UNIQUE THEATRE

The Great To Mix in Big Western Drama

Tom Mix, the greatest exponent of western drama, will appear in his latest photoplay, "Mr. Logan, U. S. A.," Monday, Tuesday and Wednesday.

Tom Mix appears in an entirely new impersonation—that of a man who, while not a soldier in the trenches, shows his patriotism by routing the secret enemies of his country.

The photoplay abounds in patriotic thrills and a real, long, hot scene passes one's sympathies for the man who is unable to justify himself in the eyes of his sweetheart until the unexpected finale.

You should not miss "Mr. Logan, U. S. A.," and we would advise you to bring your friends. It's a corking good picture. Matinees at 2 and 3:30; evening at 7:15 and 8:45.

ANNIVERSARY OF CONSECRATION OF THE CATHEDRAL

On Wednesday of this week the thirty-fourth anniversary of the consecration of the Cathedral of the Immaculate Conception will be celebrated. There will be high mass in the morning and benediction in the evening. It is expected that priests from all over the St. John diocese will be in attendance.

The church was consecrated on July 16, 1885, in a ceremony in the body of the church and at the main altar being carried out by Archbishop O'Brien of Halifax. The side altar was consecrated by Bishop Rogers of Chatham and the St. Joseph's altar by Bishop Cameron of Antigonish. The pontifical mass was sung by Bishop Casey, now archbishop of Vancouver, and Archbishop Lynch, Archbishop of New York, who presided at the ceremony, but he became ill on the way here and his place was taken by Archbishop Lynch. Among the other notable prelates in attendance was Archbishop Corrigan of New York.

The annual school meeting of Fairville district called for this morning ten o'clock was further postponed until the books of the secretary were audited. The books were not ready in time for the audit to be made and report submitted at this morning's meeting.

Champion Speaks of Carpenter and Beckett—A Soldier After Match

Chicago, July 14—Jack Dempsey, heavyweight champion, left for Los Angeles last night after spending a day in Chicago and announcing that this city would be made his headquarters after the western trip. His manager, Jackie Kearn, occupies the day talking with promoters and agents of the athletic and circus concerns, anxious to have Dempsey sign contracts for exhibitions. But Dempsey said theatrical work was tiresome and he would much prefer to fight. As to meeting George Carpentier, French champion, or Joe Beckett of England, Dempsey said: "I am the champion and I am an American. Any of these foreigners want a crack at the title, they will have to come to America."

Both Dempsey and Kearn insisted that the fight with Willard end with the third round. Kearn said their fight time-keeper informed them there were eighteen seconds of the rest period when the Willard crowd denoting their faith was thrown into the ring. A Soldier Aspires.

OATS MAKE NEW RECORD

Chicago, July 14—Scarcity of offerings brought about a sharp advance today in the corn market. The fact that oats had risen to new high record prices has much to do with the lack of selling pressure in corn. European shipping of foodstuffs together with the resumption of commerce with the Central Powers continued also to excite a bullish influence. Opening quotations ranged from 1-4 to 2-7-8 higher with September at \$1.98 to \$1.97 and December at \$1.66 to \$1.67 1-2, were followed by additional gains although moderate temporary setbacks intervened.

Unfavorable crop reports tended to stimulate advances in the oats market, and so, too, did shipping demand. After opening 1-2 to 1-1 1-2 higher, including September at 79 1-2 to 80, were followed by a little, but then ascended again.

Trading in provisions was nearly at a standstill. Values averaged somewhat higher though with grain.

The funeral of William J. Lowry took place this afternoon from his late residence, South Bay. Service was conducted by Rev. F. E. Boothroy and interment was made in Cedar Hill.

THE TAX BILLS

Within the next fortnight the staff of the board of assessors will commence the duty of assessing the tax bills and as they are distributed the citizens, already forewarned by the announcement of the tax rate, will learn the worst.

Preparation of the bills by the assessors' clerks will require about another week and about the same period will be required by the chamberlain's staff, augmented for the occasion, to prepare the receipts books. Last year the distribution of the bills took about three weeks.

This year the five district commissioners are expected to make better time than the eleven men on part time last year.

The common sense will be until they judge when all the bills will be in the hands of the taxpayers before fixing the final date on which the payment will be allowed for prompt payment.

GAME OF THE SEASON

The die has been cast, the hospital authorities notified and the general public warned and the battle royal between the Customs House baseball aggregation and the artists of the Evening Times will be staged on the West End at 8 o'clock on Wednesday evening as soon after 6 o'clock as the duty collectors can gather the courage to appear in the field.

The captain of the customs house collection announced the line-up of his team this morning and the news writers have started to worry as there are several dark horses in the list whose prowess with the ball and bat are yet undetermined. The captain of the Times outfit, at the time of going to press was buried under a mass of lead slugs, prods, etc., and it was impossible to get his roster of stars for today's issue. Here is what the news writers will have to face on Wednesday: W. Lanyon, c.; C. Tilley, p.; T. Morrissey, 1b.; K. A. Barber, 2b.; H. Cunningham, 3b.; I. Yonama, 4b.; C. Bishop, c. f.; W. Brown, l. f.; I. Gorman, r. f.; and Robert Knox, Henry Treen and Ross McLaughlin will send by in case of emergencies. It is expected that there will be many emergencies.

SHE REMEMBERS MIRAMICHI FIRE

Mrs. Fanny Kirby, born at Blissfield, Celebrates Her 100th Birthday

Mrs. Fanny Kirby, of Alton, Me., observed her 100th birthday Monday, July 7, and the day was regarded as a holiday by the people of that town.

Mrs. Kirby, who was born in Blissfield, on the South West Branch of the Miramichi river, Northumberland county, N. B., July 7, 1819, is one of the very few survivors of that great Miramichi fire and is always ready to talk enlighteningly on that subject. Mrs. Kirby was then five years of age.

She was then a young girl, and was obliged to wear herself and her children in wet blankets. A few articles were saved but among them was a feather bed owned by her grandmother with one corner burned off which is now the property of her nephew, Mr. William Keynes, of Old Town. Her father suffered very extensive losses, having placed his money and also much of the money of his employees of the lumber mill, in a trunk and put it in the river, the trunk being burned and the papers which covered very valuable property.

When Mrs. Kirby was a young woman she moved to Old Town, Me., where she married Robert Kirby, but she had been a resident of Alton for most of her life in this country, living in Old Town but a few years. Mrs. Kirby comes naturally by her long life, her grandmother being ninety-seven years of age when she was ninety-six and her surviving sister, Mrs. William Keynes, of Old Town, is now ninety years of age.

At noon Monday a delicious dinner was served to 150 guests by Mrs. Kirby's daughter, Mrs. Mary Kirby, who was the recipient of many beautiful gifts, among them being a check for \$100.

BE SUSPICIOUS OF TENDER GUMS

Be suspicious of any tenderness or bleeding of the gums. This is usually the first stage of Pyorrhoea—an insidious disease of the gums that destroys the teeth and undermines bodily health.
 Generally the gums become spongy. They inflame, then shrink, thus exposing the unguarded tooth-bases to the ravages of decay. Tiny openings in the gums form gateways for disease germs to enter the system. Medical science has traced many ills to these infecting germs in the gums weakened by Pyorrhoea.
 They are now known to be a frequent cause of indigestion, anaemia, rheumatism and other serious conditions.
 So watch carefully for that first tenderness or bleeding of the gums. Try Forhan's immediately. It positively prevents Pyorrhoea (Riggs' Disease) if used in time and used consistently.
 And in preventing Pyorrhoea—it guards against other ills.
 Forhan's (For the Gums) cleans teeth scientifically as well. Brush your teeth with it. It keeps the teeth white and clean.
 If gum-shrinkage has already set in start using Forhan's and consult a dentist immediately for special treatment.

WILSON AND THE SENATE.
Partyism is again rampant in the United States. The address of President Wilson to the senate, on the presentation of the peace treaty, received unstinted praise from the Democrats and the very opposite from the Republicans. He was heard in cold silence by the Republican senators, who did not even cheer his entry to the chamber.

What President Wilson said about the League of Nations ought to have appealed to every senator. Among other things he said:
"The League of Nations was not merely an instrument to adjust and remedy old wrongs under a new treaty of peace; it was the only hope for mankind. Again and again had the demon of war been cast out of the house of the peoples and the house swept clean by a treaty of peace; only to prepare a time when he would enter in again with the spirits worse than himself. The house must now be given a tenant who could hold it against all such. Conventions, in the newly planned League of Nations to be for the execution of present plans of peace and reparation, they saw in it a new aspect before their work was finished. They saw it as the main object of the peace, as the only thing that could complete it or make it worth while. They saw it as the hope of the world, and that hope they did not dare to disappoint. Shall we or any other free people hesitate to accept this great duty? Dare we reject it and break the heart of the world?"

There was also an appeal in President Wilson's closing words which none but a bitter political partisan could hear without emotion. He said:
"The stage is set, the destiny disclosed. It has come about by no plan of our conceiving, but by the hand of God, who led us into this way. We cannot turn back. We can only go forward with lifted eyes and freshened spirits to follow the vision. It was of this that we dreamed at our birth. America shall in truth show the way. The light streams upon the path ahead, and nowhere else."
There will be a bitter debate in the senate, but it is not easy to believe that body will throw itself across the path of peace and try to undo what has been so well done by the president and his advisors in conjunction with the representatives of the other great powers.

THE ECONOMIC ARGUMENT.

The Rt. Hon. Laet Jones is telling the people of England that prohibition will give the United States a distinct advantage from a business standpoint. In a recent speech he said:
"I want our manufacturers to face these facts and to ask what it means for manufacturers who are in the neutral markets of the world competing for the trade of the world. You have got America with over 100,000,000 people. America has spent much less than we have in the war, and has been less hardily hit. Americans have much smaller debt and their taxation is much less heavy than we have to bear. You have the people there going dry, and the consequence is that there will be no money wasted on drink. There will be no inefficiency through it. They reckon on a 10 per cent to a 15 per cent reduction of their debt through their prohibition. Taxation with us is higher than our memories can recall. Prices are higher than we have ever known, and we have lost a generation of our young men. We are up against a difficult situation created by the wastage of the war. How are we going to stand in this matter? Last year we spent \$280,000,000 on drink, but this year we shall spend \$380,000,000 at the present rate, at least. Not only do we waste the money, but we lose a great deal of efficiency and waste a good deal of power. I put it to you as practical people. What sort of condition is the English manufacturer going to be in to combat the American manufacturer?"
An interesting testimony as to the benefits of prohibition is that of Major Everett Colby, when he said:
"I did not believe in absolute prohibition, because I thought it could not be enforced, until last winter when I took a trip through the middle west for Mr. Hoover, and passing from wet to dry states, saw conclusive evidence that prohibition can not only be enforced, but that it makes for the greatest happiness of the people. Even those who have fought prohibition the hardest, I found, have entirely changed their views and would not go back to the old conditions."
De Valera wants the United States to recognize the Irish republic. Sir Edward Carson intimates that Uncle Sam can do very well minding his own affairs. Meanwhile every American politician will do his best to curtail the Irish vote. That is really the extent of his interest in Ireland.

TRAINING EX-SOLDIERS.

A recent letter from New Zealand gives the following interesting account of how returned soldiers are cared for in that Commonwealth:
"With the home-coming of New Zealand's army and the demand for technical training to fit the troops for civil occupations, the resources of the various technical schools have been strained, and the reparation department has decided to establish special classes at Dunedin, Wellington, and Auckland, in its own buildings and using its own instructors. While the demand at present is principally for instruction in wool classing, wood-work, engineering and commercial courses, the department is prepared to train soldiers to become motor mechanics, bookbinders, woodworkers, electricians, cabinetmakers, tailors, saddlers, etc. After six months' intensive training the men will be sent to workshops and factories for practical instruction. While soldiers are attending the special training classes, they will be paid maintenance, which will be inclusive of any pension, the scale being £2 10s. a week for unmarried men and £3 for married, the latter receiving additional allowance for each child."

The Montreal Gazette hears that Sir Thomas White is to retire soon from political life. If so, and if, as has been predicted, several other members quit the cabinet at an early date, Sir Robert Borden will be confronted by a very interesting situation and a task of some magnitude. Whether cabinet reconstruction will precede the fall session of parliament appears to be as yet undecided. If today's Ottawa despatch is correct, Hon. A. K. Maclean will be in England when the Liberal convention is held. There is general uncertainty regarding the political future of a number of men now prominent in public life, and the air will be full of rumors for some time to come.

There is great interest in the question of the leadership of the Liberal party, but if the Union Liberals are frozen out it will matter very little who is the leader, so far as winning elections goes.

With Peace Day and the coming of the Prince of Wales the citizens will have two early opportunities to join in festivities which are very welcome after the strain of the long war.

It seems rather odd to read of a renewal of trade between England and France, on one side and Germany on the other, but the blockade has been raised.

ST. JOHN'S GREATEST MERCANTILE EVENT

Oak Hall's Annual Mid-Summer Sale Starts Wednesday Morning.

Many inquiries have been made during the past month as to when the Oak Hall midsummer sale would commence, following the widespread interest that is taken in this great event and the favorable reputation that Oak Hall has won by offering such a tremendous range of real values at prices that people realize are indeed money-savers.

Preparations have been under way for months for this event, Oak Hall fully appreciating the high standard set at previous July sales and wishing to make the July, 1919, sale even better than the best. Buyers from all the departments have been busy visiting Montreal, Toronto, Hamilton, Buffalo, New York and other industrial centres gathering in high class merchandise at prices considerably below present market quotations, this being possible only through the tremendous cash buying power Oak Hall is able to marshal together.

This new merchandise is now in and will be offered, together with the regular merchandise, at prices that will even surpass the well-known good values offered at previous annual sales.

Wednesday, July 16, is the starting day and full announcements will be made in tomorrow's papers.

Elbert L. Fargo of New Marlboro, was bothered with woodchucks destroying his crops. Elmer King moved to the Fargo farm, attached a hose to the exhaust of his automobile engine, ran the pipe far down the woodchuck hole and then started the engine, using a liberal mixture of gas. This operation was repeated at all the woodchuck holes that could be found, with the result that not a woodchuck has been seen since on the Fargo farm.

SCHOOLS HIS SUBJECT AT ORANGE DEMONSTRATION
Huntingdon, Que., July 14—An arraignment of confessional schools as the cause of all racial friction in Canada and an unreserved demand for national schools throughout the dominion were the keynotes of addresses delivered here on Saturday at the celebration of July 12 by the Orange lodges of the province of Quebec. "Let clerics of every description keep their noses out of public education," said William Galbraith of Montreal, a past deputy grand master of the Grand Lodge of British America, "and we will have people and harmony in this country."
"If standing for equal rights, as the Orangemen are, is bigotry, I am a bigot, and I want to be named a bigot," said J. Morris, former M. P. for "Chateauguay," and he added: "I do not belong to the order, but I think I am going to join."

Shoe-Soles Would Insure Every Returned Soldier for \$2,000

Every year Canadians buy millions of dollars worth of shoe soles they don't need.
Enough to pay the premium on \$2,000 insurance for every returned or returning soldier.
Enough to give the next of kin of every man who died in France over \$2,500.
Enough to build homes for a workingman's city of 20,000 people.
Enough to give every city child in Canada two weeks' holiday in the country.
Enough to give every shoe merchant in Canada between \$4,000 and \$5,000.
Enough to buy a motor car for every farmer working over 200 acres in Manitoba; for every second such farmer in Saskatchewan; for nearly all in Alberta; for all in Ontario, New Brunswick and Nova Scotia combined; for all in Quebec, British Columbia and Prince Edward Island combined.
You are partly responsible for this appalling waste. You are partly the loser—nationally and personally. You

can help make this tremendous national saving. Wear shoes with Neolin Soles. Neolin Soles have been tested in actual use in direct comparison with other soles. The actual saving has been figured out for the whole of Canada on a very conservative basis. And the result, as given above, is startling. Start now to make this big saving. Start now to wear shoes of longer life. See your shoe merchant at the first opportunity and ask him to show you the shoes he has with Neolin Soles. Neolin Soles—half-soles and full-soles—are nailed or sewn on all kinds of shoes by manufacturers, repairmen, and at home. Neolin Soles have been a great success. So they have imitators. But the methods and materials that make Neolin Soles superior are known only to Goodyear. You can be sure of Neolin Sole quality only when you see the trademark "Neolin" on the bottom of the sole.

Watch for this price-ticket. Where you see it, ask for your favorite style of shoes with Neolin Soles.

PROMOTION OF TRADE RELATIONS OF MOTHER LAND AND CANADA

British M. P. Speaks of the Sentiment and the Mutual Interest of it

London, July 1.—(By mail from the British representative of Canadian Associated Press).—"The promotion of trade relations between this country and Canada," said Charles F. Higham, M. P., to a press representative, "is regarded by all sensible city men, not merely as a matter of mutual interest, but also as an honorable obligation. Can we ever forget the dominion's noble sacrifices in the war, or her courage and determination in some of the fiercest of its battles? It is by recent records that of the 418,000 men in the Canadian expeditionary forces, some 57,000 lost their lives and nearly 150,000 were wounded. They fought with a gallantry surpassed by no troops in the world. On the first day of the second battle of Amiens they made an advance of no less than 14,000 yards—the deepest advance, I am told, on any one day during the war. Their progress together in this battle was about fifteen miles.

"We shall never forget their part in the final victorious drive. It was they who broke the Quent-Drocourt section of the Hindenburg line; it was they who encountered the bitterest struggle of the war, that which culminated in the capture of Cambrai; it was they who occupied Mons a few hours before the armistice came into effect. Canadian in short, in the majority of British minds, is today synonymous with 'giant'." No fewer than fifty-three Victoria Crosses fell to the men from Mapleland besides about 15,000 other decorations. Mr. Higham, practical business man as he is, does not think sound commercial relations can long subsist on sentiment alone, however lofty it may be. "The keen edge of self-interest—which, in this case, is the commercial equivalent of the law of self-preservation—will ruthlessly cut through the tenderest of ties.

Dunne, members of the delegation sent by Irish societies in America to present to the Association of the United States and William Hale Thompson of Chicago, were other speakers.

Resolutions that congress recognize the Irish Republic as now established, and to establish trade relations with Ireland for the benefit of American commerce, and strongly opposing the League of Nations were adopted with enthusiasm.

The late Sir John Mahaffey, provost of Trinity college, Dublin, was noted no less for his wit than for his learning. There is a story about the Kaiser and him. At a reception in London he was conversing with the Queen of Spain—the Princess Ena—then newly married. He asked her how she was getting on with her Spanish, and fell into a eulogy of the language, quoting Charles V., saying that he "spoke Spanish to his God, Italian to his wife and German to his servants and dogs." The Kaiser heard the queen's laughter, and crossing the room, asked what the joke was "sir," said the Irish wit, "I have known her majesty only ten minutes, and already we have something to sneeze at."

Former Orange Supreme Grand Master Speaks at New York Meeting

New York, July 14.—The three hundredth anniversary of the Battle of the Boyne was celebrated on Saturday by Greater New York lodges of the Orange-ism Association of the United States with a parade and dinner, Grand Master G. W. Gear, introduced as speaker Past Supreme Grand Master Harry Stewart, who said:

"We want to tell these people who are announcing what they will get for Ireland that they will never get what they want. There are 110,000,000 people and 16,000,000 of them want to tell the others what they shall do. We are going to tell Burke, O'Connell and Justice Colahan that so long as Great Britain has a gun and a man to stand behind it, Ireland will never get the independence they are seeking.

BORROWER: Wilder's Bleury Street Building Co. DATED: July 1st, 1919.

TRUSTEE: THE BANKERS' TRUST COMPANY, MONTREAL. Subject to legal opinion of: Barnard and McKowen; and Bisillon, Bisillon and Beique, Montreal.

FREE FROM NORMAL INCOME TAX. The Borrowing Corporation agrees to pay the Normal Canadian or Federal (U. S.) Income Tax not exceeding 4% on receipt of certificates by the trustee.

SERIAL MATURITIES Due July 1st each year from 1922 to 1934 inclusive. DENOMINATIONS: \$100, \$500 and \$1,000 in all maturities. Registered as to Principal.

Interim Certificates may be issued by the Bankers' Trust Company pending delivery of Definitive Bonds.

Security. The bonds are directly secured by a closed first mortgage on the land building and equipment described as follows:

BUILDING: A new ten-story fireproof brick concrete and steel building of the latest and most modern construction so planned that any arrangement desired for light manufacturing office or warehouse may be secured. Situated in the heart of Montreal just north of St. Catherine Street and running through to Balmout Street. The entire building has already been rented. Upon the roof is planned one of the most modern roof-gardens in Canada. The building has four elevators.

Provision is being made in the Trust Deed for the carrying out of the sprinkler installation and the equipment of the roof-garden which should add at least \$50,000 to the value of the building, and will increase the rentals and materially reduce the fire insurance rate.

LAND: The land has a frontage on Bleury Street of 55 feet 7 1/2 inches, a depth of 140 feet 10 inches, and a frontage on Balmout Street, of 116 feet 8 inches.

VALUATION: The land and Building have been carefully examined and valued for us by Messrs. Hutchison & Wood, Architects, Anglin Limited, Contractors, and U. H. Demundard, Real Estate Broker, of Montreal, as follows:—

Land \$ 200,000
Building \$ 420,000
Total Value \$ 620,000

"We place the Gross Rental Value on the property at about the sum of \$85,000 per annum." This valuation does not include the cost of proposed sprinkler installation, or the cost of proposed roof-garden which is contemplated.

A copy of the valuation will be furnished on request, the original may be inspected at the office of Hew R. Wood Company, Montreal.

TRUST DEED: A copy of the Trust Deed may be secured (after it is printed) on application, or seen at any of the following offices:

Hew R. Wood Company, Bank of Ottawa Bldg., Montreal.
The Bankers' Trust Company, St. Peter Street, Montreal.
Eastern Securities Co., Ltd., St. John, N. B.

FIRE INSURANCE.

Provision is being made in the Trust Deed that sufficient fire insurance will be carried in Companies of the highest type to thoroughly cover the risk.

Monthly Deposits Assure Prompt Payment of Principal and Interest. In order to provide systematically for the payment of the bonds and make certain that the borrowing corporation applies its rental income as received each month to the payment of principal and interest before any other obligations are met, monthly deposits of principal and interest are required to be made with the Trustee.

Each monthly deposit is one-twelfth of the amount of principal and interest coming due during the year. From these deposits, as they accumulate, the semi-annual interest and serial principal instalments are paid to the bondholders.

These monthly deposits are a most important safeguard. They make the first business of the borrowing corporation to pay off its bonded debt (assure the prompt application of earnings to the payment of the bonds; prevent the diversion of these funds to other uses; and keep us in close touch with the affairs of the borrowing corporation month by month.)

SERIAL PAYMENTS: On account of principal starting 1922, improve the position of the outstanding bonds each year.

CALLABLE: The bonds are callable at 108 and accrued interest on any interest date after 1928 on 90 days notice in reverse of their numerical order, which again improves the position of the outstanding bonds.

Advantage of Purchasing a Long Term Bond. As the bonds come due serially and are paid off and cancelled each year, the issue is being constantly reduced and the margin of safety protecting the outstanding bond is being steadily increased. It is evident, therefore, that the bonds of the last maturity are especially desirable for executors, trustees, institutions and others who seek a maximum of safety and wish to keep their funds so placed as to secure the payment of the attractive interest rate of 6 1/2% over a period of years.

NOTED PHYSICIAN DEAD

Dr. Abraham Jacob, one of the foremost physicians in the United States died late on Thursday night at his summer home on Lake George. He was eighty-nine years old.

Dr. Jacob, who was educated in Germany, but who had received honorary degrees from the University of Michigan, Columbia, Yale, Harvard and Jefferson, became identified with the German revolutionary movement and was "in detention" in Berlin and Cologne from 1851 to 1853 on high treason charge. On his release he moved to New York and began practice, specializing in diseases of children. He was professor of diseases of children at the College of Physicians and Surgeons, 1870 to 1890 when he was made professor emeritus. He had held many important hospital appointments.

THIS ROAD CULVERT SHOULD BE REPAIRED.

One of the favorite motoring roads is that through Westfield and along the river road to Brown's Flat. Just at Public Landing is a small culvert covered with half a dozen poles. Pipe for a proper culvert was taken there last year, but last week it was taken away again. Every car that crosses the poles gets a very unpleasant bump and those who know the route always slow down to save themselves from hitting the roof of the car. This culvert should be repaired at once, even if nothing more is done than cover it with planks and gravel. The rest of the road is good.

WAS IN Y. M. C. A. WAR WORK.

Lieut. Howard H. Titus arrived home last evening and is the guest of his parents, Mr. and Mrs. E. A. Titus, 151 King street east. Lieutenant Titus was overseas two years, and was engaged in Y. M. C. A. work in England and France. He remained with the Fourth Division until it was demobilized, but secured leave to make a very interesting visit to southern France and Italy. Lieutenant Titus was a student at Acadia College before going overseas, and expects to renew his studies in the fall.

ALONG THE RIVER

Many Boating Parties Went up Yesterday; Haying This Week: Brown's Flats Picnic

The glorious moonlight made Saturday night along the river a night to be remembered. The whole valley was bathed in a soft radiance, and the moon's reflection on the smooth waters was a long wide path of shining silver. Boating parties were out late, and every city man and woman were reluctant to go indoors.

There was the usual large crowd of residents, motorists and yachtsmen at the dance in the pavilion at Public Landing. The young people are to have a masquerade there on Wednesday evening.

Carter's Point was filled with pride on Saturday evening. Its tug-of-war team carried off the honors at the Grange-men's picnic at Brown's Flats, despite heavy reinforcements received by the river team. There was also a horse race, won by Thane Belyea's rooster; and some exciting foot races. The picnic was a great success.

The river was dotted with motor boats yesterday. A party from the neighborhood of Westfield went up the Reach and down again in a huge show with masts, and thoroughly enjoyed the sail.

Coming down river last evening in A. Roberts' motor boat, the Verts, those on board saw many boats at Belyea's Point, Crystal Beach and all along to Sand Point. Quite a number of canoes were moving alongshore, and bright costumes were everywhere. Just as the Verts entered Grand Bay those on board witnessed one of the most beautiful effects of sun and cloud they had ever seen.

A black cloud lay over toward the Nerepis hills, and crossed the path of the sun. The latter, hidden for a moment, soon poured his brilliant rays through a rift with the result that to the onlookers in Grand Bay all Westfield and the river toward Nerepis were bathed in white flames, as if there were a great smokesmoke conflagration. This lasted for ten minutes. Then the cloud passed, and the whole scene was again clear in the sunlight.

The farmers along the Reach will probably begin haying the latter part of this week. The other crops are doing well. In another week the wild raspberries will begin to ripen. A few ripe ones and here and there a ripe blueberry could be picked yesterday.

A large dancing pavilion is being erected at Belyea's Point. The people along the Reach are hoping soon to see the trains running on the Valley Railway. The work of making the new highway across the Nerepis is in progress.

The steamer Onocce had her usual large list of passengers from up-river points this morning.

PAGE THINKS HIGHLY OF CANADIAN BOYS

Halifax, N. S., July 14.—Among the passengers on the steamer Carmanis bound for New York, is Thomas Nelson Page, American ambassador to Rome. He is accompanied by Mrs. Page, their daughter and son-in-law and grandson.

The ambassador highly praised the work done by the Canadians in Europe. They had made a great record and "Canada need well be proud of them," he said. He was glad to have the opportunity of coming across with some of the Canadian boys, and took a deep interest in the dismemberment of the troops.

When the troops were passing down to the gangway the ambassador took up a position at the head of one of the stairways and bade many of the boys good-bye.

He was particularly interested in the artillery men who were returning from Russia. "They do not know how glad I am to see them get home," he said, "it is the greatest event in their lives."

One afternoon on the way across Mr. Page was on deck and some of the Canadians asked him to speak to them, which he did. "I felt it was an honor to address them," he said to a reporter. "How are conditions in Italy?" he was asked.

Sidelights On Sport

The fans who witnessed the game of ball between St. John and Calais on Saturday afternoon all agree that it was one of the best played here for some time. The fielding of both teams was at times sensational and was warmly applauded. Games like that will tend to revive baseball in this city and will encourage the promoters to bring other outside teams here.

Fans are awaiting with interest the game this evening between Fairville and Carleton, as it will give them a chance to see Jack White's line-up in action. He has had nearly a week to reorganize his club and it will be a big boost to the league if he can win a few games. Here's wishing him and his club luck.

The Y. M. C. I. boys made a good showing in Moncton despite the fact that they were short some players.

When the fans were informed Saturday afternoon that only one game was to be played with Calais, there were many dissenting voices. They felt that the club should have been held over for a double-header. The fault lies with the fans—not all it is true—but with many. It costs money to bring a team here owing to the high rates on railroads, board expenses, etc., and on Saturday the promoters had to work hard all afternoon to get enough money to foot the bills for one game. Fans would be getting off lucky if they could see a

game of such calibre for a quarter of a dollar, but there were hundreds on Saturday who passed a copper into the hat. If they could not afford to pay more they are as welcome as the flowers in May, but it is not always those who cannot afford a dime or quarter who fall down. The promoters have to take a chance on the weather, go to the trouble of making all arrangements, etc., and then may have to dig down into their own pockets to pay the bills. If sport is to be encouraged those who enjoy it should do their part in helping the cause.

In the National League Cincinnati has again outdone the Giants from the lead and is out ahead by a few points. In the American League Chicago gained a half game on the Yankees by splitting with the Red Sox, while New York was losing two games to the Detroit Tigers. Toronto is playing good ball and winning consistently again, but such is also true of the Baltimore team and as a result there is no change in the race, the latter team enjoying a nine game lead.

"Sorry I gave you the wrong number," said the polite telephone operator. "Don't mention it," answered the man who had made up his mind not to lose his temper. "I'm sure the number you gave me was much better than the one I asked for. Only it just happened I wasn't able to use it."

Price is a Consideration But Not the Deciding Factor in Buying Furniture

Regardless of price, no article is a good value if it does not offer years of perfect service. Nor does price alone determine the length of service any articles may give. Quality of materials—cabinet-work and finish are the only factors that make for perfect satisfaction.

A complete Home Outfit furnished with good furniture and rugs will have the same beauty of appearance after ten years of use as it had the first day it was delivered.

A Home Outfit of that quality does not necessarily mean a great expenditure of money.

Our stocks are so complete that you can select beautiful home furnishings at any price you wish to pay—from the least expensive to the most pretentious pieces—and regardless of price every article is guaranteed.

When you can buy good furniture priced as low as possible, consistent with quality, it is decidedly to your best interests.

Truly, we are the Home of Home Outfits, for we probably sell more of them than any other store in St. John.
