at 4:30 p.m.

Price 3 cents.

Montreal Stock Market.

VIRTUE AND REPUBLIC VERY STRONG — OF OTHER STOCKS, SOME ADVANCE, OTHERS RE-CEDE FRACTIONALLY — OFFER FROM BANK OF MONTREAL FOR SOME OF WAR LOAN.

Very active buying to the amount of 10,100 shares took place in Virtue this forenoon session and advanced the high price for the year from 95 to \$1.00 at which 500 shares sold. At par the stock price had taken on addition of 8 and it closed this session with a gain of 6 on yesterday's close. The bid and asked prices 98½, 99 were indicative of strength and support.

Purchase of Republic stock similar but much less vigorous than of Virtue set in. By it 9,000 shares were taken at advances ranging from 2 to 3 points, the highest price of today being 108. The last price 107½ was 2¼ over the previous closing price. The condition of mining affairs generally is better and in the case of Virtue, there is that report on which all the late advances have been secured.

In intercolonial Coal there were two somewhat unusual dealings amounting to \$703 of face value at 80.

Dominion Coal Bonds declined ½ this forenoon.

Commercial Cable strengthened 1 point. Closing at 95½ Pacific showed a decline of ¼ from yesterday's close. The equivalent of this in London would be about par. Now par should be Pacific's Canadian minimum quotation.

On no great business Gas showed decline of ¼, and Twin City at 64½ gained ½.

Montreal Street Railway weakened ½ point.

Montreal London holds to its previous level. What other business there was in very small lots and at prices some of them higher and others lower than what were secured on previous occasions.

Bank of Montreal has offered to lend \$1,000,000 or more in connection with war loan.

STRAWS.

The first clean up on the Cumberland mine is estimated to net considerably over \$100,000.

In two months, orders for 125,000 chairs were sent from Sydney to a Canadian factory, which is about all the export goods it can make.

A Toronto firm of manufacturers of neckwear, etc., has been so successful in the trial trip of its traveller for the first time that it is at once sending him back to Australia.

Canadian shippers to Australia are re-

quested to send correct invoices, to acknowledge receipt of orders, and when shipping via New York to send name of vessel and date of sailing.

Department of Trade and Commerce for December says. "At the beginning of the year importation of Canadian flour (to Australia) fell away owing to the high price required for it. Exceptionally low freight from New York enabled Minnesota flour to be landed via New York at low figures and, as some of it was branded and sold as Manitoba, it took the market. Lately the supply of Canadian has increased. In 1898 there were but two mills which shipped here (Sydney N.S.W.) but now five are in the trade.

VIRTUE TOUCHES PAR-DEER TRAIL
ADVANCES-PAYNE AND REPUBLIC
STONG BUT NEGLECTED.

Montreal, March 14.

There was a fairly brisk morning's work transactions being made at advanced prices. The demand being better and keener as prices advanced.

The feature of the market was the renewed activity in Virtue which sold at one dollar. The phenomenal advance in Virtue culminated when it touched par this morning. Rumors have been constantly in circulation that Virtue would eventually cross the \$1.00 mark and today their predictions were verified. The demand for the stock did not cease when this high mark was reached, but the stock closed in good demand at the high figure. Buyers were keen around 98 for the stock and sellers scarce at 99c. 2,500 shares sold at prices ranging from 94½ to 98. The latter price being the closing sale.

There was a revival of interest in Deer Trail Cons. which enhanced the price one per cent. The stock freely sold at 10c, 5,500 shares changing hands. The demand at the close was good. 10 cents being freely bid, sellers asking 10½.

The second annual meeting of the shareholders of the Decca Mining Co., of Ontario, will be held at 185 St. James St., on Saturday, 17th March, at 11 o'clock, a.m. The closing quotations this morning were 6 to 5½.

Payne was neglected although it showed no signs of weakness. It was offered at 138½ with buyers holding 134½.

Republic held its late advance, although under the circumstances, the demand seemed more manipulation than real. 106½ was bid. The stock being offered at 107½.

North Star made a further gain and sold at 120, 500 shares changing hands. The demand for Montreal-London was a little off color. It sold at 30½ to 30 and was offered at 31 on the last call.

Slocan Sov. still holds its place as a favorite, although at present neglected.

Golden Star is inclined to be weak with a great demand.

MORNING SALES.

North Star—500, \$1.20.
Evening Star—2000, 7½.

NEW YORK EXCHANGE.

DEPRESSION OF LONDON MARKET—YESTERDAY'S ADVANCES IN WALL STREET DUE TO POOLE BUYING—ATCHISON AND B. & O. ATTRACTED MUCH INTEREST—SURPLUS RESERVES ALMOST EXHAUSTED.

New York, March 14.

The London market is reported as very quiet and prices somewhat irregular, but on the whole showing a slight decline. There is no further news of importance concerning the situation in South Africa, and the importance of the Finance Currency Bill which is expected to receive the President's signature before the close of the week, has not yet received full recognition abroad.

This morning's comments with regard to the features of yesterday's market points to the pool buying in Atchison yesterday. The belief being that as large a distribution as possible will be made to stock holders out of the increasing earnings.

The magnificent statement of earnings submitted by the B. & O. was the occasion rather for liquidation on the part of preferred, than the advent of fresh buying power. It is claimed by people who are in a position to know, that the trading in B. & O. yesterday, reflected a desposition on the part of holders of the preferred to switch over to the common stocks. In view of the enormous earnings it is believed that the common offers greater opportunities for an advance and a return to holders than the preferred.

The action of Southern Pacific continues to be rather disappointing and it is evident that there is a large amount of the stock floating about the street, which will come on the market with any advance. The earnings of the property continue to be good, and on every decline there are evidences of inside buying.

It is estimated that the banks have lost thus far this week to the Sub Treasury about \$3,000,000, and a poor statement on Saturday which will practically wipe out all the surplus reserve is looked for.

MINING NEWS.

A BIG SYNDICATE.

Montreal Capital Interested in Fifty Claims—In the Myers Creek District.

Spokane, Wash., March 8.

George B. Mechem, general manager of the Colville Reservation Syndicate, composed of Montreal capitalists, operating principally in the Myers Creek mining district, is in the city for a few days. Speaking of the mining outlook in Meyers Creek, he said that for the amount of development work which has been done there the showing made in the various properties equals any gold camp that he has ever seen, not excepting the famous gold camp of Cripple Creek. Mr. Mechem said: "My attention was called to this territory last September. I made a hurried examination of it, taking some forty odd samples, which I had assayed at Nelson, B. C. I was surprised to find that there was not one assay that ran as low as a trace in gold. Most of the samples were taken from the surface or from shafts not deeper, as a rule, than 10 feet, and the average value was about \$7 per ton in gold. This struck me as being exceptionally good and I employed a mining engineer from Rossland to visit the camp, and take about 50 samples. His general average coincided with those I took. This impressed me still further and I employed another mining engineer in Nelson, B. C., to give the camp a thorough inspection. Out of all the assays he took there were only two that ran lower than \$2 in gold, the general average being about the same as the ones previously taken by myself and others.

"A syndicate composed of Montreal capitalists was then organized for the purpose of acquiring interests in the camp, which we have done to the extent of some fifty odd properties. The Poland China group I consider is the best of the properties which we have purchased. We immediately started work after first prospecting to discover the trend and extent of the vein, and discovered the vein to be about 70 feet wide.

"A shaft was started on the foot-wall and at this time it has attained a depth of 80 feet. The assays run from \$1 to \$50 in gold per ton. This vein, which I consider to be one of the biggest, and probably will develop into one of the most valuable in the district, is undoubtedly the vein that extends southeasterly to the Review, on the line of which is the War Eagle, Wisconsin and other promising properties on Percy Mountain. The Review has been more fully developed than any of

the other properties, having a tunnel run in on the vein a distance of 400 feet with a winze sunk from the tunnel level 70 feet, and from the winze a drift has been run on the vein 180 feet.

"The extension of the Columbia & Western Railway, which I understand is now a settled fact, runs within two miles and a half of Chesaw and would place it within from two to four miles of all the properties in the camp. The camp is admirably located with reference to water and timber, two very essential elements to consider in a mining camp. Myers creek running north and south, and Mary Ann creek running east and west—either one of these would furnish sufficient water for all mining or milling purposes.

THE BORNITE BANK.

The manager of the Bornite Bank Gold Mining Company returned Friday night from a visit to the company's property, on Morning Mountain, near Nelson. The shaft is down 60 feet, and is still in the center of the ore body, neither wall being visible. The ore is improving in appearance with every foot sunk, inasmuch as it is getting more solid, but it is hardly to be anticipated that it will become any richer in value than the last assay, which went \$93.68 in gold and silver per ton. There are, however, strong indications of copper in the ore in the bottom of the shaft, and the manager has brought back with him several splendid samples, from which assays will be made for gold, silver and copper. All the ore being taken out of the shaft is being piled on the dump for shipment, and it is estimated that the dump now contains 100 tons.

A trial shipment will be made as soon as the snow permits the building of about a mile and a quarter of wagon road from the mine to the Athabasca wagon road which is only a four per cent. grade to the smelter. This will place the Bornite Bank within seven miles of the Nelson smelter. But it is the intention of the company to thoroughly develop the mine and install machinery before commencing regular shipments.

The Bornite Bank is situated in an exceedingly rich mineral locality. The Venus and Juno and the Birdseye group are all close neighbors. The latter property has been bonded to an English syndicate for \$20,000, and \$8,000 of this has already been paid down, so that the deal is assured. On the Venus there is sufficient ore blocked out to keep a 10-stamp mill running for two years. The Athabasca is about a mile and a half north of the Bornite Bank and there are several other good properties in sight of it. Some of the best paying mines in Kootenay will be found to be located on Morning Mountain.

THE HUNGRYMAN ORE.

Work on the Hungryman group continues. This is the property which was recently taken over by the New Deer Park Mining Company. Mr. A. Lorne Becher, the general manager of this property, in speaking about it yesterday, said smelter tests were recently made of the two lots of the ore. One was sorted and the other was sent just as it was taken from the vein. Strange to relate, the sorted ore went less than the unsorted. The returns were as follows: Sorted ore, \$14.20 to the ton; unsorted ore, \$17.20. Work has been in progress on the property since February 26, and a comfortable cabin and a roomy powder house have been erected. A perpendicular shaft 7x5 feet has been started on the west of the vein. The vein dips into the hill. When the shaft has reached the fifty-foot level, a crosscut will be made to the vein, and it will be drifted on so as to determine its extent. The vein has been stripped for 150 feet,

and if it proves as rich at depth as it is on the surface the management will feel satisfied. The ore is pyrrhotite, with a little chalcopyrite mixed with it. There is, however, no appreciable quantity of copper or silver in it, the principal value being in gold. The management is highly elated over the smelter returns, and thinks that the Hungryman group is a valuable property.

LE ROI, WAR EAGLE, CENTRE STAR READY TO RESUME OPERATIONS.

Miners and Proprietors Anticipate Trouble in Rossland.

Rossland, B. C., March 12.—The Le Roi, War Eagle and Centro Star mines, which for a time have been completely shut down for repairs are now ready to resume operations. They have decided to use the contract system in future and pay by the quantity of work done instead of by the day. The men were informed of the new arrangements; contracts will be let from day to day until the mines are in full operation. The miners have so far refused to take contracts and did so today, pending consideration of the matter at the meeting.

Victoria, B. C., March 13.—An extraordinary condition of affairs at Rossland is indicated by the correspondence made public last evening between the Miners' Union and the Premier, the Hon. Joseph Martin. The charge made by the miners is, briefly, that twenty armed men of Victoria detective agency are patrolling some big Rossland properties although there have been no threats used in regard to these. The Premier has demanded an explanation from the magistrate why he swore in such a number of men. At the same time failing to notify the department of any trouble. Mr. Curtis, Minister of Mines, leaves in a day or two to investigate. He will also endeavor to bring about a reconciliation between the miners and the owners in reference to the eight-hour law.

LEDGE OF RICH ORE STRUCK IN THE NICKLE PLATE.

Rossland, B. C., March 13.—One of the most dubious propositions of the B.A.C. properties was the Nickle Plate, belonging to the East Le Roi Company, which is now being floated in London. But this selection of Ex-Governor MacKintosh has been proved by the events of the last twenty-four hours to have been an eminently judicious one. On Saturday night, near the shaft at the 500 foot level, was struck a rich ledge carrying very good values in gold and copper. The ore is now to be set up on the dump and it will probably assay anything from \$30 to \$100 to the ton. The ledge has only yet been touched upon and the width is not yet known, but there is certainly sufficient there to place the nickle plate on the list of shippers as soon as sufficient development work has been done. The strike thus made is the best that has been made upon the property, and is simply the fulfilment of the promise which the narrow stringers of high grade ore which were encountered in the higher levels in times past have given to the management of the property.

CHICAGO MARKET.

WHEAT ON COVERING BY SHORTS CLOSED AT THE TOP-CORN, STEADY AT THE HIGHEST-PROVISIONS, LIQUIDATION BY BULLS CLOSED WEAK AT A LOSS OF 12 CENTS.

Chicago, March 14.

Liverpool-Cables this morning after the opening were strong for both wheat and corn with stocks rapidly diminishing. Opening May 5, 9; July 5, 8%. Closing May 5 9½; July 5, 8%. Paris wheat 5 higher. Flour unchanged.

New York-Wheat opened steady at an advance of ¼ and is now ¼ higher from last night's closing.

Chicago-Although cables from Liverpool were ¼ lower for wheat, May opened ¼ higher and steady. There is no special feature to market this morning. Absence of outside speculation have a depressing effect. Would sell wheat over 66.

Corn is not so active as Monday, but firm at last night's closing prices. The situation is as strong as ever and we firmly believe in higher prices.

Oats ruled steady with light trade and no special feature.

Provisions opened weak; 5 cents lower and are now selling 20 cents higher than the opening prices. Situation warrants higher prices and we advise buying on all weak spots.

Car lots-Wheat estimates 40; receipts 25; cont. 0; corn estimates, 410; receipts, 445; cont. 1; oats estimates, 200; receipts, 289; cont. 59.

Hogs today, 32,000. Hogs to-morrow, 31,000.
