French Have Captured Noyon

One of Heaviest of The Recent Blows to Huns

Had Planned to Hold Noyon as Southern Pivot of Line—Humbert Occupied It This Morning and Mangin Crossed Oise and Seized Morlancourt—Quesnoy Wood Also Captured

WITH THE FRENCH ARMIES IN THE FIELD, AUG. 29.—(BY THE ASSOCIATED PRESS, 10 A.M.)—NOYON WAS OCCUPIED THIS MORNING BY THE TROOPS OF GENERAL HUMBERT. GENERAL MANGIN'S MEN CROSSED THE OISE RIVER AND TOOK MORLANCOURT.

THE FRENCH FIRST ARMY TOOK QUESNOY WOOD, JUST TO THE WEST OF THE CANAL DU NORD. THE WOOD WAS STRONGLY FORTIFIED, AND FROM IT THE GERMANS ENDEAVORED TO CHECK THE FRENCH PURSUIT.

The fall of Noyon comes as a heavy blow to the Germans, who were thought during the early days of the Ploisy offensive to be planning to hold Noyon as the southern pivot of their line, which runs northward along the old battlefield of 1916.

Noyon is situated on the right bank of the Oise River at the confluence of that stream and the little river Verse. To the south and east there are large areas of flat low-lands along the Oise, while to the north is a winding valley. To the southwest are Mount Renaud and Lassigny Massif, which dominate the whole region. To the northeast a range of high hills juts out into the valley.

Noyon is also an important railway and highway centre. With the French Army in France, Aug. 28.—(Reuter's)—The Germans in setting left large quantities of munitions behind them, especially in Roye. The French are approaching the canal at Bethancourt, Cresay, Ognolles and Seuvilly.

General Humbert's army, resuming its advance today, reached Vauchelles, two miles from Noyon, the fall of which is imminent.

French Headquarters in France, Aug. 28.—(Reuter's)—The Germans are putting up a bitter fight for possession of Noyon and have strong entrenched machine gun positions on the southern and western outskirts. The French successfully outflanked Porquerencourt Mountain, west of Noyon.

General Humbert's army has crossed the Roye-Noyon road near Sermaise, two miles north of Noyon, but the Germans are energetically defending the hills to the east.

Big Guns Boom on Somme. Pkts, Aug. 29.—Violent artillery engagements along the Somme front are reported in the official statement issued by the war office today.

FIFTY VILLAGES IN TWO DAYS. Paris, Aug. 28.—(Havas Agency)—The number of German prisoners captured by the French in their advance west of the Chaulnes-Noyon line has been comparatively small, as the French have been obliged to move cautiously. The Germans left mines at various places and had scattered infernal machines and traps of various kinds. The war material taken, however, has been considerable.

In forty-eight hours the Allied advance has liberated more than fifty villages. Germans Cannot Stay on Oise. With the French Army in France, Aug. 28.—(By the Associated Press)—The French Third Army also attacked this morning, occupying Dives and pushing eastward to Vauchelles, less than half a mile from Noyon, the fall of which appears to be only a question of hours, if the French so elect.

With the French in possession of Noyon, the Germans will have only their positions to the northeast, in the hills along the Oise, and in the northwest, on the bank of the Canal Du Nord, to protect their retreat to the forest of St. Gobain and the Hindenburg line.

It is not considered possible that the German retreat will halt on the Oise, so close are the French pressing the enemy. French patrols reached the region of Bethancourt this afternoon. The crossing of the Canal and the River Somme in that region by the French troops would create the gravest menace to the safety of the enemy's canal in order to accelerate the retrograde movement, which in some places has been so rapid that the French advanced guards and the enemy's machine gun sections protecting the German rear has almost been broken.

Heavy Fire Loss at Owen Sound. Owen Sound, Ont., Aug. 29.—Fire from an unknown cause did damage estimated at \$35,000 to the stock and \$2,500 to the building of the dry goods store of William T. Lee yesterday.

Washington Sees Possibility of it Becoming Untenable Before Enemy Backs Up To It. Washington, Aug. 28.—Developments on the western battlefield during the next forty-eight hours should determine the fate of the much-vaunted "Hindenburg line" in the opinion of some military officials here. With the strength of flank and even more telling blows threatened by the steady advance of the French through Nesle toward the Somme and by the British east of Arras, observers here believe that the scheme of defence, popularly held in Germany to be the bulwark of the western front is in a fair way to become untenable before the main Teuton forces have been driven back to it.

Available marine records fail to show a Spanish ship by the name of Crusa.

COAL MINERS STRIKE IN WEST SETTLED. Calgary, Aug. 29.—A strike of coal miners in the Brule mine property, Edmonton district, has been settled. Practically 500 men affected by this walk-out have returned to work.

Dempsey a Shipbuilder. Philadelphia, Aug. 29.—Jack Dempsey, heavy-weight pugilist, today joined the army of shipbuilders in the Philadelphia district.

Manitoba—A few scattered showers, but mostly fair, Friday, fair and comparatively cool today and on Friday.

Lower St. Lawrence—Fresh south to southwest winds, occasional showers; Friday, westerly winds, fair.

Gulf and North Shore—Fresh to strong winds, showers tonight and on Friday.

Maritime—Moderate southwest winds, fair, local showers in western portion tonight; Friday, fresh to strong southwest winds, local showers, but mostly fair, not much change in temperature.

Lake Superior—Moderate westerly winds, fair and comparatively cool today and on Friday.

Saskatchewan and Alberta—Fair today and on Friday. New England—Probably showers tonight and Friday; colder in the interior; Friday fresh west to northwest winds.

JUST WAITING TILL HE REALLY CATCHES ME.

TWO THIRDS OF GROUND LOST BY US SINCE MARCH HAS BEEN RECOVERED

Chief Interest Now In Fighting on Wings. Mangin Has Hard Battle at Juvigny and Chavigny—British Dangerously Near Formidable Positions Around Douai and Cambrai

Paris, Aug. 29.—The Allies have won back more than two-thirds of the ground lost since the beginning of the German offensive in March. It was wrung from them by an overwhelming force and they have regained it by the brilliant generalship of their leaders and the skillful manoeuvring of their troops.

The working out of Marshal Foch's strategy, according to opinion here, shows that every movement in each section of the long battle line has been carefully thought out in its relation to the whole. Thus, the British advance toward Peronne on August 29 had its immediate effect on the sections farther south, and for a second time General Von Hutier was in danger of being caught in a trap if he hung on another instant. As a result, he was obliged to abandon Roye and Nesle and retire behind the Somme with the French close at his heels.

Immediate interest in the battle is in the operations on the wings. General Mangin is fighting hard on the right in the region of Juvigny and Chavigny. The terrain is difficult there because Juvigny is level with Laffaux and the Chemin des Dames. Also the German seventh army still clings to the line of the Vesle.

On the left the British east of Arras have overrun the powerful defences which have encircled Arras, and are getting dangerously near the formidable positions prepared several years ago to protect Douai and Cambrai. These towns are important railway centres and vital to the German position so that a fierce struggle may be looked for before the Allies reach them.

Pressure from General Humbert's third army from the west and from General Mangin's men who crossed the River Oise from the south and took Morlancourt this morning while other French troops were entering Noyon, adds greatly to the difficulties of the enemy. The increased danger from these directions will oblige the Germans to make further sacrifices in order to save General Von Hutier's army from disaster.

The Somme line having been rendered difficult for the Germans by the rapidity of the Entente Allied pursuit there is now a question, with the French troops ready to cross the Somme at the enemy's heels, where he will be able to make a further stand.

Washington, Aug. 28.—Arrival of General Albas Calles at Nogales to present profound regrets of the Mexican government for the clash on Tuesday between Mexican and American troops in the border town is expected to put an official close to the matter. The action of President Carranza in ordering Gen. Calles to proceed on a special train to the scene of the disturbance for this purpose was accepted here as a formal admission that the blame for the affair rested upon the Mexicans.

Forecast. Lake and Georgian Bay—Fresh northwest winds, fair and comparatively cool; Friday, moderate winds, fair, not much change in temperature.

Ottawa and Upper St. Lawrence—Fresh west to northwest winds, clearing and cool; Friday, fair.

Lower St. Lawrence—Fresh south to southwest winds, occasional showers; Friday, westerly winds, fair.

Gulf and North Shore—Fresh to strong winds, showers tonight and on Friday.

Maritime—Moderate southwest winds, fair, local showers in western portion tonight; Friday, fresh to strong southwest winds, local showers, but mostly fair, not much change in temperature.

Lake Superior—Moderate westerly winds, fair and comparatively cool today and on Friday.

Saskatchewan and Alberta—Fair today and on Friday. New England—Probably showers tonight and Friday; colder in the interior; Friday fresh west to northwest winds.

Manitoba—A few scattered showers, but mostly fair, Friday, fair and comparatively cool.

Winnipeg, Aug. 29.—That the potato crop of Manitoba for 1918 will be more than 10,000,000 bushels was the estimate made yesterday by Prof. Bedford of the department of agriculture. This is by far the largest crop the province has ever produced.

GINCHY SAID TO HAVE FALLEN TO THE BRITISH

Haig's Men Win Place Two Miles Beyond Combles—Counter Attacks Astride the Scarpe as Elsewhere Fail—British Captures Total 26,000 Prisoners, More Than 100 Guns Since August 21

With the British Forces in France, Aug. 29.—(By the Associated Press)—Ginchy, about two miles northwest of Combles is reported to have been captured by Field Marshal Haig's troops this morning.

A GENERAL ADVANCE. British troops also captured Belloy, Ashevillers, Perbecourt and Feuilleres. All these towns are within five miles of Peronne.

Launching new local attacks and following up the advantage gained yesterday the British today moved forward along a large part of their battle front, BRITISH PRESSING ON.

London, Aug. 29.—German counter-attacks east and southeast of Viz-en-Artois, east of Boiry and in the vicinity of Gavrelle, villages to the east of Arras, have been repulsed, according to the official statement issued at the war office today.

South of the Somme, British forces are keeping up their pressure against the enemy and are advancing eastward. Since Aug. 11, the British have taken 26,000 prisoners and 100 guns.

Australians' Success. British Headquarters in France, Aug. 29.—(Tuesday evening, C. P. despatch from Reuter's)—Heavy and continuous all-day fire is reported about Marcourt, thus indicating co-operation of the air forces with infantry movements. Yesterday the Australians advanced to Fontain-le-Cappy, which only a few days ago was a German divisional headquarters. This morning some Australians were reported six miles from Peronne.

He Was Away Courting at the Time But One of His Generals Was a Victim. With the British Army in France, Aug. 29.—(Reuter's)—How hard the enemy is off for reserves may be gathered from the fact that the 148th Regiment of the 1st division appeared in the battle line during the defense of Cappy, on the south bank of the Somme, although this division lost 2,500 men made prisoners at Warfusse between August 8 and August 10, and was withdrawn as no longer fit to fight.

Prisoners taken this week say that during the British bombing raids, the headquarters of Prince Rupprecht of Bavaria was struck, and that among the casualties were a general of the pioneers and a staff captain. Rupprecht was absent at the time. The prisoners expressed the view that he should be with his army at a time like this, instead of being far away courting his princess.

NORTH END BAND CONCERT. Commissioner Fisher said this morning that he had arranged for the postponed band concert in the North End to be played on Wednesday evening, Sept. 4, and in case of inclement weather, on the following evening. The concert will be rendered by the Temple Band.

Phelix and Pherndand WEATHER REPORT. Issued by Authority of the Department of Marine and Fisheries, R. F. Stupart, director of meteorological service.

Synopsis—A shallow low area which is centered this morning north of the Ottawa Valley has caused showers throughout Ontario and western Quebec. The weather has been comparatively cool in the west with light showers in some sections.

Forecast. Lake and Georgian Bay—Fresh northwest winds, fair and comparatively cool; Friday, moderate winds, fair, not much change in temperature.

Ottawa and Upper St. Lawrence—Fresh west to northwest winds, clearing and cool; Friday, fair.

Lower St. Lawrence—Fresh south to southwest winds, occasional showers; Friday, westerly winds, fair.

Gulf and North Shore—Fresh to strong winds, showers tonight and on Friday.

Maritime—Moderate southwest winds, fair, local showers in western portion tonight; Friday, fresh to strong southwest winds, local showers, but mostly fair, not much change in temperature.

GETTING OUT OF HAND EVEN IN THEIR RETREAT

Rear-guard Actions Not Proving Successful

ALL POSSIBLE HASTE TO GET AWAY. Today's Captures Add Greatly to Enemy Difficulties—Further Sacrifices Necessary to Save Von Hutier's Army

Paris, Aug. 29.—The Allies have won back more than two-thirds of the ground lost since the beginning of the German offensive in March. AMERICANS IN TOUGH FIGHT

Lose Fismette But Strengthen Their Hold on Basoches Region

Paris, Aug. 28.—(By the Associated Press)—American and German troops were engaged in spirited actions today in the regions of Bazoches and Fismette. According to the latest report the fighting continues at both points. Tonight, as a result of the local actions, the Americans had made some gains at Bazoches, while the Germans had recaptured Fismette, on the north bank of the Vesle opposite Fismes. The fighting has been marked by much stubbornness.

With the American Army on the Vesle, Aug. 28.—(By the Associated Press)—The Americans have increased their hold on the Basoches region, but the Germans have recaptured Fismette, on the north bank of the Vesle opposite Fismes. The fighting has been marked by much stubbornness.

GOOD THINGS COMING TO THEATRES OF ST. JOHN

JUVENILE REVUE AND OTHER GOOD FEATURES; LAST TIMES OPERA HOUSE TONIGHT

The ten little children of the Juvenile Revue at the Opera House this week have been having an enjoyable time in St. John what with auto rides, morning picnics, etc., and regret very much that tonight closes their engagement here.

The Juvenile Revue, four other splendid vaudeville features and a Sunshine comedy picture make a good entertainment to enjoy tonight.

NOTABLE AT GEM

"Womanhood" at the Gem is a glorious picture. Everybody who saw it last night liked it. It is amazing in many ways. The cast is very superior, with Alice Joyce and Harry Morey in the lead. Seven great reels. Tonight 7.15 and 8.45. Only five and ten cents.

POWER COMPANY A LITTLE PREVIOUS?

Gas Bills Out With \$1.85 Rate Printed But \$1.50 Charged

Napoleon struck a medal in advance commemorating what he planned to be a successful invasion of England. The Kaiser has twice ordered his Christmas dinner served in Paris. But fickle fate overruled in these instances as it has in thousands of other great and small.

Gas bills on the green slips sent out recently by the N. B. Power Company have the rate per 1,000 cubic feet printed in at \$1.85. All previous bills have been at the \$1.50 figure. But the joke of it is the percentage of the amount of gas at the old rate and ignores the higher rate per thousand.

This seems very strange and mysterious; what can be the matter? Had some new bill forms been printed in the happy anticipation of a successful verdict on the company's request, or is the poor printer again to be blamed for typographical errors? Possibly it is something like Napoleon's medal.

BIANCA, DAMAGED BY RUINS, TOWED TO CANADIAN PORT

A Canadian Atlantic Port, Aug. 29.—The Newfoundland three-masted schooner Bianca, captured by a German submarine on last Saturday, 100 miles off the coast, was towed into this port this morning. Abandoned by her crew by the U-boat commander, she was saved by three days ago by a Boston fishing schooner.

The Germans evidently set off a bomb in the hold, as a portion of the deck is raised and the vessel is leaking. The Bianca was bound from Bahia for this port. Her crew landed two days ago.

DEATH OF REV. F. H. HOWELL

Rev. Frederic Hyde Howell, rector of St. August's church, in the parish of Drummond, in Victoria county, died this morning at the residence of his mother-in-law, Mrs. Frank Hollis, 811 Rockland road. Rev. Mr. Howell was forty-one years of age.

It is only of recent years that he entered the ministry. He was for several years lay reader in St. Paul's (Valley) church, under Rev. E. B. Hooper. He was ordained in 1912. He received his education in King's College, Windsor. He was appointed rector of the Danish parish of Drummond. His laborious efforts at New Denmark soon took on his health and he was obliged to give up the work about a year ago. The fruits of his labor, however, will be a memorial to him for many generations.

Besides his wife, he leaves one son, Frederic, in England, and one daughter, Miss Madeleine, at home; two sisters, the Misses Edith and Ada in England, and also two brothers, Bert and Charles, also in England.

Notice of Births, Marriages and Deaths, 50c.

BIRTHS

WELSFORD—On Aug. 27, to Mr. and Mrs. G. L. Welford, a daughter.

DEATHS

O'BRIEN—At her parents' residence, 88 Somerset street, Mary Evelyn, infant daughter of John and Elizabeth O'Brien. Funeral Friday, 2.30.

HOWELL—In this city on the morning of August 29, at the residence of Mrs. Frank Hollis, 811 Rockland road, Rev. Frederic Hyde Howell, aged forty-six years, leaving his wife, one son and one daughter to mourn.

CATHERWOOD—At her daughter's residence, Raynes avenue, Fairville, Jane Catherwood, relict of the late Andrew Catherwood, aged 79 years, leaving two daughters and one son.

CARD OF THANKS

Mrs. Harry M. O'Brien wishes to thank her many friends for kindness shown and the many spiritual offerings received during her sad bereavement, also John J. Carr and O'Neill Co. Pharmacy during her late husband's illness.

A POPULAR RESORT

Johnston's Hotel, Upper Loch Lomond, will be able to accommodate parties over the week-end and Labor Day. A delightful spot—good company, good food and beautiful scenery; and charges are very reasonable. Just a nice run by motor from the city. 88919—8—31

CANADIANS AT MONCHY HAD A LIVELY FIGHT

With the Canadian Forces, Aug. 28.—(By J. F. B. Livesey, Correspondent of the Canadian Press)—"Monchy before breakfast" Such was the battle cry of a Canadian unit that went over the top at 8 o'clock on Monday morning. They had it by 7.30 and then the cry became "Cambrai or bust." Cambrai is a great way off, but they are still going strong.

Monchy-le-Frenais is an island of defiance and dominates the sea of rolling country surrounding. Our advance eastward was barred until it was taken. It was stormed two days after we took Vinay Ridge. It is a rubble of broken masonry which was once ordered streets, and of blasted tree trunks. Only on its northwest slope, facing that distant lofty ridge where lie so many Canadian sons, there still stands intact a great cross of timber. It is a site fit for a palace of a king, for miles and miles around the country lies in panorama.

Not two miles to the north is the silver thread of the Scarpe River and equidistant to the south is the Colijn. North of the Scarpe is the great hill known as Greenland, which trains its batteries at will on Vimy, Arras or on Monchy. So great is its strategic value that after its capture yesterday the enemy went out back by a massed attack. Throughout the present advance its fire has considerably interfered with our advance.

West of Monchy lie two considerable, but lesser hills—Orange Hill, a mile to the northwest, and Mount Hills, the same distance due west. At their base the Cambrai road, these two breasts swelling out from the plain provide natural redoubts for the defence of Monchy from frontal attacks. On either side are the two rivers, and in the rear are the Verts and Hart woods. Impregnable as the place in frontal times, it is still well adapted for defence in modern warfare.

Long months, when pinned to their trenches around Arras, the Canadians gazed upon Monchy as the prisoner upon the door of his cell. The place must be stormed and consolidated prior to any general advance. Then came the cry "Amiens" and for a fierce joyous fortnight Monchy was forgotten. Back again in the trenches it loomed smaller, because in the meantime the force had tested itself. But it was a hard nut to crack.

Before the battle opened, our admirable intelligence service had compiled accurate information of the whole enemy position. The enemy decided to establish his line of resistance at what the low open ground between Monchy and the Twin Hills. On the western slopes of the hills he placed his light machine guns with his heavier machine guns strongly enfiladed on their eastern slopes prepared to sweep the sky-line of any frontal advance. A mile back was an elaborate trench system and everywhere was wire. His heavy guns were in the trenches in the woods east of Monchy and perfectly registered on all the forward area. This was the problem. Monchy must be taken at all costs.

The attacking force, pushed with victory elsewhere awaited only the word to go in. In the old days, those of not many months ago, there would have been an intensive artillery preparation of some hours, designed to level a path, and then the good war news, but Liberty bonds were moderately reactionary.

Noon Report. Stocks recorded little variation in the first hour, but reacted generally later. The decline was concurrent with reports from Washington which conveyed the inference that the next Liberty loan offering had been fixed at six billion dollars, a figure in excess of Wall Street's estimate. United States Steel yielded a point with other leaders and increased heaviness was shown by specialties, notably General Motors, which dropped another 1-2 points.

Pierce Oil, newly listed, was almost the one exception, advancing a point on an extensive turn over.

AIR RAIDS IN THE RIVER RHINE DISTRICT.

Amsterdam, Aug. 29.—The chief cities and towns of the Rhine district have formed a permanent committee to deal with the increasing menace of Allied air raids.

Amsterdam, Aug. 29.—In an air raid on Ludwigshafen, Germany, on Sunday night a great number of bombs were dropped. Much damage was done to buildings.

CORN AND OATS.

Chicago, Aug. 29.—Buying attributed almost solely to shorts who were securing their profits caused a two cent rally in the corn market today. October, opening 1-8 lower to unchanged at 1.56-8 to 1.58-4, advanced to 1.58-1-2. Selling was renewed at the top and a 4-8 cent reaction ensued.

Oats also advanced on coverings. October opened unchanged to 1-8 cent higher at 71-7-8 to 72 and sold to 72-4. Provisions were quiet with ribs and lard 21-2 to 10 cents up, and pork on early sales advancing two to forty cents, the latter for October.

GO FASTER AFTER LOSING CHAULNES

German Retreat North of Arras More Speedy

FRENCH USE HUN SHELLS

Battlefield Abandoned by Enemy a Picture of Desolation—Cattigny Nearly Surrounded Last Night

With the French Army in France, Aug. 28.—(By the Associated Press, afternoon)—The German retreat north of the Arras River has been far more speedy since the fall of Chaulnes than previously. The German retreat north of the Arras River has been far more speedy since the fall of Chaulnes than previously.

The battlefield the Germans have abandoned presents a picture of desolation and desolation that has not been surpassed during the war. Ruys and the villages roundabout have been quite as thoroughly demolished as Montdidier and Moreuil. Even cemeteries have been blown up, tombstones smashed and graves opened. The names of towns in this region no longer have any other significance than as a reminiscence and a geographical designation. They have ceased to exist as towns. Their sites are hardly recognizable for the intense shell fire that has obliterated streets and defaced boundary lines, but has rendered the topography unrecognizable in many places.

With the French Army in France, Aug. 28.—By the Associated Press, evening)—Throughout the day the French troops pressed the enemy vigorously. They were forced to retreat from the woods east of Cattigny to the east of Nesle, a distance of about five miles. Several hundred prisoners were taken today.

From east of Nesle the fighting front followed the course of the Canal Du Nord to Cattigny and then southward to Nesle. Cattigny is surrounded on three sides, but houses transformed into block-houses and bristling with machine guns are holding up the French for the moment. The enemy also is holding fast on the heights east of Cattigny. There are very severe fighting at many places.

WALL STREET AFFECTED BY REPORT OF A SIX BILLION LIBERTY LOAN

New York, Aug. 29.—Shippings and oils led the steady but dull opening of today's stock market. Atlantic Gulf soon gained 1-4 points and Texas Company half a point. U. S. Steel rose a small fraction with Independent Steels, but coppers were slightly irregular with rails, motors and specialties. There was a further inquiry for foreign issues on the good war news, but Liberty bonds were moderately reactionary.

Noon Report. Stocks recorded little variation in the first hour, but reacted generally later. The decline was concurrent with reports from Washington which conveyed the inference that the next Liberty loan offering had been fixed at six billion dollars, a figure in excess of Wall Street's estimate. United States Steel yielded a point with other leaders and increased heaviness was shown by specialties, notably General Motors, which dropped another 1-2 points.

Pierce Oil, newly listed, was almost the one exception, advancing a point on an extensive turn over.

MAKING IT EASY FOR YOUR EYES Defective eyes have to work harder to see. Usually vision isn't as good as it would be if properly fitted with the right glasses. Eye-strain exists, and unless it is removed permanent injury to sight will follow. Glasses help the overworked eyes. They bring normal vision and protect sight. There are very few perfect eyes. Often strays in present eyes that are unsuspected. The sensible thing is to have us examine your eyes. Then you will know exactly what should be done.

A CABLE FROM ADMIRAL BEATTY

Sir David Beatty Hears of Canada's Efforts to Raise Funds For Sailors

The great Admiral Beatty is not unmindful of the efforts of the Canadian Navy League, as indicated by the following cable received by the president of the league at Montreal: "Wish every success to the Canadian Navy League. The paramount importance of maritime power cannot be too widely taught or too deeply appreciated throughout the British Empire."

Sept. 5 is to be a big day in St. John, as the citizens are expected to awake to the needs and the deserts of the sailors.

SAYS COMMISSION MUST MEET IN PROVINCE

That it was the intention of the Royal Commission to meet in Boston on Saturday morning to take up the inquiry into the petition of the New Brunswick Power Company to increase their rates is evident from the fact that Dr. W. B. Wallace and Dr. J. B. M. Baxter were notified to that effect. The former said this morning that he had written to John A. Sullivan, attorney in Boston, who is representing the city in the hearing, saying that he could not go and pointing out to him that it was contrary to the provisions of the act.

WORLD OWES GREAT DEBT TO BRITAIN

London, Aug. 28.—(Canadian Press despatch from Reuters' Limited)—Hon. Henry Burton, minister of railways for South Africa, who has been attending the imperial war cabinet, speaking at a complimentary luncheon in London today, said he had been impressed with the more than generous recognition of the people of Great Britain for the contributions made by the dominions and the Allies. He had also been deeply impressed by the mighty effort of the people of Great Britain themselves. It was not too much to say that at the most critical stage of this struggle, the will for liberty of the British people and their super courage were the mainstay of the Allied cause in preventing a great disaster.

The world is indebted to Great Britain to the greatest extent. The English people were said to be obstinate. He thought that freedom-loving nations had reason to thank God devoutly for this gift of British obstinacy, which had saved the soul of the world. (Applause.)

SCHOOL BOOTS

The Kind That Look Well and Wear Better Considering the high price of leather, we feel that our values in School Boots this Fall are particularly reasonable. We bought months ago when prices were somewhat easier, and that partly accounts for our Better Values in Children's Footwear, just at this season when the boy or girl requires new boots for school wear.

Children's Shoes—All leathers, styles and sizes. Prices ranging from \$1.85 to \$4.50.

### Tea

What crimes are committed in thy name!

When properly made, Tea is an amiable, friendly drink, but some of the decoctions served up and called Tea are criminal libels upon the name. And yet the proper way to make Tea is so simple. You cannot know the real joys of Tea drinking until you prepare it as directed, and until you use Lipton's Tea. This emphasis upon Lipton's Tea is no braggart statement, because we grow it, blend it, pack it, and sell it ourselves. Consequently we guarantee its quality when it reaches you. No other firm selling Tea in Canada may do this.

- Directions For Making Tea:
- 1—Always use an earthenware or china teapot.
  - 2—Thoroughly warm the teapot by rinsing with hot water.
  - 3—Put enough tea into the pot to suit requirements. Two teaspoonsful of Lipton's is ample for five cups.
  - 4—Always use freshly-drawn water, and have it briskly boiling when poured on to the tea.
  - 5—Allow the tea to stand not longer than five minutes.
  - 6—Add cream and sugar to suit taste.

### PT. PATRICK DEVER KILLED IN ACTION

On Friday last Mrs. Patrick Dever of 311 Brussels street received a letter from her husband, Private Patrick Dever, in France, saying he hoped he would soon be able to return to his young wife. On Monday she received the terrible news that he had been killed in action. Many friends in his native Donegal, in Boston and St. John will hear the news with sincere sorrow.

Private Dever was a native of Donegal, but emigrated to Boston, spent ten years there, came to St. John for a year and was married here to Miss Alice Williams of Brussels street. They returned to Boston, and last year he enlisted in the 26th battalion and went overseas, his wife returning to St. John. Besides his wife he is survived by his father and mother and three sisters in Donegal, two brothers in France and two in Boston, one of the latter being his twin-brother. He had made a great many warm friends during his residence in Boston, whose sympathy they go out to the bereaved family.

**GONE WEST TO TEACH**  
Miss Isabella McNair left Moncton on Monday for Edmonton, Alberta, to resume her position as teacher in public school. She was accompanied by Mr. and Mrs. Fraser McNair as far as Toronto.

Miss Verna Baird, daughter of H. P. Baird, of Fredericton, has left for Winnipeg to resume her teaching duties in that vicinity. She is accompanied by her sister, Miss Margaret Baird, who goes to accept a position in Manitoba.

**ENGAGEMENT ANNOUNCED**  
The engagement of Miss Louise Allen, daughter of Ezekiel Allen, of South Devon, to Arthur J. Bailey, is announced, the wedding to take place in September.

### FREDERICTON MAN WINS DISTINCTION

Dr. J. W. Inches, born and bred in Fredericton, son of the late Andrew Inches, is now known as Captain James W. Inches, of the medical reserve corps, otherwise Dr. Inches, health commissioner of Detroit. It was his privilege, recently, to do the "wing turn" and a "tail spin" after ascending about 6,500 feet "somewhere above Michigan" in the fast army biplane. He flew about fifty miles with a lieutenant in the aviation corps.

up again soon, when he expects to have the thrills of looping the loop.

Dr. Inches since the war started has been entrusted with important missions across seas. He was commissioned by President Wilson, on America's entry into the war, to go to France to give his advice and benefit of his experience in health matters to American officials in preparing cantonments there.

He was also sent across seas on matters connected with Red Cross, and it is learned, through Red Cross circles, that his work for that organization was highly commended on.

It is learned that he is now busily engaged on a crusade in Detroit that looks to the betterment of that city.

**No Strike at Present.**  
Montreal, Aug. 28.—At a conference between officials and telegraphers of the C. P. R., this afternoon, it was decided to defer the threatened strike for the present and submit the issue to the labor department at Ottawa.

### HAD TO RETURN FLOUR

Fredericton Mail—A farmer whose conscience troubles him about the lack of flour in the near future, tried to evade the food laws on Saturday by attempting to make his get-away from the city with a barrel of flour. He was discovered by a policeman and forced to take the flour back to the grocer from whom he purchased it.

VICTORY FOLLOWS VICTORY.

The Allies have regained more than two-thirds of the ground lost since March 21. They are daily gaining more, and by their flanking movements in addition to the constant pressure on the German centre they may be able to prevent the enemy from making a stand, even on the Hindenburg line.

Of no little importance are the reports that the Czech-Slovaks and Poles in Austria are beginning what is described as something like a general mobilization to aid the Allies, and that the press of Finland is now beginning to explain that its relations with Germany are unavoidable and that there is no intention to take military action against the Allies in the Murman region.

Another interesting announcement is that the chief cities and towns of the Rhine district have found it necessary to take combined action because of the "increasing menace of Allied air raids."

LATEST HALIFAX EXPLOSION.

There has been another explosion in Halifax. Pending the vote of the people on the adoption of a new form of civic government the present rulers of the city have "gone up in the air."

"Monchy before breakfast" was the Canadian battle-cry at 8 a. m. on Monday. At 7.30 they were in Monchy. Now the cry is "Cambrai or bust!"

HERE'S AN EXAMPLE.

By opening state butcher shops the labor government of Queensland, Australia, not only reduced the price of meat but kept it down to a reasonable figure.

"State operations immediately caused a sharp slump in the price of all meats to the consumer. Beef fell nine cents per pound when the first state shop was opened.

"The Auditor-General's report shows that, notwithstanding the general drop in prices, during the first eleven months of operation the state butcher shops returned a net profit of over \$18,000 to the government. But profit was not aimed at. The shops were instituted merely to serve a public need.

The German language is to be barred in public places in South Africa. There could be no stronger proof of the hatred Germany has aroused by her crimes against humanity.

SURPRISE COMING

Kink in the Back

You bend over and can scarcely get straightened up again. This comes on you so suddenly you can't understand it. This is lumbago. Like backache and rheumatism, it is the result of poisons in the blood.

LIGHTER VEIN

Where It Helps. "Do you think early rising is good for your health?" asked the languid city visitor.

"I don't know about my health," replied Farmer Cobble, "but next to sun, rain and fertilizer, it's the best thing there is for crops."

Marriage in One Sentence. There were married in the city of Wills Point last Saturday afternoon on Fourth street, in front of the J. C. Mason Co. dry goods store, by Rev. J. F. Grizzle, an employe of said firm, in the presence of many witnesses, there being a large number of people in town on the day mentioned, as it was the last of the week, the time usually devoted to shopping, especially on the part of those living in the country, who remain with their farm work until Saturday afternoon.

ALLIES PREVENT HORVATH'S RULE OVER SIBERIA

Washington, Aug. 28.—General Pleshkoff, as announced in recent despatches, went to Vladivostok and prepared to execute a coup d'etat designed to place his chief, General Horvath, at the head of the government in Siberia and all Russian military forces in the Far East.

Representatives of the allies, according to today's advice, acted very promptly with the result that the coup failed and what promised to be an embarrassing situation was cleared away. It was made plain to General Pleshkoff that the Allies would not countenance no government not in accord with the wishes of the people.

PROTECT THE LADY BUG.

Amateur potato growers are warned by experts against mistaking the harmless lady bug, now in evidence in many city gardens, for the destructive Colorado beetle, and attacking with Paris green and other pest destroyers. It is one of the beneficial plant parasites, and it has an appetite for the aphid a plant louse which injures and ultimately destroys the foliage of the potato vine.

Shell Shocked Nerves

Shattered nerves are the source of greatest suffering to many a returned soldier. The doctor can give something to relieve physical pain, but when the nervous system breaks down and you are sleepless, nervous and mentally worried, real cure only comes when the exhausted nerve cells are nourished back to health and vigor by such restorative, rebuilding treatment as Dr. Chase's Nerve Food.

MARITIME UNION DISCUSSED AT TEACHERS' CONVENTION

Moncton, Aug. 28.—Maritime union was discussed by Hon. J. B. M. Baxter, K. C. of St. John, and Hance J. Logan, K. C. of Amherst, at the maritime educational convention here this evening.

Mr. Logan said that if legislative union is impossible to secure, what is the alternative? "I suggest the forming of a maritime legislature council of congress leaving the present legislatures reduced in number by at least fifty per cent. to attend to distinctly local matters."

### WAR SITUATION LAST NIGHT

New York, Aug. 28.—The Associated Press tonight issued the following: The Germans facing the Allied forces from Arras to Soissons everywhere are in dire peril.

On almost every sector of the battle front the enemy line continues to crumble before the Allied attack, notwithstanding the violence, borne of desperation, of the counter-offensive tactics.

Near Arras the old Hindenburg line is well outflanked; from the Scarpe to the Somme the hostile line gradually is falling back, while from the south of the Somme to Soissons the enemy front has literally been smashed, and the German hosts apparently are caught in two distinct traps, escape from which without heavy losses in men made prisoner and guns and material captured seems almost impossible of achievement.

Scores of additional towns have been captured by the British, French and American troops, the Americans having entered the fray with the French northwest of Soissons, while all of the old German salients in the Allied lines now have been flattened out, and the Allies themselves have dug deeply into the enemy's terrain.

The first trap in which the enemy finds himself is the triangle formed by the sharp curve of the Somme River with Peronne its apex, and with Curlu, on the Somme, and Fresnoes respectively its northern and southern bases. This triangle is a little more than three miles deep and six miles wide, and in it the Germans are fighting with their backs toward the Somme on both the north and the east.

Human Rights Desperately.

Desperate resistance is being offered by the enemy in order that his men may have time to reach a haven of safety, across the stream, but the British are hard after their quarry, and, with the French a little to the south almost up to the river to aid them by an outflanking movement, it would seem that the odds are heavily against the Germans.

It was the French troops who sprang the other trap. With the fall of Chaumont the French routed the enemy over a front of about nineteen miles and penetrated the region to a depth of nearly seven miles. From the north of Chaumont to Nesle the penetration of the French reached the heights on the left bank of the Somme; southward the advance left the French along the Canal Du Nord at various points between Nesle and the outskirts of Noyon and the entire region between Nesle and Soissons now are in a great pocket and prisoners in the battle along the Vesle.

With the Canadian Army in the Field, 6 p.m., Aug. 27, via London, Aug. 28.—(By J. F. B. Livesey, Canadian Press Correspondent)—The Canadian force is fighting on a wide front north and south of the Scarpe river approximately from Gavrelle to Croiselles, but in this undertaking it is co-operating with a British division. This division has deservedly attained pre-eminence in the role of the British army north of the Scarpe river. Today it captured Gavrelle and advanced generally. This afternoon Canadian troops hold the line south of the Scarpe immediately west of Pelvies. Thence southeast passing between Jigaw Wood. Thence in a generally southeasterly direction to well east of Cresty and Fontaine-Les-Croiselles. Jigaw Wood is a very hard nut to crack, being situated in high and difficult ground filled with machine gun posts and wire.

### War Canning Bulletin

Issued by Canada Food Board

THE ONLY WAY.

Illustration by courtesy of National War Garden Commission, Washington.

This is the bridge that leads to next year and to victory. It is cemented by the labor of thousands of busy housekeepers with the help of their husbands and their children. It consists of rows upon rows of preserves which are to help feed the people of Canada during the coming winter. The bridge is being built by industry and thrift right now. Are you one of the builders? The assistance of every one is needed.

Write to the Canada Food Board or any of its provincial committees, enclosing five cents for a booklet on the canning, drying and storing of fruit and vegetables.

### Food Board Flashes For Feminine Folk

Foremost among our wheat substitutes is corn in its various forms, for the simple reason that it happens to grow plentifully on the North American continent and does not have to be borne across an ocean to reach Canada.

In 1908 the grain of the United States produced 27,000,000 bushels of corn meal and cornflour and 887,000,000 pounds of hominy and grits, while the factories caused 180,000,000 cans of corn. In fact, the United States produces two-thirds of the world's supply of corn.

Canadian mills are turning out more corn every day to meet the increased demand for substitutes and at present between 15,000 and 25,000 bushels a day are being handled throughout the Dominion.

### The Status of Women

(Manchester Guardian.)

Two profoundly interesting questions are now under consideration and were mentioned in the House of Commons by Bonar Law yesterday. One is that of the eligibility of women to sit in the House of Commons; the other that of the eligibility of persons in their own right to sit in the House of Lords. The law officers are examining the first question; the committee of privileges of the House of Lords will examine the second. Had the questions been raised in either case six months ago the answer would not have been in doubt. Since it had been determined at common law that a woman is not a person it was also determined that in consequence she was not qualified under the statutes to be a voter. But now that this disability has been removed by statute, so far as voting is concerned, a nice question arises as to whether the common law disability has not been broken down altogether, and whether women are not now, in the eye of the law, persons for all purposes and not alone for the purpose of voting.

The answer to this enigma will determine the matter, at least for the present, so far as the House of Commons is concerned, but the lords are pretty much a law unto themselves, and will doubtless be guided exclusively by precedent, which, however, if research be carried sufficiently far back, may possibly disclose some unexpected results.

So far the whole question is being dealt with purely as one of law or precedent. As a matter of principle it is a good deal plainer. Clearly it is impossible as a permanent arrangement that, when nearly half the electorate consists of women, women should be forbidden to be elected as well as electors. So again, if they are admitted to the House of Commons, it would hardly be reasonable or polite to shut the door against them in the House of Lords, where at the utmost only a very few would be eligible, and those obviously highly respectable and tactful people.

Already the peeresses sit in splendid array in their open gallery (no envious "grille" was ever invented for them) above the heads of their lords, and it would be only a step to bring them on to the scarlet benches. Still, one hopes the matter may not be too recklessly pressed. To many of the members of the "best club in London" it will appear a much greater revolution to be confronted by women in their own chamber than to be dependent on their votes for getting there. It then have time to take breath. The demand for admission, once seriously made, will be irresistible. But the real battle was for the vote. That was essential and that has been won.

### NEWS OF SCHOONERS

The four-masted schooner M. & J. Connolly of Quebec is reported a total wreck on the Canadian coast while on her maiden voyage. Daniel McLaughlin, formerly of this city, was the master builder.

At Grosses Coques, Digby county, a few days ago, a three-masted schooner, the Mollie and Melba, gracefully glided down the ways. She is owned by E. Gaskill of Grand Manan and was built under the supervision of Amos Blinn. She measures 155 feet over all and registers 389 tons.

The Scotia Belle a new three-masted schooner built at Meteghan, was successfully launched this week. She was built by Captain Tom German for J. E. Gaskill. She has a gross tonnage of 414.

### SOMEBODY ON THE JOB.

(Brantford Expositor.)

The recent action of the Union government in securing the creation of a separate Canadian Air Force, and also in deciding to send a Canadian force to Siberia, would seem to indicate that somebody is steadily on the job, and that there is a possible and reasonable explanation of Premier Borden's long sojourn in England.

CHICAGO LOOKS LIKE WINNER, SAYS JOE PAGE

Thinks Mitchell's Men Should Win World Series Easily Inside of Six Games

(By Joe Page.) Now that the question of the world's series taking place has been settled, it is in order, as in the past, to give an outline of the two contending teams and speculation on their chances of annexing the title of champions of the world.

The Boston Red Sox, under the management of Ed Barrow, who will represent the American League in the series, have been practically in the lead since the start of the season, and this notwithstanding the fact that many of their regular line-up have been called to either the war or war work, which has necessitated the getting of the best of the minor league players available to fill the vacant places.

The best part of the Boston machine lays first in their pitching staff, composed of Ruth, Mays, Bush, Jones and possibly Leonard, with Melnis, Scott and Hooper at first base, short-stop and right field, and Schang behind the plate. There lay the full power and strength that are dependable in the coming contest. Shean at second, Coffey or Cochran at third with Whitman, Miller and possibly Ruth to lead after left and centre, are not by any means stretch of imagination in the class of Barry, Chadler, Lewis or Walker in any department of the game.

So, if Boston is destined to win the classic of the year it will more than likely be due to the superman effort of the pitching staff, ably assisted by Schang, Melnis, Scott and Hooper. It is almost too much to ask or expect of them.

But with Edward Grant Barrow to handle them, one may, when least expected, find this gentleman with an ace up his sleeve, and by playing it at just the right moment get by and grab the title. If it is accomplished, it will undoubtedly upset the hope of the majority of the critics of the game, who are figuring on the Chicago Cub machine, under Fred Mitchell, not only to win the series, but even go so far as to make a reputation of the 1914 series, four straight games and all over.

Looking over the make-up of both the Athletics and Braves of 1914, it looks a far bigger cinch for the Cubs of today to make it four straight from the Red Sox in the coming fray than it looked four years ago so far as to make a reputation of the 1914 series, four straight games and all over.

Well, the winner has been produced, and to tell the truth the war has played almost if not fully as much havoc with the Chicago club as with their rivals; in fact more so if only for the sensational signing of Alexander and Kluffer at a price of \$75,000 this spring and the still more sensational leave-taking of the great Alexander, six months later called to the colors.

This in itself was enough to break the spirit and morale of the team, especially when the New York Giants started at this time and early in the race gathered a big double figure lead on their nearest rival.

RESOLUTIONS PASSED BY PROVINCIAL A. O. H.

At a meeting of the provincial officers of the A. O. H. the following resolutions were passed in reference to the press: "Whereas, public opinion in our country today is largely moulded by the press; and "Whereas, in all too many instances unfair news reports are being published for a purpose and derogatory to our church and people, are published by the secular press; be it

Cramps and Pains In The Stomach QUICKLY CURED BY DR. FOWLER'S EXTRACT OF WILD STRAWBERRY

Mrs. J. Fawcett, Hopewell Hill, N.B., writes: "I am writing you of my experience with Dr. Fowler's Extract of Wild Strawberry. Last summer I was taken so very sick with cramps and pains across my stomach that I sent for the doctor. He said I had summer complaint and gave me some medicine, but it did me very little good. As I was reading your E.B.B. Almanac I saw Dr. Fowler's Extract of Wild Strawberry advertised, so I asked my sister to go to the store and get me a bottle, and before I had taken all of it I was a well woman, and have not had the slightest return of the trouble since. I cannot say enough for your valuable medicine, and always keep a bottle in the house. You run absolutely no risk when you buy Dr. Fowler's Extract of Wild Strawberry, as it has been a standard remedy on the market for the past 72 years. Ask for "Dr. Fowler's" and insist on getting it, as the cheap imitations are dangerous to your health. Price 35c. Put up by The T. Millburn Co., Limited, Toronto, Ont.

TRY MAGNESIA FOR STOMACH TROUBLE

It Neutralizes Stomach Acidity, Prevents Food Fermentation, Sour, Gassy Stomach and Acid Indigestion.

Doubtless if you are a sufferer from indigestion, you have already tried peppin, bismuth, soda, charcoal, drugs and various digestive aids and you know these things will not cure your trouble in some cases do not even give relief. But before giving up hope and deciding you are a chronic dyspeptic just try the effect of a little bisurated magnesia—not the ordinary commercial carbonate, citrate, oxide or milk, but the pure bisurated magnesia which you can obtain from practically any druggist in either powdered or tablet form. Take a teaspoonful of the powder or two compressed tablets with a little water after your next meal, and see what a difference this makes. It will instantly neutralize the dangerous, harmful acid in the stomach which now causes your food to ferment and sour, making gas, wind, flatulence, heartburn and the bloated or heavy, lumpy feeling that seems to follow most everything you eat. You will find that provided you take a little bisurated magnesia immediately after a meal, you can eat almost anything and enjoy it without any danger of pain or discomfort to follow and moreover, the continued use of the bisurated magnesia cannot injure the stomach in any way so long as there are any symptoms of acid indigestion.

"WOMANHOOD" AT GEM BIG FEATURE

Seven Reel. Picture With Star Cast—A Striking Answer To Pacifists Who Would Temperize With Huns

The Gem last night showed another of its remarkable Wednesday features to delighted gathering of patrons. It is "Womanhood, the Glory of the Nation," written by J. Stuart Blackton and Cyrus Townsend Brady. The picture is a direct answer to those pacifists who would make terms with the Germans, even despite the heinous crimes which the Huns have committed in this war. It portrays the three great loves of a woman's life—love of the maid for the man of her choice, of the mother for her child, of the woman for her country.

There are tremendous battle scenes on land and on sea, mighty pictures in minutiae works and other phases of war work, striking bits of realism in spy activities and an appealing love story. Some of the horrors of Hun warfare are brought out in grim detail. It is in all a thrilling, virile, masterful war picture and it teaches a lesson that is well calculated to arouse the most lukewarm in the great conflict against Kaiserism. The spectacle is very fine, the action vigorous, the photographic details superb. The cast is outstanding. Big Harry Morey plays Paul Strong and dainty Alice Joyce is in the principal female part. Back of them are such prominent figures in the movies as Joseph Kilgour, James Morrison, Peggy Hyland, Naomi Childers, Walter McGrath, loveable Mary Maurice and Bobby Connelly, surely a great aggregation under the Vitaphone banner.

EVEN THE SEADOGS ARE INTERESTED

There was a rumor around town last night that a submarine had come up Courtenay Bay to learn the score at the ball game between the other Pirates and the Buffaloes. There was nothing to it, although the local pirates won by a score of 4 to 3 in the hardest battle yet waged on the new diamond. It was not a submarine but a sea-dog that came up for the score. His mates down around Shag Rock had been talking about the South End League series and his curiosity was excited. It so happened that he popped up outside of the wharf track just after the wire batter had smashed clear over the wire screen, and which had rolled into the bay. When the boy saw the sea-dog he barked the swimming record in these parts in a race for the ladder. The league is minus one perfectly good ball. Perhaps they are playing with it at Shag Rocks today.

But last night's game for four and a half innings was a joy to the spectators. The batteries, Hannah and Cox for the Pirates, and Olive and King for the Buffaloes, were well matched, the fielding was clean, and the Pirates won the game. The large crowd watched the game with the keenest interest.

After the game the captains of the four teams (the Turtles having retired from the league), met with the games committee, of which J. M. Elmore is chairman, at the home of C. M. Langley and decided that, as the season is so near an end, no new team would be taken on, but the series completed by Sept. 14. Games have been arranged as follows: This evening—Victories and Buffaloes. Friday—Franklins and Pirates. Saturday afternoon—Franklins and Victories.

Labor Day, morning at ten o'clock—Franklins and Buffaloes. Afternoon at half past two o'clock—Pirates and Victories.

The younger boys who watch these games are gradually learning that it is not good sport to roast a team or player, but to applaud good plays and let the best team win. Many ladies now attend the games.

Suspenders Popular. Memphis, Aug. 27—"Suspenders are popular here," writes Captain John W. Morris to his relatives in Memphis from a war prison camp at Kassel, Baden. He explains by adding, "I have contributed one-third of my belt to the salvage fund and could spare more. Captain Morris was a medical officer of the Scottish "Black Watch" regiment and was taken prisoner at Kemmel Hill last March.

DOROTHY DALTON'S excellent screen work in "The Mating of Marcella," her latest Paramount Picture, has won the hearty admiration of her many admirers. The story of the photoplay, which was produced under the supervision of Thomas H. Ince, is one whose scenes shift from New York to Reno, Nevada, and back again. The drama affords a splendid contrast between the frivolous slow-girl type of the "Great White Way" and the warm-hearted, courageous American girl type that predominates throughout the country.

CHAPTER II.
Impatient to be out of New York and on his way West, "Snaky" paced before the train gate awaiting the arrival of Lawless. Ten minutes only remained before the departure of the Limited. The gates were closing when Hyde and Arkins hurried past "Snaky" without seeing him. Filled with dismay, "Snaky" hurried from the station to the Pentland and followed by the clerk and bellboys he hastened up to their room. The door was locked with the key on the inside, but entrance was gained through the room adjoining. He found Lawless, bound and gagged.
Released and revived, Lawless told with bitter oaths and threats of vengeance how Hyde had overcome and robbed him.
"WHAT HAS GONE BEFORE."
Bob Hardy, mining expert, finds nickel and cobalt on the Montana ranch of Jean Benton. Almost on the same day her millionaire father dies in New York. Before Jean was born, he has misjudged her mother and left her. On his death bed, he learns from Iron Starr, of her innocence and of Jean's existence. His will leaves his property to Jean, provided that within a year she marry either of two cousins, Jacob Lawless or Walter Hyde. They begin a fight for millions and the girl, Hyde getting a start on Lawless by garroting him in a hotel room.
"WE CANNOT GET AWAY UNSEEN. WE MUST GET WORD TO SOMEONE ON THE TRAIL."
"If we only had a bow and arrow," she said. Then her face brightened and pleading her companion with his face to the cliff, she quickly removed her waist and corsets and again donning the waist, handed the stays to Hardy, with an embarrassed look. Hardy was quick to get her idea. He cut out several of the steel stays and while he was binding them into a bow and fitting a string of the juncos, Jean fashioned arrows of bushes.
On pages torn from his note book, he wrote brief notes of appeal and fitting them into the notches in the arrows he sent the shafts high above the chasm, over the tree tops and into the trail beyond. It was the last of these arrows that caught the eye of Sergeant Barry, riding leisurely along the trail looking for the two prisoners and hastily opening the note he read:
"Miss Bent trapped on ledge. Blue Wing Gash on Forsythe mountain. Help quick."
Barry in alarm, looked about for his bearings and spurred his horse around and end of the gorge, and a half hour later Jean and Bob almost despairing that their arrows had been found, were overjoyed to hear the sergeant's voice above and then to see his lariat tumbling down.
Lawless and "Snaky" had lost no time in taking up the pursuit of Hyde and had left New York on a later train the same night, reaching Atawanna almost before Hyde was out of sight on his way to Forsythe Ranch. The two outlaws were warmly greeted by the cowboys and loungers at the corral in town, but tarried only long enough to get horses. Then rode off to Lawless' bootleg cabin, well hidden in the forest. There he left "Snaky" and started for Forsythe Ranch.
Hardy, Barry and Jean meantime rode leisurely along toward the ranch.
Stopping to drink at a stream, Bob and the sergeant dismounted and a shot from his pistol aimed at a big moose sent their horses galloping down the trail. Jean herself was carried across a ramshackle bridge as the horse bolted and when she finally came up with the riders less runaways a mile away they were in charge of a well-groomed stranger who introduced himself as Mr. Hyde. It was not until general introductions were made later that he learned her identity. Shrewd surprise and delight were fully concealed as he bowed low and said:
"I am your third cousin, Miss Bent. Your father's will directed me to hunt you up and place my services at your disposal."
Events moved swiftly the following day. Arkins, in Atawanna, was up early and caught sight of Lawless and "Snaky" emerge from a saloon, and sensing peril to Hyde, called up Forsythe ranch. Sergeant Barry answered the phone.
"Hyde's just ridden to town, he's going to remain here," replied the mounted policeman. Frantic with fear, then, for his master, Arkins exclaimed:
"For God's sake, send out him and tell him that Lawless is headed out that way!"
Chance thus favored Lawless and he struck quickly. Midway from town he and "Snaky" came upon Hyde and Arkins and promptly lassoed them from their horses. They took them to their cabin. Barry, arriving at the cabin a few moments later, had Lawless at his pistol's mercy when he was struck down from behind by "Snaky" and tied up.
Lawless held a brief consultation with "Snaky," wrote a note which he handed him and both rode away. Meantime, Bob on his way to the mine, had come to the old bridge, the scene of yesterday's runaway. At the same time, Lawless caught sight of him.
As Bob's horse, going rapidly, reached the middle of the swaying bridge, Lawless fired one shot from his rifle, grazing Bob's temple and plunging him into the rushing flood below.
Jean was on the porch when "Snaky" rode up late in the afternoon and handed her the note Lawless had given him. It read:
"Dear Miss Jean—Your father was my second cousin and left his fortune to you and me. Hyde is a lying fortune-hunting villain. My horse fell on me and broke my leg. If you will come with the messenger, I will give you a copy of the will. Respectfully,
JACOB LAWLESS."
Unsuspecting and filled with sympathy for Lawless, she rode away with "Snaky." Lawless entered the cabin soon after Jean. He showed no signs of an injury.
"My proposition to you," he began, without parley, "is that you marry me and keep the money in the family."
"Never! I'll die first."
Lawless laughed, and she seized a lighted lamp from the table as he advanced toward her. There was a blinding explosion, and Lawless was enveloped in flames.

Mrs. Elizabeth McCarthy of 247 King street was advised this morning that her son, Sergeant James McCarthy, a member of the 4th C. M. R., was reported dangerously gassed and was at present in a hospital in France.

Sergeant McCarthy is twenty-four years old and prior to going overseas was employed as a barber with his brother in Union street. He was only a short time ago discharged from hospital in England, where he had undergone several months' treatment. About two years ago he was wounded in the right arm by gunshot and, soon after recovering from his wounds, returned again to France. His many friends in St. John will hope that he has a speedy recovery.

**ONE TRAIN RUNS INTO OTHER IN HEAD-ON CRASH**

Large Freighters in Collision in Sussex Yard

**MONCTON DRIVER HURT**

Harold Bannister Pinned by Leg Under Overturned Locomotive for Three Hours—Several Cars Smashed—Accident Occurred in Land Fog

A head on collision between two C. G. R. freight trains, No. 811, westbound from Moncton, and extra No. 2878, eastbound from St. John, took place about six o'clock this morning in the Sussex yard. Engineer Harold Bannister, of Moncton, engineer of the extra, was quite badly injured. He was pinned under his overturned engine for more than three hours.

No. 811 arrived at Sussex at 5.45 a. m., with orders to meet the extra, No. 2878. The west bound was made up of thirty cars and the east bound forty-eight. No. 811 kept the main line and was waiting for the extra, when the latter came along at moderate speed through a thick land fog and crashed into No. 811 head on. The collision occurred about 100 yards west of Sussex station.

Strange to say that while the engine of No. 811 was much lighter than that of the extra, yet the engine of the extra was thrown over on its side and Engineer Harold Bannister pinned under it. His right ankle was quite badly injured. He was extricated from under the engine only when a wrecking crew from Moncton arrived. He was taken by the Halifax train. It is reported that his condition is not serious enough to cause alarm.

Conductor Taylor Costes, of the extra, who was in the rear of his train at the time of the accident, came through uninjured and Driver Gordon Harkness and the chief brakeman escaped by jumping. Conductor Bert Lockhart was in charge of No. 811, and she was driven by Engineer MacQuarrie. Four cars on the extra were smashed into splinters. One loaded with bricks and another with molasses.

The roadbed was torn up to some extent. The Sussex train division received a telegram this morning containing the startling and sad news that his father, A. H. Groat, of Wausau, Wisconsin, had died suddenly. Mr. Groat was manager of the First National Bank in Wausau. He was a native of Hudson Heights, Ottawa, and went to Wisconsin in his youth and has since resided there. He was sixty-seven years of age and is survived by his second wife, one daughter, Miss Edith, a trained nurse, who is practicing her profession in Los Angeles, Cal., and one son, H. C. Groat, of this city.

The latter has a host of friends here, whose heartfelt sympathy will go out to him and his family in their bereavement. Mr. Groat will leave for Wausau this evening and expects to be gone about ten days.

C. P. R. Superintendent Gets Sad News of Sudden Death of Father

H. C. Groat, general superintendent of the C. P. R. Atlantic division, received a telegram this morning containing the startling and sad news that his father, A. H. **FAST ONES ENTERED FOR SUSSEX RACES**

The revival of track trotting in New Brunswick and for that matter throughout the maritime provinces, which is largely due to the activity and enthusiasm of St. John and Sussex speed owners will doubtless reach a white heat of interest on Labor Day at Sussex when a good field of fast hoppers will give some attractive purses. The Sussex committee has spent a lot of time and no small amount of money in practically rebuilding the well known track. It is asserted that it is now possibly the fastest trotting course in Eastern Canada.

Without any large exhibitions including important track events and in war time when sporting matters are conducted in a subdued manner, this up-cropping of the gentlemanly pastime augurs well for a complete return of the good old days when whole stables or trotting and pacing stock would tour the maritime provinces and invade the Maine State circuits, some of the best horses going still farther afield for conquest. St. John has had quite a lot of matinee racing in a small way of late months and in winter time owners of fleet animals have tried conclusions with more or less organization on the Milkhill ice. This all goes to prove that the old spirit is by no means dead, merely slumbering, and the bold step being taken by the Sussex people to put on a hangout speed show will doubtless attract hundreds of track followers.

The horses entered for the race are—
