TRIAL TO PROBE MURGERS

FORMER CROWN PRINCE ESCAPED FROM HOLLAND

AND MADE HIS WAY INTO
GERMANY

PARIS, June 26.—Frederick William Hohenzollern, former German Crown Prince, has escaped from Holland and made his way into Germany.

Hints have come from Germany within the past few days that the military case there would not be averse to bringing about a military situation within the former empire that would embarrass the Allies in putting the peace treaty into effect. It seems not improbable that the move made by the former Crown Prince, is connected with some such plan.

The former Crown Prince made his way into Holland shortly after the signing of the armistice last November and was interned there by the Dutch government, taking up his residence on the island of Wieringen, in Zuyder Zee.

ESCAPE CAUSED CONSIDER-
ABLE STIR

PARIS, June 26.—The news of the escape of the former Crown Prince caused a considerable stir in peace conference circles. While it is not felt that he is a figure around which reactionaries and monarchists would gather enthusiastically, nevertheless his act is regarded as an event of considerable significance, in view of other recent events.

FORMER KAISER MAY GO
BACK

WASHINGTON, June 26.—Confidential reports that the former Crown Prince and also probably the former Emperor would attempt to re-enter Germany after the signing of the peace terms, were received recently by Government officials here.

This became known to-day after the dispatch telling of the escape of the Crown Prince had been received.

SIR ADAM SAYS HYDRO IS WILLING TO CONSIDER IT

MAYOR CHURCH WANTS HYDRO
TO TAKE OVER TORONTO
RAILWAY

(Special to The Record)

OTTAWA, June 26.—"We are quite prepared to acquire the Toronto Railway Company, if the terms and arrangements will justify us in doing so," said Sir Adam Beck with reference to the proposal of Mayor Church that the Hydro Electric Power Commission immediately negotiate to that end.

Mayor Church proposed "that the city apply to the Ontario Board for an order to vary the order issued ordering the Toronto Railway Company to

operate their cars, and for another further order for the Railway Board to immediately take over and operate the cars, as provided by the Ontario Railway Act, and with the old employees of the Toronto Railway Company.

"That the Board further move to have the operation of the road undertaken by the Hydro-Electric Power Commission of Ontario, in the public interest, and

"That Sir Adam Beck (Chairman), and the Hydro-Electric Power Commission of Ontario be requested to negotiate forthwith for the immediate acquisition of the Toronto Railway Company, and report the terms and conditions to the City Council as soon as possible."

LIVING COST COMMISSION RECOMMENDS TRIBUNAL

To Investigate Mergers, Trusts and Monopolies

AS RELATED TO COST OF FOOD
AND APPAREL

OTTAWA, June 26.—The immediate creation of a tribunal, with power to investigate mergers, trusts, monopolies and all other matters affecting the cost of articles of food and apparel, was recommended by the Canadian people, is recommended in an interim report presented by G.

Nicholson, Chairman and his Cost of Living Commission of parliament. The committee says it has not yet reached final conclusions and will later make further reports.

The interim report says that legislation creating this tribunal should be enacted at once.

ONTARIO RAILWAY AND MUNICIPAL B'D TAKES OVER RY.

WILL OPERATE CARS THIS
AFTERNOON

TORONTO, June 26.—The Ontario Railway and Municipal Board this morning made an order taking over the Toronto Street Railway Co. and promising to commence the operation of cars, presumably with the employees now on strike, for the rush hours this afternoon.

A conference is being held between representatives of the men and civic and provincial authorities this afternoon, to determine the basis on which the men will return to work.

R. C. Harris, Toronto's commissioner of works, has been named by the Board as temporary manager of the company.

CONFERENCE WAS HELD
THIS AFTERNOON

(Special to The Record)
TORONTO, June 26.—The Ontario Railway and Municipal Board has taken over the Toronto street railway and will endeavor to have the cars in operation by the rush hours to-night. Announcement to this effect was made by D. McIntyre, chairman of the Board at noon to-day.

The Board reached its decision this morning and the order for the taking over the line was issued after conference with general manager Fleming of the railway company, at which the latter admitted the company's inability to operate.

Works Commissioner R. C. Harris has been appointed general manager of the line, under the direction of the Railway Board. The other officials of the company will likely remain.

The railway board has arranged for a conference with the strikers in the company's office at two-thirty this afternoon at which an effort will be made to arrive at an agreement under which the men will return to work.

"We will do our best to effect a fair settlement," said Mr. McIntyre, and he appeared hopeful of doing so. "If the Board grants the men an increase the additional cost will come out of the revenue of the company, as though the increase were granted direct by the company."

Alex. Jamieson, Chatham, was injured by a load of bad hay upsetting on him.
Henry Seidan, Montreal, was arrested on a charge of seditious plotting at Quebec.

WILL MR. BOWMAN
BECOME PRESIDENT?

Considerable interest is being taken in the approaching withdrawal of Mr. Charles M. Bowman, M.P.P. Southampton from public life.

He has been in harness for twenty years or more and has out a wide swath in the Liberal party's activities. He is, by the way, a native of North Waterloo, having the Record is informed, been born in St. Jacobs. He was a son of the late I. E. Bowman, who, for many years, represented this riding at Ottawa.

There is an interesting report current that Mr. Bowman may have decided to withdraw from the legislature in order to take the presidency of the Mutual Life of Waterloo.

It is reported that the health of Mr. E. P. Clement is such that it will not be long before he will be able to resume the duties of the presidency. It is said that while the sojourn in California improved his physical welfare, the position would be too severe a tax upon his strength.

While there is nothing official in this announcement, our informant expects soon to see Mr. Bowman appointed president of the company.

His father was, for many years, president of the company, which it was styled the Ontario Mutual Life.

ALLIES WANT REPLY BY NIGHTFALL TODAY

OR WILL SEND AN ULTIMATUM

PARIS, June 26.—It is understood that if no official communication is received from Berlin by nightfall relative to the plans of the German government for signing the peace treaty, something in the nature of an ultimatum will be sent to Berlin by the peace conference.

NAMES OF DELEGATES TO BE
ANNOUNCED TO-DAY

BERLIN, June 26.—The identity of the men to be delegated to go to Versailles as German representatives to sign the treaty of peace, will not be announced before Thursday, according to an official statement.

ALLIES DENOUNCE SINKING
OF SHIP

PARIS, June 26.—Germany has been notified, in a note sent to-day by the Allies, that they possess the right to punish the persons responsible for the destruction of German warships, and to collect reparation for the loss. The sinking of the fleet is denounced as a violation of the armistice and a breach in advance of the conditions of peace.

TRYING TO ARRANGE SIGN-
ING FOR SATURDAY

PARIS, June 26.—Efforts were being made to-day to arrange for the signing of the peace treaty at three o'clock Saturday afternoon. The council of three is apparently satisfied with the semi-official assurances that the German delegates would be on hand.

WILL BE HELD RESPONSIBLE

PARIS, June 26.—The German peace delegation has been informed, in a note from Premier Clemenceau, that the German government will be held strictly responsible for an unofficial support of any movement against the Polish authorities, in the territory given to Poland in Posen and in East and West Prussia.

HERMAN MUELLER WILL
SIGN TREATY

BERLIN, June 26.—Herman Mueller, the Foreign Minister, and Dr. Bell, the Colonial Minister, it was announced, have been selected as the German envoys to sign the peace treaty. They will leave Berlin on Friday.

ALL NATIONS MUST SIGN BEFORE LID IS TO BE LIFTED

SO MANITOBA GOVERNMENT
WAS INFORMED

(Special to The Record)
WINNIPEG, Man., June 26.—Official information that "boozing" cannot be lifted until Bulgaria, Turkey and Hungary have signed the peace treaties, as well as Germany, was received by the Manitoba government from Ottawa.

Commission merchants and others who expected that inter-provincial trading could be resumed as soon as Germany had signed the treaty, are doomed to disappointment. Many had already gone to Kenora and rented premises.

An Agricultural Council is being organized by the farmers of British Columbia.

A Yukon miner purchased \$6,214 worth of U.S.S. with a big bag of gold dust.

Thos. Payne, president of the London Old Boys' Association of Buffalo, is dead.

Civil employees of Prince Albert want an increase in pay and no overtime.
The annual dividend of the Home Bank will be raised from 5 to 6 per cent.

"THERE'S ONE OF THESE BORN EVERY MINUTE."
"Dare Devil" Reynolds, ugling three balls and "kidding" photographers while he balanced himself in a precarious position on flimsy structure of chairs atop a chimney 25 stories high at the corner of Herald Square Building, New York City. A crowd of thousands watched, more frightened than Reynolds.

WELL KNOWN MEAT PACKING HOUSE TO BUILD BIG PLANT

Messrs Dumart Bros. Will Remove to Guelph St.
Capacity Will Be 1200 Hogs a Week.

APPROXIMATE COST WILL BE \$75,000

One of the most modern packing plants on the continent will be erected in the city soon. It will be put up by Messrs. Dumart Limited and will be located on Guelph Street. The new plant will cost approximately \$75,000.

For some time Messrs. Dumart Brothers have been looking into the matter of erecting a new plant which will be the latest in the packing line and they have had the benefit of experienced special engineering men on the other side of the boundary. The plan has been completed and the firm is now getting specifications after which they will call for tenders.

It is hoped to have the work completed and the new factory in operation by fall.

The plant that is to be built will increase the capacity of Messrs. Dumart Brothers about seven times. It will be a busy industry which turns out products of superior quality with the result that their trade is forming an ever wider circle throughout Ontario. The firm, however, is also looking forward to the export trade and has therefore accordingly. That such an industry should arise through the efforts of some of the city's own home boys is encouraging and the success that has been attained by Messrs. Dumart Brothers is an example that should be emulated by others in their respective lines.

Will Be Finest on Continent
Regarding the plant that is to be built as said above, it will be the last of its kind in the packing line. The designing engineering firm of Chicago have declared that it will be the best on the continent. There may be many mammoth plants owned by the Chicago trusts and a few others

here and there in this country which may be bigger than this will be but they are not as efficient or as modern. The new plant that Messrs. Dumart Brothers will erect will have time and labor saving devices in every nook and corner. Every little detail in the way of making use of the waste and offal is provided. Once the block device of the third floor there will be only one handling of the same. By block devices it is carried down without having to be lifted or removed by workmen, until the various finished products reach the shipping and cold storage rooms. The requirements of health and sanitation have been provided for. The firm also looks forward to its export trade and has therefore provided quarters for the men who will do the inspection for the government.

The building will be erected on a property on Guelph Street which was purchased from the L. Huengerfeld estate. The land contains three and a half acres. There will be four stories to the greater part of the building, a part at the rear will be two stories. The construction will be reinforced concrete and brick. The dimensions will be 49 feet by 136 feet 6 inches. The rear part of the building will be connected with the main building by a special connecting way overhead.

On the fourth floor there will be various departments. Among them will be the government inspection office which while it will not have to be used immediately will be required when the firm does an export trade, there will be a dressing and locker room with shower baths for the employees, and the hanging room for the summer sausage department will be also on this floor.

Operations on Third Floor
On the third floor the operations on the live hog will commence. The anti-

ARRESTED STRIKERS BE TRIED BY JURY

ENGLISH AND SCOTCH VET-
ERANS DESIRE TO BE
SENT HOME

WINNIPEG, Man., June 26. (By J. J. Conklin).—The "Grand Walk-In" strike was a rash yesterday when thousands of strikers appeared at their old places of employment. Hundreds of street car men have returned. Service on all lines was resumed. Company officials said a virtually normal service will be restored by to-day. 215 police signed the ultimatum yesterday.

Judge Robson begins his investigation of strike causes on July 2. The trial of strike leaders begins on following day before a jury. Fines of \$1000 is said to be the heaviest punishment they will face.

A mass meeting of soldiers outside the city limits clamored for deportation proceedings. A Soldiers' and Sailors' League, similar to that formed at Vancouver, which endeavors to further meeting of nearly 1000 returned men approved of the scheme at Norwood baseball grounds. It was declared that

IS THERE AN EQUITABLE COUNTY INCOME ASSESS'NT?

Rural and Urban Men Differ on Point
LINWOOD A POLICE VILLAGE

Rural and urban opinions clashed at the county council's resumed session Wednesday afternoon and the result was the winning out of the men from the rural districts but the vote was one that was divided according to the residence of the individual members of the council. The reason for the differences in the opinions was the proposal to strike out from this year's assessment for county purposes the income tax and the various municipalities asked until such time as the various municipalities have a system of calculating their income tax in a just and equitable way.

In Committee of the whole this amendment to the bylaw based on the report of the equalization committee was made by Reeve Oaks of Preston and Reeve Stumpf of Elmira. Reeve Oaks in submitting it said that it was a fact that at present there is no uniformity between the systems of fixing the income tax in the various municipalities. Until such time that there was he thought that it should not be included. He illustrated by mentioning the fact that the village of Ayr has \$17,000 income tax as compared to North Dumfries \$1000. At present the system is only a sham," he remarked. As to his own Town, Preston, he would not say that it was high enough in income assessment, perhaps it also was too low. The whole system should be changed and the various municipalities asked to adopt a definite system so that there would be more uniformity and fairness all around.

Reeve Stumpf claimed that this would mean that nothing would be done with this tax this year and that it could not therefore be collected this year. Reeve Oaks said that the Council should recommend to the respective municipalities the adoption of a better system, of course that would have to be foregone. But in past years the tax was not on, for years.

Reeve Little of that township interjected good naturedly. Reeve Reidel of Wellesley claimed that in his township the assessors were enforcing the law and that all years the tax was not on, for years.

FOURTH DEFENSE LINE, NATIONS' MAN-POWER, IS FIRST ESSENTIAL

Columbus Authority Raps Present Educational
System. Give the Boys a Chance.

One has heard much about the first and second lines of defense and in these war years the third line has been mentioned on many lips. The necessity of maintaining an army and navy and that of conserving the natural resources of the country are by reciting out of his own experiences with boys who to-day, after being up in his court, were useful young men and were holding good positions. Others were able students at college.

He mentioned one case where a boot-black had been up on a charge of truancy twelve times and when he was to be sent to the industrial school he got a retired judge, a friend, to intercede for him. This judge of over thirteen years and ten years decided to take the boy under his care and the result was that seven years later the boy graduated with first class honors at the high school, heading the class. Unfortunately the judge had died five weeks previously without being able to witness the event.

The Cart Before the Horse.
The speaker during the course of his address said that far more money should be spent on education. The reason that there was such a big discrepancy in government expenditures on hogs and cattle, agriculture, on the one hand, and human life on the other, was because we valued everything by its dollar value. That was the wrong idea. The preservation of the man-power was the first consideration and the most money should be spent on it.

The First Part of the Program.
The first part of the evening's program, like that in the afternoon, was a concert by the Vissochi Florentines. The company consists of four people, including an accordion player, a pianist, a violinist and an elocutionist. The numbers rendered by them were a treat. Not only have the company the faculty of bringing out real music but they have that instinct which puts a human interest in their appearance before the audience. To say which of the numbers were the best is impossible. It might be stated, however, that it was especially amusing to note the skill and the composure of the accordionist; besides these he displayed an unusual degree of humor. No wonder that the audience repeatedly asked him to follow the previous number up with another. And the other artists did as pleasingly as he. May they come again.

Abolish Examinations.
Mr. Bale was emphatic in the matter of a great reform in the educational system. Education meant to draw out; instead of that conception, the idea of cramming in, was generally held by so many educationalists. He would abolish all examinations. This declaration on his part met with great applause on the part of the audience. Churches Should Have Gymnasiums.

The speaker said that the church's principal mission was to provide for the children. Christ himself had impressed the importance of the children on the people of his days. The church instead of spending so much money on spires and unnecessary ornaments might well establish gymnasiums and educational rooms in their respective parishes.

He wondered what Christ would say if he were on earth and had to give his opinion on some of the extravagant edifices. He, born in a stable, would surely ask us to worship in simpler places. Mr. Bale took issue with the claim that the church had no mission in the field of looking after the surroundings of the boy. He claimed that the teaching of Christ was quite contrary.

The speaker said that society had a duty to perform in removing the boy from bad influences and in this connection, speaking from his own experience with drunken boys, he said that he hoped that the people of this country, when the referendum comes up, would not vote to have the former

DISORDERS ARE INCREASING
LONDON, June 26.—Disorders are increasing in Berlin, the Exchange Telegraph's correspondent at Amsterdam reports. Many streets there are barricaded and there has been serious engagements between Government troops and mobs.

Fiddling While Flares Rage.
People of the present day, according to Mr. Bale, are doing the same thing

(Continued on Page Two)

WATERLOO NEWS RECORD

UNITED LUTHERAN SUMMER SCHOOL

The first day of the School Wednesday 25th began. After breakfast we all gathered in the chapel of the Seminary for morning devotionals which was conducted by Rev. Zinck after which Dr. Little welcomed the Summer School to the Seminary and gave them the freedom of the building and Waterloo Hill. So far nearly 200 have registered which is to show the great interest and desire of our Lutheran people to inform themselves of the great problems of the United Lutheran Church of America and to study Canadian conditions. This great interest and number of registrations insures the committee in charge against any financial embarrassment for which they are very thankful. Those who are missing the first opportunity will be the losers. To listen to the message of the leaders of our church, of how to solve the problems confronting her is very inspiring. The forenoon was devoted to Round Table Talks by the Women's Missionary Society. It was "The Worth While Hour" which was it worth while to train Juniors in the Mission Work. An emphasis was placed to prevail the entire meeting because training meant leaders' which was always needed. Was it worth while to study Missions was also answered in the affirmative. Was it worth while to be a part of the United Missionary Society was discussed by Mrs. J. Bieber. But the greatest amount of interest was shown when the worth while work of the Seminary was discussed. Great praise is due the Seminary Auxiliary for the great work which they have done in supplying many needs of the Seminary and especially in ministering to the comforts of our boys and being practically a mother to those in the institution.

After Dinner and Recreation the afternoon session was opened by the first of three addresses to be given by Rev. J.R.E. Hunt, a leader in Sunday School Work. "The Child" was his first address. He traced the development of the child life up to the sixteenth year and showed the most successful ways in dealing with our Sunday School scholars during that age. He said in brief—know the child study the child life by outward observation and the Family Life. Look at them from the standpoint of our own childhood. Just as necessary to know the child as it was to know the Bible and the Lesson. Our Lutheran Sunday School differs from others in that it receives them as

Little Lambs being regenerated by the word in Baptism. It was not necessary to make little lambs out of them when they came to the Sunday School. Its five years child was eager to learn. From 6-12 was the unfolding of the mind. Possesses unlimited faith therefore be sure and tell it the truth. Has absolute confidence in father and mother so do not betray it. Ages 12-16 most difficult time. A great physical change also a great mental change. Needs direction. At about 14 or 15, an upheaval of youth, passions developing. Age of defiance, recklessness and mental activity. Age of hero worship—See and teach them the Bible heroes and especially our Saviour age of emotions. A good time to develop the grace of giving. What a wonderful thing a child was and what a wonderful work to lead and direct children.

Rev. Luther Hoghead followed by an address on Home Missions and the Homeland. The varied conditions of our people made our problems wonderful. Our work was an opportune time an opportune land and an opportune church. The country of North America was the best land in which to be born, the best to live in the best to work in and the best to die in. He showed the great work of our church in this our Homeland.

After supper the ladies met in Mission Study Class at which Mrs. Kauffman of Chicago interested her audience with ways of Mission Study at 7:45 Rev. Sperling of Kitchener spoke on the care of the Confirmed Boy. He spoke first of the Great Necessity of caring for our boys after receiving them by confirmation, secondly the most convenient form of that care, thirdly the great blessings which come to the church and the individual in living and doing their utmost to care for the boy fourthly the Organization and rightly the difficulties which stood in the way of making the confirmed boy an earnest christian and servant of Jesus Christ. So many ways had been tried but many had tended in the end to lead away from the church instead of making them steadfast. Love them and show our interest in them. Rev. Dunkelberger a returned missionary from India gave very educational address on "A World Missionary Survey" He spoke of the promising outlook for missionary activity the world over. The influence of the war when the thousands of soldiers, for instance in India who had thrown away all caste and went to war,

INDIGESTION AND CONSTIPATION

Quickly Relieved By "Fruit-a-lives"

Rochester, P.Q. "I suffered for many years with terrible indigestion and constipation. A neighbor advised me to try 'Fruit-a-lives'. I did so and to the surprise of my doctor, I began to improve and he advised me to go on with 'Fruit-a-lives'."

I consider that I owe my life to 'Fruit-a-lives' and I want to say to those who suffer from indigestion, constipation or headaches—try 'Fruit-a-lives' and you will get well."

CORINE GAUDREAU.
50c a box, 6 for \$2.50, trial size 25c. At all dealers or sent postpaid by Fruit-a-lives Limited, Ottawa.

would return and bring new ideas to their country. South America offered an open door. A land where there was no open Bible. People vastly illiterate and grossly immoral because the people who went to that land went to exploit the country for gain not caring for anything else. Africa where men had sacrificed their lives for Christ should we let it be in vain. China which doubles its population in every 80 years. Japan who was at present leading the Orient leading the East but the question was where? because she had lost hold on religion and broke away from every restraint and had become the most immoral country in the world. The great menace was threatening. Should we draw us into her whirlpool or would we lift her up. Mr. H.B. Gerhard full of zeal and fire presented the work of the Lutheran Brotherhood. He in brief traced the origin of Brotherhood movements. Goal is to have a Brotherhood in every congregation of the United Lutheran Church. Three things explained what it is? A Brotherhood to promote greater service for Christ. 2nd What is its Mission? To lead men into fellowship of the church. Help men to let their light shine. To unite men for efficient work.

3rd. What is the field—Organized for service, implies servants. Individual service and personal touch. The evening session was interspersed with music by the choir of First English Church, Kitchener.

Mr. and Mrs. Herbert of Rochester, N.Y. are spending several days with friends in town.

Mr. H. Bell of Toronto was a business visitor in town yesterday.

Mr. F. Collins of Hamilton is in town this morning on business.

Mr. F. Rodhouse of Brantford was in town yesterday on business.

Miss Florence Anderson of Belleville is visiting friends in town for a few days.

LAWNS ARE NOT THOROUGHFARES

While dogs are still being allowed to run at large during the night and doing their usual damage to gardens other citizens are complaining of their lawns being destroyed by the continual use of them by pedestrians who make a short cut in going to their occupation. One citizen in particular voiced his resentment in no uncertain manner. His lawn is being used continually especially in the early hours of the morning and these same people have lawns of their own and take such pride in them that they would hardly let a cat cross them. Lawns if well kept are a beauty to the eye and nothing looks worse than to see a streak worn bare by continual use hereof from day to day.

Mr. R. Bannister of London was in town this morning on business.

Mr. and Mrs. F. Hopeman of Niagara Falls, N.Y. are spending several days with friends in town.

Mr. F. Bell of Toronto was a business visitor in town yesterday.

Mr. F. Collins of Hamilton is in town this morning on business.

Mr. F. Rodhouse of Brantford was in town yesterday on business.

Miss Florence Anderson of Belleville is visiting friends in town for a few days.

UNION CAUCUS FAVORS PERMANENT ORGANIZATION

UNDER PREMIER BORDEN'S LEADERSHIP

OTTAWA, June 26.—The government caucus, which was described by members as "enthusiastic" in character, this morning considered the question of the organization of a permanent Unionist party for Canada. The discussion was limited owing to the opening of the morning session of the house, but it is understood that the majority favored the proposal and arranged for a definite scheme to be presented at an early date.

Sir Robert Borden favored the move and expressed his willingness to retire from the leadership, if considered necessary, but the caucus warmly voiced its confidence in his leadership.

The Council endorsed the application of the special committee asking the Provincial government to set aside the following roads as county roads.

From the northerly boundary of Waterloo County to the Wentworth border from Guelph through Hespeler to meet the other road at Galt; from Guelph through this city to Petersburg to New Hamburg and the Wilmot border. The Council urges that should any further pressure be needed to get these the co-operation of Wellington County be secured in the matter of having the two last mentioned set apart as provincial county roads, the first having already been designated as such by the provincial government who also gave the assurance that number two would be adopted as such provided Wellington would give its support to and endorsement of the idea.

Tea and coffee drinkers should know how easily and healthfully INSTANT POSTUM takes the place of tea and coffee.

Is There An Equitable

(Continued from Page One)

possible income was being collected. They were working under special instructions to see that it was. The fact was that it was not the farmer who had so much income tax to pay. Very few farmers have their mortgages paid. It was the fellow who had the mortgage that should pay the tax.

Reeve Stumpf of Elmira said that all that he asked for was a fair deal. The idea of the Council, it should not be lost sight of was to equalize. He did not want the impression to prevail that any special grudge was being held or that any special privileges were being asked for. As to the amount that the urban and rural municipalities have to bear he pointed out that in the same afternoon he had voted for the grant of \$2500 to a patriotic purpose and he did it without complaint although Elmira had paid many sums for various patriotic purposes. They did it without complaint, so there was no justified complaint anywhere that the urban municipalities were not bearing their share. In conclusion he said that he asked that the council consider the matter from the standpoint of equalizing.

Reeve Jensen could not see that equalizing the assessments was the thing to do with the matter. This was simply a question of law. The fact that it was not put on in other years for county purposes, did not mean that it should not be put on this year. In past years when Berlin and Galt were still with the County the urban municipalities had the majority and always voted the proposal down to include the business and income tax.

Reeve Reidel also said that in bygone years the urban majority voted it down whenever it was brought at meetings of the Equalization Committee.

Denial that it ever Caused Differences.

Reeve Stumpf of Elmira took issue with this statement pointing out that it was never discussed.

Reeve Koeh of Woodville claimed that the assessor in this Township was working under directions to get a correct statement from all men suspected of having an income which should be assessed. He said that it was up to the municipalities to see to it that their assessors did their duty.

The trouble is that they are sometimes appointed by men who do not want the income tax to go up," Reeve Bohlander said.

Reeve Little of North Dumfries claimed that no evidence had been submitted which indicated that the assessors in some of the municipalities were not carrying out the law. Reeve Armstrong of Ayr said that in Ayr the assessor was compelled to enforce the law. It was up to the respective councils to see that he did so. He saw no use in further discussing the matter and he considered the report of the equalization committee as it stood all right.

Reeve Mathers of Preston said that since the custom of not having the income tax included for county purposes had been followed for so many years there must have been a good reason.

Reeve Koeh replied "when would you start making things right? Isn't the time to do it as soon as you find out that they have been wrong?"

Warden Pennbeker expressed the conviction that the council should try to work together. Some bases of cooperation between the urban and rural municipalities should be aimed at.

The rural members concurred. The amendment to exclude the income tax for the year was then put and it was declared lost on a vote of 8 to 5, the yeas being Deputy Reeve Stumpf of Waterloo, Deputy Reeve Mathers of Preston, Reeve Oaks of the same town, Reeve Stumpf of Elmira and Chairman D. Bohlander of Waterloo; against it were Reeve Jansen and Deputy Reeve Snider of Waterloo Township; Reeve Henry Walker and Deputy Reeve Lantz of Wilmot; Reeve Little of Ayr; Reeve Armstrong of Ayr; Reeve and Deputy Reeve Koeh of Woodville; Reeve Reidel and Deputy Reeve Bechtel of Wellesley. The warden did not vote. The motion to adopt the report of the by-law was then put and declared carried on the same division.

Linwood Now A Police Village

On the petition of the people of Linwood that village was declared and set apart as a police village, the first election to be held next January.

The regular by-law was passed making the village a police village, \$2500 Grant to the Navy League. The Council passed a motion and adopted the same for a grant of \$2500 to the navy league.

Endorse the Application of the Committee

The Council endorsed the application of the special committee asking the Provincial government to set aside the following roads as county roads.

From the northerly boundary of Waterloo County to the Wentworth border from Guelph through Hespeler to meet the other road at Galt; from Guelph through this city to Petersburg to New Hamburg and the Wilmot border. The Council urges that should any further pressure be needed to get these the co-operation of Wellington County be secured in the matter of having the two last mentioned set apart as provincial county roads, the first having already been designated as such by the provincial government who also gave the assurance that number two would be adopted as such provided Wellington would give its support to and endorsement of the idea.

Well Known Meat

(Continued from Page One)

meat will be brought up to the first floor in the holder, which will accommodate one hundred hogs, it goes to the slaughtering pen, then it is run up to the fourth floor on a hoist where it will be the slaughtering pen, besides the other rooms which have been mentioned; it will be dropped into the scalding tub on the third floor it will then be picked up by the derrick machine, then taken to the gainfrencher bench and to the dressing table, scraping and spraying follow. Here the offal will go into a waste chute and down to the floor of the building at the rear.

The scalding will remain on the drip racks until the scalding operations are completed. Two coolers will be provided which will accommodate 300 hogs. The animal then automatically like in all the operations mentioned so far will be put on the block and the trimming table. Here anything that is used in pickling hoes and so forth will go into the chute which leads to the basement. Whatever is used in making sausage will go down to the second floor.

On the Second Floor

On the second floor there will be the sausage-making coon rooms for pork and beef. The pork and beef will go to the hatching and cutting and mixer. Then will follow the stuffing tables which work completely without the being at each; the product will go to the tracking and conveyors to the smoke house. Others will go from the smoke house into the cooking room and from the cooking room into the shipping room cooler on the first floor.

The First Floor

On the first floor there will be the cooling and shipping rooms; the three general and private offices; the three smoke houses will also go through this floor extending from the basement up to the second floor.

At the back separate from the main building there will be the ice machine, the boilers, and a continuation of the department where the offal will be treated; there will be the lard filling and lard receiver equipment. The offal will be first treated on the floor above and then will be divided into edible and inedible. These will go through the rendering tanks nearby. Underneath there will be a continuation of these tanks.

In the Basement

In the basement there will be the sweet pickle cooler which will connect with the third floor. Here the curing will be done. There will be a sharp freezer for cold storage purposes in the basement. The pits for the smoke houses will also be there. Underneath the leading platform at the rear of the building there will be room for the storage of salt, barrels and other things.

The Fertilizer Plant

Between the two buildings there will be a catch basin for the grease and so forth accumulating in the operations will be taken care of. All water with waste will enter there, it will leave clean. The sediment in the basin will be turned into the fertilizer plant. After the necessary operations in the rendering tanks it will go into the fertilizer storage. And the operations will be complete without there being any waste in the whole plant. The fertilizer operations will be carried on through the night. Whatever will be offal at night after killing will be offal in the morning.

The plan as outlined shows that the new plant will be the latest of its kind. But reviewing the growth of the industry which has been built up through the initiative of the members of the firm, all home boys, one comes to the conclusion that it is a necessary and profitable industry for the community. The prospects for the firm's continued expansion are unlimited. They are to be congratulated for taking the steps that they have decided to take. Their progressiveness is an asset to the city.

Fourth Defense

(Continued from Page One)

as Nero. They are adding what the evils of the liquor traffic, the evils of sex ignorance, the degeneracy of the cigarette habit and the demoralization effect of sensational, paper-covered novels and the three—these are the evils of the present generation and showing every evidence of burning the children of the coming generation as well.

In touching upon the evils that are resulting from the liquor traffic Mr. Bale declared that a majority of the defective children born into the world are the result of parents who are addicted to the use of alcoholic beverages. He declared that alcohol does to the albumen of the human body what it does to the albumen of an egg. Aside from the moral reasons why the liquor traffic should be crushed, the physical reasons are of tremendous weight.

The next great flame consuming the children of the day is that of sex ignorance. As a result of not being properly taught in the home the sublime lesson of the origin of life, the children learn the great lesson of creation in a filthy surroundings so that for the rest of their lives, the most sacred of human relations is looked upon as a thing of evil.

If it is through the avenue of sex ignorance that the young girls of today are being led away from the paths of decency and are contributing to the ever-growing number of girls who are leading a life of shame in the big cities. Home influence and home teaching of the sex mysteries in a reverent way is the great solution to the problem.

Toucing the cigarette evil Mr. Bale declared that the American Tobacco Trust was behind the impetus that was given to the movement of sending cigarettes to the boys in the trenches. Out of this traffic, the tobacco trust made millions of dollars. Mr. Bale declared that the cigarette evil among the boys of the country has grown as a result of the campaign to send cigarettes to the boys in the trenches. The creation of a cigarette fiend out of a young boy is one of the greatest crimes imaginable. Once a young boy becomes a fiend he is in line for almost any line of crime or depravity.

Mr. Bale concluded with an attack on the sale of paper-covered novels and the showing of the sensational three-reel films that depict the success of the criminal type here. He declared that the women of the community should interest themselves in raising the hand of the paper-covered novels that McCullough, who died on the scaffold in Toronto, was led into his life of crime. Mr. Bale declared that out of the 6,000 in the juvenile court in the last four years a surprising number of crimes were directly traceable to the paper-covered novel and the three-reel film

PILES

Do not suffer another day with itching, bleeding, or protruding Piles. No surgical operation required. Dr. Chase's Ointment will relieve you at once and as certainly cure you. JUNE NUPTIALS

PRETTY CHURCH WEDDING

CALLAHAN-LANG

A pretty nuptial event was the wedding at St. Mary's Church yesterday when Mr. John Callahan, of Toronto, was wedded to Miss Olivia Lang, daughter of Mr. and Mrs. John A. Lang, North Water Street. The event took place at ten o'clock, the ceremony being performed by Rev. Father Zinger.

The bride, who entered the church on the arm of her father to the strains of the wedding march, was prettily gowned in white satin chantilly lace, wearing a pink tulle hat and carried a bouquet of orchids and roses. The bridesmaids were Misses Mary and Kathleen Lang, who were dressed in French blue tulle and pink. They carried bouquets of roses and sweet peas.

Mrs. W. J. Swift, sister of the bride, was the matron of honor and wore pink georgette and a leghorn hat, carrying a bouquet of roses and sweet peas.

The best man was Mr. Morgan Callahan, of Toronto, a brother of the groom. The ushers were Dr. W. J. Swift and Mr. Frank Regan.

The bride's mother wore pink georgette and ermine cape. Mrs. T. H. Callahan, of Toronto, the bride's sister, was attired in turquoise blue georgette and a white hat.

The groom's gift to the bride was a handsome platinum diamond pin, to the ushers gold cufflinks and to the best man a scarf pin.

About two hundred guests were present in the church and at the buffet luncheon and reception which followed at the home on North Water Street. The bride was the recipient of showers of beautiful gifts including numerous handsome cheques. Many telegrams of congratulations were received from outside the city.

Mr. W. J. Moir presided at the luncheon as toastmaster and the guests responded to various toasts.

The out-of-town guests included Dr. and Mrs. W. J. Swift, Chicago, Mrs. Kaiser, Mount Clemens, Mr. and Mrs. Edward Stoddy, Mr. and Mrs. Tom Garvey, Mr. and Mrs. Gordon Geddes, and Mr. Leo McCarthy, of Seneca, Mrs. Harold Wurster, Detroit, Dr. and Mrs. T. H. Callahan, Mr. and Mrs. Gus Gough and the Misses Gough, Mr. and Mrs. Tom Griffin, Mr. Frank Regan and Miss St. Charles, of Toronto, the Misses Callahan, Wooler, Mrs. Loft and Mrs. McManus, of New York, and Mrs. Ryan of Toronto.

Mr. and Mrs. Callahan left on a honeymoon trip for New York and Atlantic City, after which they will reside in Toronto.

MERRIFIELD-MILLER

A quiet but very pretty June wedding took place Wednesday afternoon at 2:30 at the home of Mr. and Mrs. Arthur Zinken 119 Water St. S., when Miss Christina Miller, daughter of Mrs. Mary Miller city, formerly of Preston, became the bride of Mr. Harry Merrifield, of Port Hope in the presence of the immediate friends and relatives of the contracting parties. The Rev. John Schneider officiated, while Miss Bernice Hofflich played the wedding march and Miss Merrifield sang "Because."

The bride looked very pretty in a gown of ivory silk crepe-de-chene, wearing the customary wedding veil and carrying a bouquet of bridal roses, while the bridesmaid, Miss Rose, carried a bouquet of pink roses. The bride wore a pale pink crepe-de-chene and carried a bouquet of pink roses. Mr. Joe Miller of Windsor supported the groom.

The groom's gift to the bride was a diamond ring, to the bridesmaid a pearl necklace to the groom's man a signet ring, while Miss Hofflich received a pearl crescent.

The house decorations were ferns and peonies. After a dainty wedding repast and the extending of congratulations the bride and groom left for Toronto. After their return they will reside in Port Hope, where the groom conducts a tailoring business.

The bride's bridesmaid was of champagne serge with white picture hat.

Mr. and Mrs. Merrifield have the best wishes of their many friends for a long and happy married life. The out-of-town guests were Mrs. Merrifield and daughter Pearl of Port Hope, Mrs. Hamm of Toronto and Mrs. Geo. Ellison sister of the bride, Toronto.

MARQUETTE-QUENTHER

A quiet but very pretty wedding was celebrated this afternoon at the home of the bride's parents Mr. and Mrs. Rudolph Quentner, Allan street, when their daughter May was united in the bonds of holy matrimony to Mr. Richard Marquette, the nuptial knot being tied by Rev. S. E. Schaefer.

The bride was attended by her sister, Pauline, while the groom was assisted by his brother.

After receiving the congratulations of the assembled guests a wedding dinner was served.

The newly married couple have the best wishes of a large number of friends for a long and happy married life.

GATSCHE-SNIDERHAN

The marriage of Miss Matilda Elizabeth Sniderhan youngest daughter of Mr. and Mrs. Joseph Sniderhan to Mr. Oscar Michael Gatschene of Oberlin, Ohio son of Mr. and Mrs. Jacob Gatschene of Waterloo Ont. took place on June 17th at nine o'clock at Cayuga Ont. Rev. Father Murphy officiated, the bride was given away by her father and wore white georgette crepe over white satin meseline with the customary wreath and veil. Miss Winnie Sniderhan acted as bridesmaid while Mr. Cyril Sniderhan brother of the bride was bestman. The groom's

Soc'y Housing Commission Town of Hespeler, Ont.

gift to the bride was a pin set in diamonds and pearls, to the bridesmaid a pin set in pearls and to the groomsmen a set of gold cuff links.

After the wedding ceremony a reception was held at the bride's home where the newly married couple received the best wishes of their many friends. The bride was the recipient of many handsome cheques. Mr. and Mrs. Gatschene left on the 6:20 p.m. train for Waterloo St. Thomas, Ingersoll, Wyoming, and other points. The bride traveling in a navy blue suit with hat to match, on their return they will reside at Oberlin Ohio where the groom holds a position.

Tonight—300 extra chairs will be had so you will be happy at the Chautauque tent. Dr. Frank Bohn and the D.E. Mille Quartet.

GARTUNG-ERDMAN

Another pretty church event was solemnized in the city this afternoon. It was the marriage of Mr. Ernie Gartung, of Miss Barbara Erdman, Delany street. The event took place at two o'clock at the First English Lutheran Church the ceremony being performed by the Rev. J. Maurer. The attendants were Mr. Ernie Erdman and Miss Clara Gartung. Two little nieces of the bride were the flower girls. The event was witnessed by quite a number of friends.

HALL-REID

The marriage took place at two thirty o'clock yesterday afternoon at St. John's Anglican Church of Mr. Arthur Monteith Hall to Miss Rebecca Alice Reid. The ceremony was performed by the Rev. H. Langford. The attendants were Miss Violet Reid, sister of the bride and Mr. Charles W. Boettger of this city. A reception and luncheon followed at the groom's home at 126 East King street. About forty guests from this city and other places were in attendance principally relatives.

Do you realize that nowhere under the sun can you hear so much for about twelve cents as you are getting at the Chautauque! Go tonight and hear the finest quartette in Canada. The D.E. Mille Quartet of Toronto. Also Dr. Frank Bohn.

Tariff Changes] Were Agreed On

7 1/2 PER CENT. TAKEN OFF COTTON SEED OIL AND VELVET

OTTAWA, June 25.—Parliament is grinding steadily away at its legislative program, and if the present rate of progress is continued prorogation by July 5 is possible. The budget proposals were finally disposed of today.

The only amendment was one moved by the Opposition, to put oil for asphalt on the free list. It was proposed by Mr. Joseph Archambault, who claimed that to put oil on the free list would encourage the good roads movement. Sir Thomas White's reply might be summed up in the phrase, "We need the money." The House evidently agreed with him, as he had the overwhelming majority of 59.

Suggestions were made by James Robb and Hon. Rodolph Lemieux, that flour milling machinery and milling requirements, including leather belting and bags, as well as mining machinery, should be put on the free list.

He also held that while wheat had been placed on the free list there was a duty on bran and shorts, although they were going into the United States free. This, Mr. Robb said, was not in the interest of dairying in Canada.

Not Pressed
Sir Thomas White suggested that these questions should be left over until the general tariff revision. They did not demur and the proposals were not pressed.

Sir Thomas White proposed one amendment, which was accepted by the House. He proposed that the 7 1/2 per cent. be taken off cottonseed oil and velvet for cheap fabric used in the manufacture of clothing. He explained that as the duty had been removed off finished fabrics it had been decided to remove it from the raw materials.

Third reading was given to the bill to amend the Canada Shipping Act.

OPPOSES BILL TO PREVENT CANADIAN SHIPS BEING TRANSFERRED TO ENEMY WITHOUT AUTHORITY

OTTAWA, June 24.—In the Commons today the second reading was given to Hon. C.C. Ballantyne's bill to amend the Canada Shipping Act, and the House went into committee on the bill, which stage it later passed. Mr. Ballantyne explained that the purpose of the bill was to prevent Canadian shipping falling into the hands of enemy nations. It provided that no transfer of a Canadian vessel or of a mortgage on a Canadian ship could take place without the authority of the marine department.

Dr. Michael Clerk wanted to know how it would be possible to get indemnities from enemy countries unless they were allowed shipping facilities. He would be signed and then war measures such as this bill should be unnecessary.

The Minister of Marine remarked that Great Britain has passed a bill practically the same as the one under discussion. Personally, he would be strongly opposed to granting any application for shipping from Germany, Austria or Hungary.

Dr. Clark said that he believed in intimating England when she said good things, but not when she made mistakes. He did not want to see any bill passed which was going to perpetuate hatred and jealousy. He regarded the bill before the House as of that nature.

The bill passed committee stage and stands for third reading. The House then resumed consideration of the patent medicine bill, which was given third reading.

WHITLEY SCHEME, HOWEVER, NOT RECOMMENDED FOR CANADA

OTTAWA, June 23.—The report of the committee on industrial relations will be in the hands of the Government tomorrow or Thursday. It is understood that the recommendation will be unanimous, a fact in itself regarded as significant. The board will recommend certain legislation to improve the relations between capital and labor.

There will be subscription to the principle of collective bargaining, as defined by the railway orders.

The Whitley plan, for the representation of labor in industrial management, is understood to be charged as unsuited to Canada, but something approaching that system, suitable to this country, will be favored. The committee is making a number of important recommendations to the Government, and is suggesting immediate action by legislation. The report attempts a definition as practical between the railroad brotherhoods and the companies.

The commission found that owing to the enormous distances in Canada, and varying condition in each province, it is difficult to apply the plan as laid down by the Whitley report for England.

The Whitley report provided for the appointment of a joint standing industrial council in each important industry.

Cultivation and Drainage Pays
Loosening up a soil by cultivation increases the pore space and it loams, thus this increases their power to absorb and retain water while at the same time allowing more free air space. Drainage also makes a soil more porous, thereby producing the same results. Coarse sands retain less water when loose than when compact.

While visiting her nephew at St. Catharines, Mrs. E. G. Sutherland, Welland, dropped dead.

The Craftsman of Quebec was compelled to go into drydock as the result of striking an iceberg. Mrs. J. Dobson, Chatham, was elected Grand Treasurer of the Rebekah Assembly of Ontario.

Just as

Nourishing

as Homemade

Some people have experimented with Bakers' Bread with poor results and gone back to baking their own, but none of those who use Butternut Bread would think of again baking their own. They find that Butternut Bread is equally as nourishing and economical as homemade bread, and saves a great deal of hot and strenuous labor, giving the housekeeper more time for other work or for recreation.

We always have a splendid line of cakes and pastry, and use nothing but the best ingredients in the making.

THE EXODUS OF FOREIGN-BORN

From Ottawa comes the statement that many applications for passports are being made by Italians, Poles, Macedonians and Ukrainians. The exact number is not available but runs into thousands.

A similar situation exists in the United States. Press dispatches say that 1,300,000 foreign-born residents are preparing to leave as soon as steamship tickets can be obtained. There, 100,000 have already departed.

An attempt has been made to estimate the sum of money which the returning foreigners will take to their native lands. The American authorities place the amount each has saved at \$3,000. If this holds, then that country will be \$3,900,000,000 poorer off in money by their departure. This estimate does not include the loss of their services.

In both countries a deal of the heavy work, such as highway construction, mining and foundry work, has been done by the European immigrant. In the United States it has been suggested that their places be taken by southern negroes.

Time was when persons coming from Britain and northern Europe were willing to use the pick and shovel and perform the heaviest kinds of manual labor. But their children, having received at least the rudiments of an education, seek the skilled trades or white-shirt positions. The curve of progress is ever upward.

One of the results of this exodus from both countries will probably be a rise in the cost of coal, steel and building, because of their withdrawal and the consequent difficulty of filling their places.

Why are they returning? There are apparently two main causes. One the criticism to which they have been subjected during the war and the other the expectation that conditions in their native lands are to improve for everyone.

In ante-bellum days, these immigrants were encouraged to come. They came all the more readily because the higher wages they could earn in these newer countries. In neither country was an effort made to encourage them to become naturalized or remain aliens. They were free to become naturalized or remain aliens. They were free to become naturalized or remain aliens. They were free to become naturalized or remain aliens.

The positions they filled and the pay they received used them to be subjected to adverse criticism. Yet their being here enabled others to serve. Without their services, industry would have been subjected to greater handicap and production lowered.

Those who do leave Canada for the lands of their birth may principally consist of young men with no family ties. Even though they find conditions there changed for the better, they will not have as many personal opportunities as this newer country offers. But it is theirs to go or stay.

Many will remain and for these the way should be made straight for entry into citizenship. They should be encouraged to become naturalized and make Canada their home and country. It has been practically decided to hereafter adopt a method of selection. To limit none who may not make desirable citizens. Well and good. But those who are here should be assisted to learn to speak the English language; encouraged to become naturalized and generally given a square deal.

FIXING THE PRICE OF WHEAT

There is an effort being made to determine whether Canada should fix the price of wheat grown this year. The growers know that the U.S. farmers are to receive 2.26 per bushel whether the market price is lower or not. Because of this an agitation is going on to have parliament fix the price for 1919 wheat.

It was pointed out at a session of the Council of Living Commission that to do so would benefit 17 per cent. and penalize 82 per cent of the Canadian people. The man who made this statement was of the opinion that were the price not fixed wheat would recede from 2.24 to \$1.50 per bushel and give the consumer the benefit of one cent on a loaf of bread.

It is admitted that a high price for wheat is reflected upon oats, barley and other farm products. A cent on a loaf would be appreciated and would likely mean a cent or two off other foods, making an all around and worth while reduction in the cost of living.

On Monday, Mr. A.W. Black, vice-president of the Milling Co., told the Parliamentary Committee that unless a price were fixed there would be a considerable slump in the price of wheat. He advanced the opinion that the wheat trade and banks would be afraid to purchase in large quantities because of the danger of recurring loss, were no price fixed.

He did not however favor fixing a price equaling that of the United States. He said that the grower could be assured \$1.25 per bushel by the government; that it should handle the crop and were it able to sell the crop for more than \$1.25, the farmer should at the end of the season be given any additional profit made.

This is a practical suggestion. It would mean that Canadian consumers would be able to buy the 50,000,000 or 60,000,000 needed for bread at \$1.25 and that if the exportable surplus of anywhere from 100,000,000 to 200,000,000 brought more in the Liverpool market, the farmer would receive the benefit.

This plan would not mean that if the world price were \$1.50 the Canadian consumer would only require to pay \$1.25. This would be unfair to the grower. The consumer is willing to pay the Liverpool or competitive price, based on supply.

The merit of setting a minimum price this year is that it would prevent the bottom falling out of the market while the costs of production are high.

LONDON AND ITS HOUSING EFFORT

After an investigation of building costs made by the London Housing Commission it has found that the cheapest of the group is a frame cottage, 22 by 29 feet with four bedrooms, a bath, small porch and furnace, complete for \$2,000. Without furnace, the price can be cut to \$1,855 while dropping the porch would bring the cost to the absolute minimum of \$1,785.

The other plans provide for the following costs: One and a quarter story frame 20 by 27 feet, five rooms,

bath and furnace \$2,500; one storey brick veneer cottage, 22 by 38 feet six rooms, bath and furnace \$2,720; one and a half storey brick veneer 22 by 26 feet six rooms, bath and furnace, \$2,770; one and a half storey brick veneer, 21 by 29 feet, five rooms, bath and furnace \$2,800; two storey brick veneer, 19 by 31 feet, bath and furnace \$2,900; brick veneer and shingle bungalow, 21 by 33 feet, six rooms, bath and furnace, \$3,100; and one and a half storey brick veneer, 22 by 30 feet, six rooms bath and furnace \$3,400.

These estimates are, in view of present price levels, quite reasonable.

EXPENDITURES FOR EDUCATION IN STATES

While discussing the proposal to set aside \$10,000,000 to encourage technical education, Mr. Meillon M.P. made a statement of the amount of money spent by the United States on education, including technical education:

In 1871.....\$49,500
In 1915.....\$605,000,000
1914 U.S. Gifts to education.....\$6,000,000
1914 U.S. Gifts to Education.....\$31,000,000
Up to 1913 Rockefeller gave.....\$118,000,000
Up to 1913 Carnegie gave.....\$150,000,000
The value of university college and technical school properties in the United States was, in 1914, \$802,000,000.

He mentioned the gifts to Education by Rockefeller and Carnegie as an inspiration to wealthy Canadians to assist general and technical education in this country.

BY THE WAY

Edward Kemp M.P., minister of overseas Military forces said in the commons that Canada sent 420,913 men overseas of whom 364,599 are alive. It will be seen that 56,304 made the supreme sacrifice.

Ontario's Minister of Public Works having decided to place the county road from Wentworth line to Elmira in the category of a provincial county road, entitled to a 60 per cent grant from the legislature, it will be in order for the municipalities to see to it that a first-class pavement is laid. The roadway from here to Preston is one of the most heavily travelled stretches in Ontario. Neither gravel nor macadam will last any time.

Extracts of Exchange

WHY CANADA AND THE UNITED STATES COMBINED TO STOP SPRING SHOOTING

By J.H. Fleming

So much has been written about bird protection from the extreme point of view of the reformer that many men of moderate views have got the idea that protection spells total prohibition of shooting instead of what it really means, the prevention of extermination and the building up of the reserves of wild life to a point when the sportsman may feel that his future as a sportsman is safe under the regulations of the Migratory Birds Convention Act; while the same law acts as a check to the decrease of the non-game bird population of our country as well.

The extermination of wild life is not by any means confined to North America it has been world wide, but possibly the results have been more clearly foreseen in Canada and the United States and early enough to give hopes that with unity of legislation the world exterminated need only be written against a few of the birds and animals now in real danger of disappearing. And it is just in this lack of unity of laws (the question of enforcement is another matter) that Canada's efforts to restore the balance of nature by protective legislation is in danger. Animals are not subject to the impulse of migration to anything like the same extent as are birds. Provincial legislation is usually effective in their case, but local legislation for birds has repeatedly proved in the past to be ineffective as a protective measure. Birds pass from province to province and even from continent to continent in their journeys, and they suffer from local conditions as well as from international.

We in Canada are fortunate in that continental legislation is likely to prove a decisive factor in checking the downward movement of many desirable birds. But we must be unanimous every province should legislate in conformity with the Migratory Birds Convention Act of the Federal Government of Canada if it results adequate to the necessity of the case are to be obtained, and the case is urgent. We are not yet on the road to safety for our birds, till every province conforms to the Federal Act. When that does happen we may then look to the United States to act with us, and we may then hope for the continental enforcement of an Act that means results, both to the birds and to the sportsman, results that are bound to be beneficial to both. The Convention is not the result of hasty legislation, but the carefully thought out effort of men who have seen the disheartening failure of laws that are purely local, and who know that nothing short of joint action by both the United States and Canada can be effective in building up the reserve of our bird life.

Migratory game birds such as ducks and geese may appear at times to be abundant in some one place, and the natural inference is that they are not decreasing, but the observer overlooks the fact that the old feeding grounds are not now as extensive, particularly in the west as they used to be, and the birds are crowded into a smaller area. There have been many reasons given for the decrease of game birds. Spring shooting has harried them on migration and consequently they reach their breeding grounds with less vitality than they ought, and they are apt to select the safest breeding grounds and often not the best. Many birds become barren and never reach the breeding grounds at all in consequence of the persecution they have experienced on their northern journey, and it is here that the direct benefits of the "Migratory Birds Convention Act" will be quickly felt. The birds will arrive in their full numbers and vigour and will select the most suitable breeding grounds and in consequence the breeding range will be more extended and then, if granted sufficient local protection, there is no reason why there should not be a considerable increase in our migratory game within a few years, but we must give ample protection during the breeding season and local legislation has not in the past done this. It is only by joint action of the United States and Canada that protection over the whole breeding range of many species can be effective. The decrease of migratory game is so apparent that it is a matter of general knowledge and fortunately the means to check it has at last come to our hands if we will only sink our local differences and accept the guidance of a central and well informed body whose duty it is to administer the treaty on behalf of Canada.

Resourceful Bill.

Chicago News-Captain Bruce Bairnsfather, the Australian humorist of "Old Bill" fame, said at a dinner in Chicago:

"Your Australian can't be equalled for original resource. I once knew a Sydney man who got lost in the bush with his dog. For three days the unfortunate pair wandered without food. Would the man have to kill and eat the faithful animal? He hated to do so, being a dog lover.

"Then he had an idea, a wonderful idea that saved two lives. He cut off the dog's tail, roasted it, ate the meat and gave the bone to the dog."

SLEEPLESS NIGHTS OVERCOME BY SAFE METHODS

Suggestions given whereby Insomnia can be safely and quickly cured.

Worry, overwork, overstudy and indigestion cause insomnia. Healthy, natural sleep can't be produced by drugs.

First, the blood circulation must be improved. Congestion of blood in the head must be removed.

Irritation in the brain must be relieved. It is because Ferrozone equalizes circulation, because it soothes the irritation, because it removes congestion that it does cure insomnia.

For building blood and nerve, for instilling force and life into over-worked organs, for establishing strength and vitality, where can you find anything so efficient as Ferrozone? Remember, sleep is just as important as food.

You must sleep or break down, but if you'll use Ferrozone and thereby remove the conditions which now keep you from sleep, you'll get well quickly. Ferrozone is not a narcotic, not a dope; it is a health-giving tonic that any child or delicate woman can use. Absolutely safe is Ferrozone.

Take it for a month. Take it for a year—no harm, but immeasurable good will result. To sleep well, look well, feel well, to be free from depression, nervousness or the blues—use Ferrozone. It's a food tonic, a healer to the weak and wretched, a boon to the sleepless—sold in 50c boxes six for \$2.50 at all dealers or direct from The Catarhizone Co., Kingston, Ont.

KITCHENER THIN PEOPLE

Birto-Phosphate should give you a small, steady increase of firm, healthy flesh each day. It supplies an essential substance to the brain and nerves in the active form in which it normally occurs in the living cells of the body. Birto-Phosphate replaces nerve waste and creates new strength and energy. Sold by A. J. Roos in Kitchener and all good druggists under definite guarantee of results or money back.

Canada Popular With Boys Overseas

ATTEND ENTERTAINMENTS SHOWING CANADA ON A FILM SCREEN

LONDON, June 25th.—Canada is the most popular subject among the Canadian soldiers yet awaiting return to the Dominion, and more particularly among the wounded and disabled in the hospitals. These men are anxious to learn more of the resources of the country, of the land policy, of the industrial opportunities, and the possibilities offered to them upon their return.

To graphically present information on these topics the Overseas Representative of the Department of Soldiers' Civil Re-Establishment has made considerable use of moving picture. By means of the films these men have been enabled to obtain comprehensive grasp of what Canada is doing for the returned disabled man. "These views have been shown to a hundred audiences throughout the United Kingdom and more than 50,000 men have been present at such exhibitions. These audiences are always most interesting gatherings. Some men are rolled in on their beds, others on wheel chairs, while yet others are on crutches or hobble aided by stout sticks. The men on the beds obtain the choicest seats and they usually are the most enthusiastic, but, indeed, it is always a spirited and lively audience that greets the lecturer when he steps out to explain the pictures as they are projected on the screen.

From beginning to end the large audience makes nothing, every word and picture are carefully followed. A large number of those in the audience have been severely injured, but they are beginning to hope that handicaps may be overcome, and that through the medium of the Department of Soldiers' Civil Re-Establishment the future is no longer uncertain prospect they had dreamed of. Consequently there is a deep personal interest in these films for every man present.

The first reel shows the arrival of returned troops at a Canadian seaport and the procedure that follows. This invariably causes considerable joking and merriment and audible comment. "Hello, Bill," "O, Sergeant," "O, there's Jim," voices cry.

OEE, BUT IT'S GOOD FOR A BAD COLD

Nothing Can Touch Catarhizone in Curing Quickly

You may dislike taking medicine—but coughs are best cured without medicine. The modern treatment is "Catarhizone"—it isn't a drug—it's a healing vapor full of pine essence and healing balsams. It spreads over the surfaces that are weak and sore from coughing. Every spot that is congested is healed—irritation is soothed away, phlegm and secretions are cleaned out, and all symptoms of cold and catarrh are cured. Nothing so quick nothing so sure, so pleasant as Catarhizone. Beware of dangerous substitutes meant to deceive you for genuine Catarhizone. Large size which lasts two months, price \$1.00 small size 50c; sample size 25c, at all dealers.

Pretty Summer Dress Materials

MINARD'S "KING OF PAIN" LINIMENT

The old reliable remedy for rheumatism, neuralgia, sore throat and sprains.

Best Liniment Made

Mr. A. E. LAURENCE, Edmonton, writes: "I fell from a building and received what the doctor called a 'bad sprain' and, as I could not get on my feet for three weeks, I got MINARD'S LINIMENT and in six days I was out to work again. I think it the best liniment made."

Minard's Liniment always gives satisfaction. For sore throats, sprains, rheumatism, neuralgia, etc. It gives instant relief.

Minard's Liniment Co. Limited, Vancouver.

or perhaps a figure is discovered taking a surreptitious whiff, and there follows an immediate "Stop smoking on parade." There is a scene showing a pile of Canadian money and whenever it is flashed on the screen some chap is sure to yell out: "That's the stuff to 'Gie the troops'."

Then there are the pictures showing the work of re-training disabled men. These are received with close attention, each man being occupied with this own thoughts and concerning himself with the application to his own particular case of what the screen shows. The future which for many a man was clouded, now begins to clear and take colour. He soon discovers that he can take up some useful calling or occupation and mingle with his fellow workers when he reaches home again.

This section of the picture stirs the men and many questions are asked. They have the evidence of their own eyes that disabled men are being taught many trades and occupations and they desire immediate information as to the manner in which the industrial re-training is taught, and, in fact, all about the re-training system of the Vocational Branch of the Department of Soldiers' Civil Re-Establishment. Their questions are promptly answered and all the necessary information given. From such exhibitions many a man has gone away with hope rekindled and a new faith established in himself that banishes all fears for the future.

PETERSBURG.

Mr. and Mrs. Ezra Hammie and son Maurice of Guelph spent the weekend with Mr. and Mrs. J. Heim.

Mr. and Mrs. Herb Eckel of Plattsville, visited at Geo. Lautenschlager's. Mr. Carl Kille of Mannheim, spent Sunday at John Hollworth's.

Mr. Gordon Flowers of Kitchener, spent Sunday with Mr. and Mrs. Henry Wepler.

Mr. Adam Hildebrandt and sister, Mabel, of Kitchener, spent Sunday with Mr. and Mrs. August Knipfel.

Miss Ida Groff spent Sunday at the home of her mother in Baden.

Mr. Herman Bechtold of Heidelberg, visited his mother here on Sunday.

Mr. Henry Wepler went to Hanover on Wednesday to attend the funeral of his uncle the late Mr. Becking.

A petition is being circulated in Guelph to try and save Jimmie Giovannozzo from the gallows.

SEVEN KEYS TO BALDPATE.

George Cohen's Greatest Comedy.

SEVEN KEYS TO BALDPATE.

An announcement that will create tremendous interest for Chautauqua Week will be the fact that we have secured the above play for the 5th day's programme. Everybody knows that it is recorded as Mr. Cohen's greatest success. It was presented at the Royal Alexandra Theatre in Toronto, and was brought back in response to a unanimous demand. The Evening Telegram quoted it "the most popular comedy ever produced in Toronto." The Evening Star called it "The most continuous Laughing Carnival of the Season." It presents two-and-one-half hours of Mystery, Thrills and Laughter. It is a Master Mystery and stands at the very head of the Farce Comedies.

Mr. Percival Vivian, who was at the head of the Ben Greet Players last year, has been secured as Manager of this play and will present the leading role. He has played in leading plays and theatres in New York and Chicago. The past season he spent playing with Macklyn, Arbuckle, and DeWitte Hopper in Captain Baird's delightful comedy "The Better 'Ole." The fact that he is in this play assures its complete success.

Chautauqua Tomorrow, Friday, evening.

HAVE YOUR FURS REPAIRED AND REMODELLED NOW.

Ladies: It will pay you to have your furs attended to now. Next fall in the busy season we cannot promise you the same service we can now; expert help is hard to get and expensive even now, but the situation will be worse later. We have an expert fur repairer and remodeller on the job now who will attend to all fur repairs and alterations, or remodelling of your old furs. You'll save money by getting your work done now. We can store your furs until you want them.

Use Kilmoth Tubes to keep the moths away. Are very effective and have no disagreeable odor. Per tube.. 25c

Under-Currents

By The Duchess

with a determination not to be done, common to common natures, he affects an indifference he is far from feeling.

"Bravo Go it, old man. You were always a bit of a play-actor," he says boisterously, but with some unnessiness. "Let us speak in whispers, then, if it must be, but at all events let's come to the point."

"Not even in whispers," insists Dystart, keen to see the effect he has produced, and quick to take advantage of it. "There are other places."

"I do not say that I will concede to your demand; but I would talk it over. You know the old ruin at the end of the far garden? Meet me there to-night, and I shall see if we can come to terms."

"At night? But why not here—now? Surely you can provide against listeners."

"I cannot," impatiently. "And besides, I'm expecting my son every moment. It would not do for him to see you here."

"Has you men you would consult with him. No doubt he is a chip of the old block," says Sedley with a loud laugh. There is no response to his mirth. Mr. Dystart seems to stiffen as he stands, and there is a murderous gleam in his eyes as he looks fixedly at his companion that should have warned the latter. To accuse Sedley of complicity in this vile affair.

"You are wrong," says the old man with wonderful calmness. "He knows nothing. It is because I would keep it from him that I desire your departure now and your presence later on, where we can be sure of being alone."

"But—at night—in that lonely spot," says Sedley, with a curious hesitation.

"Tut, man. What would you? Are you afraid of me? Look well at this frail body, and then ask your self where fear lies. Why, with a cold laugh, "if it so minded you, an if it would not be killing the goose with the golden egg, you could squeeze the life out of this impotent frame as easily as you could compress the destruction of a fly."

"There's truth in what you say, I'd have you bear it in mind," says Sedley, with a rather severe laugh. "Well, where is it we meet, then? In the old ruin? A fit place, it heard many of yours and mine when the old man lay a-dying. Well, and at what hour?"

"Ten. By that time all will be in bed here, and no one awake or near to interrupt us," says Mr. Dystart, and in a dull, death-like tone.

With a last word or two, he succeeds in getting Sedley to the door and there summons Grunch, who in truth is marvellously handy, being—nobody just going down the passage as the door is opened.

"Grunch! Will you see to Sedley? He is an old friend of yours, as of mine, I think," says Mr. Dystart in so genial a tone for him that Grunch involuntarily glances at him. "He is tired and no doubt hungry. Make him comfortable in every way."

"Yes, sir," says Grunch respectfully. She leads Sedley down the passage, and then, with a muttered word to him that she should get the keys of the cellar, runs back to Dystart, who stands staring after them with a unfathomable expression in his eyes.

"Your will—quick," she says in a low tone. "Keep him out of sight. Let no one see him, or guess at his presence in this house," whispers Dystart fiercely, after which he steps back into his room and slams the door and looks it behind him in a frenzied fashion.

Will Grunch be able to manage it? Will she so keep him that Sedley will get no hint of the fact that a stranger is within his father's doors? This is the one awful anxiety that at first overrules all others. He seems to understand, to think of nothing, to grasp no other sense of coming trouble save the fear that "Sedley may know."

Money, position, home, all are about to be struck from his hand, yet nothing but only this one thing dwells with him. Nay, he must at least know. That devil will never be satisfied. He might indeed, give him the five thousand he has stipulated for, he might fling to him half his fortune—but what then? How would it avail him? He would still have the other half for that happy descendant upon. He would come again and again, he had tasted blood, and would cling until the last drop was drawn, until the corpse sucked pale and dry, was fit for nothing but to be cast upon the dunghill.

A feeling of impotency, of the dulness that is the worst form of despair, has seized upon him. Almost he experiences the sensation of having a vampire at his throat, greedily draining the warm drops that mean life. And even supposing he were thus to sacrifice himself, to give up all that has hitherto made existence endurable, all for which he has imperilled his soul, how would he be the better then? Even after death should Sedley outlive him—even were he laid in the silent grave, the secret would live and would cry aloud through that man's lips. It would be his, and he would betray it to Sedley, to secure himself more gold, and his—the father's—memory would be forever scourged.

Should Sedley outlive him? should—Ay, is so nothing could prevent the telling of that vile story to his son. But supposing he should not? Every day, and oft, kindly Death is busy in our midst, and sweeps away this one or that, generally the young, the seemingly safe, the string Death. What was it Grunch had said? "Kill him." So, it was said and

It Helps Others Will Help Me

With This Belief Many Thousands Have Learned the Exceptional Value of Dr. Chase's Nerve Food

You hear people talking about Dr. Chase's Nerve Food. You read about it in the newspapers. You wonder if it would benefit you. And while you are hesitating others are using it to great advantage. This treatment for the restoration of the blood and nerves is so different to most medicines that you may not realize why you can be so certain of benefit from its use.

In order to maintain the vigor of the nervous system an abundance of pure, rich blood is necessary. When the nervous system becomes exhausted and you are easily tired and suffer from headaches, sleeplessness, irritability or indigestion, it is because the blood is failing to supply proper nutrition to the nervous system.

By forming new, rich blood, Dr. Chase's Nerve Food naturally and certainly restores the vigor of the nerves. Since it works hand-in-hand with nature, it cannot fail to be of benefit, and there is no reason why it will not help you just as it has the writer of this letter.

Mrs. Stephen G. Thwaites, Box 205 Jordan Ont., writes: "For about a year I was troubled with nervousness, and took doctors' medicine, but it did not seem to relieve me. I could not sleep nor content myself to do anything. I had severe headaches was tired all the time and afraid to stay alone. I tried several nerve medicines until almost discouraged. At last I discovered Dr. Chase's Nerve Food and found relief in this. I have only taken one box when I began to feel better. I continued using this treatment until my nerves were restored to perfect health. I think the Nerve Food splendid for nervous troubles of any kind and cannot recommend it too highly."

(Rev. S. F. Coffman Vineland, Ont., states: "This is to certify that I know Mrs. Thwaites and her statements are correct.")

Dr. Chase's Nerve Food 50 cents a box a full treatment of 6 boxes for \$2.75 at all dealers or Edmanston, Bates & Co., Limited, Toronto. Do not be talked into accepting a substitute. Imitations only disappoint.

Proper Thing Now Is to Peel Off Soiled Skin

Those who abhor sticky, greasy, shiny, streaked complexions should religiously avoid creams, and rouges during the heated days. There is no need for them, anyway, since the virtues of marcolized wax have become known. No amount of perspiration will produce any evidence that you've been using the wax. As it is applied at bedtime and washed off in the morning, the complexion never looks like a make-up. Marcolized wax gradually takes off a bad complexion, instead of adding anything to make it worse. It has none of the disadvantages of cosmetics and accomplishes much more in keeping the complexion beautifully white, satiny and youthful, free from freckles and other blemishes. Just get an ounce of it at your druggist and see what a few days' treatment will do. Use like cold cream.

Wanted—Girls to operate

washing machines, good paying work and best of conditions. Williams Greene & Rome Co., Corner Benton & St. George Street.

POULTRY NOTES

FORCED OR NATURAL MOLT?

It is generally conceded that the hens that molt late in the season are the ones that will prove most valuable as egg producers. On the other hand a fowl molt early in the season in order to be in full feather at the time of the fall show. It was when the average showman boasted of his huddles and said little or nothing of their laying qualities. No most of the fanciers have come to realize that fine feathers must be accompanied with ability to lay a goodly number of eggs in a season and that showroom records must be accompanied by nest-box records if a good season's business is to be done. A showroom record cannot very well be faked, though it is possible to so "fake" a fowl that it will win at the show. Nest-box records may easily be faked by unscrupulous poultry keepers. It may be possible to retard the molt, though no method of so doing has yet been recognized. It is possible to hasten the molt, though it is still an open question whether the practice is a wise one or not.

FORCING THE MOLT.

Both sides of the controversy have been given wide publicity, with the

Caretaker

for Lawn Bowling Green immediately, reliable. Apply M. Schiedel, Customs Phone 437 and 1050J.

Labourers Wanted

result that the less-experienced poultry keeper finds himself in somewhat of a quandary as to how he shall come round. The natural inclination is to follow the advocates of the anticipated increase in the fall and winter egg yield; yet the results of very careful studies of this and other feeding methods, by some of our poultry investigators, clearly indicate that the claims are somewhat misleading. The theory of the starvation method sometimes referred to as "forcing the molt" is that by withholding a good share of the daily rations for a few weeks, egg production will cease and the feathers will become loose through lack of nourishment, that is, if this treatment is followed by liberal feeding of rich rations the molt will be rapid and uniform, new feathers will be quickly grown, and the birds will soon be in good laying condition.

WHAT EXPERIENCE SHOWED. Few reliable data, however, have ever been submitted to substantiate the claims for this practice. Such cases as have been reported are generally isolated instances with single flocks, where the results secured may have been due to any one of a number of causes aside from the special method of feeding.

In the tests carried on at Cornell some years ago it was found that while the starved flocks molted earlier and more uniformly, molted in less time and were in better condition at the end of the molt, resumed egg production somewhat more quickly after the molt, and laid a few more eggs during the winter than did the flocks that were fed normally, it was also clearly shown that the starved flocks were materially retarded in egg production, and produced fewer eggs after the molt was complete, produced eggs at a greater cost per dozen, and paid a smaller profit.

RESULTS MAY MISLEAD. Early results in the comparative tests with the fed and starved flocks would easily lead one to believe that the latter method was the most practical and profitable, but when the results of the investigation are carefully analyzed at the end of a full year an entirely different result is gained.

It is reasonable to assume that this feature of the experiment led Professor Atwood, in his tests at the Virginia Experimental Station, to conclude that the starvation method was the better of the two systems for controlling the molt.

The actual figures of profits from the two methods for a complete year in the Cornell test show that, while the starved pens gave the most promise in the early part of the experiment, there was at the end of the year an increase in net profit of \$533 in favor of the fed flocks—the hens that were fed regularly throughout the year. This is but one of the several points in favor of the fed flocks, but since it is by far the most important, it seems hardly necessary to review the others. If careful, painstaking tests prove that nothing is to be gained from any feeding method that has as its object the forcing of the molt, there remains no reason why poultry keepers should waste time and profits in attempts to improve upon nature's methods of renewing the fowl's plumage.

FEED TO AID MOIT. Study of such data as are available concerning the molting of fowls reveals the fact that the growing of a crop of new feathers imposes a heavy drain upon the system of the bird. When molting starts egg production practically ceases, and all the energies of the body are devoted to the development of the new feathers. This, then, is the logical time to feed liberally of rations that are easily digested and rich in protein and oil. For this reason the practice of giving additional meat feed, oil meal and sunflower seed in the regular ration has become quite prevalent.

In standard mash mixtures containing gluten meal or some other

similar product, the general practice during the molting season is to substitute oil meal in place of these feeds. In the more simple mash, such as equal parts of bran, corn meal, middlings and beef scraps, the ingredients should remain unchanged and the mixture should be improved by the addition of ten per cent. of oil meal. If available a little sunflower seed may be added.

If the birds are fed regularly and liberally throughout the entire year these simple changes in the ration will provide for the extra demands on the system during the molting season, and the layers will probably show as great yearly profit as would be realized through the abnormal starvation method of forcing the molt.

Chatham postmen are now working 44 hours a week.

Public Sale

-of- Household Effects

Hydro Off.

Hydro power was off today noon for about 25 minutes and considerable inconvenience was occasioned working people who use the cars to and from their work. The juice failed about 12:10 and came back on again 12:45 p.m.

ON ACCORD BETWEEN EAST AND WEST DEPENDS THE FUTURE.

OTTAWA, June 25.—Unionist caucus has been summoned for Thursday morning and it is intimated that the principal subject of discussion will be the steps taken for the permanency of the Unionist party.

The party has weathered the session pretty well, particularly the budget, and most of its members as well as the Government favor its continuance as a permanent organization. It is recognized, however, that the recent budget vote was not on the merits of the tariff question, but rather on the question whether more should be done this year or left till next year.

The stability of the alliance will depend upon the East and West on the fiscal policy.

Train No. 31 will leave Toronto 8:30 A.M. instead of 8:40 A.M., arriving Stratford 12:17 P.M., London 1:45 P.M. and Sarnia 3:15 P.M. daily except Sunday.

Train No. 33 will leave Toronto 3:30 P.M. arrive Stratford 7:10 P.M., arrive London 8:30 P.M., connecting with the International Limited for Detroit and Chicago, daily except Sunday.

Train No. 189 will leave Toronto at 5:02 P.M. (instead of 4:15 P.M.) for Guelph and Palmerston arrive Palmerston 7:55 P.M. daily except Sunday.

Tonight—at the Chautauqua tent. The great classic Dr. Frank Bohn—"Revolutionary Europe"—tell your friends and come yourself.

Bruce Beckett, Welland, who had been shell-shocked, committed suicide by hanging.

The strike at the Three-Rivers shipyards has been settled satisfactorily to the men.

GETS ROYAL RED CROSS—Miss Isabel Thomas, Toronto University College graduate of 1912, who has been awarded the Royal Red Cross for her services overseas as a V.A.D.

The Wise ones.

are laying in their stock of coal now how about you? Better see Lockhart and get your bin filled with the genuine Lehigh Coal.

New Asst. Superintendent.

The resignation of Miss Laeta King for the past two years Assistant Superintendent of Woodstock Hospital has been tendered and accepted with regret Miss Mary Helen McKay R.N., a graduate of Woodstock Hospital and a post-graduate of General Memorial Hospital New York has been appointed to fill the position.

Improving City Streets.

Many improvements to Woodstock streets are now under way. Finley street is being torn up preparatory to being paved from Sincove to Main streets and the paving of Ingersoll avenue and laying of the sidewalks on Graham street are rapidly progressing. The contractors say labor is plentiful.

Oppose Calgary Plan.

More than three hundred returned men were present at the opening meeting of the Guelph Great War Veterans' Association. The meeting went on record as being opposed to the Calgary proposal which advocates a \$2000 grant to soldiers who served in the C.E.F., but decided to instruct Archdeacon Mackintosh who is the delegate of the Guelph branch at the delegates convention in Vancouver to favor a graduated allowance for soldiers who have served in France, in England and in Canada.

London to Vote on Fares.

A special meeting of the London City Council has been called for Friday night to authorize a special election at which the people will give their decision on the application of the London Street Railway Company for an increase in fares. But the people at that election will not have before them any alternative scheme such as an offer from the company to sell out at a certain price.

The street railway employees have decided to postpone from Thursday night until Saturday night, the meeting at which a strike vote will be taken.

Guelph's peace celebration will take the form of a service of thanksgiving to be held in Exhibition Park on Sunday afternoon at 3 o'clock, providing that the final terms of peace are signed this week. If the terms are not signed until after Sunday the celebration will not be held until the following Sunday. This was decided on at a meeting of the Finance and Reception Committees of the City Council. The matter was discussed from all angles, and those present considered that in view of the fact that there is a holiday next week and Guelph will have a celebration this summer for the returned soldiers, the peace celebration should take the form of a service of thanksgiving and that Sunday afternoon was the proper time to hold it.

Six hundred extra chairs have been secured to accommodate the large crowds at the Chautauqua tonight. Dr. Frank Bohn will speak on "Revolutionary Europe".

Ind. Labor Picnic.

All workers in the Twin City are invited to the big combined picnic of the Kitchen Independent Labor party and Waterloo Labor Club on July 1st in Waterloo Park. Ladies, children and everybody come.

To-Night at the Chautauqua.

Dr. Frank Bohn who created such a sensation last year, will speak on "Revolutionary Europe".

KITCHENER OPEN AGAINST LONDON

INTERESTING GOSSIP FOR THE LEAGUE FANS—A CHINESE BALL PLAYER

Rain caused a postponement of the game in the Michigan-Ontario League yesterday and as Thursday is usually moving day in the league, the clubs will be opening new series commencing with today's battles. Kitchener plays in London today and unless the Cookneys have under-
gone a vast strengthening over night, the Beavers should succeed in taking at least two games of the series. The Red Sox open in Hamilton with the Shagman and with their new line-up are expected to provide the Tigers with plenty of opposition. In fact Knottley Lee who is brimming with confidence after cleaning up on Kitchener on Monday and Tuesday and winning six of the last eight games figures that his team has now its stride and will be keen contenders in the pennant fight.

Bay City plays at Flint and Battle Creek open on the home lot of the league leaders in Saginaw. The Aces are only leading the Tigers by three full games now having slipped badly in the last two weeks. However, Manager Wetzel is filling in the gaps and hopes to go strong after the two day rest his men have enjoyed.

The London Club has purchased the release of outfielder Command of the Saginaw club and he will probably appear in today's line up against the Beavers.

When Bay City hits the Canadian end of the circuit again, it will have on its line up and interesting figure in a Chinese ball player named Yim. Yim is a native of the Orient and came to this country several years ago with the touring University of a Japan ball team and played with the Bridgeport Club of the Eastern League last season. He is a good ball player and particularly fast on his feet and his work will be watched with interest when he hits the local ball park.

Pitcher Bill Riley another relie of the Canadian League has been dug up by Manager Stewart of London and is now on the payroll of the Tecumsehs. What with Dad Stewart Bullock and Riley, the London team presents a line-up of familiar faces.

Delore Chaput will probably be used against the Cookneys in today's twilight fixture. The ex-Canadian League was given an opportunity to serve 'em up in Tuesday's game in afternoon and his performance was creditable. During his two and a third innings work on the mound, the Reds were held hitless and runless.

BIG GOLFERS AT TORONTO.

Reviewing the golf exhibitions by American players at Toronto a summary in an exchange says:—
"Though the calibre of golf shown by Messrs. Evans, Sawyer, Kirby and White over the Toronto and Rosedale Club courses yesterday was not up to that displayed by the quartette in their first match at Hamilton on Monday, it was good enough for Toronto golf enthusiasts to enjoy thoroughly. Yesterday's matches were the second and third of the Canadian tour for the benefit of the Canadian Red Cross. The Royal Canadian Golf Association are sponsors for the tour. Evans and Sawyer, comprising the western team, managed to win the morning match at the Toronto Club by two up and one to go, but in the afternoon Kirby and White, the eastern pair, made it an even break on the day, but had to go to the nineteenth hole at Rosedale to finish on top. As the eastern players also won the first match at Hamilton, they are ahead of their rivals. Accompanying the players is Grantland Rice, the Mr. Rice came along to play in case Mr. Evans could not make the trip. The sport writer left last night for Toledo, where he will look over the Willard-Dempsey fight situation. The golfing party went on to Ottawa where they play to-day.

PRESTON'S TOURNAMENT IN- TERFERED WITH.

Preston's one-day bowling tournament was not as successful as was expected, the weather conditions not permitting a good bowling. Many of the games were played in heavy downpours of rain. The rain began shortly after the morning games were commenced, and many of the rinks went home, while others did not show up. Following were those who won their four games, the first four being the winners:—
Bainford Heathers (McIntyre) plus score 24; Waterloo (Naples) plus score 21.
Preston (McGreath) plus score 20; Preston (Thompson) plus score 10.
Ayr (Melvin) plus score 9; Preston (Feick) plus score 8; Preston (Os-
good) plus score 8.

BASEBALL GOSSIP.

The world's champion Red Sox you read of nowadays refers to the world's champion RRed Sox of 1918.
Last name in a Detroit box score—Kallopp. That's where they put 'em in a circus parade.

"Youth will be served" evidently means those teasers Old Man Ciootte, White Sox hurler, is serving American league youngsters.

Braves' hot corner is well fortified with Tony Brockel, former Pirate, on the job.

Brooklyn fans are curious to know what has become of the winning formula used by the dodgers earlier in the season.

Unless the unexpected happens, Philadelphia will spend the rest of the summer some miles distant from Pennsylvania.

Anyway, it looks appropriate, or something like that, to have a Judge at the top of the Washington Senators' line-up.
We read that Rabbit Maranville is still making seemingly impossible catches, but why should he? He's with an impossible ball team.
Bill Lauder, the former Giant, has had the time of his life coaching the Yale team this season. About half the time Bill couldn't tell whether the Ells were playing ball or being initiated for some "frat" with th burlesque stuff being staged.

Local Men Appear Before Committee Investigating H.C.L.

THAT SCHEDULE, SAYS WIT- NESS: WAR-TIME AD- VANCE 25 PER CENT.

OTTAWA, June 25.—T. H. Reider, recently appointed president of the Ames-Holton McCready Company, and until then a director of the Canadian Consolidated Rubber Company, stated to the cost of living committee of the Commons this afternoon that the United States Rubber Company controlled the stock of the Canadian Consolidated.
He also said that during the last few years the cost of crude rubber had declined. In 1912 it was \$3.10 a pound, and it was now 39 cents a pound. The cost of rubber goods had not advanced in the same ratio as leather goods and had not gone up to the retailer more than 25 per cent. Prices charged by different firms for their rubber goods were the same; the largest company made its prices and the others followed. The cost of producing was greater than before the war.

Profit on Shoes

As to the Ames-Holton McCready Company he stated that the average percentage of profit in the last four years was 2.5. The profit on a pair of boots was a little over 13 cents. War orders since 1916 amounted to \$3,203,905 and the profits amounted to \$36,044.

He said no combination existed among boot and shoe manufacturers, nor did one ever exist.
Asked as to the price of the highest quality of ladies' boots, Mr. Reider said: "The sky is the limit for ladies' boots to-day."

The reason was because they wanted style. White kid of the highest quality was sold to the retailer by his company at \$10.50 per pair.

"What is the retail price?" asked Mr. Reider.

"As high as they are willing to pay," was the answer.

"They pay for the fashion?"

"They pay for the fashion," he said.

The witness said that his company had raised prices on June 1 and on June 15 and would have to raise them again. In three months the prices of ladies' boots had nearly doubled.

N. B. Detweiler, of the Hydro City Shoe Manufacturing Company, of Kitchener, Ontario, who has been in business for 29 years, declared the profit did not quite average 6 per cent. The profits on a pair of shoes were less than 10 cents.

So far as his line of goods was concerned, the tariff had no effect in price. There might be competition if the tariff was removed, but price would not lower.

A St. Thomas Witness

Thomas Sullivan, of E. T. Wright & Company, St. Thomas, who was complimented both by counsel and by members of the committee on the clearness and definiteness of his statements, said his company was a branch of an American company, of Brockton, Mass. It had been doing business at St. Thomas since 1912. Until 1916 the losses amounted to \$47,743, but since 1916 the gains had been \$43,354. The profits in recent years were due to the larger volume of business and the rise in prices.

He stated that the average profit was eight per cent. on the turnover. As to materials, some lines were about the same price in Canada as in the United States, but in other lines the prices were from 30 per cent. to 40 per cent. lower across the border. His company sold direct to retailers.

The Giants can go out and get the cream of the talent, but they can't always make 'em win. An "Kid" Gleason says, you can drive a horse to water, but a pencil must be lead.

Two Ford Touring Cars and one Roadster, slightly used and in good shape.

METAL TRADES AND BUILDING STRIKES YET TO BE SETTLED

IN OTHER TRADES MEN ARE RESUMING PLACES

WINNIPEG, Man., June 27. (By J. J. Conklin.)—Building and metal trades are still seriously affected by the strike. Building trades strike may be settled by to-morrow, according to A. E. Godsmark, secretary of the building exchange, who said that negotiations will be placed under way at once. Metal trades employees remained out yesterday. It was reported that none of them had gone back to work at all. H. S. Lynch, manager of Manitoba Bridge Company, said that no negotiation were in progress.

Many men returning to their jobs yesterday found that they were too late. Approximately 75 per cent. of them, it was estimated after a rough canvass, found their positions waiting for them. The situation was further complicated by extensive trading of jobs. Strikers who stayed out the entire period of the walkout in many cases went back a few days ago.

Most of policemen were in favor of returning to work on terms of commission.

A. J. Andrews, K.C., special prosecutor in the case of the government against the six labor leaders, arrested on charges of sedition, said that the end of the strike would not alter the government's policy in the matter.

Striking metal workers may stay out, pending a full settlement with the metal trades employers. Ironmasters announced that they had not been notified of any intention to call off the strike and that negotiations had gone no farther than the presentation of the terms of collective bargaining in writing to a committee of their own employees.

The building trades strike has cost contractors and workmen in Winnipeg \$4,000,000, according to an estimate of Secretary Godsmark, of the building exchange. "Most of important building for summer has been called off," he said. "Owners feel that by starting work now they merely tie up their plants."

The necessity of retaining a large force of special constables has disappeared with the ending of the general strike and the return to duty of the "regular" policemen. Six hundred of the specials will be dismissed to-day by Chief Newbold.

"Between 200 and 300 former telephone employees applied for employment yesterday," Geo. A. Watson, telephone commissioner, stated. "We cannot employ them all, as we have only about 200 vacancies."

Operating the civic utilities during the strike, paying for a special police force and arranging for other necessary expenses during the strike, cost the city approximately \$250,000, so city authorities estimated.

PEACE MAY BE SIGNED SATURDAY

DELEGATES ON MAY TO VERSAILLES

COBLENZ, June 27.—Foreign Secretary Mueller and Colonial Secretary Bell, the two German peace delegates on their way to Versailles, passed through Cologne at 9.45 o'clock this morning.

AT 3 P.M. ON SATURDAY

PARIS, June 27.—While no official announcement had been made up to shortly before noon to-day, regarding the time for the formality of signing the peace treaty with Germany, arrangements for the event are proceeding on the understanding that will occur at 3 p.m. on Saturday.

The council of four was in session this morning perfecting plans for it.

GRAIN GROWERS HAVE BIG PROFIT.

OFFICIALS DRAW LARGE SALARIES

(Special to The Record)

OTTAWA, June 27.—Testifying this morning before cost of living commission, Cecil Rice Jones, manager of the United Grain Growers, Ltd., said the company was originally incorporated in 1906 and reorganized in 1917 when it absorbed the Alberta Farmers' Co-operative Elevator Co. The total authorized capital is five million dollars with a paid up capital of \$2,169,767.

Hon. T. A. Cresser president received \$15,000 a year when he took an active part in the management but ceased drawing a salary when he came to Ottawa.

Witness received \$13,000 as general manager, Mr. Murray assistant manager \$11,000, E. S. McRory, divisional manager at Calgary, \$5,200 and \$5,000 is paid to a secretary.

Earnings for the year ending August 31, 1918, were \$441,769 representing 1 per cent. profit on paid up capital eleven point 2 per cent. on total working capital of \$3,935,245.

Witness declared there was absolutely no watered stock, the subscribers having paid a premium of \$5 on each share of \$25. No individual is allowed to hold more than 100 shares and has but one vote, irrespective of the amount of his holdings, 35,000 shareholders are organized into 350 locals, who elect representatives to the annual meeting.

The directors don't hold more than an average of ten shares each.

Last year they handled 497,000 bushels of grain, with an approximate
