"Madonnas and Men," the massive

photodramatic sensation of modern management, and as advertised, will be shown on Monday. It is a picture of fine sentiment and high ideals, ascinating compound of spiritual dark centuries long passed which takes on new meaning in the clear light of the modern day. Into this dream-like fantasy there is woven an up-to-date motive in favor of splendid womanhood. It is a dream setting forth some of the truest sort of truths, but in an entertaining sort of way. The play's the thing; the eternal play that eases our hearts with the triumphs of light over darkness. It's Flavor that Makes the Meal!

It may be eggs, or macaroni, or a cheap cut of meat—an unusual and delicious sauce will make it something you eat with delight and remember with pleasure-because of its flavor.

LIBBY'S CATCHUP and CHILI SAUCE are made from red, ripe tomatoes, grown in the fertile soil of Kent County, Ontario, picked when they are mellowed by the sunshine of long summer days, then rushed to the nearby Libby kitchen.

Here in sunny rooms the tomatoes are cooked with fragrant spices, onions, sugar and the best vinegar—cooked for hours until all the flavors are blended through and through.

Now the sauce is ready to give an appetizing relish to your steaks and chops, or a new piquancy to the meat gravy you serve with

Your grocer has, or can get you, Libby's Catchup or Chili Sauce. Use it with your cold meat teas and note how quickly the second helping is necessary.

> The delightful flavor of Libby's Beans is due largely to the wonderful Sauce prepared by the skilled chefs. Have you tried them?

A Word of Advice.

Recently a number of Newfoundlanders who year after Among our ancient mountains year have been engaging in the year have been engaging in the Oh, let the prayer re-echo "God Bless the Prince of Wales." England seaports in United States schooners, experienced a severe shock. They were turned back at the border and not permitted to enter upon United States territory. With them were many others from this country who intended seeking employment on shore in the various manufacturing centres. There were also a contingent of Nova Scotians on similar purposes bent. These did not fare any better at the hands of the United States immigration officers than did the Newfoundlanders. All were refused admission to the territory of the Great Republic. It did not matter whether or not they had them or to apply for work, and ods are more forcible than polite, ere they are permitted to pass the well guarded line and Improvements to put their feet upon the soil of the land of the free.

In its zeal to prevent undesirables from becoming part of greatly improved by the addition of a its population, United States has gone rather farther than the limit of international courtesy, but as its soil is its own, it has the right to do as it pleases with regard to the entrance of persons whom it does neither want nor welcome. Hence the latest winter months.

WALT MASON me, and will not be denied. I've sold you cheese and honey, and marked it on the slate, and now I need the money, so pay me on that date." On Saturday 'twas raining, the streets were full of mud, and bitter winds, complaining, chilled every mortal's blood. And I had pains rheumatic that sizzled in my back, so I was not ecstatic o'er going from my shack. My aunts assembled round me and said I was a sap; the bitter storm would pound me and wash me from the map. "The grocer won't expect you to come on such a day, and when the storm has wrecked you, remember what we say." I said, "This J. H. Thomas expects his ninety cents: I gave my sacred promise, so cease your wild laments. Then through the mud a-hiking. I slithered up the road, and as the clocks were striking I paid up what I owed. And Thomas told the story to merchants here and there, and now I live in glory, my stand-off passing

Its removal to Philadelphia will be a huge engineering endeavor, for it weighs more than eight tons, and will have to be transorted across the jungle and carried considerable distance by train be fore it reaches its ship. It stands to-day amid the great ruins of an ancient civilization, far in the interior of Guatemala, near what was once a great Mayan temple. It is one massive block of sandstone and will have to be taken five miles on sledges to the nearest railway. A special car does reach the United States it is ex pected that an intensive study of the figures upon it and the inscriptions so carefully cut, will lead to their deciphering, so that we may at least learn precisely who built this great sphinx and when it was erected, and perhaps find in it the solution of the

A study of this and other Mayan nonuments has led a number of scientists to the conclusion that it is more than probable that in these nonuments there is proof that the Egyptians discovered America thousands of years before Columbus, and that there was an extensive settlement of ancient Egyptians in all of what is now Central America and Mexico, where these most ancient nonuments are now found.

Good Luck Mice.

If you happen to glimpse a pretty girl sitting in apparent unconsciousness of a mouse that is half-way up her silk-stockinged leg, don't go into any conniption fits over the matter yourself. Perhaps you haven't heard that good luck mice are the very latest fad in Paris. They are cunning little things made of ivory and are as natural as nature can be, and look exactly like live white mice hurrying along with their long tails curveting behind them. The little mouse can be attached to any part of the cosances and never misses. There is no tume, but, of coures, a black silk greater natural miracle in the world stocking gives it the most startling The palolo is a species of marine for the palolo keeps both solar and and striking background effect. Only Sleep "If I Could

LEEP is the greatest of nerve restoratives. But unfortunately when the herves are greatly excited or exhausted you cannot sleep, and nervous energy is wasted at a terrible rate by day and by night.

Dr. Chase's Nerve Food does not produce sleep in a narcotic way, but it does overcome sleeplessness by restoring the vigor and vitality of the nervous system.

For this reason it is Nature's greatest aid in restoring health and vigor to a worn-out, nervous system, no matter whether this condition is the result of overwork, worry or disease.'

This well-known nerve restorative has made more

friends through its ability to overcome sleeplessness than perhaps for any one reason There is no keener misery han inability to sleep and the added worry of knowing

that you are fast become

a bankrupt so far as phys

cal and nervous energy concerned. Should you be so tunate as to suffer from sleeplessness and symptoms of nervous ex haustion you will appreciate to the full the gentle potent power of Dr. Chase Nerve Food as a means building up the nervous sy

I had smothering spells and would have to be fanned for hours at a time, and the pain at my heart was so severe that I would think that every minute would be my last. My heart would beat so fast that I could not count the beats, and would then stop altogether and my breath would become so short that I would sink away in fainting spells.
