

Miss Marie Petit Whicker

OWH H H

BREAD

HAS BEEN CALLED THE

"STAFF OF LIFE,"

It is therefore of the utmost importance that it be

HEALTHY AND NOURISHING.

In all the old methods of Bread Raising yeast of some kind is used, under proper conditions of warmth and moisture yeast gives rise to the Vinous or Alcoholic fermentation converting a part of the flour used into Alcohol and Carbonic Acid Gas; the gas only is of service for the purpose intended, the Alcohol is dissipated in the oven while baking.

Bread raised by such means is subject to numerous mishaps as every housewife well knows, if the yeast has not been sound and sweet it reproduces all its faults in a magnified form in the bread, if the sponge has been too hot, or too cold the effect is equally injurious and the result is sad, heavy bread, if the fermentation is allowed to go too far the Alcohol formed is turned into Acetic Acid (Vinegar) and sour bread is the result; there is also an invisible fault inherent in Yeast Raised Bread which is, perhaps, more dangerous to health than any of those mentioned, yeast is now well-known to be a vegetable fungus which propagates itself with great rapidity when placed under favorable conditions, its vitality can only be destroyed by high heat, the heat of baking is not always sufficient for this purpose, and when such is the case the fungus begins to grow again when taken into the stomach causing pain, heartburn and indigestion with the numerous evils which follow in their train. All these dangers may be avoided by using the

Cook's Friend Baking Powder

WHICH CONTAINS

NO UNHEALTHY INGREDIENTS,

Never fails to raise well, and leaves the Flour entirely unaltered, producing **LIGHT, SWEET and WHOLESOME BREAD** which may be eaten warm from the oven without inconvenience.

Be sure to purchase the Genuine Article, every Package of which has the trade mark imprinted thereon, as under

without which none is Genuine.

THE GREAT SHOSHONEES REMEDY AND PILLS.

Before proceeding we desire to commend the following few, brief and candid explanatory remarks on the great

INDIAN COMPOUND

now for sale in the Dominion. Indeed we hazard nothing in saying that this truly wonderful discovery, the great Alternative and Blood Purifier, of the age, whose equal has never been even approached; is the Remedy of Remedies of the 19th century, and the greatest boon ever laid on the altar of suffering Humanity. We refer to the

GREAT SHOSHONEES REMEDY & PILLS.

of the celebrated Indian Medicineman

DR. LEWIS JOSEPHUS,

of the distinguished Tribe of Shoshonees, Columbia Territory warranted to make a permanent cure

OF ALL DISEASES OF THE
THROAT, LUNGS, LIVER, DIGESTIVE ORGANS, KIDNEYS,
&c., AS WELL AS SCROFULA.

The various SKIN DISEASES, FEMALE DISEASES, HUMOURS, RHEUMATISM, SYPHILIS, and all Diseases arising from Impurity of the Blood, excepting the third or last stage of consumption

ECLIPSES 1872—There will be four Eclipses this year—two of the sun, and two of the moon.

I. A partial eclipse of the moon, May 22. To the eastern coast of North America, the last phase will be just visible, as follows, in Washington time:

Moon leaves penumbra 8h. 19m., P.M.

Visible to Europe, Asia, Africa, and South America.

II. An annular eclipse of the sun, June 6. Invisible. Visible to Asia and extreme north-western part of North America.

III A partial eclipse of the moon, Nov. 14-15; visible as follows, in Washington time:

Moon enters penumbra 14d. 9h. 53m., P.M.

Moon enters shadow 14 11 51 "

Middle of eclipse 15 0 11 P.M.

Moon leaves shadow 15 0 32 "

Moon leaves penumbra 15 2 30 "

Visible to Europe, Africa, North and South America.

IV. Annular and total eclipse of the sun, Nov. 20. Invisible to North America. Visible to southern part of South America and South Pacific Ocean.

Aries, the Ram, Head & Face.

Gemini,
Arms.

Leo,
Heart.

Libra,
Reins.

Sagittarius,
Thighs.

Aquarius,
Legs.

Taurus,
Neck.

Cancer,
Breast.

Virgo,
Bowels.

Scorpio,
Secrets.

Capricornus,
Knees.

Pisces, Feet.

Mercury, will be visible as morning star about Jan. 24, May 22, and Sept. 15; and as evening star about April 4, Aug. 2, and Nov. 27.

Venus will be morning star till July 16, and evening star the rest of the year.

Jupiter will be morning star till Jan. 15; then Evening star till August 2; and morning star again the rest of the year.

THE REASON WHY—The United States Dispensary speaks of Wild Cherry Bark as among the most valuable of our indigenous remedies. From an analysis by Dr. Stephen Proctor, it appears to contain Starch, Resin, Tannin, Gallic Acid, Fatty Matter, Lignin, Red Coloring Matter, Salts of lime and potassa and iron. He also obtained a Volatile Oil associated with Hydrocyanic Acid. This Bark is a powerful Tonic, calnative of nervous irritability and an arterial sedative. It is admirably adapted to the treatment of diseases in which debility of the stomach, or of the system is united with general or local irritation. When largely taken it diminishes the action of the heart, an effect ascribable to the Hydrocyanic Acid. The Remedy is highly useful and has been employed in this country in the hectic fever of Scrofula and Consumption. It is well adapted in many cases of Dyspepsia, and has been given successfully in intermittent fever. — Wild Cherry Bark enters largely into the composition of that famous Indian medicine, The Great Shoshonees Remedy—which cures as if by magic.

PROPERTIES of the GREAT SHOSHONEES REMEDY.

As a thorough and permanent Purifier of the Blood it can not be excelled, and indeed has never, never been equalled. It is a great Alternative. Expectorant, Tonic and Laxative Regulator, and has a most supreme action on diseased Lungs, Liver, Digestive Organs, Bowels, Kidneys, and Skin. And, in addition to these properties it possesses the peculiar power of healing, strengthening and restoring to full vigor and health those all-important internal organs, the Lacteal Vessels, which latter effect, we can confidently affirm, without fear of opposition has never been, nor is now possessed by any other medicine or remedy under the sun; and to think of thoroughly and permanently purifying the blood without restoring the all important functions of the Lacteal Vessels, which are always deranged in the debilitated constitution, we might as well try to see the noon-day sun at midnight; and as no disease can be thoroughly, radically, and permanently cured, while Impure Blood, or any trace of impure blood is left lurking in the system; and again, as scarcely a disease to which humanity is heir to can long exist after the Blood is thus thoroughly and permanently Purified, well may it be claimed that this great Indian Remedy possesses a pre-eminence over all other medicines of the past and present ages. But the salutary and curative properties of this Great Remedy does not stop, even here; but while it is thus permanently Purifying the Blood, and restoring to healthy action the all-important functions of the Lacteal Vessels, as well as those of the Digestive Organs, it is also renovating, giving tone to, and clearing up the channels, pores, and ducts of the various internal organs of the body, and thereby establishing the circulation through them of a perfectly Purified Blood, and a cure—a radical and permanent cure—is the inevitable consequence, except in the third stage of consumption. Hence we hazard nothing in saying that the Great Shoshonees Remedy is the remedy of remedies of the nineteenth century, and the greatest boon ever laid on the altar of suffering humanity. For a history of the all important functions of the Lacteal Vessels, the reader is referred to page 15 of the treatise accompanying each bottle of the remedy. See the few remarks on Lacteal Vessels, at page 2 of this pamphlet.

LADIES.

You may read and learn here what will be to your greatest interest, without having to tolerate the reproaches and scandal of the slanderer's pen, so current in pamphlets, almanacs, newspapers, &c., with the headings affixed, "Ladies, Women, &c." Believe us with kindest regards and respect for the female sex, we will not offer you one single word that would be offensive to the most comely, suffering virgin. Nay, we insert nothing but that, the publication of which has been sanctioned by ladies, who have themselves been restored from peculiar sufferings, to perfect comfort and health by the use of that peculiar Indian compound—the Great Shoshonees Remedy. A hint for the wise is sufficient. It is only necessary to state that the great cause of female sufferings, whatever the nature of the complaint may be, is irritation from some source, and its consequent engorgement, obstruction, and choking up of the various delicate veins, ducts, and passages of the organ affected. And being thus deprived of its healthy circulation, the organ, of course, refuses to perform its natural functions, the inevitable consequence of which is, invariably, suffering, poor health, and often a life of misery and decline. The ambition of poor sufferers in such cases is, of course, health, health health; and we ask you, in the name of common sense, what is it that is absolutely necessary in such cases, to the achievement, of their ambition? Is it not the healing properties of a Purely Vegetable, Great Remedy, fresh from Nature's Kingdom, possessing supremely Alternative, Tonic, and Deobstruent properties, that can not fail to purify and enrich the Blood, to give life, tone, and strength to the system, and to remove obstructions to the free circulation of Healthy Blood through the capillary network, the passages, pores, and ducts of the affected organs? It certainly is, and all we can say now, is, that never before was the world in possession of a medicine or compound that would so effectually accomplish the objects as does that peculiar Indian compound—the Great Shoshonees Remedy. Judge you of the propriety of its use. But we will say this; if you thoroughly test the merits of this remedy, you will, like scores of our cousins across the lake almost worship and idolize the very name of the old Indian doctor.

The greatest pleasure in life is love; the greatest treasure, contentment; the greatest possession, health; the greatest ease, sound sleep; and the best medicine Shoshonees.

He cannot be an unhappy man who has the love and smile of woman to recommend him in every department of life.

If you meet a young lady who is not very shy, you had better be a little shy yourself.

A Quaker lady advised her son, who was a doctor, to enlist with the rebels if he wished to aid the Union; "for," said she, "these will kill more than these cures."

A paper advertises for "girls for cooking." We like them raw.

Forgiveness is the odor flowers breathe when trampled on.

Tying a slow horse to a post will make him fast.

DYER'S COMPLETE GUIDE.

The following valuable information has been kindly furnished by
Messrs. HEATH & GUNN, Chemists, Ont.

REMARKS.

It is absolutely necessary that every article to be dyed, as well as every utensil used in dyeing should be perfectly clean.

Every article to be dyed should be thoroughly scoured in soap and well rinsed out. In order to secure uniformity in color, and to avoid spots on wool, yarn or fabrics, it is desirable that every article should be dipped in warm water, just before putting into the alum or other mordant.

In all cases *soft water* should be used if possible, and in quantity sufficient to cover the articles completely.

As soon as an article is dyed, it should be aired a little, then well rinsed out, and afterwards hung up to dry.

In putting dresses and shawls out to dry, that have been dyed, they should be hung up by the edge, so as to dry evenly.

BLEACHING LIQUOR.

One gill muriatic acid, 1 gallon soft water; soak the wool or cloth for fifteen minutes, and rinse well in pure water.

FOR COLOURING BLACK.

On Wool, Silk or Cotton. For every lb. of cloth or yarn, it will require one oz. of the extract of Logwood, and half an oz. of blue Vitriol. Prepare an iron kettle with a sufficient quantity of soft water to prevent the cloth or yarn from being crowded, bring the water to a scalding heat, then put in the yarn or cloth, and when thoroughly wet, take it out and let it drain; then add the blue Vitriol, and when dissolved and the water carefully skimmed, put in the material to be coloured, and let it remain half an hour, at a scalding heat, airing it occasionally, then take it out and rinse in soft water, empty the vitriol water into another vessel, and dissolve the Extract of logwood in a sufficient quantity of water brought to a scalding heat and skimmed; put in the cloth, keeping the dye at the same temperature, and let it remain half an hour, airing it frequently; then take it out and drain it, and add the vitriol water to the dye, put it in again and let it remain fifteen minutes, airing it as before: cleanse it in soft water, and let it drain and dry.

SCARLET RED.

Take soft water sufficient to cover the cloth or yarn you wish to color, bring it to a boiling heat in a copper kettle, then add 1½ oz. cream of tartar for every pound of cloth; now boil a minute or two, and then add two ounces of Powdered Lac, and three ounces of Madder Compound (the Lac and Compound must be previously mixed in an earthen bowl), boil five minutes, now wet the yarn in warm water and wring it, and put it in the dye; boil the whole nearly an hour, take the cloth or yarn out and rinse it in clean cold water.

COCHINEAL SCARLET No.-1.

For one lb. of cloth or yarn, take cream of tartar 1½ oz. water sufficient to cover, boil in a black tin vessel, and when dissolved, add solution of tin 1½ oz. boil for three minutes, then introduce the cloth and boil it for two hours, drain and cool. Next take Cream of tartar 1 oz. water sufficient; boil and add powdered cochineal 1 oz.; boil for five minutes, then add gradually solution of tin 1 oz.; stirring well all the time; lastly, put in the goods and dye as quickly as possible.

COOK'S FRIEND BAKING POWDER.—See advert. page 2.

PART OF THE SECRET.—Taraxacum (Dandelion) is slightly tonic, diuretic and aperient, and is thought to have a specific action upon the liver, exciting it when languid to secretion and resolving its chronic engorgement. The diseases to which it appears to be especially applicable are those connected with derangement of the hepatic apparatus and of the digestive organs generally. In congestion and chronic inflammation of the liver and spleen, in cases of suspended or deficient biliary secretion and in dropsical affections dependent on obstruction of the abdominal viscera." Vide U. S. Dispensatory.

ITS PECULIAR MODE OF ACTION.

The mode of action of the Great Shoshonees Remedy differs somewhat from that of all other medicines. The regular practice among physicians, and that generally aimed at by compounders, is, as always has been, where the blood is impure, to administer medicines which act upon the blood only; where the lungs are affected, medicine to act upon the lungs; and upon the same principle will they treat female complaints, diseases of the liver, digestive organs, kidneys, rheumatism, syphilis, &c. A right up and down view of the matter must teach us that this principle cannot properly succeed. The lungs, liver, kidneys, bowels, skin, &c., act as so many waste gates for the escape of effete and poisonous matters and gases from the body. When one of these organs refuses to fully accomplish its task, there is, in consequence, so much effete matter left in the system that should be thrown off, and as this effete matter can not lay dormant, it enters the blood, and destroys its purity by loading it with poisonous floating particles, with the blood, have to circulate through every organ in the body; and what is the consequence? It is that the pores and ducts of every organ in the whole system are, to some extent, obstructed. Here it is. Here is the grand secret: when one of the organs of the body is diseased, the rest all sympathize; and to radically and permanently cure the disease of that organ, we must have a remedy compounded of a variety of medicines, possessing a variety of properties, that will purify the blood, as well as permeate, clear up, and strengthen every organ in the body. If the invalid is in possession of a compound possessing these properties, he has just that which his case requires, and if it is faithfully administered, unless his case is the third stage of consumption, he will very soon be restored again to perfect health. Now, all we can say is, that this peculiar Indian compound, the Great Shoshonees Remedy, possesses all these properties in the highest degree, and their fullest extent; and it is for these reasons, with its special action on the Lactal Vessels, that this great Indian Remedy possesses such superior power in the cure of disease, and is called the Remedy of Remedies of the nineteenth century.

SHOSHONEES PILLS.

ALTHOUGH some of the ingredients entering into the composition of the Great Shoshonees Remedy are laxative, and the remedy itself will generally prove a sufficiently laxative regulator for the bowels, yet as there will be cases that require more laxative properties than usual, and as there can be no pills, unless those compounded for the purpose, that can possibly meet in harmony the exigencies of a Great Remedy, compounded of the active principles of such a variety of medicines, fresh from the vegetable kingdom, and possessing such a variety of properties as does the Great Shoshonees Remedy, the Shoshonees Pills are prepared expressly to accompany that Remedy in cases where an extra laxative may be required. These pills are manufactured with the utmost care, scrutiny, and exactness, from the very active principles, doubly refined and purified, of such of the choicest remedial agents of the vegetable kingdom, as to possess them of properties that not only meet in harmony the exigencies of every ingredient entering into the composition of the remedy, but also that give the Pills themselves more desirable qualities, for general use, than any family pill before the public. On account of the extreme mildness, and yet great certainty in action of the Shoshonees Pills, as well as their strengthening and healing effects on the stomach and bowels, and in fact the whole system, along with their permeating and restorative action on the Liver, Kidneys, Skin, &c., &c.; we say, on account of these superior qualities, the pills are placed on sale as a Family Medicine.

Price of the Shoshonees Pills 25 cents.

A DRUGGIST WRITES THUS:

WHITBY, C. W., February 27, 1867.

MESSES. SILLS & CHAMBERLAIN:

GENTLEMEN.—The sales of your Great Shoshonees Remedy and Pills are still increasing so rapidly that you had better send me at least half a gross of each at once by express. The two dozen got eight days ago are almost gone, and to save trouble in writing so often don't send less than six dozen of the Remedy and as many Pills. There have been some astonishing cures of Dyspepsia and Liver Complaint and even of Consumption in this neighborhood, from the use of your Great Remedies, which have forced me to a change of opinion in regard to its merits since I first saw you.

I am, yours respectfully,

JAMES H. GERRIE.

TRUE OF THE SHOSHONEES V. R. PILLS.—This excellent Family Medicine is the most effective remedy for indigestion bilious and liver complaints, sick headache, loss of appetite, drowsiness, giddiness, spasms, and all disorders of the stomach and bowels and for elderly people or where an occasional aperient is required nothing can be better adapted. Persons of a Full Habit who are subject to headache, giddiness, drowsiness, and ringing in the ears arising from too great a flow of blood to the head, should never be without them as many dangerous symptoms will be entirely carried off by their timely use.

DYER'S COMPLETE GUIDE.—

SCARLET NO 2.—(VERY SUPERIOR

Three ounces of Cochineal, three ounces Cream of tartar, and 4 oz of solution of tin; powder the cochineal and rub through a bag into blood-warm water sufficient to cover the yarn; when it is a little warm put in the cream of tartar and simmer, then add the solution of tin. Your yarn must be wet with clean water—steep in the dye until the yarn is properly dyed. Dye your yarn before you wash it. This will color three pounds.

YELLOW.

For each lb. of wool or cloth—Fustic $\frac{1}{2}$ lb., alum $\frac{1}{2}$ lb., put all into an earthen vessel and pour on sufficient hot water to cover the wool, and keep it warm all night; give it half an hours boil in a brass kettle, and then rinse in cold water. A much deeper and richer yellow may be made by using Turmeric powder instead of Fustic, and proceeding in the same manner.

MADDER RED-NO. 1.

Take 1 lb. madder for every 2 lbs. of yarn or cloth; soak the madder in a brass or copper kettle one night in warm water, enough to cover the yarn you wish to color; next morning put in 2 ozs. of madder compound for every 1 lb. of madder you have so soaked, then wet your yarn or cloth in clean water and wring it out; afterwards put in the dye; now put the kettle on the fire and bring it slowly to a scalding heat, which will take about half an hour if a light red is wanted and longer if a dark one, the color depending upon the time it remains in the dye. When the color is made, rinse the cloth immediately in cold water, and it will then be finished.

MADDER RED-NO. 2.

To each lb. of goods—alum 5 ozs. cream of tartar 1 oz; put in the goods and bring your kettle to a boil for half an hour, then air them and boil half an hour longer; then empty your kettle and fill with clean water, put in bran one peck, make it milk warm, and let it stand until the bran rises, then skim off the bran and put in madder $\frac{1}{2}$ lb.; put in your goods and heat slowly until it boils and is done. Wash in strong suds.

PINK.

For 3 lbs of goods—alum 3 ozs.; boil and dip the goods one hour, then add to the dye cream of tartar 4 ozs.; cochineal well powdered one oz.; boil well and dip the goods while boiling till the color suits.

TO CLEANSE WOOL.

Make a liquid of water three parts, urine 1 part; heat it as hot as you can bear the hand in it; then put in the wool, a little at a time; so as not to have it crowded; let it remain in it for fifteen minutes, take it out over a basket to drain, then rinse in running water, and spread to dry; thus proceed in the same liquor; when it gets reduced fill it up, in the same proportions, keeping it at hand heat all the time, not using any soap.

BLUE (QUICK PROCESS.)

For 2 lbs. of goods—alum 5 ozs.; cream of tartar 3 ozs.; boil the goods in this for 1 hour; then throw the goods into warm water, which has more or less of the extract of indigo in it, according to the depth of colour desired, and boil again until it suits, adding more of the blue if needed. It is quick and permanent.

Calendar Aspects, &c.
Splendid fine day.

1st Sunday after Trinity.
Beautiful weather, and not
excessively warm.
Fair weather, which con-
tinues for some days.
With occasional wind storms
and a few showers.

2nd Sunday after Trinity.
This day very warm.
St. Barnabas' Day.
Cool for the Season.
But there are changes.
Cool showers will fall.
And the fields made glad.

3rd Sunday after Trinity.
We still look for rain.
Frequent showers and some
heavy thunder.
Unsettled and changeful.
Still unreliable.
Nothing settled yet.

4th Sunday after Trinity.
Nativ. of St. John Baptist.
Now all is serene.
Fair and very warm.
Thunder and Lightning.
But yet clear and fine.
St. Peter's Day.

5th Sunday after Trinity.

WASHING FLUID.

Take one pound sal soda and half a pound of unslacked lime; put them into a gallon of water, and boil twenty minutes; let it stand till cool, then pour off, and put it in a stone jug. Soak your dirty clothes over night, or until well wet through, then wring them out and rub on plenty of soap; and to one boiler of clothes, well covered with water, add one teacupful of washing fluid. Boil half an hour briskly, then wash through one suds and rinse through two waters, and your clothes will look nicely.

A PARTIAL SOUTHERN ECLIPSE.

GUNN'S LIMA CREAM AND GLYCERINE

Prevents the Hair from falling out, removes dandruff, and soothes all irritation of the Scalp.

As a Dressing it is unequalled, producing a luxuriant growth and giving a rich glossy appearance.

Unlike many imitations, this preparation does not separate, but constantly preserves a rich creamy consistency.

In Large Bottles, 25 cents each.

GLYCERINE CREAM.

This delightfully perfumed preparation of Pure Glycerine in a solid form, will be found particularly useful in removing all roughness and tenderness of the Skin caused by exposure to inclement winds. For Chapped Hands it is invaluable, instantly allaying all irritation and rendering them beautifully white and soft.

PREPARED ONLY BY

HEATH & GUNN. Chemists.

47 Princess St., Kingston.

Sold Wholesale by NORTHROP & LYMAN, Newcastle, and by Druggists everywhere.

THE GREAT FEMALE REMEDY. JOB MOSES' PERIODICAL PILLS.

This invaluable medicine is unfailing in the cure of all those painful and dangerous disorders to which the Female constitution is subject. It moderates all excesses, and removes all obstructions; it invigorates the debilitated and delicate; and by regulating and strengthening the system, fortifies the youthful constitution for the duties of life, and when taken in middle or old age, proves a real blessing.

To MARRIED LADIES it is peculiarly suited; it will, in a short time remove all obstructions, and bring on the monthly period with regularity. On the approach of Child-birth, these Pills should be used for two or three weeks previous to confinement; the benefits to be derived are incalculable; they fortify the constitution, lessen the suffering during labor, and make it of short duration. They also prevent weakness of the Uterine organs, and enable the mother to perform the duties with comfort to herself and child.

These Pills should not be taken by females that are pregnant during the first three months, as they are sure to bring on miscarriage; but at every other time, and in every other case, they are perfectly safe.

In all cases of Nervous and Spinal Affections, Pains in Back and Limbs, Fatigue on slight exertion, Palpitation of the Heart, Hysterics, and Whites, these Pills will effect a cure when all other means have failed; and, although a powerful remedy, do not contain iron, calomel, an imony, or anything hurtful to the constitution.

Full directions in the pamphlet around each package, which should be carefully preserved.

JOB MOSES, NEW YORK, Sole Proprietor.

\$1 00, and 124 cents postage, enclosed to Northrop & Lyman, Newcastle, Ont., General Agents for the Dominion, will insure a bottle, containing over 50 pills, by return mail.

DARLEY'S CONDITION POWDERS, AND ARABIAN HEAVE REMEDY.

Are positively superior to any or all other preparations for the cure of HEAVES, COUGHS, THICK AND BROKEN WIND, and all diseases which affect the WIND OF HORSES; also as a CONDITION MEDICINE, surpassing everything of the kind; is easy to give, sure to cure and safe in all cases at all times, and does not prevent the horse from being worked while using it.

These powders have now been in use in this country about fifteen years, during which they have effected more cures, done more to improve the Condition of Horses, than all others combined. This statement is confirmed by the testimony of thousands who have either used them or seen them used by others. No person who has used them will use any other, and many have travelled miles to procure them, well knowing that they were the only powders on which they could depend. They do not, like most articles of the kind, benefit for the time being only; their effects are permanent and always safe; they do not contain any of the mineral or vegetable stimulants generally used, which though they appear at the time to benefit, really injure the animal. This many know, who have been induced to use some of the many Horse Medicines scattered over the country, generally prepared from *ropes, cheap materials*, by persons of little or no intelligence, who possess no knowledge of compound medicines, and who know not that many articles, harmless in themselves, become, when combined, positively injurious. There is no doubt but many valuable horses have been lost in this way.

But here is a Medicine, composed of the VERY BEST MATERIALS, prepared with the greatest care, and in the most skillful manner, by an experienced Chemist. In certain nothing that will injure a horse, whether sick or well, and may be given with safety at all times. It is in fact, the only preparation upon which any dependence can be placed in the treatment of those complaints for which it is designed.

D. W. HURD, Successor to Hurd & Co.,
Maiden Lane, New York, Sole Proprietor for the United States.

NORTHROP & LYMAN, Newcastle, Ont.
Proprietors for Canada,

Price, 25 Cents.

NO RISK!

ELECTRICITY! THOMAS' ECLECTRIC OIL! Worth Ten Times its Weight in Gold. Do you know anything of it? If not, it is time you did.

Pain cannot stay where it is used. It is the cheapest Medicine ever made. Five drops covers a surface as large as the hand. One dose cures common Sore Throat. One bottle has cured Bronchitis. Fifty cents' worth has cured an Old Standing Cough.

It cures

Catarrh, Asthma, Loss of Voice, Croup, Lame Back, Crick in the Back, Contraction of Muscles, Swelled Neck, Rheumatism, Neuralgia, Chronic and Bloody Dysentery, Burns, Frosted Feet, Boils, Warts, Corns, and Wounds of every Description.

One or two Bottles cures bad cases of PILES and KIDNEY TROUBLES.

Six to eight applications Cures ANY CASE of EXCORIATED NIPPLES or INFLAMED BREAST.

One bottle has cured LAME BACK of eight years standing.

Daniel Plank, of Brookfield, Tioga Co., Pa., says, "I went 30 miles for a bottle of your Oil, which effected a WONDERFUL CURE of a CROOKED Limb by six applications." Another, who has had ASTHMA for years, says, "I have half of a 50c. bottle left, and \$100 would not buy it if I could get no more.

Rufus Robinson, of Nunda, N. Y., writes, "One small bottle of your ECLECTRIC OIL restored the voice where the person had not spoken above a whisper in Five Years." Rev. J. Mallory, of Wyoming, N. Y., writes, "Your ECLECTRIC OIL cured me of Bronchitis in one week." Dealers all over the country say, "We have never sold a medicine that has given such complete satisfaction as this."

It is composed of SIX OF THE BEST OILS THAT ARE KNOWN. Is as good to take as for external use, and is believed to be immeasurably superior to anything ever made. Will save you much suffering, and many Dollars of expense. Is sold by one or more dealers in every place where these circulars are found.

Price 25 cts.

NORTHROP & LYMAN,

New York, Ont., General Agents.

FOR HORSES AND CATTLE. The ECLECTRIC OIL is superseding remedies that have been in use 40 years. It cures COLIC in 30 minutes; GALLS (and most the horses every day); CONTRACTION or CRACKING of the HOOF; DISTEMPER SCOURS, SWINNEY, CURB, CORKS, SCRATCHES. If your Cows have become nearly useless from GARGET or SORE TEATS; this OIL will cure them.

NOTICE THIS:—There are several so-called Oils now on sale; the base of most of them being alcohol, which, when applied, is nearly all lost by evaporation; whereas THOMAS' ECLECTRIC OIL is composed wholly of Oils, five drops covering a surface as large as the hand, making it the cheapest medicine for man or beast ever offered to the public. YOU NOW CAN KNOW THE REASON.—*Podophyllin* (May apple or Mandrake) has long been known as an active purgative and has been much used in some sections of our country, (and is now very generally administered by Physicians in the place of Calomel or Blue Pill for Liver Complaints, &c.). *Compound Extract of Colocynthis* is considered by Dr. Nelligan, of Edinburgh, as one or the most generally employed and safest cathartics in the whole Materia Medica. *Extract of Hyoscyamus* given in combination with active cathartics (such as above) corrects their griping qualities without diminishing their activity. All the above highly valuable remedial elements are with others largely used in the manufacture of the Shoshonees (Indian) Vegetable Restorative Pills.—No wonder they are ahead of all other Pills as a Family medicine!

WHAT IT CLAIMS TO BE AND TO DO.

THE Great Shoshonees Remedy claims to be Purely Vegetable. It claims to contain greater curing and healing properties than any other Remedy or compound ever discovered. It claims to have more Radical, Permanent and Astonishing cures, where it has been in use, than all other medicines or compounds combined. It claims to be used by regular physicians, and to have been shipped hundreds of miles to them. It claims a most supreme power in Radically and Permanently Purifying and Enriching the Blood. It claims to restore the Lungs, from the First and Second stages of Bronchitis and Consumption, to Perfect Health. It claims to permeate, strengthen, clear up, and remove all the ducts, passages, and blood vessels of the Liver, and restore the organ to a perfectly healthy condition. It claims to possess supremely healing, restorative, and strengthening powers in the various forms of Dyspepsia; and to, effectually, radically, and permanently cure the disease. It claims to renovate and clear the various renal passages, ducts, and channels of all obstructions to the free and healthy circulation and action of the Kidneys; and restore the organs to their primary state of health. It claims to give the skin a soft, fair, and fresh, healthy, youthful, and blooming appearance. It claims, in Female Diseases, to be unequalled in permeating, searching, and clearing the different passages, ducts, and pores of the various congested organs to all hindrances to the free and healthy circulation through them, and consequently of all obstructions to their natural and healthy functions, and to restoration of perfect and permanent health. It claims to cure and have cured cases of Rheumatism, even where the patient had been confined to his house and bed for years. It claims to have a surpassingly pre-eminent superiority over all Remedies or Compounds ever discovered for renovating and clearing the whole system from the virulence the iron jaws of Syphilis, and restoring the downcast and disheartened victim to the platform of health. It claims to have vastly superior properties in clearing the system of the virulence of Scrofula, Skin Diseases, Humors, &c., &c., to any medicine ever recommended heretofore for the cure of those diseases. It claims to be an all-sufficient Great Remedy in restoring the broken down constitution of the victim of Youthful Folly. It claims to be an extraordinary preventive of disease, such as Colds, Inflammations, Fevers, Epidemics, &c., &c. It claims, in fact, a pre-eminent superiority in all diseases arising from, or dependent on Impurity of the Blood; and it claims nothing but what it possesses properties to perform; and, Reader, if you will but remember its peculiarly searching, permeating, expulsive, and restorative properties, as well as its clearing and healthy powers, you will not be surprised at its astonishing effects; hence this Great Indian Remedy is justly said to be the Remedy of Remedies of the Nineteenth Century, and the Greatest Boon ever laid on the Altar of Suffering Humanity.

SEA SICKNESS.

No language is sufficiently perfect to fully unfold and reveal to the mind the extreme suffering, misery, and distress caused by this most deathly affection. It has long been a source of great terror to the marine traveller, and the real nature of its character can be conceived by those only who have already experienced its crushing ills; and perhaps there is no disease to which flesh is heir, for the relief of which there have been a greater number of medicinal preparations compounded than for this same disease. It is well for the sufferer to fix the attention on something calculated to interest it; and to assist, if admissible, in the active duties of the ship; also to form a fixed determination not to give way to the disease, by keeping about instead of lying by. But fleeting time brings with it superior discoveries; the Great Shoshonees Remedy of Columbia Territory altogether supersedes any preparation ever compounded for allaying the vomiting and distress of Sea Sickness; which admirable properties are due, in great measure, to its restorative action on the Stomach, but principally to its permeating, clearing, and renovating effect upon the Lacteal Vessels, which property is possessed by no other remedy or compound.

All we can say is, that we indeed hazard nothing in stating that if the traveller will but use this Remedy, remaining as much as possible in the open air, he has nothing at all to dread. A trial, taking sufficient to relax the bowels freely, night and morning, will be sufficient to prove its great merits. Remember Reader, these are the plain facts of the case.

SCROFULA, SYPHILIS, &c.

In cases of Scrofula, Syphilis, Skin Diseases, Rheumatism, and Humors, but in no other diseases, one drachm of the Iodide of Potassium, added to each bottle of the Remedy, which is taken as usual, has a desirable effect, and will hasten the cure, do not add it in cases of diseased Lungs, Kidneys, or female ordinary private diseases.

A Manchester girl wants to know if the woman's rights movement includes the right to do the courting. If it does, she is in for it, as the men in her vicinity are very bashful. There is something practical in that.

What is worse than raining cats and dogs? Hailing omnibuses.

Game is very plenty on the Pacific road—that is, euchre and seven-up.

"Can you return my love, my dear Julia?" "Certainly, sir; I do not want it, I am sure."

DYER'S COMPLETE GUIDE.—

SPOTS.

To remove and prevent when coloring black on Silk or Woollen. N. B.—In dyeing Silk or Woollen goods, if they should become rusty or spotted, all that is necessary is to make a weak lye, and have it scalding hot, and put your goods in for fifteen minutes, or throw some ashes into your dye, and run your goods in it for five minutes, and they will come out a jet black, and even color.

BROWN.

For each lb. of wool—alum $\frac{1}{2}$ lb.; cream of tartar 2 ozs.; boil for half an hour; soak for one night in sufficient warm water to cover the wool. Red powder $\frac{1}{2}$ lb., fustic $\frac{1}{2}$ lb.; and logwood 2 ozs., then take the wool out of the alum water and boil with the woods for half an hour: If a dark brown is wanted, add about a tablespoonful of Cop-pers.

FINE WINE COLOR.

1 lb of wool—Redwood $\frac{1}{2}$ lb.; Madder Compound 1 oz. Soak the powdered wool in warm water all night, mix the madder compound with about half a pint of water (in a glass) and add it to the rest, rinse the wool in warm water and put in the dye, boil about half an hour, take out the wool and rinse in cold water.

TO COLOR STOCKING YARN OR WOOL.

Between a blue and purple. For 5 lbs. of wool Bi-cromate of Potash 1 oz.; Alum 2 ozs.; dissolve them and bring the water to a boil, putting in the wool and boiling one hour; then throw away the dye, and make another dye with logwood chips 1 lb., or extract of logwood 2 $\frac{1}{2}$ ozs.; and boil one hour. This also works very prettily on Silk.

N. B.—Whenever you make a dye with logwood chips, either boil the chips half an hour and pour of the dye, or tie up the chips in a bag and boil with the wool or other goods; or take 2 $\frac{1}{2}$ ozs. of the extract in place of a lb. of the chips, is less trouble and generally the better plan. In the above recipe, the more logwood that is used the darker will be the shade.

GREEN.

For each lb. of goods, Fustic 1 lb. with alum 3 $\frac{1}{2}$ ozs.; Steep, but do not boil until the strength is out, and soak the goods therein until a good yellow is obtained; then remove the chips, and add extract of indigo or chemic one tablespoonful at a time, until the color suits.

SILVER DRAB (LIGHT).

For 5 lbs. of goods—Alum 1 small tea spoonful, and Logwood about the same amount; boil well together, then dip the goods one hour; if not dark enough, add in equal quantities alum and logwood, until suited.

ORANGE.

For 5 lbs. of goods—muriate of tin, six table spoonful, argol 4 ozs.; boil and dip one hour; then add to the dye, fustic 2 $\frac{1}{2}$ lbs.; boil 10 minutes and dip half an hour, and add again to the dye madder 1 tea cup, dip again half an hour.

N. B.—Cochineal in place of madder makes a much brighter color, which should be added in small quantities until pleased. About 2 ozs.

Why cannot a medical man ever be "wide-awake? Because he's always dosing.

Somebody says "A wife should be like a roasted lamb—tender and nicely dressed." A scamp adds, "and without any sauce."

IT IS A FACT that the Shoshonees Remedy and Pills exercise most wonderful powers in promoting appetite, improving digestion, regulating the bowels, and removing nervousness and debility. The weakest will take no harm from the use of this great Indian Alterative and Tonic Medicine, but will gradually regain their health. The strongest will preserve themselves from many of the mishaps in which their boasted strength and fearlessness of results often betray them. Long suffering invalids may look toward this rectifying and revivifying medicine with the certain hope of having their maladies mitigated, if not removed by its means.

FOOD EASILY DIGESTED.

There is no subject connected with health deserving of greater attention than the proper kind of food for invalids. Every kind almost may be eaten with impunity by the hale, hearty laborer. He eats what is provided, but the person with weak digestive organs, in order to comfort, it is needful for him to eat only such articles as the stomach can digest. It becomes important therefore, to know what kinds of food there are which may be eaten without injury, and which, instead of increasing our maladies, serve to diminish them.

We give below a table of the results, obtained by Dr. Beaumont, not as a mere matter of curiosity, but as furnishing information of the most valuable kind in connection with animal nutrition. The first column indicates the substance taken into the stomach he last the time required for its digestion.

Digestion is much facilitated by the particles of food being made fine when taken into the stomach, and the quantity of nutritive matter furnished is greater. Individuals, therefore, in whom the digestive powers are weakened, find a benefit in thoroughly mastication or chewing their food. This principle is of great importance in the feeding or fattening of animals, and shows the necessity of grinding or cooking the materials given them if we would have them derive the full benefit of the nutritive contained.

Calendar, Aspects, &c.	
ALL SAINTS DAY.	
Cold and Frosty.	
23rd Sunday after Trinity.	
If wind S. or W. mild.	
On the whole fair.	
Now again changeable.	
Very unsettled time.	
But fair, fine and cold.	
Nothing remarkable.	
24th Sunday after Trinity.	
Fair and Frosty.	
Exceedingly cool but not	
severely cold.	
Changeable about now.	
Settled again and cool.	
Splendid weather.	
25th Sunday after Trinity.	
Indication of weather.	
Cold rains West.	
Much snow East.	
Bluster and sleet.	
Hard frost but fair.	
Fair and frosty.	
26th Sunday after Trinity.	
Cold and dull, but not rain	
or snow.	
But toward and at the	
month's close, there will	
rain or snow and cold.	
ST. ANDREW'S DAY.	

Why is a pretty girl like a locomotive engine? Don't give it up—there are plenty of reasons.—She sends off the sparks, transports the mails (males), has a train following her, and passes over the plain.

A water-proof liquid for boots and shoes may be made of the following articles: Linseed oil, one pint; suet, eight ounces; beeswax, six ounces; resin, one ounce. Melt together.

Men who talk degradingly of woman display their own degradation.

It is not what we read, but what we remember, that makes us wise.

ST. ANDREW'S NICHT.

KIRSTY reproves her father for eating too much haggis! and recommends him to take a dose of *Shoshonees* immediately.

What is the difference between a chemist and an alchemist? One is an analyzer (Ann Eliza), and the other is a charlatan (Charlotte Ann).

An exchange says: "Persons who use kerosene lamps will be glad to know that if the wicks are soaked in vinegar twenty-four hours and thoroughly dried before being inserted, all smoke will be avoided, the wicks will last twice as long, and increased brilliancy of light will be obtained."

An illiterate correspondent who is given to sporting, wants to know when the "Anglo-Saxon race," so much talked about, is to come off.

DYER'S COMPLETE GUIDE.—Continued from page 20.

PURPLE.

For 5 lbs. of goods.—Cream of tartar 4 ozs.; alum 6 ozs.; cochineal well pulverised 2 ozs. muriate of tin $\frac{1}{2}$ tea cup. Boil the cream of tartar, alum and tin 15 minutes, then put in the cochineal and boil five minutes; dip the goods two hours; then make a new dye with alum 4 ozs.; Brazil-wood 6 ozs.; Logwood 14 ozs.; muriate of tin one tea-cup, with a little chemie; work again until pleased.

DARK COLORS.

To extract them and to insert light colors.

This receipt is calculated for carpet rags. In the first place let the rags be washed clean, the black or brown rags can be coloured red or purple at the option of the dyer; to do this, take for every 5 lbs. black or brown rags, Muriate of Tin $\frac{1}{2}$ lbs., and the Lac $\frac{1}{2}$ lb. mixed with the same; let them stand a short time, dip the goods in this dye two hours, boiling half of the time, if not red enough add more Tin and Lac. The goods can then be made a purple, by adding a little logwood; be careful and not put in but a very small handful, as more can be added if not enough. White rags make a beautiful appearance in a carpet. by tying them in the skein and coloring them red, green or purple; gray rags will take a very good green. The coloring will be in proportion to the darkness and mixture.

CUDBEAR.

One ounce of cudbear will color one pound of goods. Make a strong soap-suds sufficient to cover the goods, stir in the cudbear; dip the yarn in soda water, put it into the dye, set it over the fire, and keep it hot; stir and air it well; when colored dark enough to suit wring it, wrinse in clean water, and dry. This color should never be dried in the sun; nor permitted to freeze, as either will cause it to fade.

TABLE OF STAMP DUTIES.

On every promissory note, draft, or bill of exchange, not less than \$25, 1 cent; over \$25 to \$50, 2 cents; over \$50 to \$100, 3 cents.

On every promissory note, draft, or bill of exchange, executed singly, for the first \$100, 3 cents; for every additional \$100, 3 cents, or fraction of \$100 5 cents.

On every draft or bill of exchange executed in duplicate, for the first \$100, 2 cents; for every additional \$100, or fraction thereof, 2 cents.

On every draft or bill of exchange executed in more than two parts, for each part for the first \$100, 1 cent; for every additional \$100, or fraction thereof, 1 cent.

The duties to be paid by stamps affixed to each promissory note, draft or bill of exchange; but the person affixing such stamp shall, at the time of affixing the same, write or stamp thereon the date at which it is affixed, and each stamp shall be held *prima facie* to have been affixed at the date stamped or written thereon, and, if no date be so stamped or written thereon, such adhesive stamp shall be of no avail.

Penalty for neglecting to affix stamps, or for wilfully writing or stamping a false date thereon, \$100.

The Governor in Council may direct stamped paper to be prepared for the purpose of this Act.

MARVELOUS CURE OF SCROFULA.

This is to certify, that early in the spring of 1867, when crossing the Atlantic to this country, my neck commenced to swell very badly, until it was nearly as thick as my head. After I had been in Canada about two months, it resulted in my having to enter an Hospital, as I had a very obnoxious sore on the side of my neck.

During the two months I remained in the Hospital, the surgeons and physicians connected with the institution did all in their power to cure me, but the disease was of such a stubborn character that I left it in a worse state than when I entered it; for instead of one, I had seven or eight very offensive running sores. For weeks after I left the Hospital I became my own Doctor, and kept poulticing and taking medicine, but without success. Then I faithfully tried in succession three different kinds of *Patent Sarsaparillas*, but they all failed to make the slightest improvement in my health so I discontinued taking them. I then became very much discouraged, thinking there was no help for me, and that my affliction would soon end my life; as I was gradually failing in health, and my sores becoming more numerous, when one day I very providentially picked up a newspaper, and my eye was attracted to the advertisement of the Great Shoshonees Remedy, and I read it. Something whispered to me *try it*. I bought a bottle of it, and took it, according to directions, three times a day. The wonderful result was, when I had finished it, my sores had commenced to heal and dry up, and my health was very much improved. For the first time in several months I seemed to be myself again, as I felt greatly encouraged, and bought another bottle and took it as before. When I had finished taking the second bottle of the Great Shoshonees Remedy, much to my joy, I found that all my sores were completely healed up, and my health restored. I was so astonished at the rapid cure of myself, that I took four more bottles of the Remedy, in case my apparent good health was only temporary. But now three years have elapsed since I finished my second bottle of the Great Shoshonees Remedy, and I thank my God have enjoyed the best of health ever since and praise the Indian medicine for the means of cure.

GEORGE BAXTER.

GEORGE HAM, J. P.

WONDERFUL CURE OF DYSPEPSIA OF FORTY YEARS
STANDING AND LUNG DISEASES.

Greene Point, Sophiasburgh.

Prince Edward Co, Ont.

10th June, 1871.

Dear Sir,—I take great pleasure in testifying to the wonderful benefit I have received from the use of your Great Shoshonees Remedy.

I was afflicted with Dyspepsia for nearly forty years, my constitution had well nigh succumbed to its ravages, my lungs becoming affected towards the last, so that I quite despaired of recovery. About three years ago, I was induced by a friend to give your remedies a trial and accordingly procured a supply from Mr. McDavall at Demorestville, after using between four or five bottles I experienced a decided improvement I gained in strength rapidly. [before I commenced using the remedy, I was so reduced that I was quite unable to undertake any kind of labor, however light.]

My health improved steadily and rapidly since, and when I had taken nine bottles of the remedy, I was quite restored to health and strength, and have since that time enjoyed better health than I did for forty years before though now about sixty years of age. I had been under the treatment of a number of skilful physicians before, but never received any material aid till I used your remedies.

In my case I consider its effects little short of miraculous and deem it a privilege to be able to speak a word in its favour.

Trusting my experience will prove a benefit to others who may be similarly afflicted.

I remain very truly yours,

SAMUEL OSBORN.

WONDERFUL CURE OF LUNG DISEASE.

BROOKLIN, April 5th, 1870.

J. C. CHAMBERLAIN, Esq.—Sir,—This is to certify that my wife was very low with Lung Disease. The Doctor had given her up. He said her lungs were tubercled, and medicine could not help her. As a last resort I purchased a bottle of the Great Shoshonees Remedy. At the expiration of two days, her symptoms were decidedly better. She continued to improve so rapidly, that by the time she had taken one bottle she was able to sit up. By the continuance of the remedy she was perfectly restored to health.

You may publish the facts for the benefit of those similarly afflicted.

T. C. BROWN,

Episcopal Methodist Minister.

CURE OF BRONCHITIS.

SMITHFIELD.

J. C. CHAMBERLAIN, Esq.—This is to certify that about three years ago I became afflicted with Bronchitis, which lasted about eighteen months. I was so afflicted for the want of breath that it was very difficult for me to speak, and in the night time frequently throwing the clothes off and rising in the bed to keep from strangling. I tried three of the most eminent physicians in the County of Northumberland for about a year, without receiving any benefit. In fact, I continued getting worse all the time. At last I was advised to try the Great Shoshonees Remedy. I bought a bottle and took it, and when it was about finished, I began to feel a little better. I continued to use it until I had taken three bottles, when, to my satisfaction, I found that I was as well as ever I had been previous to my illness, and have been so ever since.

JOHN SILVER.

CERTIFICATE FROM A VERY RESPECTABLE JUSTICE OF THE PEACE IN CANADA.

I have been thinking that a word to you concerning the wonderful healing properties of the Great Shoshonees Remedy, in my case, might not be amiss as it has done vastly more for me than any other medicine I have ever used, it has indeed done wonders for me, for it is in fact the only thing I ever got to place me on my feet in the summer season, during which season, to be down sick, not to speak of my suffering was in business affairs, of very great damage to my family and myself. I have been a very great sufferer for years from disease of the Kidneys and Liver. So sorely was I afflicted, that I was utterly unable every summer to attend to my business; my sufferings have been very great indeed: I have been so reduced and racked with pain, that in spite of all treatment, my friends thought it impossible at times for me to survive many hours. Everything else failing I was persuaded to try that peculiar Indian Compound, the Great Shoshonees Remedy, which has surely proved all in all to me; I have used two bottles and am at the third, and I am now, and have been this summer, the first for several years, quite hearty and strong, and well able to attend to my business. You are at liberty to make what use of this certificate you deem prudent.

With gratitude, yours truly.

JOHN S. HAGERMAN, J. P.

CURE OF LIVER COMPLAINT AND DYSPEPSIA IN CANADA.

Consecon, Prince Edward Co., C. W., March, 1867.

Dear Sir,—having proved within my own person that there is at last a medicine that will indeed cure liver complaint and Dyspepsia, I am induced to make this statement, under oath which is to certify that I have been sorely afflicted for the last three years, according to the Doctors statements with Liver Complaint and Dyspepsia. I had a feeling of sinking and vague uneasiness about the stomach, worse than pain, eructations of wind, occasional pain, drowsiness, constipation, uneasiness in the right side, headache, a poor appetite &c., &c., and was greatly reduced in strength. Hearing your new Indian medicine the Great Shoshonees Remedy spoken of so highly I tried a bottle with your Pills, from these I must say I found but little change, but I took another and then found my health improving. I continued it until I have taken about ten bottles, using the Pills, and I find that I have quite recovered. I eat hearty without pain, or uneasiness. I am well and have pleasure in attending to my business. The doctor remarked to me I was looking much better. I told him the Great Shoshonees Remedy was doing it. I have recommended the remedy in several cases and it has invariably given good satisfaction, and I would strongly recommend it to all afflicted as I was.

AMBROSE WOOD.

Sworn before me at Consecon C. W., this 2nd day of March, 1867

J. M. CADMAN, J. P.,

A Commissioner in Q. B., in and for the County of Prince Edward.

CURE OF RHEUMATISM.

Sir,—I have been a great sufferer with rheumatism so much so that I could not get about my room without help. I was attended by two skilful medical men but found no relief. Hearing so much of the Great Shoshonees Remedy I thought I would try it, and am happy to state that after taking a few bottles of your medicine I find myself able to walk as well as ever I did in my life. If you think it advisable you may make these facts public as I feel myself forever indebted to you for the benefit received from the Great Shoshonees Remedy.

Yours respectfully,

McKENZIE BOTTING.

Napanee, April 28th, 1869.

As far as I know the statement of Mr. Botting may be relied upon.

JOHN SCOTT, C. P. Minister.

CURE OF BRONCHITIS.

To J. C. CHAMBERLAIN, Esq.

Markham, March 25th, 1871.

Sir,—This is to certify that some time in November last I was taken down with an alarming attack of Bronchitis, so bad that I was nearly strangled at night, being hardly able to get my breath and being alarmed at the effects, I sought for a quick remedy, and seeing your great Shoshonees Remedy so highly recommended, I procured a bottle and I am happy to be able to state that by the time I had taken the contents of one bottle I was entirely well, and have remained so ever since, although I was greatly exposed during the winter in travelling through the country—and I consider it a duty which I owe to the public in making the above facts known. Wishing you every success in your enterprise, I am respectfully yours,

LEVI JONES, Proprietor of the Markham Bell Foundry.

Demorestville, April 20th 1871.

Dear Sir,—I duly received the Shoshonees Remedies ordered, and agreeable to your request I refer to my experience in their use.

This is not the first trial. I have used them different times previously, and always with decided and happy results.

I have found them particularly beneficial in liver complaint, dyspepsia and bronchial affections and would advise all similarly affected to give them a trial.

In these complaints I have found them uniformly reliable.

(This is a certificate you are at liberty to use as you think best.) I remain faithfully yours,

F. B. STRATTON.

Minister of the M. E. Church and Secretary of Bay Quinte Conference.

CURE OF SORE THROAT.

PRINCETON, N J. Oct., 20, 1870.

JOHN CHAMBERLAIN, Esq.—My dear Sir, I think I promised when I saw you last that I would drop you a note from Princeton saying how my throat is. I would have written sooner only waiting to see whether I could make a favorable report of myself, or no. I think I told you before that I had been led to try the "Great Shoshonees Remedy" purely accidentally. I may repeat it again: About the time I went over to Canada last summer, I caught what I believed to be a bad cold in my throat, so that after preaching on Sabbath I would be quite hoarse, and my throat would feel sore; this would remain with me all that week and be again irritated by my preaching next Sabbath. I began to despair; for I feared it would compel me to give up altogether. My difficulty in speaking was so great that often in the middle of my sermon my tongue would become so dry that I could scarcely speak distinctly and what I did speak was done with difficulty. At this time the tongue was covered with a white and parched crust, and the throat itself appeared for a few days very much inflamed and exhibited red spots. Well, I was miserable, and one afternoon when I called to see an old lady who was a member of my church she suggested to me that I had better try "*The Gt. S. Remedy*" which she was then using successfully. I tried a table-spoonful, I felt relieved and of course fancied that it was the medicine did me good. Next evening I tried it again under similar circumstances, and with like success, now thought I, I must try a bottle at once and so I did, took it according to the printed instructions and its use left my throat almost well; but it went on and I used no more for a week or two, my throat began to get irritated again. I immediately went over to see you you gave me a fresh supply and I have been using it ever since with great success, up till about two weeks ago, when I left off taking it—there has been no indications of a return of the irritation, so I hope it is a complete cure.

The white coating of the tongue which I thought arose from a bad state of the stomach, but which, the Doctor told me, arose from the diseased state of the throat, has now gone away entirely. After I returned to Princeton I did not take the remedy exactly according to the printed directions, but kept a bottle on the mantle-piece and took a sip whenever I felt the least indication of irritation and it was all right again. My general health is first class now, my appetite is very good. I am gaining in weight, and all I can do is to thank you a thousand times over for the medicine and the effectual cure it has wrought. I only wish from my heart that every minister who is suffering from sore throat would only try *The Great Shoshonees Remedy*. He would bless the compounder all the days of his life. If you think it of any use you may use this note in any way you please either all, or extracts, for the further commanding of your valuable medicine.

I am, my dear Sir,

Yours in gratitude,

R. H. CRAIG.

Presbyterian Minister.

CURE OF TROUBLESOME SORE.

Roxborough, 9th Concession, Athol P. O.
Co. of Stormont, Ont.

This is to certify that in the year 1863 in travelling in the Western parts of the province of Ontario in connection with the Bible Society, one of my feet got sore and broke out and all I could do to heal the same proved of no avail. I had to return home in November unable to travel any longer. It got better through the winter but broke out again the summer following and so on until June 1868.

I had all but given up hope of recovery but as a last resort I purchased a bottle of the far famed Shoshonees Remedy in the village of Shannonsville, with a box of the pills and before one half of the bottle and pills were used signs of health were visible, and by the time the bottle was all used my foot was as whole as ever. To-day 17 months after the cure above stated, no appearance of further trouble. Should any wish to know from me more fully with regard to the above cure I shall be most happy to comply with their wishes.

JOHN FINLAYSON.

Colporteur of the Kingston Branch of the British & Foreign Bible Society.

THE ROYAL FAMILY.

HER MOST EXCELLENT MAJESTY (ALEXANDRINA) VICTORIA,--By the Grace of God, of the United Kingdom of Great Britain and Ireland, Queen, Defender of the Faith. Her Majesty, the only daughter and heir of the late Prince Edward, Duke of Kent, fourth son of King George III., and of Victoria Maria Louisa (Princess Dowager of Leiningen), Duchess of Kent, and sister of the King of the Belgians. Her Majesty was born at Kensington Palace, on the 24th of May, 1819; baptised on the 24th of June, 1819, ascended the throne on the demise of her uncle King William IV., 20th June, 1837; and was crowned at Westminster on the 28th June, 1838. Her Majesty was married at St. James's Palace, 10th February, 1840, to his late Royal Highness Francis Albert Augustus Charles Emmanuel, Duke of Saxe, Prince of Coburg and Gotha, who died Dec. 14, 1861.

ISSUE.—Victoria Adelaide Mary Louisa, *Princess Royal*, born 21st November, 1840; married 25th January, 1858, at the Chapel Royal, to His Royal Highness Prince Frederick William Nicolas Charles of Prussia.

Albert Edward, *Prince of Wales*, born 9th Nov. 1841. Married 10th March, 1863, at St. George's Chapel, Windsor, to her Royal Highness Princess Alexandra of Denmark. — *Issue*: Albert Victor Christian Edward, born Jan. 8, 1864. George Frederick Ernest Albert, born June 3, 1865. Louisa Victoria Alexandra Dagmar, born Feb. 20, 1867. Victoria Alexandra Olga Mary, born July 6, 1868. Maud Charlotte Mary Victoria, born Nov. 26, 1869. Alexander John Charles Albert, born April 6, 1871, died April 7, 1871.

Allice Maud Mary, born 25th April, 1843. Married 1st July, 1862, at Osborne, to His Royal Highness Prince Frederick William Louis of Hesse-Darmstadt.

Alfred Ernest Albert, born 6th August, 1844.

Helena Augusta Victoria, born 25th May, 1846. Married 5th July, 1866, at Windsor Castle, to His Royal Highness Prince Frederick Christian Charles Augustus, of Schleswig Holstein Sonderburg-Augustenburg.

Louise Caroline Alberta, born 18th March, 1848. Married 21st March, 1871, at St. George's Chapel, Windsor, to the Right Hon. John George Edward Henry Douglass Sutherland Campbell, Marquis of Lorne.

Arthur William Patrick Albert, born 1st May, 1850.

Leopold George Duncan Albert, born 7th April, 1854.

Beatrice Mary Victoria Feodore, born 14th April, 1857.

CLOSING WORDS.

DEAR READER:—You have now had a brief but most candid explanation, with (we consider) satisfactory proof of the wonderful and extraordinary properties and effects of that surpassingly Great Alternative and Blood Purifier of the age, the GREAT SHOSHONEES REMEDY, the disclosure of which, we now add, is indeed the greatest achievement in the way of a medicinal discovery ever recorded in the annals of Historical Medicines; and may well be said, without exception, to be the greatest Boon yet laid on the altar of Suffering Humanity.

It is now an established fact, where this Great Remedy is known, that it has never had even an approaching equal for the radical and permanent cures of diseases of the Throat, Lungs, Liver, Digestive Organs, Kidneys, &c., as well as Female Diseases, Scrofula, Skin Diseases, Humors, Rheumatism, Syphilis, and all diseases arising from or dependent on Impurity of the Blood. The fact that there is much claimed for this great Indian Remedy is acknowledged; and, reader, if you but realize its purifying, permeating, searching and scattering properties, with its clearing, healing, soothing and strengthening powers, you will not wonder that it so thoroughly purifies the blood, and radically and permanently cures those diseases for which it is recommended.

All we can say now is, that if you require a medicine of these properties, get the GREAT SHOSHONEES REMEDY, for it possesses them in the highest degree and to their fullest extent. It will not cost you much to test its merits to your own joy and satisfaction.
