Hamilton, May 27.—(From The World's Staff Correspondent.)—The Procession Jubilee Committee tonight brought the arrangements for the Diamond Jubilee celebration a step of two weeks completion. The school children of the city will lead the procession on June 2. After them will come the military, and following the Canadian Club, A telegram was received from Mr. Grant, in Ottawa, stating that the Government will be pleased to assist in the transport of the Six Nation Indians to Hamilton.

Christ Church and Baseball.
The Christ Church Company of the Church Boys Brigade elected a junior baseball nine, captained respectively by John Holt and John Raye. Warden Harvey Holt was made manager. The seniors play their first game on Monday next with Company 5 in Victoria Park.

The Board of Water.
The Committee of the Board of Water that went to Buffalo this morning to inspect the steam roller returned tonight well pleased with their visit. The machinery roads at Depue were inspected, and likewise the Pits Works, and the committee came to the conclusion that the water works were just the thing for Hamilton. A meeting of the board will be held to-morrow night.

A Big Blast.
The Garshore-Thompson Pipe Foundry was badly damaged by fire tonight. The

Two Labor Disputes Likely to be Amicably Settled—Representation on the Tax Exemption Convention Demanded for Boards of Trade and Labor Organizations—Infringement of the 15 Cents an Hour Law—Permanent Building Wanted for the Technical School.

There was a well-attended meeting of the Trades and Labor Council last night, with W. H. Anderson in the chair, and J. A. O'Donoghue, on behalf of the Legislative Committee, reporting that the long-standing differences existing between the Board of Trade and the Gas Company in regard to settlement by arbitration, such action being proposed by the firm.

Correspondence is being conducted with the Board of Trade, and the firm's representative, it is said, locked out his men on the 8th instant on the assumption that they were not interested in the question. The result of the correspondence will be made known at next meeting.

The report was adopted.

Tax Exemption Convention.
William Joyce, secretary of the Municipal Committee, in his report, advocated the retention of the Tax Exemption Convention, and while doing so, requested that the Municipal Committee should send a delegate to the Tax Exemption Convention being held at the Hotel Hamilton, on the 30th inst.

FIFTH DAY AT WOODBINE.

Favorites Win Four of the Six Races.

A STEEPLECHASER KILLED.

Samson and Hurns, Second Choices, Finished in Front.

Have, Harplot, Downright and Dem Pedro Were the Winning Favorites.

Five Day and Fast Track at the Park.

Program and Selections for Today.

The Ontario Jockey Club was favored with perfect weather for the fifth day of the spring meeting.

The crowd was the smallest of the week, but, although the fields were small in a number of races, they witnessed some good events and close finishes.

A few more bookmakers have gone off the block, but still there were enough doing business to make it interesting for the seekers of odds, and they kept up a merry game throughout the six races.

The track was perfect, and as a result fast time was made. Have covering a mile without much effort in 1:48, the fractional marks being 25, 40 1/2 and 1:13. Harplot made a Canadian two-year-old record for the track, going a half mile in 40 1/2 seconds.

Favorites won four of the six races, well-played chases being the other two. There were only three horses left for the opening event, and Fredrick (Graham) should have been run off the track. He made a sorry showing, and was hoisted as he came up the home stretch about a furlong before the race was over.

Have, Harplot, Downright and Dem Pedro were the winning favorites.

THE SLATER SHOE

The Slater Shoe

Is the Thinker's Shoe.

Men of great mentality can make money—and keep it.

It pays to think. Thoughts move the world.

A Shoe Demonstration.

That appeals to your intellect, and to your better knowledge of trade methods—such is the exhibition of the "Slater Shoe" now going on at the Toronto Slater Shoe Store.

There is a display of shoes—a study in leather, intelligent clerks to tell you of them.

Object lessons in shoe construction. Process of making the "Slater Shoe."

Particulars of different leathers. How to select shoes for the shape of your feet.

The sort of leather required for them. Effect of polish upon leather, etc.

There's the product of a Canadian factory that is equipped with all the best modern shoemaking machinery—a factory that has specialized their product—making only one single kind of Goodyear Welted shoes for men—that one kind made in all sizes, widths and shapes—each perfect pair stamped with price and registered guarantee.

Think! Ten minutes in the "Slater Shoe Store" will be a profitable and pleasant. Only one store—this.

A \$6 SUIT FOR \$2.50

Not for profit, for there's a loss for us on every sale, but we think there's a gain, too, of course. We think there's a gain in bringing a good many people into this store, and in having them go out with more than fair money's worth. We think there's a gain in that, even though we lose a little by it, now and then. The more people we can get to see our goods and prices, the greater our chance for selling, and for profit. We think a great many people who never stepped inside our store will come for a suit. We're going to give them a suit that, by its good looks and wear, will bring them back to our store for the other good things that we sell. These suits are made from all-wool materials, neat plain patterns, strongly sewn, serviceable trimmings, single-breasted saque styles. Only one to a customer, and none at \$2.50 after this lot of 150 is sold.

Have You a Sweater?

300 Men's All-Wool Sweaters, fashionable colors, turn-down or standing collars; regular price \$1.25; on sale Saturday 65¢ for.

THE BAPTIST CONVENTION. Report of the Board of Foreign Missions.

THE WORK DONE IN INDIA. More Converts Baptized Last Year Than in Any Previous One.

Importance of Church Organization and Central Influence in Raising the Convicts from the Debauching Influences of Heathenism—Baptist Missionaries Did Not Suffer Much From Financial Statement of the Home Department Presented.

London, Ont., May 27.—Proceedings at the Baptist convention were opened this morning by a 20-minute address by Rev. H. P. Welton, on the subject, "Jesus Christ, dealing with Individual Souls," after which Rev. Richard Hobbs of Akin-street Methodist Church spoke a few words of welcome. Rev. M. P. Talling, who was in the audience, also welcomed the visitors on behalf of the Presbyterian denomination, and of the Ministerial Association. A letter was also read from the management of the Y. M. C. A., offering the free use of their building to the visitors.

Foreign Missions. The thirty-first report of the Foreign Mission Board was read by the secretary, Rev. A. P. McDiarmid. Evangelistic work was the first subject treated under the head of the foreign department. A review was made of the work done in India during the year, commencing with the most southerly fields, and proceeding in regular order northward. The number baptized during the year was 478, an increase on the number baptized in any other year. The importance of the number baptized during the year was 478, an increase on the number baptized in any other year.

Temporarily Suspended. The John Eaton Company have sent out the following notice: "Owing to the disastrous fire of Thursday, 26th inst., by which our entire stock and premises were destroyed, our business has been placed temporarily to suspend payment of all accounts. The insurance companies and our own adjuster will commence work on our books at once, and without doubt in a few days the company will be able to meet all liabilities and to continue business as usual."

The Famine. Referring to the recent famine, the report said: "The people of our field have not suffered as severely as those of some other sections of India. On the Vaynura field much damage was done to crops and houses by a flood. In the northern fields, owing to the lack of irrigation facilities, they suffered more from the drought than in other parts of our mission. But over the field generally the famine prices of food have caused much distress among those living on the rugged edge of want under the most favorable circumstances. Though the plague, which has wrought such havoc in Bombay and other places on the western side of India, has not touched the people of our district yet, smallpox and cholera have not been absent. There was quite a serious outbreak of cholera in some of the villages of the Akhidi field."

The Home Department. The report of the Home Department opened with the financial statement of the year, which showed that, notwithstanding unforeseen expenditures, the income met all the expenditure of the year and reduced the debt of \$670,111, with which the year began, to \$515,047, that is, \$155,064. The total receipts for the year were \$30,236,072. A brief analysis of the income, including receipts for famine relief, and a comparison with that of last year, will be of interest. The

PEARY GOING NORTH AGAIN. He Will Start on July 8 and Will Make a Preliminary Trip This Summer, to Be Followed by a Longer Trip.

New York, May 27.—Lieut. Robert E. Peary, who yesterday received a five year leave of absence from his duties in the navy, for the purpose of making another attempt to reach the North Pole, will start north on July 8, making a preliminary journey, the sole object of which will be to make arrangements for the final trip, which will be begun in July, 1898. Lieut. Peary will first pick out a ship for the preliminary voyage. He will select one of the St. John's sealers, which will go north with him to a point near Melville Bay. One of the parties will be conducted by Prof. G. H. Barton of the Massachusetts Institute of Technology. Another will be led by Prof. C. H. Hitchcock of Dartmouth and a number of Yale students will probably organize a third party. These scientists will work independently of each other, but will be in communication with each other. The results of their studies will be in no way concerned with the expedition.

FINISHED THEIR WORK. Railway Telegraphers' Convention at Peoria Closed Yesterday.

Peoria, Ill., May 27.—The Order of Railway Telegraphers adjourned sine die this morning after a night's session. W. V. Powell was re-elected grand chief; T. M. Tierson of Indianapolis, first assistant grand chief; James B. Finnan of Baltimore, second assistant grand chief; H. B. Perham of Cripple Creek, Col., grand secretary and treasurer, and editor of the official organ, La Tanguary, of Parkersburg, Charles Daniels of Atlanta, William White of Toronto, Canada; H. C. Maloney of St. Louis, and G. L. French of Cambridge, Md., grand Executive Committee. A ladies' auxiliary was organized with Mrs. W. H. Allison of Toronto, Canada, as president; Mrs. A. J. Powell of Peoria, vice-president; and Mrs. F. M. Lochner of Peoria, secretary and treasurer.

Death in Prison. Paris, May 27.—The three days' trial of Gregoire, a horse painter, Mile, des Hayes, was held in the Assize Court, Paris, today, all charged with human brutality to his wife. Gregoire, who was married in December last, when the relations made caused a sensation in Paris and earned for him the name of "Le Petit Martyr" (the little martyr), has just ended his life in prison. He was sentenced to five years' imprisonment at hard labor for life at hard labor. Mile, des Hayes, who was charged with the intense feeling was manifested against the prisoners, and the people in the courtroom cried "A mort" (death to them).

Inventor Nobel's Bequest. Washington, May 27.—Some interesting details of the vast bequest made to the public by Nobel, the inventor, have been made public by the State Department. Alfred Nobel, who recently died in Sweden, provided for his will, dated at Paris, November 27, 1895, for the devotion of some 95,000,000 francs for the advancement of science and literature, and it is thought that at 3 per cent per annum the income from the bequest will amount to \$240,000 or more. This latter sum is to be distributed annually in five prizes. Each individual prize will therefore be worth \$48,000. One of the bequest-titles are contesting the will, and this will probably delay the distribution of prizes.

Revolt of Military Cadets. Paris, May 27.—A despatch received here from Rio de Janeiro announces that a revolt has taken place at the military school there. The cadets eventually submitted to the troops, after pitching their arms and ammunition into the sea.

COUNTY AND SUBURBAN NEWS. Judges of Interesting News Gathered by a World Correspondence Over a Wide District.

Toronto Junction, May 27.—(Special).—Mr. A. G. Harrison, a Castelemer merchant, was detained here overnight by a sudden storm yesterday, as the Council to pass a bylaw to protect the prospective cinder pits on Newbury Hill. Mr. Kingdon explained that he thought there was some misunderstanding as to the terms of the bylaw. He thought that the bylaw would certainly place the portion of the road out of the control of the municipality, which should have been retained to remain, might mean expensive litigation. He thought that some restriction should be placed on the speed and liabilities of the prospective cinder pits. The bylaw would be placed on the road. If a better offer could be made, he would be willing to accept it. Mr. Kingdon said that he would be willing to accept it. Mr. Kingdon said that he would be willing to accept it.

THE N. P. VILLIAGE.

The Globe is gradually throwing aside its old-time free trade theories. It is going further. It has become a convert to a new political faith. The Globe openly professes itself as a believer in the doctrine of a National Policy for Canada. It approves of it none other than our old friend, the N. P. The Globe does not say so in as many words, but its articles for the past few weeks have all been based on sound N. P. philosophy.

Formerly the Globe used to preach the free trade doctrine. Its policy for Canada was based on the Cobden school of politics; to buy in the cheapest and sell in the dearest market; to use the cheapest and most direct methods of transportation, no matter whether foreigners got our carrying business or not; to disregard political barriers, as far as trade was concerned; to subject commerce, trade and industry to as few restrictions as possible. The less interference with trade by the Government the better for the country.

Since the Liberal party has assumed the responsibility of running the country the Globe has had to modify its views very considerably. It now recognizes the fact that Canada has a political as well as an industrial and commercial existence, and that the latter is the more powerful and dominating element. Formerly the Globe thought that trade was the be-all and end-all of nations. Now it seems to be grasping the idea that a nation's independence and political autonomy should be protected.

The Globe applies its new theories to present-day politics. If the Globe were arguing the merits of the proposed railway between Winnipeg and Duluth two years ago it would have supported the proposal on the ground that trade should be allowed to move in natural channels, independently of political barriers.

Today, however, it enunciates the theory that "it is necessary to consider our destiny as a nation" in considering the proposal to subsidize a railway from Winnipeg to Duluth. "The facts of political geography," says the Globe, "are just as real as those of the physical conformation of the country; national sentiments and national prejudices must be reckoned with."

Speaking of the National Policy of the United States to shut Canada out of its markets, our contemporary says that "Canada is forced to seek trade within her own borders or with countries more remote than the United States." This is a pretty fair enunciation of the principle underlying the National Policy, and the theory of protection to increase trade within our own borders, and which involves the principle of closer trade relations with Great Britain. Speaking of the late Government's policy of applying protection to this country, the Globe says: "The idea was audacious, almost desperate in its audacity and its contempt for economic laws, and yet, in justice, it must be said there was some excuse for it in our peculiar position on this continent."

THE CURSE OF CANADIAN PARTY POLITICS.

The curse of Canadian party politics seems to be that men who have made themselves objectionable to their party have not the common-sense to relieve it of their presence in the organization, but insist on their being carried in. In the hand wagon at the front of the procession. Let them, if they are good party men, fall in at the tail for a time. As for Mr. Birmingham, he served his party faithfully as he saw his way and has strong claims for some kind of recognition, but usefulness is one thing and recognition another, and must be kept apart if the Conservatives hope to see success.

THE EMPRIE'S WHEAT SPOY.

The British Empire is the greatest national landhold in the world. Over 11,000,000 square miles is the extent of the imperial domain, or 21 per cent. of the land of the whole globe. Queen Victoria rules over 402,000,000 people. The Empire leads the world in manufactures, trade and commerce. It has the greatest navy in the world and the greatest merchant marine. No other country can compare with the British Empire in any of the essential features that go to make up a great nation.

Formerly the British Empire was the greatest national landhold in the world. Over 11,000,000 square miles is the extent of the imperial domain, or 21 per cent. of the land of the whole globe. Queen Victoria rules over 402,000,000 people. The Empire leads the world in manufactures, trade and commerce.

THE CITY OF SEVEN HILLS.

Was a Scene of Splendor and Pomp Yesterday.

THE BASILICA THROGGED.

Old St. Peter's Has Had Nothing Like It in Recent Years.

The basilica was thronged. According to estimates 40,000 persons were present. The approaches to the sacred edifice were lined by Italian troops. Inside the building were the Pontifical Guard and the Swiss Pontifical Guard. Young men belonging to the different Catholic societies, under the direction of the Pontifical Chamberlain, acted as ushers.

From as early as 8 o'clock in the morning an amazing stream of carriages and pedestrians set toward the basilica, and by 9 o'clock St. Peter's was crowded. Its interior was a scene of indescribable illumination was a scene of indescribable illumination was a scene of indescribable illumination.

After the first request, the Pope intoned the Litany of the Saints. After the second request, His Holiness intoned the Litany of the Saints. After the third request, His Holiness intoned the Litany of the Saints.

The canonization being completed, Cardinal Luigi Greggi Di Santo Stefano, dean of the Sacred College, and Camerlengo of the Holy Roman Church, celebrated Mass, gifts, emblematic of the canonization were offered to the Pope.

The music of the mass was chanted by the choir of the Sistine Chapel, and at the moment of the elevation, the famous silver trumpets played a prelude to a chorus of several hundred children stationed in the gallery of the dome.

THE BIBLE SOCIETY.

Annual Meeting of the Venerable Agency for Upper Canada—The Year's Report—Reduction in Contributions.

The fifty-seventh anniversary of the Upper Canada Bible Society was held in association with the Year's Report. G. W. Allan occupied the chair. Bishop Sullivan gave an admirable address on "The Book of Books—the Bible."

A printed retrospect of the work of the society since its organization in 1828 is the most valuable part of the report. It shows the progress of the work of the society since its organization in 1828 is the most valuable part of the report.

The report stated: "Since the last anniversary we regret to have to record the removal of two of our directors by the Rev. John Muir, both of whom were earnest, active members, and their vacancies were filled at our board and committee meetings."
