DEER PARK, P.O., Ontario.

TORONTO: ROWSELL AND HUTCHISON, PRINTERS KING STREET

UPPER CANADA COLLEGE,

TORONTO.

FOUNDED 1829.

THE Board having considered it advisable in the interests of the College to make several changes in the management, have, with the sanction of the Minister of Education, advertised for a new Principal, who is expected to be selected and appointed on or before August 1st, when due notice will be given to all interested.

Meanwhile, the Board are proceeding as rapidly as possible with the reorganization of the Staff, and, with the approval of the Minister, intend to avail themselves of the counsel and assistance kindly promised them by John Martland, M.A., for so many years favourably known to the friends of the College, more particularly in connection with the superintendence of the Boarding Houses in the old buildings within the city limits. At the request of the Board, Mr. Martland has also consented to give such assistance during the first few months of the next Session as the new Principal may desire.

The College was founded in 1829 by Sir John Colborne (Lord Seaton), after the model of the great Public Schools of England, and continues to be carried on with special regard to the ideal aimed at in those institutions. It is situated in Deer Park, a suburb of Toronto, about a mile from the city limits. It is built upon a gravel soil facing the south, about 300 feet above the lake, and is about three miles from the water front. The lawns and park cover an area of thirty acres. The landscape scenery around the College is the finest about Toronto. From the windows of the College the country may be seen for miles around; to the north may be seen the Oak Ridges, twenty-five miles distant; to the east the Scarboro' Heights; to the west the hills of Caledon, and to the south, overlooking the city and the island, the broad expanse of Lake Ontario to its south shore.

The school buildings were erected in 1891 and equipped with all modern appliances for the physical development and for the comfort and welfare of the boys.

The class-rooms are spacious and well lighted, each bedroom is furnished for one or two boys, and the whole building throughout is heated by steam and ventilated by large exhaust fans driven by electric motors at the base of tall ventilating shafts. The system of lighting is the Edison Incandescent Electric Light generated by large dynamos. The plumbing is of the most modern description and the drainage perfect.

The School is divided into six Forms, in the highest of which the boys are prepared for Honor Matriculation in the different Universities and Colleges.

Boys intended for business are given a thorough grounding in the English and Mathematical subjects of the regular courses together with French and German, and such branches of a practical business education as may be, from time to time, considered expedient.

Prizes are awarded by the Board for merit in the different Forms—In addition, special medals and prizes are annually presented by different friends of the College.

Medals—I. HIS EXCELLENCY THE GOVERNOR-GENERAL'S MEDAL.

—This Medal is awarded annually to the boy who ranks first in General Proficiency at the leaving examination of the Sixth Form. It carries with it the rank of "Head Boy" for the year.

2. THE J. HERBERT MASON MEDALS (Gold and Silver).—These Medals are awarded annually to the two boys, members of the Upper School, who are considered by the masters and pupils to possess in the highest degree the following characteristics: "Cheerful submission to authority; self-respect and independence of character; readiness to forgive offence; desire to conciliate the differences of others; and, above all, moral courage and unflinching truthfulness." It is through the liberality of Mr. J. Herbert Mason, who donated to the College Board \$1,000, that these medals are annually offered for competition.

I. THE HOWLAND PRIZE—Instituted by the late W. H. Howland, Esq., and continued by Oliver A. Howland, M.P.P., to the pupil (who must be the son of an old College boy) who ranks highest in his Form.

II. THE BEARDMORE PRIZES.—Books to the value of \$150 are annually presented to the College by George W. Beardmore, Esq., to be awarded in each form of the College for proficiency in Canadian History and Geography. No boy will be allowed to take two prizes in the same school—that is, he may take it once in the lower, once in the middle, and

once in the upper school, and to be eligible for the prize in the upper school he must be a pupil of the college for at least a year.

III. THE BROCK PRIZES.—These prizes given by W. R. Brock, Esq., are awarded to the boys who rank highest in their respective schools (Upper, Middle and Lower School) for a knowledge of Bible history.

TERMS.

The Autumn Term begins on the.....9th September.

The Winter Term begins on the7th January, 1896.

The Spring Term begins on the7th April, 1896.

VACATIONS.

" "	Two brothers	75	" "

(The annual fee of \$240 covers education, board, washing, mending, bedding, attendance of the College Physician, and a seat in Church.)

Pupils taking the course in Chemistry and Physics are required to deposit \$5 to cover breakages, and to pay an additional \$1 per term for the chemicals used.

Extra Fees are charged for Drawing, Music and Dancing.

THE BOARDING HOUSE.

The Boarders live in the College building, and are under the immediate supervision of the Principal and the House Masters. In the rooms off each corridor, there are from twenty-five to thirty boys presided over by a Master. The system adopted is that of single or double bedrooms, furnished in a substantial, home-like manner. The bedsteads are made of iron, furnished with steel-woven spring mattresses; all the beds

are furnished with the finest quality of horse hair mattresses made especially for the College. The health and comfort of the boys are looked after by an experienced matron. There are spacious and comfortable quarters, isolated from the rest of the boys' rooms for sick boys, who will be under the immediate care of the matron. All the Boarders except the Sixth Form boys prepare their work in the presence of the study masters, whose duty it is to supervise and direct the boys in their studies. There are four large well-lighted and ventilated class-rooms set apart as study rooms.

On Sunday all Boarders whose guardians do not object to it on religious grounds, receive instruction in the College Sunday School, being divided for the purpose according to the Religious Denomination to which they belong. They attend Divine Service in the Churches of their own Denominations, being in each case accompanied by one of the House Masters.

For the convenience of Boarders living at a distance, it has been arranged that they may remain in residence during the vacation at Christmas and Easter, but a special charge of five dollars per week will be made in each case.

A limited number of day pupils residing at a distance from the College may have the privilege of lunching at midday in the College Boarding House on paying \$9.00 per term.

Basement Plan.

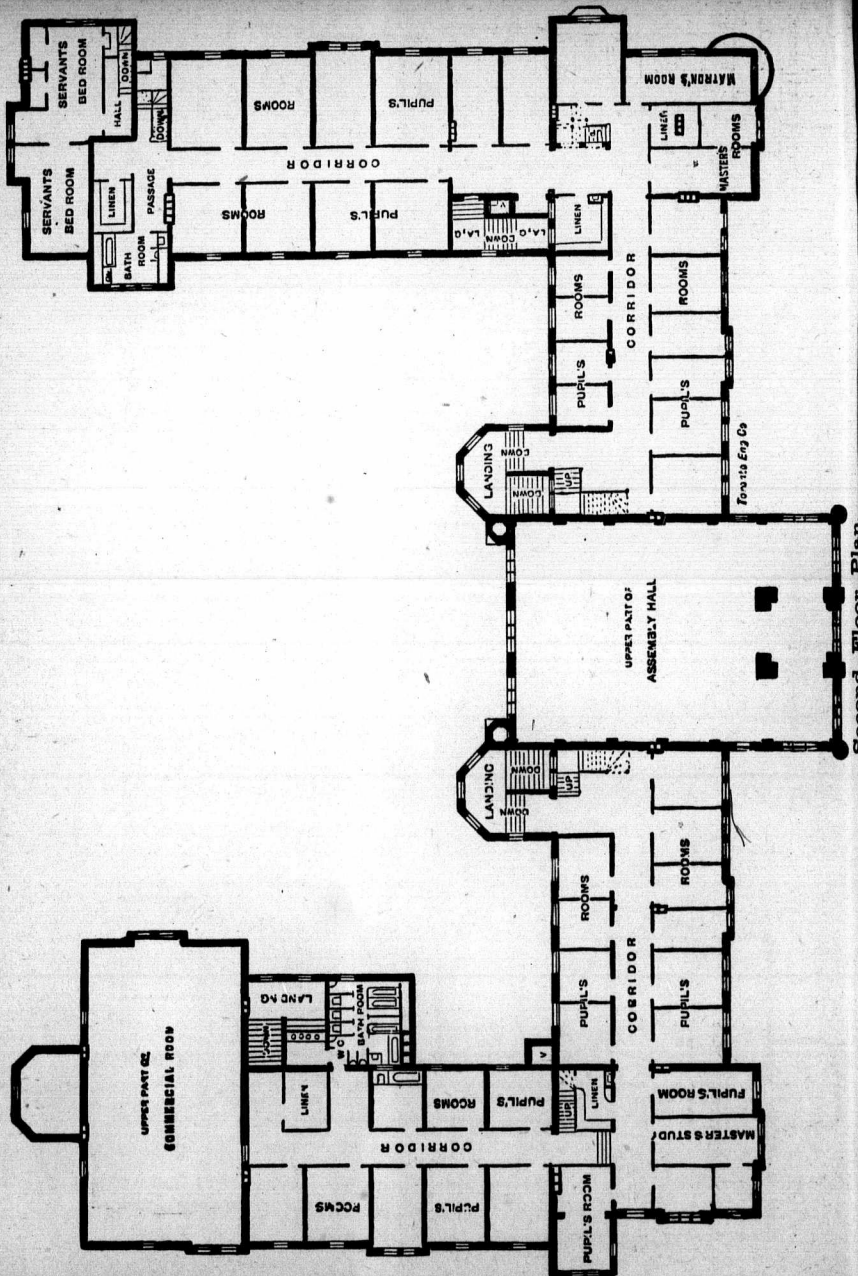

The Main or Front Elevation is 274 feet long. The West Wing is 168 feet, and the East Wing is 189 feet. The average width of the Building throughout is 40 feet.
