protest, refused to record their votes, and the chairman of the committee named a number of members to the speaker. After a heated discussion amid renewed uproar and cries of "Shame" almost the entire opposition, led by Messrs. IN Those wishing to proceed to Liverpool will be granted free rail transportation, with the privilege of stop-over in London. Passengers will have the freedom of the vessel, and will be located in the large outside two and three-berth saloon deck staterooms, formerly occupied by first-cabin passengers. This steamer has a splendid, well-sheltered promenade deck, smokeroom and ladies' room, all situated well amidships. An excellent bill of fare is provided, and the service generally will suit the most exacting. For further particulars, appiv S. J. Sharp, Western Passenger agent, 80 Yonge-street, Toronto.

LIME AT PORT ARTHUR.

Port Arthur Chronicle: Lately a deposit of carbonate of lime was unearthed to the southwest of Port Arthur, which covers an area estimated at about 50 acres, and is from 10 to 12 feet thick. This area, tho not large when compared with the immense deposits of limestone sections of Eastern Ontario and in Manitoba, is nevertheless of considerable importance to these towns. It is large enough to supply the local demand for lime for some time to come, and the man who undertakes its development should receive very good returns on his investment. A test performed by Prof. Hille establishes the quality of the material beyond doubt. It is the opinion of Prof. Hille that kilns established on the deposit would be big money earners for the owners.

LOCAL FRUIT MARKET.

Receipts on the wholesale market Friday were heavy, both morning and afternoon, deliveries from the Niagara district being especially good. The season for raspberries has been a good one, and extended over a lengthened period. The quality of the fruit has been likewise excellent, and promises to continue for a brief space-yet. Notwithstanding the gloomy foreloadings of the fruit growers, and not a few of the commission merchants, as the senson advances, and the time for the ingathering of the various fruits comes round, the supply shows no scarcity, as compared with other years. The only serious feature to date is the peach crop, and even this most valuable of Canadian fruits promises to be a medium one. The grape crop, from present appearances, will be an excellent one. Prices are as follows:

Raspberries, 7c to 8c per box. Cherries, 8t to \$1.85. Blueberries, 8t to \$1.15. California plums, \$1.40 to \$2. Peaches, Elberta, per crate, \$3 to \$3.25. Apples, Canadian, 20c to 30c per basket. Watermelous, each, 25c to 40c.

Ceneral Kuroki's Headquarters, Near Motien Pass, July 22, via Seoul, Korea, Aug. 5.—(Delayed in Transmission.)—From the brief official reports arriving, it appears that the fighting on July 19 the Japanese attacked a superior force of the enemy, occupying the strongest defensive works, and again outmanoeuvred the Russians, who held the trenches, flanking them on both sides. The Japanese loss was one officer and 53 men killed and 15 officers and 330 men wounded, and 15 officers and 330 men wounded. Two Russian officers and 45 men were taken prisoners by the Japanese. Actaken prisoners by the Japanese, According to the officers' accounts, the Russian loss was several hundred. It is the consensus of opinion that the European regiments made a poorer showing against Gen. Kuroki's troops than the Siberian regiments did. The condition of the Siberian troops is bad. of works, proposes to follow up the matter of bridging the Don for the purpose of extending Bloor-street to the Danforth-road, thereby securing easy access to the city for the numerous residents in Chester and Todmorden, and assisting in the building up of the northeastern section of the day Ald. Foster brought up the question, and his opinion that a means of entering the city from the Danforthroad district should be supplied, has elicited many favorable comments

from prominent business men. "I do not know of any public im provement of greater advantage to the city than this opening would be," said he yesterday. "When the city enginerr returns to the city I propose to go over the ground with him and look into the best location for a bridge. Then shall submit the matter to the board of works, and ask that the engineer be requested to prepare plans and give

Via Castle Frank-Road.
"The better plan would probably be to go over the Sherbourne-street brdige and down the present road to Castle Frank-road, thus avoiding the first ravine and greatly lessening the cost of
the work. A great deal of filling-in
might be done at both ends of the
proposed bridge. The cellar diggings
and city repuse could be conveyed
there from the district as far south as
Wilton-avenue and as far west as

"I think it would be well worth while to interest the county council in the matter, as it would pay it to contribute. All of this district is being built up fast, and is bound to come into the city, as it can go in, but a short time before requiring light, water and protection. It is now very much in need of a street car Service.

Ald. Foster was of opinion that the cost should be met out of the general rate. The road would be a main thorofare into the city, and now that times were good he did not anticipate that there would be much opposition. The west end subways and the present Don bridge had been paid for by the whole city, and the Lansdowne-avenue subways about ready to be

Mr. Foster considered that the Gerard-street extension was equally important. The ravine about 400 feet ast of Greenwood-avenue might be filled in, but in any event it was an improvement that was very desirable.

The sceheme will be presented to the boar dof works by the chairman at its boar dof works by the chairman at its first meeting after vacation and pushed vigorously. The aldermen in Wards One and Two and two in Ward Three are fully in accord with Ald. Foster, and the members from the other wards living in the northern section of the city are expected to support the proposition.

position.

The following letter has been received from aresident of the East-end in reference to the matter:

A Much Desired Improvement. Editor World: I am very pleased to see by your editorial in The World of the 4th inst. that you are in favor of having Bloor-street extended to Danforth-avenue, which is Bloorstreet proper. It would be one of the best and most beneficial improvements ever done in the city.

It would open up a large section that has hitherto been neglected for want of convenient approaches thereto. It would also make Danforth-avenue one of the best residential streets in the

THE CHILDREN AND THE STREETS

Christian Guardian: A correspondent of The Toronto World, in a thoughtful and earnest letter, calls attention to the fact that "on the streets of our city thousands of children, ranging from 5 to 16 years of age, may be seen till 10 or even 11 o'clock at night." He very pertinently asks what is the probable outcome of such a state of things, and answers bis own question to the incontrovertible statement that there is "no better school for vice, no better means for the development of criminals and degenerates than the streets of any large city at night." He points to the terribile fact that in the city of not quite 250,000 population no fewer than 1000 children had indement passed upon them in the courts last year, and proposes a curriew or some compulsory system of keeping children off the streets at night. The editor calls attention to the correspondent's letter in a well-considered and sympathetic article. As he points out, the children are neglected, shamefully nelected, by their parents. It is the fathers and mothers of these children that are to blame. And when one considers a moment, one is appalled at the carelessness, shown in this egard by even parents of whom better things might be expected. For the parents of hogs of these children are respectable people. And yet night after night their boys and girls are on the streets. Now, what would be thought of any governmental or publianthropic institution that allowed its immates on the streets after dark? It would not exist a mouth. And yet, surely, parents ought to be more careful over their own flesh and blood than strangers, however poscientious, and governments, however public to be more careful over their own flesh and blood than strangers, however public to be more careful over their own flesh and blood than strangers, however public to be more careful over their own flesh and blood than strangers, however conscientious, and governments, however conscientious, and governments, however public to be understood to the problem

GOT OFF WITH 4 MONTHS.

August Tonia, who assaulted James Caven at 125 York-street, got off easily in the police court yesterday. Caven said the Italian had struck him with a loaded hose. Of the others arrested in the subsequent raid, George Wilson was fined \$15 and costs, or 3 months, and six others \$10 and costs.

Ald. Foster, chairman of the board

estimates of the probable cost.

"I know the mayor said to the East Toronto people that the extension of Bloor-street was impossible, as it would cost a milion dollars, but that was an extravagant statement. The bridge would be a great advantage and convenience to the residents of Chester and Todmorden, and would open up the northeastern portion of the city. It is now a great inconvenience for these people to come down Broadview to Gerrard or to climb the Winchester hill. It would probably make a difference of a mile and a half, which is a great deal to a busy man.

County Council Should Aid.
"I think it would be well worth

whole city, and the Lansdowne-avenue subway bylaw was about ready to be submitted to the people. The west end had secured substantial advantages, and this would remove any sectional feeling. In addition, the thru line across the northern section of the city would be equally beneficial to all por-

provement that was very desirable. The county would be willing to aid on this proposition, as the resulting benefit would be very great.

On to the Boar of Works.
