## ONE MILLION FOR BETTER HOUSING

Announcement Made By Premier Foster—No Legislation Until Regulations Are Known.

Fredericton, Feb. 7.—Hon. Walter E. Foster, premier of New Brunswick, announced here today that one million dollars had been apportioned to the province of New Brunswick for Better Housing in 1919. The premier a short time ago communicated with the Federal Minister of Finance relative to this matter, asking what sum would be available for this province and received the reply as given.

Regulations not Yet Known.  
The regulations under which the money or any part of it can be obtained are not yet arranged and until they are, the legislation which would be necessary to make the grant available cannot be enacted. The amounts to be apportioned for use by municipalities and in other ways will be determined under that legislation.

Matter of Importance.  
Improved housing conditions are considered to be of the utmost importance in all countries and Canada has not lagged behind. The fact that this province will have a grant of one million dollars during the present year will cause much satisfaction among the people of New Brunswick.

Government in Session.  
The Provincial Government's session opened last night but on account of the absence of the Premier, Hon. E. A. Smith and Hon. C. W. Robinson who were attending the dinner of the Canadian Lumbermen's Association at St. John, there was merely routine business transacted. Those members of the government arrived here this morning and the session will continue all today. How long the meeting will be is not yet known.

LEGISLATURE MEETS ON MARCH 6  
Government in Session Until Late Hour Disposing of Routine Business.

Fredericton, Feb. 6.—Premier Foster announced tonight that the opening session of the legislature would be held Thursday, March 8. The government was in session until a late hour tonight disposing of routine business. It will meet in St. John tomorrow as the provincial hospital commission.

A man never realizes how sick he was until the doctor sends in his bill.

## HOTEL DIEU HOSPITAL'S WORK

Since Opening of Temporary Hospital Good Work is Being Done.

Despite the drawbacks incident to a temporary installation, the Hotel Dieu Hospital has again proven its value in our midst. Seventy three patients have been received since the Hospital resumed work six weeks ago after the suspension of activities following the fire. The majority of these patients were surgical cases, operations being performed for appendicitis, gall-stones, mastoid infection, hemorrhoids, abdominal tumors, amputations, etc. of patients, and the average duration of stay in the Hospital was 10 days.

In order to offset the inconvenience of a remodelled building, the Sisters have gone to considerable expense in the installation of emergency appliances, but the satisfaction resulting therefrom has more than compensated for the additional expense. Among these items we note an addition to the furnace boiler, by means of which a continuous supply of hot water by day and night, is available.

Moreover recognizing the value of correct diet in the treatment of patients, the Sisters have secured the services of a trained Dietitian for the institution. The young lady, a graduate of "Ecole Managers" of Montreal, brings to her work a thorough theoretical and practical knowledge that ensures to Hotel Dieu Hospital the latest and best in Modern Hospital Dietetics.

All of these, as has been said, necessitate considerable outlay of funds, but the kindness and generosity of friends has made the task comparatively light for the Sisters. Besides the generous subscriptions to the Building Fund of the New Hospital, numerous material donations have been made by our people, including a Linen Shower, a Kitchen Shower, furniture, bedding, provisions and delicacies of various kinds. Friends in Jacques River, Bathurst, Newcastle and Chatham have likewise sent contributions of bedding, table linen, kitchen utensils and provisions.

The plans for the new Hospital are under immediate consideration, and preparations are being made to begin the work of rebuilding early in April. Needless to say their friends wish a hearty "God speed" to the Reverend Sisters' projects.

## C. S. E. T. BOYS SNOWSHOE TRAMP

Went to Athol Cook House Friday Evening Where Pleasant Time was Spent

Last Friday evening the boys of the C.S.E.T. classes with a number of gentlemen interested in this work, snowshoed to the cook house at Shives Athol.

Mr. Donald McLean set the pace and the river was the highway traveled, a direct course being set from the landing at McEae's to the Athol point. About fifty boys were in line.

Upon arrival at the cook house a repast consisting of baked beans and brown bread, cake, pie and tea and coffee was served and it is needless to say was done full justice to.

After the inner man, or boy, had been satisfied addresses were delivered, and a most enjoyable time was spent. The evening was a beautiful one.

The following gentlemen were with the party: John M. MacLean, W. J. Appleton, Rev. Mr. Barnes, Rev. Mr. Campbell, Donald McLean, H. C. Titus, R. J. S. Sly.

## PRESENTATION TO MANAGER FRASER

Pleasant Function at Dalhousie Last Week—Kind Words to Manager.

Dalhousie, Feb. 6.—There was a very representative gathering of business men and citizens assembled at the shiretown Club Rooms last evening, when Mr. A. R. Fraser, who has been during two years manager of the Dalhousie Branch of the Bank of Nova Scotia, was presented with an address, accompanied by a very handsome club bag, by his friends, brought about by the fact that he is being transferred to a larger centre.

The following address was read to Mr. Fraser by Mr. R. G. Mowat, principal of the Dalhousie Superior School, and President of the Dalhousie Social Club who welcomed to the Club Rooms the gentlemen, who were not its members.

A. R. Fraser, Esq.,  
Dalhousie, N. B.  
Dear Sir and Friend:—

We meet Sir this evening with feelings of genuine regret, at the thought of your early departure from Dalhousie, to continue your work in another field.

Since we have daily come in contact with you, during the past two years, we have come to realize fully, the stability of your character, and the honesty and integrity of your business transactions with us, and it is fitting on this occasion, that we should voice our appreciation of those excellent qualities with which you have been endowed.

You have willingly and cheerfully lent your aid and prestige to all functions, which had for their aim the elevation of the tone and character of this community, you have liberally supported our institutions; and have created and sustained enthusiasm in our amusements, and hence we desire to express to you, our heartfelt thanks that your lot has been cast with us, even for this short space of time.

To your estimable wife, we would ask you to convey our sincere wishes for a long and happy life.

That kindly heaven may bless you abundantly, cheer you in your sorrows, shower you with its richest joys, and prosper you in all your undertakings is the earnest wish of all.

In token of the esteem in which you are held among us, we beg you to accept this gift.

Mr. Fraser, in well chosen words thanked his Dalhousie friends for the kind sentiments expressed in the address. He was grateful for the nice gift. He and Mrs. Fraser regretted that circumstances compelled them to leave a town in which they had met with extreme kindness on all sides. They would never forget the Dalhousie people.

Brief remarks were then made by Hon. C. H. LaBillicois, Thos. G. Scott, A. B. McKinnon, W. A. R. Cragg, F. McEve.

Albert C. LaBillicois, speaking on behalf of the young men, who were unavoidably absent, said that they one and all, wished to extend to Mr. and Mrs. Fraser their sincerest wishes for their welfare. Both had during their stay in Dalhousie, given to the young folks that cheer that makes life worth while.

## LADIES' AID SOCIETY FORMED

Will Work in Interests of New Soldiers Memorial Hospital.

A largely attended and very enthusiastic meeting of the ladies of Campbellton was held in the Council Chamber Monday evening to elect two trustees on the board of management of the Soldiers Memorial Hospital, and to form a Ladies Aid Society in connection with the same project.

Mr. A. A. Andrew opened the meeting with a few remarks on what has been done so far in the way of collecting for the Hospital. He then called on his Honor Judge McLatchy who addressed the meeting along the same lines, and then the gentlemen retired leaving the meeting to the ladies.

Mrs. M. P. Moores was elected Chairman and Miss Eva Wilson Secretary.

The first matter brought before the meeting was the nominating of two trustees to the Board. The following were nominated:—

Mrs. M. S. Shives, Mrs. William Milligan, Mrs. William Currie and Mrs. William Miller. Mrs. Miller's name was withdrawn, owing to her husband being on the Board. A vote was then taken on the three remaining names. Mrs. Milligan and Mrs. Shives were elected.

The Chairman then called on Mrs. Daniel Richards, lately Matron of the Newcastle Hospital, to give the meeting a few suggestions along hospital work.

Mrs. Richards said the first thing to do was to organize, enroll members, then appoint your officers, president, two vice presidents, or more if you desired, secretary and treasurer, and spoke of the need of co-operation.

It was decided that the Ladies' Aid be organized at this meeting.

It was moved and seconded that the initiation fee be \$1.00. Eighty members were then enrolled.

The meeting then proceeded to the election of officers. After considerable discussion the following officers were elected:—

President—Mrs. J. R. McKenzie.  
1st Vice-Pres.—Mrs. Max Moore.  
2nd Vice-Pres.—Mrs. J. L. Wyers.  
3rd Vice-Pres.—Mrs. W. A. Turman.  
4th Vice-Pres.—Mrs. F. M. Anderson.  
Secretary—Miss Mona McLennan.  
Treasurer—Miss Lydia Duncan.

By-Law Committee.  
Mrs. Donald McLean  
Mrs. James E. Miller.  
Mrs. William Currie.  
Mrs. A. D. MacKendrick.

Word came that Mrs. M. S. Shives thanked the people for the honor, but she felt she was unable to act on the Board. Mrs. Currie and Mrs. Gallon were then nominated in her place. Ballot was taken and Mrs. Gallon elected.

A discussion then took place as to the time and place for the meetings, and it was decided that the first meeting be held on Tuesday evening.

## DELEGATION TO SPEAK IN S. A. CITADEL

Discussed Train Service in and Out of Campbellton—Improvement Promised.

A delegation consisting of His Worship Mayor Alexander, Warden H. C. Gillis and Messrs. Geo. G. McKenzie and D. A. Stewart went to Moncton on the Limited Wednesday, and met General Superintendent L. S. Brown at 8 pm.

Matters in connection to train service in and out of Campbellton were discussed and in reply to the delegation's arguments, Superintendent Brown promised to make improvements in railway and train service that they would at least leave here on time.

With regard to the Suburban between here and Bathurst he said he could not promise to have this train reinstated as that matter would have to be taken up with the management but he would take the matter up and advise the delegation in about ten days.

TO SPEAK IN S. A. CITADEL.  
Rev. T. J. Rowley will give an address at the Salvation Army Citadel this evening.

## GLOUCESTER IRON MINES TO BE BUSY

Under Contract for 500,000 Tons of Ore a Year—Says Mr. Parsons.

Fredericton, Feb. 8.—That the Gloucester iron mines near Bathurst will be operated upon a larger scale than ever by the Canada Iron Foundries, Ltd., just as soon as the labor and tonnage situations reach a normal basis, was the statement made by W. F. C. Parsons, of the Canada Iron Foundries, who was here from Middleton, N. S., while the Provincial Government was in session here.

Mr. Parsons announced that his company now has an offer from Philadelphia for 500,000 tons of ore from the Gloucester mines annually for a long period and declared that everything pointed to a resumption of work at the mines on a large scale just as soon as tonnage was available and the labor market became settled after the upset caused by war conditions.

At the present time the railway to the mines is not in a condition to be operated, as \$100,000 worth of steel rails were taken off the line by the St. John Valley Railway Company for use on that road and the Valley Railway now pays interest to the Canada Iron Foundries, Ltd., on that amount. The arrangement under which the rails were allowed to be removed, Mr. Parsons says, is that they must be replaced within a year of the end of the war.

The 15th place to be announced in the local papers. Meeting then adjourned.

### Dream Pictures

Suddenly, in the glow of the evening lamp, a presence appears—a great artist, with violin in hand; who at our bidding, draws from the strings a thrill of joy, a sob of grief, a sigh of love.

And under the enchanting witchery of music, we are transported back to the old-time rest and comfort of happier days.

Gradually the dream picture dissolves, the presence fades, and we behold the most marvelous of all musical instruments—

### The NEW EDISON

### POURED IN GLASGOW

To Prevent Repetition of Friday's Disorders—Bolshevik Doctrine.

Glasgow, Feb. 1.—Thousands of troops have arrived here and sentries with fixed bayonets are stationed at strategic points about the city. Everything is quiet this forenoon. Councilor Shipwell, one of the strike leaders in the Clyde district, was arrested this morning.

London, Feb. 1.—There was serious rioting to-day in the mining district of Lanarkshire, particularly at Bell's Hill, where much damage to property resulted. The police clubbed the rioters.

London, Feb. 1.—Branches of the Society of Engineers resolved last night to strike Feb. 6 and to continue the strike until a working week of 40 hours was granted them. The decision of the engineers came as a surprise, as a week ago the London district accepted 47 hours as a week's work, and was regarded as immense from the influences of the Belfast and Glasgow workers.

Several speakers at a meeting urged a movement for a national strike, declaring the time had arrived for the workmen to demand control of industry. An amendment to the main resolution, in favor of linking London with the Clyde strike and stopping every industry in London, was defeated by a large majority.

Belfast, Feb. 1.—The strike committee announces that it contemplated trying to extend the strike to the whole of Ireland.

Replying to an appeal from Joseph Deplin, member of Parliament, that he intervene in the strike, Premier Lloyd George replied that the British Government did not control the hours of labor and that he was in complete agreement with the reply of Andrew Bonar Law, lord privy seal, to the protest at Glasgow, declining to intervene in the strike there.

The premier added that this reply applied with equal force to Belfast.

London, Feb. 1.—The administration of Belfast from Artisans' Hall, by self-constituted rulers, continues, the organization of a police force of three hundred special constables by the strike committee having been effected. The force is co-operating in perfect harmony with the city police, and window smashing and other disorders have virtually ceased. The entire city has accepted the rule of the committee, which prohibits extreme agitators and Sinn Feiners from speaking. Anybody with a grievance must obtain permission from the committee before airing it publicly.

The strikers' newspaper did not appear on Friday, but it has been announced that an eight page paper will be issued on Saturday, each day, to take the place of the usual afternoon papers, which have been entirely stopped. Many advertisements have already been received, and the editorial staff has been appointed.

Football matches, dances and concerts, at which strike leaders will be star performers, have been arranged for the week-end. There is one trouble however, which comes from the wives of some of the workers. They grumble because they are obliged to continue working in the textile factories while their husbands are idling. Steam fitters at Lisburn, six miles southwest of Belfast, struck yesterday.

### FROM HUGE GUNS TO BADGES AND RECORDS

Great Variety of Trophies Taken by Canadians.

The Commission on Canadian War Records and Trophies, composed of Sir Bryon Walker, Dr. A. G. Doughty and General E. A. Cuvikshank, will make a report to the government this week, which report will contain recommendations as to the collection and handing of the trophies captured by the Canadians during the war, as well as the invaluable records of service given and success attained by the troops from the Dominion.

"The trophies captured by Canadians form a most interesting but practically invaluable collection," said General Cuvikshank, Tuesday. "They include practically everything from huge German guns of the heaviest type to badges and records. Some of these trophies have already reached Ottawa and are stored here, still in the boxes in which they were shipped, but by far the greater portion of the collection is still to come across the sea. There will be several ship loads in all, judging from the information we have received so far."

The officer who deals largely in quotations speaks volubly. When some men think they are thinking they are only killing time.

### A CRIPPLE FOR THREE YEARS

Helpless in Bed With Rheumatism Until He Took "FRUIT-A-LIVES".

MR. ALEXANDER MUNRO

R.R. No. 1, Lorne, Ont. "For over three years, I was confined to bed with Rheumatism. During that time, I had treatment from a number of doctors, and tried nearly everything I saw advertised to cure Rheumatism, without receiving any benefit."

Finally, I decided to try "Fruit-a-lives". Before I had used half a box, I noticed an improvement; the pain was not so severe, and the swelling started to go down.

I continued taking this fruit medicine, improving all the time, and now I can walk about two miles and do light chores about the place."

ALEXANDER MUNRO 50c. a box, 6 for \$2.50, trial size 50c. At all dealers or sent postpaid on receipt of price by Fruit-a-lives Limited, Ottawa.

### COST OF LIVING

COMING DOWN The cost of some necessary food products show a tendency to climb down. In Quebec Tuesday beef cattle made a considerable drop, and strictly fresh eggs sold at 55 cents.

In Tillsonburg, Ont., there was noted last week the first decided drop in produce in four years, some of the prices being as follows:—Butter, creamery, 50; eggs, fresh laid, 45 cents; chicken, dressed, 30 cents per pound; cheese, 29 cents; beef 16 to 28 cents; pork, 25 to 30 cents; pasteurized milk, 10c. a quart delivered, or 9 cents per quart at the local office.

Advertisements in the Montreal papers quote fresh veal at 22c. for choice cuts and other cuts 10c. to 18c. Beef, steaks, 25c. rib roasts 20c. Breakfast bacon 48c., Sunkist seedless oranges 35c., a dozen.

Citizens express the hope that these prices will shortly reach Campbellton.

### 26TH BATTALION MAY RETURN AS A UNIT

Mayor Hayes of St. John, has received a letter from Hon. F. B. Carvell, minister of public works, in which he expressed the opinion that the 26th Battalion would return home as a unit. His worship had asked him regarding arrangements for demobilization and Hon. Mr. Carvell replied that these matters rested entirely with the militia department but he believed that units now overseas would return to Canada as a whole.

An Eye for Main Chance. "I am glad the Sunday gasoline ban has been lifted," said the cheerful-looking stranger. "It will help my business."

"Are you an automobile manufacturer?" asked Dobson. "No," replied the cheerful-looking stranger, "I'm an undertaker."

### WHEN OTHERS FAIL

Zam-Buk cures the most stubborn skin diseases and sores. This is because Zam-Buk's method of healing is entirely different and superior to that of ordinary ointments. When Zam-Buk is applied it does not remain on the surface skin, as an ordinary ointment would. Because of its unusual refinement it penetrates to the underlying tissues. This is where all skin troubles have their origin. The germicidal properties of Zam-Buk then destroy all germs and thoroughly cleanse the diseased parts. Having done this, the healing essences contained in Zam-Buk so stimulate the tissues that healthy skin is quickly produced. The result is a complete and permanent cure of the sores or injury. Zam-Buk is best for eczema, ringworm, scaly sores, boils, pimples, teething rash, ulcers, abscesses, running sores, "barber's rash," blood-poisoning and piles. As first-aid, too, Zam-Buk is indispensable. It stops bleeding, ends pain, draws out sores, and inflammation, prevents blood-poisoning and heals quickly. All dealers 50c. box. FREE SAMPLE—Send name of this paper and 1c. stamp to Zam-Buk Co., Toronto, and we will send you one trial box.

### HALIFAX MAN'S WAR INVENTION

Tremendous Effect of "Hines Double-Action Submarine Shell."

Halifax, N. S., Feb. 1.—Controller John J. Hines, of the Halifax city government is the patentee of an artillery shell that may figure effectively in wars of the future—if there are to be any. The shell leaked out recently through the announcement from Washington, that the United States had granted the Controller a patent on the shell. Mr. Hines had been keeping the matter dark; in fact it is understood that he had advice from high quarters during the time of the war that it was desirable that the matter should be as quiet as possible. But this official announcement of issue of the patent is a release of the secrecy.

Controller Hines had 25 years service in the volunteer artillery in years gone by and naturally when he thinks of warfare it is from the artillery standpoint that he views it. On either side of a fireplace in the parlor of his residence are two large shells as ornaments and it was while these shells were under his eyes one evening early in the war he thought and thought over the great struggle and tried to figure out how he could do his bit. He was not quite young enough to get by the recruiting officers, he admitted, so re-joining the artillery uniform for active service overseas was not open to him. And as he thought he endeavored to plan something by which he could help to fight for justice and humanity.

His attention finally was given wholly to the shells at the bedside and he went over the make up and mechanism thereof with which he had familiarized himself in the old volunteer days. The next evening he spent in the same groove of thought, and many other evenings following. Gradually there came to him the idea that a double action shell, one that when fired at a ship would explode either on striking the object or immediately on being immersed in the water. This gave him food for thought for more evenings, until finally there came to him a plan for a shell that would do what he wished it to do. And that was the origin of the Hines double-action submarine shell, which has now the U. S. patent, and for which patents in England and Canada have been applied for.

Plan after plan was drawn by the Controller and sketches made until he was satisfied as to completeness of every detail. Then a model was made and off it went with the applications for patents with an intimation that the Allies could take advantage of the invention in the great world war, in though whether or not the offer was valued before the armistice came is not yet known here.

The shell, as its name indicates, is a double acting one. Explosion may be meeting an object, say a craft in the water, but should the Hines shell a little wide or short of the mark, the submarine action causes explosion as soon as it is immersed in the water. The submarine explosion action is governed by two small slanting shafts which admit the water therein and the war rush releases a concussion pin which drops and brings the spark.

The shell leaves the gun it is locked against explosion, but the air pressure and revolution of the missile does the unlocking and leaves the missile open for immediate explosion, either by striking an object above the surface, or by immersion in the water. It is claimed for the double-acting submarine shell that exploding within twenty feet of a ship it would blow her to pieces. The Controller had in mind in planning his shell the submarine explosive shell would be an effective missile when a ship was sighted.

### DEMobilization CENTRE.

St. John will be the demobilization centre for the eastern and northern cities of the province, and Fredericton for the counties of Carleton, Arleton, York, Victoria and Madawaska, according to official arrangements from Ottawa this morning by headquarters. Demobilization commences today. This resulted from a recommendation made that by demobilizing soldiers of these counties in St. John, a considerable saving in transportation could be effected. Under the rule in force since Prohibition became the demobilization centre, even St. John must report there.—Gleaner.

### LABOR LEADER ENDORSES PLAN

Humble "Quarter" is Now Being Mobilized in the Service of the Country.

Tom Moore, president of the Trade and Labour Congress of Canada, is today by reason of his position, the recognized leader of organized labor in the Dominion. He is also a man of exceptional standing. The advantages of the War Saving plan are obvious to him, as the following statement shows:

"During this reconstruction period the question of eliminating unemployment is one of the vital problems, and the Government, by the carrying on of essential public works, etc., can materially help and thus stabilize the labour market. In order to do this money must be forthcoming.

"The pre-war methods of financing were found unequal to the requirements of war time, and regulations imposed by other countries made it necessary to secure money direct from the people of Canada. The sale of Victory Bonds was instituted and the marvellous success achieved proved the value of the policy of placing the purchase of these within the reach of the greatest number by introducing the low denomination of fifty dollars.

"Even greater success can be achieved by still further reducing the minimum amount which can be subscribed and Canada has now decided, through its War Thrift Stamp Saving scheme to offer opportunities by which not only the men and women, but the children of the country, can help to provide the money which is still urgently needed to carry on.

The humble "quarters" are at last being mobilized into the country's service. All should lend their aid and make the aggregate sum secured so large as to prove for all time that the workers of Canada can finance their own undertakings."

### Petain Ranks With och

As Great French General And Also Splendid Patriot

Promoting Petain to the rank already held by Foch and Joffre the French Government has merely performed a duty not to have done which would have been to awaken surprise and even criticism in the whole world. The defender of Verdun unquestionably earned the right to the distinction already bestowed upon the victors of the First and Second Marne. Foch, Joffre and Petain are clearly the pre-eminent French soldiers of this war.

Before Verdun Petain had earned reputation. His offensive in Champagne in 1915 was the first considerable victory of the Allies after the initiative had passed to them. It had only local results and was in no sense decisive, but it yielded more than 25,000 prisoners, more than a hundred guns and brought the first real sense of victory to Paris and to London.

But Verdun was the great test when the great battle raged at the Meuse citadel, the Germans had taken Douaumont, advanced nearly seven miles, and were almost at the last line of defence. To organize his

MARSHAL PETAIN.

defence Petain had first to counter attack with the elements that were left behind to fight, while he directed a line of resistance. He had to restore order out of confusion, to reorganize the shattered army. A situation as critical as that which confronted Foch when he took command last spring confronted Petain in the last days of February, 1916.

All this Petain did. Within a few days his new army could accept his watchword, "They shall not pass," and make it their own. Nothing in French history is finer than the story of Verdun, and Petain was the soul as well as the brain of that effort.

After Verdun the politicians chose a lieutenant of Petain's to replace Joffre, grown old and weary. It was an unhappy choice, and Nivelle's great failure at the Aisne in April and May of 1917 for the moment shook the morale of the French army and the French nation. Once more time he repeated his Verdun achievement on a vast scale. He reorganized the entire French army. He restored confidence, discipline, he transformed the situation in such fashion that in a few months he was able to win a new victory at Verdun and a shining success at the Aisne in taking Fort Mauthoussin.

The full fruits of his labors were revealed in the fashion in which the French army was rushed to the rescue of the situation in Picardy last spring, after the defeat of the Fifth British Army and while the Germans threatened to separate the French from the British. A finer feat than that of Foch's forces can hardly be recalled in all this war. From that moment onward Petain suffered by the rapid expansion of the reputation of Foch. That the Allied commander-in-chief was the greater soldier will probably be the judgment of history, that he owes much to the loyal and competent aid of Petain is unmistakable. They worked together in complete harmony at all times is a tribute to the patriotism of each.

It is said that Joffre, Foch and Petain will be the only marshals of France created by this war. If there are additions one may hope to see included the name of Castelnau, who saved Nancy and made the Marne victory possible in 1914. And if Castelnau receives his baton, an equal claim may be urged for Franchet d'Esperey, whose army defeated that of Bulow at the First Marne and shared in the later long campaign in France. Subsequently it was d'Esperey who won the recent victory of the Cerna-Vardar in the Orient and smashed Bulgarians and Mitteleuropas at a single blow. There remains Mangin—the key of the present struggle—who at Verdun and in all the recent battles revealed the spirit of his great Napoleonic predecessor, "The bravest of the brave."

Every company of American soldiers abroad is permitted to adopt one war orban.

### Horses Played Their Part

In Winning the Great War. Armies Depended on Them

AFTER the battle of Verdun, in which the French held their lines against the desperate and protracted onslaughts of the German Crown Prince with troops and munitions rushed forward almost wholly by automobile transport, someone called this a gasolin war.

The term stuck. The wonders of modern army transport, the quickness with which large bodies of men and huge quantities of supplies are moved have become commonplace. The automobile does it. So it is recorded, and so it has been accepted. The horse has faded much in the calculations.

Now, however, steps forward the Billets and Remounts Division of G. I., which is charged with the responsibility of outfitting and supplying animals for draft and riding, with a declaration that the horse and its kind are still the mainstay of the war. The automobile may have won at Verdun, says the Billets and Remounts Division, but the horse has won on his topknot. They, no victory could have been attained, no push could have been made, unless the horse was on the job to pull the guns forward, to take up the rations, the water, the ammunition through mud where trucks could not go, or over shell-worn ground equally impassable for the gasoline-propelled vehicle.

Over 1,500,000 horses and mules that have done their bit for the Allied cause in France. Approximately half of them are in the artillery service. Practically all of the field artillery or all the Allied armies below the 6-inch gun is horse-drawn. The other half is working at a multitude of duties, most of which have taken them under fire at the front.

It is the horse which takes the ration cart forward over the shell-swept, shotted route to the men in the line. It is the horse which likewise takes forward the water. It is the horse, on which transport most of the small arms and ammunition and some of the artillery shells, and it is the horse that does the work in the worst. With the coming of winter, with its cold and its mud, the horse just begins his work in earnest. Then he carries on white automobile tracks with his hooves.

With all this careful treatment, the westerns of horses was high. Some of this was attributed to improper care. There are cases where horses have been allowed to starve to death. To counteract this carelessness, this list of suggestions to drivers is issued. It can be followed with advantage by men outside the army.

Get acquainted with your horse, so that you will know when he is fit. Treat him kindly and he will trust you. Always carry one day's feed of grain. Have a water bucket as a part of your equipment.

If out of feed, cut or pull grass. Dead grass is better than none at all. If there is no grass, cut brush or shrubbery. If you have no water bucket, use your helmet.

When mounted, if you know your horse, you should know when to lead him, you will readily see how much he refreshes himself. Never lose an opportunity to put your horse under shelter at night. If you have to cover, improvise it. A grain sack is quite a protection from rain or cold.

New Wireless Wonder. The well-known wireless expert, Dr. Lee de Forest, who arrived in England recently to exhibit his latest invention to the British Signal Corps, disclosed some interesting facts concerning one Audion lamp. By means of this invention long-distance wireless telephony and telephony have been made possible. The Audion Lamp magnifies sound waves a million times, but without affecting their total qualities.

"All the United States airplanes," says Dr. de Forest, "are now fitted with this apparatus, which has made it possible for the pilot to receive a message in the air despite the noise of his engine. Our Signal Corps, too, in the trenches are using the same apparatus, of a more portable kind, and they have an effective range of from four to five miles.

The Allies' communication at the front was long airplanes, infantry and artillery would be impossible in anything like its present state of perfection without the Audion. The French use a thousand a day."—Tit-Bits.

Vinol is What You Need

because it contains the very elements needed to replace weakness with strength, viz: Beef and Cod Liver Peptones, Iron and Manganese Peptones, and Glycerophosphates, with a mild tonic wine. This is a splendid combination to restore strength, vitality and vigor. It has given ninety percent satisfaction for sixteen years. HERE IS PROOF:

Malone, N.Y. "I am 84 years of age and got into a feeble, weak and nervous condition so I could not sleep. Vinol has not only built up my strength but it has given me a good appetite and I sleep all right now. Without doubt Vinol is the greatest strengthener for old people obtainable." Mrs. S. B. Wells.

Winchester, Va. "I am a farmer's wife, 75 years of age, and pneumonia left me in a weak, run-down condition, so I could hardly keep about and do my work. A neighbor brought me Vinol and it has built up my strength so fast that I think it is the best medicine I have ever taken." Mrs. Jennie Chapman.

### Transportation Matters

Mr. Melanson's Promotion. SOMEBODY wrote a letter to Halifax newspapers recently stating that in the selection of officials for the new Canadian National Railways, old employees of the Intercolonial were being passed over for Mackenzie & Mann men. We do not know how much truth there is in this statement, but we do know that three of the best men of the old Government Railways have been given three of the highest positions in the Canadian National, namely, C. A. Hayne, as Vice-President, and Traffic Manager, F. P. Brady, General Superintendent.

public confidence in him. Mr. Melanson, as we have said, did not have the opportunity to meet the public and impress them, but he did have an opportunity for all practical purposes to demonstrate to the directing heads of the Government Railways the efficiency of his own department, and it is the fact that he did so demonstrate, and moreover, to which he owes his appointment to his new position. Mr. Melanson is a Maritime Province man, born in Westmorland County, New Brunswick, and has been in the Canadian Government Railway service for many years. A fact he started with the Intercolonial since which time he has thoroughly learned every section of the passenger business from the ground up. His knowledge of Maritime Province is his own, and he has learned every section of the passenger business from the ground up. His knowledge of Maritime Province is his own, and he has learned every section of the passenger business from the ground up.

QUEBEC ELECTIONS COMING IN SPRING. Quebec, Feb. 4.—There is an uncredited rumor in local political circles hinting at general provincial elections in Quebec early next spring. It may be that Premier Gouin would retire from the provincial field.

CORRESPONDENTS WANTED. A subscriber in a distant part of Canada, renewing his subscription stated that he would like to see more New Carlisle notes in the Graphic each week. We hope our correspondents there will attend to this. Bay Chaleur boys and girls scattered throughout the land like to see notes from their native towns, and we hope that every town and village will send in notes for publication.

RESTRICTIONS LIFTED. All restrictions on three classes of food licenses, i. e., retail dealers, wholesale grocers and public eating places, have been withdrawn by order of the Canada Food Board. They may now return to pre-war trade conditions. Such dealers shall not be required to obtain licenses or renewals of the same. Previous orders of the board affected by this revocation are numbers 17, 21, 22 and 43. The announcement adds that all restrictions on bakers and confectioners have also been removed, to take effect on February 10th.

HAVE RETURNED HOME. Among those arriving on the Carmania are the following for the North Shore:—Lieut. Jas. D. MacLean, M.C. Campbellton; Lieut. W. E. Veniot, Bathurst; S. Allard, Campbellton; J. N. Canty, Bathurst; A. Lebas, Campbellton; T. H. McManus, West Bathurst; J. A. Payne, Campbellton; D. P. Wilson, West Bathurst; P. E. G. Archer, Campbellton. Also Sgt. James McDavid of this town who arrived on the Tunisian.

SOUR, ACID STOMACHS, GASES OR INDIGESTION. "Pape's Diapysin" neutralizes excess pepsin in stomach, relieving dyspepsia, heartburn and distress at once. Time! In five minutes all stomach distress, due to acidity, will go. No indigestion, heartburn, sourness or belching of gas or eructations of undigested food, no dizziness, bloating, flatulence or headache. Pape's Diapysin is used for speed in regulating upset stomachs. It is the surest, quickest stomach remedy ever in the whole world, and is entirely harmless. Put an end to stomach distress at once by getting a 10-cent bottle of Pape's Diapysin from any drug store. You realize in five minutes how needless it is to suffer from indigestion, dyspepsia or any stomach disorder caused by fermentation due to excessive acids in stomach.

OLD COUNTRY ROADS.

The Chatham World, whose editor was one of the Canadian press visitors to England and France last year, says: "Frederick is wrestling with an improved road proposition, and Mr. Carrite recommends tar-bound macadam, the cost of which he estimates at \$1.50 a square yard. If the road he proposes is as good as the English highways and the great military roads in France it is good enough for New Brunswick. Those roads are made of broken stone and sand with just enough tar to act as a binder and make them impervious to water. They are perfect roads, and are comparatively dustless. One may motor at forty miles an hour in England and France without a jolt in a hundred miles. But, it must be remembered, there roads have not only been made good but they are kept good, the slightest flaw being repaired at once. When the visitor to the war zone noticed the mile-long trains of loaded motor lorries, and the numerous batteries of big guns, between the front and the base, he marvelled at the perfect smoothness of the roadway, and divined that the little piles of broken stone and sand, and full of empty tar barrels at the roadside, were for keeping the highway in good order. There should be many men among the returned soldiers who know how to make such roads, as many soldiers were employed on them in France. The straight tree-shaded roads of France, and the English highways, fenced with hedges, winding to right and left over hill and hollow, are all as good as the 'cement pavement on Water street. The Canadian press party motored 1,500 miles in France and England, and the only piece of road that was not flawless was the shell-torn highway between Harle-Due and Verwin."

ADVERTISING.

through the newspapers. Yet tens of thousands of merchants seek to do business without the aid of the newspapers and then complain if the mail order houses, which spend millions in advertising, take their customers away from them. It is only last week that one ton of catalogues from an Upper Canada mail order house arrived here by express and were distributed through the post office. It is said the express charges were \$100 and each catalogue carried seven cents worth of postage stamps. We venture to say that hundreds of dollars have already been sent out of Campbellton for goods advertised in these books. And yet the very merchants whom we hear complaining about so much money being sent from town, refuse to advertise their goods in this paper.

Chicago has taken another shot at the High Cost of Living. This time eggs have dropped from 4 1-2 to 6 1-2 cents a dozen, and the wholesale quotations range from 33 1-2 to 35 cents. In New York a sharp decline of 20 cents a dozen in less than a week is recorded. Over here the policy continues to be "stand pat."

The Canadian War Savings Plan makes easy the very necessary practice of saving. It also makes saving profitable. Four dollars paid today for a War Savings Stamp will bring \$5 in 1924. Twenty-five cents buys a Thrift Stamp and 16 of these make a War Savings Stamp, on which the Government pays 4 1/2 per cent, compound half-yearly. Could saving be made easier?

Campbellton, N. B. Jan. 12, 1919

Editor of Graphic,

Last year you gave some space in your valued paper in reference to our Town Council and their management and the necessity of all taking a deeper interest. This I am sure was of great benefit. As our Town elections will be held in about two months, I for one (and I think there are many) would like to have some letters sent and published. Let them be short and to the point, do not let them deal or find fault with those that held office previous to 1916. Just take up the past years and show if it could be improved in time to come.

ADVANCEMENT.

Now let us hear from the Ratepayers. Yours truly, ADVANCEMENT.

To the Editor of the Graphic, Campbellton, N. B. Feb. 1st, 1919.

Dear Sir— Reading your issue of Jan. 23rd, a note about Chandler attracted by attention, and I am asking you to insert in your columns, this letter, which will show you in good faith the false news you have given to your readers.

It was said in that article that Mr. Murphy won a victory. It is true, but it is good to pay attention to the fact that Mr. Murphy won by one vote of majority. Another thing: It was said that Mr. Charles Lamb has been specially imported from Perce by the St. Lawrence P. & Lumber Corporation. That is absolutely false. That company and Mr. Lamb are honest people, and I defy anybody to prove the contrary. It is mentioned too that Mr. Murphy and "his" two councillors re-elected, constitutes in fact a bi-district for the people of Chandler. "His" two councillors had not been attacked during the campaign, except indirectly. The only one of his two councillors who had been, Mr. George Mulloy has been absolutely beaten. To have a true account about the small victory for Mr. Murphy and his ticket you have only to read the following official figures of the results of Mr. Charles Lamb's vote: Mr. Murphy's ticket: Votes: Mayorship, Mr. Murphy, (former mayor) 101 Councillors—Mr. A. Abier (New) 99 Mr. A. J. Arnold, (in the former council) 96 Mr. K. Mulloy (in the former Council) 83 Total 379 Mr. Lamb's Ticket: Votes: Mayorship, Mr. Charles Lamb, (New) 100 Councillors—W. A. Vachon, (New) 106 Mr. J. F. Bujold (New) 92 Mr. G. Miles (New) 88 Total 386 I am writing this letter not to diminish the influence or the victory of Mr. Murphy, but the truth has its place every where. I wish to note that the present council, constituted as above, contains certain elements which are squarely opposed to the progress and to the amelioration of the town. Thanking you, I remain, sir, Yours very truly, J. ROUSSEAU BASTIEN.

2nd, Geo. Gauthier, 3rd, Arsene Allain, 4th, Frank LeBlanc, 5th, Arthur Arsenault. Consultation prize, Kenneth Letourneau. A party of young folks went to Bathurst, from here on Friday last, and speak very highly of the kindness that was extended to them by the Bathurst people. Among those who enjoyed the trip were: Miss Margaret Meahan, Kathleen Delaney, Nettie Robinson, Marie LeBlanc, Yvonne Samson, J. Allan LeBlanc, Albert C. LaBillette, A. L. Deacon, Charlie Bernard, Clifford Ganton and Clarence Robinson. The Dalhousie Athletic Club held a meeting on Monday evening to arrange about after the war dance to take place here shortly. The Dalhousie Superior School House came nearly being a total loss by fire on Monday afternoon. From a spark which is supposed to have set fire to the roof considerable headway had been made when the fire whistle called our fire brigade to the scene. A large crowd of people gathered on the ground. Happily the quick work of our firemen stopped the progress of the fire. Temporary repairs have been made to the roof. Another sale of property has taken place here and will be of interest. The old Murphy Hotel, which at one time was considered the best House for travellers between this and St. John, was sold yesterday to Mr. A. J. LeBlanc, Postmaster of Dalhousie. Miss Elva Howatson, Black Cape, P. Q. is visiting Mrs. Wilson Howatson. Mrs. Pat. Salter, Jacques River, and Miss Ethel Doyle, Nash's Creek, were in town this week and took in the Whist Party. They were the guests of Mrs. J. W. Cooke. Miss Pearl Levesque, Upper Charlot, who attended the Whist Party, is spending a couple of days in town, the guest of Mrs. H. J. Guignard. The Women's Auxiliary of St. Mary's Episcopal Church held their annual meeting on Thursday last. Mrs. Alex. McKay, the Secretary made her report. It was decided at the meeting to purchase a piano for the use of St. Mary's Hall. Through the kindness of Capt. J. R. Diabrow, who belongs to St. Mary's congregation a very fine instrument was selected at a very reasonable figure, and on Thursday evening a supper will be held at the Hall to secure funds to pay on account of the piano fund. At the annual meeting of the Auxiliary Mrs. S. L. T. Clifford sang a solo and refreshments were served. To-morrow evening the Valentine Carnival will be held in our rink. Many of our curlers left on to-day. Limited for Chatham. To attend the North Shore Bonspiel.

DALHOUSIE

Dalhousie, Feb. 12.—A very large congregation heard on Sunday a very practical address delivered in St. John's Presbyterian church here, by Rev. V. M. Purdy, of Truro, N. S. The Financial Agent of the Maritime Home for Girls. He fully explained the great need of such an institution, and gave strong facts to show, that other churches were alive to the necessity of providing such homes. He said that since three years over \$40,000 worth of property had been accumulated at Truro, to further the aims of the friends of mankind. There was not sufficient room in the present building, several girls had been refused admittance. The sum of \$70,000 was required to add, and have for the Maritime Provinces an up to date institution, in which Protestant girls would find a Home, in which they would receive that kindness and care needed. The Whist Party that was held on Tuesday evening in the convent hall was attended by over 150 persons. Cards were played at 35 tables. During the same which lasted from 9 o'clock to 11 o'clock, very enjoyable music was enjoyed. After the game light refreshments were served. The Misses May Godin, Blanche Arsenault and Florine Valleraud, who organized the affair deserve great praise, and the encouragement that was given by the people of our different churches is highly appreciated. The prize winners were as follows: 1st ladies prize, Mrs. Buchanan; 2nd ladies prize, Miss Hilda Bernard (Jacques River); 3rd ladies prize, Miss Anna Poirier, (Balmoral); 4th ladies prize, Mary Jane Nadeau, 5th ladies prize, Mrs. Jos. Barthe. The consolation prize went to Miss Edith Harquail. The gent's 1st prize was presented to John Lawlor, (Point La Mire).

DAYLIGHT SAVING.

Ottawa, February 10.—The Daylight Saving Bill of last session is practically certain to be renewed when Parliament meets. Inquiry here shows that opposition to the Bill, as expressed in communications received by the Government, is very slight, much less, as a matter of fact, than it was before the country had given daylight saving a trial.

AN INTERESTING SPEAKER.

Rev. W. A. Baralough, B. C., of Moncton will deliver his popular lecture, "The Ukraine and the Ukrainians" at the Methodist Church here Monday evening, February 24th, at 8 o'clock. Rev. Mr. Baralough is one of the best speakers in the province and all should hear him. The lecture will be illustrated by lantern slides.

FREIGHT SHED HOURS.

It has been directed by the Canadian Railway War Board that, effective February 1st, 1919, and until further notice, the following hours shall be observed for the receipt and delivery of shipments at railway freight sheds in Canada: Monday to Friday, inclusive, opening 7.30 a.m., closing 5.00 p.m.; Saturday opening 7.30 a.m., closing 1.00 p.m.

GRAPHIC ADVS. BRING RESULTS.

In a recent issue of the Graphic we advertised a photograph and records. A prompt sale was the result. Another for sale adv., offering a sleigh, carriage, etc., was only inserted once but these were sold promptly and over twenty letters of inquiry from all over the Gaspé Coast and Restigouche were received. If you want results advertise in the Graphic.

WINTERLESS WINTER.

Pioneer, Summerside: The Pioneer during the past year or two has received many protests from its readers against sugarless sugar, rubberless rubber, flourless flour and like inconveniences said to have been due to the war, and one of our fair readers even complained of the manless evenings from the same cause; but we have not as yet received a single complaint about the winterless winter we are getting.

OFF TO CHATHAM. Sixteen of Campbellton's best curriers have gone to Chatham to take part in the bonspiel which takes place to-day and to-morrow.

SPLENDID ENTERTAINMENT. The members of the Catherine Mair Young Ladies Branch of St. Andrew's Church gave a splendid entertainment in the hall of the Church on last Friday evening when they presented the pageant "The Cross Goes Westward." Also the Scotch reading by Mrs. H. Miller and the tableaux "Nearer My God to Thee" was much enjoyed by all.

CUSTOMS CHANGED. On and after April 1st, the port of Dalhousie will be classed as an outpost under the survey of the port of Campbellton. The preventive station at Jacquet River will also be placed under the survey of Campbellton.

GREAT TREAT AT OPERA HOUSE. The management of the Opera House has a great treat in store for the girls and boys who attend the Matinee next Saturday afternoon. 12 Jointed Charlie Chaplin Dolls will be given away, also 4 Story Books, 6 Mary Pickford and Charlie Chaplin Scribbles and Two School Bags.

THE COLLEGE GIRL AND THE MILKMAID. The Campbellton Musical Club states that all persons wishing to know who is the College Girl and who is the Milkmaid at the Opera House Monday, the 24th February at 8.15 p.m., may receive this information for the small sum of 50c. and thereby help build the Soldiers Memorial Hospital.

AT THE IMPERIAL. On Friday and Saturday, Helen Holmes in "Judith of the Cumberlands" with a Fatty Arbuckle Comedy, "The Cook."

Friday night we are giving away a mahogany table and a chair to lucky ticket holders.

At the Saturday afternoon Matinee five passes will be given to children holding lucky tickets.

LT. J. D. MACLEAN. WINS HONORS. The following paragraph is from the London Official Gazette, giving particulars of the action in which Lt. MacLean displayed conspicuous bravery and for which he has been awarded the Military Cross. Lt. MacLean is a son of Mr. and Mrs. John M. MacLean of this town.

"Lt. J. D. MacLean, 7th Bn., Can. Infy., British Columbia R.—For conspicuous gallantry and devotion to duty. After leaving the jumping-off point with his platoon he almost immediately came in contact with the enemy front line, and under heavy machine-gun fire, rounded up 40 prisoners. He then continued the advance to the second objective. The following day, after a further advance, he established communication with the troops on the left, and then carried out a daring reconnaissance, under heavy fire, as far as a canal, finding the west side clear of the enemy."

JACQUET RIVER NOTES. Our leading ladies are again to fore in charitable work. A number met at the home of Mrs. Paul Doyle recently and organized into a body known as the Hospital Ladies Aid for the purpose of assisting in the fitting up of the temporary hospital of the Hotel Dieu of St. Joseph at Campbellton.

A large crowd were in attendance and the following officers were elected: President, Miss D. LeClerc; Vice-President, Mrs. Stanley Culligan; Sec'y-Treas., Miss Edna Culligan; First Councillor, Mrs. Paul Doyle; Second Councillor, Miss Lizzie Ullian; Third Councillor, Mrs. James Frenette. Twenty-two members were enrolled, and the second weekly meeting has already been held.

The work carried on at the meetings consisted of piecing and quilting quilts of which one case has already been shipped.

A number of ladies were selected to canvass the country for material and funds. The districts awarded being, Ullian to Culligans, by Mrs. John Callahan and Miss Lizzie Ullian; Culligans to Turgeon, by Mrs. John Culligan and Mrs. George Annett; Ullian to Durham Centre, by Mrs. Paul Doyle and Mrs. P. H. Saiter; Durham Centre to Nash's Creek, by Miss D. LeClerc; Beckettville, by Mrs. J. Cameron; and Archibald Settlement to Sunnyside, by Miss H. Bernard. The ladies are all meeting with very gratifying results.

A number of ladies at the home of Mrs. Paul Doyle held a Whist Party and Basket Social recently, also in aid of the Hospital and realized the sum of \$75.00. They were very well pleased with their efforts and a most enjoyable evening was spent by all present.

We all join in wishing the Ladies Aid every success in their undertaking.

The many friends of Miss Melame Poirier will be glad to hear that she is able to be around again.

Miss Louise and Geraldine Boule of Green Point are the guests of Miss Delphine LeClerc this week.

Mrs. Mitchell Shannon spent a few days in Campbellton last week.

Mrs. James Frenette spent last week in Campbellton visiting Mrs. Clarence Boudreau.

**CANADIANS ENJOY KAISER'S GAME**

Troops in the Cologne District. Shoot Deer in the Former Emperor's Forest.

According to letters from a Halifax officer, Canadian soldiers are enjoying their mess with venison from the Kaiser's hunting forest near Cologne. The men show as much skill at bringing down deer as they did at sniping Germans, and one party of men stationed at Imnekappel succeeded in bagging six within a single week. Venison replaced turkey on their Christmas menu. This forest was preserved for the use of German royalty alone, and last April the former Crown Prince took a holiday from his valourous exploits at the front to hunt there. He must feel very bitter if he knows that Hohenzollern game forms the piece-de-resistance of the larder of Canadian troops.

**TERRIBLE STORY OF CANNIBALISM**

Constantinople, February 2.—The little news that has been received from the Asiatic provinces of Turkey indicates that there is considerable distress among the population owing to the shortage of foodstuffs, high prices, and great insecurity and lawlessness prevailing. The winter is fortunately mild thus far, which tends to alleviate somewhat the precarious situation of the people. Four American relief ships, bringing large cargoes of flour and clothing are under way. Reuter's correspondent reports a terrible story of cannibalism which occurred eight months ago at Mosul, where six small children were sacrificed and their flesh roasted for food. There would seem to be no doubt as to the truth of the story which is confirmed by a photograph showing the execution of the men and women at Mosul, who perpetrated this horrible crime. The heads of the unfortunate little victims were found in the house of the two culprits.

**FEBRUARY CANADIAN.**

A number of articles on subjects of national importance appear in The Canadian Magazine for February. One is an "Educational Program" by Prof. Ira A. Mackay, of the University of Saskatchewan. It is a very timely article, and while it discusses the place that education must take in the advancement of any country, it takes Canadians to task for their indifference to it as a national factor and gives a warning that if Germany had been regarded as the master of the world, it is now incumbent on other countries to see that she is not suffered to assume that role again. Prof. Mackay's warning, in brief, it is that unless we advance education we cannot advance at all.

**A Slight Difference.**

"Of course, there's a big difference between a botanist and a florist," he remarked.

"Is there, really?"

"Yes. A botanist is one who knows all about flowers, and a florist is one who knows all about the price people will pay for them."

**GIVE 'SYRUP OF FIGS' TO CONSTIPATED CHILD**

Jellious "Fruit Laxative" can't harm tender little Stomach, Liver and Bowels.

Look at the tongue, mother! If coated, your little one's stomach, liver and bowels need cleansing at once. When peevish, cross, listless, doesn't sleep, eat or act naturally, or is feverish, stomach sour, breath bad, has sore throat, diarrhoea, full of cold, give a spoonful of "California Syrup of Figs" and in a few hours all the foul, undigested waste, undigested food and our little one's bowels move out of his little bowels without griping, and you have a well, playful child again. Ask your druggist for a bottle of California Syrup of Figs, which contains full directions for babies, children of all ages and for grown-ups.

**ASCARIS' WORMS WHILE YOU SLEEP**

Sick Headache, Sour Stomach, Bloating Liver and Bowels—Take Cascarin tonight.

"Arrow" Tongue, Bad Taste, Indigestion, Sallow Skin and Miserable Ill-health—some have a "sore" liver, which causes you to feel as if you were being "digested" in a small barrel. That's the sign to look out for—indigestion, I mean, bad breath, yellow skin, meanness, everything that is horrible to see. A Cascarin tonight will see you consoling bowls a thorough washing and straighten you out tomorrow. They work while you sleep—10-cent box from your druggist will keep you feeling good for months.

**CLOTHING TO REMAIN HIGH.**

Demand is Much Larger Than the Supply.

The indications are that for some time to come, and probably all during this year, the price of woollen goods and of cloth will not much, if at all, reduce, said an authority in the clothing trade in Toronto, recently. Indeed, reports have appeared in the newspapers that an increase in the price of woollen goods might be looked for, but there does not seem to be any real reason why any such increase should take place.

**SUBSTITUTE FOR FOOD.**

German Scientists Find a Substitute for Wheat.

Practical chemists are looking for the German specialists, and it cannot be denied that they turned during the war, and especially during the last two years, they found a wide field for the application of chemistry and biology. The field was created by lack of the usual foodstuffs, and the British blockade largely caused, and which went far to bring about the marvellous surrender of the nation.

Germany ransacked the botanical world in search of substitutes for the ordinary commodities of life. The expeditions of which report has been had are now the evidence of the death from which Germany has long been suffering, but while they do create a false hope of a scientific men they did not bring much solid comfort to her people. The chief difficulty, of course, has been to find a palatable substitute for bread flour.

All kinds of materials such as peas, beans, potatoes and other more questionable ingredients have been used for wheat in experimentally termed "stretching" the limited quantities of wheat flour available. But the most remarkable substance which has yet been devised for this purpose is a kind of flour made from the seed-mace of birch.

**A Possible Sea Tale.**

What a theme for a novelist is suggested by these three words, "The Last Submarine." The story is a deathless tale of "Twenty Thousand Leagues Under the Sea," and the adventures of Jack London and Morgan Robertson—all these thrilling narratives—would pale their own before a grand conception such as might well be furnished by "The Last Submarine." The story is the story of Germany—some viking of the under-sea—leading a sturdy crew, and hiding that crew and his submarine, giving no heed to the terms of the armistice, vanishing quietly into the sea, and carried on the Wilhelmshaven books as "missing" forever after.

**Dead in the War.**

With the issue of the official figures of the French losses in the war it is possible to arrive at the approximate estimate of the appalling toll of life. The dead, so far, number 3,235,504. The individual national losses in dead thus far announced are:

British	706,726
French	1,071,200
American	58,478
Russian	1,700,000
Austrian	800,000
German	860,000

The total German casualties are given by the Berlin Vorwaerts as 6,330,000, and the Austrian total was placed at 4,000,000. Serbia is killed, wounded and prisoners lost 320,000 men.

**Sweet Grass Scarce.**

Richard Bishop, an Oldtime Indian, who has spent his summers at Old Orchard Beach for 23 years, has probably manufactured more sweet grass articles than any other one person in Maine has done in the same time. He says he uses 300 pounds of grass a year, so that in 23 years it must have used about 10,000 pounds. Sweet grass now, he says, is very scarce, because so much of it is pulled up by the roots.

**Former Russian Leaders, With But Few Exceptions, Killed by Revolutionists**

WERE are the men whom we considered the greatest of living Russians two or three years ago? No, their names would not be in reports of their deaths, or later in denials that they have been assassinated. Hardly a single Russian who was prominent in the war is known definitely to be living, and taking any part in public affairs. Despite conflicting reports the czar is probably dead. With the czar has disappeared most of the Grand Dukes, a dozen or more of them. They have been murdered or discovered by the Bolsheviks, and if they are not dead they are in hiding or making their way painfully on the streets of some neutral country. Their estates have been confiscated, their wealth either seized by the alleged government or distributed by the high Grand Duke Michael, brother of the late czar, is said to be in Siberia.

There is a report that the Grand Duke Nicholas, the commander-in-chief of the Russian armies, and considered the greatest military leader developed by the war up to that time, is hiding in Southern Russia.

GEN. BRUSILOV.

There is probably no Russian who played any considerable part in the war who made such an impression upon the outside world as the Grand Duke.

Another able Russian general was Alexey, formerly chief of staff, who reorganized the armies after the defeat of 1915. He was recently reported in command of some troops opposing the Bolsheviks in the Don, but his fate is uncertain. Gen. Korniloff, another hero of the war, may be alive. He was reported to have escaped through the Caucasus and Persia and to have joined Gen. Allenby. It is odd, if this report is correct, that there would not have been an official confirmation of it from British headquarters, though it is conceivable that the czar's court might have sufficient reason for giving no information as to the whereabouts of such an influential leader as Korniloff. Brusiloff, the hero of the Galician victories in 1915, is known to be dead. He was killed in Moscow. Ruzsky, too, is reported to have been assassinated.

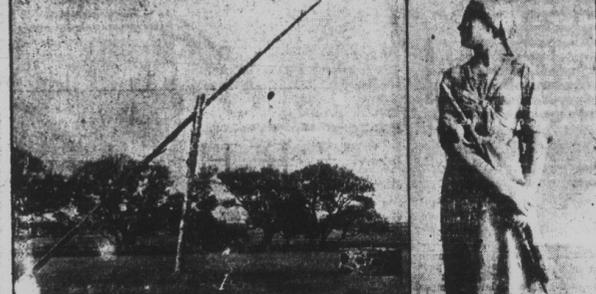

Turning now to the civil heads of the nation, it is known that Premier Gollitsyn, who held office before Kerensky seized power, is in hiding with a heavy price upon his head. He will be remembered for his failure to oppose the revolution when it came. His predecessor, Trofimoff, is in Stockholm and is supposed to be trying to organize some opposition to the present regime. Little need be expected of him. He was a bureaucrat, but a weakling. Sturmer, whom Trofimoff succeeded in office, is dead, and nobody mourns him. He was a traitor, a German by ancestry and a German by inclination, who contributed more than the czar to the unpopularity of Czardom. He sold out the Russian army, and tried to lead Russia into a separate peace. He had no more principle than either Lenin or Trotsky. Had the army survived he would have tried to do for Germany what Trotsky and Lenin were to do after the war had been destroyed. Sturmer died in prison.

One of the most despicable of Russians is one of the few who was able to escape from the country. This is Sukhomlinoff, former Minister of War, who betrayed Romania and tried to deliver a Russian army into the hands of the enemy. He was arrested and put on trial for high treason by the Provisional Government, but when the Bolsheviks overthrew Kerensky he was released, since he had been a good friend of Germany's and was permitted to leave the country. Protopopoff, formerly Minister of the Interior, who was an unscrupulous traitor and a traitor, died in an asylum. Most of the leaders of the Provisional Government which preceded the Bolsheviks are either dead or fugitives. Prince Lvov is in Paris. Surovich is said to be on his way there. Guchkov was assassinated. It is said that military leaders who were distinguished in the war, some of them generally, are supporting themselves by selling matches and shoe laces in Petrograd and Moscow. Notable service in the war against Germany is the most dangerous badge in Russia to-day.

**The Cause of Heart Trouble**

Faulty digestion causes the generation of gases in the stomach which inflate and press down on the heart, interfering with its regular action, causing faintness and pain. 15 to 30 drops of Hatcher's Peppermint Syrup after meals sets digestion right, which allows the heart to beat full and regular.

**Evangelina Returns to Grand Pre**

Evangelina's Well. Philippe Hebert's Statue of Evangelina.

WHAT lover of poetry has not dreamed of visiting the places made immortal in song? And what song has roused this longing more intensely than the story of the Acadian and their Great Basin? Many have realized this ambition for Nova Scotia in easy to reach and each succeeding summer sees more hundreds making the pilgrimage to

The Acadian land, on the shores of the Basin of Minas. It is a beautiful, secluded, still, little village of Grand Pre.

There they find the meadows, dunes and orchards of which Longfellow sang, and they try to retrace the steps of the poet by using as a guide the still remaining wall which is described as

... on the slope of the well with its moss-

grows Buckle, fastened with iron and near it is a trough for the horses.

The place of ground at Grand Pre on which the well of Evangelina, to which the old willow, has been bought by the Canadian Pacific for the purpose of preserving it for posterity.

Before he died last year, Philippe Hebert, the greatest of French-Canadian sculptors, was engaged on a statue representing Evangelina leaving the land of her childhood and looking back in sorrow.

Philippe Hebert was himself an Acadian and, although a perfectly happy exile in Montreal, entered into the spirit of the poem as no other sculptor could. The model of his statue has been purchased by the Canadian Pacific who have commissioned Philippe's son, Henri Hebert, also a distinguished sculptor, to complete it. Its size is bronze to be erected beside the famous well.

This will be added one more attraction to a land full of attractions for artists, devotees of romance and matter-of-fact sportsmen. The artists find an inexhaustible supply of subjects ranging from many-mile long vistas of apple blossoms to uncouth but picturesque fishermen; the romantically inclined find a land of legends and sleepy beauty; the sportsmen find fishing and hunting such as to excite and never equalled.

On the 25th ult., at Sunless, Roxburg by the Rev. Dr. Mather, Pte. T. Bulmer, Canadian Expeditionary Force, to Isa Broadfoot, youngest daughter of the late James Broadfoot and Mrs Broadfoot, Polverock. Pte. Bulmer was formerly of Matapedia, Que., and is a son of Mr. Thos. Bulmer of that place.

OBITUARY

**Miss Adelaide Irving.**  
She passed away at the Hotel Dieu Hospital, here on Jan. 28th. Mary Adelaide, the seven year old daughter of Mr. and Mrs. Bernard Irving of Anderson, N. B., after a lingering illness. The remains were taken to Matapedia to the home of Mr. Downes from where the funeral was held at St. Lawrence Church, and after service there was laid to rest in the Roman Catholic Cemetery. It is only a few months since Mr. and Mrs. Irving lost their son Lewis and they will have the sympathy of the community in the loss of their bright little daughter.

**TO MET AT CHATHAM.**

**NO INVASION OF RUSSIA TO WIFE OUT BOLSHEVIKI**  
London, Feb. 11.—Lord Curzon, pro-Chancellor of the Exchequer, said today, in the House of Commons, that he believed there was no possibility of an invasion of Russia by the Bolsheviks.

**WEDDING GIFT TO PRINCESS.**  
To the People of New Brunswick—Lady Borden, wife of the Prime Minister of Canada, has asked me, together with the wives of all the Lieutenant-Governors throughout the Dominion, to bring to the attention of the public the matter of a national wedding-gift to Her Royal Highness the Princess Patricia of Connaught, upon the occasion of her marriage to Commander Ramsay, R. N., which is to take place on the 27th of February. During the period of the residence in Canada of His Royal Highness the Duke of Connaught, as Governor-General, he and his family greatly endeared themselves to our people, and it would seem fitting that the people of New Brunswick should join with those of the other provinces in the offering of a wedding-gift to Her Royal Highness Princess Patricia, as a testimonial of their appreciation and regard.

It is desired that the fund should be made up of contributions from all who may wish to take part, in sums from the smallest up, so that the participation may be as widespread as possible. I shall be glad if the presidents of the various societies throughout the province will kindly take an active interest in the movement, and secure contributions from their respective localities, and I shall be pleased also to receive from them suggestions as to the form which the national wedding-gift shall take, as this is only to be decided after the women from the various provinces have expressed their views. R. S. Barker, Fredericton, secretary to the Lieutenant-Governor, will act as provincial treasurer of the fund, and the amount collected will be sent to the general treasurer, with the names of the contributors (but not the amounts given by individual subscribers), to be forwarded to the princess with the wedding-gift. The fund will close on February the fifteenth. Yours very truly, GERTRUDE PUGSLBY. St. John (N. B.), January twenty-third. Mrs. Pugsley asked Mrs. H. R. Smith to take charge of the above mentioned fund for the towns of Campbellton. There was not time to arrange for a general canvass so the matter was placed in the hands of the Presidents of the various Women Societies. Will any one who has not been called upon and who wishes to contribute, kindly give their contribution to any member of the Women's Institute, Catholic Guild, Ladies' Aid, Typewriting Club, Girls' Guild, W.C.T.U. or Soldiers' Comforts Association.

SOME FACTS CONCERNING "HEARTS OF THE WORLD"

D. W. Griffith's "Hearts of the World" At Opera House Next Wednesday and Thursday.

"Hearts of the World" was eighteen months in the making. The production is not in any sense a war play, but a love story of the great war, with the conflict serving as the grim background.

The battle scenes were taken on the battlefield of France by permission, and with the assistance of the British and French governments.

Mr. Griffith and many of his principal players, including Lillian and Dorothy Gish and Mrs. Gish, mother of the two girls; Robert Harron and George A. Siegmann, were under actual bombardment three times, on one occasion for a period covering four hours.

More than 120,000 feet of film were taken, although only 12,000 feet are used in the production.

David Wark Griffith was the first American ever to set foot in the front line trenches. This was, of course, before the United States entered the war.

There is no papier mache scenery, nor any artificial scenery of any kind used in the production; no studio "props," no superlatives, no "fakes" or artificialities whatsoever throughout the entire film.

Mr. Griffith describes "Hearts of the World" as "A story of the great war," with the actual conflict itself serving only as the grim background for the unfolding tale of life in a small French village.

The story of "Hearts of the World" was written by M. Mastron de Tolingnac, and translated from the French by Captain Victor Marjot. See it at Opera House next Wednesday and Thursday. Big Symphony Orchestra. Seat sale opens Saturday.

Taken Home by Friends, he Put Revolver to Breast and Fires—His Wife Died in Recent Influenza Epidemic.

Moncton, N. B., Feb. 12.—(Canadian Press)—Ross L. Webb, a former police sergeant in this city, shot himself through the heart at two a.m. today. He returned after a trip as freeman on the C.N.R., and, having been drinking, was taken to his home where, in the presence of his housekeeper, his wife having died a few months ago, he at his left breast and pulled the trigger and fell dead. He was a native of Notre Dame, Kent county, a few miles from here, and leaves three children.
