

NEW YORK'S METROPOLITAN AREA WITHOUT SUPPLY OF MILK BECAUSE OF STRIKE

10,000 Drivers and Platform Men Quit Work on Account of Wage Dispute.

ONLY WELL TO DO GOT THEIR MILK

Drivers Agreed to Keep Hospitals Supplied—May Reach Settlement Today.

New York, Nov. 1.—New York's metropolitan area, suddenly cut off today from its milk supply by a strike of more than 10,000 wagon drivers and platform men, tonight was still without normal deliveries and indications were that the situation tomorrow would be just as bad.

Programs towards an early settlement was made late today, however, at a three-hour conference called by Mayor Hylan, when committee representatives of the union and the distributors agreed to confer tomorrow morning in the office of Dr. Royal S. Copeland, Health Commissioner, in an effort to adjust their differences. It was stipulated that if the purpose of this conference should fail both sides would subsequently propose to their membership that the dispute be arbitrated.

Violence Follows.

Shortly after the New York milk conference Board had announced that it would seek to have the milk supply at outlying stations protected by the state constabulary the first violence of the strike was reported. After a running fight, in which several shots were fired, the police arrested two men, charged with overhauling a grocer's push-cart containing bottled milk, and striking him on the head with a milk bottle.

The day's distribution was confined to hospitals and other institutions requiring an imperative daily supply. Union men have agreed to continue such deliveries.

Chauffeurs Hunt Milk.

Chauffeurs, and other servants of the more prosperous, went out in motor cars to hunt for milk this morning, while thousands of women and children from the tenement districts besieged the milk depots of the large companies and platforms at which milk trains are unloaded in Manhattan and Brooklyn. The only fortunate ones with milk today were those who had left overnight, or who went out to buy it and carry it home.

Sons of Temperance Meet At Moncton

Convention Addressed by Most Worthy Patriarch, Hohenthal of Conn.

Moncton, N. B., Nov. 1.—The adjourned annual session of the Grand Division Sons of Temperance of New Brunswick, held here this afternoon was honored with the presence of Most Worthy Patriarch Emil L. G. Hohenthal of South Manchester, Conn. The business of the Grand Division was mostly routine and receiving reports of standing committees.

A feature of the session was the signing of a resolution requesting the Dominion Government to take steps to have the body of an unknown Canadian soldier brought to Canada from France and buried with national honors at Ottawa. The body was just returned. Mayor Chapman presided.

Canadian Cruiser Successfully Passes All Trial Tests

Halifax, N. S., Nov. 1.—Completing a successful trial of five days, on a trial in the North Atlantic with water cargo of 5,500 tons of coal from Sydney, during which she developed, in a standardization test of Rockland, Maine, a speed of 15.8 knots the Canadian Cruiser, 10,600 tons, largest of the Canadian Government Merchant Marine fleet arrived in Halifax tonight. One more trial will be given the steamer off Halifax harbor on Thursday, following which she will probably be taken over officially by the Government Merchant Marine and loaded here for Australia and New Zealand.

PRINCE OF WALES ON WAY TO INDIA OPENED THE NEW MALTESE PARLIAMENT

Malta, Nov. 1.—The Prince of Wales, on his way to India on the fast-steamer Renown, opened the new Maltese Parliament today. The event marks the introduction of a new type of government in Malta, based upon the principle of responsible self-government, subject to definite limitations laid down in the interest of imperial security.

The main principle is the establishment of two concurrent governmental systems, one for local affairs under the complete legislative and administrative control of the Maltese people, and another for matters of imperial concern, taking orders from the imperial Government.

COUNCIL OF AMBASSADORS DECIDES TO REQUEST ABDICATION OF HAPSBURGS

Paris, Nov. 1.—The Council of Ambassadors has decided to request the Hungarian Government to obtain from former Emperor Charles a promise of abdication of the entire Hapsburg family from the throne, says the "Temps."

The newspaper adds that the Ambassadors have decided to convey to the Little Entente the information that the great powers are taking all steps necessary in the Hungarian situation and the assurance that the Little Entente may have full confidence that the Allies will re-establish order in Hungary in accordance with the Peace Treaty.

FOUR THOUSAND VOTERS HEARD PREMIER MEIGHEN IN SO. TORONTO

Ottawa, Ont., Nov. 1.—(Canadian Press Staff Correspondent)—Voters of South Toronto, gathered in the armory to the number of about four thousand and when Premier Meighen spoke here today. On the platform with Mr. Meighen was Hon. J. W. Edwards, Minister of Health, Colonization and Immigration.

"The Liberals passed a tariff resolution two years ago and they would go into execution and when for six years more to do away with it," said the Premier. He insisted that all the criticism of the Government offered by the Liberals was for the purpose of diverting attention from the tariff issue. There was a real issue in the tariff, a revision was due, and if the Government was returned to power, the tariff would be revised on a protective principle. No more protection would be given than would enable Canadian industries to compete with American industries and continue operating in this country."

At one point in Mr. Meighen's speech an interruption occurred. He had been declaring that Hon. W. L. Mackenzie King would never read his platform in Ottawa. A man in the rear of the hall called out: "Why not?"

"Because he is for use in the West," replied the Premier. "I read it in the Toronto Telegram," called back the man. "Yes, but you won't in the Toronto Globe," Mr. Meighen replied. At another point Rev. F. L. Farewell, principal of the Whitty Ladies College, made an interruption. He charged that Mr. Meighen was trying to inform people that Mr. King's policy was free trade, whereas it was really a revenue tariff.

The audience was not disposed to take the interruption kindly. It told the Premier to sit down and one voice called out: "You'll have to excuse him, he's a girl."

Accepts Challenge. Mr. Farewell challenged the Premier to read the Liberal tariff resolution, which Mr. Meighen did. "Does anyone know what a revenue tariff is?" asked Mr. Meighen. "Certainly every one does," shot back Mr. Farewell. "What is the present tariff?" asked the Premier. "It is a protective tariff," replied Mr. Farewell. "Who made it?" demanded the Premier. "The Government," Mr. Farewell said. "The Liberal Government?" asked the Premier, and the crowd applauded.

The proposal of the Liberals would bring free into Canada goods made in the United States. Mr. Meighen declared the Premier. There were other interruptions and for a time the Premier's address was more like a conversation than a speech. Not all the interruptions were antagonistic, but some of them were, and these objects were somewhat insistent.

"What about the pledge of your party to restore in 1919," one of them called out. "We never made it. This man is a humbug," shouted back the Premier. (Continued on page 3.)

Eleven Fishermen Lost Lives Off Hereford Inlet

Their Boats Capsized During a Severe Southeaster—3 Bodies Washed Ashore.

Anglesea, N. J., Nov. 1.—Constable guards were still searching tonight for the bodies of eight of the eleven fishermen who lost their lives off Hereford inlet last night when their boats were capsized during a severe southeaster. Three bodies were washed ashore early today. Efforts are being made to reach one of the battered fishing smacks, which ran aground on a bar, in the belief that some more bodies might be found in it. High seas made the approach to the wreck a hazardous task.

Two More Flood Victims Recovered At Britannia Beach

Vancouver, B. C., Nov. 1.—Two more bodies of flood victims of Britannia Beach were recovered today, one of which was identified as that of Mrs. J. Godin and the other that of a child not yet identified. This makes a total of 18 bodies recovered. There are still seventeen persons missing.

No Evidence To Substantiate Murder Theory

Police Investigation Into Death of Wesleyan Student Reveals Nothing Tangible.

Buffalo, N. Y., Nov. 1.—Investigation of the death of Kenneth E. Loney, 20-year-old Wesleyan student, whose body was found floating in the Niagara River last week, was officially closed by the police this afternoon when Detective Sergeant made a report in which they declared they had not been able to find the slightest bit of evidence to substantiate a murder theory.

The medical examiner's report was to the effect that Loney had been killed by a knife wound in the side.

Toronto Dairies Cat Milk Price

Toronto, Nov. 1.—Toronto dairies today announced a cut in the price of milk effective at once. Hereafter a dollar will buy fifteen pints of milk instead of fourteen. Last winter the rate was 25 cents for a dollar.

MORE PROOF OF LIBERAL UNION WITH FARMERS

Despite Denials of King and Creer Evidence Discovered of Secret Compact.

EVIDENCE MORE THAN CIRCUMSTANTIAL

Telegram from National Liberal Organizer Lets the Secret Out to Public.

Special to The Standard.

Ottawa, Ont., Nov. 1.—Both Mr. King and Mr. Creer deny that a secret compact exists between the Liberals and Farmers. They may have been kept in ignorance of the compact which does exist and which is being implemented, although as in all secret diplomacy, there is grave suspicion by the contracting parties of each other.

Circumstantial evidence in support of the belief in the secret treaty is very conclusive, but there is more than circumstantial evidence available. Here is a message from the head of the Mackenzie King Liberal organization, in rural constituency, where organizer of the Liberal Convention of 1919, National Secretary of the Liberal Party, and chief of the Liberal organization and public department in this context:

"Learned (knowing) people may cause difficulty if they succeed in placing candidates in rural constituencies, where effect would be to defeat friendly farmer and select Conservative. They are endeavoring to have nomination in various places and openly offering candidates considerable money. Proposed candidates reported to us and we warn them to be careful about accepting this money. They apparently have some money and talk of immense amounts. One story direct from them is that funds supplied from Quebec through Senator Campbell and that Jacobs will speak here for them. If by any possibility any Quebec people are interested in defeating Liberal-Farmer here, they should be advised to spend their cash more wisely. Answer."

Two Liberal Factions.

There are two Liberal factions in Manitoba with separate organization, one headed by Bill the writer of the above message, and the other known to Sir Wilfrid Laurier but has been ignored by Hon. W. L. Mackenzie King, who has thrown in his lot with the Liberal party, and the agreement carries with it the Liberal party in the former constituency. The other Liberal faction renounces the desertion of Mr. King and the betrayal of West and East and its nomination candidates. It is against placing Liberal candidates in the field that Hill protests to Hayden.

Heavy Prices Paid.

It is not known what price was paid Quebec to agree to this compact. Messrs. Norris Sackett and Sir Clifford Sifton, have always been notoriously anti Quebec, and the price of Quebec's acquiescence in their demand must have been very great. It is believed to have been the return of the National Railway to corporation control and, very probably, a corporation railway monopoly of Canada's transportation system. Mr. Creer has been an ally of Mr. King's during the past two seasons, and on the platform never returns to the Liberal leader, nor the Liberal leader to him. He is to vote well with the West and Mr. King in Quebec. Mr. Creer has already called on the Farmer candidates in Quebec. He appears to be implementing his part of the compact with great success than are Mr. King's friends in Manitoba. There is strong circumstantial evidence in Ontario of the Liberal-Farmer and its nomination candidates to be made that will place beyond doubt the secret treaty between Liberal leaders and the Wood Creer party.

ALLIES REACH AN AGREEMENT ON HUNGARY

Disarmament of Hungary Agreed Upon—Question of Ruler Still in Abeyance.

Prague, Czechoslovakia, Nov. 1.—The Allies and the Little Entente have reached an agreement on the essential points for discussing the details of the Hungarian situation. The council of ambassadors replied yesterday to the note of the Little Entente according to most of the demands and undertakings to convey them to the Budapest Government.

The elimination of the Hapsburgs as rulers met with no basic opposition on the part of the Allies, although their removal was not stipulated in the peace treaty. It was pointed out today, however, that the question of their removal was not open.

The disarmament of Hungary has been agreed upon in principle and the details are now being discussed as to what extent the Little Entente will participate officially and unofficially in the supervision. The Allies will go on record in a solemn declaration for carrying out the treaty.

IRISH BULLETIN ATTACHES LITTLE IMPORTANCE TO RENEWAL OF WARFARE

Dublin, Nov. 1.—The "Irish Bulletin," commenting on Mr. Lloyd George's speech in the Commons yesterday, expressed regret that he failed to see the facts eight months ago when the repressive policy was launched, in the light he now views them.

The "Bulletin" declines to attach over much importance to the Prime Minister's allusions to the deciding factors regarding renewal of warfare, and reserves its strongest criticism for his declaration that any settlement must be submitted for detailed examination by Parliament which it considers will tend gravely to endanger any fruitful results of the conference.

STRIKE THREATENS TO TIE-UP THE COAL MINES OF UNITED STATES

Union Workers Take Exception to Court Injunction Which Prevented "Checking Off" of Dues—Discontinuance of "Check Off" Regarded as Breaking Existing Wage Agreement—Miners Say Strike is Their Only Defence Weapon.

Indianapolis, Ind., Nov. 1.—A general strike of coal miners in the United States seemed inevitable tonight if operators had the injunction issued by Federal Judge A. B. Anderson, which proscribed the "check-off" of union dues. A telegram sent late today from headquarters of the United Mine Workers of America, after it had been definitely learned that the injunction was not yet in effect, advised union officials to regard discontinuance of the "check-off" as breaking the existing wage agreement.

The telegram, signed by President John L. Lewis, Vice-President Philip Murray and Secretary William Green, said:

"Any abrogation, or setting aside, of any part or section of this agreement, including the section providing for the checking off of dues and assessments, cannot be regarded as other than a violation of the agreement and should be treated accordingly by the district officers and local unions."

HALF MILLION DOLLARS LOSS FROM THE GALE

Newfoundland Fears The Loss of Life at Sea May Have Occurred.

TREMENDOUS DAMAGE TO FISHING PROPERTY

St. John's Had Its First Sunshine Yesterday Since the Hurricane Struck Friday.

St. John's, Nfld., Nov. 1.—The northeast gale which has swept this section of Newfoundland since Friday evening abated today. Half a million dollars damage has been done to roads and public property it is estimated, in addition to the loss of private property swept away or destroyed. Beyond one death in St. John's from electrocution, no toll of life from the storm is known, but it is feared that loss of life at sea was inevitable. No word has yet been heard from the small schooner which was blown out to sea with four men on board near Cape Hayden. One story from Conception Bay tells of twelve men being forced to spend three days without food marooned on Kelly's Island near Bell Island where they were trapped by the sudden rising of the wind and sea. A steamer rescued them today.

Grates Cove and other places on the North Shore of Conception Bay report tremendous destruction to fishing and other property. Wherever, stores and roads have been swept away. Losses there are placed at \$200,000.

Sir Richard Squires, Prime Minister, returned today from a two hundred and fifty mile tour to Trinity Bay. A pathway through big banks of snow, practically unknown previously at this time of year, had to be shown to allow the Premier's car to pass. Sir Richard reports little distress in sections visited by him and states that any unemployment which exists will be relieved by the reconstruction work necessitated by the storm.

St. John's had its first bright sunshine today since the storm's commencement and its people moved out into the howling of the gale in their cars and being buffeted by the worst wind, snow and rain, hailstorms which the present generation has remembered.

Will Await Decision.

Dispatch of the message culminated a series of conferences between union chiefs and counsel that extended through the day. However, there was no indication that action would be taken at union headquarters to precipitate a strike until after Judge Anderson had declared that his order was not yet effective.

While preparations for the appeal were being made, reports from the Indiana coal field that five mines were idle in protest against the injunction, and union officials at Terre Haute were considering the formal issuance of a strike order. More than 1,500 men were employed at the Indiana mines that were closed and employees elsewhere in the coal fields were planning meetings to decide on a course of action. Counsel for the union and the coal operators will appear before Judge Anderson tomorrow for formal action, appealing his decision.

Strike The Only Weapon.

While no course of conduct for union officials was outlined by the telegram, it was made authoritative that the international officers regard the strike as the union's only weapon to enforce a contract. The telegram was sent to officials in sixteen states and where the checking off provision obtains.

Eight Hour Day For Farm Laborer Gets The Hook

Removed from the Agenda of the International Labor Conference Now Under Way.

Ottawa, Nov. 1.—According to a cable received by the Minister of Labor from Geneva, where the International Labor Conference is underway, the item on the agenda, respecting the 8-hour day and 48-hour week for farm labor, has been moved. The item was placed on the agenda after discussion, the item concerning the adoption of the Washington Conference resolution in favor of the shorter hours for farm labor was put to a vote which resulted in 65 for inclusion of the item and 39 against. Under the regulations a two-thirds majority is necessary for the retention of any item after formal objection by any Government which is a member of the International Labor Conference. France, having objected and the two-thirds majority not being received, the item was rejected.

Liberals Gather To Provide For The Necessary

Will Meet at Fredericton With Provincial Government.

Special to The Standard.

Fredericton, N. B., Nov. 1.—There is to be a gathering of the Liberal clans in Fredericton on Wednesday for the purpose of signing up the wherewithal for a Federal campaign in the Province of New Brunswick. The securing of candidates in constituencies still without men in the field, is to be an important matter of discussion. St. John will be the chief bone of contention now that Governor Fugatey has refused to accede himself.

Hungary To Comply With Request of Allied Ultimatum

Budapest, Nov. 1.—The Cabinet has decided to comply with the Allied ultimatum to depose the Hapsburg dynasty, and has convoked the assembly for Thursday to pass the necessary motion.

Former Emperor Charles and his wife have left Tripany and sailed aboard the British gunboat Glowworm for Galatz, Rumania.

Arrest Made in New York Mail Truck Robbery

New York, Nov. 1.—The first arrest in connection with the robbery of a mail truck at Broadway and Leonard Street, October 24, and the theft of cash and securities valued at more than \$1,000,000 was made tonight, when George De Mingo, 39, a broker, was held on a charge of being implicated.

ST. JOHN'S MAN KILLED

St. John's Nfld., Nov. 1.—John Churchill, of St. John's, was killed here today when he took hold of a socket of an electric light in his house. Electrocutation was done, it is thought, on short circuiting of wires during the wind storms of the past few days.

Prussian Ministry Resigns Office

Berlin, Nov. 1.—The Prussian ministry has resigned. His decision was taken after the failure of attempts by Premier Stagerwald to reconstruct the ministry.

Wife Faithless While Plaintiff Was Serving Overseas Hears One Case

Fredericton, N. B., Nov. 1.—In the divorce court this afternoon the case of Andrew J. Woods vs. Ada Florence Woods was heard, the entry of a defence being allowed.

The plaintiff went on the stand and told of being married at St. John's, Que., in 1905 to the defendant then Ada Florence O'Hara. They lived at St. John's and later at Fredericton, where the plaintiff served as a sergeant in the Royal Canadian Regiment. In 1911, as a result of a theft committed at the officers mess, Fredericton, by his wife, she left Fredericton and went West. He made good the loss and followed trying to locate her. In 1914 he enlisted in the C. E. F. at Regina and went overseas. In 1919, he returned to Canada and took charge of the Weldon House at Shediac, his wife joining him. Through telegrams and letters to his wife from George W. Pratt, of Yorkton, Sask., he became suspicious that his wife had formed a marriage with Pratt during his own absence overseas. His wife admitted the marriage and plaintiff told her that she could leave and he would keep open at all. The notice states that a committee of operators will be ready to meet a committee of the United Mine Workers to arrange a new schedule of rates of pay and working conditions at Halifax, November 10, the place and time provided by the agreement.

Divorce Court At Fredericton Hears One Case

Wife Faithless While Plaintiff Was Serving Overseas With C. E. F.

Fredericton, N. B., Nov. 1.—In the divorce court this afternoon the case of Andrew J. Woods vs. Ada Florence Woods was heard, the entry of a defence being allowed.

The plaintiff went on the stand and told of being married at St. John's, Que., in 1905 to the defendant then Ada Florence O'Hara. They lived at St. John's and later at Fredericton, where the plaintiff served as a sergeant in the Royal Canadian Regiment. In 1911, as a result of a theft committed at the officers mess, Fredericton, by his wife, she left Fredericton and went West. He made good the loss and followed trying to locate her. In 1914 he enlisted in the C. E. F. at Regina and went overseas. In 1919, he returned to Canada and took charge of the Weldon House at Shediac, his wife joining him. Through telegrams and letters to his wife from George W. Pratt, of Yorkton, Sask., he became suspicious that his wife had formed a marriage with Pratt during his own absence overseas. His wife admitted the marriage and plaintiff told her that she could leave and he would keep open at all. The notice states that a committee of operators will be ready to meet a committee of the United Mine Workers to arrange a new schedule of rates of pay and working conditions at Halifax, November 10, the place and time provided by the agreement.

Operators May Close Mines

In giving the required thirty days' notice of intent to abrogate the agreement, the operators declare that, under present industrial conditions with coal prices falling, a wage cut is necessary if the mines are to be kept open at all. The notice states that a committee of operators will be ready to meet a committee of the United Mine Workers to arrange a new schedule of rates of pay and working conditions at Halifax, November 10, the place and time provided by the agreement.

SHERMAN MAKES STATEMENT IN BEHALF OF ARBUCKLE HELD ON MANSLAUGHTER

New York, Nov. 1.—Lowell Sherman, motion picture actor and a guest at the party in the San Francisco Hotel of Rescoe (Fatty) Arbuckle which preceded the death of Virginia Rappe, another guest, today made a sworn statement denying that Arbuckle at any time was in a room alone with the girl. Sherman declared that Miss Rappe complained of being ill and was carried into Arbuckle's bedroom and that Arbuckle was in the room only when others were present.

ST. JOHN, N. B., WEDNESDAY, NOVEMBER 2, 1921.

MR. MEIGHEN'S CREED.

"More than any other country, Canada needs a protective system. She is a young country mostly undeveloped. She lies alongside a great big country tremendously developed. The United States has every advantage that Canada has and tremendous advantages besides. It surely follows, to the mind of every reasonable man, that to abandon the protective system in Canada would be simply to invite the absorption of Canadian industry in the far vaster industries of the United States. The principles of the protection of Canadian industry have been proclaimed by practically every statesman who has shouldered the responsibility of government in Canada. They are sound and they are right and the vast mass of the people of Canada know that they are sound and right."

—From Premier Meighen's Portage Speech.

THE NATIONAL RAILWAYS.

The majority of the Canadian people was decidedly pleased when it transpired that the earnings of the National Railways for the month of August were several thousands in excess of the expenditures. Coming as the announcement did after a long, long series of deficits, it was more than welcome. President Hanna, while naturally pleased at the satisfactory turn in events, showed sufficient prudence not to be too optimistic, and announced the probable end of deficits, but he merely confined himself to the opinion that the outlook for the future was decidedly brighter. That he was justified in so expressing himself is shown by the recently published returns for September, which come as a surprise to a large number of the Blue Ribbon politicians. The excess of receipts over the expenditures for August was \$47,000; the excess of receipts for September was upwards of half a million. This speaks for itself. It justifies the directors' confidence in their policy and thus encourages them at a time when systematic deparagement of their work, and the persistent efforts of the leaders of two of the political parties, their organizations and newspapers, to incite the people against the Railway Board.

The question of the National Railways has been seized upon by both Mr. King and Mr. Creer, and showed to the front as a paramount issue in this election campaign, notwithstanding that before the election was announced the thing they were in full cry against was the tariff. When Mr. Meighen, taking them at their word, announced in London that the one great issue was the tariff question, they took upon themselves to debate that issue of their first choice, and to dictate another.

THE LURE OF THE STREETS.

A few months ago when the case of the girl Margaret Long aroused the sympathies and indignation of the public, certain women's organizations in the province began to display some signs of activity and interest in the social conditions out of which such cases develop, with a view to bringing about such a change in conditions as would make those unfortunate incidents less frequent. Much has already been done to improve matters, but there is still a great deal to be accomplished before any real improvement takes place.

The story is told of a Freshwater pastor in a Scottish parish who was continually preaching against the immorality which he declared existed in his parish, and some of the wealthier in his congregation collected sufficient money to send him for a trip to Paris in order that he might see "life" as it existed in other places, after which he might perhaps change his views regarding the alleged seriousness of conditions in his own district. On his return he announced that "after making verily careful observations, I have come to the conclusion that immorality in 'Bastille' is as bad as in 'Bastille'."

Whether he would have said the same thing had he sent him to St. John instead of Paris, we, of course, cannot say; but if he had made a really "careful observation" of conditions existing here, he would have found much to shock him to say the least.

There seems to be absolutely no oversight of young girls in their teens and older, who promenade the streets night after night for no other reason than to pick up with anything that comes along. One thing leads to another, and sooner or later, the girls get themselves depraved to an extent that makes them careless and indifferent to all consequences. Yesterday's tramps

papers told of a young girl being given

ride in an automobile, and instead of being taken home was driven over another road and left to crawl to a cottage when she was alone with. If parents take no interest in what comes of their daughters, it cannot be wondered at if any of them come to harm.

The Magistrate has issued a warning to the police force to clear the streets of girls and young women out alone after dark. This order if carried out should tend to improve matters. It is high time some more active interest was displayed in the welfare of young women, and in the promulgation of such measures as will tend to lessen the dangers which beset them.

WHY THIS PURCHASE NOW?

Provincial Government organs announce the purchase by the Government of the Queen Hotel property in Fredericton, the assessed value of which is said to be \$30,500. It would be decidedly interesting to know what prompts an administration, faced with the biggest deficit in its existence, to acquire just at this time, a property of such value. The O'Connor property was bought a year or two ago for \$7000 and another \$3000 spent on it to make it habitable. The public was told at the time that there was a vacant lot adjoining it that could be used for extensions if any further accommodation was ever needed. Besides this, the Government was another large lot between the Agricultural Office and the office acquired from the Merritts. On either of these lots, additional office room could be provided. One sometimes hesitates to say what one thinks, but this purchase coming at this particular time, certainly calls for some explanation. Has it been arranged yet just what percentage of the purchase price Mr. McCaffrey would be expected to donate to the party's campaign fund?

THE QUESTION OF ULSTER.

The Anglo-Irish conference has now reached a point where all depends upon Ulster. That the split, if there was to be a split, would be upon the status of this province has been indicated from the start. Ulster cannot be coerced any more than the south of Ireland can be coerced; and on the other hand, a divided Ireland would never constitute a permanent solution of the Irish problem.

What is inconceivable, however, is that Ireland and England should go to war again over Ulster. It has been estimated that it would cost Great Britain \$2,000,000 to subdue Ireland, in addition to the fearful loss of life that another war, which would entail a real war next time, would entail. Civilization itself might never stand the strain of such a struggle. There is hardly any concession, short of absolute separation of the whole of Ireland from the Empire, that both sides could not afford to make to avoid such a direful contingency.

LADY LAURIER.

In the death of Lady Laurier is refreshed in us the memory of the great Canadian whose life-long helpmate she so devotedly was. The grief of the wife of a public man is more the reflex of the glory of what was. She shares his triumphs and disappointments. As a retiring disposition she entered into the public activities of Sir Wilfrid as a pure duty to love and devotion. While childless she loved children with the love of a mother. Although born to high places her charity for and work among the poor was one of her distinguishing characteristics. In her passing the Standard joins in paying tribute to one of Canada's heroines.

Sir Lomer Gouin will hold some political meetings in Toronto. As the real leader of the Quebec Liberal party, his position on national problems, especially the railway issue, will be of much interest to Ontario and the West. The whole group of Ontario and Western supporters of King and Creer are intensely opposed to Sir Lomer's railway policy, and also his open advocacy of an adequate protective tariff. Evidently Quebec liberalism will not have even speaking acquaintance with its Ontario and Western counterpart by the time the campaign winds up.

The measure of the Senate of the United States with regard to its indifference to international obligations of a moral character was taken a few days ago when it repealed the Panama Canal tolls law. The arguments in behalf of that undertaking were specious and unworthy of a great legislative body whose devotion to the highest moral standards ought always to be above technical interpretations of any kind.

Notes by the Office Boy

The Editor kindly asked me yesterday how I was feeling after my fight with a mother's dog, to which I replied that I was a little out of sorts, whereupon he told me I shouldn't use expressions I didn't know the meaning of. I asked him in what way, and he said he'd bet me I didn't know what "out of sorts" meant. I said I knew what it meant well enough. He then told me that the expression was first used in newspaper offices with reference to news and kinds of type used by a compositor. At times his supply of sorts gives out, so that the composition of the particular work in hand has to be suspended until the required type is obtained. Hence he is "out of sorts." For the time being, I am all right in my proper place, but I don't look well in your finger nails.

The only army of unemployed that it is desirable to keep in this country is the military army.

Very few waiters are spiritualists, but it is astonishing the number of them who believe in table tipping.

With the weather becoming too cold for golf and short skirts and bobbed hair going out of style, the paragraphers will be driven to an unreasonable exploitation of the "Do your Christmas shopping early" whoeze.

I see in the Chicago Tribune an advertisement which reads: "For Rent—A nice six room house with bath in front lot. Rather an inconvenient location for it. I should say."

A "sick" man presented himself at a certain drugstore with a prescription call for rather more than you require," inquired the man of drugs. "Yes," was the admission, "but I expect a member of my lodge to come and sit with me."

WHAT OTHERS SAY

Britain's Change to Protection. (Kingston Whig, Lib.) Now the last stronghold of free trade has gone, and Britain is definitely putting into force a policy of protection for her industries.

The change is a significant indication of the necessities of the after war struggle for commercial and industrial existence, nay, for industrial existence.

This change in Great Britain is of special significance to Canada at the present moment. No clear thinking man, no matter what his political views might be, can surely see on a platform and advocate that Canada go back to a policy of free trade, when she has given it up because the struggle for markets and for industrial supremacy is so keen as to make it an unwelcome theory. There is no longer any country in the world which ever pretends to believe in free trade, and while it is true that there may be a hard time for industry in the interim, the measure of Protective tariff which may be imposed in order to safeguard industries, it is more true that the country which thinks of adopting free trade in these hard times for industry is bringing upon itself a certainty of defeat in the world's industrial markets.

Purity in Elections. (Calgary Herald.) The old is corrupt; the new is pure. So runs the ancient cry of the leaders of new political movements.

We hear of every day from those who have themselves to have mixed themselves into the Progressive party. Other parties are bad; we alone are good.

Yet, in the Alberta nominations, the only report of a packed convention that the Herald has received referred to a Progressive convention.

The Labor man understood that there was to be a certain co-operation between themselves and the Farmers. In Edmonton and in Lethbridge we find the Labor men accusing the Farmers of breaking faith with them.

It was a prominent supporter of the Herald and suggested that a report of a public meeting be doctored so as to throw ridicule upon another Progressive Progressive honor.

Where two candidates have sought a Progressive nomination, in more than one instance the defeated one tempted publicly to withdraw his name for nomination, has been known to screech if anything, and less good-will, less cheerfulness, sportsmanlike acceptance of defeat has been shown among the Progressives than among the old parties.

Community And Festival Chorus

At Meeting Last Night About Sixty Persons Signed Intention of Joining Society.

The St. John Community and Festival Chorus held its first meeting last night in the school room of the Central Baptist church and about sixty persons signed their intention of joining the society. Prof. Brander gave a short talk on night singing and the use of the voice. It is the intention of the chorus to meet on Tuesday evening at eight o'clock for general chorus singing and those who are taking the night singing course will meet at half past seven.

It is the hope of the promoters of the society that all lovers of chorus singing will give a helping hand in making it a success and those who desire training will attend the weekly practices.

Prof. Brander is the conductor and E. J. Taylor is secretary and either of them will be glad to furnish information concerning the society.

Benny's Note Book

BY LEE PAPE

Weather. Wrens nested better. State! Latest Fend News! The Hunts are slyly ahead this week in the big feud between the Hunts and the Jonnas, on account of Sid Hunt volunteering to sharpen Mand Jonnas' new pencil when it broke during drawing lesson last Thursday, and when he passed it back to her it wasn't hardly long snuff for a stump.

Sports. Puds Simkins got a deer last Saturday he wanted to be a snake charmer when he grew up, so he went out in the back yard and dug up 2 worms to see what he could make them do, being nothing.

Pome by Skippy Martin. ALMOST PERFECT. My new Sunday shoes are beautiful. As everybody admits both friends and foes, if they only had more room around the toes.

Sisley. Miss Lorrette Mincee is thinking of writing a book about her experiences in the country this summer, were she was chased by a bull but not cwt and pushed in a creek but not drowned and poisoned by poison ivy but not wate it showed.

Intriguing Facts About Intriguing People. Puds Simkins is still taking 3 piano lessons a week but his father and mother are getting discouraged by the absence of results and Puds hopes for the best.

CRACKER OFF DESPITE LAW SUITS PENDING

Indifference to Outcome Indicated in His Departure for Ireland.

New York, Nov. 1.—Richard Croker, former leader of Tammany Hall, who came to this country from his Irish estate early this month for the purpose of seeing the world series of baseball games and defending five lawsuits brought against him by his children within the last two years, will start back for Ireland this morning on the Ogdish with his interest in baseball satisfied, but with apparently slight interest in the lawsuits.

Early next week his presence will be desired in the Supreme Court as a witness in a suit brought against him by his son, Richard, Jr. The fact that he would be needed was communicated to him twice since last Monday, but in reply he let it be known he would not permit the pending law action to interfere with his return to Ireland on the day he had selected.

The suit to come up next has to do with a trust fund of \$100,000 which he set aside before his second marriage for the benefit of his first wife and his two sons and two daughters. Under the terms the first Mrs. Croker was to receive an income for her lifetime and her children were to divide it after her death.

Frederick Ryan, the counsel for the Croker children, said yesterday he had received no information as to whether the former Tammany leader expected to appear by representative. He explained, would be protected by the court but the other parties to the action were unable to understand his attitude at the present time because a year ago he expressed himself as determined to recover the trust moneys into his hands because he was "tired and tired of being dictated to by his children."

The other four suits in which members of his family are plaintiffs against him will not come up for trial until December or later. When Mr. Croker came here at the beginning of the summer he understood he intended to go to Florida until the case came up. He has not indicated whether he will come back from Ireland to defend them or whether he will allow them to go to judgment without opposition. All of them have to do with money arrangements within the Croker family.

Barn With Twenty Tons of Hay Burned At Grimross Island

Gagetown, Oct. 31.—On Saturday afternoon a large barn owned by Herbert McKinney, situated on Grimross Island, about two miles above Gagetown, was burned down. The barn contained over twenty tons of hay, half of which was owned by Mr. McKinney and half by John Day. The fire originated from some burning brush, which Mr. McKinney had cut during the summer and after burning preparatory to putting everything in shape for the winter. The burning piles of brush were at some distance from the barn, and after the fire was thought to be completely out, McKinney walked to the base of the island, and on his return within the hour found his barn almost gone. The barn, which was a large, well built one, was the only barn built in octagonal shape on the island and was considered a landmark on that account. There was no insurance to cover the loss, which will be close to \$1,000.

The Kidneys

The office man and the outdoor worker suffer alike from derangements of the kidneys.

Backaches and headaches are among the symptoms. In some cases Bright's disease soon develops, others suffer from high blood pressure until hardening of the arteries sets in.

In order to forestall painful and fatal disease prompt action should be taken at the first sign of trouble.

Mr. A. D. MacKinnon, Kirkwood, Inverness county, N.S., writes:

"I can highly recommend Dr. Chase's Kidney-Liver Pills to all suffering from weak kidneys. I suffered from kidney disease for a long time. I may also say that for three years I was nearly always troubled with headaches, and no treatment seemed to do more than afford temporary relief. I was finally told of Dr. Chase's Kidney-Liver Pills, and after taking a few boxes was completely relieved. I have also used Dr. Chase's Ointment with the best results, and never fail to recommend these wonderful remedies."

CROKER OFF DESPITE LAW SUITS PENDING

Indifference to Outcome Indicated in His Departure for Ireland.

New York, Nov. 1.—Richard Croker, former leader of Tammany Hall, who came to this country from his Irish estate early this month for the double purpose of seeing the world series of baseball games and defending five lawsuits brought against him by his children within the last two years, will start back for Ireland this morning on the Oedipus with his interest in baseball entirely but with apparently slight interest in the lawsuits.

Nearly next week his presence will be desired in the Supreme Court as a witness in a suit brought against him by his son, Richard, Jr. The fact that he would be needed was communicated to him twice since last Monday, but in reply he let it be known he would not permit the pending law action to interfere with his return to Ireland on the day he had selected.

The suit to come up next has to do with a trust fund of \$120,000 which he set aside before his second marriage for the benefit of his first wife and his two sons and two daughters. Under the terms, the first Mrs. Croker was to receive an income for her lifetime and her children were to divide it after her death.

Frederick Ryan, the counsel for the Croker children, said yesterday he had received no information as to whether the former Tammany leader expected to appear by representative at the trial of the action or had merely lost interest in it and was indifferent to the outcome. His rights, as Mr. Ryan explained, would be protected by the court but the other parties to the action were unable to understand his attitude at the present time because a year ago he expressed himself as determined to recover the trust moneys into his hands because he was "sick and tired of being dictated to by his children."

The other four suits in which members of his family are plaintiffs against him will not come up for trial until December or later. Investigation On Water Extension

Evidence Given by J. P. Ryan Re Charges Made by Him on Spruce Lake Main.

The investigation into the charges made by J. P. Ryan in connection with the Spruce Lake water extension was begun yesterday morning at city hall, Commissioner Jones acting as chairman of the committee.

Present were: Mayor Schofield, Commissioners Bullock, Thornton and Frink, G. G. Hara, city engineer; G. B. Balleentyne, assistant city engineer; A. S. Sewell, water superintendent; W. H. Harrison, acting city solicitor; R. C. Weyman, representing the Canada Lock Joint Pipe Co., and several members of the Engineering Institute of Canada. St. John branch, including C. C. Kirby, divisional engineer of the C. P. R.; Alexander Gray, divisional public works engineer in charge of St. John harbor; R. H. Cushing and F. P. Vaughan.

Mr. Ryan at first made some objection to being sworn, but Commissioner Jones announced that unless his evidence was given under oath the enquiry would cease and he agreed to be sworn.

He testified that he was in the employ of the Lock Joint Company from September, 1920, until February of this year, and during that time none of the pipe made was up to specifications, there not being enough cement and too much grit in it. He said a city engineer had passed pipe without testing it. He knew this because the company would not get its money unless the pipe was passed. He admitted that no pipe had been laid while he was with the company. He withdrew the charge that Mayor Schofield had piggybacked a letter of his and acknowledged that he had not followed the matter any further at that time himself. He said he meant nothing by the charge that Mr. Hara was a homebody and in league with the Canada Lock Joint Pipe Company or the charge that J. Terry had received \$6,000 from the Pipe Co. nor did he know of any improper relation between Mr. Terry and the Mayor.

To Mr. Harrison he said there was no graft in connection with the money paid to Mr. Terry.

He said that some of the pipe made last year were not fit for sewer pipe. He said they had to be patched up.

To Mr. Bullock Mr. Ryan said that Mr. Hara did everything in his power to turn out good pipe, but the material was not according to specifications.

To Mr. Hara the witness said there was forty to forty-one cubic feet in each pipe. He said that there should be four bags of cement in a yard of good concrete.

To Mr. Bullock the witness said he was of the opinion that the bad leaks were not in the pipes made under his supervision. He said the best position of these he considered inferior. Eight of them were at Manchester's corner, thirty-four between Robertson's and Wm. Abel's cut-off; seven between Abel's and Armstrong's swamp; twenty-three on the other side of the swamp. He said Mr. Bruce admitted that the cobwebs were not right.

To the city engineer Mr. Ryan said that his statement that there were six cubic feet of mud put in each pipe was right.

Asked if he had paid his city taxes, Mr. Ryan refused to answer.

Mr. Harrison said that he had been informed that he had not paid them in 1918, 1919 or 1921.

The chairman asked that five names of other witnesses be given by Mr. Ryan and they would be subpoenaed. Specifications Followed.

To Mr. Kirby, Mr. Ryan said that the pipes made last year under his supervision were according to specifications. He did not know if there was another cement in them or not. He thought there was too much grit in them. There was one part cement, 1 1/2 parts clean sharp sand, and 1 1/2 parts of gravel or broken stone. He said that in each batch of cement there were the required amounts of cement, sand and gravel. The gravel however, was not right. Too much

Indians of North Take Kindly To Their Soda Water

Edmonton, Alta., Nov. 1.—Young Canadians have nothing on the Indians of the north country when it comes to getting away with red, green, pink and yellow soda water, declares J. A. Morie, a local confectioner, who established the "furbest north" soda fountain at Fort Smith during the past summer. Mr. Morie took in a complete plant for the manufacture of various soft drinks and the production of these was an unending source of wonder to the aborigines.

LIFEBUOY HEALTH SOAP

It is the best of all soaps yet it is more than a cleanser, it disinfects too.

The particles which are the cause of disease are killed by the germicidal action of the soap.

Lever Brothers Limited, Toronto

Police Enquiry Brought To Close

Dr. W. B. Wallace, K. C. Had No Reason to Believe Detectives Withheld Witness.

Dr. W. B. Wallace, K. C., testified at an investigation under oath held at city hall last evening, that he had no reason to believe that the detective department had withheld any witnesses in the O'Brien case. He said that in his long dealings with the department he had always found the officers anxious to assist in every way.

Dr. Wallace said he had not made the statement to Mr. Ellis of the Globe but an important witness had been held back in the O'Brien case, nor had he intimated anything of that nature in his charge to the jury. He had, on the contrary, he said, at home to Mr. Ellis and told him the editorial was a reflection on the crown and asked how he had come to write such an article without first learning of the facts of the case.

Dr. Wallace and Mrs. Mary Fleming were the only witnesses called last evening. The investigation was then declared closed by the Commissioner of Safety, John Thornton, who will announce his finding at the next sitting of the common council on Tuesday.

W. H. Harrison, acting city solicitor, was present at the hearing.

Mrs. Mary Fleming.

Mrs. Mary Fleming when sworn said she knew nothing of the Norris murder. She knew Mrs. Truscott but slightly, only having met her five or six times. She could not say Mrs. Truscott had been to her home on the night of the murder, or whether she was in the house at that time. Mrs. Truscott had never been to her home previous to that, as she did not know where she lived. She had been to her house after the beginning of the trial, and told her of looking for her on the night of the murder.

School Trustees Accounts Audited

City Comptroller Submitted Report to Common Council on Financial Standing.

The report of Adam P. MacIntyre, C. A., city comptroller, who audited the accounts of the Board of School Trustees for the past year was submitted yesterday to the common council and in a very concise manner showed the financial standing of the board.

Following is the report:

To His Worship the Mayor and Members of the Common Council of the City of Saint John.

Gentlemen:—I have the honor to present my annual report upon the books, accounts and finance of the Board of School Trustees of the City of Saint John.

I audited their books and accounts for the year ending the thirtieth day of June last.

The statement of liabilities and assets which I now hand you, signed by me, was correctly prepared from the books of the board, and in my opinion represents the position at the close of business on the 30th, June 1921.

The statement of receipts and expenditures, both current and capital accounts, also presented, signed by me, show the sources of the board's income and for what the expenditures were made. I proved them respectively.

The vouchers for the expenditures I found correct.

Debitures to the amount of \$23,600.00 matured during the year. This amount \$2,000.00 was retired by the Sinking Fund from money the sale of Douglas Avenue School. The remainder viz.—\$21,600.00 was retired and charged to special account in Bank of Nova Scotia, until charges were made in the Redemption Act, allowing the board to issue refund debentures at a greater rate of interest than four per cent.

Debitures were issued on capital account; for work performed during the year and some prior years, to the amount of \$4,000.00 at 6 per cent interest from March 1st, 1916.

The bonded debt on the 30th of June last, was \$725,000.

The annual interest on that debt is \$20,717.50.

The interest paid to the Bank of Nova Scotia was \$6,675.44.

The repairs to buildings and furniture were \$21,448.77.

The cost of coal for the year was \$40,296.94.

Expenditure on teachers' salaries, \$236,516.10, and the amount required for janitors was \$21,111.55.

The Trust's Liability to the Bank of Nova Scotia on the 30th June, 1921, was \$69,946.32 in "General Account," and \$23,236.65 in Debenture Account. The amount assessed for sinking fund for the year was placed at the credit of that account with the board's bankers.

The sinking fund had at its credit on the 30th June last, \$52,513.55, invested as follows:

Bonds in safety deposit box (face value \$90,000.00) \$82,439.70

Cash in Bank of Nova Scotia "Special Account" 72.55

\$82,512.25

The bonds I inspected, also securities held for the Parker Modal Trust and found them correct.

The insurance carried by the board on buildings and furniture is \$374,775.00. They also carry a blanket policy of \$10,000.00.

Respectfully submitted, ADAM P. MACINTYRE, C. A., Oct. 29th, 1921. City Comptroller.

confections of civilization and they are just as good at eating candies as at drinking "pop," states Mr. Morie. Like the camel of other cities, the Indians of the north appear to have eight sets of stomachs specially constructed for the containing of liquids and when Mr. Morie left the north they were still "going strong," with apparently no idea of going out of their trap lines until such times as the total supply of lemonade, ginger pop, and candies had disappeared.

FLAVOUR—the charm of "SALADA" TEA

is in its unique flavour of rich delicacy. And it never varies. All grocers sell "Salada" in sealed metal packets only.

Large C. P. Steamer To Be Launched Shortly

The Empress of Canada, the fastest and most luxurious of the Canadian Pacific liners on the Atlantic and Pacific oceans, is now receiving her finishing touches on the Clyde, and it is expected that within a very short time she will be placed in service between Vancouver and Victoria and ports in China, Philippines and Japan.

This steamer has an overall length of 655 feet, is 77 feet 9 inches in breadth, and 53 1/2 feet in depth. She has a straight stem and cruiser stern, three funnels and two pole masts. There is a continuous exterior deck with bridge, promenade deck and boat decks, the former extending the full length of the ship. She has a gross tonnage of 22,000 and a speed that exceeded 25 1/2 knots on her official trials. Passenger accommodation has been provided for about 600 first class, 100 second class and 240 third class and 950 Asiatic steerage passengers. A crew of approximately five hundred will be carried by the vessel.

It is considered that she will be the fastest and biggest vessel on the Pacific, and with the well-known steamships Empress of Asia and Empress of Russia, and the former German liner Tirpitz, now the Empress of China, will put the Canadian Pacific in an enviable position regarding size and speed of steamships on the Pacific. The twin-screw general turbine passenger steamship is the largest liner yet built by the Fairfield Shipbuilding and Engineering Co., of Govan, Scotland.

While not the largest steamship in Canadian Pacific fleets, the Empress of Canada will be without a peer on the Pacific. She is surpassed in dimensions, however, by the Empress of Scotland, the former German steamer Kaiserin Augusta Victoria, which is 26,000 tons and 700 feet long. The latter vessel will soon be seen in service between Quebec and Liverpool.

The design of the Empress of Canada was prepared by Mr. Hugh Macdonald, naval architect to the Canadian Pacific Steamships, Limited, and she has been built under the supervision of the owners' consulting naval architects, Messrs. J. H. Bliss & Co., of London and Glasgow.

FEDERAL APPOINTMENTS.

Marine—Isaac C. McLeod, O. A. S., Wharf Patrolman, St. John.

Interior—Miss Bessie Brown, Wharf Patrolman, St. John.

Post Office—Chas. Wm. F. Ames, Postal Patrol, Moncton.

Customs and Excise—W. G. Haslam from Senior Customs Examining Officer to Customs Supervising Officer, St. John.

Children Cry for Fletcher's CASTORIA

Fletcher's Castoria is strictly a remedy for Infants and Children. Foods are specially prepared for babies. A baby's medicine is even more essential for Baby. Remedies primarily prepared for grown-ups are not interchangeable. It was the need of a remedy for the common ailments of Infants and Children that brought Castoria before the public after years of research, and no claim has been made for it that its use for over 30 years has not proven.

What is CASTORIA?

Castoria is a harmless substitute for Castor Oil, Paregoric, Drops and Soothing Syrups. It is pleasant. It contains neither Opium, Morphine nor other narcotic substance. Its age is its guarantee. For more than thirty years it has been in constant use for the relief of Constipation, Flatulency, Wind Colic and Diarrhoea; allaying Feverishness arising therefrom, and by regulating the Stomach and Bowels, aids the assimilation of Food; giving healthy and natural sleep. The Children's Comfort—The Mother's Friend.

GENUINE CASTORIA ALWAYS

Bears the Signature of *Chas. H. Fletcher*

In Use For Over 30 Years

He is another "Buck Crouse" some "young" according to Bobby Saunders, his manager.

Interview With Knockout Mayor Herbert H. Scott Won Fame as a Fight Referee and Sport Editor.

Newark, O., Nov. 1.—This is an interview in ten rounds to a decision with Herby H. Scott, fight referee, sport editor and the new mayor of Newark, O.

CHAPTER I. O. D. E. The Seven Seas Chapter I. O. D. E. at the regular meeting last evening...

DO LARGE BREATHS HURT YOUR CHEST WHEEZY? Proper treatment is a vigorous rubbing of the chest, neck and side with...

OFFICER HAS A FLORIST SHOP In the readjustment period following the war, there has been a noticeable...

A Stubborn Cough Loosens Right Up This home-made remedy is a wonderful cure for coughs, colds and croup...

How can you relax, and be sport editor, and mayor all at once? "System. Having a place for everything and everything in its place."

What do you know about mayoralty, anyway? "Say, young fellow, how could I have been a city hall reporter and not know more about...

Believe in law enforcement? "Do I Ouch. Say, young man, this town is as tight as a new pair of shoes. It's so tight it squeaks. Law enforcement, speaking seriously—or the alleged lack of it—is what made me mayor."

How can you relax, and be sport editor, and mayor all at once? "System. Having a place for everything and everything in its place."

What are you doing to relieve unemployment? "Rushing public works—paying and sewer construction for one thing. Every city should do that matter. Every little job helps nowadays."

But is this a good time for cities to spend public funds in great quantities? "The best time that could be, if they get a dollar's worth of goods and service for every dollar spent."

Decision. Leave that to the crowds who gather before the office of Reference Sport Editor Mayor Scott whenever a big sport event is on, and hear him announce the results hot off the wire—and sweat them, too, whether they be "knockouts" or "man caught off first."

Opening of the South End Club

Royals Receive the Spaulding Trophy — Addresses and Musical Programme.

The opening of the South End Club was held last evening in the club house on Broad View avenue, with Frank White, the president of the club, in the chair.

The meeting opened with the singing of "God Save the King," with Miss Tyner, pianist, Frank White spoke on the interest which is being taken in the club, being shown by the large number of men and boys present...

Presentations to Royals. The presentation of the Spaulding cup next took place by Mayor Schofield, who presented the cup to Fred Dynes, the captain of the Royals, the colored team which won the championship of the South End High School...

Judge Ritchie. Judge Ritchie spoke to the boys and made a very excellent address. He told them of the value of schooling and of having a good education...

Round One. Interviewer feints with this: "Tell me something of your early life." Scott rubs his eyes in a Chilloochee, Jan. 5, 1872. Son of an editor...

Round Two. Interviewer jabs Scott with: "Believe in prize fighting?" Scott gets in some wicks for the interviewer, who replies: "I believe in boxing. I like to referee clean boxing bouts. But the real good, comes from doing the boxing, not watching it."

Round Three. Scott doesn't give the interviewer a chance. "Trouble with us Americans we don't get enough real exercise. I mean actual participation in sports. We like to see others play games. We've got to play ourselves. You're not a sportsman unless you participate in sports."

Round Four. "Are you doing anything to encourage public recreation?" the interviewer drove out. "You know it," Scott comes back. "We've got an amateur football league, and other kinds of amateur organizations. And we're doing everything we can to encourage them."

Round Five. "Like politics?" "Everyone should run for president of the council here. It's a good thing to do. And I became mayor when the chief executive was casted as the result of a law enforcement scandal. But I like work, and sports, and people. And I'm glad to do my bit for the town."

Round Six. "What do you know about mayoralty, anyway?" "Say, young fellow, how could I have been a city hall reporter and not know more about what was going on than anybody else in the hall? I didn't miss out five council meetings in 15 years. Say, young man, I know a lot more than I ever had the space to print."

Round Seven. "Believe in law enforcement?" "Do I Ouch. Say, young man, this town is as tight as a new pair of shoes. It's so tight it squeaks. Law enforcement, speaking seriously—or the alleged lack of it—is what made me mayor. You can bet your last nickel we're enforcing the law."

Round Eight. "How can you relax, and be sport editor, and mayor all at once?" "System. Having a place for everything and everything in its place. A time to do everything, and doing it then. Teamwork, too. You need teamwork whenever you are in a city hall or newspaper office."

Round Nine. "What are you doing to relieve unemployment?" "Rushing public works—paying and sewer construction for one thing. Every city should do that matter. Every little job helps nowadays."

Round Ten. "But is this a good time for cities to spend public funds in great quantities?" "The best time that could be, if they get a dollar's worth of goods and service for every dollar spent."

Decision. Leave that to the crowds who gather before the office of Reference Sport Editor Mayor Scott whenever a big sport event is on, and hear him announce the results hot off the wire—and sweat them, too, whether they be "knockouts" or "man caught off first."

CROKER SUCCESS AS BREEDER OF THOROUGHBREDS IN IRELAND

No single individual, taking the number of years he has been connected with the industry into consideration, has had greater success in breeding thoroughbreds than Richard Croker, the one-time leader of Tammany...

Mr. Croker came into racing through his friendship for Michael P. Dwyer, and he was for a time associated with General W. H. Jackson in the ownership of the Belle Meade Stud in Tennessee. It wasn't till he went abroad, however, that he began to do big things in the way of blood stock production.

Mr. Croker here showed a picture of his beautiful home, Glencarrin, constructed of granite quarried on the place, with its spacious grounds stretching away in every direction from the mansion.

Serious Sport. "The upper classes in England take their sport seriously," resumed the veteran, who is a keen observer of men and things. "But the masses show their enjoyment and get a lot of fun out of racing. They are fond of a good horse, but if you want to see the thoroughbred in the country where everybody loves him, come to Ireland. The climate is milder and the water and grass better than in England. Ireland will always produce great horses."

Vigorous at 80. Mr. Croker is a true Irishman, and has a keen sense of humor. At 80 his mind is as active as a boy's, while his body possesses a physical vigor which is the envy of many of his contemporaries.

Mr. Croker is a true Irishman, and has a keen sense of humor. At 80 his mind is as active as a boy's, while his body possesses a physical vigor which is the envy of many of his contemporaries.

Board of Trade Monthly Meeting

Talk on New Railway Bridge by Mayor Draper—W. F. Burditt Re-elected.

A fairly large attendance of members of the Board of Trade were present last evening at the monthly meeting and all thoroughly enjoyed the talk on the new railway bridge given by Mayor C. F. Draper, resident engineer.

The minutes of the previous meeting and the summary of the council proceedings were read by the secretary and adopted. The chairman, W. F. Burditt, was re-elected as president for another year and G. E. Barbour as vice president.

Nominations For Officers. The chairman next called for nominations for the officers and members of the council for the coming year. W. F. Burditt was unanimously re-elected as president and G. E. Barbour as vice president.

Entered By Error, Bitch Wins Prize

Chancellor Dora Von Rheinwald turned the tables last Friday on both the winning dog and bitch at the Shepherd Dog Club of America's show at Mineola, L. I.

Among the young stock South Bay Kennels Artful won the six to nine months' class. She was full of quality and won her class handsily. The South Bay Kennels also owned the winner of the American breed class, South Bay Careful. The latter is on the same lines as her kennel mate, Artful, a silver gray of high quality.

The winner of the trophy for the best puppy in the show, however, was the first in the senior puppies bitches. A silver gray that many thought was called upon to defeat the winning dog pupples of the preceding day. She did quite handsily, having a black saddle and silver gray markings, she is outstanding in quality.

When it came to the special for best American bred in the show, regardless of sex, American bred winner, Arto 2nd of Winterville, was declared superior to the day's winner South Bay Careful. The heavy winner of the dog division, Dendix von Eichenbaum, remained content with the award for the special for the best of opposite sex.

The piers were of semi reinforced concrete and those carrying the approach viaduct were most of them on concrete bases. In constructing these piers the lateral as well as the horizontal strain and this was one of the reasons why the height of the bridge could not be raised.

Favors American Training Methods

Oxford-Cambridge Sprinter Points Out Reasons for Superiority in Athletics.

American methods in athletic training and organization are very favorable commented upon by Harry Abrahams, member of the Oxford-Cambridge track team, in an article in the Field of London this month.

A. M. Belding. A. M. Belding in reference to Mr. Stephens' stories spoke of the poverty and suffering that was in the city and the ways of combating it.

Mr. Belding spoke of the possibilities of the club and what was possible if the boys took sufficient interest to build it up. He also made mention of a South End orchestra and of having dramatics in the club rooms this winter.

THE FASTEST TIME ACROSS CANADA
"Continental Limited" on Canadian National Railway, the Finest Means of Transcontinental Travel.
Across Canada - from ocean to ocean - the finest medium of travel is via the through trains of the Canadian National Railway.
From the Atlantic to the Pacific the fastest time is made, and the most luxurious of train services furnished.
From all Maritime Provinces points the finest of connections are afforded at Montreal, via the "Oceana Limited" and the "Maritime Express", with the famous "Continental Limited" leaving Bonaventure Station, at 8:00 p.m. daily, for Ottawa, North Bay, Coburn, Winnipeg, Saskatoon, Edmonton and Vancouver. Leaving Montreal for assistance on a Sunday evening, the traveler arrives in Vancouver early the following Friday morning, after five nights and four days of travel, on one of the best equipped and most modern trains on the continent.
The "Continental Limited" is a solid steel train of standard gauged compartment observation cars, tourist sleeper, colonist cars and first class coaches. The finest of dining cars are attached, and the passage is one of travel comfort with the important factor of making the fastest and most direct transcontinental journey.
The route taken by the "Continental Limited" affords the traveler the finest variety of scenic views and the most interesting sections of Canada are traversed. The road is regarded by experienced travelers as the best and smoothest, while the modern coaches are easy riding. The rigors of old time travel are eliminated and train weariness unknown. There is no train on the continent that affords such luxurious and convenient service. Particulars regarding this through Transcontinental Service, and all information can be obtained from all Ticket Agents, or by writing the General Passenger Department, at Montreal, N. B.
Deposits in the Dominion Savings Bank during October were \$31,139.35 and withdrawals \$41,663.01. During the corresponding month last year both the deposits and withdrawals were considerably larger.

DEW OF DEATH TO FALL ON ARMIES IN THE NEXT WAR

Horrors of Future Conflict Are Pointed Out by Military Experts of U. S. Army.

By A. L. Bradford.
(United Press Staff Correspondent.)
Washington, Nov. 1.—The Dew of Death! The next war will be more horrible than the last world catastrophe.
This prediction, frequently heard from not only army and navy experts but from the average citizen, seems certain of fulfillment unless some summary action is taken in the forthcoming Washington conference to prohibit or restrict the use of these latest war devices.
One of the three main subjects to be taken up at the conference under the broad question of limitation of armament is: "Rules for control of new agencies of warfare." The Chemical Warfare Service of the American Army is believed to possess today the deadliest poisonous gas in the world. This is called "Lewisite," a gas developed during the latter part of the war by Winford Lee Lewis, a professor of chemistry at Northwestern University, but never used in the last war.
A quantity of this gas, equivalent to three drops, reaching a man's body in liquid form, will kill. Lewisite is similar to mustard gas, a burning gas, which caused the major portion of the gas casualties of the war.
Gas was never used from airplanes during the war, but it is understood that the Chemical Warfare Service is preparing, in a future war, to let down from fleets of aircraft a veritable rain of most powerful gases.
These gases would be released from tanks carried by airplanes, and would drift to earth in liquid form, as a light rain or dew. The mustard gas evaporates more slowly than does the Lewisite, thus retaining its power for injury by burning longer, but Lewisite is the deadliest of the two.
A picture can thus be gained of airplanes in a future war, letting down this "dew of death" on armies in the field, and on cities in back of the firing lines, should this be resorted to.
The Chemical Warfare Service knows that clothing, soaked with heavy linseed oil, can be made to protect the wearer from this gas, but it is also equally true that men cannot stand the wearing of such clothing for long. Complete protection from poisonous gas seems impossible.
Pointing out the importance of the use of poisonous gas in the future, General Amos Fries of the Chemical Warfare Service said:
"The use of gas makes aviation ten times as powerful as it would ordinarily be, and doubles the value of every other branch of warfare."
"The importance of gas is evidenced by the fact that 27 per cent of the American casualties during the war were caused by this new agency of warfare. They, too, the casualties caused by all the weapons of infantry—the bayonet, the rifle, the hand grenade, the machine gun—were only slightly more than the gas casualties."
"The use of gas is particularly valuable as a means of defense, imagine an enemy fleet, bringing up the army of the hostile country, to attack the United States. Our airplanes would go out and bomb the enemy ships with explosives and gas."
"If, after this, the enemy forces did succeed in getting up to, or on, the American shore, a rain of poisonous gases could be let down on them in such magnitude that they could go no farther. So, I believe, such use of gas would make it impossible to get a foothold on American soil."
"Some other nations probably would be glad to know that we had plied ourselves in getting up to, or on, the American shore, a rain of poisonous gases could be let down on them in such magnitude that they could go no farther. So, I believe, such use of gas would make it impossible to get a foothold on American soil."
"I do not believe this Government should enter into any agreement not to use gas while there is a possibility of this country being placed at the mercy of an outlaw nation breaking this pledge, as Germany did when she started the use of gas in the World War."
The destructiveness of the airplane has already been greatly increased since the World War. Only a few days ago, the largest aerial bomb in the world was successfully tested by the ordnance department and the air service of the army at Aberdeen, Md. It was 13.2 feet long, 18 feet in diameter, weighed 4,200 pounds, and contained 2,000 pounds of T. N. T.
Dropped from an airplane at a height of between 4,000 and 5,000 feet at Aberdeen, this huge bomb tore a great hole in the ground, more than 60 feet in diameter and about 20 feet deep.
It was with a bomb half this size that Brigadier-General William Mitchell, assistant chief of the air service, and his army fliers sunk the former German battleship Ostfriesland, during the bombing tests with the ex-German warship off the Virginia Capes a few months ago.

Sacco-Vanzetti's Case Hits Argentine Labor

Communists Urge Agitation to Help Comrades.

Buenos Aires, Nov. 1.—The refusal of the Buenos Aires police to permit the holding of a meeting of protest on behalf of Sacco and Vanzetti, the two Italian emigrants convicted of murder in Massachusetts, was followed today by the publication of an appeal by the Communist branch of the Argentine Labor Federation, asking upon the workers to initiate "a campaign of agitation in behalf of our worthy comrades."
The lives of Sacco and Vanzetti, who are described as victims of the exploitation of the "Yankee bourgeoisie," are declared to depend upon the protest of the Argentine proletariat. It is necessary, therefore, the manifesto argues, to exercise pressure upon the United States Government to obtain the release of these men, who, the document alleges, were convicted upon false testimony inspired by plutocratic interests.
Montevideo, Uruguay, Nov. 1.—Special guards were placed around the United States Legation in this city, as a precaution against the possibility of disorders during the general strike this afternoon in protest against the conviction for murder in Massachusetts of Thomas Sacco and Bartolomeo Vanzetti.

Blind, He Identifies Shooter By Voice

Police Accept Old Man's Word and Arrest His Boyhood Friend.

New York, Nov. 1.—Though Andrew Anderson, 74, of 29 Coffey street, Brooklyn, has been blind for years, the police last night accepted his identification of Thomas Rickerson, 26, as the man who shot him and arrested Rickerson on a charge of felon on an assault. Anderson is in Long Island College Hospital with bullet wounds in his abdomen and back. The motive for the shooting is a mystery. Anderson retired about ten or fifteen years ago, having saved enough to live modestly with his daughter Anna. He was sitting in bed in his apartment yesterday when he heard, he said, some one moving about the room. Anderson's hearing, as is frequently the case with the blind, is unusually keen. He called "Who is there?" a voice, which he says he recognized as Rickerson's mumbled something and a shot was fired, which struck him in the stomach. "What do you do for?" Anderson said he called out. The answer was four more shots, one of which took effect and his assailant fled. Anderson said he had known Rickerson from boyhood and had befriended him and given him money and shelter on numerous occasions and could place the man in his voice. The police found Rickerson in a restaurant near Third Avenue and Thirty-ninth street and took him to the hospital, where Anderson again identified him. Rickerson denied the shooting, though neighbors of Anderson's say, according to the police, they saw him run from the house after it.

No Rail Strike Now But—Says Gompers

Sees Future Trouble if Board Continues Cutting.

Washington, Nov. 1.—The only comment on the strike situation from labor circles here came from Samuel Gompers, president of the American Federation of Labor, who declared the "spirit among railroad men today is one of resentment."
"The railroad strike will not take place," Mr. Gompers said. "But if the Railroad Labor Board goes on cutting down wages and working conditions, the present American railroad labor organizations—which are the most reasonable in the world—will be succeeded by organizations which will voice the sentiment of the discontented, the restless and the discontented."
Mr. Gompers emphasized his opinion that the establishment by the Board of \$200 per month, as a basis for an error in Government policy.
"The board says it has 1,500 cases on its docket now," he said, "and nothing can be a greater indictment of the law. It has made representatives of employer and employee in the railroad world work in vain to get a hearing on the extreme force used by all of their demands, and to yield nothing."
"There has never been a case any where in the history of the country in which a tribunal to treat with labor matters that it has not resulted in muddling everything up. The Government has no right to get into one of coercing labor, or threatening with jail and injunction men who consider striking."

Police Accept Old Man's Word and Arrest His Boyhood Friend.

THE WEATHER

Tuesday, Nov. 1.—The Southern disturbance is now moving eastward and will probably pass into the Maritime Provinces. Rain has fallen today in the Niagara Peninsula and near Lake Erie. Elsewhere in Ontario the weather has been fair. A northeast gale has prevailed on Lakes Erie and Ontario.

AROUND THE CITY

ARE INVITED TO CHURCH. The mayor announced yesterday that a special service would be held in Trinity church in Armistice Day and invited members of the council to attend. Canon Armstrong is to be the preacher on that occasion and will deliver an address suitable to the day.

DISCUSS RECOMMENDATIONS.

The city council and members of the Board of Health will meet this morning at eleven o'clock to discuss certain recommendations made by the board in reference to extensions of the water and sewerage service to several localities and the acquiring of lands around the water supply lakes.

POSTAL HOLIDAY.

On Monday, November 7th, Thanksgiving Day (Armistice Day), there will be no delivery by the Letter Carriers. The Money Order Branches will be closed. The General Delivery, Registration and Stamp Windows will be open from 9:00 to 10:30 a.m. and 6:00 to 7:00 p.m. The Street Letter Boxes and Parcel Receipts will be collected by team as usual.

ON LEGITIMATE BUSINESS.

The seaplane Pelican, which was forced last week to land in the water of the Bay of Fundy and beached at Black Beach owing to engine trouble, was yesterday entered at the Customs House for Bar Harbor, Me. Her owner, W. H. Alexander, was able to convince the port authorities that she was engaged in lawful pursuits and said he hoped to clear for Bear River today or tomorrow.

INSPECTION TRIP.

L. S. Brown, assistant general manager of the C. N. R. eastern lines, was in the city yesterday on an inspection trip and later in the day left for a trip over the Valley Line. J. Woodman, general manager of the New Brunswick division of the C. P. R., left for an inspection trip of the Fredericton-Grand Lake branch yesterday. He was accompanied by R. A. Sewell, car service agent of the district.

NOW IN MONCTON

Moncton Transcript: William E. McMonagle, formerly a Grand Falls barrister, has taken up practice in Moncton, in the offices formerly occupied by the late F. J. Sweeney, K. C. He is a graduate of King's College, and a former resident of Windsor, N. E., from which place he went to St. John, where he took up the study of law. The new addition to Moncton barristers is a young and forceful lawyer who has made much success in his chosen vocation.

JOHN M. ROSENCRENTS.

H. E. Wardrop, common clerk yesterday received the following telegram and as he had no knowledge of the person sought would be glad if any one who might be able to furnish the address would notify him: Fall River, Mass.

NO ARRESTS MADE.

No arrests have yet been made in consequence of the break in the tobacco store of the late Louis Green, Charlotte street last Saturday night, but the police are working on the case, and further developments may be expected.

Thomas Spellman Not Sentenced

Daniel Mullin Will Appeal Jury's Decision Before Appeal Court in Fredericton.

In view of the fact that an appeal is pending in the case, Judge Barry did not sentence Thomas Spellman, at the adjourned sitting of the October circuit court which opened yesterday. Daniel Mullin, K. C., will appeal the jury's decision of manslaughter before the Appeal Court at Fredericton next Tuesday. As there was no other business before the court, Judge Barry further adjourned the court to November 25th when sentence will be pronounced should Mr. Mullin's appeal fail.

Decline To Accept The Terms Offered

Provincial Memorial Home Will Not Be Absorbed With Protestant Orphans' Home.

The following statement was made last evening by the Board of Directors of the Provincial Memorial Home: "After several weeks of negotiation the terms of absorption offered to the Board of Directors of the Provincial Memorial Home by the Board of Directors of the Protestant Orphan's Home were carefully considered at a large gathering of the executive, chiefly for the reason that the Board of Directors of the Protestant Orphan's Home refuse to use our building on Wright street upon which we had paid \$5,000 and expended over \$5,000 more for a new wing, but stated they would acquire a new building to use in its place, the executive declined to accept the terms offered by the Protestant Orphan's Board by a vote of 3 to 1.

Cases Dealt With In Police Court

Union Bus Co. Fined For Violations Will Be Appealed—Other Cases Dealt With.

Judgment was given by Magistrate Ritchie in the police court yesterday in the matter of the eight test cases brought against the Union Bus Company for a number of different violations of the city by-laws regarding the operation of the company's buses. A fine of \$10 for each violation was ordered struck J. A. Barry, who appeared for the defendant company, said he would appeal. H. H. McLean, Jr., appeared in the interests of the Power Company.

Made Inspection of The Conditions

Dr. J. D. Page, Chief of Quarantine Immigration, Finds Everything Satisfactory.

Dr. J. D. Page, Chief of the Division of Quarantine Immigration and Sick Mariners' Service, of the Dominion Department of Health, accompanied by F. N. P. Parry, Architect of the Department, arrived in St. John yesterday morning from Halifax. In the forenoon Dr. Page and Mr. Parry inspected the quarantine accommodation in the police court in the morning two drunks pleaded guilty and were sent below.

PERSONALS

The many friends of R. B. Emerson, who is ill at his home, Germain street, will be glad to learn that he is at least holding his own. Rev. William Hogan, C. S. R., rector of St. Peter's, has been forced to lay aside his duties on account of ill health, and has left the city to take a course of treatment. It is expected he will be away until the first of next month.

ASKS MOTHERS TO CARE FOR DAUGHTERS

Police Magistrate Says Owing to Regrettable Number of Cases Girls Should Stay Off Streets.

The police magistrate said yesterday that in consequence of a most regrettable number of cases with which his court has been obliged to deal with of late, he would once more urge mothers for the sake of morality to see that their young daughters were kept off the street at night. He said that the police were authorized to arrest any young girl seen on the streets between the hours of 7 p.m. and 6 a.m. during the months of November, December, and February.

ISSUED A SUMMONS.

Dr. F. R. Taylor, K. C., solicitor for the N. B. Power Co., issued a summons to all the directors of the Union Bus Co. to appear before the Supreme Court to show cause why an injunction should not issue to restrain them from operating in the city. The summons is returnable in ten days.

INSPECTION TOUR

L. S. Brown, assistant manager, Eastern lines, C. N. R., arrived from Montreal yesterday morning, and left for Fredericton in the afternoon over the Valley Railway. Accompanied by L. R. Ross, Mr. Brown made a personal inspection of the terminal facilities and the Island Yard section.

UNDER POLICE PROTECTION

The Board of Management of the Parish of Lancaster have placed Aca-mac, Ketepee, Forns and Martinton under police protection. This was arranged yesterday as numerous call-lapses have been broken into in this section of the country.

Two Automobiles In A Collision

Laundry Car and Wm. Gunn's Coupe Met on Corner of Princess and Sydney Sts.

About seven o'clock yesterday evening a collision which might have resulted in serious bodily injuries, occurred at the corner of Princess and Sydney streets, when a Ford car bearing New Brunswick license No. 1791, and owned and driven by Wm. Causey, of Vail's Globe Laundries, and a Ford coupe, which was driven by the owner, William Gunn, of the Dominion Rubber Co., collided on the south side of the car tracks.

Three Men Arrested On Serious Offence

Saunders, Reynolds and Ketchum Alleged to Have Committed Assault on Girl.

Theodore Saunders and William Reynolds, both of Gondola Point, and both aged twenty-one, and Harry Ketchum, aged thirty-one, of Hammond River, have been placed under arrest by the city detectives, charging them with a serious offence while in company with a sixteen year old girl. Ketchum is a married man.

Case Resulting From The Parade

Case of Twelve Men Charged With Being in Unlawful Assemblage Remanded.

Hearing in the case of the twelve trades and labor men who are being prosecuted for being in an unlawful assemblage was not taken up in the County Court yesterday morning. H. A. Powell, K. C. appeared before Judge Armstrong, and in referring to the recollections given by J.A. Barry and himself, declared that the men understood that they were to appear before the next sitting of the Supreme Court. He asked His Honor to set the hour for the hearing at eight o'clock last night on the understanding that all the defendants would be present. The request was granted, and in the evening the twelve appeared. After considerable discussion Judge Armstrong remanded the case for hearing before the Supreme Court on the 22nd instant. Recollections have been jointly given in each case by the defendant, H. A. Powell, K. C. and J. A. Barry in the sum of \$200.

Board of Health Monthly Meeting

Order Regarding Boiling Water Rescinded—Milk Producers' Licenses Cancelled.

In view of more satisfactory reports from the laboratory regarding water in the last few weeks the Board was of the opinion that the order regarding boiling the water for drinking purposes may be rescinded for the time being. A letter was received from the Provincial Road Engineer, B. M. Hill, regarding drainage near Eastmount and the matter was referred to the District Medical Officer for report. A matter of an unsanitary and dilapidated building near one of the city schools was referred to the District Medical Officer and the Building Inspector.

Common Council Regular Meeting

Tender for Bonds Accepted—Matter of Tearing up the Streets Discussed.

Routine matters occupied the attention of the city council at yesterday's meeting. Mayor Schofield presided and Commissioners Jones, Thornton, Bullock and Frink were present. The report of the committee of the whole, as already published, was adopted. The commissioner of finance and public affairs reported that the tender of the Royal Securities Corporation, Thomas, Armstrong and Bell and Johnson and Ward of \$97,876 for the issue of \$445,000 of city bonds had been accepted, it being the highest offer received. A report from the city solicitor regarding the liability of the city in the matter of accidents due to faults in the streets or sidewalks was received and a copy ordered given to each commissioner. A resolution asking the chamberlain to carry out the suggestion of the city solicitor in regard to the payment of interest on a last bond, 20 pounds, sterling, was carried. On motion of Commissioner Bullock a renewal lease of lot 483, Brooks Ward, was granted to Simon B. Donovan for a term of seven years. Commissioner Bullock reported in connection with the complaint of G. H. V. Belyea, K. C. that city surveyors had interfered with the lines of the property of a client of his, that no lines had been interfered with by the city surveyors, but there had been a private survey made by G. G. Murdoch to determine certain lines. A copy of the report was ordered sent to Mr. Belyea. Commissioner Jones suggested that
