

Maniac Shoots Down a Noted New York Surgeon in a Fashionable Church Sunday

Prominent Physician is Shot in Church By Maniac While Taking Up Collection and Dies Soon After

Murderer Captured By Members of the Congregation—He Fired Several Times in the Crowded Church, Directed at His Pursurers, But Shot Went Wild.

NEW YORK, April 20.—Dr. James Markoe, a well known surgeon was shot and killed Sunday while taking up the offering at the morning service in the fashionable St. George's Episcopal Church, Fifth street and Stuyvesant place, in the old aristocratic district of New York.

The assailant was captured after a short chase by a group of parishioners headed by William Fellowes Morgan, president of the Merchants Association of New York; Dr. George Brevland and J. Morgan Jones. The East 22nd street police station the prisoner gave his name first as Thomas W. Shelly and later as Thomas W. Simpson. The police told them he had escaped on Thursday from the Eastern State hospital for the insane at Williamsburg, Va.

Morgan's personal physician, Dr. Markoe, a wealthy vestryman of the church, was a friend and personal physician to J. Pierpont Morgan, also a parishioner there. He was 56 years old. The church was crowded with parishioners, many of them representatives of the wealthiest families in New York, when the shooting took place. Dr. Markoe was walking down the left aisle taking the collection while the choir was singing an anthem. As he reached the twelfth pew from the rear and leaned over to pass the plate, Shelly, who was seated next to the aisle, whipped out a revolver and fired at the physician. The bullet struck him over the left eye and he collapsed in the aisle. Several women screamed and men rushed from their seats, some to the aid of the physician and others in pursuit of his assailant. Shelly, with the smoking revolver in his hand, leaped over the body of the physician and started to run out of the church. The choir, led by Charles

He Knew Then What The Butcher Meant

A citizen of St. Catharines tells this little story illustrative of the fact there may be profiteering going on which we do not suspect. "I went into a meat store the other day to buy some meat," said he, "The butcher slipped a slab of steak on the scales in that gracefully nonchalant way that butchers have and then said 'Oh we'll call it a pound.' 'I wanted to get some nails, so I went into a hardware store. After the clerk had weighed my

nails, I threw the package of meat onto the scales and asked him to weigh it, because I wanted to see just how much I had benefited by the butcher's generosity. The clerk looked at me, 'How much meat did you suppose you were buying?' said he. 'I told him a pound.' 'Well' said the hardware clerk, 'the guy beat you out of three ounces.' That meat paper and all weighs thirteen ounces. Then I appreciated what the butcher meant when he said, 'We'll call it a pound.'"

THE WEATHER

TORONTO, April 19.—The shallow area of low barometer which on Saturday morning was passing off the middle Atlantic coast during the night developed into a severe storm and heavy northwest gales with snow have since prevailed in the Maritime Provinces. The weather is fair and mild in the Western Provinces, Ontario and Quebec. FORECASTS—Easterly winds fine and mild. Tuesday—easterly winds showery. Potatoes sold at C. I. than Saturday for \$6.25 a bag or \$10 a pack.

CHAMPIONSHIP TO BE DECIDED HERE

Arrangements were completed on Saturday night, when Capt. Burgess of the city A.B.C. team, and Frank Purdy, captain of the Whitman & Barnes team, got together at the alleys and decided to roll off for the city ten pin championship at the T & M. alleys Thursday, the consideration at stake being \$5 per man. A Change in Stake Only last week an acceptance to the challenge issued by the Garden City team was typewritten, signed by F. E. Purdy, and forwarded to Capt. Burgess, worded as follows: Mr. E. Burgess, Captain Garden City Bowling team, St. Catharines. Dear Sir: We hereby accept your challenge to a five game bowling contest for the consideration of \$300 per side. The games to be bowled on outside alleys, dates, etc., to be agreed upon later.

Whitman & Barnes Bowling Team, F. E. Purdy, Capt. The Garden City team were counting on putting up \$300, and several of the members were actually figuring on borrowing what they could not raise. The Whitman and Barnes team suggested \$300 a side in their letter of acceptance, but Saturday night they asked \$5.00 per man—\$25. per side, just half what Burgess quoted in his challenge. "I don't think much of this continually changing the stake. We have showed ourselves willing to put up the amount," said Dick Mayer. Continued on page eight.

MAKES PLEA FOR MERCHANT MARINE FOR THIS COUNTRY; BIG MEETING LAST NIGHT

Necessity For Canada Having Such is Emphasized by Captain S. Boal—Showed Interesting Pictures of British Navy, Lusitania, Etc., at Sunday Night's Meeting.

There was a large audience at the Grand Opera house last night at the meeting called by the St. Catharines branch of the Navy League of Canada. Capt. S. Boal, chaplain in the navy, gave an interesting address and also showed views of the British navy, the Lusitania, etc. The Navy League, said Capt. Boal has been the pioneer of all things in England of a strong fleet. For over 30 years, the policy of the league by such men as the late Lord Roberts has been ever kept before the public and the late Lord Charles Beresford, who was at one time admiral of the fleet. Although there may have been differences the policy of the naval authorities was kept out of politics, thanks largely to the pioneers of the Navy League. They also believed that the arteries of the Empire, with its great sea communication, ought always to be kept open and during the past hundred years the entire burden of maintaining that fleet has been shouldered by the United Kingdom of Great Britain and Ireland, with a population of 45,000,000. The question now is, how long she will be able to keep up the fleet owing to our great responsibilities to our Allies during the period of the war. The citizens of Canada, who have been ever loyal, must bear in mind the great drain on the Treasury in loans to the allies. Capt. Boal gave the loan figures, exclusive of post war advances as: Russia \$568,900,000 France 470,500,000 Italy 470,000,000 Belgium 85,500,000 Serbia 20,900,000 Other Allies 51,000,000 Therefore, he felt the people of Canada, with the rest of the Empire should realize that it largely depends upon sea-communication for its prosperity. It is necessary for the prosperity of the Empire that sea transportation should be in ships belonging to the British Empire—Canada, or any other portion of the Empire. The shipping launched in 1912 in the United Kingdom was nine times as great as in the United States. In the United States, in 1918, it was twice as much as in the United Kingdom. The American people could not be blamed for that. In 1912 the United Kingdom launched 30 times as much shipping as Japan, and in 1918 only three times as much. In 1914 the United Kingdom possessed 41 per cent of the world's mercantile tonnage and the United States four per cent. Coming down to the year 1919, the United Kingdom had 34 per cent and the United States 20 per cent. It is most essential in the interests of Canada that she should have a mercantile fleet. Whether that fleet would be in the hands of private owners or in the hands of the Government of Canada is a matter for future consideration. But it is the duty of every Canadian who believes in Canada's prosperity to impress on the Government the necessity of having a definite shipping programme. By so doing Canada could carry her products to the markets of the world and bring industrial prosperity to Canada. Capt. Boal says he urged years ago that Canada should have a mercantile marine of her own, let own ships, manned by her own children. The Navy League of Canada has set out on a programme of training Canadian boys for the mercantile marine service—a training which will enable them to man our Canadian ships at no training expense to the government.

FINE NEW CITIZENS FOR CANADA

The immigration buildings at any of the Dominion's ports of entry present a curious scene of bustle and bustle shortly after the arrival of one of the giant ocean liners, and a witness is not likely to soon forget the commotion created by the discharged emigrants. A vast mass of humanity surges through the galleries past the immigration officer and the various inspectors, and once accepted for Canadian citizenship, men, women, and children of every kind, loaded down with baggage of every shape and form rush hither and thither making multitudinous inquiries of everyone generally unacquainted with the next steps to be taken to further proceed on their journey. It is neither pleasant nor comfortable to land friendless in a strange land. The hardened traveler feels this and more deeply those who set foot in a foreign land where customs, conditions, and possibly language differ from those to which the emigrant has been accustomed from childhood. Then the daily worries incidental to travelling are intensified by the total unfamiliarity on every hand, and each move is fraught with embarrassment. Yet each month thousands of potential Canadian citizens are arriving at the Dominion's shores from the British Isles, France, Belgium, Holland and Scandinavia—people who have broken up homes and life-long ties at the promise of the great new land. Into a whirl of unfamiliar sights and sounds, in a confusion of humanity and baggage, many unacquainted with the language they hear on every hand—thus, at the gateways of the Dominion, arrive the ancestors of the Canadians of tomorrow.

Man May Carry His Own Liquor, According to Ruling Of Mr. Justice Middleton

The decision handed down by Mr. Justice Middleton in Toronto Friday which it was ruled that a man may act as his own common carrier and exercise a far-reaching effect on the rum running industry. The decision was made in the case of John Konzak, a forger, residing at Windsor, who brought two cases of liquor from Montreal to Windsor, ostensibly for his own use. Konzak was arrested for a violation of the O. T. A., his liquor confiscated and he was fined \$500. The higher court now rules that the fine shall be cancelled and the liquor returned to him. The ruling he taken as a precedent (there appears nothing to prevent any number of individuals from driving their autos to Montreal, loading them to the guards with "fruit of the vine" and then driving back. They will be immune from police interference on the route and provided they take the car to their homes. The only chance the whisky trader takes now is that he might be tempted to divert his load to some place other than his own domicile, in which event, he would be liable to the full force of the law wherever, as a good many men have been doing this very thing for months, and getting away with it, the only difference it may make in their modus operandi is that they can now drive as slowly as they like without looking over their shoulders for the officers of the law.

GARDEN CITY INN OPEN TO PUBLIC

Ellis House Converted Into Attractive Place for Citizens The announcement that the Garden City Inn has been opened by Mrs. Vandusen at the corner of James and Summer street will be welcomed by citizens of St. Catharines who desire a clean and attractive place to go for a meal and a brief rest. The Ellis House estate has been converted into a cheery Inn. It has been decorated and furnished so that it presents a most welcome appearance. A sitting room for the ladies and a smoking room for gentlemen are features that will be enjoyed by the up-town business and professional class who wish to dine out. Mr. Vandusen yesterday entertained a number of friends and acquaintances at dinner and all expressed themselves as delighted with the excellent cooking and service.

Drove Motor While Drunk; Cost Man \$27

That Ira Cook was crazy drunk in charge of a motor car was the assertion of Sergeant Brett in police court today. He said Cook was blasphemously hilarious early Saturday morning while driving a big truck on St. Paul Street. When taken to police headquarters volubly objected all the way in and wanted his lawyer. "Did you ever state that you'd get Cook?" queried T. J. McCarron, Cook's counsel. "No" said the sergeant. "How did you know that he was drunk?" "By the way he talked and zcted." P. C. Howitt gave evidence similar to Sergeant Brett. Joe Cox, former policeman, said he passed Cook in his own truck at St. Paul and James Street and Cook asked him if he thought he was drunk. "I didn't think he was," said Cox. Cook was doing considerable hollering and yelling however he admitted. The magistrate asked Cook to pay \$27 in all. He paid.

Postmen Here Not Satisfied With Increase

The Postmen here are not well satisfied with the increase in salary given them by the Government and there is considerable kicking. Under the new conditions \$1260 is the highest salary paid the letter carriers and that is for men who have been working for some time. New men and those who have not been on the job very long are paid considerably less.

WHEAT IN SIGHT AT 4 DOLLARS

WASHINGTON, April 19.—Indication of a worldwide shortage of wheat this year, and a worldwide increase in demand, was reported today by the American Agricultural Trade Commissioner at London, who said bread was selling in England at what was generally considered the highest price the workman would tolerate without grave disorders. With Russia still in chaotic state there is little to be expected from that country in the way of wheat exports, and Europe naturally turns to Canada, Australia, India and the United States and Argentina.

BROTHERHOOD MOVEMENT

The story of the Brotherhood Movement is one of the most romantic in the social and religious world of our times.

In 1875, John Blackam of West Bromwich, England, began what were known as "Pleasant Sunday Afternoon Classes." These aimed to provide bright, interesting, religious services for the great number of men who did not usually go to church.

As members of the British Brotherhoods emigrated or travelled they carried the Brotherhood seed to many lands. Societies were formed and in most cases flourished. An international Congress was planned to take place by the war. It seemed that the Brotherhood idea must perish in the struggle of 1914-18.

SPRING FEVER

Following Colds, Grip or Flu, Thin, Watery or Poisoned Blood

(BY DR. VALENTINE MOYR.)

At this time of year most people suffer from what we term "spring fever" because of a stagnant condition of the blood, because of the toxins (poisons) stored up within the body during the long winter.

Bloodless people, thin, anemic people, those with pale cheeks and lips, who have a poor appetite and feel that tired, worn or feverish condition in the spring-time of the year, should try the refreshing tonic powers of a good alterative and blood purifier.

ILLSONBURG, Ont.—"Ever since I can remember Dr. Pierce's medicines were used in our family at home and they never failed to give good results. The 'Golden Medical Discovery' was used as a tonic and blood purifier and for bronchial trouble and it proved excellent. I have personally taken it for bronchial trouble and the 'Favorite Prescription' to build me up when I was run-down and they were both very beneficial."—Mrs. CLIFFORD MITCHELL.

Chateau de Ramezay One of Montreal's Historic Relics

The running of the sands of time since can give the proper perspective and value to historic buildings. Societies spring up to preserve these relics of the past.

Perhaps the most famous of these monuments of the past in Canada is the Chateau de Ramezay in Montreal, which has remained almost untouched since the days of the old French regime. It was built in 1745 by Selgneur Claude de Ramezay, eleventh governor of Montreal.

garden still clinging to them, up the slopes of Mount Royal. From the days of de Ramezay the Chateau has been the scene of many historic assemblies. Its roof sheltered not only the governor-generals, their suites of fair women and brave men and their illustrious guests, but fur traders, scouts, militia leaders, and Indians.

After 1849, the chateau was for thirty-five years used for government offices. When the government removed to Ottawa, the city presented the Chateau to the Numismatic and Antiquarian Society for a museum, and as such it is unique. Its collection contains all sorts of things ranging from crude home-made utensils fashioned by the clumsy hands of frontier habitants to portraits done by world-renowned artists.

was revived. The leaders of the Brotherhood Movement came to Canada to confer with the Canadian Brotherhoods. So great was the enthusiasm shown in the Dominion that the leaders went back to England resolved that the dream must become a fact.

In September, 1919, the World Brotherhood Congress was held. Representatives of more than twenty nations were present and addresses were given by David Lloyd George, Lord Robert Cecil, the Bishop of London, Dr. Clifford and many other eminent men. So great was the success that a similar congress is planned to take place in Washington next fall.

To interest the men of Canada in this Congress and to strive to foster brother-feeling between England, Canada and the U.S.A., brotherhood leaders are coming from the old Country and will speak in various churches throughout the Dominion.

One of the most attractive services rendered by the Brotherhood Movement is that of providing relief to the war stricken countries of Europe. For some time Belgium and France received the greater part of this help but for the past two years the war orphans of Serbia have been taken care of. A home in England was founded and a number of children cared for there. Recently it has been

deemed to institute educational farms in Serbia itself and this has already begun.

It is a sticky substance which dries the moment it is applied and is said to simply shrivel the corn without inflaming or even irritating the surrounding tissue or skin. It is claimed that a quarter of an ounce will cost very little at any of the drug stores, but is sufficient to rid one's feet of every hard or soft corn or callus.

The War's Aftermath

Through no fault of their own, six million people, 800,000 of whom are children, are starving to death in Eastern and Central Europe.

Canadians, red-blooded, charitable, humanitarian Canadians of every religion and creed, are asked to join in saving these human lives and in remedying the horrible conditions that now exist.

Here is a Situation where Race, Creed, Nationality---- Nothing Counts Except Humanity

Hunger knows no armistice. Will you, for humanity's sake, help to send relief? Newspaper reports, confirmed by the stories of eye-witnesses who have returned to Canada, have brought into being a Dominion-wide organization which has set one million dollars as Canada's share in a great relief campaign.

Your own individual help is needed to-day as it never was needed before.

Representative men and women in this community will call upon you for a subscription. Let your response be in the measure of your gratefulness that your home is safe—that you and yours live in a land of plenty.

HERE ARE THE FACTS: \$200 will save one child's life for a whole year. \$20 will feed one little girl for a month. 25 cents will buy a boy more food than he has had at any one time during five years. One change of clothes may save a boy or girl from the terrible typhus epidemic which is raging now in Eastern Europe. Poland is crowded with children of eight or ten years old, no larger than infants of a few months, who cannot walk because of lack of food. There are hundreds of thousands of children in Poland, Palestine, Czecho-Slovakia, Lithuania, Rumania, Siberia and the Orient left helpless and homeless by the war. Thousands of them, unable to get in to the already overcrowded orphanages, beg on the streets by day and sleep on the streets by night. And this, but for the Grace of God, might have been the plight of your own little boy or girl.

MRS. DOOLEY'S ADVICE TO WORKING GIRLS

Milwaukee, Wis.—"I wish all girls who work and suffer from functional disorders would profit by my advice and take Lydia E. Pinkham's Vegetable Compound. Before I was married, when I came home from work at night, I would be just worn out with pains which dragged me down. I took Lydia E. Pinkham's Vegetable Compound and it made me feel like a new woman. I can work from morning until night and it does not bother me, and I wish all girls who suffer as I did would try Lydia E. Pinkham's Vegetable Compound. Mrs. H. Dooley, 1185 23rd Street, Milwaukee, Wis.

Working girls everywhere should profit by Mrs. Dooley's experience, and instead of dragging along from day to day with life a burden, give this famous root and herb remedy, Lydia E. Pinkham's Vegetable Compound, a trial. It has overcome just such conditions for thousands of others, and why not for you? For special advice, write Lydia E. Pinkham Medicine Co., Lynn, Mass. The result of their 40 years experience is at your service.

YOUR HOLIDAY THIS SUMMER

Make your reservations early for accommodation in the "Highlands of Ontario" this summer if you do not want to be disappointed. There will be a large influx of tourists from the United States this year and our cousins across the border are picking up the desirable places. Algonquin Park is one of the most attractive of these resorts and the "Highland Inn" (open all year) and Camp Minnesing and Nominigan Camp (open July and August, and probably September) offer most comfortable accommodation at reasonable rates. The hotels are owned and operated by the Grand Trunk Railway. Write N. T. Clark, Manager, Highland Inn, Algonquin Park Station, Ont., for illustrated folder telling you all about it, or apply to any Grand Trunk Agent, or C. E. Horning, D.P.A., Toronto, Ont.

BLOATING IN CATTLE

Gases From Fermenting Foods Create the Trouble.

The Cause and Symptoms of the Ailment Fully Described—Methods of Relief Suggested, Both Simple and Heroic.

(Contributed by Ontario Department of Agriculture, Toronto)

THIS condition, known as Tympanitis, Bloating, Hoven or Blown in cattle, consists of distension of the rumen or paunch with gas. The most common cause is a sudden change from dry food to a liberal supply of green food of any kind, principally the different varieties of clover, and more particularly when the clover is in flower. It frequently occurs from the voracity with which cattle that have been accustomed to dry food consume green fodder. Hence it is more prevalent in the spring than in other seasons. It may result from feeding too freely on green food of any kind, especially on that upon which dew or rain is present, and more particularly when frosted; hence is not uncommon in the fall when cattle are allowed to consume clover, rape, turnip tops, etc., when frosted. Any food that readily ferments, if taken in sufficient quantities to temporarily check digestion, will quickly form gases and cause bloating. It is often a complication in cases of choking, the mechanical impediment in the gullet being the direct cause by preventing escape of gas through that organ. Sudden changes of diet of any kind may cause the trouble, and insufficient secretion of saliva may have the same effect.

While some of the above-named causes usually precede an attack, it is not uncommon to notice a well-marked case for which no well-marked cause can be traced. Such cases are doubtless due to some unsuspected and not well understood temporary derangement of the digestive glands and muscular coat of the rumen. Any condition that causes torpidity of the rumen may cause bloating, even though no change of food of a dangerous nature has taken place. Torpidity of the rumen occurs in debilitating diseases, in fact in most diseases of the ox, and also from the introduction of excessively cold material, as frosted fodder, into the organ.

Symptoms.—The patient exhibits symptoms of pain and uneasiness by lying down and rising frequently, kicking at the belly, etc. Rumination is suspended and food refused. There is general depression, protrusion of the muzzle, projection and congestion of the eyes, increased flow of saliva, and usually pronounced heaving expiration. The back is arched and there is a more or less well-marked swelling of the abdomen, especially marked on the left side between the point of the hip and the last rib. If this be pressed with the finger it will yield, but at once regain its former condition when pressure is relieved. If tapped with the fingers a resonant tympanic or drum-like sound will be heard, hence the name "tympanitis." Distension of the rumen causes forward pressure upon the diaphragm (the muscular partition between the abdomen and lung cavity); hence lessens the space of the lung cavity and causes difficulty in respiration in proportion to the degree of bloating. Death may occur quickly from rupture of the rumen, rupture of the diaphragm, suffocation, or absorption of gases.

Treatment must be directed to remove or neutralize the gases, and prevent the formation of more. It will depend upon the severity of the attack and the degree of distension of the rumen, whether it will be wise to attempt the immediate removal of the gases by an operation, or administer drugs to neutralize the gases. When bloating is not excessive, with little or no danger of death occurring quickly, the administration of any drug that will neutralize the gases may and should be effective.

For this purpose oil of turpentine, commonly called "spirits of turpentine" is probably the best simple remedy. This is given in 2 to 4 oz. doses (a tablespoon holds about ½ oz.) according to the size of the patient and state of distension. This should be mixed with a pint of raw linseed oil. When this cannot be procured, melted butter or lard or new milk answers the purpose well. If necessary the dose may be repeated in one to two hours.

Carbonate of ammonia, 4 to 6 drams, or bi-carbonate of soda, (baking soda) 1 to 1½ oz. in a pint of water, also acts well, but not so surely and promptly as turpentine. It is also good practice to put a hay rope or piece of wood about 2 inches in diameter into the patient's mouth and fasten it there. This facilitates the escape of gas through the gullet.

In cases where bloating is extreme the gases should be removed by mechanical or surgical means. In some cases the passing of a rubber tube down the gullet to the rumen will give immediate relief. When this fails an opening must be made through the skin and coats of the rumen at the most prominent part in front of the point of the left hip. The hair should be clipped off the seat of operation, and it, with the hands of the operator and instruments, disinfected with a 5 per cent. solution of Carbolic acid or one of the coal tar antiseptics. The proper instrument for this operation is a trocar and canula, but when this is not on hand an ordinary pocket-knife can be used and the lips of the wound kept apart to allow escape of the gases.

After bloating has disappeared it is good practice to administer a laxative of about 1 lb. of epsom salts or 1½ pints raw linseed oil, and feed lightly for a few days.—J. H. Reed, V.S., O. A. College, Guelph.

Halifax yesterday had a snowstorm which reached the proportions of a blizzard.

COMMISSIONER HIGGINS HERE TO CONFER ON SALVATION ARMY MATTERS

Com. W. J. Richards, head of the Salvation Army in Eastern Canada and Col. John McMillan, Chief Secretary are conferring with Commissioner Higgins, Chief of Staff and Second in Command of the Salvation Army for the work who arrived in Boston from London, England, recently. Com. Higgins came to America to discuss matters pertaining to Salvation Army affairs in Canada and the United States, with Commander Eva Booth, head of the Salvation Army in the United States and with the Canadian officials. He was for many years Chief Secretary of the United States and recently succeeded Com. Howard as Chief of Staff and

Second in Command. Many matters having any important bearing upon the future policy of the Salvation Army, and its reconstruction work are to be taken up at this meeting and it is expected that on his return Com. Richards will have something to say in regard to the questions affecting the policies to be followed in Canada.

The tercentenary of the Ven. Marguerite Bourgeoise, founder of the Congregation of de Notre Dame, was celebrated Saturday at Montreal.

ASSASSINATION PLOT UNEARTHED IN BUFFALO
BUFFALO, April 17—Threats of bodily injury to John D. Rockefeller Jr., and his possible death, led to the rushing of a police detail of thirty men to the Broadway Auditorium, Thursday night to guard the young

oil millionaire and leader in the Inter-Church movement.
 Mr. Rockefeller was in his room at the Hotel Statler preparing to go to the Auditorium, when the clerk told him he was wanted on the telephone. A man's voice asked whether it was Mr. Rockefeller speaking and then told him that he had called him to warn him against going to the Auditorium as there was to be a concerted attack made against him. The speaker said that the intention was to break up the meeting and get Mr. Rockefeller. He refused to give his name, and said that if he did so it would result in injury to himself. The plan, however, he maintained, was carefully laid and was sure of success.
 Mr. Rockefeller immediately called up desk sergeant William Marmon at police headquarters, who notified his father, Inspector John S. Marmon. An attempt was made to trace the telephone call, but this failed, owing to the call having been made from a public booth.
 After a conference it was decided

to take no chances in the matter and the detail of 30 was immediately rushed to the auditorium and remained on duty throughout the evening. The presence of the bluecoats forestalled any trouble, and Mr. Rockefeller was able to return to his hotel in safety.
REVIVAL STIRS MAN TO CONFESS CHILD MURDER
STEBENVILLE, O., April 17—Harry Miller, twenty-six years old of Akron was held in the Jefferson county jail here after having publicly confessed to the murder of 11 year old Frances South, during a revival service last night at a little church at Beach Bottom, W. Va., near here.
 Miller went to the church altar and with his hands raised he prayed to God to have mercy on his soul for the death of the little girl. He said he found relief in telling all to God.
 Members of the congregation took Miller to Sheriff J. R. Litten, of Brooks county who believes the man to be slightly demented.

BACTERIA IN THE MILK
 Bacteria, Yeasts and Moulds Greatly Influence Milk.
 Most Bacterial Changes Are Hurtful.—How Bacteria Gets Into Milk—How to Prevent Injury to the Milk.
 (Contributed by Ontario Department of Agriculture, Toronto.)
 Bacteria play a very important role in the milk and dairy industry. Practically all the natural changes either good or bad that take place in milk from the time it is drawn until the time it is consumed, or otherwise used, are due to the action of the various species of bacteria that gets into it, though sometimes yeasts and molds are involved.
 If the milk is to be consumed as milk, then most of the changes that take place in it, as a result of bacterial action, are injurious. Exceptions to this are found in the prepared fermented milk, as Kephir, Koumiss and Bulgarian milk; in these, however, the bacterial action is controlled and cultures of certain species of bacteria are added to the milk to bring about the desired changes.
 Everybody knows that if a sample of ordinary milk is kept for a few days, particularly if it is not kept cold, it will sour or become gassy or rropy or putrid. This souring, ropiness, gas production and putrefaction, is brought about by different species of bacteria in the milk. As the changes in the milk which these bacteria produce are injurious and undesirable, everybody who has anything to do with the handling of milk should know how to prevent their occurrence.
 In the ordinary methods of obtaining and handling milk it is impossible to prevent some bacteria from getting into it. With proper care, however, a large percentage of the bacteria that ordinarily get into milk can be prevented from getting in, and with proper handling of the milk the few that do get in can be prevented from producing any marked changes within a reasonable time. It is desirable, then, that those who have to do with the production and handling of milk should know how to prevent, as far as possible, the bacteria from getting into the milk and also how to prevent those that do get in from bringing about the changes which result in the spoiling of the milk.
How Bacteria Get Into Milk
 Unless the cow's udder is diseased very few bacteria are present in the milk as it is drawn, and those that are present are of very little consequence. Thus the bacteria found in raw milk get into it during the milking operations and during the later handling of the milk.
 Bacteria of many kinds are present in large numbers in a dusty atmosphere, on bits of hay, straw, cow hairs, manure, flies, dirty hands, dirty clothes, and in milk pails, cans, bottles, strainers, and other milk utensils that are not thoroughly washed and scalded. Consequently, if we are to keep bacteria out of milk we must prevent the above-named substances from getting into the milk, and we must pay particular attention to the washing and thorough scalding of all milk utensils and in having clean hands and clothes.
 It is generally considered that provided the milk is passed through a strainer when being filled into the cans from the milk pail all the objectionable materials are removed from the milk, as dirt, bits of hay, straw, manure, flies, etc. This is a great mistake as the bacteria which were present on these when they dropped into the milk are washed off into the milk, and these bacteria pass readily through the finest strainers used. Consequently, steps must be taken to prevent these materials getting into the milk.
 1. The atmosphere of the stable must be free as possible from dust during the milking operations. Any feeding, bedding down or cleaning up should be done at least an hour before, or left until after milking.
 2. Cover-top or sanitary milk pails should be used instead of the wide open-top pails.
 3. Doors and windows should be fly screened.
 4. Cows should be kept clean and groomed so that bits of dirt, manure, hairs, etc., shall not fall from the cows' flanks into the pail during milking.
 5. All milk utensils should be thoroughly washed and scalded every time before use.
How to Prevent Bacteria From Spoiling the Milk—Even after all reasonable care has been taken to prevent bacteriological contamination of the milk as outlined above, some contamination will occur, that is, a few bacteria will get into the milk in some way or other. If these are allowed to multiply in the milk they will spoil it.
 The best way to prevent their rapid multiplication in the milk is to chill it immediately in the cooling tank or refrigerator, and keep it cold until used. A small amount of bacterial multiplication will take place, even at refrigeration temperatures, and this will show itself in the condition of the milk in course of time. But milk that has been obtained under clean conditions and has been kept cold should be in excellent condition even after forty-eight hours.
Summary of Milk Contamination Preventive Measures—Prevent dust, cow hairs, bits of hay, straw, and manure, flies and drops of dirty water from getting into the milk during milking operations as outlined above. Thoroughly clean and sterilize all pails, cans, bottles and other utensils. Cool the milk at once down to refrigeration temperature and keep it cool and covered until used.—Prof. D. H. Jones, O. A. College, Guelph.
 Caustic potash rubbed on the skull where the horns will appear will prevent their growth.
 When taking a short cut home from work Saturday Edward Bedford was killed by a G.T.R. train at Galt.

"SALADA" Tea is Pure Tea, Fragrant and of Delicious Flavor, stimulating and refreshing. "Watch for the Name" on every genuine sealed packet.

"SALADA"

27 Years in Public Service.

Growth Shows Desire To Extend Army Work
 Commissioner W. J. Richards, chief of the Salvation Army in Eastern Canada, has completed his fifth year in that capacity. During that time the Army has seen one of its greatest periods of usefulness. This period takes in the "war years." The great war had been under way since August and new problems presented themselves to the organization when he assumed command. These problems required a large measure of initiative to overcome. The task of rendering the highest and most efficient service was shouldered and Canada paid tribute to the success which attended those efforts by over subscribing the amount asked for during the Red Shield Drive.
 Commissioner Richards is a forceful man. He is a man of few words. He believes in doing things. During the five years, more than 11,000 persons are recorded as having sought salvation. Notwithstanding the losses due to war, there are today nearly 2,000 more names on the Membership Roll than there were in this territory five years ago.
 In July, 1915, Canada East was separated from Canada West, the dividing line being Port Arthur. Even in view of this, there are now only forty one fewer officers in active service in the Eastern territory than there were in the combined territories five years ago.
 In the Field Report two very striking indications of financial growth are given. In 1914, the Self-Denial total for the combined territories was \$43,726. In 1919, for Canada East alone, it was \$75,591. Harvest Festival returns have been doubled.
Shows Solid Growth.
 In all the various departments recorded. This shows that as often as humanly possible, every opportunity has been seized for the advancement of every branch of the organization. Inasmuch as every act of service means the welfare of somebody, the same rate of growth has been in position which the Salvation Army occupies today indicates tremendous increase service to the community.
 This service has been rendered under the leadership of Commissioner W. J. Richards. His five years in Canada have been five big years for the Salvation Army in Canada, and give great promise for the future.

ADLER'S 2014-18 Main Street Niagara Falls, N. Y. ADLER'S

ADLER'S DAILY BUYING GUIDE

New Spring Hats Are Reduced
 In Cellophane, in straw, in hair braid and in every medium adapted to their soft folds have these fascinating models been designed. Distinctively and attractively trimmed with lacquered wings, ribbons, fruits and flowers, raffia embroidery in bright Egyptian colorings. Just to see them is to experience an artistic treat. Hats that the followers of the truly smart in fashion will choose for their delightful distinction of style—and you'll find many of these have taken quite a drop in price, such as Hats that were formerly \$25.00 have been marked as low as \$16.50, and others that were \$19.50 are now marked as low as \$12.50. The best numbers will naturally go first, so better be early. Specially marked for Friday and Saturday.

A Special Table of Trimmed Hats at \$7.50
 We could not duplicate last week's phenomenal success—the Hats that sold for less—but we came mighty close to it.
 At \$7.50 you'll find many of the regular stock that that was formerly priced much higher in a group by itself.
 Therein are Trimmed Hats of every description, ever one of the newest of spring modes, many being shown for the first time on this table. When you see them we know you'll be delighted with this money-saving opportunity.

IMPORTANT Street Floor News

Regular \$3.50. Striped Woile. Waists with neat collars and cuffs of white picque, have been reduced to \$2.98.
 A new shipment of Georgetowne Crepe Waists. Many short sleeved models in a wide range of sizes and colorings, with beaded and embroidered fronts, are truly wonderful bargains at \$5.98. And they range upwards in price to \$7.98.
 The New Psngee Waists have arrived to-day. Three styles to choose from now. Two are with collars that can button up close around the neck, being a neatly tailored model with very effective pin tucking, and the other is one of a round neck and short sleeves. The first two styles are priced at \$6.50 and the latter at \$5.98.
 A corset at 98 cents is surely a whiz Bang of to-day. Hardly a price you'd expect to get a corset for to-day, but upon examination you'll surely say, "They are well worth \$1.50 at least."
 Another Corset bargain is that of MILLER'S at \$1.49, a number that is made to sell at \$1.79. You'll find them in the right aisle, rear table.
 Regular \$1 value in drop stitch Lisle Hose. Colors of black, navy, white and gray. Specially priced at 89 cents.
 Bungalow Aprons at \$1.98. Full cut garments of striped percales and a number in plaids, bound very neatly with a white material.
 Another short cut to economy

A Drop in Suit Prices
 At \$34.50—a price almost unheard of for a good suit—for many months. The majority of these are serge, though there are plenty of other favorable mixtures and materials, including colorings of navy blue, gray, sand, tan and pretty combinations.
 In the very latest of spring styles. Box, flare and ripple backs, with just enough silk braid and embroidery; you'll find hardly two alike.
 The woman who appreciates finest in materials and workmanship will go to sleep with the happy thought, "I surely got a bargain," after she has one in her possession.
 At \$27.50 there is a woolen heather Jersey, in jaunty cuts, that is another centre of attraction in the Suit Section.
 And at \$47.50 there are many of the higher priced Suits of Tricotines, principally grouped at this popular price.

CANADIAN MONEY ACCEPTED AT FULL VALUE

ADVERTISE IN THE JOURNAL

In its twenty-six years of public
service, this Dental Office has
never once refused adjustment of
any complaint.

We are human and at times, small
mistakes occur despite every pre-
caution taken. When this does
happen, we honestly admit our
error and lose no time in correct-
ing it.

We mention this merely to demon-
strate that the painstaking care
we give to our patients does not
cease when payment for services
is made, but continues until the
patient is thoroughly satisfied and
pleased.

Accepting us to act as your Dentist
carries with it the full assur-
ance that you will be treated
thoroughly to your liking—in the
most modern ways of Dental
science and at costs that will ap-
peal to you for their moderation.
Until you are satisfied—no Den-
tal service rendered by this office
is considered closed. Our prices are
the lowest. Canadian money ac-
cepted by us at full value for all
Dental work.

Safe and Efficient Home Treatment

Many Weak and Ailing People Who
Have Been Helped Strongly Re-
commend Dr. Williams' Pink
Pills.

There is only one way to build up a
run down system if the blood is
pale and thin. Many diseases are
caused by thin blood. Other diseases
such as influenza, and rheumatism
cause the blood to become thin and
the wasting effect of these disorders
cannot be combated successfully un-
til the blood is restored to its normal
condition.

Pallor, Nervousness, Indistinct
sleeplessness, headaches, dizzy spells,
shortness of breath, palpitation of the
heart, these are a few of the symp-
toms of an anemic blood condition.
Some of them are naturally associ-
ated with thin blood, but the quick-
est way to overcome the mia to make
the blood rich and red.

Dr. Williams' Pink Pills do one
thing and do it well. They build up
the blood increasing the number of
red corpuscles. As this is done the
blood becomes a richer red and is able
to carry more oxygen, the great sup-
porter of human life. As the blood
improves in quality the tissues of the
body are better nourished and the
functions of the body are better per-
formed. The glands of the stomach
are stimulated and the first sign of
improvement is usually a better ap-
petite and better digestion.

Dr. Williams' Pink Pills have been
used for years as a blood-making
agent and system builder with such good
results that in every community
there are many people who are re-
commending this remedy to their
friends and to others who are afflicted.

Here is the statement of one per-
son among thousands who have used
Dr. Williams' Pink Pills to their own
great advantage. Mrs. A. Veniot,
Hemford, N.S. says:—"For about two
years I was a great sufferer from in-
digestion, which seemed to carry with
it a complication of other troubles.
Every meal I took brought with it
misery, as it was followed by pain,
and sometimes nausea and vomiting.
At other times gas would form in the
stomach to such an extent that my
heart would palpitate at an alarm-
ing rate. These conditions brought on
extreme nervousness and irritability
and I found my general health so
much affected, that the least exertion
would tire me and I slept but poorly.
I had been doctoring for several
months with no result beyond slight
temporary relief, when I was advised
by a friend to try Dr. Williams' Pink
Pills. I decided to follow this advice
and got a half dozen boxes. Good re-
sults soon began to show from the
treatment, and the further continued
use of the Pills have made me a well
woman. I can cheerfully recommend
Dr. Williams Pink Pills to similar
sufferers."

The purpose of Dr. Williams Pink
Pills is to build up the blood. They
do this one thing and they do it well.
They are an invaluable remedy in
diseases arising from bad or deficient
blood, as rheumatism, neuralgia, after-
effects of the grippe and fevers. The
pills are guaranteed to be free from
opiates or any harmful drug and can-
not injure the most delicate system.
You can get these pills through any
dealer in medicine or by mail at 50
cents a box or six boxes for \$2.50
from The Dr. Williams' Medicine Co.,
Brockville, Ont.

SPRING FISHING
The season for speckled trout fish-
ing opens May 1st, and for salmon,
and lake trout it is now open and will
be until, October 5th. It is expected
the ice will out of the lakes by the
end of April. Algonquin Park offers

Drinking a Glass of Hot Water is a Splendid Habit

Cleanse and sweeten the system
each morning and wash away
poisonous, stagnant matter.

Those of us who are accustomed to
feel dull and heavy when we arise;
splitting headache, stuffy from a cold
foul tongue, nasty breath, acid stom-
ach, lame back, can, instead, both look
and feel as fresh as a daisy always
by washing the poisons and toxins
from the body with phosphated hot
water each morning.

We should drink, before breakfast,
a glass of hot water with a tea-
spoonful of limestone phosphate in it
to flush from the stomach, liver, kid-
neys and bowels the previous day's
indigestible toxins, thus cleansing,
sweetening and purifying the entire
alimentary tract before eating more
food.

The action of limestone phosphate
and hot water on an empty stomach
is wonderfully invigorating. It cleans
out all the sour fermentations, gases
and acids and gives one a
fine appetite for breakfast. A quarter
pound of limestone phosphate costs
very little at the drug store, but is
enough to make anyone who is both
giddy with biliousness, constipation,
stomach trouble or rheumatism an
enthusiast on internal sanitation.

PROTECTING HUMAN LIVES

The Ontario Safety League con-
tinues to place a large amount of
literature in the hands of motorists,
school children, industrial workers,
and others throughout the Province.
In the first three months of 1926 the
League has distributed an enormous
amount of safety material, including
35,000 industrial safety bulletins; 32,
400 school safety bulletins; 8,500
special bulletins; 8,500 traffic bullet-
tins; 2,700 electric railway bulletins;
150,000 motorist's safety book-marks;
10,200 health bulletins; 6,500 news
letters; 9,000 safety calendars; 12,000
leaflets to the "new man"; 125,000

CATARRH, COLDS AND BRONCHITIS CURED WITHOUT DRUGS

It is really impossible to treat Cat-
arrh, unless by inhaling the soothing
germ-killing vapor of Catarrhazone.
Its rich fragrant essences are
breathed from the inhaler to every
sore, diseased spot in the breathing
organs. Not a single germ can escape
the healing fumes of Catarrhazone
which acts on the infected linings of
the nose and throat just as an antiseptic
would act on a cut finger. You see
Catarrhazone soothes, cleanses,
heals. It cannot fail to reach and cure
Catarrh; it's simply a wonder on deaf
throats, bronchial coughs, weakness,
buzzing ears and all other symptoms
of Catarrhal colds.

Get Catarrhazone today. Complete
outfit, posts \$1.00, is sufficient for
three months use. Smaller sizes 50c.,
all dealers or the Catarrhazone Co.,
Kingston, Ont., Canada.

SEEALED TENDERS FOR COAL
The undersigned and endorsed "Tender
for Coal for the Dominion Buildings,
Ontario and Quebec," will be received
at this office until 12 o'clock noon
Thursday, April 29, 1926, for the sup-
ply of coal for the Dominion Build-
ings throughout the provinces of On-
tario and Quebec.
Combined specifications and form of
tender can be obtained from the pur-
chasing agent, Department of Public
Works, Ottawa, or from the corres-
ponders of the different Dominion Build-
ings.
Tenders will not be considered as
made on the forms supplied by the
Department and in accordance
with the conditions set forth thereon.
Each tender must be accompanied
by an accepted cheque on a chartered
bank payable to the order of the
Minister of Public Works, equal to
10 p.c. of the amount of the tender.
War Loan Bonds of the Dominion will
also be accepted as security, or war
bonds and cheques if required to make
up the odd amount.
By order,
R. C. DESROCHERS,
Secretary
Department of Public Works.
Oatwa, April 3, 1926.

DOCTOR WARD, The Specialist
SPECIALIST IN THE TREATMENT OF NERVOUS CONDITIONS, NERVE EXHAUSTION,
BACKACHE, LUMBAGO, RHEUMATISM, STOMACH AND LIVER TROUBLES, ACNE, SKIN DIS-
EASES, CATARRH, ASTHMA, RECTAL TROUBLES, PILES, FISTULA AND BLOOD CONDITIONS.
The knowledge gained from many years' experience in treating diseases just like yours is of much benefit
to you and assures the ailing man of prompt relief. When a man knows that he is again feeling well—that
he is rid of his ailment—he feels that a heavy load has been lifted from his shoulders. I give every patient
the benefit of the knowledge acquired through the long experience of a graduated, licensed and registered
specialist, in order to bring about the most satisfactory results in the shortest possible time.
NERVE EXHAUSTION
A CONDITION AFFECTING MANY MEN—THE GREAT AMERICAN DISEASE—IT IS BROUGHT ON BY OUR MAN-
NER OF LIVING—OUR WORRY AND HURRY—AMERICAN EXHAUST MORE NERVOUS ENERGY THAN ANY
OTHER RACE OF PEOPLE.
There are a great many men who need treatment for their
nervous system. These men do not know what is the reason they
don't feel right—why they can't work like they used to—why they
tire so easily and why they are irritable, nervous, despondent,
weak, pale and lack ambition. These conditions require the expert
knowledge and treatment of a specialist who has had many
years' experience in just such ailments. A specialist learns by
experience to know just the right treatment at the right time, so
that the patient can be dismissed at the earliest possible time. Men
affected with nervous exhaustion have no endurance—no ambition
—everything they attempt is an effort. Life to them appears as a
long, gloomy future. Their appetite is poor and variable—they be-
come irritable, cross and discouraged. They have pains and aches
in various parts of the body and there is often indigestion and
pains in the stomach. Sleepless, wakeful and restless nights fol-
low.
RHEUMATIC AILMENTS
SCIATICA AND OTHER FORMS OF RHEUMATISM, LUMB-
AGO, PAINS IN BACK, SWELLING, ACHING, PAINFUL
CONDITIONS IN ANY PART OF THE BODY—INFLAMED
AND SWOLLEN JOINTS OF LEGS AND ARMS—MANY
OTHER SYMPTOMS.
Hundreds of men are suffering with some form of Rheumat-
ism. Many of these men go from day to day suffering untold agonies
thinking they cannot be cured. They have tried liniments, rub-
bing, massage, salts and other treatments without experiencing
any relief, and they are now going through life thinking they are
martyrs to that burden called Rheumatism. If these men could
only know how easy it is to get rid of many rheumatic conditions
I know they would not suffer another single day. Then all suf-
ferers of rheumatism would be strong and healthy, if they could
get rid of the condition. Rheumatic patients are nearly all strong
and robust before being attacked by this ailment, and therefore
it is so hard for the man to understand why he should suffer the
agonies of such a condition. When a man gets rid of such a con-
dition he feels that a heavy burden has been lifted from his life, and
he starts right out to make up for lost time both in money and
pleasure. When a man comes to my office suffering with the
above condition he is given a most careful examination, and he is
given treatment that he feels is giving him great benefit.

At all dealers or send postpaid by Fruit-a-lives Limited, Ottawa.

GENERAL NEWS IN BRIEF

(By C. P. R. Telegraph)
Vancouver, B. C.—The February catch of fish in the Fraser river fisheries district is valued at \$3,538,383. This is almost double the catch for the same month last year.

Consul, Sask.—The Imperial Oil Company has filed an oil claim on twenty sections of land south of here along Battle Creek. Wells will be sunk in the spring.

Chicoutimi, P. Q.—Work has been commenced on the erection of the model city of Saguenay by the Price Bros. Company, which will cost about \$20,000,000. It will contain 400 houses at the outset, built of brick and will be electrically heated and lighted.

Huntingdon, B. C.—Sumas Indian Reserve, comprising 160 acres of land watered by the Little-Sumas, has been purchased by the Soldier Settlement Board for soldier settlement and will be divided into four farms.

Winnipeg, Man.—A sale of farm land, amounting to a quarter of a million dollars, was effected recently by Charles Applegate, of Minneapolis, representing a number of Iowa farmers. The land sold is in the Humboldt district, and the purchasers will arrive over the C.P.R. in time to get the seed in this spring.

Toronto, Ont.—Growing conditions in the province are reported on all sides as very favorable, fall wheat being in very good shape and preparations for spring wheat under way. Fruit exporters are optimistic over the season's prospects. Many farms are cleaning hands and wages of farm help has reached the record of from \$600 to 750 per year.

Vancouver, B. C.—The steel freighter, S.S. "War Charger," built by J. Coughlin and Sons, was recently sold to Greek operators for \$1,800,000.

Ottawa, Ont.—It is expected by industries interested that there will be introduced at the present session of parliament legislation permitting private firms to manufacture industrial alcohol. This is at the present a government monopoly and the production is considerably short of the supply, the paint industry among others being badly affected.

Alsask, Sask.—Gold was found in a shallow well on a farm ten miles west of here, and already twenty-five claims have been taken out in the sector. The gold was assayed at Calgary and declared to be the genuine metal. The well is located near an old creek or river bed and is said to be ideally situated for placer mining.

Yorkton, Sask.—Two local men have started a Belgian race farm and secured the nucleus of seven animals from George Rupp of Lampman, famous all over the American continent as a breeder of high-class Belgians. They also purpose bringing stock to the province from the big farms of the United States.

Quebec, P. Q.—Five new agricultural districts have been created in the province for the advancement and further development of modern farming. These districts are supplied with agricultural experts who give advice on all branches of the pursuit and encourage up-to-date farming methods.

Fredericton, N. B.—An insistent demand has been made that a thorough investigation of the possibilities of harnessing the tides at the head of the Bay of Fundy, as a power development proposition, be made. It is believed that with the help of the railways the project could be carried out successfully and some investigation work has been undertaken.

Fredericton, N. B.—The transfer of the crown lands held by the estate of the late Sir William Van Horne a former president of the C.P.R. to the Dalhousie Lumber Co., a subsidiary of the International Paper Co. of New York, has been accomplished. The lands consist of 122 1/2 square miles in Northumberland County, on the serpentine.

Calgary, Alta.—Arrangements have been made by the Belgian government for credits amounting to ten million dollars for the purchase of western Canadian cattle. Since the signing of the armistice, a large trade in livestock has been maintained with Belgium and France.

The Choice of People of Culture

In homes where good books, pleasing pictures and comfortable living express the taste of people of culture, it would be expected that a tea of fine quality would be served.

It was to meet the taste of such people that Red Rose Orange Pekoe Tea was produced.

This extra quality tea consists of mountain grown Orange Pekoes imported from the best tea gardens where unusual care is taken in the selection of the seed, the cultivation of the soil, the plucking of the leaf and the final preparation of the tea for market.

Those who are able and willing to pay an extra price for a very special tea are recommended to try Red Rose Orange Pekoe Tea.

Sold only in our new package—the waxed board carton.

T. H. ESTABROOKS COMPANY, LIMITED

THOUSANDS OF VOLUNTEERS RALLY AROUND STANDARD

NEW YORK, April 17.—Thousands of recruits in New York flocked today to the standard of "General Overall," whose march against the gerilla forces of the High Cost of Clothing started recently in the south gained strength in the west and now has reached the east for decisive battle. The blue denim brigade which had its inception here among members of the Cheese club of dramatic press agents, critics and theatrical writers obtained reinforcement today when 5,000 DeWitt Clinton high school students voted to wear khaki overalls. Then Columbia university endorsed the movement and other schools and business and professional clubs began to fall in line.

TOPEKA, Kan.—A movement to have all the delegates to the Democratic state convention, to be held in Wichita, April 22, wear overalls and

hickory shirts, has been launched by Ed. T. Hackney, State fair Price Commissioner.

WOMEN CAN FORTIFY THEIR HEALTH

With constantly aching backs weary, dragging-down pains, dizzy and nervous headaches, women have a hard burden to carry. It is wise for every woman to fortify herself against those derangements which are present when extra demands are made upon the system by Nature's laws. No better remedy exists for woman's peculiar ailments than DR. HAMILTON'S PILLS, which possess tonic properties that act upon the proper organs at the proper time. To prevent headache, to overcome dragging weariness, backache, nervousness and pallor—to look well, sleep well, eat well and enjoy the manifold blessings of sound, regular health, every girl and woman should regulate her system by Dr. Hamilton's Pills, 25c. per box.

Not to the man who has to move about, but a slight application of "Putnam's" softens the thickest tissue and cures the bunion quickly. Just as good for warts, lumps and cal-

ADVERTISE IN THE JOURNAL

The Telephone Situation

What We Get For the Money!

On January 1st this year our total investment in telephone property—buildings, equipment, tools and supplies, plus what it has cost in actual cash to put this working equipment into service—was \$51,458,306. On the same date we had in operation 337,476 telephone instruments.

This means an investment of \$152 for each telephone instrument in service.

What has been provided for this investment of \$152 per telephone?

Here are some of the things:

An exchange telephone system in thousands of cities, towns and villages in Ontario and Quebec with substantial fire-proof buildings the last word in sanitation and convenience; 36,750 miles of Long Distance wire on 4,500 miles of poles; 587,000 miles of wire in underground cables; many hundreds of miles of wire providing party service to rural communities besides exchange and pole line facilities to give exchange connection to 720 local telephone organizations serving over 103,000 subscribers, mostly farmers.

It takes some 11,600 telephone workers to operate the system and their wages in 1919 totaled \$9,400,000.

This goodly band of faithful workers, with those dependent on them, are a substantial element in the community. They are intimately concerned in its welfare—concerned most of all that the telephone service shall be adequate to its needs. They appreciate, just like the rest of humanity, the kindly co-operation of the public.

TENDERS FOR COAL

TENDERS addressed to the Engineer and endorsed "Tenders for the Dominion Building at Quebec," will be received until 12 o'clock noon April 29, 1920, for the supply of the Dominion Building throughout the provinces of Quebec.

Specifications and form of tender to be obtained from the Engineer, Department of Public Works, or from the caretaker at the different Dominion Buildings.

Recruits will not be considered unless on the forms supplied by the Engineer and in accordance with the conditions set forth therein. Recruits must be accompanied by a check for a charter of Public Works, equal to the amount of the tender. Bonds of the Dominion will be accepted as security, or vouchers if required to make amount.

By order,
R. C. DESROCHERS,
Secretary of Public Works.

THE LOCAL PRINTERS WIN TWO OUT OF THREE IN BOWLING MATCH

The Niagara Falls Gazette ten pin rollers crossed the line Saturday evening and lined up against the team picked from the local printers. Following were the scores:

NIAGARA FALLS		
Foreland	135	141
Felton	126	137
Roy	120	147
Smith	115	143
Foire	140	139

The above score it will be seen that the city team won two out of three and had a total majority of 73 pins.

Quite a crowd were on hand, Jake Moore, accidentally blowing in when some one left the door open. It is said Jake witnessed the rising of the sun yesterday morning for the first time in many years at the close of the banquet.

M'KINNON'S WON FROM THE CITY

OPENING GAME OF THE SEASON WITNESSED BY LARGE CROWD SATURDAY

On Saturday, at the Lacrosse grounds, before one of the largest seen at a football game here in many years, McKinnon's F.C. defeated the St. Catharines F.C. Major Lovelace was on hand and kicked off the ball and the City securing it started a raid on the factory team's goal. It was plain at the outset that they were out to win if possible, but the sterling defence of McKinnons held them back time and again. Then McKinnons forwards took a part in the game and the way they carried the ball along impressed one. At half time the score board was

There is talk of forming an Overall Club in St. Catharines.

"Keeping up With the Joneses" is the hilarious, harmonious attraction at the Grand tonight.

City council will meet tonight in regular session it should be a short meeting as there is little business to come up.

Sunday was a season of joy and gladness to the autoists and hundreds of people were out enjoying themselves in the city and country.

Mr. F. H. Purdy, of Zion City, Ill., is here visiting his relatives, Mr. F. Purdy of this city. He is on his way to Maine.

Those who go to the Grand Opera House to-night will it is said be given excellent entertainment in "Keeping up With the Joneses." The company arrived this morning and the members quartered at the different hotels.

Conflicting reports in London from Russia place wheat available for export at 35,000,000 to 140,000,000 bushels, but railroad equipment is not sufficient to move large quantities. England and other European countries will have to depend on Canada, the United States and other wheat-growing nations.

Announcement of the maximum price for the 1920 crop to be the average of imported wheat of similar quality, provided the price so paid the home grower shall not exceed \$2.89 a bushel. United States imports the Commission reported, were ranging from \$3.04 to \$4.11 or an average of \$3.46 a bushel.

blank, which says quite a lot for the defenses of both sides and especially that of McKinnons as they had to contend with a strong wind.

In the second half it was plain to be seen that McKinnons were away the better team and it was not long before Swain opened the scoring for them and shortly afterwards Gibson made it two up. That finished the scoring and from that time on until the finish of the game the factory boys did not have to extend themselves.

The final score was 2-0 in favor of McKinnons.

KEEPS CHILDREN WELL MAKES THEM ROBUST

Here is Good Advice for the Head of Every Family.

Rapid growth, work at home and in the school room are sure to tax the strength of every child and often prove the beginning of a chain of weakness that lasts through life. Give your sons and daughters a fighting chance! Give them good home surroundings, fortify them with education—but above all else so everything possible to insure for them perfect health in years to come.

In no way can you destroy weakness and build up health so surely as with Ferrozone. It's the concentrated nourishment in Ferrozone that enables it to do so much good. It contains the very elements that are needed in building up bone and sinew in vitalizing and strengthening the blood. The appetite Ferrozone creates will gladden any parents heart and when color, spirits, vim and energy increase day by day then you know what grand work Ferrozone is doing. Because it makes and keeps you healthy and sure to do you enormous good—and your children should use Ferrozone every day. Sold by all dealers in 50c. boxes, six for \$2.50, or direct by mail from the Catarrozone Co., Kingston, Ont.

At Toronto on Saturday night Central "Y" juniors defeated the Stamford High School team of Niagara Falls in the first of the Ontario Basketball Association final games at Central "Y" on Saturday night. The Falls team were beaten by 34 ea 19, but put up a plucky struggle throughout, and are to be congratulated for their showing against a team that man for man was head and shoulders above them in size.

George Walker, formerly a prosperous farmer of West Zorra township but living retired for some years at Ingersoll, died in his eighty-third year.

NOTICE TO CONTRACTORS

Pursuant to the requirements of the Canada Highways Act, separate sealed tenders marked "Tenders for water-bound macadam pavement section..." will be received by the undersigned until 12 o'clock noon on Tuesday, May 11th, 1920, for the construction of three inch water bound macadam pavement on the Provincial Highway between Stoney Creek and St. Catharines in the following sections:

- (1) From mile 5 to 9, a distance of four miles.
- (2) Between mile 9 and mile 14.5, a distance of three and one-half miles.
- (3) Between mile 25 and mile 31, a distance of three and three-quarter miles.

Tenders will also be received at the same time for the construction of a Bituminous macadam pavement on the same section of the highway.

Plans, specifications and forms of tender may be seen on and after Tuesday, April 20th, 1920, at the office of the City Engineer, St. Catharines, the office of the Resident Engineer, Beamsville and at the office of the undersigned.

A marked cheque for \$500 payable to the Minister of Public Works and Highways Ontario is to be attached to each separate tender.

A Guaranty Company's bond for ten per cent of the amount of the tender will be required when the contract is signed.

W. A. McLEAN,
Deputy Minister of Highways,
Department of Public Highways,
Toronto, April 16th, 1920.

Do not forget to file your

Income Tax Return

on or before the 30th of April, 1920.

Domion of Canada
Department of Finance

Warm Engagement W
Lie Was Flung Ab
ner—Ald. Avery C
the Trouble and Re

The City Council fought the battle of the Fire Halls all over again last night and it was a snappy engagement while it lasted. The lie was thrown around promiscuously and there was give and take pretty much around the council board.

The row started when Ald. Rose reported on the situation and the committee moved the council to a committee of the whole on it. The report was as follows:—

"Under authority given to the committee by the Council at the last regular meeting in view of the threatened resignations of the members of the Fire Department, the Committee at once proceeded to take steps necessary to meet the situation."

The Committee met on the next day, the 6th inst. and having the report of the Chief that verbal notices of resignations had been received the Committee arranged for advertisements to appear in the press for applicants for positions on the Brigade and also calling for voluntary assistance.

On the 7th inst, the Committee proceeded with its preparations and commenced to receive applications. The Great War Veterans Association were notified through their Secretary, that applications were being received and that Returned Soldiers applying would receive the preference, and the Secretary was asked to notify the members accordingly. The Committee on the same day through the Mayor received notice that the Deputy Minister of Labor at Ottawa was prepared to assist. but the Committee, being of opinion that no labor trouble or strike was impending, did not feel it necessary to avail themselves of his services. The Underwriters Association were also notified that ample steps were being taken to protect property and man the Department.

The steps taken by the Committee resulted to them being in a position to completely man the Department by new firemen and volunteers at 12 o'clock noon on Thursday 8th inst when the Committee were given to understand the threatened resignations were to take effect.

The written resignations of eight firemen were not received until about 9 a.m. on the 8th inst., two hours before taking effect and it was fortunate the Committee had proceeded to meet meanwhile, and these arrangements themselves were entirely upset when a further conference was asked for by the Mayor and the Committee agreed to meet the local firemen only (no others) at 2 p.m., the resignations were to be suspended until 5 p.m.

The Committee attended at the Fire Hall at noon to notify these reporting for duty of the delay, where the ground that attempts were being made to picket and prevent new firemen entering the Hall.

At 2 p.m. the Committee met at the City Hall, when instead of the local firemen attending to confer, they were accompanied by a stranger, and this not being in keeping with the arrangements made, no conference resulted as the local firemen refused to deal with the Committee alone. A special meeting of the Council ensued at 8 p.m. and did not conclude until 5 p.m. with the Committee on having an hour to make new arrangements to man the Fire Halls at 6 p.m. when the resigning firemen left.

From the time the resignation finally took effect, the Central and Lake Street Fire Halls have been completely manned by new firemen and

WE DO NOT DISCOUNT CANADIAN MONEY

CHAMPIONSHIP TO BE DECIDED HERE

(Continued from page 1)

Other members of the Garden Cities would have preferred the \$300 per side.

Both teams have got down to real hard work again. Sam Kearns was out Friday night but was away off color. Purdy, Shaw and Thompson worked out Saturday evening. The latter has been showing splendid form and some of his "pickings" for spares were marvellous.

Burgess, too, has his team well in hand. Saturday afternoon they had a splendid practice game. According to record not a man went over the foul line and a number of double centuries were rolled. Harry Rule, "Bud" Hagen and Slight are working out with the boys, while Cambay will likely put in an appearance tonight.

BOTH BY-LAWS PASSED

Port Dalhousie on Saturday passed its two by-laws with big majorities. One was for \$120,000 for a water-works system.

The second was to fix the assessment of the Maple Leaf Rubber Co. at \$160,000.
