Single Team In Olympics Is Proposed

London, July 18.—The Canadian, Australian and African athletes at Stockholm, according to the correspondent of the Times in that city, favor entering a single team from the whole empire in future games, instead of entering the colonies separately. "We have an analogy in the case of the United States," adds the correspondent, "whose score points include Indians and Hawaiians."

NOTED WRITER IS IN ST. JOHN TODAY

Doctor Van Dyke Returning After The Opening of Seaman's Institute in St. John's, Nfld.

Dr. Henry van Dyke, of Princeton, N. J., a famous writer, accompanied by his son Tertius, arrived in the city this morning returning from Newfoundland. During the first part of his eastern trip Doctor van Dyke enjoyed some excellent salmon fishing, first at St. Margarets on the Saguenay in Quebec and then on the Humbler in Newfoundland. The object of his visit to the island colony, however, was to be present at the opening of the new Seaman's Institute, which has just been completed.

The institute was erected by public subscription to aid in the work which has been carried on by Sir Wilfrid Grenfell, M. D. Doctor van Dyke, president of the Grenfell Association of America, which was the largest contributor to the project, took a prominent part in the opening ceremonies.

The opening took place on Sunday with fully 2,000 stamen present at a special service held for them. On Monday a reception was attended by the governor of the island and many of the prominent citizens. Letters of congratulation and regret at their inability to be present were received from His Majesty the King, His Royal Highness the Duke of Cornwall, President Taft, and ex-President Roosevelt and others including several members of the crews of the British fishing fleet in the North Sea.

The building is a substantial and roomy one and will afford good accommodation for many seamen. Lodgings will be provided for a certain number of entertainers and recreation for a larger number. As St. John's is visited annually by 75,000 fishermen, in addition to the native population, the need of such an institution is pressing. The main object of the work is moral and religious, but one of the interesting features will be teaching the seamen and fishermen to swim, in the large swimming tank. Numbers of fatalities occur every year from lack of this knowledge.

This is Doctor Van Dyke's first visit to New Brunswick in half a dozen years, and he commented warmly on the improvement in St. John during that period. He said this morning that the general appearance of the principal streets seemed more businesslike and there was evidence of much more business being done. He had also noted with approval the number of buildings which were being painted and cleaned up, giving the city a more attractive appearance and also work which is being done in laying permanent pavements.

When asked about his literary work, Doctor Van Dyke said that he has a new book of short stories woven around a single theme coming out in September under the name of "The Unknown Quantity." He may leave this evening for his summer home on Seal Island, Bar Harbor, Me.

THE WEATHER

Toronto, July 18.—An area of high barometer over the northeastern states is likely to spread eastward following a very shallow low depression which covers Ontario and Quebec. The weather is fine throughout the dominion.

BARBE IS OF FIFTH GENERATION

Pictou, Ont., July 18.—The birth of Wm. Everett Dullmage has brought out a remarkable instance of longevity of a family, of which the month-old child is a member. When the little fellow was born he had seven grandmothers and five grandfathers. He represented the fifth generation on his mother's as well as his father's side of the house.

His great-great-grandmother on his mother's side is Mrs. Ostrander, familiarly known to many in South Marshburg as "Aunt Beckie." She celebrated her ninety-second birthday on July 3, and is still in fairly good health.

A big bargain sale of silks will commence at Macaulay Bros. & Co's store tomorrow, Friday, when several hundred yards of rich patterned silks and color, dainty foulards in the popular small designs and a quantity of stylish shot silks will be offered at a fraction of the regular prices. These goods were purchased some months ago from a big European manufacturer at a big reduction. Consequently this firm, ever on the lookout for bargains, is enabled to give customers the benefit of this big concession in price, see adv above for particulars.

BRITISH PROTEST IN PRESIDENT'S HANDS

Washington, July 18—Great Britain's formal protest against the Panama Canal bill, now in the senate, was presented to Secretary of State Knox today by A. Mitchell Innes, charge of the British embassy.

Secretary Knox will send it at once to President Taft, who will probably transmit it to congress with a special message.

Mr. Innes met a British mail steamer in New York yesterday, and brought the note in person to Washington. The communication is understood to be an elaboration of the arguments of objections to the free toll provisions of the canal legislation outlined in the note of Mr. Innes to the state department on July 8.

JURY DISMISSED, NO DECISION.
After having been out today for three hours and a half in the case of Howard C. Park vs. B. V. Millidge et al, the jury returned in the circuit court this morning bringing an answer to each of twenty-nine questions asked. Some replies were favorable to one side and vice versa, so no decision was given. Judge White dismissed the jury and will give judgment later, after hearing further argument.

CATHOLIC CHAPEL CAR

Second Church on Wheels to Tour South West

Chicago, July 18—An all-steel chapel car, "St. Peter" the second church on wheels after the first of the Catholic church on exhibition here. Next week it will be taken through the west and southwest territory where there are no churches.

The car is equipped with everything necessary for the celebration of mass and other religious devotions. It has an altar, sanctuary, stations of the cross, confessional and thirty pews. The car was recently presented to the church by a Dayton, Ohio, man, and cost \$25,000. Rev. J. O'Brien will chaplain on its journey west, and will have living apartments in the car.

It is the intention to have the chapel attached to regular trains, and at various points the car will be used for the purpose of mass and other services on a day or more. The "St. Anthony" a similar car, was sent west five years ago.

CHURCH CIRCLES ARE AGITATED OVER CREED

Germany Exercised About its Position in Their Liturgies

Berlin, July 18—Church circles throughout Germany are becoming deeply concerned with regard to the position of the Apostles' Creed in their liturgies.

Both the Nicene and Athanasian creeds have long been regarded, especially in the churches of the reformation, as containing matter which historically or scientifically educated Christians cannot wholly accept as binding, but until recently the Apostles' Creed, or the "Apostolikon," as it is called here, has escaped hostile criticism owing to its extreme simplicity and dogmatic character, and its comparative freedom from dogmatic assertions.

A number of ecumenical organizations have, however, felt it incumbent on them recently to protest against the use even of this simple creed at confirmations and baptisms, and more especially at the ordinations of young clergymen, and a movement of great strength has set in to abolish it from the services of the church.

This movement has gained strength by the accession of Doctor Lehmann, of Berlin, a man who is highly respected on the orthodox side. In a sermon on the subject of an enormous congregation he defined his position, which appears to be highly illogical. He will still maintain the use of the Apostles' Creed in the entirety, but he cannot consent to ask the recognition of its separate dogmas, especially of those which cover the resurrection of the body and of the descent into hell. In most church circles it is generally believed that the fate of the "Apostolikon" is sealed in Germany.

PARDONED AFTER FORTY SEVEN YEARS IN PRISON

Notorious Brigand Chief of Italy is Given His Liberty

Milan, July 18—After more than forty-seven years imprisonment, one of the most notorious brigand chiefs of Italy in the middle part of the nineteenth century has been pardoned by King Victor Emmanuel. Giuseppe Bellotti, as he is called, was regarded as a born criminal. He came from the Neapolitan provinces, and as a boy he proved himself a cunning incendiary and a cattle thief. Later he served a sort of apprenticeship to brigandage in the dreaded bands captained by Crocco Donatello and Nino Nanco, which were then overrunning Calabria and the provinces of Apulia and Basilicata.

He next became a full-blown chieftain, with a following of a dozen terrorists who, after a long run of good luck, finally found themselves hemmed in by Italian soldiers. Seeing his freebooters captured, Bellotti was surrendered to the crown, and he was court-martialed and sentenced to death by passing upon him, but this was eventually commuted to penal servitude for life at Civita Vecchia convict quarries.

Reference to Bellotti's crime-sheet shows that he was condemned for no fewer than sixty-five murders, blackmail cases and other offenses. He was, however, the chief distinguished himself by unflinching good conduct, and by hard work he was able to make a little board of savings.

MINIMUM WAGES TARIFF

Geneva, July 18—The official bankruptcy department at Zurich has just prepared, after careful study, a minimum wages tariff for both sexes. It is a curious document, attempting to prove what are the lowest sums upon which persons can live.

The following are some of the tariffs per month which are considered absolutely necessary: Single man, \$21; married couple without children, \$29; with children up to six years of age, an increase of \$3.00 a month for each child; children up to fourteen years \$4; and up to \$20 a month, \$8.50 each a month. In this minimum official list are included life and illness insurance and doctors' fees.

The Bible differs from all human literature in this—that it is a living, vital thing—ever new, ever replenished with fresh surprises.—Mrs. Barclay, author of "The Rosary."

The total number of domestic fowls in California increased from 4,195,460 in 1900 to 6,097,266 valued at \$3,844,539 in 1910.

CONFESSED 40 MURDERS PAPER HAS TO PAY \$250

Veritable Dun Discovered - Woman Lured Travelers to Doom

It is Costly to Even Mildly Criticize Government in Russia

Warsaw, July 18—A veritable murder king has been discovered in the village of Kurdio, in the Novoye Ladogas government. It was remarked that of a large number of men who visited a house on the outskirts of the village tenanted by a peasant woman named Ivanova Tamara and her seventeen-year-old daughter Olga, not one was seen to return, and the discovery of corpses mutilated beyond recognition in a neighboring wood led to the house being surrounded by a force of gendarmes under Colonel Vassili.

The woman and her daughter were secured after a violent resistance, and a search of the house resulted in the gruesome discovery of twenty-seven corpses in a storehouse, as well as a great number of watches, purses, and other articles of value, and a quantity of male garments.

The eating room of the house was furnished with a trap door through which the victims were precipitated into the cellar. In the latter murderous instruments and fetters of all sorts were found.

The women confessed to being at the head of a band which, during recent months had robbed and murdered forty men who had been decoyed to the house by Olga. She mentioned thirty other peasants belonging to the band who were also arrested. Nine others escaped.

"OH, WOMAN, WOMAN, WHAT A SEX YOU ARE."
Knicker—Women are queer.
Booker—Yes; as soon as a man can keep whole roof over his head they want a perchola.

PROVINCIAL FARMING

The condition of the crops in New Brunswick, while not as good as had been hoped for early in the spring, is apparently more satisfactory than was anticipated in the early part of June.

The Prince Edward Island Department of Agriculture has issued a report in which it is stated that the hay crop of that province will be below the average and winter wheat is in a very poor state.

In these provinces, where mixed farming prevails and the conditions of climate and soil are such as to make for rapid growth, there is a complete crop failure.

In the Annapolis Valley the fruit growers are having some trouble with the San Jose scale. Live scale has been found on some trees which were imported from Ontario and set out in 1910, 1911 and 1912.

The experts who have been making a survey of the orchards have already destroyed some 800 trees, and another thorough inspection of all the orchards in the Valley will be made later in the season.

The united fruit companies of the Valley have organized a central association, in which twenty-four out of the twenty-seven fruit companies are represented.

Through this central organization the companies, which are co-operative, hope to be able to more fully develop the principle of co-operation, and attain greater success in marketing their products in the old country.

The organization of the first co-operative creamery in Nova Scotia has just been effected. It is called the Cumberland Co-operative Creamery Co., Ltd., of River Herbert, and is composed entirely of farmers.

provide for the little ones. Commenting on the report on Catholic children, Mr. Wm. O'Connor points out that of the 101 dealt with no less than forty-nine had both parents living, while only five had both parents dead.

Since the beginning of the work for children's aid in Ontario by these societies about 7,000 Protestants and 1,453 Catholics names have gone on the records.

The report from which the facts here given are taken contains summary reports of the work of the Children's Aid Societies in the various cities, towns and counties, and these show that a really splendid work is being done.

The Times commends the story of Ontario to its New Brunswick readers. Our own province is still without legal machinery by which Children's Aid Societies may be organized and made effective.

The result of the Saskatchewan election moves the Conservative Toronto World to say that "there should be some tariff reduction in respect of any tariff provisions which may be found to exist to the prejudice of the prairie provinces."

King Square, with its green sward and trees and colored lights presents of an evening one of the prettiest pictures to be found in any Canadian city, and it is not surprising that hundreds of citizens linger to enjoy this little corner of fairland.

PROVES CLAIM TO ENGLISH BARONY Francis Coutts New Lord Latimer—House of Lords Committee so Decides

London, July 18.—The committee on privileges of the House of Lords has decided that Francis Money Coutts, nephew and heir of the late Baroness Burdett-Coutts, had definitely established his claim to the barony of Latimer.

Francis Money Coutts, now Lord Latimer, Lord Scales and Lord Ballemore, is the son of the late James Money, co-heir of the late Baroness Burdett-Coutts, from whom he inherited her predominant share in the great banking establishment of Coutts, as well as all of her entailed property.

The barony for which he has now successfully established his claim has been in abeyance for over 200 years. The title was originally held by the house of Neville, from whom the claimant is descended on the distal side.

In cases where peerages fall into abeyance it is usual to permit them to remain dormant until all but one or two of the co-heirs have died out, and the peerage is called out of abeyance in the event of the other co-heirs having left no children.

The present Lord Latimer is a member of the bar and a man of literary attainments, having to his credit several volumes of poetry.

SUMMER SHOE SALE

Now is The Time to Provide Yourself and Family with Suitable Footwear at prices that help solve the question of the high cost of living.

All day yesterday our stores were crowded and customers were amazed at the bargains offered.

We are anxious to clear our shelves and make room for fall goods now in transit.

The ideal weather demands cool, comfortable footwear and the slimmest pocket book will provide suitable foot covering for a family during the life of this sale.

Bins have been erected in the three stores from which can be selected new, clean goods, at prices so low as to do away with the idea of having an old shoe repaired.

What is true of all sales, applies equally well here—the early shopper gets the plums.

BIG PLANS FOR MCGILL

Stadium, Dormitories, Rink And Gymnasium on Fletcher's Field

Montreal, July 18—While the board of governors of McGill University have not yet ratified the plans, it is understood from an authoritative source that the disposition of the million dollar property on Fletcher's Field presented to the institution by Sir William Macdonald has practically been arranged for.

The plans provide that the big property forming the new campus of McGill will contain as fine an athletic stadium as is on the continent. Dormitories capable of housing the majority of undergraduates non-resident in the city are certain. A closed ice hockey rink and a magnificent gymnasium are also to be constructed.

It is not known when the work will begin but it will be impossible to have those plans put into execution before the fall of 1913. Preliminary surveys are now in progress and it is quite possible that the athletic field may be available for the approaching college season.

The realization of the possibilities involved in the new property has been deferred owing to the scarcity of funds which during the last few years has more than once endangered the efficiency and reputation of McGill. Montreal's famous rally last fall afforded the university ample facilities to clear of outstanding liabilities and proceed unhampered with existing equipment but beyond this it could not go. Hence for almost a year there has been nothing done with the new property. Now, however, funds are in sight and the university authorities are carefully considering plans for the disposition of the property.

WHAT BECAME OF THEM?
There is some anxiety as to the whereabouts of a young man and young woman who had been boating at Millidgeville Tuesday. Their boat is tied up on the beach at Millidgeville and in it are a pair of woman's shoes and a woman's hat. From what can be learned they went ashore in their little sailing dingy Tuesday evening during a heavy shower and asked permission of a summer resident, whose home is close to the water, to leave their boat on the beach till after the shower. Almost immediately, however, the rain ceased and they proceeded again in their boat. They said that they had come from Brandy Point and were going to Brookville.

Last night their boat was found some distance away from where they had first landed. The question now asked by the summer residents in that vicinity is who were the young people, who were said to be about eighteen or nineteen years old, and where did they go? The boat is about thirteen feet long, of natural wood and nicely finished.

A NEW FACTORY.
During the last few days negotiations have been going on between the firm of Hutchings & Co. and the owners of the nut and bolt factory near the railroad track at Courtenay Bay between Meeklenburg and Queen streets, for the purchase of that building. It is with the intention of building a factory for the manufacture of mattresses and springs that Hutchings & Co. are trying to purchase the property. When asked about the matter yesterday afternoon, Mr. Hutchings said that he was not certain whether the deal would go through or not, but in all probability it will be closed, unless some obstacle is encountered within the next few days.

The late Dr. C. A. Lee, of Hull, who left £195,888, bequeathed £170,000 to charities, and instructed his trustees to cancel all his medical book debts.

**MARTIN CHUZZLEWIT
SPLENDIDLY GIVEN
ON NICKEL CURTAIN**

Dickens Readers Delighted And All Who Crowded Theatre Greatly Pleased With Fine Presentation of Great Story

To all who have read Charles Dickens' story, Martin Chuzzlewit, the motion picture presentation in the Nickel theatre last evening and today is of absorbing interest to any who have not read the book it is still strongly attractive and interesting because of the well connected drama made from the story and the excellent acting of those assuming the characters.

It is a product of the Edison players and of their best, rivalling in all instances, exceeding in some, the big presentations of famous works of fiction which have graced the Nickel picture curtain.

Whoever wrote the scenario placed in the actors' hands a wonderfully comprehensive condensation of Dickens' great tale. Opening with a scene showing the Chuzzlewit relatives pressing in upon the old man to win his favor as a way to his money, the picture drama takes one down through the Pecksniff intrigues and hypocrisy, the love tales of Martin junior and Mary, of John Westlock and Ruth, and shows the scheming of Montague Tigg and Jonas Chuzzlewit, and the latter's murder of his old father and of Tigg and his suicide when his crimes have crowded in upon him.

The stage trip of Martin and Mark to the United States and the hardships of their life in Eden are vividly shown; then their return to friends and vindication in the eyes of old Martin and the happy ending of the story for them.

One missed Sundry Gamp and Betsy Prig but while they play an important role in amusing the reader of the book they are not essential to the success of the picture presentation. But dear old Tom Finch is there with Ruth, Charity and Mercy, old Chuffey and others who are known throughout the English speaking world because of the deft character touches given them by him whose brain evolved so many that have become almost personal acquaintances of hundreds of thousands of readers.

The picture play is excellently acted. The characters have evidently been well studied and the costuming corresponds minutely to the descriptions which Dickens gave of those of whom he wrote. Pecksniff is acted in masterly fashion, in fact all those taking part have, in the roles assumed, portrayed the characters as Dickens' readers pictured them in reading the story.

Oliver Twist, David Copperfield, Our Mutual Friend, The Tale of Two Cities, Martin Chuzzlewit and the Old Curiosity Shop have now been seen here in motion pictures and they make one wish for Dr. Dombey & Son, Nicholas Nickleby and others. The picture story last night was told in three long reels and with excellent orchestral music, a song by Mr. Sana Souci and Springtime song, daintily sung by Miss Betty Deane, made a wonderfully pleasing hour of enjoyment.

THE INDIAN ATROCITIES IN PERU

London, July 17.—Frances Dyke Ackland, parliamentary under secretary for foreign affairs, in reply to questions in the house of commons today, on the subject of the atrocities in connection with the rubber industry in the Putumayo district of Peru, stated that the British government throughout had been in close communication with the United States government. He assured the house that whenever American sympathy and support would be helpful, they would be readily forthcoming. Mr. Ackland hoped that the publication of the blue book by the foreign office, would stimulate private enterprise to establish a mission to help the victimized Indians.

RAILWAY MAN'S PROTEST AGAINST INCREASED PAY

New York, July 17.—R. A. Worthington, president of the Chicago & Alton, finished his argument against the increase in pay of engineers on eastern railroads before the arbitration committee at Manhattan Beach today, and some of the men who operate locomotives of the fastest trains in the country were called as witnesses.

Dean Wood, engineer of the Twentieth Century Limited, on the New York Central, said he makes the run between Syracuse and Albany, 148 miles, in 160 minutes, including slow downs. He added that he made as high as 54 miles an hour on straight tracks. In the 148 miles he said he passed 151 block signals, all of which he had to see.

On cross-examination by A. H. Smith, vice-president of the New York Central, Wood said he was not on the Empire State through train, but because he was assigned to that train. He said he worked 12 hours every other day and was paid \$186 per month.

C. P. Gallagher, engineer of a fast passenger train on the Boston & Maine, said he runs from White River Junction (Vt.) to Springfield (Mass.), and that there are 270 signals on the 123 miles of track. He said he was paid \$9.12 1/2 per trip or about \$183 a month.

MR DOBSON TO CENTENARY?

Stones, N. B., July 17.—At a meeting of the official board of the Methodist church, held here this evening, resolutions were unanimously passed releasing Rev. J. Dawson to become the pastor of Centenary church, St. John, and asking that the Rev. Dr. Flanders be appointed to succeed him here. This action was taken in response to Centenary's request for Mr. Dawson.

Figure It Out Yourself, Mr. Man ---the Amount You Can Save by Taking Advantage of This Great Clothing Opportunity

But it isn't the saving alone that should make the strongest appeal to you, it's the clothing itself that should be the chief attraction. It's the best clothing, in every particular, that can be made. Make comparisons — that's all you have to do to be convinced. If you were to place the clothing sold in other stores as "wonderful bargains" beside our offerings, you'd be astonished at the big difference in favor of our prices. And when it comes to quality of fabrics, workmanship, style and fit, our clothing cannot be surpassed and is rarely equalled. Then the question of wear should be considered—and when it comes to wear, Oak Hall Clothing is in a class by itself. Taken all in all, this is without doubt the best collection of clothing bargains we've ever had to offer, and that means the best any store ever had to offer.

Remember, this is not a sale of odds and ends, but takes in our entire stock

REBEL FORCES STILL WINNING IN ALBANIA

Troops Have Been Rebuffed in Many Directions—300 Forced to Surrender.

Constantinople, July 17.—The news received here today from Albania is serious. The troops have been rebuffed by the Albanians in many directions. Four battalions of infantry were recently surrounded on the river Kuma near Dakova in the village of Koseovo by the Albanians and over 300 troops with three of their officers were forced to surrender. They were disarmed and carried off to the rebel fastnesses. The remainder of the Turkish troops retreated to the town of Dakovo where they are besieged by the Albanians.

STILL AWAIT THE MONEY

Misplaced confidence was responsible this week for the apparent loss of a fairly large sum of money to a local shoe firm, who shipped a large order of boots and shoes to a man in Hartland. It is reported that he sold them and left. No money has been received by the firm in receipt of the goods and the purchaser is now across the border. He is not a Hartland man, but moved there a short time ago. The amount involved is about \$120.

COURTNEY BAY

The second locomotive for the Courtney Construction Company was safely conveyed across by yesterday from the Ballast wharf and landed at the scene of the works. Some of the heavy dumping cars are being taken to the site. The contractors are making rapid progress with the work of excavation and are now at work almost around to the Municipal Home. The material is being placed on the breakwater site for the foundation.

R. K. Y. C. CRUISE

A meeting of the committee in charge of the arrangements for the annual cruise of the R. K. Y. C. was held today and further preparations were made. A large number of boats have entered and several others will join for at least part of the trip. The yachts will leave on Saturday and the cruise will finish on Sunday, July 27, after the annual divine service, which will be conducted by Rev. G. W. Campbell.

NOVENA

For the benefit of the great number of parishioners who were unable to take the pilgrimage to the shrine of St. Anne de Beaupre this week, a public novena was begun last evening in St. Peter's church, North End, in connection with the church was crowded to the doors. Prayers were recited by the pastor, Rev. A. J. Duke, invoking the blessing of heaven on those assembled, and asking that their petitions be granted. The novena will be continued for nine days, with services each evening.

CENTENARY PASTORATE

The pastorate of Centenary church has been settled for another year. At a recent meeting an invitation was extended to Rev. J. L. Dawson, of Sussex, and last evening the Sussex congregation adopted a resolution releasing Mr. Dawson and asking that Rev. Dr. C. R. Flanders be appointed to succeed him. All that is needed now is the ratification by the interim stationing committee and it is expected that this will be given at the meeting which is to be held in Fredericton tomorrow evening. Rev. Doctor Flanders expects to leave for Sussex on Wednesday or Thursday of next week. The arrangement, in both churches is for one year only.

BURIED TODAY

The funeral of Miss Hazel Spurr Cookson took place this afternoon at 2:30 o'clock from her parents' home in Padlock street. Funeral services were conducted by Rev. F. S. Porter and interment was in Fernhill. There were many handsome floral offerings including a large wreath from Mr. Cookson's employers, Waldron Drouin & Co., Montreal.

POLICE SUPERVISION NEEDED

The policeman on the Haymarket Square beat should give some attention between seven and half-past eight in the evening to the vicinity of the afternoon playground. Last evening after the base ball game on the dump a group of large boys went into the playground and acted in a disorderly manner. This is not the first time, and an example should be made of some of them. There were nearly a hundred small children on the playground last evening, and they greatly enjoyed the privilege. Among the visitors to this playground yesterday afternoon were two from Boston, and they were greatly pleased to see what was being done for the little ones, and surprised at the skill shown in basketry.

NEW PITCHER NOW HERE

White of Boston Nationals in Marathon Uniform This Week

—Boston Chat About Our Teams

The Marathons are playing in Fredericton this afternoon. George Winter is booked to do the twirling, while either Harrington or Mount was to pitch for the Capitals.

Steve White, the Boston National pitcher who has been signed with the Marathons, will arrive here tomorrow and will pitch one of the games here against Fredericton this week. White is an R.I. pitcher and ought to strengthen the Greaves considerably.

Last evening's Boston Globe had the following:

Many Greater Boston athletes playing in the New Brunswick-Maritime Baseball League teams are giving a splendid account of themselves this summer.

George Winter, formerly of the Boston Red Sox pitching staff, who is captain and manager of the St. John Marathons team, was in the city Monday looking up a few players.

Winkler, a pitcher, and Harry Dutton, a first baseman, are two of the leading members of the Marathons team, while "Chick" Fraser, formerly of the Dorchester High baseball team, is playing a slugging game at second.

Four Dorchester boys, three former high school players are identified with the Fredericton team, which is at present leading the league. They are William Brennan, pitcher; Larry Conley, pitcher and outfielder; Coleman Conley, outfielder; and John Murray, a catcher. The first three named are former Dorchester High School all-around athletes and their work has been followed very closely.

Stanley Bates, formerly of the Quincy High School athletic team, is playing for Fredericton. Frank Harrington of Wakefield, formerly of the Washington team of the American League, are also showing fine form with the leaders.

Ed Stanley, who has gained much fame as a major leaguer, is playing right field for Fredericton, and is captain of the team. Pat Duggan, a former minor leaguer, is manager of the Fredericton team.

Houlton has a formidable team. Urquart, a pitcher from Amherst College, is a member of this team.

Woodside, N. B. Woodside among its stars Charles McLaughlin, who captained the Harvard Varsity team, two years ago and "Zeke" Reeves, who captained the Varsity team at Harvard a year ago and this past season.

Frank Harrington, formerly of Melrose High School, who pitched several important games for Brown University the past season, was pitching in his league until his arm gave him trouble and he asked permission to return home. He has had several chances to return, but as he has a condition to work off at Brown before he returns to college, he thinks he will remain in Melrose.

CITY IS CLEANER

Board of Health Inspection Shows Satisfactory Improvement

The duties of the nine special inspectors appointed by the board of health several weeks ago to make a round of the city in an annual spring cleaning campaign is about ended. Seven have already finished and the other two are expected to complete their work this week. They visited all sections of the city, which was divided into districts for the purpose, and went over their routes twice to see that any recommendations which they made at first were attended to. In most cases there was nothing to complain of, as the yards and premises in almost every section were clean.

The reports of the inspectors will probably show that the city is now in better condition than for many years and that the people are taking greater care of their premises. Usually a third inspection has to be made at a large number of properties, but this year there will be occasion for this in fewer places than formerly.

One of the reasons given is the fact that hundreds of patent closets have been installed about the city at the instigation of the board.

PROGRESS AT SAND POINT

The construction of the sea wall at Blue Rock, to protect the foundation of the immense grain elevator which is to be built there by the C. E. R., is progressing rapidly. Commencing at a point midway in the former bathing beach, it circles around Blue Rock and runs into the shore again in the section of the present elevator. The sea wall has already been raised to above high-water mark in some places. As soon as the wall is completed it is expected that work will commence on the foundations for the elevator.

FOR DRISCOLL AND KILBANE

New York, July 18.—The National Sporting Club of London is making an effort to match Jim Driscoll, feather-weight champion of Great Britain, with Johnny Kilbane, for the world's title. Charles M. Matheson, representative of the London club in this country, received a cable message last night, asking him to take up negotiations with Kilbane. No price was suggested, but it is understood that the club is prepared to hang up a big purse.

Boston, July 17.—Though battling fast for twelve rounds, the verdict in the bout last night at the Pilgrim A. A. between Matty Baldwin, the Charlestown lightweight, and Tommy O'Keefe, of Philadelphia, was a draw. As usual there was division of opinion. Many figured that Baldwin should have received the decision. Others thought O'Keefe was entitled to it and yet others considered the award just one. It was the feature event of the meeting, the first one the club will hold till September, and the programme was a good one.

GRAND ORANGE COUNCIL

Glasgow, Scot., July 18.—The triennial conference of the Imperial Grand Orange Council of the world opened yesterday. Andrew Weir, a New York delegate, presided the assemblage there were 100,000 Orangemen in America who were ready to stand beside the men of Ulster, foot and foot and financially, in order to wipe out home rule.
