Arrested as Burglar, Youth Shoots Policeman Frank O'Leary; Condition Serious; More Breaks, Lads Arrested

"I'll Shoot," Says Jack Braman, "If You Arrest Me," And He Carries Out His Threat

O'Leary's Deposition Taken; Then He Goes Under Operation--Prisoner Pluckily Held After Shot Was Fired--Admits Breaking Into Mowatt's and Implicates Another--Meanwhile News of Several More Robberies Comes Out

Special Officer Frank O'Leary was shot in the side about eleven o'clock this morning by Jack Braman, a youth between seventeen and eighteen years of age after he arrested him in Clarence street on a charge of breaking and entering M. J. Mowatt's drug store, Haymarket square.

Magistrate Ritchie, Police Clerk George Henderson and the prisoner, Jack Braman, the later in charge of Sgt. Hastings, went to the hospital about noon today for the purpose of taking Policeman O'Leary's deposition. With great effort O'Leary was able to tell briefly the story of the shooting.

Pluckily, though so desperately wounded, and with blood already surging through his clothing, O'Leary clung to his prisoner until help came. Then it was found that he had his man handcuffed and it is thought he snapped the iron wristbands on after the shot was fired.

Frank O'Leary's sworn deposition was taken in a special case at the police station in the city of St. John. He stated that he arrested Braman this morning in Clarence street. I told him what he was being arrested for and warned him that anything he said might be used against him.

It is worthy of note that the day also brings out news of several more burglaries in the city. Dead's let him see don't let him go" was his plea as help arrived. His first thought was to see his duty done.

Preparations on a large scale are going on today in the army for the reception of the visiting medical corps, here to attend the annual convention of the Canadian Medical Association, which will open tomorrow.

At the time of his arrest Braman admitted breaking into the store in company with Thomas Petrie, but the latter has not yet been arrested. Leo Blizard, who is also a special constable, heard of the affair while in King square, a short time after the shooting took place.

Dr. W. W. Francis, the general secretary-treasurer of the association, accompanied by the local secretary Dr. J. B. Bentley was at the army this morning supervising the arrangements.

When the ambulance arrived to take O'Leary to the hospital, he was found lying on the sidewalk with Harry Mason holding him. He appeared to be weakening fast from loss of blood, which was running through his clothes.

The first general session will take place at 8.15 on Tuesday evening. Rev. J. H. MacVicar will render the invocation which will be followed by address of welcome by His Honor the Lieutenant Governor of New Brunswick, Hon. J. Hazen and His Worship the Mayor Dr. Murray MacLaren, the new president, will deliver his address, which will be followed by an address on medicine by Dr. Thomas McCrae, professor of medicine at the Jefferson Medical College, Philadelphia.

Thomas Braman, father of the boy, was in great distress when he found out what had happened. "He is my boy, I am his father, O what shall I do," he kept calling out as he walked up and down in front of the alleyway, crying loudly in his distress.

Arthur Bland, proprietor of the dairy said that he had closed the store about 12 o'clock on Saturday night and returned on Sunday morning between 8 and 9 o'clock, when everything appeared to be all right from the outside but inside he found that a quantity of chocolates, beer and ice cream had been taken, egg shells strewn about the floor and the taps in the cream and milk jars left open so that the milk and cream had all run on the floor. He had never seen the boys before.

Chief Clerk immediately dispatched Deputy Jenkins to the scene and the deputy after taking the young fellow in charge, took him to the hospital to be identified by O'Leary and the policeman's deposition was taken in the presence of Braman. From the hospital, the prisoner was taken to central station where he was searched and the revolver was taken from him.

NEW STREET PAVING POLICY

A new policy with regard to street paving operations is being considered by the commissioner of public works. Commissioner Potts said this morning that he believes it only fair that the city should pay the entire cost of paving those streets which are the main thoroughfares for traffic as the city generally and not the abutters profit most by improving the traffic conditions in these streets. He thought that this system should include at least one highway through the city, say from the Market bridge up Brussels which needs paving, along Union, Charlotte, King, Dock and Mill, already paved, and Main street, which has permanent paving on only a short section. Other streets which carry through traffic might also be included.

for separate waists. The model shown here requires a lining, for which about 1 1/2 yard of 35-inch material will be required. If one is a figured material let that be used for the outer blouse. Fold the material in half along a lengthwise thread place the outer front pattern (1) and the back (2). The raglan sleeve, back and front shield and undersleeve are cut from plain material. The front and back shield may be made of back, however. First make the lining, beginning by taking up dart in front as perforated. Close the center front seam. Turn hems in back and in right back shield at notches. Gather lower seam. Gather lower edge of front shield and insert section between double "X" perforations and two inches above. Adjust section on front shield, taking at corresponding perforations, lower edge and center seam. Sew standing collar to neck edge as notched. Close seam of undersleeve as notched, leaving extensions free. Turn under extension on sleeve perforations, lap to small "o" perforations. Sew in lining armholes as notched, easing any fullness. New, proceeding with the outside, place the raglan sleeve, bringing "T" to corresponding small "o" perforations and back as notched. Close under-arm and sleeve seams as notched. Gather lower edge of waist between double "T" perforations and two inches above. Arrange on lining, centers and under-arm seams even; stitch lower edges together, bringing lower front and back edges to centers. Turn hem in back of peloton at notches; close front seam, sew to lower edge of waist, centers even.

An attractive model for a separate waist that can be made from material at hand. Plain and figured effects are used to best advantage in making new models from old fabric.

If there is in your wardrobe two garments that have passed their gala days take the best portions of each and convert them into a dressy waist.

QUALITY IN EGGS

Ottawa Department Bulletin on Matter of Payment Only For What You Get

"The Payment for Eggs According to Quality" is the subject of pamphlet No. 6 of the poultry division of the Live Stock Branch, Ottawa, prepared by W. A. Brown, J. H. Hare, and W. H. Ault. This pamphlet points out that as a result of the "flat rate" or "use count" system of purchasing Canadian farmers, during the past ten years, have lost annually large sums of money through marketing many bad and inferior eggs. Investigation into this phase of the poultry industry, caused the fact that while the wholesalers were not themselves directly responsible for the losses and shrinkage they had at their disposal, the most effective means for improvement, viz., the making of a difference, not only between the prices paid for good and bad eggs, but also between the prices paid for the various grades of good eggs. The objects of this pamphlet are to encourage the grading of eggs, which can be done only by the use of an egg tester; the payment for eggs according to quality; the grading of eggs into first class eggs; and the adoption of a uniform system of marketing, which would protect not only the producer and the consumer but also the merchant. Copies of this pamphlet may be obtained free upon request from the Live Stock Branch, Department of Agriculture, Ottawa.

NOT ENTICING BUT NUTRITIOUS

Shackleton's Menu For South Polar Trip

BEST EVER, SAYS LEADER

Thirty six Ounces a Day For Each Man, But Selected to do Special Work - Travel Where Man Never Yet Has Been

London July 6—All the provisions for Sir Ernest Shackleton's trip across the South Polar continent are to be packed in sausage skins. "They are the most nutritious part of the composition," says Sir Ernest. "We tried them in Norway but did not succeed. We shall no doubt do better at the South Pole when we are hungry."

The menu prepared for the party is not an enticing one. It has been decided upon, however, under the advice of the Royal Army Medical College and is made up of food that is easy to transport and at the same time will keep the body warm and strong. The rations will be thirty-six ounces a day, compared with the average of three pounds a day eaten by the ordinary person. Waste has been eliminated from the rations of the explorers.

There will be daylight during the whole five months during which the party will be on the march so the ordinary day of twenty-four hours will be disregarded, and a new day of nineteen hours established. Supposing the hour for rising on the first day is seven o'clock, the time table will work out on these lines: 7-8 A. M.—Preparations for the start and breakfast, consisting of three ounces of lard per man, two ounces of sugar, one ounce of dried milk, wheat porridge and oats. 8-12 A. M.—March. 12-1 P. M.—Break and lunch, consisting of nut food, composed of Brazil, almonds, and beach nuts, mixed with oil and dried milk, oats. 1-5 P. M.—March. 5-7 P. M.—Pitch camp, rest, and take dinner, consisting of the same food in the same quantity as breakfast. 7 P. M. to 2 A. M.—Sleep. The same round of nineteen hours will then be repeated. Sir Ernest explains that the lard and sugar supply test; the protein builds up muscle; the nuts are the most nourishing food in the world; and the oats, mixed with other rations, afford the bulk necessary to keep the organs from becoming atrophied. "You may feel rather sick when you hear of it," said Sir Ernest, "but I can assure you that, scientifically considered, it is the finest that has ever been devised. I hope that this time hunger will play a very small part in our troubles."

GERMAN ACTRESS AND ACTRESSES HARSHLY TREATED; TOLD IN COURT

Berlin, July 6—An astonishing commentary upon the conditions in the German theatrical world, has been furnished by a trial suit at Munich. Ernst Schrupp, director of the Munich Folk's Theatre, brought action against the publisher of a magazine devoted to stage affairs who had accused Schrupp of mistreatment of his employees. The testimony at the trial disclosed conditions which moved the presiding judge to declare that "we have experience a great deal in this court room, but never before such testimony as to the mistreatment of the poorest workmen are better off than these actors. Workmen would not endure such conditions."

RECENT WEDDINGS

A marriage of interest to people of the West End, and to many friends throughout the city, was solemnized on Saturday afternoon at 4.30 o'clock, when Miss Ethel M. Man is a Better Optician Than Nature.

Man cannot make an eye that can see—but he can make most eyes see better.

As an optical instrument the eye is defective. If the defect is pronounced, it makes itself known by various forms of wretchedness. If it is slight, it may be corrected unconsciously—but doing so puts extra strain on the muscles, and extra strain on the delicate muscles of the eye is sure to bring trouble. It is safer, cheaper and pleasanter to wear properly fitted glasses.

An examination of your eyes by one of our expert optometrists will detect extra muscular strain, if it exists, and the lenses he prescribes will be exactly the glasses you need.

Players We Know. Bob Ganley hit 378 for twenty-three games in the Atlantic League. Frank Keane, who played with Fredrickton, will not go to Cape Breton, as reported. He will play with Newport in the Twin State League this year, according to information received from "Hank" Callahan. Lee McElwaine, with Houlton in 1913, is playing there, and so is George Boardman, who was with Bangor last year. Although Pat Dugan was sent back from a Class A club to a Class B team, he still continues to draw Class A salary and play Class A baseball. The former manager of the Fredericton team, while playing for Haverhill in the New England, is still the property of the Memphis Club of the Southern Association. Pete Condon has only been loaned to the Fitchburg Club and is still the property of the Lynn Club. A letter from Pat Dugan says that all the former N. B. and Maine players in the New England leagues are playing good ball and drawing good salaries.

St. John Defeated McAdam. By a score of ten to six, the local baseball club defeated the McAdam team in a game that was good in patches but which was punctuated with frequent errors. Hansen did the heaving for the locals and was in good form, being a shade better than the opposing pitcher, Fisher. The absence of several regulars from St. John's line-up weakened the team somewhat but did not prevent them from winning. The box score follows:

Table with columns: St. John, McAdam, A. B. R. H. P. O. A. E. Rows for various players like Gibbons, Riley, Donovan, etc.

Alerts Get Trouncing. In the East End league on Saturday evening, the Glenwoods defeated the Alerts by 18 scores to 2. The Glenwoods made twelve hits count for thirteen runs, hammering both Parke and Donovan hard. Thompson was on the mound for the winners and was found for eight safe ones. The banner client of the evening went to Costello, who had a three-sacker to his credit. Accept Challenge. The conductors in the employ of the St. John Railway Co. have a "hunch" that they can give the stop-ball signal to the men of the New Brunswick Telephone Co. when it comes to playing baseball, and they have therefore accepted the challenge made by the telephone artists to meet them, probably some time this week. Stovall Fined \$500. Chicago, July 6—George Stovall, manager of the Kansas City Club of the Federal League, was fined \$500 by President Gilmore for threatening not to play with Chicago unless Harry Nelly, business manager of the club, who had been discharged, was reinstated. Nelly returned to Kansas City with the team last night to seek reinstatement from C. C. Madison, president of the club. "That is a question for Nelly and Mr. Madison to settle," President Gilmore asserted. "I will not stand for a ball player or a manager threatening certain action unless he can have his own way. The fine of \$500 will make Stovall think the next time."

JOHNSON IS IN HIS THIRTY-SEVENTH YEAR. Has Passed Time at Which Other Champions Went Down. New York, July 4—The fact that Jack Johnson had reached the age of thirty-six years fifty-eight days when he risked his title against Frank Moran in Paris last Saturday has led to some interesting discussion regarding the age at which previous heavyweight champions lost their ring laurels. John L. Sullivan was thirty-four years old when defeated by James J. Corbett at New Orleans in 1892. He held the title for ten years, but Corbett was less fortunate for he retained the championship but five years, being thirty-one years old when Bob Fitzsimmons won at Carson City in 1897. Fitzsimmons' tenure of championship was even less at the age of thirty-seven he was knocked out by Jim Jeffries at Coney Island in 1899, after holding the title for two years and three months. Jeffries who met defeat at the hands of Johnson at Reno July 4, 1910, was thirty-five years old when the negro wrested the ring honors from him. He held the championship for eleven years.

EMPRESS ENTERPRISE SECURES FAMOUS PLAYER IN ESSANAY FEATURE "The Other Girl". A Splendid Two-Part Drama, Featuring the Winner of the Ladies' World Hero Contest. Francis X. Bushman. The critic of the moving picture world said this is an excellent drama. Francis X. Bushman, in the leading role, injects realism into the part, which carries the audience spellbound throughout the entire projection. The photography is all that could be desired, and the rest of the cast handle their characters well. The story runs smoothly and has an interesting atmosphere, which is bound to please patrons of the photoplay theatres. Mr. Bushman is putting forth his best efforts, and this is a very good example of his capability. The hero contest, conducted by a well-known magazine, has kept this star on edge. It has renewed his ambition with double force. Miss Ruth Stonehouse gives a splendid interpretation of the character of Ruth Thomas. "The Clock Went Wrong". A scoring comedy in which a lay man disobeys the alarm clock. "Simp Simpson and The Spirits". A funny western comedy showing that occultism did not agree with the cowboy.
