CORONER'S JURY FINDS JOHN BATEMAN GUILTY OF KILLING HIS WIFE

Evidence Showed Prisoner Tried to Secure Property and Had Threatened Her With Death—Wom. Neighbors Saw Hatchet on Floor and Were Menaced By Bateman—Prisoner Wouldn't Answer Queries.

(By a Staff Reporter.)

OSHAWA, Sept. 12.—(Special.)—John Bateman, aged 77 years, will be tried for the cold-blooded murder of his wife, whom he married eight years ago thru a newspaper advertisement.

After an inquest conducted all day by Coroner Hoif in Temperance Hall, at Cedarvale, a little village just outside the borders of the town, the jury at 11 o'clock tonight returned a verdict to the effect that Sarah Allerton Bateman had died on Sept. 5 as the result of injuries inflicted by her husband.

A dozen witnesses related details in connection with the crime and stories on oath went to show that domestic infidelity had existed in the Bateman household and that for years they had squabbled over money matters. Bateman had endeavored repeatedly to induce his wife to turn over her property, worth about \$250, to him, but she had steadfastly refused.

Two years ago the aged prisoner signed an agreement of separation, the stipulation being that if he ever returned to his wife's home he would be considered a trespasser and subject to arrest, but the old man returned within a year. As a climax to this drama, a week ago, just as the villagers were stirring from their homes, a cry was raised that the Bateman home was afire, investigation bringing to light that Mrs. Bateman had been struck several times on the head with an ax and her skull broken in several places. She was found dying on the floor of her bedroom in her night apparel by neighbors. Coal oil had been soaked in the mattress, which was in flames. The husband was accused of the murder, but he merely placed his hands in his pockets and sauntered down the road. He displayed no concern whatever, according to witnesses, even during the moments after the discovery of his wife's remains.

When the inquest was under way, with direct accusations against him being made by witnesses, he sat with his chin on his chest and evinced little or no interest. Even when the skull of the woman was placed on the table before him with the gaping holes no longer winced.

On one occasion when a witness declared that he tried to get his wife's money he hissed, "You lie, you lie."

Colonel Farewell of Whitby, crown prosecutor, called the accused man to the stand in the afternoon, but on the advice of his counsel, G. D. Conant of Oshawa, Bateman would give no replies to questions touching on the crime or anything else.

ordered Bateman to answer his questions, which numbered about thirty. Advised Not to Speak.

"Don't say a word," warned Mr. Conant, as the old man stood pat. After humoring Bateman slightly, Colonel Farewell succeeded in getting him off guard for an instant.

"I am your body in your quarrel that morning," was the reply, and then he caught himself talking and shut up. Colonel Farewell tried and tried again, but his efforts were fruitless.

Later in the afternoon the prisoner was taken back to Whitby jail to await his trial.

Two women, Mrs. Colborne and Mrs. Kaales, who lived in the Bateman house, which was divided into three separate apartments, gave the most damaging evidence. Mrs. Colborne said that the odor of smoke aroused her at 7 o'clock on the morning of the crime.

Saw Bateman in House. She later heard Mrs. Bateman groaning. She tried to get into her room, but the door was locked. She ran around to the window, but Bateman stood there and leered at her. She then woke Mrs. Kaales, and they finally obtained access after Bateman had gone out into the backyard. They found the dead woman lying face downwards on the floor. Her arms were extended and indications pointed to her having been dragged. Her head was in a pool of blood and a hatchet lay nearby. The room was filled with smoke, but no flames could be seen.

At the evening session Frank Mallet told of having to break down the doors in order to get into the house. He asked Bateman to unlock it, but he refused. He then saw the body of the woman lying on the floor, and he saw the hatchet.

Richard Luke said that Bateman walked down the street apparently unconscious and showing no sign of nervousness after the crime had been discovered. When cross-examined the witness stated that the actions of the prisoner were certainly queer under the circumstances and that it was possible she seemed more nervous and excitement could be practically oblivious to it.

Witnesses said that the couple were married eight years ago last March; they had never lived happily together. In reference to the agreement of separation, he said that he asked his sister why she had allowed Bateman to return, and the answer was, "I am afraid that he will burn up the building and burn me in by fire as he has often threatened."

Fair Play to G. T. P. Employees

GUELPH, Sept. 12.—(Special.)—The following letter was received by Acting Secretary Simpson today and read to the Dominion Trades and Labor Congress:

Dear Sir—I beg to acknowledge receipt of your telegram of Sept. 10, in reference to the Grand Trunk Pacific Railway and its treatment of employees. It is, and will be, the aim of the government to secure, as far as possible, fair treatment for the employees of public service companies in receipt of government aid, and we are still hopeful that the difficulties heretofore existing in the Grand Trunk Pacific will be satisfactorily adjusted.

Very truly yours, Frank Cochrane.

JOHNSON'S WIFE TWICE TRIED SUICIDE

Often Said She Was Tired of Living, Says Champion Pugilist at Inquest—He Also Tried to Commit Suicide on Two Occasions, But Was Prevented.

CHICAGO, Sept. 12.—(Can. Press.)—Mrs. Etta Duryea Johnson, the white wife of Jack Johnson, champion heavyweight pugilist, died a suicide, after wrecking her health in caring for her husband, who was a victim of nervous prostration and had been afflicted with suicidal mania for a year on account of injuries and exertion during his fight with Jeffries. This was the testimony of Johnson at the inquest here today over the body of Mrs. Johnson, who shot herself in her apartment over the champion's saloon.

Johnson said that the nature and extent of his sufferings after the championship fight had been kept secret by his wife and himself. "I am still suffering from the effects of that fight to some extent," he said. Johnson gave his testimony in tears. He declared that his wife's efforts to keep him from committing suicide were what broke down her own health. He said: "I believe that I incurred brain fever or some similar derangement from the exertions of the Jeffries fight and the heat that prevailed at the time. I was not myself for a year, but the secret was closely kept between me and Mrs. Johnson. She saved me twice when I tried to choke myself to death. She seized me and struggled with me and prevented the act. She had an awful time taking care of me for over a year. I am telling this now only in justice to my wife. It never has been told before."

Tired of Living. Testifying as to his wife's suicidal mania, Johnson said: "During the last two years she often told me she was tired of living. She tried twice before to kill herself. Once she attempted to jump out of a window in a London hotel and before that she tried to jump from a train out west. I did everything I could to make her happy and spent money on her lavishly, but most of the time she seemed despondent. Her father died four months ago and since then she seemed more nervous and despondent than ever. "I employed two maids to watch her after she attempted to end her life for the first time and one of them was constantly with her. Yesterday morning she seemed in especially good spirits. The stories that there was much domestic trouble between my wife and my mother and sister are untrue. They both were very fond of her."

REV. FATHER RUSSELL DEAD

Distinguished Jesuit and Noted Writer Passed Away in Dublin. DUBLIN, Sept. 12.—(Can. Press.)—Rev. Matthew Russell, a distinguished Jesuit, died today. He was born in 1834. He was a noted writer and had edited from its beginning in 1873 The Irish Monthly, a little Dublin magazine, in which appeared some of the earliest contributions of writers who later gained fame.

FRIGHTENED HIS FAMILY

Alexander Eyer Fired Several Shots From His Revolver. Alexander Eyer, 87 Geoffrey street, drew a revolver and sent three shots into the paneling of his home last night at about 10 o'clock. His wife was in the room when he fired the shots; his children were in bed. The man was not responsible for his actions as he was crazed with raged nerves from a prolonged spree.

STENOGRAPHIC REPORTERS

The annual meeting of the Chartered Stenographic Reporters' Association will be held at the St. Charles Hotel this evening at 6.30 o'clock. All members are requested to attend.

G. T. P. HOLDING GOVERNMENT TO CONTRACT

Railway at Conference With Premier Intimates It Will Operate Sections of Transcontinental Only on Condition That Federal Authorities Shoulder Responsibility for Possible Losses.

OTTAWA, Sept. 12.—(Special.)—Vice-President Smithers and President Chamberlin of the Grand Trunk Pacific were closeted with Premier Borden and members of the cabinet for more than an hour this afternoon. The discussion, it is understood, related to a proposition made to Major Leonard of the Transcontinental Commission in connection with the letting of what is known as district F or McArthur contract section of the road which is now completed.

After the meeting it was stated officially that there was nothing to give out. Further conferences with Messrs. Smithers and Chamberlin, he said, would be held, but just at the present stage nothing could be said. It is understood that the railway officials have made an offer to the government that the G. T. P. Co. take over any section of the Transcontinental which it was desired to have placed in operation, the government taking the earnings and paying expenses; any profit or loss which might occur as a result of the operation to go to capital account. If the operation showed a profit, capital account would be reduced accordingly, and if it showed a loss, capital account would be increased that amount.

To Get Fifty Year Lease. The Grand Trunk Pacific officials, it is said, will press this claim, on the ground that it is in accordance with the spirit of the agreement with the Laurier government. The agreement stipulates that on the completion of the line the company shall take a fifty-year lease, or at least until they can get a direct connection with the U. S. R. system and enjoy a thru traffic. Whether the government is prepared to accept the terms of the company is proposing it is difficult to say just now, but it is believed that a fair solution will be reached in a day or two.

ESCAPED FROM BLAZING BALLOON

Aeronaut Descended Safely in Parachute After Being Carried Up 2000 Feet.

TOLEDO, O., Sept. 12.—(Can. Press.)—Hundreds of terrified spectators on the county fair grounds today breathlessly watched the desperate fight against death made by Frank Armstrong, an aeronaut, when he was carried 2000 feet into the air by a blazing balloon. Armstrong, whose home is in Celina, Ohio, was preparing to make an ascension and was straightening out his parachute rigging, when the balloon caught fire and his startled helpers let go. Fighting like mad to release his parachute, the aeronaut was carried up in a tangle of ropes. He succeeded in cutting loose a moment before the flames reached the parachute, and the blazing balloon collapsed. Armstrong made a successful drop, landing inside the race track.

FARMER INJURED

James Hoars of Whitby Fell Into Hole in Yard. James Moore, 66 years of age, a retired farmer, living near Whitby, Ont., was brought to the General Hospital yesterday in a serious condition. He fell into a hole in his backyard and broke his right arm in three places and fractured his hip. He will recover.

FELL FROM SHED.

Willie Morton fell from a shed at the rear of his home at 713 West Queen street yesterday evening and broke one of his thighs. He was taken to the Sick Children's Hospital.

DULUTH—SUPERIOR EARNINGS.

Duluth Superior Traction gross earnings for the first week of September were \$24,829, an increase of \$1793. Gross earnings since Jan. 1 increased \$14,823.55.

GOVERNMENT CREATES NEW COURSES IN AGRICULTURE EXCLUSIVE TO TEACHERS

Experts Have Hitherto Been Unable to Devote Proper Time and Care to School Classes—New Courses will Give Graduates Necessary Qualifications to Act as Teachers of General Subjects, as Well as Specialists on Science and Agriculture—Students Will Be Helped by Scholarships.

In an effort to raise the standard of agricultural pursuits, the provincial government has effected an important change by providing new combined courses in agriculture and science at Toronto, Queen's and McMaster universities. These will be provided next session and will necessitate two years' study at any one of the three mentioned seats of learning, and two years at the O.A.C., and upon graduation the student obtains the degree of B. Sc. Agr.

Sir James Whitney states that the present system has been successfully operated for the past few years, there is every need for a radical change on account of the pressure of appointments as government representatives; its appointees have not been able to give sufficient time to their classes conducted in continuation schools and collegiate institutes which the importance of the subject necessitates. It is with a view to securing for agriculture its proper share of education that the new courses have been originated, which will qualify the successful graduates to hold positions as regular members of school staffs exclusively.

The statement proceeds: "Two years ago the departments of education and agriculture jointly adopted for the counties a scheme of agricultural education, under which graduates of the Ontario Agricultural College are appointed to assist and direct farmers, and to teach agriculture in the high and continuation schools, and in discharging the former duty, as representatives of the department of agriculture, the appointees have been eminently successful, but they are usually unable to discharge satisfactorily their duties as regular members of school staffs, partly owing to the pressure and importance of their duties as representatives and partly to the difficulties connected with arranging for their classes in the public schools. Experience has accordingly shown the necessity to secure for the subject of agriculture a regular member of the school staff. For some years, however, not all the time of such teacher would be available for the purpose, and accordingly, at the request of the minister of education, the Universities of Toronto, Queen's and McMaster have established the new degree of Bachelor of Science in Agriculture (B.Sc. Agr.) the courses for which cover four years, the first two being taken at the universities and the last two at the Ontario Agricultural College. These courses provide a good general education, as well as a special knowledge of both science and agriculture. The foregoing courses will be provided next session at the universities and will give, at the end of each of the two years taken at the Ontario Agricultural College, a scholarship of \$100 to each candidate for the degree who passes the final examinations of the year and is recommended therefor by the president of the college. Moreover, as soon as the new class of specialists is available, the government will continue to grant for the encouragement of students in agriculture in the high and continuation schools and the collegiate institutes, in the form of contributions to their maintenance and additions to their teachers' salaries.

Since the appointment of a director, agricultural teaching in the public schools has made rapid progress. As was shown at the Exhibition last week, school gardens are being provided and classes are being established all over the province. The provision set forth above for the high schools rounds off a complete scheme of public and high school education in agriculture, the prospects are that in a few years the subject will take an important place in the programs of the provincial schools.

AGRICULTURAL READER.

To further the study of this subject, the department of education announces that it is preparing an agricultural reader for the public and separate of the same general character as the third form history and geography readers, which have proved so successful. The book will not be a textbook, but a conveyer, in an interesting form, information which every farmer should possess, and which will be valuable in connection with the practical work done in the schools.

HON. S. HUGHES OFF TO FRANCE

After Attending Manoeuvres There He Will Be Presented to the King at Aldershot.

LONDON, Sept. 12.—(C. A. P.)—Col. Hughes and Major Robertson have left for Lowndes, France, to attend the grand manoeuvres which began yesterday. They were accompanied by Gen. Wilson, Major Farquhar and Col. McDonogh, British representatives. Col. Hughes returns at the beginning of the week in time for the opening of the grand manoeuvres at Aldershot and district, on which occasion the Canadian minister will be introduced to King George, who will himself be present as head of the army. The officers will be quartered during the manoeuvres at Cambridge College.

FALSE ALARMS AT THE ISLAND

Capt. Goodwin Was Out Three Times With Fire Tug as Result of Alleged Jokes.

Three false alarms were rung in from Centre Island last night, and as a consequence the fire tug made several unnecessary trips. On one occasion only was there a fire of any kind in the vicinity of the island at all. If the officials get hold of the man or men responsible for the ringing in of the false alarms they will deal with them summarily. Captain Goodwin has been ill of late and was kept out half the night as a result of the alleged jokes.

PROBET SEEKING FEDERAL POST?

Nationalist Member's Claims to Position of Deputy Minister of Inland Revenue Being Pressed.

OTTAWA, Sept. 12.—(Special.)—Considerable interest and speculation hang around the pending appointment of a deputy minister of inland revenue to succeed W. J. Gerahy, whose resignation of that position goes into effect on Oct. 15. It is declared that Hon. Bruno Nantel is urging the appointment of a French deputy and that Dr. Faucher, the Nationalist member for L'Islet, is favored for the berth. On the other hand, it is said that the claims of at least two English-speaking officials, who have had wide experience in the department, are being urged by other members of the cabinet and influential party members.

BUY FURS NOW.

Leaving the purchase of a fur garment to the last moment isn't very good policy. At least that is the opinion Mr. William Dineen, president of the Dineen Company, expressed yesterday. "Of course, we are busy," said Mr. Dineen, "but nothing to what we will experience when the frosty days loom up. You know it seems strange that most people should leave fur buying to the last hour; but they always do and it makes it mighty hard for the furrier. In a rush it is simply impossible to give every order the attention it deserves. Now, today, we are able to give special service to all our customers, and the stock is very large and complete. Certainly the prices are lower than they will be later on if we are to judge by the market reports here. The Dineen stock embraces every new design, in all the best and most exclusive furs. The showrooms at 140 Yonge street are well worth a visit."

HIGH SCHOOL MEN DELEGATES MEET OPPOSED TO HURSTON ON FINE TRAIN

Two Hundred Members of I.O. D.F. Went to Winnipeg in Specially Equipped G.T.R. Coaches.

Two hundred delegates to the international convention of the Independent Order of Oddfellows left for Winnipeg on a Grand Trunk Railway train from the Toronto Union Station at 7 o'clock last night.

Among the officers on board were: Col. John A. Macdonald, grand scribe Ontario Grand Encampment; Hon. J. B. Goodwin, Baltimore, Md., secretary.

Accompanying the delegates were C. P. Horning, city passenger and ticket agent, and R. P. Taylor, general agent Chicago, Milwaukee and St. Paul Railroad.

The banquet to be tendered the Right Hon. R. L. Borden, prime minister, by the board of trade on Sept. 28 promises to be a particularly brilliant affair.

The following invitations have been forwarded: Hon. George E. Foster, Hon. D. Monk, Hon. W. T. White, Hon. H. H. H. Baker, Hon. D. M. Kilgour, Dr. W. H. Nelson, Dr. E. B. Lucas, Dr. H. C. Wiles, Dr. H. L. Jackson.

OTTAWA, Sept. 10.—(Special.)—The cabinet council has at the present time under consideration the appointment of the controllership of Royal Northwest Mounted Police, which is vacant because of the resignation of Comptroller White.

WOMEN TRY TO PREVENT INCREASE

Applied to Mr. Justice Middleton for an Injunction to Prevent the Proposed Increase in Assessment, and Proceedings Are Stayed for Two Weeks.

At Osogood Hall yesterday, Mr. Justice Middleton was asked by members of the A. O. U. W. to grant an injunction preventing the immediate change in the constitution of the order as contemplated by the grand master workman and others.

Other members and provincial officers from various parts of the Province have also filed affidavits in support of the grand master workman's application.

THREE BOYS ARRESTED

Charged With Shoplifting and Theft From Wholesale Houses.

Three boys, none of whom is over 15 years of age, were arrested yesterday afternoon by Detectives and Toronto police on a charge of shoplifting and stealing from wholesale houses in Toronto.

Sweet Revenge.

BALTIMORE, Sept. 12.—Baltimore got sweet revenge on Joe McElhinny's first game today by winning a doubleheader. Barger proved an easy proposition for the Reds in the first game. The second game was a pitchers' duel between Shawkey and Lee, in which the former came out first best.

Clean Sweep for Boston

Take Last From Chicago.

At Chicago, Boston made a clean sweep of the series with Chicago, winning the final game 3 to 1. Lange and O'Brien faced each other in a pitchers' duel, in which the former was victorious in the eighth.

Motor Boats Race

At Buffalo Regatta.

HALIFAX, Sept. 12.—(Can. Press).—James Hickey, D. Young and P. Douglas (colored) were instantly killed and four others seriously injured at the Woodside Speed Regatta, Dartmouth, this morning by the breaking of a dark-colored boat with a cargo of 800 pounds.

YORK COUNTY. West Toronto North Toronto East Toronto

TO GOSE EARLY FREE OF HEAT IN WARD SEVEN DEED OF HEAT

All Merchants May Follow Example of Grocers—Workmen Injured by Falling When Scaffold Broke.

About 7:30 o'clock last night, while Robert Eakin of Woodbridge was driving westerly along Dundas street in Ward Seven, his horse shied opposite Matchison avenue, and buggy and occupant were overturned. Fortunately both escaped injury, but George Shaw of 12 Ruskin avenue, who was passing in the opposite direction on his bicycle, was struck by the overturned vehicle and sustained a few rather severe bruises.

Four workmen on a house in course of construction at Barber avenue had a narrow escape from serious accident yesterday afternoon about 2 o'clock. The men were bricklayers and were working at the walls of the second story when, without warning, the scaffold collapsed and the men were thrown to the ground a distance of nearly 15 feet. Strangely, no one was seriously injured, but all were more or less bruised by falling bricks and other debris.

SWANSEA

The third annual exhibition of flowers, fruits and vegetables in connection with the Swansea public schools will be held tonight in the school grounds.

Good Roads Commissioners.

Chairman J. J. Ward and Commissioner George S. Henry have been appointed to the Good Roads Commission at Atlantic City in October as delegates from the York County good roads commission.

Played a Tie Game.

JERSEY CITY, Sept. 12.—Jersey City and Providence fought it out to a two-inning tie in the opening round of their concluding series at West Side Park this afternoon. The score was 4 to 4.

AGINCOURT.

The Agincourt Branch Women's Institute will hold a picnic at Scarborough Bluffs on Tuesday afternoon, Sept. 24. The members extend an invitation to their friends, gentlemen included.

THREE KILLED BY FALL OF CRACK

HALIFAX, Sept. 12.—(Can. Press).—James Hickey, D. Young and P. Douglas (colored) were instantly killed and four others seriously injured at the Woodside Speed Regatta, Dartmouth, this morning by the breaking of a dark-colored boat with a cargo of 800 pounds.

TOP TO STAY WITH ROYAL LEAD

With Pitchers Working Well, Leafs Have Nothing to Fear, and Are One Best Bet for the Flag.

With but nine games to play and a lead of two full games over Rochester the Leafs look like the pennant winners. After Montreal get thru here on Saturday the Leafs take on Buffalo for three games, starting Monday, and for three games, Thursday for the last four games of the season, ending with a double-header a week from Saturday.

ANOTHER STAKE FOR JOE PATCHEN

Lifts Syracuse Feature in Straight Heats—Knight Onward Second—Results.

STYRACUSE, N.Y., Sept. 12.—Joe Patchen II. proved the speediest of the field in the rich Syracuse 3000 feature event of today's Grand Circuit meeting, winning in straight heats. The Canadian station's best time was 2:04 1/2. Knight Onward threatened at times, but proved unequal to the task of overthrowing the gallant son of Joe Patchen, who led from wire to wire in all three heats.

Rugby Gossip

Tonight at the Inverpool Hotel the annual meeting of the City Rugby League will be held, when all last year's clubs and any new ones wishing to join are asked to send representatives.

BRAMPTON

BRAMPTON, Sept. 12.—Senator Taylor left last night for an extended visit to Chatham and Detroit. The Royal Victoria, the new hotel operated by the temperance people, is now open for business and when all improvements are added will be one of the finest hostleries in western Ontario.

Motor Boats Race

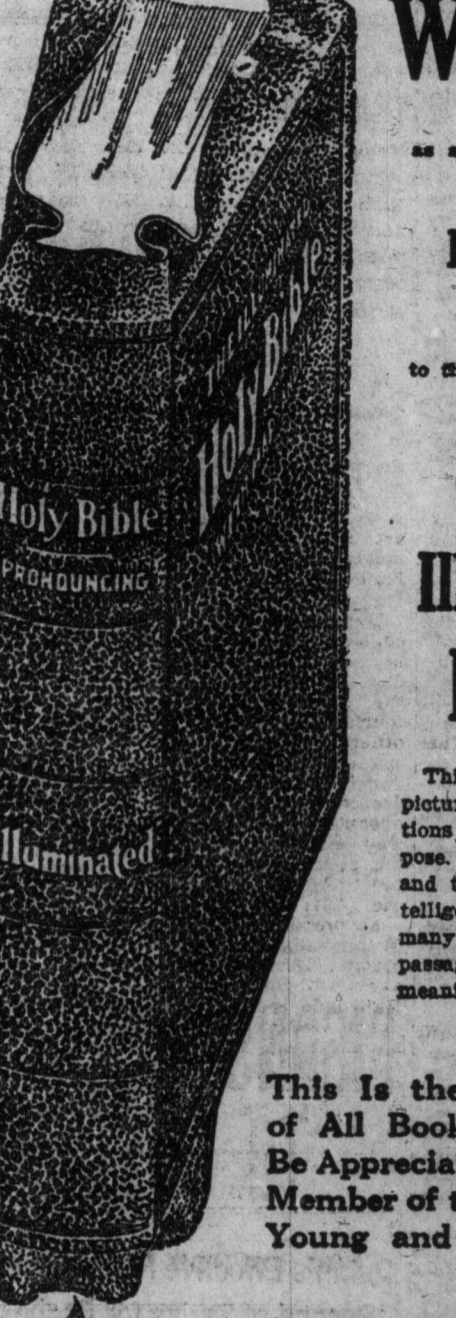

At Buffalo Regatta.

THREE KILLED BY FALL OF CRACK

THE NOBLEMEN'S MESSAGE

"I'll prove the contrary if you'll hear me speak."
—KING HENRY VI. ACT I

Today the world is a big reception committee, waiting for the man with a message to speak. That is why the

"DAVIS" "NOBLEMEN" CIGAR
2 for 25c

got a hearing, and became an assured success from the start.

The "NOBLEMEN" was allowed to speak for itself. And to the smoker who thought "imported" cigars the "only thing," the "NOBLEMEN" proved the contrary.

"NOBLEMEN" proved that Havana leaf and Cuban workmanship are the only elements that count in a high-grade cigar.

The "NOBLEMEN" also proved that the smoker can save 50 per cent, and still get a cigar in all essentials the same as "imported."

"NOBLEMEN" also, 2-for-a-quarter.
"PANTELAS" also, 10c straight.
"CONCHA FINA" also, 3 for 25c.

S. DAVIS & SONS, LTD., MONTREAL.

EXHIBITION MOTORCYCLE RACES TOMORROW.

Tomorrow's motor cycle, bicycle and whippet races at the Exhibition tomorrow afternoon will start shortly at 2 o'clock, but half an hour previous to that the band of the 48th Highlanders will commence a concert. There will be a special star service to the grounds, and arrangements have been made to handle an immense crowd of thrill-seeking races are sure to draw. The motor cycle races are all worked up at present, however, reports from Allison claim that their team will give the whippet champions a treat for the honors, as, while the team have been shy on Saturday, they are going strong here at present.

unif. C.L.A. Final Tuesday.

President Blaney Meudore of the Ontario Lacrosse Association has ordered the Explorers of Brampton and Alliston teams to play in Oranville on Tuesday next, Sept. 17, to decide the winners of the Junior O.L.A. series. The "C" team of Oranville has been appointed to handle the game. Brampton have already appeared the senior series and will make a strong bid for the Junior honors, and are going strong here at present.

Universally Recognized as the Best Whisky in the Market.

CHESTER KRUM WINS HANDICAP

Jack Dennerien, at 20 to 1, Lands Steeplechase at Blue Bonnets, Otherwise First and Second Choices Score

MONTREAL, Sept. 12.—Favorites and second choices cleaned up the card at Blue Bonnets today, except the steeplechase that went to Jack Dennerien, a 20-to-1 shot.

In the first race Mary Bud, the favorite, and Magpie, an outsider, furnished an exciting finish. Seven horses started in the second and they kept in a bunch until the last turn, when Oakley, favored to the front, followed by the favorite, Inspector Lestrade. The latter made a gallant effort to overtake the leader, but failed to do so.

The Derby Cup, presented by the Earl of Derby, for winning three-year-olds and upwards, bona fide property of a British subject, was won by Cliff Stream, the property of N. Macfarlane of Montreal. Cliff Stream went the mile and three-quarters in grand style. The players got a big bump in the post-race hot favorite, lots of money being placed on him at odds of 2 to 1. He never got a look in. Teahan, on the front at the start and head his lead to the finish.

They failed to form in the handicap, Chester Krum and Mission, the split favorites, finishing in that order. Summary:

FIRST RACE—Three-year-olds and up, maidens foaled in Canada, \$800 added, 5 furlongs:
1. Mary Bud, 109 (Martin), 2 to 1
2. King Cash, 117 (Small), 2 to 1
3. Magpie, 109 (Clement), 3 to 1
4. Cliff Stream, 112 (Small), 5 to 2
5. Leving Cash, 117 (Small), 5 to 2
6. Thus, 117 1/2 (Satt), and Le'Or also ran.

SECOND RACE—Provincially-owned, 3-year-olds and up, \$500 added, 1 mile:
1. Oakley, 111 (Clement), 2 to 1
2. Inspector Lestrade, 107 (Small), even, 3 to 10 and out
3. Von Lear, 119 (McTaggart), 3 to 1
4. Thus, 117 1/2 (Satt), 4 to 1
5. Cliff Stream, 112 (Small), 4 to 1
6. Thus, 117 1/2 (Satt), 4 to 1
7. Thus, 117 1/2 (Satt), 4 to 1
8. Thus, 117 1/2 (Satt), 4 to 1
9. Thus, 117 1/2 (Satt), 4 to 1
10. Thus, 117 1/2 (Satt), 4 to 1

AGAIN—DUFFERIN FAVORITES FAIL

Six Go Down in a Row, and Then Giplian at 3 to 1 Lands the Last Race—Card for Today.

Thursday was another day for the slaughter of the favorites at Dufferin Park in the last race. Following is the summary:

FIRST RACE—Purse \$300, 2-year-olds and up, about 5 furlongs:
1. Watch Me, 106 (Sluder), 6 to 1, 2 to 1 and 6 to 1
2. Edna, 113 (Conner), 12 to 1, 4 to 1 and 2 to 1
3. Noon, 111 (Dreyer), 3 to 1, even and 1 to 2
4. Mad River, 111 (Knight), 3 to 1, 6 to 1 and 1 to 2
5. Star of Danube, 112 (Molesworth), \$50, \$20, \$20
6. Nobby, 107 (Goose), \$30, \$20, \$20
7. Wonder Worker, 107 (Henry), \$30, \$20, \$20
8. Uncle Hart, King Box, U. Steppa, Alfred V. Duxal Crown also ran.

THIRD RACE—Purse \$300, 2-year-olds and up, 7 furlongs:
1. Jim L., 124 (Jackson), 3 to 1, even and 1 to 2
2. Henrietta W., 107 (Jackson), 5 to 1, 2 to 1 and out
3. Lelaloha, 107 (Hanover), 5 to 1, 3 to 1 and even
4. Time 1:23 1/5. Dorothea Webb, M. Campbell, Sheriff Greenstein and Rinda also ran.

SEVENTH RACE—Five furlongs:
1. Giplian, 112 (Bergen), 3 to 1, even and 1 to 2
2. Bonnie Wells, 112 (Knight), 5 to 1, 2 to 1 and even
3. Song of Rocks, 112 (Robbins), 6 to 1, 3 to 1 and even
4. John Robert, Johnny Wise, Clifton Squaw, May Bride also ran.

Old Rivals to Meet.

The Young Torontoes and Brampton Senior O.L.A. teams will battle on Saturday, and while it is only an exhibition fixture, the blue from the Beach figure that they are about due to take a fall out of this year's champions, even if the game is to be played on the stamping grounds of the Brampton. In the two games already played, the Young Torontoes were victorious with one goal lead, so that only two games separate the teams on the season's play. This match will be refereed by the Young Torontoes' claim, on Saturday, when the greatest rivals in the country look on for the last time this season.

Riverdale Lacrosse Club.

A full turnout of the Riverdale L.C. is requested tonight for their game Saturday with Preston for the provincial championship. Riverdale defeated the Matilda last Saturday and a score of 6 goals to 3 thus giving them the city championship.

Jeff is Getting to Be a Bit of a Wag By "Bud" Fisher

The Toronto World

FRIDAY MORNING, SEPT. 13, 1912.

Sir Hugh Graham and Progressive Politics

THE LATEST POLITICAL MENU.

Montreal Star, Saturday, Sept. 7. All that was necessary to secure the inclusion of any political hobby, economic fad, or half-baked sociological theory in the platform of the Progressive Party of the State of New York was to suggest it. The record of the convention shows that not a single proposal was rejected and that every plank was passed cheerfully and unanimously. There was a Cave of Adullam where every fanatic had such courteous attention given his special grievance, and who approached the consideration of his fellows with mark's perfect success. To the end of their days, distinguished politicians of our own growing, like W. F. Maclean, M.P., of Toronto, will probably never cease to regret that so intangible a thing as an international boundary-line prevented their taking advantage of a Heaven-sent opportunity. We are convinced that, once Mr. Maclean was turned loose in the Progressive Party, not even Theodore Roosevelt would know it again.

The political card of four which is being offered to the people of the State of New York calls for every indigestible legislative novelty that has cropped up in the last six years, and a number which have never cropped up at all before. The initiative, referendum and recall bulks large, as does "the choice of judges by the people and not by the bosses," which sounds well but contains about as much real nutriment as a cream puff with all the cream omitted. The repeal of abandoned franchises seems to have been thrown in as a filler, as was a clause calling for publicity as to wages and hours of work in industries. Industrial accidents are to be specifically prohibited by law, as is night work of any kind for women, and state insurance is to provide at once for losses caused not only by sickness and old age, but by irregular employment, with special compensation for what are called "trade diseases." The term probably covers Housemaids' Knees and Writers' Cramp. These clauses are but a few, and come from as striking an assortment as has been put before any people at one time in one place. If there is a "crank" in New York who cannot find what he wants in the Progressive platform, the inference is that he is too far advanced for citizenship in anything less progressive than an insane asylum.

The above delirium of the Montreal Star is rather peculiar. It has two phases. It drags in W. F. Maclean, M.P., of Toronto in a rather unusual way, the not unusual for the Star, and it also deals with what is called progressive politics and the object of the Progressive Party in the United States and incidentally progressive politics in Canada. The latter is a matter of course, and let us deal in the first instance with the progressive platform in the State of New York, which seems to be a matter entitled to the contempt and ridicule of the Star.

Is there no bad condition of affairs in the United States requiring a progressive party and a progressive platform? There must be some reason for Roosevelt's action and still more must there be some reason for the almost religious fervor with which the plain people of the United States have rushed to his support. There must be some reason for the fact that almost the entire portion of the Union west of the Mississippi River is for Roosevelt and his progressive platform. There must be some reason for the action of Mr. Hearst and his chain of newspapers. Why is the late Senator Dolliver worshipped as he is worshipped today by the great bulk of the people of the United States? It is admitted now he would have been president had he lived, and his growing fame rests on the fact that he was a progressive.

The people of the great State of Ohio recently voted in favor of progressive changes in its constitution. Mr. Taft comes from Ohio. Ohio has repudiated him and he is now become a hopeless burden to his party and his state because of his lack of progressive ideas. What is the cause of the marvelous rise and fall of Senator La Follette of Wisconsin? And is there no cause behind all the agitation against the money interests and the big trusts in the United States and the demoralization of the politics of that great country that we now see everywhere?

Is it not the fact that the United States is at the door of a revolution unless a progressive party and a progressive platform can come into the Union? Why have the New York papers lost their influence and are regarded by the people as public enemies? Had the sudden rise and influence of the monthly magazines, called muckrakers if you will, some cause? Why is Mr. Bryan, with such faults as he may have, so influential, or was so influential up to the date of the Chicago convention? Evidently The Montreal Star thinks that the progressive movement in the United States is a delusion and a snare and half-baked. But Mr. Woodrow Wilson, who is a candidate for the presidency, has given out in the plainest way his approval of the slightest reform of what he calls the "admirable platform" of the New York Progressives. Is Wilson, too, half-baked?

The World believes in the progressive movement in the United States and regards Col. Roosevelt as the apostle of that movement and one of its great leaders, and takes the liberty of predicting that the Colonel will sweep the United States and be its next president. Never were the people of the United States more fervid for reform than today! Why?

The Montreal Star, however, thinks all this is a joke and speaks of the progressive platform as a hobby, a fad, as half-baked, and all the other words you can find in the article quoted above.

But why drag in W. F. Maclean, M.P., so pointedly as does The Star? It is because he is trying to be a progressive in his own way in Canada and public ownership, because he upholds the hydro-electric policy in Ontario? Is it because he has advocated parcel post and is in favor of the regulation of the stock issues of railways and other companies? Is it because he believes in the reduction of telegraph rates and cable tolls and has helped to bring them down? Is it because he has tried to strengthen the hands of Hon. Mr. Pelletier in that direction? Is it because he has tried to improve the law, and has, as a matter of course, under the jurisdiction of our railway companies and the telephone companies under the jurisdiction of our railway commissions? Is it because he fought for farmers' telephone companies as against the Bell monopoly, that he is presented to the people of Canada as a political freak, for that is what The Star is trying to make him out?

And lastly, because Mr. Maclean is opposing, as well as he is able to do, any permission being granted by the Borden Government to the Canadian Pacific Railway to issue stock at a price less than market value to its own shareholders and because he is demanding, and has advocated in parliament, that the rate of interest on the Canada and Ontario railways should be fixed at the rate and parcel post for Canada and he advocates a two-cent a mile passenger rate and more regulation of the corporations and on the part of the company to give public service commensurate with the franchise? Is it a political fad to uphold the idea that service is of as much importance as a franchise as the making of profits for shareholders? In other words, who ought to play the biggest part in the great economies of the day, the shareholders and those who manage the business or the people who pay the rates and accept the service?

What The Star is really trying to do at this moment, and in the above article, is to belittle the efforts of those who think with Mr. Maclean that the Canadian Pacific Railway must stop its melon cutting, must live up to the franchise and the Canadian Pacific belong as much to the public as to the shareholders, and consecrated and ear-marked for lower rates and for the betterment of the railway rather than as plunder for grasping shareholders.

STRAUS WILL BE ELECTED.

The New York Evening Post, one of the most conservative papers in the country, and one of the most carefully edited, frankly declares that the Republican and Democratic state leaders alike are inclined to concede the success of the Progressive ticket, headed by Hon. Oscar S. Straus. Mr. Straus was a gold Democrat in 1896, and was called by President Roosevelt to the cabinet, a few years later, without much question as to his party affiliations. The appointment was universally commended at the time, because Mr. Straus was then regarded, as he is now regarded, as an able and conscientious citizen, unselfishly devoting his personal service and personal means to the betterment of social and economic conditions, especially in the City of New York. He was one of that "band of noble men and women," referred to by Gov. Wilson, who waged for years an apparently hopeless battle for the advancement of those principles to which all the political parties now profess some allegiance, but which are distinctly embodied and set forth in the platform of the Progressive party adopted by the national convention at Syracuse.

Just at this time, with the shocking revelations of Tammany graft and Tammany rule in the City of New York, the Democrats of the state are confronted with the declaration of Charles F. Murphy, the Tammany boss, that Gov. Dix must be re-nominated. That Murphy will have his way in the convention on Oct. 1 is pretty generally admitted, and a bit sore to follow. The Republicans find their organization absolutely controlled by William Barnes, Jr., whose dictatorship will likewise alienate a large section of the party from their support of the state ticket.

LOYD GEORGE AND CANADIAN LIBERALS.

Of a certain Irish-American orator, who was accustomed to go the limit, in the days when "tail twisting" was in fashion, it was said that "he defied the power of England with nothing between him and harm but the ocean." Of The Toronto Globe, it may be observed in like manner, that it strongly supports Lloyd George and his principles so long as they are safely separated from Canada by 800 miles of salt water. When, however, those principles come to be applied in the neighboring country, when their adoption must react at once upon Canada, The Globe has nothing to say in their support. It speaks always in a fault-finding way of Theodore Roosevelt, of the National Progressive party, and of the progressive movement in the United States.

The Lloyd George measures and constitutional amendments designed to bring them within the purview of legislative power, are condemned by The Globe, as being undesirable, and if desirable not practicable. It can see nothing to be gained by the election of Roosevelt, because many of his reforms will have to be dealt with by the various states rather than by the federal government. But does The Globe believe that these reforms will not be promoted by the success of the Progressive party in the national contest? Quite possibly both federal and state action will be required, and sweeping constitutional changes will have to be made. But the man in real sympathy with progressive ideas will make his fight alike in the state and in the national arena.

In Ohio last week practically a new constitution was adopted providing for the initiative and referendum, the direct primary nomination, the home rule wage, the eight-hour day, home rule for cities and other measures intended to give the legislature plenary power in dealing with social and economic questions. The character of this new constitution was largely molded by an address delivered before the constitutional convention by Theodore Roosevelt, the address upon which he has predicated his national campaign.

A progressive victory in the United States will be the forerunner of a progressive movement in Canada, which will give the people a firmer grip on their own destinies.

Named for Housing Commission Expert

One of the names suggested for the advisory position of real estate expert on the Toronto Housing Commission is that of Norman C. McEschen. He has recently returned from the old country, where he made special study of the many housing schemes there.

the government of their own country, and strike down many vested privileges. Are the leaders of the Liberal party in this country progressive? We venture to say they are not, if The Globe is their mouth-piece. We fear these leaders would prefer to have Lloyd George and his doctrines kept safely within the British Isles.

SETTING THE PACE.

The United States will have something in the way of a real parcel post service on January 1. It will carry live fowl, eggs and other farm products. The rates are comparatively low, altho open to criticism, because graded by distance instead of being based upon the flat rate principle. The weight limit of eleven pounds is a low one and should be increased tenfold. Still, with all these drawbacks, there will be a parcel post. Had we even so moderate a measure of relief in Canada, a four pound package could be sent from Toronto to Hamilton for fourteen cents, as against our present rate of thirty-four cents.

We have no doubt Postmaster-General Pelletier, who has displayed real courage and ability in dealing with the cable rates and the cable situation generally, will soon turn his attention to the parcel post, which, after all, comes closer home to most of us. We should profit by the experience of our neighbors, but we should not lag behind them. If the United States has some beginning of a parcel post service in January, let us have something as good in Canada by the following April.

But we have one great advantage of which the postmaster-general should not fail to avail himself promptly. We are able to draw upon the long experience and expert knowledge of the British postoffice department. With such assistance the Dominion Government should be able to organize a much better plan than the one embodied in the Bourne Bill, and one which will ensure good service and cheap service to the people.

HUDSON BAY ROUTE.

Persistent efforts have been and are being made to discredit the Hudson Bay route as an available outlet for the products of Western Canada. Their character invites the inference that they are not altogether disinterested, but are, at least to some extent, inspired by influences that see reason to believe they may be adversely affected even by a partial diversion of trade into that channel. With such a proposition it is easy to exaggerate the difficulties, and that there are difficulties there is no occasion to deny. But taking them at their worst, in the light of the available information, they do not appear by any means insuperable.

Hudson Bay and Hudson Straits are not unknown waters. The early settlements in the Northwest were made thru them and no year has passed without ships challenging such dangers to navigation as may be found. What sailing vessels did, steamships can certainly accomplish with much more ease. Nor is there reason to doubt that modern aids to navigation will largely minimize, if not entirely eliminate, the risks braved by earlier mariners. Even should these be occasionally bad years, these will be compensated by others that are unusually favorable.

Certainly the advantages that will come from the successful opening of the Hudson Bay route are well worth the expenditure necessary to give it a proper trial. It is now assured that land in the Peace River district, and even in the more northerly latitudes capable of yielding profitable crops of superior quality. That settlers will push their way in increasing numbers into that region is certain, and for them the opening up of Hudson Bay navigation and of the adjacent territory would be a matter of supreme importance. Mr. Cochrane has returned from the north with every faith in the road, and his decision to expedite its construction will be generally approved.

CRICKET.

In these days of the strenuous life, when even sport has been reduced to a commercial enterprise, it is refreshing to find the British game of amateur cricket receiving an increasing measure of support from the people of Toronto. Tomorrow at Rosedale, with the support of the mayor and the city council, the premier city team, as champions of Canada, meet in keen, friendly, combat, a team representative of the rest of Toronto.

The objects are two-fold, and it is not easy to separate them in the matter of importance. One is the furtherance of amateur cricket, and the other the support of the Sick Children's Hospital. When amateur sport becomes allied

with the sacred cause of charity—charity in its best sense—charity, that does not demoralize its beneficiaries—but seeks to leave the hardness of their lot—then it is not surprising, as in this case, that the response is ready and astonishing.

The directors of the Rosedale grounds the captains of the city teams, the players of the Toronto and other league clubs, have readily combined to make the occasion a red-letter day in the history of Canadian cricket. The Queen's Own Band, by the gracious permission of the officers commanding, and the assistance of Bandmaster Timpon, will add to the enjoyment of what should prove the most attractive of outings, by rendering a special program of music. The gods cannot, will not, withhold their approval, or vouchsafe anything but king's weather.

The Mall and Empire says: "It is curious that Ulster comes of the Irish provinces should be supposed incapable of managing her own affairs." It is curious, when you come to think of it, She prefers to have England do it, and the other people who do it thru England.

EIGHT AMENDMENTS BEATEN

COLUMBUS, Ohio, Sept. 12.—(Can. Press.)—Final figures from 37 of the 38 counties in the state completed today by the secretary of state show that eight of the 42 amendments to the state constitution voted on at a special election Sept. 3 have been defeated. Equal suffrage, good roads bond issue, prohibition of outdoor advertising, regulation of labor injunctions, abolition of the death penalty, use of voting machines, appointment of women to certain offices and the elimination of the word "white" from the constitution. The total vote was less than 550,000 below 50 per cent of normal.

FREE TRADE FALLACIES.

It is heavy goods in which home manufacturers first begin to compete with foreigners. These require little skilled labor and a large quantity of raw material. The raw material and the manufactured work being alike heavy, freight on this class of goods affords home manufacturers some protection. They can make plows before axes and axes before penknives. In the manufacture of boots and shoes, for example, this country ceased to export staples long before women's calf boots, and women's calf boots long before children's boots. There is neither patriotism, statesmanship nor policy in theories calculated to produce such results as this. Such a policy must necessarily tend to impoverish a country. Reciprocity would annihilate in one instant millions of Canadian capital. In the case of scythes, for example, it is not necessary for American manufacturers to undersell ours; they need only take enough of the business to make the balance unprofitable. Here is another thing which would operate against Canadian manufacturers: Canadian goods, not being yet known or introduced in the States, agents would have great difficulty in getting orders. There would be a prejudice against the idea that we could make goods either as cheap or well as old American manufacturers. On the other hand, American goods being long known in this country, agents get orders without much difficulty. To establish a business in the States, our manufacturers would have to offer a better and cheaper article than the American manufacturers, which they cannot do. It is easy to foresee the results. Between the loss of the home market and the delays and difficulties of establishing any business in the States, Canadian manufacturers would be ruined in nine cases out of ten.

The great mass of mankind exercises too little foresight. Mr. Bagehot, in his able work on

SUNDAY SLIDING. Editor World: Allow me to draw your attention towards the action of Toronto council last winter in regard to Sunday sliding in High Park. I am only voicing the opinion of a great many more in saying that an agitation should be started in Toronto and in the adjoining districts to get that law rescinded. In this district we are mostly composed of working people who do not get a great deal of time for recreation. We feel that in depriving us of our Sunday sliding a great wrong will be done. I believe it is not too early to get this question opened up and for all time settled so that there will be no convictions for breach of the law in our coming winter. We once again look to The World to defend public rights. Swansons Resident.

AUTO CAN'T OUST HORSE So Contend Some Fire Chiefs, But Others Take an Entirely Different View.

WOODSTOCK, Sept. 12.—(Canadian Press.)—A discussion of the automobile versus the horse in fire department work was the main theme of the opening session this afternoon of the provincial fire chiefs' convention. The discussion followed a paper on the subject of Chief Murray of Windsor. The general idea was that its adaptability depended on local and climatic conditions, but it is hoped that a machine to give complete satisfaction will be designed in the near future. Chief Graham of Ottawa said auto equipment was useless for two months in winter owing to the deep snow. A lively discussion ensued, there being much difference of opinion.

Premier ASQUITH IS SIXTY-FOUR OTTAWA, Sept. 12.—(Special.)—Both Right Hon. R. L. Borden and Sir Wilfrid Laurier cabled felicitations to Right Hon. H. H. Asquith, the British premier, upon the attainment of his sixty-fourth birthday.

GERMAN MENACE DANGEROUS AND REAL

H. Page Croft at Empire Club Said War May Be Forced on Britain at Any Time, and That There Should Be No Doubt of the Aid of Canada and Australia to the Limit.

"As proof of the menace of Germany to Great Britain there is the most apparent fact that the extraordinary industrial development of Germany is compelling her people to an aggressiveness which will not stop short of war if any other means" was the report of H. Page Croft, a member of the British house of commons, when he addressed the Empire Club at McConkey's yesterday.

"Those who suggest that there is no danger of war between Great Britain and Germany are blind to facts or are without patriotism. Our danger is your danger, and the fate of Ontario depends just as much upon an invincible British navy as does Scotland and Wales."

"The supremacy of our navy has been for the first time challenged and if present conditions of assistance continue, certain victory will in a few years be turned to doubtful success. Altho not begging Canada for assistance, we say that Canada, too must stand or fall by the power of the British fleet, and the surest way to avert disaster in the empire is to establish a community of interests. Then common policies for defence become natural and common control becomes imperative."

IMPRESSIVE CEREMONIES

Jewish Synagogues Crowded by Congregations Celebrating New Year. An impressive ceremony marked the advent of the Jewish New Year's day, when special services were conducted in all the synagogues yesterday.

William Tucker was found not guilty of criminal negligence by a jury at the sessions yesterday. Tucker is the man who in June last ran down a newsboy at the corner of Spadina avenue and the College streets. Tucker admitted having one drink before boarding his motor car, and declared he did everything possible to stop the machine in time to prevent the accident, but that the boy was right in front of the car before he noticed him.

In discharging Tucker, Judge Denton said: "While I agree with jury in the verdict, you can see from the time they took to decide that there was evidently some doubt in their minds as to whether you could not have been a little more careful in making that corner. You owners of automobiles cannot be too careful when driving your machines."

JAMES FRAWLEY DEAD

Was Well-known Sporting Man and Former Hotelkeeper. The local sporting fraternity yesterday lost one of its noted celebrities in the person of James Frawley, who died at his residence on St. David and Sackville streets.

Mr. Frawley was 54 years of age, and kept an hotel for many years. He was also deeply interested in trotting horses and a regular attendant at the meetings. He is survived by his mother, who is over 100 years of age. The funeral will take place on Saturday morning from his late residence to St. Michael's Cemetery.

EXPLOITERS OF FARMS AS INSIDE PROPERTY STRONGLY CONDEMNED

Board of Trade Passed Strong Resolution Condemning the Practise of Advertising and Selling Land Miles Outside the City Limits.

Members of the Toronto board of trade are strongly opposed to what they claim is an attempt on the part of certain real estate men to sell inaccessible property to unsuspecting purchasers. At the first council meeting of the board of trade since the summer holidays, which was held yesterday afternoon, the following resolution was passed: "Whereas it has been brought to the attention of the Toronto board of trade that lands in the districts surrounding Toronto are being advertised and sold throughout the Province of Ontario, and that such lands are in many cases not only outside the limits of the City of Toronto, but at a distance in many cases of several miles and not within the limits of any other corporate town or village. "And whereas the advertising is calculated in some cases to give the impression that the lands are contiguous to the city and within reach of city improvements and conveniences. "And whereas such operations are likely to bring about an unhealthy and inflated condition of the real estate market, resulting in ultimate loss to many, and thus be detrimental to the best interests of the City of Toronto. "Resolved, that this board of trade put itself on record as being opposed to such methods of advertising. "Be it further resolved that this board counsel all intending purchasers inspection as to its location and actual value and take steps to assure themselves that the material facts are as represented. "The following new members were elected: Thomas H. Birmingham, F. H. Birmingham Co. Limited; C. B. Brodie, passenger agent, Pennsylvania Railroad; William Crocker; Frank C. Durham, the Lantz Co.; W. R. Frankish, real estate broker; A. C. Goudie, mining broker; George S. Hutchinson, broker and Hutchinson; M. D. C. Hart, acting agent, Bank of Hamilton; Carl H. Kempke, the Kempke Mfg. Co.; L. C. Le Vol, the L. G. Le Vol Co. Limited; Robert L. Maxwell, Maxwell & Co.; J. W. Norcross, general manager, Merchants Mutual Life; John J. O'Neill, Toronto Laundry Machine Co.; Geo. A. Robinson, H. B. Brandon & Co.; John H. Ross, Remington Arms, Union Metallic Cartridge Co.; J. B. Rea, Dresses, Limited.

WHEAT ALL CUT BY END OF WEEK

Seventy-Five Per Cent. of Oats and Barley Also in Sheaf — General Reports Glowing.

WINNIPEG, Sept. 12.—(Special).—Western Canada's crops are in good shape. From reports in districts covering the length and breadth of the land, there is a showing that wheat cutting will be generally completed by the end of the week and that at least 75 per cent. of the oats and barley will also be in the sheaf. Progress is also being made with flax.

In some 25 per cent. of the districts heard from threshing has already commenced. With a continuation of good weather, it will be general on Monday next. The yield of wheat where threshing has started is reported at from 20 to 25 bushels to the acre, and it is all reported to be of contract quality.

Slight damage is reported from fifty per cent. of the districts heard from, from the high wind shelling outstanding grain, but as the greater part of the grain was already cut prior to the storms on Friday last the damage was much less than it would otherwise have been. In a few instances, however, damage from sprouting in the sheaf is reported. On the whole, the present outlook is most encouraging. There is in the west a very early harvest. High Wind Shelled Grain.

All reports have a confident, optimistic undertone that speaks well for the prospects of this year's harvest. Threshing not started in 20 per cent. of the districts heard from, will be general next week, and 23 per cent. of the districts report wheat all cut; 26 per cent., 50 to 60 per cent. cut; 26 per cent., 50 to 75 per cent. cut; 60 per cent. total crop cut; 60 per cent. total barley crop cut; little flax cut.

WILLIAM TUCKER WAS DISCHARGED

Ran Down Newsboy While Driving Motor Car, and Was Advised to Be Careful.

William Tucker was found not guilty of criminal negligence by a jury at the sessions yesterday. Tucker is the man who in June last ran down a newsboy at the corner of Spadina avenue and the College streets. Tucker admitted having one drink before boarding his motor car, and declared he did everything possible to stop the machine in time to prevent the accident, but that the boy was right in front of the car before he noticed him.

JAMES FRAWLEY DEAD

Was Well-known Sporting Man and Former Hotelkeeper.

The local sporting fraternity yesterday lost one of its noted celebrities in the person of James Frawley, who died at his residence on St. David and Sackville streets.

HAMILTON MEN SEE MINISTER

Changes Asked in Legislation Governing County House of Refuge and Court House.

Two Hamilton delegations called upon Provincial Secretary W. J. Hanna at the Parliament Buildings yesterday. The first one seemed to have a decided opinion on the legislation passed last session in the matter of compelling municipalities to contribute to the support of indigent patients in the different hospitals. "This is a hardship," so the members of the party stated, "considering that the city already supports a municipal hospital."

Mr. Hanna thought it good plan to confer with the boards of management of the other hospitals, with a view to arriving at some definite understanding. "It is not reasonable that a municipality having its own hospital should take care of all its indigent patients there," he declared. The control of the county courthouse, which was built some years ago with the joint funds of Wentworth County and the City of Hamilton, was second to be discussed. The citizens want to have more say in the management, which should be enlarged according to the increased population and contribution to the support of the provincial secretary to state the date of termination of the present joint agreement.

TO TEST BYLAW

Barbers Will Ask Police to Summon Those Who Don't Close Early. When the barbers' executive met last night at the Labor Temple, there was a warm discussion over the failure of some twelve shops to comply with the eight o'clock closing bylaw enacted by the city council.

The members spoke at length about the statement published to the effect that some of the names written on the original petition for the bylaw were forgeries. A strong denial was made. It was decided to advise the local to make a test case out of the closing of the barbers' shops.

WRENCH FELL ON HEAD

Fred Forest Received Bad Cut and Narrowly Escaped Death. Struck on the head by a wrench which was accidentally dropped down the elevator shaft, Fred Forest of the Burroughs Furniture Co. had a narrow escape from death yesterday morning, but got off with a bad wound in the scalp, which required several stitches.

The elevator of the establishment was out of order and a workman was dispatched to the top story to locate the trouble. In making the repairs, he dropped his wrench, which fell onto Forest's forehead, striking him on the head. Had he received the full impact of the tool, he would have been instantly killed. After the accident, he was hurried to a doctor, who dressed the wound. Forest returned to his work in the afternoon.

GIVEN SIXTY DAYS

Albert Wilson Convicted on Charge of Burglary—Mounce Remanded. Albert E. Wilson, the baker's driver who was arrested Wednesday on a charge of breaking into and stealing various articles of value from a house at 547 Logan avenue, was given a 60 days' sentence yesterday by the police magistrate.

Clarence Mounce, the employe of the Adams Furniture Co., arrested on a charge of arson, was remanded one week, when he appeared in police court yesterday. This time is given in order that Mounce may be examined as to his sanity.

HEAVILY FINED FOR TAKING BETS

Abe Orpen and Izzy Wilkes Paid \$1000, and Hare and Greenburg \$800 Each.

A. M. Orpen and "Izzy" Wilkes were each fined \$1000 in the police court yesterday morning on a charge of keeping a gambling house at 156 West King street. Crown Attorney Corby said that all the bets taken by Wilkes and Orpen were from outside and that neither of the bank clerks awaiting trial for embezzlement did business with them.

John Hare and Benjamin Greenburg, charged with keeping a betting house at 96 Toronto street, each paid a fine of \$800.

BOYS WERE FINED

Twenty Youths Burglarized Business Houses and Are Put on Parole. In the juvenile court yesterday morning 20 boys, varying in age from 13 to 15 years, were arraigned for burglarizing places of business. In all, they got away with \$160. Their fines totaled the same amount. All the children were accompanied by their parents in

Good or Bad Light

IMPROPER illumination will do more to destroy eyesight than any other agent. Artificial light that has any color makes unnecessary eye-strain—it is not a pleasure to read or work with bad light. Gas, aside from its economy, is the best known imitation of daylight—it's white. It sheds an ideal light, and can at all times be adjusted to the taste of persons using it. Gas fixtures are reasonably priced at our salerooms, and you will be amply repaid for the little time that it takes to look over our assortment.

THE CONSUMERS' GAS CO. 12-14 ADELAIDE STREET WEST. Telephone Main 1923.

STRUCK BY WAGON

George Shaw, 12 Ruskin avenue, while riding a bicycle yesterday afternoon on Dundas street, was hit by a wagon driven by N. R. Eakins of Woodbridge, Ont., and seriously injured. He was picked up and taken to his home in the wagon that was responsible for his injuries. Altho no bones were broken, he was badly bruised and lacerated. He will recover.

Don't Be Coaxed Into Buying Any Other Pipe PROMPTER BRIAR ROOT PIPES

are made from natural, time-seasoned root. Men who couldn't smoke a pipe before sit up and smoke a Prompter Pipe with undreamed of pleasure. Prompter Pipes can't become strong like ordinary pipes. Real Estate and Building--News and Opportunities

GIVE \$18,000 FOR MILLION DOLLAR LAND

City Park Committee Will Today Ask That Ontario Government Sell Toronto the Normal School Grounds for What Was Paid Sixty Years Ago.

Sixty years ago the Ontario Government gave \$18,000 for the normal school grounds, now worth around a million dollars. Today the parks committee waits upon Sir James Whitney to request that the city be allowed the right to buy this property at the price paid over a half century ago.

ROYAL BANK BUILDING ON THE MARKET

That is What Brokers Hear—Rumored That it is Included in the Deal for the Corner, and Others Have it Tied to National Trust Interests.

The Royal Bank building, it is understood, will be sold if an offer high enough can be secured. What this offer would have to be no one has learned. The building cost about half a million dollars. The present worth of the land gives the property a total value of over three-quarters of a million.

But when capitalized to bring a fair investment return of say 4 1/2 per cent, it is hard to make the property worth more than \$400,000.

RAILWAYS NEED MORE LABORERS

Several Hundred Men Will Go West Today, But Thousands More Are Wanted.

Several hundred laborers from Montreal and Toronto will leave the Union Station this morning by the Grand Trunk Railway for British Columbia, where they will be given construction work on the Grand Trunk Pacific Line.

WARNING FARMERS

Danger of Potato Canker Set Forth in Dominion Government Bulletin.

PRICES GOING UP

The demand for lots in Danforth-Woodbine Park has been phenomenal--so heavy, in fact, that we feel warranted in making a sharp advance in prices on the few remaining lots. For the benefit of those whose negotiations for lots are uncompleted, the present prices will be maintained for twenty days only.

DANFORTH-WOODBINE PARK

The greatest investment in inside city property offered today. It will shortly have every advantage that makes for an ideal homesite--transportation facilities, every city convenience, high, dry location, with beautiful scenery--and what interests the investor even more, lots in Danforth-Woodbine Park have already changed hands at greatly advanced prices.

LOCATION
Danforth-Woodbine Park is on the south side of Danforth Avenue--north of Gerrard Street--just west of Woodbine Avenue. Civic car lines on both Danforth Avenue and Gerrard Street are almost completed--a guarantee of handsome profits to the investor.

PRICES NOW
For the next twenty days only you can buy lots at the opening prices--on the easiest of terms.

Mining Stocks Develop Easier Tone Under Lead of Hollinger Stock

FRENZIED FINANCE IN PORCUPINE MINING CO.

Writ Issued Against Directors of Crown Chartered Gold Mining Company to Prevent Fraudulent Sale of Claims by Directors.

The internal dissent among the shareholders of the Crown Chartered Gold Mining Co. of Porcupine, Limited, assumed a battle royal aspect last night with the issuing of a writ by Arnold and Grierson, acting on behalf of George B. Fox, against John P. Heffernan, secretary-treasurer of the company, O. L. Heffernan, president, H. Hensault, J. A. Heffernan, J. H. Galarneau, M. J. O'Shaughnessy and C. E. Dike, Jr., directors, and A. B. Stewart.

The affairs of the company have been pretty much of a tangle for some time, and the shareholders have been altogether at sea as to the position in which they were placed. The present action follows an investigation into the affairs of the company made privately by interests acting for large stockholders in Toronto and vicinity.

The Crown Chartered Mining Co. was formed in May, 1910, with a capitalization of \$2,000,000 in one dollar shares. Its properties were located in Tisdale Township, in the Porcupine division. Late last year arrangements were made for the taking over of a group of five claims known as the Davidson properties in the northern portion of the township. On these latter valuable discoveries had been made, and after work had been commenced by the company, further valuable indications were located. The claims were purchased on the deferred payment plan, the final payments, one of \$40,000, and another of \$35,000 falling due on Aug. 4 last, and next spring respectively.

Payment Was Not Met.

It was on account of the non-payment of the former claim that the present internal row arose. For some time the shareholders had been faced with the evidence that their directors were not living up to the obligations usually expected of a ruling board. The annual meeting of the company was passed without an assembly being called, no idea as to the status of the finances were obtainable, nor were the stockholders at all apprised as to the condition of their company.

Developments followed each very quickly during the last month. The payment of \$40,000 was not met on Aug. 4, nor was any indication of intention of the directors handed out. An extension of a month was, it was understood, obtained, but after the lapse of that time, the matter was still a closed secret as far as the shareholders were concerned.

A few weeks ago the question as to whether or not the present directors had the right to continue to rule the destinies of the corporation was raised. Their term of office expired some time ago, yet no meeting was held to elect their successors or to re-elect themselves. Some of the directors, dropped out at the last annual meeting, drifted out, yet no successors were appointed.

Frenzied Finance Attempted.

The document came the other day with the announcement that the directors were attempting to dispose of the United States interests of the valuable Davidson claims, so far as known the only holding of the company possessing any real value. The other properties were never developed to any material extent. Announcement was made at Montreal at the same time by the secretary-treasurer that the company was out of funds, that the directors had advanced money to carry on development work, and that an amount of \$200,000 would be made to take up the indebtedness and to carry on operations in the future. In the natural order of events in the mining world, this would result in the properties passing to the bondholders, and the shareholders being left with nothing at all except their experience.

It is only necessary to go back to the palmy days of Cobalt to find parallel instances of high finance of this nature. The public, or at least a portion of them, have been bitten once too often, however, hence the present action.

A Charge of Fraud.

The writ against the directors declares that they have fraudulently conspired to deprive the Crown Chartered Co. of the Davidson claims by causing a transfer to be made, that they have induced the directors of the defendants, who was one of the original owners of the properties, to execute transfers and ignore the transfers already executed by him and held by trustees for the company. It asks for judgment declaring that the directors have no power to make or allow any transfer without the authority of the shareholders and requesting an injunction restraining any sale of the company's claims.

The plaintiff declares that the defendants are not entitled to occupy the office of directors except for the purpose of calling a special meeting of the shareholders to hear the reports and elect new directors, and asks for an injunction restraining any other actions by them.

It is also declared that the directors have failed to conduct the affairs of the company according to law, and by improper courses have caused large losses to the company, for which they themselves should be liable; and that they have issued illusory circulars to induce the shareholders to part with their shares. The plaintiff charges excessive trading in the stock markets, and asks judgment for an account by the defendants in respect of the premises and payment by them of the company's losses, and also in respect of damages.

Shareholders Take Action.

A meeting of the dissenting shareholders was held in Toronto on Wednesday, at which a committee, comprising Frank Arnold, K.C., M. K. Cowan, K.C., and C. Sutherland, broker, were appointed to issue a circular to the shareholders setting forth the charges against the directors. These in brief are as follows:

1. No general meeting was held at the time appointed by law.
2. No report has been made by the directors up to date.
3. The company's accounts have not been audited or sent to the shareholders.
4. Some of the directors have resigned and there is not a full board at the present time.
5. The directors allege that they have advanced money to the company. The

FIREWORKS IN HOLLINGER STOCK SELLS OFF AGAIN

Porcupine Leader Comes in for Liquidating Pressure—Firm Tone in the Special Favorites—Cobalts Quiet But Generally Easier.

Hollinger provided the fireworks in the mining exchanges yesterday, a sudden drop in the shares, which dropped 25 points under scattered selling, being the only outstanding incident of an otherwise featureless market. Trading was somewhat more active than usual, but the improvement was not inspiring, and the net changes for the day were generally against the interest of holders.

The backward movement in Hollinger came with a swiftness which could only be accepted as indicative of the vulnerability of the list under present conditions. Liquidating orders were in the hands of brokers at the opening, but the demand was decidedly flat, and it was not until the afternoon board that any orders were filled. In all, less than five hundred shares changed hands, yet the price on that volume of trading dropped a full 25 points. No reason was assigned by market interests in explanation of the break, and some were required the occurrence being simply another demonstration of the absence of the public from the speculative movement. At the close the shares were quoted at \$12.00. The low point for the day was \$12.00.

While the break in the leader was not without an effect on sentiment, it failed to occasion any material selling, and on the whole the list maintained an even appearance. Jupiter was particularly firm, crossing 25 again, and holding its gain practically throughout. Vipond sold above 30 all day, and closed bid for 30 1/2, with none offering under 31 1/2. Crown Chartered was weak on the announcement of a proposed bond to issue bonds. The price dropped to 5 1/2, a fractional loss, and at the close

ANOTHER COBALT CAMP MAY BE MET AT DEPTH

New York Engineer Says Mines May Be Developed Under the Diabase.

W. L. Fleming, mining engineer, of New York, has gone into the Cobalt district with a view of looking over the very latest developments which have occurred in connection with the resumption of work in so many properties in that camp recently.

Mr. Fleming, before leaving said that all the information coming from the camp would seem to point toward the renewal of an active period. He said that geologically there seemed to be good reason to expect that another Cobalt might be developed beneath the great diabase-covered area. Mr. Fleming expects to be gone several weeks.

PRAYED BEFORE SUICIDING

"God Pity a Poor Woman Who is Lonely," Said Mrs. Johnson.

CHICAGO, Sept. 12.—(Can. Press.)—Mrs. Jack Johnson, wife of the world's champion heavyweight pugilist, who shot herself through the head last night, died at 2:30 this morning. She did not speak a word during her illness. She had been in the hospital when she died. A Roman Catholic priest administered extreme unction.

Mrs. Johnson called her two colored maids into her bedroom and told them she wanted them to join her in prayer. With an arm about each of them, Mrs. Johnson knelt at the bedside. The maids followed her example and the three prayed together for several minutes.

As they arose, Mrs. Johnson, pressing her hands to her face, said: "God pity a poor woman who is lonely."

She sent each of the maids into other rooms on grounds and before either had time to return a shot was fired. They found her on the floor fatally wounded.

WOODCUTTERS FOR NEW ONTARIO.
LONDON, Sept. 12.—(C. A. P.)—A party of some sixty woodcutters call on the Virginian tomorrow for Coalingham, New Ontario. The men are described as an ideal set of men, experienced cutters, who should prove a real acquisition to the Dominion.

GOLDFIELDS LIMITED

Goldfields, Limited, shares were offered on the Standard Exchange yesterday at 35. This is the stock of the Larder Lake Company, which has acquired the Harris, Maxwell, and other Larder Lake companies. A stamp mill was recently erected on the property and operations are understood to have already commenced. The shares were put out to the public some time ago, and are largely held in Toronto.

BARNARDO SECRETARY COMING.

LONDON, Sept. 12.—(C. A. P.)—Rev. W. J. Mayers, senior secretary of the Barnardo Home, sails for Canada on the 19th aboard the Sicilian in charge of an emigrant party of 200 girls and boys. The principal object of Mr. Mayers' visit is to advocate the claims of the institution for Canadian support, which hitherto has been very little. Mr. Mayers brings influential personal introductions from the Bishop of Durham, Lord Strathcona, Rev. Dr. Clifford and others.

HAULTAIN FOR THE BENCH?

OTTAWA, Sept. 12.—Hon. F. W. Haultain, opposition leader in Saskatchewan, is considered here as a likely successor to Chief Justice Walmersley of Regina, who has been connected with the judiciary in Saskatchewan and the territories since his arrival in the west from New Brunswick in 1887. He has expressed his desire to retire from the bench.

HOME RULE DEAD?

LONDON, Sept. 12.—(Can. Press.)—The Liberal press is jubilant over the capture of Gladstone's old seat for Midlothian as a knock-out by the government. The Liberal morning papers demand that Premier Asquith insert in the next electoral reform bill a clause which either by provision for an alternative vote or for a second ballot will prevent a constituency from becoming represented by a minority vote.

WHAT THE TOURIST BUSINESS MEANS TO SWITZERLAND.

The tourist business in Switzerland aggregates over \$100,000,000 a year. There is invested in hotels and restaurants, which depend largely upon tourists for their support, about \$175,000,000, and the aggregate number of persons employed in these establishments is over 100,000. With the increasing tide of tourists flowing yearly into Switzerland, the facilities for accommodating them are being increased and improved.

The Swiss people realize that the scenic beauties of the country constitute a valuable asset, and they are capitalizing these natural resources for what they are worth. The Swiss Government is being urged to create a federal office to supplement the society now engaged in the promotion of the tourist traffic which is maintained by the various cantonal governments, and to expend \$200,000 a year in attracting tourists.

With the \$300,000 which the railways, hotels and local development societies spend each year for the same purpose, this would mean an expenditure of \$1,000,000 a year for the encouragement of a trade which annually brings many millions into the country.

The season of 1911 was a prosperous and profitable one for the Swiss hotels, the number of tourists who go to the mountains and lake resorts being greatly augmented on account of the extremely hot weather that prevailed throughout the season.

MILITARY EMIGRATION LEAGUE.

Mr. E. T. Seammell will be very pleased to meet all ex-service men who can stand a social meeting at the British Welcome League on Friday evening at 8 o'clock.

THE METEORIC ROAD TO WEALTH

Earning Power of Money

When money is deposited in a bank at 3%, it is really rented, in a sense, to the banker. It cannot be called an investment, because no stocks or bonds are purchased. The banker takes your money, which he borrows at 3%, and makes it earn from 10 to 20 per cent., and often even more. The banker, having thorough experience in financial matters, and knowing the full earning power of money, has the ability to make it earn more. He makes it earn all he possibly can get by using it in various financial transactions. The question to-day is not how to save money, but to invest one's savings judiciously, where it will have the greatest earning power (yielding the largest rate of interest) consistent with safety. Generally speaking, there are only a few who realize the tremendous earning power of money when properly invested. Some believe that they must be content with 3 or 4 per cent. annual interest to obtain safety. Others feel that to obtain large interest they must plunge into hazardous speculation. Both views are radically wrong. There are a few points you must bear in mind to invest successfully.

First: Invest through HONEST MEN OF SOUND JUDGMENT; then invest where you receive your full proportionate share of what your money inherently earns, but to do this you must possess these two inherent qualities—JUDGMENT AND COURAGE. JUDGMENT will lead you to deal with honest men, and COURAGE will induce you to quick action in grasping opportunities which your judgment tells you will make you money. You must invest in a company which has its future before it, not behind it. You must link your fortune with men of fortune, with men of honesty. In this lies the secret of safe and profitable investment. We particularly invite the attention of the careful investor who desires the safety of his principal and the largest consistent interest returns, to the oil fields of California.

Gold fields and diamond mines from time immemorial have always been considered the most concentrated form of this world's wealth, but modern inventions, new machinery and the adoption of gasoline for automobiles, etc., have completely revolutionized this old theory. OIL TO-DAY STANDS FOREMOST AMONG THE WORLD'S INDUSTRIES. It would be almost impossible to name a trade, profession or a business in which large quantities of oil in some form is not being used. California is the big feeding port of the world, and the export oil business for the next twenty years will make great headway, and oil stocks will rise to points never equaled before. Intelligent comparison of all the different forms of wealth-getting will show you that the best field for investment by honest, intelligent men, offers the best industry, conducted by honest, intelligent men, offers the best field for investment to those of limited means. It requires less labor and time than any other industry producing similar profitable outputs. It is an industry that adds to the world's wealth, and takes from no one, the profits coming from nature's treasure vaults. BAD TIMES CAN NOT AFFECT THE OIL INDUSTRY, because oil is necessary to force the wheels of commerce around. The demand

to-day for high-grade oil is much greater than the supply, and is likely to be so for many years to come, and, further, there is no industry that can pay the returns on invested capital that can equal those that are being paid by the producing oil companies of California. For an illustration we want to call your attention to the Standard Oil Company of New Jersey, which in the first three-quarters of this year has paid out \$35,284,037 in dividends to its shareholders.

The Dominion Oil Company, whose Treasury Shares we are offering you at \$1.25 per share, offers a rare opportunity of associating yourself in this tremendous money-making enterprise. The Company is capitalized at \$1,000,000, divided into 1,000,000 shares of the par value of \$1.00 each, 500,000 shares of which are Treasury Shares. The Company own 240 acres of proven oil lands, situated in Coalinga, the richest of all the California oil fields, which are admitted to be the greatest in the world. Their well is drilled to a depth of nearly 3,000 feet, and the sinking is being pushed as rapidly as the most modern machinery will permit, and a big flowing well is practically assured. The Canadian Coalinga Company, whose property adjoins that of the Dominion's on the north, recently brought in a well which is producing over 7,500 barrels of high-grade oil per day, which is netting that company over \$2,000,000 per annum. Their shares, which you could have purchased under \$1.00 before they brought in their big flow, are now selling above \$20.00 per share. The formation through which the Dominion are drilling is identically the same, and they are sure to bring in the same big flow. Then what will their stock be worth?

The Directors of the Dominion Oil Company are all well-known, successful Canadian business men, and it is doubtful if there ever was another concern seeking public investment that presented such an array of capable, energetic men as its officers. The records of these men speak for themselves. Each and every one of them has been successful; they have been leaders among men; their record is clear; their business associates honor them and their competitors respect them. Be sensible: Would men of their standing, with the records that they have shown you, be officers of a company that was not legitimate, or was not sound, and did not have large dividend-paying possibilities. A purchase of the shares in the Dominion Oil Company offers a rare opportunity for a safe and profitable investment. We court the fullest and strictest investigation possible.

Write us at once for illustrated prospectus and full particulars of the Dominion Oil Company, which will be cheerfully mailed to you on request, without any obligation or expense on your part.

The profits that will be made in oil in the next few years will be enormous, and you cannot afford not to investigate the opportunity which the purchase of the shares of the Dominion Oil Company at \$1.25 per share offers to you.

LONDON MARKET
IS UNSETTLED IN
EARLY DEALINGS

LONDON, Sept. 12.—Money plentiful.
Discount rates firmer. The stock market
closed steadily after an unsettled
opening. Fresh buying
appeared in home rails. Kaffirs
and rubber shares, while the weekly
statement of the Bank of England
helped gilt-edged stocks. Mexican
railway shares, however, finished
easy.
The market for American securities
opened steady and advanced on light
covering, but prices sagged in the late
going in the absence of support. The
tone was dull.

CONSOL. SMELTER'S
ANNUAL NEXT MONTH

The annual meeting of shareholders
of the Consolidated Mining and Smelting
Company, which more than ordinary
interest attaches this year because of
expectations of an announcement of
dividend resumption, will be held Oct.
12. The meeting would ordinarily be
held this month, but owing to the ab-
sence of President W. D. Matthews in
the west has been held over.

COTTON MARKET MADE
A SHARP RECOVERY

Erickson Perkins & Co. (J. G. Beatty)
wrote: The local market took its cue
from Liverpool this morning, where
prices were firm. Our opening was a
full response to the cables, which en-
couraged bullish operations and buying
by their trading following. Another
national "gossip" rumor, which placed
the condition at 74 per cent, aided in
the recovery. The market promises to be
more two-sided, as the aggressive trad-
ing is financially strong enough to hold
their position thru the period of crop un-
certainty. But on bulges like that of
today we prefer to be on the advance.

NEW LOW RECORDS

Erickson Perkins & Co. (J. G. Beatty)
wrote: After achieving new low re-
cords for the current year, with particu-
lar reference to leading railroad
and steel shares, stocks began to rally
at mid-afternoon, and local shorts
found offerings rather meagre when
they attempted to cover. This they
were influenced in doing by an earlier
tendency for call money. Shrewd trad-
ing in their covering operations, and
our belief that the market will again
see of its own weight.

UNCLE SAM
WANTS WORLD
STEEL TRADE

The Bethlehem Steel Corporation has booked
foreign orders aggregating a total of be-
tween \$14,000,000 and \$15,000,000. The
amount of business taken by the
Bethlehem company from foreign
countries for armor plate, guns, and
ordnance, of nearly every description,
is unprecedented, and is regarded as
one of the greatest developments in
the progress of America's iron and
steel industry that has taken place
since the country produced its first
ton of iron.

HOLIDAY TIME IS OVER.
Announcement is made that the Tor-
onto Stock Exchange will resume its
regular morning sessions on Sept. 14
next.

TIGHT MONEY
CHECKS MARKET

Toronto Stock Exchange Fails
to Develop Any Enthusiasm
—B.C. Packers Reaches
New Record.

Considering the fact that money condi-
tions in Toronto are not at all favor-
able to speculation at the present
time, the local stock market gave a
satisfactory account of itself yester-
day. Trading on the morning board
was of fairly active proportions, quite
up to the usual standard, and while
the semi-activity dwindled into abso-
lute lassitude later in the day, a small
amount of interest was displayed at the
close.

With money practically unavailable
for stock market purposes, it is only
natural to expect dormant trading and
consequent narrow action to prices
just at this period. The banks have
called loans pretty freely during the
past week and while old-established
brokerage houses with the best of con-
nections report that they have not
been at all embarrassed, the general
run of traders have not been quite so
fortunate.

Market movements yesterday were
confined to small volume, with steady
prices the rule rather than the excep-
tion. The most outstanding incident
was the establishment of a new high
record on British Columbia Packers
Common, which rose an additional two
points to 122, the highest price in his-
tory. The extent of the recent rise is
plainly demonstrated in the fact that
since a week ago the stock has risen
exactly 14 points. Other firm spots
were Dominion Steel Corporation, which
crossed 65 for the first time this
month; Consumers Gas, which brought
136 for a broken lot, and Bank of Tor-
onto. The latter sold at 210, a gain of
two points for the day, thus nearly
making up its dividend which came off
the first of the month.

The Brazilians were quiet, being in
no particular demand at any time. Rio
deposit receipts changed hands at 145,
unchanged for the day, and the stock
closed offered at 145 1/2 with no bids.
Mackay Common was quoted ex-divi-
dend down to 35 3/4, equivalent to 37
for the current year. Monday Common sold
at 33, a loss of 3 1/4 points for the day,
for some unexplainable reason. The
dividend payments on this issue do not
commence until November next, and
the market for the stock meanwhile is
narrow in the extreme. The preferred
was off a fraction to 52. General Elec-
tric, Rogers Common and Richelieu
were all slightly lower for the day.

POOL FORMED
TO OPERATE
IN BRAZILIAN

A pool arrangement in Brazilian
Traded is already under way and be-
fore the 1,045,000 shares, representing
the \$104,500,000 outstanding capitaliza-
tion of the company, have been issued
on October 15, 1912. The members of
the pool will have tied up their stock for
a definite length of time in the idea of
obviating any possible swamping of the
market by parties bent on profit-tak-
ing.

On account of the huge floating sup-
ply of the stock of the new holding
company, which will rule the destinies of
Rio, Sao Paulo and Sao Paulo Elec-
tric from now on, there has been some
apprehension in certain quarters re-
garding the outlook for the new shares,
particularly on account of the growing
tightness of the money market. The
big majority of holders must have big
profits in sight at present prices, and
if the insiders attempt to dispose of
their shares, a collapse might easily
follow. It is in this idea that the pool
is being formed, since it is felt that
given a fair chance and a continuation
of the present satisfactory showing of
the subsidiary concerns, the holding
company will easily justify the present
valuation of the stock, particularly
since the shares are to carry a six per
cent. dividend. For a time some diffi-
culty may be experienced in getting the
market to digest the inevitable profit-
taking by small holders, but once the
available supply of scrip held by the
simon-pure speculators has been raised
to a safe basis, interests closely con-
nected with the organization believe
that there will be a clear path ahead.
It is understood that the pool will
endeavor to hasten the distribution of
Brazilian by marking up the price in
the market, with a view to making the
stock look more attractive. This state-
ment may seem somewhat of an anomaly,
but it is a fact that investors are
much more readily persuaded to buy a
security carrying only a fair rate of
interest than one which yields a com-
paratively high return. Brazil is re-
listed in London and Brussels, as
well as in Toronto and Montreal, and
much of the scrip is expected to lodge
permanently with foreign investors.

IRON OUTPUT
IN AUGUST
NEAR RECORD

Production of iron in the United States
during August was considerably
in excess of what it was in July,
but slightly below the output in May.
According to the figures of the
Bureau of Mines, the country
produced in August 2,512,431 tons, or 81-
90 tons a day, against 2,436,386 tons, or
77.28 tons a day in July. In May the out-
put aggregated 2,512,532 tons, or approxi-
mately 80 tons in excess of what it was
last month.

Last month's iron production was at the
level of 2,380,000 tons a year, and there is
now every indication that the country's
production for the full year 1912 will ex-
ceed the best previous year's record by
at least 1,800,000 tons. The following table
gives the production of anthracite and
coke pig iron each month since the first
of the year, compared with the corre-
sponding months of the preceding year.

January	2,067,911	1,759,000	2,067,900
February	2,100,816	1,794,500	2,067,264
March	2,466,218	2,171,111	2,617,950
April	2,275,438	2,064,088	2,482,763
May	2,512,532	2,884,686	2,880,189
June	2,440,745	1,737,586	2,385,178
July	2,410,889	1,793,068	2,148,443
August	2,512,431	1,938,627	2,187,687

EARLY LOSS
WAS RECOVERED

New York Market Governed by
Money Conditions—Specu-
lation Dwindles--Special-
ties Show Buoyancy

NEW YORK, Sept. 12.—The course
of today's stock market, like that of
the preceding session, was governed
almost entirely by monetary condi-
tions. Call loans opened at 5 1/4 per
cent after considerable delay, later ad-
vancing to yesterday's rate and the year's
high rate of 5 1/2 per cent, while
stocks declined.

In the last hour, when rates releas-
ed in a large part of the early loss
was recovered. Indeed some slight net
gains were established, but the under-
tone of the list continued somewhat
halting. The drain of money to the
sub-treasury and interior points con-
tinued and local banks called loans
very generally. To date home insti-
tutions have lost over \$5,000,000, which
threatens a large decline in next Satur-
day's reserves.

Market of Specialties.
Dealings in stocks were less than
yesterday, but there was a further move-
ment in some of the high-priced spe-
cialties, also a belated demand for Col-
orado Fuel, which rose smartly in the
final dealings on fairly large transac-
tions.

One of the day's developments was
the institution of receivership proceed-
ings against the U. S. Motors Co.,
whose securities have suffered steady
declines on the curb. The news oc-
casioned little surprise.

London's average for our stocks was
decidedly higher than that recorded at
the opening here. Support of our issues
abroad, however, was attributed to
professional interests with intimate
New York connections.

RECORD SIZE
PURCHASE OF
SHORT BONDS

The market for municipal securities
received an unexpected impetus from
the announcement that the Dominion
Bond Company, Limited, had pur-
chased \$1,200,000 one-year notes of the
municipality of Point Grey, a suburb
of Vancouver. This is the largest pur-
chase ever made by a Canadian bond-
holder of short-term municipal securi-
ties for distribution at home. Like-
wise Point Grey has the distinction of
being the first Canadian municipality
to issue stock 1 1/2 per cent. While
this is a record yield for a first-class
municipal security, it is apparent from
the reputation of the bonds and the
house of short-term municipal securi-
ties for distribution at home. Like-
wise Point Grey has the distinction of
being the first Canadian municipality
to issue stock 1 1/2 per cent. While
this is a record yield for a first-class
municipal security, it is apparent from
the reputation of the bonds and the
house of short-term municipal securi-
ties for distribution at home.

STEEL PRICES
HAVE RISEN
ACROSS LINE

NEW YORK, Sept. 12.—Taking the
"official" prices on the leading iron
and steel products as a basis, the av-
erage for nearly representative prod-
ucts is nearly \$2.50 per ton higher than
at the end of January of this year,
and \$4 per ton higher than the low
price of last year. The average at pre-
sent for the eight leading steel prod-
ucts, including steel bars, plates, tin
plate, wire nails, Bessemer iron at
\$34.60-1/2 per ton, compared with \$33.80
a month ago, \$32.50 two months ago and
\$30.70 a year ago.

Every steel product, with the excep-
tion of rails, has been increased in the
last 30 days, and as the mills are so
filled up with orders for rails, plates,
bars, tin plate and nails, that they
will not sell this year's delivery with-
out asking a premium, there is every
reason to expect advances of at least
\$2 per ton before the new year.
