MAYOR GAYNOR WILL SOON BE CONVALESCENT CHOKED VICTIM TO DEATH, BODY IN BARREL

Improvement Was kept up well This Morning—Police Now Have Theory that Gallagher Had an Accomplice in His Attempt on Mayor's Life.

New York, Aug. 15—Mayor Gaynor, showed further improvement and strength today, and his "seventh day" found him rapidly emerging from the danger zone. The early morning bulletin of the physicians showed the wounded executive had passed an excellent night. The first official bulletin issued at 8 o'clock was as follows: "Mayor Gaynor has passed a good night and has slept well. He has taken nourishment well and is in a good general condition this morning; temperature 55 4-5; pulse 70, and respiration 16. The police are engaging themselves in a theory that James J.

Gallagher, the assailant, may have had an accomplice. This Gallagher denies, but a man with a police record is under suspicion. Mayor Gaynor will be taken to the Adirondacks just as soon as his condition permits but whether or not he will undergo an operation to remove the bullet before his trip to the mountains has not been fully determined. "One more day and we will be able to call Mayor Gaynor a convalescent," was the statement made at St. Mary's Hospital to-day. His attendants were frankly cheerful and more optimistic than on any previous occasion.

AGED NORTH SHORE FARMER DISAPPEARS

Alexander Loban, of St. Margaret's, Wandered Away Friday Night Last.

Chatham, Aug. 14—Alexander Loban, an aged farmer living at the village of St. Margaret's, seventeen miles from here on the Richibucto road, disappeared from his home last Friday evening and has not been seen since. It is feared he became deranged and wandered off into the woods. Practically all the inhabitants of the village were scouring the woods in all directions today. Loban and an unmarried daughter, who kept house for him, lived alone and it was during her temporary absence he disappeared. He had not been acting like himself lately and fears for his safety are entertained.

Somersworth Mass., Looking for Italian Murderer—Nickolas Capsalakos Being Hunted on the charge of Killing the woman with whom He Lived.

Somersworth, N. H., Aug. 14.—The number of a trunk check is the only clue which the police have to Nicholas Capsalakos, who is being hunted for a charge of having murdered Marissa Capsalissa, a woman with whom he lived at 9 Wallace street and whose body was found packed in an ash barrel in the cellar of the house yesterday. Capsalakos disappeared Thursday morning and thus far the police have only succeeded in tracing him as far as Dover, a few miles away.

TWENTY-FIVE CHINESE LIVE MONTH IN ROOM 20FT. SQUARE

The Atmosphere of Which was so Bad That it Extinguished the Flame of a Lantern.

Seattle, Aug. 13—Twenty-five Chinese stowaways who had eluded the inspectors at Vancouver B. C., were captured aboard the British steamship Kumeric, recently arrived from Hong Kong by immigration authorities yesterday. The Chinese had walled off room twenty feet square. They had been confined to this den since the steamer left China early in July and planned to slip ashore when the steamship reached Portland, where she is going to load lumber. In their little den they cooked their food, ate and slept. A lantern used in the search was thrust into the room but the poisonous air instantly extinguished the flames. The men were half-clad and some were ill from their long confinement and scant provender of tea rice and water.

AN INTERESTING AND INTELLIGENT VISITOR

John Sark, Jr. of Lennox Island Visiting the Restigouche and Miramichi.

The ADVOCATE had a pleasant call last week from Mr. John Sark, Jr., of Lennox Island, the Indian reserve of Prince Edward Island, and is a son of the ex-chief of that place. Mr. Sark is a fine specimen of the once great race who inhabited our Maritime Provinces. His splendid physique, and athletic appearance brings him up to the ideal pictured by the early explorers and pioneers. He is a graduate of St. Dunstan's College, completing his Arts Course two years ago. His education is above the average even for a college graduate, he speaks English, Latin, French and Micmac with equal fluency and has a good grounding in some other languages. He had been paying a visit to the

Mission across from Campbellton at the time of the big fire and is much interested in the relief of the town and proposes taking an active part in raising a relief contribution when he returns home, and stopped over at Miramichi to visit M. O'Brien, son of Sheriff O'Brien, with whom he attended college and is graduate of the same year. The young man is an excellent conversationalist and takes a lively interest in all matters of public as well as of local interest. He reports hay and grain, and in fact all crops excellent on the island; and takes a special pride in the fact that POCO WICH (Rum) and autos are prohibited in his native province. Mr. Sark has returned to his home.

JOE GANS, ONCE PREMIER IN HIS CLASS, IS DEAD

Consumption Carries Off Former Lightweight Champion at Age of 34

Baltimore, Aug. 10—Joe Gans, former lightweight champion pugilist, died this morning. Gans died of consumption which manifested itself about a year ago. Late last spring he went to Arizona with the hope of restoring his health but the disease had been too deeply seated and he declined rapidly. He was brought here last week to die. He was thirty-four years old. Joe Gans true name was Gant, the name Gans having been fastened upon him early in his ring career by a mistake of a referee. He began his ring career in 1894, but prior to that time he had made a name for himself as a fighter about a fish market in this city where he was employed. His first fight for money is said to have brought him only \$4. The largest purse for which he ever fought was \$38,000, he having agreed to give Nelson the remainder, win, lose or draw. Gans won the title of lightweight champion from Frank Erne, in Port Erie (Ont) in one round in 1902, and lost it to "Batling" Nelson in 1908 in the 17th round.

POLICE, AS USUAL, WERE NEARLY TOO SMART

Montreal, Aug. 12—A practical joke evidently played by some medical students, might have caused the arrest and perhaps conviction of an innocent man, had not a small piece of wire been found attaching the lower jaw to the upper jaw of the human skull, which was found by some men working in a dump at the foot of Metana street yesterday. The skull was taken to the morgue and in the meantime the police had started investigations, and no doubt in a short time would have picked out a couple of likely looking culprits and a story no less interesting and with as many horrible details as that which has been thrilling the world for the last month might have developed from these bleached bones, had not Dr. McTaggart found this little piece of wire which made it quite evident that this was not a murder but a weird form of joke. The interesting investigations being carried on by the police, who almost had their hand on the man, had to be interrupted.

MONCTON SUSPECT WITH BURGLAR'S OUTFIT EX-CONVICT

Identified as Ainsworth Harrison, of Kentville, as Having Served Time in Penitentiary.

Dorchester, N. B., Aug. 13—Sergeant Atkinson, of the Moncton police force, arrived in Dorchester this noon, having in charge "Will Smith," who was remanded to jail on a charge of carrying a complete set of burglar's tools and dangerous explosives. Chaplain B. H. Thomas and Chief Keeper L. S. Hutchinson, of the prison staff, were at the depot and immediately recognized the prisoner as an ex-convict Ainsworth Harrison, of Kentville, N. S., who served two terms in the federal prison. He admitted his identity and on arriving at the jail asked for a speedy trial.

AGED HALIFAX WOMAN BURNED TO DEATH

Mother of one of Teachers in the Sacred Heart Convent, St. Joseph's.

Halifax, N. S., Aug. 14—Burned to death while placing a light in the hall to guide her daughter up the steps on her return from work was the sad fate of Mrs. Mary Ann Doyle, about nine o'clock last night. The aged woman and her daughter returned from church and the latter started down a town to meet her sister. Mrs. Doyle was tired and said she would place a lamp in the hall and retire. The daughter had only left the house a few minutes when a lad who was playing on the street a few feet away heard someone calling for help, and summoning assistance, went to the Doyle residence and found the aged lady a mass of flames on the floor. While in the act of placing the lamp on a chair it fell to the floor and exploded, the flames igniting her clothing. She was taken to the Infirmary but died in less than an hour. She was a widow and had six daughters, three of whom are Sisters of Charity. One is a teacher in the convent in St. Joseph's, N. B., another is sister superior of the convent in Metaghlan, Digby County, N. S., while the third is in the convent of the Sacred Heart in Halifax.

The Campbellton Graphic,

H. B. ANSLOW, EDITOR AND MANAGER.

CAMPBELLTON, N. B., AUGUST 19th, 1910.

THE BUILDING LAW

The Graphic has been informed that despite the fact that the Town Council has passed a building by law, certain citizens have ignored the same and have proceeded to erect buildings to suit their own ideas and have not even taken out the required building permit.

This state of affairs should not be tolerated for an instant, and the town officials should have sufficient backbone to make an example of such as refuse to abide by the laws of the town. This regulation was passed in the best interests of the town and should be impartially enforced. If one citizen is allowed to go ahead and erect a wooden building in the prohibited distance, his neighbor has just the same right.

One or two prosecutions at the outset would put a stop to all such violations of the by law in the future. Let us start right and Campbellton will grow up in a much improved manner.

THE AIRSHIP MAY BE

BLESSING FOR P. E. ISLAND.

Canada, a weekly journal printed in London and devoted largely to enlightening the British mind in regard to Dominion affairs, makes the following reference to our winter difficulties and how they are to be remedied by airships.

"Aviation is likely to prove a boon and a blessing to Prince Edward Island, between which and Canada the keeping open of winter communication costs much money yearly. Occasionally no mail is received on the island for almost a month's stretch, and the citizens of that territory become seriously irritated. A tunnel under the Strait of Northumberland was at one time projected at a sum in the neighborhood of twenty million dollars. That tunnel is now farther off than ever. A few flights further in aviation and the transference of letter mails in packages of two hundred pounds by means of aeroplanes over the thirty miles of ice-breakers of the straits in a few minutes will have become an accomplished fact."

There are several rather glaring inaccuracies in Canada's statement. There has been no occasion within a generation past in which no mails were received on the island for nearly a month, as stated, although the winter steamers have been prevented from crossing for as long as that. The mails, however, got across by the capes without any break exceeding a week or ten days. Then again, nobody has proposed a tunnel to cost twenty millions. A reliable offer to complete the work for half that sum has been before the Dominion Government for years. And the tunnel is, we believe, not farther off, but nearer than ever.

But the idea of trying what an airship can do at the capes is a good one, and we are glad to learn that the fame of the project has spread across the Atlantic. It was at the capes that one of the first submarine telegraph cables was laid down and has proved of great utility. If the airships are to be of any real utility it is time that they were put to some steady work, which, after all, is the best test of value. The width of the straits is but seven miles, and in winter it is much less than that from edge to edge of the board ice, on which the start and the landing would be made.

Here then, is work needing to be done, where the conditions are favorable for airship trials and also for any development of which these machines are capable. For ourselves, we are not as sanguine as some are with regard to regular mail or passenger traffic by airship, but we would like to see the trial made and the better it shall succeed the better everybody concerned will be pleased.—Charlotte-town Guardian.

CAMPBELLTON CHURCH SITUATION.

To the Editor of the Globe:

Sir,—Is this the "silly" season, that the Telegraph should be led to reprint and to countenance so ridiculous an editorial as that which appeared in the last number of the Carleton Sentinel?

The Sentinel says that the clergy-men of Campbellton, in asking assistance towards rebuilding the churches destroyed in the late disastrous fire, are displaying "undue haste, which to many seems unseemly." "There is great danger," it adds, "in this undue urging of the people towards the erection of (such) buildings, when so many of them think them unnecessary," etc., etc. It looks "too professional" on the part of the clergy, too much as though "our craft was in danger."

If the writer of the Sentinel's editorial is one of those who think church edifices are unnecessary, his attitude is, of course, easily understood, otherwise he is making a mountain out of a mole-hill. Every man of common sense, clergyman or layman, admits that there are too many kinds of churches in existence, and the best men of all creeds desire Christian reunion, and rejoice that some progress is being made in that direction. But as this is a matter that cannot be realized in a day, we must not meanly deny to men the liberty to worship God according to their own consciences. This may mean the building of more churches in Campbellton than are absolutely necessary, but it does not mean that the principal object of the clergyman is, as the Sentinel insinuates to provide places "in which their different creeds and doctrines may be published without let or hindrance." The churches doubtless are intended primarily for the worship of God, and as centres of Christian activity for the betterment of humanity. As years pass on they will spend less and less time in religious controversy, and more and more time in proclaiming the Saviour's message of good will and in teaching men how to live right lives. If the object of the ministers of Campbellton be to teach righteousness and unselfishness, then the sooner the churches are rebuilt the better. This talk about the appeal from the clergy as "too professional" is utter nonsense. Who should take the lead in the matter if not the clergy? And why should they wait until the homes are all rebuilt before they take action? Are the school trustees to wait until the homes are rebuilt before they think of replacing the schools? Are the bank managers and the railways and the town authorities to take no steps towards replacing the banks, the railway stations and public buildings until the homes are all rebuilt? Why, then, must the churches wait until the homes are rebuilt? Can the appeal for outside aid in replacing the churches be made as successfully a year hence as it can today?

The members of the various Christian denominations throughout the province should not be discouraged by such editorials from befriending the people of Campbellton in the rebuilding of their churches as in the re-establishing of their homes. The article in the Sentinel states that "the fathers of our land laid the foundation of our modern attainments when they worshipped on the hillside and by the babbling brook." This may be true, but it did not hinder them from building churches as soon as they were able, and the founders of our city showed their feeling in the matter by the fact that the first framed building reared by them was a church.

CARLETON CO.

VOTES \$1,000

Woodstock, Aug. 15.—By a vote of 16 to 6, the Carleton county council decided at a special meeting held in the court house tonight to grant \$1000 towards the Campbellton fire relief fund. The amount was decided upon after a lengthy discussion as to the best means of raising the greatest sum possible in a way that would affect the taxpayers in the least way. It was found that the increased tax would be but 17 cents per \$1000.

The motion was proposed by Councillor J. Rankine Brown, of the town of Woodstock and seconded by Councillor Gibson. Those in favor were Balmain, King, Williams, Odbur Shaw, Frank R. Shaw, Tracey, Kinney, Keenan, Morgan, Phillips, Gibson, Hay, Alex Bell, Scott, Brown.

Those who voted against the motion were Tracey, Smith, Lamont, Brittain, Tompkins, Milville. Warden Stevens appointed the following councillors as delegates to the convention of the union of municipalities to be held in Woodstock this fall. Councillors Williams, Lamont, Alex. Bell, Thompson and Milville. The convention will be held in it is thought next month.

ANOTHER VICTIM OF CHINESE FEUD

New York, Aug. 16.—The Ong Leong Tong cut another notch in its tally stick tonight when Chu Hima, member of the Four Brothers Society ventured one pace into hostile territory and fell dead across the steps that mark the boundary line, with four bullets in the back of his head. No arrests were made.

CHEAP FARES TO TORONTO EXHIBITION.

A trip to Toronto about the last week in August or the first week in September is bound to be most enjoyable, and all the more so if made during the time of the Canadian Exhibition, which is the largest annual fair held anywhere on this continent.

The dates of the Exhibition this year from August 27th until 12th, and for a period extending over this time the Intercolonial Railway announce a series of special fares that ought to prove attractive to those who are contemplating a trip to the "Queen City." Round trip tickets at first class one way fare, will be issued on August 25th, 27th, 29th, 30th, and 31st, and on Sept. 7th and 8th, good for return September 14th. Fares still more reasonable will prevail on August 29th and September 6th, these tickets being also good for return on September 14th.

Those travelling by the Intercolonial will be enabled to reach Toronto by the shortest and most comfortable route from the Maritime Provinces. The Ocean Limited, which arrives in Montreal at 7:35 a. m., connects at Bonaventure Union Depot with the Grand Trunk International Limited which leaving Montreal at 9:00 a. m., arrives in Toronto at 5:30 p. m., thus saving hours of time. The Maritime Express, arriving in Montreal at 6:30 p. m., makes connection with the night expresses of the Grand Trunk Railway, arriving in Toronto early the following morning. The opportunity is thus given for a most enjoyable trip at rates that are very reasonable. Traffic is always much increased during this period, and those who have this trip in mind will do well to apply early for sleeping car reservations.

GRIFFIN

A SUICIDE

Which Seems the Only Rational Conclusion From the Evidence Adduced at the Inquest.

Halifax, N. S., Aug. 16.—Detective Griffin of the Quinicy, Mass., force, who came to North Sydney to identify an Italian supposed to be Resstili, who is wanted in Quinicy for a double murder was cruelly murdered in Sydney last night. He was found in an alleyway this morning with his throat cut from ear to ear. A large razor lay in a pool of blood beneath his head. The theory is that the man was murdered by Italian friends of Resstili. The man supposed to be Resstili was arrested Wednesday night on board the steamer Bruce bound for St. Johns, Newfoundland. The Quinicy authorities have been in communication with the North Sydney police for some time to be on the look out for the murderer as it was thought he was endeavoring to escape to Newfoundland.

Late Wednesday night a mysterious looking man arrived on the Boston express and bought a ticket for the Bruce. The captain became suspicious and notified the police, but after a thorough search of the ship he could not be found. The police were about to give up the search when they were attracted by a noise underneath the bunk, and on investigating, the man was found hidden beneath the mattress and the bottom of the bunk. He made a desperate dash for freedom and was armed with revolvers and knives, but was finally overpowered and lodged in jail. The Quinicy authorities were notified of the arrest, and Detective Griffin came to Sydney to identify the man. He arrived last week and his dead body was found this morning. Sydney is the centre of the Cape Breton collieries and a large number of Italians are employed in the mines.

Sydney, N. S., August 18. "We, the jury empanelled to enquire into the cause of the death of E. J. Griffin, find by the evidence before us, that to our opinion the deceased E. J. Griffin came to his death by committing suicide while in a fit of temporary insanity."

RECORD TRAVEL ACROSS ATLANTIC

Montreal, Aug. 17.—The west bound travel for this week constitutes a record. There are now on the ocean 5601 people, who will reach this port this week. Of these the Empress of Britain carries 1600, and the Corsican 1210. This is 500 more than arrived last week, one of the chief reasons being the beginning of the tide of the Eucharistic Congress. But the chief reason is that owing to the plentifulness of money many Canadians went across this year and they are now on their way home.

NOT AFTER NAIL WORKS

M. J. Butler Authorizes Statement That There is No Foundation For Report of Sale.

Sydney, Aug. 16.—Mr. Butler, G. M. G., general manager of the Dominion and Steel Company has returned from Montreal. Last evening Mr. Butler said that there was absolutely no ground for the report that the Dominion Steel Corporation had taken over or were even considering the purchase of the Jas. Pender nail works at St. John, although he had heard that the Pender concern might be taken over by a new company in the near future. Certain parties who were not unfriendly to the steel company were said to be negotiating for the purchase of the nail works, but the Dominion and Steel Company had absolutely no interest in the matter.

DON'T FEED A COLD!

A Pernicious Proverb.
The Real Facts in the Case.

One of the commonest of English proverbs is, "Feed a cold and starve a fever,"—advice which has helped fill many a churchyard.
The fallacy lies in assuming that a cold and a fever are different. As a matter of fact, a cold is a fever.
When the organs of elimination, especially the bowels, lungs and skin, become congested or clogged, a "cold" with increased temperature results. The poisons accumulate and the familiar symptoms are felt. A similar effect is produced by infection, or "catching" a cold.
Father Morrissey's method was to stimulate the organs to do their duty, without giving them extra work by overeating. He used a great physician believed in assisting Nature to cure.
His prescription, No. 10, or Lung Tonic, is now being procured everywhere. It is a Maritime Province Lung Tonic made of Natural Aromatic herbs, and contains no dangerous drugs. Take it for quick recovery, and build up your system against future attacks.

A HOME-MADE AUTOMOBILE

Fredericton has not only an amateur aeroplane builder but yesterday a home-made automobile appeared on the streets. The new machine is the property and manufacture of a young man named Gough, who is employed as engineer at the Bijou moving picture theatre. The new auto is built on the same plans as the old tricycle only it has four wheels, and besides the driver will carry another passenger. It does not run noiselessly by any means, but it gets over the ground at a pretty rapid rate of speed.—Gleaner.

MANY IMPROVEMENTS

Mr. H. V. Leighton, at one time station agent at Derby, gave the ADVOCATE a pleasant call on Saturday last. Mr. Leighton accompanied the remains of the late Wm. Jardine here from Beverley, Mass., an account of the death and funeral of whom can be seen elsewhere in this issue. Mr. Leighton is now foreman of the United Machinery Company of Beverley, Mass. It is three years since his last visit and states that he notices many improvements and new industries along the Miramichi and also adds that he has not yet seen as pretty a place as the old Miramichi. Mr. Leighton renewed old acquaintances while here. He returned to Beverley yesterday morning.

EVERY ONE SEEMS TO BE TAKING "FRUIT-A-TIVES"

Demand Always Increasing

Because "Fruit-a-tives" Cures

The real value of any article may be judged by the demand for it. Steadily increasing sales are the surest indication of intrinsic merit. This applies to a medicine as well as to a breakfast food. First introduced to the public in Ottawa, the fame of "Fruit-a-tives" quickly spread until to-day these fruit juice tablets are known and used in every section of the Dominion.
The only reason for this extraordinary demand is that "Fruit-a-tives" is the only medicine in the world made of fruit, and is the only remedy that will positively cure Constipation, Biliousness, Indigestion, Dyspepsia, Backache, Headache, Neuralgia, Rheumatism, Bladder and Kidney Troubles. One has only to read the testimonials given to "Fruit-a-tives" by some of the best known and most highly esteemed people of Canada, to appreciate the wonderful amount of good that this grand fruit medicine has done and is doing for the sick and suffering.

P. E. ISLAND INTERESTED

Mr. Walter H. Golding returned on Wednesday evening from a trip to Prince Edward Island in the interests of the Dominion Exhibition. He found that the advertising done through the newspapers, by bill boards and by the special agents of the association, had made the fair very well known throughout the Island. Although they are holding an exhibition at Charlottetown shortly after the Dominion fair, everyone seemed favorably disposed towards the big event at St. John and there will be a large attendance from the Island. The steamship companies are co-operating with the railways in giving very low rates for the trip.—Globe.

GRACE CORBETT

Death has again entered the home of Mr. and Mrs. William Corbett, Jr., and claimed their only surviving daughter Grace, after an illness of nearly a month. For the last twelve days the little one has been hovering between life and death, and despite all that loving hands and tender nursing could do, she succumbed to the disease Thursday morning at 7 o'clock. At the age of three years and seven months. Bright, happy and cheerful, Grace carried sunshine wherever she went. She had always a smile and a pleasant word for her friends. Her death following so closely that of her little sister, is a sad blow to her bereaved father and mother and friends. They have the sympathy of their numerous friends in their double bereavement.

The funeral took place on Saturday afternoon, and was largely attended. Rev. Mr. McArthur conducted service at the house and grave.
