Reserve Division and seen by recently captured prisoners, state that Lens is to be held at any costs, and the Canadians attacking the city take no prisoners. The stout resistance put up on this part of the front is due in part, the prisoners think, to their belief in this statement. The mean untruth is seen when it is shown that since the beginning of this year's of-fensive in April considerably over 70,-000 prisoners have been taken by the Canadians. The lie may be necessary to preserve the fighting spirit of the men for the grim work of house-to-house warfare, in which losses are always heavy in proportion to the num-

* WAR SUMMARY

THE DAY'S EVENTS REVIEWED

HE larger space than usual devoted by recent French official communications to the military events in Macedonia suggest the early opening of an active campaign against the Bulgarians. Paris reported last night that the British artillery in the region of the Vardar was actively engaged in the destroying of the Bulgarian defences. Recent heavy attacks of Bulgarian infantry had as their apparent object the beginning of a counter-offensive to forestall coming action by the allies. For a long time Bulgaria had powerful friends in London and these intrigued as strongly as they dared to save Bulgaria from attack. They contrived to receive a considerable measure of newspaper support. The danger now threatening Rumania is the reason impelling the allies to sharpen their swords for an advance into the Balkans.

The Italian front still furnishes the chief action in the immense war rama, with the allies increasing their pressure on Monte San Gabriele. The ustrians have been launching tremendous onsets against the Hermada Plateau, only to have their attacks broken by the Italian defence. The wily Cadorna still deceives the enemy, goading him on to costly counter-attacks, so as to wear down his army. The battle has apparently devolved into a counter-offensive of the Austrians to drive the Italians back from their conquered Austrian soil. The Carso Plateau is the scene of steady encroaching on the Austrian defences, but the vital point continues to be the Hermada Plateau. If the Italians could carry this piece of high ground they would cut the Austrian forces in two, isolating the army defending Trieste from the army in the Julian Alps.

The Russians have safely reached their new line of defence east of Riga, with the German cavalry in close touch with their movements. The political effects of the retirement on the unsettled elements of Petrograd have been salutary. They begin to see that the revolution is in danger if they do not brace up and give the military authorities strong and undivided support. The Russian warships in the Gulf of Riga, have made their escape and only German submarines have so far appeared in those waters. The Russian admiralty is putting the Russian fleet in order to give naval battle to the Germans if they should move up to the attack, and the putting on of a resolute face, perhaps, may dissuade the enemy from his projected enterprise against the Gulf of Finland.

The Canadian troops further loosened the hold of the enemy in the sector along the Southez River at Lens, by making additional captures of ground in the neighborhood of the Green Crassier. The enemy reacted strongly against the row of houses recently captured from the Prussian Guards and at the time of reporting, he had regained a footing in some of them. The fighting is thus for vantage points and the initiative of the Canadians is constantly giving them the advantage. Lens will be one vast cemetery, not only of German hope but of German troops. It will be noted that the Canadians long ago put out of the fight the Bavarian troops and that the only men that the enemy can find to stand the severe strain which they are imposing are the elite troops of the Prussian Guards. In order to induce them to resist to the last, he spreads the legend that the Canadians

Wet weather is again impeding the British campaign in Flanders, causing a lessening of the aerial activity of the previous few days. The British aircraft, however, have contrived, despite the rain, to drop over 200 hombs on chosen targets. Sir Douglas Haig reports that on the Lens front the Canadians have pushed slightly forward their line of advanced posts in Avion and east of Eleudit-Leauvette. In Belgium the British had to give in Avions captured north of Frezenburg on Thursday.

Lesson in Scientific Complexion Renewing

Everyone has a beautiful skin underneath the one exposed to view. Bear that in mind and it will be easier to understand the correct principle in acquiring a levely complexion. Nature is constantly shedding the top skin in flaky particles like dandruff, only much smaller in size. In abnorma, conditions, or in advancing age, these particles are not shed as rapidly as in robust youth. The longer they remain the more soiled or faded they become—that's the immediate cause of a "bad complexion."

It has been discovered that ordinary mercelized wax, to be had at any drug store, will absorb these worn-out particles. The absorption, while hastening nature's work, goes on gradually enough to convene with recovered.

HAMILTON NEWS

The Hamilton Trades and Labor Council want the government to appoint labor representatives to some of the conscription exemption tribunals and at their meeting tonight passed a resolution to the above effect. The secretary was instructed to send a copy of the resolution to Premier Borden.

A resolution protesting against the action of the boar dof control in recommending a fixed assessment for the Royal Connaught Hotel Company was also adopted unanimously.

Robbery appears to have been the motive for two assaults, which have been brought to the attention of the police. Bruce Smith, a farmer, residing near Glanford, was hit on the head with a piece of piping while carrying water to motorists who said their car was stalled. Smith was searched, but a large roll of money he carried was not located by his assailants. Presumably the same gang of men visited the home of George Huston with a similar pretext. The farmer's dog, in this instance, chased the assailant away.

As a result of the injuries he received on Wednesday afternoon, when Aid. J. H. Hodgson's automobile was run down by a rudial car. Pte George Thompson, of Menford died at the City Hospital this morning. He was 25 years of age.

Preparing Your House for the Indoor Season

Making it Charming to Look at and Comfortable to Live In. For Which Timely Undertaking We Herewith Submit to You a Few Practical Suggestions

THIS FURNITURE PREDICTS SUCCESS FOR YOUR LIVING-ROOM

As soon think nowadays of a bedroom without a looking-glass or a dining-room without a table as a living-room without its big, comfy Chesterfield. And here to the left you have a noble specimen—a splendidlybuilt, beautifully-upholstered sofa, measuring three feet deep and 6 feet 10 inches from one arm to the other. Manufactured in our own workrooms, every detail can be depended upon for good service and general satisfaction. Covered in floral tapestry, it is \$88.00.

Here to the right is an uncommon joy-a bookcase superbly fashioned in dark, rich mahogany! It shows a Chinese Chippendale motif by way of effect, and supplies five shelves, divided into three sections, with glass doors, by way of equipment. The price is \$97.50.

As for this table, 'tis a true partner to the bookcase, a faithful helpmate in the work of making a living-room convenient for use and a pleasure to behold. It shows the same Chinese Chippendale design, being similarly constructed of mahogany. And note what ample space it affords for books, reading-lamp, work basket, etc.-a rarely hand some table for general use. The price is \$72.50.

ORIENTAL RUGS-LOVELY, ALWAYS-AT SURPRISINGLY MODERATE PRICES

The Special Selling of Eastern Carpets Now in Progress Offers Amazingly Good Values-Prices That Are the Same, Or in Many Cases Less Than Those Which Obtained at the Beginning of the War, Despite the Disturbed State of the Market

It follows the Chesterfield about like a shadow, this "easy" arm chair, such as we've sketched above. It's the invariable supplement to the living-room sofa—all-over upholstered in the same huwuriously restful manner. This particular chair, covered in floral tapestry, is \$34.00.

On Monday Begins A Great Three-day

Special Selling of Chintzes

WE have just opened up the biggest col-

of cretonnes, chintzes and shadow cloths that was ever assembled in the department. Bought many months ago, they were secured at prices far below what we would pay to-day for goods of similar quality. Monday they have been marked at a very close figure, offering wonderful values that may not be duplicated for some time. Take advantage of these savings for brightening the home effectively by the use of chintzes in curtains, draperies, slip covers, cushion covers and all kinds of light upholstery.

CLOSING until SEPTEMBER

No Noon Delivery on Saturdays

O WONDER that the first few days of this Special Solling tured in the Floor-coverings Department have been marked by such enthusiasm. For here is an offering of Persian, Caucasian and Indian Rugs at prices that are no higher, and, in many cases, less than those which prevailed two and three years ago.

The reason is found in the fact that our buyers, anticipating the scarcity of Oriental carpets, made enormous purchases at the beginning of the war, and having procured them at advantageous' figures, now offer them at prices that, in view of the universal advance, appear little short of sensational.

Following are some of the groups to be featured for Monday selling:

Anatolian Rugs-In medallion and all over effects in light and bedrooms rugs of beautiful sheen and great durability, many of them reproductions of rare old Persian patterns. Sizes and prices

THREE THOUSAND GREET BIG WAR CONTINUENT

Proves Inadequate for Crowds Attending Reception

Close on to three thousand people were at North Toronto station yesterday morning to take part in the welcoming ceremonies when 330 returned soldiers arrived back from overseas service. It was the largest contingent yet to return to Toronto, and received a most enthusiastic reception from the great crowd of citizens which overflowed the station and concourse. The brass band of the 12th York Rangers and a company of Royal Flying Corps and United States Flying Corps members took part in the welcome. About a hundred motor cars and eight street cars were used to carry the soldiers and their relatives from the station to the Central Y.M.C.A. building on College street, where the formal civic welcome was tendered.

The big Y.M.C.A. building proved inadequate to accommodate the record number of returned men and their friends, and Mayor Church and other civic efficials are considering the advisability of using the Arena for future receptions of the larger contingents.

Heldena II. won in grand style, with Iris II. less than a minute behind her. This makes a clean sweep for Heldena II., and she can deservedly be classed as the unbeaten Canadian champion.

The weather has been ideal at all of the races and a finer lot of races than this year's program could not be imagined. The committee in charge promise that next year the fastest hydroplanes in the world will appear at the fair, and the Canadian owners say: "Let them come, we'll hang on to the trophies just the same."

All the races have been singularly free from anything approaching dissatisfaction, and the judges say that never have they seen finer sportsmanship displayed than at these races all thru.

Magnificent Display of Live Stocks Marches Past Grand Stand.

CANADA'S OBLIGATION

N. W. Rowell Tells of Great Britain's Financial Burdens in the War.

When the parade of the magnificent re-winning live stock passed before he grand stand at the Canadian Nathe grand stand at the Canadian National Exhibition yesterday afternoon, there was a feeling of security in the minds of the people who packed the enclosure, that Canada was equal to the task of replenishing the herds of the allied nations which have been depleted thru the war. There has been nothing presented during the run of the fair which has given the people of Canada more reason for pride in their heritage than the half-mile display of champion cattle and horses, which came before the critical eyes of preeders and farmers from all over the North American continent on "Review Day." The cream of the country was on view—the perfection of cattledom and horsedesh—proudly bearing the mark of approval of the Exhibition judges, which is a guarantee that n judges, which is a guarantee that winners are worthy of the high-honors in the shows of the world.

ITALIAN PICTURE BRINGS **BIG PRICE AT EXHIBITION**

Art Students Pleased That Painting Will Remain in Toronto.

One of the most important sales yet registered at the art gallery of the Canadian National Exhibition was completed yesterday afternoon, when "Strolling Players," one of the Italian collection, was sold after the keenest competition to S. W. Blake of Toronto. A bid had been received from a Winnipeg connoisseur of art, while G. H. Gooderham, of the Exhibition directorate, also had his eve on the picture and had made a very liberal bid for it. However, Mr. Blake went him one better and secured the painting, which had been perhaps the most talked-of

one in the collection. A number of art students during the week prepared a petition asking the Exhibition to buy the picture or to take steps to have it retained in Toronto, and there was considerable when the announcement was made that the picture would be added to Mr. Blake's collection.

If the franchise bill is regarded there will be more sympathy felt for the legislation.

At the same time, as we have several times stated, it is distinctly to be regretted that any franchise bill or any election should be required at this time. But facing the inevitable, all hostility of a reasonable nature would have been disarmed by the treation of a war government having no other purpose than the single one of winning the war, and pledged, whether with or without an election at the present time, to deal with no contentious, partisan issues, and to dissolve parliament within three

Another grain broker, C. E. Nourse, stated to The World that in many places the farmers had been receiving as high as, \$2.25 for their new wheat, but such received by the grain growers, in his experience, so far this year, was from \$2.10 to \$2,15 per hushel. In his opinion, this was a fair price, when compared to the prices which were being paid for western great deal of caution in making purchases on account of the uncertainty of the market. Mr. Nourse expressed the opinion that if any price-fixing were to be done on the price of flour. From that point the price of bread could be fixed, and the price to the farmer for his wheat would automatically adjust itself to the new

TAKE LEAD AGAIN **DOWN BISONS TWICE**

Leake and Justin Turn in Excellent Pitching for Double Win.

Any old time it is tough going for a ball club to drop two games in one afternoon. But when two of the beaten club's cast off twirlers are the boys mainly responsible for the disaster it is sort of getting it rubbed in too far, according to Fatsy Donovan, manager of the Buffalo herd. Leake and Justin twirled Larry's Leafs to victory in two contests yesterday, and all the Bisons could collect off their delivery was eight hits for one run in the eighteen innings. Truly it's up to Mr. Donovan to take a second look at a twirler after this before he turns him over to the enemy.

Toronto won the first contest by the one-sided count of 9 to 1, and Justin was never in trouble to win the second by the score of 2 to 0. Three hits was all the Bisons collected off their exteam mate, one of them of the scratchy variety. It was a big afternoon for our club all over the circuit, for Providence handed Baitimore a 2 to 1 beating, tumbling the Birds into third place and leaving the Leafs with a toe hold on the top rung of the ladder again. Long distance mathematics in decimals show the Leafs to be 3.314 points in the lead. Not much, truly, but if it figures that way a week today we'll be satisfied. Anyway it sure is some battle in the Individual stars there were aplenty on

way a week today we'll be satisfied. Anyway it sure is some battle in the International.

Individual stars there were aplenty on our side, mostly in the kimelight because of their hitting. Jacobson clouted the ball safely four times in six times at bat turning the afternoon and in addition helped with a long sacrifice fly. Chief Larry had five safe raps in eight trips, while Daley, the Bison catcher, who is putting up an argument with Larry for league leadership in hitting, spent the afternoon without a hit. Whitteman banged them around pretty fair, too, but he gets laurels more especially for the way he got under the Bisons' hong drives into his territory. Whitey went to the bleachers for two or three healthy clouts.

In the second game we got our first counter in the fifth, when Lalonge led off with a clean single to left. Justin sacrificed him. Truesdale advanced him with a hit to left, and Jacobson did the reedful with a fly to the same spot. Jake also presented the locals with the second run, when, with Truesdale advanced him with a hit to left, and Jacobson did the reedful with a fly to the same spot. LEAFS WILL TOUR AFTER SEASON CLOSES

Larry's Leafs are in big demand these days. Western Ontario is hungry for real baseball, and the Leafs have been offered several dates in the bigger towns after the International League season closes. The players are in favor of taking in these, and the first has been arranged for Brantford on Sept. 19. Brantford is making an effort to get Frank Shaughnessy, late manager of the Ottawa Canadian League team, and now an officer in the King's army, to lead the Brantford All-Stars in this game.

It is expected that a program of games covering a week's tour will be arranged in western Ontario.

Gripping the Club

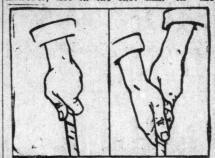

It is very important for the prospective finger of the left hand, and the ball of coller to learn the proper way to grip his club. It might be supposed that knowing the use to which the club is to be put, now would know instinctively the right way to grip it, but experience shows that almost every one grasps the club the wrong way—that is in the paims of the work as one. There is almost every one grasps the club the wrong way—that is in the paims of the work as one. There is almost every one grasps the club the wrong way—that is in the paims of the horizons, before beginning golf, have played baseball, and in consequence, they grab the golf club as if it were a baseball and and in consequence, they grab the golf club as if it were a baseball and and in consequence, they grab the golf club as if it were a baseball and and in the club, and the best batters have something of a golfer's swing, but the ball in one case is stationary and in the other, moving. The interlocking and the overlapping strip are merely variations of the finger of the fight hand. The interlocking and the overlapping strip are merely variations of the finger strip, and are a matter of individual preference.

WORLD'S SERIES STORIES TO BE CABLED FOR TROOPS Chicago, Sept. 7.—American and Canadian troops in France are to receive a detailed cable description of the world series games, President Johnson of the American League said tonight. The stories of probably 1000 words will be cabled daily at the conclusion of the games. The National Baseball Commission will stand the expense.

President Johnson said that Clark Griffith, manager of the Washington team, who is seeking funds to supply American troops with baseball outfits, had requested permission to take up a subscription before the start of the games. It is considered probable that the request will be granted by the commission.

Closing of Muntion Plants Releases Men for Harvesting

Special to The Toronto World.

Brantford, Sept. 7.—The cutting down of munition orders within the past few weeks was the cause of throwing hundreds of men cut of work. However, most of these men have been absorbed elsewhere, and there are few idle men around the streets today. The large majority of the men appear to have gone harvesting. One day last week 100 men went to Manitobe, and some have been placed in the district around Brantford by the Ontario Government Employment Bureau. A number of the men laid off found work in other factories, but there are at present lew vacancies in any of the shops.

PLAYS, PICTURES AND MUSIC

"YOU'RE IN LOVE."

A new musical comedy acclaimed by New York critics as a "musical knock out," entitled "You're in Love," is to hold forch at the Alexandra for one week, commencing Monday evening, Sept. 10. The piece comes under the direction of Arthur Hammerstein, to whom theatregoers are indebted for "The Fire Fly," "High Jinks," and

Evidence is sald to be fast accumu-

lating to support the belief that a gigantic conspiracy has existed for some
time past to cripple the government
in carrying on the war.

Anti-draft demonstrations, crippling
of war industries by so-called labor
disturbances and by violence, burning
of crops and continuous preachment
of anti-ally sentiment with other activities tended to embarrass the government and retard the exercise of its
full strength in prosecuting the war,
appear from recent disclosures to have
been included within the scope of the
alleged conspiracy.

leged conspiracy.

How closely the anti-war activities and propaganda have been interrelated to be determined largely by the

federal grand jury, now sitting at Chicago, investigating documents seized by government agents in their raid on Wednesday of L.W.W. and socialist offices of that city and thruout the country. Indications are that the alleged conspiracy had its origin in Chicago and for some time was actively directed from that city.

There are also indications that German money financed, in part, this pro-

man money financed, in part, this pro-paganda, that German funds were

paganda, that German funds were spent freely in many ways to further the ends of the conspirators, and that of the many persons believed to be actively identified in carrying on the work, a few knew of this source of inincial support.

CROSSING ACCIDENT

Horse Runs Into Train.

Senforth, Sept. 7.—A miraculous escape from death to Mrs. S. Whitmore and daughter occurred at the Grand Trunk Main street crossing here this afternoon. As they were nearing the crossing an eustbound thru special freight train came along and the ladies vainly attempted to stop the herse. It stubbornly refused to hat, and rushing up against the engine was hurled over the rails of a side-track, together with the buggy and occupants. The horse was removed from the entanglements somewhat bruised and the buggy was a total wreck. To the surprise of the horrified onlookers the ladies were found to be without serious injury. Mrs. Whitmore received a broken shoulder bone and the daughter slight bruises.

SHARP ADVANCES IN CORN AND OATS

Corn Closed Nervous, Two

Corn Closed Nervous, Two
Cents Higher, and Oats
Gained.

Chicago, Sept. 7.—Owing to anticipation of the official government estimates of both corn and oats, sharp advances took place today in the value of the two cereals. Uneasiness over delays and other ill-effects likely to result from prevailing cold, wet weather much more than offset all bearish factors. Corn closed nervous, 2c to 2½c net higher, at \$1.14½ to \$1.14% December, and \$1.10½ to \$1.10% May. Oats gained 1e to 1½c to 1½c, and provisions 12c to 35c.

Despite liberal sales here to realize profits, the market finished at nearly the top prices of the session.

Fears that the widespread rains would greatly hinder threshing save much impression.

MONTREAL MARKET IS STRONG, WITH OATS UP

Steady Demand for Oats at Advance of One-Half to a Cent.

Montreal, Sept. 7.—In sympathy with the strength in oats in the Winnipeg market and the advance of prices of 1% to 1% c per bushel, a stronger feeling prevailed in the local market, and prices were marked up ½c to 1c per bushel, with a good, steady demand for car lots and a fair trade was done. There was some demand for Ontario malting barley, and a sale of 10,000 bushels of choice was made at \$1,33 per bushel, ex-track.

Butter stronger. Offerings at the auction sale sold ½c to ½c per lb. higher; finest creamery at 41½c. The tone of the market for cheese was firmer. Sales were made of 5000 boxes at 21½c to 21 5-16c per lb. f.o.b., country points.

U. S. DISTILLERIES CLOSING. Four in Massachusetts Go Out of Business Today.

Boston, Sept. 7 .- Four of the seven liquor distilleries in this state, including two which have been engaged largely in the manufacture of rum for export to the African west coast, will go cut of business tomorrow as a result of the federal prohibition of the manufacture of distilled liquor for beverage purposes during the war. Notice to that effect was given to the collector of internal revenue today. The other distilleries are to be devoted wholly to the production of de-natured alcohol,

WORLD IS FAMISHING FOR SUPPLIES OF SILVER

There is now no longer any doubt as to the absolute and keen demand for silver. Reports from London, England, yesterday stated that that market has been famished for supplies. Yesterday's quotation was 56%c per ounce, but New York wires stated that at Tonopah company had sold 200,000 ounces as high as \$1.02. Daniel Guggenheim, of the American Smelting & Refining Company, recently stated in an interview that he could see no limit to the price short of \$1.29 an ounce, a figure at which it would pay to melt down silver dollars into bullion. There is nothing phenomenal in even this. The war has worked revolutions in other commodities, and the turn of silver is evidently under may. And this means much for our own north country. Lloyd George's natisive bullet can be furnished from no more patriotic centre than Cobalt. Every energy must be strained to produce the silver that New Ontario holds. This production will mean prosperous conditions for the miners, large dividends for the holders of silver stocks; but, better, than all, it will help Finance Minister White to pay a portion of Canada's share in the great war. The Toronto mining market seems to be at last arousing itself to the new conditions. Money for mining enterprises in the north country is needed to produce the goods, and the market is the medium to provide this. New Yorkers are not slow to see the possibilities, and only yesterday a party passed thru Toronto for the north to filck up if possible one or more silver producers. High prices for silver will continue during the war and for a long time after, Altho labor and other incidentals have increased in cost, improved methods of production will help to rectify this and permit of a very wide margin of production will help to rectify this and permit of a very wide margin of production will help to rectify this and permit of a very wide margin of production will help to rectify this and permit of a very wide margin of production will help to rectify this and permit of a very wide margin of production will hel

The continued advance in the price the Toronto Stock Market yesterday. The New York market provided no ored with the quotation for the basis for a rearrangement of opin-metal steadily appreciating in ions, and in the absence of much white metal steadily appreciating into the metal steadily appreciating into the metal have occurred at prices in the metal have occurred at prices higher than the official quote, and the fact that each day the upward movement in the price sent out continues, however reluctantly, goes to prove that such sales have actually taken place. The public investors have up to the present time shown little evidence higher or the effect of the producers, but judging by the demand for the silver stocks yesterday it would appear that at last the anticipated buying movement has started. As is resent time shown little evidence Steel were in the best demand among wing grasped the effect of the industrials, and the price of each appear that at last the anticipated buying movement has started. As is usually the case, the New York traders had to come in and show the way, for sometime ago accumulation by these interests in Nipissing, Kerr Lake and McKinley as well as some of the smaller issues was commenced. To smaller issues was commenced. To give some indication of what the advance in silver means a reference to the recent statement by the government for the first six months of the present year on the silver production. ent year on the silver production Cobalt shows that whereas the bunt of the metal in ounces pro-ced was 10,073,787 as against 10,was 10,073,787 as against 10,for the corresponding period
year, yet the value was ap"After being shown over the surface,"

267,743 for the corresponding period of last year, yet the value was approximately \$1,400,000 greater than the value of the product for the first six months of last year. And since July of this year the price of the metal has advanced from below 80 to practically a dollar per ounce, an increase of 25 per cent. in two months. A concrete case of Kerr Lake might be made. The production of this mine for the first half of this year was 1,377,238 ounces. If the average price of silver half been 95 1-2 instead of 75 1-2, as was the case, the difference in the value of the output would be approximately \$275,000 or over nine per cent. Strength was displayed all thru the Cobalt list yesterday with gains the general thing. Beaver went up to 22

Chambers Ferland went up to 161-4, a new high, and Hargraves moved up to 161-2. Gifford touched 4 3-4 again, while Adanac was firm at 19 1-4 to 191-2.

In the gold stocks Apex was again prominent on heavy buying, rising to nine. Hollinger displayed a degree of strength at \$4.75 to \$4.80. Market followers declare that a virtual corner in this stock exists and prophesy some sensational developments one of these days. McIntyre was steady at 155, but Newray had a big day, selling up again to \$2. Schumacher came in for good buying around 55 to 55 1-2 and West Dome was better at 18.

SHIPPING BOARD'S PLAN HITS MARKET

Steamship Shares Fell, and General Motors Drop Over Eight Points.

New York, Sept. 7.—The stock market was thrown into confusion at the outset of today's operations on announcement from Washington of the shipping board's plan to reduce ocean freight rates by 65

plan to reduce ocean freight rates by 65 to 75 per cent.

Steamship shares fell two to five points in the heavy selling of the first half-hour, and the stocks of other companies whose future hinges largely upon the attitude of the government towards price-fixing lost one to three.

Ralls were featured during the active initial trading by a new low quotation for New Haven at 24%, and General Motors supplemented yesterday's loss of five points with an additional recession of as much, later extending its setback to a total of 5% points.

Standard shares were well supported during the reversal, recevering the greater part of their losses before midday. Later, when dealings dwindled, this improvement became more pronounced.

Pressure was resumed in the last hour, together with realizing for profits. U. S. Steel yielded from 108½ to 107%, closing at that quotation, a net loss of % of a point. Bethlehem Steel was under greater restraint, making an extreme decline of three points

Rubles at the new low of seventeen cents, and another gold shipment to Japan, were the only developments in the international money market.
