MAIL ORDERS

We solicit out of town orders which
receive our personal attention. The
length of time taken to fill orders is
governed very largely by how busy we
are in the department of our factory
in which the particular goods are

ALARMING FIRE THIS MORNING

Brigade Called Out to Blaze on
O'Leary Street—Very Little
Damage to Building

Between two and three o'clock this
morning, the brigade were called out
to a fire in the dwelling house at the
corner of Duke and O'Leary Street,
owned by Mrs. D. O'Keefe, and occu-
pied as a boarding house by Mrs.
Wm. Storey. The alarm was rung in
from Box 31, and the fire apparatus
responded promptly, but lost some-
time at the box, owing to the fact that
the person who rang in the alarm, did
not remain to give directions where
the fire was. When the firemen ar-
rived on the scene, they found the
sitting room on the ground floor on
fire and the flames creeping toward
the main staircase, but the blaze was
easily got under, most of the damage
which will not be heavy, being caused
by water.
The origin of the fire is unknown,
but it is conjectured that one of the
boarders, who was going out on the
Maritime and had been sitting up with
friends in this room, may have drop-
ped a match or cigarette stub, but this
is mere conjecture.
The damage was wholly confined to
the sitting room, although some of
the boarders got clothing destroyed
with the water. The loss is covered
by insurance.
After the fire was subdued the fire-
men were treated to a hot supper at
Keddy's restaurant by Mr. P. H. Blyth,
one of the boarders in the house.
Needless to say the kindness of Mr.
Blyth was much appreciated by the
firemen and they desire to publicly re-
turn their thanks to him.

BRITISH CAPTURE GERMAN GUNS AND ANOTHER STEAMER

Battle Still Raging Along Allies Front—German Ad-
vance Being Held—Mourning Among English
Nobility—Fight to the Better End.

(Special to the Graphic)

London, Sept. 3.—British peo-
ple continue to accept with stoic-
ism lack of news concerning oper-
ations of British Army on con-
tinent.

Government has repeatedly
assured the public that all news
consistent with nation's interest
would be given out and people
are accepting that assurance.

The French official reports
throw no more light on opera-
tions than those of British.
French reports say the action on
right of north wing has resulted
in checking Germans for a time.
Inference, plainly, is that Ger-
mans are trying with all their
force in an enveloping movement
against Allies left wing. That
that part of Allied army is re-
tiring to south and west indic-
ates that Germans have not yet
outflanked them.

Apparently Germans have
abandoned west of Belgium to
pour all their forces toward road
for Paris. Reports that they are
preparing to attack Antwerp are
not believed here, because there
seems to be no dominating strate-
gic reason for such move.

Germans are unlikely to waste
more than screening body to
prevent serious Belgian sortie
against their line of communica-
tion. Occupation of Brussels
probably will have its moral ef-
fect, but an assault on Antwerp
would be a side issue with so lit-
tle effect upon main plan of cam-
paign that it would be a useless
expenditure of men and money.
There may be a strong issue in
Allies gradual retreat to make
repeated costly attacks while
Allies keep compact front before
their last line of defence.

Three million frenchmen are
under arms to defend Paris.
They still have confidence in
English.

List of killed, wounded and
missing British officers from
crack regiments which were en-
gaged in the four days battle of
last week, brings mourning to
many noble and aristocratic
homes. This, however, is the
price of war, which the country
appears willing to pay.

Prince of Wales fund for Re-
lief of suffering is now over \$10-
000,000.

Recruiting in Great Britain
has received impetus from ev-
ents of past fortnight.

Military experts agree that
Paris will soon be pivot of hos-
tile force operation in area of
the west. Even the downfall of
the French capital is not expect-
ed to end operations.

Feeling of confidence was
greatly increased by the news of
the great victory of the Rus-
sians in Galicia.

The battle whose issue is des-
tined to decide whether history
will repeat itself in the second
siege of Paris, is still in pro-
gress, according to latest official
communication here. Future
military historians will write
hundreds of volumes about de-
tails of this battle, but all British
public knows concerning this
titanic struggle, the most momen-
tous one that the British
soldiers have fought since Wat-
erloo and fiercest one ever
fought, is contained in one sen-
tence of an official report issued
last night by the press bureau.
This sentence was that "Con-
tinuous fighting has been in pro-
gress along almost the whole
line of battle."

(Special to the Graphic)

LEMBERG TAKEN BY RUSSIANS
St. Petersburg, Sept. 3.—After a
battle lasting seven days the Russian
army seized the heavily fortified po-
sition around Lemberg, about ten or
twelve miles from town. The Rus-
sian troops then advanced towards
the principal forts and Austrians re-
treated.

BRITISH CAPTURE GUNS
London, Sept. 2.—Official report
from Paris says German cavalry corps
marching towards Forest of Com-
piègne engaged British, and British
captured ten guns.

ANOTHER GERMAN
S. S. CAPTURED
New York, Sept. 3.—The British
casual general reports that the Ger-
man steamer Kronprinz Wilhelm has
been captured by the British cruisers
and is being taken to Bermuda.
The Wilhelm was a ship of the North
German Lloyd line, and has been cod-
ing the German cruisers at sea for
some time.

JAPANESE LAND TROOPS
London, Sept. 2.—Japan has landed
thousands of troops at Chinese port
of Tsing Tiao.

SWEEPED OFF FEET AT
BAYONET'S POINT
Petrograd (St. Petersburg), Sept. 2.
—Another sweeping success over the
Austrians was reported to-day, sup-
plementing those of victories at Lem-
berg and near the Russian Poland
frontier.

The War Office announces that the
Russian left wing, operating from its
position on the Danister, captured a
supposedly impregnable Austrian
position at the point of the bayonet
and swept over the entrenchments,
completely routing the Austrian
troops. Five thousand Austrians were
left dead on the field. The Russians
captured 52 big guns and more than
1,000 prisoners, including the Aus-
trian general in command.

As a result of this success the Rus-
sian left is now co-operating with the
centre, and the retreat of the Aus-
trians is seriously menaced.

MGR. DELLA CHIESA ELECTED POPE.

Choice Made This Morning—
Was Cardinal of Bologna,
Italy

(Special to the Graphic)

Rome, Sept. 3.—Mgr. Della Chiesa,
Archbishop of Bologna, Italy, was
elected pope this morning. The new
pope is fifty nine years old and was
created cardinal on May 24th, last.
He took the name of Benedict XV.

DEVIL'S ISLAND FOR THE KAISER

London Writer Says That St.
Helena is Too Good For the
Mad War Lord

London, Sept. 2.—Friedrich Har-
rison, in a letter to the London Times,
vehemently denounces the Hohenzol-
lern dynasty as the cause of the war,
he declares, have poisoned the moral
sense of the German people and caused
nine-tenths of them to adopt the
"infernal code that might is right."
"Be it understood," he continues,
"that when the Allies have finally
crushed this monstrous brood, the
Kaiser, if indeed he choose to survive,
shall be submitted to the degradation
inflicted on poor Dreyfus."
"In presence of the Allied troops
let his blood-stained sword be broken
on his craven back, and the uniform
and orders of which he is so child-
ishly proud be stamped in the mire; and
if he lives through it, St. Helena or
Devil's Island might be his prison
and his grave."

"German people will then under-
stand what the civilized world feels
about the modern Attila, the new
scourge of God."

SHIPPING MUST USE THE CAPE RACE ROUTE

St. John's, Nfld., Sept. 2.—The Brit-
ish government has directed that for
the remainder of the present season
all shipping between Canadian and
British ports should abandon the route
through Belle Isle Straits, and use
that by way of Cape Race exclusively.
This will enable the cruisers, now
employed on the North Atlantic,
to give more efficient supervision to ship-
ping and protection from any possible
interference by German warships from
now until the close of the navigation.
The wireless station at Cape Race has
been restricted from doing any gener-
al business, and required to handle
only naval and official messages. A
cordon of British warships stretches
from Cape Race eastward to the Brit-
ish Isles, and another patrols the
ocean sufficiently far south to enable
the guarding of all British shipping
traversing the north Atlantic to be
efficiently carried out.

WILL MOBILIZE NEXT AT HALIFAX

Ottawa, Sept. 1.—It is understood
here that the present contingent at
Valcartier will be the last to be sent
from that camp and that any further
expeditionary forces Canada may send
will be mobilized at Halifax.

The reason is that St. Lawrence
navigation closes early and the mobi-
lization ground is required to be near
the point of embarkation. Winter life
at Valcartier would also be very rig-
orous.

GERMAN TROOPS EXHAUSTED

The Kaiser's troops, exhausted from
two week's march and almost con-
stant fighting against heroic defence,
fail to make the same impression as
in earlier on their way to Paris.

TWO WOMEN SAVED FROM OPERATIONS

By Lydia E. Pinkham's Vegetable Compound—Their Own Stories Here Told.

Edmonton, Alberta, Can.—"I think it is no more than right for me to thank you for what your kind advice and Lydia E. Pinkham's Vegetable Compound have done for me.

"When I wrote to you some time ago I was a very sick woman suffering from female troubles. I had organic inflammation and could not stand or walk any distance. At last I was confined to my bed, and the doctor said I would have to go through an operation, but this I refused to do. A friend advised Lydia E. Pinkham's Vegetable Compound, and now, after using three bottles of it, I feel like a new woman. I most heartily recommend your medicine to all women who suffer with female troubles. I have also taken Lydia E. Pinkham's Liver Pills, and think they are fine. I will never be without the medicine in the house."—Mrs. FRANK Emsley, 908 Columbia Avenue, Edmonton, Alberta.

The Other Case.
Beatrice, Neb.—"Just after my marriage my left side began to pain me and the pain got so severe at times that I suffered terribly with it. I visited three doctors and each one wanted to operate on me but I would not consent to an operation. I heard of the good Lydia E. Pinkham's Vegetable Compound was doing for others and I used several bottles of it with the result that I haven't been bothered with my side since then. I am in good health and I have two little girls."—Mrs. R. B. Child, Beatrice, Neb.

WHERE IS VALCARTIER?
A few weeks ago unheard of in Canada outside of the narrow radius of its county limits, the name Valcartier has resounded throughout all Canada as the spot selected by the Militia Department for a mobilization camp in connection with the Dominion's expeditionary force to the scene of the greatest and most terrible war in the world's history. Valcartier is 165 miles north of Quebec City on the Canadian Northern Railway.

GERMAN CRUISER SENT TO BOTTOM BY BRITISH FLEET

Two German Cruisers, Two Torpedo Boat Destroyers Sunk—Third Cruiser Set on Fire and Sinking—British Loss Slight

London, Aug. 29.—British fleet sunk two German cruisers and two German torpedo boat destroyers off Heligoland, in North Sea. Third cruiser was set on fire and was left sinking. No British ships were lost in battle and British loss of life was not heavy. In addition to two torpedo boat destroyers and three cruisers, many of German torpedo boat destroyers were damaged.

New York Aug. 29.—Tribune publishes following London cable. "It was a bold thing to go into the bight of Heligoland," says Daily Chronicle, commenting on yesterday's naval victory. "But our officers measured the risk and were justified. Many a time did young officers in old wars go close to enemy's shore and cut off his coastwise shipping. The new race of officers is evidently equal of old and we can think of Nelson rejoicing to see gallantry of old repeated in action recorded today."

Morning Post naval experts say, "Reduction of German light cruiser force is serious matter to them. The loss of Madgeburg in Baltic was reported on Thursday and three more were lost today. Number of light cruisers in home waters possessed by Germans is said to be 28 available ships. Their number is now reduced to 24. This proportion is utterly insufficient adequately to work with destroyer flotillas and battleships fleet. In addition she has number of destroyers flotillas knocked out. Seventy seven destroyers are at base at Wilhelmshaven and as no flotilla can remain at sea in face of an enemy for more than three days without relief, loss of one destroyer really incapacitates another and loss of a flotilla reduces the activity of half another flotilla."

German wearing down tactics have now resulted to Germany's advantage in one British cruiser sunk and to Germany's disadvantage in one mine layer, three cruisers and two destroyers sunk, besides damages to many other vessels.

British admirals mentioned in the official despatch have youth on their side. Rear Admiral Beatty, although 43, is a seasoned sailor, who has seen fighting service in Egypt and China and has had an amazingly swift rise to distinction. Under Kitchener he performed wonders on Nile in getting gunboats over cataraacts.

Rotterdam, August 29.—Via London (2:30 a.m.).—The Nieuw Courant says that the people of Antwerp fear another visit not merely by one but by many Zeppelin dirigibles. The inhabitants of houses in the vicinity of the Royal palace have left their homes, and that is closely guarded. Steam is kept up constantly on the Royal yacht. At the first sign of trouble the King and Princess will be taken to England, the paper states.

RUSSIANS CLAIM VICTORY OVER AUSTRIANS

Twenty Thousand Austrians Killed, Wounded and Captured in Fighting

London, Russians claim they have defeated Austrians in Galicia Austrian casualties 20,000.

Paris, Sept. 1st.—A general action is now proceeding in the Roci district in Ardennes France near Belgian frontier. In Lorraine French have gained new advantages.

Washington, Sept. 1st.—Official despatch to French Embassy says fighting began yesterday in Lorraine and Vosges mountains, at Salsill and river Meuse a regiment of German infantry had been nearly destroyed.

Paris, Sept. 1st.—All along line in France a big battle is raging today with uncertain results. Kaiser has hastened with troops to reinforce his armies in east Prussia.

KEEP THEM ON

It was with feelings of great pride that we listened to the words of the Hon. Mr. White, the Minister of Finance, calling on all the manufacturing and business houses to keep cool and collected and keep all their men of their payrolls even if it were a little sacrifice. That is a noble spirit and we trust that all who "have ears to hear will hear." Unfortunately one department of the government doesn't seem to be filled with the spirit they so much desire to see in other people, for we are informed that the general manager of the Intercolonial Railway has given orders that every man that can be done without will be discharged. If such an order as this goes into effect it will mean tremendous suffering and want in our province and must not be allowed. Outside of all political matters, we can only look on such an order as this, emanating as it does from a man, who, naturalized or not is at heart a German American, as a direct insult to the people of this province, and if persisted in, will not be lightly forgotten. By the way is the "two years" not nearly up? We understand Mr. F. P. Gutelius was loaned from the C. P. R. for two years, and the time does seem very long.

THE DUTY OF THE HOUR

(Quebec Telegraph.)
There is no cause now for a war panic. Business promises to quickly revive. Avoid parsimony just as you should avoid extravagance; but purchase confidently actual necessities for food, clothing and the comforts of home and living. It is usually those who are extravagant, who in a season of panic rush to the other extreme of parsimony, and by excessive contraction of business precipitate the very disaster they seek to avoid. Canada's harvest unfortunately this year does not promise to be the best; but high prices will offset crop deficiency, and the two mother countries need every surplus natural product Canada has to sell.

CAN'T COMPLAIN

A public man cannot complain of a lack of public confidence when he finds it inconvenient to answer questions in a public enquiry because they would disclose private dealings between himself and those working on a public enterprise. Public men should be above suspicion.

Three Suspicious Characters Found at Bayfield

Sydney, N. S., Aug. 28.—The Post learns that a day or two ago, three strange and rather suspicious looking men were observed lurking around the shore in the neighborhood of Bayfield, a small fishing village about eight miles east of Antigonish. They were watched by the neighboring farmers and, as their movements were considered rather unsatisfactory, the police were communicated with and the unwelcome visitors were arrested and taken to jail. One of the men revealed that they were "hired" to look for hidden treasure in the woods and concealed about the map of the coastline between the Strait of Canso and the harbor of Antigonish. Hastily sketched plans of wharves in the district were discovered and complete data as to the depths of some waters and the probable depths of others were found. The men, it is understood, have been sent to Halifax to be dealt with.

BOY WANTED

This is the age of the boy. Mechanical invention has lessened the need for skill and experience. The tempering of steel blades once required the trainee, eye that could follow every change of color in the glow of the coal flame, but now it can be supervised and better done by a boy watching a thermometer. The rifle ranges also show how the boy can crowd the man off his pedestal of superiority. With the old "V" sight to guide the slow, heavy bullet of high trajectory, the man of long experience was supreme. There was no wind-gauge that a boy could adjust quite as well as a man. The practiced eye and trained perception told how far off the target to windward the aim should be directed. The coarse sight that would stand all kinds of ill-usage required the familiarity of long practice. Its shadowy outlines had none of the modern definiteness that approaches the exactness of a surveyor's instruments. The heavy arm with its vindictive recoil demanded proportionate weight and muscular strength. All this is now changed, as the boys' scores show.

Invention runs almost unconsciously toward making things easier for a boy. Every substitution of a boy for a man or a woman for a man means profit for the inventor, and it is not surprising that the boy crowds the man at the rifle ranges. Farming has been described as the only man's job left, but the report of its many operations performed by a current from the Hydro-electric wire shows that the boy will soon be promoted from a mere gate-keeper and cow-driver. An arm seems approaching when even what Bernard Shaw calls the shifty cunning of experience will lose its value, and the boy will fill the wheel in his own hands.—Toronto Globe.

CLERGYMEN WERE SLAUGHTERED BY GERMANS

Many Civilians, Women and Children Among the Slain

London, Aug. 28.—A despatch to the Post from Tremeuse, a seaport in the Netherlands, describing the sack of Louvain, from what it claims to be an authoritative source, says many civilians were killed, including women, children and the clergy. Their nationality, it is declared, did not save one English and one American clergyman. All the public buildings were destroyed.

BRITISH WAR OFFICE'S EXTREME SECRECY

London Times Not Sure the Effect is Good

London, August 27, 5.01 a.m.—The military correspondent of the Times comments upon the extreme secrecy with which the British War Office is shrouding the movements of the British army. He contrasts this attitude with the French policy of issuing periodic summaries of the movements of their army and says that it is to be feared that the present policy is having an ill-effect upon recruiting.

He adds that the nation does not yet realize the nature of the task to which it is committed.

Touching on the same subject, the Times editorially:
"The British press has no desire to print information which might assist the enemy. If it risks better news and more skillful censorship it does so in the public interest."
"Influences are at work which will not fully comprehend the psychology of the nation. Britons cannot co-operate with unrestricted enthusiasm in a war they cannot see and about which they are denied all knowledge, even to a supply of those harmless pictures which appeal so warmly to the people."

DESSERTERS CAUGHT

Last evening Officer Mann arrested four Germans at Athol, and bundling them into an auto brought them to town. They were four of the five Germans who deserted from their ship some time ago, and no trace of them was found till last night. They were handed over to the ships officers last night.

Nearly \$500 is Collected as Contribution to Canada's Hospital Ship

As a result of the efforts of the Women's Institute, it is with pleasure that we report the fact that nearly \$500 was collected by them in a few days, as our contribution to the outfitting of Canada's Hospital Ship. The town was divided into districts and taken in charge by Miss Mary H. Graham, Miss Mabel Henson, Miss Mrs. Duncan, Miss Lillian Joudry, Miss Ida Cameron, Miss Margaret Gallagher, Mrs. E. F. Moore, Mrs. E. J. Macdonald, Mrs. J. J. Davies, Mrs. E. H. Hamilton, Mrs. A. A. Anderson, Mrs. S. S. Harrison and Mrs. I. D. Gault.

The summary of the collections is as follows:—
Miss Graham and Miss Henson \$142.8
Miss Duncan and Miss Joudry 138.1
Miss Cameron and Miss Gallagher 45.4
Mrs. Moore and Mrs. Le-Gallagher 38.1
Mrs. Davies and Mrs. Hamilton 36.1
Mrs. Harrison and Mrs. Gault 75.1
Graphic Office 13.1
Total \$489.

Of this sum the amount of \$479 was transmitted through the Bank of Montreal to the Central Fund, of amounts coming in after the amount had been forwarded. It is probable that any sums coming in later will be used by the Women's Institute to procure material for making comfort and "housewives" for the men at front, or may be used as a nucleus for the Patriotic Fund as was done by ladies of Richmondville.

The Women's Institute desire to thank the people of the town for their generous response to this collect and especially thank the ladies who took up this work and made successful of the collecting.

**THE ROYAL BANK'S
GENEROUS OFFER**

Officials Who Enlist Will Be Well Treated

(St. John Globe)
In reply to an enquiry regarding the treatment to be accorded to members of the bank's staff enlisting for active service, the manager of the Royal Bank of Canada stated that officers of the bank who were members of the militia previous to August 1st and who volunteered for active service with the forces will be granted leave of absence for the period for which they have enlisted. The salaries of such officers will be paid for a fixed period. Officers of the bank who enlist for active service and who were not members of the militia previous to August 1st will probably be treated on the same basis, but it is impossible to reach a definite decision until it is ascertained how many officers of the bank will enlist. In any event, it is anticipated that all Royal Bank men going to the front will be liberally treated by the bank, both in the matter of salary and retention of positions.

A number of the Capuchin fathers from St. Anne de Restigouche have been called to the colours, and have left to take their part in the war.

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven catarrh to be a constitutional disease and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials.

**THE ROYAL BANK'S
GENEROUS OFFER**

Officials Who Enlist Will Be Well Treated

(St. John Globe)
In reply to an enquiry regarding the treatment to be accorded to members of the bank's staff enlisting for active service, the manager of the Royal Bank of Canada stated that officers of the bank who were members of the militia previous to August 1st and who volunteered for active service with the forces will be granted leave of absence for the period for which they have enlisted. The salaries of such officers will be paid for a fixed period. Officers of the bank who enlist for active service and who were not members of the militia previous to August 1st will probably be treated on the same basis, but it is impossible to reach a definite decision until it is ascertained how many officers of the bank will enlist. In any event, it is anticipated that all Royal Bank men going to the front will be liberally treated by the bank, both in the matter of salary and retention of positions.

PIANO-FORTE LESSONS
Miss Lillian Mowat, Andrew St., graduate of Halifax Conservatory of Music, is now prepared to take a limited number of pupils for instruction on the piano-forte.

FOR THE WAR
A number of the Capuchin fathers from St. Anne de Restigouche have been called to the colours, and have left to take their part in the war.

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven catarrh to be a constitutional disease and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials.
