In New York it was found that where the most perfect system of plumbing was used, or in other words, where the escape of foul gases in houses was least, the death rate was wonderfully small. This is the more remarkable when it is considered that the observations of the state of the state

These two mighty war lords could win great names in history very easily. Instead of making Usedom the scene of a vast puppet show they might land there with a few friends and newspaper reporters and engage in mortal combat, previously agreeing to let that struggle settle their differences and notifying the other powers of Europe of that agreement. They might thus avert a great war with all its slaughter, expense and thousand woes. These two are the right men to fight, for the quarrel is Mathedist Church, McCaul-street.

Instead pense and thousand woes. These two are the right men to fight, for the quarrel is theirs and they alone know why they hate each other. But no—war lords though they be—it is cheaper blood than theirs they purpose spilling and in the conflict, when it comes their crowned heads will do the thinking at a safe distance. In marching with their armies along the path that leads to glory or armies along the path that leads to glory or the grave, they will take the glory and give

tell the country that further investigation was headed off by brute force. A trumpery No article takes hold of Blood Disease was headed off by brute force. A trumpery charge was best suited to this purpose—an old charge, clothed in new suspicion and insinuation—one that such men as Sir John Thompson would know to be shallow and partizan, and which would occupy the time of Parliament to no purpose, and one which of Parliament to no purpose, and one which they therefore would not hesitate to oppose. The Section B. matter was decided upon—it was held up for the Government to knock lown, and down it was promptly knocked. Auto-Voce School for Stammerers, Jarvis-

And he is liable to the Jesuit to do it, for he is a Warwick who need not palter with jobs and party tri cks. Yet, while Grit praise is being showered about him in the hope that he will condemn the Government somehow for something, he voluntarily rises in his place and defines Mr. Lister's request for another investigation as senseless, useless and factious altogether. He holds with Sir John Thompson that although a third investigation might establish what two previous cases had not done, namely, that John Hag-

If Mr. Lister should make good his case h would simply have created a text for campaign speeches, but in being denied a chance to put his case he has secured a campaign cry that suits his party better. And the time of Parliament was not wasted in idle research

At the opening of the syster season we are glad to be able to offer a really magnificent Chablis—the oyster wine—at the low price of eleven dollars per case. The Woodbine Races, to-morrow, are hardly up to expectations and show a great falling off of the good card generally furnished by the club. This is no doubt due to the fact that the meeting lasts but one day. It is hardly to be expected that the womers would bring their horses any great distout one consuct a short period of racing, as the money offered would not be sufficient to cover expenses, even though they should win. The list, however, will likely furnish some fair sport, though the two handicap races are practically walk-overs for Bullfinch and Hercules. If they falled to do their duty it was as a man with a magnaminous nature who had paralyzed a magnaminous nature who had paralyzed arms. All that was necessary was live active workers who should labor with expectation of Christ coming. Miss Sheppard also spoke at the meeting, after which the election of officers was proceeded with and resulted as follows: President, W. H. Howland; first vice president, M. Dr. Simpson opened the evening meeting with an address. He felt that there was an obligation to send the Gospel into the world and showed how nobly Paul worked with none of the advantages of modern inventions. Hudson Taylor says: "Give us 1000 men and we will evangelise China in six years." The speaker believed that if the world was evangelised by 1900 the Son of Man would come by 1900. of gross immorality.

Mr. McIntyre writes:
In regard to my sin, of which public mention has been made, I ask the forgiveness of any against whom I have sinned, for the sake of Jesus, who is "exalted to give repertance and remission of sins." I acknowledged all to God and He has been my helper. I grieved His spirit, sinned against love and light, and deserved His just displeasure; but His mercy is great above the heavens in Christ Jesus.

I now see more fully the necessity and unspeakable efficacy of the sacrifice of Christ for sin on the one hand and on the other the deceitfulness and wiles of Satan, together conspiring to secure my fall, when my heart and sont were not fully set upon Jesus and His glory. Hitherto I believed, but now specially do I realize, that to stand in the presence of Jesus is safety, purity, peace and power.

And by His grace in the shadow of His wings I will abide, and in time to come, as a sinner saved by grace, "through good report and evil report," by a holier life, I purpose to set forth the praises of His redeeming grace, and love, holiness and majesty of His name.

By His grace and for His glory through duty to make this acknowledgment before angels and man, in token of sorrow of God Mr. McIntyre writes:

The market was not so active to-day and prices were without much change. There was a considerable failing off in receipts. Rennett, Hopkins & Co. to R. Cochran: The market, in imitation of cables, has worn an air of indecision all day and closes just where it did in the control of the control ndecision all day and closes just where it du pesterday. Exporting houses complain of a lack for orders, and more talk is heard concerning the resale of cargoes taken for export. Lake freights have declined \( \frac{1}{2} \) c since yesterday, but up to the close of 'change not a single wheat charter had been reported. Receipts in the Northwest show an increase, likewise at Kansas City. Foreigners are less eager to buy, while our stooks are rapidly increasing. If these conditions continue but one outcome seems possible to lower prices. STEAMER "LAKESIDE" prices.

Counselman & Day to J. J. Dixon & Co.: This proved to be an off day on 'Change. Cables were dull and steady, Dec. wheat had 'sc range each way and closed unchanged; corn 'declined 1%c for Oct., but recovered on buying to fill short sales, traders being influenced by lighter estimated receipts. Late futures were sluggish and closed bower under efferings by receivers. Provisions were dull and pork at one time rallied 10c on local buying to cover short sales made yesterday, but excess of offerings to unload holdings for outside account caused a late decline, and previse closed heavy, with prospects of further On and After MONDAY,

Henry Allen to J. J. Dixon & Co.: Mr. Got as been giving the street one an old-time razza azzle to-day. Missiouri Pacific dividend has be has been giving the street one an old-time razzledazzle to-day. Missiouri Pacific dividend has beenpassed and jags of stocks were thrown on the
market to depress quotations. Mr. Gould has for
some time been credited with being short of
market. There have been vigorous denials but
to-day's market disposes of all such tafk. Market closed with a rattling bear raid carrying
almost every stock on list downward. The Gould
hand was discernible in many quarters. There is a
current belief, or hope rather, that Mr. Gould is
doing all this campaigning in order to accumulate stocks. People who made that guess early in
the day repented their confidence later. Paper
profits have been wiped out wholesale. To-day is
the anniversary of Black Friday.

EPPS'S COCOA BREAKFAST.

"By a thorough knowledge of the natural laws which govern the operations of digestion and nutrition, and by a careful application of the fine properties of well-selected Cocoa, Mr. Epps has provided our breakfast tables with a delicately flavored beverage which may save us many heavy doctors' bills. It is by the judicious use of such articles of diet that a constitution may be gradually built up until strong enough to resist every tendency to disease. Hunareds of subtle maiadies are floating around us ready to attack wherever there is a weak point. We may escape many a fatal shaft by keeping ourselves well fortified with pure blood and a properly nourished frame."—Civil Service Gazette.
