Technical and Bibliographic Notes/Notes techniques et bibliographiques

The Institute has attempted to obtain the best original copy available for filming. Features of this copy which may be bibliographically unique, which may alter any of the images in the reproduction, or which may significantly change the usual method of filming, are checked below.

L'Institut a microfilmé le meilleur exemplaire qu'il lui a été possible de se procurer. Les détails de cet exemplaire qui sont peut-être uniques du point de vue bibliographique, qui peuvent modifier une image reproduite, ou qui peuvent exiger une modification dans la méthode normale de filmage sont indiqués ci-dessous.

- Coloured covers/  
Couverture de couleur
- Covers damaged/  
Couverture endommagée
- Covers restored and/or laminated/  
Couverture restaurée et/ou pelliculée
- Cover title missing/  
Le titre de couverture manque
- Coloured maps/  
Cartes géographiques en couleur
- Coloured ink (i.e. other than blue or black)/  
Encre de couleur (i.e. autre que bleue ou noire)
- Coloured plates and/or illustrations/  
Planches et/ou illustrations en couleur
- Bound with other material/  
Relié avec d'autres documents
- Tight binding may cause shadows or distortion  
along interior margin/  
Le reliure serrée peut causer de l'ombre ou de la  
distortion le long de la marge intérieure
- Blank leaves added during restoration may  
appear within the text. Whenever possible, these  
have been omitted from filming/  
Il se peut que certaines pages blanches ajoutées  
lors d'une restauration apparaissent dans le texte,  
mais, lorsque cela était possible, ces pages n'ont  
pas été filmées.
- Additional comments:/  
Commentaires supplémentaires:

- Coloured pages/  
Pages de couleur
- Pages damaged/  
Pages endommagées
- Pages restored and/or laminated/  
Pages restaurées et/ou pelliculées
- Pages discoloured, stained or foxed/  
Pages décolorées, tachetées ou piquées
- Pages detached/  
Pages détachées
- Showthrough/  
Transparence
- Quality of print varies/  
Qualité inégale de l'impression
- Includes supplementary material/  
Comprend du matériel supplémentaire
- Only edition available/  
Seule édition disponible
- Pages wholly or partially obscured by errata  
slips, tissues, etc., have been refilmed to  
ensure the best possible image/  
Les pages totalement ou partiellement  
obscurcies par un feuillet d'errata, une pelure,  
etc., ont été filmées à nouveau de façon à  
obtenir la meilleure image possible.

This item is filmed at the reduction ratio checked below/  
Ce document est filmé au taux de réduction indiqué ci-dessous.

10X	14X	18X	22X	26X	30X
<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
12X	16X	20X	24X	28X	32X

The copy filmed here has been reproduced thanks to the generosity of:

Harold Campbell Vaughan Memorial Library  
Acadia University

The images appearing here are the best quality possible considering the condition and legibility of the original copy and in keeping with the filming contract specifications.

Original copies in printed paper covers are filmed beginning with the front cover and ending on the last page with a printed or illustrated impression, or the back cover when appropriate. All other original copies are filmed beginning on the first page with a printed or illustrated impression, and ending on the last page with a printed or illustrated impression.

The last recorded frame on each microfiche shall contain the symbol  $\rightarrow$  (meaning "CONTINUED"), or the symbol  $\nabla$  (meaning "END"), whichever applies.

Maps, plates, charts, etc., may be filmed at different reduction ratios. Those too large to be entirely included in one exposure are filmed beginning in the upper left hand corner, left to right and top to bottom, as many frames as required. The following diagrams illustrate the method:

L'exemplaire filmé fut reproduit grâce à la générosité de:

Harold Campbell Vaughan Memorial Library  
Acadia University

Les images suivantes ont été reproduites avec le plus grand soin, compte tenu de la condition et de la netteté de l'exemplaire filmé, et en conformité avec les conditions du contrat de filmage.

Les exemplaires originaux dont la couverture en papier est imprimée sont filmés en commençant par le premier plat et en terminant soit par la dernière page qui comporte une empreinte d'impression ou d'illustration, soit par le second plat, selon le cas. Tous les autres exemplaires originaux sont filmés en commençant par la première page qui comporte une empreinte d'impression ou d'illustration et en terminant par la dernière page qui comporte une telle empreinte.

Un des symboles suivants apparaîtra sur la dernière image de chaque microfiche, selon le cas: le symbole  $\rightarrow$  signifie "A SUIVRE", le symbole  $\nabla$  signifie "FIN".

Les cartes, planches, tableaux, etc., peuvent être filmés à des taux de réduction différents. Lorsque le document est trop grand pour être reproduit en un seul cliché, il est filmé à partir de l'angle supérieur gauche, de gauche à droite, et de haut en bas, en prenant le nombre d'images nécessaire. Les diagrammes suivants illustrent la méthode.

April	27
May	1
Trinity	14
Ascension	27
Advant Sunday, Novemb.	30

for the Year 1788.

On the 27th Day of June in the Morning  
 in Long. 12° 10' 35" E. Lat. 14° 41' 30" N  
 the Sun will be visibly eclipsed at London if  
 the Moon be observed 3° 59' on the Sun's  
 Disk. The Eclipse ends at London, about five Mi-  
 nutes past noon in our visible Horizon; but the Pa-  
 rallel will be so great, during the Eclipse as to pre-  
 vent the Moon's covering this Part of the Earth.  
 The Eclipse will be on the 27th Day of November, 8 20th  
 in Long. 6° 10' E. Lat. 9° S. ☉ will  
 be on the Meridian at 1h. 50m. in Long. 93°  
 and Lat. 10° 30' South.

of the PLANETS explained.

☉ Mass  
 ♃ Jupiter  
 ♄ Saturn

or any other Planets ascending Node,

or Planets being in the same Longitude,  
 or Planets being in opposite Longitudes, or  
 Signs from each other.

Signs of the ZODIAC.

1788.

III. MARCH, hath XXXI.

TO me thy better Gifts impart,  
 Each moral Beauty of the Heart,  
 By studious Thought refin'd;  
 For Wealth — the Smiles of glad Content,  
 For Pow'r — it's amplest, best Extent,  
 An Empire o'er my Mind.

V. M A Y, hath XXXI.

BY thee protected, I defy  
The Coxcomb's Snaer, the stupid Lie  
Of Ignorance and Spite ;  
Alike contemn the leaden Fool,  
And the painted Ridicule  
Of undeserving Wit.

Envy, Hurry, Noise, and Strife,  
 The dull Impertinence of Life  
 In thy Retreat I rest;  
 Pursue thee to the peaceful Groves,  
 Where Plato's sacred Spirit roves,  
 In all thy Splendor drest.

HE bade th'ful tuneful Stream,  
 Convey thy philolophic Theme;  
 Of perfect, fair, and good;  
 Attentive Athens caught the Sound,  
 And all her list'ning Sons around,  
 In awful Silence stood.

AUGUST, hath XXXI. Days, 1788.

RECLAIM'D her wild licentious Youth,  
 Confess'd the potent Voice of Truth,  
 And felt it's just Controul;  
 The Passions ceas'd their loud Alarms,  
 And Virtue's soft persuasive Charms,  
 O'er all their Senses stole.

IX. SEPTEMBER, hath XXX. Days.

THY Breath inspires the Poet's Song,  
 The Patriot's free, unbiass'd Tongue,  
 The Hero's generous Strife;  
 Thine are Retirement's silent Joy's.  
 And all the sweet engaging Tye  
 Of still domestic Life.

**OCTOBER; hath XXXI. Days, 1788.**

No more to fabled Names confin'd;  
 To the supreme, all-perfect Mind,  
 My Thoughts direct their Flight;  
 Wisdom's thy Gift; and all her Force,  
 From the deriv'd eternal source  
 Of intellectual Light!

XI. NOVEMBER, hath XXX. Days.

O lend her sure, her steady Ray,  
 To regulate my doubtful Way,  
 Through Life's perplexing Road,  
 The Mists of Error to controul,  
 And through it's Gloom direct my Soul,  
 To Happiness and good.

IN DECEMBER, hath XXXI. Days, 1788.

BENEATH the clear discerning Eye,  
 The visionary Shadows fly,  
 Of Folly's painted Show;  
 She sees through ev'ry fair Disguise,  
 That all but virtue's solid Joys,  
 Are Vanity and Wee.

AN ACCOUNT OF BUOYS,

Given for the better Guidance of Ships, sailing in and out of  
Halifax Harbour.

Where placed,	Depth of Water.	Colour of the Buoy.
Litchfield Rock —	15 Feet,	White,
Mars Rock —	21 —	Ditto
Between Chedabucto and the Litchfield Rock,		
Point Pleasant Shoal, the S. E. part of it,	22 —	Ditto
Shoal between Cornwallis and George's Island	30 —	Red,

The following is extracted from the GENTLEMAN GARDNER'S  
DIRECTOR, for the Benefit of those, who are desirous to graft  
and lay in FRUIT TREES, &c.

**TONGUE-GRAFTING**, or a Way of grafting in Roots,  
is thus: The Root is cut sloping about an Inch in Length, and  
the Graft as much, both very smooth; then each being cleft an  
Inch in Length also, they are made to enter into one another, so  
that the Sap of the Graft may join to that of the Root as much as can  
be. Lap the jointed Part about with a little Hemp or Flax Hurds,  
and set the Roots so grafted into the Ground, about 10 or 12 In-  
ches, so, at least, that the Joint may be 4 Inches covered under the  
Earth, and may not be bared at any Time, but kept moist by the  
Earth. The Root you graft on may be of an Apple or Pear-Tree,  
about 6 Inches long; it should not be less than the Graft, but it  
may be bigger, but it is best when they are both of a Size.

**Laying of Trees.** This Operation is performed by taking a Bough  
and laying it into the Ground about six Inches deep, in good fresh  
Mould, letting the Top stand about 14 or 16 Inches above the  
Ground, and keeping the Layers moist during dry Weather: In 8  
or 10 Months Time they will take Root. Others cut a Slit in the  
Layer as in Carnations, then peg down: Others twist the Layer  
the Place that is to be covered, like a Withy; and peg down  
the earth. Evergreens are laid in August; other Trees in

At M  
At HALIF

branches, if the Pears are of a large Sort, lay seven or eight  
under; if of a small Kind, five or six.  
They blossom first at the End of the preceding Year  
if those are shortened, the Blossom Buds will be taken

At ANNAPOLIS,

**PEAR - TREE** is raised by *grafting* on *any* Stock; *Dwarfs* for Walls or *Espaliers*, or on *any* Stock, *Black Harts*, or the *small bitter early Cherry Stock*. *Cherry-Stocks* are set in *November* on a *Bed* in your *Nursery*. The *Time of Grafting* is the latter End of *January*, and all *February*; or by *Inoculation* in *June*.

*Cherry-Trees*, if planted against a *Wall*, should be placed *14 Feet* *apart*, and some plant a *Standard* between each *Dwarf*, they being *Dwarfs* that are set against the *Walls*, for the most Part.

In *pruning* these *Trees*, never shorten the *Shoots*, because most of the *Fruit-Buds* are on them; lay the *Branches* along the *Wall* horizontally, and, what *Vacancies* are thereon, endeavour to make up in the *Month of May*; and in that *Month* displace all *fore-shooting Branches*: for those, if permitted to grow till *Winter*, will rob the bearing *Branches* of their due *Nourishment*: It is better to break off those *Fore-shoots*, than to cut them; because *Cherries* are apt to gum when cut, and bear the *Knife* the worst of any *Fruit-Tree*.

If you would plant *Holts* of these *Trees* only, let the *Places* be defended from the *Westerly Winds*, which are strong, and apt to break their *tender Branches*; this occasions them to gum, and is very *prejudicial* to them.

*Authors* inform us, that *Cherry-Trees* were brought first into our *Kingdom*, in the *Year* of our *Lord 55*.

The *Soil* that *Cherry-Trees* flourish best in, is a *Flesh Hazel* *foamy Soil*; but in a *gravelly Soil*, and a *wet one*, they will not continue long.

**PEAR - TREES** have the same *Culture* as *Apples*, only are grafted sooner by a *Month*, on *Pear-Kernel Stocks* or *Suckers*, and will prosper in *stony, hungry, gravelly Lands*, where *Apples* will not.

You may also bud *Pears* on *Free-Stocks*, or upon *Quince Stocks*, or *White-Thorn*; but *Free-Stocks*, or *Stocks* procured from the *Suckers* of old *Pears*, are the best.

*Pears* against *Walls* or *Espaliers* should be at *twelve Feet* *Distance* or more. Those that are set for *Standards*, seven or eight *Yards* or more.

The best *Time* of *pruning* of these is from the *Beginning of November* to *Candlemas*.

The first *Summer*, they are to be trained to the *Wall* *horizontally* as you can, but shorten no *Shoots*; then do it in *Winter* to leave five or six *Eyes* on the *woody Branches* to the lower Part.

out of  
Bugs.
