MONASTIR CAPTURED

BRITISH AND CANADIAN TROOPS MAKE HEAVY GAINS ON ANCRE

FOE SUFFERS BIG REVERSE IN EAST

Forces Advance Thru Snowstorm Nearly Quarter of Mile on Three-mile Front Along Both Sides of River and Establish New Line South of Grandcourt Village—Nearly Eight Hundred Prisoners Taken—German Opposition Feeble, Except South of Grandcourt.

French and Russian Troops Enter Town on Sunday Morning After Forcing Bulgarians to Evacuate it—Serbians Advance on Prilep.

Special Cable to The Toronto World. London, Nov. 19.—Sir Douglas Haig struck another swift blow against the enemy on the Ancre on Saturday, when attacks in which Canadians participated, were launched on both sides of the river. The advance was on a front of about three miles, and was effectively driven home to the extent of about a quarter of a mile. Nearly 800 prisoners were taken, bringing the total in six days' operations to almost 7000.

Canadians in Advance. Copyright, 1916, the Associated Press. With the British Armies in France, Nov. 18, via London, Nov. 18.—British and Canadian troops won a battle in a snowstorm this morning. Advancing on both sides of the river in easterly and northerly directions, they took about 500 prisoners and established a new line on both sides, and at the edge of the Village of Grandcourt for the possession of which severe fighting continued through the day.

where the batteries and machine guns holding the sunken Pozieres road checked the British. Elsewhere the German trench was virtually destroyed by the preparatory bombardment, the surviving Germans, including Saxons, formally surrendering thru their officers, who met the British as they came over the ruined parapet. Sweeping Success. Parties of British bombers advanced to the next German line which is the last on the south side of the Ancre, raised the position and returned to the trench previously captured, which by now had been consolidated. Infantry detachments working up the river from the western end of Grandcourt, got a footing in the ruins and craters and took the lower end of the main street paralleling the Ancre, of which the Germans held the remainder.

On the north side of the Ancre the advance was made from the eastern end of Beaucourt. Capturing Hill 1212, the patrols pushed forward to the Puleux trench, a part of the original German second line and the end of which, at the river-bank, the British now hold. Today's successes have given the British command of ruined villages, fortified farms and other strong German points in the Andre Valley. In the opinion of a staff officer the German positions south of the Ancre are virtually untenable as they are unable to bring up supplies and reinforcements, while the only available road is under bombardment.

DEWART READS LETTERS EXPOSING NICKEL TRUST

Chosen Agent of International Nickel Company Caught Trading With the Enemy and Denounced by British Judge—Cochrane, Hearst and Ferguson Must Be Driven From Public Life, Says Member for South-west Toronto.

Hardley H. Dewart, K.C., arraigned the International Nickel Company and its friends in high places and presented an indictment that will be hard to answer in an address delivered to the Liberals of Southwest Toronto at Oddfellows' Hall, 228 College street, Saturday night. Mr. Dewart marshaled his evidence in a masterly manner, and presented certain facts not heretofore made public, which may well startle the people of Canada. He showed that the written admissions of the nickel trust that it was connected and interlaced with the great German metal trust with headquarters at Frankfurt-on-the-Main and that all its sales for export were under the control of the German metal trust, acting thru a German firm with English veneering, engaged in correspondence with the enemy in defiance of the crown.

STORM WRECKS MANY STEAMERS

Renewal of Heavy Gales is Disastrous to British Shipping. SHIPS DRIVEN ASHORE. Several Reported Battered to Pieces With Loss of Life.

London, Nov. 19.—A renewal of the heavy gales which have visited the British coast recently caused a heavy loss to shipping Saturday and Sunday. Four large outward bound steamers were compelled to return to Queenstown, including the Glia, which lost her propeller and was laboring in the tremendous seas and only with the greatest difficulty was able to make port. The other steamers were badly battered, having lost hatches and being otherwise damaged.

Salonica despatch says: The temporary capital of Serbia will be immediately established at Monastir. Considerable forces of Serbians are with the allied troops who have occupied that town. A Reuter despatch from Salonica says that on Saturday the Serbian troops gained fresh victories in the Cerna region, the Germano-Bulgarian forces making a disorderly retreat in the direction of Prilep, north of Monastir.

Special Cable to The Toronto World. London, Nov. 19.—According to an official communication received from Petrograd today, Roumanian forces on the Transylvanian front yesterday took the offensive against the Austro-German troops in the Turgujulj Valley and captured a series of heights. In the Jul end Alt Valleys, strong Teuton forces, the Russian statement adds, pushed back the Roumanians for a short distance to the southward. A despatch from Bucharest says: Dragoelavie, on the Transylvanian front, yesterday, made further progress, taking 34 prisoners and capturing two cannon, two machine guns and five munition wagons. says the official statement given out at the Roumanian war department today. In the valley of the Alt, fighting continues in the region west of Sulist-Prezol.

The meeting was called by Mr. Dewart for the purpose of forming a Liberal organization for the provincial riding of Southwest Toronto. Little time, however, was spent in this work. Alderman Ali McGuire presided, and upon motion of James E. Day, a constitution was adopted and a roster of officials elected, headed by G. G. S. Lindsey as president. Mr. Lindsey then assumed the chair and after calling to the platform M. K. Cowan, K.C., J. J. Young of North Bay, president of the Ontario Reform Association and other prominent Liberals presented Mr. Dewart as the newly elected member for the riding who would have something to say on the nickel question.

Four More Steamers Sunk, Lloyds Report. Two British, One Portuguese and One Italian Vessel Victims. London, Nov. 19.—Lloyds shipping agency today reported the sinking of two British steamers, Lady Carrington and the Vasco, and the Portuguese steamer Sannicola. The Lady Carrington registered 2920 tons gross. The Vasco was of 1914 tons gross. Lloyds also reports that the Italian steamer Lela, 2987 tons gross, has been sunk.

News Received in Paris. A Paris despatch says: News of the occupation by French troops of the Serbian Town of Monastir was received in Paris as one of the most important of the late developments in the war. It came too late for general comment in the French press. The explanation of the German-Bulgarian reverse was thus sent out by wireless from Berlin: The Macedonian Town of Monastir was evacuated during the night by the German and Bulgarian troops, who retired to pre-

pared positions further north. They thus withdrew from highly unfavorable positions in the plains, where they were exposed to artillery fire from the heights to the south and southeast of the town. Official Statements. The text of the French official statement reads: "Army of the East. On Nov. 18 there was great activity of the artillery on both sides of the Lake Dolran to the Vardar River. East of the Cerna River, Serbian troops continuing their progress toward Grunishite encircled this place.

"In the Cerna bend the Serbians repulsed a new Bulgarian counter-attack on Hill 1212. The enemy is falling back in disorder toward the north, pursued by our allies, who have reached the top of Hill 1278. "In the region south of Monastir the French and Russian troops made new progress in the direction of Holovent.

Burnt-Foe Camps. "The English aviation corps bombarded the enemy camps in the neighborhood of Seres, while our aeroplanes dropped bombs on the camps and bivouacs at Novak and Monastir. "Nov. 19.—Troops of the army of the east entered Monastir at 8 o'clock this morning, the date of the anniversary of the taking of the town by the Serbians in 1912.

The official statement issued from Serbian army headquarters Saturday reads: "At 2 o'clock Friday afternoon our valiant troops carried Hill 1212 after a brilliant assault. The enemy was defeated completely and fled northward in disorder, leaving behind all his equipment, a large number of machine guns and rifles, an enormous quantity of ammunition and other war material. At one place we captured fifty cases of hand grenades. "Attack was Continued. A Reuter despatch from French headquarters in Macedonia, under date of Nov. 17, describes the fighting in the direction of Monastir as proceeding in bitter cold, rain, sleet, mud and slush. Nevertheless the allied attack was kept up continuously and successfully, especially on the right.

The Serbians, supported by French guns and a contingent of French infantry, for ten days maintained an unceasing offensive, says the despatch, and altho the enemy forces were continually reinforced they were driven from position after position. By thus keeping their opponents on the move the Serbians extracted the maximum advantages from their victory. "The Serbo-French successes on the left bank of the Cerna River," continues the despatch, "gave the allies such an advantageous position that the enemy was obliged to abandon the Kenali line, altho it proved almost invulnerable to frontal attack.

"The Bulgaro-German trenches were deep and narrow and were provided with shelters nearly thirty feet underground, affording complete security from shell bursts. Only very urgent reasons could have caused their abandonment, and these were supplied by the threat to their line of retreat. "London, Nov. 20.—The fall of Monastir on the anniversary of its capture by the Serbians from the Turks in 1912 is hailed by the morning newspapers as being of considerable political and military importance. It is argued that as Bulgaria's main object in entering the war was the possession of Macedonia, the loss of the Macedonian capital must bring an acute sense of failure both to the Bulgar politicians and military officers. On the other hand, it is contended that the recapture of the town will greatly encourage the Serbians, whose valiant capture of Kaimakalan mountain prepared the way for the city's fall. The recapture of Monastir had been expected here, but it came sooner than had been anticipated and with almost dramatic suddenness. A point which is considerably discussed by the military writers is the inability of Germany to send aid to the defenders. This is claimed to have important significance. It is urged that Field Marshal von Hindenburg, chief of the German general staff, had known for six weeks that Monastir was threatened and yet was compelled to allow such an important point to pass into enemy hands without an attempt to avoid the catastrophe.

Mr. Dewar on Nickel

Every one should read the report of the speech upon the nickel question delivered by Mr. Hartley H. Dewar, K.C., last Saturday night.

Mr. Dewar makes out a case against the International Nickel Company which may well startle and alarm the empire. He has proved out of its own mouth, that that corporation is in alliance with the German metal trust...

But most shocking and serious of all is the unchallenged fact that this German company, this conduit pipe from Canada to Germany, has friends in high places; has seats in Dominion and provincial cabinets, and dominates the governments at Ottawa and Toronto.

Universal Service. Every day brings the tremendous problem of the war closer to the hearths and homes of Canadian citizens.

A Big British Problem. There is no doubt that the greatest problem in England today is how to stop the leaks. Every measure that can be taken and that is in force in other nations has been taken except one, and it now remains to be seen whether this one will be grappled with as in France, Russia and other countries.

It had been hoped that the war would have ended in three years at most. All the powers engaged, with the possible exception of Canada, are taking measures to be prepared to carry the war into 1918, or longer if necessary.

The Canadian Military Institute has made an official statement at a special general meeting, to the effect that the recruiting methods so far pursued will not be effective to secure the half-million fixed by the government as the minimum overseas force that Canada should offer to the empire.

The most liberal offer ever made. Don't buy unless you really want to keep it.

"CADILLAC" ELECTRIC VACUUM CLEANER

The only Electric Vacuum Cleaner ever awarded two gold medals in competition with almost every other Vacuum Cleaner manufactured. Panama California Exposition, 1915, Panama, Pacific Exposition, 1915.

Fully Protected by Canadian Patent, Dated October 8th, 1912

Nothing could be fairer than this—we offer to place a Cadillac Vacuum Cleaner in your own home and leave it with you for five days without charge. In that time you will have ample opportunity for finding out how a Cadillac will turn half of the work in your home into child's play. If at the end of five days you decide that the Cadillac is not worth every penny that we ask for it, and that by trying to get along without it you are not imposing an unnecessary burden upon yourself, just say the word and we will take it away without any obligation to you. That is how sure we are that you, too, can

You will never miss the small payments 30 days apart—on the contrary, the saving in time and labor—in the wear and tear of your rugs—to say nothing of the saving in your pocket, etc.—will greatly overshadow the moderate cost.

Remember CADILLAC VACUUM CLEANERS are made in Canada by Canadian workmen. They are the only strictly Canadian-made Vacuum Cleaners on the market. The model illustrated herewith is fitted with a universal motor, so that it operates perfectly whether your house is wired

For Hydro Power Or Toronto Electric Light

A rigid guarantee accompanies each machine. It will save you hours of labor—cleaning becomes a pleasure, and the thoroughness of the operation is a delight to a woman who desires scrupulous cleanliness. The Cadillac is the most moderate, priced electric Vacuum Cleaner in Canada, and the terms we offer cannot be beaten.

"Save Your Back With a Cadillac"

Clean your floors, walls, draperies, furniture, mattresses, etc., with the Cadillac for five days. You will discover more dirt than you ever knew you had in your home. Then think how cheap it will be for you to have the Cadillac Electric Vacuum Cleaner to keep your home cleaner and sweeter all the time.

Negro Held as Police Probe Death of Woman
 Brantford, Nov. 18.—The police continue investigating the death of Mrs. Hannah Temperance, found dead Friday. Chief Siemins states nothing will be made known until after the inquest. It is understood that the post-mortem made on the body by Drs. Hicks and Phillips revealed no signs of violence, but that death was held to have been supplied by John Murray, colored, still held by police.

NEXT BRITISH MAIL
 The next British parcel post mail will close at the general postoffice at 3 p.m. on Wednesday, Nov. 22. This is an advance mail.

O! Say!

Have you seen Mother Goose's Village at the Simpson Christmas Show?

There's a whole village of quaint Mother Goose houses, right out of the pages of the nursery books. Come and visit it.

And the little people in the village who do the very things you've heard that they do, but have never seen!

And then the loads of beautiful toys---everything you could think of and many more---all clean, brand new, just the time to buy them and put them away for a few weeks---thousands are coming to the show every day --- selection is now at its best.

There is a new family of dolls made in Canada, the United States and Japan. From the sturdy kiltie doll to chubby babies, there's no lack of attractive styles and a big range of sizes.

Can you build a bridge, boys? If you can't, just come down and learn how at the "Erector" circle. No chance of accidents if you study construction with an "Erector" outfit.
