JELICOE REPORT ON PROPOSED CANADIAN NAVY ISSUED

REV. EDGAR WATSON MOVES THE REPLY TO THRONE SPEECH

Upholds Farmer as Be-All and End-All of Human Industry. NO CARPING CRITICISM

The fundamental notion in the highly rhetorical outpouring of Rev. Edgar Watson, mover of the address in reply to the lieutenant-governor's speech, was that the farmer is the beginning and ending of all our existence. If the farmer should go on strike everyone would quickly starve.

Mr. Watson is a Baptist preacher from North Victoria. He probably does not know his deskmates intimately. Hon. F. C. Biggs regarded him with bulging eyes when he began to rant his financial vidi aquam, but when he jumped from watered stock to the milky way of money making Mr. Biggs shook his head and a God-fearing shareholder in a dairy company should and probably gave him up as a hopeless case.

Mr. Watson named the sum of six thousand dollars as the minimum price for a Haliburton farm, which made the farmer audience as well as the crowded gallery sit up and take notice.

Mr. Crockett, who speaks with an English accent not at all unlike the late Allan Studholme's, showed promise of wearing the mantle of the popular Hamilton labor man worthily.

Rev. E. Watson, Victoria North, moved the address in reply to the lieutenant-governor's speech. He struck a loud note as a God-fearing world to be in an uproar, and said social conditions showed men's minds changing as never before.

NOT TO TAKE OVER TURK GOVERNMENT

But Peace Conference Will Assume Control of Certain Governmental Activities.

London, March 10.—The peace conference spent the day in trying to work out the details of military and naval plans in connection with Turkey, giving particular attention to Armenia. Admiral Beatty, Winston Spencer Churchill, secretary for war, and others were called in to give their opinion.

Countering the efforts of the Democratic reservationists, Senator Hitchcock of Nebraska, the administration leader, spent a busy day in conference with his colleagues, seeking to hold enough in line to balk the acceptance of a disintegrated compromise.

U. S. SENATE IN A TANGLE OVER MODIFIED RESERVATION SECEDERS ON BOTH SIDES

Negotiations Continue, But Reservation Republicans and Democrats Threaten to Break Away From Their Leaders—Doubtful if Compromise Will Carry.

Washington, March 10.—The peace treaty compromise negotiations entered a period of fevered uncertainty today as the time approached for final senate action on article ten.

Working desperately for an agreement in interest of effect, tonight the chamber confounded the plans of their party leaders and threw the senate into such a tangle that it tacitly was agreed to delay a vote for several days in the hope that all elements might be more certain of their ground.

Meantime disagreement among the Democrats became more pronounced, partly as a result of a meeting in the Oklahoma, at which a number of Democratic senators are understood to have expressed disapproval of the course of their party leaders and to have promised active support to the movement to break away from President Wilson and accept the best compromise they could get.

Among some Republican advocates of compromise it was declared tonight that 32 Democratic votes could be mustered for the article 10 substitute, and there were indications that unless the Republican mid reservationists might do so, it also was suggested that if the Republicans abandoned it entirely, it might be presented by a reserved Democrat.

Well informed persons, however, express confidence that tomorrow's congress will be reluctant to approve any extremist action and that it will urge, instead, continued efforts to obtain nationalization aspirations through legitimate constitutional means.

NAVAL MAN'S HOME IN DUBLIN RAIDED

London, March 11.—The latest suspect held in Dublin Castle is Lieutenant-Commander Erskine Childers, whose home was raided by soldiers Tuesday, according to The Daily Mail's Dublin correspondent. Childers is a commander in the naval reserve and a son of the former chancellor of the exchequer.

COAL MINERS FAVOR STRIKE TO ENFORCE NATIONALIZATION

British Trades Congress, However, Will Consider the Means to Effect It. MAY NOT MEAN TIE-UP

London, March 10.—The national conference of coal miners at its session today declared in favor of a general strike as a means of enforcing the demand for the nationalization of the mines.

Well informed persons, however, express confidence that tomorrow's congress will be reluctant to approve any extremist action and that it will urge, instead, continued efforts to obtain nationalization aspirations through legitimate constitutional means.

BUILD AN ALL-CANADIAN NAVY IS ADVICE OF LORD JELICOE GIVEN IN HIS OFFICIAL REPORT

Four Alternative Suggestions For a Canadian Battle Fleet

Ottawa, March 10.—In his report to the Canadian government on naval affairs Admiral Jellicoe submits four alternative suggestions for a Canadian fleet: First—Twenty-five million dollar fleet: Two battle cruisers, seven light cruisers, one flotilla leader, twelve destroyers, one destroyer parent-ship, sixteen submarines, one submarine parent-ship, two aircraft carriers, four fleet mine-sweepers, four local defence destroyers, eight "P" boats, four trawler mine-sweepers.

Second—Seventeen and a half million dollar fleet: One battle cruiser, five light cruisers, one flotilla leader, six destroyers, one destroyer parent-ship, mine-sweeper, four local defence destroyers, eight "P" boats, four trawler mine-sweepers.

Third—Ten million dollar fleet: Three light cruisers, one flotilla leader, eight submarines, one submarine parent-ship, four local defence destroyers, eight "P" boats, four trawler mine-sweepers.

Fourth—Five million dollar fleet: Eight submarines, four local defence destroyers, eight "P" boats, four trawler mine-sweepers.

Dealing with the question of administration, Viscount Jellicoe reports, in part as follows: "In considering the question of naval administration, it is impossible to omit mention of the immense advantages that result from keeping the naval service outside the region of party politics."

Also Suggests as One Alternative a Fleet Unit as Aid to Imperial Defence—Costs Vary Up to \$25,000,000—Minister of Navy Must Be Separate Office.

Ottawa, March 10.—(By Canadian Press).—An all-Canadian navy, preferably directed by a naval board which will be under the civil control of parliament and of which the minister of the navy will be head, is, in a word, the recommendation of Viscount Admiral Jellicoe, whose report on Canadian naval affairs was tabled in the house of commons by Hon. C. C. Ballantyne this afternoon.

DEPARTMENT HEADS TO GET \$10,000

Faculty of Medicine Confers With Representatives of Rockefeller Foundation.

An additional \$200,000 a year on an outlay of \$4,000,000 at 5 per cent. is the latest recommendation of members of the faculty of medicine at Toronto University. This recommendation is receiving the consideration of the Rockefeller Foundation, comprising Dr. R. M. Pearce and Dr. George E. Vincent. Under the new scheme heads of departments will receive not less than \$10,000 a year, and be allowed three hours a day for their own private practice. The routine as outlined by the recommendations will give the heads of departments four hours at their departmental duties, and the afternoon hours, from one to four at the hospitals, or wherever their private work takes them.

The recommendations further recommend the limitation of the number of first year students to 125, in order to provide for the proper education of all such students, accommodation having hitherto proven to be too limited to give these students full scope in their studies.

YOUNGSTERS!

Need "Cascarets" when Sick, Bilious, Constipated. When your child is bilious, constipated, sick or full of cold; when the little tongue is coated, breath bad and stomach sour, get a box of Cascarets and straighten the little one right up. Children gladly take this harmless candy-cathartic and it cleanses the little liver and bowels without gripping. Cascarets contain no calomel or dangerous drugs and can be depended upon to move the sour, bilious, stinky and indigestible waste right out of the bowels. Best family cathartic because it never cramps, sickens or causes inconvenience.

U.C.C. OLD BOYS PLAN BIG DRIVE

Dinner to Be Given to Inaugurate Endowment Fund Campaign.

W. G. Gooderham, in behalf of the executive committee of Upper Canada College Endowment and extension fund, has invited thirty "old boys" to an informal dinner to be given at the King Edward Hotel, in room G, at 7 o'clock, tomorrow night. At this dinner the leaders of the various teams who are to canvass the three or four thousand "old boys" and relatives living in Toronto, are to be appointed. There has been a ready response for the "old boys" for assistance in the preliminary work of the campaign and much enthusiasm displayed, and it is fully expected that the drive will be "put over" in the characteristic "old boys" way of doing important things. There will be several brief speeches, one from Mr. Gooderham, who will make a few congratulatory and appreciative remarks on the loyalty of the "old boys" as shown in the recent organization of the Old Boys' Association, and at the dinner held where four hundred were in attendance, and he will offer a few suggestions as to the "modus operandi" of the coming drive.

REAL ESTATE NEWS

A 12-story office and warehouse building for Victoria street has been planned by Mr. Percy Hermant of the Imperial Optical Company, and construction will be started almost immediately. The building will be located on the west side of the street, immediately south of the Shuttlerworth building at the southwest corner of Victoria and Dundas. The lot has a frontage of 46 feet on Victoria and will join at the rear the present Hermant building, facing on Dundas street. Workmen are now clearing the lot for the new structure.

The residence at 8 Dalton road has been purchased for \$10,000 by R. C. Dancy, decorating contractor. The Fraser avenue plant of Steel and Radiation Limited, has been sold to the Canada Metal Company for \$175,000. The property has a frontage of 212 feet on Fraser avenue, and a depth of 336 feet, and the buildings are one storey. It is the intention of the Canada Metal Company to expand their business in the manufacture of nails and wire products, and they will also make cement laundry tubs and drop shot. This will be the only drop shot factory in Ontario, and the second one in Canada. It is understood that Steel and Radiation Limited have secured a lease of the Allen building on Simcoe street for general offices.

Take plain bitro-phosphate is the advice of physicians in thin, delicate, nervous people who lack vim, energy and nerve force, and there seems to be ample proof of the efficacy of this preparation to warrant the recommendation. More continually being advertised for the purpose of making thin people fleshy, developing arms, neck and bust, and replacing ugly hollows and angles by the soft curved lines of health and beauty, there are evidently thousands of men and women who keenly feel their excessive thinness. Thinness and weakness are usually due to starved nerves. Our bodies need more phosphate than is contained in modern foods. Physicians claim there is nothing that will supply this deficiency so well as the organic phosphate known among druggists as bitro-phosphate, which is inexpensive and is sold by most all druggists under a guarantee of satisfaction or money back. By feeding the nerves directly and by supplying the body

KIWANIS CLUB LUNCHEONS.

Kiwanis Club held their weekly luncheon at the King Edward Hotel yesterday. Jules Brazil was the speaker of the occasion with an address, "Behind the Scenes in Song-land," in which he dealt with the songs of today and the history of a song from composer to public.

Mr. Brazil also spoke on the Canadian copyright law and its defects, expressing a hope that Canadian writers might soon find full protection under more efficient legislation. He made an urgent plea for songs "made in Canada."

cells with the necessary phosphoric food elements, bitro-phosphate quickly produces a welcome transformation in the appearance; the increase in weight frequently being astonishing. Clinical tests made in St. Catherine's Hospital, N. Y. C., showed that two patients gained in weight 22 and 27 pounds, respectively, through the administration of this organic phosphate; both patients claim they have not felt as strong and well for the past twelve years. This increase in weight also carries with it a general improvement in the health. Nervousness, sleeplessness and lack of energy, which nearly always accompany excessive thinness, soon disappear, dull eyes become bright and pale cheeks glow with the bloom of perfect health. Physicians and hospitals everywhere are now recognizing its merits by its use in ever increasing quantities. Fredrick Koile, M.D., editor of New York Physicians' "Who's Who," says: "Bitro-Phosphate should be prescribed by every doctor and used in every hospital to increase strength and nerve force and to enrich the blood." Joseph D. Harrigan, former visiting specialist to North Eastern Dispensary, says: "Let those who are weak, thin, nervous, anemic, or run-down, take a natural, unadulterated substance such as bitro-phosphate and you will soon see some astonishing results in the increase of nerve energy, strength of body and mind and power of endurance." Bitro-Phosphate is made entirely of the organic phosphate compound referred to in the National Standard Dispensary as being an excellent tonic and nerve and a preparation which has recently acquired considerable reputation in the treatment of neurasthenia. The standard of excellence, strength and purity of its substance is beyond question, for every Bitro-Phosphate tablet is manufactured in strict accordance with the U. S. Pharmacopoeia test requirements. Bitro-Phosphate is therefore not a patent medicine and should not be confused with any of the secret, nostrums, so-called tonics or widely advertised "cure-alls."

CAUTION—Although Bitro-Phosphate is unsurpassed for relieving nervousness, sleeplessness and general weakness, owing to its remarkable flesh growing properties it should not be used by anyone who does not desire to put on flesh.

EXPERTS IN FAVOR OF NICKEL COINAGE

Mining Institute Goes on Record Unanimously to Adopt Metal.

CHEAPER MINTING

The Canadian Mining Institute at the last session of their present convocation yesterday went on record as being unanimously in favor of nickel coinage.

This resolution was adopted after C. R. Macdonald, of the International Nickel Company, had given an interesting paper on the advantages of nickel coinage.

After tracing the history of nickel coinage from the back ages, Mr. Macdonald said that the use of pure nickel for money purposes was adopted by the following countries in the years named: 1851, Switzerland, 1898, Austria, Hungary, 1902, Italy, 1903, France, 1904, Serbia, 1908, Zanzibar, 1910, Mexico, 1913, Danish West Indies, 1914, Turkey, Germany, Montenegro and Siam.

Belgium's Example. Since 1861 Belgium had been using nickel for her 5, 10 and 20 cent pieces, and 70 countries of the world adopted nickel and alloys, and 11 pure nickel, for coinage purposes.

Nickel was somewhat expensive in making it into coins, but the extra cost of this would not, thought Mr. Macdonald, make it too expensive for general use.

Profit in Coining. Mr. Macdonald said the difference between the cost of minting silver and nickel coins would net to the government a big profit.

Dr. A. G. Coleman, who read a paper on "Lost Placers in Ontario," declared that in years to come the Canadian gold mines would be the greatest in the world.

Professor G. R. Mickle, provincial geologist, stated that the forty gold mines in Ontario were barely paying expenses, while the 23 silver mines were making good.

WINNERS BEST

Granites go into the senior O. H. A. final. Granites and Kitchener decided their group title last night, and the Toronto club pulled thru by the narrow margin of one goal, the score being 2 to 1. Granites scored their goals in the first period. Kitchener got the only goal of the second period, and the last twenty minutes were scoreless.

One of the Boobs Wants To Know About Tickets

Spotting Editor World: Please have someone explain not only to myself, but to hundreds like myself, how the ticket seller at the arena can hand out and make change for five-dollar bills for thirty minutes. That is their own figures. I claim they did not sell 400 tickets yesterday. I claim that more than three hours and there was not more box office opened at 10:05 and closed at 10:15. The rate of 20 people a minute, it can be seen, was the manager would explain how it was that the standing room tickets were placed on the floor. I am on the subject, why it is against the law for a man to stand out in the cold for three or four hours for a ticket at \$1.10, to sell it at any price he can get, the person buying knows at the time absolutely what he is getting, and what price he is paying, when a well-known cigar store is allowed the whole year round to sell such tickets at 25c advance on the regular price? Why make fish out of one, sixty corn beef.

SAINTS ARE SWAMPED BY MONTREAL FRENCH

Montreal, March 10.—Canadiens defeated St. Patrick's 7 to 2 in the last game of the regular season. The Canadiens were strong in the attack, and the attack of Lalonde and Pige. The play was slow at first, but soon grew into the second period, when the Canadiens had it all their own way, scoring five goals without a reply. In the third period, the Canadiens were again in command, scoring the remaining two goals. The Canadiens' goalkeeping was excellent, and they made a number of saves.

THE QUESTION IS OFTEN ASKED "WHO IS THIS DR. CHASE?"

The Interesting Life Story of a Practising Physician of Remarkable Skill, Whose Well-Known Medicines and Receipt Book Have Made Him Famous Throughout the Civilized World

Nature undoubtedly intended Dr. A. W. Chase to be a healer of the sick, for from childhood his efforts were bent in this direction. Any crumb of knowledge regarding the human body and its diseases was eagerly grasped and carefully preserved for future use so that by the time he graduated from the Eclectic College of Medicine, Cincinnati, Ohio, and from the State University at Ann Arbor, Mich., he was qualified as few physicians are when beginning the practice of medicine.

Dr. Alvin Wood Chase was born in the County of Cayuga, N.Y., and spent his boyhood in the vicinity of Buffalo, where he received his early education in a log school house. Even then, it is said, he outstripped his fellow students and entertained the wish to study medicine.

After completing his medical education, Dr. Chase travelled throughout the greater part of Canada and the United States, gaining wonderful experience and invaluable information before he settled down to make his home at Ann Arbor, Mich.

His success in private practice, his scientific investigations in search of better treatments, his work of collecting all the most successful prescriptions known to the profession, the publication of his now world-famous Receipt Book, the discovery of the great family medicines and the perfecting of them by tests made in his own practice, all these are incidents in a busy life of work for the benefit of humanity.

Dr. Chase became one of the most prosperous and well-to-do citizens of Ann Arbor, and was noted for his large

gifts to educational and benevolent enterprises. News of his remarkable success in treating kidney and liver disorders, nervous troubles and other forms of serious diseases soon spread abroad and brought appeals for help from all over Canada and the United States.

He began sending medicines to persons at a distance, but soon found it impossible to keep up with the demand on his time, and so resolved to put up his greatest prescriptions in convenient form for home treatment and to place these in the hands of local dealers.

This effort to simplify medical treatment and save the too often unreasonable doctor's bills met with a storm of opposition from members of the medical profession, who feared the effect on their practice and looked with envy on the wonderful success of Dr. Chase.

The many large gifts of Dr. Chase to all worthy objects prove that it was no mere desire for money-making that led him to so place on the market his great discoveries. Like a true physician, as he was, he thought most of relieving the suffering of his fellow-men.

As the details of manufacturing and distributing the remedies increased, it was found advisable to form the Dr. A. W. Chase Medicine Co., of which Edmanson, Bates & Co., Ltd., are proprietors, with offices and laboratories in Toronto, Can., and Buffalo, N.Y.

The success which has crowned the efforts of Dr. Chase to alleviate the sufferings of humanity, has been most extraordinary. His name is now spoken with reverence in hundreds and thousands of homes. His Receipt Book remains today the most useful household work that was ever published and has a circulation second only to that of the Bible. His great Family Medicines have won the confidence of the people the world over, and have established a record of cures that is unparalleled in the history of medicine. It would be difficult to imagine a more useful life than that of Dr. Chase.

*Respectfully,
A. W. Chase, M.D.*

"The Greatest Good to the Greatest Number"

"The greatest good to the greatest number" is a motto which the doctor kept before him throughout life, and in spite of strenuous opposition from fellow practitioners who desired, for the sake of greater financial gain, to keep the practice of medicine shrouded in mystery, he introduced his favorite prescriptions to the general public and published his now world-famous Receipt Book in order that all might read and learn the nature and cause of their ailments and apply the most effective treatment.

If you will send us your name and address and a two cent stamp to pay postage, we will send you, free, a paper covered copy of Dr. Chase's 1000 Recipes. Edmanson, Bates & Co., Ltd., Dr. Chase Bldg., Toronto

SKULL AND ARM BROKEN. Ten-year-old William O'Brien of 269 Markham street had his skull and arm broken last night when he was struck down by an automobile at the corner of Augusta avenue and Colclough street. The police stated the boy was crossing from the north to the south side of Colclough street, when he ran in front of the east-bound motor car. Walter Harrison, 58 St. Patrick avenue, driver of the car, took the injured boy to the hospital for Sick Children. The driver was not held by the police.

EIGHT RUNS AND PRICES ARE STEADY

No Change of Note in the Small Meats at Union Stock Yards.

The runs at the Union Yards continue very light with the market holding good and steady at the week's best prices. Good to choice butcher steers and heifers are wanted and some of the prices as shown in the special notes and the general sales indicate the strong undertone prevailing, up around \$14.75 for a top steer, and from that ranging around \$13.50 to \$14, with the bulk of the offerings around \$12 to \$12.50. All classes were steady and it looks like a good clean-up for the week-end.

Market Notes. A few top-notchers yesterday were McDonald & Halligan's sale of one steer, 1550 lbs., at \$14.75; 4, 1080 lbs., at \$14, and 5, 960 lbs., at \$13.75. Dunn & Levack's 1, 740 lbs., at \$13.50; 1, 620 lbs., at \$13.50; 5, 1010 lbs., at \$13.75, and a load of 21 at \$13.45. The United Farmers sold 2 cattle, 950 lbs. apiece, at \$14.50.

Personal Note. "Joe" Russell, of Mount Forest, and one of the best-known and highly-esteemed drovers on the exchange, made a short business trip down yesterday and met a host of his old friends and had a nice turnover on his load besides. This was Mr. Russell's first trip since last July, having spent the balance of the summer in the northwest, where he has landed interests. From first to last "Joe" has been a steady shipper to the well-known commission house of Dunn & Levack.

EDUCATION BOARD DEBATE ON DRILL

Trustee Thinks Should Be Under One Head—Dr. Noble Against.

A communication from Col. Barker, asking if the cadet corps of the high schools would be in a position to be inspected in May, in order that he might make out his schedule for the year, brought out fresh discussion at the meeting of the management committee, yesterday on the entire subject of drill in the schools. Trustee O. S. Brown thought the drill in both public and high schools should be under one head. Dr. Noble said that the high schools did not want to mix with the public schools in the question. The matter was referred to the board.

On recommendation of Senior Principal G. A. Smith, the appointment of Kenneth Hill, B.A., graduate of Queen's University, to fill the vacancy in Harbord for a teacher of science was recommended. The committee will recommend to the board that boys and girls at the high schools who are the children of men who were killed overseas, or young men in attendance who themselves served overseas, receive tuition without fee. The question of the appointment of Mrs. F. Sheila Duff, who is in receipt of a pension, to the regular staff brought out warm comment. Trustees Powell and O. S. Brown thought such cases should be investigated and if a sufficient income is coming to the applicant, preference should be given to others not so situated. Dr. Noble said it was the office of the board to provide good teachers for the pupils and not to inquire into private affairs. Inspector Cowley said that all the inquiry called for by the bylaws had been made, also that the applicant had been on probation and that she was a good teacher. The recommendation passed, together with that of seventeen others.

The appointment of a special teacher of writing was opposed by Trustee Powell, who thought the certificate of the regular teacher should be sufficient to cover the work. Mr. Powell also opposed the fitting up of a room at the end of a hall in the Ryerson School for the purpose of sewing. He thought it a fire trap. A recommendation brought in by Mrs. W. E. Groves that an extension of playground facilities be obtained by using part of certain streets adjacent to the schools for fifteen minutes twice a day under certain supervision, had both supporters and opponents. It was passed on with recommendation to the board.

In reply to inquiry as to the appointment of a teacher to the Jail Farm, Mr. Cowley said he had received no official information, but he understood the appointment would be made. At the close of the meeting Dr. Noble brought in several resolutions which if passed will in a manner revolutionize school hours and the recreational system of the present. He would have the school hours to be from 9 a.m. to 4 p.m. with recess between every period of three-quarters of an hour. This would practically mean that recess would be continuous, some class being in the yard at every portion of the day, but no class would be confined without change more than forty-five minutes.

The board recommended that the minister of education be asked to appoint a committee composed of Inspector Waugh, Mr. Kelso and Dr. Helen MacMurchy, to make an inspection of the Victoria Industrial School and Toronto schools with regard to proposed grading of mentally and criminally inclined pupils.

STANDARD RELIANCE MASS OF TANGLES

Frontiers of Ownership Shown Loosely-Fashioned by Directorates.

Evidence in the transactions of the Standard Reliance Loan probe, continued at Osgoode Hall yesterday, showed that so far as the purchase of the property at Eglington and Bathurst streets was concerned no valuation had been made of the land prior to its purchase. This was admitted by E. E. Lawson, one time secretary-treasurer of the company in reply to cross examination at the hands of George H. Kilmer, K.C. Mr. Lawson stated, however, that the land was undoubtedly valuable. Negotiations leading to the purchase of this property were much involved. Mr. Lawson and Colonel W. S. Dinick made the purchase in February, 1910. In December the same year Mrs. Dinick, in whose name the land had been purchased, transferred the property to the Investors' Land Co., an adjunct to the Reliance Loan. In January, 1911, the Investors' Land Co. borrowed \$20,000 from the Standard Loan in second mortgage. Cross examined by Mr. Kilmer, witness did not believe that he had received any of that \$20,000 himself, also some of that money might have been applied to other purchases. Further evidence showed that in 1912 the company sold the Bathurst-Eglington property (bought for \$50,000 in 1910) for \$125,000. In April, 1912, the Investors' Land Co. had a balance on hand of more than \$10,000, but in August, the same year, had overdrawn upon the Standard Reliance to the extent of \$41,023. Witness was unable to say why the mortgage for \$55,000 had been sold by the Reliance Loan to the Dovescourt Land Co. Colonel Dinick and Mr. Lawson were the chief shareholders in the Investors' Land Co., and were at the same time directors on the board of the Standard Reliance, thus governing matters connected with both companies. Witness had not been engaged to take minutes of any proceedings of the Dovescourt Land Co. No evidence was to hand that any minutes were taken at all.

FELL FROM A SCAFFOLD.

Two men were injured at 430 yesterday afternoon when they fell a distance of thirty feet from a scaffold at the Canada Foundry, Davenport road and Lansdowne avenue. Thomas Wilson, 32 Power street, sustained a fractured skull, and Robert Harper, 43 McCaul street, suffered a broken thigh. Both men were admitted to the Western Hospital.

The police stated that both men were walking when the accident happened. They were employed with Hayington Bros., contractors, of 2022 West Dundas street.

Women's Smart Spring Suits
\$27.50---\$35.00---\$39.75

Three specially-priced assortments should win favor with women who desire genuine smartness for an economical expenditure.

The suits are mostly fashioned of fine wool serge, with a few nice gabardines. Braid trimmings, rows of buttons, tuckings, stitchings and notched or shawl collars are attractive features.

Navy and black, with a sprinkling of lighter shades. Sizes 32 to 42. Prices, \$27.50, \$35.00 and \$39.75.

Women's Dressy Coats Boasting Many Charms

Are to Be Had in Dozens of New Spring Styles, Fine Fabrics and Fashionable Shades

The loosely-swinging back which has lost none of the favor it won in the Autumn, is much shown, also pleated-back effects immensely smart and becoming with narrow little belts that merely mark the waistline.

Artistic pockets, shawl, mannish or the new motor crush collars and large shaded buttons lend added attractiveness.

Materials include finest gabardines, serges, silky velours, Spring-like gold tones and the ultra-fashionable polo cloths in a host of shades. Prices \$45.00 to \$65.00.
