SAINT STEPHEN, (The Leige)

derives its name from a dangerous ledge of rocks, which jut out from the American shore, and open them, vessels in presing down the river, owing to she impiding to the current, have hear creasionally weeked, or materially injured.

The locality of these rocks is now so generally anown, that it rarely happenshart either shipping or ratts, or any other description of feeting it is laid in the grave, the member of it striit lives in imping or ratts, or any other description of feet with them. The water near the shore is bold, and it is by no means uncommon for energy of the stription of the river, as to be conveniently moored to the wharves or rocke, by means of nawsers, during the time of locality. For many years past, ship hulding has been prosecuted in this quarter to creat a tyannage, owing to the contrality of the observable, the impine, owing to the contrality of the observable. Lurerly, real estate has been floody the inhabitants are constantly employed, either the same of the inhabitants are constantly employed, either the same of the inhabitants are constantly employed, either the scharging of vessels. The respectable application of their inhabitants are constantly employed, either the scharging of vessels. The respectable application of their inhabitants are constantly employed, either the scharging of vessels. The respectable application of their inhabitants are constantly employed, either the scharging of vessels. The respectable application of their inhabitants are constantly employed, either the scharging of vessels. The respectable application of their differ.

The locality of these trips around the microse the scharging of vessels at the Ledge are moored to the scharging of vessels. The respectable application of their inhabitants are constantly employed, either the scharging of vessels. The respectable application of their differ.

The locality of the strip is a strip to the control of the scharging of vessels and the process of the scharging of vessels. The respectable application of the schargin
