Technical and Bibliographic Notes/Notes techniques et bibliographiques

The Institute has attempted to obtain the best original copy available for filming. Features of this copy which may be bibliographically unique, which may alter any of the images in the reproduction, or which may significantly change the usual method of filming, are checked below.

L'Institut a microfilmé le meilleur exemplaire qu'il lui a été possible de se procurer. Les détails de cet exemplaire qui sont peut-être uniques du point de vue bibliographique, qui peuvent modifier une image reproduite, ou qui peuvent exiger une modification dans la méthode normale de filmage sont indiqués ci-dessous.

- Coloured covers/  
Couverture de couleur
- Covers damaged/  
Couverture endommagée
- Covers restored and/or laminated/  
Couverture restaurée et/ou pelliculée
- Cover title missing/  
Le titre de couverture manque
- Coloured maps/  
Cartes géographiques en couleur
- Coloured ink (i.e. other than blue or black)/  
Encre de couleur (i.e. autre que bleue ou noire)
- Coloured plates and/or illustrations/  
Planches et/ou illustrations en couleur
- Bound with other material/  
Relié avec d'autres documents
- Tight binding may cause shadows or distortion along interior margin/  
La reliure serrée peut causer de l'ombre ou de la distorsion le long de la marge intérieure
- Blank leaves added during restoration may appear within the text. Whenever possible, these have been omitted from filming/  
Il se peut que certaines pages blanches ajoutées lors d'une restauration apparaissent dans le texte, mais, lorsque cela était possible, ces pages n'ont pas été filmées.
- Additional comments: [Printed ephemera] [4] p.  
Commentaires supplémentaires:

- Coloured pages/  
Pages de couleur
- Pages damaged/  
Pages endommagées
- Pages restored and/or laminated/  
Pages restaurées et/ou pelliculées
- Pages discoloured, stained or foxed/  
Pages décolorées, tachetées ou piquées
- Pages detached/  
Pages détachées
- Showthrough/  
Transparence
- Quality of print varies/  
Qualité inégale de l'impression
- Includes supplementary material/  
Comprend du matériel supplémentaire
- Only edition available/  
Seule édition disponible
- Pages wholly or partially obscured by errata slips, tissues, etc., have been refiled to ensure the best possible image/  
Les pages totalement ou partiellement obscurcies par un feuillet d'errata, une pelure, etc., ont été filmées à nouveau de façon à obtenir la meilleure image possible.

This item is filmed at the reduction ratio checked below/  
Ce document est filmé au taux de réduction indiqué ci-dessous.

10X	14X	18X	22X	26X	30X
<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
12X	16X	20X	24X	28X	32X

The copy filmed here has been reproduced thanks to the generosity of:

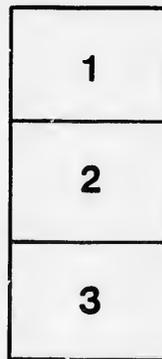

D. B. Weldon Library  
University of Western Ontario  
(Regional History Room)

The images appearing here are the best quality possible considering the condition and legibility of the original copy and in keeping with the filming contract specifications.

Original copies in printed paper covers are filmed beginning with the front cover and ending on the last page with a printed or illustrated impression, or the back cover when appropriate. All other original copies are filmed beginning on the first page with a printed or illustrated impression, and ending on the last page with a printed or illustrated impression.

The last recorded frame on each microfiche shall contain the symbol  $\rightarrow$  (meaning "CONTINUED"), or the symbol  $\nabla$  (meaning "END"), whichever applies.

Maps, plates, charts, etc., may be filmed at different reduction ratios. Those too large to be entirely included in one exposure are filmed beginning in the upper left corner, left to right and top to bottom, as many frames as required. The following diagrams illustrate the method:

L'exemplaire filmé fut reproduit grâce à la générosité de:

D. B. Weldon Library  
University of Western Ontario  
(Regional History Room)

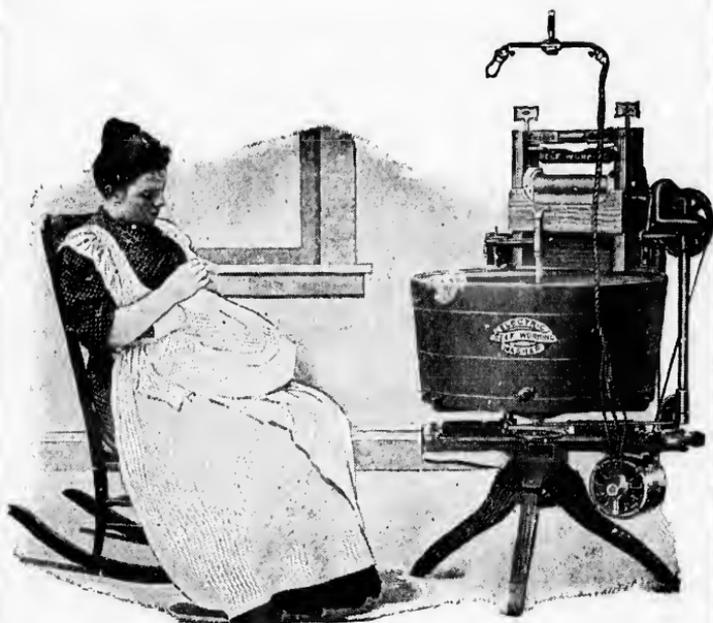

Les images suivantes ont été reproduites avec le plus grand soin, compte tenu de la condition et de la netteté de l'exemplaire filmé, et en conformité avec les conditions du contrat de filmage.

Les exemplaires originaux dont la couverture en papier est imprimée sont filmés en commençant par le premier plat et en terminant soit par la dernière page qui comporte une empreinte d'impression ou d'illustration, soit par le second plat, selon le cas. Tous les autres exemplaires originaux sont filmés en commençant par la première page qui comporte une empreinte d'impression ou d'illustration et en terminant par la dernière page qui comporte une telle empreinte.

Un des symboles suivants apparaîtra sur la dernière image de chaque microfiche, selon le cas: le symbole  $\rightarrow$  signifie "A SUIVRE", le symbole  $\nabla$  signifie "FIN".

Les cartes, planches, tableaux, etc., peuvent être filmés à des taux de réduction différents. Lorsque le document est trop grand pour être reproduit en un seul cliché, il est filmé à partir de l'angle supérieur gauche, de gauche à droite, et de haut en bas, en prenant le nombre d'images nécessaire. Les diagrammes suivants illustrent la méthode.

**100 Per Cent. in Annual  
Dividends on Your  
Investment**

**“ She sits and sews  
While the Washer goes.”**

THE hardest work that a woman has is washing.

No matter whether you do it yourself or not, some woman does it. And it's work no woman should do.

Domestic help dread it, and rightly. They will leave if there is too much of it. They are always contented if there is none of it.

There should be none.

Men have long learned how to lighten their labors by using mechanical helps. Now it is woman's turn.

Electric light current or a water faucet can now do the work that women have done by man strength.

Every housewife should employ these helps.

Then there is no dread on anyone's part when washing day comes around. Washing becomes a simple matter.

There is no reason in the world why women should work, as women have worked, to take care of the family washing.

## This Way Is Cheaper, Too

Even though a motor washer doubled the expense of the washing, it should still be used. But it doesn't. On the contrary, it pays for itself, over and over, in the saving of expense.

The average family washing costs about \$1.20 per week. You may pay it to a washwoman or pay it for help. The average expense, as we find it, is that.

If you still employ a washwoman, this machine will save fully one-half of her time. That means 60 cents per week, or \$30 per year. The washer will last you long enough to save several hundred dollars.

But many housewives will dispense with the washwoman when they see how easily the work is done by this motor. Those housewives will save the whole \$1.20 per week—\$62.40 per year. And the saving will add no hard work to their duties.

So, however you figure, you can see enough saving, right from the start, to know that the washer is economical.

The saving can first go into paying for the washer. Then it goes, year after year, into profit.

That is the way that men figure. A farmer might say that a mowing machine involves something of an investment. But he buys it because it is an economy. It does the work of ten men.

Still a mowing machine works for but a brief season. A motor washer effects its saving every week of the year.

Why should not women employ, as men do, the means at their command for saving labor and money?

## But Here Is the Greater Saving

The most apparent saving, perhaps, is the saving you make on wash bills. But the greater saving, by far, is the saving on clothes.

Clothes washed in this way will last twice as long—some of them four times as long—as when washed in the old way.

The motor washer doesn't wear clothes at all. The clothes are not rubbed. They are not even moved. The washing is done by forcing soap and water through the meshes of the cloth.

The clothes come out without a thread broken, without an edge frayed, without a button loosened.

\* \* \*

Then the Motor Washer removes all temptation to use chemicals.

You may think that your washwoman doesn't use chemicals now, but she probably does. Washing is too hard in the old way, and chemicals do help out.

Chemicals, as you know, destroy the fibre of cloth, while they destroy the dirt.

The saving on clothes is the main saving that comes through this motor washer. But it isn't so apparent—so easily measured—as the saving on the cost of washing.

During the life of this washer it will save the average family more than twenty times what it costs.

## Please Let Us Prove Our Claim

What the "1900" Motor Washer will save you in work is apparent.

But some women will say, "Can I afford it? Will it save money enough to permit me to save that work?"

That is the main point which we wish the washer to answer for itself. You can tell in a month, can you not?

Let us send you the washer you choose, and prepay the freight on it. You will be under no obligation.

Use it for 30 days. Learn what it means to you. Figure the saving yourself. Then decide.

If you then think that your money can be used to better advantage, send the washer back.

Please don't hesitate to accept our offer. It seems like a risk for us, but it isn't. You would not let us take this washer back if it cost twice as much, when you use it.

Here is something that saves a vast amount of labor. That makes drudgery almost fun. Yet it is cheaper to have it than to go without it.

You know, as we know, that you are bound to have it, after you prove these facts.

---
