Dear Sirs;-

Mr. William Burns has asked me to write you in connection with the purchase of Lots Seven and Eight in the Third Concession of the Township of Mills and Lot Four in the Third Concession of the Township of Gordon. Some time ago Mr. Burns made application for these lots and the same were valued by the Inspector but Mr. Burns has heard nothing in connection with same since then. Can it ~~cannot~~ not be arranged that the Transfer be made to Mr. Burns immediately?

Ottawa, 7th March, 1913-

Sir,

In reply to your letter of the 25th Ultimo, relating to Lots 7 & 8, Con. 3, Mills, and Lot 4, Con. 3, Gordon, I have to inform you that none of these Lots appear to have been applied for by Mr. Williams Burns. I may say, however, that Lot 7, Con. 3, Mills, was sold and paid for many years ago, Lot 8, Con, 3, Mills, was also sold years ago, but as it has not been paid for, it is included in the list of sold Lots to be examined and reported upon by the Valuators recently appointed for that purpose.

Lot 4, Con. 3. Gordon has been included in the list of unsold Lots to be examined and reported upon by the same Valuators.

The Department is not, therefore, in a position to consider Mr. Burns' application for these Lots at present.

Sir,

In reply to your letter of the 10th Instant, asking for information with regard to Lots 7 & 8, Con. I, Mills, I have to inform you that, as the unsold lands on the Manitoulin Island, have been withdrawn from sale, pending an examination and report thereon by the Valuators recently appointed for that purpose, the application to purchase these Lots to which you refer, cannot be dealt with by the Department at the present time. When however, the Valuators' report is received, the mode of disposition of these lands will then be decided upon.

I have just received a copy of your letterof June 17th to the Department of Indian Affairs, and am very much surprised at its contents,in the first place I want you to distinctly to understand that you was not the first applicant for this lo to me as Mr Davidson put in an application a short time after I was appointed and your application did not come in for a good while after his, again you say that I am a Friend of Davidsons, I am no more his friend than I am yours, I am a servant of the Public and I try to do my duty without fear or favor.

You accuse me of doing underhand work in connection with this lot, I have been in the District of Algoma for the past 16 years and in that time have transacted a good deal of business with some of the leading men in Algoma as well as with the Laboring class, a and you are the first man that ever accused me of doing dirty work I am ready to put my reputation for honesty and fair dealing along side of yours any day,

I am writing the Department a history of the case in connection wi this lot and I will forward you a copy ,

If you put in your application to Nichol or MacLennan I know nothi of it I do know that A, Davidson was the first man that applied to me for the lot,

In reply to your letter of the 22nd instant, #408,457, in reference to E½, S, E, ¼ Section 20 Township of Laird, I beg to say that shortly after I took over this Office Albert Davidson made application for the above lot, I informed him that there were no Indian Lands in the market, He asked me to give him the first chance to purchase when they would be open for sale, I entered his name in a pass book as applying for this lot, several months after this Mr Jackson applied for the same lot, and I also told him that the Lands were not for sale, he also asked me to give him a chance when it came into the market, I cannot say wheter I told him there was a previous application or not, as he very likely came in when I was buisy with some other business, He accuses me of doing underhand worh on account of Mr Davidson being a friend of mine, I want to say that I did not know Davidson before he applied for the land, and I have no Friends when it comes to business, I am the servant of the Public, I make no distinction between red or white, Grit or Tory, I try to do what is right, I have been doing business in this section of the District for the past 16 years and am satisfied that my reputation for straight dealing and honesty will compare with Mr Jacksons,

Regis Reservation,
August 9th 1912.

The Secretary,
Department of Indian Affairs,
Ottawa.

Dear Sir:

I wish to ask your advise in regard to my land here on this Reserve. Some time ago I sold a part of my land to one Mitchell Sam. We agreed that on the eastern end of my land is the eastern boundary, then goes west along side the road to a certain pine tree at a corner of the fence then directly south to the International Boundary Line on which my lands border. The southern boundary being the International Line.

Now unaware to me, said Mitchell Sam brought two of the Chiefs here to the land and began measuring the land when I discovered them, and told them it was not fair nor right for them to be measuring my lands all by themselves, without telling me, as I would want my man along to see that it was done correctly. I was the one to tell them what and how much of my land I agreed to sell to Mitchell Sam.

However they made their measurements Chief Loran Jocko did the work and figured it out to contain 6 7/5 acres.

The two Chiefs with him Jake Tie and Joseph Sam ratified the measurements when they do not know the first thing about figuring.

With the figures you will see on the drawn diagram. I went to another Indian one Alex McDonald and he figured it out to contain 7¼ Acres. another man Silas Gray figur it out to contain 7½ Acres.

I wish to be informed which is right. He also made the measurement in the form of a coare I bureas the agreement was from the pine tree directly south. I told them But they would not listen to me. I know well enough they cannot compell me to sell my land if I do not choose to. But what can I do, they have measure it off and will claim it all.

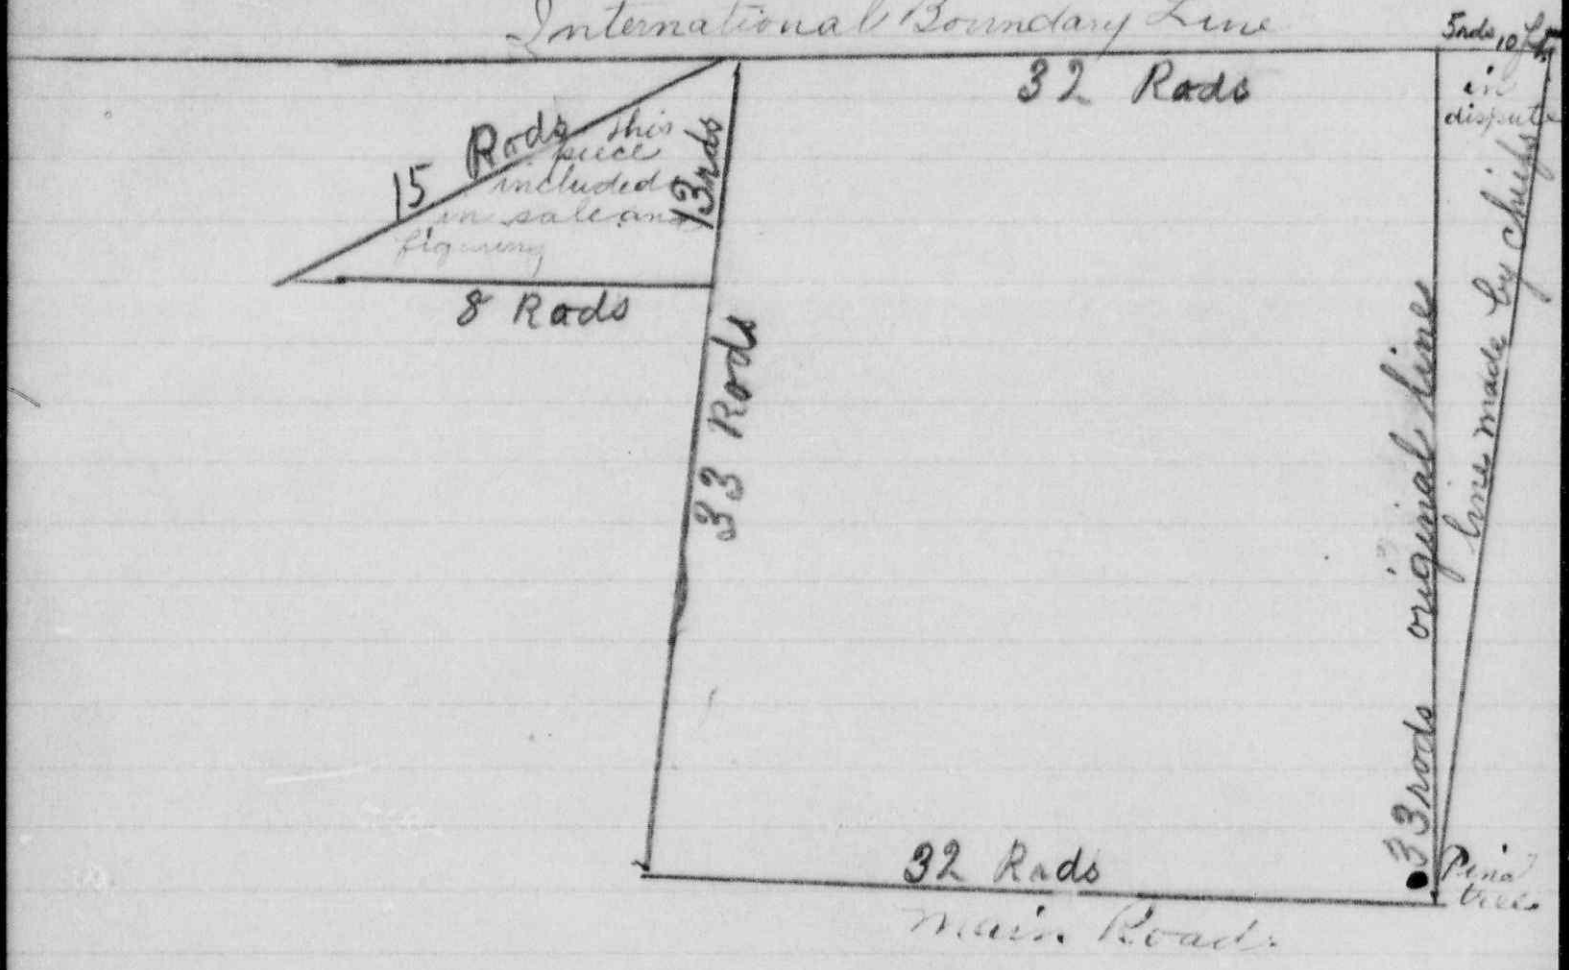

The best thing I can think of is to have a surveyor from the Department settle it for us. Because it will be a case of main force winning.

I would be thankful for any information that would lead to a peace ful settlement for I am determined - he shall not have any more land than was proposed in first agreement.

Yours Respectfully

Sir,

I beg to acknowledge the receipt of your letter of the 6th instant in which you complain of an injustice done you in connection with a sale of land and to inform you that you should bring this matter to the attention of the Indian Agent, Mr. F. E. Taillon, who will settle the matter if possible and if he cannot he will report whether there has been any irregularity or injustice in the matter.

The Department is unable to decide any questions as to land matters in the St. Regis Reserve as no survey or plan has been made of the Indian holdings. The Department does not see its way to go to the expense of sending a surveyor to decide disputes of sale of land by the Indians especially when neither plan or survey of the reserve has been made.

The following is the area of theland according to the sketch you sent:-

The small triangle to the East.....0.32 acres.

The block of land measuring 32 rods by 33 rods.....6.60 acres.

The tiangle to the West marked in dispute and having a base of 5 rods and 10 feet.....0.58 acres.

Sir,--

I desire to draw your attention to a matter which is before the council and to which they desire to give a favorable judgement, in favor of the petitioner.

It appears that Tom Sawatis and his wife Agnes, both members of this reserve have been parted for about 10 years owing to certain family troubles, unknown to the writer and about three years ago Tom traded the family home for a portion of another house without consulting his wife, to an American Indian, Jake Grey and now his wife Agnes desires to have the chief compell Grey to give her the old home and he take his former building, this Grey naturally does not want to do, although the chiefs are unanimous that the exchange should be made and agree to given possession

Tom Sawatis is unknown to me but I am told that he is residing up near Grimsby and has, practially since he left here, resided with another woman, as man & wife and

Dear Sirs, - I should like to ask for your opinion regarding an exchange of houses between Tom Ka-non-west and myself. Last September his wife deserted him as well as the little children. On October 21 1911 we drew up an agreement for the exchange of our houses. The agreement was ratified by the following two chiefs:- Jack Easley and Tom Oke who stated that Tom could do as he liked as he was living on their property. When his wife left him she went away with another man. To prove this I can get over one hundred witnesses. I have not submitted this matter to the chiefs because Tom has not returned to the reserve. In the meantime I should like to know your opinion

Yours truly

Memorandum:

Mr. Pedley,

Chief Alex. McDonald while at the Department today made inquiry with respect to the matter of the exchange of land by Tom Sawatis and Jake Grey as referred to hereunder. In addition to the information on file the Chief said that the house which Sawatis received in the exchange was now rented the proceeds of which went towards the maintenance of the children of Sawatis who are in attendance at some convent. It appears that on account of the alleged immoral character of the wife of Sawatis that some of the Council had objected to her having the use of this house but that an arrangement had been made whereby her children get the benefit derived from the house as above set forth. The exchange was therefore agreed to at the time by some members of the Council.

It appears that the Council now wants Gray to give back the lands which he received from Sawatis and to take the house that he originally had, and the Chief wants to know whether the Department will support the position taken by the Council in this particular case and whether the Council has a right to object to any transfer of land or to any disposition of property among the members of the band.

So far as the Department is informed the

exchange

exchange of land seems to the Department to have been bona fide and I do not see any reason why an attempt should be made to compel Gray to give up this property.

As to the powers of the Council generally with respect to land transactions among the members of the band, I do not think that the Council has any right to interfere in these transactions unless they are for some reason illegal.

Sir,

I beg to acknowledge the receipt of your favour of the 7th ultimo, with respect to the exchange of land between Tom Sawatis and Jake Grey. It is noted that the Council on behalf of Sawatis' wife now wants Grey to give up the land he received from Sawatis and to take back the land that he originally had, and they want to know if the Department would support the Council in the position it has taken in the matter.

In reply I beg to say that from the information on file and after discussing the matter with Chief McDonald, who was here the other day, it does not appear to the Department that any effort should be made to have Grey give up the land which he received in exchange with Sawatis. Nor does it appear that the Council would have any power to interfere in a land transaction among the member of the band unless the transaction should be for some reason illegal.

On this day a decision is reached by the Chiefs in the case of Thomas Sawatis and you Jake Isray.

We beg to in form you that this is to be the end of your agreement with Thomas Sawatis.

His wife and children are the sole owners of the house.

The wife shall have charge of the property. It is the decision of the Chiefs.

Mr Jake Isray you are hereby notified to leave her in place.

The wife is supporting their children therefore she shall control their property. The husband deserted wife home and children therefore has no right to interfere.

Mr Jake Isray we advise you to keep quiet where you are now if you wish to live in peace afterwards.

We notify you to let alone the house of Mrs Agnes Sawatis.

It is the judgement of the Chiefs

Because said Thomas Sawatis deserted wife home and children we will leave it to your judgment if you will side with a man who is not doing what is right.

We the Chiefs do hereby award Mrs Agnes Sawatis the house.

Mr. Jake Isray you have been your self saying that there was no agreement between you and Mrs. Agnes Sawatis it is therefore only right that you

To The Secretary,
Department of Indian Affairs
Ottawa,

Dear Sir:-

We, the Chiefs of St Regis, beg to inform you, of the case of Thomas Sawatis.

Said Thomas Sawatis traded their house for another house, said house belongs to his wife, by rights. being all their is left of her marriage dowry. Properly given to her by her father at the time of her marriage.

Said Thomas Sawatis deserted his wife home and children some time ago. sold and squandered their property till there was nothing left but this house.

This house he traded for another, when the wife objected and tried to prevent him, for which she narrowly escaped a beating, he telling her at the time, if she returned again he would kill her.

We therefore beg your careful consideration in this matter.

We the Chiefs are elected for the purpose of conducting the welfare of our children in the best possible manner.

Said Thomas Sawatis has never done any thing for their children otherwise than bringing them into this world. Five cents is a small sum, but they do not get that much from their father.

It is true, one should not wish to trade back what one has traded off.

provided, always, the articles are ones own property.

In the case of Thomas Sawaks, we the Chiefs maintained that he had no right to trade what was not his own propedty. It is his wife's property and their children's.

EXD.

Ottawa, 10th October, 1912.

Sir,

I am writing you with regard to Tom Sawatis' and Jake Grey's exchange of land as referred to in Departmental letter of the 14th ultimo. Mrs. Sawatis and Chief Jake Fire called at the Department today with respect to this matter and claim that the property which Sawatis traded to Grey was not his property but was the property of Mrs. Sawatis at the time of her marriage. If that be true it would change the position already taken by the Department with respect to this matter.

The Department desires you to ascertain to whom this property belonged, procure a few declarations by persons who would be supposed to know who the owner was.

Sir,

I beg to acknowledge receipt of your letter of the 6th inst., with reference to the Sawatis-Grey matter.

In reply I beg to say that this does not appear to change the situation of the matter. From the affidavits furnished with respect to the ownership of the house in question, it is not altogether clear that the property belonged to Agnes Sawatis. In her own declaration she stated that some years ago her husband moved the house to Cow Island, but apparently she made no objection to that. She further stated that her husband sold the house without her consent to his brother, but apparently no objection was made that time. She further says that her husband afterwards bought the house in dispute.

In view of all these circumstances the Department is not disposed to take any action in the matter.

MEMORANDUM -

Mr. Pedley:-

With reference to the attached note from Colonel Hugh Clark, M.P. with enclosure, I have to report that this is the first time that Mr. George Baker has made claim for the payment of debts contracted by the Indians. As you are aware we are settling by semi annual deductions from Interest Money and the accounts of certain merchants, and under these circumstances it is always difficult to resist new claims. However, we have always declined to intervene until the pressure becomes too strong. Our reasons for non-interferance are well known, but if we have to assist in collecting these accounts, in the end they will have to be audited and acknowledged by the Indians in the usual way.

Sir:-

I am in receipt of your letter of the 8th instant, with which you forwarded an account from Mr. George Baker for supplies furnished to William Amegagabough, No. 170, of the Chippewa Band of Saugeen; and in reply I beg to say that the item of $7.57 cash supplied on the 29th April, 1912, cannot be allowed, but the balance of the account is accepted as a charge against Amegagabough's interest moneys. This will leave $68.60 to be collected from the Indian and the Department hereby instructs you to retain $10.00 from his interest money at each ensuing distribution, which money you should forward to Headquarters with a letter of explanation. You should continue to make the deductions until such time as $68.60 has been collected towards payment of Mr. Baker's account. This letter and fyle number should be quoted in your pay-list as authority for retaining the money from Amegagabough.

Sir

I have the honor to forward to the Dept a number of accounts rendered by Geo Baker of Allenford which he has against the Indians of this agency it seems that they have owed him for some years and that they are not endeavoring to pay much on the accounts and Mr Baker is anxious to have his accounts paid up he went around the reserve and got a number of the Indians to acknowledge their accounts and some he did not get I think it is a bad policy for any merchant to let the Indians run accounts like that I have been advising the merchants in Southampton to that effect the Dept can advise me in the matter

Sir,-

I am in receipt of your letter of the 18th instant, with which you forwarded accounts from George Baker of Allenford against certain Indians of your Agency, and in reply I beg to say that the Department will not take any action towards collecting the amounts thereof. The fact that the Department consented to allow the interest moneys of William Amegagabough to be retained and paid to Mr. Baker in settlement of the account which that Indian incurred with the merchant is not be regarded as having created a precedent. Mr. Baker should not give the Indians credit in the expectation that the Department will collect his accounts for him, and I may say with regard to the accounts submitted, that it will be necessary for him to look to the individual Indians for payment. If he refuses to give them credit they will pay him in cash or will cease to purchase articles which they do not require. This has invariably been the result in cases where merchants have refused to give credit to Indians.

The accounts referred to are returned under separate cover and should be given by you to Mr. Baker, without any delay.

Sir,-

I am in receipt of your letter of the 27th instant with which you forwarded an account of $11.17 from Mr. George Baker for supplies furnished to Elliott Ritchie, and in reply I beg to say with reference to your having certified this account for payment that the Department did not authorize the expenditure in question and does not recognize any liability in the matter. The account is re-enclosed herewith. It should be returned by you to Mr. Baker and you should inform him that you have no authority to retain Elliott Ritchie's interest money or the interest money of any Indian on account of debts, which may be owed to him by them.

Dear Mr. Featherstone,-

Can any arrangement be made with the Indian Department to have the Agent deduct for a debtor a portion of the Indian Treaty Allowance?

Mr. George Baker of Allenford is owed a considerable sum of money by the Indians on the Saugeen Reserve; I think the total is about $600. Baker is very hard up and spoke to me during the campaign about this matter and I received a very pressing letter from him this morning saying that it was near Pay Day and that if he could get any action on this to collect even 15 - 20 or 25% per Pay, he would appreciate it very much.

Will you please let me hear from you with regard to this?

Yours sincerely,

(signed) J. Malcolm.

MEMO.

Mr. McLean,-

With reference to the request of Mr. George Baker of Allenford, that the Department assist him to collect debts owing to him by members of the Saugeen Band of Indians, I beg to report that a similar request was made by Mr. Baker in 1912, through Colonel Hugh Clark, member for Bruce, and was refused. Please see Mr. Scott's memorandum of July 4th, 1912, and official letter of September 13th, 1915, to Agent Stout in regard to this matter. These letters are on this file. However, the Department consented to collect the sum of $76.17 from Wm. Amegagabough, a Saugeen Indian, who owed Mr. Baker this amount and the same was retained from this Indian's interest money and paid over to Mr. Baker.

The Department has made collections from Indians for merchants, when pressure has been heavy but it is against the policy of this Department to do so, and does not encourage the practice.

I would refer you to the case of Symon & Sons of Wiarton, who made a request similar to Mr. Baker's, to collect for them from the Cape Croker Indians, and their request was refused, see File 176284-2, also other files herewith showing that the Department is opposed to collecting for merchants.

Memorandum,-

Mr. Featherston.

With reference to the request of Mr. George Baker of Allenford, that the Department assist him to collect debts owing to him by members of the Saugeen Band of Indians, I beg to report that a similar request was made by Mr. Baker in 1912, through Colonel Hugh Clark, member for Bruce, and was refused. In 1915, however, the Department did collect for Mr. Baker the sum of $76.17, owed to him by William Amegagabough, a Saugeen Indian, the Indian Agent being instructed to retain the amount from the Indian's interest money at the rate of $10.00 at each distribution. It was made clear to Mr. Baker at the time, however, that this action was not to establish a precedent, and that any further credit which he might give to Indians would be strictly at his own risk.

In view of these circumstances, I do not think that the Department should be further called upon to act as a collection agent for Mr. Baker, as such procedure does not come in any way within the proper purview of our official functions.

Ottawa, Ontario.

Dear Sir,-

The enclosed letter from Mr. G. Baker, together with a lot of accounts, speaks for itself.

I know Mr. Baker very well and am satisfied that he has been at a heavy loss through the action of the old Agent, Mr. Ritchie, who gave these orders to the Indians to present to him for merchandise. It was, undoubtedly, the intention of the Indian Agent in 1910 to see that these accounts were paid, but when the change was made in Agents , shortly after, the new Agent would have nothing to do with it and as a result Mr. Baker has been out his interest and the losses caused through death as well as the amount of the accounts against Indians still living. It most decidedly seems to me that he has a real grievance against the Department.

When the matter was first brought to my attention, during the campaign, I was rather inclined to make light of it, but further investigation as shown me that a real hardship has been inflicted on this merchant and I really feel that the Agent should be instructed to see that these accounts are slowly collected, more especially in cases where the Indians themselves are willing that this should be done.

Dear Mr. Malcolm,-

I have your letter of the 7th instant, covering a communication addressed to you by Mr. Baker, of Allenford, as well as orders for goods signed by Mr. Henry Ritchie.

I note that you are under a misapprehension as to the identity of Mr. Ritchie. He was not the Indian Agent, but a member of the band, who at that time was Constable and Interpreter.

Mr. Baker should not have supplied goods to these Indians on the order of one of themselves who had absolutely no authority to act in this way. It would not be possible for the Department to arbitrarily retain the interest money of the Indians in order to meet these liabilities, but I shall write the Indian Agent and ask him to use his best endeavours to persuade the Indians who are indebted to Mr. Baker to meet their obligations. This I shall do at once.

I am returning, as requested, Mr. Baker's letter and the orders.

Incls.

Yours very truly,

James Malcolm, Esq., M.P.,

Sir,-

The matter of the indebtedness of certain Indians on the Saugeen reserve to Mr. G.Baker, of Allenford, has again been brought to my attention.

While Mr. Baker took the risk himself when he supplied these goods on the authority of Mr. Ritchie, who was then acting as Constable and Interpreter, and cannot look to the Department to make collection, still we would like to assist him if it is at all possible to do so. I would, therefore,ask you to make a special effort to have these Indians reduce their indebtedness by making payment, if not in full, at least in part, when they are in a position to do so. After you have had an opportunity of interviewing them, will you kindly let me know the result.

Sir,—

I have the honor to acknowledge your letter of June 8 th.,1922, re Geo. Baker's accounts.

of Aug 21st

I have interviewed a good many of the Indians who owe Geo. Baker and a number of them acknowledged their accoumts and are willing to pay in small payments.,but there are quite a number of them who refuse to sign or acknowledge their accounts and say that they will not pay them.

What action will the Dept. advise me to take in the matter when they refuse to pay ? Will you authorize me to collect what I think is fair and just to both parties ?

Kindly inform me as soon as possible.

Sir,

I have your letter of the 16th. instant, with reference to Mr. Baker's accounts. You should make what collections you can from those who have acknowledged their accounts and expressed their willingness to pay. In reference to those who have refused payment, it is not seen how the Department could arbitrarily withhold their interest money. You might, however, let the Department have a statement showing the names of these Indians and the amounts that they owe. Any collections that you make on behalf of Mr. Baker should be forwarded to the Department with a statement showing the names of the Indians and the amounts.

Sir,-

With reference to correspondence in connection with collecting interest money from the members of the Saugeen Band, on account of debts owing to Mr. George Baker, I beg to advise you that a letter has been received from Mr. Baker submitting a long list of names of Indians owing him. He states that the original has been sent to you and that each Indian in the list has acknowledged his indebtedness and expressed his willingness to have a certain amount of interest money retained each Spring and Fall to pay off his debt. Unless the Department is furnished with the signed acknowledgments of the Indians, the Department cannot consent to have the interest money retained, and I would therefore ask you to forward all acknowledgments that you have in this connection, in order that the Department may peruse the same, and, if all are in order authority can be given to begin collecting on behalf of Mr. Baker this next Spring.

Besides acknowledging his indebtedness each Indian should express how much he is willing should be retained each time.

While the Department is anxious that the Indians pay their debts, it is very important that no Indian is embarrassed financially or rendered unable to provide for his family, or procure seed, to pay his debts to Mr. Baker, as the debts were incurred without the knowledge or consent of the Department, and Mr. Baker must have been well aware of

of the Indian's habit of running into debt when he gave these Indians credit.

I may also inform you that itemized accounts showing what was obtained by each Indian and what payment was made by each individual on his account must be furnished by Mr. Baker, in order that the same can be audited by the Department, as it is not sufficient to furnish a list such as has been received by the Department stating a fixed amount opposite the name of the Indian without any particulars whatever. The number under which each Indian is known in the pay-list should be inserted in the list of debtors.

An acknowledgment like the following should be affixed to each Indian's account.

..... 18 .. I hereby admit that $ ..... is due by me on this account, and ask to have it paid, less ..... discount, in .... equal instalments from my interest shares.

WITNESS:

If desired the Department will loan you a stamp to affix the above acknowledgment on each account.

Ottawa, February 21, 1925.

Sir,-

In reply to your letter of the 18th instant, with reference to collections on your behalf for debts owing to you by certain Indians of the Saugeen Reserve, I beg to say that it will be necessary for you to furnish an itemized account of each Indian's debt and have an acknowledgment in writing on the same from each Indian, that he admits the amount of the debt and is willing that a stated amount be retained from his interest money at each distribution to pay off the debt.

The list as furnished by you in your letter of the 10th instant, is not sufficient and is returned herewith.

Encl.

The Indian Agent, Mr. Putnam, has been fully advised of the requirements before interest money can be retained from the Indians of his Agency to pay their debts to you.

Your obedient servant,

J. D. McLean.

Sir.—

I have the honor to refer to your letter 409544 of Feb. 13th.

I have looked carefully into this matter, and Mr. Baker has arranged to leave the balance of the accounts, except the ones submitted with your letter 409344 of Dec. 30th, which I will collect as far as possible.

Mr. Baker did leave a long list of accounts here, but I get a good many similar lists, and for your information, I was showed one from a store in Southampton amounting to over $1800.00. On the list Baker sent in, some of the Indians mentioned are dead, and some not on the pay list at all, some are non-treaty Indians, and I think some belong to the Cape Croker band. I do not think Mr. Baker has any acknowledgements from these Indians, as he never showed them to me.

I think it is a good idea to have the Indians sign an acknowledgement and have it itemized.

I have the honor to remain, Sir,

Your obedient servant.

Sir:

I beg to acknowledge receipt of your letter of the 17th instant with reference to the collection of debts on behalf of Mr. Baker, and in reply beg to say that collections should only be made of those debts which have been acknowledged by an Indian.

Debts contracted by other than Saugeen Indians should not receive any attention from you. I think it advisable that you should forward the Department a statement of the debts which have been acknowledged by Saugeen Indians, setting forth the amount each Indian is willing to have retained at each interest payment.

Indian debtors who are dead, or not on the paylist, will, of course, require no consideration from you.

Your obedient servant,

Sir.—

I have the honor to refer to your letter of the 20th inst. re Baker's account. I am enclosing herewith a list of accounts that he sent me, which is the only thing I have. There are no records in the office of this matter.

Mr. Baker says he has acknowledgements from the Indians , but has never showed them to me. I have no acknowledgements from the Indians at all.

I went carefully over the list with the Chief, and have the ones checked off who are not here, or unknown.

I have arranged with Mr. Baker that he will have to get acknowledgements from the Indians for the account he is sending. Re your letter 409544 of December 30th, I will collect these as far as possible.

Ohsweken Council House, Nov.5,1912

To the Honourable Chiefs of the six Nation Council,

Hon. Sirs,-

Having been appointed by your Councio to represent the six Nations at the second Annual Conference of the society of American Indians held in the City of Columbus, in the state of Ohio, October 2nd. to 6th inclusive, 1912, and having been thus honored I deem it a great pleasure and a duty to submit a report to you of my visit to this conference.

I was pleased indeed to receive kind wors of welcome from the members and friends of the society, and their making honorable mention of their brothers the six Nations of Canada.

The society held its meetings in the state university, Union Hall, Memorial Hall and the Chamber of Commerce.

The citizens of Columbus, seemed to throw open their doors to the society of Indians and appeared to be in thorough sympathy with their movement.

At the public meetings held in Memorial Hall (a large building capable of accommodating five thousand people) on the platform of this great building were seated with the Indian delegates, prominent and influential men of the city of Columbus and Officials of the Indian Bureau Department of Washington, D.C. All of these spoke in high terms of the aims and objects of the society in promoting the status of the Indian in moral and social conditions and asserted that the life and hope of the Indians of America, depends on his ability to meet enlightened races on an equal footing in all the walks and avocations of life incident to surrounding conditions, whereby the white race and all races may have a better and broader knowledge of the Red Race— its needs, and its ability to contribute materially to modern civilization.

One of its highest aims is to bring about conditions whereby the Indian may take his place equal with all other races. It believes that the development of individual ability and the stimulat-

stimulation of high ideals is a far better means of promoting the highest interest of the race and individual. It believes that Indian progress depends upon awakening the abilities of every individual Indian. The realization of personal responsibility for self and race and the duty of responding to the call of activity; to be independent of all paternal support and to become equal to the most enlightened citizens of America. This is the main object of the society.

Now in conclusion brother Chiefs, and Warriors of the six Nation I wish to impress upon the minds of our people the advisability of organizing a society, similar to that of the American Idnians. This society to have for its object the promotion and co-operation of all efforts looking to the advancement of the Indian and his enlightment which will lease him free as a man, to develop according to the natural laws of social evolution; to provide through an open conference the nemans for a full and free discussion of all subjects bearing on the welfare of our race. The red man may through this means break through the long silence and voice his opinion and beliefs. Thus the future of the Indian will be placed in the hands of the Indian himself.

Every Indian should be interested in his race and its advancement; in its rights as the original owner of the soil of this continent; in demonstrating the ability of the race to organize as a unit to construct and outline a policy for the aims and objects ofthis unit; to provide and maintain a free platform and welcime free speech on any subject bearin on the welfare of the Indian; his rights, his status and his destiny as an ally of the British Crown.

A society of this kind will bring every friend of the Indian throughout Canada and the Empire to consult his won conscience and determine whether he can refrain from consulting his own personal welfare and interest and live an unselfish exhistence, by promoting such an society which will bring the greatest good to the greatest number.

This would be evidence that the movement has nothing less than the best of motive behind it.

No love of spectacular display or of private advantage brings this movement into exhistence. It would offer the Chief, if not the only hope of self-sacrificing racial leadership—— the only kind of leadership which can elevate the race to higher possibilities.

The general pulbic must decide whether it will support such a splendid type of organization or allow it to go by default, and so prepare the way for a more mercenary type.

All of which is most respectfully submitted for your consideration.

Yours Respectfully,

Chief J.S.Johnson.

I herewith attach a few extracts from the speeches and opinions of eminent white friends of the society of American Indians, which I though would also, interest you as bearing upon this subject.

The American Idnain Commissioner says:- " The best sign I have seen on the horizon/ the best star in the sky, was what happened in Columbus a year ago when the society of American Indians was framed".

Mr. Joseph Elkington, a member of the society of Friends, whose grandfater and father before him, labored for the Indians, joined the society with the words" " I am profoundly thankful that the Indians have taken up the consideration of their own needs" and from Arizona one writes" " I believe it will be a great uplift to the Indians in general".

From Ithaca, N.Y. comes the word" It is a noble idea well carried out" government Officials and government critics to applaud the society."

Sir,

In reply to your letter of the 27th Ultimo, submitting an application on behalf of Messrs. John Harrison and Sons Company, Limited, for the purchase of twenty six Lots in the Township of Robinson, under Section 6 of the Regulations, and stating that they had enclosed their cheque for $65.00, as valuation fees, I have to ask upon what authority you have accepted such fees. In this connection I have to direct your attention to letter to your predecessor, dated 23rd March, 1907, pointing out that no charge is to be made by the Timber Inspector and Valuator, for examining and valuing lands under Section 6 of the Land Regulations, as he is paid a salary for performing his duties.

Kindly favour the Department with an early reply in the matter.

Ottawa, 21st October, 1912-

LANDS BRANCH JAN 28 1913

To the Deputy Minister,

Referring to letter of the 27th Ultimo, from Mr. Agent Baxter, of Gore Bay, submitting an application on behalf of Messrs. John Harrison & Sons Co. Ltd. for the purchase of twenty-six Lots in the Township of Robinson, under Section 6 of the Regulations, I beg to submit as to whether Timber Inspector and Valuator, George Shaw, should be requested to proceed to value these Lots, and also twenty-four other Lots, as per list herewith, the applications for which are on different files in the Department.

In this connection I would also beg to submit as to whether some ~~eight~~ 13 Lots, as per list herewith, which have been reported upon by Mr. Shaw, as having been inspected and valued, be sold under Section 6, and would respectfully refer to Memo. of the 8th August last, on File 406 090, herewith, marked " Stands ".

Ottawa, 1st February, 1813-

Sir,

I have to inform you that application has been made for the purchase of twenty six Lots in the Township of Robinson, under Section 6 of the Land Regulations.

They are as follows:-

Con. 3. Lot 34.

Con4. Lots 30, 31, 32 & 33.

Con. 5 Lots 30, 31, 35, 36, 37, 38, & 39.

Con. 6. Lots 30, 31, 32, 35, 36, 37, 39, 41, 42.

Con. 8. Lots 36, 39, 41, 42, & 45.

You will be good enough to examine and value these Lots as soon as possible, and report to the Department, under Statutory Declaration in the usual way, giving the approximate quantities and kinds of timber on each Lot. It will also be necessary to shew the value per acre of the land, separate from the value of the timber, and to state to what extent the land is, in each case, fit for agricultural purposes.

Your obedient servant,

Assistant Deputy & Secretary-

Dear Sir.

I enclose a memorial from the Moose Factory Band of Indians, which they asked me to forward to you on my arrival home. I may say that I made inquiries while at Moose in August, and found that the facts as set forth in the memorial are all correct regarding both reserves. I also camped on the shore or coast between North Bluff & Navy Creek & thought it the an excellent place for Reserve purposes.

I also wish to state that I met Mr. Dobie, your surveyor, on the English River on his way to survey the reserves at Albany & Moose, having already completed the work at English River. I mentioned the subject of the memorial to him. He replied that although he had instructions to make a suitable selection for the Albany Reserve, he had no authority to do so for Moose, but simply to survey the promised reserve at French Creek. It was unfortunate that the Indians did not make the request while your Agent, Mr. W. J. McLean was here, as the matter might have been adjusted immediately. I trust that it is not too late yet, as from all I was told at Moose, the French Creek Reserve, does not seem at all suitable for their purposes.

Yours Sincerely — John G. Moosonee

The Secretary
Indian Department, Ottawa.

Dear Sir. Will you kindly lay before the Minister of the Interior the following request from the Moose Factory Band of Indians.

When the treaty was made with us, a reserve on French Creek was given us, about 9 miles south of Moose Fort. We find on examination that the above reserve is a poor one, not suitable for wood or farming. The wood has been largely cut down & destroyed and the land is too stony for agricultural purposes. Besides there is very poor hunting there. The arrangements were too hurriedly made & did not give us time to investigate.

We much prefer & do hereby apply for a reserve extending from North Bluff to Wavy Creek - about 9 miles N.W. from Moose Fort along the coast towards Albany. This is most suitable for all purposes - for farming, hunting & wood supply. Though rather swampy further back, it is far ahead of the French Creek reserve. The hunting is especially good & we could leave an old & infirm here while the hunters are away in the winter, and they would be comfortable - there being also good fishing in the various creeks & streams. The survey can be best done in winter. Kindly send us a reply at once by the first packet, as we are very anxious to have this matter settled to our satisfaction.

Right Reverend Sir:-

I have the honour to acknowledge the receipt of your letter of the 2nd. instant and of the enclosures relating to the change of locality desired by the Moose Factory Indians for the reserve provided for them under the terms of the treaty. This Department has no objection to the proposed change but the Province of Ontario was also a part to the said treaty. The Department of Lands and Forests has been communicated with and requested to reply immediately whether the Province will allow the change desired.

I shall be obliged if you will inform me of the best manner in which instructions, if the change is agreed to, can be sent to the surveyor, Mr. J.S.Dobie, who is now engaged in making the surveys in that region.

EXD.

Sir,

According to the arrangements made under Treaty No. 9 the Indian Reserve at Moose Factory was defined as beginning at the East Point of Moose River at South Bluff Creek thence South six miles on the East shore of French River and of sufficent depth to give an area of thirty-six square miles. I have the honour to submit herewith a copy of a petition from the Chief and Councillors of the Moose Factory Band requesting that the said reserve be not laid out as defined but that it should extend from a point known as North Bluff to Navy Creek about nine miles North West from Moose Fort.

This Department has no objections whatever to laying out a reserve of thirty-six square miles for these Indians at the said point. I shall be obliged if you will be good enough to inform me whether there is any objection on the part of the Province to have the reserve laid out as it is desired by the Indians.

Dear Sir. Re 412,065.

I have to thank you for yours of the 7th inst. I am glad to know that the Department is willing to make the proposed change of locality for the Moose Reserve. I trust the Province of Ontario will likewise be agreeable. I hope your reply to the Moose Band has been dispatched. The only way to send instructions to Mr. Dobie will be to address him "Moose Factory, via Cochrane, Ont. c/o Hudson's Bay Company or Revillon Bros." I say "or", because I am afraid that, owing to the non-arrival of the Hudson's Bay vessel at Moose, the H.B. Co. packet has been delayed. That packet leaves Moose ordinarily on Sept. 20th and should reach Cochrane about Oct. 1st. But so far I have not heard of its arrival there. The Revillon Bros. packet is a week later, and should now be near Cochrane. Perhaps the surest way would be to send your letter, arranged, to Mr. Dobie in care of our missionary, Rev. J. R. Bythell, Holy Trinity Rectory, Cochrane, Ont. asking him, at my request, to see that your instructions are forwarded by the first chance. With best wishes - Yours Sincerely - John G. Moosonee

Sir:

I have the honour to acknowledge your letter of the 7th inst. in connection with the Indian Reserve at Moose Factory under Treaty No. 9. I observe, on referring to the copy of the Treaty which was sent to us, and the schedule of the Reserves provided for therein, that at Moose Factory there is a Reserve to be laid out beginning at a point on the east shore of Moose River at South Bluff Creek; thence south six miles to the east shore of French River, and of sufficient depth to give an area of 66 square miles.

This is the reserve provided for under the Treaty, and we do not see, nor is there anything before us to show why the Reserve should be changed from the location in which the Commissioners fixed it.

Yours truly,

Deputy Minister.

EXD.

Sir,

I beg to acknowledge the receipt of your letter of the 10th instant, Surveys Branch, not numbered, and to state that it would appear form the last paragraph of the said letter that the copy of the Petition from the Indians of Moose Factory may not have been enclosed with our letter of the 7th instant and which is now enclosed.

Encl.

Kindly note that the Indians state their choice of a reserve at Moose Factory was made too hurriedly and that they did not have time to investigate the features of the land chosen as a reserve; they have since found that the wood is largely cut down and destroyed and the location is not fit for agricultural purposes and is also not in a good hunting locality. The locality in which they desire the reserve to be surveyed instead of the one provided for in the Treaty, the Indians contend, is much superior to the one provided for in the Treaty.

I may add that the request of the Indians is supported by a letter from the Right Reverend John G. Anderson , Bishop of Moosonee, who says that the facts set forth in the Indian Memorial are correct. and he also further states that he was informed from another quarter that the reserve provided for under the Treaty is not suitable for the Indians' purposes.

I shall be obliged if you will kindly again consider this matter and send an immediate answer.

Sir;-

I beg to report, that a dispute has arisen between Samuel Augustine and John Augustine, both sons of the late Julien Augustine and, Noel Tom Augustine, son of the late Tom Augustine, over the ownership and possession of one house situated on the Big Cove Indian Reserve, Kent County, N.B. There does not seem to be any dispute regarding the land that this house is upon, that is claimed by Noel Tom Augustine and his title is undisputed. The facts regarding the house are as follows ;-

Some twenty-five years ago, John Augustine together with his father built the house in dispute. John purchasing and paying for the material and his father assisting him in the labour of building the same. Shortly after the house was built, John left and then went to the United States, were he has since resided up to a year or so ago. Before leaving for the United States, he informed his father who was living in the house, that he could continue to live in the same until such time as he would get married and want it for himself, being at the time a single man. On July 1st.,1901, during the time that his son John was in the United States, Julien Augustine sold this house to Noel Tom Augustine for the sum of Fifty dollars

($50.00) and signed a writing to that effect, written in the micmac language, before a witness who is now dead. It would appear from the information I received, that this ~~was~~ sale was actually made and the money paid by Noel Tom Augustine to Julien Augustine, as this fact was generally admitted. About six years ago, Julien Augustine died at Painsec Junction in the County of Westmorland, where he had been residing for a few years, and while he was sick and before his death, he signed a paper giving all his property to his son Samuel Augustine. As the matter stands now, John Augustine, who claims to have built the house and bought the material, which does not seem to be disputed, wants the possession of the house, while Noel Tom Augustine, who is in possession and lives in it, claims to have purchased it from Julien Augustine and paid for it, and refuses to give up possession of the house unless he is paid the sum of Sixty dollars, ($60.00). I might also say, that John Augustine who has been in the United States for about eighteen years, married an Indian woman of that country, who is not a member of the Big Cove Band.

Kindly advise me as to what I should do in the matter.

I have the honour to be,

Lands Branch,

Relying on the statement that Noel Tom Augustine is the undisputed owner of the land and that he purchased the house eleven years ago and apparently has been in possession of it ever since, I think he has the best claim to the property in question. If John Augustine had any claim he should have made it when his father sold the house to Noel and I think it is now too late to ask the Department to intervent.

The Administrator in Council

The undersigned has the honour to submit herewith a surrender in duplicate, made on the 1st of March, 1913, by the Temiskaming band of Indians, of 65 acres comprised within lot No. 38 in the River Quinze Front Range, in the Temiskaming Reserve, in the County of Pontiac, in the Province of Quebec.

The surrender has been duly authorized and executed as required by the 49th section of the Indian Act, and the undersigned would recommend that the same be accepted by Your Excellency in Council and that authority be given for the sale of the land covered thereby as the Superintendent General may deem best in the interests of the Indians, the original surrender to be returned to the Department of Indian Affairs, the duplicate thereof to be kept of record in the Privy Council Office.

Surrender of 65 acres, Timiskaming band

John Massinikijik, the Indian owner of lot 38 in this reserve, has signed an agreement of sale with Samuel Edwardson, a farmer of North Timiskaming, covering the 65 acres referred to in the surrender, the consideration being $500.00 for Massinikijik's improvements and $3.00 per acre for the land (The land in a reserve is held in common by a band; and the members of the band, upon a sale being made, receive compensation pro rata and the individual locatee receives, in addition, payment for the value of improvements made by him). Edwardson will therefore have to pay $500+ $195(65X3)= $695

There are something over 14,000 acres in the Timiskaming reserve and of this about 3,010 acres have been located by the Indians. The last census gives the band a population of 241 Indians.

Section 48 of the Indian Act provides that no portion of a reserve shall be alienated without a surrender being taken, and section 49 requires that the surrender shall be submitted to the Governor in Council for acceptance or refusal.

As to votes taken on Timiskaming surrenders of 65 and 6.54 acres.

The Department has obtained a full report from the Indian Agent with regard to the voting on these surrenders.

The two surrenders were taken on the same day, viz., 1st March last. There are 58 male members in the band of the full age of 21 years. 18 of these do not reside on or near the reserve, leaving 40 who, under subsection 2 of section 49 of the Indian Act, are entitled to vote. 26 of the 40 entitled to vote were present at the meeting, and 24 of them voted for and 2 against the surrender.

The surrenders are therefore perfectly in order for acceptance by Council.

Surrender of 65 acres, Timiskaming Indian reserve.

John Massinikijik,, the Indian owner of lot 38 in this reserve, has signed an agreement of sale with Samuel Edwardson, a farmer of N. Edwardson will therefore have to pay $500 + $195(65 X 3) = $695.00.

The province of Quebec are selling Crown lands in this district for from 50¢ to $1 per acre. This Department has sold lands in the surrendered portion of this reserve for from 85¢ to 75¢ per acre, and has on several occasions sold farm lands at the front of the reserve for from $2.50 to $3.00 per acre; so that the price now being obtained is probably as high as could be obtained.

There are 58 male members in the Timiskaming band of the full age of 21 years. 18 of these do not reside on or near the reserve, leaving 40 who, under subsec. 2 of Sec. 49 of the Indian Act, are entitled

Sir,-

I am in receipt of your letter of 14th in reply to mine of 9th instant regarding the vote on the recent Temiskaming surrenders.

Referring again to subsection 2 of section 49 of the Indian Act, you will observe that it states that " No Indian shall be entitled to vote or be present at such council unless he habitually resides on or near and is interested in the reserve in question." While you state that there are 40 male members 21 years of age or over who habitually reside on the reserve and 18 who reside outside, you do not state whether any of these non-residents live near the reserve. Kindly give full particulars on this point showing where or at what distance from the reserve such non-residents live, and whether any of these Indians were notified or whether it was impossible to notify them.

Sir,—

Referring to letter of above date I have taken some information in regards to the residence of those Indians referred to in your letter. From the 18 members who reside outside of the Lac Seul Reserve two reside at Lac Seul or in the neighborhood at about 25 miles from here. Two reside at Long Lake about 50 miles from here. Three resist at Abibi Lake about 175 miles from here. The rest are travelling through the country and do not know their address. None of these Indians were notified of the meetings to take surrenders because they have not votes, and you can readily all testify that it is impossible to notify these Indians for a meeting. The mail service through the bush is not very regular. I can certify that all surrenders assented to by this Band in my presence have been so in accordance with the rules of the Band and the Indian Act.

It is always a pleasure for me to give all information asked

Enclosed please find an # , of sale agreement, passed between Jean Massinikijik a member of th Temiskaming Band and Adelard Provencher, farmer of North Temiskaming. Jean Massinikijik agrees to sell to Provencher lot 38 Quinze Front for the sum of $ 500.00 for the improvements and Provencher agrees to pay $ 3.00 an acre for the land .

On the I5th of October I9I2# I submitted an agrement of sale for the same lot to Samuel Edwardson, the form of Surrender was submitted to the Band and assented to, then I was authorized to sell the lot to Edwardson but did not want to buy it so it was left there until now.

Now Provencher wishes to purchase this lot as per agreement passed May 26th/I6.

Hoping that the Department will approve of the sale and will authorized same.

I beg to enclose the report of the surveyors whom were requested by the Council to survey the land behind the village lots in Ohsweken referred to in your letter of the 6th of December last. ~~I beg to enclose this report~~ and to ~~xxxxx~~ recommend that it be adopted. The land proposed to be bought contains 11½ acres of which ½ of an acre is proposed to be added to the Doctor's half acre to give him more room the remaining 5½ acres is proposed to be divided and sold to the owners of the village lots adjoining for the purpose of making their lots deeper;as they are situated now, the stables and other out buildings behind the dwellings on the lots are so close ~~and are~~ as to be unhealthy. I believe it is the intention to reserve a portion of this 5½ acres at the rear for the purpose of opening out new lots on a new street which may be opend to the North of this property.

Sirs.

Following the instructions received from the Secretary of the Council, We have Surveyed the Southern limit of the South half of lot No 19, Con. 4. Tus. commencing from the South East Corner of the lot to the North side of the Doctors premises, 5 Chains and 65 links, Then we went to the South west corner of the lot, Surveyed back 5 Chains and 65 links, we could not drive a stake into the ground, so we tied the stake to the fence with wire, as well as made a mark on the fence, We then struck a line across the lot and found it to Contain 11¼ acres, devided as follows (as per rough sketch below) Council house lot 2½ acres, Dr's lot ½ acre Village lots 2 acres, Mrs Hill's 6¼ acres, back of the village lots 5½ acres, back of the Council house sheds and back of the Dr. ¾ acre.

EXD.

Ottawa, March 20, 1913.

Sir,

I beg to acknowledge the receipt of your letter of the 12th instant and with reference to the Resolution No. 71 of the Six Nations Indian Council of January 21, last, I have to say that no one can legally exercise the duties of a land surveyor in the Province of Ontariounless he has duly received a commission from the Provincial Government empowering him to perform the duties of a land surveyor.

It is very difficult to draw the line between the duties that the fence viewers or locating committee of the Indian Council may perform and those which should be performed only by an Ontario Land Surveyor.

The policy of the Deparmtment has been in the past to respect strictly the Provincial Acts relating to surveyors and the survey of lands. The present case is a matter of the subdivision of the Indian Reserve and of preparing a map or plan of the same . It should be properly the work of an Ontario Land Surveyor.

I may say that the Department will consider the advisability of sending a surveyor from headquarters to make the necessary survey but would prefer to have your views in this matter before deciding.

Sir,-

In answer to your letter of the 20th inst. referring to the locating lines committee of the Indian Council performing the duties of provincial land surveyors, I beg to reply as follows:- This question was raised by the Department in reference to a former decision and reported to the Council. The Council took strong exception to the ruling of the Department on the ground that the locating line committee had for so many years past performed these purely local duties of running the proper line for a ~~proper~~ line fence dividing up an estate amongst the different heirs and various other small measurements of this kind. The pepple respected their decisions and no question has every been raised in regard to it. While this committtee may be technically exercising some of the duties of a land surveyor. I do not think they are infringing on any work which would otherwise find its way into the office of a land surveryor. The reserve forms no part of the organized portion of the Province of Ontario and if the Department could possibly see its way

way fit to allow this committee to continue as it has been doing. I think it would be ~~xxxxxxxx~~ decide~~d~~ly in the interest of the six Nations. surveyors could only be employed at heavy expense and in many cases the value of the land to be surveyed is not great enough to warrant this expense. The committee does not collect fees for its work any more that the usual dollar per day allowed for expenses.

Ottawa, March 31, 1913.

Sir:-

I beg to acknowledge the receipt of your letter of the 26th instant and note what you say in connection with the measurements made by the Locating Committee in the Tuscarora Indian Reserve.

Trouble is sure to ensue if subdivisions of land into several lots are made in an inaccurate manner. The plan also made of them is legally worthless. Also cases arise in which disputes as to the limits may necessarily have to be referred to the courts. It is, therefore, considered advisable that all surveys except those of a minor nature should be legally performed. In the present case the Department is willing to send an Ontario Land Surveyor from headquarters. There will be no charge against the band for his services, the only charge will be his actual expenses. Kindly discuss this matter again with the chiefs. It is especially desired to comply with the laws of the Province of Ontario and no unnecessary evasion of them should be made.

Ottawa, December 2, 1912.

To the Deputy Minister- EX'D.

Under cover of communication of the 2nd ultimo, Mr. Agent Renaud submitted an agreement for sale between William Polson, a member of the Temiscamingue band, and Pascal Jean Carriere, for lot 5, Con. 4, Temiscamingue, containing by admeasurement 80 acres,
Mr. Carriere agrees to pay for the Indian interest the sum of $225.00, and in addition $2.00 an acre for the land, to go to the band.

This land was only located to Polson in 1906, and the agent was asked to report whether he should be allowed to dispose of same. The agent now states that he has no use for the lot for the reasons that all the lumber has been cut, and that he has not the means to go and reside on the lot and to clear the land. He also states there are no improvements made, and he does not suppose that if the Indian occupied the lot for another ten years, that he would make any improvements or clear land that would be of some benefit to him. The Agent thinks that the price is satisfactory, and that sale should be carried out.

Submitted as to whether a surrender for the purpose should be forwarded to the local agent to lay before the Indians in the usual way.

Dear Sir: Re C.N.O.R. Diversion in Lots 3 & 4, Bge.2, Credit Indian Reserve, Tp.Toronto.

On November 1st I sent you copy of application and plan herein . We are advised that at one time this road was undoubtedly in the Credit Indian Reserve, but our Engineers think that it is now under the control of the Municipality. If it is under the control of the Department, will you please take it up with the Department, and advise me if there is any objection to the diversion. If it is not will you please advise me at your earliest convenience.

Sir,-

In reply to Official Letter No 416435 of 28th, December last, asking me to report on certain lots in the townplot of Shaftesbury.

I have the honor to report having visited and examined those lots and I find that they are very shallow land, low and wet, and will not be suitable for building on unless there is quite a sum spent in draining.

I would value the Lots as follows :-

Lot 35	Vankoughnet St. South	$ 25.00
36	do	25.00
35	Blake St. North	25.00
36	do	25.00

Dear Sir:- Re Lot 36 South Vankoughnet St.
Townplot of Shaftesbury.

I understand the above Lot stands on the books of your office in the name of Rebecca Smith, and is not paid up.

The following are the facts in connection with this property, I took the Lot up several years ago, sold it to John E. Smith, at the time he purchased it he requested me to make the transfer to his wife Rebecca Smith. Rebecca Smith has since departed this life, she died several years ago and the family are all grown up, doing for themselves and scattered all over the Dominion. Some of them their whereabouts are unknown. John E. Smith still occupies the property and has occupied it without interruption since the time he purchased it.

In view of these facts I would like if you would take the matter up with the Department with a view of having the present Sale cancelled and a new Sale entered to John E. Smith for the amount standing against it with accrued interest up to the date of the new entry. The Lot being arrears, the heirs of Rebecca Smith could be notified to pay up within a certain time, failing which that the sale would be cancelled.

There is absolutely nothing irregular in this as I know all the facts and they are just as I state them and as one of the conditions of sale was the payment of the purchase money within a specified time I do not think my suggestion is at all unreasonable. Thanking you in anticipation of your co-operation in this matter and awaiting your remarks herein.

Yours very truly,

Sir:-

I have the honour to enclose herewith a copy of a communication received from Mr. C.L.D. Sims in connection with the question of having the sale of Lot 36 Vankoughnet St., South, Shaftesbury, cancelled and a new sale entered in the name of John E. Smith, husband of the late Rebecca Smith.

After making enquiries into this matter I have found the facts as stated by Mr. Sims, the heirs of Rebecca Smith are all grown up and doing for themselves. John E. Smith is occupying the Lot and is willing to pay the arrears of unpaid purchase money and interest thereon if the Department will cancel the present sale and enter a new sale in his name.

I would most respectfully recommend that the old sale be cancelled, and the Lot be re-sold to Mr. John E. Smith for the amount of unpaid purchase money and interest thereon against the Lot.

TO THE DEPUTY SUPERINTENDENT GENERAL:

Lot 36 Vankoughnet St. South, Shaftesbury, was purchased twelve years ago for $25.00 and a down payment of $5.00 was then made and no further payment of principal has been received to date.

This lot is at present entered in the name of Rebecca Smith.

Agent Lewis has been requested to cancel the sale owing to the death of the purchaser and the refusal of the children, who have all grown up and scattered throughout the country, to pay the balance of the principal and interest against the lot.

The agent recommends cancellation of the sale and re-sale to John E. Smith for the sum of $31.25 cash under Section 6 of the Regulations. I concur in the recommendation and beg to submit the matter for your consideration.

APR 16 1926

I48-I6. Indian Office, Manitowaning,
April I4th, I926.

Sir:-

I have the honour to report to the effect that Mr. John Smith, of Little Current, has made application to purchase Lot number 36, Blake Street North, Town-plot of Shaftesbury, in the name of his wife Beatrice Smith, and has offered $25.00 cash for the same.

Mr. C.L.D. Sims, in whose name the lot stands at the present time, does not intend to pay up the unpaid balance of purchase money and interest thereon and has relinquished any claim he may have to the said Lot to Mr. Smith.

I would most respectfully recommend that the sale of this Lot to Mr. Sims be cancelled and I be given authority to enter a sale in the name of Beatrice Smith, of this Lot, for $25.00 cash.

Ottawa, 6th February, 1913-

Sir,

In reply to your letter of the Ist Instant, with regard to Lot 6, Con. I, E. B. R. Albemarle, Sale 6942, I have to state that this Lot was sold to Mr. John Ashcroft, as you state, in June, 1899, and there is a balance of $60.00 purchase money, together with Interest thereon, from date of Sale, against the Lot, and which amount is some years past due.

You will, therefore, be good enough to advise Mr. Ashcroft that he will be allowed three months in which to pay the arrears, Principal and Interest. Failing this, the Department will have to consider the question of cancelling the Sale, without further notice, and in case of such cancellation, the sum paid, will be forfeited, and the Department will dispose of the property to another purchaser.

At the expiration of the time given, it will be your duty to report fully in the matter, and to state whether, should Mr. Ashcroft fail to pay up, as above stated,, you would recommend cancellation of the Sale.

DEPARTMENT OF INDIAN AFFAIRS
JUL 17 1917

Ottawa, 10th July, 1917.

Dear Mr. Scott,

Mrs. Rodgers, of Pike Bay, Ontario, bought the south half of Lot 5, Concession 1, Albemarle, west of the Bury Road, from one Hooey, who bought it from a man named Hammill, who bought it from his brother, who in his turn bought it from a man named Parr. Parr paid for it in full to the Land Agent, but as it is all either rocky land or swale, he did not do settlement duties and the patent has not, therefore, been issued. Mrs. Rodgers owns the adjoining lot. Parr went to Manitoba some years ago and cannot be located. You may have some correspondence in the Department about this matter from Mr. C. J. Mickle, of Chesley.

I should be very glad if you would do what you can for Mrs. Rodgers, as she has just lost her son, who was killed in action in France.

Yours very truly,

Hugh Clark

General of Indian Affairs,

In regard to letter of the 10th instant, from Mr. Hugh Clark, M.P., I beg to say that the S. ½ of lot 5, Con. 1, W. B. R., Albemarle, stands on the books of the Department in the name of John H. Parr, the purchase price paid in full. As it is reported that the lot is not fit for settlement, the Department c ould obtain a report as to this from the local Agent under oath, and if the land found unfit for settlement, Letters Patent could be issued to Mrs. Rogers, upon her furnishing a satisfactory transfer of the half lot from Hooey to herself, also an assignment from Hammill to Hooey, and an assignment from Hammill's brother to himself, and an assignment to Hammill's brother from Mr. John H. Parr, in whose name the sale stands. I cannot find that there has been any correspondence in the Department with Mr. C. J. Mickle in regard to this land.

Dear Colonel Clark,-

I have to acknowledge the receipt of your favour of the 10th instant, regarding the desire of Mrs. Rogers, of Pike Bay, Ont., to have patent for the south ½ of Lot 5, Con. 1, W.B.R., Albemarle. In this connection I would say that the above lot was purchased from the Department by Mr. John H. Parr and has been paid for in full; it was, of course, sold with settlement conditions attached, but, as it has been reported unfit for settlement, it might be possible for the Department to issue patent for it if we obtain a report from the local Agent under oath to the effect that it is unfit for settlement. Mrs. Rogers, of course, would have to furnish a satisfactory transfer of the half lot from Hooey to also an assignment from Hammill to Hooey herself, an assignment from Hammill's brother to himself and an assignment to Hammill's brother from

Ottawa, 20th July, 1917.

Dear Sir,

Re Mrs. Mary Eliza Rodgers
South half of Lot 5, W.B.R. Albemarle.

I am enclosing Abstract of Title to this lot, and also a deed from Lucy M. Hooey to Mary E. Rodgers, which I trust will be satisfactory proof of Mrs. Rodgers' claim. You will note by the abstract that at one time it sold for three hundred dollars but that was before it was stripped of the timber. As it lies along side of the lot she is living on, and would be suitable for pasture, Mrs. Rodgers bought it at a higher price than any one else would give.

Mr. R. W. Bright, who took up the matter with me, says he has tried to find the whereabouts of John H. Parr, but so far has been unable to locate him, but as the abstract shows he sold his claim and that it has passed on to Mrs. Rodgers, Bright thinks the patent should issue in her name. Her husband has been insane for thirteen years and her eldest son was killed in France.

Mr. Bright says it would incur a good deal of expense for the local agent to go up and inspect the lot, which is eighteen miles

Dear Colonel Clark,-

In reply to your communication of the 20th ultimo, in regard to the S. ½ of lot 5 in the 1st concession, W. B. R., Albemarle, I beg to say that the evidence furnished appears satisfactory, showing that Mrs. Rodgers is at present entitled to this half lot. The Department proposes cancelling the old sale of this half lot and obtaining information from the local Indian Agent as to whether the lot is unfit for settlement, and if found unfit, to re-enter a sale under section 6 of the Regulations for the property in the name of Mrs. Rodgers, crediting her with the money which has been paid for the half lot, and which pays for it in full.

If the report which will be obtained from the local Indian Agent is satisfactory, Letters Patent will be at once issued for the half lot in Mrs. Rodgers' name

Your favour of October 21, 1918 was received regarding lot 2. con. 9. E. B. R. Eastnor.

Now Alexander Edward Strathy is dead. His widow is married again.

I have bargained with her and Mr. Alexander Edward Strathy's children for the above number lot. But before I can get a title. I desired to have the patent issued, then I would get a quick claim deed.

I have already had Alexander Edwards Strathy's son, Henry Edmund Strathy consult the Land Agent Dat Wharton.

Now would you kindly advise me as to what course I should take to get the matter fixed up?

Dear Sir:-

Re Lot 2, Con., 9, E.B.R., Eastnor.
Your file 419878.

Mr. J.E. Sutherby, Indian Land Agent at Wiarton has shown me a letter he received from Mr. W.A. Orr of your Department under date of 10th December 1918. A. E. Strathy, in whose name the Lot stands on the books of the Department, died by drowning in the year 1880 and no probate or administration was ever taken out. The heirs of the estate now wish to sell the land to Mr. George N. Eyre of Hope Bay.

The heirs consist of a widow, who married again, but is still living, two daughters, one married and the other single, one son Mr. Henry Edmund Strathy of Port Elgin.

Would you kindly advise me what would be required in order to have the title transferred to Mr. Eyre. Will you require that Letters of Administration be obtained or will you accept a deed in which all the heirs join to Mr. Eyre, and in that deed I can put sufficient recitals setting forth the death of the late A.E. Strathy and that the grantors in the deed are the only heirs. If you wanted the recitals verified by an affidavit or statutory declaration, it could easily be done.

The land is not valuable and the purchase price agreed on in the proposed transaction is $200.00, so that I desire to avoid costs that are not absolutely necessary.

An early reply will be appreciated.

Yours truly,

DEPT. OF INDIAN AFFAIRS JAN 13 1919 OTTAWA

DEAR SIR,

Re Lot 2, Con. 9, E.B.R. Eastnor.

We have been consulted by William John Hewton, who claims to have purchased this lot from his father, John Hewton. We enclose you the Assignment and affidavit of execution.

Hewton instructs us that his father in 1886, purchased this lot from R. L. F. Strathy. Strathy represented that it belonged to his father, that he and his sister Helen Ruth Strathy, were the only heirs; that he could not give a deed until his sister became of age. Hewton has since lost trace of Strathy

Mr. Hewton gave a note for the purchase price, which note has been paid. We have Mr. Strathy's acknowledgement to that effect. Hewitt and his son William T. Hewton have been in possession of the lot ever since. They instruct us that they have cleared ten acres and built a house on it; that William T. Hewton lived on it for three or four years and then moved across the road on to his father's farm but has rented it to different parties, who have always paid the rent to him, and he has always paid the taxes on the property.

LANDS BRANCH JAN 20 1919

One George Ayre has been a tenant for several years past and has always paid Hewton the rent until this year. He only paid part of the Jan 1918 rent, and writes him that Strathy has instructed him not to pay any more rent to Hewton.

Hewton has been unable to learn as to Strathy's address and we are now trying to locate him.

At the time of the agreement, he was an employee of the Molsons Bank at Owen Sound.

Gentlemen,-

I have to acknowledge the receipt of your letter of the 15th instant, in regard to lot 2, Con. 9, E. B. R., Eastnor. In reply I beg to say that this land stands on the books of the Department in the name of Alexander Edward Strathy, the purchase price therefor having been paid in full.

Letters Patent for this lot can only issue to the party proving title thereto from Alexander Edward Strathy, and upon furnishing evidence of title as well as evidence showing compliance with the conditions of sale, namely, occupation of lot for three years, erection of a house 18 x 24 and the clearing and fencing of at least five acres.

I may say that Mr. J. Carlyle Moore, Barrister, of Wiarton, has been in communication with the Department in regard to acquisition of this lot by Mr. George M. Eyre, who represents that he is making some bargain for the property with Alexander Edward Strathy's heirs.

DEAR SIR, Re South Half of Lot 33-8th, Albemarle.

On searching this lot, which was owned by Alexander E. Strathy, before his death, we find that the Patent was granted by your Department on the 17th December, 1900, to Robert Louis F. Strathy and Helen Ruth Strathy.

We wrote you on the 15th inst. and have your Reply of the 20th -# 417878, in regard to Lot 2 in the 9th Concession, E.B.R. Eastnor.

As we explained before, Robert L. F. Strathy on behalf of himself and his sister, Helen Ruth Strathy , entered into an agreement to sell this Eastnor lot to our client's father, and one H. E . Strathy now claims to be a son of Alexander E. Strathy, although he does not give his father's correct name.

Will you kindly let us know on what the patent of the south half of Lot 33 in the 8th of Albemarle was granted to Robert L. F. Strathy and Helen Ruth Strathy, and if there was any will, send us a copy of it, or any papers that you think will assist us in proving that Robert L. F. We enclose you deed from Robert Louis Frederick Strathy to our client, William Thomas Newton and an affidavit of Mr. Strathy. On the 26th of March, 1886 Robert L. F. Strathy agreed to sell this land to John Newton and took a note in favor of Helen Ruth Strathy in payment of the balance of the purchase price which note has been paid. John Newton was in possession for awhile and then conveyed it to his son our client, William Thomas Newton. The assignment which is dated the 5th of July, 1889 we forwarded to you to be filed in your Department.

Our instructions are that our client has been in possession either personally or by tenants, who have paid the rent to him, ever since.

Mr. Newton lost track of Mr. Strathy for some time and we commenced an action for specific performance and sent you certificate of Lis Pendens so as to prevent any application for patent adverse to our client's interest. You wrote us on the 31st of January last No. 417878, sending us a copy of a declaration made by R. L. F. Strathy filed in your Department against the South Half of Thirty-three, Eighth Concession, Albemarle on which your Department granted a patent to R. L. F. Strathy and Helen Ruth Strathy and on the 20th of January last you advised us that the purchase price of the Eastnor lot had been fully paid. You mentioned that Mr. J. C. Dear Sir:- Re Strathy, Your file 417878.

On 12th December 1918, I wrote you in regard to the title to Lot 2, Concession 9, E.B.R., Township of Eastnor, County of Bruce, and received a reply from you under date of 19th December. I am now informed that a Patent to this land has issued to Mr. William Thomas Hewton of Barrow Bay, supposedly under an assignment from R. L. F. Strathy now of Port Arthur, who was a son of A. E. Strathy in whose name the lot apparently stood.

I did not have complete information concerning the late Mr. Strathy's family history when I wrote you in December, but have since learned that Mr. R. L. F. Strathy was the late Mr. Strathy's eldest child and was apparently unaware of the existence of his half brother and sisters by his father's subsequent marriage. The late Mr. Strathy's widow is still living and is now Mrs, Parker of Owen Sound. There is a Mr. H.E. Strathy from whom my client holds an assignment, living at Port Elgin, and a daughter at Toronto. These three persons would appear to be entitled to share in the estate of the late A. E. Strathy and their interests are still outstanding.

If it is a fact that a Patent has issued to Wm. T. Hewton, would kindly inform me of the material upon which it issued. I have a letter from Mr. R. L. F. Strathy of 15th inst., in which he states that at the time he agreed to convey to Hewton, he could not find any trace of his father's widow and believes her to be dead and further that he had no knowledge of any other children of his father except one sister by the name of Helen who died last year; this shows that Mr. R. L. F. Strathy was not aware of the true family history.

I am acting for Mr. G.N. Eyre who bought under an Agreement of Sale from Mr. H. E. Strathy of Port Elgin who is acting in the matter for his mother and sister as well as for himself.

Yours truly,

Sir,-

With further reference to night lettergram to you of the 30th ultimo as follows:-

"Ed. Williamson states he applied to you for lots "thirty-five and thirty-six, north side Draper street, "Shaftesbury, in November last, but you recommended sale "to Peter Sagle, who only applied in January following. "Stop sale of lots, as authorized in letter of 3rd February "last. Am writing."

I am enclosing herewith copy of a letter dated 15th November 1912, which Mr. Williamson claims he received from you in regard to these lots. As it shows that his application was made some months prior to that of Peter Sagle, you will be good enough to advise the Department why you recommended a sale of the lots to Mr. Sagle in your letter to the Department of 18th January last, instead of to Mr. Williamson.

If any action has been taken upon letter of instructions to you of the 3rd February last, you should notify Mr. Sagle not to take possession of the lot or make any improvements thereon until you are further advised.

Sir :-

In reply to Official Letter No. 418 683, of the 2nd, Inst., in regard to Lots 35 and 36, Draper St. North in the townplot of Shaftesbury.

I beg to say that one day last November I was in Little Current, and Mr Williamson spoke to me about the above Lots I sent him a note saying they were not applied for and pencilled his name in the OLD Schedule for the two Lots. In January of this year Mr Sagle came into the Office and enquired re the same two lots. Mr Neilson looking them up in the NEW Schedule saw there was no application there for, and noted Mr Sagles name there for. When I made the application to the Department in Mr Sagles name I had forgotten entering Mr Williamsons name in the Old Schedule. I explained the circumstances to Mr Sagle when he called on the 29th, of April,(before I got your telegram) to make a payment on the lots, and he was good enough to relinquish his claim to Lot 35 which is the one Williamson particularly wants, as he has a well on it. Mr Williamson was in the Office during my absence about

two weeks ago, and told Mr Neilson if he could get Lot 35 he would be satisfied to let Sagle have Lot 36.

Mr Sagle has made a payment on the other two Lots which he applied for and I would most respectfully recommend that the sale stand as it is, and that Lot 35 be sold to Mr Williamson at the upset price, and on the usual conditions of sale.

No.36. 10 January,1913.

Sir,

I have the honour to request Your Royal Highness to inform your Ministers that the attention of His Majesty's Government has been drawn to the possibility of inconvenience arising if diplomatic correspondence (an expression which includes not only correspondence between His Majesty's Government and foreign Governments but also correspondence between the Secretary of State for Foreign Affairs and His Majesty's Representatives abroad) is published in the Over-sea Dominions without prier reference to the Secretary of State for Foreign Affairs.

2. I should be glad if you would explain to your Ministers that it is the invariable practice of His Majesty's Government not to publish communications addressed to or received from foreign Governments or His Majesty's Representatives abroad without obtaining the concurrence of the foreign Government or of the British representative concerned in each case. Your Ministers will no doubt agree that the same procedure should be adopted in all cases where they may desire to publish diplomatic correspondence of which copies have been furnished to them by His Majesty's Government.

3. It would,of course, be simple to secure the result by marking despatches in which copies of diplomatic correspondence are forwarded as Confidential or Secret,but His Majesty's

Majesty's Government recognise that it may not always be convenient to have to treat as confidential correspondence which is only confidential because of the diplomatic rule as to publication. I shall be glad, therefore, if your Ministers will bear in mind that the ordinary rule laid down in paragraph 173 (1) of the Colonial Office Regulations under which numbered despatches may be published if desired is not applicable to diplomatic correspondence communicated in numbered despatches, and that the Secretary of State for Foreign Affairs must be consulted before any such publication takes place. I may add that permission for publication can of course be asked for by telegraph and steps will be taken to secure that all such ~~XXXXXXXXXX~~ applications will be dealt with as promptly as the necessity of consulting the foreign Government or the British Representative concerned permits.

4. In cases of direct correspondence with His Majesty's Representatives abroad application for permission to publish despatches received from those officers should be made to them direct.

I have the honour to be, Sir,
Your Royal Highness's most obedient
humble servant,

I have the honour to enclose for your information and guidance in connection with the preparing of Returns for Parliament which may include copies of despatches received by the Governor General, a copy of a despatch
No.36. from the Secretary of State for the Colonies, dated 10th January, 1913, emphasizing the desirability where such despatches cover communications from Foreign Governments of obtaining the consent of such Foreign Governments to the publication of these communications even though the covering despatches are not marked confidential.

SUPERINTENDENT GENERAL OF INDIAN AFFAIRS CANADA

Ottawa, 23rd April, 1926.

Memorandum:

Dr. Scott.

Mr. Stewart has been thinking for some time that it would probably be advisable to have forwarded to his office a copy of all Returns which are to be sent to the Under-Secretary of State. This would also cover the Answers to Questions which concern more than one Department. It just happens that sometimes we have material in our own office which should be included in the Return, also the Minister is anxious to be aware of what is going in before it is put on the Table of the House, and if it is not forwarded here by the Deputy's Office sometimes it goes through without his seeing it.

Memo.

The Deputy Minister,-

In regard to lots 18 and 19, range A, Carnarvon, I beg to say that these lots were sold on the 1st of January, 1879, and stand on the books of the Department in the name of William Patterson. The purchase price was 50 cents per acre, and there was paid at date of sale $40 leaving a balance of principal due of $60. As the owner of the land is unwilling to pay the purchase price, I would beg to recommend cancellation of the sale of these two lots, and that Agent Lewis be instructed to call for tenders therefor from Mr. Robert Graham and Mr. Walter Wagg, of Providence Bay, asking each to state what he is willing to pay for the lots over and above the upset price of 20 ¢ per acre for lot 18 and 22 cents per acre for lot 19, being the values placed thereon by Mr. Russell, who valued the lands on the Manitoulin Island.

No.10.

The Council decided to urge the School Board to open a Continuation School in Ohsweken and get a list of pupils who are ready to take up that work and engage a qualified teacher. The Council further decided to build a school house for this purpose. There are said to be a large number of children on the reserve who have passed the Entrance Examination and would like to take up high school work if a school was on the reserve and this continuation school will I believe supply the want. Such a school has recently been started in the Village of St. George near Brantford with two teachers, but I do not know how it is getting on as yet. I beg to recommend your approval of this decision.

MEMORANDUM.

Mr. Scott,-

Mr. Superintendent Smith has forwarded a resolution of the Six Nation Council urging the School Board to open a continuation school in Ohsweken and engage a qualified teacher to take charge. The Council will furnish the money for building a school-house for this purpose.

Mr. Smith states that there are a large number on the reserve who have passed the Entrance Examination and would like to take up high school work. He says that if a continuation school were on the reserve it would supply the want.

I have been looking over the report of the Royal Commission on Industrial Training and Technical Education and I think that if the Six Nation Indians are willing to spend the money for a continuation school it would be well to include vocational teaching and industrial training, as these are the means by which most of the

Memorandum.

Mr. Scott:

A Continuation School on the Six Nations Reserve was suggested in the first instance by the Indian Council. It was proposed, during the last year or two, to utilize Parliamentary Appropriation as well as Band Funds in connection with the building.

Mr. Benson, formerly with the Department, recommended vocational and industrial training in addition to high school work. It is my opinion that no industrial work should be undertaken at the outset but that a commercial class should be commenced in addition to the academic instruction.

My recommendation is that a 4-roomed school be erected. the two larger rooms could be used for grades 7 and 8 and for high school work, respectively. A third class in bookkeeping and stenography should be opened when the school is erected. Three teachers should be employed. If the commercial department met with success, it would soon require two classrooms, one for bookkeeping, Business English, etc., and the other for shorthand and typewriting.

The building should be dissociated from the present No. 2 school at Ohsweken, so that adequate playground facilities would be secured. A separate continuation school would also be an incentive to pupils in all 11 schools on the reserve. They would look forward to the day when they would be prepared for admission to the central continuation school at Ohsweken.

If, at a later date, it is found that the teen age girls who are boarding with relatives and others in the town need supervision, I believe a small residence should be built and their evening activity supervised. A matron could be appointed who, with the help of an Indian lady worker, could manage and do the necessary work for a residence accommodating 15 girls.

Mr. R. T. Ferrier,

Superintendent of Indian Education,

Department of Indian Affairs, Ottawa.

Dear Mr Ferrier:

At the regular July meeting of the Six Nations Council, the matter of providing further educational facilities for Six Nations children who have passed the High School Entrance Examination, was laid before the Councillors. The proposition that was suggested was the organization of a continuation school at Ohsweken. But the matter has not yet been discussed by the Council. The urgency of the situation is the occasion for communicating directly with the Department regarding the facts as they appear to me after further consideration of the above proposition.

The increasing efficiency of the schools of the Six Nations Reserve has resulted in a large annual increase in the number of pupils who pass the High School Entrance Examination. Last June some twenty pupils passed that examination. Among these are to be found children whose parents are not financially able to send them to distant schools for further education, even with the assistance of the grant. In proposing the organization of a continuation school on the Reserve, I have particularly in mind that class of pupils, although I am certain that the organization of such a school would be welcomed by all. A canvass of the situation shows that a continuation school started now would have an enrolment of about ten pupils.

A new building is not necessary, and will probably not be necessary for a few years to come. A suitable room for a beginning class twenty pupils is available in No. 2 school at Ohsweken. The room is heated and well lighted. The senior room at No. 2 school contains 46 desks of which 24 are now occupied. It would create no great inconvenience to move 10 or 15 of these desks to the empty room. Practically all that is required is a teacher with a First Class Certificate. The salary of the teacher would be from $1000 to $1500 per annum. It seems to me that any argument against the establishment of such a school on account of the cost

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

dwindles in the face of these proposals. The cost of maintaining the school would not, in my opinion, exceed $1500 a year.

Mr. T. W. Standing, Inspector of Public Schools, is of the opinion that a continuation school is now needed on the Reserve, and that there is still time to complete the work of the first year if such a school is started now. The matter of inspection would of course have to be arranged.

I would be pleased to answer any questions and to give any further information that the Department may require regarding the establishment of a continuation school on the Reserve.

Yours very truly,

Elmer Jamieson

Dear Mr. Jamieson:

I have your letter of the 21st ultimo, with reference to the advisability of establishing a continuation school for the Six Nation Indians at Ohsweken. Dr. Scott and myself have given this question serious consideration, and we are glad to have your representations on our file. You will understand that the chief problem is the boarding and supervision of those pupils who live too far from the village to go to and from their own homes daily.

Yours very truly,

Russell T. Ferrier

In action this year

There is a real need for Fifth Class or Continuation School work to be taken in connection with this school. With a slight alteration to the building, the rear room could be made to accommodate about 24 pupils. With an additional teacher in this room, many of the pupils now being supported in outside High Schools could be accommodated here.

The school building has been left for some time in an unfinished condition and it has an unsightly appearance. It should, I think, be finished this summer but, in this connection, I would recommend fitting up the room at the rear for advanced work. If the rear stairways were removed and alterations made at the front, there would be room for a class of from twenty to twenty-four. One teacher could be employed to do Lower School work and thus relieve the Board of the expense of sending these pupils to outside schools. There would have to be a front entrance to the basement with stairways leading up to the front hall. This would do away with the need for the outside stairs which are now always exposed to the weather.

I would recommend that these alterations be considered and that plans be made to establish a third room for Lower High School work, to start next September.

The Secretary,

Dear Sir,-

"Council resolution #4, August 6/31.
Petition for the establishment of a
Continuation School on the Six Nat-
ions Reserve."

The following resolution was passed by the Six Nations Council at the meeting of August 6th;-

> "Moved by Fred Johnson seconded by Hardy Miller, that Col. Morgan be requested to write the Indian Department asking the undermentioned questions in view of a petition presented to this Council as to the establishment of a Continuation School on this Reserve, whether the school grants will be withdrawn from pupils attending outside High Schools, whether pupils residing on the Reserve would be allowed to attend outside High Schools and if cost of construction of said school would be charged to Band funds,"

Resolution No. 5, it was decided to summons a meeting of the School Board to discuss the matter with the Council at the September meeting, and it is perhaps too early for me to express an opinion as to the desirability, or otherwise, of the establishment of a Continuation School, as there are points both for and against it.

It will be seen that the Council requested me to write to the Department asking whether, in the event of sanction being granted for the establishment of a Continuation School, grants would be withdrawn from pupils attending outside High Schools, and whether pupils residing on the Reserve would be allowed to attend outside High Schools if they so desired.

I told the Council that in my opinion, from a point of view of economy, that this was entirely the wrong time to bring the matter up, but in order that the questions may be discussed, I shall appreciate a reply from the Department ~~of~~ To these two questions, which will of course be entirely without prejudice, or in any way regarded as an undertaking by the Department to establish such a school.

Sir:

I beg to acknowledge receipt of your 10B-1477/31 of the 17th instant, with reference to Resolution No. 4 of the Six Nation Council meeting of the 6th instant, regarding the proposed establishment of a continuation school on the Six Nation Reserve.

In reply I have to say that, as you are aware, all expenses for Indian education are now paid by Parliamentary Appropriation. Our funds this year, however, are so limited, that the Department is not in a position to consider incurring the expense that would be involved if a continuation school was erected.

The other questions asked in the Council's resolution could be settled only in the event of the erection of a continuation school being definitely decided upon.

A. F. Mackenzie,
Secretary.

Dear Sir;-

I herewith beg to make application for the Timber now lying or standing upon Hotham Island, situated five miles east of Spanish Mills and opposite the Albert Indian Reserve.

I might say that there is an Island lying between Hotham Island and the main land, which a year ago, contained a considerable quantity of valuable timber, but which was totally destroyed by fire a year ago last summer.

No doubt Hotham Island will meet with the same fate sooner or later, as it lies in the direct route between Spanish and Little Current, and is a common camping ground for Tourists and Indians.

Kindly acknowledge receipt of this application and oblige.

A Mr. H. H. Flesher, of Massey, Ont., made application to Mr. Geo. Shaw, Timber Inspector and Valuato r Thessalon, last month for the purchase of timber now lying or standing upon Hotham Island, situated about five miles east of Spanish Mills. He stated that there was an island lying between Hotham Island and the mainland, which a year ago contained a considerable quantity of valuable timber which was totally destroyed by fire a year ago last summer, and no doubt Hotham Island timber will meet the same fate, as it lies in the direct route between Spanish and Littl e Current, and is a common camping ground for tourists and Indians.

On receipt of this letter the Inspector was instructed to examine the island between Hotham and the mainland, and report as to the nature and extent of damage done, and was informed that the ownership of Hotham Island was in dispute between the Dominion Government and the Province, and that no disposition of the timber thereon could be made pending the settlement of the question.

He has reported that he visited the island referred to which lies due north of the south end of Hotham Island, and found the timber badly burnt, about 75,000 feet of ------timber thereon which should be disposed of as

Sir:

With reference to Departmental letter of the 27th of March last, No. 420881, in regard to timber on an island lying between Hotham Island and the main land reported by your timber Inspector as totally destroyed by fire, which timber you desire to know if this Department has any objection to your Department selling under local competition, I have the honour to state that on receipt of your communication our officer at Webbwood, Mr. S. J. Hawkins, was instructed to enquire into the matter, and from what he now reports it is considered it would be advisable to dispose of this timber, and we have no objection to your Department selling it by public tender,- the proceeds to be funded subject to award later.

Owing to the condition of the ice etc. it appears that Mr. Hawkins was unable to make the investigation when first instructed.

Dear Sir:-

We received your notice asking for bids on timber on a small island lying near the North Shore, opposite the East end of Hothan Island. The writer looked over the only island he could find with burnt timber on it, in that location, and I presume I found the right island. The island I was on, however, does not contain any timber of any value, it being badly burnt, except very few green trees. If the island running East and West from the entrance to Oak bay, however, is for sale we will be pleased to make a bid for the timber on it.

JOS/EP.

Dear Sir,

I wrote to you about the sale of Rabbit Island. The Island to which I refer is at the Eastern entrance to Owens Channel between Cape Smith and Fitzwilliam. The natives call it Rabbit Island, although it may have some other name on the Chart. The Island to which you referred in your letter lies North-west from Tobermory about 2½ miles, in the vicinity of Cove Island. It is not the Island about which I wrote you.

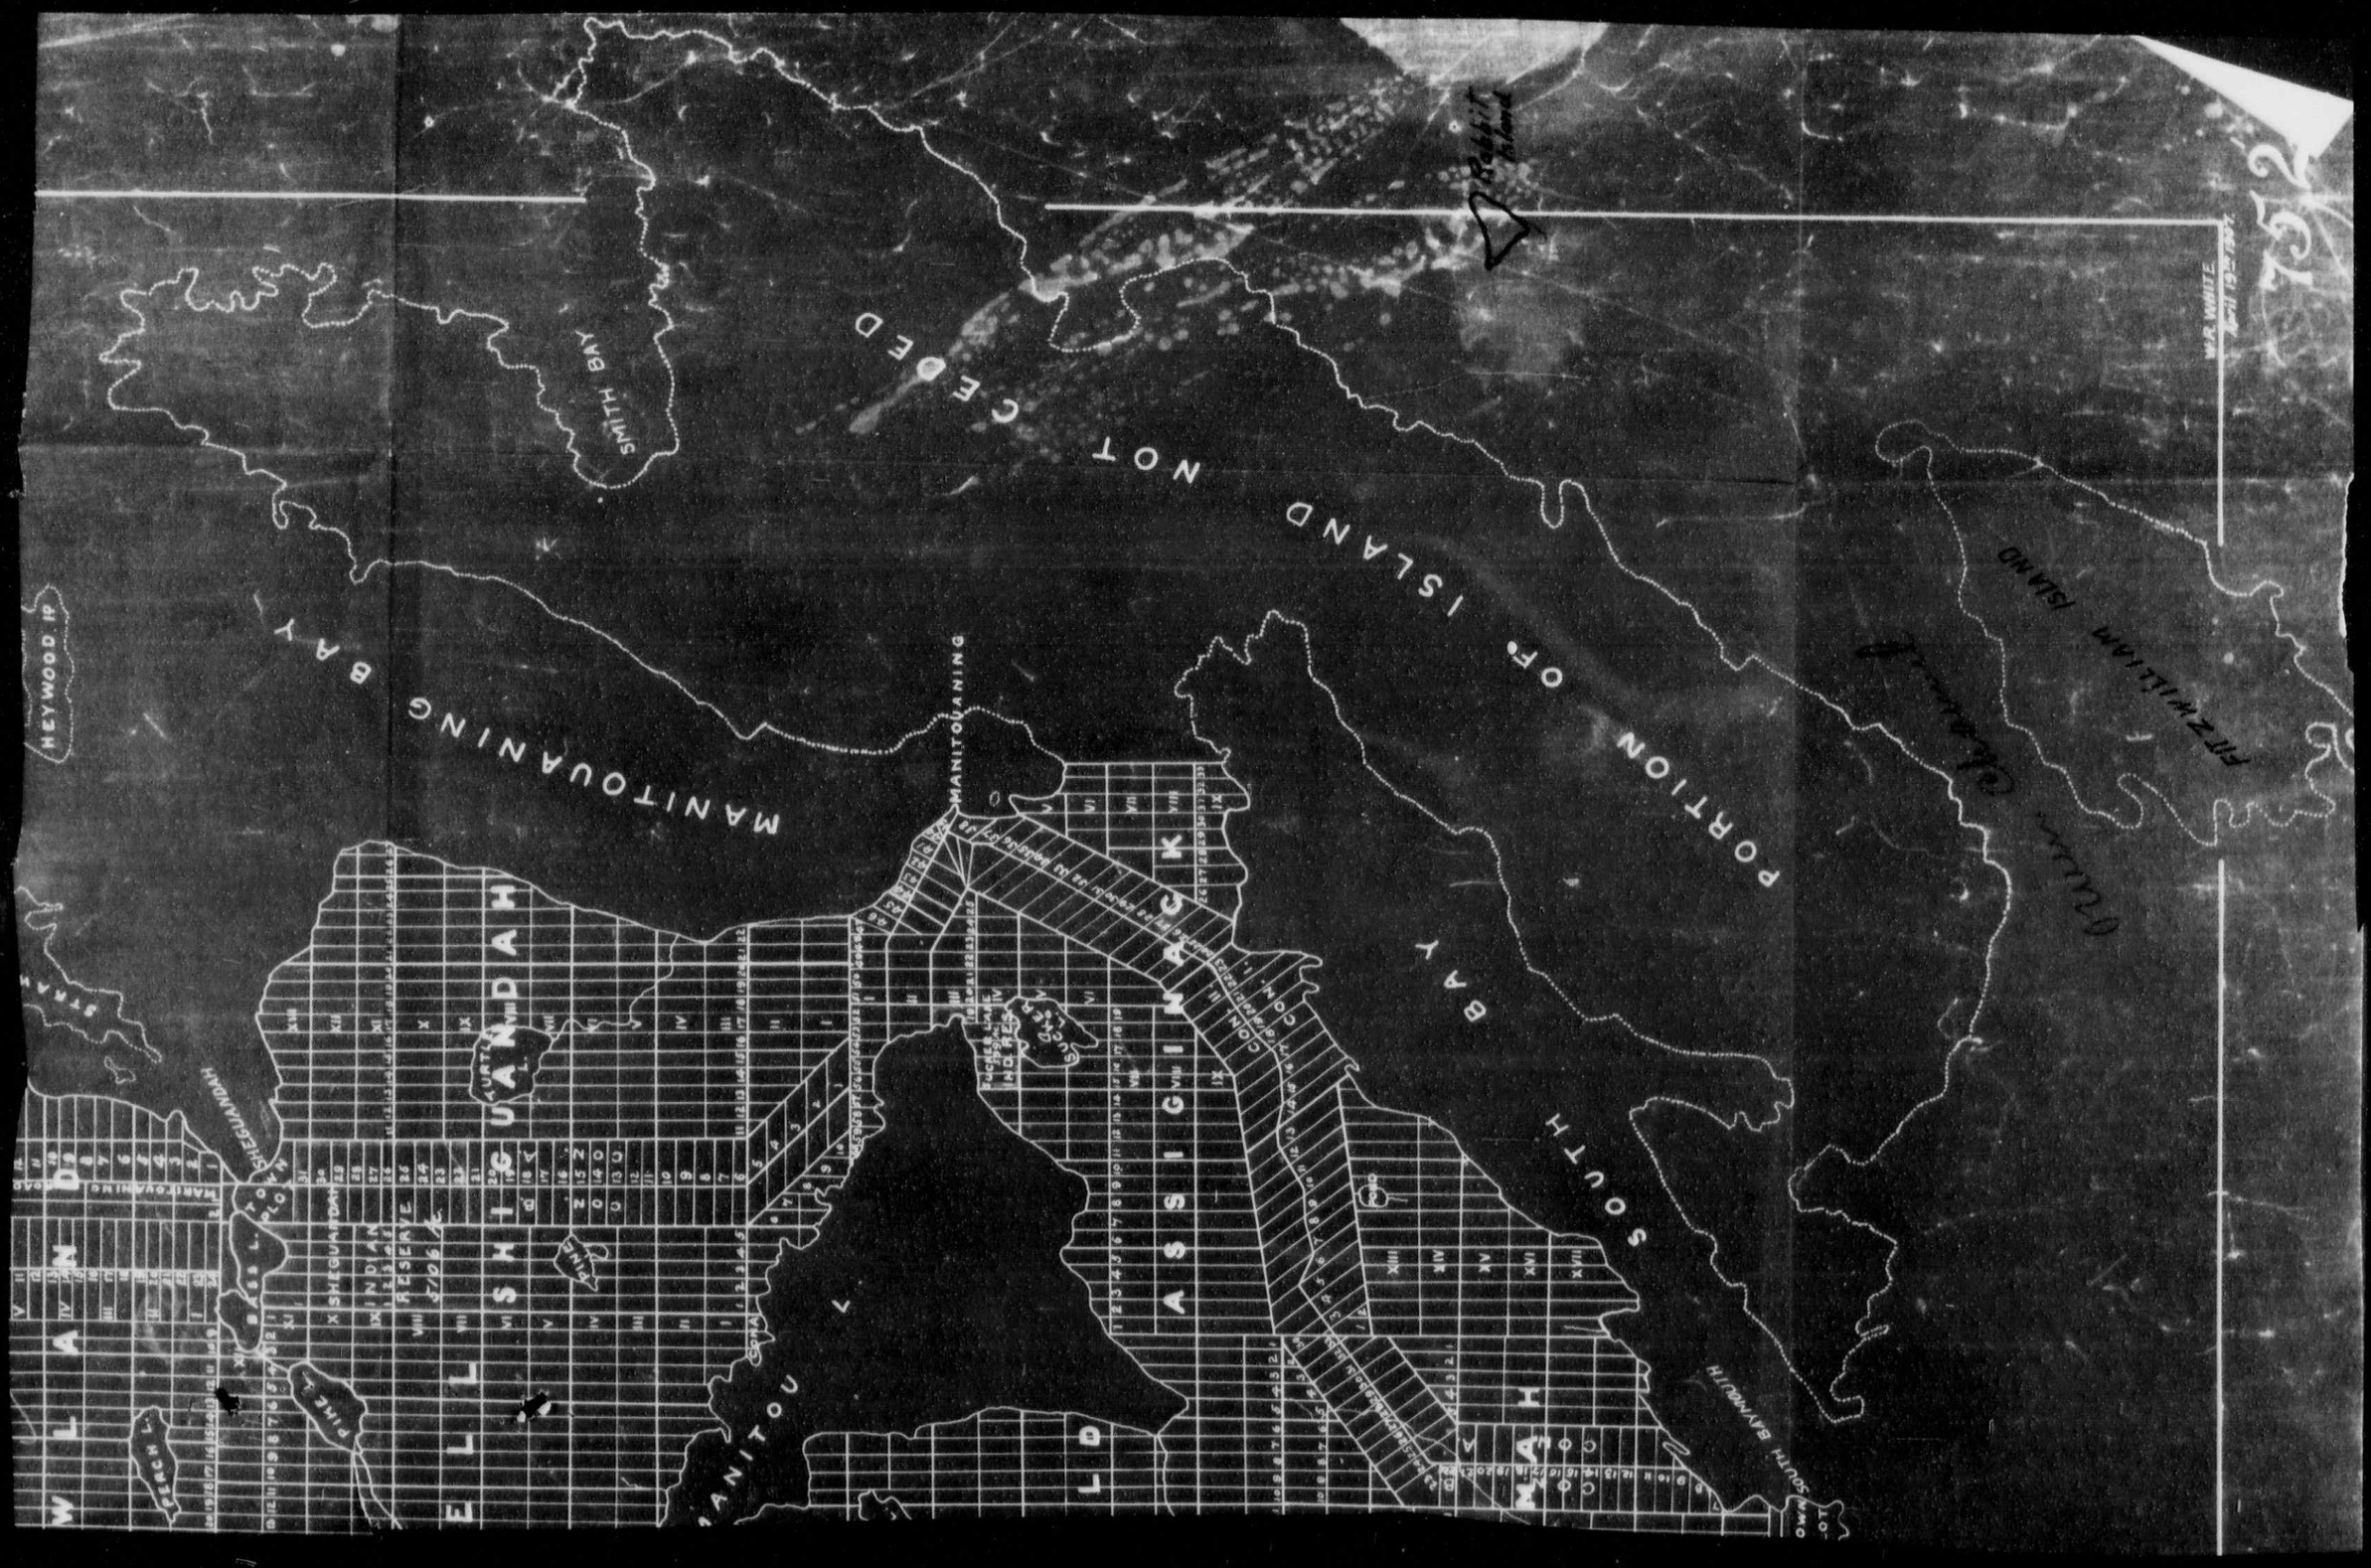

Will you please let me know if the Island above referred to is for sale, and if so, on what terms, and oblige.

Memorandum

To the Dpputy Superintendent General

Ottawa, March 3, 1913.

Rabbit Island is situated between Fitz William Island and Smith Bay and about 2½ miles east of the unceded portion of Manitoulin Island or Manitoulin Island Reserve No.26, and contains about 110 acres.

These Islands are in dispute with the Ontario Government and that Government has refused to allow these Islands to be disposed of until the question of ownership is settled.

An Island named Narrow or Rabbit Island has been disposed of to Marine and Fisheries by Order in Council of 22nd December 1893 for Light House purposes, but is situated quite close to Little Current and is not the same one

Blue Print attached shows position of Rabbit Island.

Dear Colonel Clark .

Referring to your favour of the 27th. ultimo regarding Rabbit Island, I beg leave to say that this island, along with others, is in dispute between the Ontario and the Dominion Governments, and the Ontario Government has refused to allow these islands to be disposed of until the question of ownership is settled. It will, therefore, be seen that the disposition of this property will have to remain in abeyance until a decision is reached either one way or the other.

Yours very truly,

Frank Pedley

Deputy Superintendent General.

Dear Sir;

Would you please quote your price for Rabbitt Island in Georgian Bay, just east of the eastern shore of Manitoulin Island. If this is not in your department the Writer would appreciate your forwarding this to the proper department.

Thanking you, I remain,

Yours truly,

T. H. Pettigrew.

Ottawa, October 21, 1944.

Dear Sir,-

I am enclosing herewith a copy of an inquiry received from Mr. T.H. Pettigrew, of Owen Sound, concerning Rabbit Island in Georgian Bay just east of Manitoulin Island, and as our records indicate that the said island is within the jurisdiction of the Provincial Government, Mr. Pettigrew's inquiry is being directed to you.

Dear Sir:

Your letter of the 21st ultimo, regarding Rabbit Island in the Georgian Bay, just east of Manitoulin Island, has been received. This is in connection with the enquiry of T.H. Pettigrew of Owen Sound, which I am returning.

According to the records on file, this island was sold by the Department of Indian Affairs to the Department of Marine on October 4th, 1889.

Yours truly,

H.W. Crosbie,

Ottawa, November 15, 1944.

Dear Sir,-

I have for acknowledgment your letter of November 9th with reference to Rabbit Island in Georgian Bay, just east of Manitoulin Island and note that according to your records this island was sold to the Department of Marine on October 4th, 1889.

You are quite correct in stating that a Rabbit Island in the vicinity of Manitoulin Island was sold by this Department to the Department of Marine and Fisheries, but the island so sold and known as Narrow or Rabbit is situated quite close to Little Current, whereas the Rabbit Island in which T.H. Pettigrew is interested lies between Fitz William Island and Smith Bay about two and one-half miles east of the unceded portion of Manitoulin Island, and according to our records is within the jurisdiction of the Ontario Provincial Government.

Apparently you have confused the two Rabbit Islands and I am, therefore, returning the copy of Mr. Pettigrew's letter herewith in order that you may deal with his inquiry.

Yours truly,

The Secretary,
Department of Indian Affairs,
Ottawa,

Sir:-

I am enclosing herewith an agreement between Sose Aroniotas and Ennias Soratase, both members of the Caughnawaga Band, also a letter from L. F. Jackson acting on behalf of Sose Aroniotas, and I beg to ask you whether the said agreement holds good, for my part I believe that Sose Aroniotas shall be entitled to the property in question, because Ennias Soratase has not fulfiled the conditions of the agreement. I beg to ask that the enclosed document be returned after your decision is rendered.

Sir,

I am returning herewith a transfer of land from Ennias Soratase to Sose Aroniotas subject to proviso for repurchase, which was forwarded to this Department about a year ago, together with a letter from Mr. L.F.Jackson asking what steps Sose Aronitas could take to recover his money.

ENC.

In reply I beg to say that it does not appear that Sose Aroniotas can compel Ennias Soratase to return the purchase price of this land but Sose Aroniotas can hold the land absolutely if Ennias Soratase refuses to repurchase.

Sir,

Mr. Ennias Soratase is at the Department today with reference to his property. It appears that he secured a loan from Sose Aronitas and conveyed his land as security, subject to proviso for re-purchase; that he has been unable to pay the amount of this loan and that Sose Aronitas threatens to eject him from the property. Mr. Soratase states that he offered him at one time the sum of $100 being payment on account of the loan, which Mr. Aronitas refused to accept. Mr. Soratase further states that he has been in very ill health for a long time which has rendered him unable to meet this obligation. He says that he can sell this property for much more than the amount of the loan. It appears to the Department that if Mr. Aronitas gets the amount of his loan with interest he should be satisfied. Soratase should be allowed to sell the place in order to pay off the said loan. Of course this should be done without delay as Mr. Aronitas should not be kept out of his money indefinitely. Would you kindly intervene in the matter to prevent any injustice being done to Mr. Soratase and also to facilitate the payment of Mr. Aronitas's loan.

Your obedient servant,

Dear Chiefs.-

In regard to the questions referred to when at the Department yesterday, In connection with resolutions as to rental and land on the Tyendinaga reserve, I beg to give you the following information.

As to resolution of Council of the 4th of December 1912, as to acceptance of quit claim deed to Joseph J. Hill of one acre of the southwest part of lot 7, Con. A, Tyendinaga, I beg to say that the resolution was reported to the Department, but no approval thereof was given, and there is no record of payment of any money to the Department.

7. 35769 37

As to resolution of the 6th of November, 1912, locating Daniel H. Maracle for the southwest part of lot 17 for five years at an annual rental of $15.00 per year, I beg to say that this resolution was reported to the Department, but no approval thereof was given, nor has any money been received by the Department.

36

357643

As to resolution of the 1st of December, 1909, allowing D. H. Maracle to purchase one acre of land between lot 20, Broken front, for $10.00, I beg to say that there is no record of this resolution having been reported to the Department, and no approval thereof was given, nor has any money been received by the Department.

In connection with the above, I would point out that the only approval which can be given by the Department of locations of land on your reserve is by the issue of location ticket, in accordance with the provisions of the Indian Act, and as apparently the Indians do not desire to have location tickets, any transfers can only be noted by the agent, and come under recognized title referred to in the Indian Act.

As regards resolutions of Council of the 7th of March, 1906, as to lease of the south end of the east half of lot 18, Concession A, containing 17 acres, at a rental of $5.00 per year to John J. Smith, for a term of nine years, and also resolution as to the leasing of the south end of the west half of lot 18 and part of 17, Con. A, containing about 25 acres, to George Lucas, for two years at a rental of $12.50 per year, I beg to say that the Department has no record of leases having been issued in accordance with these resolutions, and no moneyshave been received by the Department.

File 7.29530

As to statement that Agent Stainton turned Samuel Miles and his family off part of lot 29, Con. 1, for which he held a quit claim deed from his grandmother, I beg to say that the Department does not appear to have any information in this matter.

Sir,-

I beg to acknowledge the receipt of your letter of the 26th ultimo. in regard to the allotment of land on the Tyendinaga reserve to ex-Chiefs Joseph J. Hill and D. H. Maracle, and in connection therewith would refer you to letter addressed yourself and Chief Green on the 15th of March last, giving you full information as far as the Department had knowledge in regard to these allotments.

I may say that the local agent has not made any report in the matter to the Department and it would be well for you to take the matter up with the agent and have him favour the Department with a full report in each case.

Sir

I am in receipt of yours of the 1st Instant And in reply wish to inform you that I drew Mr Agent Donnellys Attention to its contents And his reply was that he had already sent an account of the matter to the Department And I Beg to be allowed to say to you That I believe that he has no desire to act in any case Unless ordered by the Department And I for my Part in the case Wants first to be satisfied with the Items contained therein that they be in accordance with the information that I have received From all the fishermen that has Paid rent to the Chiefs in question Since the fall of 1909 When W C Macdonald first Paid them $25 Rent for camping on our shore Since then he has Paid $30- Each year Until last fall When Mr D H Maracle got angry with him And would not allow Macdonald to have his camp on what he claimed to be his land unless he would Pay him $30- and also $30- for the Privilage to draw a Seine on the fishing ground that they only had in Previous years Collected $15- for Rent and which the Chiefs That are Prejudiced

against the Macdonalds By their Majority allows
Maracle to undermine him By letting him have
the fishing ground for $2.50 a year And Maracle cannot
get Permision to fish from the Ontario fishery Inspector
And this was the reason that Chief J W Green and I
were Opposed to Maracle in being allowed to have
the ground And as I understand that the Department has aggreed
-that Maracle should have it From the fact That last
fall Agent Donnelly was instructed To have Maracle
allow Macdonald to use the ground on account of
the Dominion Govt wanted the White fish Spawn
and which he would not consent Till he was Paid $30-
for it And which is not allowable in Govt leasing
to sublet But it appears to me That the Department
questions the correctness of all my Statements Regarding
this Matter And I contend that the resolutions that
I have forwarded to the Dept ought to be sufficient Proof
of the action of the Chiefs in question And I contend to
that the chiefs are only trustees for the People during
their term of office And I consider that its a Breach
of trust For the chiefs to divert the Property of the
Community they are supposed to Honestly serve
Into channels for their own Personal Benefit
and yet it will take the Department over a year and
to consider this matter and yet not decide
Sincerely
John A Loft

Yours of the 17th instant to hand, And as usual Drew Mr Agent Donnellys attention to its contents And he informs me That he had sent in his report long ago to the Dept. And later than that. A Mr. McGibbon Representing the Dept visited the Agent. And went over the Reserve with the Agent. And before leaving, took a statement from him Regarding this matter in question But promised me that he would write you again And I may here state That the Agent and I are agreed That the Dept should demand the surrender of those quit Claims From D H Maracle And Joseph J Hill at once And Collect through the Agent all the Rents from them That they have Collected from the Fishermen That have Camped on our Shores. W B Macdonald Alone has Paid to the Ex Chiefs Since the the year of 1909 for Seine Fishing And Camping on D H M supposed Acre The sum of $25= And in the years of 1910 11-12 the sum of $30= in each and every And in 1913 He Paid $60= I gave you the reason In my last letter Why Macdonald had to Pay that amount

And the Dept according to its Present action is upholding the Majority of the Chiefs In undermining Macdonald Simply because they Prejudiced against him This I can Prove by the Agent As for the amount Collected at long Point I cannot just at the Present time State But D H M should also Pay for his Camping on Band Property As well as the Fishery and Marine Dept

You have had a lot of correspondence from Chief John Loft about Sale of Band Lands to Chiefs in council
{Re Dan H Maracle and Joe J. Hill}
now in regard to this matter & have not had time to go into the details of the matter. But from my view I think the Law Department should decide if Chiefs in council have the right to sell Band lands to one an other and if they have the right their can nothing be done in this matter and if they have no right then something can be done

Memorandum:

Mr. Scott,

It is provided by Section 21 of the Indian Act that no Indian shall be deemed lawfully in possession of any land in a reserve unless he has been or is located for the same by the band or Council of the band with the approval of the Superintendent General, and by Section 22 that when the Superintendent General approves of any location as aforesaid he shall issue in triplicate a ticket granting a location ticket to such Indian.

It appears from the resolutions on file that the Council of the band has located D.H.Maracle and Joseph J.Hill for the lands in question as it has an undoubted right to do. These locations have not yet been approved by the Superintendent General. Approval may be granted or withheld but approval in my opinion should only be withheld on good grounds shown . no good reason appears on the file for withholding approval.

Enclosed find an Indian deed of Sale from Basil Cook to Joe Seymour, also translation of same.

It appears that Seymour purchased some and has failed in his payments; therefore when payment had been demanded he replied that he has seven years to pay for it and will not do anything to reduce his indebtedness.

You will note that Basil Cook who by the way is an American Indian and has resided in the village of St Regis for some years, has assigned his rights of same to his son Louis Cook and naturally Louis wants his own.

What action, under the circumstances must Cook take to secure possession of said property? It would not be just to him were he compelled to lose same, because he is an American Indian.

The agreement plainly states Seymour is to pay $100.00 a year and this he fails to do.

I Bazil Cook do authorize what is written here.

I by house, which is my own property, I do hereby sell, and also the land; which I own, and also the houses adjoining there to.

The house or residence is worth ($ 900.00) Nine Hundred Dollars altogether, including the land

This is the location; One side road leading to the river, across the road from Louis Shirts and is west of it. Bounded on the North by Mitchell Cook's land; on the west by Louis Thomas's land reaching to the River St Regis.

This is the extent of my property, which is my own property, and which I have sold of my own free will to Joseph Seymour altogether

This is the amount of Joseph Seymour's first payment ($ 200.00) Two Hundred Dollars.

It shall begin from this date on March 23rd 1912, he shall pay another $100.00.

He shall pay one hundred dollars a year, until he has paid the whole amount which gives him seven years time.

But if he (Joseph Seymour) can make the payment earlier I will do so.

If I should die, my wife shall carry out the terms of this agreement.

Said terms to apply to our wives, in case of death, they shall settle agreement between them.

Memorandum,

The Lands Branch.

LANDS BRANCH APR 25 1913

In virtue of the document hereunder, Joseph Seymour is a purchaser and owner of the lands referred to subject to the payment of the balance of the purchase money according to the terms of the document, the vendor or his assignee having a lien on the property for the balance of the purchase price.

It appears that the purchaser has failed in making his payments. If he is unable to make these payments on receiving reasonable notice to pay, he might be willing to give back the property to the vendor's assignee on having returned to him the money he has already paid. If however the purchaser is unwilling to do this, the vendor's assignee would have the right to re-sell the property, preferably by public auction, after giving the purchaser reasonable notice of his intention so to do. In such event the proceeds of sale should be applied in paying the assignee the balance of his claim and any surplus would go to the purchaser under this document.

I would suggest that the Agent be instructed to advise both parties as to their right and duties and see if he cannot effect an amicable settlement of this matter.

Sir,

Referring to your letter of the 12th instant, I have to request you to note on the plan herewith enclosed the strip of land in the Tobique Indian Reserve which Mr. Wilson D. Merchant desires to purchase. Also show the Tilly Road on the said plan and the location of Mr. Merchant's land.

If Mr. Merchant only wants a right of way to connect with the Tilly Road it is not clear why he asks for so great a width as ten rods, four rods or even less should be sufficient. You may, however, discuss the matter with the Indians with the view of ascertaining whether they will consent to surrender the portion of land desired by Mr. Merchant and on what terms. Please return the plan with your report.

Sir,—

Yours of Apr 22 with Plan enclosed came duly to hands I got W. B Hoyt the Local Goremmit Land Surveyor to locate the Land Wilson & Merchant Wants to buy of Reft. see marked x In reply to inquiry why a narrow Strip say 4 rods for a road would not satisfy may say Towing to heavy hills along the land next to Wm Landy Lot would be useless as could not get accessible road there. again want to build as close as can to Tidy road. So as to avoid the need of Keeping a Winter road open from his dwelling to Tidy road. then living on the road brings him that much nearer to School house and Church also nearer to market It would give an advantage to have water from the little brook that runs near the road— It would be a Public advantage to have him living on the road in way of road work needed on the road and as there is no timber on the land he wants I would think it well to sell The Indians seem quite satisfied to have it Sold If the offer he makes of $2.50 an acre is not considered a fair price would you put a price on it. I talked with Wm Hoyt. who knows the location well and he places a value of $3.00 an acre which I would say would be about the right price

Sir,

I beg to acknowledge the receipt of your letter of the 15th instant and to draw your attention to the blue print enclosed with it and herewith returned. Please note that the sketch of the tract of land asked for by Mr. P. Merchant shows a block of land averaging seventy-two chains or two hundred and eighty-eight rods long and about fifteen chains or sixty rods wide containing one hundred and eight acres whereas your letter of the 12th ultimo described a strip of land one hundred rods or twenty five chains long by ten rods or two and a half chains wide containing an area of only twenty-five acres. Please state whether Mr. Merchant wishes to purchase a tract containing twenty-five acres of one containing about one hundred and eight acres and plot the tract required in an approximately correct manner on the plan enclosed and again return to the Department. Also state whether Mr. Merchant is willing to pay $3.00 per acre for the land.

Sir,

I beg to acknowledge the receipt of your letter of the 28th Instant, regarding application of Mr. DeMerchant, for land on the Tobique Reserve, and in reply to say that while the Department might be in a position to consider the question of providing a Road Allowance to the Tilley Road, for Mr. De Merchant, it is not in a position at present, to take up the question of sale of either 50 or 108 Acres, as desired, which could only be done after formal surrender by the Indians, under the provisions of the Indian Act.

I may say however, if only a Right of Way to the Tilley Road is desired, upon the Department being furnished with a description thereof, the question of allowing temporary use of the road, would be given due consideration.

Sir—

I have had some talk with William De Merchant in regard to road allowance referred to in your letter of May 31st and he said he would not be satisfied with a road way as suggested as he wants to build on the Tidy road and he wants the land so much he will give $200.00 for 50 acres and pray the earth I would consider this a very liberal offer for this land as in looking over the land wanted I am sure there is no green lumber on it nor any burnt of any value. I would refer you to W.B. Hoyt the Surveyor who has looked over the land quite recently if you require any further information He said to me he thought it would be wise for (Dept to accept Mr. De Merchants offer. The Indians I have talked with seem in favor of it as there can be no revenue from this tract for a good many years. I would think the money bearing interest would be better than holding the land, and would recommend selling to him. Please advise soon if he offer is favorably considered

Memorandum for the Deputy Minister:-

Mr. Wilson de Merchant owns a lot of two hundred acres adjacent to the North boundary of the Tobique Indian Reserve. A public road known as the Tilley road passes through the Indian Reserve leaving it on the North boundary at a little distance to the East of the Eastern boundary of Mr. Merchant's land. Mr. Merchant desires to obtain a tract of fifty acres from the Indian reserve adjacent to his land for the purpose of constructing a private road leading to the said Tilley Road for which he offers the sum of $4.00 per acre. The Indians Agent says this is a liberal offer and recommends the sale of the land. Hon. Senator Baird has verbally stated that he hopes Mr. Merchant's application will be favourably considered and he also states that he thinks $4.00 per acre is a very liberal offer for the land.

The Agent reports that the Indians appear to be in favour of surrendering the land for the purpose

purpose of selling it to the said Mr. Merchant. Senator Baird, however,, says that Mr. Merchant is a comparatively poor man so that it would not be advisable for him to go to the expense ofhaving the necessary survey made of the said fifty acres of land unless he has assurance that if the Indians execute the necessary surrender that the Superintendent General of Indian Affairs will consider favourably its sale to the said Mr. Merchant. It is therefore submitted whether the Minister will be good enough to state whether he has any objection to the procedure outlined.

Memorandum, -

Hon. Dr. Roche.

Application is made by Mr. Wilson de Merchant, who owns 200 acres of land adjacent to the north boundary of the Tobique Indian reserve, to purchase a tract of 50 acres off the bordering Indian reserve for the purpose of constructing a private road leading to the Tilley road, as shown on the accompanying blue print. Mr. de Merchant offers for this land $4.00 per acre. The Agent thinks the offer is a liberal one and the Hon. Senator Baird is of the same opinion. The land is not yet surrendered, but the Agent reports that the Indians appear to be in favour of surrendering it for sale to Mr. de Merchant.

If the Indians are willing to surrender to sell to Mr. de Merchant and expressly state so in the surrender, I would recommend that the surrender be submitted to the Indians, and, if accepted, the land sold

as applied for. The cost of the survey to be borne by Mr. de Merchant. There is one difficulty about this, that Mr. de Merchant does not care to make the survey unless he has some guarantee that he will get the land; the Department can give no guarantee or semblance of guarantee until the Indians have dealt with it, and, if it is decided to submit the question to the Indians, survey will have to be made by Mr. de Merchant, who must take his chances upon the same being carried out.

Sir,

Referring to your letter of the 18th Ultimo, as to application of Mr. Wilson de Merchant, for 50 Acres of land on the Tobique Reserve, North of the River, I beg to say that you should advise Mr. de Merchant that upon his furnishing a plan and description of the land applied for, by a qualified Surveyor, the question of surrender of the land will be submitted to the Indians, as required by the Indian Act.

The Department, of course, can give no guarantee that the Indians will surrender, but if Mr. de Merchant is willing to take this chance, the Department will take the necessary action for Sale, at the price offered.

Ottawa, September 2, 1913.

Sir,-

Referring to your letter of the 19th of August last and prior correspondence, in connection with land on the Tobique reserve, applied for by Mr. Wilson de Merchant, I beg to inclose form of surrender, in duplicate, which you are hereby authorized to submit to the Tobique band of Indians under and in accordance with the provisions of the Indian Act.

The band should be summoned in accordance with their new rules, notice being given each member of the meeting and the object for which it is being called, and if the surrender is assented to, you should have the date filled in and the document signed by a number of the Indians in your presence and an affidavit of execution made on the form attached by yourself and the Chief and a Principal Man before a stipendiary magistrate or a justice of the peace, and then return the documents to the Department.

You should report the number of male members of the band over twenty-one residing on or near the reserve entitled to vote under the Act; also the number of Indians present at the meeting, the number voting for the surrender and the number against.

Sir,-

I beg to call attention to letter addressed you on the 2nd of September last, inclosing a form of surrender of land applied for by Mr. Wilson DeMerchant on the Tobique reserve, and have to request that you will favour the Department at once with a report as to what action has been taken in this matter. The Department is surprised to hear that, apparently, you have taken no action to submit this surrender to the Indians, and you will be good enough to report why you have failed to act in the matter.

Sir,—

In reply to yours 23rd beg leave to report — When letter was received from D.S. to call meeting of Indians in question of Surrender of land I visited Chief being away at time I waited for his return. Then arranged with one of the Councillors to notify Indians of meeting which he promised & called to but at time for meeting found he did not do it; and again a meeting failed on account of a very severe Storm, and again as many of Indians being away to work was advised by Chief & Councillors to wait their return when they would arrange for meeting. And it seems the Chief or the Councillors have been away so much as well as Indians a favorable time has not presented itself so could have a fairly representative meeting. If you so advise I will call a meeting at once of whatever of the Indians that are able to attend and report. The result. I have depended on the Chief and Councillors to arrange for a meeting which they did not do.

Is it necessary to have Chief present at meeting

Sir,-

I beg to acknowledge the receipt of your letter of the 27th ultimo giving explanations in regard to your action as to submitting of surrender to the Indians of the land applied for by Mr. Wm. DeMerchant, and in reply to say that the Department considers that you should have acted in this matter with more promptitude, and not delegated the giving of notice of the meeting to the Indians without seeing that such was done. You should give this matter personal attention, and have a meeting called as early as it is possible to secure a representative gathering of the Indians. It will be necessary to have a majority of the Indians attend the meeting to consider the question of surrender. It will not be necessary to have the Chief present at the meeting, as if surrender assented to by the Indians, affidavit of execution may be made by yourself and two of the principal men.

I am enclosing a Report of Meeting held in Tobique Reserve on 30th March it was quite a large meeting. Nearly all the Members of the Band were present The question of Selling Land to Wilson & Hendry at price of $8.00 per acre was Submitted to the meeting. the Vote Stood 14 in favor of Selling to 18 against. of those who voted against Selling at $8 per acre they said they were willing to sell at $15.00 another said he was in favor of leasing to Mr Hendry at some price. The vote puts Mr Hendry in a hard place

You will also notice that Band voted in favor of leasing Flats at $2.00 per acre for term of 10 years & also passed Vote asking part of Seed fund Deposit of $150.00 be used for Fertilizers, as Potatoes cannot be raised successfully without it

Yours of March 30th to hand. In reply may say Chief Francis had said to me that he thought Wilson & Merchant had cut timber on Reserve. I sent out two cruisers "Joe Ellis" and "Tom Moulton" and they went all round the Reserve North of Tobique and they reported no cutting by Wilson & Merchant and only found 3 hard wood trees cut anywhere. those were back of Lilly and not certain they were on reserve as lines between farms and Reserve not easily found in some sections We have looked well after Lands and probably the cutting by trespassers. We are Vigilant than ever before — As for Wm. & Merchant Cutting on land he wishes to acquire. May Say. If I remember aright Mr. Hoyt the surveyor gave only a few trees of green trees on the tract (only at most 10 trees) in all. Mr. Wilson has 200 acres adjoining the Reserve mostly green timber from this tract he has been hauling Timber and also would to Tobique Narrows. From seeing this fine wood. the Chief has no doubt surmised it might have been cut on Reserve I have written Mr. & Merchant asking him to give me information of his right on Lands.

In reply to your letter of the 17th. instant reporting the statement made by Mr.Wilson DeMerchant in regard to the alleged cutting of wood on the Tobique Reserve, and that Chief Lockwood and other Indians of the Band were in favour of the land occupied by Mr.DeMerchant being sold to him for which he has offered to pay four dollars per acre, I have to request you to ascertain whether or not the majority of the male members of the Band of 21 years and over, residing on or near the Reserve are willing to accept of Mr.DeMerchant's offer, and if not, what advance on this offer would be considered satisfactory.

In view of the fact that the Indians did not complain or protest when Mr.DeMerchant took possession of the land and commenced to build upon it, the Department is of the opinion that they should dispose of the land at a fair price to him, as it would not be in their interest to allow him to

MEMORANDUM.

Ottawa, 13th June, 1913-

To the Deputy Minister,

Lot A. Plummer St. North, Manitowaning, was sold on the 25th June, 1879, to Charles I. L. Hanson, but now stands by Tax Deed in the name of Thomas Flesher.

I/5 Acre @ $15.00 per Lot --------$15.00
Paid at date of Sale ----------$ 6.00
Balance Principal due ----------$ 9.00
and Interest thereon @ 6 % &c.

Regular Notices were sent for June, 1889, 90, 91. 93, 94 & 95.

On the 23rd April last, Agent McLeod forwarded a Declaration by J. T. Clark & R. W. Wilson, on behalf of C. W. Hamilton, stating that this Lot is unimproved and unoccupied, and has not been occupied for the last 15 years.

E. F. M.

On the 3rd May the Agent was instructed to notify the owner that one month would be allowed, in which to make a payment on the property, failing which the sale was liable to be cancelled.

In letter of the 9th Instant, Agent McLeod now reports that he notified the heirs of Thomas Flasher, but no attention was paid to the notice, and as the owner is dead, and his heirs have all left that part of the country, the Agent recommends cancellation.

In view of the above, I would also recommend that this Sale be cancelled.

Articles of Peace and Amity entered into the Twentieth day of August in the Year of our Thousand Eight Hundred and fifty One

Between the Chiefs, Warriors and Young Men of the Chippawa Tribe resident at Sarnia and Coldwater Bay in the Indian Territory bounded by Lake Huron and Lake Superior, and the Grand Chiefs of the Mohawk Tribe resident at Caughnawaga in Lower Canada for and on behalf of their respective Tribes

Whereas by an Article of Agreement entered into this day, the Chiefs, Warriors and Young Men of the Chippawa Tribe as aforesaid have agreed out of love and good will to their Indian Brethren of the Mohawk Tribe at Caughnawaga to cede a portion of their lands to the said Tribe, as a Resting Place for the said Tribe, that the Indians may congregate, unite and live together, and assist each other, they the said Chiefs Warriors and Young Men having thus shewn their brotherly love, now require an assurance of love, good will and peace from the said Mohawk Tribe at Caughnawaga in the event of their acceptance of and settling on the said tract of land.

The said Deputation of Grand Chiefs for and on behalf of the said Mohawk Tribe at Caughnawaga, should their Chiefs, Warriors and Young Men accept of the Brotherly and liberal Gift from their Brethren of the Chippewa Tribe

Sir,

In Accordance with the Instructions
conveyed to me in Your Letter of the 6th Instant
Respecting the Party of Caughnawaga Indians who
visited Quebec on the forwarding day, for the purpose
of Submitting to His Excellency the Governor General the Petition No 5922,
I have distinctly expressed to those Indians His Excellency's
disapprobation of their repeated infraction of the Rule of
the Department on this subject, and stated, that as I was
bound to transmit for His Excellency's information, any
Representations they may desire to lay before Him, it
Respectfully rested, with the practice of making Journeys
Visits to the Seat of Government or to Montreal, as it is
inconvenient, and expensive to them, and must,
except where leave has been previously Granted, be
discontinued. The Grand Chiefs of the Mohawks of
Caughnawaga received with much satisfaction, the
intimation of His Excellency's sanction to the
Arrangement entered into between the Chiefs of the
Chippewa Indians resident on the Sangeen River
and those of their Chiefs, Acting in the Name and
the behalf of the Tribe, and they humbly hope, that
no Circumstances may occur to render it expedient
to make any Alteration in the location assigned

The Chiefs accept with dutiful respect,

Considerate Advice with regard to certain preliminaries,
such as determining the Extent of the Tract
selecting the Spot best adapted for their

Owen's Sound 26th June 1855

The Chiefs and principal men from
Saugeen having arrived: I called the
two Tribes of Owen's Sound and Saugeen
together in Council – and having read
and explained to them the arrangement
entered into on the 20th August 1854
between the Owen's Sound Tribe and
the Nawash Chiefs from Caughnawaga
& then what the Saugeens if they
were consenting to the arrangement
on – I also [illegible] would be prepared ready for them
to sign in which they would inform
their Great Father that they approved
of the arrangement –

[illegible] the Saugeen Speaker
rose and said – When the Chiefs came
last year to ask for land we thought
we would talk the matter over with them
and give them a piece of our reserve – but
would not have consented, neither do we
now consent to give them any authority
or control over our land, our money or
property belonging to us – We shall be
always glad to see them as our brethren
both from as far as we are able, but
did not intend to give them a piece
without writing to you, for our Great
Father's consent. We thought we were

not give a right of land to any one with-
out our Great Father's permission—as
he has always taken such great care of us.
This was our mind last year; but we
had no opportunity of telling our thoughts
therefore we the Saugeeng Indians do
not consent to sign the agreement made
by the Owen's Sound Indians last year.
Query by T. G. Anderson— Were you not
consulted by the Newash (O. S.) Indians
last year and did you not give your consent
to the agreement then entered into? —
Answer. by their Speaker— When the
Caughnawaga's came here last year, word
was sent to us to come over and meet
them in Council here— We would not
come; but sent back a message for them
to come to us— but they did not do so.—
Question by T. G. A: What are your objections
to signing the agreement now?
Answer by Chief Alexander Aba-twa-ash-
We acknowledge that our Great Father
should rule over us; but we will not
consent that the Albanians should have
any control over our property.
Q. Were you informed of this agreement
last year?
A. by Alexander. Viz— We heard of it.
Q. Why did you not then write a letter &
inform your Great Father of your objec-
tions?
A. We did not know that the writing

was gone, and we thought our Great Father would not do any thing on the subject without sending you first to explain the matter to us.

Q. Have you any other reasons for not signing the Paper (agreement)?

Ch. None: but those already given.—

Q. Do you consider that the Sauguee Tribe have an equal right with the other Tribes (Onen's Sound inclusive) residing on the tract at present to the land granted to the Chippewas?

Ch. We do: It belongs to all the Tribes living on it: it has never been divided in parts to each band.

Q. Have you any objections to give the Chippewas such quantity of land and in such situation as your Great Father may see fit, provided they keep within the bounds of such gift or grant?

Ch. No: we have no objection to give them land in such place as our Great Father may direct.

Q. Have you any thing more to say?

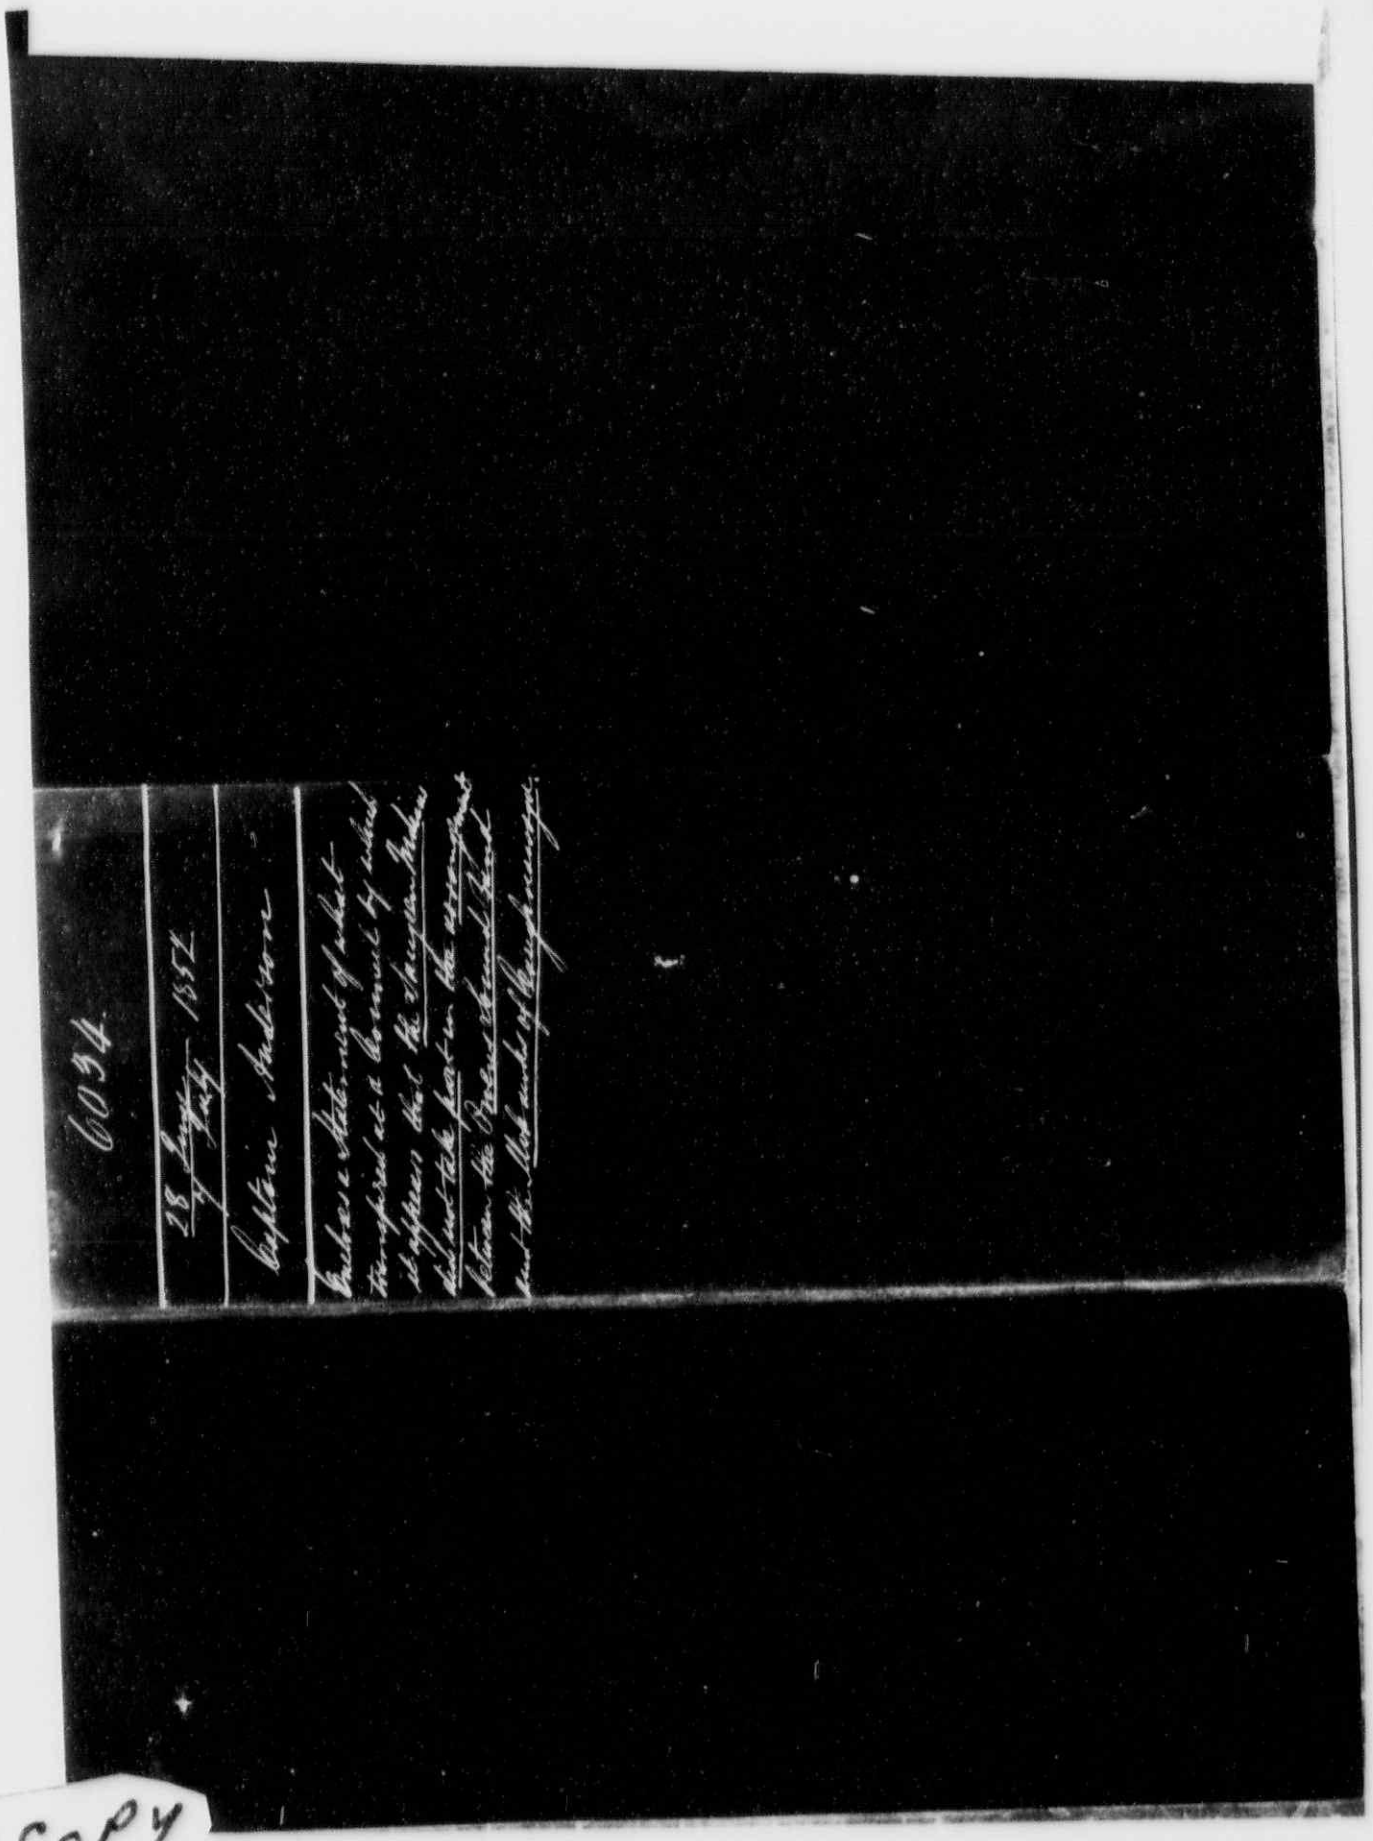

Ch. No: we have done.

Sir,

Indian Department
Quebec 15th Sept. 1853

In the early part of last year the Canghnawaga Indians submitted to this Department a document in which the Sangeen Indians agreed to grant to them a certain tract of land lying to the South of Belleys Bay the Peninsula was originally reserved for the Indians generally and the lands at Canghnawaga are insufficient for the wants of the Tribe His Excellency did not feel disposed to prohibit the partial emigration to the Sangeen Peninsula but he gave his assent on the following terms.

1st That the Settlement should be on the North instead of the South side of Belleys Bay -

2d That the amount of land to be granted to each family should not exceed 100 acres

3d That with respect to Tenants they should be governed by the regulations now in force among the Indians in the settled Districts of Upper

Upper Canada:

4th That they should introduce no white persons on their lands without the permission of the Department

It was not made till recently that any of these Indians had availed themselves of this privilege and no provision therefore was made with regard to their Presents last Autumn I have now received from Colonel Napier the enclosed list of the Indians who have removed from Canghnawaga - You will be pleased to ascertain whether they have conformed to the conditions attached by the Governor General to the Grant and in such case inform them that he will submit their claim for the commutation for their Presents at the rate allowed to the other Indians in Upper Canada last year for His Excellency's consideration to be paid to them in such manner as may appear most convenient

The Petition of the Adjetoua Indians residing upon the Peninsula west of Owen Sound Lake Huron, Most respectfully —

Sheweth- That pursuant to an arrangement entered into between your Petitioners and certain Chiefs of the Camplemaways Indians made in the Fall of the year 1853 Thirty six families of the said tribe of Camplemaways came to and settled upon lands to the North ward of ~~and adjoining~~ the Village of Nawash on Owen Sound; And that they built houses and otherwise improved the said lands so settled upon by them

And that subsequent to such settlement to wit on the first day of this present month of January 1854 your Petitioners were informed by letter (bearing date 20th December 1853) received by them in Council written to the said thirty six families of Camplemaways Indians by the Hon.ble the Superintendant General of Indian affairs, by which said letter, the said Superintendant informs them the said Camplemaways that it is the wish of your Excellency's government that they should leave their said location and remove to the Northern side of Colpoys Bay in accordance with an arrangement heretofore made with the Chiefs of the said Camplemaways, which arrangement was by them at no means understood by the said thirty six families before named, and that they were not aware of the wish of

Sir,

7324 In reply to your letter of the 28th Ult. and that enclosing a Petition to His Excellency the Administrator of the Government from the Saugeen & Owen Sound Indians I am directed to state that the Saugeen Indians of Nottawasaga were deceitfully informed both verbally and in writing that the Govt. would only consent to their settling on the Saugeen Reserve on condition that they should locate themselves to the North of Colpoys Bay. This was done in order to protect the interests of the Indians occupying the Reserve & it seemed extremely probable that it would be for their advantage to sell the Southern portion of it as lands there would increased in value. Commissioner Lord is confident His Excellency in that opinion but is anxious to give effect in some measure to their friendly feelings towards their Saugeen Brethren and will therefore permit the latter to continue in the occupation of their present buildings on condition that if the sale of those lands shall hereafter be determined on they shall have no right to offer any objection but be entitled to receive the price of their Lots respectively not exceeding 100 acres for each family and of the improvements thereon.

EXTRACT FROM REPORT OF PENNEFATHER, TALFOURD AND WORTHINGTON ON THE CHIPPEWAS OF NEWASH.

.....

The numbers of this band are 238. The births and deaths during the year 1856, as given by their Missionary, were respectively 9 and 33. The band is however recruited from time to time by stray members of different tribes; while considered therefore as Chippewas, they reckon among their strength a few Pottawatamies, Ottawas and Iroquois. There are too some individuals adopted from other tribes. The Iroquois who are found here, are some families who have intermarried with the Pottawatamies, and are now incorporated with the Chippewas. They originally formed a portion of a party who came from the Sault St. Louis in Lower Canada, whence they were induced to emigrate some years ago, in consequence of difficulties arising there, and were located in the Saugeen territory by the Earl of Elgin. Finding themselves however from their position there deprived of the services of a Clergyman of their own persuasion, and from other causes, the majority of them returned last year to Caughnawaga and St. Regis, leaving a few of their number as above stated.

Agreement of 9th Feby 1857

No-79.

To all to whom these presents shall come.-

Be it known that whereas Peter Jones Kegedonce, George A. Tabegwun, John Thomas Wabatick, John Snake, Abner Ellito, John Johnson and Charles Keeshick, on the part of the Chippewa Indians residing at Nawash, Owen Sound; and Baptist Beauvin, a Mohawk Indian, residing on the Caughnawaga Tract, on the north shore of Owen Sound, on the part of the three Caughnawaga families who remain locatedon said tract, were appointed by their respective people at a full Council to proceed as a deputation to Toronto, for the purpose of treating with their Father the Governor General for a surrender of the reserve which they respectively occupy.

And whereas the contemplated treaty between the Crown and the said Nawash Indiansfor the surrender of the aforesaid reserve has been this day made and executed, it is deemed by all the parties named desirable that the said Caughnawaga families should also surrender and yield up to the Crown the lands which they occupy in the aforesaid Caughnawaga settlement, and remove to Cape Croker with the Nawash Band, and it is therefore agreed upon by all the contracting parties that the said three Caughnawaga families consisting of fifteen persons, including men, women, and children, shall and hereby do yield up the said three lots, to wit: thirteen, seventeen, and eighteen, to the Crown, for the purpose of being sold in common with other surrendered land, for the benefit of the Chippewa Indians of Nawash, and will remove therefrom when required by the Governor General to do so, and the members of the Nawash Tribe do hereby admit the said Caughnawaga Indians to a full share and participation in all revenues and privileges enjoyed or to be enjoyed by the said Nawash Band.

It is further agreed that the heads of the said three Caughnawaga families, viz: Baptiste Beauvin, Louis Beauvin and Michel Montour shall be entitled to receive out

of the first payment by the purchasers of said land the appraised value of their respective buildings and other improvements, also the further sum of ten pounds per head to each member of their respective families, and on removing to Cape Croker they will be located on twenty-five acre lots in like manner as is agreed upon by the treaty already named. Provided always, that this agreement shall not be held as binding unless the majority of the Nawash Band concur therein, which concurrence or dissent from it is required to be expressed before Richard Carney, Esquire, within one month from this date.

In Testimony Whereof, the parties hereunto affix their hands and seals, at Toronto, this ninth day of February, one thousand eight hundred and fifty-seven.

"in the Surrender made the 5th July 1857"

1882 — The Surrender made provision for a Payment of $10 to each Chippewa — and the Agreement leaving the same clause would entitled to claim a like advantage on each Inquiry — It appears reading over the Surrender no provision is made for allotting more than one hundred & 25 Acres to each Chippewa family: and taking this two documents together I do not see that the Inquiries have a valid claim to any larger quantity of land than 25 Acres for each of the three families, and so the Chippewas themselves are fit to extend the Agreement, and to state when them an additional quantity.

It will appear to a perusal of the Chronicles of the Province of Canada, as found in the Correspondence of Sir Francis Bond Head dated 5th May 1838,

Memorandum:

Relative to the contentions between certain Iroquois families formerly of Caughnawaga who emigrated to the Saugeen Peninsula and who were allowed by the Chippewa Indians of Nawash, who owned the tract, to occupy certain lots. It appears that the influence of the Indian Department, was a number of years since employed to induce the Chipoewas to receive the Iroquois among them; the latter had neither invested funds nor lands intended to be converted into money, to throw into the common purse, and thus acquire a right to stand upon an equal footing with the Chippewas, who were proprietors of a large and valuable tract, just then surveyed, and open for sale. The Chippewas were likewisein the receipt of annuities, amounting to $2932.62 per annum. From this it will be perceived, that the benefits were all on the one side and there is nothing surprising in the fact, that the Chippewas have denounced the Agreement, which I will now describe.

Under date of 19th February, 1857; certain of the Chippewas represented by Peter Jones Kegedonce, and six others, and the three Iroquois families, the heads of which were Baptiste Beauvin, Louis Beauvin and Michel Montour, represented by the first named party, concluded an arrangement, subject to be confirmed, or disallowed by a majority of the band within one month from its date.- Its ratification was shown, as required to have taken place by letter from Richard Carney, Esq., of 6th March, 1857. By this agreement the Chippewas consented that each of the three Iroquois families should, in lieu, of lots Nos. 13, 17 & 18 in t the Caughnawaga range in the Township of Keppel, on which they had been allowed to settle, receive a location of 25 acres on the Chippewas Reserve at Cape Croker and that they should be paid the appraised

value of their buildings and other improvements in the said lots and that to each of the fifteen persons, of which the three families consisted, a payment of ten pounds per head should be made. The agreement further specifies that "the Nawash tribe do hereby admit the said Caughnawaga to a full share and participation in all revenues and privileges enjoyed or to be enjoyed by the said Nawash Band"

The complaint made by letter of 22nd August last, signed by Louis Beauvin and Michel Mohtour, is that they have been refused participation in the Annuity monies, that they were given to understand that the locations of 25 acres each, which they occupy, are only held on sufferance; and they combine with the urgent desire that they may be protected in their rights, the expression of a hope that to each of their young men as they grow up, locations of 25 acres may be allotted.-

On reference to the sales books and accounts it seems that the whole sum paid (but at various periods)of improvements on lots Nos. 17 & 18 amounts to $330 and which has been paid over for the benefit of Baptiste Beauvin and Louis Beauvin•The sum of $118 for improvements on lot No. 13 was also received from the purchaser of that lot, and it is assumed that previously to its being collected , an equivalent sum was paid to Montour. It is concluded that further payments at the rate of £10 pounds per head were made to the 15 persons described in the agreement, for on the 5th January, 1858, a Warrant issued for $5,060 to pay the Nawash Band the balance"of $40.00 each as was stipulated in the surrender made the 9th February, 1857."

No. 82,-- This surrender made provision for a payment

of ten pounds to each Chippewa,-- and the agreement bearing the same date was evidently intended to confer a like advantage on each Iroquois.-- Upon reading over the surrender it appears no provision is made for allotting more than one location of 25 acres to each Chippewa family; and taking the two documents together I do not see that the Iroquois have a valid claim to any larger quantity of land than 25 acres for each of the three families, unless the Chippewas themselves see fit to extend the agreement, and bestow upon them an additional quantity.

With regard to a participation in the Annuities and other Revenues a Memorandum is found in the correspondence books under date 5th May, 1858, to which the name of Superintendent Pennefather is affixed, instructing Capt. Anderson, Superintendent Bartlett's predecessor, "to let the Caughnawaga Indians share alike with the Nawash band both in the Annuity and Interest money". And in a pay list received from Mr. Bartlett dated 30th September, 1859, the following appears as intended payments:

Michael Montour or (Montoure)	$82.17
Baptiste Beauvin	36.52
Louis Beauvin	36.52.

And to it is attached a Memo in which Mr. Bartlett states that he was unable to pay them as they have left the band.

It is desirable to call attention to the portion of the agreement, dated 9th February, 1857, which relates to their becoming resident at Cape Croker, and which is in these words "And on removing to Cape Croker they will be located on 25 acre lots" &c. Contingent accordingly upon their removal to the Cape Croker reserve was to be their participation in the Revenues of the Chippewas of Nawash, who themselves left Nawash to form an Indian settlement at Cape Croker.

It will be persumed that the Visiting Superintendent had placed them on the pay list which he had prepared, and that it was their absence from the settlement alone which prevented their sharing with the Chippewas their monies.--

It is in view of the whole case proposed to instruct Superintendent Bartlett to ascertain whether the three Iroquois families in question now reside upon the reserve or any of them. And that in the event of any of the fifteen members of these families for which the agreement alluded to made provision, be resident there, that he allot to them on his visit in the coming month of April, such proportion of the Annuity and Interest monies for their respective shares as the past Autumn and the coming spring payments would amount to.

In reply to your note of the 12th inst.

The Provincial and Michael Newton left the Six Nation Reserve for Cape Crocker (Owen Sound) in 1863 or 64, and are supposed to be still there.

They were improperly placed on the census list of the Six Nations in 1861, but shortly afterwards, erased by the Council and refused a share of monies.

I beg to forward You a Protest of the Indians here against the Contemplated admission of Mohawks & the Government. Which please Send to Head Quarters With Remarks Conformity the Statements therein made.

I at the Same time take the opportunity to inform You, that the Mohawks on hearing that the Chippawas were opposing their adoption, they were very angry and abused

abused some members of the Band by using very violent language and went as far as to say that they would rouse their friends at Caughnawaga to arms & make a descent on the Chippawas and annihilate them. they rally around Peter J Regidence and at his house made demonstrations of indignation very much to their discredit, thus Band very properly taking no notice of them after 3 or 4 days preparations they left for Owen Sound, having sold a few things they had here.

Louis Beauvais told me before 3 or four Cape Indians that the last letter you received from the Department which made allusions to the enquiry of their Constantly being here, is a forgery got up by yourself to prevent them getting their rights

I merely put these things down to let you know what kind of people they are. and what trouble they will make here. in making charges without proofs— They feel more civilized than the Cape Indians and look down upon them—

Sir

It having been intimated to us by our local Supt. W. Bartlett that the Indian Department at Ottawa Contemplate readmitting into the Cape Crocker Band against our Consent three families of mohawk Indians who several years ago left this Band and went to reside at Grand River.

We the Cape Crocker Indians having Called a Council for the express purpose of Considering and protesting against it have decided by a majority of 60 to 6 to utter this our Strong and Solemn Protest against such a measure.

Those Indians were once from a motive of Charity admitted into the Band on Condition that they would become permenant residents, but they treated the gift with Contempt. having Sold their improvements & Chattels went in search of better terms and better land amongst their own nation below—

When they left this Band they did so voluntarily and took up farms at the Grand River, which we believe after a short time they abandoned, they then Came here and wanted to make a new arrangement. which this Band declined to entertain but did not resist their Cultivating the land— they have never resided here, but have lived in Owen Sound and other places., merely Came here for a few days in the Spring to put in a Crop then went away and in the fall to gather up what happened not to be destroyed and Carried it away.

We deny that they have any right to say having put nothing into the funds of the and must again Send this Protest to

Sir,

Refering to the letters of the Hon. the Secretary of State of the 2nd March & 18th of April last - I have the honor to report that, under the instructions conveyed in the latter Communication, requiring the date of the return to Cape Croker of the three Caughnawaga families of Mohawk Indians - namely - Baptiste Bovie - Louis Bovie his son, and Michell Montour - I made enquiry of the Indians on that Reserve, who replied that they had never resided there - They had lived on Owen Sound and Brooke the greater part of the time since they left the Grand River

River - and had been apessed and had voted as residents.

A Merchant & Magistrate named Creighton of Owen Sound verified this statement as regarded the Bovies who had voted for him when a Candidate for Member of the Corporation of that Town - I was also told that the Bovies had lived in Sarapoxa two Years or Years.

The Indians further informed me that these Canchuawayas merely visited Cape Croker for a few days in the Spring to do a little planting - went away and returned in the fall to gather up and take away what was left.

The following appear to be the Improvements

Louis Bovie has from 5 to 10 acres - cleared & partly cultivated - a small log house - with Bark Roof.

Baptiste Bovie - (now deceased) about the same Quantity cleared & partly cultivated Board Shanty.

Michel Mentour - has a small Log house - Bark roof - and from 8 to 10 acres cleared & partly cultivated - Most of this clearance was made by the fire going through it.

On obtaining the foregoing information in regard to improvements and residence of these Indians, I stated the views of the Department and lead to the Cape Croker Indians the letter first alluded to from the Honble Mr Howe -

After the Annuity had been distributed, a Council was called to consider the matter which was fully attended - The Indians appeared very angry at the Department for proposing to readmit the Canghnawagas against the almost unanimous decision of the Cape Croker Indians - Their Council lasted till midnight - and on the following day the Interpreter

I did not remain in the Council longer than to read the letters, as the proceedings were conducted in the Ojibway language.

At this Council a vote was taken of 60 to 6 against their proposed roadmaking - and by the same vote, it was agreed to pay the Canghnawagas for their improvements.

The latter Indians were present at the Council.

On account of the wide difference of the Estimate of the valuators of the Mohawks improvements it was necessary to call a third person to decide the Case, as there was probability of no decision being arrived at if that arrangement had not been made— Mr Alex McNabb having acted as that third part, that his Services should be paid at the rate of the other Valuators —
The Assistance of Mr McNab in the Settlement of the matter has been most valuable, he being Surveyor the extent of the lot forthwith arrived at—

Dear Sir,

I hereby enclose you the valuators papers, with the Amounts awarded - also the bill of Charges for the Expenses.

I think that all parties seem satisfied with the different amounts.

I Engaged Wm Johnstone on the part of the Department - and John Pearson on the part of Louis Bourie & Co - -

Pierson being the party they chose and finding how things were likely to work I not only went myself, but took upon me to take McNab for the third party, and by doing so a saving of $ 186 was made, I therefore take there will be no objection made about his pay.

The Indians had a Council last week and decided that Louis Claire and I. Jacobs should be paid for their improvements at the same time. and their improvements are put in along with Michel Montour's, but if you would rather send each one a check for the several Amounts, I will give you a Memorandum of Separate Amounts - or if you were to send the whole Amounts in a cheque to Myself I would divide their several Amounts.

The Indians here want you to insert in the different receipts - "in full of all improvements

I think the Band has no objection to pay the wholeof the Expenses, in fact they expect to pay the Charges, and the other parties will be more satisfied.

They request that the payment will be made as soon as possible -

I made the Bill of Expenses in my name at the parties request as they all look to me for the pay., and I will give each party their several amounts on receipt of the same.

I told them it might be two or three Weeks, and I hope that all parties will be satisfied with the part I have taken - as I did the best I Could in the whole matter.

The Band request that Claire & Jacobs be paid at same time -

You can make the Receipts for them Separate.

Sir,

In compliance with the instructions contained in Your letter of the 27th ultimo, I have now the honor to report, that I at once made arrangements for having the Improvements made by the Caughnawaga Indians in the Cape Croker Reserve - valued.

I had secured the services of George O. Creighton Esq., a Magistrate of Owen Sound, to appoint an Arbitrator on behalf of the Department, to act with the Arbitrator named by the Indians. Mr Creighton deemed it right to go himself (I think very properly) - and to take a third party Mr Archy McNab - a surveyor - who defined the lots and acted as an Arbitrator as well -

I quite approve of what Mr Creighton has done in the matter and hope it will be satisfactory to the Department.

I respectfully submit that Mr Creighton should be paid the same as the Arbitrators for his services.. namely $10.

There are two other Mohawk families, besides the 3 first named namely L. Claire & I. Jacobs, who had each made improvements on lots at Cape Croker - they are either friends or relations of the Bouvie family, who brought them to the Reserve. I did not include these Indians in my instructions to Mr Creighton, but it appears that the Cape Croker Indians wish these two families to be paid for their improvements also, and

So

so get rid of all the Mohawks from the Reserve.

The arbitrators accordingly valued their improvements also. I think the Cape Croker Indians have done right in their wish to pay them.

The Indians ask that a separate receipt be taken from each Indian family stating that this payment is to be in full of all improvements made now or hereafter on their respective lots on the Cape Croker Reserve.

I enclose all the papers & letters having reference to the matter as well as the account of Expenses attending the Arbitration, which Amounts to ——— $40.25

and I would add - to pay Mr Creighton's services ——— 10.00

Cape Croker, Sept. 22nd. 1910.

To Nawash Band.

Dear Sirs:-

We the undersigned are members of Caughnawaga Reserve, Que. and desire to return to this Reserve to which we formally belonged and enjoy all the prevelleges we then enjoyed when we were here, for we drew interest money for 6 or 7 years as we were full members here.

We were members here when you were in Owens Sound. we lived and farmed here till we left which was about 42 years ago.

Caughnawaga Reserve is only 6 miles sq. and there are between 4+5 000 people living in it. You will readily see it is very crowded. Having known this place and lived in it, we love the people here, we desire to stay in an Indian Reserve because we love and are loyal to our Indian Race.

We therefore humbly pray you people that you may accept us and become full members of this Reserve again and enjoy all the previlleges as your people here.

Your Very Sincerely

Thos. A. Morris.

Sir:-

I am in receipt of your letter of the 3rd instant, with which you forwarded a communication dated the 22nd ultimo and signed by 11 persons by the name of Morris, and four persons of the name of Bauvies, who state that they at one time belonged to the Chippewa Band at Cape Croker, and who ask to be restored into membership with that Band; and in reply I have to inform you that the Department has examined the Cape Croker pay-lists from 1864 to 1870 and has found no trace therin of the names of the persons mentioned. Under the circumstances, the Department's advice to the Council of the Band is to refuse to accept these persons into membership with the said Band.

INDIANS COMING INTO PROPERTY AFTER 60 YEARS

Caughnawaga Tribes Owners of Sydenham Tract NoW Worth Thousands

RIGHTFUL CLAIMANTS SOUGHT BY DEP'T

Refusal of Ancestors to Sell May Make Several Families Wealthy

A nice little plum has been ripening on the government tree for a good many years, and lo, none but the poor Indian must pluck it.

Be it known that Caughnawaga Indian Reserve is of comparatively modern date, and the region to-[illegible] lishment the tribes now quartered there lived on a reserve at Sydenham, County of Grey. As far back at 1856 the Province of Ontario, looking upon the land and finding it good, purchased all rights from the Indians with the exception of one fine tract of three hundred acres, for which negotiations could not be closed. This was owned and occupied by three different families and their heirs are still the owners of the property, which has become very valuable.

Through the Indian department at Ottawa information as to the descendants of the original owners has now been sought and departmental agents are at Caughnawaga endeavoring to trace the lineage of the rightful claimants.

The prospect of sharing in the division of some of the white man's money has caused no little excitement at the Reserve, although it is likely the money will be split 'into' many 'different portions if the deal goes through.

Madam,-

I beg to acknowledge the receipt of your letter of the 18th instant, inclosing a copy of the agreement between the Nawash Band and Caughnawaga Indians, dated the 9th of February, 1857, and in reply to say that the original of this document is of record in the Department. In connection with the claim made by the Bovies and Montour, as to compensation for improvements on lands in Sarawak, I beg to say that the matter has been fully looked into and the Department considers that these parties have been fully compensated for any claim in regard to improvements on the Sarawak lands. I may say that some years ago Louis Bovie for himself and his mother's family, the late Baptiste Bovie, and Michel Montour, signed an agreement to accept the improvement money for lands on the Cape Croker reserve and give up any further claim against the Cape Croker Indians upon payment for said improvements. In accordance with this arrangement, these parties were compensated in full for their improvements and ceased, therefore, to have any claim against the Cape Croker Indians.

I may say that the Department is satisfied that the conditions of this agreement were fully carried out, and that the parties in question have no claim whatever under

Memorandum.

Mrs Annie Morris and Mrs James Diabbout of Caughnawaga called at the Dept. to-day and laid a claim on behalf of the descendants of the late Louis Beauvais, John Beauvais and Michel Montour, to arrears of annuities as members of the Cape Croker band during the years of 1869 and 1872. Mrs Morris states that after the surrender of the Saranac lands, her father, the late Louis Beauvais, and his father, John Beauvais and an Michel Montour, was adopted as member of the Cape Croker band & removed to Cape Croker with the rest of the Indians. Chiefswomen of Nanash, from Saranac, and participated in the annuity payments for 3 years. During the summer of 1860, these 3 Caughnawaga families, Beauvais & Montour, went to Six Nation Res and remained there for 3 years, while at Six Nations they received their share of annuity moneys as members of the Chiefswomen of Nanash. On their return to Cape Croker Supt. Bartlett refused for some unknown reason to pay these 3 families. They continued to reside on the reserve until 1872 when they returned to

to Caughnawaga and were paid for the improvements made by them on their respective improvements. About 5 years after leaving Capt Croker a certain lawyer - A in Orbensound, whose name she (Mrs Morris) cannot remember, succeeded almost in securing the arrears of money paid over to Beauvais, but was not carried out owing to dispute having arisen between Beauvais & Mondion as to their respective shares.

She states that shortly after their families returned from Six nations when they were refused their annuities & kept Bartlett, Louis Beauvais, came to the Dept and were told that their names were to continue to remain on the pay lists of the Chippewas of Nawash. She believes that there must be a record in the Dept advising Keph Bartlett of this decision.

When Mrs Morris was informed of the agreement on file regarding her father's relinquishment of all claim against the Capt Croker band when he received payment for his improvements in 1872 stated that that did not cover arrears of annuity; but related only to land and residence.

Sir/

Mrs. Thomas Morris (nee Beauvais) of Caughnawaga, Quebec, has asked me to take up with your Department on behalf of herself and the descendants of certain Indians, described as " Caughnawaga Indians", in an Agreement made in I857;their claim to obtain a share of the annuities and arrears of the same, or interest moneys,of the Cape Croker Indians, and for other relief,which I cannot just now set out here, for lack of definite information, but which from the communication before me, they stremuously assert.

The matter would seem to be based on the position of the Indians known as the " Caughnawaga Indians", in the Agreement or Treaty of 9th. February, I857. This statement of mine may be modified as the result of the documents I am going to ask you to furnish me, but broadly, I think this would seem to be correct. Anyway, at present, I have only to advise, and not contend. The Department may understand.

I have before me two letters from your Department (Sept. 23rd. I9I3, 425,603, and Oct. 4th. I9I5 245,602);also what is said to be a copy of an Agreement made February 9th. I857, between the Nawash and Caughnawaga Indians, in Mr. Chesley's presence. Also, some correspondence in I9I3, between the Cape Croker Indians and Mrs. Morris regarding the matter, from which it would appear the Croker people acknowledged the claim of Mrs. Morris et al.

I note the Department takes the position these people have no claim in the premises, but on the information before me, feel unable to come to any independent conclusion. It would seem the Department takes the view that an agreement entered into some years ago by Louis Beauvais has disposed of any claim these people might have in connection with the matter. I know nothing about this, but would thank the Department would it favour me with a copy of this Agreement, apparently made in the year I872 (245,602) with the names of the parties signing the same.

Possibly, this would enable me to fully advise my client, though I may have to ask further information.

I trust the Department will consider this a reasonable request.

Respectfully

Sir/

I duly received your communication of November 24th. 1915, file 425,602, regarding the claim of Mrs. Thomas Morris (nee Beauvais) and others of the Caughnawaga Indians, enclosing me copy of the original agreement between the Nawash Band and the Caughnawaga Indians, on which you state these people base their claim" for compensation for improvements on lands in Sarawak": also copy of a letter which the Department addressed Mrs. Morris on this matter under date of 23rd. September, 1913, and you state the Department has looked very carefully into the matter and considers the parties interested have been fully compensated for any claim which they have had for improvements on the said lands.

Possibly my letter to you of November 17th. 1915 on the subject of these peoples' claim did not make the matter as clear as it should be made, though I mentioned to you there, I might have to modify the statements made as the result of the documents I proposed to ask you to furnish me.

I made no claim in my letter for " compensation for improvements". If you will look further at it, you will see claimants desire to " obtain a share of the annuities and arrears of the same, or interest moneys of the Cape Croker Indians, and for other relief".

This phase of the subject would seem to have been considered when the Department wrote my client on October 4th. 1915 245,602) that Mrs. Morris was a descendant of the late Louis Beauvais, and as he and other Indians signed an agreement in 1872 to accept improvement money in satisfaction of their claim against the Band and received payment this cancelled their claim and consequently Mrs. Morris as Bauvin's descendant, was not entitled to any further payment.

Indian Affairs. (RG 10, Volume 3173, File 425,602)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES

Louis Beauvais was the father of Mrs. Morris,and signed the agreement of 1872,apparently " for himself,his late Mother's family,the late Baptiste". He says nothing about signing for his own family. Whether he had any family of his own at this time,how old they were,and his right to sign away their interets,remains still to be ascertained.

The whole matter involves the consideration of a number of old agreements bearing on the subject running back over a period of over sixty years; a consideration of the position of the claimants or their ancestors at that time;and, a careful investigation into the results of the documents in question as subsequently affecting or altering the relations of the claimants or their ancestors,with your Department or the Cape Croker Indians. I regret the lack of material in my possession to properly from this point of view,bring the contention of my clients before your Department.

The difficulty of satisfactorily dealing with the case is accentuated by the informal nature of the alleged agreement of June 15th. 1872,under which these people are said to have given up their right to share in the annuity or interest moneys of the Cape Croker Band,and which apparently was prepared by the local Indian Agent for the time being. It may be noted this document is absolutely silent on the subject of annuity or interest money. What was the position then, before or after these changed circumstances, I am unable to state.

Having in mind the foregoing,and taking advantage of the fragmentary material before me, doubtless to be supplemented from the files of the Department, it would appear that in 1857, the then administration of Indian Affairs was convinced it would be in the interests of the Indians concerned, to obtain a surrender from them of a large tract of land,comprising some 10,000 acres, and that negotiations for this purpose were accordingly instituted between the Province of Canada,and the Indians recognized as occupying the territory involved.

Reference may be here made to the following documents,-

Surrender of the Saugeen Peninsula, No. 72,dated Oct. I3th. I854. See Indian Treaties &c. Vol. I P.,I95.

Agreement, Feby. 9th. I857. No. 79. P. 208 do.

Surrender, Feby. 9th. I857. No. 82. P. 2I3 do.

The first above mentioned (No. 72) surrendered to the Crown the Saugeen Peninsula and the Owen Sound Indian Reserve,with certain reservations,which need not be ~~stated~~ noted except,-

"2nd. We reserve for the benefit of the Owen Sound Indians all that tract bounded &c. &c. x x x x x x extending to the Southern limit of the Caughnawaga settlement x x x x x x all which reserves we hereby retain to ourselves and our children in perpetuity,and it is agreed that the interest of the principal sum arising out of the sale of our lands be regularly paid to them so long as there are Indians left to represent our Tribe without diminution, at half yearly periods".

This agreement, with minor changes, was ratified by the Governor General in Council, on February 3rd. I855.

It will be noted, the lands affected ran to, but did not include the Caughnawaga settlement.

The next two documents to be dealt with are, Nos. 79 and 82 above referred to, and require examination.

Their dates are concurrent (February 9th. I857) and there was a reason for the fact of the two instruments.

No. 82 recites,-

" Whereas we and our people x x x x x forseeing the great benefits that we and our posterity are likely to derive from the Surrender of a large portion of our Reserve x x x in the year, I854, we have after mature consideration,in several full Councils held at our village of Newash,arrived at the conclusion that it will be to our advantage, to place at the disposal of our Father the Governor General, the land upon which we now reside, commonly known as the Newash or Owen Sound Reserve, in order that he may cause the same to be sold for our benefit. Be it therefore known that we x x x x x on behalf of our said Tribe do hereby surrender x x x x all and singular that certain parce

Concessions of the Township of Keppel and the Southerly boundary of the lands lately occupied by the Caughnawaga Indians x x x x x to have and to hold the said lands x xx to the intent and purpose that Her said Majesty x x x x may sell and dispose of the same for the sole use and benefit and behoof of us,the aforesaid Newash Band of Indians and our posterity forever,subject however x x x also to the following conditions,-

1st. That as soon as the above named reserve shall be sold and we are required to remove from it, there shall be assigned to each Indian family,constituted as such before the year 1860, a lot of 25 acres,surveyed for the purpose,in our reserve at Cape Croker x x x x .

2nd. That the sum of One thousand pounds, shall be advanced from the proceeds of the first sale of the aforesaid tract, for the erection of frame dwelling houses at Cape Croker, of dimensions similar to those we now occupy at Newash, to be built under the direction of the Indian Department,and that afterwards from three to five houses shall be erected annually at said place until each individual having a right to a house shall be supplied,the expense of these last to be borne from our annuity or interest funds.

3rd. That each individual of the Tribe now participating in our annuity, shall receive Ten pounds from the proceeds of the first instalment paid on the land to be sold x x ."

This Surrender was accepted in its entirety, by His Excellency the Governor General in Council, on February 18th. 1857.

document from which I make extracts as follows,-

" Be it known that whereas Peter Jones Kegedonce x x x x on the part of the Chippewa Indians residing at Nawash, Owen Sound; and Baptist Beauvin, a Mohawk Indian residing on the Caughnawaga Tract on the North shore of Owen Sound, on the part of the three Caughnawaga families who remain located on said Tract, were appointed by their respective people at a full Council to proceed as a deputation to Toronto, for the purpose of treating with their father the Governor General for a Surrender of the Reserve which they respectively occupy. And whereas the contemplated treaty between the Crown and the said Nawash Indians for the surrender of the aforesaid Reserve has been this day made and executed, it is deemed by all the parties named desirable that the said Caughnawaga families should also surrender and yield up to the Crown the lands which they occupy in the aforesaid Caughnawaga settlement, and remove to Cape Croker with the Nawash Band, and it is therefore agreed upon by all the contracting parties that the said three Caughnawaga families consisting of fifteen persons, including men, women and children, shall and do hereby yield up the said three lots, to wit, I3, I7 and I8 to the Crown, for the purpose of being sold in common with other surrendered land, for the benefit of the Chippewa Indians of Nawash, and will remove therefrom when required by the Governor General to do so, and the members of the Nawash Band do hereby admit the said Caughnawaga Indians to a full share and participation in all revenues and privileges enjoyed or to be enjoyed by the said Nawash Band".

It is further agreed that the heads of the three Caughnawaga families, viz. Baptist Beauvin, Louis Beauvin and Michel Montour, shall be entitled to receive out of the first payment by the purchasers of said land, the appraised value of their respective buildings and other improvements, also the sum of Ten pounds per head to each member of their respective families, and on removing to Cape Croker they will be located on 25 acre lots, in like manner as is agreed upon by the Treaty already named. ment shall not be held as binding unless the majority of the Nawash Band concur therein,which concurrence, or dissent from it, is required to be expressed before Richard Carney Esq. within one month from this date.

From a perusal of these documents, certain salient facts stand out.

I/ The Crown wished a surrender of the lands.

2/ The Caughnawaga families were in possession of a portion of the tract,and the Crown recognized this as well as the Indians,and wished to procure a surrender as well, of the Caughnawaga lands. The Treaty was only " contemplated", and not entered into, till the Agreement with the Caughnawagas was completed.

3/ Till the supplementary agreement of February 9th. I857,no attempt was made to deal with the Caughnawaga lands.

4/ Each Chippewa family was to receive 25 acres on the Croker Reserve, have a dwelling house erected, and each individual was to receive Ten pounds from the first instalment of purchase money paid. The Caughnawaga families were to receive exactly similar treatment,except that they were to " receive out of the first payment by the purchasers of said land the appraised value of their buildings and other improvements",referring undoubtedly to those abandoned on the lands surrendered.

5/ All, after the date of the Surrender were to share equally " in all revenues and privileges enjoyed or to be enjoyed by the said Nawash Band". The houses of the Caughnawagas on the Croker Reserve, were as were the houses of the other Indians, paid for out of " our annuity or interest funds".

6/ The Caughnawagas gave up their lands and removed to Croker, in consequence of the supplementary Agreement, and the notification they received under it, to so remove.

7/ There is no evidence, one way or the other that I have,of approval or dissent, by the Nawash Band, of the Agreement No. 79, but it was approved of by Mr. Pennefather, Superintendent General, and acted on for years.

For fifteen years, subsequently to I857, the above condition of affairs would seem to have prevailed. The Beauvais family merged with the Nawash Band,dwelled there, occupied lands there of which they were the recognized owners,and shared in the annual or semi-annual,distributions of annuity and interest moneys.

Then the letter of June I5th. I872, which as I have pointed out is extremely vague in its terms,and is absolutely silent with regard to annuity and interest money, was drawn up by the Indian Agent, and signed by Louis Beauvais, for himself his Mother's family,the late Baptist;by Baptist Beauvin and Michel Montour;whereby these

parties agreed " to accept the improvement money and give up any further claims upon the Cape Croker Indians".

The circumstances attending the execution of this document are not before me,but it would seem an extraordinary thing if these people under the circumstances above referred to should for the sake of the few dollars obtainable for their improvements, give up all their rights present or future, as members of the Croker Band. If, transferring to another Band, they might have asked for a transfer of their share of the Capital. This Capital was derived as equally,from the sale of the Caughnawaga lands, as from the Chippewa lands. The consideration would be so grossly inadequate that it much strengthens the contention of the claimants, that there was no intention of giving up more than their improvements,when the alleged release was signed.

Then, what legal right had the parties to the letter of 1872, to sign away the rights of claimants? I know of no method by which they could sacrifice the shares of minor children for instance,born as members of the Band,and entitled to share equally in its property, except in the usual manner, now provided for by the Indian Act,which simply puts into,Statute form the immemorial custom of dealing by the Crown, with an Indian Band surrendering its rights. I would reserve the right to deal further with this phase of the matter, should any argument be needed in support of the statement,but it seems to me elemental. When these children came of age,should the Department still adhere to the view that the document of 1872 deprived the signatories, or their descendants, of further right to share in the annuity or interest moneys of the Band, I say the minor children who did not sign it,and could not bind themselves, should have been requested by the Indian Department to execute a proper release.

My instructions are that the people known in this connection as " the Caughnawaga Indians", or their descendants, have never abandoned or ceased to press their claim to share in the funds of the Chippewas at Cape Croker.

From letters before me from the Croker Indians, it would seem these latter are quite willing, that the Caughnawaga Indians, should so share.

As to what measure of relief, if any, the Caughnawagas should obtain, I am in no position to state. I do not in any way insist they have made out an indubitable claim for any relief. I do urge their claim requires the most careful further examination and investigation.

Whether the Croker Indians had any portion of the funds payable under the Robinson Treaty of 1850,or whether the " Caughnawaga Indians are, on account of their residence and local occupation in 1850, entitled as such to share in any particular fund, I cannot say.

I would ask the Indian Department to direct that a careful investigation be made into the whole facts regarding the case,and that the claimants be afforded an oppoftunity of being represented by Counsel at such, should the same be held,as they may be advised.

re Claim of Mrs. Thomas Merris, on behalf of Caughnawaga Indians formerly settled at Sarawak Township.

. Extract from report of R. T. Pennefather, Supt. General Indian Affairs to H. E. Sir E. T. Head, Governor General &c. dated at Indian Department, Toronto, 24th. Nov. /56. See Appendix No. I to same dated 20th. Nov. /56.

" The Caughnawag tract, situated very advantageously on the Owen Sound Bay, the surrender of which was only obtained from the Indians during the progress of the late sale, though samll is reported to be good land. Instructions had been forwarded to me, by direction of H. E. the Governor General, to offer the same at the first sale, but having got through all the land, and closed the auction two days before these instructions reached me, and the people having nearly all dispersed and left for their homes, many of whom had been waiting for this land, I felt that I could not in justice to the Department, and without causing much dissatisfaction, carry out that order. This tract will therefore remain to be offered at another sale".

sd. W. R. Bartlett
Agent for sale

In the report of Mr. Pennefather, to H. E. dated 28th. December, 1857, he attaches the reoprt of Mr. Bartlett, Agent for sale, dated 19th. December, 1857, on the last sales of the lands referred to, from which it appears,- Of the Caughnawaga tract- 1599 acres were sold for $8,398.70, which apparently embraced the whole Caughnawaga tract, as no lands are returned therein as being unsold.

By return No. 5 to this same report of Mr. Bartlett, the whole of this money is shown to have gone to the Nawash Band.

I cannot find any trace in the material I have before me, as to what disposition was made of further instalments paid on account of the Caughnawaga tract.

London, August 26th. /16.

From an incomplete unsigned statement, apparently a report of a visit paid the Indian Department some years after this, when the Caughnawagas apparently were seeking some indemnification or relief on account of their losse f these lands, it would appear that Baptist Beauvais only originally received $115.00 compensation, Tom. Williams $75.00, Louis Beauvais $130.00. The amount received by Michael Monteur (if any) is not stated.

With further reference to my letter to you of August 7th. in the case of Mrs. Thomas Merris (425,602) as I have received no reply, I presume the matter is still under consideration by the Department. Since writing this letter I have come across the information of which I have made a note on the enclosed slip. I fancy it has a good deal of bearing on the question of wether the Caughnawaga families ever received adequate compensation from the Nawash Band, when they surrendered their tract in Sarawak.

My dear Scott:-

An old Indian named Montour, of Caughnawaga, tells me a lawyer has been collecting, and is continuing to collect, money from the descendants of three Indian families, (one of whom is named Montour, and is this man's father,) about their share in about $8400 now in the funds of the Nawash Band, and which was the price of a tract of land sold in 1857, and on which the three families were then settled, and which they subsequently left. ~~therefrom.~~ This lawyer appears to have had the matter in hand for a long time, and wants all the descendants to send him sums of money for his expenses and searches, and already has had $25.00 cash and wants $25.00 more from the single Indian in question.

It seems to me that I would rather know more about the matter directly from the Department before advising Montour whether to contribute more money or not. Perhaps you or one of your staff might be able to throw light upon the situation, and I hope it is not troubling you too much to at least send

Dear Mr. Lighthall,-

I have your note of the 9th of January. I think the lawyer whom you mention as having been interested in collecting money from some Caughnawaga Indians is Mr. A. G. Chisholm, of London, Ont. Mr. Chisholm makes a specialty of Indian claims and some of them are pretty far fetched; I think this one may be placed in that category.

In Lord Elgin's time he arranged that a few Caughnawaga Indian families should go to what is known as the Saugeen tract, which is now in the County of Bruce. The Indians stayed there for some time and were associated with an Indian band known as the Chippewas of Newash, but gradually they wandered back to Caughnawaga, and those who were the last vestige of the little settlement disappeared in 1872 when the few families of Indians were paid for their improvements on the land.

Mr. Chisholm is endeavouring to establish that

these Caughnawaga Indians have some claim on the funds and lands of the Chippewas of Newash. We will not do the Chippewas of Newash the injustice of indulging Mr. Chisholm in any of these fancies, and I think it would be an absolute waste of money for any Caughnawaga Indian to pay him anything. Of course, this will interfere with Mr. Chisholm's livelihood, a portion of which is extracted from the ignorance or credulity of Indians, but I do not know that we ought to give much weight to that point.

Wishing you the Compliments of the Season, I remain,

JAN 1917

J. D. McLean Esq.

Assistant Deputy and Secretary Indian Department

Ottawa Ont.

Sir/ 425602

I have your communication of the 20th. instant, numbered above, in which you state with reference to my letter of the 7th. August last and correspondence relating to a supposed claim of some Caughnawaga Indians upon the funds or lands of the Cape Croker Band:the matter will not be considered by your Department, as it cannot be held these Indians have any valid claim, and that I need not therefore, pursue the matter further.

In reply I have to state that the above deliverance may be oracular, but it is scarcely convincing, and certainly not satisfactory to either myself or my clients.

Under a Surrender made to the Crown on behalf of the three Caughnawaga families interested, dated the 9th. February, 1857,and accepted by the Government, certain lands known as the " Caughnawaga tract", were surrendered for the purpose of sale, - " of being sold in common with other surrendered land for the benefit of the Chippewa Indians of Nawash", and the Caughnawags were to " remove therefrom when required by the Governor General to do so, and the members of the Nawash Tribe do hereby admit the said Caughnawaga Indians to a full share and participation in all revenues and privileges enjoyed or to be enjoyed by the said Nawash Band". ---- "Provided always, that this agreement shall not be held as binding unless the majority of the Nawash Band concur therein".

Under this Surrender the Caughnawaga tract was sold for the sum of $8,398.70(see report of 19th. December,1857) and by Return No. 5 attached to Mr. Pennefather's report of 28th. December,1857, the whole of this sum is shown to have been placed to the credit of the Nawash Band, who still enjoy the money.

The Nawash Band never consented to receive the Caughnawagas as members, and after some fifteen years jangling about the matter during which the Caughnawagas only received three payments of interest, they left the Nawash settlement and went to Caughnawaga receiving $310.00 for some improvements they had at Nawash, and although they have continually asserted their claims since, have never received one cent benefit from their moneys still remaining with the Nawash Band.

D. McL. Secy. &c. 2

The Caughnawaga families have never released their claims for these moneys. If they have not received the principal, they certainly should have participated in the distributions of interest all these years. They have got neither principal or interest, and the Croker Indians have got their money and have enjoyed the same since 1857.

There can be no question about the correctness of the above facts and therefore the claim of these people for relief, I submit most respectfully, cannot be dismissed in the casual way you treat the ~~xxxx~~ same in your letter which I have just received. I shall therefore have to press the Department to furnish me with some convincing answer to these allegations, or else enable the claimants to prove their case at some investigation held for the purpose.

I have to acknowledge the receipt of your letter of the 24th. instant (425602) again refusing to give any reason why the claims of certain Caughnawaga Indians for relief against the Cape Croker Indians, will not receive any consideration from your Department.

Dear Mr. Morris/

I hope some of these days you will be able to get in touch with Dr. Roche and have him order an investigation into the claim of Mrs. Thomas Morris and other heirs, of Caughnawaga against the Cape Croker Indians.

As I explained, we are willing to submit the matter to any independent perty appointed by the Minister for the purpose. I have I think explained the whole matter to you before. The short fact is that the lands of these Caughnawaga Indians were sold and the proceeds $8,398.70, were paid into the credit of the Croker Indians. The Caughnawaga people drew three payments of interest, from the Croker funds, and have got nothing since and the Croker people still have the money.

The Caughnawaga people never released their claim to the fund, and they now ask that the matter be properly investigated before some independent officer appointed for the purpose, and that the Indian Department furnish funds to conduct the investigation and enable them to employ counsel to represent them. It seems to me there is nothing unfair about that.

Faithfully yours A. G. Chisholm

Dear Sir,

I herewith enclose a communication from A.G. Chisholm of London, Ont. that explains itself. Will you kindly advise me if anything can be done along this line.

Mr Chisholm has addressed this communication to me on account of the Caughnawaga reservation adjoining my county, and, in fact, was at one time attached to the county of Chateauguay.

I know nothing about this matter more than what Mr Chisholm has told me, but what he asks does not seem to be a very difficult matter, and if it could be done I would be much obliged.

Yours truly,

Dear Sir,

I beg to acknowledge the receipt of your letter of the 29th ultimo, addressed to the Honourable Dr. W.J.Roche, Superintendent General of Indian Affairs, enclosing a letter from A. G.Chisholm, Esq., Barrister of London, Ontario, with respect to a claim of Mrs. Thomas Morris and others of Caughnawaga against the Cape Croker Indians, in which he asks that an investigation be granted to determine the rights of these applicants, and that the Department furnish funds for the costs in the matter.

In reply I beg to say that the Department cannot accede to Mr. Chisholm's request as it is quite clear that his clients have no valid claim and Mr. Chisholm has already been advised to this effect.

Dear Sir,

I beg to acknowledge the receipt of your letter of the 29th ultimo, addressed to the Honourable Dr. W.J.Roche, Superintendent General of Indian Affairs, enclosing a letter from A.G.Chisholm, Esq., Barrister of London, Ont., with respect to a claim of Mrs. Thomas Morris and others of Caughnawaga against the Cape Croker Indians, in which he asks that an investigation be granted to determine the rights of these applicants.

In reply I beg to say that so far as the records of the Department show there does not appear to be any foundation for this claim. There is some correspondence on file from the Cape Croker Indians dated in 1872 protesting against the application of these Caughnawaga families for readmission to the Cape Croker band. There appears to be no record of these Indians ever having been paid annuities as

members of the Cape Croker band. If they ever were members, which is not admitted, they at this time in making application for admission, admitted they were not then members, and as a matter of fact they never subsequently became members, and further than this these Indians communicated with the Department at this time stating that as the Cape Croker Indians were unwilling to readmit them but were willing to pay them for their improvements, they agreed to accept this offer and to give up any further claims upon the Cape Croker Indians. They were accordingly paid for their improvements as ascertained by competent valuators. No further claims were ever made by these Indians so far as the Department is aware. Their children or grandchildren the present claimants are evidently labouring under a delusion in making this claim and the Department in view of the circumstances above set forth cannot entertain it.

With reference to the matter of the claim of Mrs. Thomas Morris, of Caughnawaga, as referred to in Mr. Gallagher's letter to you of the 27th ultimo, I beg to say that this claim has been carefully looked into and that it is quite clear from the documents, and correspondence on file that Mrs. Morris's relatives, through whom she claims, were compensated, in consideration for which they gave up any further claim upon the Cape Croker Indians, and Mrs.Morris's solicitor has already been so advised.

Dear Mr. Scott/

When a new Minister comes in, I purpose claiming his attention to the case of Mrs. Morris and the Caughnawaga Mohawks for relief against the Cape Croker Band.

Prior to doing so though, I wish to point out to you the facts before me, and I might say they seem to be undisputed, show that the lands of these people in Sarawak after a separate surrender made by them, were sold for the sum of $8,398.70 and these moneys paid into the funds of the Nawash Band where they still remain.

The claim of the Department is that by payment of $310.00 in 1872, all the right of the fifteen people constituting the Caughnawaga Indians of Sarawak in 1857 and their descendants, all their claims for improvements on the surrendered lands as well as on their new locations at Cape Croker, all their rights (fixed by the terms of the surrender and by agreement of the Nawash Band) to share in the distribution of interest moneys among the Nawash Band then or afterward, were fully released and surrendered.

This appears to be the position you take, and it would

Memorandum regarding the Migration of Caughnawaga Indians to Colpoys Bay and Cape Croker and the claim of Mrs. Morris (nee Beauvais).

Notes DCIA 2

Agreement of 21st August, 1851. — The Chippewas of Nawash and Colpoys Bay granted a tract of land to the Caughnawaga Indians, subject to the approval of the Governor General, on the condition that the whole or the majority of their band remove to the land thus granted to them and settle on and improve the same.

18th May, 1852 — The Governor General approved of this agreement on the following conditions:-

(1) That all or a majority of all the bands resident within the reservation at Saugeen are consenting parties to the agreement.

(2) Settlement to be made on the north instead of the south of Colpoys Bay.

(3) Mohawks not to have more than 100 acres for each family.

(4) Not to introduce any whites.

(5) And to comply with the rules of the Government regarding Indians in that district.

26th June, 1852. — The Saugeen band refused to consent to this agreement.

15th Dec. 1852. — Further emigration was prohibited by the Government owing to the Provincial Government's furnishing the required lands for Indians in lower Canada.

Petition by Chiefs of Saugeen, Nawash and Colpoys Bay of 3rd January, 1854 — The Chippewa Indians petitioned the Governor General that the 36 Mohawk families who had settled on and improved land south of Colpoys Bay be permitted to remain there instead of

moving to the north of the Bay as they had been directed to do; and that they be given 100 acres of land for each family.

18th March 1854. — This petition was granted on the condition that they would not object to the sale of the land provided they were paid for their improvements.

Pennefather's Report of 1857. — Most of the Mohawks returned to Caughnawaga in 1856.

Agreement 9th Feb. 1857. — By agreement of 9th February, 1857, the three remaining Mohawk families of B. Beauvais, L. Beauvis and M. Montour were to remove to Cape Croker and in lieu of lots 13, 17 and 18, Caughnawaga Range, Keppel, held by them each family was to receive 25 acres of land at Cape Croker, and the value of their improvements on the lots they were relinquishing, in addition to which each of the 15 persons, composing the three families, was to receive £10. This they were paid also the value of their improvements which amounted to $448.00.

In 1859 these Mohawks were to have shared in the Interest distribution (their names were on the pay lists) but they had left the reserve and were residing with the six Nations, until 1863 or 4. Their names were on the Six Nations census list in 1861 (see Gilkison's letter of 17th February, 1872).

Spragge's rep't of 8 Feb. 1872. — Mr. Spragge in his report of 8th February, 1872, states in part as follows:-

"It is desirable to call attention to that portion of the agreement dated 9th February, 1857, which relates to their becoming resident at Cape Croker and which is in these words 'And On removing to Cape Croker they will be located on 25 acre lots' &c.

Contingent accordingly upon their removing to the Cape Croker Reserve was to be their participation in the Revenues of the Chippewas of Nawash, who themselves left Nawash."

13th February, 1872. In February 1872 the Cape Croker Indians protested against the readmission of the Caughnawaga Indians, who they stated had never resided on the reserve for more than a few days at a time.

18th June, 1872. Seeing that they were refused readmission by the Chippewas Montour and the two Beauvais signed an agreement to "give up any further claim upon the Cape Croker Indians" upon the payment to them of the value of their improvements.

23rd July, 1872. The valuation of the improvements by three arbitrators was as follows:-

M. Montour	$228.00
Widow B. Beauvais	175.00
L. Beauvais	150.00
L. Claire	135,00
J. Jacobs	50.00

For these sums cheques were issued and receipts obtained.

Dear Sirs

I beg of you to to have regards to a personal affair which is located on the reserve of our Brethern the Chippawa assigned to us the Mohawks of Caughnawaga, on the Bay of Owen Sound

I have not asked ~~before~~, I was young and strong but now I am old and feeble, for which reason I think it proper to recieve the money for my labour of three Summer's land clearing

In 1851 my grand Parents my Brother and my self paid our way with our own money to the said reserve by means of stage which was then the only way of traveling

And in the year of 1854 one Mr Henderson a delegate of the Government informed us that we were not on the assigned portion of the Reserve. It happened then that both Grand Parents were sick so we sold all our stock and what was planted on the cleared land of about ten acres with which we paid our way back to this reserve, not waiting to recieve the pay for our labour.

Dear Sir

I am directed by Jos. Beauvais "Soss Katsaratiron" to present a claim for recompense of labor and improvement made on land in the Bay of Owen Sound in 1854.

It appears that on or about the year 1850 there was assigned to the "Mohawks" of Caughnawaga a portion of land on the Chippewa Reserve in the bay of Owen Sound, and that, the petitioner Jos. Beauvais together with his grand-father and mother and one brother migrated to owen Sound and tooke up land on the Chippewa reserve.

After three years labor of clearing and cultivating there holdings, a Mr. Henderson from the Goverenment came and informed them that they were not on the assigned portion of the reserve.

and as the grand father and mother of the petitioner were sick and very feeble they hastily sold what stock they had and the growing crops of about 10 acres which had been cleared, It seems that others of this band who migrated on or about the same time was recompensed for there improvements

in view of my petitioners age and health I would beg to have his claim considered, thanking you in advance for an early reply I beg to remain

Dear Sir.

Now, I want to get paid for the work I did long ago; as I am now very old and need support. I was not in existence one year when my mother died. She was the only child my grand-father had; so he brought up my elder brother and me. My late brother Wise Kanonsase and I became orphans when my father died, then I was four years old. For this cause of misfortune we left Owen Sound, but our land is there yet.

We had a log house covered with boards. A log stable, with bark ruffing, A pig pen and a poultry loft, a Wood shed, A maple-sugar shanty-house, Aninel graying pasture surrounded by fence. Two oxen, Two milk cows, Five head of cattle, seven pigs.

We sold these live stock, for the use of moving away, and it is that which landed us back here. Now I want to get paid for the work of clearing and ploughing land, that we, my grand-father Sakokowa and etc. did fix at that time and have that far, put the land, in ready condition for use. Therefore I want to get paid; because when my grand-father got old and was disabled I supported him to his very last. The following are the names those who were living with us along the ri Owen Sound.

Dear Sirs:

A client of mine an Indian of the St. Regis Reserve has asked me to procure from you a copy of a receipt for money paid by the Government to a number of Caughnawaga Indians who were located on Caprico Point near Owen Sound Ontario on the Reserve of the Chippawa Indians . It would seem from what my client says that this Reserve was the Reserve of the Chippawa Indians, and they let a number of Caughnawaga Indians into possession and they afterwards wanted to sell it but owing to the possession of the Caughnawaga Indians they could not sell it and the Government took up the matter and paid the Caughnawaha Indians a certain amount to release their possession. My client says that his father and two others did not receive their share and that this fact was set out in the receipts for the money paid . He said this took pkace about fifty years ago. Have you got any trace of this and could you supply me with a copy of one of the receipts. My client says he saw one of these receipts in the possession of one of the Caughnawaga Indians having been sent there some three years ago and was returned to the Department. My client only wants to get one of the receipts. Yours truly

I am requested by Joseph Kentaratiron-Beauvais, 86 years old and a member of the Caughnawaga Indian Reserve, to submit the following facts to your consideration and to ask whether a favourable attention could be hoped from the Department.

During the year of Our Lord 1852, he, Joseph-Kentaratiron-Beauvais, when a boy of 13 years of age and his grand'father Big Jacco departed with 21 other Indians from Caughnawaga for a long journey through the Province of Ontario until they had reached Owen Sound, on the Georgian Bay, where they have settled on a certain portion of land,which they were informed at that time, was supposed to be a part of their Indian Reserve. After three years of hardship, during which they have cleared several acres of land and built different buildings thereon, they have then been informed by the Department of Indian Affairs that their supposed to be Indian Reserve was not for their use. They have decided to return to Caughnawaga and it appears that 18 out of the 21 Indians have received a substancial indemnity from the Department, while Big Jacco and his grand-son who is the present petitioner have never received anything. He prays the Department to look into this affair which he thinks is still on record.

May I be permitted to request that you approach the Dept. Indian Affairs, relative to some land the Dominion Government had given to a member of our Band.
This Indian, Ennias Kanatakenhiate (Angus Montour) was employed for close on to thirty years as surveyors assistant by that Dept. of the Federal Government; was pensioned until his death.
He was granted a portion of land, together with all buildings at the release, probably in the year 1878 to 1879 situated at Hat Portage, now Kenora. papers being drawn up by the government officials at that time giving this property to this Indian.
The surviving heirs of this Angus Montour desire to know; and pray that the Dept. Indian Affairs approach the surveying Dept. of the Federal Government; and see if that papers of grant are kept there.
Those papers of grant were made and signed during the premiership of Sir John Macdonald of 1878.

Sir,-

I acknowledge receipt of your letter of July 22nd, with enclosure written by Peter Williams of the Caughnawaga Reserve, with reference to a claim of the children of the late Angus Montour. In reply I have to inform you that we have made a very careful search of the file and are unable to locate any reference to an Angus Montour as a surveyor's assistant.

I might add that the correspondence relating to Indian lands in the Kenora district has no reference to lands claimed by Ennias Kanatakenhiate.

Sir,—

Referring to File # 425677 and letter of July 24th 1913. I here-with hand you two letters received from the Telephone Co.

The distance from Hogansburg to St Regis is approximately two miles, and in as much as this section is entirely inhabited by Indians, that is all probability there would be but the one telephone on this division, the Co do not seem to desire to come here unless the Dept pays the cost of line which they give as $30 or ready to place in telephone.

There would be a rental of $24 00 per annum, for the use of telephone.

There are many good sound reasons that could be advanced as to why St Regis should be connected with civilization but I will leave the matter entirely with you, as I know you will give it careful consideration.

Ever since May 1914 the question of installing a telephone at the Agency has been before the Department but for some reason the matter has never been carried to completion, may I respectfully ask that the matter be given favorable consideration, there is no need of my advancing the many reasond that could be given to prove the necessity of a telephone and eepeci-ally for a reservation that is so completly isolated as this one.

I have noted that many of the other reservations are not only equiped with telephones but telegraph in-struments as well.

Trusting that you will give the matter an early and favorable consideration.

NORTHERN NEW YORK TELEPHONE CORPORATION

PLATTSBURGH, N. Y.

EXECUTIVE OFFICES

November 20, 1923.

Mr. F. E. Taillon,
St. Regis, Que.

Dear Sir:-

With reference to your letter of the 12th inst. relative to proposed installation of telephone service at your office and in connection with our Fort Covington, N.Y. Exchange:

We are prepared to furnish you our standard rural line business service if you will furnish and erect suitable pole line from our pole line at Hogansburg, N.Y. to your office, as stated in my letter of November 18th, 1922, a distance of 2.1 miles.

The poles of this line would be spaced not less than 35 to a mile and we would specify first-class northern cedar poles of top diameter not less than 6 inches - 22 ft. in length and properly proportioned to meet fully our specifications.

Poles would be set to a depth of 4½ ft; line to be located and properly guyed according to our specifications.

We estimate the cost of such a line at approximately $650., and in this estimate we have considered the cost of poles delivered at Hogansburg or St. Regis, Que. at $4.00 each and labor at approximately $4.00 per pole.

It is possible that you can purchase suitable poles and perform the labor at lower figures.

We would expect the Canadian Government to bear the entire expense of the maintenance of this pole line and make replacements from time to time, as necessary, as we might specify. We would bear the entire maintenance of the wire and telephone instrument.

After the work of erecting this line is completed, we would at our expense erect on brackets one pair #12 BB iron wire from Hogansburg to St. Regis and connect this circuit at Hogansburg with one of our rural lines.

For this service we would charge the Canadian Government $78.00 annually and bill monthly in advance.

If this proposal is acceptable to you, we will enter into a contract with the Canadian Government on the basis outlined herein.

Very truly yours,

Sir,—

Herewith you will find letter from the Telephone Co stating under what terms they will install a telephone here which I beg you to place in the Estimates for the coming session of Parliment.

You are well aware that their is neither telephone or telegraph service with the reservation and that this service is a necessity, therefore, under the circumstances, it is no more than proper that the reserve should be connected with the outside world.

This line is controlled by the Bell Co and gives service all over the country connecting with the Canadian lines as well.

As far as a wholly Canadian line is concerned this is out of the question as a cable would have to be laid from Cornwall, Ont and this would be too expensive.

Hoping this matter will receive the attention it deserves.

Dear Mr. Hunter:-

The Indian Agent at St. Regis, Quebec, who also acts as Postmaster, has his office and residence in a public building. The Customs Officer is also in the same building.

There is neither telephonic or telegraphic communication available at this point, and as we have a great deal of trouble there with the liquor traffic amongst Indians, it being close to the border, it is most important that the Agent should be able at all times to communicate with the Police also the Medical Attendant and Hospitals in cases of illness. I am desirous, therefore, of having a telephone installed. The nearest telephone line is at Hogansburg, New York, two (2) miles distant, and in 1923 the late Indian Agent, Mr. F. E. Taillon, took the question of the cost of bringing this line to St. Regis up with the Northern New York Telephone Corporation at Plattsburg, New York, and for your information I enclose a copy of their letter. I may say that no action followed.

I write to ask you if your Department will not build this line or in some other way establish a telephone for the use of the Indian Agent and other officials by providing for the cost in the next Estimates, if there are no funds available at present.

Yours very truly,

The necessity for telephone communication at St. Regis Indian Office has been brought to the attention of the Department several times in recent years.

I agree

It would not appear necessary to detail the various reasons why a phone is needed, but it may be permissible to emphasize the great need of direct communication with our medical officer and the hospitals at Cornwall. Lack of this has led us into many expensive difficulties in the past.

In 1927 you wrote the Public Works Department asking if they would construct the 2.1 miles necessary to connect with a line at Hogansburg, N.Y. The Deputy Minister of Public Works replied saying that the matter had been referred to the Telegraph Branch for report.

The question seems to have been dropped at this stage. Would it be possible to insert an amount in our Supplementary Estimates to meet this very necessary expenditure.

There is extreme necessity for some means of communication particularly with the town of Cornwall, in which are located the hospital to which Indian patients from this reserve are sent, and the medical officer.

Dear Sir:

Your letter of February 6th re telephone communication between St. Regis, P.Q., and Hogansburg, N.Y., for the accommodation of Government officials and other white people and Indians in the St. Regis Agency received and submitted to the Telegraph Branch of this Department for report.

The General Superintendent calls the attention of the Department that to give the service required by you would mean the building of a telephone line by the Canadian Government in United States territory, which, of course, is never done and as an alternative suggests that your Department apply to the Northern New York Telephone Corporation of Plattsburgh for service, in the usual way.

As you are probably aware, the Department of Public Works only builds telegraph and telephone lines in Canada to isolated districts where commercial companies would not find it profitable to operate, but not in such localities as your request covers.

Dear Sir:

With further reference to your inquiry regarding telephone service at your Indian office at St. Regis, Quebec (reference no. 425677):

It has been determined that the estimated cost of a pole line from our existing facilities at Hogansburg, New York, to your office at St. Regis, Quebec, would be $795. The increase over the figure of $650. given you several years ago is due to the increase in cost of materials and labor. If service were to be furnished in accordance with your inquiry it would be necessary for you to pay the actual cost of the pole line and also to agree to replace it, when in the judgment of the telephone company, this should become necessary.

The rental charges for telephone service would be $78. a year. If, however, a second subscriber could be obtained at St. Regis, the annual rental would be reduced to $58.80 each and, if three or more subscribers were secured, the annual rental would be reduced to $30. each.

We shall await your further advice in this matter.

Mr. A. F. MacKenzie,
Acting Asst. Deputy & Secretary,
Department of Indian Affairs,
Ottawa, Canada:

Dear Sir:

An accounting technicality has arisen in connection with billing for construction of the telephone line between Hogansburg, N. Y. and St. Regis, Que. As a result of this, we propose to bill the construction charge of $265. per year for the first three years as a part of the rental charge, making a total of $343. a year for the first three years (plus an initial service connection charge of $3.). After the third year the $265. charge will be eliminated. This does not affect the amount which you will pay and will be done solely for the purpose of meeting the accounting technicalities which have arisen.

I trust that this arrangement will be acceptable to you and would appreciate your advising me to this effect.

Very truly yours,

H. McConville

Sir,-

I wish to acknowledge receipt of your letter of the 26th ultimo, together with an account amounting to $343.00 due by this Department for the extension of a telephone line to the Indian Agent's office at St. Regis, in accordance with agreement between your Company and the Department dated August 12th, last.

Before payment of this account can be made it will be necessary for you to send copies in duplicate to the Indian Agent, Mr. W. A. MacGibbon, of St. Regis, in order that he may certify to the account, and state that the work has been properly carried out and that the telephone service is operating to his satisfaction.

Dear Sir:

In accordance with your request of December 3rd, I am sending two copies of the telephone bill for service at St. Regis, Que. to your Indian Agent, Mr. W. A. MacGibbon, for his certification.

Will you please advise if you wish subsequent bills rendered in duplicate and mailed to Mr. MacGibbon?

In this connection you will be interested to know that arrangements have just been made to relieve the congestion on this line by erecting an additional circuit from Fort Covington to Hogansburg. Your Indian office will be transferred to the new circuit and the number will be 35-F-21 instead of 39-F-21. It is expected to complete this change by the first of the year.

Major W. J. Smith

Dear Supt.

For some years a portion of the Six Nations have been interesting themselves into a claim for an annuity of five hundred dollars for lands sold in the year 1788 or 9. It is now proposed to have a meeting of the Canadian & American Six Nations some time next month at the Tonawanda Reservation to make some move to get a settlement of this claim and in order that our people do not expend good money for nothing, I write to ask you if you have any information to offer on the subject.

I may say they have an old copy of the surrender. also representations made by the St. Regis Indians who also claimed the lands which were ceded by the Six Nations.

The only information I have is Vol. II of "Buffalo and the Senecas" by W. M. Ketchum. It appears that in 1787 there were several land speculators organized. the first mentioned being the New York Genesee Co. with Jno. Livingston & Dr. Caleb Benton as principals who obtained a 999 year Lease from the Indians which the Legislature refused to sanction on the grounds that it was a private purchase which was against the law. After the failure of Livingston. Oliver Phelps & Nathaniel Gorham principals of another land Co. proposed to purchase these lands which was also refused by the Legislature. After these two failures all the land jobbers united their interests with Phelps & Gorham as representives of all the associates whose proposals were to purchase all the lands ceded by N.Y. to Mass. which was acceded to. but as they had not considered the Canadian land jobbers of which Jos. Brant & Col. Jno. Butler were principals who were

persuading the Indians not to treat with Livingston or N.Y. Genesee Co. Chelps then proceeded to Niagara to confer with Butler. Brant and Samuel Street of the Niagara Genesee Co. to procure the attendance of the Indians at Buffalo Creek. all interests being now united a Meeting was held July 4-1788 at which all the various interests were represented viz:- Rev. Samuel Kirkland as agent of Mass. & Elisha Lee of Boston assistant. Messrs Butler. Brant ~~Ezekiel Gilbert~~ Samuel Street of the Niagara Genesee Co. Messrs Livingston. Benton & Ezekiel Gilbert of the N.Y. Genesee Co. with the Chiefs of the Indians. The Interpreters were Jas. Dean. Jos. Smith Wm Johnson and Rev. S. Kirkland. After a settlement was made regarding the boundary. they agreed that the price be fixed by Col. Butler, Jos. Brant and Elisha Lee as referees. who fixed the sum at five thousand dollars in hand and five hundred dollars annually forever.

Should you have no information in regard to this matter. will you be good enough to make enquires to the Department so that our people may not be deceived.

Thanking you in advance

SIX NATIONS INDIANS WANT HALF OF STATE

Make Big Claim in Statement Just Issued in Council Session

(Associated Press Despatch.)

Syracuse, N.Y., March 29.—Joshua Jones, head Chief of the Six Nations Indians, and Andrew Gibson, Chairman of the Onondaga Council, in a statement just issued announce that no official meeting of Indians will be held at Onondaga reservation Wednesday. A meeting was announced by the head of a movement to raise money for the purpose of pressing a claim against New York State for possession of more than half the lands in New York State.

The statement of the Onondagas, which was drafted by nine Chiefs, follows, in part:

"We, the Onondagas, cannot find any source by which there is power to call the Mohawk Indians from Canada back into the Six Nations in this so-called land claim. The Mohawks removed to Canada after the American revolution, and settled upon lands given to them by the British Government, where their descendants still live.

"They claimed to carry with them the title to their former possessions in New York. Whatever title they had was sold to the State by a treaty made at Albany, March 29, 1797, between agents on the part of the State of New York and two deputies from the Mohawks, one of whom was Captain Joseph Brant, and under the authority of a Commissioner appointed by the United States."

Re - Conditions amongst Indians, Oka, Que..

Acting on instructions received, on the afternoon of 30th inst., accompanied by Const. Furlong with Police car, I proceeded to Oka, Que., Indian Reserve re above.

We first interviewed Mr. Harbour, Indian Agent, who told us that he had been informed that Mrs. Kellogg had arrived at Oka on Sunday 29th inst., and was at the time holding a meeting on the Reserve, similar to the one she had held four or five years ago, for the purpose of raising funds to put in a claim in favour of the Indians and would very likely again extract money from the Indians.

Mr. Harbour stated he had notified the Department of Indian Affairs at Ottawa, by telephone, and had been instructed to communicate with the R.C.M.P.

Chief Noe Corenthe, who had reported the matter to the Indian Agent, and who was present, told us that the meeting was taking place in a vacant house on the Reserve, and offered to guide us to the house. When we arrived there, we found the house empty and the neighbours told us that only a few people had attended the meeting and that Michel Cole, one of the Chiefs, was holding the meeting in his own house.

We proceeded to Cole's house and found about fifty people present. On a table was some kind of minute book, also two $1.00 American bills and about 50¢ in silver. The woman of the house was looking after the book, but nothing was entered in same during our presence; there was no sign of Mrs. Kellogg and Michel Cole said she was not in his house.

During our presence, nothing was said in either English or French, a man named Samuel Nicolas spoke in Indian and met with a little applause.

We were told by Simon Simon, an Indian who claims to be the Head Life Chief, that he, Simon, was holding the meeting, which called for voluntary subscribers for the purpose of raising funds to enable the Indians to send a representative to Ottawa, to interview the Minister of Indian Affairs regarding the Indian Treaty.

No money was handed in whilst we were there; all persons present were sober and no offense to warrant taking action was committed whilst we were present.

On our return to the Indian Agency, we were informed by the elected chief, Noe Corinthe, that Samuel Nicolas, who had address the people, had spoken regarding the Indian treaty, claiming the Department did not keep it. He also told us that the voluntary subscription had not succeeded, as money was too scarce at present and that it was suggested that money be borrowed instead, but they

did not know where to borrow same.

Mr. Harbour said he would notify this office should any other developments arise.

During this patrol, I did not see Mrs. Kellogg. Mr. Harbour, the Indian Agent, advised me that he had not seen her.

Apparently she had left the Reservation before my arrival.

Forwarded for your information.

On 30th inst., Mr. Harbour telephoned and requested that a patrol be sent to Oka re above matter.

Our Headquarters were telephoned and confirmed that the Department of Indian Affairs desired us to cover the anticipated meeting to be held by Mrs. Kellogg (telephone conversation, Corpl. Mann and S/Sergt. Wright, confirmed by D. of C.I's. Memorandum of 30th ulto.)

Dear Sir,

I have been requested by Andrew Tracy of Spring Bay to write you to see whether it would be possible for you to get the following information, his farm is composed of Lots 7 & 8, Con 4, township of Carnarvon, Manitoulin Island. There is a dispute between him and John Blackie who lives across the road the same numbered lots on the 5th. Con. What he would like to know is what is the bearing of the said fourth Concession east from the 5 side road to the lake shore of Mindemoya or in other words how many degrees does the said fourth concession north or south from due east from said five side road.

Yours truly,

W. Vincer.

S. 3112 3113

Dear Sirs:-

We have received an inquiry from J. Ramesbottan of Little Current regarding lots 23, and 24 south side of Blake Street on the Plan of Little Current.

It appears that in 1882 G. and D. Garbutt purchased these lots from your Department, and paid $10.00 leaving a balance of $15.00 to be paid on each lot. Mr. Ramesbottan received an assignment from the Garbutts of these lots and paid a considerable amount of money for them. The assignment was subsequently lost and a new one was prepared which was burnt. He has paid all the taxes and has been in possession of the property for over twenty years. He has made application to the Garbutts for a new assignment and they refuse to give it to him, and are scheming to do him out of this property.

Kindly let us know if there is any caution, lis pendens or caveat that can be filed against their disposing of these lands, and if you would not give him a patent on payment of the balance due on the ground that he had barred all the other claimants right by the Statute of limitations. Yours truly, McKessock & McKessock

IN THE MATTER OF LOTS 23 and 24 SOUTH OF BLAKE STREET TOWN PLOT OF SHAFTESBURY, IN THE DISTRICT OF MANATOULIN. TO WIT:

I, J~~ohn~~ Ramesbottam of the Town of Little Current in the District of Manatoulin, Laborer, do solemnly declare:

I. I am the owner of Lots 23 and 24 on South of Blake street, Town plot of Shaftesbury, in the District of Manatoulin.

2. That I purchased the said Lot 23 from George Garbutt, and said Lot 24 from Dorothy Garbutt in 1882 and have been in continuous possession of the said lots since that time and am now in possession thereof.

3. At the time I purchased the said Lots the above parties executed the proper assignments to me which were prepared by Thomas Simms and which were in my possession until 1891 when they were taken from me without my knowledge while I was sick.

4. New assignments were prepared by Thomas Simms and executed by the said George and Dorethy Garbutt and witnessed by Robert McMinn, 1903, and were later destroyed by a fire which consumed the premises of the said Simms where they were kept.

5. At the time the said Lots were purchased I was working for a Mr. Potter andthe purchase price amounting to $260.00 was paid by him to the assignor and deducted from my wages, and the said Potter has no claim whatever to the said lot.

6. I have paid arrears of taxes amounting to $61.00.

7. I have made application to the said George and Dorethy Garbutt who are now living in Killar, Saskatchewan, to give me a new assignment of the lots andfor that purpose have sent the papers to them to be executed but they refused to do so.

Referring to Official Letter No. 430 387, dated the 15th, Inst, in regard to Lots 23 and 24 Blake St. South in the townplot of Shaftesbury.

I have the honor to report having visited these Lots on the 19th, Inst, and find the Lots all cleared and fenced and used as a garden. There is a house on Lot 24, 18 X 22 ft. Frame, These improvements were done when Mr Ramesbottom claims to have purchased the Lots. He claims to have had quiet possession since 1891 and has paid all taxes, and done all road work since that date. He claims possession by Assignments from George and Dorethy Garbutt in 1891 which were stolen, and again in 1903 which were burned in Sims store. I also spoke to Mr T. C. Sims and he rembers having the Assignments which he says were destroyed when his store was burned.

MEMORANDUM.

Sales
3112

Ottawa, 21st October, 1913-

To the Deputy Minister,

I beg to report that Lots 23 & 24, on the South side of Blake St. Shaftesbury, were sold on the 29th August, 1882, to George Garbutt and Dorothy Garbutt, respectively, and stand on the books of the Department, as follows:-

I Acre @ $50.00 per Acre ---------$50.00

Paid at date of Sale ----------$20.00

Balance Principal due --$30.00

and Interest thereon @ 6 % from date of sale to time of payment.

Five regular Notices were sent calling for payment of the arrears against the Lots.

On the 12th August last, Messrs. McKessock & Miller furnished a Statutory Declaration by John Ramsbottom, a labouring man, of Little Current, stating that he had purchased these Lots from the Garbutts in 1882, and has been in continuous possession thereof, since that time. He further states that proper Assignments were prepared by Mr. Thos. Sims, and executed by the Garbutts. These were in his possession until 1891, when they were taken without his knowledge, while he was sick, that new Assignments were prepared by the said Thos, Sims, and executed by the Garbutts in 1893, but were later destroyed by fire in Mr. Sims' premizes, where the Assignments had been kept, that he paid $260.00 for the

Lots, and $61.00 arrears of taxes. Messrs. McKessock & Miller ask in their letter that, under the circumstances, the old Sales be cancelled, and a re-entry made of a Sale in the name of John Ramsbottom, but the local Agent, Mr. Wm. McLeod, was written on the 5th August last, and a copy of Declaration enclosed, and he requested to furnish a report thereon. Messrs. McKessock & Miller have remitted with their letter of the 11th Ultimo, the balance of purchase money and Interest thereon against the Lots, amounting to $85.80.

On the 18th Ultimo, Mr. J. J. Williams, a real estate dealer, of Kelliher, Sask. wrote the Department that George and Dorothy Garbutt, of that place were ready to pay in full for the Lots, and asked for a statement shewing the amount required to secure the Deed. In reply he was informed on the 23rd Ultimo, that evidence had been furnished the Department shewing that the Garbutts had disposed of the Lots in 1882 to John Ramsbottom, and that it would not appear that they had any furhter interest in them.

Mr. Agent McLeod reports in his letter of the 16th Instant, that Mr. Ramsbottom does not live in the house on the Lots (which is 16 feet by 22, frame), as he has another house in town, but keeps the house on the disputed house, to rent. He adds that Mr. Ramsbottom claims that when he bought the property from the Garbutts, only the frame of the house was up. This he finished, adding a kitchen and chimney, also made a fence round the Lots, together with other improvements. In addition to his report, Mr. Agent McLeod enclosed a certified statement

by

by the Town Clerk, shewing that the Lots had been assessed to various persons from 1891 to 1902, when the arrears of taxes amounted to $61.41, that in 1903 the Lots were assessed to Arthur Ramsbotham, and all arrears of taxes paid,, and that the Lots have since been assessed to Arthur & John Ramsbottom, with all taxes paid by them. The Agent adds that Arthur Ramsbottom is the son of John Ramsbottom.

In view of the facts, that the Garbutts only paid the first instalment, since they bought the property in 1882, although frequently notified of the arrears, that it is shewn by Declaration that they sold the property in 1882, to John Ramsbottom, who paid therefor $260.00, in addition to $61.41 taxes, that Ramsbotton has been assessed for the property for so many years, and has recently remitted the balance and Interest, I would respectfully recommend that the Sales now on the books in the Garbutt's names, be cancelled, and a new Sale entered, as requested, and Patent issue in the name of John Ramsbottom, for the balance against the Lots, viz:- $85.80, which has been paid.

Sir,

In reply to your letter of the 16th Ultimo, with further reference to Lots 23 & 24, South side of Blake St. in the Townplot of Shaftesbury, I have to inform you that the Sales, 3112 & 3113, of these Lots, in the names of George Garbutt and Dorothy Garbutt, respectively, were cancelled on the 29th Ultimo. You will, therefore, be good enough to forward to the Department a special Land Return for the month of October, shewing a new Sale, which should also be entered in the books of your Office, for these Lots, in the name of John Ramsbottom, and for the sum of $85.80, which has been duly paid by him.
You should also forward a corresponding Requisition for Patent, on the usual form No. 105, giving full information as to name in full, place of residence and occupation of Mr. Ramsbottom.

Dear Sir:-

I have been requested by Mr. Alexander General and William General to write you with reference to a division of part of Lot Number Five, in the River Range, in the Township of Oneida, in the County of Haldimand which affects their interest.

The part of Lot in question, which consists of some sixty acres, was originally owned by father and mother, of John Curley and Mary Curley, and was divided between them equally. About fifteen years ago William General purchased from John Curley five acres which he has ever since been in possession of, and which quit claim was confirmed by the Six Nation Council on February 7th, 1905, and John Curley also sold to Alexander General the South part of the North half of this Lot, containing twenty-five acres which quit claim was confirmed by the Council on May 2nd, 1905, and Alexander General also purchased from Mary Curley seven acres of the same Lot which quit claim was confirmed by the Council on February 7th, 1905. It seems that later, Mary Curley, gave to her daughter Julia Fishcarrier, aquit clai~ of the portion of this Lot, which previously purchased by Alexander General and William General, and would take a portion of their lands, this latter quit claim was confirmed by the Council on August 5th, 1913, and Alexander General informs me that although he and his brother were present at the Council, inorder to give evidence

in the matter, they were not allowed to do so, and that the decision was given without their being heard. They wish to stringly protest against any division of this Lot which would interfere with their rights, and they claim that if the Julia Fishcarrier deed is allowed to stand it would give some of their land to her.

I wish you would please be good enough to give this matter your attention, and have the deed to Julia Fishcarrier so amended that it will not interfere with the lands of Alexander General and William General, and if it cannot be arranged otherwise to have the Superintendent here investigate the matter, by hearing necessary witnesses.

Sir,-

William and Alexander General have had a dispute over part of the Curley estate with Julia Fishcarrier in regard to which Mr. M. W, McEwen barrister of this city ~~xxxx~~ has written to the Department and to me. Mr. McEwen claims that the Generals are not getting as much as they are entitled out of River Range No. 5, Ondida. The first locatees according to the land register are Henry Johnson 50 acres, Mary Curley 20 acres and John Curley 30 ~~6~~ acres which leaves about 8 acres not located. Mary Curley subsequently sold to Alex. General 7 acres and to Julia Fishcarrier 26 acres , this ~~xxxxxx~~ last deed being confirmed by the Council on October 16th last. John Curley sold to Alex.~~xx~~ General 25 acres . According to these sales ~~which~~ it appears as if John Curley still had 5 acres and that Mary Curley disposed of 6 acres more than she was entitled to, I am informed that Alex. General is now satisfied and has purchased from Julia Fishcarrier ~~xx~~ her land but William General claims to be entitled to 5 or 6 acres out of lot No. 5 but the register does not give him any in this lot but in lots 6 he is

William General, sworn, examined by MR. McEWEN:

I claim five acres, part of lot 5 River Range. Township Oneida, in the County of Haldimand. John Curley's father was the original owner of this land; he divided the land between the brother and sister, Mary Curley; it was divided by the chiefs. I got the five acres from John Curley. I gave $40.00 for it; George Longboat was there when I paid him. That was about 15 years ago. I used the land after that and nobody troubled me. I had possession all the time until last summer. I have been occupying it for the last 15 years. I planted corn and potatoes on the land. My purchase from Curley came before the Council. John Curley brought it up before the Council. He was going to sell to Abe General and when they asked him how much land was in it, he said he didn't know, so the Council decided to send surveyors there.

MR. CHARLTON: I object to that. I ask that that be struck out.

MR. McEWEN: What did Curley come to the Council for in regard to the matter ?

MR. CHARLTON: I object to that question. ~~That is~~

That is only to be permitted on condition that it is corroborated.

THE SUPERINTENDENT: I think that ought to go in. Witness! He asked the Council to approve the sale of this five acres to me, and they did so. I was present; we were all there. I was to get the northeast part of the lot; it has been located/ by the Locating Line Committee. It is the northeast corner of the lot that I claim. The whole of lot 5 was originally owned by John Curley. There are 60 acres in the lot altogether. That is on both sides of the road. The surveyors found 60 acres in the lot.

Cross-examined by MR. CHARLTON:

I have only a copy of the decision of the Council. It was in October that John Curley appeared before the Council, but I cannot say what year.

(Mr. McEwen puts in Minute of Six Nations Council held in Ohsweken Council House, December 1904, with reference to Lot #5)

I bought this land from John Curley 15 years ago; George Longboat was present when I bought it. I paid $40. for it. I paid him right there and then, but I did not get any receipt for the money. I never take receipts from amongst the Indians, but I do when dealing with the whites. I have never fenced the five acres off. I bought a piece of lot 6 too; there is a fence running between lots 5 and 6. I could not say how long that fence has been up, but as near as I can tell, about twenty years. I own four acres in Lot 6, adjoining this land in dispute. I have not cultivated that four acres myself but have rented it to white people, but I could not say how for long. I always worked the northeast part of lot 5. Sometimes I rent it when I can't work it myself. I rented it to Alec.Bill. He gave me a third share. He cropped it first, but I could not say the year, but about 15 years ago. Joe Thomas never worked it. During the last 14 years I have drawn the rents and profits from this land. Joe Greenway did not rent the land

for the past five years. Joe Thomas lives right beside me, and owns the adjoining property. A year ago this last summer Greenway rented the property; he planted potatoes and corn. He has not been using it for the last five years, only one year. He did not get the rent or the share of the crop this year, and don't know who got it. I got it in 1913 from Joe Greenway. I cultivated the land myself in 1911. I cultivated and planted it since I came into possession until 1911.

Julia Fishcarrier is my half-sister. I never saw that Quit Claim before. I knew it was approved by the Council in May 1913. I protested at the time, before the Council, and they said Julia owned it. The Council entertained my protest and decided that her mother should make another Quit Claim. Afterwards she brought in the Quit Claim and they passed it. I claim this Quit Claim is not correct. The land was measured up; the only time I remember the land being measured up was when my mother and brother made the division. That measurement went on record. The Council confirmed the Quit Claim from Mary Curley to Julia Fishcarrier.

Quit Claim Curley to Fishcarrier, dated 16th October 1913, Exhibit 1

This land has been willed since, to another party; I did not raise any objection to Julia Fishcarrier, because the part she willed is not in dispute. I do not know that the part in dispute has been sold.

Quit Claim, Julia Fishcarrier to Robert Fishcarrier, dated February 3rd, 1914, Exhibit 2.

Read and approved February 13th, by the Six Nations Council.

I knew there was a lease made by Mrs. Fishcarrier to Greenway off this land, because I saw him there working, and I objected. The chiefs had divided the land between John and Mary Curley; I was present at the Council meeting when this decision was made. Mary got the south side of the road. She got land on both sides of the road. I bought the five acres

in dispute for $40.00. Of this land the Council gave Mary Curley 18 acres on the south side of the road and 12 cares on t the north side of the road, 30 acres altogether. She had more but five acres had to be deducted to give to me, so that left her 17 on one side. I say that because I was at the Council meeting when it was done; it was about ten years ago this fall. Mary Curley had more than 14 acres on the north side of the river. I claimed the five acres after the Quit Claim had been confirmed by Council. This is not the same piece of land that John Curley wanted to sell to Alex. General. I was to get the north east part of this lot. The Chiefs located me. I never heard of the Minute of December 8th, 1904 being set aside. Joe Green and Henry Burnham were the Locating Committee. The Council employs them to do that work. The surveyors made it 60 acres by measuring from another road; they measured from the Beaver Road till they came to the 50 acres owned by Henry Jackson, and then they continued to the river 60 acres. I could not say whether that Minute of Council was confirmed by the Department at Ottawa. I was guardian over my mother for about one year. I was not to have the land ~~on the~~ without the condition that I cared for her.

Minutes of May 14th, 1913, Exhibit 3

It was only in 1913 that Joe Greenway was a tenant of this land. He was not there in 1911-12, nor in 1910.

Record upon books as to the title, record of the Land Register of lot #~~5~~-- #5 River Range, Township of Oneida.

To MR. McEWEN: This Quit Claim between Mary Curley and Julia Fishcarrier was before the Council twice. The first time was a year from last spring. They would not decide it then because they found that part of it was my land. I protested, and the Council accepted that. The number of acres was however not corrected, and they afterwards passed it as it stood. No new Quit Claim was prepared, so far as I know. The only reason the Council did not approve of the

Quit Claim the first time was because it included my land. It was said that the Quit Claim was for 28 acres, The Council didn't mention 26 acres at all. I know the south part , 11 acres, that was sold to Alexander General.

To MR. McEWEN: According to the division in 1908 by the Council I got 5 acres along the river bank, and Mary Curley got 12½ acres. This was decided at the Council meeting of December 8th, 1904. That is my whole claim, that I bought from Curley according to that decision.

MR. CHARLTON: At that time the 12½ acres was measured. It was measured by Jos Green and Henry Burnham. At that time there was a line struck between that land and the 25 acres that Alexander General has.

-----o-----

George Longboat, sworn, examined by MR. McEWEN: I know this property in dispute. I knew the former owner, John Curley. I was present when there was a transaction between William General and John Curley, in regard to this lot. It was about 15 years ago. William General bought the land from John Curley and paid $40.00 cash; I saw it myself . It was paid at his house, John Curley's house. I don't remember anyone else being present. I do not know anything further about it. I was never at the Council when it was brought up; I was never called in as a witness.

Cross-examined by MR. CHARLTON:

The land is not in the County of Brant, but in Haldimand. I could not tell you the year it took place, but it was about 15 years ago. I was working on the wheat, but sometimes I work on that in August, and sometimes in September. John Curley lived in Oneida at that time. It was not on this identical land that the bargain was made. John Curley's lot was next to this. He sold lot 5, but he lived on lot 6. There is a division line fence between

lots 5 and 6. I do not know that the five acres were ever fenced off. William General paid the money for the land, and he never gave a cow for it. The money was in bills. I have talked the matter over with General to-day, and I also had dinner with him. I know that he paid $40.00 for the land, myself.

Jacob General, affirmed, examined by MR. Mc EWEN:

I am not a chief. I know a little about this deal between William General and John Curley. I know the five acres that William General claims. He is my brother. A white man by the name of Joe Greenway has been working this land of recent years, for the last two summers. William General himself worked it before, for about 13 years. Greenway was on it in 1913 and 1914. I was not present when my brother bought this land. I attended the Council once when this matter was brought up.

Cross-examined by MR. CHARLTON:

I am a brother of Mrs. Fishcarrier's. I know when the Quit Claim was passed by the Council. I do not know that Joe Greenway has been renting the land since the passing of the Quit Claim . This 5 acres was never fenced off. My mother, Mary Curley, died a year ago last June. I live on lot 5 at the present time. My mother used the land up to the time of her death, with the exception of the disputed spot. She did not use this 5 acres during her life time. I was present when the Quit Claim was made by Mary Curley. No one every made any complaint to Mary Curley about this 5 acres, before her death. Mary Curley and William General could only tell the land they owned by the size of the cultivation. Mary Curley was more than 70 years of age when she died, she was somewhere about 76. She was sick about four months before she died. She had consumption. She died in June, the 20th. The Quit Claim was made May 8th, 1913 and she signed it the same day. She was pretty sick the day she signed it,

D E F E N C E.

Julia Fishcarrier, sworn, examined by MR. CHARLOON:

Mary Curley was my mother, and William General is my brother. My mother died over a year ago, in June. I remember when my mother became the owner of lot 5, or part of lot 5 River Range Oneida Township. She got it by heirship from ~~her~~ father. The chiefs gave it to John and Mary Curley. I was never at the Council meeting, but so far as I know she got it by heirship. I never heard my mother day that William General had bought this land from her. I claim by virtue of this Quit Claim. My mother made the Quit Claim, and I carried it to the Council for their approval. Sometimes William would cultivate it, and then someone else would do it.., I could not tell how many years before my mother's death William General worked it. Since the Quit Claim was approved William General has not received any rents nor any profits from the land. The five acres are not fenced off. I have had the rents from the land since the Quit Claim was approved. I could not tell you how many years William General occupied this land. I knew of a dispute over the land when the Quit Claim was first read in Council. I was also at the meeting when the Quit Claim was confirmed. William General was present, all my bothers were present. They did not all give evidence ~~evidence~~ before the Council , just presented the Quit Claim, and they were all heard. Then the Council confirmed the Quit Claim. When the division was made between Alec General and I, the two acres was in his favor and that is why they made the claim for 26 acres instead of 28. This is the part that Alexander General got (shows). I have 15½ acres up here (described) and the remainder I disposed of to Alexander General. By Exhibit #2 I sold 15½ acres to Robert Fishcarrier; I understood that I had that much left. The Council confirmed it. There is no fence dividing the

5 acres parcel from me. Since I conveyed the land to my hasband he runs it. I could not say how many years William General worked this piece of land. It was customary for the rest of the family to use this part sometimes. William General always used that piece of land, and sometimes he rented it. I meant to say that different members of the family used different parts of my mother's land, and that William General used this part. Since my uncle died William General has been the owner of the northwest part of Lot 6. The line fence has always been up between those two parcels. The north end of the land was not really measured, but my mother guessed it to be about 17 acres; she didn't know exactly how much, but she said she thought so many acres. I do not know Alexander Bill. He is my half-brother on my father's side. He used to work it some ti time ago, but I could not say how many years. The only time I remember Alexander Bill working it, was when it was broken up; he broke up the land. I could not tell you how long he worked it. My mother got the third of the rent from Alexander Bill. William General used to give my mother a third of the crop, but I don't know how many years he gave her a share; I didn't notice at the time. I know that my mother got a share of the crop from William General. I sold this land to Robert Fishcarrier on the 3rd of February 1914, but I am the legal owner. The Council confirmed it. William General never came to me and complained about the matter.

Cross-examined by MR. McEWEN:

My mother used to live with my grandfather; he made no will or any deed to my mother. My mother had a brother, John Curley. I knew there was a dispute between them as to the division of the estate; I just heard ~~that~~ when it was settled by the Council in 1904; that was the only division I ever knew of. That decision was acted upon by my mother and my uncle. I could not say that William General had cultivated this 5 acres parcel for 14 years, because he was away for a number of years. When my mother made this Quit Claim I bound myself to take care of her. I could not say how old my mother was then.

with consumption
She was dying ~~this summer~~, but she lived five weeks after; she lived 7 weeks after. The Council would not confirm the Quit Claim until I had carried out the agreement to care for my mother. I never heard that the Council would not confirm it because my mother was trying to include that piece of land. They said that when I fulfilled the agreement, they would confirm it. Robert Fishcarrier, to whom I afterwards deeded the land, is my husband. I could not tell you how long William General has claimed this land. I have been married two years. I never saw William General give my mother any money for this land, but I know she got a share of the crop, though I never was present, when my mother received anything. I have been away from home quite a long time.

To MR. CHARLTON: I heard about certain duties being imposed upon William General by the Council in reference to the keeping of my mother, but that is all. I carried out the agreement, and the Council afterwards approved the Quit Claim. I never heard that my grandfather made any will . As a matter of fact I suppose my mother and my Uncle John inherited the land. The dispute between my mother and Uncle John was over the sale of some land to Alex General by my mother. The Council did not know if my uncle owned the part, but at last they confirmed the sale. My mother got the land back towards the river and my ~~mother~~ uncle got below the river road.

To MR. McEWEN: I was not at the Council when the division of the land was made, I only heard about it.

To MR. CHARLTON: Q--Did you make a mistake when you told Mr. McEwen that during the last 15 years no one collected anything from it except William General ? AQQI thought I was asked whether I saw William General paying money over to my mother. I never left my home altogether, sometimes I go back. I live three concessions over from it at the present time. I have already stated that William General claims he got the proceeds from this 5 acres for the 13 years prior to the time of the Quit Claim. He was always cross about it, and

got the land by force. The division of the land was made for certain members of the family of certain parts.

----o----

George Thomas, sworn, examined by MR. CHARLTON:

I live in the Township of Oneida. I own the adjoining farm, and have lived there about 40 years. Mary Curley was the only owner I remember. A fence has been there that long too; I know that personally. I move that fence for her when the water comes in the spring. Sometimes William General worked the five acres in dispute.

I have been there during the last 15 years, and I know that the old lady, Mrs. Curley, her daughter, and sometimes Pet Peter General worked this land. They all have land in the flats, sometimes I plowed in there myself. I know different members of the family used this part in here, the five acres. The fence between lots 5 and 6 has always been up. Mrs. Curley has been dead over a year now. I have not worked that particular spot for the last 15 years, but she hired me to plough in there during the last 15 years. She paid me. I also helped to bring in her crops.

Cross-examined by MR. McEWEN:

I say that Julia worked this 5 acres sometimes. William did not work it all the time because he was away for about eight years, up to Oneida. He was living up there and just came back a few years ago; he got married up there. Julia and her mother had to do with this lot before the last two years. I guess it was just this summer that Julia and her husband did the cultivating. About four years ago Julia used to get part of the crops. I say that different people had crops in there.

To MR. CHARLTON: During the past 15 years different members of the family have cropped it. During four or five years of that time William General was up on the Oneida Reserve.

Robert Fishcarrier, sworn, examined by MR. CHARLTON:

I am the husband of Julia ~~Murray~~ Fishcarrier, and bought this land from my wife on February 3rd. 1914. for which I paid $125.00. I have been going with my present wife for the past five years, and during that time I have not heard of any dispute. I am a member of the Council, and I did not hear anything there about it. Different people worked this land for the three years prior to the Quit Claim; Alexander Bill, Sary Hutt and Joe Silversmith worked it; I and my wife worked on that lot 4 years ago and put in the crop. We gave one-third to Mary Curley. There is no doubt about that. I asked William General once at the Council how he came to own this piece, and he didn't say anything; he did not tell me he bought it from his mother. He told me he had bought it from John Curley but that the Council refused to approve it between John Curley and William General. He never made any claim to me in regard to the five acres.

----o----

Cross-examined by MR. McEWEN:

I did not know until he was served that he made any claim to the 5 acres. I did not know that he claimed it. I was in the Council in 1910 and know most of what goes on.

Q--Did you ever hear this (reads) ? A--Yes, but here is about 20 acres just cleared. Mary Curley was the mother of Alex. General.

To MR. CHARLTON: William General was trying to claim this part of the lot; we ~~have~~ had a crop in there about four years ago.

To MR. McEWEN: Four years ago William did not have any crop in there at all. Joe Silversmith had a crop across the River, and we had one in here. He had a piece of the five acres.

William General, recalled, to MR. McEWEN:

I was away once, but I came back about 20 years ago.

I have been residing in Oneida continually for the past 20 years. The statement that I have been away within the last four or five years is incorrect. Fishcarrier did not have any crop in there within the last 13 years. I rented it to Joe Silversmith. There has been no one on that land within the last 14 years, with the exception of the last two, except those to whom I rented it.

I have never been married. I was up on the Oneida reserve looking for work; I stayed there 20 years; I could not say when I went there, but I was quite young. I returned about 20 years ago. I mean to say I went there about 40 years ago, and came back 20 years ago. I am 56 years of age now. I could not tell the year , but I came back in the spring, about 20 years ago. I was about 18 years of age when I went there. I have been here during the past 15 years. When my mother had a home I stayed with her in Oneida Township, but about 10 years ago I went away from there, and bought a another place with a house on it. This other place is in Oneida too. It is about 1½ miles from the land in question. I have sold that place since, and bought another, which is nearer Caledonia. I bought it from David Lickers, about 5 years ago. I sold the Licker place, and bought another place from John Isaac, and that is where I am living now. I did not buy this place from John Isaac, but I am living with John Isaac.

December 30th., 1914.

Sir,-

I beg to enclose copy of evidence taken before me on 13th October last in an investigation between William General and Julia Fishcarrier regarding the ownership of a 5 acre lot situated in the North East corner of Lot 5, River Range, in the Township of Oneida.

Mr. M. W. McEwen appeared for the appelant General and Mr. W.M.Charlton for the respondent Fish-Carrier.

The parties to this dispute are brother and sister and the land originally belonged to their grandfather Curley. Upon his death it was divided between his son John Curley and his daughter Mary Curley. The whole of Lot 5 contains 108 acres and the first entries in the Land Register show that Henry Johnson is located on the S½ 50 acres, Mary Curley on the W. Part 20 acres and John Curley on the S. part of the W.½ 30 acres leaving about 8 acres unlocated, or probably the area of the above locations was only approximate.

In December 1904 John and Mary had a dispute as to their respective locations and the council decided inter alia that William General the appellant was the lawful owner of the N.E. corner of Lot 5, containing 5 acres more or less (Copy of minutes enclosed)

Nothing more is heard of this until long after John Curley's death and when Mary Curley is on her death bed. Then Julia Fishcarrier in May 1913 produces a Quit Claim Deed in Council from Mary Curley conveying to her for ~~$100.00~~ $1.00 consideration 26 acres of this lot.

The Council changed the acreage to 26 acres but refused to confirm the Deed until after Mary Curley's death, and upon proof that Julia Fishcarrier had taken proper care of Mary Curley her mother. (Copy of Minute enclosed). The mother died the next month. By reason of this death bed conveyance I do not place any value on the Quit Claim (Exhibit 1) as an evidence of title in Mary Curley as against William General. This Quit Claim (Exhibit 1) was passed by the council on the 16th October 1913, and a few months afterwards Julia conveyed 11 acres to Alex. General and 15½ acres to her husband Robert Fishcarrier the latter including the 5 acres claimed by William General. Both conveyances were approved by the Council.

I fail to find in the evidence anything to contradict William General's claim that he bought

bought this 5 acres from his uncle John Curley, remained in undisturbed possession of it for 15 years, and has worked or rented it all that time.

The matter has been before the Council on only two occasions, the first time in 1904 when all parties interested and who knew all the facts were present viz. John Curley, Mary Curley and William General, the second time in May 1913 when only William General was present. John Curley being long since deceased and Mary Curley on her death bed and very probably not in a condition to give an accurate description of the land she ~~prepared~~ proposed conveying to her daughter.

For the reasons above stated I beg to recommend that that part of the Council's decision of 8th Dec. 1904 relating to William General's 5 acre lot be confirmed and that he be located to the North East corner of Lot No. 5, River Range in the Township of Oneida containing 5 acres more or less.

I beg to request that the two Quit Claims Deeds enclosed be returned to me with your decision.

Sir,-

I beg to acknowledge the receipt of your letter of the 30th ultimo, inclosing evidence taken in an investigation between William General and Julia Fishcarrier, regarding the ownership of a five acre lot situate in the northeast corner of lot 5, River Range, Oneida.

In reply I would say that the Department considers that the decision of the Indian Council of the 8th of December, 1904, should be confirmed, and that William General be recognized as the owner of five acres of the northeast corner of lot 5, River range, Oneida.

As requested, I am returning the two quit claim deeds forwarded with the evidence submitted.

Sir :-

LANDS BRANCH
AUG 30 1913

I have the honor to report that Mrs Isabella Clarke holds an Assignment from Duncan Cowan for Lots 1 and 2 Plummer St. South, and 1 and 2 Meredith St. North, in the townplot of Manitowaning, Sales 2098, 2194, (2099, and 2195.)

She paid Cowan $ 100.00 for the four Lots and understood from him that the Lots were paid for in full in the Office

She now asks that the Interest be remitted to her, or that the sales be cancelled and the Lots resold to her at the principal now against them.

I would most respectfully recommend that the sale of the Lots be cancelled and resold to Mrs Clarke at $ 9.00 each as this with the amount she has already paid Cowan are really more than the Lots are worth. They are rough, stoney, and shallow and there is no improvements on them except a fence, and she uses the Lots as a cow pasture. This woman is a widow and she does not want to loose the Lots, and she is not able to pay the arrears which is against them.

Sir:-

With reference to Lots I and 2 Plummer Street, South, and Lots I and 2 Meredith Street, North, in the townplot of Manitowaning, which stands on the books of this office in the name of Mr. Duncan Cowan, and the late Mrs Isabella Clarke held assignments for these four lots from Mr. Cowan, but she did not have them recorded, I have the honor to report that the heirs of the late Mrs Clarke informed me that it is not their intention to pay up the unpaid balance of principal and interest thereon against these lots, and that it is their wishes to have the Department cancel the sales, and re-sell them.

Under the circumstances I would most respectfully recommend that the sales be cancelled and authorize me to re-sell the lots to the first applicant at the valuation placed thereon by the Land Inspector, Mr. George Shaw, as the lots are growing up in noxious weeds, and there are several people in the village who would cultivate them.

The Lord Stamfordham.

My Lord,

It is with pain that I address you about the North America Indians of Moosonee.

I have been working among them for ten years or more as a missionary, and I see their need now of a friend in the person of the King.

The Indians always look to him as their Defender of the Faith, and outside the Church, he seems to be their only friend.

They have left it with me by some means to reach King George V.

The St. George's Society gave me a reduced ticket to England with this hope.

I followed the King to Goodwood, near where I am now. But I could not come near him. I was advised by the Dean of Windsor to make the need known to you in writing trusting you will submit the letter to King George.

The Indian is a loyal subject, and remembers the kindness of King George IV in his negotiations with them for their land in Canada, and his honourable proceedings in placing their money out at interest. They have enjoyed this since that time, about 12 dollars a head yearly.

The Queen Victoria sent them a set of Holy Communion Vessels for their Church on the Muncey Reserve The Prince of Wales (K.Ed.VII) or Great Mogul as they call

call him, gave the c iefs in different parts, medals. King Edward VII also e ucated one (Indian) in England. They have now sent me asking the King's protection, and not alms.

The Hudson Bay Company of England and Scotland bring supplies from these countries to the reserves where they have a post, and it is providential to the poor Indians. But they have now shot their game so fast, with the young (for the native has no law for the preservation of game) that there is not now sufficient for the purchase of supplies to them and their families through the long cold winters of my country. In consequence they have no skins to give in payment, and there are no supplies to be obtained, such as pork and flour.

When they go into the bush to build their wigwams, which they must do to keep warm, there is not enough food for the winter so thay have been known to starve to death. In a whole family, perhaps only <u>one</u> comes out alive in the Spring. It is awful, and I think one of the signs of the times of the awful day approaching. The Indian is ashamed to beg, so dies!

In one case that I met, a man's child died, one year old, starved because the mother was not nourished with food to supply the child. The Indian father a fine young man whom I knew, was starving and thought of eating the dead infant. He said No, I cannot eat my child, so he broke a hole in the ice and buried it. Then the mother died.

The father looked up and said "God sees me starving too", so he cut a piece out of her side and out of one arm. He eat it cooked. Thus he lived, and came out of the bush in the spring.

Another Indian woman lost her son, 10 years old,

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

old, she was starving, and she eat him.

Another very pleasant and pretty squaw lost her husband in the camp, and eat all of him, hanging up the bones in her wigwam.

My blood has run cold so often with these horrors of British North America, that I doubt sometimes if there is any left, but we still hope, as we have prayed for nearly a century, that there will be found feeling in the Royal blood of the Guelph House.

If King George could make some law which the Indian could understand, to protect the young of the game, as is done in England, (it would be beneficial)

Then if the King would insist upon the Hudson Bay Company giving double the price it now gives - three or four times as much would not hurt them - it would be good. Beavers, seals and bears grow more and more scarce.

For ermine skin they give a dime, which is a penny less than a York shilling. By the time it reaches England and is dressed, it sells for five dollars, while the Indian starves for the low price given him.

The English and Scotch have dealt uprightly but not beneficially with the natives. They came to make money out of the furs of Canada and they have done so.

Now being enormously rich I would ask the King to tell them to give a tenth to the Lord by the reduction of the price of supplies and by the increase in the price paid for the skins. Then the Indian could live without need and the fear of starvation.

I am willing to certify to these statements before anyone that you should require.

The Indians of whom I speak are the old Treaty Indians of King George IV in the second and third generation, in the region of Moosonee between Lake Superior and Hudson Bay. They are a wise gentle, faithful race.

The Church of England has baptized and worked amongst them. They are not all heathen, but now (their condition) has become a National subject.

My christian name is Magdalene. I have been a sister of the Church of England for 17 years under the sanction of the Archbishop of Ontario.

I am sixty years of age, born and brought up in Canada, and Colony of Great Britain. I am of German descent.

I am sorry to trouble you with so long a letter, but I do trust the extreme need will make the information worthy of the King's notice.

The Indian has not yet learnt to kill and eat man, but human flesh leaves a craving and I fear he will do so.

I am etc.

Dear Sir,

I was very happy to receive your letter about the Indians of N. America. I did not answer immediately because I intended calling to see you on such an important question. I forgot it while in the City, having other things to do, but shall be pleased to see you at my address which is on Harrow Road, running off Edgware Road.

The subjects of attention, to whom I referred, that came under my notice personally, happened some years ago, still their woe has not diminished but rather increased.

They have all that the government and King or Crown provide, but it is not those, it is missionary knowledge in spite of it all. God calls our attention to man eating each other in hunger. Kindly remember I am not asking alms of England for I can see that she is bled so to speak , but I am asking protection in game laws, that King George The Fifth understands as a sporting man. Also the reduction of prices in Hudson Bay trade. The valuable skins of Indians are growing more scarce each year, as the Native shoots the young to eat. In civilization,

articles go "up" in price, when scarce and I ask the same justice to Indians. The Hudson Bay Company is the one to handle on the subject and they do not hear of the Native need, they are business men neither does the Canadian Government.

I should like the Indian taught to communicate with their King, not Government. That is the trouble and the Missionaries cross and death, but tell them I said it - born in Canada and know whereof I speak. In one case on the Muncey Reserve, which is civilised (there is a difference) the uncivilized is suffering and has suffered to the extremity of eating human flesh - but not the civil -)

The Canadian Government built a bridge over a river that the Indians had forded since they were on the reserve, and charged a percentage to each Indian's treaty money, the interest thereby was reduced from $6.00 to three dollars, when the winter is approaching and he is often dependent on this sum, small as it is to us.

There is not the slightest use approaching the Indian through the Government, you might just as well take a club and hit him; for there are papists and infidels as there are in all Governments that are jealous even of this treaty sum that England's King (George the Fourth) put at interest for them as Christ advised and it has been a great success in the N.A. Indian and they need not even look at it for it is the "King's business", but if you will tell Prince Arthur to "get a move on him" as we say in Canada and may God have mercy on him if he do not, as the

The Canadian Government is rich, money in the Bank. We want handling but are not asking the deceit of the Lion.

I am willing to stand by anything I have said before any King, Court or Chancery for if you could hear the Indians moan and moan and moan about these honorable attachments, you also would "get a move on you", although you have been attentive, but just ask the King to walk over the snow to the Treaty and wild Indians of N. Sir

In my despatches Nos.638 of the 20th August and No.703 of the 16th September, I forwarded certain letters from Sister Magdalene, calling attention to matters affecting the Indians of Moosonee. The King and Queen saw Sister Magdalene on the 26th October, when she repeated what she stated in her letters. His Majesty has expressed the hope that the question of alleged cannibalism among the Indians may be thoroughly investigated, and I have,therefore, to request that Your Royal Highness will call the special attention of your Ministers to the matter, and obtain a report in reply to my despatches which I can submit to His Majesty.

I have the honour to be,
Your Royal Highness's
obedient humble servant.

MEMORANDUM -

Mr. Scott -

On the 20th June, last, there were ordered from the Hudson's Bay Company in Montreal the following supplies to be shipped to their post at Great Whale Lake for use of the Esquimos:-

400 bags Flour,

5 bbls. Pork,

5 cwt Soap,

They were also asked if they could supply 300 deerskin suits or 1,200 hairy parchments; to this they replied that it would be extremely doubtful but they would endeavour to have the Captain of their vessel secure these en route.

Sir,-

I have the honour to acknowledge the receipt of your letter of the 19th instant, inclosing copy of a despatch from the Secretary of State for the Colonies, asking for a report in regard to statements made to their Majesties the King and Queen by Sister Magdalene in regard to matters affecting the Indians of Moosonee.

The statements made by Sister Magdalene are to the effect that Indians of the diocese of Moosonee, which is comprised within the district lying between Lake Superior and Hudson Bay, have been guilty of cannibalism owing to their destitute condition, and that these Indians have not received that attention from the Government of Canada which their case demands.

I beg to present the following facts in reply to these statements : -

Cannibalism is abhorrent to the Indians, as it is associated by them with a form of homicidal insanity. The myths which have survived to the present day speak of a tribe of cannibals which was believed by the Chippewas and Ottawas to inhabit an island in the Hudson Bay. This tribe was called Wendigo and this term is now used to describe an insane person who has a tendency to commit murder and to devour the flesh of his victim. The Indians say that a Wendigo is possessed of superhuman strength and cunning, and that the only thing that saves those whom he desires to kill is that warning is usually given beforehand of his coming. When an Indian shows signs of having become a Wendigo, songs and incantations are used by the Medicine Men to effect a cure, but, when this does not have the desired result, the Indians feel justified, with a view to self-preservation, in taking the life of the Wendigo in accordance with their tribal customs.

The most recent cases of Wendigo which have come to the knowledge of the Department occurred in the year 1899, one of them at Cat Lake, north of Lac Seul, in the Province of Ontario, and the other at Bald Hills, some seventy-five miles west of Slave Lake.

Indian Affairs. (RG 10, Volume 3174, File 432,659)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

In the first instance an Indian named Choos-e-naun was tried for the murder of another Indian named Unbahsh who was turning Wendigo. The accused was convicted of manslaughter and sentenced to four months in the common jail. Two Indians, Pay-i-u and Nepi-so-sus, were indicted in October, 1899, for the murder of Koostoos. At the trial, Rev. Father Grandin gave evidence for the defence to the effect that the Indians were fully convinced that Koostoos had become possessed with an evil spirit which would lead him to kill and eat their children. As a result of the trial Nepi-so-sus was convicted and sentenced to two months' imprisonment, while Pay-i-so-sus was acquitted.

Cases of this kind occur but seldom and the Missionaries and officers of the Crown interested in the Evangelization of the Indians and charged with the preservation of peace and the administration of justice have impressed on the Indians that they must not take upon themselves the duty which devolves upon the law officers of the Crown, and that they must hand over such insane persons to be incarcerated in asylums and properly cared for.

The only other circumstances under which cannibalism might be practised are those which arise from starvation among hunting Indians, who, by reason of their

remoteness from the source of supplies, are compelled to subsist on the produce of the hunt, the failure of which renders starvation almost inevitable.

It is necessary to a proper understanding of the circumstances surrounding the life of the Indians in the diocese of Moosonee to state that, after the line of the Canadian Pacific Railway is left there is no settlement northwards; the place-names marked on the map, such as Osnaburg, Fort Hope, Martens Falls, English River, Long Lake, New Post, Abitibi, Flying Post, New Brunswick House, Fort Albany, Moose Factory, Rupert House, East Main, Fort George, Great Whale River, Attawapiskat, Mattagami, are posts of the fur-traders. At these posts there are only a few buildings, consisting of a residence for the Factor and clerks of the Company, and the warehouses for supplies and mission headquarters. The total white population at each of these places would not average more than 15 to 25 persons. To these posts in the early spring the Indians come to trade their furs and they leave again in the latter part of the month of August for their hunting grounds. With them they carry their small supplies of flour, their dogs, domestic utensils, blankets and clothing. Each Indian has his hunting district, which he has inherited from his forebears, and, in leaving the post to travel a distance

sometimes of a hundred miles or more, he faces the problem of his subsistence in the wilderness without the hope of any outside aid. If the natural food supply of the country, which is fish, rabbits and, in some instances, larger game, is plentiful, the Indian families live in what is, to them, affluence and will return to the post in the spring well nourished and with a good supply of furs, but if, as sometimes occurs, the food supply fails, if the rabbit disappears, or, owing to the severity of the weather, it is difficult to fish through the ice, starvation ensues. At the end of such a winter the Indians become so exhausted that it is with difficulty they reach the distant post, and, in extreme cases, they die on the way. It is only under the latter circumstances that cannibalism might ensue and that the Indians in the extremity of their hunger and very likely, subject to delirium, might subsist on the bodies of those who had perished. Such cases should be classed with like happenings among castaways at sea and persons marooned on desert islands or separated by disasters of various kinds from all hope of relief. No official report of such occurrences with authenticated details have ever been received by the Department and rumours only have reached headquarters. The Missionaries and Factors of the fur companies would be quick to represent these facts to the

Department if the occurrences had taken place. One instance to which the attention of the Department has been drawn by the Missionary for the locality occurred on the east coast of Hudson Bay among the Eskimos who trade at Great Whale River.

I may now deal with the arrangements which it has been possible for the Department to make throughout this vast territory to prevent suffering and starvation among the Indians. The only Agent of this Department situate permanently in the diocese of Moosonee is the Agent at Chapleau, on the line of the C. P. R. As the whole country north of this line of railway is unsettled and entirely given up to fur trading and mining, it has not been thought necessary to establish permanent Indian agencies throughout that territory. But three boarding schools for Indian children with accommodation for 90 children are maintained at Chapleau, Albany and Moose Factory and hospitals with trained nurses and medical and surgical supplies are in operation at Albany and Moose Factory.

The whole of that part of the diocese in the Province of Ontario comes within the district covered by Treaty No. 9. This Treaty imposes certain obligations on the Government in the way of the payment of annuities, the creation of reserves, etc., which have been

faithfully carried out since the signing of the Treaty in 1905 & '06. An Inspector makes an annual visit to the Posts to pay the annuity and is accompanied by a qualified physician whose duty it is to administer to the physical wants of the aborigines. These officers spend two of the summer months in this way, and they have the power to relieve any cases of suffering which they may discover. During their absence, during the greater portion of the year, the district is left to the Missionaries and the fur-traders, representatives of such well known companies as the Hudson's Bay Company and Messrs. Revillon Freres, who occupy the Posts. They outfit the Indians on their way to the hunting ground. They also have standing orders from this Department that supplies are to be issued to relieve the destitute, and they have instructions that no evitable suffering shall go unrelieved. The statement here inserted will show the value of supplies distributed at points mentioned during the fiscal years 1911-12 and 1912-13, which closed 31st of March, 1913 : -

It is unfortunately practically impossible to relieve the cases of destitution which I have called extreme which may occur owing to the failure of the natural food supply of the country. If the Indians are able to send word to the Posts that they are in dire need it has occasionally been possible for the Factors to send relief, but when starvation exists in the deep woods far from the Posts, it is impossible to give the relief which humanity demands and which all the forces of the Government would be extended to supply.

In the cases of starvation and consequent rumours of cannibalism among the Eskimos referred to above, which reached me early last summer, most prompt

measures were taken to provide relief. The Hudson's Bay Company was directed to forward from Montreal 400 bags flour, 5 bbls. pork, 5 cwt. soap to Great Whale River. These supplies were sent forward in the Steamer Nascopie which left Montreal in July. We also ordered the Company to supply if possible 300 deerskin suits and 1200 hairy parchments; as part of the suffering among the Eskimos had been caused by the change in the migratory route of the reindeer, the skins of which are used by the Eskimos to make clothing. Sealskins, dog skins and skins of ducks are not a good substitute for reindeer skins in that severe climate. A greater quantity of pork was not sent as walrus blubber is more highly esteemed by the Eskimos. The 5 cwt. of soap was to be used to prevent cutaneous diseases. These supplies, which were ordered in June, were delivered, it is hoped, at Great Whale River in September and will be available for the unfortunate Eskimos during this winter.

Incl. In elucidation of this report I attach hereto a map showing the Diocese of Moosonee and a series of photographs illustrating the fur-trading posts and the Indians of the district mentioned.

Yours sincerely,

Ottawa, Oct. 15, 1913.

Sir,

I beg to inform you that a petition has been received signed by John Lewis, Michael Sock, Mike Sock, Edward Paul, James Paul, John Williams and eleven others, all stated to be heads of Indian families, to the effect that they be granted a reserve some where near Plumweseep in Kings County. The letter is signed by John Lewis and written from Sussex in Kings County.

Lewis states that there are from fifteen to twenty families always in the neighbourhood of Sussex and at certain seasons this number may amount to thirty or forty families. They desire especially to have a reserve within reach of church and public school and also convenient for medical attendance. I have to request you to be good enough to make a special visit to the locality at any convenient time for the purpose of inquiring fully into the matter and to report thereon the facts and also your views ~~immediately~~.

S. B. Scott 2

Please be careful to ascertain whether these Indians or any of them have already been provided with land in some other part of the Province or should rightfully be incorporated with some other band.

Sir;-

I have the honour to report, that in compliance with your instructions in your communication of the above number, I lil visit Plumsweep in the County of Kings, for the purpose of enquiring into the matter of granting a reserve to the Indians of that place ani vicinity.

I founi in Plumsweep, 1 Indian family, by the name of Michael Sock, living in a small shanty near the railway track. I also ascertainei that there were 3 Indian families living near Norton Station; 3 Indian families living near Penobsquis Station; ani, 3 Indian families living near Dunsinane Station, all along the Intercolonial Railway. Some of these Indians belong to the Burnt Church Indian Bani, Northumberlani County, N.B. some to the Big Cove Indian Bani, Kent County, N.B. while others are from the Province of Nova Scotia, ani as far as I couli learn, have not alreaiy been proviiei with lani in some other part of the Province.

See N. Foster & Son's Camera N.B.

The listance from Plumsweep, where the present Indian family is now locatei, to a white school is about one half mile; ani, two ani one half miles listance from the Roman Catholic Church, at which Church they worship

(worship) and also about the same distance from a Medical Doctor.

Plumsweep Station is about 3 miles from the town of Sussex; Apohaqui about 5 miles from Sussex, further west; Norton about 11 miles from Sussex still further west; Penobqquis about 4 miles from Plumsweep easterly, and Dunsinane about 4 miles easterly from Penobsquis, all along the Intercolonail Railway.

These Indians do no farming but live principally by making baskets, axe handles and other Indian wares. They seem anxious to have a reservation of their own and in all probability it would be better to have a suitable place in which they could all reside and do a little farming instead of being scattered as they now are.

Since visiting Plumsweep, I received the enclosed letter which will read for itself.

With reference to the petition of a number of Indians near Plumweesat,N.B., of the 4th ultimo and succeeding correspondence, I beg to state that the purchase of a small tract of land for an Indian Reserve in that locality might be an inducement to the Indians to settle upon it and thus advoid trespassing on private lands.

Geo. W. Fowler, Esq., is the member of the House of Commons for the riding. Perhaps he would be pleased to advise in this matter and especially as to where the reserve should be situated and its area, etc. He might be informed of the offer of Dr. W. H. White.

Sir,

Having reference to my letter to you of the 15th October last, and to your reply of the 21st ultimo, I have to say that after giving the matter careful consideration, the conclusion has been arrived at that it would not be advisable to purchase a reserve for the Indians now living at various points along the line of the Intercolonial Railway in the county of Kings. From the nature of the employment of these Indians, it is doubtful whether they would settle down and continue to reside on a reserve near Plumsweep if one were secured for them there. It would appear also that nearly all of the Indians who are now asking for a reserve have already had lands set apart for them, and it is the desire of the Department that an effort be made by you to have them locate thereon. The Department will await with interest the result of your efforts in this direction.

Sirs,-

With reference to your petition of the 4th October last, asking on behalf of yourselves and others that a reserve be set apart for you somwhere near Plumsweep in Kings County, I have to say that after careful consideration the Department has arrived at the conclusion that it cannot accede to your request.

It would appear that the nature of your employment has led you to leave the reserves set apart for you and to locate at different points along the line of the Intercolonial Railway, and from your petition it is evident that the residence of a number of the Indians for whom you ask the reserve is not of a permanent nature. As you are aware also you can at any time locate on the reserves which you have left.

Dear Sirs,

I wish to make enquiry re Indian Reserves.

(1) The grounds of Public School Section No. 11 Township of Rama, adjoin the Indian Reserve. The present grounds are not the legal size.

Is it possible to secure an addition from the Reserve? If so, on what terms, and by what procedure?

(2) The site of Public School Section No. 3, Township of Rama, is a poor one. The Trustees are to erect a new building. There is a very desirable site just across the road, on the Reserve.

Is it possible to secure an acre or more of this Reserve?

I am,

Sir,-

I beg to acknowledge the receipt of your letter of the 11th instant, in regard to desire of the school authorities to secure additional land at Rama, and in reply to say that, under the provisions of the Indian Act, disposition of any portion of an Indian reserve can only be made after surrender by the Indians in accordance with the provisions of the Indian Act, and then the lands sold for the best price obtainable.

If you will advise the Department as to the lot on which the land you desire is situate, and give a description thereof sufficient for identification of the property, the question of submitting a surrender of the land to the Indians will be given due consideration.

At the Council meeting of the Rama Indian Council held on the 10th inst a deputation consisting of Thomas Boyd and Henry Heavener, Trustees of School Section No 1 Township of Rama waited on the Council regarding the purchase of 3/4 of an acre of land for additional school purposes. pointing out that the additional piece of land is required according to School regulations. The property at the present consisting of 1/4 of an acre. and that not being sufficient to enable them to receive the full Government grant.

As you are aware. School Section No 1 Township is located on lot No 35 Indian Sub. Division located to Richard Stelling a member of Rama Reserve. He also was at the Council Meeting and agreed to accept the price offered of $150 for the 3/4 of an acre in accordance with the enclosed resolution. and with the understanding that the full purchase price be paid to him or at least 90%.

I would recommend that sale has your approval. As soon as I have your advice that the sale has your approval. I will

Sir,-

I beg to acknowledge the receipt of your letter of the 15th instant, inclosing copy of resolution passed by the Council of the band, recommending sale of three-quarters of an acre of Lot No. 35, Indian subdivision, and located to Richard Shilling, to the Trustees of School Section No. 1, Corporation of the township of Rama, for the sum of $75.

The Department approves of this proposed sale, and the School authorities should be advised to have a survey made of the parcel which they desire to purchase, and to forward to the Department a tracing on linen, together with a proper description of the parcel in question. Surrender forms will then be prepared for submission to the band in the regular way, and if a release is granted, transfer will be made without delay.

The band interest in this property may reasonably be considered as ten per cent of the sale price, and you will, therefore, have to decide whether this ten per cent should be deducted from the $75.00 stated to be the purchase price agreed upon, or an extra amount to be paid by the School authorities. This phase of the matter is left with you for adjustment.

Sir,-

Further in connection with the application of the Trustees of School Section No. 1, Corporation of the township of Rama, to purchase three-quarters of an acre of Front Range Lot No. 7, for school purposes, I inclose herewith the necessary surrender documents, in duplicate, for submission to the members of the band at a meeting to be called for the purpose of considering a sale of this parcel for the purpose mentioned. It is understood that should the release of this three-quarters of an acre be approved by the band, nine-tenths of the purchase price will be paid to the Indian locatee, and one-tenth credited to the funds of the band.

Inclosures.

You are hereby authorized to call a meeting of the Band for this purpose at the earliest convenient date, and submit the matter for consideration.

Copy of Instructions to Agents is also inclosed for your guidance in taking surrender, , the provisions of which you will be good enough to closely follow, especially with regard to furnishing a voters' list showing the number of voting members present at the meeting, the number voting for the surrender and the number against.

Sir,—

I beg to acknowledge receipt of your letter of 31st ult regarding sale of 3/4 of an acre of lot 10 35 Indian Sub Division Rama Reserve. with enclosures as stated Owing to the fact that the description of the land as set forth in the surrender did not agree with that passed by Rama Indian Council according to resolution enclosed with my letter of April 15th last. it was therefore necessary to have the amended description approved of by the Rama Indian Council. Which was done at a meeting held on the 5th inst. a copy of the resolution being enclosed herewith. You will also note that the price to be paid is $100.00 for the 3/4 of acre in place of $75.00 for first parcel mentioned

The alteration was made on account of the part first mentioned be a little low and the water would lie on it. The locatee Richard Stelling was agreeable to the change being made

A general meeting of the Rama Band has been called for Friday June 18th for purpose of completing the surrender. A copy of

Sir,—

I beg to acknowledge receipt of your letter of 20th inst regarding vote on Surrender of 3/4 acres of land for School purposes and note that a further vote is necessary. Have you not a document that can be signed by any voters who were not at the meeting and are in favor of the surrender.

It is a very difficult matter to have a majority of the voters turn out at any meeting when a vote is being taked and record their vote.

Yours truly

Sir,-

In reply to your letter of the 22nd instant, I have to advise that there are no documents or forms provided for the purpose of recording the votes of individual members of the band for surrender purposes, other than those furnished you recently. In any case, the Indian Act provides that surrender must be considered at a special meeting of the band called for the purpose.

If it is not possible to secure the attendance at a duly advertised meeting, of a majority of the voting strength of the band, then it would seem that the proposed purchase of a small parcel of land for school purposes must remain in abeyance indefinitely.

Your obedient Servant,

J. D. McLean.

Sir,-

I beg to acknowledge the receipt of your letter of the 25th instant, inclosing surrender papers properly completed, in connection with the proposed purchase for school purposes of three-quarters of an acre of front range Lot No. 7, at present located to Richard Shilling.

That phase of the situation covered by the surrender by the Band is satisfactorily adjusted, but as the area involved is part of a lot owned by an individual Indian, it will now be necessary to obtain a quit claim from the locatee to the Superintendent General. In your reply and when forwarding to the Department this quit claim, be good enough also to advise what you consider would be a reasonable amount to set aside as the Band interest in the property, the remainder of the purchase price to be paid direct to the locatee.

His Excellency

The Governor General in Council.

The undersigned has the honour to submit a surrender in duplicate, given on the 9th of September, 1926, by the Rama Band of Indians, residing in the reserve in the township of Rama, in the Province of Ontario, of a portion of the above mentioned Indian Reserve, containing three quarters of an acre of land, which may be described as follows:-

> All and Singular part of Front Range lot number Seven in the township of Rama, in the County of Ontario; particularly described as follows:- Commencing at the southeast angle of said Front Range lot, thence north nineteen degrees fifty-nine minutes east astronomically for a distance of three hundred and thirty-four feet along the easterly limit of said lot to a point; thence south seventy-seven degrees thirty-nine minutes west one hundred and forty-nine feet and three-tenths of a foot to a post; thence south nineteen degrees fifty-nine minutes west three hundred and fifty-eight feet and four-tenths of a foot to a post planted in the southerly limit of said lot; thence north seventy two degrees fifty-eight minutes east one hundred and fifty-seven feet and six-tenths of a foot to the place of beginning; excepting and reserving thereout the present School lot containing one quarter acre of land, parcel herein containing three-quarter acres of land (0.75 ac.)

The said surrender has been given in order that the said portion of land may be sold for the benefit of the aforesaid band of Indians, in accordance with the terms thereof.

The said surrender has been duly authorized, executed and attested in the manner required by the 49th Section of the Indian Act, and the undersigned would recommend that the same be accepted by Your Excellency in Council, the original surrender to be returned to the Department of Indian Affairs, and the duplicate thereof to be kept of record in the Privy Council Office.

Re Application for Portion of Garden River Indian Reserve for the purpose of Industrial Farm.

Toronto, November 24th., 1913.

437632

Sir:-

Under instructions from the Honourable The Provincial Secretary of Ontario, I hereby make application to have a portion of the Garden River Indian Reserve transferred to the Provincial Government of Ontario for the purpose of establishing thereon an Industrial Farm to be conducted in accordance with the Industrial Farm Act, Ontario Statutes 1912.

The object of the proposed Industrial Farm is to provide Farm work for prisoners now kept in idleness at the Gaols at Sault Ste. Marie, Manitoulin, Sudbury &c. Among the short term prisoners confined at the above Gaols each year, are a considerable number of Indians who would doubtless profit greatly by having an Industrial Farm located on a portion of the Garden River Reserve.

It is desirable to have not less than 4000 acres of good agricultural land set aside for this purpose as marked out on accompanying plan, commencing on the south east side of the Reserve along Echo River from its mouth to Echo Lake and extending West and North approximately as marked in red on the attached plan.

Sir,

With reference to the visit you are about to make to the Garden River Indian Reserve, I have to request that after you have completed the survey of the block of rocky land applied for to be used as a quarry that you will examine the tract of land shown bordered red on the blue print plan herewith, lying to the West of Echo River, to the East of the surveyed mining claim, 25 H, the quarry claim you are about to survey and the line shown approximately running South from the said quarry claim.

It is not desired that you should make any survey of this tract. You should examine it and report approximately on the areas of good agricultural land situated within the said block and the timber thereon. Should any large tracts of rock occur please ascertain their limits approximately in order that you may be able to indicate them on a sketch. I have also to request you to be prepared if it should be desired to give an opinion as to the value of the land and the timber thereon, examined by yourself. The tract examined is to contain four thousand acres more or less.

re Proposed Industrial Farm,
Garden River Reserve.

Toronto, Nov. 29th, 1913.

437900

Dear Sir;-

With reference to my letter of November 24th probably I did not make it sufficiently clear that the establishment of an Industrial Farm on a portion of the Garden River Reserve would be a great material advantage to the Indians. They would have an opportunity of being instructed not only in modern farming methods and stock-raising but also in regard to the economic systems that would be best adapted to the varieties of soil in that particular locality. There would be a skilled expert in agriculture to afford all necessary instruction, and the farm would be supervised by the Provincial Farm Director, also a graduate of the Provincial Agricultural College. They would have before them constantly a demonstration of what might be accomplished by intelligent farming.

As the Indians became versed in farming methods and capable of assisting in the work, preference would be given to them as vacancies arose in the staff. The Indians would by having an Industrial Farm located on a portion of the Reserve secure what we understand they have been asking for, namely, some one constantly in their neighborhood to

direct them in agricultural pursuits and stock raising. The establishment of an Industrial Farm would not only enhance the value of the surrounding lands but would set a standard for the others by demonstrating what might be accomplished on lands which for so many years Have been left idle and unproductive. The Indians, therefore, stand to gain largely by having the Industrial Farm established there, and very soon the advantages to them would become apparent.

I shall be obliged if you will kindly let me know how the proposition is viewed in order that at as early a date as possible I may take the matter up with the Provincial Secretary.

Your obedient servant,

R. W. Breece Smith.

Memorandum,-

Hon. Dr. Roche.

The formal application of the Provincial Secretary's Department for a portion of the Garden River Indian reserve for the purposes of an industrial farm, mentioned by Hon. Mr. Hanna in his letter of the 24th instant, has come to hand and been acknowledged. One of our surveyors had been detailed to make an estimate of another property on the Garden River reserve, and I have instructed him to examine the area applied for by the Provincial Government.

The members of the Garden River band are intelligent and thoroughly alive to the value of their reserve; just the other day they refused to surrender land for which application was made for the purpose of the excavation of trap rock on the ground that some of the area included in the application was suitable for agriculture. I think it can safely be said that they would refuse to consent to parting with 4,000 acres of

Indian Affairs. (RG 10, Volume 3175, File 437,632)

their reserve for any purpose whatever.

I had an interview on Friday last with Dr. Bruce Smith, the Inspector of Prisons and Public Charities. In my conversation with him I suggested that it might be possible to utilize the services of their staff to give instruction to the Indians. The prison farm itself would be to the Indians a constant demonstration of what might be accomplished by intelligent farming. Sometime ago these Indians applied to the Department for a Farm Instructor, as they wished to develop the agricultural possibilities of their reserve, but, from lack of funds in their own account or in the Parliamentary appropriation, it was impossible at the time to comply with their request.

I have a letter from Dr. Smith this morning in which he states that the expert in agriculture at the farm would be able to direct the Indians in agricultural pursuits and stock raising. This would be one point in favour of the scheme and might appeal to some extent to the Indians. Dr. Smith wishes to know how the proposition is viewed by this Department at as early a date as possible, so that he can take the matter up with the Provincial Secretary. It will be necessary to await the Surveyor's return, when I shall be pleased to report further to you.

Memorandum for the Deputy Superintendent General:-

Pursuant to instructions dated the 26th ultimo to inspect four thousand acres of land on the Garden River Indian Reserve which has been applied for by the Provincial Government of Ontario for a prison farm, I beg to say the land consists of approximately twenty five hundred acres of nearly level clay land on which there is a thick second growth of mixed timber up to 8" in diameter but mainly composed of poplar, ash and spruce, and approximately fifteen hundred acres of hilly land of which about one thousand acres cannot be cultivated and which is covered with hardwood timber up to 30" in diameter but of a poor quality being limby and twisty. Included in this four thousand acres are two gravel pits and several springs, one of these gravel pits being the best on the reserve. One of the hills situate toward the Westerly portion of the four thousand acres applied for and South of the old road appears to be composed of trap rock. On the whole it may be said that the lands selected are admirably situated for the purpose of a prison farm but on the other hand thisland includes the marsh area along the Echo River and Echo Bay which produces practically all the hay put up on this reserve which is said to be from sixty to one

one hundred tons per year. This tract of land is also the source of the greater part of the present supply of wood for the Indians on this reserve. The western part of the reserve being very sandy and light there is not very much wood South of the hills and as the Wilkinson Mining location which is about three miles in length and three quarters of a mile wide cuts them off from the Northern portion of the reserve it will be rather difficult for them to get wood if this piece of land is taken from them.

There are ten small clearings made by the Indians on the piece of land in question which are as follows:-

1½ acres cleared belonging to Joe Mżeghan.

2½ acres cleared belonging to Tom Wagimaw who has forty rods of three strand barb wire fence attached to cedar posts twelve feet apart and twenty rodsfastened to trees.

1/3 of an acre of land belonging to Alex Erskine.

½ an acre belonging to James Nahweziahk on which is a log house about twelve by fourteen feet.

3 acres of cleared land and a log shack belonging to Chief Geo. Shinwauk,who has one hundred and twenty rods of three strand wire fence attached to cedar posts twelve feet apart.

3 acres of clearing belonging to Councillor Jacob Wagimaw,who has fifty rods of four strand wire fencing on cedar posts and two stables and two houses.

½ of an acre of cleared land and a log shack belonging to William Erskine.

1 acre of clearing and a log house half built belonging to Tom Erskine.

½ an acre of clearing belonging to Chas. A. Pine.

1/3 of an acre of clearing belonging to Henry Pine.

In addition to this the following people have winter quarters composed of houses and stables where they go to live during the winter months while taking out logs, wood or trapping:-

Widow of Joe Noonday, John Driver, Henry, Pine, Henry John, William Erskine, Tom Erskine, John Erskine, Chief Geo Shinwauk, Michael Clark.

Some of these winter quarters are very comfortable, and I think their average value would be $60.00 to each owner.

Fencing may be valued at $105.00.

The clearings may be valued at $20.00 per acre making a total of approximately $278.00 and shacks, not winter quaters, $175.00, making a total for improvements of $ 1098.00.

The timber on the land in question should be worth at least $6.00 per acre standing and the land not less than $20.00 per acre. I may also state that some of the Indians had heard that the Ontario Government was considering the proposition of acquiring a portion of their reserve for a prison farm and asked me to draw your attention to the fact that there was a large level valley suitable for this purpose situate North and East of Echo Lake and lying on both sides of the upper Echo River in the surrendered portion of the Township of Kehoe. On looking over the plan however, I see there are several mining locations, viz., B, C. D, H and N in this district and as these mining locations are patented and if the latter

latter location was decided upon the Provincial Government would have to deal with the different patentees of these locations which are as follows:-

B, 200 acres, patented to Hon. R. W. Scott.

C and D, 200 acres each, patented to G. F. Austin.

H, 126 acres, to Chas P. Brown.

N, 201 acres, to Jas. Manning.

I did not inspect this land but the Indians state that it is a valley following the both sides of the upper Echo River and being nearly two miles in width of clay soil nearly level and covered with a second growth and extending from the East end of Echo Lake Northward and Eastward. and of greater extent than the valley they are now considering.

Dear Sir,

I have your note of the 24th. instant with reference to the proposed industrial farm on the Garden River Reserve. The surveyor who inspected the land has made a report which I intend to bring to the attention of the Superintendent General the moment he returns to headquarters, which will be on 3rd. prox.

There will be, I am afraid, serious difficulty to obtaining this land for the farm. Our surveyor draws attention to the fact that there is a large level valley suitable for your purpose situated north and east of Echo Lake in the surrendered portion of the township of Kehoe. He did not take the opportunity of inspecting this land but he understood from the Indians that it is a valley following both sides of the upper Echo River and being nearly two miles in width of clay soil nearly level and covered with a second

Sir,

With reference to your letter of the 29th instant, I beg to enclose herewith a blue print plan of the Township of Kehoe. The Township was surrendered to be sold in the interest of the Indians. The mining locations, B.. Hon. R. W. Scott; C & D.. G. F. Austin; H.. Chas. P. Brown; N.. Jas. Manning; were severally patented to these gentlemen and in fee simple; the Department has no knowledge who may be the present owners; this information should be obtainable from the Registry Office.

The quarter sections and fractional quarter sections marked sold have also stated on the plan the names and addresses of the purchasers. The remaining portionsof land within the pencilled border and not marked sold are still in the possession of this Department and are for sale. These together with all the unsold portions of land in the said township are now being examined and fair prices put on them.

TORONTO, December 31st, 1913.

Dear Sir;-

With reference to your letter of December 23rd, #437632, I have to thank you for enclosing me a Blue Print plan of the Township of Kehoe.

There is great doubt regarding the suitability of the area marked in the Township of Kehoe for an Industrial Farm. It is not sufficiently convenient to a railway station and the desire is, if possible, to secure a portion of the Garden River Reserve, as applied for by the Honourable Mr. Hanna.

In your letter of December 27th you make reference to the report of the Surveyor being submitted at an early date to the Superintendent General. Am I to infer that after the report is submitted the matter will be submitted to the vote of the Indians interested?

I will esteem it a favour if you will kindly let me know at the earliest possible date after the return of the Superintendent regarding the action that is to be taken.

I have the honour to remain,
Your obedient servant,

R. W. Bruce Steinhoff

Dear Sir,

In reply to your letter of December 31st.

I have to inform you that the Department would be willing to ask the Indians to surrender the land which you require for an Industrial Farm on the Garden River Indian Reserve. I may say, however, that the Indians would expect a reasonable price for this land. The officer who reported on the property states that the timber should be worth at least $6.00 per acre and the land not less than $20.00 per acre.

Sir,-

In connection with land on the Garden River Reserve desired by the Province of Ontario for an industrial farm, I beg to inclose form of surrender, in duplicate, covering approximately 4,000 acres, situate on Echo River and Echo Lake, which surrender you are hereby authorized to submit to the Indians under and in accordance with the provisions of the Indian Act. In submitting the surrender to the Indians you might point out that the establishment of an industrial farm on a portion of the reserve would be a great material advantage to them. They would have an opportunity of being instructed, not only in modern farming methods and stock raising, but also in regard to the economic systems that would be best adapted to the varieties of soil in that particular locality. As the Indians would become versed in farming methods and capable of assisting in the work, preference would be given them as vacancies arose in the staff.

The establishment of an industrial farm would enhance the value of the surrounding lands belonging to the

the Indians.

If the Indians desire to fix a minimum price to be paid for the land, you may insert same in the forms of surrender.

The meeting of the Indians should be called in accordance with their rules, and care should be taken to see that each Indian receives notice of the meeting and of the purpose for which it is being held.

If a majority of the Indians assent to surrender, you should have it dated and signed by a few of the Indians and an affidavit of execution made by yourself and the Chief and a Principal Man before a stipendiary magistrate or a justice of the peace, and then return both documents to the Department.

Kindly also report the number of male voting members of the band, the number present at the meeting, the number voting for the surrender and the number voting against.

OF CANADA

It is agreed between the sender of the following message and this Company, that said Company shall not be liable for damages arising from failure to transmit or deliver, or for any error in the transmission or delivery of an unrepeated telegram, whether happening from negligence of its servants or otherwise, or for delays from interruptions in the working of its lines, for errors in cypher or obscure messages, or for errors from illegible writing, beyond the amount received for sending the same:

To guard against errors, the Company will repeat back any telegram for an extra payment of one-half the regular rate, and in that case it shall not be liable for damages beyond fifty times the amount received for sending and repeating.

Correctness in the transmission of messages can be insured by contract in writing, stating agreed amount of risk, and payment of premium thereon at the following rates, in addition to the usual charge for repeated messages, viz.: one per cent. for any distance not exceeding 1000 miles, and two per cent. for any greater distance.

This Company shall not be liable for the act or omission of any other Company, but will endeavor to forward the telegram by any other Telegraph Company necessary to reaching its destination, but only as the agent of the sender and without liability therefor. The Company shall not be responsible for messages until the same are presented and accepted at one of its transmitting offices; if a message is sent to such office by one of the Company's messengers, he acts for that purpose as the sender's agent; if by telephone, the person receiving the message acts therein as agent of the sender, being authorized to assent to these conditions for the sender. This Company shall not be liable in any case for damages, unless the same be claimed, in writing, within sixty days after receipt of the telegram for transmission.

No employee of the Company shall vary the foregoing.

and live a good honest upright life.
Could we have a minister who would interest himself in our behalf.
We did ask Rev Mr Fletcher of Sarnia to come and preach the Gospel to us every Sunday which he did holding meetings at private houses. They were largley attended and he was doing good work untill Rev Mr Rigsby interfered by notifying the Secretary of the London conference who notified Rev. Mr Fletcher to discontinue holdings meetings among the Indians of Sarnia Reserve. or he would be arrested, so fearing trouble would result he discontinued the meetings.
And we would like very much to know if he has authority to dictate to these people as to whether they shall hold meetings and have another minister preach the Gospel to them or not.
We have alloways supposed this to be a free Country and we had a perfect right to hold religious meetings and invite a minister to preach the Gospel to us.
And we earnestly hope and pray that we may be given the right to select a good minister.

Sir,—

I was called on today to settle the followin dispute in referance to a dwelling House on the Garden River Reserv A Mrs Predo from the American side was according to her story invited to move to Garden River and start up a business viza a Bakery and Candy Store, She went there and got permission from a man named Tegosh, to Build a House on his Property, she Built a aHouse at what she says amounted to $300,00, She lived in it for som some time and her business proving a failure she left and went b back to the States, Before she left she Sold the House to Moses Dason for $100,00, Dason paid her $5,00 cash and he was to pay her the Balance in July, in the meantime Tegosh erected a Wire Fence along the Front of the Building and right up against the Door making it impossible for any person getting into the Building, Dason did not move in and only paid $5,00 more making $10,00, in all, About #3 3years ago Mrs Predo sold the same House to John P, L Lasage and gave him an Agreement of Sale, The conditions were not lived up to by her and he did not pay her any money, This last sprin she again sold the House to Alex, Nahwahgezik and got $30,00 in Cash , Nahwahgezik came to me and asked me about the sale, after investigating the matter I advised him to get his money back and have nothing to do with the House, He did so, Along through the Summe Summer Mrs Predo got Married to Moses Lasage a member of the Batchew Batchewana Band, and is now living on the Reserve,

It appears that Tegosh died leaving no Children and having no Will, His Sister Mrs Tebo a member of Thessalon Band residing on the GardenRiver Reserve now lays claim to the Land and property left by her Brother, a few days ago she Sold the House in question to one Eddie Pine, Pine Rented the House and when the tennant moved

The Chief and Sub Chief claim that Tegosh never had any right to the Land,only the use of it as long as he lived ,as he was an Ame American Indian in the pay of the Americam Government, They claim that the Land and the House reverted back to the Band at The death of Tegosh,I am enclosing for your perusal the testimony taken by me in trying to unravel this muddle,and must confess that I am at aloss what to do in the matter, and would be much pleased to be advised by you as to what to do or to decide who is the owner of the House as well as the Land,

Thanking you in advance for an early solution of this problem

Mrs Predo or Lasage's Evidence

About 6 years agolast June I was living in the American Sault, when John Erskine Sub Chief of Garden River came to my House and atopped with me two days,He asked me to move to Garden River and Start up some business to earn my Living,He proposed a Candy Store and Bakery,I agreed to do so and went to Garden River to look up a location,My son was Raised by one Jos, Tegosh, and he advised me to build on the proprty occupied by Tegosh , I asked Jos Tegosh for permission to build on his land,He asked his sister Margaret about it and Margaret said to him Suit yourself the land belongs to you, He then consentd and I built the House at a cost of $300,00, I lived in it for some time and found I could not make a living there and left, the Reserva wWhen leaving I sold the house to Mrs Moses Dason for$100,00, she paid me $5,00, Cash and was to pay me the balance when her Family got their Ann uity in July,she gave me another $5,00 afterwards,making $10,00inall, In the mean time Joe Tegosh erected a Barb Wire Fence in front of the House right across the Door Dason would not pay till the Fence was removed, About 3 years ago I again sold the House to John P, Lasage,and had an Agreement of sale made by a Solicitor,Lasage did not pay me any money, This last Summer I again sold the House to Alex, Nahwahgezik He gave me $30,00 Cash and was to pay me the Balance Monthly,ina few days he wanted his money back which I gave him,
On Saturday last when I heard that there was a Tennant moving in the House I went there and took 2 of the windows out of the House and carried them across the road, Eddie Pine who claim he owns the House carried the windows back and I then went to the Kitchen window and broke it with an Axe, I threatened to take the House away piece by piece, I did not say I would burn it down

Sir,

I beg to acknowledge the receipt of your favour of the 2nd instant, with respect to the claim of Mrs. Predo to a house on the Garden River Reserve, and after reciting the facts in connection with the case you ask to be advised as to what should be done.

In reply I beg to say that it does not appear to the Department that this woman should be deprived of her improvements on this land. If it is true that Tegosh never had any right to the land, as claimed by the Chiefs, the Department would suggest that the Chiefs sell the house in question for the best price that can be procured to some member of the band, who could remove it to his own land. The Chiefs could then take possession of the land and return to Mrs. Dason the $10.00 which she paid to Mrs. Predo out of the purchase money and give the balance to Mrs. Predo. If the land was owned by Tegosh then it should go to his heirs rather than to the band.

Dear Sir;-

We have been consulted several times lately by descendants of the late Captain Brant in reference to a patent which was issued to him covering certain lands in East Flamboro and other lands in the County of Halt[illegible]

We understand that Captain Brant built a home at Burlington and died there about 1800 or a few years afterwards. We notice that a patent was issued to him of 3450 acres in the Township of East Flamboro. It would appear from the records that new patents for this same land were issued by the Crown afterwards. The deseendants of Captain Brant seem to think that they have some right either to this land or to money which was received for it. Your Department are no doubt familiar with the whole question and we wish you would be good enough to write us and let us know whether our clients have any foundation for the claim which they are making.

Yours truly,

Dear Sirs;-

We have your letter of the 18th inst. for which we are much obliged. We made a mistake in saying that these lands were in the Township of East Flamboro, apparently they are in West Flamboro. There are also some lands in the County of Halton which were granted to Captain Brant. Is there no record in the office of the Department as to what land was granted to Captain Brant? If there is we wish you would be good enough to let us know what it was.

Mr. Scott,

A continued search has resulted in finding in the Archives Branch of the Secretary of State, a petition from Joseph Brant of date the 27th August, 1790, for a grant of three thousand acres of land at the head of Lake Ontario, and also a copy of a Minute of the Land Committee of date the 26th August, 1791, recommending that the prayer of the petition be granted as soon as the tract had been purchased from the Missasagas Indians. A sketch showing the land desired was, however, asked for in order that the bounds of the tract might be accurately defined. It is regretted that the search made has failed to discover the further correspondence relating to this grant, although it would appear evident from the statement in regard thereto in Stone's Life of Brant that the grant was made and defined.

Dear Frank;-

Several of the indians here have been to see me in reference to property granted to the late Captain Brant.

It seems that a patent from the Crown was granted to him on the 14th of February 1798 of 3450 acres of land at the head of Lake Ontario or composed of a tract at the head of Lake Ontario. The Indian Department must have some record of this grant being made and I have written them in reference to the same but I have never been able to obtain any information.

Apparently from a journal got up by the Wentworth Historical Society it speaks of this property having been afterwards granted by the Crown and it is described as a tract of land lying between the Townships of East Flamboro and Nelson, formerly called Captain Brant's tract, but now Wellington Square.

Be good enough to make inquiries at the Indian Office and see if they have any records as to what has become of the rights which Captain Brant had under this grant.

Dear Mr. Lalor,-

The Hon. Dr. Roche has transferred to me your letter of the 20th of February and its inclosure from Messrs. Harrison & Arrell, regarding a grant of 3450 acres of land at the head of Lake Ontario to the late Captain Brant on the 14th of February, 1798. The delay in answering this has occurred owing to the difficulty of searching for information in regard to the grant. Nothing could be found in the files of this Department, but in the Dominion Archives there is a petition from Joseph Brant dated the 27th of August, 1790, for a grant of 3000 acres of land at the head of Lake Ontario and also a Minute of the Land Committee dated the 26th of August, 1791, recommending that the prayer of the petition be granted as soon as the tract had been purchased from the Mississauga Indians. I inclose herewith copies of these. A sketch showing the land desired was asked for in order that the bounds of the tract might be accurately defined. No further correspondence relating

Dear Sir.

Pardon me for again taking the liberty of writing to you. I see from the papers your amendment of the Indian act has passed. I take it for granted the enfranchisement is for women as well as for men. My mother the late Charlotte Smith was a granddaughter of Capt. Joseph Brant (Thyendanaga) therefore I am a great grand-daughter. Capt. Joseph Brant was given 3450 acres of land for his services to the British Crown. He asked for a deed for this land which was given him. He leased this for 99 years to white people. The time has long passed and we derived no benefit from said land. Could you not under these circumstances grant me a deed free?

The enclosed is from the registrar at Milton. The architect, Mr. Doughty corroborates this statement. Thank you Sir for the acknowledgement of my letter to you in March. Mr. William Smith, the interpreter, as well as many others on the Reserve know my family.

Gentlemen;

I have recently purchased parts of Lots 14 and 15 Con. 1, Gordon Township, Manitoulin Island, Ontario.

I find that the Indian Office at Gore Bay does not have any very definite discriptions of these lots, other than a print of the Plan of the Township, and they have suggested that I write your Department and request a copy of the discriptions and field notes, made by the Surveyor, at the time when the above mentioned lots were officially surveyed.

If you are in position to furnish this information I will appreciate a copy very much indeed and will gladly forward any necessary charges.

If these field notes are not available at your Office kindly let me know where I may obtain them.

Yours sincerely,

Richard P. Tappenden

Sir,-

I beg to enclose minutes of Council held on the 2nd of December and subsequent dates and to report thereon as follows:-

x x x x

No. 14.

The Brant Historical society requested the Council to have the tablets containing the Lord's Prayer, Ten Commandments and the Apostles Creed removed from the Mohawk Church and placed in a fire-proof room at the Mohawk Institute and to have them replaced in the Church by duplicates. The Council did not agree to this but instead appointed Rev. Mr. Strong, the two wardens of St. Paul's Church and Chiefs Loft and Lewis to have these removed to St. Paul's Church on the reserve for the present or until a fire-proof room is built on the reserve. As these articles belong in my opinion to the Church and not to the Six Nations, I beg to recommend that this decision be not approved.

No. 14.

The old relics at the Mohawk Church shall be removed to the reserve.

The Council failed to adopt the suggestion of the Brant Historical Society to have the relics now at the old Mohawk Church removed into a fire-proof room to be built at the Mohawk Institute, but have appointed Rev. J. L. Strong and the two wardens of St. Paul's Church with Chief Wm D. Loft and Elias Lewis to take steps to have these removed to St. Paul's Church on the Reserve for the present, or until a fire-proof room is built on the reserve where the originals shall be stored, but will allow the Historical Society to have duplicates made from the originals which will be placed in the old Mohawk Church.

NOVEMBER 30. 1913.

It was moved by His Honor Judge Hardy"That the Six Nation Indians in Council be requested to ask the New England Company to provide fire_proof vault accomodation at the Mohawk Institute for the relics belonging to the Chapel of the Mohawks at Brantford,such as the Bible and Communion Service presented by Her Gracious Majesty Queen Anne,the Bell given by H.G.M.King GeorgeIII. and such other mementoes and relics of interest,as may be deemed advisable.....

January 8th.1914

I beg to advise you that your communication of the 28th. November last was laid before the December council and after some discussion it was decided that the articles referred to be removed from the Church and placed in one of the Churches on the Reserve,but the Department of Indian Affairs refused to approve of this decision holding that these articles belong to the Mohawk Church and therefore cannot be removed

Yours truly

January 20th.1914

In view of the contents of this letter -It was moved by Mr. StandingB.A. seconded by Mr. Rowe that the Government be now communicated with and the facts relating to these relics be laid before them with the suggestion that the Society would co-operate in any effort or movement the Government would think wise to make,to insure the preservation of these mementoes.

The meeting was in accord with the motion but as some members were not present the motion was permitted to remain over to the next meeting.

FEB 12 th. 1914.

It was moved by Miss Gilkinson and seconded by Miss Cillen that the motion of Mr. Standing and Mr. Rowe which was laid over from the previous meeting be now submitted and voted upon,with the understanding that the President Mr. Passmore would discuss the matter with Major Nelles Ashton superintendant of the Institute,before the communication was sent to the Government.

The motionn was submitted and carried the President promising to interview Major Ashton.

Honorable Sir.

The Brant Historical Society are in receipt of a letter from Major Gordon Smith Supt of the Six Nation Indians.in reply to a communication sent from the Society regarding the preservation of the relics in the Mohawk Church.
In view of the contents of the letter,we would approach your honorable department with a humble request to lay a few facts before you.

It is a well known fact that Canada is a corner stone of the Empire and that these relics are intimately associated with the laying of that corner stone.They are ,perhaps.comparatively.the most precious relics in Canada. There is no fire protection at the Mohawk Church where they are necessarily kept. The building is a frame one.and the severe electrical storms of recent years have brought the society to a realization of their danger from fire.

If anything should eventually happen to them,the Society would naturally be asked what steps it had taken to ensure the preservation of these heirlooms.Under existing circumstances there is nothing it can do but lay some facts before your honorable department.

Miss Evelyn Johnson recently visited Brantford and wrote a letter which brought the matter up.She stated to members of the Society.that the church had already been struck twice.by lightning her father being in it the first time. This fact had brought the Chiefs to a realization of the danger to the heirlooms.and Chief Johnson had agitated steps being taken to preserve them. They had waited to confer with the Bishop.and the matter had dropped at the time.

Indian Affairs. (RG 10, Volume 3175, File 439,399)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

She also stated that the Bell given by H.G.m.Geo.III,to Joseph Brant,had been disposed of,by a former incumbent in one of the Reserve churches,to Americans and that her father had learned of the fact in time to seize it at the G.T.station,on its way to the Smithsonian institution.The Bell is now under lock in an anteroom at the Mohawk Church.

She informed us that she had discussed the preservation of these memorials,with some of the Chiefs on her recent visit,and found them alive to the danger,and anxious that they be preserved.

In England we understand,valuable heirlooms are duplicated,and the originals preserved in fire-proof vault rooms. When the matter came up for discussion,in the Historical Society,some suggested that duplicates be offered and the originals preserved in a fire-proof room under the immediate care of its Superintendent Major Nelles Ashton; but there was a sentiment against removing the articles from the church entertained by some,and a responsibility in doing so,which others in favor of it did not care to assume;so this was not suggested.

Since receiving Major Smith's letter some members of the Executive have discussed the matter in this light-.It was reported that the tomb of Joseph Brant had been molested and desecrated,and Mr. Allen Cleghorn at once took the matter up.A tomb was built,marble slabbed cemented and sealed,and the remains were thus preserved we trust for all time.

It was thought ,if this could be done that the difficulties regarding the relics could be overcome in much the same way,that is by the erection of a fire-proof vault ,in the form of a ,small,light, airy,fire-proof Chapel Room,with grated and iron shuttered windows and with fire-proof door leading into the church. The Bell could be

Indian Affairs. (RG 10, Volume 3175, File 439,399)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

removed there. Perfect duplicates could be given for the Creed. Lord's Prayer and Commandments.for use in the Church and the originals hung and preserved in the Chapel-Room.

The Coat-of-Arms.insofar as we have been able to learn is the oldest in make and design,in Canada.the design being previous to the Union of Ireland in I80I and it is therefore.perhaps the most valuable of all the relics.The Church being a Royal One.a Coat-of-Arms is a necessity, and a duplicate would scarcely be proper;but this difficulty could be overcome by placing the matter before H.R.H.the Duke of Connaught.or H.G.M .the King.and it might be their pleasure to order a Royal Coat-of-Arms for use.in orderthat the Queen Anne or King George Coat-of-Arms might be preserved.If the modern Coat-of Arms were destroyed it could be replaced.A Coat-of-Arms from his Royal Highness or His Gracious Majesty.the King would enhance the interest in and importance of the Church.and also ensure the preservation of the relics.

If the Chapel-Room were placed in the centre in the rear of the Church the door could be open for service and present the appearance of one room.The key would be in the keeping of the incumbent and all tourists could see the originals if necessary.If Royal visits were contemplated the originals could be placed in the church for the day.

We would ask your honorable department to believe that we are not offering these statements as suggestions but as matters considered , as our society do not wish to assume any responsibility in the matter, but if your honorable department decide that something could or should be done the society will gladly co-operate to carry out your wishes or instructions. Believe us

Mr. Passmore the president reports that the enclosed letter was read to Major Nelles Ashton and that he finds his views in harmony with the sentiments expressed in the letter-that is he made no objection to anything stated in the letter.

The Major expressed an opinion that the Bible and silver would be safer at the Mohawk Institute(where they now are) . This would be in accord with His Honor Judge Hardy's first motion that a fire-proof vault or safe be procured for them at the Mohawk Institute.

Dear Madam -

I have read with interest your letter of the 7th instant in reference to the preservation of the relics in the Mohawk Church, at Brantford.

I shall be glad if your Society could let me have a reliable estimate of the cost of the proposed fire-proof vault.

Yours very truly,

We wish to acknowledge the receipt of your letter and to thank you for the same

Since the matter has come up in Executive and Districts meetings we have kept it strictly to our minded leading members in order that it would not become public. If any attempt was drawn to the Church it might awaken an impulse in some evil disposed person to do ill.

HONORABLE SIR.

The Brant Historical Society held an Executive Meeting in His Honor Judge Hardy's Chambers this evening,to take up the matter of the preservation of the Mohawk relics.and I was requested to write asking for a little more information. Our motions and letter referred to a vault room at the Institute and one at the Church . We understand your letter to refer to the one at the Church but wished to make certain before proceeding.

May we also add ~~also~~ a little further information which may be of service in the matter.

There is a movement to erect a tablet at the Mohawk Church to the memory of Miss Pauline Johnson.It emanated from our Society The movement may become a citizens and a Six Nation one. The tablet will not be an expensive one;perhaps more money than necessary for it might be collected. The question arises,would it be wise to place the tablet in the unprotected Church, If this room we write of at the Church,were to take the form of a tiny Chapel or Chapel strong room,it would be a suitable place for the tablet,and the two movements might become one.

The memorial scheme is only in its incipient.stage,and we have discussed the memorial with none but the literary society as yet, and can only speak so far but if the Chapel scheme met with our approval no doult the two movements combined in one would prove popular in Brantford.

We would solicit your opinion regarding the Chapel strong-room.

Trusting it will meet with your approval

Dear Mr. Smith -

I am sending herewith a Departmental File No. 439,399 in connection with the request of the Brant Historical Society regarding the preservation of the relics at present in the Mohawk Church at Brantford.

You will note the secrecy which Mrs. Brown wishes to have the matter dealt with and of course it is impossible for me at this distance from the spot to conduct negotiations of that kind. I am, therefore, placing all the correspondence in your hands. I note that there is no objection on the part of the Council to the Brant Historical Society having these duplicates made and if they are prepared to assume the expenses you may make the necessary arrangements.

Kindly return the file with a report on the proposition now made by the Historical Soicety.

It would not do to have an entrance into the Lady Chapel through the altar. An entrance can be made in the wood part to the right of altar as in Churches. and if necessary a door to match on left.
The altar must have been changed in recent years as Brant always entered from the rear of Church and this door seems to have been in Centre. Although we have been told on good authority that it was about where we contemplate now putting the door.
(a) marks the place where the door may be put.

The Architect has figured on only one door.
If this scheme meet with the Government Consideration the Ladies of the Society will attend to the Draperies at once.
The Ladies of Zion Church carried a most beautiful Pulpit of walnut in grape design. If the Government erect the Lady Chapel we doubt not but the Ladies of the Mohawk Society will be pleased to carve for the Lady Chapel. a small altar rail, Communion Table, and Pedestal to match. upon which the Bell will be Cleaned & placed.
We have also learned that there are a few personal heirlooms of Brant in the Reserve. which would be substituted for this piece. a Chair - Candle sticks Bible and Wineglass. An effort will be made to secure them.
The only difficulty which presents itself to us was. the depth of the narrow passage between the pews. to open the doors which might possibly be removed. Trusting it may meet further favorable consideration.

Dear Sir.

This Council Judge Hardy and Mrs. Brown were appointed the Committee to attend to the matter of the Mohawk Relics. We are submitting an estimate. This is only an estimate and information of what can be done. If this estimate meet this Government then this Committee Architect will meet Mr. Miller Gabriel Jones at the Mohawk Church and secure detailed plans according to the Governments wishes.

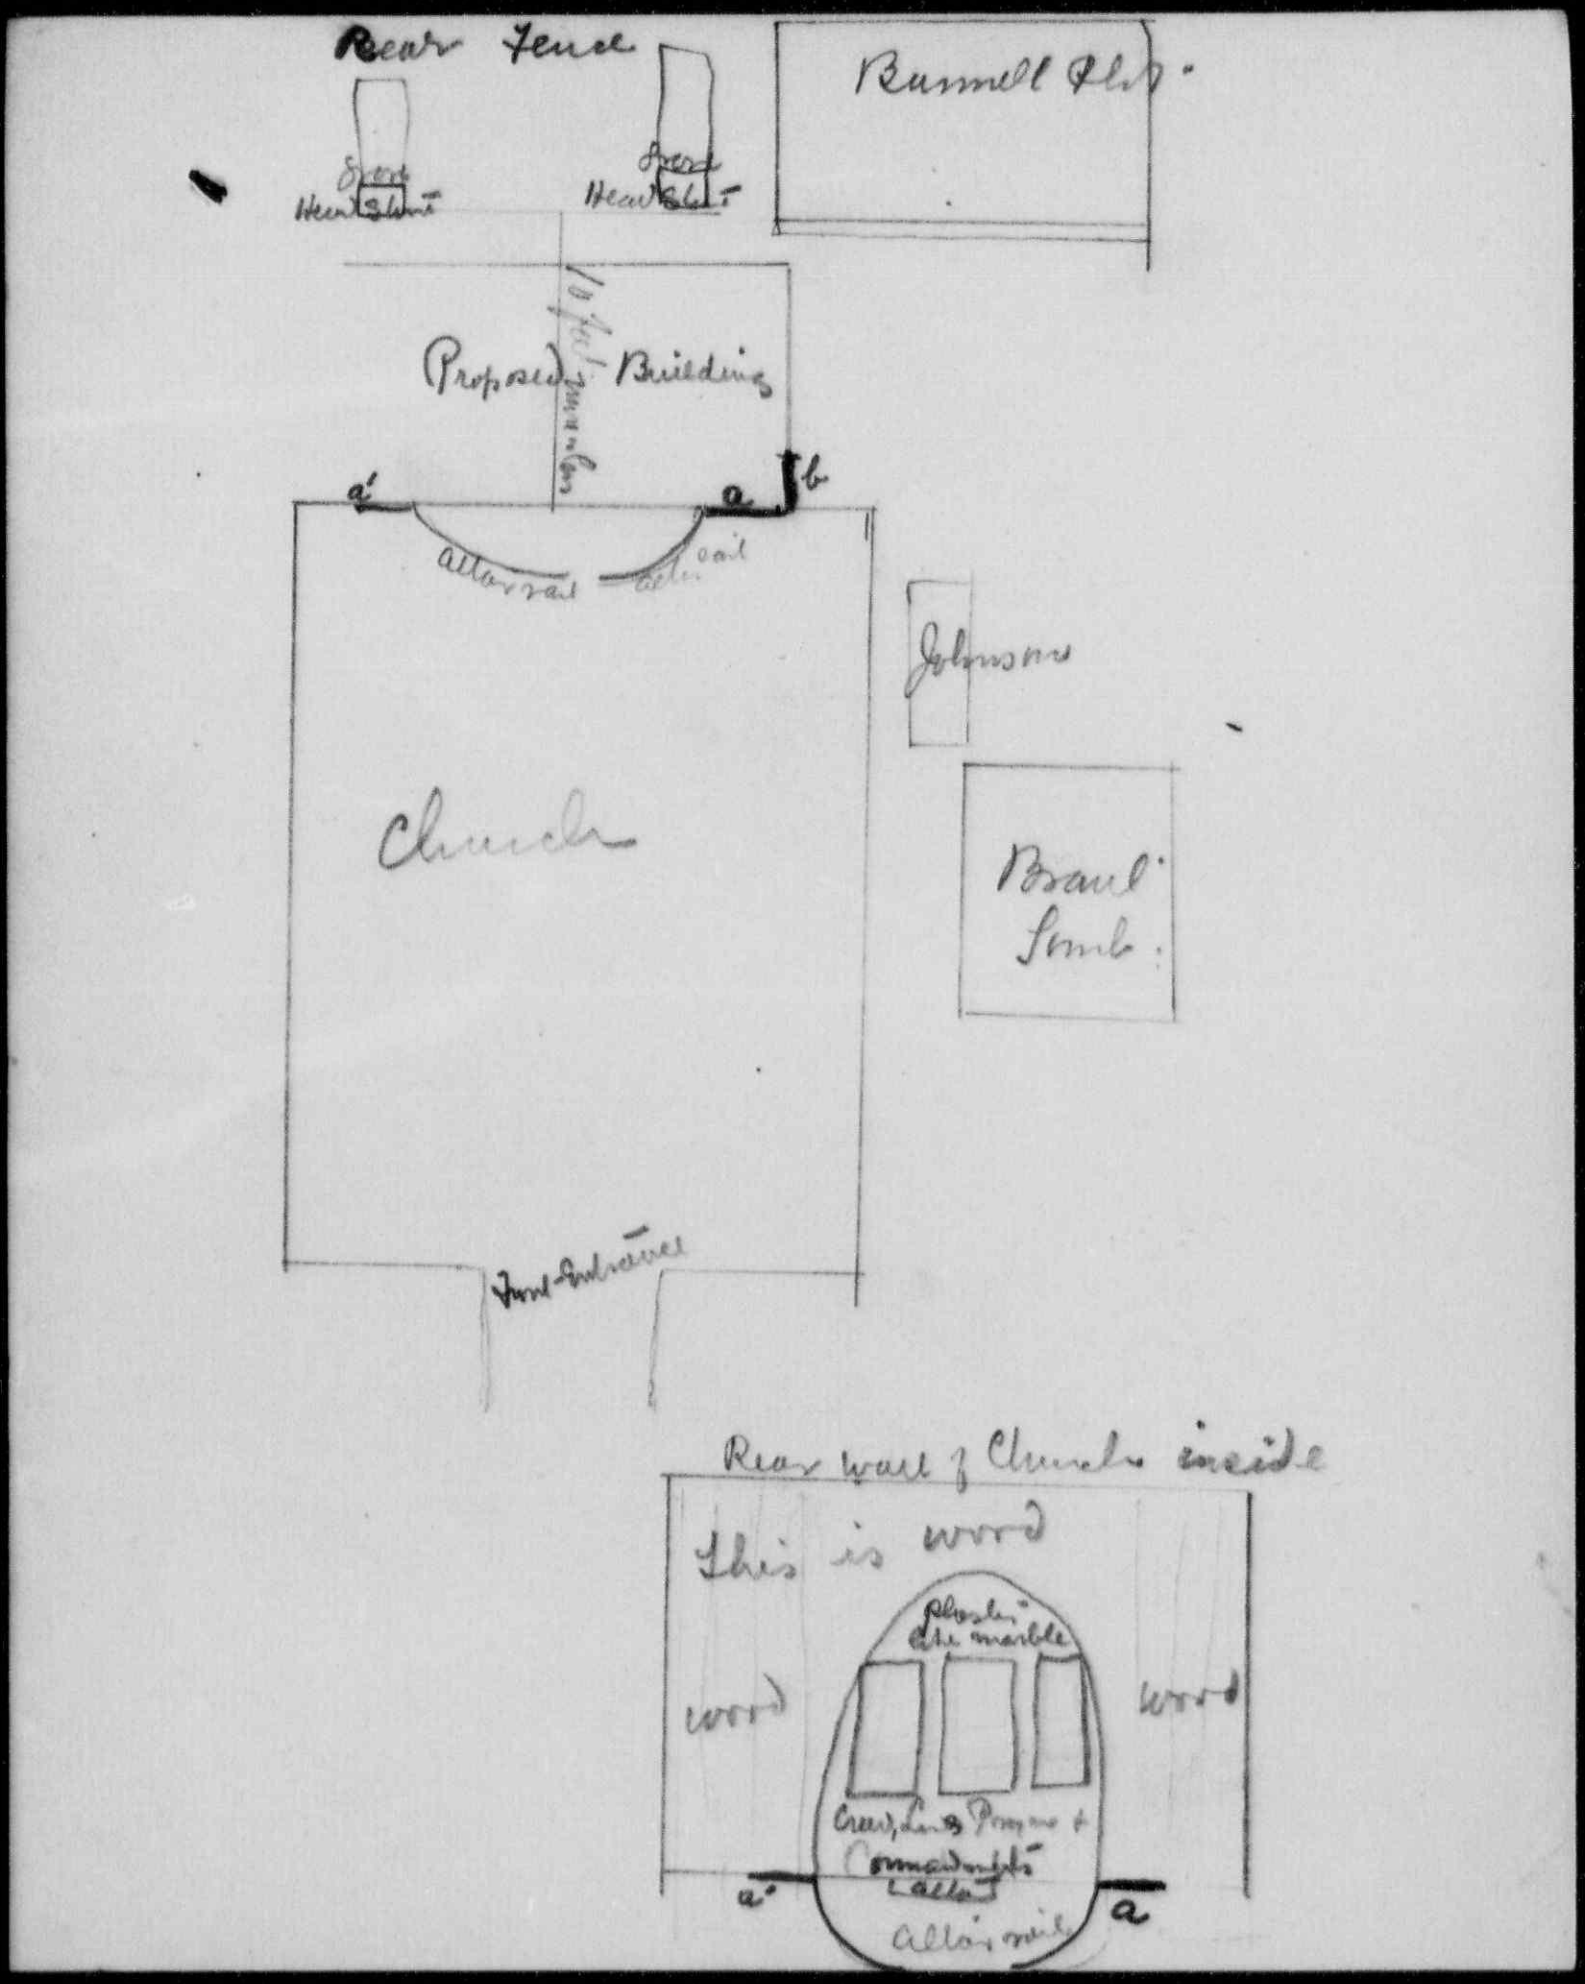

The only available place seems to be in the rear of the Church. It was suggested to build it at the side in the rear of the Brant Johnson tombs but this is not room & even if so it would mar the Burnett plot, & the Architect says it would mar the architecture of the Church.

The Architect says a building 8 feet wide by the desired measurement can be built in the rear and yet leave a passage between it and the graves marked. The Architect has figured on 8 x 12 inside measurement, but in width it can be 14 to 28 / Memory. 28 being the width of Church.

The Creed, Lord's Prayer & Commandments hang on the wall in an arch above the altar. This arch is of plaster finished

Dear Madam,

With reference to the sketch we have submitted to you for the proposed lady chapel, we beg to enclose the following particulars. The buildings to be erected on concrete foundations with hollow brick wall with metal ties and plastered on the inside. The building to have an outside door to be fixed and to open outwards and a standard fire door to be supplied and fixed on the inside with a fusible link attached. The floor to be mosaic or terrazzo on concrete base. The ceiling to be a concrete slab with a dummy shingled roof if considered necessary. The present sheeting at end of church to be taken out and replaced by brick wall for fire prevention purposes.

We estimate the cost of this work to be approximately $350.00 THREE HUNDRED AND FIFTY DOLLRS

Thanking you for your enquiry and trusting to be favoured with this work.

Yours faithfully,

Sir,-

I beg to return above File No. and also to enclose a plan of the proposed chapel which the Historical Society would like to build in the rear of Mohawk Church it will have an inside measurement of 8 X 12 and outside 10 X 14. The letter accompanying the plan states that it can be built for about $350.00 and would be fire proof and large enough to contain the original tablets which the Society is anxious to preserve. I believe that the erection of this chapel would be a very suitable act on the part of the Department to preserve these historic relics which are so intimately associated with the early history of the Six Nations in Canada. I also enclose a letter received from Mrs. Brown the secretary.

Memorandum

For Mr. Scott,-

I have examined the sketch plans of Lady Chapel, proposed to be erected inthe rear of the Mohawk Church at Brantford, Ont., in which it is intended to place for safe keeping the original Tablets and other historical relics appertaining to the Mohawk Church.

It is proposed that the building be fire-proof construction with a sliding door set at such inclination that in case of fire a fusible link will free the door and shut off the new erection from the original building.

The plan proposed should provide protection from fire for the relics, and the estimated cost $350.00 is a fair estimate for the work as outlined.

It will be necessary to place wired glass in the windows to protect from fire through breaking of the windows and outside iron shutters which could be closed in case of fire would also be an advantage.

I would suggest that the building be increased in size by one brick in thickness of walls as a further preventative of fire in the overheating of the walls.

If the wall area is increased in thickness and fire and wired glass shutters, put on, the total cost should not exceed $500.00

Ottawa, 15th June, 1914.

Sir,-

I beg to acknowledge receipt of your letter of the 15th ultimo, with which you returned the Department's fyle relative to the plan of the proposed chapel, which the Brant Historical Association desire to have erected in the rear of the Mohawk Church at Brantford, in which to keep tablets and other records; and in reply I beg to say that while the Department is interested in, and approves of the undertaking, there are no funds available wherewith to meet the expense which would be involved. In your letter of the 15th May you give the estimated cost of a fire-proof building as $350.00. The Department's Architect has made report in the matter and states that in the event of the erection of such a building as proposed; it will be necessary to place wired glass in the windows as protection from fire, and to provide outside iron shutters, and that it would also be well to increase the thickness of the walls as provided for, which would increase the cost of the building to $500.00. It is desired that you will bring this matter before the Six Nations Council with a view to ascertaining whether they are willing to pass a resolution to have the cost of the erection of such a building defrayed from Six Nations Band Funds. It is thought that the Council may be disposed to vote the money, from their funds as the building is intended as a place in which to store relics of great historical value to the Band.

Réserve des Abénakis de St-François
Pierreville P. Office, Que., 19 Janv. 1914

Au Très Honorable R. L. Borden,
premier Ministre du Canada, &c, &c, &c,

Ottawa.

Honorable Monsieur, —

Vos humbles protégés Abénakis, soussignés, voudraient bien respectueusement attirer votre sérieuse attention et celle de l'Hon. Ministre Surintendant Général des Affs. des Sauvages sur une grave question pour la famille des soussignés, William Watso, ex-chef et pour toute la Bande indirectement.

Il s'agit de dettes originées d'un commerce de paniers & autres ouvrages Indiens qui, jusqu'en 1897, était bien protégé, pour les Indiens eux-mêmes, par le Gouvernement Américain qui leur permettait, aux Indiens seulement, libre entrée aux Etats Unis, avec leurs ouvrages Indiens paniers, &c., &c., et ce depuis 1794.

Or depuis la révision du Tariff Américain, en 1897, — "Dingley Act" — le "Free Act" n'ayant pas été mentionné en faveur des Indiens, comme durant les cent ans auparavant, nous, les Abénakis ayant eu à payer l'ancienne douane de 35% sur nos paniers & autres ouvrages Indiens notre unique commerce et moyen de vie, justement en ces années actuelles d'extrême cherté de la vie, il va sans dire que notre industrie

industrie de paniers ne nous donne plus les profits du passé et que la moindre malchance nous met de suite dans l'indigence.

Notre Révd. Missionnaire, Mr Dos. de Gonzague, a en effet bien clairement déclaré dans l'Eglise en prêchant, tout dernièrement, que les Abénakis s'appauvrissaient beaucoup . . . . .

Il a aussi fait allusion que les Blancs de Pierreville & autres localités font aussi des paniers.

Il n'y a donc pas lieu de s'étonner que les Sauvages ne puissent continuer à prospérer quand ils rencontrent tant à la fois d'oppositions et d'adversités qui les mettent à la rétrograde, et que moi-même, Mrs Watso, comme d'autres j'en ressente bien la peine, et pourquoi il est des créanciers qui ne ménageraient pas les Sauvages s'ils en trouvaient les moyen.

Et comme j'ai tout lieu de craindre de plusieurs créanciers de dures épreuves, tendant à m'obliger de vendre ma maison, ma résidence dans le centre du Village Abénakis, ici, malgré que bon nombre des membres de la Bande soient opposés à la vente, pour les Blancs, — excepté le cas où ma dite maison serait vendue avec mon consentement et celle de la Bande pour payer mes dettes, la vendre à un prix acceptable pour acquitter mes dettes et m'en rester un peu pour remettre mes affaires un peu: ma maison et dépendance, valent à peu près le double de toutes mes dettes.

Ma bonne volonté de payer se prouve bien par le fait que je n'ai pas cherché à avoir recours à la "faillite" qu'on pratique si souvent parmi les Blancs, bien que l'acte des Sauvages me protège.

Mes principaux créancier étant:

Messieurs

Messieurs A. A. Mondou, député du comté d'Yamaska, Jos. Coté agent des Abénakis & Notre Révd Missionnaire, Mre Jos. de Gonzague, et autres, Je voudrais bien les payer, avec du délai; comme j'ai déjà payer des acomptes à Mre le Missionnaire Délonzague.

Comme l'acte des Sauvages ne m'oblige pas de vendre pas même un seul clou de ma maison pour payer mes créanciers de Pierreville, les Blancs, je n'en désir pas moins cependant de les payer tous pourvu que je pourrais vendre ma maison: au Gouvernement pour le besoin de la Tribu pour servir soit comme hopital ou pour bureau de poste, la Bande reçeant toutefois que le maître de poste ne soit autre qu'un Abénakis, à son choix, et non autrement. - Et Mr Mondou croit même que pour des protégés, comme les Abénakis, il consentirait peut-être à l'acheter pour l'un ou l'autre de ces deux besoins que la Bande a déjà fait entendre au Département.

Dans l'humble attente d'une réponse encourageante -

J'ai l'honneur d'être, bien respectueusement,

Hon. Premier,

From William Watso, ex-chief,
Abenakis Indian REserve of St-François.

The only industry of the tribe, their sole means o f living, is that of making and selling baskets, etc. Before the revision of the American tariff in 1897, and since 1794 their wares were admitted to the United States duty free. They have now to pay 36% and their profits are diminished. This, with the high cost of living, leaves them in very hard circumstances.

Watso has run into debt. Could avail himself of the provisions of the Indian Act and refuse to pay. Is willing to sell his house to pay his creditors, but is only offered half its value. The Government should buy it to serve as a post office or hospital. These are greatly needed. Mr Mondou, M.P., (one of the creditors) thinks that Government should buy said property for one of the above purposes., Postmaster must be an Indian.

Abenakis Reserve of St.Francis,
Pierreville Post Office, Que.,
Jan.19,1914.

441467

To the Rt.Hon.R.L.Borden,
Prime Minister of Canada, &c., &c., &c.
Ottawa.

Honourable Sir,-

Your humble Abenakis wards, undersigned, would like very respectfully to ask your serious attention and that of the Hon. the Supt. General of Indian Affairs to a serious question for the family of the undersigned, William Watso, ex-chief, and for the whole band indirectly.

It relates to debts connected with trade in baskets and other Indian wares, which up to 1897 was well protected for the Indians themselves by the American Government, which allowed to Indians alone free entry into the United States with their Indian wares--baskets, &c., &c.--and this since 1794.

Now, since the revision of the American tariff in 1897, the Dingley Act, the Free Act not having been mentioned in favour of the Indians as during the one hundred years previously, we, the Abenakis, having had to pay the former duty of 35% on our baskets and other Indian wares, our single commerce and means of living, exactly in these present years of extreme high cost of living, it is needless to say that our basket industry no longer gives us the profits of the past, and the least misfortune at once places us in indigence.

Our missionary, the Rev.Jos. deGonzague, in fact very recently declared when preaching in the church that the Abenakis were becoming very poor. He also referred to the fact that the white people of Pierreville and other places are also making baskets. There is, therefore, no reason for being astonished that the Indians cannot continue to prosper when they meet so often opposition and adversity

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES

which place them in a retrograde position and that I myself, William Watso, like others, resent the hardship very much; and that is the reason why there are creditors who do not spare the Indians when they get them in their power; and as I have good reason to fear from several creditors of hard experience tending to compel me to sell my house, my residence in the centre of the Abenakis village, here, in spite of the fact that a good number of the members of the band are opposed to the sale, for white people,--except in case my said house should be sold with my consent and that of the band to pay my debts, to sell it at an acceptable price to discharge my debts and to leave me a little in order to settle my affairs; my house and dependencies are worth about double all my debts.

My willingness to pay is well proved by the fact that I have not tried to have recourse to bankruptcy, which is so often practised among white people, although the Indian Act protects me.

My principal creditors being Messrs.A.A.Mondou, Member for Yamaska county, Joseph Cote, agent for the Abenakis, and our missionary, the Rev.Jos.Degonzague,and others,I should like very much to pay them in time, as I have already paid accounts to the missionary,the Rev.Mr. Degonzague.

Although the Indian Act does not compel me to sell even a single nail of my house to pay my creditors of Pierreville, white men, I desire none the less to pay them all provided I shall be able to sell my house to the Government for the needs of the band to serve either as a hospital or a post office, the band demanding all the same that the postmaster shall not be any other than an Abenakis, and one of its own choice; and Mr.Mondou believes even that for its wards, such as the Abenakis, it would agree, perhaps, to

Dear Mr. Scott:

Herewith is a letter from Ex-Chief Watso of the Abenakis Indian Reserve of St. Francois. Perhaps you could take up the matter with the Department of Finance, if you think anything could be done to meet their wishes.
on Public Works

Yours faithfully,

R. E. Brunet

Sir.-

I am directed to acknowledge receipt of your communication of the 19th inst., addressed to the Premier and which has been transferred to this Department.

With regard to your desire to sell your house to the Government for the needs of the band to serve either as a hospital or a Post Office, I beg to say that so far as this Department is concerned it has no intention of establishing a hospital on the reserve; and as to the question of the use of your building for a post office, I may say that, only recently, this Department has received a communication from the Post Office Department in which it is stated that that Department had not at any time given an assurance of the likelihood of the establishment of a post office in the Indian Village of Abenakis, as this point is only three quarters of a mile from the Village of Pierreville, where the post office is at present situated.

Fie 358.015

I regret therefore, that this Department is unable to meet your wishes as to the purchase of your building for either post office or hospital use.

Your obedient servant,

J. D. McLean

Asst. Deputy and Secretary.

Sir,-

I have the honour to enclose herewith copy of a notarial deed of sale from William Watso and wife to the Rev. Joseph de Gonzague, Priest residing on the Reserve of St. François, Que.

I may point out that Mr. de Gonzague, although a clergyman is not enfranchised and belongs to the Abenakis tribe. I understand that no location tickets were ever issued for the parcels of land taken over by the Indians on the above Reserve, but I think it might be advisable to get your approval under Section 21 of the Indian Act. I would be pleased therefore if you would kindly give me such approval at your earliest convenience. Whenever you do so please return the above deed of conveyance.

Yours very truly,

H.A. Mondoux

OTTAWA, 27th. March, 1914-

Dear Sir:-

I beg to acknowledge the receipt of your letter of the 25th. Inst, enclosing copy of notarial deed of sale from William Watso and wife to the Rev. Joseph de Gonzague of land on the Pierreville Reserve.

I may say that as the lands on this reserve are not held by the Indians under Location Tickets, the Department is not in a position to approve of this transfer, which could be done only by issue of Location Ticket, under the provisions of the Indian Act.

The land on this reserve is held under title recognized by the Band, and I return the document , enclosed, which might be forwarded to the Local Indian Agent, Mr. Joseph Cote, Pierreville, to be placed of record, in his office.

Your obedient servant,

Duncan C. Scott

Deputy Supt. General
of Indian Affairs.

Sir:-

The Department has caused to be carefully examined the pay-list and entries of remittances which you submitted in connection with the distribution of interest money to members of the Chippewa Band of Sarnia. No trace can be found of the $15.00 which you collected from Sutton Shawkence on account of his debt to Messrs. Coultis Bros., and therefore I have to request that you will forward the amount to the Department without delay.

Sir,-

With reference to the distribution of interest money for the Fall of 1914 to Indians of the Chippawa Band of Sarnia, and also with respect to debts owed by the Indians, I beg to say that the following is a statement of debts due by certain of the Indians to Messrs. Coultis Bros., viz:-

Band No. 120	John Milliken	$5.01	1	payment
" " 202	Elijah Ashquabe	4.00	1	"
" " 182	Morris George	72.02	10	"
" " 195	Wesley Shawkence	11.04	2	"

You should collect the amounts stated from the Indians mentioned when distributing the interest money, and the money collected should be forwarded to the Department to be paid over by official cheque to Messrs. Coultis Bros. In each case the pay-list should show the amount collected and, therefore, you should be careful to make the necessary entries in the remarks column of the pay-list.

Mr. Nesbit, the late Indian Agent, has been asked to forward to the Department $15.00 which he collected from Sutton Shawkence on account of his debt to Messrs. Coultis Bros. When the money is received by the Department, a cheque will issue in their favor and be sent to them.

Sir:-

I beg to draw attention to the fact that when you made distribution of interest money to the Sarnia Indians in the Spring of 1915 you overlooked making collection from them for debts owed to Messrs. Coultis Brothers. Under the circumstances collection should be made this Fall. The following is the list of Indians indebted to Messrs. Coultis Brothers and the amounts stated are owed by them:-

Band No.	120	John Milliken	$2.50
"	"	182 Morris George	62.02
"	"	195 Wesley Shawkence	5.52

The money collected in accordance with the above instructions should be returned to the Department in order that the money be paid over to Messrs. Coultis Brothers by official cheque. Kindly refer to official letter of the 22nd August, 1914 in which you were instructed to make collection for the above mentioned firm from Indians on your Agency. As pointed out in that letter, in each case the pay-list should show the amount collected and therefore you should be careful to make the necessary entries in the remarks column of the pay-list.

I have been asked by Mr E.A.Deem 416 Bacon Street Dayton Ohio To get what information I could about Lot 24 con 5 W.B.R. Albamarle
This lot stands in the Name of R.Neeve Mr Deem is thinking of Buying and building a summer Lodge on it
as near as I can make out by the Map at Cape Croker that this lot does not run to the shore I also saw a map made by Mr Warren some years ago and it shows Lot 24 running to waters edge
What Mr Deem wants to know if it actualy runs to the water if not he will give $15.00 for the land between lot 25 and thr shore as the lot is of no use to him unles he can get to the water
I would like very much to get A map of Albamarle
I am asked a lot by different parties about the Islands and as I turned all maps over to the Indian Agent at Cape Croker and it comes in very handy to have one

Lands Branch,-

With regard to lots 24 and 25, Con.5, West of the Bury road, Township of Albemarle, I may say that our tracing of plan No.25 and the original field notes show that there was one chain road allowance left along the lake shore and consequently neither of these lots extend to the water, nor is there any land between the original road allowance and the water.

With further reference to your letter No 84-39B, dated May 14th, inst., regarding Island No 26, Lake Huron, opposite the Township of Albemarle, I beg to submit the following information.

Between the island and the mainland, there is quite a deep channel of water, making the island approachable only by boat. Up to, and including the present date, it has never yet been possible to get to the island, except by water. In your letter No 45585-3A, dated Jan.29th.1930, valuation was placed on this island, at $50.00. Sir,-

With further reference to the application received by you from Robert Edward Crane, covering Island 26, in Lake Huron, I enclose a blue print for your information, and you will note that our record shows this Island to be part of Lot 24, Con. 5, Albemarle. In August, 1901, James Warren, O. L. S., notes in his reference book: "Island 26 is a small point now connected to the shore, but was formerly an island. It is nicely timbered and would make a nice camping ground. Has a fair landing".

Lot 24, in the 5th Concession, west of the Bury Road, Albemarle, has a road allowance one chain wide along the lake shore and, consequently, this lot does not extend to the water's edge.

MEMORANDUM

H

August 28, 1931.

MR. WILLIAMS:

I would like to quote for your information the following which appears in a letter from Mr. R. E. Crane, of Wiarton, Ontario.:

"Last year, that is 1930, before the change, I went to the Indian Land Department about Island No. 26 in Albemarle, and got the Agent to write the Department asking information and if it was for sale. He received a letter in 1930 saying it was for sale and going with it was Point 26 consisting of about 12 acres. However, I let it stand until April of 1931 and I went over and paid him the money and applied for deed. In June I went over only to find out nothing had been done as regards Dept. He said he would have the deed back soon. However, it never came so I went again about 1st of July as I wanted to build on it and fit it up. The Agent wrote and told the Department so. Now I was up yesterday and he let me see a letter from the Department which said there were some nice trees and would make a nice camp ground. I can't see why I cannot get the deed."

I wish you would let me have a report which will serve as the basis of a reply, showing why the sale of the Island has been held up.

MEMORANDUM.

Mr. Buskard,-

I desire to reply to your memorandum of the 28th ultimo, in which you quote an extract from letter received from Mr. R. E. Crane, Wiarton, Ont., and in which he refers to his application to purchase what is described as Island No. 26 in the Township of Albemarle.

Mr. Crane's application has been given constant attention since it was received, but the question of sale of this particular Island has been a matter about which the Department has found some difficulty in coming to a definite decision, and there has been a considerable exchange of correspondence with our local Agent, Mr. Arthur C. Poste, of Cape Croker.

The original survey notes covering this property would appear to indicate that what is described as Island No. 26 was at one time part of Lot 24 on the mainland, which was sold by the Department in 1894. It is the practice of the Department in such circumstances to consider Islands so located as part of the mainland, or at least that the owner of the mainland property should be given first opportunity to purchase. Recent information received from our local Agent is to the effect that at the present time there is a considerable channel of water running between this Island and the mainland, and apparently the present physical conditions differ from those which existed when the survey was made. However we have finally decided that we will accept Mr. Crane's offer, and action will at once be taken to prepare and issue the necessary patent.

LES INDIENS ONT FOI EN LEUR SORCIER

Les impressions du coroner McMahon, au retour de Caughnawaga où il a tenu une enquête sur la mort d'une femme de la tribu.--Les pouvoirs du guérisseur.

Un verdict qui surprend

"L'homme de médecine" exerce encore à Caughnawaga, un empire considérable sur la tribu; le coroner McMahon en est aujourd'hui plus convaincu que jamais. Il était allé faire une enquête au sujet de la mort d'une femme que l'on croyait avoir été empoisonnée accidentellement par le guérisseur de la "Nation." Les jurés, tous des Iroquois, au maintien stoïque, ont déclaré que la sauvagesse avait succombé à la tuberculose, en dépit des sévères paroles prononcées par McMahon. Celui-ci a prévenu les Sauvages qu'à l'avenir il tiendra des enquêtes complètes sur tous les cas de mort suspectes. Cette déclaration aura peut-être pour effet de rendre "l'homme de médecine" plus prudent dans la préparation de ses herbages.

Tels sont en résumé les faits de cette cause sensationnelle qui restera toujours, comme tant d'autres, mystérieuse pour la justice.

A l'enquête tenue samedi par le coroner McMahon, le maire de Caughnawaga était président des jurés. Dans un discours imagé, plein de fougue et d'indignation, il s'est élevé contre l'intrusion des hommes aux visales pâles qui viennent tenter de détruire au cœur des sauvages, descendants des valeureux guerriers iroquois ce qui leur reste encore de précieux la confiance en "l'homme de la médecine."

On a acquis la certitude que le semblant de civilisation dont les Iroquois paraissent avoir reçu les premiers cachets, est plus que superficiel. C'est toujours l'homme des prairies, hostile à tout ce qui peut aller à l'encontre de ses idées. Le Huron s'est fait aux idées des blancs dont il s'efforce d'imiter les manières. L'Iroquois, lui, reste presque toujours rebelle.

Le guérisseur de Caughnawaga, suivant ceux qui ont étudié ses méthodes de guérison, ne serait qu'un sorcier. Il recourt à tous les moyens de sorcelleries pour se maintenir en bonne grâce auprès de ses congénères.

Le curé de Caughnawaga déclarait samedi que les deux tiers des sauvages qui meurent dans ce village sont inhumés, sans certificat de médecin. Il faut cependant se soumettre, car on ne badine pas avec un Iroquois qui veut enterrer sa femme et que le guérisseur envoie au cimetière.

M. MacMahon disait ce matin: "J'ignore si l'Association des médecins de la province de Québec a droit d'agir dans tous les cas. Je sais bien qu'elle se montre d'une sévérité excessive pour les rebouteurs qui font cependant des guérisons surprenantes, mait a-t-elle le droit de laisser perpétrer, aux portes de Montréal, des crimes comme il doit sûrement s'en commettre à Caughnawaga?"

Nous croyons que c'est la première fois qu'un chef de jury prononce un discours allant à l'encontre absolument des remarques faites par un coroner qui se basait sur des témoignages sérieux pour parler.

La Patrie, Montreal, Feb.16,1914.

The Indians have faith in their sorcerer.

Impressions of Coroner McMahon on his return from Caughnawaga, where he held an inquest on the death of a woman of the band. The powers of the healer.

A verdict that surprises.

'The medicine man' still exercises at Caughnawaga considerable sway over the band; of this Coroner McMahon is to-day more convinced than ever. He went to conduct an inquest on the death of a woman who, it was believed, had been accidentally poisoned by the healer of the nation. The jurymen, all Iroquois, in their stoical manner declared that the Indian woman had succombed to tuberculosis, in spite of the severe words uttered by McMahon. The latter warned the Indians that in future he will hold thorough inquests in all cases of suspected death. This declaration will perhaps have the effect of making the 'medicine man' more prudent in the preparation of his herb medicines.

Such in brief are the facts of this sensational case, which will always remain, like so many others, a mystery for justice.

At the investigation held on Saturday by Coroner McMahon the Mayor of Caughnawaga was foreman of the jury. In an expressive speech, fully of anger and indignation, he opposed the intrusion of pale faces who come and try to destroy in the hearts of the Indians, descendants of the valorous Iroquois warriors, what still remains of the precious confidence in the 'medicine man'.

One has become certain that the appearance of civilization of which the Iroquois seem to have received the first seal is more than superficial. It is always the man of the prairies that is hostile to all that might go against his ideas. The Huron conforms to the ideas of

white men, whose manners he tries to imitate. The Iroquois remains nearly always rebellious.

The Caughnawaga warrior, according to those who have studied his ways of healing, is only a sorcerer, he has recourse to all means of sorcery in order to keep himself in good grace with his fellow tribesmen.

The parish priest of Caughnawaga declared on Saturday that two-thirds of the Indians that die in this village are buried without a medical certificate. One has, however, to submit, because one cannot argue with an Iroquois who wants to bury his wife, and whom the warrior is sending to the cemetery.

Mr.McMahon said this morning 'I do not know whether the association of physicians of the province of Quebec has a right to act in all these cases.'

'I know quite well that it shows excessive severity towards the bone-setters, who, nevertheless, make astonishing cures; but has it a right to allow the perpetration at the doors of Montreal of crimes such as surely ~~have been~~ are committed at Caughnawaga?

We believe that this is the first time that a foreman has made a speech absolutely contrary to the remarks made by a coroner who based the same on serious evidence.

L'Iroquois, lui, reste presque toujours rebelle.

Le guérisseur de Caughnawaga, suivant ceux qui ont étudié ses méthodes de guérison, ne serait qu'un sorcier. Il recourt à tous les moyens de sorcelleries pour se rendre en bonne grâce auprès de ses consœurs.

Le curé de Caughnawaga déclarait samedi que les deux tiers des sauvages qui meurent dans ce village sont inhumés, sans certificat de médecin. Il faut cependant se soumettre, car on ne badine pas avec un Iroquois qui veut enterrer sa femme et que le guérisseur envoie au cimetière.

M. MacMahon disait ce matin:

"J'ignore si l'Association des médecins de la province de Québec a droit d'agir dans tous les cas.

Je sais bien qu'elle se montre d'une sévérité excessive pour les rebouteurs qui font cependant des guérisons surprenantes, mais a-t-elle le droit de laisser perpétrer, aux portes de Montréal, des crimes comme il doit sûrement s'en commettre à Caughnawaga?"

Nous croyons que c'est la première fois qu'un chef de jury prononce un discours allant à l'encontre absolument des remarques faites par un coroner qui se basait sur des témoignages sérieux pour parler.

The Secretary,

Ottawa,

Sir:-

I beg to enclose herein a clipping of one of the Montreal newspapers " La Patrie " dated 16 February,1914, and to draw your attention to these few lines of the article in question , " Le curé de Caughnawaga déclarait samedi que les deux tiers des sauvages qui meurent dans ce village sont inhumés sans certificat de médecin. " I have shown this newspapers'article to the Rev. Mr. Curé of Caughnawahga who said that it is true that the largest number of the deceased indians of Caughnawaga are inhumed without a Doctor's certificate. I am not in position to say that this is illegal, but it surprised me so much that I thought it better to submit this question to your consideration.

Sir:-

Referring to your letter No 442 592, dated 26th instant, and to my letter of the 23rd with an excerpt from La Patrie, Montreal, dated the 16th instant, I beg to say that I am now informed that the Indians of Caughnawaga, as a whole, have never been requested to produce a medical certificate before the burial of one of their members. The parish priest gives the following reasons in support of his deffence: that the Indians have never been accustomed to produce such certificate; as the Caughnawaga Reserve is governed by Federal Laws are we supposed to observe one of the Provincial Laws; and that in the past a medical certificate was produced only in case of sudden death.

I beg to ask whether, or not, the same rule is to be maintained into the Reserve, if not, your Department will certainly have to give severe orders in this respect, for the observance of the new regulations amongst the Indians.

Sir,-

Your record no.442592

I beg to acknowledge the receipt of your letter of the 5th inst., in which you enclose an excerpt from "La Patrie" of Montreal, dated the 16th ultimo, with regard to an inquest held by Coroner McMahon on the Caughnawaga Indian Reserve, and also a copy of a letter, dated the 28th ultimo, from the Assistant Indian Agent at St.Constant, reporting in regard thereto.

You state that the Federal Indian Act makes no provision for the registration of births, marriages and deaths on the different Indian Reserves throughout Canada and that there is no Dominion legislation making the provincial laws applicable thereto; and you ask if we will indicate, under the circumstances, how the difficulty can be met on the Caughnawaga Reserve as to Indians who are buried without a medical certificate.

In answer, I beg to state as follows:

Art.4428 R.S.Q.1909, states that no interment shall be proceeded with before the officer appointed for the registration of acts of civil status has been handed a certificate establishing the cause of death, or a transport permit exchanged for such a certificate. For me, there is no doubt that, in the absence of Dominion legislation, this provision applies in Indian Reserves.

Compliance with this provision, we understand, is very difficult amongst a population such as that of a Reserve but we think that the difficulty could be met either by the Department

MEMO. to the Deputy Minister

Sir,

I beg leave to submit to your notice specimen copies of forms for standardising the timber estimates of the various Indian Reserves,which may be made from time to time.

These forms are compiled from personal data used in connection with the estimating of timber on behalf of the provincial Government of Ontario,and were originally modelled on the reports of the Bureau of Forestry at Washington.

They show in a clear and positive manner all details that it is necessary to know in connection with this work,and I trust that you may see fit to authorise the printing of a quantity of these,in order to facilitate the work,and also to systematise the returns of the timber estimates.

MEMO.

Notes on Mr. Bury's Memo. of 30th December, 1913.

It would be desirable to have an estimate of the quantities and kinds of merchantable timber remaining on the Indian Reserves, surrendered and unsurrendered, of 9 inches and upwards in diameter at the stump.

A description of each Reserve shewing its agricultural possibilities and general conformation, as to whether or not it is rough, rocky, level, swampy &c. and the probable acreage adapted for profitable settlement, with rough sketch indicating good, medium or poor land, leading roads, Indian Holdings and improvements, with the estimated areas, would be advantageous.

The extent and character of burnt and barren areas on Reserves, showing the probable value of same for timber and land, would facilitate the question of disposal of such.

Reports of examination of Reserves should shew the position of Lakes, Streams and Railways, by means of which timber could be removed.

The average quantiry of timber per acre, does not appear to be of any utility.

Information about diameters of trees, breast high, under the heading Density, would not subserve any useful purpose, and to ascertain the number of trees of each kind would be an almost impossible task, and involve much cost.

The

The average diameters and lengths of trees if carefully ascertained, might be found of service as a check on returns.

The Department is not particularly interested in the matter of Humus, Ground-cover, Underbrush, Sylvicultural conditions, or reproduction.

The Indian Reserves in Ontario and Quebec on which Timber Licenses are current, have been extensively, cut over, and the best of the timber has been removed therefrom, while in several instances, it is alleged that there is no timber remaining of regulation size, and that the Licenses should be cancelled.

Report of examination of the
COOCOOCACHE RESERVE.

The total area of this reserve is 380 acres, of which 79% can be termed suitable for farming.

Most of the land within the boundaries of the Reserve is undulating, being well adapted for stock-raising purposes.

The soil is inclined to be light and in very many places, stony, but there is an absence of any great masses of rock, which would prevent the working of the soil.

There is a small area of swamp land on the Western boundary, and the strip of land along the river front cannot be classed as agricultural land owing to the presence of a great deal of stone.

The timber on the Reserve is not very extensive, especially as certain portions of the Reserve have been burnt over, but there is a small quantity of white pine in the N.W. corner, and one or two good stands of spruce.

A plan showing the distribution of the timber, and land classification is herewith attached.

Report of examination of the

WEYMONTACHI RESERVE.

Copy on file 410923

The total area of this reserve is 7407 acres, of which 74% can be regarded as suitable for agriculture.

The balance of the land area is mostly swamp and rock.

The country is undulating in character, except for an area of about 1200 acres, situated N.W. of the Village, which is comparatively flat.

The soil is light and sandy, and in several sections there is considerable evidence of surface stone and rock.

The timber on the Reserve is very dense although not of great size. There are however several stands of good spruce and birch, which would cut out a nice proportion of merchantable lumber.

It is singular to note, that up to the present time there is no evidence of the visitation of fire, although perhaps with the advent of the Railroad, forest fires will in all probability occur, if not immediately checked.

A plan of the Reserve showing the lands and Timber is herewith attached, together with an estimate.

TRESPASS.

442626

It was brought to my notice when at Weymontachi that the contractors on the National Transcontinental Ry. had cut large quantities of timber off the Indian Lands for the construction of two trestles in that vicinity.

On making an examination of the bush, I found that a considerable number of large srpuce trees had been cut and the timber hauled away. This work had been done considerably outside of the limit of the right-of-way.

I also found evidence of trespass on the Coccococache Reserve, where a large quantity of white pine had been cut and removed about three years ago.

A winter road had also been cut clear across the Reserve from East to West.

Upon making enquiries, I was informed that the only Company who had operated in the vicinity about that time was the Wayagamac Lumber Co. with offices at Three Rivers and in my opinion I think it likely that they are responsible for this trespass.

There is no detailed information or particulars as to pieces, contents or values given in connection with the trespass case at Coocoocache, without which an intelligent or specific claim, cannot be formulated.

On enquiry I have been informed by the Surveys Branch that Mr. Bury valued the Right of Way across the Weymontachi Reserve, at $5.00 per Acre, and the value of timber cut outside of same at $50.00, also that a letter was recently sent to the Secretary of the T.R. Commissioners requesting payment of the sum of $214.80, for Land & Timber on Right of Way, and for Timber cut outside of same.

There is no Indian Agent near these St. Maurice Reserves, and whether or not one should be appointed, or to have an occasional visit made to them by the nearest Agent, is open for consideration.

Report of examination of the Restigouche, Weymontachi, and Coccoocache Reserves, with regard to the Lands and Timber thereon.

R E S T I G O U C H E.

This reserve has an area of 8,519 acres, and of this not more than 10% can be classed as fit for agriculture.

Except for a small area of 150 acres situated about the centre of the reserve, the only agricultural land is that to be found between the shore of the bay and the tracks of the Quebec and Oriental Railroad. This portion is being farmed by the resident Indians.

The rest of the land within the boundaries of the Reserve is so hilly, broken, and rocky in character, as to forbid any attempt at cultivation.

Especially is this the case along the Eastern boundary of the Reserve, where the hills in many instances attain an elevation of 2000 feet.

The timber to be found on the Reserve, although fairly dense and in good condition, is yet too small to be merchantable to any great extent.

Indian Affairs. (RG 10, Volume 3176, File 442,626 pt. 1)

442626

This however does not apply to the hardwood, including the maple and birch, as these two species of timber, attain a good size.

Fire has damaged several large areas, but it's action was restricted by reason of the physical features of the country.

Owing to the difficulty of building roads through the timbered areas, due to the hilly nature of the country, lumbering will always be rather an expensive matter.

However in course of time, the spruce and balsam fir should become very valuable, when mature growth is reached as there are some very big stands of these two classes of timber.

A plan of the Reserve is herewith attached, showing the lands and timber distribution, together with an estimate.

R E P O RVT

covering

Estimate and valuation of the Timber on the Indian Reserve at SHIP HARBOR .N.S.

The Reserve has atotal area of 500 acres, and is situated at the Northern end of Ship Harbor Great Lake about 50 miles N.E. of the city of Halifax.

There is generally speaking a fairly good stand of medium sized timber over the whole of the Reserve, although in certain sections notably in the South Westthere has been such wholesale trespassing carried on, in the past years, that the remaining timber of merchantable size is very limited in quantity, and having been culled over is now scattered and faulty.

There is considerable over one million feet of merchantable timber of different species comprising 895,000 feet of spruce, 98,200 feet of balsam fir, 31000 feet of white pine, 51000 feet of birch, 10,000 feet of hemlock, and about 3,000 cords of pulpwood.

The spruce and the fir timber is mostly in very good condition, as mature growth has not yet been attained, the average diameter of the merchantable trees being only 15 ins.

The pine and hemlock is defective, being stunted and subject to sap rot. The estimate of these two species of timber has been computed on a close utilisation.

Indian Affairs. (RG 10, Volume 3176, File 442,626 pt. 1)

The timber is all easily accessible, as in no case is there a longer haul than 2 miles to water/

The value of the various kinds of timber per M feet B.M. on the stump is

Pine $4.50
Spruce $4.00
Birch $4.00
Fir $ 4.00
Hemlock $3,50

averaging $4.00 per M feet B.M. on the stump for all kinds.

I would suggest that when tenders are asked for, they should state what amount per M feet B.M. on the stump the tenderer is prepared tp pay, and would also recommend that a limit of three years be set in which the merchantable timber is to be cut and removed. Sworn returns based on measurements made by a certificated scaler to be furnished the Department.

A plan showing the distribution of the timber and the class of land, is attached, with a detailed estimate.

Estimate and Valuation of timber on Indian Reserve

at

GOLD RIVER. N.S.

The Reserve has a total area of 736 acres and is situated near the mouth of the Gold River in Lu Lunenberg County, Nova Scotia.

The timber is mostly of small size, very little of it being merchantable.

There is a large tract in the center of the Reserve about 200 acres in extent, which is entirely denuded of trees, having been burnt over about three years ago, and is now covered with saplings of birch and poplar.

The remaining portion of the Reserve is covered with a fairly dense growth of small spruce and fir, pulpwood size.

Certain sections of this class of timber have been recently kiled by fire, and if the burnt and dry wood is removed within a short time, it would be available as pulpwood.

There is a small quantity of both green and dry rock pine, mostly occurring in scattered patches and inferior in quality.

The total estimate of green spruce covers 1310 cords ,green fir 370 cords,and green pine 7M ft. B.M.

There are 500 cords of burnt and dry spruce
50 cords " "" "" fir
6000 feet B.M. "" "" pine.

Pulpwood and firewood can be readily hauled to the river or the Railroad,and the value of the dry wood per cord on the stump is $1.00 for pulpwood and .75 ¢ for firewood.

As will be seen 65% of the small timber is green only 35% having been burnt,and now available for sale as burnt or dry wood.

A plan showing the distribution of timber and the classification of land is herewith attached.

in charge Lands & Timber Branch.

Re estimate of timber on Georgina Island Indian Reserve, Lake Simcoe.

Sir:-

In accordance with instructions furnished in telegram of the 15th. inst. I visited Georgina Island and examined the timber.

Generally speaking there is no very large quantity of timber on the island, although the elm which is of the water variety and softer than the rock elm, is in good condition and represents a appreciable asset.

The hemlock and basswood although not very large, is merchantable and is found in fairly large quantities.

EXD

The land is good, and the Indians should be persauded to devote their energies to agriculture, as in course of time their timber will be all cut off.

Some of the band have already cleared up and cultivated considerable areas, and in consequence are comparatively well off, especially in the case of the Chief Big Canoe.

Herewith is attached plan and estimate of Reserve.

Re desirability of having an examination made of the timber on certain Indian Reserves where permits to cut have been issued,and where the resources are believed to be limited.

There is nothing on record in the Department which would indicate the extent of the timber resources of the following Reserves:-

The above list is by no means complete but it includes those Reserves where timber is being removed in such quantities as to require an examination in order to enable the Dept. to take the necessary precautions in time to prevent the complete depletion of the timber.

#Note. Inspector McGibbon reports Sept.16th'14 that in his opinion all the timber on this Reserve is required for future use of Indians.Agent reports Dec.29th that Indians are cutting best timber and not clearing

To the Deputy Minister,-

481363

In view of the fact that the Department has practically no information in regard to quantities of timber remaining on many of the Indian reserves where permits have been issued to Indians in the past, I think it would be advisable to have an examination made of some of these reserves so that the Department would be in a better position to check cutting of timber by the Indians under permit, and make provision to safeguard their future requirements.

I would, therefore, recommend that Mr. Bury visit as early as possible the following reserves:- Walpole Island, Caradoc, Cape Croker, Christian Island, Garden River, Michipicoten, Batchewana, Fort William and Red Rock, and look fully into the timber question on each, and report as to the probable quantity remaining on the reserves and the requirements of the Indians.

MEMO. to the Deputy Minister.

Examination of Land and Timber
on the
CARADOC RESERVE.

Sir:-

The area of this Reserve is 10.800 acres of which 8.000 acres can be termed good agricultural land. There is very little waste land on the Reserve as the low land which at the present time is not cultivated could be made productive by instituting a partial system of tile-draining.

Owing to the fact, however that nearly 60 % of the present area of Indian land holdings is leased to white men, it would not appear to be at all wise for the Department to commit itself to any expenditure of a tentative or experimental character, until the Indians themselves exhibit a more pronounced desire to work their own land.

The supply of timber on this Reserve will in a short time be inadequate for the needs of the Indians. The available material for logs is very scarce, practically the whole of the remaining timber can be classified as cordwood, and as it seems to be the custom for the Indians of the Oneida Reserve to procure firewood from the Caradoc Reserve, (no doubt through a mutual arrangement between the bands), it is obvious

Indian Affairs. (RG 10, Volume 3176, File 442,626 pt. 1)

that the présent limited supply of wood will soon disappear unless steps are immediately taken to prevent the export of wood.

I would recommend that the practice of issuing permits to cut for sale be stopped altogether, and that the Indian Agent be notified that in future no applications for permits to cut for sale, will be sanctioned by the Department, and that he advise the Indians to govern themselves accordingly.

The estimate of timber remaining on the Reserve at the present time is as follows:-

Elm.....	26,000 ft.B.M.
Maple.....	200 cords.
# Mixed wood	3.480 cords.

Note. The wood consists of the following varities:- Elm. Swamp oak, soft maple, poplar.

Examination of Land and Timber
on the
WALPOLE ISLAND RESERVE.

LANDS BRANCH JAN 29 1915

Sir:-

The total area of this Reserve, inclusive of Squirrel and Ste. Anne Islands is approx. 40,500 acres.

Of this area about 60 per cent or 24,300 acres can be classified as good agricultural land.

The general character of the lands lying adjacent to the shores of the Islands is marshy, and is unsuited for farming purposes.

The timber growth is mostly second growth, and although there still remains an appreciable quantity of timber on the Reserve, yet in view of the fact that this supply must be drawn upon annually for the requirements of nearly 1000 Indians, I am of the opinion that permits to cut for sale should only be issued when there is no other alternative for the applicant to get his living. The conservation of the timber resources on this Reserve should receive attention now, if the supply is to continue to be sufficient for domestic purposes.

More attention should be given by the Indians to the raising of hay crops. There is a ready sale for hay, and there is a large area of land on the Reserve which is well suited for the growth of this

Examination of the land and timber
on the
Garden River Indian Reserve.

Sir:-

The area of the present Reserve exclusive of mining locations etc. is 28.510 acres.

A very large portion of the Reserve is composed of rocky ridges and elevations bearing a small growth of poplar and birch saplings. Some excellent limestone rock is to be found north of the school-house.

The timber on the Reserve is very widespread and for the most part in good condition. The pine however is scattered and cannot as a whole be classed as merchantable.

Poplar occurs in great quantities, but the average growth is small, and it can only be utilised as wood, for as it grows in size it is inclined to develop faulty core or heart.

The supply of timber and wood on the Reserve is still large, and should afford remunerative employment to the Indians for some time to come, although in my opinion the resident Indians would

Sir:-

The area of this Reserve is 468 acres of which 300 acres or approx.68% of the total area is suitable for agriculture.

The Reserve is well situated on the Nepigon River at it's point of entry into Lake Helen.

There are no prominent physical features, the land being mostly undulating.

The timber growth,although thick,is inclined to be undersized,except in regard to the poplar on the southern boundary.

Some excellent farm land is to be found along the route of the Canadian Northern Ontario Ry., but up to the present time this has not been utilised in any way by the resident Indians.

The cultivation of the land has not yet been attempted to any marked extent.

The timber resources are ample for the needs of the Indians,so that it would not be necessary at the present time to curtail the export

Examination of land and timber
on the
Fort William Indian Reserve.

Sir:-

The area of the Reserve is 8.673 acres of which 17% or 1200 acres can be classified as being suitable for agriculture.

A considerable portion of the Reserve is of a mountainous character, the timber growth being restricted to birch and poplar saplings.

There is approximately 2500 acres of timber land on the Reserve, most of such land lying on the East side and along the Lake shore.

Although as will be seen by the estimate shown below, there is a considerable quantity of timber remaining on the Reserve, yet the supply is by no means sufficiently large to warrant the cutting of any great quantity for sale, so that I would suggest that permits to cut for sale be issued in future only in cases where it is absolutely necessary.

The Indians should be encouraged to farm that portion of the Reserve adjacent to the northern boundary and also in the visinity of Squaw Bay.

Examination of land and timber
on
Christian Island.

Sir:-

The land area of Christian Island is 9260 acres of which about 7000 acres can be classified as agricultural land, and thirty five per cent of the total area or approximately 3000 acres is fertile land of good quality capable of producing heavy crops of cereals and roots.

Plan attached.

At the present time the Indians residing on the island betray a singular lethargy and lack of ambition toward matters pertaining to their livelihood, this being due in a large degree to the spirit of discord and obstruction that exists between the Treaty Indians and those outside of treaty. Such a state of affairs is detrimental to the best interests of the band, and unless remedied in some manner will tend to nullify their past efforts to improve their financial and domestic condition. Their land-holdings exhibit strong evidences of neglect, and their lumbering operations are carried on for the most part in a waste-ful and haphazard manner.

Indian Affairs. (RG 10, Volume 3176, File 442,626 pt. 1)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

There is a large quantity of merchantable timber and wood remaining on the Island, sufficient for the needs of the Band for many years to come, but at the same time it would seem advisable to rid the Indian mind of the impression that the timber is there to be removed by them in a wholesale fashion, but rather as an adjunct to enable them to occasionally eke out a living when other more profitable means of earning a livelihood have temporarily failed them.

The timber is mostly of the hard-wood variety consisting of beech, maple, elm, birch, ash, oak, and ironwood, and in addition to these species there are also quantities of hemlock, cedar, basswood, and scrub pine of the white, norway, and banksian varieties. Beech represents 50% of the total quantity of timber on the Island, and maple 27%.

There is a large quantity of timber on Hope and Beckwith is-lands which lie off Christian Island at a distance of 4 miles and 2 miles respectively, but there is a great fire-risk attached to these islands owing to the presence of fishermen, tourists, and Indians who land thereon during stormy or windy weather, and should a dry summer season occur, there is every likelihood of fire when once started, sweeping the islands clean.

The estimate of timber on Christian Island at the present time is as follows:-

Beech.....	7.600.000 ft.B.M.	Maple.....	4.000.000 ft.B.M.
Hemlock..	1.750.000 " "	Elm.....	325.000 " "

Examination of the lands and timber
on the
Spanish River Indian Reserve.

DEPT. OF INDIAN AFFAIRS
SEP 28 1915
SURVEYS

Sir:-

I.A.D.

The total area of this Reserve is approximately 28,000 acres of which only 10,000 acres can be classified as fertile agricultural land, whilst a further 8,000 acres can be regarded as 2nd. class land, fit for farming. The remaining 10,000 acres are for the most part rocky ridges, or sandy flats lying adjacent to the coast line.

The largest area of good land is to be found along the valley of the Spanish River. There are some excellent locations on the river front which could be easily worked with more tangible results that those visible around the Sagamok settlement on the other side of the Reserve. I am of the opinion that if a survey base line were run parallel to the course of the river, the Indians would have some inducement to settle in this vicinity and would be able to tie their own location lines to the base line, and in this manner each head of a family would be secure on his own holding. At present there is considerable friction among various members of the Band owing to the fact that they have so far no definite system of locations.

who has been settled on the river front for a period of three years,has made great progress with his improvements, for besides having cleaned up about 15 acres of land,he has fenced in a large area of bush for pasture,owns a team of horses,5 head of cattle,a threshing mill,gasoline motor boat,and a small circular saw mill operated by motor.

I am convinced that every effort should be used by the local Indian Agent to encourage the Band to follow this man's example,and in a few years a thriving settlement would grow up along the river,which would be a credit to the Band.

TIMBER.

Bush fires have from time to time swept along the high ridges that are so common on this Reserve,and after denuding them of all timber growth,have also encroached on the heavier timber in the gullies and valleys.A considerable amount of second growth timber is now to be found on the sites of these old bush fires,and will in the natural course of events ultimately become merchantable.

There is still a large quantity of hardwood on this reserve comprising the following varieties/-maple, beech,ash,elm,and birch,but the quantity of pine,both white and norway and hemlock is now very small,having been for the most part removed by the licensee of this timber limit.The estimated quantity of pine and hemlock being 500.000 ft. and 600.000 ft. B.M. respectively is barely sufficient for the actual requirements of the band for building purposes,as a considerable proportion of this timber is difficult of access.Cedar is not plentiful nor does it run to any great size,being only suitable for pole and post timber.

Indian Affairs. (RG 10, Volume 3176, File 442,626 pt. 1)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES

Poplar and spruce are fairly plentiful, but at the present time there is not much demand for these varieties.

There are ample supplies of timber for both domestic and export purposes, although some care should be taken that fire does not break out in the bush and get out of control, for in that event serious loss will certainly be inflicted as owing to the natural character of the country, there is no great physical check to any sporadic outbursts of fire.

A plan showing the quantitative distribution of the timber on the Reserve is attached, together with an estimate as follows;-

Memo. to the Deputy Minister.

Re EXAMINATION AND ESTIMATE OF TIMBER ON PARRY ISLAND INDIAN RESERVE.

Sir:-

The total area of the Parry Island Reserve is 18.481 acres of which only 15% or approximately 2.500 acres can be classified as land suitable for agriculture.

The greater part of the Reserve is rocky and stony, and in consequence will never lend itself to cultivation. In view of this fact, it is therefore evident that agriculture will never constitute the sole or principal means of livelihood for the band.

It would seem advisable in the interests of the Indians to conserve the remaining timber as much as possible, permitting only the Indians themselves to cut when need demands.

I would therefore suggest that negotiations be entered upon with the timber licensee whereby the license shall terminate.

Practically the whole of the pine and hemlock has been removed, but there is still a large quantity of hardwood remaining. Maple and beech represent the chief varities and are found widely distributed. Birch of good size is also fairly common. Other species of timber such as elm, ash, oak, basswood, cedar, tamarac and spruce are to be found but in not such great quantity.

Re examination and estimate of timber on Reserve No.38A.Kenora.

Sir:-

The total area of Reserve No.38 A or Clearwater Bay,is 8000 acres of which only 2000 acres or approximately 25% can be termed agricultural land,and a large proportion of this section is only second rate in quality. Swamp and rock constitute the larger portion of the land area,and only a small section in the neighbourhood of Washagamis Bay could be cultivated with success.

Fire has swept over the greater part of the southern peninsula,and the amount of devastation has been of such an extensive character,and so complete as to practically wipe out the merchantable timber,except for a small stand of pine and spruce along the south boundary.

An approximate quantity of 1,500,000 ft. of merchantable timber has been cut and removed by the Rat Portage Lumber Company during the last 4 years from this portion of the Reserve,and as indicated in my memo. of Nov.24th.last File 170965-2,no actual authority had been given them to operate over this area.Their quotation on the green pine,spruce and tamarac although very low was accepted by the Department on Oct.25th.1913 as being based on a quantity amounting to not more than 35,000 feet B.M.

PUBLIC ARCHIVES

My examination of their operations on this Reserve confirms my opinion expressed in memo.above referred to,that the Company had taken advantage of the concession made to them in October 1913,and have used this restricted permit as a pretext to operating on a scale which was never anticipated by the Department.

I interviewed the local manager of the Rat Portage Lumber Company at Kenora,and advised him that any further operation would have to cease pending presentation of this report,and the question of a renewal of the arrangement to cut the damaged timber,and green timber that was isolated by fire would have to receive consideration.

I would suggest that if the Company will pay a stumpage rate of $5.50 on Pine,and $4.00 per M on Spruce and tamarac on the timber they have already taken out,which would represent an increase of the stumpage of approximately 30% over the price that was accepted by the Department as being applicable to the small quantity of 35,000 feet, ~~that~~ they be allowed to continue operations for a period of three years paying stumpage at the rate above mentioned.

There are only two families of Indians resident on the Reserve,and they have not the equipment or inclination to log,so that it would appear to be in their interest to cut and remove the merchantable timber remaining on the Reserve,especially in view of the fact that there exists a considerable fire risk owing to the large quantity of inflammable debris resulting from fire and previous lumbering operations,and also on account of the proximity of the Reserve to the towns of Keewatin and Kenora.

In the event of the Rat Portage Lumber Company refusing this offer, I would recommend that the Indian Agent be instructed to receive offers from other sources, and that an arrangement be entered into with the party who can offer the most advantageous price.

Memo. to the Deputy Minister.

Examination and Estimate of Lands and Timber
on
Thessalon Indian Reserve.

Approved DL

Sir:-

The total area of the Thessalon reserve is 2,307 acres of which only 24% can be classified as good land, the balance being poor soil and second class land only suitable for grazing purposes. There is approximately 300 acres of waste land on the Reserve, consisting of rock and swamp.

The north eastern portion of the Reserve is almost denuded of timber, and the soil is mostly a gravelly loam. overlaid by a sandy loam. The area of good land is very limited, and at the present time is taken up by the Indians resident on the Reserve, who farm it in a hap-hazard fashion. A large portion of the reserve i.e. approximately 1500 acres is only suitable for grazing purposes, and is stripped of any timber growth of commercial value.

This Reserve is remarkable in possessing a large quantity of 2nd. growth White and Red Pine, Cedar, Hemlock and other conifers, but it will probably be several years before this timber has attained merchantable size.

There is an excellent stand of merchantable white pine south of the CP Railway, although it would be

considerable improved by the removal of the defective or faulty timber.The young stand averages 15 inches on the stump and in my opinion should be conserved for several years longer,before permission is given for it's cutting.The Hemlock growing towards the northemn section of the Reserve is for the most part prime,and should be cut,in order to realise the best value.Some of the trees are already deteriorating,and unless utilised in the near future will tend to injure the younger growth when blown down by the wind.

There is no great risk of fire from the Railroad,as the land contiguous to the road is covered with young second growth trees.

There is not an unlimited supply of timber for the use of this Band,and I would suggest that permits to cut for sale should only be issued when absolutely necessary.

The estimate of timber is as follows:-

Examination and Estimate of lands and timber
on the
Mississaga River Indian Reserve.

Approved

Sir:-

The total area of the reserve is 4350 acres, of which 1500 acres is good land suitable for agricultural purposes, whilst 2000 acres can be classified as 2nd. class agricultural land. The remainder, 850 acres is rock and swamp.

The best agricultural land occurs generally speaking throughout the entire Reserve, and is not limited to one section. The greater portion of land of this character is to be found along the north boundary of the Reserve, and especially bordering the Penewabecong River.

Some effort has been made by the Indians to farm portions of their Reserve, but the amount of energy expended along these lines, would appear to be small, in view of the paucity of results achieved.

There is a good supply of timber for the needs of the band, and in regard to some species, i.e. maple, birch and hemlock the trees have reached a prime age, and could with advantage be cut and removed. A great quantity of hardwood has been blown down, by wind three years ago, and at the present time is rapidly deteriorating.

PUBLIC ARCHIVES

The chief was interviewed in regard to this, and strongly advised to utilise this timber, before cutting into the standing green timber. The maple and birch grow to a good size, and there is a large quantity of good-sized hemlock through-out the northern portion of the Reserve.

As a rule the timber is in good condition, the factor for faultiness being only about 7%. The Indians should in my opinion be encouraged to take out their prime timber, as there is every reason to fear that it will not survive the action of wind and storms. There is a good market for timber products in the adjacent town of Blind River, and delivery is greatly facilitated by the Rivers Mississaga, and Penewaubecong.

The estimate of timber on the Reserve is as follows:-

Sir:-

The total area of the Serpent River Reserve is 27.030 acres,but only a small proportion of this comparatively large area can be regarded as suitable for agriculture.Probably only 3000 acres can be classified as good land,whilst 14.000 acres might be utilised for grazing purposes at some future date.There is a great deal of waste land represented by rocky ridges and precipitous gullies, amounting to approximately 10.000 acres.

At the present time this Reserve is a striking illustration of the evil effects of waste-ful lumbering methods.Fire has swept from end to end of the entire peninsula,leaving a desolate waste of bare rocks and tree-less expanses.The debris of tree-tops and branches left indiscriminately throughout the woods many years ago,has ignited and carried a volume of flame which has killed off the whole of the timber growth over a large area of the Reserve,and not only wiped out the forest,but also has burnt off the surface humus from the rocks,so that re-forestration by natural

processes will not be possible.

There is a large quantity of second growth norway and white pine on the shores of the lake, which in course of time will become merchantable, although the timber licensee has during the past winter cut and removed a great many trees which are not merchantable, subsequent action being taken by the Department on File 144511.

A large area south of the Railway has been burnt over, leaving the timber killed and dry, and to all appearances still sound. This timber is however mostly restricted to Red and White Pine, although there are clumps of tamarac, cedar and spruce which might be utilised. The Chief was interviewed on this subject but he insisted that there was no market for this class of timber.

EXAMINATION AND ESTIMATE OF THE LANDS AND TIMBER

on the

KEJIMKUJIK LAKE INDIAN RESERVE.N.S.

The total area of the reserve is 1,015 acres of which only about 35 % can be termed land fit for cultivation. There is a considerable area of high rocky ridges bearing a strong merchantable growth of hardwood timber such as beech, birch and maple.

Many of the small sections of the Reserve in Annapolis county are merely wild hay meadows or low marshes, the only good land being in the neighbourhood of the Eastern shore of the lake.

Although the surrounding country has been burnt over on several occasions it does not appear that fire has visited this Reserve at least for the past 70 years. The timber generally speaking is free from parasitic growths and a considerable portion of it is prime, especially the hemlock and beech, and might with advantage to the rest of the timber be cut and removed if done under proper supervision.

The Reserve, by reason of the excellent scenic attractions that it possesses is the haunt of many Nova Scotians and Americans for camping, hunting and fishing purposes.

Memo. to the Deputy Minister.

Examination and estimate of lands and Timber on Reserve No.17B.Rainy River.

In accordance with instructions I visited Reserve No.17 B and cruised it with a view to establishing an upset price for the merchantable timber.

There is a very small percentage of agricultural land on this Reserve there being only about 700 acres of land that can be classified as even 2nd.class in quality.There is a great deal of marsh,rock,and muskeg. The total area of the Reserve is 2439 acres of which practically 1800 acres is waste land.

The Reserve has been visited by forest fires on several occasions,one which,from indications,occurred about 20 years ago practically denuding the Reserve of the merchantable timber.The result id that today there is only a small quantity of timber fit for commercial purposes,although odd trees of merchantable size are to be found scattered over the Reserve.

Red pine and jack pine constitute the greater portion of the merchantable timber together with white pine. This last variety of pine appears to be very faulty exhibiting a considerable amount of rot and being also branchy in character.

The total amount of merchatable timber available for cutting does not exceed 600.000 ft B.M. and in all probability 220.000 feet of this owing to it's

scattered character, could only be logged at a loss.
The bonus value of this timber over and above dues
I would place at $1350.00.
A considerable amount of young jack pine is found but
is not sufficiently large to be classed as merchantable.
I am of the opinion that the period of time for this
operation should not extend beyond April 30th.1918 or
practically one season's operation.
As the amount is comparatively small it would hardly attract
the large lumber companies, and would therefore further
suggest that tenders should be placed only in the local
press for a limited time.
The estimate of timber on the Reserve is as follows:-

White Pine.....	100 M.
Red Pine.....	340 M
Jack Pine....	150 M and 600 cords.
Mixed cordwood	2000 cords
Spruce etc.	100 M.

EXAMINATION AND ESTIMATE OF THE LANDS AND TIMBER ON RESERVES NOS.35H &32C LAKE OF THE WOODS.

The total area of these two reserves is 1920 acres of which probably not more than 200 acres can be termed good land.Fire has visited the Reserve in recent years with the result that today there is not any appreciable stand of commercial timber.

Timber of cordwood size predominates the species being poplar,birch,spruce and balsam with scattered scrub pine of the white,red,and jack species.

At the present time the timber on this Reserve is not of appreciable commercial value.

The timber estimate is as follows:-

Pine.....150.000 ft.B.M.

Poplar 1.000.000 " "

Cordwood 6200 cords.

A plan showing the quantitative distribution of the timber is attached:-

Large areas of the Reserve have been burned over about 17 years ago,such land now bearing a sapling growth of poplar,birch and willow.

The Indians resident at the village have been in the habit of getting permits to cut dead and fallen timber,with the usual result-hap-hazard and wasteful lumbering of their good green pine stand,leaving the dead and fallen timber to become a total loss.In my opinion the less the Indians try to lumber their timber for themselves,the greater benefits will accrue to them in the long run.For many years past they have logged for themselves with the same result.They ask to log as a measure of relief,and when spring comes and they have received settlement for the

EXAMINATION AND ESTIMATE OF LANDS AND TIMBER

ON RESERVE NO.35 D.LAKE OF THE WOODS. 170963

The total area of this Reserve is approximately 2 sq.miles of which 800 acres is waste land represented by rock and swamp.The good land only occurs in small isolated patches inland from the Lake and consequently not easily accessible.

The timber on the reserve is fairly plentiful,there being several excellent stands of Red Pine.The Indians of this locality have lumbered the best part of the green stand recently under the excuse of cutting dead and fallen timber,whilst leaving the dead timber on the ground to become a total loss.

Owing to the fact that all the timber on the Reserve is adjacent to water the timber should realise a good price and I would place a value of $12.000.00 (twelve thousand dollars) exclusive of dues at tariff rates.

I would further recommend that this timber be placed on the market as soon as possible as the demand for this class of timber in that locality is very keen at the present time.

EXAMINATION AND ESTIMATE OF LANDS AND TIMBER ON RESERVE No.25D Lac la Croix.

The total area of this Reserve is 15.355 acres of which not more than 4000 acres can be regarded as being suitable for farming purposes. The agricultural land itself carries a very light sandy soil, there being no clay soils on the Reserve at all. The resident band of Indians grow some potatoes for their own use on plots surrounding their village but no serious effort is made by them to follow the pursuit of agriculture.

Until the present year no forest fires had visited the Reserve and in consequence the timber constituted a valuable asset. However in the month of May of this year a serious bush fire destroyed and damaged a quantity of timber on the N.W. corner of the reserve and it will necessitate the cutting of the damaged timber this winter if it is to be salvaged. Owing to the distance of the Reserve from civilisation and the corresponding long drive that will have to be made to market the logs, the sale of this timber should be arranged for as soon as possible if lumbermen are to be interested, and such sale should not be set later than Oct. 1st.

Entered Ledger L 19

The general condition of the timber is excellent the pine especially being sound and free from faults.

The main stand of timber consists of Jack Pine which makes excellent timber for railroad ties.

The timber is all accessible to water, the longest haul being only 2½ miles.

The estimate of timber is as follows:-

White Pine.....4.400.000 f.b.m.
Red Pine.....5.500.000 """
Jack Pine.....9.000.000 """
Poplar.....6.000.000 """
Spruce.....1.500.000 """
Cedar.....3500 poles.

A plan showing the quantitative distribution of the timber is attached.

I would recommend that only the merchantable conifers be sold as the poplar etc. has no present value.

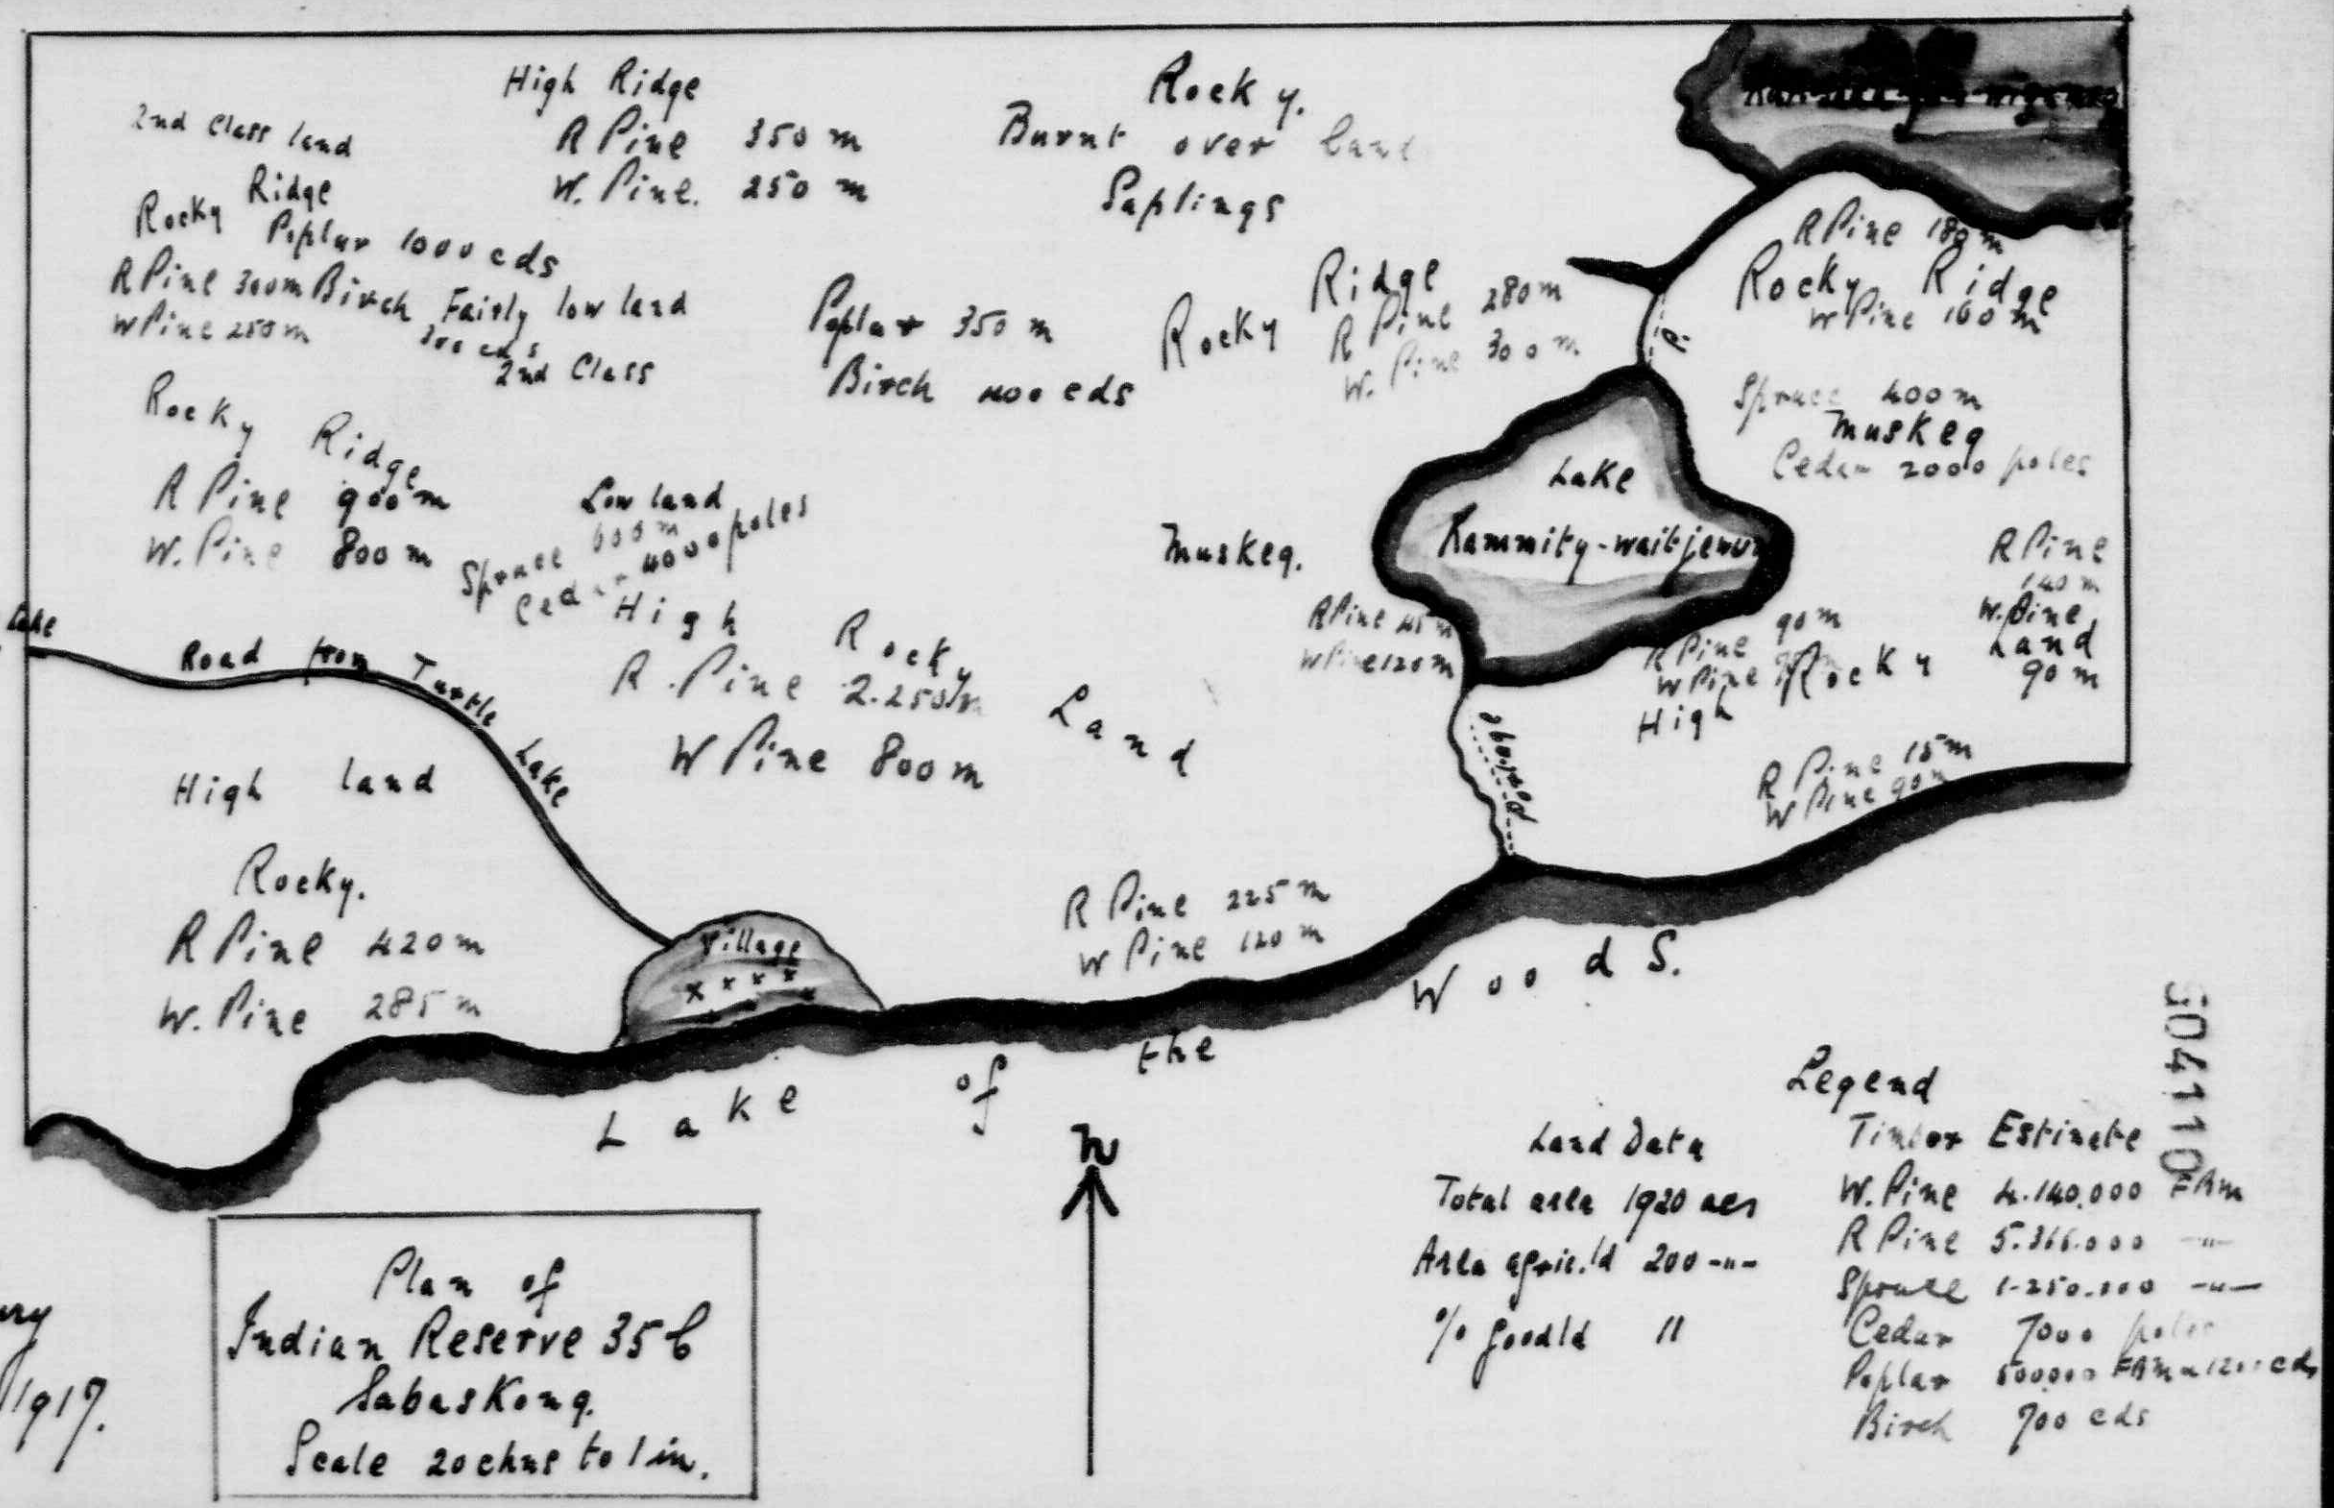

I place an upset price of $15.000 on this Reserve such bonus being exclusive of dues at tariff rates.

EXAMINATION AND ESTIMATE OF THE LANDS AND TIMBER ON RESERVE No. 35C Sabaskong Bay Lake of the Woods.

The total area of this Reserve is 1920 acres of which not more than 200 acres can be regarded as fit for farming purposes. Most of the Reserve consists of rocky ridges carrying a thick growth of pine, interspersed with small swamps and muskeg.

The main# stand of timber is located on a ridge that runs approximately east and west and slopes gradually south toward the lake shore, (Sabaskong Bay). This timber is probably the best remaining pine stand in the Lake of the Woods area although the larger growth of red and white pine is very susceptible to faultiness, due to an over-prime condition. It is questionable whether this large over-prime timber will cut out a sufficient quantity of grade lumber to warrant its utilisation, but this could only be demonstrated after actual cutting had commenced.

entered Ledger 218

The timber of other species on the Reserve such as spruce, cedar, poplar, birch & balsam is not of large size but fairly thick in density and comparatively free of fault.

EXAMINATION AND ESTIMATE OF LANDS AND TIMBER on Reserve 32B Lake of the Woods.

The total area of this Reserve is 4454 acres but only a small proportion of this area consists of land which is suitable for cultivation. Not more than 500 acres or approximately 11 per cent of the whole area could be used for farming purposes. There are no Indians permanently residing on the Reserve although occasionally one family lives there in the winter months.

At one time there was a considerable quantity of pine timber on this Reserve but this has mostly been cut by Indians under permit and from an examination of the cutting I am not at all surprised that the Indians do not make any profit from their lumbering. Tops of sound pine averaging 12 inches in diameter are lying all through the woods and even sound trees have been chopped down and left to rot. Many good pine logs were also counted that had been left on the ground and not hauled out.

The chief species of timber left is poplar and of this there is a fairly large quantity which is of good size and fairly free from faults. This timber should make excellent material for the manufacture of staves, barrels, and boxes etc.

The timber is all of easy access and being adjacent to lake waters no drive will have to be made. The Black River itself is not suitable for driving as there is not sufficient water and the river is full of rapids etc.

The shore line is rocky and covered with a stunted growth of jack pine and spruce with occasional groves of inferior ash and oak in the gullies. The soil on that portion of the Reserve fit for farming is inclined to be light and sandy, the thickness of vegetable loam being very slight. There are no Indians resident on the Reserve and only one dilapidated house.

The merchantable timber consists for the most part of poplar which is in prime condition being not large or afflicted with black heart or rot as very little indication of fungus growths were perceived. There is a fairly large quantity of dry cedar, which would cut up into good post timber, on the southern side of the Reserve.

The Reserve has rather an exposed position on the Lake of the Woods and will never be a permanent site for residence on the part of the Indians of the band as this band have excellent land, enough for their needs on Reserve 35 G only 8 miles distant.

EXAMINATION AND ESTIMATE OF LANDS AND TIMBER ON RESERVE No. 35 G. Lake of the Woods

The total area of this Reserve is 8960 acres and at least 28 per cent of this area or approximately 2500 acres can be classified as land fit for farming purposes. Most of the good land lies adjacent to the Big Grassy River and also along the southern boundary especially in the vicinity of Minahico creek.

Owing to the raising of the water level on the Lake of the Woods due to the erection of a large dam at Kenora a great portion of the basin of the Grassy River is flooded and the river now flows through a series of large marshes.

There are several houses erected near the mouth of the River in which about 10 families of Indians permanently reside. Fire had swept over portions of the Reserve during the past year and although no great damage was done to the large timber yet many acres of young growth were killed.

The lake shore, especially that portion comprising the northern peninsula is very rocky and has little protection from strong winds.

The timber is of a very mixed variety with poplar being the predominating species. Small stands of red and white pine occur, and pine is scattered singly over a great portion of the Reserve. Most of the jack pine is not yet

Memo. to the Deputy Minister.

EXAMINATION AND ESTIMATE OF LANDS AND TIMBER ON RESERVES Nos. 33A and 34A Lake of the Woods.

The total area of Reserves 33A and 34 ~~A~~ is 4478 acres of which 2000 acres is fairly good land and suitable for farming.

There are no Indians living on these Reserves and no improvements have been made. The shore line on Whitefish lake is very rough and rocky and not at all suitable for agriculture, but toward the interior and especially North West from Wapoose Lake the country is undulating and covered with a growth of aspen and balm of gilead.

The chief species of timber is the poplar which occurs generally all over the two Reserves and in many instances produces good stands of merchantable timber.

The red, white and jack pine are found in small quantities. Some hardwood such as swamp elm and ash is to be found, but there is no appreciable quantity of these two species of timber. The usual mixed stand of the spruce, cedar and tamarac type occurs in some localities.

The estimate of timber is as follows:-

Poplar....	2500.000 f.b.m.	Pine...	355.000 f.b.m.
Spruce...	750.000 " "	Balsam..	100.000 " "
Birch...	50.000 " "	Cedar..	1000 poles 3000 posts

EXAMINATION AND ESTIMATE OF LANDS AND TIMBER ON RESERVE No.33B Lake of the Woods

The total area of this Reserve is 3228 acres and and considerable percentage of this i.e.48% comprises land suitable for agriculture.The best land is adjacent to the lake shore.Owing to the raise of the Lake level there is about 350 acres flooded at the present time.There are several large wild hay meadows but the Indians do not appear to make any effort to cut this hay for the use of horses etc. There are several houses erected on the Reserve but these are only occupied in the winter months. If the Indians were encouraged to clear their land up it would not be very long before they would be self-supporting.

entered Ledger f 14

The timber is mostly of the poplar, spruce, cedar type not running very heavy or large but a thick growth of medium size.The tamarac on the Reserve has all died within the past few years,due no doubt to the attacks of the larch saw fly.There is very little good pine,the only representative of this type of conifers is the jack pine and this does not attain any great size.

The estimate of timber is as follows:-

Poplar.....	2.250.000 f.b.m.	J.Pine....	200.000 f.b.m

EXAMINATION AND ESTIMATE OF LANDS AND TIMBER ON RESERVES Nos. 34C and 37C N.W. ANGLE Lake of the Woods.

The total area of these two adjacent Reserves is 1440 acres of which at least 70 per cent or approximately 1000 acres can be termed agricultural land, although the soil is light, consisting of a light loam over-lying a sandy sub-soil. Fire has in past years practically swept the entire Reserve and the consequence is that a small second growth of populus tremuloides or aspen has appeared, choking out the re-seeding of valuable timbers such as the white, and red pine which at one time constituted the greater part of the timber stand.

entered Letter 7a3

Owing to the raise of water on the Lake of the Woods, the North West Angle river is always considerably flooded and the shore line consequently marshy.

The estimate of timber is as follows:-

Spruce.....	25.000	"""

EXAMINATION AND ESTIMATE OF LANDS AND
TIMBER ON RESERVES 37B and 34C. Lake of the Woods

The total area of these two adjacent reserves is 1959 acres. Probably about 47% of this area or approximately 900 acres can be regarded as suitable for agriculture, but the land as a rule lies at a low elevation and a large part of the total area consists of swamp or musk-keg.

The shore adjacent to the North West Angle river is now flooded, owing to the rise of water on the Lake of the Woods due to the dam at Kenora, and at the present time the shore line is one long extensive marsh of wild rice, the haunt of innumerable water fowl.

Entered Ledger 72

There is a mixed stand of poplar, spruce, cedar type of timber on the Reserves. The tamarac is practically all dead owing to the attacks of the larch saw-fly. This species of timber however will furnish good cordwood and the Indians should in my opinion endeavour to salvage this dead wood.

The estimate of timber is as follows:-

Poplar....2.000.000 f.b.m. Spruce..2.200.000 f.b.m.
Tamarac.. 750.000 """ Cedar 8000 poles 15000 posts

Mr Bury's report on examination of timber

EXAMINATION OF LANDS AND ESTIMATE OF TIMBER ON ST.CROIX RESERVE, N.S.

The total area of this Reserve is 268.3 acres of which approximately 48% or 140 acres is suitable for cultivation.

The general character of the land is rough and unusually hilly although the quantity of actual waste land does not exceed 70 acres. There are no Indians resident on the Reserve and no white settlers living in the vicinity.

The timber consists of the mixed conifer and deciduous type, the hemlock growing to good size in certain locations, but inclined to be faulty and subject to rim rot.

The most important species of timber on the Reserve are Hemlock and Birch.

EXAMINATION OF LAND AND TIMBER ON PAUL'S BASIN RESERVE./COLDWATER NO.2.

The total area of this reserve is 1594 acres, of which 600 acres can be termed as suitable for agriculture, the balance being for the most part rocky ridges interspersed with light sandy flats.

The timber on the reserve is nearly all of one species- yellow pine- although there is a small quantity of fir of merchantable size, and poplar and cotton-wood along the valleys of the creeks and rivers. The yellow pine has reached a mature stage of growth and is inclined to be faulty in character, and also subject in a slight degree to infestation by ambrosia beetles. This infestation is rapidly spreading, and I would strongly recommend that the timber be cut and removed with as little delay as possible.

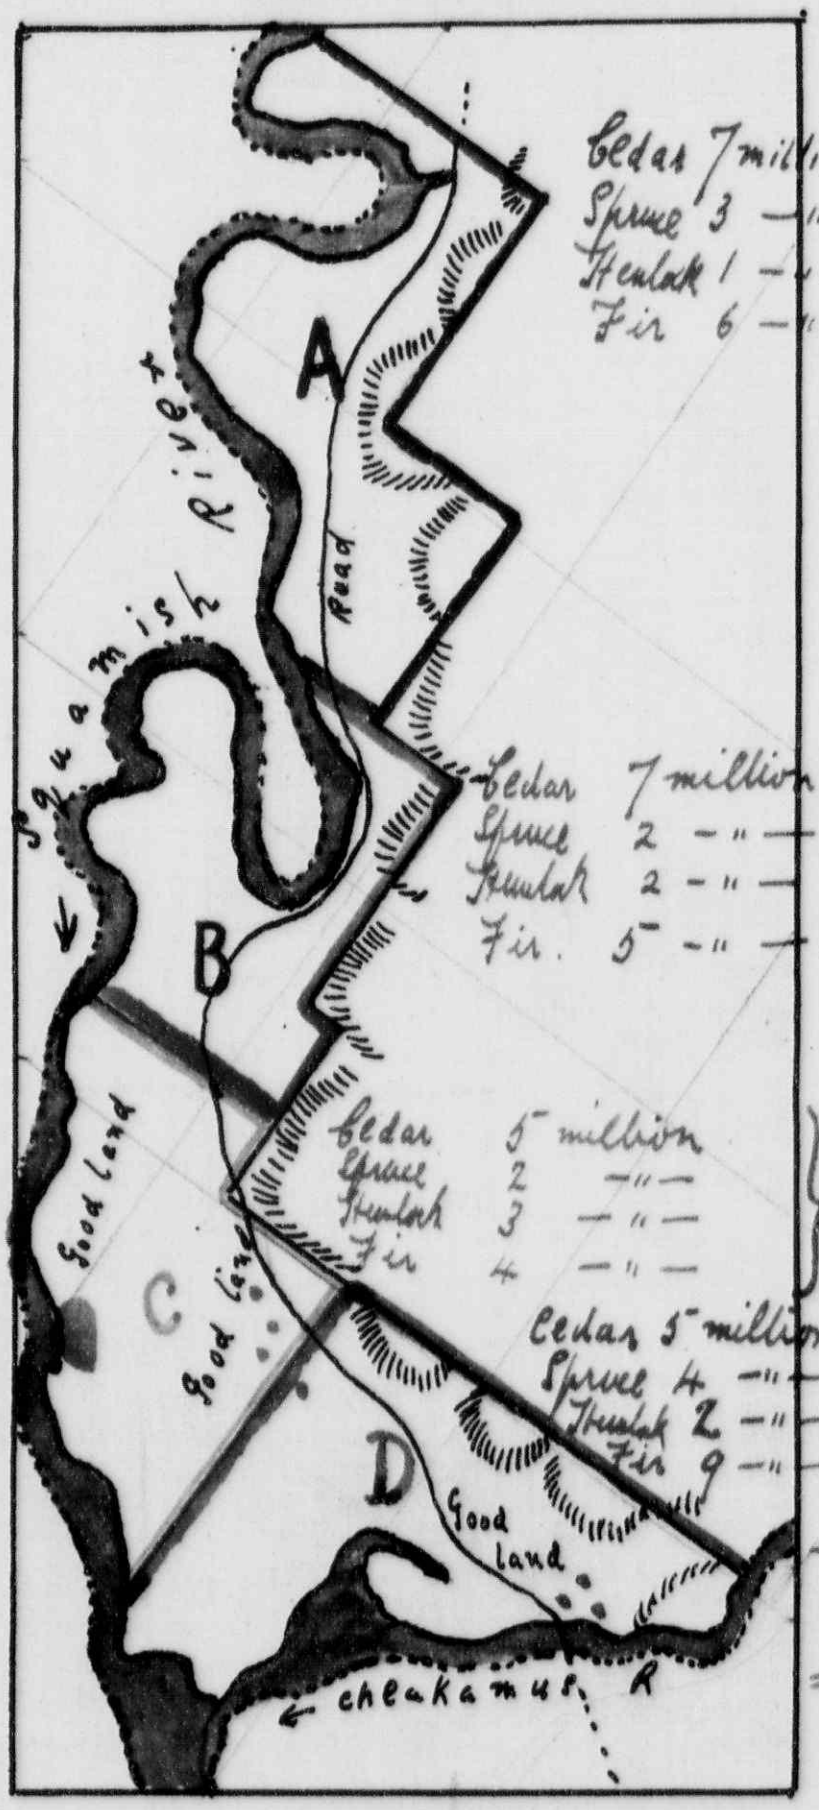

The total quantity of timber on the reserve is approximately 11.000.000 feet, but as will be seen by the accompanying plan, I have divided the entire reserve in such a manner as to leave a portion amounting to approximately 440 acres to be retained for the Indians' use, whilst the remaining portion of 1.154 acres constitutes the major portion of the standing timber, carrying 8.400.000 feet of pine and 600.000 feet of fir. In this manner it will only be necessary to issueone license to cover the 1.154 acres. I place a bonus value of $5.650.000 on this limit over and above dues at $1.00 per M. Full details concerning Indian settlement and progress on this reserve are submitted on Form No 1 F.No.442626-6.

to the Deputy Minister,-

Estimation & Valuation of Timber on the Cheakamus reserve.

The total area of the Cheakamus reserve is 4,046 acres, and has been subdivided into four blocks of approximately 1,000 acres each by Mr. H. H. Brown, D. L. S. A fairly large proportion of the land is fertile and when the timber is removed can be made to produce heavy crops. The greater portion of such land is contiguous to the Squamish River and to the main road running entirely through the length of the reserve to the northern extremity. There is a range of hills of almost a mountainous character running the whole length of the reserve, along the eastern boundary, the elevation of these hills being in some cases as much as 2,000 feet. A considerable portion of the timber on the reserve is so situated on the flanks of the mountains and in precipitous gullies as to be somewhat difficult of operation, and it is questionable whether or not the expense of installing either overhead cables or donkey-engine machinery would warrant the cutting of this comparatively inaccessible timber.
For the most part the timber on the reserve is prime, the cedar and fir being especially inclined to faultiness by reason of having passed the mature stage of growth.
The total quantity of timber on this reserve is 67,000,000

In regard to the bonus value of this timber I place a bonus of $28,000 over and above dues at the rate of $1.00 per M. The timber which is readily accessible is approximately worth 50 cents per M. on the stump, over and above the $1.00 dues, but, as I previously remarked, a considerable portion, or approximately 23,000,000 feet B. M., is so difficult of access as to be not worth even $1.00 per M. to remove it.

The Indians of the Band held a meeting at the time of my visit, and have forwarded a petition herewith attached, asking that such portion of the funds which

might be derivable from the sale of their timber should be devoted to assisting them to clear their land and to erect suitable houses and provide them with implements and stock. I beg leave to recommend that the timber be disposed of with as little delay as possible, as the fire risk is very great, owing to the proximity of the Pacific Great Eastern railway to the reserve.

The Band of Indians on this reserve exhibit every indication of industry and energy, and afford a satisfactory comparison with those Indians further East. This Band labour under considerable difficulties in preparing their land for cultivation, owing to the great size of the timber and the thickness of the growth, and I would certainly recommend that the Indians wishes as expressed in the enclosed petition be considered favourably.

A plan is attached showing the distribution of the timber.

Examination of lands and timber on Seabird Island

The total area of Seabird Island confirmed by the Royal Commission on Indian Affairs for the Province of British Columbia is 282 [illegible] acres, all of which can be regarded as first class agricultural land. The report submitted by the local Indian agent that the island had been swept by fire is entirely incorrect. A small ground fire originated from one of the Indian clearings, G.Pettis, and was caused by the Indian undertaking to burn slash adjacent to his clearing. This fire did no damage whatever to the standing green timber. The green timber at present on the reserve is in one block covering approximately 600 acres at the northeastern extremity of the island. The remaining part of the reserve has been burned over from time to time, presumably from fire originating from the Canadian Pacific Railway, the main line of which traverses the entire island. A considerable portion of the dry timber has been removed by the Indians under permit, but there is approximately 6,000 cords of green cedar shingle bolts remaining on the island, on which I place a valuation of $4,000 bonus over and above dues at the rate of $1.00 per cord. The Indians resident on Seabird Island at a meeting held for the purpose passed a resolution which is herewith attached stating that they would be pleased to have the Department dispose of the remaining green timber along with the dry timber, so that funds might be realized wherewith to assist them in some

degree to improve and cultivate their holdings.

I would strongly recommend that the sale of this timber be made without delay, as there is considerable danger of the green timber being burned, and also large quantities growing on the bank of the Fraser river falling into the river owing to the action of erosion of the banks due to the floods which constantly occur.

In regard to matters relating to Indian holdings on this island, these have been dealt with on file No.

EXAMINATION OF LAND AND ESTIMATION OF TIMBER ON THE BERSIMIS INDIAN RESERVE.QUE.

The total area of the Bersimis Reserve is 63.000 acres or nearly 100 sq.miles.The general character of the land is flat,there being no pronounced elevations although towards the northern boundary there is a range of small hills running in a westerly direction from the river Rosiere.The soil is for the most part very light and sandy on the high ground, and tends to be swampy in character along the course of the rivers,whilst a large area is entirely muskeg.

Very little of the total area can be classified as agricultural land,although certain widely scattered sections could be utilised for hay.

The timber is mostly of the coniferous species and comprises,spruce,balsam fir,and small cedar with birch intermingled in certain localities.The spruce stand represents approximately 75 per cent of the total quantity of timber,and averages about 12 to 16 inches on the stump.There is no appreciable quantity of large saw-log timber,the whole limit being well suited for pulpwood,and by reason of the flat character of the entire reserve,can be readily operated.

The general condition of the timber is excellent, the factor for faultiness being very small.There are good facilities for watering the logs as the rivers

Nepee,Rosiere,Papinachois,and Bersimis form the boundaries of the Reserve besides a frontage of nearly 8 miles on the St.Lawrence river.As there is a tide on the St.Lawrence at this point of nearly 11 feet, the loading of the wood can be readily affected by means of lighters or barges.

At the time of the surrender of the timber the Indians expressed a wish to retain a certain portion of their Reserve for their own use,and after a preliminary reconnaissance of the timber I selected a portion of the Reserve about 2 sq.miles in extent at the southern extremity and including the Indian settlement.This is shown on the attached plan.

The total quantity of timber on the reserve is as follows:-

Spruce..saw-log size.....60.000.000 f.b.m
Spruce pulpwood size.....260.000 cords
Balsam fir "" " ..... 50.000 ""
Birch (cordwood) ..... 40.000 ""

If the entire stand is operated as a pulpwood limit it should produce 450.000 cords of wood.

I place a valuation of $150.000.00 as a cash bonus over and above dues at the rate of 40 cents per cord.

A plan showing the quantitative distribution of timber is attached.

Ottawa, July 8th. 1918

Memo. to the Deputy Minister.

ESTIMATE OF TIMBER ON THE SLIAMON RESERVE, NEW WESTMINSTER DISTRICT B.C.

The total area of this Reserve is 1924 acres, the land being for the most part sandy along the coast and rocky hills toward the interior. Very little of the total area is suitable for cultivation, there being approximately 300 acres which could be used for agricultural purposes.

The timber is mostly of the Fir, cedar and spruce species some of the trees attaining a diameter of 6 feet.

Almost the whole of the S.E. portion of the reserve has been burned over by fire, and every vestige of green timber has been destroyed.

The estimate of timber remaining on the reserve is as follows:-

Entered Ledger a/c S.14

Douglas Fir.....5.000.000 f.b.m.
Cedar.....6.000.000 " "
Spruce..... 1.000.000 " "

I place a bonus value of $5000 on the timber over and above dues.

A plan of the Reserve is to be found on F.442626.

ESTIMATE AND VALUATION OF TIMBER
ON RESERVE NO.38 B.Matheson's Bay.

The total area of this Reserve is 5289 acres of which a large portion approximating 1000 acres is under marsh. About 4000 acres comprises land unsuitable for cultivation consisting of muskeg and rocky ridges. There is a small area not exceeding 500 acres which may be termed agricultural land, but this class of land is only found in small scattered sections throughout the Reserve.

There is only a small quantity of timber suitable for lumber, although the Reserve carries a fairly large quantity of cordwood. The predominant species of timber is birch and poplar of cordwood size although there are isolated pockets or stands of pine, Cedar and tamarac.

Entered Ledger A/c f 12

The estimate of timber is as follows:-

White pine....80.000 f.b.m
Red Pine.....200.000 " "
Jack Pine... 250.000 " "
Cordwood (sundry woods) 5000 cords.
Cedar..... 1000 posts
Tamarac..... 500 ties.

As the cordwood is not sufficiently large in size to warrant the cutting of it at the present time, I would recommend that the sale of the timber be restricted to saw-log timber.

I place a valuation of $2000 bonus over and above dues at the usual tariff rates, and as the Indians have asked to have the timber sold for their benefit as soon as possible I would recommend that the sale by public tender be arranged for immediately, in view of the lateness of the season.

ESTIMATE OF TIMBER ON RESERVE NO.31E

BIG ISLAND,Lake of the Woods.

The total area of this Reserve is 1920 acres.Only a small portion of this area,approximately 400 acres could be used for agricultural purposes.There is a great deal of waste marsh and swamp land.

The timber is of the spruce-poplar type the predominant species being poplar and birch of cordwood size.Fire has swept a considerable portion of this reserve,and this land is now only producing an inferior growth of poplar.

ESTIMATE OF TIMBER ON COLDWATER RESERVE
NO.1.Kamloops District B.C.

The total area of this reserve is 4640 acres of which 900 acres or approximately 18% is suitable for agricultural purposes. Most of this agricultural land is to be found between the Coldwater river and the road and lies on either side of the Kettle Valley R.R.

The timber is mostly of the yellow pine species inter-mixed with fir and at the present time shows some slight indication of the presence of insect parasites. This infestation is especially noticeable on the flanks of the hills which bound the reserve on the S.W. corner.

Entered Ledger 1/c 20

For purposes of sale it will be necessary to divide the Reserve into approximately 1000 acre blocks and from my personal knowledge of the locality and as a result of the cruise I would suggest that such division follow the plan as shown on the forest plan attached. This division shows three limits A,B & C with a portion reserved for the use of the Indians consisting of the land bounded by the river and the road, running throughout the entire length of the Reserve.

The estimate of timber is as follows:-

Limit A...	Yellow Pine.	8 million f.b.m	Area	
	Fir.....	450.000 " "	1280	acres
" B...	Yellow Pine	5 million f.b.m.

EXAMINATION OF LANDS & TIMBER

Grand Lake Reserve N.S.

The total area of this reserve is 1000 acres most of the land being rough and rocky and entirely unsuitable for cultivation. There is approximately 100 acres of the Reserve suitable for farming purposes and this is to be found mostly along the line of the creek flowing into Grand Lake.

The timber is not large in size but there is a good quantity of merchantable spruce, birch maple and other softwoods such as poplar, balsam with red and white pine intermingled.

The total quantity of timber on the Reserve is as follows:-

Red & White Pine.....	100.000	f.b.m.
Hemlock.....	50.000	" "
Spruce	1.500.000	" "
Balsam.....	250.000	" "

Entered Ledger 9/17

As the Indians have only surrendered the softwoods for sale such as pine, spruce, hemlock balsam & poplar and I would place a bonus price of $6.500 on this timber exclusive of dues at the usual tariff rate.

As there is considerable local demand at the present time for standing timber I would recommend that it be sold as soon as possible.

EXAMINATION OF LANDS & ESTIMATE OF TIMBER

TABUSINTAC RESERVE N.B.

The total area of this Reserve is 4.730 acres of un-located land.The original reserve comprised over 8000 acres but 3.270 acres has been settled upon by white squatters since the year 1860.

About 800 acres of the present area is good agricultural land,but this class of land only occurs in small parcels distributed over the entire reserve and mostly to be found in the neighbourhood of the river and Backs Brook.The rest of the land is rocky, and swampy in character.There are no Indians resident on the Reserve.

The timber stand is still fairly valuable,there being a good quantity of pine,hemlock,spruce,fir and poplar with some maple and birch.The reserve belongs to the Indians of the Burnt Church band and can be regarded as a timber limit rather than land suitable for occupation.

Although the general stand of timber is not large yet the quality of timber is good,and in stands where the trees are not of merchantable size,the dense growth will in course of time if properly conserved,produce a valuable cut of timber of saw-log size.

The timber can be readily watered and boomed to the mills.

The estimate of timber at present on the reserve is as follows:-

Pine.....	500.000	f.b.m.
Jack Pine...	400.000	" "
Hemlock.....	600.000	" "

EXAMINATION OF LANDS & ESTIMATE OF TIMBER

REDBANK RESERVES. N.B.

The total area of the combined reserves at Redbank is 6.310 acres. Very little of the entire area can be classified as agricultural land with the exception of that portion situated near the junction of the North West branch and the Little South East Branch of the Miramichi River where the Indian settlement is established.

The block of land on the NorthWest branch as also that on the Little South East branch is for the most part very rough country, composed of rocky ridges and sandy ledges. On-ly small scattered sections of these two areas can ever be utilised as agricultural land.

The timber on these reserves is mostly all cut with the exception of the poplar. There is a large quantity of small immature timber still on the ground which is large enough for firewood but not suitable for saw-log timber. In past years, white squatters as well as the Indians of the band have exploited the timber on these two reserves without let or hindrance, with the result that now there is neither timber of any large commercial value remaining, nor is the equivalent of stumpage dues in the funds of the band.

No permits to cut timber other than firewood should be authorised for a period of ten years, so as to anable the immature growth to attain merchantable size. The granting of permits to cut logs or ties only encourages the Indians to cut down timber under-size and results in no advantage to the Indians themselves or to the future value of the timber stand.

The estimate of timber at present on these Reserves is as follows:-

Princess (Jack) pine	200.000	f.b.m.
Spruce	450.000	" "
Poplar	500.000	" "
Cordwood (mixed woods)	15.000	cords.

The total area of the Big Hole Tract is 6.303 acres of which only 5% or approximately 300 acres could be termed agricultural land. Most of the country is very rough and the soil is light and sandy. Low swampy land and rock comprises the major portion of the tract. The Redbank band own the northern portion of the tract whilst the Eelground band own the southern portion. Ther are no Indians living on this Reserve.

entered Ledger B17

The general timber growth is small, the greater part of the merchantable timber having been cut in years gone by. The average diameter on the stump does not exceed 10 inches. There is a thrifty growth of Princess Pine on the southern corner of the Reserve and some good merchantable poplar along the N.E. section. The only merchantable timber now on the Reserve is tie timber outside of the poplar saw-log timber. The estimate of timber on this reserve is:-

EXAMINATION OF LAND AND ESTIMATE OF TIMBER

EELGROUND RESERVE.N.B.

The total area of the Eelground Reserve is 2.682 acres of which not more than 500 acres can be termed land fit for agriculture.All the good land on the Reserve is adjacent to the bank of the N.W.branch of the Miramichi River,the territory lying north of the main highway being for the most part swamp,marsh and sandy ledges.

There is a thriving community of Indian living on the bank of the river,comprising a village of about 25 houses with Church and School.

The timber on the reserve is all second growth conifers with a small hardwood(maple) ridge at the northern extremity of the Reserve.The principal species of timber are Princess (Jack) Pine,balsam fir,hemlock, poplar,maple and small birch.Nearly all of the merchantable timber has been cut off by the Indians,and the remaining timber in my opinion should be conserved for at least 15 years.At the present time the Indians are taking out a quantity of under-size ties cut from trees that rarely measure more than 9 inches on the stump. They would be much better employed working in the lumber camps at good wages than slashing off their un-prime timber at a low piece work rate.I would therefore recommend that permits to cut timber on this Reserve be withheld for some time to come,as this band have a fairly good supply of timber on their tract at the Big Hole.

The estimate of timber is as follows:-

Princess Pine.....	250.000	f.b.m.

BURNT CHURCH RESERVE N.B.

The total area of this Reserve is 2,058 acres of which not more than 400 acres can be regarded as land suitable for cultivation. There are approximately 700 acres of land north of the Burnt Church river which could be utilised for grazing purposes, but the major portion of the Reserve comprises swamp, marsh and ledges of light sandy soil. The Indian settlement is south of the river, most of this area being used for gardens and small fields by the Indians.

The merchantable timber has been cut years ago, the remaining timber being second growth of spruce, jack pine maple, birch and poplar. There is an ample supply of this class of timber for fuel purposes for the Indians.

The estimate of timber at present on this Reserve is as follows:-

Spruce	60.000	f.b.m.

ST.CROIX RESERVE N.B.

The total area of this Reserve is 200 acres and the entire reserve being mostly rocky and unfit for cultivation could only be utilised for grazing sheep or goats.There is no land suitable for cultivation.

The timber growth is restricted to birch and maple cordwood mostly of second growth and not attaining any large size.There is approximately 20.000 f.b.m of mixed hemlock,spruce and balsam fir which is scattered through the main timber growth and would be of some little value if taken out with the rest of the timber.

There are no Indians resident on the reserve and none have occupied it for the last 60 years.Owing to its proximity to the International Boundary between New Brunswick and the State of Maine,the guardian of the Reserve ,Mr.Samuel Orr who receives $15.00 per annum for his services informs me that he always has some difficulty if preventing Americans from the town of Vanceborough coming across the ice of Cheputnecticook Lake in the early winter and cutting a load of wood and hauling it across the line.

I beg leave to recommend that the Indian Agent at Fredericton be asked to submit a surrender of the land and timber on this Reserve to the Indians of York county and the reserve be disposed of to the highest bidder.I place a value of $2.25 per acre on this Reserve inclusive of land and timber.

CANOUS INDIAN RESERVE N.B.

The total area of this reserve is 160 acres, the Canous River dividing the Reserve into two almost equal parts. The land is unsuitable for cultivation being for the most part rock ridges carrying a mixed growth of small coniferous timber with some birch.

There is approximately 75.000 f.b.m of merchantable timber scattered throughout the reserve the remaining timber being, spruce, fir, cedar and birch of cordwood size.

There is no market for cordwood, the saw-log timber being the only asset that the reserve has. The spruce bud-worm has attacked certain sections of the timber but so far to no serious extent although if the timber is not cut at least before the end of next season, it will be worthless.

entered Ledger L 24

The Indian Agent at Fredericton informs me that there are a few Indians still living and resident within Charlotte County and I would suggest that he be instructed to submit a surrender of the entire reserve to these Indians so that the Departmentmay be in a position to dispose of the Reserve by public sale at the earliest possible opportunity.

EXAMINATION OF LAND AND ESTIMATE OF
TIMBER, LAC SEUL INDIAN RESERVE. ONT.

Original
On J 500030 6

The total area of the Lac Seul Reserve is 49.000 acres of which a very small fraction can be termed agricultural land. There are small portions of land in the neighbourhood of Canoe Lake and Frenchman's Head Indian settlements which are productive and are cultivated as gardens by the resident Indians of the Reserve, but the entire reserve as a whole is quite unsuitable for cultivation.

The Reserve itself is of very irregular shape, following the shore line of Lac Seul in the northern section, and the shore lines of lesser lakes adjacent to the National Transcontinental Railway in the southern section.

entered Ledger J 4

The timber on the Reserve is for the most part healthy second growth of about 80 years in age, and consists of coniferous timber of the white & red pine species intermingled with jack pine along the high ridges together with a fairly dense and uniform growth of the two main poplar species (tremuloides & balsamifera) which latter classes of timber comprise the predominant stand.

In my opinion I would not consider it a wise policy in the interest of the Indians to dispose of the timber over the entire Reserve at the present time. The timber on the northern section of the Reserve although carrying the major portion of the valuable species such as white and red pine, could not be profitably logged out to the railroad and would not therefore realise a very high value. There is however a fairly dense stand of medium size poplar, jack pine and spruce growing on the southern section of the Reserve which could be handled at the present time, and would realise a substantial sum for the Indians.

I would therefore recommend that in the event of a sale of the timber on the Reserve, such sale be restricted to the timber on the southern portion of the Reserve, leaving the remainder of the timber to grow in value and be sold at some future date when the conditions are more favourable.

EXAMINATION OF LAND AND ESTIMATE OF TIMBER, RESERVE NO.39 SHOAL LAKE. ONT.

The total area of Reserve No.39 is 8.415 acres very little of which can be classified as land fit for cultivation. There are three or four small Indian holdings in the vicinity of Indian Bay, but the greater portion of the Reserve consists of, rock, swamp, marsh and muskeg.

At one time (about 50 years ago) there must have been a considerable quantity of timber of commercial size on this Reserve, but repeated fires have swept over the entire S.E. portion of the Reserve leaving nothing but bare rocks on which stunted saplings struggle for existence.

A large swamp of an extent of nearly 1000 acres stretches across the Reserve from East to west, and the land rises gradually toward the north line in a succession of rocky ridges and sandy ridges, in many cases devoid of timber growth.

There is still on the Reserve a considerable quantity of second growth timber limited to the coniferous species intermingled with poplar.

EXAMINATION OF LAND AND ESTIMATE OF TIMBER- Ingram River Reserve N.S.

The total area of the Ingram River Reserve is 325 acres of which practically the whole is rocky and unsuitable for cultivation. Forest fires have swept across the northern section and today there is very little timber growth of commercial value, the timber being mostly second growth of inferior woods such as birch, poplar and spruce.

There is no saw-log timber on the reserve and but very little wood. As cordwood is quite plentiful in that section of the country, the wood has no value today.

This reserve appears to have been selected by the Indians in the first instance as a fishing reserve, as in early days (1820) it was noted for large quantities of herring that could be caught at the head of St, Margarets Bay.

Today it is practically of no value at all. There are approximately 600 cords of inferior fire-wood on the Reserve worth at a valuation .50 cents per cord.

EXAMINATION OF LAND AND TIMBER

SAMBRO RESERVE N.S.

The total area of this Reserve is 300 acres of which not any portion can be classified as land fit for agriculture. The reserve consists of a series of rocky ridges and stony ledges and has no agricultural land.

It appears to have been originally selected by the Indians as a reserve on account of the proximity to fairly good herring fisheries but today there is no fish caught in any quantity.

The timber growth is entirely restricted to scrub second growth, spruce, poplar and birch and although some of it is large enough for cordwood, the greater portion of the Reserve is covered with a sapling growth. As the Reserve is somewhat remote from means of communication the small amount of cordwood (200 cords) is practically of no value.

A deposit of good grade sand and gravel along the shore line might be of some value in the future but this is problematical. There are no Indians living on the Reserve nor have any been there since 50 or 60 years ago.

A plan of the Reserve is attached.

EXAMINATION & ESTIMATE OF TIMBER

ON KUPER ISLAND, Reserve B.C.

The total area of the Kuper Island Reserve is 2.138 acres of which approximately 1200 acres is fit for cultivation. The soil is for the most part inclined to be light and sandy but could be profitably cultivated in certain sections.

The timber on the Reserve is fairly well distributed although there are isolated stands which would cut out better than the general run. The species of timber consist of fir, cedar and some spruce although the main stand is mostly fir.

Presuming that the whole of the timber is to be logged i.e. everything cut such as ties, poles cordwood etc. in addition to the saw-log timber I would place# the following estimate over the whole island.

FIR.....	12.950.000	f.b.m.	
Cedar.....	3.600.000	" "	
Spruce.&.O.S.	2.000.000	" "	Total18.550.000

The timber on the section of 1000 acres comprising the southern portion of the island is approximately 13.500,000 f.b.m. although of this not more than 5.800.000 runs over 16 inches at the stump. The greater part of the stand is fairly small there being only two stands of timber of good size. One stand is adjacent to the creek near the Indian School and the other is on the west side of the main highway running through the island.

The timber of saw-log size has an average value of $2.75 per M.f.b.m. all over.

EXAMINATION OF LAND AND ESTIMATE
OF TIMBER-CHEHALIS RESERVE No.5 B.C.

The total area of this Reserve is 1440 acres of which only 900 acres is timbered, the rest of the reserve consisting of mud flat and marshy lands.

The timber is fairly accessible to water, but a large portion of the fir is very large and over-prime. In consequence the grade will run heavily to Number three, there being very little timber of even second grade.

The cedar is fairly sound but there is not sufficient on the reserve to make this class of timber valuable for shingle bolts.

The estimate of timber is:-

Douglas Fir.....14.000.000 f.b.m.
Cedar..... 2.000.000 " "

Logging facilities are fairly good, as most of the timber is on level land, and one donkey with small spur of logging railroad will practically handle the most of the stand.

I place a value at the present time of $2.00 per M.f.b.m. inclusive of dues at the rate of $1.00 and would recommend sale be made as soon as possible by public tender, as the log market is inclined to continue to fall and it is not likely that the Department would be justified in postponing the sale.

EXAMINATION OF LAND AND ESTIMATE

OF TIMBER, RESERVE No.32 A. Lake of the Woods.

The total area of this reserve is 4.865 acres of which approximately 1200 acres can be regarded as land suitable for cultivation. The greater portion of the reserve is covered with a second growth of poplar and birch which is not large enough at the present time to furnish any large quantity of commercially valuable timber.
The timber is fairly accessible to water, although a long tow will be necessary to get it to the mills.

The estimate of timber is:-

Pine R & W.....	250.000	f.b.m.
Spruce.....	500.000	" "
J.Pine.....	250.000	" "
Poplar.....	6.000.000	" "
Birch	5000 cords.	

Estimated £7 £9

The demand for log timber in this section of the country is considerably less than it was a year ago, lumber conditions having become less promising, but I am of the opinion that if this timber is sold early it will still realise a better value than if held later. The Indians themselves are pressing to have it sold so that they may participate in a distribution of the proceeds.

I would recommend that as the quantity of timber on this reserve is comparatively small, ~~that~~ the sale include the timber on the two adjoining reserves- Nos.33A and 34 A, as the timber has been surrendered on all these reserves and they could be grouped together in one sale.

A plan is attached showing the class of land distribution of timber and Indian houses etc.

I place a bonus value on the three reserves of $3:000 exclusive of dues.

EXAMINATION OF LAND AND ESTIMATE OF

TIMBER ON PUCKATHOLETCHIN RESERVE B.C.

The total area of this reserve is 566.50 acres the greater portion of which is rocky and even mountainous. There is a small section of land near the bank of the Fraser River where the Indian village is located which is good land and suitable for agriculture but the area of such land does not exceed 50 acres.

The timber on the Reserve is a mixed stand of Douglas fir, spruce and cedar averaging about 25 inches on the stump. A great deal of the logging will have to be done along mountain sides and necessity over-head cable or sky line operation, but the timber is adjacent to the main line of the Canadian Pacific Railway and can be readily shipped once it is landed to the railway track.

The estimate of timber is:-

Douglas fir.....	2.800.000	f.b.m.
Spruce.....	1.000.000	" "
Cedar.....	1.200.000	" "
Total:-	5.000.000	" "

In view of the unsatisfactory state of the lumber market in British Columbia I personally do not think it likely that we would realise the price for this timber that we might have done a year ago, but the local Indian Agent appears to think that it would be advisable to put this sale on as soon as possible and I would therefore recommend that this be done.

I place a bonus value of $2.500 on this timber over and above dues at the rate of $1.00 per M.f.b.m.

EXAMINATION OF LAND AND ESTIMATE OF

TIMBER, Reserve No. 40 SHOAL LAKE, ONT.

The total area of this reserve is 6.759 acres of which approx. 355 acres was recently sold to the Winnipeg Great Waterways Supply.

There is a fairly large proportion of good land suitable for farming, although land of this character occurs in patches of about 50 or 60 acres. All lands adjoining Indian Bay or Snowshoe Bay are rocky and not suitable for cultivation. About 30% of the total area consists of swamp or marsh land and approx. 40% is waste land such as rock or sandy ridges.

The timber on the reserve is very scattered, there being occasional stands of average grade jack pine and poplar. There is very little spruce or pine of merchantable size, most of the timber being second growth. Fire has repeatedly swept over this Reserve, the most recent being four years ago.

Entered L. 1920

The timber estimate is as follows:-

Jack Pine.....	750.000	f.b.m.
Spruce.....	500.000	" "
Poplar.....	1.500.000	" "
Cordwood.....	4000	cords

CRUISE AND VALUATION OF MATTAGAMI RESERVE.

In accordance with instructions I recently visited the Mattagami Indian Reserve for the purpose of both making a critical cruise of the timber on the Reserve and also an inspection of the land and foreshore that would be flooded by the operation of a dam constructed by the Northern Canada Power Co.Ltd.

As will be noted hereunder on this file, the Department instructed Timber Inspector Shaw to make a cruise and valuation of this Reserve in October last and he reported the following quantities of timber and value:-

White Pine...	20.000.000 f.b.m.	@ $7.50 per M.
Jack Pine ties	200.000	@ 10¢ each
Pulpwood	8000 cords	@ $1.00 per cd.

exclusive of dues at the tariff rate.

The Department offered the timber for sale by public auction and only two offers were received, i.e.

Triangle Lumber Co. Ltd.....$15.000 bonus
A.B.Gordon.....$10.000 "

The analysis of Mr.Shaw's estimate and valuation established a bonus value of $169.000 and consequently the sale was cancelled.

The two tenderers claimed that both the estimate and valuation of this timber were excessively high.

In the course of my work I made a cruise by blocks of forties and in some cases of 160 acre sections and submit herewith a plan of the Reserve showing:-

1. The distribution of the timber by quantity and kind.
2. The area which will be flooded by the Northern Power Co.
3. The location of Indian houses on the Reserve
4. The class of land.

In the first instance I deemed it advisable to familiarise myself with the topography of the country as would enable me to judge of the accuracy of Mr.Shaw's estimate and valuation. His estimate I consider unduly high when compared with the estimate submitted hereunder. His valuation of $7.50 per M.f.b.m. was doubtless based on the assumption that the pine timber could be watered on the shore of the reserve and driven down to the market at Timmins. In this case he was in all probability not conversant with the plans of the Northern Power Co. (whereby

Indian Affairs. (RG 10, Volume 3176, File 442,626 pt. 1)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES

they had already backed up the water on the Mattagami River by a 6 foot head dam at Kenogamisee and had also erected dams at Wawaitin and also at Sandy Falls.

The Northern Power Co. are at present engaged in constructing a highger dam at Kenogamisee whereby the water will be raised an additional 10 feet or approximately sixteen feet of a head above the normal level.

The constructions of these dams has the effect of creating practically three extensive bodies of still water without current, divided by dams and totalling 67 miles in length where before there had been a drivable river without obstruction.

I am therefore of the opinion that it would cost at least $6.00 per M. to tow the timber to Timmins and handle it at the respective dams on the way.

My estimate of the timber on the Reserve is as follows:-

White Pine....	8.250.000	f.b.m.
Red Pine	1.300.000	" "
Jack Pine.....	6.450.000	" "
Spruce	12.000	cords
Poplar	1.750.000	f.b.m.
Birch	50.000	cords.

There is at present no market value for the poplar and birch timber on the Reserve nor for any other timber such as soft maple or timber of other deciduous kinds. In view of the difficulty of marketing this timber and the fact that there are still large quantities of more readily accessible timber on provincial lands which are being sold at prices ranging from $3.00 per M. to $5.00 and taking into consideration the wishes of the Indians who desire to realise the present day value owing to the unusually heavy fire risk I submit the following valuation:-

Pine (Red and White) $3.00 per M.....	$28.650
Pine Jack.(to be cut as ties)	9.225
Spruce pulpwood.....@ $1.00	12.000
Total value on the stump:-	$ 49.875.00
Total bonus value ex.of dues:-	$16.700

The pine timber is mostly located on high ridges which are difficult of access and will necessitate heavy expenditure in the way of logging roads, and the reserve is cut up to such an extent by deep ravines, gullies and low swamp lands that the actual cost of delivery of logs to the shore will be approx. $5.00 per M.f.b.m.

I append a sketch plan drawn to scale showing the water route to market.

As the question of the raising of the water level is inseparable from that of the operation of removing the timber I submit the following additional memorandum dealing with this.

RAISE OF LEVEL OF MATTAGAMI RIVER.

The effect of raising the level of the Mattagami River an additional 10 feet will flood the low level lands, certain Indian houses and the Indian cemetery located on provincial land adjoining the reserve.

LOW LEVEL LANDS ON THE RESERVE.

These lands are shown on the attached plan in green and comprise in all a total of 1200 acres. The timber on these low levels consists almost entirely of 2nd. growth

spruce, cedar and balsam having practically no commercial value as the spruce is under-size for pulpwood and the cedar is of the scrub variety not fit either for square timber or poles.

In my opinion the Department should however insist upon the clearing of occasional landings where the 10 foot contour line approaches the shore, as unless this is done, great difficulty will result in the proper delivery of log timber to the shore line.

These landings are designated on the plan attached and the clearing should consist of falling and burning the shore line timber so that boats can approach the shore line without undue difficulty.

As the land is generally rocky or swampy, it cannot be classed as potential agricultural land and is therefore of no value, the only feature to be considered being the proper clearance of shore approaches as previously described:

INDIAN HOUSES AND HOLDINGS.

The following Indian Houses will be affected by the raise of water:-

Owner.....	House etc.	Value
Thomas Navion	House & garden	$ 450
Chief "	" "	$ 600
Wm. Navion	Garden only.	50
Jimmy Navion Jr.	House only.	$ 500 . $1600

INDIAN CEMETERY.

There are approximately 60 Indians and 4 whites buried on the point occupied by the Hudson's Bay Co. post adjacent to the Reserve and it will be necessary to arrange for the removal of these bodies to a point well above high water level. The best location for a permanent cemetery would be the high land north of the present location of the fire-ranger's house as shown on the attached plan, and I would recommend that application be filed with the Lands Department of the Province of Ontario for permission to occupy 2 acres of land at this point, to be used for burial purposes only.

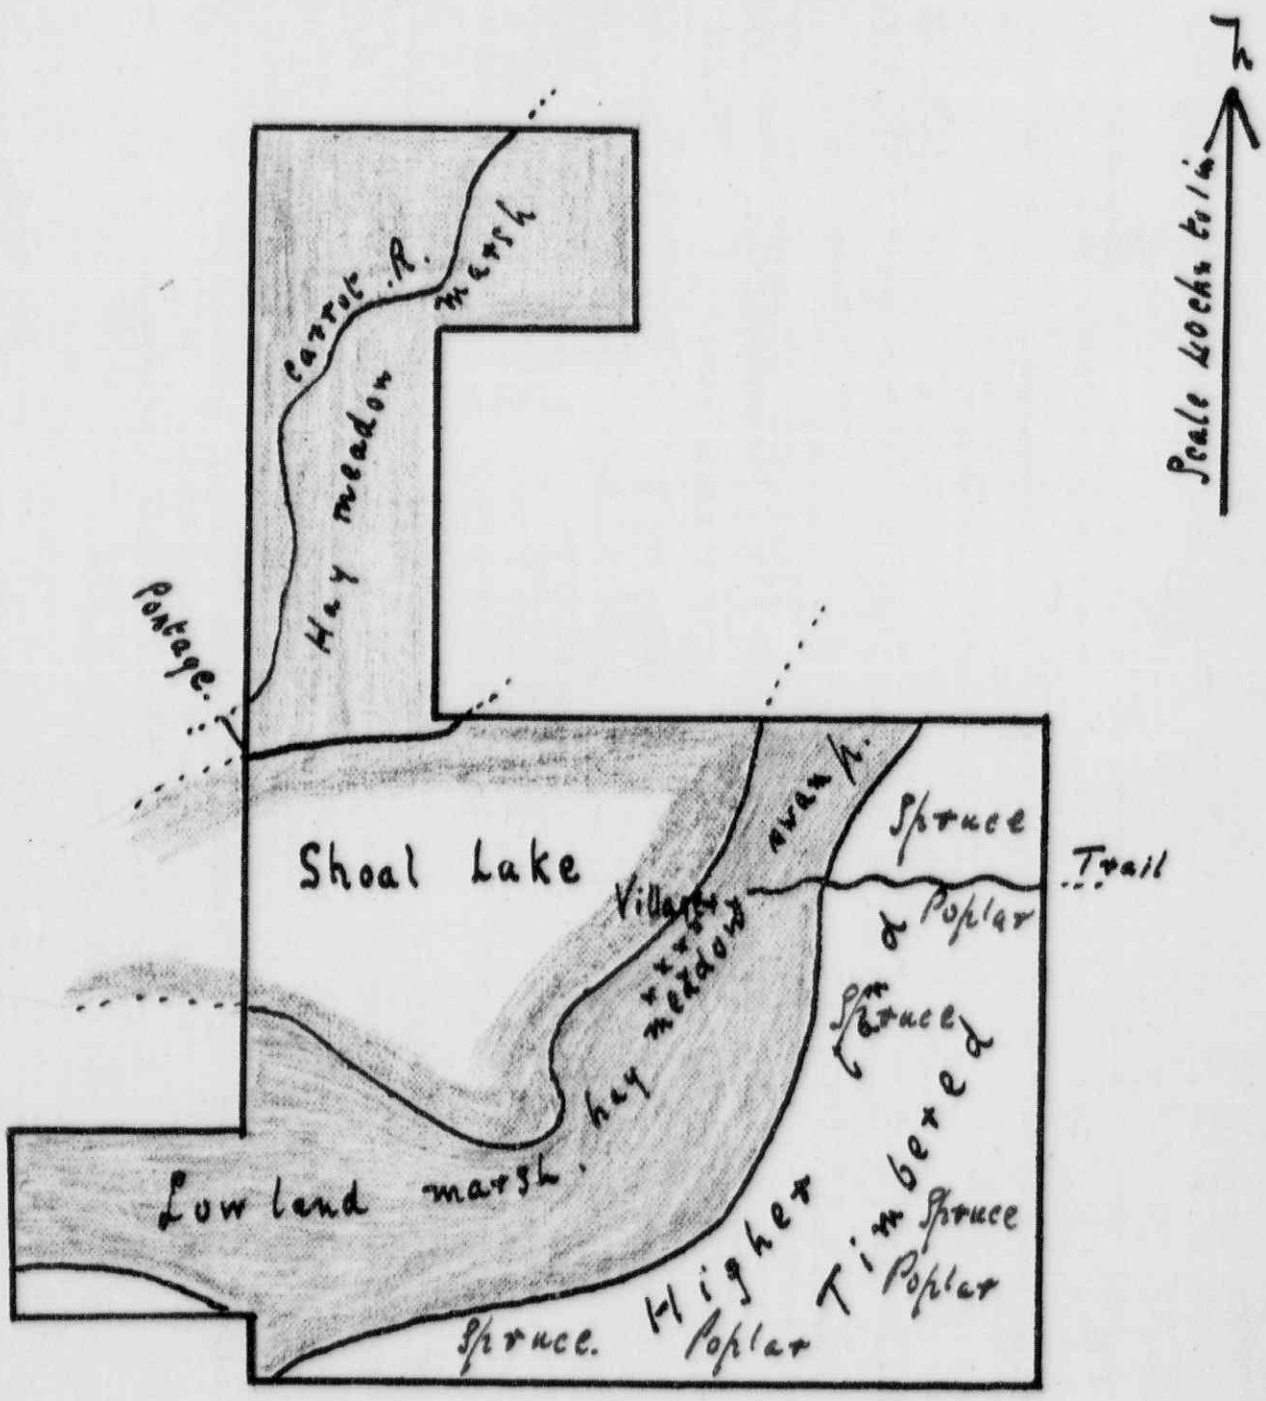

I would recommend that the Norther Power Co. be asked to bear the expense of compensation to the Indians for their houses as shown above and also be responsible for the entire cost of removing the Indian cemetery to the new location.

Estimate & valuation of timber
Reserve No.28A Shoal Lake.SASK.

The total area of Reserve No.28A Shoal Lake, is 3.037 acres inclusive of the two additions. Of this area only approximately 1000 acres is timbered land the remaining area consisting of lake, swamp, marsh and wild hay meadows.

The timbered area is restricted to the eastern portion of the reserve and the timber can be readily logged to the Carrot river but will have to be driven approximately 100 miles to the mills.

The species of timber on this area include spruce, poplar and birch of cordwood size, but the factor of faultiness is somewhat large as the spruce is largely over prime and is subject to conkiness and rim rot, and the poplar is generally inclined to "black heart" which prohibits its use as lumber.

The estimate of timber is as follows:-

Spruce.....	3.500.000 f.b.m.
Poplar.....	1.750.000 " "
Cordwood.....	10.000 cords.

The poplar and cordwood has no present day value and I place a value of $2.10 per M.f.b.m. on the spruce over and above dues at the rate of $1.25 per M.f.b.m. This represents a bonus value of $7.350 over and above dues.

A plan of the reserve showing the distribution of timber, class of land, roads, trails, Indian houses etc. is on separate file.

Examination of land and estimate of
Timber-Reserve No.180.Stangecoming.Ont.

The total area of this reserve is 3.861 acres of which 30% is waste land comprising marsh and rock,25% consists of land covered by sapling growth whilst the balance or approx.1600 acres is covered by a thrifty growth of timber mostly of the pine and spruce species. The quantity of land fit for agriculture is almost negligible.

The reserve has never been visited by fire,nor have and extensive lumbering operations been carried on by the Indians.White and red pine are fairly well distributed throughout the Reserve and occurs also in isolated stands varying from 20.000 f.b.m. to 100.000 f.b.m.The spruce, especially of pulpwood size occurs in pronounced areas whilst tamarac is found occasionally in the low land or swamps.

The estimate of timber is as follows:-

Pine (White & Red).....	1.600.000 f.b.m.
Spruce (Log timber).....	1.000.000 " "
Spruce pulpwood.....	10.000 cords
Poplar.....	500.000 f"b"m.
Tamarac.....	100.000 f.b.m.

The stumpage value at the present time of the various kinds of timber is:-
Pine,9.50 per f.b.m.,Spruce 7.50 per M.f.b.m. Spruce pulpwood 1.00 per cord. Tamarac 6.00 per M.f.b.m. and Poplar 3.00 per M.f.b.m.

I would recommend that sale be made as soon as possible under our regulations and that tenders be called for by public advertisement on a basis of per M.f.b.m. or per cord. and that tenderers deposit as security ten per cent of the total estimated value of tender.

ESTIMATE OF TIMBER

Golden Lake Reserve.ONT.

The total area of the Golden Lake Reserve is 1650 acres of which not more than 1000 acres is timbered and a large proportion of this is covered by sapling and pole growth.

Physical conditions.

Approximately eighty per cent of the land area consists of rolling rocky ridges,unfit for cultivation and only suitable for the growth of forest crops.The soil that is free from stones or rock is light,friable and poor in fertility.

Silvicultural conditions.

The forest floor is comparatively free from debris of an inflammable nature and although the depth of humus is somewhat slight,being only3 or 4 inches,yet the absence of exposed timber stands and the general condition of the subsoils provide fairly satisfactory conditions for forest growth.

The predominating species of timber at present on this reserve is poplar (tremuloides and balsamifera),but the stand originally consisted almost entirely of white and red pine.Successive forest and ground fires have however destroyed the coniferous timber and it has been replaced by the natural reseeding of poplar and birch.

A very small proportion of the timber consists of timber of merchantable size i.e.min.diameter 10 inches, the poplar especially being mostly of sapling or pole size.

The following is the estimate of timber:-

White & Red Pine.....	8000	f.b.m.	
Spruce.....	7000	" " &	400 cords
Poplar (Aspen).....	90.000	" " &	1000 ""
Poplar (Tremuloides).	20.000	"" &	400 "
Elm.....	2.000	"" &	200 "
Birch.....	---		200 "
Balsam fir.....	---		250 "

The volume content of trees 10 ins.and over in diameter is estimated in f.b.m.whilst those under 10 ins.are calculated in cords of 128 cubic feet.

Indian Affairs. (RG 10, Volume 3176, File 442,626 pt. 1)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES

Characteristics of different species.

White & Red Pine.

This species occur as individual trees scattered generally throughout the reserve.The average diameter is not greater than 10 inches,the type form being pyramidal and therefore unsuitable for lumber.

Spruce. This also occurs in scattered individuals,with average diameter of 9 inches and of no commercial value.

Poplar (Aspen).The larger trees of this species are subject to heart rot and are therefore not suitable for lumber.There are possibly 1200 cords of wood accessible for profitable logging,this quantity being barely sufficient for the Indians' own use.

Poplar.(Balsamifera) or Balm of Gilead. This species would produce approx.500 cords of wood,and is found in small stands intermingled with poplar (aspen).

Elm,Birch and Balsam Fir. There is little timber of these three species which is of commercial or merchantable size. Sapling and pole size timber constitutes the main stand,and will in course of time produce merchantable timber for the future use of the Indians,provided the reserve# is kept free from forest or ground fires.

CONCLUSION.

The present stand of timber on the Reserve is barely sufficient for the domestic needs of the Indians and I consider it would be unwise to authorise the cutting of timber for sale,except in individual cases where the Indians require relief,and are able to find a good market for small quantities of poplar wood.

CRUISE & VALUATION OF TIMBER

New Brunswick House Reserve, Missinaibi.ONT.

The total area of this reserve is 17,250 acres of which 8000 acres consists of waste land-rock, swamp and muskeg whilst approx. 9,600 acres carries a medium size growth of mixed coniferous and deciduous timber.

The principal species of timber are jack pine, spruce birch, poplar and cedar. The estimate of timber is as follows:-

Jack pine.....	1,150,000	f.b.m.
Spruce.....	2,000,000	" "
Birch.....	100,000	" "
Poplar.....	750,000	" "
Spruce & Balsam pulpwood.....	5,000	cords
Birch cordwood..	4,000	"
Poplar " " ..	3,700	"
Cedar poles.....	1,500	
" posts.....	3,000	

Jack Pine is found in fairly large quantities on the principal ridges and although not of great size, averaging 14 ins. in diameter, yet is thrifty and quite suitable for tie timber.

Spruce is generally found in mixed stands with birch, poplar and cedar and is of fair size-20 ins. dia. but where it occurs in pure stands along the shore of the lakes or creeks can only be classified as pulpwood, the stand being dense, but small in diameter size i.e. average 9 inches.

Birch occurs generally over the entire reserve, on the high lands and is associated with spruce and poplar. The quantity of log timber is not large, but there is a considerable quantity of cordwood size timber of this species. This species has no present day value.

Poplar, also occurs generally and is of fair size, averaging 16 ins. in diameter, but subject to black heart. It is not commercially valuable at present, and unless a market should develop for poplar pulpwood, this species would not have any commercial value.

Cedar is found in the low lands but owing to its association with other species of timber, has developed branchy structure. A considerable quantity of poles and posts could be utilised, but these would not have any great value at present owing to the fact that there are large supplies of this class of material more readily accessible in the district.

The situation of the reserve is such that if the timber is to be utilised to the best advantage it must be hauled to the mouth of the Missinaibi River and driven down stream 30 miles to the Canadian National Railway in the vicinity of Peterbell.The erection of a small mill at this point would have to be undertaken in order to manufacture the spruce into lumber,as the market for pulpwood has not yet been developed.

Ties could be profitably cut from the jack pine and driven down stream to the railway,and in my opinion this species of timber constitutes the most valuable on the reserve at the present time.Waste of timber would be avoided by erecting a small portable mill near the outlet of the Missinaibi River.

After a careful examination of the market prospects of the district I place the following valuation on the timber:-

Jack Pine.....	$8.00	per M.f.b.m.
Spruce.....	6.50	" " " "
Pulpwood.....	1.75	" cord.
Cedar poles....	25	cents ea.
"" posts....	4	"" "
Poplar.....	NIL	
Birch.....	""	

The total bonus value,or estimated value of timber based on the above estimate and unit value,is approx.$31.445.00

Examination of timber.Alnwick Reserve.

The total area of the Alnwick Reserve at present is approx.2956 acres,the original area of 3,283 acres having been reduced to the extent of 12 lots with an area of 326 acres,these lots having been patented to enfranchised Indians of the Alnwick reserve.

The estimate of timber remaining on the Reserve is as follows:-

Pine.....20,000	f.b.m.	
Spruce.....100,000	" "	& 250 cords
Hemlock.....100,000	" "	
Maple.....150,000	" "	& 1000 "
Birch.....250,000	" "	" 800 "
Elm.....200,000	" "	" 1000 "
Oak..... 25,000	" "	" 200 "
Ash..... 10,000	" "	" 100 "
Basswood....150,000	" "	
Poplar.....100,000	" "	" 700 "

There is thus sufficient timber remaining on the Reserve for the domestic needs of the Indians,and although certain Indian locations possess more timber than others,and on this account might produce restricted quantities of timber for sale without endangering the future supply of fuel and building timber,yet in my opinion the cutting of timber for sale should be discouraged.

Agent W.R.Coyle was authorised to issue 6 timber permits during the past winter and in addition to supervising the manner in which these permits were utilised,also encourages the Indians to clear up and cultivate the land out over.

Cruise and estimate of timber

Eagle Lake Reserve, ONT.

The Eagle Lake Reserve has a total area of 8882 acres of which only 1000 acres can be classed as land suitable for agriculture.The soil is light and sandy,as the reserve comprises for the most part a high ridge over-looking Eagle Lake.There is approx. 1500 acres of waste land and 6000 acres of timbered land.

The timber is mostly,jack pine,poplar,birch and scattered spruce.There is a good stand of jack pine near the north boundary which is large enough for tie timber but over the remaining portion of the reserve,the merchantable size timber is scattered and of no commercial value.A considerable area in the central part of the Reserve is covered only with a sapling growth of poplar and birch.

The estimate of timber is as follows:-

Jack Pine.....2000 ties and 1800 cds.wood
Spruce..... 500 cds.
Poplar.....1000 "
Birch..... 500 "

Fire has swept this reserve about 20 years ago,but a fairly thrifty stand of mixed conifers and deciduous timber is growing up,which,if fire does not damage,will grow to merchantable size in the future.

Cruise and estimate of timber

Wabigoon Lake Reserve. ONT.

The total area of the Wabigoon Lake Reserve is 12.872 acres,and is composed of two sections,one on each side of Wabigoon Lake.The greater portion of the reserve is composed of good clay soil but a very dense growth of comparatively young timber entails arduous clearing to make it productive for farm crops.

The reserve is fairly well timbered,although the trees are not large,having an average diameter of 10 inches. Spruce,Poplar,Jack Pine and Birch are the predominant species.

Spruce. This species occurs generally throughout the Reserve.In the low lands,along the lake shore it does not attain large size,rarely reaching 10 inches in diameter, but many trees of good size,(16 to 20 ins.) are to be found scattered among the poplar and birch.

Poplar. This species occurs in all parts of the Reserve,but more especially on the western portion.In size it averages 12 inches,is generally clear of limbs,free from black heart,and makes excellent,stave wood,building material or saw logs.

Jack Pine. This occurs mostly on exposed rocky points and along high sandy ridges.It does not grow large,averaging about 11 inches,but is fairly abundant.There is a good local market for tie timber from this species,and also pulpwood for the Kraft paper mill at Dryden.

Birch. This does not grow large,but there is a considerable quantity on the Reserve which would produce excellent cordwood.

Cedar There is a limited quantity of this species on the eastern portion,especially occuring on an old "brule" near the south end.Approx. 500 telegraph poles and 2000 posts could be cut from this dead and burned timber.

Cruise & Estimate of timber

GROS CAP Indian RESERVE. ONT.

In accordance with instructions I visited the Gros Cap Reserve and made a careful cruise and examination of the timber and attach herewith field plan showing division by 40 acre plots and the distribution of timber.A detailed statement of field notes of each 40 acre plot is also attached,and final corrected plan of the reserve reduced to a scale of 40 chains to one inch,for complete record of lands and timber report.

The total area of the Gros Cap reserve was originally 11.017 acres but 1640 acres have been sold to the Algoma Central Ry. and the Lake Superior Power Corporation,so that the present area is 9.377 acres which includes the water area of Dore Lake,that lies within the reserve boundaries.

The land is absolutely unfit for cultivation,consisting for the most part of high rocky ridges and precipitous gullies. Fire swept over about 500 acres on the eastern boundary adjacent to the railway,about 20 years ago,leaving this section barren of timber.An extensive marsh,about 350 acres lies N.E. of the Indian village.

There is a fairly even distribution of spruce,balsam and birch timber over the entire reserve,although certain clear stands of spruce and balsam occur near Dore Lake and along the Dore river. There is a small quantity of cedar intermingled with the spruce and balsam along the low lying lands and gullies,but the quantity is not large,nor is the quality very good.Certain of the ridges show spruce and balsam as the dominant growth,whilst others have a dominant growth of birch with spruce and balsam intermingled.

SPRUCE is the main stand and has an average growth of 12 inch diameter.It is of good quality,straight,and sound,whilst the taper is generally only 1½ inches in 15 feet of length of bole. It is found generally associated with balsam and birch.

BALSAM represents about 40 per cent of the coniferous timber but is not so large as the spruce,having an average diameter of about 9 inches.

BIRCH occurs generally over the whole of the reserve and is of the white variety (betula alba or papyrifera) and has an average diameter of 10 inches.This species has little present day value,although the best of this timber might be utilised for spool or bobbin wood in the American market.

The following is the estimate of timber on the Reserve:-

Birch..... 6.8501000 f.b.m.

The timber can be readily logged to Dore Lake on the West side and that portion on the N.E. corner could be conveniently handled to the Magpie River.

Cruise and estimate of timber
Saugeen Reserve.

The total area of the Saugeen Reserve is 9.020 acres of which 2.000 acres is good agricultural land,-4.000 acres suitable for pasturage only,-2.500 acres suitable for timber growth and the balance of 500 acres is mostly rock and swamp.

Roughly speaking the timber of merchantable size is to be found only in the N.W.section of the unsurveyed portion of the Reserve,although there are isolated stands of good quality hardwood to be found near the east boundary of the sub-divided portion.

My estimate is as follows:-

W,Pine.....	550.000 f.b.m.
Hemlock.....	1.200.000 " "
Cedar.....	5000 posts.
Elm.....	3.000.000 f.b.m.
Maple.....	1.000.000 " "
Poplar.....	25.000 cords.
Mixed wood..	15.000 "".

The PINE is of good quality,averaging about 18 inches in diameter and is distributed throughout the softwood stands in the N.W.portion of the reserve,as shown on the plan attached.The available quantity is barely sufficient for the needs of the Indians,and none of it should be sold or exported off the reserve.

The HEMLOCK constitutes the main stand of building timber and is sufficient in quantity to meet the domestic needs of the Indians for many years.It is somewhat larger than the pine

but possibly not quite as sound.This species represents the main source of supply of building material on the reserve and no permits to cut for sale should be allowed.

CEDAR This is mostly found along the lake shore and is not of large size but suitable for fence posts and rails,which are in great demand by the Indians.

ELM. This important hardwood could with advantage be sold for the benefit of the Indians,as they are unable to profitably log this species of timber.It is of fair size (approx.20 ins) and with it is associated maple of good quality.As neither of these two species are used for building purposes to any great extent,the Indians would be well advised to give a surrender of the hardwoods and sale to be made for their benefit.

POPLAR. This species is found generally all over the reserve. It is not large in size,but would make excellent pulpwood for which ready sale is found in the vicinity.When the Indians desire to cut timber for sale,as a measure of relief,they should be restricted to this species,or to fire wood from the smaller hardwood growth.

There is also a considerable quantity of dead and fallen timber which should be salvaged by the Indians as soon as possible.

A plan is attached showing the distribution of the timber.

Cruise and examination of Land & Timber

Brokenhead Reserve.MAN.

In accordance with instructions,I visited the Brokenhead Reserve,and made an examination of the land and timber.

The reserve has a total area of 13.665 acres of which approx.9000 acres is good agricultural land,suitable for the growing of crops and hay,3000 acres consists of marsh whilst approx.1660 acres is muskeg or waste land.

The reserve at one time had a large quantity of spruce timber of pulpwood size,but for the past 20 years,the Indians have been cutting this,with the result that today there is not a large quantity left.At the present time,there are approx.2000 cords of spruce pulpwood,and 1.750.000 f.b.m. of poplar,which latter however is not of much value at the present time.

The sub-divided section of the reserve,adjacent to the Brokenhead river,is for the most part good land,but the Indians do not appear to manifest much inclination to clear and work it.

They are content to do a little fishing in Lake Winnipeg in the summer,and trapping in the winter,although some of them continue to cut pulpwood for sale under permit.The supply of pulpwood will shortly be exhausted,and they will then be compelled to work their land,if they are to be self-supporting.

They should at least be encouraged to clear up their hay lands,as hay commands a good price in Winnipeg,and shipments can be readily made from Scanterbury station on the reserve,the distance to Winnipeg being only 42 miles.

The poplar timber on the reserve is not likely to be of much value for many years,although limited quantities of poplar summer wood,could be cut to advantage for sale in the city.

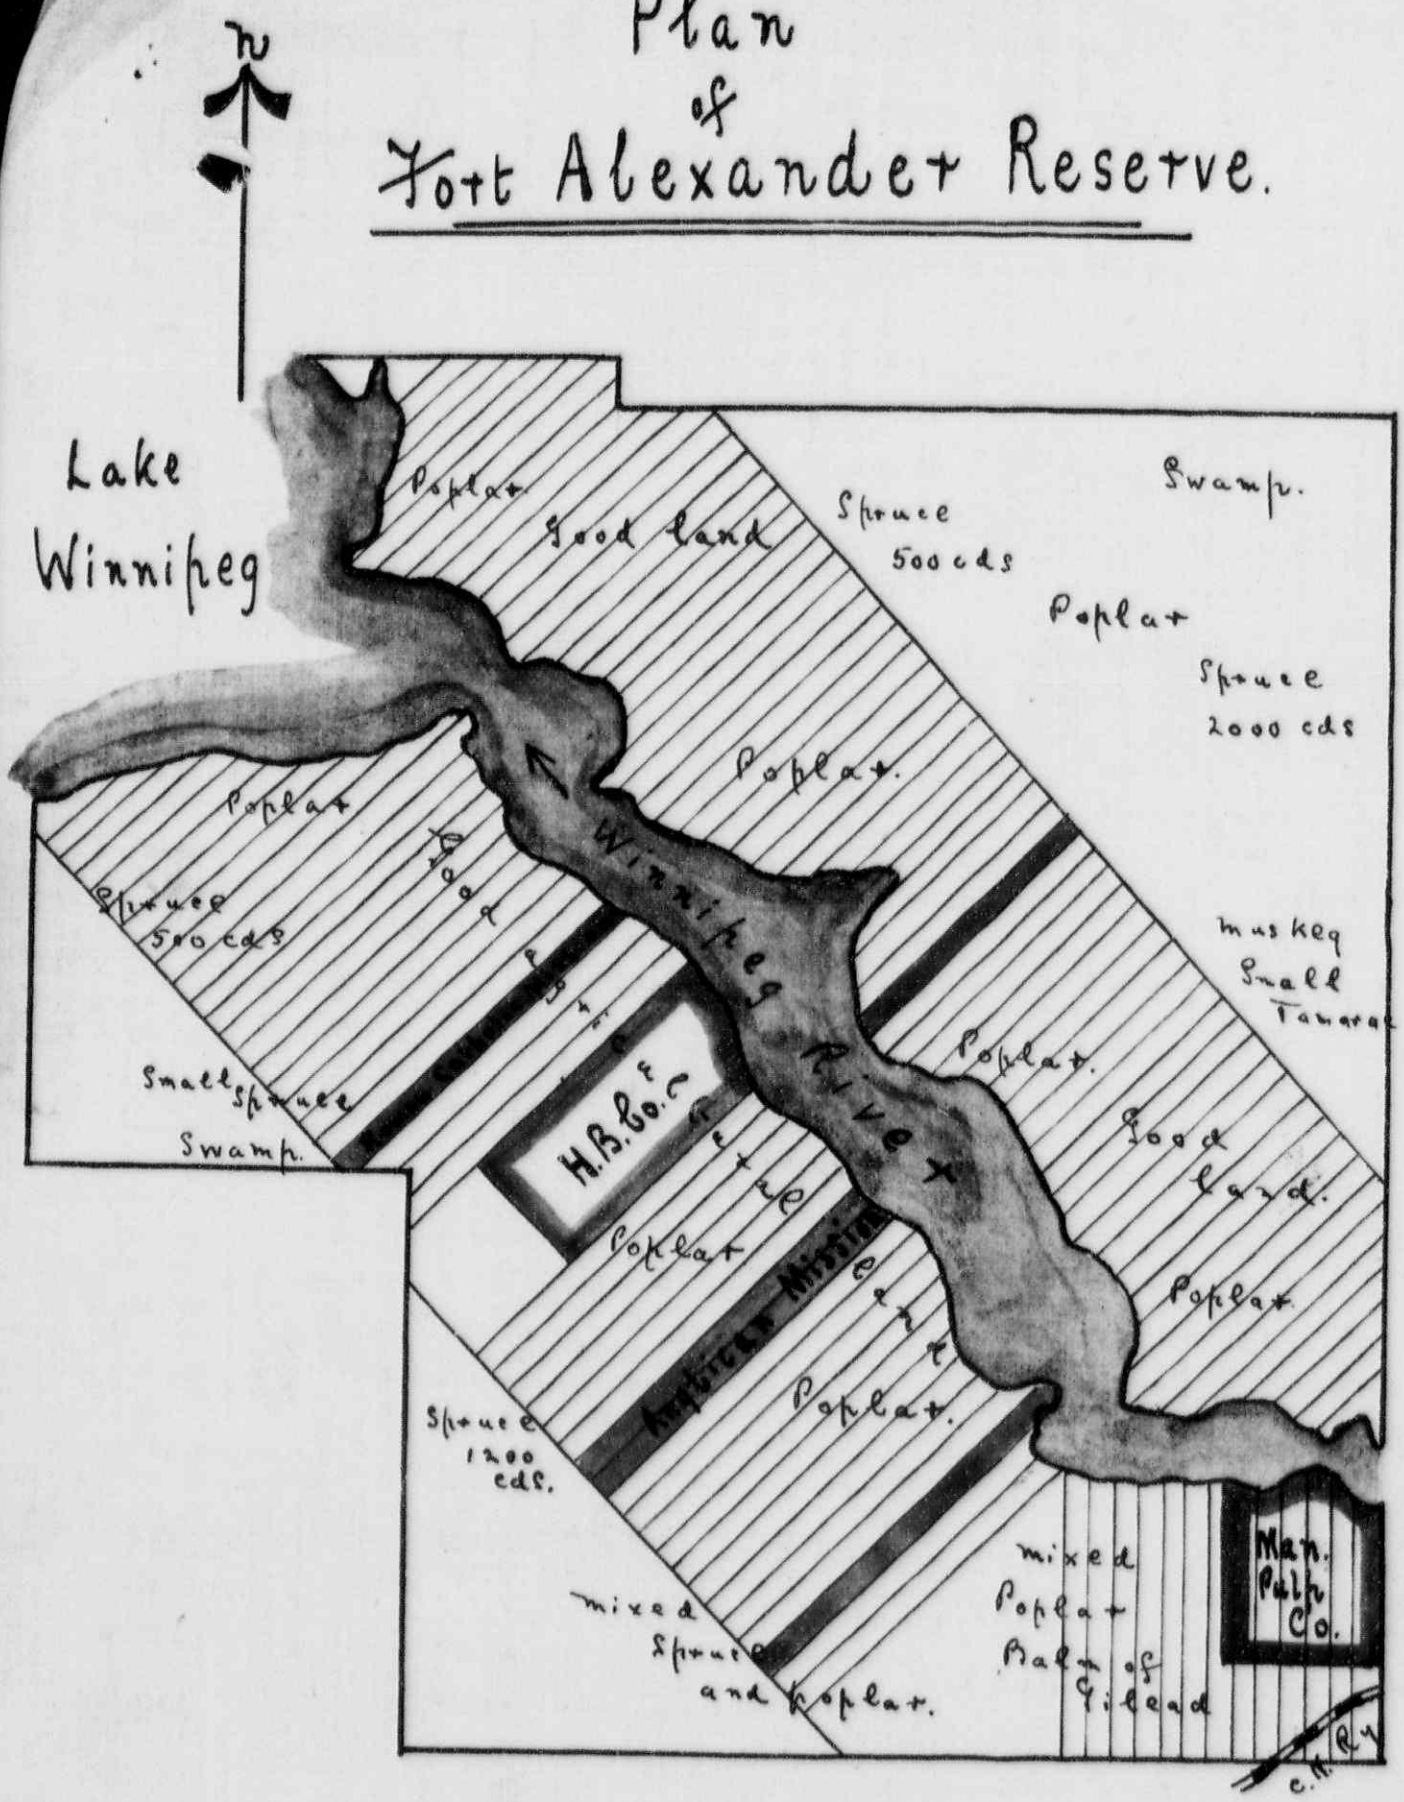

A plan is attached showing the main features of the reserve and the distribution of timber.

Cruise and examination of land & timber

Fort Alexander Reserve ,MAN.

In accordance with instructions I visited the Fort Alexander Reserve and made an examination of the land and timber,and at the same time discussed many matters with Indian agent Stevenson,who was at the Reserve during my visit.

The total area of the reserve is 21.760 acres, of which approx.12.500 acres is fit for agriculture,5000 acs. is swamp land,3000 acres,marsh,and approx.1000 acres muskeg.

There is now only 3.700 cords of pulpwood on the reserve,as the Indians have been very prodigal in the cutting of this class of material,owing to the proximity of the Pulp Mill at Pine Falls.They have in the past 15 years cut on an average ## 1500 cords annually,but do not seem to have derived much benefit,having earned merely wages,and have received nothing in the way of stumpage,other than the usual dues at the rate of 40 cents per cord.

There is a quantity of poplar,estimated at 2.500.000 f.b.m. but this has no value at the present time.There is also approx.1000 cords of dry timber which the Indians should be encouraged to salvage,before allowing them to resume pulpwood cutting,as this wood has a market value at present, but if permitted to remain uncut in the bush,much longer,it will deteriorate in quality,and so be of no use.

During my visit,the Indians asked to hold a special council meeting at which various matters were discussed, which are dealt with in separate memoranda.

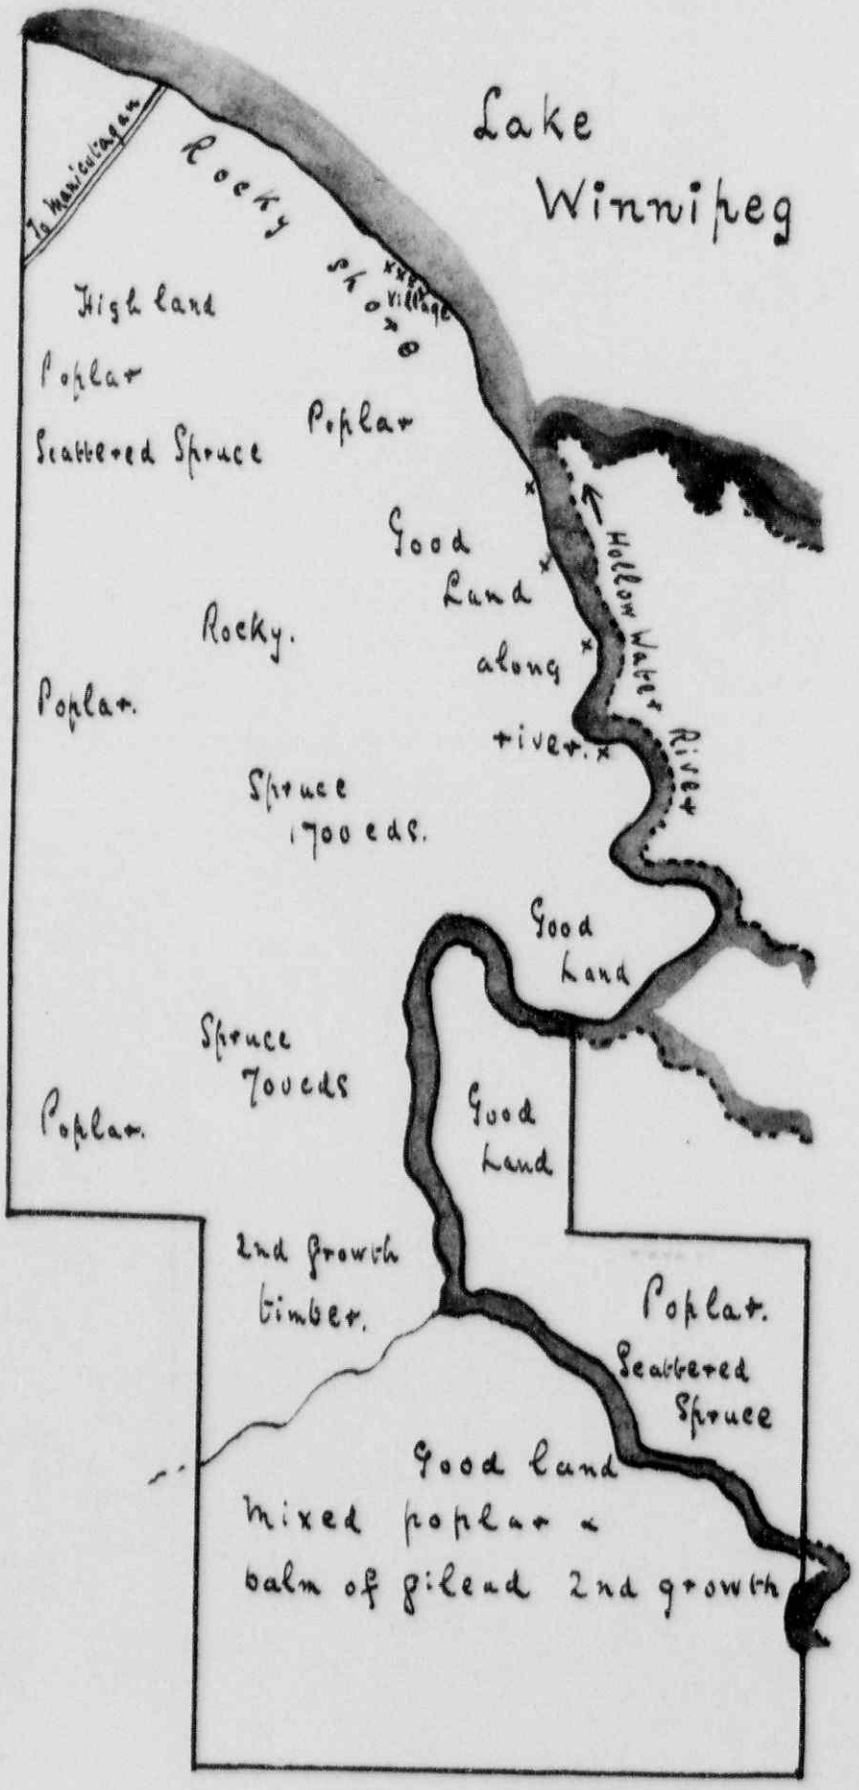

A plan of the reserve is attached showing the main topographical features and the distribution of timber.

Hollowwater River Reserve.MAN.

The total area of the Hollow-water or Hole River Reserve is 3.574 acres,comprising 700 acres of agricultural land,700 acres of marsh,500 acres of rock and 300 acres swamp land.

The South East portion of the reserve was burned over about 17 years ago,and is now covered by a dense second growth of poplar and white birch.The land in this section is a black loam and highly fertile,but up to the present time the Indians have not taken any steps to place it under cultivation.

There remains approx.2400 cords of merchantable spruce and 2.275.000 f.b.m. of log size poplar,which however is of no value at the present time. There is some scattered spruce throughout the N.W.portion of the reserve,but not in sufficient quantity to be of commercial value.

I found several indications of auriferous rock,as the reserve is practically a continuation of the mining field of Manicotagan.The Chief,(W.Hardisty) informed me that at one time a prospector discovered a rich vein on the reserve but he disappeared,and the Indians have been unable to locate it.

Extensive hay lands (marsh hay) exist along both sides of the river,but the Indians make very little effort to put up hay,as they seem content to merely fish and hunt.

BLACK RIVER RESERVE. MAN.

The Black River reserve has a total area of ~~5514~~ 2000 acres, of which, ~~1700~~ acres are fit for agriculture, 500 acres comprise swamp land, 400 acres marsh and 400 acres of rock.

The land that is fit for farming is a heavy black loam of good fertility but the Indians do not appear to mke much effort to cultivate it, being content to fish and hunt.

There is very little timber remaining on the reserve that is of present day value. The spruce is restricted to 2.200 cords whilst although there is approx. a quantity of poplar estimated at 1.250.000 f.b.m. yet this species has no value at present.

Some years ago permission was given to erect a small mill on the reserve, and at that time the Indians cut the greater part of the merchantable timber, but there still remains a fairly general thrifty small growth of spruce, which in time to come will attain commercial size.

Chief Gilbert Harry complained to me that the Manitoba Pulp & Paper Co. of Pine Falls had piled a large quantity of pulpwood on his garden plot, two years ago and appeared to make no effort to remove this, thus preventing him from growing his usual crop of potatoes. I would suggest that agent Stevenson be asked to make representations in this matter to the manager of the company, and ask them to pay the chief some adequate compensation for the use of his garden plot as a piling ground, or remove the wood immediately.

DOKIS RESERVE.

The Dokis Reserve, situated on the French River, about 20 miles west of Lake Nipissing has a total area of 38.885 acres, the surface of which is gently undulating, and free from deep ravines and high rocky ridges.

LAND CLASSIFICATION

Land burned over (sapling growth)	5.700	acs.
Low land (marsh, swamp)	2.950	"
Rocky land (scrub growth)	6.650	"
Stony Land (second growth)	12.580	"
Timbered land	10.850	"

Good agricultural land only occurs in small isolated patches, although there are extensive areas of wild hay meadow.

TIMBER. This reserve was cut over, about 20 years ago for the pine timber only, and the vast quantity of approx. 120 million f.b.m. was cut from trees of 10 inches and up in diameter. No timber has been cut since that time, except small quantities for the use of the Indians. Notes on the present stand of timber, follow herewith:-

PINE. There is a total quantity of approx. 5 million f.b.m. of pine of merchantable size, but in addition to this there are extensive of thrifty, clean, young pine averaging 8 inches in diameter, which, if not burned, will in the next 20 years attain merchantable size and be of great value. The species consists mostly of white pine, with red and jack pine predominating in certain regions. Estimate 1 million FBM

HEMLOCK. This species is found generally throughout the whole reserve being intermingled with pine, basswood and birch. A total quantity of 14 million fbm. is found, some of which in berth No.7 has been affected with the "hemlock looper" and should be salvaged, as this infestation is spreading through the remaining hemlock.

BIRCH. This species is mostly of the "yellow" or "canoe" variety and has attained good size. In many cases, the trees have reached an over-mature stage of growth and should be cut, as the quality is deteriorating. There is a total quantity of 12 million f.b.m. The smaller variety "papyrifera" or white birch occurs generally, but rarely attains any size.

Lands and Timber Branch

Ottawa, Nov.21st.1933. 192

Memo. Dr.McGill:

MANITOULIN ISLAND UNCEDED RESERVE.

This reserve which forms the eastern peninsula of Manitoulin Island,Lake Huron,has an area of 105.300 acres,being the second largest in the Dominion.A large percentage of the land is unfit for cultivation and can only be classed as waste land,-this description applying to approximately 55.000 acres.

Timbered land comprises 16.000 acres of the reserve,whilst the Indians have cleared and cultivate approx.10.000 acres.The balance of the area being 25.000 acres is covered with small second growth timber of mixed coniferous and deciduous species.

At one time there was a large quantity of timber handily accessible to water,but this has all been cut and removed by the Indians,the remaining stands of merchantable timber being found at present in the interior and somewhat remote from the shore line,except in the case of the extreme# southern portion of the reserve.

The present stand of merchantable timber is estimated at 47.500.000 f.b.m. details of which are shown on the attached plan.The conifers such as spruce, pine,cedar and balsam occur in pronounced stands as shown, whilst the hardwoods are generally scattered throughout the entire reserve,especially in the northem area.

The timber resources of this reserve are ample for the future needs of the Indians if reasonable care is exercised in the matter of granting permits,and there is an enormous quantity of thrifty second growth timber, which will attain a fair size in course of time if forest fire is kept away from the Reserve.

In this connection I would observe that the annual employment of at least one Indian to patrol the southern un-occupied portion of the reserve,during hazardous dry seasons,would be advisable,and would recommend the employment of such an Indian next year.

Approved as a charge to band funds.

Memo. Mr Orr:-

In connection with the examination of lands and timber that is made from time to time of Indian Reserves by officers of the Outside Service or others specially appointed to do this work, I beg to suggest that a standard form be followed so that this information can be of better service to this branch, and ~~so~~ that standardisation of such reports can be effected for purposes of reference.

A specimen form is herewith attached, and I would recommend that 300 hundred copies be printed.

I think this would be the means of getting proper information as to Reserves

Number of Indian families permanently residing on Reserve 37

Principal means of livelihood Working in saw-mill on Reserve and loading vessels. Also guiding fishing parties and lumbering in the woods.

What progress if any has been made toward cultivation of the land, and betterment of conditions during the past few years Some little progress has been made in increasing the area of land under cultivation but such progress is very slow and only one or two individual members of the band appear to be progressive.

Remarks

There should be no reasonn why these Indians cannot get along well as they have every opportunity. Inherent unprogressiveness is the only drawback.

What progress if any has been made toward cultivation of the land, and betterment of conditions during the past few years Very little except along the Spanish River. The settlement at Sagamok on the south side of the Reserve is remarkable for the appearance of suspended action. Farm holdings have been neglected.-houses fallen into decay and become dilapidated and every appearance of idleness and lack of progressiveness.

Remarks.

In my opinion the band should be encouraged to farm the fertile belt of the reserve which lies along the Spanish River. The land in the neighbourhood is sandy and unfit for ~~for~~ farming, but the members of the band living there are too idle to move to better land and moreover resent progressiveness on the part of the Indians at Spanish River.

Number of Indian families permanently residing on Reserve 23

Principal means of livelihood Working at Cutler saw-mill and lumbering

What progress if any has been made toward cultivation of the land, and betterment of conditions during the past few years Not very much.The band are apathetic toward anything that resembles progress and are content to merely work sufficiently to enable them to live.

Remarks. This Reserve although of large acreage is singularly barren and sterile having been ruined by previous hap-hazard methods of lumbering.Fire has swept along the reserve from end to end leaving bare rocky ridges which will never reforest or be useful for anything The Indians should be encouraged to farm the small quantity of good land that is left.

Is there any serious fire risk ? Yes. and of what nature This reserve is the resort of campers and hunters who are occasionally careless with camp fires etc.

Are there any indications of mineral deposits ? No. If so give details

Number of Indian families permanently residing on Reserve None.

Principal means of livelihood Indians of Queen and Annapolis Counties who own this Reserve are working out for wages and live at different places throughout the Province.

What progress if any has been made toward cultivation of the land, and betterment of conditions during the past few years No.

Remarks The Indians have not for the past 15 years ever lived on or visited this Reserve.The land and timber are therefore so much capital invested for no useful purpose at all.I would recommend that the timber be cut and sold for the benefit of the Indians and if possible an entire surrender of the land also be taken.

Remarks The land is fertile, conditions are excellent but the Indians have a distaste for work of this nature.

It is the usual story - Indians preferring to live their own lives apart from white men. Meantime their resources of timber are plundered or burnt up, their land is idle and the Indian content to live on in a state of almost abject poverty.

Area of timber land Twenty five.

Principal species of timber and quantities The Reserve was burnt over some years ago and is growing up with second groth Jack pine, some White Pine. Poplar, White Birch, and Balsom, There are six small bunches of hemlock containing about two thousand ties and twenty five thousand feet board measure of logs. I have marked on the map the location of the Hemlock stands.

Average stand of timber per acre Feet B.M.

Area of land cleared Fourty one Fenced Thirty five and under cultivation Thirty five.

Is there any serious fire risk ? None. and of what nature

Are there any indications of mineral deposits ? If so give details The Indians say that do not know of any and have not heard anyone say of finding any on the Reserve.

Number of Indian families permanently residing on Reserve Seventeen.

Principal means of livelihood Cultivating their land and working at lumbering and other occupations.

What progress if any has been made toward cultivation of the land, and betterment of conditions during the past few years The clearances they have seemed to have been made for some time. But the Indians appear to be quite thrifty they have very comfortable houses and out buildings for their stock.

Remarks In making this report would say as I was not able to get any place to stay at the Reserve and as it was to far to drive from Byng Inlet I have made this report from one half days visit to the Reserve But from my observation while there would say that this report is practically correct, If the department thinks it nessary I could take my outfit and make a closer examination in the spring.

I turned to one of the councilor and asked. "How are we going to settle this." r John Niganiwina then started quarreling and went away angry saying that I was not fit to settle anything on the reserve. He went out the door one of his Son says you will know what is going on the reserve very soon."

as we see it. John Niganiwina tresspassed on Joseph Sampson's property, because his father never cultivated nor looked after the field nor did John niganiwina himself ever do any thing to it. We do not see how he could take away the field from Joseph Sampson when it had been overgrown by brush wood and a new growth of trees before Joseph Sampson took it. He ought to return the 1½ Ton of hay or pay its worth to Joseph Sampson

I have told Mr H. W. Baxter. Indian agent. Cove Bay a number of times and asked him to settle of this trouble. He always says "the next time I come I will settle it."

I can not wait for him any longer because I cannot depend on him. He never does what he promises.

I am notifying the Department about this trouble. to see what you advice about it. Do you wish me to settle the trouble the way I see it or place it in the hands of the Police Magistrate Price of Little Current.

Account of Counsil

I called a meeting of the band on the 4th inst. to settled a quarrel between John Niganinina and Joseph Sampson Concerning a field. I asked John Niganinina why he tresspassed on Joseph Sampson's farm. He answered me that I need not bother with that because it had been settled before He said. " I thought Joseph Sampson was satisfied that I should take the hay from the field belonging to Jabine and the old woman alongside my father's old farm."

" I once heard my father say that Jabine gave him this field when he left for West Bay. My father gave me his farm when he died."

I Joseph Sampson. wish to tell you that John Niganiwina
came to my place last August and asked me if I was going
to farm anymore in that field. I told him "yes: He said
to me. "I am going to claim that field.. It is mine." I asked
him which field he meant. He answered my." my fathers
old field. and with this he left the house

When I went to the field to cut my hay I found it had
been cut and taken away by John Niganiwina to is
stable.

There was about one and a half ton of hay in that
field. I begged of the chief to make John Niganiwina
give me my hay or pay me for it but before the chief
had a chance to settled the question John Niganiwina
left the councel angry. I have cleared and worked this
old field of Jabine and the woman and I wish to keep it
and beg the Department to forbid John Niganiwina to

Dear Sir.

I wish to tell you about the trouble concerning that has arison in the Reserve between Joseph Sampson and John Niganiwina The land was used by a man named Jabine and an old woman, both of them left this reserve and Settled in West Bay Indian Reserve 60 years ago. In years new bush grew in the place until it looked as though it had never been farmed.

About 20 years ago Joseph Sampson cleared and ploughed it and used it for a number of years. Lately he seeded it down and has been taking of hay every Summer until last Summer.

That is all we have been about the old farm

Sir,-

In reply to your letter of the 25th ultimo, I am enclosing photostat copies of the field notes of survey of the North part of the Township of Allan, made by J.W. FitzGerald, P.L.S., in 1880. These are the only field notes of this Township of record in the Department and, in addition to a partial resurvey, consist of a subdivision of the portion not covered by the Bolger survey of 1867.

Dear W. R.-

There is a lot, in Mills township,. that was transferred from a Mrs. Orford to Wm. Robinson, the present owner. The timber was stripped off before he got it and as a farming proposition is only good for grazing land when cleared. Mr. Robinson has paid about $70 on it since he bought and wants to know if you could have the Department write off the balance. I could have the Forest Bailiff run out and report on it if necessary.

Let me have a line to say what can be done.

Yours very truly,

A. E. Graham.

MEMO.

444051

To the Deputy Minister,

In regard to Lot 6 Concession 7, Mills Township referred to in letter addressed to Mr. Smythe M. P.. by Mr. A. E. Grahm, I beg to say that this Lot which contains 100 acres, was sold on the 8th. July 1879 for $100 to William Robertson, who assigned his interest therein to Robert Radcliffe, who assigned the west half of the Lot to Alice Robinson, so that the East Half of the Lot stands now, in the name of Robert Radcliffe, and the West Half, in the name of Alice Robinson. There has been paid on account, of the purchase price, the sum of $52.05, leaving a balance of principal due and unpaid of $47.95, and interest thereon at 6% from the 8th. July 1879.

Remission of the interest as requested, could only be made under authority of the Governor in Council, upon it being considered that the sum was excessive, under Section 88 of the Indian Act, sub-section 1, a return of such remission being required under sub-section 2 to be submitted to Parliament.

If it is considered advisable to take action in the matter, it will be necessary to have a sworn report as to the valuation of the land, which could be made by Mr. Griffith, the Land Valuator of the Department, at Gore Bay.

Your obedient servant,

W. A. Orr

Dear Mr. Smyth,-

With reference to letter from Mr. A. E. Graham, Gore Bay, Ont., to you, which you left with me a few days ago, regarding Lot 6, Concession 7, Mills township, I beg to say that this lot, which contains 100 acres, was sold on the 8th July, 1879, for $100 to William Robertson, who assigned his interest therein to Robert Radcliffe, who assigned the west half of the lot to Alice Robinson, so that the East half of the lot stands now in the name of Robert Radcliffe, and the West half in the name of Alice Robinson. There has been paid on account of the purchase price the sum of $52.05, leaving a balance of principal due and unpaid of $47.95, and interest thereon at 6% from the 8th July, 1879.

It does not seem to me that your correspondent makes a very good case for remission of the balance due on the above lot, and, in any case, such privilege

Memorandum,- March 3, 1922.

Hon. Charles Stewart.

With reference to your telephone inquiry, I beg to say that we have in the Battleford electoral district an Indian agency, namely, the Battleford agency, which comprises 8 reserves. In this agency we employ the following officials : -

S. L. Macdonald,	Agent,	$1740. per annum,	
H. C. Norquay,	Doctor,	2900. " "	
R. E. Osborn,	Clerk,	1500. " "	
Alexander Logan,	Teamster,	720. " "	employed for only 6 months per year
Gordon Henry,	Farmer,	720. " "	
S. S. Moore,	Farmer,	960. " "	
Walter Taylor,	Farmer,	840. " "	
A. Suffern,	Farmer,	840. " "	to be retired May 1, 1922.
Mrs. A. E. Brown,	Field Matron	480. " "	
Mrs. E. V. Bird,	Field Matron	300. " "	

On May 1 there will be a vacancy for a Farming Instructor at the Thunderchild's reserve, owing to the retirement on superannuation of Mr. Suffern; this position has been advertised by the Civil Service Commission, the applications were to be made to Commissioner Graham, and were receivable by him up to February 9. So far, we have

not received the applications, nor his report thereon, but they will probably be received in an early mail.

For the last two or three years we have not employed a Farmer for the Moosomin reserve, but the Indian Commissioner reports that it would be in the interests of the Indians to have one there; the position was not established in the Position List of the Department, and there is now before the Treasury Board a recommendation to Council, establishing the position. Just as soon as the Order passes, we will take the necessary action to have the position advertised by the Civil Service Commission for permanent appointment.

All of the above officials come under the jurisdiction of the Civil Service Commission, and are permanent employees, with the exception of the Field Matrons.

With reference to Mr. Chatellaine, the Overseer at the Meadow Lake reserve, I have to say that in September, last, Commissioner Graham reported that he had received a letter from the Agent at Battleford, to the effect that Mr. Chatellaine was of no real use on the reserve, that he never replied to letters addressed to him, and recommended that the supplies and equipment on the reserve be turned over to the Councillor, who might be allowed $10. per month as dispenser. Mr. Chatellaine was paid $240. per annum.

In November the Commissioner again brought to the attention of the Department the inadvisability of retaining Mr. Chatellaine's services, and on December 28, 1921, we wrote to Mr. Graham that, as recommended by him, necessary action might be taken to dispense with Mr. Chatellaine, he to be given one month's notice, and the Councillor to undertake the duties of the position at a remuneration of $10. per month. Mr. Chatellaine's services terminated on February 15.

MEMORANDUM

Mr. Mitchell -

I am sending you herewith a complete record of the employees of this Department, corrected to date. You will find on the first page a recapitulation. The inscription on the cover is not quite appropriate, inasmuch as it states that it is a record of the employees paid from Parliamentary Appropriation. As the recapitulation shows some of the employees are paid from Trust Funds.

Office of the Secretary

Ottawa, March 31st, 1919.

Dear Mr. Scott:

The Commission has been requested by Major Redman, M.P., to furnish him with "a list of all the Dominion Government positions within the Province of Alberta; - giving the name of the party holding the position; the amount of remuneration, the nature of the work, and the date of the appointment; - special mention being made of returned soldiers."

I have advised Major Redman that this will entail considerable work but as he considers it very important that he should have this information I am to ask that you will be so good as to have the same prepared and submitted to the Commission so far as it concerns your Department at the earliest convenient time so that Major Redman's request may be answered with as little delay as possible.

Yours very truly,

Dear Sir,-

I have your letter of the 31st ult'mo. asking for a list of all the positions in the Department of Indian Affairs in the Province of Alberta.

I am attaching hereto a schedule giving the information which you desire.

I wish to point out however, that it is rather difficult to describe the varied duties of an Indian Agent: perhaps it would be sufficient to say that he has general supervision over all the business of the reserve. The clerks besides general clerical duties, have in many cases considerable outside work.

Yours truly,

Duncan C. Scott

"The Treasury Board has had before it sundry submissions recommending changes in the organization of various Departments.

After giving the matter its consideration, the Board is of the opinion that at this time increases in the cost of personnel in the Public Service are not in the public interest, whether such increases are effected by the creation of new positions, reclassifications, or promotions.

I am directed, accordingly, to return submissions of your Department as per the attached list, providing for such changes in organization. The Board's decision concerning increases will, of course, apply to the Estimates for 1932-33."

Memorandum:

Mr. Buskard.

With reference to your memorandum of the 26th instant, I beg to say that the only Engineer employed by this Department is Mr. J. D. Chene, who is classified as Engineer, Department of Indian Affairs. His present salary is $3300.00 and he is located at Headquarters in Ottawa. His work consists of the supervision and direction of the road work through Indian reserves, bridge work, drainage and sanitation generally on Indian reserves, septic tanks and sanitary equipment at residential schools. It is necessary to have an Engineer on hand constantly for consultation and action in such matters and I do not consider that this work could be satisfactorily performed by a consolidated engineering service.

Memorandum:

Mr. Buskard.

With reference to your memorandum of the 25th instant, I beg to enclose, herewith, a statement with reference to the Departmental Solicitor and Translator employed by this Department. You have asked for my views as to whether the translation and legal work of this Department could be satisfactorily provided by a consolidated Translation Service and Legal Service. My answer would be in the negative in both cases, with a certain qualification as to the Translator. Legal questions which are technical and peculiar to the Department constantly arise in the ordinary course of duty and it would entail loss of time and perhaps to a certain extent, lack of uniform treatment or policy in dealing with questions where professional advice is needed.

The Translator for this Department is occupied from day to day in translating correspondence, memoranda etc., and for that portion of the work I think it would be inconvenient and great delay would be caused if we had to send our ordinary correspondence to a central bureau. The other section of his work is the translation of the Annual Report from English into French This, of course, could be undertaken by a central Translation Staff and if this were done I think we would not require the services of a Principal Translator. The ordinary current work could be done by a less expensive official.

Dr. Stone,-

I am in receipt of a request from the Minister's Office for the names of the Indian Agents and Medical Officers of the agencies in the neighbourhood of Georgian Bay and close to Manitoulin Island, the list to go back for 10 years, dates of the services to be included. The agencies affected will be Gore Bay, Thessalon, Parry Sound and Manitowaning. Will you kindly let me know whether, in any of these agencies, there are any doctors employed on the call system and, if so, give me the information regarding them. We can deal with the doctors on salary from the Establishment book.

Memorandum,

MISS O'DONAHOE:

With reference to accounts for medical attendance for Indians of the Gore Bay Agency and stragglers from Gibson Reserve since 1922:

The Indians of the Parry Sound Agency (which includes Gibson Reserve), the Agencies on Manitoulin Island and the district surrounding Sudbury and Sault Ste. Marie frequently visit all these reserves and districts, and in the summer sell baskets and other wares. The Doctors on salary in the Manitoulin Agency have submitted accounts for many years when it has been necessary to treat transients from other Agencies. The same is true of Sudbury and the Parry Sound District. The custom seems to be that if an Indian becomes ill in a village the nearest Doctor is sent for, without the knowledge of the Department, and later, after inquiry is made, if the Indian is a recognized member of any Band and unable to pay his own account, it is paid by the Department. Frequently only one account is received from a Doctor for services to an Indian who happens to be passing through his district.

In the memorandum submitted a day or two ago in this connection Doctors authorized on the call system were dealt with, but it must be recognized that Doctors whose names would appear "on salary" have also submitted accounts when necessary, and other small accounts have also been received.

DR. MCGILL.

The following are the employees at the Indian day school, Bersimis, P.Q., together with the salaries paid:

Sister Marie du Carmel - Principal - $600 per year,
Sister St. Jeanne - Asst. Teacher - $500 per year,
Sister St. Fidele de Jesus - Junior Teacher - $200 per year.

There are a number of white children who attend, and the white parents provide the balance of the third teacher's salary. All the above salaries are subject to the deduction of 10 percent during the present fiscal year.

We have no teachers employed at Seven Islands and Escoumains. The Indian children at these points attend the local white schools and this Department pays a tuition grant for them.

The Department has no schools at St. Augustine, Mingan, Natashquan and Romain.

Comptroller of the Treasury:

With reference to Treasury Board letter of the 7th instant (T.149,088 B) requesting details of the employees paid on the prevailing rate basis, I beg to advise that the information required cannot be furnished by this Department for the following reasons.

(a) Payments for casual labour and prevailing rate employees are not kept under names of individuals or class of labour, but are charged along with other expenditure incurred in connection with buildings and works, maintenance repairs or construction.

(b) There are isolated cases of foremen employed in the overseeing of repair or construction work being performed by Indian labour, but the wages of such foremen are shown as part of the cost of the job which is chargeable to the sub-allotment for buildings and works.

(c) It is the policy of the Department to make Indians who are receiving Relief perform repair or construction work that is necessary around an Agency, and for which no special funds are ~~allowed~~, a nominal rate of pay which they receive in the form of provisions or clothing. The cost of the work performed is, therefore, charged to the Relief Allotment, not as wages, but as relief issues.

(d) During "Treaty Payment Trips" Agents are often required to employ canoe-men and Indian labourers for the transporation of supplies, etc., and such charges are included in the Agent's account under the "Travelling Expenses Sub-allotment".

From the foregoing it will be seen that it is practically impossible to provide the information requested by

the Treasury Board without dislocating the daily routine duties of this office.

The time and labour required to get this information would be very considerable indeed as it would entail searching through thousands of vouchers and the preparation of a synoptic in order to obtain the classifications desired.

Dear Sirs:-

We wish to obtain certain information from you as to the Indian reservation at Caughnawaga, otherwise known as Sault St. Louis, other than what is contained in the Indian Act (R.S.C. cap. 81) and amendments thereto.

In the first place, under what class do the Caughnawaga Indians fall, i.e., are they just "Indians" or are they "non-treaty Indians"? We are unable to find out anything on this point.

How could we get at the status of an Indian or Indians living at Caughnawaga? We are continually having dealings with them through the Dominion Bridge Co., Limited. This Company is a client of ours and employs a large number of Indians. In the ordinary course of their work with the Dominion Bridge Co. these Indians are either hurt or killed and we then have to adjust their claims under the Workmen's Compensation Act of this Province. We find that in some

cases

cases these Caughnawaga Indians are very amenable but in other cases they give a great deal of trouble and we wish, if possible, to be in a position to protect the interests of the Dominion Bridge Company.

We have a case in point at present in which a man and his wife are suing the Dominion Bridge Co. for $2,000, alleging that their son who was working for the Dominion Bridge Co. and who was recently killed while in the ordinary course of his employment, was their sole support. We find it hard to believe their story inasmuch as the father is an able-bodied man and in addition to that has three sons who are living with him and who are all working. While the Dominion Bridge Co. wishes to be fair in all its dealings with its employees, you can readily see that as a matter of principle it cannot afford to be duped by the Indians in this manner. If the father and mother in the present case were successful in their action without just cause they would undoubtedly spread the ~~cause~~ news of their success among the other Indians on the reservation and thus give rise to many unfounded actions.

We notice that section 171 of the Indian Act, as amended by section 3 of 1-2 Geo. V, cap. 14, provides for certain

certain annuities that are payable to Indians in pursuance of the conditions of any treaty entered into by His Majesty and for the payment of which the Government of Canada is responsible. Would you be good enough to advise whether the Indians in the Caughnawaga reservation are in receipt of any such annuity or whether any interest from appropriated funds is payable to the Indians, whether male or female, of the Caughnawaga Reservation.

At the same time you might also inform us as to the correct manner of referring to these Indians. Are they all members of one tribe or are they members of various tribes who have simply collected at Caughnawaga.

As we have to plead to the action which was taken against the Dominion Bridge Co. within a short delay, we would greatly appreciate your preferred attention in the premises.

Yours truly,

Sirs,-

I beg to acknowledge the receipt of your favour of the 30th ultimo, asking for information with respect to the status of the Caughnawaga Indians and as to whether they participate in any funds as referred to in Section 171 of the Indian Act.

In reply I beg to say that under sub-sections (d) and (f) of Section 2, Chapter 81, R.S.C., the Indians of Caughnawaga come within the definition "Indians" and not "non-treaty Indians".

With respect to the "status" of an Indian living at Caughnawaga, I beg to say that speaking generally these Indians, as well as other bands are incapacitated or restricted only so far as expressly defined under the Indian Act, but in all other respects, so far as the Department is aware the Indians have the same status as white persons. You will note that under Section 103 of the Act, Indians have the right to sue in respect of any tort or wrong inflicted upon them.

a.s.w.

There are no funds payable to these Indians in pursuance of treaty conditions as referred

to in Section 171 of the Act. They receive no annuities. They have funds as set forth on page 127 of the Auditor

Encl. General's Report 1912-13 enclosed herein, which funds they have derived from the sale of lands, timber, stone etc. This report shows how these funds are disbursed . These Indians are properly referred to as "The Iroquois of Caughnawaga" and are practically all of one tribe.

It is hoped that this information may meet your requirements.

With Cheque

Sir,-

I beg to transmit herewith cheque No. 508 for $31.25 in payment of the account which you submitted from Messrs. Phippen & Simpson for the burial expenses of the late Peter Thomas. The fact, that payment of this account is made, is not to be regarded as a precedent, as in future the maximum amount allowed for coffins for adults will be $15.00 and for infants $7.00. If the undertaker exceeds these amounts in any case, he will have to look to the members of the deceased 's family for payment, in excess of the amounts above stated. You should notify the undertaker and the Indians generally to this effect.

I return herewith the account of $10.00 in favor of Andrew Isaac for relief supplies furnished Joseph Sward. The Department should receive an account from Isaac rendered in detail and in duplicate for all the articles which were supplied the Indian. You should be aware of the Department's requirements in this respect.

Your obedient servant,

J. D. McLean

Dear Sir:

I have resided in the Township of Laird for the past fifteen years, on the West half of the South West quarter of Section F. There is a vacant lot adjoining my present farm. being, the West half of the South West quarter of Section F. There is evergreen scrub timber on this lot of no value. Part of this lot would make rough pasture land, and I wish to procure it for that purpose. Therefore I herewith apply to you for this lot, and am willing to pay as high as fifty cents per acre for it.

Sir -

I beg to acknowledge the receipt of your letter of the 30th ultimo, submitting two applications for land in the township of Laird, and in reply to say that only the lots which have been placed in your hands for sale in your agency can be disposed of.

I may say that the other lots not specified in the list sent you in the different townships of your agency are not at present in the market, as they are covered by timber licenses, and having been reported unfit for settlement are not saleable under settlement conditions and cannot be sold under section six.during the currency of the timber license.

I beg to advise that Mr John Laroque of the Twp of Laird in the District of Algoma has made application to me for the purchase of the W, ½ of the S, W, ¼ Section F Laird. Mr Laroque owns the East half of this quarter Section and he has cleared and fenced on this portion he wants to purchase about 5 acres fully fenced with wire and have been cultivating it for a about 14 years,

I made an application for Mr Laroque for this piec of Land on the 10th of March 1920 , and received an answer from the late Mr Orr,on Mardh 12th 1920 File 446,870 stating that the License was to be cancelled on the 30th of april that year and as asking me to renew the application after that date.
I consider that this man is entitled to be allowed to purchase th this land, .When Mr Montgomery was putting a valuation on the unsold Lands in Laird he recommended that this certain piece of Land be sold to Mr Laroque.

Hoping you will give this matter your very best consideration.

Sir,—

I beg to make application for John Laroque of the Township of Laird Farmer for the West half W½ of the South west Quarter S. W. ¼ of Section F in the Township of Laird.
Mr Laroque owns the East half of this Quarter Section and he has cleared about 5 Acres on the half he is applying for and has cropped it for the past 15 years.

I made application for this man for this Lot some 3 or 4 years ago and he was promised that as soon as the License was cancelled he would be sold the lot.
Mr Laroque is a good farmer and has good buildings on the E½ of this quarter section and he needs this to give him an outlet to the water.

Hoping you will grant the request .

Deputy Superintendent General:-

Approved

Agent McNabb advises that Mr. John Laroque, Farmer, of Laird Township, has applied to purchase the West 1/2 of the S. W.1/4 of Section "F", Laird.

This half lot has not been disposed of and contains seventy-six acres valued at sixty-five (65¢) cents an acre, totaling forty-nine dollars and forty ($49.40) cents.

The applicant owns the East 1/2 of this quarter section and has had for a number of years five acres of the West half of the lot cropped.

The Agent is desirous that Mr. Laroque secures the land and I would recommend, subject to your approval, that the land be sold to the applicant for cash under Section Six of the Land Regulations.

Sir,-

I beg to advise you that since writing you on the 30th ultimo regarding ~~a~~ resolution No. 23 of the Six Nations council as to payment by Philip Miller to Catherine Johnson , I have received further information in regard to the matter. It appears that these two parties ~~xk~~ have been living together for a number of years ~~xxx~~ as husband and wife. The land in question belong to Mrs. Johnson and while theyx were still living together she leased it to Miller upon the usual Share division. Miller went on with his fall plowing and during the winter trouble arose and they separated. She now claims money rent payable in advance instead of on shares and that is the amount provided for by the council's decision. From the information I have received I am of opinion that Miller should be permitted to seed the land subject to a settlement of their differences at a future time, or else the original agreement between the parties should be carried out, in any event it ~~appear~~ appears unreasonable that Miller should loose the benefit of his fall plowing.

Mr Allison informs me that he has the contract for this work, and he will require a large quantity of sand and gravel in his business. and as there is an unlimited quantity on reserve No. 40. he is desirious of having the privelage of taking what he will be in need off, for use in his operations,

He has already got the Consent of Chief Redsky and Band to do so. provided you will approve of this, He has already paid the Band some $30.00. on account as a Royalty. and agrees to pay them the sum of 3¢ per cubic yard pit measurment. for all he requires.

I will be pleased to have your views on this matter, and if he will require a license to do so or not, .as this sand and gravel is of no benifit to the Indians, and will not do any harm to the reserve. should it meet with your approval. I would beg leave to recommend that he be given the privelage asked for, a reply will obluge, as Mr Allison' is anxious to start operations, and has all his material on the ground, for the winters work.

Sir,-

I beg to inclose form of surrender, in duplicate, covering the sand and gravel on Indian Reserve No. 40 which you are hereby authorized to submit to the Shoal Lake Band of Indians under and in accordance with the provisions of the Indian Act. Notice of meeting for the purpose of considering the surrender should be given in accordance with the rules of the Band, and you should make sure that all voting members of the Band receive notice.

If the surrender is assented to, you should fill in the date in each document and have same signed by a number of the Indians in your presence, and an affidavit of execution should be made on the forms attached by yourself and the Chief and a Principal Man. before a stipendiary magistrate or a justice of the peace.

When returning surrender, you will be good enough to advise as to the exact number of voting male members of the Band over the age of twenty-one years, residing on or near the reserve, the number present at the meeting, the number voting for the surrender and the number voting against

As regards the royalty to be paid on the sand or gravel, you will be good enough to advise as to whether you consider three cents per cubic yard sufficient, as the Department considers that this is a low rate.

Sir,-

I find it necessary to obtain sand and gravel building purposes on a point on Indian Bay in the Province of Manitoba on or near the intake of the Winnipeg Water Works. This I understand is in that part of Indian Reserve No. 40 which lies inside the Boundary of Manitoba. In order to obtain this it will be necessary for a surrender to be taken from the Indians and I would ask the Department to do so under conditions favourable to the Indians. All I want is a lease of the sand bar and gravel ridge on the basis of a royalty per yard and any reasonable conditions that the Department would wish to impose will be satisfactory to me. I would be glad if action is taken in this matter at earliest possible convenience as I have to get to work at whatever point the sand is obtainable. Again I wish to point out that while that Reserve is partly in Manitoba and partly in Ontario the place ~~xx~~ I wish to operate is inside Manitoba about three (3) miles. I ran the line lately myself and it is very distinct.

Yours sincerely,

A. E. Allison

Dear Sir:—

Mr. McLean, who is in charge of the survey camps at the head of Indian Bay in connection with the Greater Winnipeg Water works, wishes to get some wood cut on the reserve for the use of the camps. I write to ask you if they ~~will~~ can get permission to cut some green wood, or if the Indians will be allowed to cut it for them, on the reserve where their camps is situated, And if so, upon what terms? ~~How~~ much per cord and what amount, if any, would go to the Department,

Has the Greater Winnipeg Water Commission made any arrangement about occupying any part of the reserve or about taking sand, gravel or timber from it, We look to you to care for the interests of the Indians in this matter,

Yours truly
Red Sky

Sir:-

The enclosed letter from Chief Red Sky. Band NO.40. although apparently written on the 9th Instant, only reached me on the 17th. This letter speaks for it self,

I may say that on receipt of the letter in question, I at once wrote the chief, As per instructions contained in your Letter of Oct' 27th. 1913. No.447,733. as follows,

Permission is hereby given to enter upon Indian Reserve Number Forty Shoal Lake for necessary survey,"Winnipeg Water Supply, all consequent damage to be paid for at Department's valuation."

I further told him that no green timber could be cut under any circumstances. But that if he and the Indians wished to take out a quantity of Cord-wood, from dead and fallen timber, that I had no doubt but the Department would give them a permit to do so. by paying Crown Dues. but that no sand or gravel could be sold in the manner they had arranged to do so, with Mr. A. E. Allison.and that until permission was obtained from the Department, they were not to allow any such to be removed. I trust this will be found satisfactory. A reply will oblige.

Sir.-

.In reply to your letter of the 15th. inst. No.447,333.- Re the surrender of sand and gravel on reserve No. 40. by the Band. which I received yesterday.

I beg leave to point out that it will cost quite an amount to make the trip out to Shoal Lake at present. besides having to bring in the Chief and one Councillor. to declare to the surrender , if they will decide to give the same.

I have there-fore written to the Chief asking him if they are all agreeable to sign the surrender, and if so that I will go out and have the same taken. when I receive his reply will be in a better position to know just what to do,

At the present time. the ice is not in a state to drive out. and should I have to go just now, the only way I could get there, would be to go to Ingolf. and walk in from there a distance of 20 miles, but just as soon as I find out what the Indians are willing to do, will let you know,

As to the price 3¢ per cubic yard pit measurment, I am of the openion it is rather low. but if the Indians get the work of taking it out, they could make a good living by so doing, will give you a more definate reply, when I find out all particulars.

Sir,

In reply to your letter of the 7th instant, I beg to state that the boundaries of the Indian Reserves Nos. 39 and 40, adjacent to Shoal Lake were retraced in 1911-12 by J. W. FitzGerald, O.L.S. Mr. FitzGerald was not instructed and did not make any re-survey of the edge of the water, he simply retraced the straight boundaries. A copy of his plan will be prepared and forwarded to you.

MEMORANDUM -

Hon. Dr. Roche -

With regard to communication from Mr. Reynolds, Chairman of the Commissioners of the Greater Winnipeg Water District, I beg to say that it was represented to the Department that Mr. A. E. Allison had the contract for the buildings to be erected by the Commissioners at Shoal Lake and that he had already made an advance payment to the Indians on account of royalty.

A general surrender has been submitted to the Indians in the usual way and I shall make a note of Mr. Reynold's statements and when the time comes will see that none of the sand and gravel is disposed of to Mr. Allison, without further consideration.

No.132-9.- January. 14th. 1914:-

Sir.-

Referring to your letter of No.447,333, December. 15. 1913: Re the surrender by Shoal Lake Band No.40. of sand and gravel on their reserve, to the Department.-

I beg to say that on the 7th Instant. I went out to Shoal Lake. Arriving there at 2.45. P. M. seen the Chief. and he went out and notified the Indians to attend a council meeting that evening. at 8. P. M. which they did, the result is shown on the list attached to the surrender. which is forwarded here with, I am only returning you one copy. as I wish to hold one in this office. I trust that will be in order. and that I have got the Surrender properly made out, I was obliged to have the chief come in here to Declair to the documents, and had to pay his passage to and from Ingolf. and here.

I may add that I have suceeded in getting Mr Allison, to agree to pay the sum of 5¢ per cubic yard pit measure. and he is prepared to give the Department. a bond satisfactory to the Department.for the promt payment of all money due, as soon as measured. He has further agreed to give all Indians wanting to work, employment,which will be a great benifit to them,

If the foregoing is approved by you, I would recommend that Mr Alleson be given the sand and gravel, as I think 5¢ per yard a very good price. and it would be better this way than to have several parties working there in small lots. which would only result in trouble, every way. I trust this will be found satisfae ctory. and I will be pleased to hear from you on this subject.

Sir,-

In connection with permission given your Company to erect a camp and do survey work on Indian Reserve No. 40, at Indian Bay, on Shoal Lake, I have to request that you will kindly advise the Department fully as to your plans in connection with carrying on operations on this reserve, as you are aware no rights can be granted without the consent of the Indians.

If your plans are sufficiently developed, the Department would be pleased to be furnished with full information as to proposed erection of buildings, the nature thereof and the time for which permission to use the land for buildings would be desired. It might also be stated what would be the probable estimated quantity of sand or gravel which the Company would require to take out.

I might point out that a surrender of the sand and gravel on this reserve has been granted by the Indians, which the Department would be able to dispose of for their benefit.

Dear Sir:-

I have your letter of the 3rd. inst., re. our occupancy of a portion of Indian Reserve No. 40 at Indian Bay, Shoal Lake. I beg to advise you that our plans are not yet sufficiently developed to submit to the Department the information you require. There is a vast amount of engineering work required in locating our aqueduct, which leads from Indian Bay, such as testing the ground for depths of rock and so forth.

The choosing of the best location is not at all an easy matter, but this work is nearing completion and we hope to have, within a short time all the data to complete our plans. We shall then be in a position to indicate to your Department just actually what our desires are.

FEB12 1914

I note that a surrender of the sand and gravel on the Reserve has been granted by the Indians. I wrote the Hon. Dr. Roche on this subject on the 8th January, and received a reply from him in reference to this matter dated 19th January in which it is evident that he had taken the matter up with you. We, therefore, trust that the Department will not permit this matter of the sale of the gravel to parties other than ourselves to go any further until such time as we have had an opportunity to submit to you just what it is the District requires, which will be done at the earliest possible moment.

Yours very truly,

No.132-9:- February. 23rd. 1914:-

459959

Sir:-

With refrence to your letter of the 26th Ultimo. No.447,733. Re- the application of the Greater Winnipeg Water supply. for the permission to erect buildings and construct a Railway on part of Reserve. NO.40. Shoal Lake.

I beg leave to inform you that on the 13th. instant, as I had to go to Shoal Lake. in connection with otherm matters. I drove up to Indian Bay. I seen the Resident Engineer Mr. McLean, and went over the part of the reserve. they require. They have two very fine buildings already erected on the reserve. and will require quite a number of others. and quite a large piece of the corner of the reserve. but as yet it is not definately known just how much they will require or for how long, As the intake is on the reserve they will have to put up a perminant building there. and run the Rail Road right on to it,

I got a map and had the approximate area. traced on the back and on the face marked in red ink. and am forwarding it to you by even mail. but until the place is surveyed and a definate estimate is made nothing can be done. I may however say that there whole operations, will be on the Reserve. which is in the Province of manitoba. and I suppose that sooner or later they will be given the privelage asked for. as there is no other way they can make an enterance to the Lake, I had a council meeting with the band, and they are all willing to surrender what land is wanted to the Indian Department. to be sold for there benifit.

I have the honour to be

Sir.

Dear Sir: Indian Reserves at Newport.

Referring to my attendance upon the Board this morning I herewith enclose blue print of plan showing the Indian Reserves applied for at Newport for railway terminal purposes on which is shown in red the portion of said reserves required for railway purposes comprising an area of 674.98 acres. This amount of land is necessary for the reasonable requirements of the Company for depots, yards, shops, round houses, freight sheds, elevators and other structures incidental to the traffic of the railway at this point where the line first strikes tide water. As explained to the Board this morning, all freight traffic other than that intended for Vancouver will be handled here, such as that destined for Victoria, Seattle, Portland, via Panama Canal or for China or Japan. I might add that the Railway Company will require considerably more land than that comprised in these Reserves for terminal purposes, as may be demonstrated by a comparison of the extent of lands acquired at similar points by other Railway Companies.

Dear Sir,-

Re Lands in Indian Reserve.

Attached, please find original and one white print, colored, of our Drawing No. E-7, sdale of 400 feet equal one inch, being "Sketch Map of Portions of Indian Reserve No. 40."

The areas colored shew the lands which it is desirable that the District should own within the Reserve,- about 288 acres. These areas are delimited on the map by latitude and departure from the zero chosen by Mr. McLean of Party No. 3. This will provide intake and Aqueduct Right-of-Way; as also Right-of-Way for the diversion canal to accommodate the Falcon River; the bed of soil and gravel desirable for construction of the dyke for the Falcon River Diversion, as well as the gravel which may be found within the same deposit suitable for concrete; sufficient area for terminal yards and for contractor's camps; and such rights over the Falcon River as will permit access to Snake Lake for purposes of Aqueduct construction.

We have to recommend that this land be obtained from the Department of Indian Affairs.

Attached hereto, please find letter from Mr. McLean, dated February 15th, relative to a visit by the Kenora representative of the Indian ~~Agent~~ Dept.

Yours very truly,

(sgd) James H. Fuertes.

As Mayor of the City of Winnipeg and Chairman of the Corporation of the Greater Winnipeg Water District, a corporation created by special act of the Manitoba Legislature and of the Dominion Parliament for the purpose of supplying the City of Winnipeg and contiguous communities with an adequate supply of pure water, I am instructed by the Administration board having charge of this matter to make application to the Department of Indian Affairs for permission to purchase that portion of Indian Reserve No. 40, surrounding Indian Bay, shown white on the blue print herewith and which I have signed this date, containing approximately 288 acres, this to cover our requirements for terminals, gravel pit and right of way of the pipe line. We recognize that the Indians are entitled to reasonable compensation for this and we are prepared to pay what the Department would think just.

Sir,

With reference to your favour of the 26th instant and accompanying blue prints showing the lands in Shoal Lake Indian Reserve No.40 required in connection with the Greater Winnipeg Water Supply, I have to request you to be good enough to forward a plan on tracing cloth showing the said lands. This plan should show the distances and courses of the several boundaries as well as connection with the boundary of the Indian Reserve and should be accompanied by a description sufficient to identify the land without having a plan attached thereto. It should be signed and dated by the surveyor as well as by a responsible officer of your commission.

Since the above lands may be acquired under Section 46 of the Indian Act a surrender from the Band will not be necessary. The valuation has been placed at $3.00 per acre in addition to a charge of 5¢ per cubic yard for the sand and gravel. in the first.

Please be good enough to submit plans, profiles and estimates showing the quantity of sand and gravel included within the areas which you have decided to expropriate.

Sir,-

With reference to your favour of the 23rd ultimo, regarding the lands required for the Greater Winnipeg Water Supply at Shoal Lake, I beg to say these lands are being taken under Section 46 of the Indian Act, hence a surrender will not be required from the Band. The Department is pleased to note however, that the members of the Band appear to be quite willing to part with these lands. The Department is endeavouring to arrive at a satisfactory conclusion of this matter with the authorities at Winnipeg.

Dear Sir: -

-Re Your File No. 447,733-

I have your favor of the 26th. February, File No. 447,733, re lands required by the Greater Winnipeg Water District in Shoal Lake Indian Reserve #40, and I am greatly surprised to find that a charge of 5¢ per cubic yard for the sand and gravel has been added to the price of the land as I distinctly understood from Mr. Scott, when I was in Ottawa last week and took this matter up with him that the price was definitely settled at $3.00 per acre to cover everything and I think that Mr. Scott fully understood that as well. If there had been any intimation or suggestion that a charge of 5¢ per cubic yard in place for the gravel was to be made in addition to this, I most certainly would have taken it up with Mr. Scott, as that is what I went to Ottawa for, as I consider this price altogether excessive particularly when we are paying a much higher price per acre for the land than is charged for the adjacent Crown Lands of Ontario.

We do not require the larger part of the lands applied for except for the sand and gravel and if we are to be charged for the gravel in addition to the price per acre, it will bring the price per acre very high. I distinctly understood from Mr. Scott, that the matter was settled at $3.00 per acre but if the charge per yard of gravel is to be in addition to that I do not think it should exceed at the most one or two cents per cubic yard in place particularly when it is in such a remote place and is only to be reached by our line which ~~is to be~~ being purely constructed as a public service work.

I should be very greatly obliged if you would take this matter up again with Mr. Scott and advise me so that I would receive your letter before next Friday morning as the Administration Board meets on Friday afternoon and I wish to make a full report to them on that day.

Regarding the boundaries and the descriptions by metes and bounds, we will have that done if possible, within the next three months.

Sir:

In reply to your letter of the 13th inst. No. 42568 ML & Y respecting the ownership of gravel and sand in the submerged beds of rivers in Manitoba, Saskatchewan and Alberta and within the Railway Belt of British Columbia, I have the honour to state that except in so far as the beds of these rivers have been granted they belong to Canada and can be administered by your Department. I am to point out however that as was disclosed in connection with the enquiries into the title of the bed of the Bow River at Calgary and the Saskatchewan River at Edmonton, the grants issued by your Department have not been uniform in the past with respect to the boundaries of lands upon the banks of the river. In some cases the descriptions are such that they have conveyed parts of the beds of the rivers and in others the bed has been carefully excluded. Great care will therefore have to be taken in issuing any licenses or leases for the taking gravel or sand out of the river beds.

I have the honour to be,

Sir,

Your obedient servant,

Sir :

I beg to refer you to your letter dated the 23rd of August, 1907, Ref.F. 1050-1907, having reference to the removal of gravel for construction purposes from the bed and banks of the river Bow at Calgary. In this communication you stated that so far as the bed and banks of this river are Crown property, they are Dominion lands and belong to the Dominion: and that this Department would, therefore, appear to be the proper one to take action.

Applications have been submitted to the Department for permission to remove sand and gravel from the submerged beds of rivers in Manitoba, Alberta, Saskatchewan, and within the Railway Belt in the Province of British Columbia. These applications chiefly affect rivers and lakes in the immediate vicinity of centres of population, and it appeared to be advisable owing to the scarcity of building sand and gravel in that part of the country, to enact regulations for the issue of permits to remove sand, stone and gravel, the property of the Crown, from the submerged beds of rivers and lakes in the above Provinces, provided the opinion expressed by you in your communication of the 23rd of August 1907 applies with equal effect to all other rivers and lakes in Manitoba, Saskatchewan, Alberta

and within the Railway Belt in the Province of British Columbia.

I am to request you therefore, to be so good as to furnish this Department with an expression of your opinion as to whether or not there would be any objection to preparing Regulations for the removal of sand, stone and gravel, the property of the Crown, from the submerged beds of rivers and lakes in the above Provinces, such removal, of course not to interfere in any way with the banks of the river or lake, or with the structures erected therein. Suitable provision would be made in the permit that no damage or obstruction should be caused by the operations of the permittees.

As a large number of applications for the right to remove sand, stone and gravel from such rivers and lakes are now pending, I am to request you to be good enough to advise this Department in the premises at as early a date as possible.

Your obedient servant,

Ref. 385,459 on 375,868.

Extract from a Report of the Committee of the Honourable the Privy Council, approved by His Excellency on the 13th July, 1895.

P. C. No. 1432.

On a report dated the 6th May, 1895, from the Minister of the Interior, stating that under Section 1 of 47 Victoria, Chapter 16, being an Act to further amend the Act respecting the Public Works of Canada (31 Victoria, Chapter 12), it is provided amongst other things that any portion of the shore or bed of any public harbour vested in Her Majesty, as represented by the Government of Canada, not required for public purposes, may, on the joint recommendation of the Minister of Public Works and of Marine and Fisheries, be leased or sold under the authority of the Governor in Council. The provision quoted subsequently became Section 19 of Chapter 39 of the Revised Statutes of Canada, respecting the expropriation of lands.

The Minister further states that there does not appear to have been any action taken upon applications for foreshore lands between the years 1884 and 1886, a fact due, no doubt, to the uncertainty which existed at the time as to which Department should take the initiative in dealing with cases of that nature. To remedy that state of affairs, an Order in Council was passed on the 12th May, 1886, placing the management of foreshore lands under the control of the Minister of the Interior, subject, however, as required by the Statute in that behalf, to the concurrence of the Minister of Public Works and of Marine and Fisheries.

4309

The Minister further states that there is no statutory provision for the administration of these lands by the Department of the Interior, and he desires to point out that the existing arrangement, which requires action by three Departments in every case, as stated above, has been very unsatisfactory. Water lots applied for are, in nearly every instance, situated at places where there is no agent of the Department of the Interior, from whom a report upon the merits of the case can be obtained, and the consequence has been that the Department of the Interior has been compelled to assume the responsibility of issuing patents without as full information as it was entitled to.

The Minister therefore recommends that the arrangement made by the Order in Council of the 12th May, 1886, be reconsidered with a view to placing the conduct of foreshore lands in one Department, preferably either the Department of Public Works or of Marine and Fisheries, both of which possess resident agents at all the public harbours in which such lands are situate, and that patents therefor be issued by the Secretary of State of Canada, under the authority of the Governor in Council, upon the recommendation of the Minister to whose Department the business may be regulated.

The Committee, concurring in the report of the Minister of the Interior, advise that the conduct of foreshore lands be placed under the control of the Department of Marine and Fisheries, and that patents therefor shall, in future, be issued by the Secretary of State of Canada under the authority of the Governor in Council, upon the recommendation of the Minister of Marine and Fisheries.

The Committee submit the foregoing for Your Excellency's approval.

Dear Sir:-

Re Greater Winnipeg Water District.

I am instructed by the Administration Board of the Greater Winnipeg Water District to make application to you on behalf of the District for a grant of that part of Indian Bay situate in the Province of Manitoba.

It is necessary that the District should have title to and control over the bed of that part of Indian Bay for two reasons,-

1. As it is the site of their "Intake Works" which will be extended out into Indian Bay almost to the boundaries of the Province of Ontario.

2. In order to prevent pollution of the source of water supply they must be entitled to clear and keep clear of weeds or other pollution the bed of Indian Bay at that point, which may render necessary the gravelling of a considerable portion of the bed of Indian Bay or treating it in such other manner as may be found necessary.

I do not think I need enlarge upon the above arguments, as I am sure they will appeal to you as rendering it necessary for the District to obtain title as mentioned.

Memorandum for the Deputy Superintendent General:-

With reference to the application hereunder from Mr. J. G. Harvey, K.C., in behalf of the Greater Winnipeg Water District, for control over the bed of that part of Indian Bay situated within the Province of Manitoba I beg to state that the said Bay is practically land locked and surrounded on all sides by Indian Reserves Nos. 39A, 40 and 34-B2. That part of the Bay in Manitoba is nearly surrounded by Reserve No. 40. The Indians are entitled to those Islands in the Bay on which they have or have had gardens. Some of these islands are situated within the limits of the Province of Manitoba.

I presume it will be advisable for the applicants to pay some certain sum for the Indian interest, whatever it may be, in the bed of the bay. The Indians, however, have only riparian rights which do not include the deep waters of a navigable lake like the one in question.

It is to be noted that it may be impossible to police the waters of the bay unless the lands surrounding it are under proper control. It may be advisable that the applicants should apply for all that part of Indian

Indian Reserve No. 40 situated in the Province of Manitoba. They will thus have control of all of Indian Bay within the limits of that Province except a small portion of 39A at the North, and of Snowshoe Bay which is to be connected by a canal with Indian Bay.

The area of the reserve within the limits of the Province is 5725 acres. If purchased the riparian rights will go with the land and the applicants can then acquire further control of the bed of the Bay from the Province.

I am not aware how many Indians reside on the Indian Reserve No. 40 or in what manner they may be affected if they should be compelled to sell their reserve. The Agent reports on the Shoal Lake bands Nos. 39 and 40 together.

Dear Sir:-

Re Bed of Indian Bay.

I beg to acknowledge receipt of your favor of the 12th, inst.,

Enclosed herewith I beg to forward you Blue Print, showing by red hatching that portion of Indian Bay which the District is asking for and also a Surveyor's description covering same.

Kindly let me know if the enclosures are sufficient for your purposes.

Memorandum for the Deputy Superintendent General:-

Referring to Mr. William's memorandum of the 11th instant, I beg to state that I have initialled as being correct the description signed by Mr. J. B. McColl of that part of the bed of Indian Bay being a part of Shoal Lake lying within the Province of Manitoba.

It is to be noted that according to a quotation from Mr. Dawson's report in the Schedule of Indian Reserves published by the Department of the Interior in 1877 that only those islands in Shoal Lake on which the Indians had gardens appear to have been allotted to them. I presume that it is not to be assumed that all the islands in Indian Bay are the property of the Indians because they are situated in the Bay which is nearly surrounded by their reserve.

Memorandum for the Deputy Superintendent General.

I discussed the matter of the valuation of the bed of Indian Bay, lying within the limits of the Province of Manitoba, with Mr. Orr. We are of the opinion that 50¢ per acre, including the islands and parts of islands in that part of the Bay, would appear to be a reasonable sum to demand from the applicants. The total area is approximately 3000 acres. The sum to be demanded is therefore $1500.00. If the applicants object to paying this sum we would suggest that a special valuator be appointed.

Dear Sir:-

With reference to your application of March 30, last, for a grant of that part of the bed of Indian Bay, situated in the Province of Manitoba, and subsequent correspondence, I beg to inform you this matter has been taken into consideration and to say that the total area in the Bay, within the limits of Manitoba, including the Islands and parts of Islands, situated in the said portion of the Bay, is approximately 3000 acres and that $1500.00, being at the rate of 50¢ per acre, appears to be a reasonable sum to demand in payment for the said bed of the Bay and including as stated the Islands and parts of Islands situated therein. If you ~~concur and~~ will forward the said sum to this Department an Order in Council will be applied for, transferring the bed of the Bay and the Islands and parts of Islands referred to, to such corporation as you may direct. ~~If you object to paying this sum it is intended to appoint a special valuator to arrive at what~~

Re Indian Bay.

I beg to advise you that the description proposed to be inserted in the Patent that is to be issued to the Greater Winnipeg Water District for part of the bed of Indian Bay, which I received from you a few days ago, has been checked over by the officials of the District and is accepted and satisfactory.

LANDS BRANCH JUL 14

The Administration Board of the Geeater Winnipeg Water District has also formally passed a resolution accepting your offer.

Some months ago a sketch of certain other land along the shore of the bay and extending back some distance there-from was deposited in some department at Ottawa. I do not know whether it was in your department or not. However it had reference to the land which was being obtained by the District on account of the gravel deposits there.

Sir:

The enclosed letter has been received here from Chief Redsky. of Shoal Lake Band No.40. And I submit the same for your consideration and advice as to what reply to give the Chief, as he will be asking for one shortly.

As it will be rather difficult for you to understand this letter, I may explain just what the Chief and Band wants, or at least a part of their wants. They want to know just how much they are to get for the Land taken by the Water District, and what they will get at once. The Chief and Band wants the Chief to go to Ottawa to have an enterview with you on this and some other matters which he has not explained to me as yet, when he was last here he asked me if J. J. Linklater could go down with him also if I would go.

I told him I thought they could get all the satisfaction without his going down, and that I could not say any thing as J. J. Linklater or my self going down, I told him that would rest all together with your openion.

They are quite disatisfied with this and he is bound to go down as he states he has many things to talk over with you, besides the land matter,

The Chief of Whitefish Bay is also asking for privelage to go down to see you, and states the expence could be charged to their trust account.

I have the honour to be
Sir.

Ottawa, January 10, 1919.

Sir,-

I have to acknowledge the receipt of your letter of the 31st ultimo, No. 132-9, in regard to disposition of land on Shoal Lake.

In reply I would say that the Greater Winnipeg Water District acquired under the provisions of section 46 of the Indian Act, on the 3rd of March, 1915, property on the Shoal Lake Indian reserve, comprising 3,000 acres of islands and land covered by water in Indian Bay, and 355 acres of land on the reserve. The property was duly valued and the purchaser paid in accordance with valuation placed thereon the sum of $1500 for the land covered by water and $1065 for the land on the reserve, making a total of $2,565, which amount was duly placed to the credit of the Band funds.

You will be good enough to explain the above to the Chief, at the same time advising him that of course the Band is entitled to be paid interest on the above purchase money.

As to desire of the Chief of Whitefish Bay, to come to the Department, I beg to say that you should advise him to furnish you with a request for any information that he may desire, and upon submitting same to the Department, full information will be given, and you will be advised as to whether it will then be considered necessary for the Chief to come to the Department.

In reply to your letter No.447,733. January, 10th 1919.- Regarding Chief Redsky's request to visit you at Ottawa, and the information given in your letter above quoted,

I have had the Chief in here and fully explained the full contents of your letter to him, and while he states that it is fairly satisfactory, yet it was not altogether this matter he wished to see you personaly about, there is many other things he wishes to discuss with you face to face, which could not be done by letter, which is for the benifit of the Department & Indians,

Both the Chief and Band are very desirous that the Chief, Interpreter and my self should go down to see you, and have all their grevinces settled up,and will not be satisfied untill their request is granted.

They further state that they expect the Department to pay their expenses, but if not they would be willing to have the cost of their trip charged up to their Trust Account,

So far as I am concerned I am not looking for the trip, but I know they will not be ever satisfied, except they make the trip down to see you with my Interpreter and my self, And they trust your will authorize the trip at once.

I may further say that the Chief of Whitefish Bay Band is very anxious for a reply to their request to go down to see you. as asked for in their letter of 16th Jan, 1919, forwarded under cover of my letter Feb 7th1919. No.132-12.

Dear Sir:

I beg to enclose herewith blue print of drawing A.523 showing additional lands which would provide for the District control of the approach to and the area covered by the sandy beach at Indian Bay. There is approximately 20 acres in the portion shaded. You will note that we have excluded the Indian Cemetery.

My object in writing you is to obtain your suggestions as to the best method of dealing with this matter. We have no desire to further encroach on the Indian reserve but as visitors are going down continuously during the summer to Indian Bay we feel that from the standpoint of protecting our water supply we should have some jurisdiction or control over the bathing beach and that at the same time everything in reason ought to be done to protect the Indian cemetery from destruction. We are, of course, willing to co-operate with your Department in any plan which would be mutually agreeable.

Sir,-

The Chairman of Commissioners, Greater Winnipeg Water District has written me several times asking about the possibility of their obtaining about twenty acres more of the Indian Reserve at Shoal Lake No. 40.

At my request they have submitted a plan which I now enclose indicating by the shaded portion just what they would like to have.

The object which they have in view is to obtain control of the sandy beach marked on the plan. Heretofore bathers from excursion parties have been making use of this sandy beach without any formal right thereto, and the Commissioners have looked upon the privilege taken as somewhat of a trespass on Reserve Rights. If it were purchased by them this idea of trespass would be avoided and the Water District would feel that they could control this matter much to their own advantage.

I submit the request to the Department for consideration and for such action as may be deemed best under the circumstances.

I have the honor to be,
Sir,
Your obedient servant,

Inspector of Indian Agencies.

Ottawa, October 15th 1919.

Memorandum

Deputy Minister,-

With reference to the letter hereunder of the 7th instant from Mr. Inspector Semmens, I beg to state that the tract of land containing about twenty acres in the Shoal Lake Indian reserve No. 40, applied for by the Commissioners of the Greater Winnipeg Water District in order that they may be able to control the waters of the lake in front, appears to be a necessary provision to keep the water supply for the city of Winnipeg as pure as possible.

I beg to recommend that Mr. Semmens be instructed to place a fair valuation on the said tract of land and to inform the Indians that it is intended to dispose of the land under the provisions of section 46 of the Indian Act. Demand will then be made on the Commissioners for payment of the compensation and the necessary Order-in-Council may be applied for,

A correct plan of survey of the property will be required showing also that no portion of the Indian cemetery and no Indian improvements are included.

I may add that the land already in the possession of the Greater Winnipeg Water District was granted in a similar manner to the foregoing.

S. Bray

Chief Surveyor.

Sir,-

Referring to your letter of the 7th instant relating to the proposal submitted to you by the Commissioners of the Greater Winnipeg Water District that they be permitted to acquire a tract of twenty acres in the Shoal Lake Indian reserve, you are requested to forward to the Department a report showing what you consider to be a fair valuation of the land in question, and if any portion of the tract is occupied by Indian improvements of any kind, in which case your report should contain a separate valuation of the improvements of each individual Indian.

Kindly request the Commissioners to forward to this Department for the purpose of record, a proper plan of survey of the tract required. This plan should be signed by a Provincial Land Surveyor as well as one of the Commissioners or their representative.

Your obedient servant,

Sir,-

With reference to your letter No. 447733-1A dated Ottawa October 21st, 1919, the same having reference to the proposal by the Commissioners of the Greater Winnipeg Water District that they be permitted to acquire a tract of 20 acres in the Shoal Lake Indian Reserve No. 40, which land lies adjacent to the present holding of the Commission. I beg to say in connection with this that I addressed a letter to Commissioner Waugh on the 5th of November last, asking him to furnish a proper plan of survey of the tract required, informing him that it should be signed by a Provincial Land Surveyor as well as by one of the Commissioners or their representative. He has not replied to date.

On two different occasions I have approached him personally, asking him to make reply to my letter and he now says he will give it his attention. Meantime I am disposed to make a trip up there to assure myself that nobody's claim is being interfered with under the desired possession of the land asked for. I can at the same time consult the Indians so as to be able to tell the Department what they think about the surrender of the portion specified. I can also visit the School and ascertain how things are moving there. For this purpose I will, if all is well, go out Tuesday next the 16th instant.

I have the honor to be,

Dear Mr. Semmens:-

I have this day had opportunity to speak to Cheif Redsky, re the matter of land, saught to be purchased from Band 40, by the Greater Winnipeg Water District, and he advises that there is no person living on the part of the land wanted, at this time there was a party living there, who built a house on the land by name of No cha wa-betung.

He further advises that the band wishes to clean the land before selling, and that they will do this in the spring.

Hoping that this is the information you was seeking, and that if there is any further way that I may serve that you will feel free to call on me, I am,

Yours very sincerely,

Chief Redsky Band No. 40

Shoal Lake-- Ontario.

My dear Chief,-

I have now found out all the circumstances of the deal which the Winnipeg Water District and the Department of Indian Affairs and the Indians of Band 40 entered into in regard to the land etc adjacent to the "Intake" at Indian Bay.

Five Hundred Acres were purchased by the G.W.W.D. and the price paid was 2,565,00, two thousand five hundred and sixty five dollars.

Half of this was to be given to the Indians with interest. Half would be 1,282.50.

Interest amounted to 465.70, altogether 1748.20. Of this amount 1710.00 were paid out to the Band June 14th, 1919 at the rate of 15.00 per head. The balance remains in Ottawa at interest, I hope this is plain and clear.

.....

Agent McKenzie now remembers attending the meeting to which you refer where it was said that any sand and gravel sold should bring five cents per yard, but none could be sold without the consent of the Department.

So far as we know that matter ended there, for the Water District have taken all the filling that they have used from the land which they bought and paid for. Because the land was bought and paid for, they had the right to use their own property without reference to anybody.

Hoping that this will be satisfactory to you and your Band I remain yours

Very Sincerely,

Dear Sir:

I am enclosing you copy of a letter which I have received from Chief Redsky. I have not answered it because I do not know what he wants. For instance he wants to know "the cost of the whole works here at my reserve". He also says that his Indians are anxious to know the cost of everything that they sold to the District. You can readily understand that this is a very large order if it means that we have to go back over our books for the past five years and pick out all the items relative to our dealings with the Indians. We can readily say what we paid for the land but beyond that I do not see that they are concerned in any way with the cost of the whole work on the reserve. As a matter of fact there is none of our work on the Indian Reserve as it now exists and we bought and paid for the land which was originally included in the Indian Reserve but which is now the property of the District.

Dear Mr Mc Kenzie,-

I have your letter of the 24 th inst in regard to the "Sand and Gravel" row that Chief Redsky has been raising. He is away off in regard to the matter for Commissioner Waugh informs me that all the filling used was taken from the property of the District. This will end this contentious question I should think.

I am glad to get the figures you were good enough to send me as I am now in a position to show the Chief that no injustice has been done him or his Band. He will be disappointed to find that there is no cause for alarum or anxiety for I think they really enjoy making a fuss about something or other .

There is nothing new here at present except that three or four of Dr Grains family are down with Influenza or "Grippe" Poor Dr he has just come out of hospital and is not quite well after his operation so this trouble just makes so much extra trouble for him.

Cold and stormy to day but you seem to have your full share of this down your way so there is nothing new to you in such an announcement.

Again thanking you for the information sent and with very kind regards to you all I remain

Dear Mr Semmens.-

I have yours of the 23rd. Inst, with a copy of a letter from Chief Redsky and a number of his band, as I see this is the Chiefs original letter do you want me to send it back to you or not, of course it would be on file here for future use.

In reply to say that I remember the meeting spoken of, what was said at the time, Was this they told me they could get 3¢ per yard for the sand and garvell, I told them they should get 5¢ per yard, but that in no case could they sell it, without authority fro the Department, and that the Dept would look after their intrest, this was all that was said at that time. Later on the G.W.W.D. Exapropriated the Land, and the following is what the Department sent me last April 28th. 1919:-as follows sale of Land to G. W.W.Distric

$2,565.00		
one half of this.	$1,282.50.	
Intrest on above.	465,70.	
	$1,748.20.	

Of this amount $1710.00 was paid out to the band on June 14th 1919. at the rate of $15.00 per head. and so far as I know they have no further claim for the land which the G. W. W. District has paid for. or for any sand or gravel that they are harping about. as no direct promis was ever made to them by me. further than what is herein stated.

I trust this will be satisfactory, No I cannot see why Bury. should interfere in our business, it makes things harder for me, & it is none of his business anay way.

OFFICE OF THE

Chief Inspector of Indian Agencies,

WINNIPEG, January 23 rd 1910

Dear Mr Mc Kenzie,-

I have a letter from Redsky re the Sand and gravel of which I spoke when you were here last. He is still confident that you were party to an arrangement whereby the Indians were to receive five cents per yard for any of this commodity used by the G.W.W.D. railway

Commissioner Waugh claims that he has only used filling from the land purchased by the District which was not the property of the Indians after the purchase was completed.

I am sending you a copy of the Chief's last letter which explains itself. They seem to be worked up over itand are anxious to know just what was paid for and how much stands to their credit on the deal. So far as I know 500 acres were sold. I am not sure of the price paid per acre nor do I know what arrangement was made about the disposition of the funds accruing from said sale. I suppose that the amount was as usual credited to the Capital account of the Band .

I cannot see why Drury should dip into this thing and promise a yoke of Oxen to Redsky . Nor does it appear plain why there was no money as D. says to the credit of the Band. There is some apparent difficulty that requires explanation. No doubt you will be able to give information which will put matters in a clearer light.

I shall be glad if you will give me a reply as soon as convenient as the Water District are anxious to secure more land as I indicated to you and I am sure <u>they</u> will not consent to further negotiations until the dispute in question is cleared up.

With Kindest regards to all down your way

Dear Sir

In answer to your letter dated January 18 th 1920 about the sand and gravel . We remember holding a meeting at my house with Mr Mc Kenzie and Mr Furgusonwas there and Mr Charles Fraser. Chief Kesick was interpreter at that time. Mr Mc Kenzie heard that this sand and gravel was to be bought from the Indian Reserve and Mr Mc Kenzie came to Shoal Lake and held a meeting at my house (Indian Joe Councillor) . We all agree to depend on you to see to this matter for us.Weall know that we held a meeting here about the sand a gravel. Please kindly give your strength to find this out for us.

Chief Redsky says Mr Mc Kenzie only paid us on acres of land of Indian Reserve .He said that we are receiving payment of 500 acres of Indian Reserve.

Last summer I spoke to the timber Inspector about getting a team of oxen He said to mehe will see the Department about it and he would send them right away, and later I received a letter from him . He said we have not sufficient account to buy the oxen. And thats where I happen to know where all the money have gone to, on the "Sand and Gravel" Will you kindly ask the Commissioner R.D.Waugh the amount of everything and sand and gravel, t the whole property of Indian Bayand let us know the cost of the Reserve which we are sold to the G.W.W.District

P.S.

The first agreement about making sale of sand and gravel . They offered they offered us three cents per square yard and Mr Mc Kenzie said we could leave it to Government to make sale for five cents per square yard. So we all agree to leave it to the Government to make the sale of sand and gravel

We are all very anxious to give us your strength to look after this matter.

I beg to acknowledge receipt of your letter of January 2nd enclosing copy of letter dated December 20th signed by Chief Redsky. I have made inquiry from Mr. Chace, our Chief Engineer, as to the statements of the Indians that they were to be paid five cents a yard for sand and gravel. Mr. Chace tells me that this is the first intimation that he has ever had of any such claim and during my connection with the Water District I have never heard it even referred to before. As you are no doubt aware, all the material that was taken for the building of the dyke was taken from our own property and all the small test pits are also on the property which the Water District bought from the Indians. Perhaps you can obtain further information from the Indians as to what sand and gravel they refer to, where it was taken from and what official of the District made the arrangement which they claim was made, as to payment of five cents per yard.

There is approximately 20 acres in the portion shaded. You will note that we have excluded the Indian Cemetery.

My object in writing you is to obtain your suggestions as to the best method of dealing with this matter. We have no desire to further encroach on the Indian reserve but as visitors are going down continuously during the summer to Indian Bay we feel that from the standpoint of procting our water supply we should have some jurisdiction or control over the bathing beach and that at the same time everything in reason ought to be done to protect the Indian cemetery from destruction. We are, of course, willing to co-operate with your Department in any plan which would be mutually agreeable.

Yours truly,

The Assistant Deputy & Secretary,
Department of Indian Affairs,
Ottawa, Ontario.

Sir,-

The Chairman of Commissioners, Greater Winnipeg Water District has written me several times asking about the possibility of their obtaining about twenty acres more of the Indian Reserve at Shoal Lake No. 40.

At my request they have submitted a plan which I now enclose indicating by the shaded portion just what they would like to have.

The object which they have in view is to obtain control of the sandy beach marked on the plan. Heretofore bathers from excursion parties have been making use of this sandy beach without any formal right thereto, and the Commissioners have looked upon the privilege taken as somewhat of a trespass on Reserve Rights. If it were purchased by them this idea of trespass would be avoided and the Water District would feel that they could control this matter much to their own advantage.

I submit the request to the Department for consideration and for such action as may be deemed best under the circumstances.

I have the honor to be,
Sir,
Your obedient servant,

John Semmens

Dear Sir,-

Some time ago you wrote me in regard to the right to use or lease a Sandy Bay adjacent to the intake at Kaugh Ontario.

My Department would be glad to receive a map showing the precise location of the property in question with measurements depth of lot and length of shore line so an application for lease of the same may be intelligently presented to the Indians and a surrender asked for.

Chairman of Commissioners,
Greater Winnipeg Water District,
CITY.

Dear Sir,-

I have been absent from the city since the 29th of May last on a treaty paying trip, so that your favor of the 21st of June did not come to my notice until my return to my office on the 16th of the present month. I regret the delay which as you will see was unavoidable.

With reference to the use of the Sandy Bay at or near the intake of the Greater Winnipeg Water District system, I cannot think that the Indians will raise any objection to the present exercise of the privilege of bathing on the part of the excursionists visiting the locality.

To secure the permanent right to do so would necessitate some definite action looking to the lease of the property, so that the question of trespassing on the reserve might be overcome. This would have to be taken up with the Indian Department at Ottawa, and must be agreed to by the Indians interested.

It would, I am sure, be agreeable to the parties concerned if you were to place a neat fence around the graveyard so as to prevent any desecration of the graves of the Band.

I will at once communicate with the Secretary of our Department and ask that the terms of a lease may be drawn up which may be agreed to by the Indians and this would of course involve some slight financial contribution to the funds of the Band.

With regret for delay in responding to your kind letter and in hope that a satisfactory arrangement may be speedily made to secure to you and your commissioners the right desired.

Very respectfully yours,

John Sanmarez

The Rev. John Semmens,
Indian Department,

Winnipeg Man.

Dear Sir:

There is a very nice small sand beach on the Indian Reserve property just a short distance north east of the boundary of the property owned by the Greater Winnipeg Water District at Indian Bay. The Water District have been running excursions to the Lake to permit the people of Winnipeg and the Winnipeg District to see the source of their water supply and to promote business over the railway. We have a considerable number of picnics in prospect during the summer and have inaugurated a Saturday train going and returning the same day. Anyone using this sand beach for bathing purposes is, of course, trespassing on the Indian Reserve and we do not wish to encourage that but, at the same time, we feel it would be a great acquisition to our attractions if we could make some arrangement with the Indian Department to have the privilege of using the beach. Possibly you can give us the necessary authority to use it or direct us how to proceed. It is of course not used by the Indians in any way as their village is not in this part of the Lake. I would be glad if you would let me know at the earliest possible moment what you can do for us in this connection.

I may also say that in this neighbourhood there is a small Indian Graveyard which is a source of great interest to the visitors. This graveyard is of course on the Indian Reserve. If you think it desirable I will be glad to give instructions to have the small spot, where the graves are, suitably fenced to keep the public from disturbing the graves.

SURVEYS

Sir,-

For about a year past the Greater Winnipeg Water District have been asking for the possession of a piece of land, twenty acres more or less from Reserve No. 40 Shoal Lake, Ontario in addition to the five hundred acres, which was originally purchased for Intake purposes. This portion of land is shown in the shaded part of the plan herewith submitted.

This twenty acres has been found on further investigation to be too small and the request has been renewed this time to include thirty two acres. This latter amount is included in the red line shown on the blue print.

The reasons why this land is required are as follows:- (1) To secure an enlargement to their present park and also (2) to obtain the sandy beach on the lake shore for bathing purposes, when the excursion season arrives.

The Indians are willing even anxious to sell, provided that a sufficient price can be obtained, and provided also that the amount of money realized by the sale is to be divided among them on a pro-rata basis.

LANDS BRANCH
MAY 17 1920

The Department has requested me to place a valuation on the land and to estimate the amount of money which should go to those who have built shacks on the property under consideration.

In reply to this I beg to say that I think $15.00 per acre is a sufficient remuneration or value for unimproved land. and thirty two acres at this valuation would amount to

[redacted]o $480.00.

There are two shacks on the property, but no one lived there when I last visited the place. I think if those who built the shacks are still alive, they should receive $20.00 each as compensation, and that the dirty,filthy places should be burned down as quickly as possible.

There are Indian graves in the property enclosed in the red line in the plan. These are in two groups and I think they should be protected and inclosed by a neat fence to prevent possible desecration which would be resented by the native people.

I have repeatedly visited the offices of the G.W.W.D. and have personally requested Commissioner Waugh and Chief Engineer Chase to have a Provincial Land Surveyor sign the blue print as well as the resident Engineer, but they have shown no disposition to hurry and at this writing I am still minus the required signature,though it is promised for tomorrow and will be forwarded as soon as received.

I now recommend that a form of Surrender be drafted and that the whole matter be referred to Agent R.S.McKenzie of Kenora,so that he may present the case to the Indians at the forthcoming Treaty Payments and obtain their formal surrender of the land in question.

Sir,-

I have just received and am enclosing without delay a blue print, showing the area of land 32 acres, which the Greater Winnipeg Water District desires to obtain from Reserve No. 40, Shoal Lake, Ontario.

The Indians think that the amount asked for per acre should be more than $20.00 per acre.

My own estimate as shown in my letter of May 12th, 1920 was $15.00 per acre.

The Water District are of the opinion that they should not pay more than they paid for the 500 acre purchase, which was $5.00 per acre.

It remains for the Department, knowing the varying opinions, to decide what is just and right.

In reply to say that I will do my best to carry out your instructions, and obtain the surrender, But may say that I do not think the Indians will give the same, at the price now stated, they have been talking to me about this matter and The Chief and several of the band, told me they would not let this piece of their Reserve go for less than $25.00. per acre. as it was the best pice of land on the Reserve,

I however think if they got $20.00. per acre they might be agreable to let it go, My own openion is that it is worth that amount. if not more. I will however do my best, and I hope to have a reply before I go to that Reserve. on the 4th of June, next.-

The inclosed communiaation and Plan, the same having reference to Indian Reserve #40, was handed on to me yesterday, to be forwarded to The Department at Ottawa.

There has been previous correspondence in this connection, through Mr Inspector Semmens who is unwell just now and unable to give the matter attention.

The letter explains itself, and the notes on the plan with the letter attached, gives necessary information as to what the Greater Winnipeg Water District management want.

I have the honor to be,
your obedient servant,

I have your letter #447733-1A dated the 3rd instant.

I made inquiry in response to your letter of the 24th September last, #447733/1A, and was informed that action was being taken. This action was taken by the Board of the Greater Water Works of Winnipeg on the 10th October, this action authorised the purchase of the Indian Lands in Reserve #40, Shoal Lake, 32 acres at $20.00 per acre, by some oversight advice was not sent to the Department. I got this information this morning when I called at the office of the G.W.Works. The Chairman informed me that they would issue a cheque to cover this amount at any time it was called for.

Mr. Semmens asked for this information on June 28th, 1920, I beg to say. I have the honor to be

Sir,-

Referring to your letter of the 6th instant, be good enough to inform the Chairman of the Greater Winnipeg Water District that he should forward to this Department the sum of $640.00 in payment for the 32 acres of land required in the Shoal Lake Indian reserve No.40, being at the rate of $20.00 per acre. On the receipt of the said sum an Order in Council will be applied for accepting the surrender made by the Indians and authorizing the sale of the tract to the Greater Winnipeg Water District.

With reference to the request of the solicitors of the said Greater Winnipeg Water District of the 16th September last that the tracing forwarded with the letter should be approved by this Department, I have to say that we have no precedent for this procedure.

A certified copy of the registered plan should be forwarded to the Department and the patent when issued will then refer to the said plan; no approval appears to be necessary. If there is a copy deposited with the Registrar of the plan above mentioned, the one forwarded here will be retained, if not, it will be returned and a certified copy should be forwarded without delay.

Herewith is a report to Council recommending that the surrender attached thereto be accepted, covering 32 acres of the Shoal Lake Indian reserve.

Under authority of an O.C. of 3rd March, 1915, 3355 acres of this reserve were sold at $5.00 per acre to the Greater Winnipeg Water District. The additional 32 acres covered by this surrender are required by the G.W.W.D. authorities in order that they may be in a position to protect the Winnipeg water supply by having control of the bathing beach on the lake shore.

The G.W.W.District authorities felt that the valuation of $5.00 per acre which they paid in 1915 would be sufficient as regards the 32 acres now desired. Inspector Semmens considered $15.00 per acre a fair valuation. Indian Agent R.S.McKenzie was instructed to take a surrender of the land, which he did on the 4th June last, when the Indians stipulated that the surrender was given on the understanding that they receive at least $20.00 per acre. Agent McKenzie stated that his views were in accord

accord with this stipulation. The G.W.W.District has paid in full for the 32 acres at this rate, making $640 in all.

The poll submitted by the Indian Agent shows that there were 22 Indians entitled to vote, that 16 were present at the meeting and that all present voted in favour of surrender.

Sir:-

With reference to your report for the month of July and previous correspondence, I have to inform you that the Indians of the Shoal Lake Band No. 40 received payment of all the purchase money to which they are entitled in connection with the sale to the Greater Winnipeg Water district of about 500 acres of land, which sale took place some ten years ago. The Indian Act, I may say provides for payment to the Indians of 50% of the ~~actual~~ money, which payment was made.

I may say that a further payment of $320.00 can be made to the Indians in question, being half of the amount obtained from the sale of 32 acres of land, which sale was effected last fall. The Department is prepared to send a cheque to you for the amount mentioned at such time as you think it can be expended to the most advantage on the Indians' behalf. , October 16th, 1937.

Dear Mr. McKinnon,-

In reply to your enquiry regarding the monies received from the Greater Winnipeg Water District for certain concessions granted them on Lake of the Woods Indian Reserve No. 40, the following is a statement of the account.

The capital account of the Shoal Lake Band was credited $2,565.00 during the year 1914-15 and a further $640.00 during the year 1920-21. These credits correspond with the figures supplied to Chief Redsky by W. M. Scott, Chairman of Commissioners, Greater Winnipeg Water District.

In 1919, a distribution of 50% of the first mentioned payment was made to the Indians. This amounted to $15.00 per capita. The remainder of these funds are deposited in the capital account of the Band and a semi-annual distribution of the interest thereon is paid to the Band. I may say that this information was given to the Indians in 1921 in a letter written to their Indian Agent, Mr. Frank Edwards, Kenora.

The statement of the Greater Winnipeg Water District which you left with the Department is returned herewith.

His Royal Highness

The Governor General in Council.

The undersigned has the honour to submit herewith a surrender, in duplicate, made on the 12th day of August, 1914, by the Timiskaming band of Indians, of ,366 of an acre of land in the Timiskaming Indian reserve, in the county of Pontiac, in the province of Quebec, the said surrender having been made in order that the land covered thereby may be sold for the benefit of the band.

The surrender has been duly authorized, executed and attested in the manner required by the 49th section of the Indian Act, and the undersigned would recommend that, under the said section, the same be accepted by Your Royal Highness in Council and that authority be given for the sale of the land covered thereby as the Superintendent General may deem best in the interests of the Indians; the original surrender to be returned to the Department of Indian Affairs and the Duplicate thereof to be kept of record in the Privy Council Office.

Memorandum.

Mr. Scott.-

Re Location of Teacher's Residence, Caughnawaga.

As per instruction, I have made while in Caughnawaga, enquiries as to the possibility of obtaining a suitable site for the purpose of erecting a building for teacher's residence, etc. After examining several lots in the village I beg to recommend for the Department's consideration, two lots situated on the main road on the north side, adjoining the St. Lawrence river.

Lot No.13 shown on the accompanying plan, belonging to Mr. Michel DeLisle, is valued at $400.00. Lot No. 8, belongs to Mrs. Ida Jacques and is valued at $500.00. I consider the latter most advantageous.

Both of these lots are exceptionally well situated close to the school and church and of sufficient area for their proposed use.

Mr McLean,-

I beg to inform the Department that I have succeeded in obtaining an option from Mrs. Joe Blue on lot No. 8 and part of her adjoining property situated on the west side of said lot having a frontage of 33 feet by 177 feet in the village of Caughnawaga. The bargain was made in the presence of her husband, brother and Chief Constable, who all agreed that Mrs. Joe Blue was the sole proprietor of the above mentioned land, for which she asked the payment of $500.00. Consequently the sum of $5.00 was paid for an option on this property, which will end on July the 3rd, 1914.

I consider this offer very reasonable and, therefore, beg to recommend its immediate acceptance.

Sir. Urgent 449628

Mr Cheney, an officer of your Department offerred me a proposition, to sell to your Department a peice of land, to wit: a part of the lot bearing number eight (8), situate in the village of Caughnawaga.

The site, I understand, is to be used as a place of residence for the nuns who are to teach the children of the Tribe.

Without thinking carefully in this matter, I accepted five dollars from Cheney, as an earnest money; by these presents, I return you the money.

I cannot sell the property, part of the village lot No 8. the property does not belong to me but to my minor children Therese, Mary Josephine and Joseph. I have the enjoyment of the lot.

And my husband Joseph Tsiniakwa Blue does not want me to commit an illegality, as I would do if I sold the property.

Yours truly
Mrs. Jos. Blue.

you dissatisfied in the matter.

I beg to advise you that the claim you now put forward will not prevent the Department from taking the land as the Department is advised that it can ex-propriate the land if necessary. If the lands belong to your minor children then the purchase money to be paid for the land ex-propriated would be deposited in the Department for the benefit of your children until they attain the age of 21 years.

I am writing you for the purpose of ascertaining whether you are, after reconsideration, prepared to take the purchase money agreed upon and convey the property, or whether the lands in question do as a matter of fact belong to your children. I now give you notice that the Department proposes to take the lands in question. If an amicable settlement can be arrived at so much the better, but if not, the Department will have to proceed according to law.

Mr. Benson,-

After repeated trials I have not succeeded in obtaining the surrender of lot No. 8 of the Caughnawaga Village which I had purchased for the Department. The proprietors of the other two lots on the street along the St. Lawrence river, which might have been available, are also objecting to selling any of their property to the Government under any consideration.

I would, therefore, recommend the purchase of a portion of lot 385 in the village of Caughnawaga containing .60 of an acre in area, all of which is good cultivated land, situated at a distance of 400 feet from the Girls' School and 1450 feet from the Boys' School. Mr. Scott,- 478355

With reference to the letter from Sister Mary Edward, Principal of the Roman Catholic schools in the village of Caughnawaga, I beg to say that the house provided for the accommodation of the sisters who are teaching these schools is merely a makeshift and is not at all suitable for a permanent residence. When negotiations were started for securing the services of nuns for these schools about two years ago the Archbishop of Montreal was informed that the Department would furnish comfortable living quarters for them in close proximity to the church and schools and, as a preliminary step to giving effect to this promise, the Department purchased a site in the village. The site secured, though central, is unsuitable for the style of building it was proposed to put up for them, as it would be next to impossible to obtain a proper water supply and drainage and the surroundings are bad. If there is any prospect of obtaining money for a new building it should be started as soon as possible. The river front is the proper place to

to build and there are vacant lots there which could be expropriated for this purpose.

As to the application of Sister Mary Edwards for a salary of $500.00 as Principal of the two schools I beg to say that when these schools were handed over to the Sisters on the 5th of January, 1915, it was on the understanding that the salaries allowed, would be $500.00 for the principal, $400.00 for the first assistant and $300.00 for the second at each school, it being understood that all would be the holders of professional qualifications. (See letter of December 7, 1914, file 154172/1A). Although the teacher of the senior room in each school is called the Principal, Sister Edward is recognized as supervising principal of the two schools. She is the responsible head and should be entitled to remuneration for her services. At present there are four teachers at the Boys' School paid at the following rates, $500.00 for the first, $400.00 for the second, $300.00 for the third and $300.00 for the fourth, while there are three teachers in the Girls' School who receive $500.00 for the first, $400.00 for the second and $300.00 for the third, making $2700.00 in all. If the claim of Sister Edward for $500.00 is recognized, it will make the total for the

the teachers' salaries $3200.00 for eight teachers, including herself, an average of $400.00 each. At each of these schools the highest enrolment has been 150 pupils. The yearly average enrolment has been 128 at the Boys' with an average attendance of 110 and at the Girls' 123 with an average of 105.

These sisters have had uphill work, as there was a good deal of opposition to their being placed in charge of the schools and from all I can learn they are gaining the confidence of the Indians. They have had charge of the schools for a year, but the reports received from the Public School Inspector and the Agent give little or no information as to the results of the teaching. Both, however, note a decided improvement in the manners and deportment of the children.

Dear Madam,-

I have read with interest your letter of January 27th and since the matter was brought to my notice I have given it my careful and sympathetic attention and have concluded that it is in the interests of the work and in justice to yourself to allow a salary of $500.00, and I have asked the officers of the Department to begin payment to you at this rate. I hope, however, that the emolument of the staff may now be considered to have been fairly arranged.

This leads me to the other part of your request, that is, that a better building should be provided for your accommodation: it is my desire to accomplish this at as early a date as possible, and, with this end in view, I hope to be able to come to Caughnawaga before long and look over the ground, at that time we will have a conversation upon the needs of the case and the future requirements, which, I hope, will be productive of good.

Yours very truly,

A request is made to complete the cement sidewalk near the Girls' school and to finish the painting of the fence surrounding the same school, opposite the R.C. Church; the work here alluded to was begun last Fall and interrupted by the cold weather.

Also to repair the cement sidewalks which, at many places need replacing etc., and for this purpose the Council suggests that the expenditure to be incurred be met by the $250.00 grant by the Department a year or two ago for public works.

Sir,—

Referring to your letter of the 22nd instant with regard to my voucher amounting to $77.89 in favour of Rev. Sister Mary Gabriel for disbursement in connection with Roman Catholic Schools of Caughnawaga, I beg to say that the charge of $5.32 for a payment made to Rev. Father Gravel for a leather strap used for the pump of Nuns' Residence was made with my authorization, because the rubber strap on the pump was out of order and not reparable. As it was during winter and urgent, I gave order to the caretaker, Mr Vidu, to renew it. The charge of $25.00 shown in the said voucher is for washing towels at the Girls' & Boys' Schools from September 1918 to July 1919

MEMORANDUM.

Mr. Scott,-

Mr. Frank Jacobs, the Mayor of Caughnawaga, called at the Department today and told me that in case the Department would not be able to find accommodation for the Sisters who are to take charge of the schools after the first of January, next, John Jacko, a Caughnawaga Indian, owns a three story stone house on the main street, which would be suitable for a temporary residence for the Sisters and could be leased for $20.00 a month for six months or until the new teacher's residence is ready for occupation. Mr. Jacobs is acting for John Jacko. If the house is all Mr. Jacobs says it is it seems to me that this offer should be accepted, provided the Sisters would be agreeable.

Mr. Scott,-

I gave Mr. Chene a copy of the memorandum I addressed to you on the 10th instant regarding the offer made by Frank Jacobs to rent a three story stone house on the main street as a temporary residence for the Sisters who are to take charge of the Caughnawaga Schools after the first of January. Mr. Chene informs me that the building is in good condition and very suitable for the purpose.

I would suggest that Rev. Father Gras be written to and asked to find out whether the Sisters would be ready to take charge of the schools on that date and if they would be satisfied to use this building until a new house is put up.

Sir,

In reply to your letter, dated Oct 1 instant, I beg to inform you that the Rev. Sisters of St Ann are ready to take charge of the schools immediately after the Christmas holidays, and also that they are satisfied to make use of the proposed building on the main street in the village as a temporary residence.

This answer was given to me by the Rev. mother substitute of Rev. Mother Superior general, absent for a few days. Though not absolutely final, on account of the absence of the Superior, the present answer may be accepted as practically definitive.

By the occasion, I beg to inform the Department that two additional temporary local teachers could be supplied, if, as chief Jacobs told me, the Department is willing to put two more teachers. The two candidates are Joseph Phillips, former teacher in St Regis and Laura Jacobs.

Honorable Sir:-

I am pleased to state that the General Administration has accepted the Mission of Caughnawaga so the Sisters will take charge of the schools at the beginning of the second term in January.

I also accept the temporary residence selected for the Sisters, but I know you will have all the necessary repairs made therein and the house furnished as I suggested to Mr Martin Benson.

As it is an inconvenient time, I cannot obtain Sisters without disturbing our other schools, yet I know the sisters appointed will do their best towards the Indian children despite the sacrifices entailed.

Sir -

On February 9th you were forwarded the duplicate lease of a house in Caughnawaga rented from Mr. John Jacco for a residence for the Sisters, with a request that it be handed to him, and that in future vouchers for $22.00, being the amount of the rental, should be forwarded monthly. Mr. Jacco is making enquiries about his lease. Kindly see that it is handed to him as soon as possible. He was also disappointed at not receiving his rent for February, and, if you will bear in mind and submit a voucher towards the end of each month, payment will be made regularly.

Dear Curotte,-

I must apologize for the delay in answering your phone message about the application you made for the use of the school lot opposite the post office in the village, but Mr. Scott was away all last week and I was unable to lay the matter before him. However, he tells me this morning that he will have no objection to your having the use of the lot for the summer and I would advise you to send in an official application at once applying for the use of lot No. 385 in block C, village of Caughnawaga, and state how much you are prepared to pay as rent. You would only be allowed the use of the lot until you harvested your crop.

Yours sincerely,

Mr Duncan Campbell Scott,
Deputy Superintendant General
Indian Department,
Ottawa,

Dearc Sir:-

Mrs Joseph Laronde of Caughnawaga informs me that the Sisters of Ste Anne of Lachine are looking for a school site at Caughnawaga, and that, may be, her property situated in the centre of the village, might answer the purpose.

She holds the enjoyment of this property by the will of her late husband who bequeathed it in usufruct to her, and, after her death, to her children to revert the full property to the children of the latter.

She would like to have my farm in exchange for this village lot and have all the rights to which the legatees are entitled, transferred on my farm, in such a way that the wishes and stipulations of Joseph Laronde, will be respected, maintained and continued to the grand children as in his will contained.

If the village lot and buildings thereon erected suited the object and that my farm could legally be transferred, as I believed it can be, Mrs Laronde and her children, I understand, would gladly entertain the deal.

By the transaction, the usufructuaries Mrs Laronde and her daughter, Mrs McComber, would have the use of the

of the farm from which they would be able to derive a revenue and their maintenance, and the grand children would be sure to have the full property at the demise of their parents.

Should you think this proposition advisable, I would be pleased to meet you, at your convenience, and discuss the matter with you for Mrs Laronde and familly, and for myself.

I have the honor to be,

Yours recpecfully,

MEMORANDUM

Secretary, Mr. Chene and Mr. Williams -

It has been decided to erect this year, a residence for the teachers on the Caughnawaga reserve. An even exchange of land is to be arranged between the ecclesiastics and the Department. The two plots of land are, one to the west of the mission buildings, and one in the village opposite the cemetery which we purchased as a site for the residence. An option should be obtained on the houses fronting on the street. The Department will be willing to pay $1,000.00 for this property.

Proper arrangements should be made and papers signed for this exchange and purchase before we begin the work. The building is to be erected as cheaply as possible consistent with comfort. Ask for Tenders as usual.

Cher Monsieur McKensie,

Selon les instructions que m'avait données M.D.Chéné, j'ai essayé de prendre des options sur les Lots No 2 ,qui masquent en partie le Lot No I,sur lequel le Gouvernement veut bâtir le couvent.Les deux propriétaires consentiraient à vendre,mais à des prix qui ne sont pas raisonnables,le tout monterait à près de $ 4.000.

A ces conditions,je n'ai pas cru devoir prendre d'options. Mais peu importe,il n'est pas absolument indispensable d'avoir ces propriétés;le couvent peut fort bien être construit sans cela sur le No I.Ce sera un peu moins beau,c'est vrai,voilà tout.

De plus,les propriétaires consentiront peut-être à vendre à des conditions plus raisonnables,attendons plus tard.

Vous remerciant de tout l'intérêt que vous portez à l'instruction de nos enfants,je me souscris volontiers.

Dear Mr.McKenzie,-

In accordance with the instructions given me by Mr.D.Chene I tried to get options on lots No.2, which block the view in part of lot No.1, on which the Government wishes to build the convent. The two owners would agree to sell, but at prices that are not reasonable,--the whole would amount to about $4,000.00.

On those conditions I did not think it right to take options. But it does not matter much, it is not absolutely indispensable to have these properties: the convent can be quite well built without that, on lot No.1. This would be a little less beautiful, it is true, but that is all.

Moreover, the owners will agree, perhaps, to more reasonable terms; let us wait.

Thanking you for all the interest that you take in the education of our children, I subscribe myself

STATEMENT OF THE LEGAL CONDITION OF THE LAND AND PROPERTIES OF THE R. C. MISSION OF CAUGHNAWAGA.

The Church, the Rectory and its dependencies belong to the Iroquois R. C. Mission of Caughnawaga(Cfr. by decision of General Thomas Gage in I762.) The land upon which the church, the rectory and its dependencies are situate form the Lot One , according to admeasurement in I907.

The said land bounded on the north by the St. Lawrence river, on the south by the main road, or street, and the portion of ground No. Two within the limits of said land; east and west by two lanes leading to the river and belonging also to the Mission by an uninterrupted use of same since the foundation of the Village of Caughnawaga on its present site in I7I6.

In view of the fact that up to this date, Nineteen Hundred and Sixteen, there is no church corporation,nor church wardens in Caughnawaga, the Missionary Father is in reality, the only administrator of the land and property belonging to said Mission, under the control of the Archbishop of Montreal to whom alone he is responsible for his administration of said Mission.

pertaining to buildings, repairs, sales or transactions of any kind on said land, or affecting the land only of said mission, the Archbishop of Montreal as high Administrator of the ecclesiastical estates of his Archdiocese may decide whatsoever he considers right, in conformity however, with the general laws of church corporations and with those of the Caughnawaga Reserve.

General Thomas Gage's Judgement respecting the Seigniory of Sault St. Louis

(From the Ordinances of His EXCELLENCY the Governor of the 22nd March, 1762, Montreal.)

The following decree was registered as follows:

Before His EXCELLENCY THOMAS GAGE, Governor of Montreal, assisted by His Council, to wit, Messers. Frederick Haldimand, Colonel of the 4th Battalion of the Royal American, and William Browning, Major of the 46th Regiment, Herbert Munster, Major of the 4th Battalion of the Royal American, and Gabriel Christie, Major and Quarter—Master of His Majesty's Armies.

Between the Iroquois Indians and other Indians of Sault St. Louis, appearing by Mr, Clauss, their Attorney, Plaintiff on the one part.

And the Reverend Fathers of the Society of Jesus, appearing By the Reverend Father Well, their Attorney, Defendant, on the other part.

(extract)

..... We order besides that the Church, the parsonage called the Seigniorial House with all the other buildings put up by the said R.R. Jesuit Fathers on the said concession or which have been bequeathed to them, be considered as belonging and do belong directly to the Indians, we considering them in regard to that as though they constituted a parish; the said Indians shall thereby find themselves obliged to maintain the said buildings, which shall nevertheless remain for the use of the Missionaries who will live with them. And with regard to the expanses which the R.R. Jesuit Fathers have borne for that purpose we shall consider them sufficiently compensated:
1.-By the revenue which they have recieved up to the present time from the inhabitants whom they have settled on the said concession
2.-By the value of the lands which the Indians, have given up at Laprarie de la Magdalene, and which the R.R. Jesuit Fathers may have grantedto in habitants as soon as Indians have been removed to the Sault.

..... And in order that the Indians may enjoy thier rents the Governor shall be bound to appoint and establish a person to be receiver of the rents and other Seigniorial rights which may proceed from the foregoing concession and we the said receiver to render an account of it to the said Indians on the 2nd of February in each year, Candlemas Day, in presence of the said Governor Or of those persons authorized by him to that effect. The income of said rents shall be used for the keeping of the Church and other buildings of the Sault and the remainder placed in the hands of the Indians so that they may do with it what think fit.

Done and given at the Castle of Montreal on the twenty-second of March, one thousand seven hundred and sixty-two.

INDIAN TREATIES AND SURRENDERS

General Thomas Gage's Judgement respecting the Seigniory of Sault St. Louis

(From the Ordinances of His EXCELLENCY the Governor of the 22nd March, 1762, Montreal.)

The following decree was registered as follows:

Before His EXCELLENCY THOMAS GAGE, Governor of Montreal, assisted by His Council, to wit, Messers. Frederick Haldimand, Colonel of the 4th Battalion of the Royal American, and William Browning, Major of the 46th Regiment, Herbert Munster, Major of the 4th Battalion of the Royal American, and Gabriel Christie, Major and Quarter—Master of His Majesty's Armies.

Between the Iroquois Indians and other Indians of Sault St. Louis, appearing by Mr, Clauss, their Attorney, Plaintiff on the one part.

And the Reverend Fathers of the Society of Jesus, appearing by the Reverend Father Vell, their Attorney, Defendant, on the other part.

(extract)

..... We order besides that the Church, the parsonage called the Seigniorial House with all the other buildings put up by the said R.R. Jesuit Fathers on the said concession or which have been bequeathed to them, be considered as belonging and do belong directly to the Indians, we considering them in regard to that as though they constituted a parish; the said Indians shall thereby find themselves obliged to maintain the said buildings, which shall nevertheless remain for the use of the Missionaries who will live with them. And with regard to the expenses which the R.R. Jesuit Fathers have borne for that purpose we shall consider them sufficiently compensated:
I.-By the revenue which they have recieved up to the present time from the inhabitants whom they have settled on the said concession
2.-By the value of the lands which the Indians, have given up at Laprarie de la Magdalene, and which the R.R. Jesuit Fathers may have grantedto in habitants as soon as Indians have been removed to the Sault.

..... And in order that the Indians may enjoy thier rents the Governor shall be bound to appoint and establish a person to be receiver of the rents and other Seigniorial rights which may proceed from the foregoing concession and we the said receiver to render an account of it to the said Indians on the 2nd of February in each year, Candlemas Day, in presence of the said Governor Or of those persons authorized by him to that effect. The income of said rents shall be used for the Keeping of the Church and other buildings of the Sault and the remainder placed in the hands of the Indians so that they may do with it what think fit.

Done and given at the Castle of Montreal on the twenty-second of March, one thousand seven hundred and sixty-two.

STATEMENT OF THE LEGAL CONDITION OF THE LAND AND PROPERTIES OF THE R. C. MISSION OF CAUGHNAWAGA.

The Church, the Rectory and its dependencies belong to the Iroquois R. C. Mission of Caughnawaga(Cfr. by decision of General Thomas Gage in I762.) The land upon which the church, the rectory and its dependencies are situate form the Lot One , according to admeasurement in I907.

The said land bounded on the north by the St. Lawrence river, on the south by the main road, or street, and the portion of ground No. Two within the limits of said land; east and west by two lanes leading to the river and belonging also to the Missiom by an uninterrupted use of same since the foundation of the Village of Caughnawaga on its present site in I7I6.

In view of the fact that up to this date, Nineteen Hundred and Sixteen, there is no church corporation,nor church wardens in Caughnawaga, the Missionary Father is in reality, the only administrator of the land and property belonging to said Mission, under the control of the Archbishop of Montreal to whom alone he is responsible for his administration of said Mission.

pertaining to buildings, repairs, sales or transactions of any kind on said land, or affecting the land only of said mission, the Archbishop of Montreal as high Administrator of the ecclesiastical estates of his Archdiocese may decide whatsoever he considers right, in conformity however, with the general laws of church corporations and with those of the Caughnawaga Reserve.

The Indian desire the Department to answer the following queries:

(a) Does the Department intend to erect and construct said residence for them notwithstanding the opposition of the Band?

(b) Where does not propose to erect said residence for the Indians?

1. From whom was the land or site acquired?

2. Upon what conditions and Titles was the said site obtained?

3. How many sites have been obtained for said purpose?

Dear Mr. Delisle -

Referring to our conversation of this morning, I beg to state that in view of the opposition expressed by a portion of the Caughnawaga Band to the erection of a teachers' residence at the present time on the reserve; and furthermore in view of the need of retrenchment in expenditure owing to the limited funds placed at the disposal of the Department for educational purposes, it has been decided to postpone this work until such time as there has been an opportunity of obtaining the views of the band as to the desirability of carrying out the proposed arrangement for the housing of the teachers engaged in the schools in the Village.

Yours very truly,

Duncan Scott

Deputy Superintendent General.

Sir,

The Roman Catholic Schools of the Village of Caughnawaga on the Indian Reserve are in charge of the Sisters of St. Anne who require a residence for themselves on the Reserve for the purpose of carrying on the school work. When the Sisters took over these schools at the request of the Department it was stipulated that they should be provided with a suitable residence. The premises in which they have been residing since taking up this work about a year and a half ago have been found to be altogether inadequate and no suitable residence is available. A site has been procured and the Department was proceeding to erect this residence ~~under the provisions of Section 89, Chap.81, R.S.C.~~ from funds voted by Parliament, when objection was made on behalf of a portion of the Indians that this building could not be erected without the consent of the band. I would be glad to be advised as to whether this residence can be erected without the consent of the band.

I would like to be further advised on the general question as to whether a site for a residence for the nuns or other school teachers could be expropriated by Order in Council under the provisions of Section 11A, Chap.81, R.S.C.,

The Deputy Minister of Justice,

as enacted by Section 2, Chap.35, 4-5 Geo.V 1914.

In order to secure qualified teachers for Indian schools suitable living quarters have to be provided by the Department as it is impossible to get such quarters among the Indians, and such quarters are being provided from time to time either by separate buildings or in the school buildings themselves where new schools are being built.

I may say that the particular object in view in the enactment of the said Section 11A was to enable the Department to expropriate for the purpose of enlarging the school grounds of a school on the Six Nations Indian Reserve, a parcel of land adjoining the said school which was held by an Indian who refused to sell it to the Department. The general object of the amendment was, however, to provide for the taking of lands for "school purposes" generally. It is thought that this section is broad enough to cover the case of a site for a residence for teachers, but I would be glad to know whether you share this view.

Dear Sir,

It was understood,May last,that the Department of Indians Affairs was going to take possession of Lot No. I. in July or August,for the erection of the Sisters' Residence. Accordingly,the Missionnary thought it would be useless for him to sow or plant any thing on it.

It was understood too that in exchange of Lot No. I.,the Government would give to the Missionary the Lot No.385. Till today,the Missionary has not been notified of any such exchange,he has lost the use of his Lot No.I,he had not the use of Lot No.385,so he had no land at all go get his annual supply of vegetables.Not only he used to draw from this piece of land his annual supply of vegetables,but,by selling the surplus of the products,he was getting a substantial help,very needed in a place where the priest gets no support from his parishioners.

Consequently,the Missionary claims that he should be indemnified by the Department of Indian Affairs.An indemnity of $ 200.00 does not seem to be excessive when we know that James Curotte,last year,got $ 300.00 from Lot No.385,the equivalent of Lot No.I.

For particulars and references apply to Mr.D.Chéné,who knows every thing about the case.

Yours very truly

MEMORANDUM.

Mr. Scott,-

With reference to the claim of Rev. Father Gras, Missionary at Caughnawaga, for compensation for the loss of the use of the land which has been acquired by the Department as a site for the proposed new teachers' residence on the reserve I beg to say that I do not consider that Father Gras has any claim for compensation. There was not-hing to prevent him from making use of the land, as the exchange between the Department and the church authorities was only consummated on the 10th of July, last.

If Father Gras had put in a crop on this lot and it had been destroyed by building operations he would then have been entitled to compensation, but, as nothing has been done in the way of building, he could have harvested his crop. I have spoken to Mr. Chene about this and he says that, although it is true that Father Gras did not work this land, there was nothing to prevent him from doing so.

Sir,

I have the honour to acknowledge the receipt of your letter of the 18th ultimo asking to be advised as to whether lands of an Indian reserve can be utilized for the purposes of a residence for the sisters engaged in teaching in the ordinary schools on the reserve. It appears that the site for the school has been procured and the Department was proceeding to construct the residence referred to from funds voted by Parliament when some of the Indians protested and declared that the building could not be erected without the consent of the band.

In reply I beg to state that if the lands required for the site are vacant and not held under location ticket or otherwise by an Indian, such lands may be used for the purpose mentioned without the consent of the band of Indians. The Indian Act provides that lands cannot be alienated without a surrender from the Indians, but lands to be used for the erection and maintenance of a residence for the teachers engaged in the schools do not require the consent or authority of the band for that purpose.

The second question which you submit is as to whether a site for the residence of school teachers on a reserve can be expropriated by Order in Council under the provisions of section 11a. chapter 81, R.S.C. 1906, as enacted by section 2, chapter 35, 4-5 George V, 1914. In my opinion the lands can be set aside by Order in Council for the purpose mentioned under the section referred to. I think there is no doubt

Sir,—

Permettez-moi de vous demander quelle décision le Département a prise relativement à la construction d'une résidence pour les institutrices Catholiques de Caughnawaga. Depuis la visite de Thunderwater dans cette réserve, la plupart de nos Indiens sont restés sous l'impression que cette résidence ne se construira pas, et que bientôt les Religieuses seront chassées de notre territoire. De cette impression, il résulte que quelques-uns des petits garçons sont moins dociles à l'école, l'assistance est moins bonne, et mon Truant-Officer a beaucoup à faire à l'égard des élèves qui font l'école buissonnière dans les rues du village. Si le Gouvernement a décidé cette construction, je recommande que les travaux commencent immédiatement afin que le public sache à quoi s'en tenir sous ce rapport. Ne serait-ce que les fondations pour cet automne. Il en résulterait beaucoup de bien pour l'éducation de nos jeunes Indiens d'une décision prompte de la part du Département.

I'll return with Mr. Ass't

Allow me to ask what the decision of the Department is regarding the construction of a residence for the lady Catholic teachers of Caughnawaga. Since the visit of Mr. Underwater to this reserve, the greater part of our Indians have remained with the impression that this residence would not be built, and that very soon the Nuns will be expelled from the reserve. This impression has resulted in some of the young boys becoming less docile at school, the ~~assistance~~ attendance is less good, and my Truant Officer has a great deal to do, on account of the pupils playing truant in the streets of the village. If the Government has decided in

Cher Monsieur Scott,

Veuillez trouver ci-inclus la copie et la traduction d'un document que j'ai trouvé dernièrement en classifiant les vieux papiers de la voûte.Ce document m'a vivement réjoui,et je ne doute pas qu'il ne vous intéresse beaucoup également.C'est l'acte de vente du terrain que le Gouvernement a acquis l'an passé pour bâtir le couvent des Soeurs,terrain que Pit Delisle prétendait avoir été donné sous condition par une vielle femme.....

Selon la coutume du village,qui a toujours eu force de loi devant les tribunaux,le présent acte de vente n'a pas été fait par devant notaire,mais cela n'en diminue pas la valeur. De plus la vente a été faite avec la connaissance et l'approbation des chefs.

Depuis I846,les droits du missionnaire sur ce terrain n'ont jamais été contestés.Ce seul fait-là suffirait pour dire que le dit terrain appartient bien à la Mission.

Vous verrez par là quelle est l'impudence et la malhonnèteté de Peter Delisle,qui pour tromper le Ministre de l'Intérieur et empêcher la construction du couvent,n'a pas craint de forger des documents !...

J'aimerais avoir une conversation avec vous sur différents petits sujets qui m'intéressent,Je vous serais bien obligé si vous pouviez me dire quel jour et à quelle heure,je pourrais vous rencontrer à votre bureau,à Ottawa,la semaine prochaine.Si vous étiez libre dans l'après-midi,ça ferait mieux mon affaire,vu que je pourrais aller et revenir le même jour.

Dear Mr.Scott,-

You will find inclosed a copy of a translation of a document that I have lately found in classifying the old papers in the vault. This document interest me very much, and I do not doubt that it may interest you very much likewise. It is a deed of sale of the land that the Government acquired last year for building the Sisters' convent, land that Pit Delisle claimed to have been given conditionally by an old woman.

According to the custom of the village, which has always been in accordance with the law, the present deed of sale has not been made out by a notary, but this does not lessen its value. Moreover the sale was made with the knowledge and approval of the chiefs.

Since 1846 the rights of the missionary to this land has never been contested. The fact that it was never contested shows that the land rightly belonged to the mission.

You will see by this that it is impudent and dishonest for Peter Delisle to deceive the Minister of the Interior and hinder the erection of the convent, he not fearing the forging of the documents.

I should like to have a talk with you on some small affairs of interest to me. I would be obliged to you if you could tell me what day and at what hour I might see you at your office at Ottawa next week. If you should be free in the afternoon, it would suit me better, as I might go and return the same day.

Accept, Sir, the expression, etc.

Dear Father Gras -

Mr. Scott was called from his office this afternoon and he asked me to acknowledge the receipt of your letter of the 30th instant, with enclosures, and to state that he would be pleased to see you next week. He expects to be in the city all the week and will be in his office at least in the forenoons.

Dear Sir,-

Since my visit to Ottawa, I have thought of writing more than once to thank you for the cordial reception you so kindly gave us. Still I left the place with a sore heart when I considered that no definite answer could be given us.

I understand, Mr. Scott, that you know our position in Caughnawaga, but allow me to say that we feel it more and more. Not that we wish to complain, or intend leaving, - no, we came here because we were asked and we see every day what a large field of labor lies before us.

Still we cannot understand why we are left in such poor, unhealthy quarters, after a promise of building a residence six months after our arrival. If it is a question of war and no funds - why the war began in 1913, and we came here in 1915.

We are all aware that there is only one man at the bottom of this trouble, and why does he get the upperhand over so many on the Reserve? Why should he have access everywhere and anywhere, and why do so many listen to him? These are questions that I care not to answer. After all, Mr. Scott, what improvements has he made for the Reserve? None Whatever. - How kind and generous the Government has been to him - and with all that, how has he acted, and how is he acting? Simply working against every one. If that one man were put in his place, all theothers would cool down, for, after all, they are only cowards, and make more smoke than fire.

I will ask you once more, Mr. Scott, to consider the matter, - not that we want a luxurious home, but a more comfortable and hygienic house. Since three weeks, the water is fall-

ing through the roof, and dripping on the beds in one of the dormitories. A new roof would be needed, but is it worth it ?

I understand it is very annoying for you to hear so many complaints, but it is neither to complain nor to annoy, - simply to present our needs.You have already been very kind and generous to us, and we are most grateful and appreciate everything you have done and will do in the future. After all, Mr. Scott, to whom should we address ourselves, if not to you, but if you tell me of others who can do more, I will go forward. Still, I hardly believe so.

Trusting to receive a reply, and thanking you again for the interest you are taking in our Caughnawaga Schools,

I am, dear Sir,

Respectfully and gratefully yours,

Rev. and dear Sister -

I have your letter of February 26th, with reference to the great desire you have for the building of a new residence at Caughnawaga.

I was discussing the matter with the Minister the other day but did not make very much progress. He does not seem inclined to spend the money just now. He promised the Indians that nothing would be done until they were consulted, and he wants me to go down and meet them some time when the weather is a little better, and I may be able to do so.

I have asked Mr. Chené who is going to Caughnawaga next Tuesday to look into the question of coal and wood, and also the employment of Mr. Viau the caretaker.

Yours very truly,

Dear Sir,

I have to write you concerning our new janitor, Mr. Viau. He was engaged the 8th of February, and up to the present time gives entire satisfaction. All winter, we have had trouble with the furnace in the boys' school, but since he is heating, all the coils in each class give sufficient w warmth and the thermometers never mark below 70degrees. He is an engineer and knows his business. We would not want him to be changed, for it is hard enough to live among Indians, that at least, we should be served by a white man.

I am speaking so, for I heard that the Councillors complained that a white man should do the work when there are Indians as well able as he. - I know positively that four Indians were offered the position and all four declined. We could not remain like that very long, so Reverend Father Cras asked Mr. Viau. The two men named by the councillors are not suitable for the place. Firstly, one is our bitter enemy, and I will never allow him to put his foot either in the school or in the convent. Secondly, the other is so lazy , that he cannot even do his own work. It seems to me we have had trouble enough, that we should endeavor to keep the one we have. We do not interfere in the Councillors' affairs, so let them not meddle in our own personal business.

I hope, Mr. Scott, that you will kindly take into consideration what I have said, and that instead of changing the janitor, you will allow him a salary of $400.00 yearly. He will be able to repair the furnace which is greatly damaged by tne little judgment and knowledge which his predecessor had

in such work. He can repair a great many things which will certainly save the Department much expense , and cause us less anxiety.

Before bringing my letter to a close, I would like very much to know what decision you have taken about the coal and wood. Not that I wish to intrude in the government's business, but if the wood and coal were bought in the spring when the prices are out, it would positively be less expensive. We can store away coal and wood, both for schools and residence in the school cellars.If Reverend Father Cras had not had a good supply of coal, I really do not know what we would have done, for he furnished us with coal during three weeks, until what I bought at Hartt & Adair's arrived.

I also bought different tools for the use of the school, such as , snow and coal shovels, saw, hammer, axes, chisel and wrench.Since Iam here, I have not seeñ any of these tools, nor did I want to buy any while an Indian worked for us. I had a large box made with a padlock, in which all things belonging to the school were carefully put away.

I am sorry to give you so much trouble concerning these janitors, but I feel assured that while Mr. Viau is here, all will be safe and certain.

I am, dear Sir,

Yours respectfully,

Sr. M. Joseph Edward, Supt.

Dear Sir,

In a letter dated June 16th 1916, Nº 440.628, the Department promised me to erect a suitable fence around the Lot Nº 385 newly acquired by the Caughnawaga R.C. Mission from the Department in exchange with Lot Nº 1. I come to remind the Government of his promise. I intend to sow that piece of land this year but it must be fenced first. as the frost now is practically out of the ground it would be good to erect the fence as soon as possible.
I would like to have a fence like the one I have in Nº 1. Let the Department authorize me to that effect and I will by the materials and hire the men to do the work in the best posible conditions.
For particulars apply to Mr. D. Chené.

Yours Truly

Monsieur,

Voilà plus d'un mois que j'ai écrit au Département pour le prier de vouloir bien faire faire une clôture convenable dans mon nouveau lot 385, et je n'ai pas même encore reçu un mot de réponse. Je trouve étrange qu'on n'ait pas encore répondu à ma lettre. La chose presse, le temps des semences est arrivé. Le Gouvernement m'a promis par écrit (16 juin 1916, N° 440.628) de me faire faire une bonne clôture, je demande encore une fois que cette clôture soit faite le plus tôt possible. Si le Gouvernement veut m'autoriser à cet effet je me chargerai de tout faire dans les meilleures conditions.

Dans une lettre du Département, 30 octobre 1916, N° 449628, je vois que l'acte d'échange du lot N° 1 et du lot N° 385 a été signé 10 juillet 1916. Comme je suis partie très interessée dans l'affaire, je prie le Départem

de vouloir bien m[illegible]voyer une copie, dûment certifiée de cet acte d'échange, afin que je puisse, à l'occasion le montrer à ceux qui voudraient contester mes droits.

Comme une des conditions de l'acte d'échange porte que le lot nº 1 ne doit être occupé que par les sœurs, je prierai le Département de vouloir bien autoriser les sœurs à se servir du dit terrain dès cette année, afin qu'elles puissent y aller se reposer un peu en été dans leurs moments de loisir et y trouver un peu de cette tranquillité et de cet air pur dont elles ont si grand besoin et qu'elles n'ont malheureusement pas dans leur résidence actuelle.

Espérant recevoir sous peu une réponse favorable à ces différentes demandes, je demeure

Votre bien dévoué.

Sir,-

It is more than a month since I wrote to the Department asking it to kindly have a suitable fence built on my new lot 385, and I have as yet not received a word of reply. I consider it strange that there has not yet been any reply to my letter. The matter is pressing. Seeding time has come. The Government promised me by letter of June 16, No.440628 to have a good fence built for me. I ask once more that this fence should be built as soon as possible. If the Government wishes to authorize me to this effect, I shall undertake myself to do everything on the best terms.

By Departmental letter of Oct.30,1916, No.449628, I see that the transfer of lot No.1 and lot No.385 was signed on July 10, 1916. As I am a very much interested person in the matter, I ask the Department to kindly send me a duly certified copy of this transfer, so that I may upon occasion show it to those who wish to contest my rights.

As one of the terms of the transfer stipulated that lot No.1 should only be occupied by the Sisters, I would ask the Department to kindly authorize the Sisters to make use of the said property from this year in order that they may go there to rest a little in summer time during their leisure moments, and find there a little of that tranquillity and pure air of which they have such great need, and which they unfortunately have not in their present residence.

Hoping to receive a favourable reply soon to these different requests,

Yours very truly,

INDIANS TO VOTE ON QUESTION OF SITE FOR SCHOOL

A. F. MacKenzie, private secretary to Duncan C. Scott, deputy superintendent general of Indian affairs for the Dominion of Canada, arrived in Montreal from Ottawa Saturday to institute an investigation into the trouble at Caughnawaga, which arose out of the Government's proposed action to erect on the reserve, without the consent of the band ,a residence for Sisters teaching in the school there.

On Saturday, the 19th instant, a large number of the Indians demolished the fence enclosing the land originally chosen for the site of the proposed residence.

In addressing the band yesterday morning, Mr. MacKenzie said that it was through a misunderstanding with the Government that the Jesuits had assumed possession of the disputed lot 385, and that they would relinquish its occupancy at once. The question of the residence for the nuns will be decided by a vote of the band and would not be forced upon the reserve contrary to its wishes. Mr. MacKenzie also made the announcement that the Government was considering the extention of the franchise in the near future to every eligible Indian voter in Canada.

HELPING THE SEEDING.

Charles A. Cooke, an Indian, who is chief clerk of Indian Records at Ottawa, and official interpreter for the Department of Indian Affairs, accompanies Mr. MacKenzie on another mission. He will make an enquiry into the extent of assistance necessary from the Crown in furnishing seed gratuitously to those Indian farmers who through poverty or other circumstances, are this year unable to buy such for themselves.

Mr. Cooke was also commissioned by the Government, at the outbreak of the war, to take charge of the recruiting of Indians for overseas service. He stated that 1,500, of which 900 came from Ontario, were now at the front. The Reserves of Haldimand county contributed 300 men and eighty went from Caughnawaga. Commissioned Indian officers on active service number seven, all of whom are Iroquois, and who include two captains and five lieutenants. Mr. Cooke stated that the Indian became an efficient soldier in a very short period of training and possessed great powers of endurance.

J'arrive de Caughnawaga, et je comprends qu'il est de mon devoir de porter à votre connaissance ce qui s'y passe relativement à l'état d'esprit des Indiens concernant les religieuses institutrices et le missionnaire le Rév. Père Gras. Je suis informé par des personnes dignes de foi que, depuis plusieurs semaines, tous les dimanches à l'issue de la grand'messe, Mr P. J. Delisle, interprète et secrétaire du Conseil, ancien instituteur de l'école des Garçons, harangue ses concitoyens en se servant d'expression tout à fait grossières à l'égard du missionnaire et des religieuses, poussant ainsi les Indiens à se rebeller contre l'autorité établie. Samedi dernier, à six heures du soir, un groupe considérable d'Indiens, admirateurs du démagogue Delisle, se sont rendus sur le lot No 385, propriété du Gouvernement, et ont arraché la clôture entourant ce lot, parce que, disent-ils, le Gouvernement n'avait pas le droit d'acheter ce terrain sans leur consentement. j'ai tenté de leur faire comprendre que l'article 11A de la loi des sauvages confère au Gouvernement en Conseil le pouvoir d'exproprier pour des fins scolaires, mais je n'ai jamais été écouté. Le père Gras m'informe qu'il y avait une entente entre lui et le Département pour l'échange du lot No 1, dont le missionnaire a toujours eu la jouissance, pour ce lot No 385. De fait, le Rév. Père Gras avait déjà fait charroyer du fumier sur le lot en question afin de l'ensemencer en patates; mais maintenant que la clôture n'existe plus, beaucoup d'animaux se tiennent dans ce jardin, et il ne lui sera pas possible de le cultiver. Madame Wilbrod Belleffeur qui possède la balance du terrain en question, souffre aussi de cet acte des Chefs, car son terrain ne se trouve plus entouré, et elle demande justice. Si le Département n'agit pas énergiquement immédiatement en rapport avec cet acte révolutionnaire, d'autres actes semblables auront lieu avant longtemps. Je recommande

DEPARTMENT OF INDIAN AFFAIRS MAY 1917

Sir,-

Upon arriving at Caughnawaga I learned of a matter which I should draw to your attention, namely, the way in which things are going on with regard to the state of mind of the Indians concerning the teaching nuns and Rev.Father Gras, the missionary. I am informed by persons worthy of belief that for several weeks every Sunday, when the people are coming out from High Mass, Mr.P.J.Delisle, interpreter and secretary of the council, and formerly teacher at the boys' school, harangues his fellow citizens, making use of extremely course expressions with regard to the missionary and the nuns, and urging the Indians to rebel against constituted authority. On Saturday last, at 6 o'clock in the evening, a fairly large group of Indian admirers of the demagogue Delisle went to lot 385, which is Government property, and pulled down the fence which inclosed this lot, because as they say, the Government had no right to buy this property without their consent. Upon various repeated occasions I endeavoured to make them understand that section 11A of the Indian Act confers upon the Governor in Council the power to expropriate for school purposes, but I was never listened to. Father Gras informs me that there was an understanding between himself and the Department for the transfer of lot No.1, the use of which has always been enjoyed by the missionary, for this lot No.385. In fact Rev.Father Gras has already had manure brought to the lot in question in order to seed it with potatoes; but now that the fence no longer exists, many animals

go in this garden, and it will not be possible to cultivate it. Mrs.Wilbrod Bellefleur, who owns the remainder of the land in question, also suffers from this action of the chiefs, for her property is no longer inclosed, and she is asking justice. If the Department does not act vigorously and at once in connection with this revolutionary action, other similar actions will take place before long. I recommend, therefore, that Constable Martin Two-Axe should be authorized to take the necessary measures to have this fence replaced in its original state, and at the expense of the tribe, for I am informed that Chief Councillor John T.Daillebout was at the head of those who did this destruction. I am further informed that the same thing is to be repeated this week in the case of lot No.1. I should like to have instructions from you at once in order that I should know what to do.

Dear Sir:- 495394

I beg to inform you that a certain Peter Desliele is influencing the Indians of Caughnawaga against our Sisters and their schools. He has been antagonistic to them from the beginning and has taken every opportunity to undermine their authority. Last Sunday week he harangued the people after church services: among other things, he said the Sisters were incompetent and criticised their method of teaching. He even went so far as to say that he would not allow the government to erect the sisters' dwelling-house because he did not want any white people in the village.

If you desire that the sisters remain in Caughnawaga, I know you will find means of silencing this

Iroquois because it is a constant strain for them to cope with these inconstant and ignorant people.

I hope, Rev. you will see fit to provide the sisters with a suitable residence for they are presently most inconveniently lodged.

Asking you to kindly consider this matter, I remain,

Yours very respectfully,

Dear Sir,

I beg to let you know that I find reprehensible and calculated to cause a feeling of unrest in our Reserve, the act of those Indians, who, at the instigation of P. J. Delisle, the dismissed school teacher, tore up the fence around the land acquired by your Department for school purposes in our village.

I have always endeavored to give my sincere opinion in all matters pertaining to the welfare of the Caughnawagas, so in the present circumstance, I make my adhesion to the sentiment contained in a letter being written you by other Indians, who desire to see peace and order exist in Caughnawaga.

I remain, dear Sir,

INDIANS TO VOTE ON QUESTION OF SITE FOR SCHOOL

501504

A. F. MacKenzie, private secretary to Duncan C. Scott, deputy superintendent general of Indian affairs for the Dominion of Canada, arrived in Montreal from Ottawa Saturday to institute an investigation into the trouble at Caughnawaga, which arose out of the Government's proposed action to erect on the reserve, without the consent of the band ,a residence for Sisters teaching in the school there.

On Saturday, the 19th instant, a large number of the Indians demolished the fence enclosing the land originally chosen for the site of the proposed residence.

In addressing the band yesterday morning, Mr. MacKenzie said that it was through a misunderstanding with the Government that the Jesuits had assumed possession of the disputed lot 385, and that they would relinquish its occupancy at once. The question of the residence for the nuns will be decided by a vote of the band and would not be forced upon the reserve contrary to its wishes. Mr. MacKenzie also made the announcement that the Government was considering the extention of the franchise in the near future to every eligible Indian voter in Canada.

HELPING THE SEEDING.

Charles A. Cooke, an Indian, who is chief clerk of Indian Records at Ottawa, and official interpreter for the Department of Indian Affairs, accompanies Mr. MacKenzie on another mission. He will make an enquiry into the extent of assistance necessary from the Crown in furnishing seed gratuitously to those Indian farmers who through poverty or other circumstances, are this year unable to buy such for themselves.

Mr. Cooke was also commissioned by the Government, at the outbreak of the war, to take charge of the recruiting of Indians for overseas service. He stated that 1,500, of which 900 came from Ontario, were now at the front. The Reserves of Haldimand county contributed 300 men and eighty went from Caughnawaga. Commissioned Indian officers on active service number seven, all of whom are Iroquois, and who include two captains and five lieutenants. Mr. Cooke stated that the Indian became an efficient soldier in a very short period of training and possessed great powers of endurance.

MEMORANDUM -

Mr. Scott -

In compliance with instructions I visited Caughnawaga on Saturday, last, to ascertain the truth of the alarming reports appearing during that week in the Montreal press regarding conditions on the Caughnawaga reservation.

I found that the trouble had originated on the previous Saturday, the 19th inst., when a number of Indians, headed by the Chief Councillor, met in the vicinity of lot No. 385, purchased some time ago by the Department for school purposes, and proceeded to take down the fence surrounding this lot. This they did as a protest against the use of the lot by the Rev. Father Gras, who, under misapprehansion that he was the owner, had commenced to cultivate it. I was given to understand also that the Indians had intimated to the Rev. Father that they proposed to take the fence down surrounding lot No. 1, which has been occupied by the Jesuit

Mission since 1846, as the Indians do not recognize their title to this property. However, they have not done anything in this respect.

I personally had an interview with the Mayor and some of the more prominent Indians, including Mr. Delisle, as well as Rev. Father Gras, and explained fully the status of lot No. 385, which at present stands as the property of the Department. This explanation seemed to satisfy the Indians, and the Mayor has also promised to use his influence to prevent the Indians from attempting to interfere with Rev. Father Gras in the cultivation of lot No. 1. I trust, therefore, that there will be no cause for complaint on the part of the missionary so far as this is concerned.

The reports appearing in the Montreal papers were, no doubt, very much exaggerated, and would give the reading public a false impression of happenings on the reserve.

On the morning of the 26th instant, I spent a couple of hours visiting the schools in the Village, more especially those under the charge of the Sisters. While the attendance on that morning was small, I was very pleased with the class-room work that I was able to

examine in the short time at my disposal. The contrast in the boys' school since the time of my last visit was very marked. There was also a great improvement in the general cleanliness of the pupils, in their deportment and in the condition of the class-rooms. I am confident also that there was a similar degree of improvement in the class-room work.

Both the Indians and the Sisters in charge of the schools are desirous that a decision should be arrived at regarding the erection of the teachers' residence at an early date. I explained to Father Gras and to the Sisters that the Department had promised the Indians not to take action to erect this building until the band had had an opportunity of expressing their views. The Sisters are quite dissatisfied with their present quarters, with, I must say, a degree of reasonableness. The accommodation is altogether inadequate for the number of persons to be housed, ten in all. They suggested another house that is available which the Department might lease, but this would entail a large expenditure, and the difficulty with the band would still exist.

In view of the promise given the Indians, I think the question of the erection of a teachers' residence and the retention of the Sisters on the reserve should

Indian Affairs. (RG 10, Volume 3179, File 449,628-2)

be submitted to them at an early date.

One of the officials from the Convent of Ste. Anne intimated that if we propose to make any change they would like to be advised not later than July, so that they can make the necessary arrangements for the disposition of the Sisters now engaged in Caughnawaga.

I would, therefore, suggest that after giving notice on two consecutive Sundays a vote of the band be taken by ballot and the future course of the Department guided by the result.

THE SENTINEL, TORONTO, MAY 31, 1917.

NUNS FORCED UPON INDIANS.

Montreal, May 26.—The introduction of nuns as teachers on the Indian Reserve at Caughnawaga is causing trouble. It is said this has been done at the instigation of the Department of Indian Affairs. The Sisters supplanted lay teachers, of whom one, P. J. Delisle, now an employee of the Money Order Department, Canadian Postal Service, heads the campaign against the Sisters and against the Rev. Father Gras, S.J., the resident missionary, who has championed the cause of the newly installed teachers. The tribe has split into two factions in the dispute, by far the larger, some claim, being on the side of Delisle. This stronger faction took time by the forelock last Saturday and tore up some 500 feet of fencing, around land whereon it is planned to erect a residence, or school, for the Sisters—and which land, the antis claim, was illegally transferred to the Jesuits and Sisters for the purpose mentioned.

Course of the Dispute.

Since 1915, correspondence has been exchanged between the Department of Indian Affairs at Ottawa and the two antagonistic factions in Caughnawaga concerning the right of the Government to establish a residence for eight nuns, without first obtaining a surrender of the land upon which to build the residence, such surrender to be obtained by a majority vote of the Indians. The faction opposing the proposed action of the Government is led by P. J. Delisle, Grand Chief of the Council of the Tribes.

The other faction is under F. McDonald Jacobs, an ex-chief of the Iroquois. The question in dispute, it is said, embodies no religious, separate-school, or three-language controversy, but arises out of the progressive program claimed by both factions for the establishing of a modern, efficient, compulsory system of education. They differ seriously as to the method of attaining this end.

Don't Want a Convent.

The ambition of the Deslisle faction is to avoid having a convent, to oust the teaching Nuns and other white people from the reservation, and, instead of the present school curriculum, to have University-trained men-teachers who can instruct in all the modern science as well as the wide range of present-day public school topics. "The modern Indian," says Mr. Delisle, "has taken the war feather from the top of his head and carries it over his ear, this signalizing his transition from the pursuit of scalping to that of scholarship." "We have applied to the Archbishop for other tutors, but he denies our request on the ground that the Jesuits possess seigniorial rights, granted them by Louis XIV."

Dear Madam -

I have the honour to refer to your letter of May 18th, last, with regard to the erection of a residence for the Sisters engaged in school-work on the Caughnawaga Indian Reserve.

The Superintendent General has directed that, after giving notice on two consecutive Sundays, a vote of the band be taken by ballot and that our future course is to be guided by the result. After the result of the meeting is known you will be immediately informed in order that you may have ample time to decide upon your future course.

I have to thank you most cordially for your interest in the welfare of the Caughnawaga children.

Caughnawaga, July 9, 1917,

Dear Mr. Scott,

Before taking leave of our mission for a much needed rest, allow me to thank you for all your kindness to us during the year that has just elapsed. Some of our Sisters will leave for Lachine, others have left for the mountains.

I have another favor to ask of you. This year the high cost of living shall not give us the advantage of making both ends meet, so would it be against your usage, if I asked you to advance a couple of hundred dollars on next year's salary in order to give me the advantage of paying our custumers.

Moreover, Mr. Scott, I am obliged to leave for the hospital the latter part of this week, and, you know, kind Sir, what expence that incurs.

If you think the Department would augment our salary next year we would be most grateful. I UNDERSTAND that befire the war broke out we could do live well enough for us, but as it is, next year we will have to live very scantily. If you think my dema demand will be accepted please let me know at an early date.

I ams sorry to be obliged to ask you to advance the money, but you understand my position, and that you will accede to my request.

Thanking you once more for past favor and wishing you a pleasant vacation,

I am, dear Sir,

Dear Madam -

I have to acknowledge the receipt of your letter of the 9th instant, in which you apply for an advance on your salary for next year as Supervising Principal of the Caughnawaga Schools, and also for an increase in the salaries generally.

With reference to your first request, it is so unusual that I almost hesitate to consider it. You yourself seem to appreciate the difficulties that might lie in my way.

With regard to the proposition for an increase in the salaries, I would like to give further thought to this. At the present time it is incumbent upon us to exercise the strictest economy. Then again I must preserve the scale of salaries in the schools on our different reserves so that there may be no cause for invidious comparisons. However, you will hear from me again in reference to this.

Mr. MacKenzie -

You will be good enough to arrange to be in Caughnawaga on Sunday July 15th and Monday July 16th at the time of the taking of the plebiscite on the question of the erection of the teachers'residence on the reserve. You will be good enough to explain to the Indians the reason for and object of taking this plebiscite, and answer in so far as you can any enquiries that the Indians may make. The vote will be taken by ballot in the Council Hall in the usual way.

Should the ballot prove favourable you should make enquiries regarding lot No. 8 which it was intended should be purchased for the site of a residence, and take such initial steps as may be possible towards the purchase in order that there may be no delay in consummating the arrangement, if such action is found necessary.

In this connection you may intimate to the Indians that in the event of the building being erected lot No. 385 formerly purchased by the Department will be turned

MEMORANDUM -

MR. SCOTT - 497476

DEPARTMENT OF INDIAN AFFAIRS JUL 23 1917

In compliance with your instructions I was present in Caughnawaga on Monday when the plebiscite was taken on the question of providing permanent quarters for the Sisters of Ste. Anne who have been in charge of their schools from the 1st of January, 1915. The vote was by ballot and 327 ballots were cast; two of these were spoiled, and of the 325 accepted ballots, 14 were cast in favour of the project and 311 against. According to our last public census the voting strength of the Caughnawaga band is 535. You will see from this that the vote was a representative one. It is in fact a larger vote than is usually polled at their annual municipal elections. The number of votes cast against the proposal to erect the building is 60% of the total voting strength of the band.

Caughnawaga, 20 juillet 1917

Cher Monsieur Scott,

Comme le référendum de lundi passé paraît plutôt défavorable à la construction du couvent, j'ai pensé que, en l'absence de la Sœur Supérieure, il me serait permis de porter à votre connaissance une proposition qui pourrait vous être utile dans les circonstances présentes.

La maison où sont maintenant les Sœurs est malsaine et, surtout, il y a tant de tapage dans les environs, surtout la nuit, que les Sœurs ne peuvent reposer. En attendant que les esprits soient un peu calmés et que viennent des temps meilleurs, je viens vous proposer de mettre les Sœurs dans la maison de M. Frank E. Jacobs, al. Kiawentonte. Cette maison se trouve sur le bord de la rivière, elle est aussi grande que celle qu'occupent les Sœurs actuellement, elle a un jardin sur le bord du fleuve, l'eau est dans la maison, les environs sont tranquilles, le loyer serait le même prix que celle où sont actuellement les Sœurs. Je sais que les Sœurs ont déjà

examiné la maison et qu'elles se contenteraient de cela, en attendant que les esprits soient calmés et que la réaction en leur faveur arrive.

Comme je vous l'ai dit dans ma dernière lettre, les Iroquois, à part un tout petit groupe, ne sont pas contre les Sœurs et leur enseignement. Le maire et des centaines d'autres me l'ont dit, ils devraient voter contre le Gouvernement parce que, disent-ils, le Gouvernement viole leurs droits, parce qu'ils craignent que le Gouvernement ne s'empare peu à peu de leur réserve et finalement ne les expulse. Ils sont trompés, on les a trompés, on les trompe encore, et ils sont si fanatisés, qu'il est impossible de leur faire comprendre raison. D'après les registres de l'église, j'ai calculé que Caughnawaga comptait au delà de 600 voteurs. Je note que la majorité contre le couvent n'est pas très grande.

Je connais, Monsieur Scott, votre désir sincère et ardent de travailler à l'éducation de notre population; je regrette plus que

personne de voir que nos gens s'entêtent à croire que vous voulez les jouer et doutent de votre bonne volonté à leur égard, j'espère que malgré tout vous saurez continuer l'œuvre que vous avez si bien commencée et les générations futures sauront reconnaître ce que vous faites pour eux, ils vous considèreront toujours pour leur plus grand bienfaiteur.

Veuillez agréer, monsieur Scott, l'expression de ma sincère reconnaissance et de mon entier dévouement.

Dear Mr. Scott -

As the referendum of last Monday appears to be mostly unfavourable towards the construction of the Convent, I have thought that in the absence of the Sister Superior I might be allowed to bring to your attention a proposition which might be useful to you under the present circumstances.

The house in which the Sisters are at present located is insanitary, and moreover there is so much noise in the vicinity, especially at night, that the Sisters cannot rest. Until such time as things become quieter and better times arrive I would like to propose putting the Sisters in the house belonging to Frank E. Jacobs alEiawentonte, This house is situated on the bank of the river. It is as large as at present occupied by the Sisters. There is a garden on the river bank. There is running water in the house. The vicinity is quiet. The rent would be the same as for that in which the Sisters are now located. I know that the Sisters have already looked over the house and would be content with it, until matters become quieter and the reaction in their favour arrives.

As I told you in my last letter the Iroquois, outside of a small group, are not against the Sisters or their teaching. The Mayor and hundreds of others have told me that they intended voting against the Government because they say the Government violates their rights and because they fear the Government will little by

little take possession of their reserve and finally expel them altogether. They are mislead (imposed upon) , they have been mislead and they are being mislead still, and their imaginations are so inflamed that it is impossible to make them understand reason.

From the register at the church I have calculated that Caughnawaga included more than six hundred voters. Therefore the majority against the convent is not very large.

I know, Sir, your sincere desire to work towards the education of our population and I rggret more than I can say seeing our people making themselves believe that you wish to fool them, and doubting your good will on their behalf.
I trust that in spite of all, you will be able to continue the work which you have so well commenced, and that future generations will be grateful for what you have done for them, and that they shall consider you always their greatest benefactor.

I am, &c.

J. Gras.
