WHAT P. E. ISLAND IS DOING IN FIGHT AGAINST CONSUMPTION

Associations Organized in All Counties — Free Dispensary Opened — Govt. Makes a Small Grant — The Disease Very Prevalent

CHARLOTTETOWN, P. E. I., April 8.—Out of 560 deaths which occurred in Prince Edward Island, according to the official returns for the year ended May 31st, 1932, 142 were due to tuberculosis. The returns for this year, although not officially presented, show that there has been no appreciable diminution in this rate, which is 15.50 per cent of the total mortality. Well might the people say a "plague on the White Plague," which is adding emigration in despoiling this province. The past year, however, has witnessed a determined and organized movement against tuberculosis. One society was organized two years ago, but did not accomplish much, mainly because the medical men did not show in general the active interest which is essential to success. The society was reorganized last December and medical men given the principal offices, including that of president. This society covers Queen's and Kings counties, with headquarters at Charlottetown. Since its organization a number of lectures have been delivered throughout the province, literature distributed, and a dispensary established in Charlottetown, at which steady cases of tuberculosis and other diseases are treated free of charge. The legislature last closed voted \$800 for the whole province to be divided equally between the three counties and used for the purpose of securing anti-tubercular literature. Besides the society for Kings and Queens counties there is another doing good work in Prince Edward. A plan is being considered for the organization of subsidiary associations all over the island, and it is expected that an organization will shortly be appointed. Thus the people are being steadily educated to the necessity of staying in the open air, the danger of smoking, and the danger of tuberculosis which has obtained such a foothold here. This is one of the oldest provinces in the world, especially in the country, where some people have kept their parlors and best bed rooms religiously closed to the pure air and sunlight except on rare occasions. However, the campaign is now going on in earnest, and it is fervently hoped that next year's statistics will tell a more encouraging story.

MURDERED MAN'S SISTER ON THE STAND TODAY

Mother Also Testifies in the Sampson Trial—Expert Evidence to be Heard.

LYONS, N. Y., April 8.—Mrs. John Ebert, wife of a neighbor of Harry Sampson, was a witness in the trial of Mrs. Sampson, charged with murder of her husband, Harry, last November. Mrs. Ebert's testimony corroborated in many details the evidence given by her husband and the parents and the relatives of Mrs. Sampson. A microscope stood on the desk of the District Attorney today and indicated that Sampson had used the money regarding the bullet hole in Harry Sampson's shirt and whether the perforation showed powder or not will develop before the day is over. Mrs. Georgia Sampson, mother of Harry Sampson, with her daughter, Miss Gertrude Sampson, and son, George W. Sampson, sat within the rail today and listened to the testimony. Mrs. Ebert said she went to the Sampson house after the shooting and during the day she cut up slices of cheese, which she found wrapped up in a piece of paper, for a cat. This is the piece that Sampson is believed to have had in his hand when he was shot. Miss Gertrude Sampson, sister of Harry, was next. She said she visited her brother's home the evening of the shooting. Miss Sampson asked for Georgia that evening, but did not see her. Miss Sampson was followed by her mother, Mrs. Harriet Sampson, who said that she and her husband called at the Allyn home the day Harry was shot. Mrs. Sampson said that she saw Georgia that day. Mrs. Sampson's husband died a few weeks ago. Cross-examined Mrs. Sampson said that Mrs. Allyn asked her if she wanted to see Georgia, and she replied that she did not want to. "What did Mrs. Allyn say?" "If you don't want to see her you need not," said Mrs. Sampson. Percy Sampson, a brother of Harry Sampson, took the stand to say that he was at the Allyn home the Sunday of the shooting but did not see Georgia. Early Cervice, of Macdonald, said he knew Robert Manson, who had visited him last summer. Manson, it has been testified, wrote a letter to Georgia Sampson inviting her with Mildred Cervice to spend a few days at Niagara Falls.

BRITISH TROOPS IN EAST AFRICA ORDERED TO PROTECT THE ROOSEVELT PARTY

Unrest of Natives in the Hunting Grounds Leads Colonial Office to Take Precautions for the Ex-President's Safety—Plans of the Hunters Almost Completed.

MOMBASA, British East Africa, April 8.—According to native reports received here the Mullahs of the Somali inhabiting the desert country north of the Protectorate are showing further signs of unrest and are massing on the northern boundary of Kenya Province. This restlessness became evident some six months ago and there has been apprehension of trouble in the dry season when travel over the trails is easier. This northern district always has been a territory to watch closely. When the natives do go out for trouble they generally bear to the westward in the direction of settled districts and the good hunting grounds. There is today some local anxiety, particularly as a majority of the Protectorate groups are at Kerbera, in British Somaliland. It is said here that the colonial office in London has issued instructions to the Governor of the Protectorate to surround Mr. Roosevelt on his trip with utmost precaution for his safety.

TERRIFIC WIND-STORM DOES IMMENSE DAMAGE THROUGHOUT NEW ENGLAND

Gale Attained a Velocity of Ninety Two Miles — Great Damage Done to Shipping—Barges Missing, and Crews Probably Lost

BOSTON, April 8.—The hurricane over the St. Lawrence River dragged in an air movement across New England today of velocities ranging from 50 to 92 miles an hour. Such a gale has not been experienced in this vicinity for many years. The storm came unheralded, for no cautionary signals were issued by the weather bureau, and a number of vessels were caught off the coast. Three barges were reported to be in distress off the southern Rhode Island shore at 8 a. m. today. A little ship was driven on the end of Cape Cod, and many vessels lost sails and other gear by fury of the blast. The highest wind velocity that has been reported in New England for sixteen years was reported from Blue Hill observatory at 8.30 a. m. today, where the flying whirling anemometer cups registered 92 miles an hour. This velocity has only been seen once in the 36 years' history of the observatory, when 100 miles an hour was registered in 1898. The wind blew 40 miles an hour off Cape Cod and 45 miles an hour in this city. Remembering a similar gale of almost a year ago, many citizens of Chelsea today became panic-stricken when another fire broke out in the stricken city, and for a few minutes threatened to repeat the work of destruction of that of April 12, 1933. NEW LONDON, Conn., April 8.—While coming up Long Island Sound last night the tug LeMartin, with five barges from Perth Amboy for New York, broke up against the rocks, and, owing to the terrific gale, only two of the barges were picked up, although the crew of a third was rescued. The tug parted a mile south of Race Point, and as a search this morning failed to locate the missing barges, it is believed that they have been lost. The barge from which the crew was rescued is the Breeze, the other two missing being the Brunswick and the Acre. CHARLESTOWN, R. I., April 8.—Three barges, flying signals of distress, were the objects of attention on the part of the life saving crew of the Quonochontaug Station. Two of the barges were together and about six miles off shore, while the third barge was some two miles beyond the other two. The wind was blowing a 50-mile an hour gale from west-southwest when they were sighted. The crew of the Quonochontaug Life Savers launched their lifeboat and started to pull out to the assistance of the distressed craft. One of the barges nearest shore was gradually settling in the water and at 10.30 a. m. only the tip of her deck could be seen above the water. The identity of the two tugs and the three barges could not be made out from the shore. CLEVELAND, April 8.—Word was received here today that the tug George Flood, with seven men aboard, reported missing Wednesday, after safely at Fairport, 30 miles east of here, late in the day after a hard struggle with the wind and sea. TORONTO, April 8.—Reports of damage from the storms are coming from all parts of Western Ontario, in this city telephone poles and uprooted trees block several streets. The roof of the tower of the grand stand at the Island baseball park. The street car service was tied up. Several business houses were unroofed. The tower of the Central fire hall was blown down, wrecking a machine shop next door. At Fort Dalhousie part of the roof was blown off the grand stand at the Rubber Factory, Ridley College gymnasium was also unroofed. A school house at Guelph was completely demolished.

TRYING UP WORK UP AN AIRSHIP LINE ACROSS STRAITS OF NORTHUMBERLAND

Graham Bell's Suggestion Arouses Interest — New Steamer Expected to Solve Navigation Problem—The Brule Route to be Tested

CHARLOTTETOWN, P. E. I., April 8.—During the last fortnight in March and the first week in April the east wind, by blocking Pictou, has caused considerable irregularity in the trips of the winter steamers, which have been detained from two to five days at a time. This, of course, brings to the surface again the agitation which has been almost a yearly occurrence since Confederation for better means of communication. The Dominion Government in 1931 added \$20,000 a year to our subsidy for all time to come as compensation for the loss to the Province arising out of the failure to keep up that continuous service winter and summer, which has been William Rufus or any other of the many before the Provincial Legislature closed a statement of claims against Canada was submitted by a committee who have not yet completed their work, but among other things they have estimated the winter communication claim since 1931 at \$300,000. The tunnel of course is still kept in view, although the local legislature passed no resolution on the question this session. The expectation that the new winter steamer, which is now being built by the Vickers Maxim Co. will help solve the problem has had a tendency to make the demand for the tunnel less insistent. The recent development in aerial navigation has brought into consideration the practicability of an airship crossing the Straits, which at their narrowest part are only nine miles across, and which could therefore be crossed at the speed which Zeppelin's air ship developed, in about ten minutes. The airship agitation is of quite recent origin, and quite a number do not know whether to take it seriously or not, in view of the marvelous progress that has been made in aeronautics. The question is now being discussed in the "press." The "Patriot" being the pioneer in the movement. The visit of Dr. Graham Bell to the island last summer, and the interviews which he gave out to that paper tended to awaken public interest in the matter, and to bring the possibilities of the conquest of the air closer home to the dwellers on the island. At any rate every step in the progress of the movement is being eagerly awaited in this ice surrounded province. As the new ice-breaker is to cost half a million, and to be built along the best lines which mechanical genius can devise, the expectations for continuous communication are generally optimistic. A new route between Charlottetown and Brule is being strongly advocated by some nautical men, and with the three winter steamers available it is possible that one of them may make a test of this route. Observations which have been kept of ice conditions between these points this winter strengthen the hopes of the advocates of this new road across the Straits.

GLIFTONDALE WAS BADLY SCORCHED

Six Houses Destroyed and Others Damaged
Loss Amounts to \$30,000—Help Was Summoned From Outside Points—Fire Looked Serious.

SALGUS, Mass., April 8.—A north-west gale, fanned a fire in a livery stable in the village of Cliftondale at 9 a. m. today with such vigor that it spread to adjoining property, and half an hour later three houses had been destroyed and four others were on fire. Help was summoned from the nearby cities of Lynn, Malden and Melrose. Despite the efforts of the firemen the fire continued to spread and at 10 a. m. ten houses had been destroyed or were in flames. The village of Cliftondale is situated on the southwest corner of the town, on the Saugus branch of the Boston and Maine railroad within a short distance of Malden and Melrose, and consists of a number of stores and small residences. Nearly all the buildings are of wood and occupied by persons who have business in Boston. SALGUS, Mass., April 8.—The fire was brought under control at about 10.30 a. m. The livery stable, which was owned by Joseph H. Lobb, and six houses were destroyed and a number of others considerably damaged. The total damage is estimated at about \$30,000.

MONCTON HONORED BY JOHN McDONALD

Black Hand Fugitive Has at Last Left St. John
He Took in the Sights This Morning—Peopls Seem to Sympathize With Him.

MONCTON, N. B., April 8.—John McDonald, the Black Hand fugitive, is in Moncton, and as has been his custom wherever he goes, he sought the police headquarters for protection. He arrived from St. John last night after spending a month there. He still holds the belief that the Black Hand Society is after him although he admits it is not quite so bad as when he visited Moncton before. He also appears to have prospered somewhat since his departure from here as he is well supplied with clothes. He was almost naked when he was last here. Thomas Venditti, an Italian, who was yesterday fined fifty dollars for selling liquor on the G. T. P., was this morning brought before the local court on the charge of carrying a loaded revolver and on pleading not guilty to the charge was remanded until two o'clock this afternoon. Venditti claimed he had the privilege of the Montreal police for carrying a revolver as when he was in that city he must be sought after by some secret society men, who, he said, were eager to have him killed. Some scars on his face were shown to be the result of attempts on his life. Eight thousand tons of coal lying in the west end of the I. C. R. yard here is now being loaded into cars to be used along the line. The greater part will be used in Moncton. Although this coal has been lying in a big pile for some months the fuel is apparently as good as ever.

FRANCE TELLS CASTRO IT IS HIS TURN TO MOVE

Ex-President Ordered to Leave Martinique
He Took in the Sights This Morning—Peopls Seem to Sympathize With Him.

PARIS, April 8.—The French Government decided today to expel Cipriano Castro, the former President of Venezuela, from the French island of Martinique in the West Indies, on the ground that his presence there is likely to foment a revolution in Venezuela. This decision followed consideration of the cablegram from M. Juserand, the French ambassador at Washington giving an account of his conference with Secretary of State Knox yesterday. The decree of expulsion will be communicated to Castro immediately through the prefect of Port De France, where Castro now is. The French Line steamer Versailles touches at Port De France April 10, on her way back to Europe. The position of Cipriano Castro is further complicated by the French direction to expel him from Martinique. He landed at Port De France yesterday and immediately thereafter he was taken to the steamer Versailles. Castro maintains silence with regard to his intentions. He is awaiting with impatience the arrival of the mail steamers from Venezuela and Port of Spain. He is still indignant at the course of the powers in forcing him to leave and preventing him from going to Trinidad and he characterizes this step as a violation of the personal liberty.

MR. SCOVILL WILL RUN.

Mr. W. G. Scovill definitely stated today that he is in the field as a candidate for Sydney Ward. There was some doubt as to whether Mr. Scovill would remain in the contest in a three-cornered fight, but he has decided to comply with the request submitted to him by a large number of electors. Mr. Francis Kerr, who some time ago announced himself as candidate, has no intention of retiring, nor is Ald. Lewis inclined to give up his seat. There will thus be something of a variety of candidates before the people of Sydney ward.

THEY WERE THINKING

moving to a larger house. "But if we do," said she, "all these good carpets will be a total loss. They won't fit the rooms." "Not a loss at all," replied the practical husband. "We'll just put in a small want ad, sell the carpets and turn the money toward new ones." Call mail 25

RECORD RUSH OF YANKEES INTO CANADA

OTTAWA, Ont., April 7.—Reports received by the immigration department from agents in the United States indicate that the rush of American settlers to the Canadian west this year will break all records. Today Superintendent of Immigration Scott received a telegram from W. J. White, inspector of United States agencies, from Spokane, Washington, stating that the flood of American land seekers from the Pacific states to Alberta and Saskatchewan is beyond all expectations. The office at Spokane is crowded with homeseekers and their families, anxious to take up land in Canada. For the first three months of this year 1,300 left Spokane, an increase of 50 per cent. over the corresponding period of last year. The increase in various of settlers' effects is over 100 per cent.

WARM IN BOSTON

BOSTON, Mass., April 7.—The last day of the first week in April, 1909, will probably long stand in the annals of the local weather bureau as a record-breaker. Bostonians today enjoyed all the comforts of a day in June. Young America swarmed over the green grass on the parks and vacant lots; all classes of citizens rode to the country on open cars and so insistent were the crowds on the public garden that the park department ordered the swan-boats placed on the pond. The temperature climbed from 69 at 8 a.m. to 78 late in the afternoon. The maximum broke all records of the weather bureau for April 7 and with few exceptions was the greatest ever recorded in the fourth month of any year.

CHIMNEY FALLS THROUGH ROOF OF A CROTTED SCHOOL AT LONDON

TORONTO, April 7.—A terrific wind storm swept through Toronto this morning blowing down trees, carrying away signs, putting the electric service out of business and doing general damage. For a short time the street railway service was not operating, while in the newspaper offices the typesetting machines could not be operated owing to a lack of power. The Niagara power was off, and as the wires were down no communication could be had with that place.

Between 12 and 1 o'clock the wind was blowing forty-eight miles an hour and an hour later it increased to fifty-six miles. At London, Ont., the wind blew down the chimney of the Albert school on Hamilton road shortly before noon recess. There are 300 pupils in the school, and when the chimney crashed through the roof two scores of children were struck or half buried by debris.

The G. N. W. has a similar experience, but the delay did not last long. Nearly every city in western Ontario has buildings unroofed, wires down and other damage by wind. Many barns were blown over in the country and from such personal descriptions it is believed that the damage was of a similar nature. At Port Dalhousie parts of the roof was blown off the Maple Leaf rubber factory and a big water tank was blown down. The Ridley College gymnasium was also unroofed. Streets are strewn with wreckage and fallen trees.

At Hamilton the street car service was suspended for several hours. Several people were injured by boards blown off high buildings.

Reports from the West indicate that a terrific gale is blowing on Lake Superior and it is believed that the storm caused telegraph companies trouble. For a long time no messages came through the network of wires in Buffalo, and their advice were that messages were being interfered with in northern Canada, and in a similar manner, but the delay did not last long.

Residents of the neighborhood heard the crash and a score of bare headed, anxious mothers were soon on the scene, claiming their children. The school has been closed and the scholars dismissed as there is danger of the wind getting in and raising the roof. A panic was avoided. About three tons of brick and stone work fell off when the front of the gable was blown down. Only half an hour before 20 or 30 little girls were playing on the sidewalk which is now strewn with heavy debris.

Principal Long, who has charge of the school, said he thought the roof wall had been blown out, so loud was the crash. Inspector Tyler, who had just entered the building, missed being crushed to death only by a few minutes.

Residents of the neighborhood heard the crash and a score of bare headed, anxious mothers were soon on the scene, claiming their children. The school has been closed and the scholars dismissed as there is danger of the wind getting in and raising the roof.

On the lake the water was lashed into a frothy sea and the waves were as high as the masts of the ships. The Blackwell Canal were sent out of their banks and many streets were flooded. The telegraph and telephone lines in all directions is demoralized and communication with Canada was cut off.

HE DISCOVERED AUSTRALIA.

"Tall, thin, grave, even austere"—this is how Deasant, who was an artist in words, described the person of Cook, the famous seaman who "discovered" Australia. Some seven portraits of Cook exist, and the most part they are in furious quarrel with each other. But from them all, and from such personal descriptions as may be collected, scattered through contemporary literature, it is easy to form a picture of the famous circumnavigator.

He was over six feet high, spare built, and erect in his high cheek bones. The small head might seem insignificant but for the definite, clear and well set as they are, would appear impressive above them. It is not a fighting face, but there is strength in the full, long chin. Young America swarmed over the green grass on the parks and vacant lots; all classes of citizens rode to the country on open cars and so insistent were the crowds on the public garden that the park department ordered the swan-boats placed on the pond.

Cook came of a hardy northern stock, half Scottish and half Yorkshire. He was the son of a day laborer, born in a two-roomed cottage built of mud. He learned the rudiments of spelling in a dame's school in the intervals between crew tending. The sea, in a sense, was native to him. At twelve years of age he was a shipboy in Stratford, a fishing village, squeezed into a narrow crevice in the cliffs, on which the mighty waves and fierce winds of the North Sea break. The little ship was within actual sound of the sea; the encroaching waters, as a matter of fact, have since washed away the ground on which it was built, and today the sea rolls where the counter once stood. For thirteen years of age Cook became a sea apprentice in a collier, trading on the stormy eastern coast, the best school for hardy seamanship in the world. But by virtue of the Scottish strain in his blood, he had a thirst for knowledge which lifted him out of the forecastle; and when not yet twenty-three years of age he was mate of a Baltic trader.

Lifted Off Her Feet
Mrs. William Acres, an aged woman, was lifted off her feet on King street and buried against a wagon. Her feet were badly cut and her body bruised.

On Main street the wind swept a large board off a wagon and carried it across the street where it struck and killed a pedestrian, who was removed to the hospital.

Another man was blown off a building, but escaped serious injury. Women were knocked off their feet on James street where it struck and killed a pedestrian, who was removed to the hospital.

Telephone reports from the surrounding country say that the storm did a great deal of damage. A farmer driving over a high bridge was blown off his rig and a railing only saved him from going over. Along Burlington Beach the wind and water did much damage.

At Quebec about a quarter past ten this morning, all the brick and stone work in front of the gate was blown down by the force of the wind. The school children and teachers were frightened and it was only owing to the presence of mind of the latter that a panic was avoided.

Residents of the neighborhood heard the crash and a score of bare headed, anxious mothers were soon on the scene, claiming their children. The school has been closed and the scholars dismissed as there is danger of the wind getting in and raising the roof. A panic was avoided. About three tons of brick and stone work fell off when the front of the gable was blown down. Only half an hour before 20 or 30 little girls were playing on the sidewalk which is now strewn with heavy debris.

On the lake the water was lashed into a frothy sea and the waves were as high as the masts of the ships. The Blackwell Canal were sent out of their banks and many streets were flooded. The telegraph and telephone lines in all directions is demoralized and communication with Canada was cut off.

How to Save Work In The Home

Most of the dust in the modern home comes from the floor. It needs, if you would use Floorglaze right. And dustiness is merely a bother for the housewife and the maid. It's a danger. Dust spells d-i-s-e-a-s-e. The germs of all infectious-diseases, mainly, in floor-dust. Floorglaze reduces floor-dust to a minimum. When you coat a floor with any of the ten shades of Floorglaze you have a floor that is creviceless (can't harbor germs), washable (use an anti-septic in the mop-water), and nearly dust-proof. You will get weary watching for it to wear off that floor. Floorglaze stands outdoor wear—verandas, porch steps, etc. And a gallon covers 500 square feet. Cheap! Your dealer has it. You would find our Free Book interesting reading. May we send you a copy? Ask on a postcard. Imperial Varnish & Color Co., Limited, of Toronto. Recommended and Sold by A. M. THORNE, St. John, N. B. W. H. THORNE & CO. Ltd., St. John.

HOUSE CHANGES PLAN FOR ISSUE OF DEBENTURES

Bill to Authorize New Issue of N. S. Steel & Coal Co. Stock Received Important Amendments.

HALIFAX, N. S., April 7.—Important changes in the bill to authorize the new issue of debentures by the N. S. Steel and Coal Co. were recommended by the House committee on private bills which reported on this measure today. Clauses of this bill which provided for cancellation of the said stock were amended so that the company are expunged and the bill retain their old stock to exchange it for the new issue or to sell it at whatever price may be agreed upon by them and the company.

Clause 5 which provided for cancellation of the preferred stock at a price not to exceed 120 now reads as follows: "Company may and it is hereby authorized to purchase of the holders thereof the whole or any part of its preferred stock at such price as may be agreed upon by the holders of the said preferred shares and the company together with interest at the rate of eight per centum per annum on the par value of such preferred stock from the first day of January, 1909, to the date of payment of such purchase price, crediting however all dividends paid on such preferred stock during the meantime. All preferred stock not purchased under the provisions of this clause shall not be cancelled and shall no longer be a charge upon the property of or a liability of the company."

ALDERMAN WILLET HAS NARROW ESCAPE

Ald. Willet narrowly escaped death last night as a result of a misplaced step taken while descending from the oak at Rodney wharf, West Side. As it was plunged into the icy waters of the harbor, and only rescued in a semi-conscious condition. The unfortunate accident occurred at 10.30 o'clock. Ald. Willet had gone over to Carleton earlier in the evening, and returned had boarded a car owned by the conductor of the street car reaching the foats the sidewalk. He was descending the stairs when he slipped and fell over the edge of the wharf, and was hurled into the water below. A rope from a schooner lying near by was brought into requisition and he was taken ashore in a boat and hurried to the emergency hospital, where he was found to be seriously injured. The distance of Ald. Willet's fall was about twenty feet. The tide was low at the time of the occurrence and there was but four feet of water surrounding the dock. Had it been for this "Rabbit shooting" exports. Two old men and six young ones have been seen near the dock.

BRIEF DESPATCHES.

HARTFORD, Conn., April 7.—The condition of Governor George L. Dyer is much better tonight than it has been for some time. He is expected to leave the hospital in a few days. He is expected to leave the hospital in a few days. He is expected to leave the hospital in a few days.

BIG MASS MEETING TO BE HELD SUNDAY

The Lorne and Lansdowne committees of local organization met in the Alexandra Old Temple Hall on Main street last night. W. Erb was chosen chairman of Lorne, R. J. Burke, vice-chairman, M. D. Austin, secretary. W. J. Forbes was elected chairman of Lansdowne; W. F. Cronk, vice-chairman, A. McIntyre, secretary. The committee will meet nightly to prepare for the campaign. On Sunday, 11th, a mass meeting will be held in the auditorium of the Tabernacle church at 4 p. m. The Rev. Dr. Raymond and others will address the meeting. The St. Mary's orchestra will be in attendance.

How to Save Work In The Home

Most of the dust in the modern home comes from the floor. It needs, if you would use Floorglaze right. And dustiness is merely a bother for the housewife and the maid. It's a danger. Dust spells d-i-s-e-a-s-e. The germs of all infectious-diseases, mainly, in floor-dust. Floorglaze reduces floor-dust to a minimum. When you coat a floor with any of the ten shades of Floorglaze you have a floor that is creviceless (can't harbor germs), washable (use an anti-septic in the mop-water), and nearly dust-proof. You will get weary watching for it to wear off that floor. Floorglaze stands outdoor wear—verandas, porch steps, etc. And a gallon covers 500 square feet. Cheap! Your dealer has it. You would find our Free Book interesting reading. May we send you a copy? Ask on a postcard. Imperial Varnish & Color Co., Limited, of Toronto. Recommended and Sold by A. M. THORNE, St. John, N. B. W. H. THORNE & CO. Ltd., St. John.

THE JUNGLE AWAITS ROOSEVELT; PLANS A MISSIONARY FEAST FOR HIM

Jobo Tribesmen to Give Distinguished Hunter a Pet Purple-Nosed Rhino; Steel Armor for Village Elephant.

PURPLE-NOSED RHINO A TERROR.
USOGA, April 7.—A caravan which arrived here last evening brings word that several specimens of the rare purple-nosed rhinoceros, have been sighted by natives in the Jobo region. The purple-nosed rhinoceros, as is well known by all naturalists, is closely allied to the fearsome Stead, and its disposition is far worse. Only a few weeks ago a representative of an American mail-order house was attacked by a purple-nosed rhinoceros, and after a terrible struggle escaped with only his sample cases and self-respect.

If captured when young, this animal loses much of its wildness and can be trained to become a valuable household pet. A six-month-old blue-nosed rhinoceros will be presented to Colonel Roosevelt as a mark of esteem in which he is held the common people of the Jobo district. This animal is said to be extremely intelligent. It barks like a dog and has been useful in keeping at a distance the predatory interests which infect the land. The children regard it as a playmate, and it follows them everywhere they go wagging its tail with pleasure. It is possible that Colonel Roosevelt may be induced to use this pet as a decoy for the more dangerous members of the family. Assurances have been given that it is not gunny. It has also been trained to retrieve.

HEAVY ARMOR TO PROTECT ELEPHANT.

FEVEREA, April 7.—All difficulties having been eliminated, it is believed that the arrival of Theodore Roosevelt will pass down in history as the greatest event in the annals of FEVEREA. Headmaster Bushalling told your reporter that the elephant chase will be spectacular and edifying. The public schools will be dismissed for the day and women and children will have seats in the grandstand. Town Council has given a bond to return the elephant in good order to its owner and to stand all expenses of armor-plating. The owner, Sub-Chief Joseph, said he did not propose to have any foregone shooting his elephant full of stags, and insisted upon the coat of Harveys steel. Several blacksmiths are now doing this work. In addition to the elephant hunt in the afternoon, there will be an evening entertainment upon the public square. Prizes will be given to wrestlers who can throw a hippopotamus in ten seconds. Mr. Roosevelt will be barred from this contest.

"CRAP" SHOOTING FOR ROOSEVELT.

WIDUSHI, April 7.—Chief Game Warden Ber Tegenok, of the Protectorate, has made his report on the condition of game for the fiscal year ending April 1. This report is made in anticipation of the arrival of Mr. Roosevelt, recently President of the United States. The report follows: "Rabbit shooting exports. Two old men and six young ones have been seen near the dock. 'Nothing has been seen of our lion in ten days. Will make another search. 'Elephants plentiful. Heard of forty with Jiningel circus. 'Several giraffes seen in the natural habitat. 'Crap shooting popular with the natives. 'Laughing hyenas much added by recent English jokes. 'Rhinoceros nervous and sharpening up their horns. 'Alligators feasting and reading list of arrivals at Mombasa. 'Season not yet open for shooting stags.'"

GINJAG LEAVES AN AWFUL TRAIL.

DABERGUSA, April 7.—Nothing has been heard from the expedition which left this harbor last week to make a census of the game in the district. There is some fear that the members have fallen victims to the ginjag, a newly discovered beast of terrible aspect, which makes his home along the banks of the Blue Nile. Traders say that the trail of the ginjag has been noticed at several points, and many were the bones of its victims. Until quite recently travelers regarded the ginjag as a native who fell into the clutches of the beast, and who escaped by singing a lullaby. Unless word is received from the expedition before the arrival of Mr. Roosevelt he will be asked to head a searching party and if possible slay the monster.

MISSIONARIES TO FURNISH LUNCH.

BAIBERK, April 7.—This city being the route selected by former President Roosevelt in his journey through Africa, arrangements are being made for his proper reception and entertainment. All the prominent merchants and best citizens have contributed to a fund which already aggregates 700 pounds of brass wire, 23 elephants' tusks and 84 plug hats. It is believed that this fund will more than meet the expenses. Chief Rooseveltman has kindly consented to act as master of ceremonies and the Vano Brass Band will give its services free. Several self-sacrificing missionaries volunteered to furnish refreshments for the demonstration, and their offer was accepted with a vote of thanks. They will be served with mist sauce. As the object of Mr. Roosevelt in coming into our thriving community is to hunt, the committees on arrangements has decided upon a magnificent

display along this line. Unfortunately, the only lion residing in the immediate vicinity has grown so infirm that he lost his voice. A younger lion will be borrowed from the Wand zoo to furnish the roars for the occasion. Zebras are being repainted, bongos are being managed and wildcats are being made wilder for the grand event. The moving picture concession has been forwarded to Baron von Thiesen.

MRS. MORRIS PROSTRATED BY HUSBAND'S DEATH

AMHERST, N. S., April 7.—No further particulars have been received in reference to the sad death of T. Barlow Morris reported in today's Chronicle, except that the body will reach here by Thursday's C. P. R. and will be taken to the house of Mrs. Morris and Father Rupert Black, from which place the funeral will be held. A telegram to Mr. Black today from his son-in-law, David Elderkin, Toronto, stated that Mrs. Morris, wife of deceased, who had been suffering from an attack of la grippe, was so prostrated by the news of her husband's death that the physician in attendance would not permit her to attend the journey until stronger. She will therefore not be able to be present at the interment.

BREWERY MERGER COMPLETED

MONTREAL, April 7.—The amalgamation of the Quebec breweries into a merger has finally been completed. They are to be known under the name of the Eastern Brewers Company, with J. P. Davies as president. All the Quebec firms are included except Beauport and Sherbrooke. The Molson brewery is kept out by the provisions of an old will, but they have agreed to the selling arrangements. It is announced tonight that the Montreal Brewing Company has sold its property to the C. P. R. for \$250,000. The land was required for terminal facilities.

ELECTION CARD

Gentlemen:—In becoming your fore-agement to accept candidate for the office of Alderman-at-Large I might say there is no one in this city who would like to see a good honest city government better than I, that means low taxation and cheap rents, clean streets, etc. If you favor me with your votes on Election Day you will never have cause for regret. If you elect me I pledge you my word of honor there will be no rab-rotts with your monies, there can be a saving to the taxpayers of St. John of one hundred and fifty thousand dollars a year by adopting clean, honest methods and honest business transactions between the taxpayers and those who have business with the city, by working for the city or otherwise. These are my lines, and all who wish as I do I will let their vote and influence to that end. Yours respectfully, J. W. MONTGOMERY, 7 and 9 King St.

Have You Fitted Out That Boy of yours with a new Spring Blouse?

If you have not, we have the genuine SCOTCH GINGHAM that will give all the wear required and stand the wash.

Comes in variety of neat stripes in Navy and White. Good width, some 40 in wide and the price only 15, 17, 18c. yd.

We have the very choicest assortment of Easter Cards in the city come and see.

E. O. Parson's, West End

NEW YORK STOCK QUOTATIONS

Chicago Market Report and New York Cotton Market. (Published by D. C. Clanch, Banker and Broker, St. John, April 8, 1909. Wed. Thurs. Ctg. Op. No. 2)

Table of stock prices including Amalgamated Copper, Anaconda, Am. Sugar Refs., Am. Smelt. and Refg., Am. Car Foundry, etc.

CHICAGO MARKET REPORT

Table of commodity prices including Wheat, Corn, Soybean, etc.

MONTREAL QUOTATIONS

Table of Montreal market prices including Dom. Coal, Dom. Iron, etc.

NEW YORK COTTON MARKET

Table of cotton market prices including May, July, September, etc.

NEW YORK COTTON MARKET

NEW YORK, April 8.—Wall Street, 10 a. m.—Opening dealings in stocks were active and the market was generally buoyant but the gains were unimpaired by the declines. Chesapeake and Ohio opened at a point on running sales of 4,000 shares. Amn. Cotton rose 1 and Union Pacific, Northern Pacific, Wisconsin, Central and Virginia Carolina Chemicals large fractions. Atchafalaya and Amn. Locomotive declined 1/2.

WALL STREET, 11 a. m.—Speculation ran along about the same channel as yesterday, the chief demand being for the special stocks. Some of the standard stocks showed marked strength but there was not as much inquiry for the rest, outside of Equated Petroleum, Western Union and Virginia Carolina Chemical, Pullman and various other stocks on fraction more.

HARE AND HOUNDS.

The Y. M. C. A. boys are planning a hare and hound chase for tomorrow. This is the first of the season and will be the special feature. Some of the runners are Robert Melrose and William King will act as hare and will get away at nine o'clock. The hounds, who will include everybody who wants to run, will start a few minutes later. The hare will be made from the Y. M. C. A. building.

Had Heart Trouble and Shortness of Breath For Six Years.

Was Weak and Thin—Only Weighed Seventy Pounds. Now Weighs One Hundred and Thirteen.

When you find your heart the least bit out of rhythm, your nerves unsteady, your breath short, don't wait until you are prostrated on a bed of sickness. Take Milburn's Heart and Nerve Pills. They'll put you in such condition you'll never know you have a heart, make your nerves strong and your whole being thrill with new life. Milburn's Heart and Nerve Pills cured Mrs. K. E. Reigh, Barley, Ont. She writes: "I was greatly troubled for six years, with my heart and shortness of breath. I could not walk eight rods without resting four or five times in that short distance. I got so weak and thin I only weighed seventy-three pounds. I decided at last to take some of Milburn's Heart and Nerve Pills, and after taking eight boxes I gained in strength and weight, and now weigh one hundred and thirteen pounds, the same I ever weighed in my life. I feel well and can work as well as ever. I did not even heartily thank Milburn's Heart and Nerve Pills for it all." Price 50 cents per box or 3 boxes for \$1.50 at all dealers, or mailed direct on receipt of price by The T. Milburn Co., Montreal, Toronto, Ont.

TODAY IN THE POLICE COURT.

There were ten prisoners on the police court bench this morning. Joseph Cunningham was charged with profanity on Mill street. Policeman Bowes gave evidence that defendant came to him and wanted a man locked up for stealing \$34 from him. He would then give no further information and called the officer a fool to stand still and allow a criminal to escape. He was fined \$5 or one month. He was also detained as a witness against Dominic Kerrigan, who is charged with robbing Cunningham of \$28 in cash and a cheque for \$13.65. Cunningham says that Kerrigan admitted having stolen the money. The case will be taken up this afternoon. Thomas Hanley said that he was not drunk at all. Policeman Sullivan who made the arrest, gave evidence that while he was arresting Kerrigan on the charge of the Hanley following him to the lockup and said he wanted to stick to his pal, and as he would not go away the policeman placed him under arrest. Hanley who told he would be liable to be sent to jail for a ship and get away. A fine of four dollars was allowed to stand against him. Thomas Williams was found sleeping in a box near the T. C. A. yards about one o'clock this morning. He said he had been drinking and intended the ferry. He was a stoker on the Empress of Ireland. Williams was allowed to go yesterday by paying a fine of two dollars. He was fined \$2 or two months hard labor. Hazen and Albert Manuaty, two brothers, were charged with fighting on the Westmorland Road Wednesday the 3rd. Hazen explained that he was trying to get Albert home and Albert fell as he was drunk. Some children sang out "fight" and that was all there was to it. A fine of \$20 was allowed to stand against them for one year. Four common drunks were fined the usual amount.

NEWS FROM SACKVILLE.

SACKVILLE, April 8.—A more addition to Mount Allison Ladies' College may be built this summer. The question of building has been under consideration at several meetings of the Executive committee of the board of regents, but must yet come for decision. A special meeting of the board may be called or specifications for the proposed addition may be prepared and tenders called with a view to laying the latter before the whole board at the regular May meeting. The new section is constructed on the site of the old building. Rev. M. M. C. Shaw, son of E. T. P. Shaw, St. John, is spoken of as a possible successor to Rev. C. R. W. Desbarres, B. A., who had received the news of his appointment to the diocese of Albany.

BIG FIRE IN MANCHESTER, N. H.

MANCHESTER, N. H., April 8.—The tenement house district in the south section of the city, covering an area of nearly a square mile and occupied by the cotton mill and shoe shops, was today the scene of the most destructive fire that ever threatened the city. Up to that time three blocks of thirty wooden tenements had been wiped out, great burning brands were being hurled eastward in countless numbers, and the fire was spreading among the other tenements in that direction.

GERMANS AID BRITISH IN FIGHT WITH TRIBES

One Thousand Camels Attack, But are Defeated After Fierce Engagement.

LONDON, April 7.—Remarkable details of the assistance of a thousand camels natives upon the Anglo-German Boundary Commission in unexplored country in Northern Nigeria reached here yesterday. A feature of the action was that British and German troops fought together in the same native attack. At 5 o'clock on Christmas Day the combined Anglo-German force marched out from Sokhalla, an unexplored place on the frontier, and subsequently divided into two columns, the German column on the left and the British column on the right. The German column was in command of one and Captain Heathcote of the other.

TRACK BLOCKED WITH TREES.

Both forces soon became lost in the dense undergrowth and high elephant grass. The British heard the enemy shouting and calling in the distance. They encountered the greatest difficulty, the track being completely blocked with trees, while the natives had also dug pits sometimes as much as a hundred yards long and plentifully strewn the route with dangerous spikes, which pierced the soldiers' feet. Eventually the columns came to open ground, by which time two of the soldiers had been spiked through the feet. The enemy at once opened fire, but were repulsed. The column then marched to an elevated position. The enemy now offered a splendid target for the machine, but the gun jammed and was out of action for some time. At this moment the rattle of the Germans' machine could be heard on the other side of the hills. Captain Heathcote, having burnt some bushes to indicate his whereabouts to the German column, descended to the enemy in the open. There a brisk running fight was maintained, and the enemy were finally driven off. Meantime a third force, under Lieutenant Homan, which had been dispatched from Sokhalla, became engaged.

WORK OF THE GERMANS.

News of the German column was only received on the return to camp. Lieutenant von Stepiant reported that at noon a very large force surrounded the German column in the bush and opened a very heavy attack, in which Lieutenant von Stepiant was wounded in two places, one of his non-commissioned officers being also hit on the wrist and two men being killed. For over an hour the column was desperately engaged. A second German non-commissioned officer was shot through the chest while serving his machine gun. The column retired the natives made many attempts to rush it. Although dangerously wounded, Lieutenant von Stepiant brought his column out of action with great gallantry, being assisted by Captain Moore, R. E., who was attached to the force.

DETECTIVES PURSUE BEELER FOR YEARS

Wells-Fargo Robber Given No Rest After Serving Sentence.

BRING IN A HOVE, TELLS SLEUTHS HE WAS ROBBED IN TURN, AND NOW CHASE IS NOW ON.

NEW YORK, April 8.—Twelve years ago Charles Beeler, then money clerk in San Antonio for the Wells-Fargo Express Co., pleaded guilty to the seven years' term for robbing the express \$50,000, but he refused to tell where the money could be found. He served his term in the penitentiary working from dawn until dark in summer on the Texas plain farms and in winter on the Texas coast. He was released five years ago, he has led the life of a hunter and traveler, but he has placed in an endeavor to shake off the express company detectives, who are seeking to find the money. With Beeler shattered from prison and worry, but with a short time to live, Beeler is sick in a little hotel in Houston, Texas. He is no longer able to travel, and declares to the detectives that the \$50,000 which he stole years ago is now in the hands of a man named J. M. G. A. His story is believed, and officers are working in New York for the relative of Beeler's former wife, who had promised to take care of the plunder for Beeler until his release, retaining \$25,000 of the amount for his trouble. "I was robbed," he declared to the officers, "robbed of the money I spent on my travels in the penitentiary to earn, and now I hope you'll catch the man who took that money from me just as you caught me after I took it from the Wells-Fargo. I would kill him if I found him myself, but I can't do it longer."

WELLS-FARGO ROBBER GIVEN NO REST AFTER SERVING SENTENCE.

Beeler worked in his effort to "earn" \$50,000 in stolen money. An epidemic of strange sickness broke out in the penitentiary, and he was ordered to prepare boxes for shipment back to homes that had been left. One of the boxes, which had come from a little town in the interior of the state where a relative of Beeler's wife was the only doctor, was stolen \$20,000 slipped a note in which the secret of the buried money was laid bare. The note was tied about the dead man's ankle.

CAUGHT IN MEXICO.

At last Beeler was caught. Detectives tracked his way through the thicket in the heart of the wildest section of Mexico found their man alone and sleeping in a cave. He was taken to a temporary camp. Formalities were waived and the cavalcade made for the border with Beeler's hands in a covered wagon. From the first he tried to tell the officers where the money could be found, and still put off the matter. He was taken to the Texas penal camps to serve his seven years.

MRS. MARGARET McLEOD, OF NEWCASTLE, DEAD

NEWCASTLE, N. B., April 8.—The death of Mrs. Margaret McLellan, nee Curran last night. Deceased was in her eighty-third year, and was a daughter of the late John McLellan, a native of Scotland who settled in New Brunswick after his husband's death twenty-five years ago, deceased removed to Newcastle, where she has since resided. She was an active member of the Presbyterian Church since early in life. The following children survive: Mrs. Thomas A. Clarke, Newcastle, Mrs. W. R. McMillan, Jacques River, Miss Helen, teacher at Newcastle, and two sons, Lindsey and William. Two sisters, Mrs. Eliza Geisler and Miss Elizabeth McLellan, of Newcastle, also survive.

MAKING TARGET PRACTICE RATHER MORE DIFFICULT

SAN FRANCISCO, April 8.—Capt. V. C. Cottom, of the United States Army, California, who has arrived from Magdalena Bay with the passengers of the grounded Pacific Mail steamer, says that target at practice at Magdalena is more difficult than it was a year ago. The conditions prevailing there have been about 45 per cent. harder than it was at the time of the first maneuvers. The California and Colorado have finished their practice and have made excellent scores. All the warships in Magdalena Bay have finished their mine practice, in which California leads at this time.

DR. BENSON'S DEATH

CHATHAM, N. B., April 8.—Plans are being displayed today at half past ten of the town's first mayor. The funeral will be held tomorrow afternoon.

WILL SOLVE THE PROBLEM when a coffee drinker is ailing—

POSTUM 10 DAYS "There's a Reason."

POSTUM, Me., April 8.—During the Holy Thursday services at St. Patrick Church today Mrs. Katherine Riley fell to the floor dead. Death was caused by heart trouble.

VOTE OF THANKS TO OBLIGING SPOOKS

Spiritualists Formally Express Appreciation of Work Done for Them by Spirits.

LONDON, April 7.—A graceful little act has been performed in this world which should be toward maintaining a cordial relationship with the beyond. At the twenty-fifth annual meeting of the London Spiritualist Alliance, held at 110 St. Martin's Lane, London, W. C., in addition to the usual formal work, a vote of thanks was given to the spirits who had helped the alliance in their work during the last year. The vote was unanimously proposed, duly seconded and carried unanimously.

BOYS SUE Y. M. C. A.

Two Lads Want \$10,000 for Solved Clothes and Disturbed Nerves.

CAMBRIDGE, Mass., April 8.—The Melrose Young Men's Christian Association is being sued by two boys for the return of their clothes and \$10,000. The boys, Edward Crowley and John Vanhook, both of Cambridge, are suing for \$10,000. They were imprisoned in an all night raid in the cellar of the building for a long time. After this the boys allege that they were at length released and forcibly ejected in the building. The suit is based on the allegation that as a result of their treatment the boys were injured about the head and neck, and that they were shocked and were made ill, and had their clothes badly soiled.

PUT A BULLET IN YOUR HEAD

Was Part of a Threatening Letter Received by John Nickerson, an Employee at "Studley."

HALIFAX, April 7.—About 10 o'clock last night the Chief of Police received a telephone message from R. H. Murray stating that an employee named John Nickerson had just complained to him that he had been attacked and beaten about a quarter of an hour previous. The assault was alleged to have taken place on the Studley grounds. The chief asked Mr. Murray to send the man down to the station, and there he stated that two men had attacked him. After pulling him down on his back they kicked him in the ribs. The chief and Detective Hanrahan examined the man, but could not find any bruises on his body, nor any sign of having been ill-used.

THE WEATHER

Forecast—Fair and colder tonight; Friday fair, moderate to fresh westerly winds, diminishing.

LOCAL NEWS

The English mails from the Oceanic have left New York and are due here tonight.

Pigeons' prices on clothing furnishings, hats and shoes are lower than at any other store in St. John.

All interested in the local option movement are requested to meet in the Carmarthen street school room at 8 o'clock this evening.

The death of George H. Sharpe took place this morning at his home, 108 Hazen street, after a severe illness of Bright's disease. Deceased was 69 years of age and leaves a wife, who is a sister of Mrs. Wilfred Foxwell.

The Boston train was forty minutes late today and the Atlantic express came in in two sections, the first of which was twenty and the second forty-five minutes late.

A united service of all the Presbyterian churches in the city will be held in St. John's Presbyterian church tomorrow morning (Good Friday) at 11 o'clock.

In Chambers this morning His Honor Mr. Justice McLeod in the matter of the winding up of The Interprovincial Navigation Co. of Canada, Limited, appointed William Montgomery, of Dalhousie and Bradshaw McKenna, of Campbellton, liquidators.

Miss Lena Grey Gallop died at her father's residence, 125 Victoria street, on Tuesday after a short illness. She was a member of Main street Baptist church and was also a very active member in the Young People's Society.

It is expected a case to come before Stipendiary McDougall on April 12th, where in Hazel Hill, or No. 117 Grafton street, will be charged with keeping a bawdy house, will be somewhat interesting as the witnesses summoned may include four women of the house and male witnesses from within the city and outside the limits.

Medical men state that there is a great deal of pneumonia in the city at the present time, and the Board of Health records show that in March particularly the death rate was high, while already this month the figures indicate a larger number of cases than usual.

The funeral of Miss Lena Grey Gallop took place this afternoon at 2:30 o'clock from her father's residence, 125 Victoria street.

The funeral of Mrs. Frank E. Flewelling took place this afternoon from her late home, Manawassish Road.

The funeral of Mrs. Mary Ann Rogers was held at 2:30 o'clock this afternoon from the residence of her brother, Richard Myles, 88 Winter street.

The funeral of Patrick Pierce was held at 2:30 o'clock tomorrow afternoon from 318 Main street.

SHARPE—At 108 Hazen St., on the 8th inst., George H. Sharpe, aged 69 years, leaving a wife. Funeral service at the house at 11 o'clock Saturday, and remains leave on 12:10 express for interment at Apohaqui.

Zemacura CURES

All redness and irritation of the nose and face. Simply apply at night, that's all.

50c., at The Royal Pharmacy, King Street.

AN UNBREAKABLE SET OF TEETH

There is a class of patients who do not object to paying a fair price for artificial teeth, if they can really secure comfort, usefulness and naturalness.

I have a set of teeth, such as is unobtainable in any other office in this city, to my knowledge. It is out of the ordinary line and unlike the teeth in general use. Its beauty is at once apparent and it is practically unbreakable.
