### Why Not Arbitration?

Sir Arthur Helps, in one of his books, speaking of war, says the combatants fight and fill their respective countries with widows and orphans, not to mention men with wooden legs. Then, after the two sides are pretty well exhausted, several bald-headed, To the Editor of The Advertiser: elderly gentlemen, called statesmen, get together around a green baize table, and make the terms of settlement. What puzzled Sir Arthur Helps was why the elderly gentlemen could not have been got about the green-baize table before-instead of after-all the less, and trouble, and disturbance.

There is a moral here for the contending parties in the London Street Railway dispute. Why not arbitration first, rather than last?

### The Question of Union.

One of the commonest arguments against recognition of employes in their collective capacity is the real or alleged fear that organized labor would not be amenable to proper discipline, and would not consider the employers' interests, or the conditions of the times. To this it may be replied that the great railway corporations in Great Britain and the United States have reaped immense advantages through the steadying power of the men's organizations over the individual members, who might otherwise be disposed to be too rash and impulsive. Take Mr. Arthur. for long head of the Brotherhood of the Locomotive Engineers. Everybody knows that his moderation, good sense and sage counsels have averted many a strike that would have been precipitated had there been no organization of locomotive engineers. In other words, intelligent collective labor recognizes that it has responsibilities and duties as well as rights.

The Toronto Globe, speaking of the G. T. R. trackmen, says: "They have acted in an orderly way on every occasion, and have shown themselves fully alive to the responsibilities as well as the advantages of unionism. The recognition of such unions as theirs is only a question of time, and once it is established the company will be averse to going back to the old method of irresponsibility. Unions in Canada are passing from the raw, reckless and irresponsible stage which marks many new organizations, and becoming, as in Britain, conservative bodies, recognizing at once their duties and limitations. They are the financial agencies, the business office of the men, and as such are found ultimately advantageous to employers as well as to their own members "

### Tonight's Meeting.

Tonight's procession and mass meeting will no doubt be largely attended. Like all the other processions and meetings, it will, beyond question, be enthusiastic, yet at the same time orderly. Organized labor in London has made a great impression on public opinion by its orderliness and selfrestraint, and that impression it will endeavor to retain to the end,

### Notice to Creditors.

Notice to Creditors.

In the Matter of the Western Shoe Company, of the city of London, in the county of Middlesex. Notice is hereby given that the above named the Western Shoe Company have made an assignment to me under provisions of Chap. 124, R. S. O. 1857, and amending acts, of all their estate and effects in trust for the benefit of all their creditors.

A meeting of the creditors of the said estate is hereby convened, and will be held at the law offices of Gibbons & Harper, London, on Monday, the 12th day of June, A.D. 1899, at 2:30 o'clock in the atternoon, for the appointment of inspectors and the giving of directions with reference to the disposal of the said estate.

All creditors of the said estate are hereby required to file their claims with my solicitors, Gibbons & Harper, London, as directed by the said statute, on or before the day of such meeting. After 15th July, 1899, I shall proceed to distribute the said estate, having regard only to such claims as I shall have notice of, and I shall not be responsible for the assets of the said estate, or any part thereof, to any person or persons whose claim or claims shall not have been filed. Dated 2nd day of June, A.D. 1899. GIBBONS & HARPER. solicitors for assignee, London. C. B. ARMSTRONG, assignee.

It was not to be expected The Advertiser would escape attack for presuming to stand for fair play for organized labor. Accordingly, we are not surprised to receive the following let-

A great deal has appeared in your paper about bogus and penny-a-line interviews, and you have published statements to the effect that no reading matter advertisements ever appear in The Advertiser without being distinctly marked as such. I hold receipts for thousands of lines of such matter printed in your columns without any distinguishing mark, and paid for by the London Street Railway Company. Are you gifted with short memory, or do you think it justifiable to deceive the public on this, as well as other matters connected with the strike. Yours, etc., C. E. A. CARR. "London, June 3, 1899."

The intention of the above letter clearly is to discredit The Advertiser, in revenge for this journal standing up for organized labor, and for refusing to bow the knee to Baal.

Once more Mr. Carr has overreached himself, as a plain statement of the

It has been an undeviating rule with The Advertiser not to insert reading matter advertisements without some distinguishing marks, unless where the subject matter shows them obviously to be advertisements. Now, it might be held that paragraph advertisements, announcing the time of the Springbank cars, inviting the people to come down to cool off, see the fireworks, etc., would come under the designation of obvious advertising. For the most part, even such obvious advertising was marked with asterisks, or other advertising marks. Wherever such was not the case it was through carelessness of the Linotype operators, and directly con-

So much was this the policy of The Advertiser that it was reiterated from time to time, and the following notice was again pasted on the Linotype machines, Aug. 2, 1898, as instructions to operators. It will be seen that even the Springbank excursion notices, to which Mr. Carr evidently makes special reference, were specifically ordered line of the latter saying than accordto be marked with indications of their ing to the saying of David Harum.

Mr. Carr Attacks The Advertiser | being the company's own sentiments. Here is the notice affixed to the Linotype machines, and which has been

> To Linotype Operators: All readers, such as Springbank notices, Fair notices, and any special readers of advertising nature must have mark of stars at bottom.

Now, we assert once more, that The

Advertiser, for 35 years, has had one consistent rule, not to sell the influence of the paper, by allowing reading matter to seem to be the voice of the paper, when it was really a paid advertisement. That was our rule when The Advertiser declined to accept money for anti-prohibition reading matter during the plebiscite campaign. That was our rule when the chemical sewerage scheme promoters obtained glowing eulogiums of their method in other papers, but found their so-muchper-line of bogus reading matter would not go in these columns. That was the rule in regard to the question and answer catechism by which the London Street Railway Company sought to load up public opinion against organized labor.

It is very probable that Mr. Carr's letter will be passed on to his organs for publication, and, presumably, at the same old rate per line, heading and

The Company and Mr. Carr seem to think themselves in Russia rather than in free Canada. They will find that on British soil the free expression of public opinion cannot be stifled.

### The Golden Rule.

There were violent scenes in the Chamber of Deputies yesterday afternoon, owing to Royalist denunciations of President Loubet, and the soldiers on duty had to expell the chief anti-Loubet speaker, M. Rionz de Largen-

taye, of Cotes du Cord. M. Lalogue, who moved the inter-pellation, rose at 2:25 p.m., and said the hour of action had struck. (Cheers from the Leftists and murmurs from the Rightists, and a babel of cries, in which Cassagnae and Lasies, Semite, participated.) M. Lalogue asked the premier if he had been warned beforehand of the demonstration. He eulogized President Loubet, who, he said, undertook the presidency in a time of unrest

M. Riouz De Largentaye (Conservative), shouted: "Loubet is not honest; he is a Panamist." "DOWN WITH LOUBET."

These statements called forth violent protests and cries of "order," but M. Largentaye persisted, in spite of the hooting and uproar, in declaring "Honest men were arrested yesterday."
This was followed with shouts of
"Down with Loubet!" and a scene of
wild excitement ensued. The Leftists shouted at the top of their voices: "Censure, with temporary exclusion."
President Deschanel ordered M. Larshouted at the top of their gentaye to withdraw, but the latter refused, and the session was suspended, the deputies being requested to order that M. De Largentaye be expelled.

The commanding officer on duty at the Palais Bourbon then entered the from the Leftists.) The vote was then Chamber of Deputies with a squad of guards, and requested M. De Largentaye to withdraw. The latter waited until many of his colleagues had left

out, escorted by the soldiers.

There was cheering and counter-cheering when M. De Largentaye ap-peared in the corridors. The sitting was then resumed. PREMIER DUPUY'S STATEMENT.

Premier Dupuy, in answer to M. La-

logue, said that after Sunday's incidents, his first step was to address a respectful greeting to the nation's elect and to "the firm citizen who was and who remains the guarantee of republican communion." (Cheers.) Continuing, the premier said that yesterday at Auteuil, the advance guard of the reactionary party protested against him, and called for his resignation, and "proceeded to enlarge upon the coarseness of such a demonstration against an invited guest. The proceedings at Auteuil were all the more disgusting because they occurred in the presence of foreign representatives. The persons who have been arrested will be examined by a magistrate, who will decide whether there was a conspiracy. We are satisfied the azcused are members of clubs which the government has decided to close. Yesterday's demonstrators pretend to represent France in the army; but the public was against them. We are supporters of the republic, and Republicans who do not mix with those who have only borrowed her name in order to destroy

M. de Cassaignac (Conservative) interjected: "The country is sick of the republic. As to the affair which has divided the nation and families, it will yet weigh heavily against you. The stories current in regard to the measures which you prefer against the

generals-"A certain amount of courage," ex-claimed the premier, "is required to do what we propose."

"To drag before a high court," re-torted Cavaignac (the former minister of war), "your former colleague. You have cause to close the clubs, for the nation is awakening, and is only awaiting the right man." (Applause.)

VOTE OF CONFIDENCE. After further debate an order of the day was accepted by the government, stigmatizing the occurrence at Auteuil and approving the declarations of the government. It was carried without a division, after the first part had been adopted by a vote of 513 to 32, and the second part had been voted by 326 to 175. Prior to the vote being taken, M. Denys Cochin (Conservative) remarked that the letter of the government demanding the prosecution of Gen. Mercier should be communicated

to the house. The premier replied that it saddened him to take the steps deemed necessary, but the government believed it to be its duty to ask the chamber to say if the presecution should be under-taken. (Great excitement and applause taken

LORD KITCHENER'S \$150,000.

London, June 6 .- Mr. Balfour, in introducing the vote of \$150,000 for Lord Kitchener in the House of Commons, said that the fact that the power of mahdism was crushed was due to the genius of the man they desired to honor and reward. He hoped those who objected to the policy of the Soudan advance would not think that was a reason for resisting the vote, as such a course would be introducing politics into military matters. The sirdar had surmounted difficulties and organized victories by his unswerving and almost superhuman industry. He deserved a signal mark of gratitude, and therefore he (Mr. Balfour) believed that in proposing the vote he was only carrying out the wishes of the house and the country.

Mr. Balfour did not refer to the incident of the mahdi's head, excepting indirectly, when he said he conceived that there was only one question be-

AN ERROR OF TASTE. Sir Henry Campbell-Bannerman, the opposition leader, cordially supported the motion, while expressing regret at the treatment of the mahdi's body, which he regarded as an error of taste

and judgment.

Mr. John Morley, the former Liberal chief secretary for Ireland, opposed the vote on the ground of the treat-ment of the mahdi's head.

THE MAHDI'S CORPSE. Mr. Balfour replied that he did not believe the element of vengeance had influenced General Kitchener in the smallest degree, pointing out that he had treated the Madhi's family with the utmost consideration. The re-moval of the body, he explained, had been public, as publicity was an essential part of the policy dictating the act. It was the first duty of the man responsible for the safety of the men who were left in charge of Om-durman to put out the fanatical superstition which had been the strength of the Madhists for years. Mr. Balfour admitted, however, that perhaps the reinterment of the remains might

have been conducted in a better man-Lord Kitchener, Gen. Lord Roberts of Kandahar and the Duke of Marlborough were in the gallery of the House of Commons during the debate. The house voted Gen. Lord Kitchener a grant of £39,351.

The Dominion Adheres to the Venezuela Precedent-The Japanese Exclusion Act Disallowed.

Ottawa, June 6.-In accordance with the promise made last week, that as soon as he was at liberty to do so he would place the house in possession of all the facts respecting the negotiations by the Anglo-American commission upon the subject of the Alaskan boundary, Sir Wilfrid Laurier, having on Saturday last received the sanction of the imperial authorities, yesterday submitted to the house the last pro-tocol of the commission in reference to this question. The nature of the information was such that Sir Charles Tupper afterwards frankly admitted that the position of affairs and the action of the British commissioners appeared in a stronger and better light than when viewed in the light of the information which was made known

when the commission adjourned. The protocol, as read by Sir Wilfrid Laurier, has set at rest the question of responsibility, for the failure to arrive at an agreement upon the boundary question, and shows clearly the United States commissioners in their counterproposal demanded that no matter what the decision of the arbitrators might be respecting the location of the true boundary, under the treaty of 1825 between Russia and England, all towns and settlements upon tidewater (which includes Dyea and Skaguay) settled un-der the authority of the United States, and which are under the jurisdiction of the United States at this time, should remain within the territory and jurisdiction of the United States. The United States commissioners also pro-posed that the arbitral tribunal be composed of three representatives of the United States and a like number representing Great Britain, but made no provision for the appointment of an umpire. The British commissioners, in reply, refused to accept the counter proposals, because they did not provide for a tribunal which would necessarily finally dispose of the ques-tion, and because the provision with reference to tidewater settlements claimed that an effect should be given to the occupation by the United States of land in British territory, which justice, reason and the equities of the case do not require. The United States commissioners were anxious to proceed with negotiations on other subjects, several of which were so far advanced as to assure the probability of a settlement, but the British commissioners insisted that all further negotiations be deferred until the boundary question had been disposed of either by agreement or reference to arbitration. The statement of the premier was listened to with the deepest attention by both sides of the house, and at the conclusion he was heartly cheered. THE ACT OF EXCLUSION DISAL

LOWED. The Dominion Government has decided to disallow the British Columbia Legislature's act excluding Japanese and Chinese immigrants from the province. The causes of the action of the Federal Government are various. In the first place, the issue had an imperial aspect, an aspect so serious as to induce Downing street, as was stated in this correspondence some time ago to forward a dispatch to Ottawa conveying word of the disapproval of the home authorities, and also stating that the Government of Japan had entered strong objection to the exclusion act. As Consul-General Nosse stated in an interview some weeks ago, the Japan-ese Government resented the action of the late Turner Government in classing the industrious and intelligent Japanese with the Canton district coolies, the scum of the Chinese Empire, who form the vast majority of the immigrants from the Celestial Empire. It is a matter of regret on the part of the Federal Administration that the disallowance act gives the Chinese access to Canada on payment of the poil tax of \$50, but it will, of course, be competent for the British Columbia Legislature to pass an act excluding the Chinese. A telegram received from Consul-General Nosse last night expresses the sender's great satisfaction at the action of the Canadian Government, and states that the course taken by them will do much towards cementin the bonds of amity already existing between the British and Japanese Governments and peoples.

American Troops Occupy Morong and the Peninsula.

Boys in Blue Suffer From the Intense Heat-38 Hours Without Rations.

Manila, June 6-8:30 a.m.-The American forces have occupied the peninsula, and Gen. Hall's column is encamped at Morong.

Major Truman, marching across from Binangonan, found it impracticable to form a cordon, and the insurgents, with the exception of a hundred or two, escaped through the mountains after Gen. Pio Del Pilar, dragging their battery by buffalos at night. A few, however, may be trapped. The present expedition against the forces of Aguinaldo show the difficulty which is encountered by an army which must depend upon wagon trains in catching barefooted bandits in their own mountains, and also gives proof that

DO NOT INTEND TO FIGHT BATTLES.

Gen. Hall left Santa Teresa yesterday, and marched twelve miles to Morong, up and down rocky hills and through woods and swamps. Scores of his men fell out owing to the extreme heat, and were left to follow

as best they could.

The head of the army arrived at Morong at noon, having exchanged only a few shots with insurgent skir-mishers on the way. Groups of stragglers followed all day, but the force was 200 smaller than when it started. The men were almost 36 hours without rations, and it was considerable of an achievement for them to cover the ground they did.

UNDER THE WHITE FLAG. En route to Morong the Americans met flocks of Filipinos, under flags of

truce, many of them young men with the bearing of soldiers. Many dis-carded uniforms were found in the houses, apparently those of soldiers who had escaped by changing their costumes from "Insurrecto" to "Amigo," and walking boldly past the army, which had expected to corrall them. Few were found about Morong. One of the men from the Washington Regiment was killed and two were wounded in the encounter with the out-

BURNED A TOWN.

Manila, June 6-1:10 p.m.-The rebels, on Saturday night, made an at-tack upon the friendly town of Macabe, and after driving the inhabitants out, burned the town. The insurgents nightly annoy the troops at San Fernando. Several Americans have been wounded recently. The enemy have several Krupp guns, which they bring forward and use for firing large shells into the town, then retreating with their guns. One of the insurgent shells fell within 30 yards of Gen. Mac-Arthur's headquarters Saturday evening. The American troops do reply to the nightly outbreaks.

### IRON MEN ARE NOT ALARMED

At the Gradual Abolition of the Bounties-The Iron Industries Booming.

Ottawa, June 6.-Iron manufacturers in Canada do not look forward with much apprehension to the prospect of the gradual abolition of the bonuses at present paid on pig iron, puddled iron bars and steel ingots made in Canada. The Ferrona iron works, near New Glasgow, headed by Mr. Graham Fra-ser, will not be injuriously affected by the gradual withdrawal of the bonus, while the company, headed by Mr. E. C. Whitney, of Boston, which not long ago purchased from the Ferrona people five million dollars ore deposits on the Island of Newfoundland, regard the prospect of a change with complacency. The Ferrona people, after selling the deposits mentioned to Mr. Whitney's company, still retain control of lands which, estimated, will yield at least eight mil-

lion tons of the best class of red hematite. This deposit is situated near Placentia Bay, on the southwestern coast of Newfoundland, and it is an easy matter for the Ferrona people bring the iron across the Stratts of Belle Isle, and, as a Nova Scotian said, today, "to dump it on top of the coal that is used in smelting." The intention of Mr. Whitney and his confreres to establish large smelting works at Port Sydney, C. B. At present Mr. Whitney is shipping large quantities of ore to Everett, Mass., where extensive coke ovens are situated. The gentlemen interested in the Hamilton smelting works would prefer to have the bonus system continued with gradual diminution, for ten in place of six years, but with the present plan they see small cause for disagreement. They have made arrangements for the establishment of a steel manufacturing plant, and as the blast furnace is at present working seven days a week and twenty-four hours a day, it is pretty certain that the clear-headed business men in control of the Hamilton company anticipate a continuance of the present good business, else they would not embark in a new enterprise.

If there remained in the minds of the local fans any toleration for the Hamilton baseball team, or if the team brought any shred of lingering selfrespect with them yesterday, both the public toleration and the team's selfrespect must have vanished completely during yesterday's contemptible exhibition at Tecumseh Park. As soon as the Hams saw they were in a fair way to lose the game, they began their usual tactics of bullying and browbeatto spiteful interference with base-run-

At the close of the seventh inning. Umpire Dailey was taken ill, and it was arranged between Captains Lohman and Dean that Cooper and Crystal should act together as umpires, each calling strikes and balls on his own pitcher, and the other umpiring the bases. At the close of the seventh the score was 5 to 3. At the close of the tenth, at 6:45, the score was 5 to 5, and Crystal, complying with Dean's demand, called the game on account of darkness. The sun was still shining, and would not set for over an hour. It was London's turn at bat, and Cooper's turn to umptre at the plate. Therefore it was Cooper's privilege to order the game to go on, which he did. Hamilton had put McCann in the

afraid he could not hold the Londons down. The latter took their places on the diamond, and the Hams walked doggedly off the field amidst a chorus of cries of "Shame!" "Quitters" "Flunkers!" and similar compliments. Cooper then gave the game to London, 9 to 0. The first hit was secured by the home team by Babbitt, the first batter in the second inning. It was a clean drive to center. Jones followed with one of the cutest of infield hits. On this heavy batting three runs were scored. Bradford went to pieces and watched the remainder of the game from the players' bench. But the thanks of the Londons was as much due to Elton, Dean and Hagerty as Bradford for the three runs. Dean made a bad fumble in trying to catch Jones at second. Elton was not playing his position properly, and failed to cut Cope off at first. Jones scored on Dean's fumble. Then an amusing incident occurred Conwell threw the ball to the mystified Bradford, but Geordie didn't see it coming, and allowed the top of his head to get in the way. At the contact of two spheres Jones saw his chance and stole third. Franks got a base on balls, and Swartz was hit by a pitched ball, forcing in Jones. hit to Hagerty, who threw high in try-ing to catch Cope at the plate. Then Dean called Baker to the box. Howell flew out to Congalton, who made a beautiful throw to Conwell, retiring Franks. Mohler struck out. fifth inning two runs were made without a hit, and after two men were out. Phillips failed to hold a grounder sent him by McFadden, and Dean muffed a pop fly by Babbitt. The Hams again played like wooden men. Babbitt was caught by Conwell so far off first that he had no choice but to dance between Elton and Dean. Meanwhile McFadden was pounding his way past Hagerty's Hagerty. Again Pete overestimated Shorty Conwell's height, and both run-ners scored as a result of the error. Four of Hamilton's runs were due to heavy hitting. Singles by Conwell and Hagerty, and a double by Schrall in the third inning were good for two runs. Elton sent the ball under the fence back of Howell's territory in the sixth, and got to third safely. He scored on a throw in. In the ninth Hagerty singled and Dean lined out a three-bagger. Mohler, in an attempt to cut Dean off at third, threw the ball over the bag while Cope was several feet away. Score:

Hamilton's first big kick occurred in the tenth when Babbitt got boxed between Phillips and Elton, and reached second by dodging under Phillips' arms. Cooper gave Babbitt safe, and Dean in his usual gentlemanly manner, threw his glove at Cooper. Then the entire Hamilton team made a set on Cooper to have him change his decision. Babbitt, in the meantime, had slipped on to third. After the wrangle was over Babbitt was sent back to second, simply as a sop to the Hams, and the game went on.

DECLINE OF A JOCKEY. London, June 6.-The fickleness of popularity is beginning to demon-strate itself in the case of Tod Sloan, whose recent failures have wrecked many of his supporters. His big backers, like Riley Grannan and the Dwyers, have pocketed their losses like true sportsmen, and have retired to America. It is the small fry who while Sloan succeeded, reaped a harvest and are now losing, cannot find words enough to denounce him. Some of these, on returning from Epsom, filled the corridors of the Hotel Cecil with catches. The score:

Tom Ochiltree declares himself a heavy loser, and thinks Sloan is a great jockey for five furlongs, but when everyone pects him to win, and backs him heavily he is left at the post, and that in no other way in the world could he have lost the Oaks. In spite of the clatter of disgruntled losers, Sloan maintains hope of ultimate success this season. # Sarsaparillian Resolvent!

The Great Blood Purifier FOR THE CURE OF ALL CHRONIC D SEASES.

Chronic Rheumatism, Scrofula, Syphilitic Complaints, etc. (see our book on Venereal, etc., price 10c), Glandular Swelling, Hacking Dry Cough, Cancerous Affections, Bleeding of the Lungs, Dyspepsia, Water Brash, White Swellings, Tumors, Pimples, Blotches, Eruptions of the Face, Ulcers, Hip Diseases, Goul, Dropsy, Rickets, Salt Rheum, Bronchitis, Consumption, Diabetes, Kidney, Bladder, Liver Complaints, etc. SCROFULA,

Whether transmitted from parents or acquired, is within the curative range of the Sarsaparillian Resolvent.

Cures have been made where persons have been afflicted with Scrofula from their youth up to 20, 30 and 40 years of age, by DR. RADWAY'S SARSAPARILLIAN RESOLVENT, a remedy composed of ingredients of extraordinary medical properties, essential to purify, heal, repair and invigorate the broken down and wasted body. Quick, pleasant, safe and permanent in its treatment and cure.

Sold by all druggists. \$1 a bottle.

Always Reliable, Purely Vegetable. Perfectly tasteless, elegantly coated, purge, regulate, purify, cleanse and strengthen. RAD-WAY'S PILLS for the cure of all disorders of the Stomach, Bowels, Kidneys, Bladder, Nervous Diseases, Dizziness, Vertigo, Costiveness, Piles.

Sick Headache, Female Complaints, Biliousness, Indigestion, Dyspepsia, Constipation and all Disorders of the Liver. True Comfort for the Aged and Others affligted with Costiveness and Paralysis

of the Bowels.

One to three of Radway's Pill, once in twenty-four hours, will secure regular evacuations from the bowels. Persons who, for 20 years, have not enjoyed a natural stool, and have been compelled to use injections, have been cured by a few doses of Radway's Pills.

Persons advanced in life often suffer from indigestion, and from paralysis or inability to evacuate from the bowels; likewise from urinal difficulty. We have the evidence of a large number of aged persons, from 70 to 80 years of age, who have been cured of this defect (who were compelled to resort to injections to empty their bowels) by the use of Radway's Pills. Two or three pills every night, in all cases insure a natural evacuation from the bowels and a regular flow of urine. In cases where there is Irration of the Bladder, the Resolvent should be used alternately with the pills. If these organs are kept regular, life may be extended to a much longer period. By keeping the Liver, Stomach, Bowels and Kidneys in a healthy condition, the blood will continue pure and dissolution checked. This great desideratum is within the reach of all by the use of Radway's Pills and Resolvent. Drastic Aloetic Pills, in persons of advanced age, hasten dissolution; irritates and wears out the bowels and coats of the stomach, destroys the absorbents, so that these vessels are incapable of assisting in the repair of the body's waste. If Radway's Pills and Resolvent are used by the aged, life will be prolonged to the full measure of time. Another great end is secured by nourishing the body with these remedies—the faculties will remain in a healthy condition. A weak, feeble and decaying body enfeebles the intellect and clouds the brain.

Time softens asperities of judgment, and such men as George Brown and John A. Macdonald, Alexander Mackenzie and Sir John Thompson, at length stand out in fairer prospective. Sir John Macdonald was a man of urdoubtedly great ability-above all, a matchless manager of men. Like Sir Wilfrid Laurier today, Sir John appealed to the national imagination.

We would not deny the present Conservative leader, Sir Charles Tupper, force and ability-remarkable indeed for his years-but not that personal magnetism and knack of managing human kind possessed in a degree so striking by the departed Conservative

### Canada's Position.

The parliamentary paper on the Alaskan boundary question, issued by the British Foreign Office, confirms what Canadians had already been given to understand.

The Canadian commissioners, supported by Lord Herschell, stood squarely upon the Venezuelan precedent, and asked a full and fair arbitration, each party to appoint one arbitrator, and the two arbitrators thus chosen to name the third.

The American commissioners refused to arbitrate, except on condition that the towns and settlements on tidewater now under American authority should continue to be American, no matter what the decision of the arbitrators. The American commissoners also proposed that the arbitration tribunal should consist of six members, three appointed by each party. It is needless to point out that a board so constituted would probably end in a deadlock, which would leave the Americans in full possession of the field, as now.

The British Government may decide against the Canadian contention, and so shut us out forever from the hope of access to our new gold country through our own ports. If the Imperial authorities do this it will be because they regard it as more expedient to do obeisance to the United States than to do justice to Canada. Canada would have to submit, but she would have less reason to blush for her position than her more fortunate

Billions of capital are being swept into combines. It is too late in the day to say that labor shall not combine,

Messrs. Powell and Taylor, M.P.s, deserve credit for trying to end the G. T. R. trackmen's strike, but they can hardly be congratulated on the finesse of their diplomacy. They find themselves flatly contradicted by Mr. Hays.

Here is some wholesome advice from the Medical Record: "Drink less, breathe more; eat less, chew more; ride less, walk more; clothe less, bathe more; worry less, work more; waste less, give more; write less, read more; preach less, practice more."

The spectacle of Jay Gould's daughter, the Countess de Castellane, leading a band of French Royalists in Paris and inciting them to riot against the President of the Republic is a pretty satire on her American birth and training. Americans who are ashamed of her can find comfort in her sister, Helen Gould, who is given to good works at home.

In the last report of the Ontario Bureau of Industries, the figures are given of the taxes imposed for all purposes per capita of the population for 1897, the last year for which the statistics were complete. The following is the table:

Toronto .....\$15 30 Hamilton ..... 10 52 London ..... 10 01 Guelph ..... 9 04 Ottawa ..... St. Thomas ..... Chatham 8 53 Stratford 8 45 Belleville ..... Kingston 7 90

London's showing this year is hardly as favorable as in 1897, but we are going to remedy matters in the future. \_\_\_\_

English capital has just been enlisted for the development of the oil fields of the Province of Quebec. Energetic developments will be undertaken immediately by a company, at the head of which is Sir William H. Bailey, a director of the Prince line of steamers. George Garr Glynn, a member of the great banking firm, and other leading capitalists, are also on the directorate. The new organization is regarded as a very strong corporation and has a capital of \$750,000. Though the company will, if successful, be in competition with the oil producers of Western Ontario, for the sake of the Dominion as a whole, we sincerely hope that they will have ample returns for their investment. We want our great natural industries developed, and to have them effectively operated, so that they will employ Canadian labor, and that creeps."

thus contribute to the general welfare of the country.

Lord Aberdeen is kept busy these days. He is in great demand at public functions of all sorts, and whenever opportunity occurs, he says a good word for Canada. He is proving, as was established in the case of Lord Dufferin, that it pays Canada to have oldworld men of eminence appointed as her Governor-Generals, if for no other reason than to get the incidental effective advertising. The last engagement for which Lord Aberdeen is booked is to unveil, at an early day, the colossal statue of Gladstone, which the citizens of the manufacturing city of Blackburn have commissioned Mr. John Adams Acton to execute. The Earl and Countess of Aberdeen were warm personal friends of the great Liberal

An innovation has just been introduced into the administration of justice in Great Britain. In future, it will be possible to pay fines on the installment plan. Under the new Prison Act, which came into force last month, any prisoner who has been convicted by a court of summary jurisdiction, and committed to prison in default of payment of a fine, may pay a portion of the fine, and thereby reduce the term of imprisonment to which he was liable by a period proportionate to the amount paid. For the purpose of the act, costs of all kinds are to be recokoned as part of a fine. Thus, when a fine of 6s 6d and 7s 6d costs or fourteen days' imprisonment is imposed, the defendant can reduce his term by one day for every shilling paid. Thus they have justice as well as almost everything else on the installment

### Trusts and Prices. [Chicago Herald.]

ademic doctrine that one of the tendencies of trusts is to reduce prices to the consumer receives another grand exemplification in the case of the coal trust. After its somewhat abortive effort at controlling prices a year ago, the coal combination tried again, and this time has the game all in its own hands, with no wicked Delaware, Lackawanna and Western Railway interfereing with it and cutting its rate. One of its first acts after getting in the independent operators will be, it is said, to raise the price of coal 25 cents a ton along the Atlantic coast. It is a great doctrine, that one about trusts lowering prices.

### Hostile to Canada.

[Toronto Star.] The Associated Press appears to be the hireling of those who have inaugurated a campaign against Canada in the matter of the Alaskan boundary. The story that was sent out by the news-gathering agency to the effect that Canadian representatives on the joint high commission demanded a poor on the tide water in Alaska as a preliminary to submitting the boundary to arbitration, has been shown by the premier to be an absolute falsehood, and one the only purpose of which was to injure Canada. This is but another instance going to prove the necessity for a Canadian Associated Press. An organization that is so hostile to Canadian interests as to send broadcast a deliberate falsehood cannot be trusted in any part of its service.

usual conference sacramental service followed, conducted by Rev. J. R. Gundy. MONDAY'S SESSION.

Conference assembled at 9 o'clock yesterday morning, Rev. J. Edge in the chair.

A communication was read from the Hamilton Conference in reference to a combined copy of the minutes. A communication was read from the Montreal Conference, re the case of settlers on Anticosti, protesting against alleged aspersions cast upon the Methodist Church by Hon. Mr. Tarte in a recent speech in the House of Commons; also one from Rev. Dr.

Greetings from the Hamilton Con-terence were received and ordered to

be reciprocated. Rev. J. Philip presented a report of examining board. Hereafter candidates are to meet the president and secretary to pass examination, and they to forward certificates to pro-

bationers. Conference adjourned at 11 o'clock to allow the ministerial session to meet, which at once convened, and Rev. J. Wilson read the annual pas-toral address. The case of W. E. Millson was taken up, and on recom-mendation he was continued on trial. Rev. J. Edge was elected a member of the conference missionary commit-

tee.
The following were elected on the examining board for the year: C. W. Brown, B.D., J. Philp, B.D., G. W. Henderson, J. W. Holmes, G. Bond. The afternoon was largely taken up in the reception of deputations.

Rev. D. R. McKenzie, of Japan; Mrs.

New York, June 6 .- On board the British steamship Cacique, from Valparaiso, which has arrived at this port, were twenty cases of scientific instruments from Dr. Cook, the surgeon with Capt. Barry, of the Cacique, reported the rescue of an officer of the Chilian navy and eight sailors from the Chilian gunboat Wynal, which ran on the rocks in the Straits of Magellan. Tried Doctor after Doctor for 20 Months Without Slightest Relief. Crying Constantly.

Couldn't Sleep. Tried CUTICURA. First Application Gave Relief. Cured in Fourteen Days.

My second child got eczema when seven months old. Three months later my first child got it, and following him, the last one, two years old, fell a victim. For twenty months they suffered fearful agony. Their whole bodies, especially their faces, were so some and raw that the little ones were blind half the time. No words can describe the suffering of my second child, whose whole body was one ody mass. He was constantly crying, could get no sleep, and he actually did not look hun. I tried doctor after doctor, but none afforded the slightest relief. I decided to try CUTICURA. The first application brought re-lief in each case, and after fourteen days' treatment with CUTICURA SOAP and CUTI-CURA (ointment), the worst case was cured, and the whole neighborhood is surprised at the wonderful effect of CUTICURA. I continue the use of CUTICURA SOAP for the children, because it makes the little ones look splendid.

an hour. The expedition was considered on the whole satisfactory by the members of the party, though the Belgica did not succeed in getting as far south as many previous expeditions.

The explorers discovered and surveyed a new channel in Alexander Island, but was soon afterward caught in an ice floe. This was in 1897. The Belgica remained fast in the ice for twelve months, during which time she drifted south and westward. When she was eventually freed from the ice she was so badly damaged through running on a submerged rock she had to put back to Punta Arenas for repairs.

Capt. Barry said that when he left Punta Arenas the officers of the Belgica had not decided whether to continue the exploration of the Straits of Magellan or return home. It is thought probable that the Belgica will be kept in southern waters for another winter, although several of her officers will return to this country soon, no matter what decision is reached in regard to the crew in general.

CANADIAN TRADE GOOD.

Toronto, June 6.—Bradstreet's week-ly review of Canadian trade says: The condition of general trade at Montreal continues satisfactory. The recent fine weather at Winnipeg, as at other business centers, has greatly improved trade in Manitoba. There is a larger business being done at Toronto just now, and the outlook for trade is promising. The crops are looking better. There is a good trade being done at Victoria and Vancouver by the jobbing trade. The various provincial industries are showing considerable activity.

Give Holloway's Corn Cure a trial. It removed ten corns from one pair of feet without any pain. What it has done it will do again. "Time is money," said the poet, as his "uncle" handed him the ticket for

his watch, Show us a man who hasn't at least one cranky idea and we'll show you a

man that doesn't amount to much. THERE is not a more dangerous fect the breathing organs. Nullify this danger with Dr. Thomas' Eclectric Oil—a pulmonic, of acknowledged efficacy. It cures soreness and tameness when applied externally, as well as swelled neck and crick in the back; and, as an inward specific, possesses most substantial results.

### THE TRACKMEN ARE OUT AGAIN

After Resuming Work on the G. T. R for Two Hours-Charge of Breaking Faith-Engineers Uneasy. Toronto, June 6 .- The attempt to set-

tle the strike on the Grand Trunk along the line proposed by members of parliament who waited on the general manager, and who afterwards advised the men to return to their duties, seems to have completely broken down. After two hours at work the strike of the Grand Trunk Railway trackmen was resumed yesterday. The men, acting on the instructions which they had received from their committee in Montreal started to work at 7 o'clock in the morning, when they were told to report to their roadmasters, who would re-engage them. Upon report-ing several of the men were selected being obnoxious during the strike and were told that they would no longer be required by the company. Those who were re-engaged refused to go to work under these circumstances, and the entire body of men left the yards. The strikers declared that they were now out until their representatives obtained some written agreement from

the general manager. The official notification of the resumption of the strike arrived in the city late last night, when the following message was received from the chairman of the brotherhood's committee in Montreal.

"Hays broken faith with us. We are calling out the men again." Inasmuch as the company has shown that it will take but few of the men employed in the larger yards throughout the country back, the second strike will probably be presecuted with greater vigor than the first.

ROADMASTERS' CONFERENCE. The roadmasters of the middle division held a meeting in the Union Station yesterday afternoon, when it was thought that the strikers were returning to work unconditionally, and that the strike was over. There were present at the meeting Divisional Superintendent Jones, General Roadmaster Ferguson, of Toronto; Superintendent Ferritor, of St. Thomas; Trainmaster Whitenberger, London; W. F. Smith, St. Thomas; R. Bagnail, Windsor; C. Dallas, Wingham; J. Foley, Palmerston; J. Piper, Brantford; J. Carly, Hamilton; C. O'Dell, Toronto; W. Young, Sarnia; A. Bruce, Stratford, and W. McGar, Stratford, all district roadmasters. A report of the situation in each district was made by the roadmaster in charge, and it was decided to leave the matter of the reinstatement of the men to the roadmaster to whom they applied. The general roadmaster stated that they would reinstate "all men who fought fairly," which was taken to mean that every striker who had been prominent in inducing others to leave work would receive notice that he would be no longer employed by the company. Among those whose applications for reinstatement it was decided would not be received if made were those foremen who before the strike were receiving \$2 per day and the members of gangs in big yards, whose wages amounted to \$1 25 and \$1 50, who struck, not for higher wages, but out of sympathy with the other members of the brotherhood who were receiving less than a dollar per day. It was, however, left to the option of each roadmaster to employ the men who suited him best.

COMPANY RECALLS OFFICERS. The situation now is that while the trackmen are carrying on their strike the company has intimated that all the trouble is over, and the officers of the road who have been patrolling the road have been recalled to their sta-

the action of their committee in Montreal, but it was stated last night that the recess that has been taken by the representatives in Montreal has been for the purpose of obtaining a vote by ballot upon certain propositions which have been made to the brotherhood. A two-thirds vote in favor of the reject ing of the company's concessions would it is said, involve a strike, and in view of the resumption of the trackmen's strike the danger of serious trouble with the engineers is increased.

AT HAMILTON. The Hamilton trackmen say the voluntary committee of M. P.s bungled the matter in ordering the men back without a word of explanation, and that a new and more competent committee should be established.

THE LOCAL SITUATION. After working one day, the G. T. R. trackmen between Point Edward and East London went out again this morning at 7:30 a.m., by order of the executive committee at Montreal. The men here are deeply disappointed, and feel they have been betrayed by the G. T R. officials at Montreal. The committee wired the men here on Sunday to resume work on Monday morning. The foremen of the different sections notified the roadmaster that they and their men would be at work at 7 a.m., Monday morning. In answer to their telegrams Roadmaster Young wired the men of this division the following message: "To all foremen from Point Edward to London East: You and men resume work to morrow. Get keys from agent or operator." (Signed)

Wm. Young." All the men cheerfully returned to work yesterday, and were surprised at receiving this message shortly after going to work this morning: "G. trackmen on strike again. Officials played false with the committee. (Signed) W. Pole." Roadmaster Young had taken back all the men on this division, and no further trouble was looked for by the men here. The men will hold a meeting this afternoon at Cullis' Hall to discuss the situation.

THE BEST ON EARTH,

So Says Robert Meikle About Dodd's Kidney Pills.

London, Ont., June 5.-Robert Meikle, a member of the staff of the Star Dining Hall, is kept busy answering the questions asked him by his many friends at present. They all want to know how he recovered from what. the doctors said, was a fatal attack

And he invariably answers: Dodd's Kidney Pills cured me, when every other earthly means failed. They are the only medicine on earth that can cure Diabetes, and they do cure it every time.

If Dodd's Kidney Pills cured Mr.

Meikle they will cure you. Try them. The Elgin Historical Exhibition at St. Thomas closed on Saturday with a fairly successful day. The total pro-ceeds for the two weeks are about \$280, The engineers are reticent regarding of which about half will be profit.

### BILLY ATE THE LICENSE

An Delayed the Wedding for 24 St. Louis, Mo., June 6 .- The fondness

of a billy-goat for paper caused the postponement of the wedding of T. H. Bryson, a merchant of Mississippi, Mo. Mr. Bryson was engaged to be married to a widow residing at Olive Branch, Miss., and was visiting a married daughter near there at the time the accident happened. A few days before the date of the wedding, Mr. Bryson procured a license at Hernando and placed it in his inside pocket.

The morning before the wedding day he saw that a board was loose on the hencoop, and taking off his coat, proceeded to nail it. When he finished this he saw a pet goat munching at some thing containing a red seal. Bryson realized that it was his marriage license, and tried to rescue the paper, but the goat was too quick for him, and he swallowed it. As the document was indispensable a long drive to Hernando was made to procure a duplicate, and this caused a postponement of the marriage for 24 hours.

## **COUNTY COUNCIL**

Low Rate of Taxation Promised for This Year.

No Money Will Be Paid on Hospital Without the Architect's Certificate

county council opened at 2 afternoon. The weather outside was excessively hot, and the atmosphere inside the council chamber was somewhat oppressive. As a result the number of spectators was small. There are no measures of extraordinary importance to come before the council this session; but among the matters interesting to the community will be the striking of the rate for the current year , which will, it is stated on good authority, be somewhat lower than ordinarily. The council will also be called upon to pass a bylaw to provide for \$20,000 to redeem debentures falling due in December next, in connection with the consolidated debt, and also to raise a sufficient sum from the ratepayers to provide a sinking fund to meet these debentures at maturity. County Clerk Robson, as usual, had every minute detail arranged, and at the time appointed Warden Hardy called the assembly to order, when he delivered a congratulatory address. It was a matter for congratulation that the ranks of the council had not been broken by death. Again, he was pleased to state that during the recent spring freshets and floods, although many bridges were threatened by the large quantity of ice in the river, which in many places was five and six feet thick, no great damage had been done. The Komoka bridge would need some repairs, but beyond this he thought \$150 would cover all damages to bridge by his trip to the old country. He is approaches. He went over the hospital matter, and stated that no money had been paid by the county to the city, nor would any be paid over until the certificate from the architect had been presented.

The regular order of business was then resumed, and a number of communications referred to the respective committees. All the members were present.

# MASS MEETING

Labor Demonstration to Break All Records Tonight.

If the Committee's Hopes Are Realized -Striking Street Railway Men Look for a Grand Rally by Their Friends -More Resolutions of Support.

Preparations have been pushed rapidly for a record-breaking mass meeting and labor demonstration tonight at the Jubilee Rink, East End. President Mahon wired the committee this morning that he would arrive today and was bringing good news. Elder R. C. Evans will preside at the meeting. On account of the warm weather the meeting will not be prolonged, and the speeches will be short and to the point. The parade will follow the route stated yesterday, beginning at Labor Hall on Dufferin avenue, west to Richmond street, south to Dundas, east to Lyle.

The committee reports that the busses are doing a good business. Last Saturday's receipts were \$140. The company continues to put on more cars, and yesterday opened up West London and Pottersburg. Resolutions of support and sympathy continue to be received daily by the

committee. GLOBE CASKET COMPANY'S EM-

PLOYES WILL WALK. Though not having a union, as it has not been a necessity, having always been treated by the company (the Globe Casket Company) with fairness, kindness and every consideration that

we could expect. We, the employes of the Globe Casket Company do hereby tender the striking street car men, in their struggle for justice, our hearty support, both morally and financially, from a grinding corporation.

There were numerous instances of 60 per cent per annum. In some cases men had their wages garnisheed for two years for small loans of \$10, and \$10 was still owing at the end of two years. Sir Mackenzie Bowell gave similar instances of how the usurer operated. There was a strong feeling at the committee in favor of the bill, the only difference of opinion being that it did not go far enough. It was referred to a sub-committee to make it more stringent.

To the Editor of The Adventiser: I beg your indulgence for a short space in your paper. I would like to make clear my position in regard to the resolution, passed by the members of British Lion Lodge, S. O. E. The reason of John Charlton's criticism of the stand I take in regard to the said resolution will become apparent to the members of British Lion Lodge, when they remember the meeting of Dec. 21, 1898, since which time John Charlton has not entered the lodge room. For John Charton's information, I might state that I do not consider myself to be the whole lodge, but I claim to have stability enough in me to carry out that which I think is right. Had I been present at that meeting, I would certainly have deemed it my duty to have ruled such a resolution as was passed that evening out of order and unconstitutional. By what right do they vote away the privileges of the members of the ciety, and refuse to recognize them as brothers and Englishmen because they do not think as they do? As members of the S. O. E. we have the right and liberty of free thought, speech and action. While it may be right for trades unions to express sympathies with the other, I do certainly think it very unwise for benefit and fraternal societies to jeopardize the good-feeling of its members for the satisfaction of a few of its over-zealous members. For the further information of John Charlton I will say that I have no fear for my business. By taking the stand that I have I shall no doubt lose Mr. Charlton's custom, which would be a severe loss. As to the strikers' affairs, it is their business, not mine. I have nothing to lose or gain either way. I trust I have made clear to J. C. where I stand in this matter. Yours respectfu A. G. ## JESSAMINE.

He laughed, not quite steadily, in saying it, and Jessie felt his ningers tighten upon hers. She flushed up rosily-was herself again as she looked around for Orrin. He was in the rear of the family party, as was seemly, but his eyes were bent upon her with a singular fixedness—the irids closing in upon a spark that flashed and pierced like steel. Involuntarily she shut hers for a second as if blind-

ed by the intensity of his look.

He came forward at that.

"Don't believe him," said the same voice that sent its echo through her swoon. "I am none the worse for the slight exertion. I consider myself very fortunate in having been near enough to help you when you fainted—am very thankful that you are better. Come with me, Roy! Here is the doctor! If he scolds you, Miss Jessie, please consider me your champion."

The doctor, being an old friend, did scold the "madcap," who had, for a while, averred, undone his and nature's fortnight's work. Relenting.
finally, at Jessie's pretty show of
penitence, he confessed that less harm
had been done than he had expected, and contented himself by sentencing the delinquent to two days' strict confinement to the sofa, and "serious meditation upon what might have been the result of her imprudence-her reckless step.'

"My mis-step, you mean," said the incorrigible patient. "If I had not lain here so long already as to forget how to walk straightly and squarely, and to maintain the center of gravity, this would not have happened."

Altogether the evening was gayer than usual to all; Jessie's spirits were exuberant to a degree her sister feared was hystérical, and Orrin seconded her sallies with a quieter humor that amused the rest and enchanted her.
"It was worth my while to faint," she owned to him, sotto voce, when he came up to say good-night. "I wish I had done it before."

Her cheeks were red with excitement; her eyes laughed up into his with arch meaning that was very bewitching and very indiscreet. His pupils contracted suddenly to the blue spark, and his left palm covered the little hand he held within his right.
"You are very kind," was all he

said with his lips. "What treason are you two whis-pering there?" questioned Roy, as he noticed Orrin's gesture and Jessie's heightened color.

"Nothing that concerns you in the least!" answered Jessie, saucily, glanc-ing towards Roy. We will keep our own counsel—won't we?" she continued. to Orrin.

He was too sensible to lie awake thinking, at an hour when people with accommodating consciences and guttaha hearts are wont to sleep soundhor had he ever contracted the unsafe and irrational habit of talking audibly to himself—one to which poor Jessie was addicted. Yet he had his

thoughts as he put out the candle in his bedroom that night. "She is either a born flirt, and overanxious to practice her calling, or she is the most charming, because most novel compound of naivette, cleverness and feeling that has crossed my path for many a day. In either case, she is a study."

The best and the worst women were with him resolved into that-studies, all—and when they had fed his vanity and ministered to his individual gratification, they were laid aside for other aggravated the torture by personally specimens. As the dissecter of men's superintending his toilette. This achodies soon loses his reverence for whatever of divinity the common mind may discern in the human form; as the anemone and the nettle are to the botanist but different combinations of parlor and inducted him into an imstamen, pistil and petal-so your professed student of character, your mortal searcher and tryer of souls, merges heart into head in the practice of his art. Sorrow had no sacredness; love no warning purity; pain no appeal to him. Sensibilities are interesting only as they quiver and shrink beneath his touch; affection is his plaything; blasted hopes, withered and wounded hearts are the considered debris of the sacrificial honors done the ensanguined Moloch of his self-love.

It is the fashion to call such men as these ornaments of society. A better, and far more appropriate, truer name, would be the thugs of civilizaton.

### CHAPTER V.

Dr. Septimus Baxter was president of Marion College, situate in the beautiful town of Hamilton, lying two hundred miles to the northward, and in another state than the mountain-girded valley of which the Dundee church and the surrounding villages were the chief ornaments. Dr. Baxter was the nominal head of the faculty of professors, and Mrs. Septimus Baxter was virtual autocrat of his home.

He was a little man, physically, at his best, which was when he was in his own little realm-the area inclosed by the walls of his lecture room. There was, in the popular phrase, "no fit" to his clothes. His trousers bagged at the knees, and his coats hung in loose folds drawn from his shoulder-blades, on the

A Bare Quorum Present at the City Council Meeting.

Routine Business Dispatched Smoothly and Speedily-Grocers' Association Want Deminion Day Celebra te July 3.

The city council met last night with a bare quorum present, and disposed of routine business, smoothly and speedily. There were no lengthy debates, and nothing nearer to a sensational feature than an emphatic assertion by Ald. Pritchard, that aldermen for the past two years had been "compounding with the sewer contractors.". The chair was taken in re-lays, Ald. Douglass, presiding for the first half and Ald. Carrothers completing the job. The other aldermen present were Messrs. Rumball, Pritchard, Jolly, O'Meara, Winnett, Mallock, Plant and Wilkey. The mayor, Ald. Greenlees, Graham, Dreaney and Mc-Phillips were absent on the Ottawa deputation.

Mayer Raymond, of Brantford, notified the council that they were requested to appoint representatives to attend a conference, to be held in Hamilton about Sept. 3. The object of the conference is to consider pro-posed amendments to the municipal and assessment acts. Referred to No.

1 committee.
The London Machine Tool Company petitioned for a reduction of taxes The present assessment is \$20,000, and the company wish the amount fixed at

\$10,000. Referred to No. 1. A letter from Secretary E. Sutton, of the Grocers' Association, was received, asking that Dominion Day, which falls this year on Saturday, July 1, be observed on Monday, July 3.

Ald. Winnett moved to grant the prayer of the petition. A holiday on Saturday interfered seriously with business. Ald. Pritchard seconded. Ald. Rumball said the council should first learn its power in the matter. Once before they got into trouble interferring with a statutory holiday. He moved to lay the matter over. Ald. Jolly seconded. Carried.

The recommendation of No. 3 committee to have permanent walks laid on the south and west sides of the Market Square was laid over at Ald. Pritchard's suggestion. Otherwise the report was adopted unchanged.

No. 2 committee's recommendation to grant the request of the Builders' Exchange for the use of a certain form of building contract, was laid over, as some of the aldermen wished to see the contract forms. The report of the com- has, and I am writing you this letter mitte was adopted unchanged other-

The finance committee's report was adopted without change. Ald. O'Meara wanted to include a \$50 increase for Inspector Lutman along with like increases to three other officials, but Chairman Rumball pointed out that the committee had only \$150 to apportion. Ald. Pritchard moved to divide the \$150 among the four officials. Lost. Ald. O'Meara thought the committee, in dealing with the loan companies re assessments, instead of leaving for the court of revision to adjust, as the grievances of other real estate owners were dealt with, was making "fish of one and flesh of another." Ald. Carrothers said better terms than the assessment commissioners' figures were made between the committee and the companies. The result was considered

very satisfactory. Ald. Pritchard objected to a clause in the sewerage committee's report re-commending that \$150 be deducted from Contractor Brown's contract, in consideration of which Mr. Brown will not be compelled to put a portion of Pall Mall street in the same condition as it was before the sewer was constructed. He wanted to know how much it had cost to fix up Ridout street.

The clause was adopted.
The committee's recommendation to
pay Contractor Brown 15 per cent of the 25 per cent retained by the city on the completed sections of his contract, was thrown out on the vote of the chairman, Ald. Carrothers.

The council thought the specifications

for a valve house at the foot of Evergreen avenue should be again considered by the committee.

The hospital committee's recommendation to accept Martyn & Hammett's tender for construction of engine beds at the new building raised a discussion. Finally it was decided to refer the matter back to committee to call for new tenders. Ald. Rumball objected, but Chairman Jolly said the tender was considered too high.

The London Electric Company's ten-der for four electric switch-boards at \$120, was accepted. Notice was given by Ald. Winnett that at the next meeting he would move that in the event of the Kent

property, on the Wharncliffe road being purchased for a Home for Incurables and an Infants' Home, that the director or manager be allowed to connect these premises to the Wharncliffe road sewer without being assessed

Ald. Jolly gave notice of motion to instruct the council's representatives on the school board to support the fee system for the Collegiate Institute. Four local improvement bylaws were read three times and passed.

Adjourned, leaving several motions of which notice was given some weeks ago to come up at the next meeting.

A WOMAN'S PLUCK WINS

How a Drunken Husband Was Made Sober Man by a Determined Wife.

She writes: "I had for a long time been thinking of trying the Samaria Prescription treatment on my husband for his drinking habits, but I was afraid that he would discover that I was giving him medicine, and the thought unnerved me. I hesitated for nearly a week, but one day when he came home very much intoxicated, and his week's salary nearly all spent, I threw off all fear and determined to make an effort to save our home from the ruin I saw coming, at all hazards. I sent for your Samaria Prescription and put it in his coffee as directed next morning and watched and prayed for the result. At noon I gave him more and also at supper. He never suspected something that set every nerve in my body tingling with hope and happiness, and I could see a bright future spread out before me - a peaceful. happy home, a share in the good things of life, an attentive, loving husband comforts, and everything else dear to a woman's heart, for my husband had told me that whisky was vile stuff, and he was taking a dislike to it. It was only too true, for before I had given him the full course he had stopped drinking altogether, but I kept giving the medicine till it was gone, and then sent for another lot to have on hand if he should relapse, as he had done from his promises before. He never to tell you how thankful I am. I honestly believe it will cure the worst cases."

We will send our pamphlet free, giving testimonials and full information, with directions how to take or administer Samaria Prescription. Correspondence considered sacredly confidential. Address The Samaria Remedy Company, Jordan street, Toronto, Ont.

for sinful Adam's sake, well knowing all the | gently stimulating the stomach and bowels, ills to which human kind would be subject, God made it to bear herbs of all-healing. Among these herbs none was more widely

distributed, or more potent for good than the Clover. The scientists of cldsoon found out the wonderful effect on the nervous system exercised by clover root, making it one of the chief ingredients in their most successful receipts for blood elixirs, sleeping draughts, and for the curing of diseases of the skin. Women in

that olden time had clear, bright eyes and fine complexions, which lasted until late in life. Why? Because they did not dose themselves continually with medicines, nor use mineral poisons on their faces to try to cover up the effects of bad, impure blood. They had work to do, and must keep themselves well, and did so with these teas made from the herbs of the field. A German scientist, one of the leading physicians of the time, has revived the use of Clover in medicine. This is known as Karl's Clever Root Tea, and is a veritable elixir of life,

causing them to secrete naturally the various fuices needed for the processes of ligestion and assimilation of food, and by keeping the

bowels open and regular, relieved the body of all waste, poisonous matter, which, if allowed to remain, taints the blood, frequently causing rheumatism. In other words, Karl's Clover Root Tea restores health by making pure blood, without which no one can have either strength or beauty. An absolute cure for sick-headache, backache and sleeplessness. Your money refunded if it fails to cure.

S. C. Wells & Co., 52 Colburn St., Toronto, Ont. "Gentlemen: I am so well pleased with Karl's Clover Root Tea, and the good results derived from it, that I hardly know how to express myself. ## Are You Still in Suffering and Misery?

HAVE CONTINUED DIS-APPOINTMENTS MADE YOU DESPONDENT?

## Paine's Gelery Compound Guarantees Safety and Good Health.

There are thousands of well-meaning people in our Dominion who are either adding to their burdens of physical sufferings, or who are making so little progress in banishing disease from their bodies, that they are continually despondent or miserable.

The people we refer to are the men and women who are placing their confidence in the many advertised pills, tablets, sarsapariilas and nervines that have little or no medicinal

value to commend them.

The tens of thousands in Canada who are at present using Paine's Celery Compound for the banishment of blood diseases, nervous affections, nheumatism, neuralgia, dyspepsia, liver and kidney complaints, are the wise and prudent. They have been guided by the advice of relatives. friends and neighbors, who have found new life, health and strength from Paine's Celery Compound.

The continued flow of testimonials from cured people is the strongest proof that Paine's Celery Compound is the only salvation of the sick, one true friend that never disappoints when disease threatens life.

A DINNER PILL-Many person suffer excruciating agony after par-taking of a hearty dinner. The food partaken of is like a ball of lead upon the stomach, and instead of being a healing nutriment, it becomes a poison to the system. Dr. Parmelee's Vegetable Pills are wonderful correctives of troubles. They correct acidity, open the secretions and convey the food partaken of into healthy nutri-ment. They are just the medicine to take if troubled with indigestion.

### HAIL AND RAIN STORM THE HEIGHTS

Soldier Boys Get a Thorough Drenching Yesterday.

The 26th Middlesex Got Caught on the Road-Band Concert Last Night -Camp Notes.

The soldiers in camp received the full brunt of the terrific rain and hail storm yesterday afternoon. The Twentysixth M. L. I. had been at the rifle butts volley firing during the afternoon, and were returning to camp when the storm broke. Everybody was wet through to the skin. The scarlet dye from the tunics left its mark on everything, and the bosom of the average boiled shirt presented anything but a picture. However, they took their soaking "like soldiers," and seemed last night to have enjoyed it. In the evening the Twenty-sixth and the battalions in the first brigade gave a concert opposite the lines of the Middlesex infantry, which was attended by about a thousand people, and thoroughly enjoyed. As might be expected, the programme was a varied one. While the concert was in progress, Brigadier-Colonel Buchan, of the second brigade, was dining the commanding officers of the several battalions in

THE FIRST HUSSARS. today underwent cavalry drill. Here is

a general idea of the movements: A red force is garrisoning Lon-don, to which is attached the First Hussars, and enemy, blue, has reached St. Thomas, and it is reported that he is advancing, covered by his cav-alry, from St. Thomas by the roads west of the Lake Erie and Detroit River Railway. The following communication convey-

ing a special idea was issued to Col. Gartshore, the same as would be recase of active service: "From chief staff officer, London gar-

rison, to officer commanding First Hussars, London: You will be good enough to furnish a cavalry screen, which shall extend from the point on Dingman's Creek, where the road running east and west through Glendale strikes the creek, to the Lake Erie and Detroit River Railway, following the line of Dingman's Creek, which passes through Lambeth. By order, X. Y. Z."

Officers' patrols were sent as fellows: Right to Rarer postoffice; center to eross road, 31/2 miles south of Lambeth; left to Glanworth station. The general officer commanding sug-

gested that three squadrons might be employed, with the one squadron in reserve at Glendale. The screens, etc., were in position at 10 a.m., at which hour the major-general commanding at Glendale received reports from the officers commanding

squadrons, and any information gain-ed by officers' patrols of the movements of the enemy, blue.

Troops will be withdrawn, unless otherwise ordered, at 11:30 a.m. NOTES.

The First Hussars will perform their musketry practice at the miniature rifle range at 10:30 a.m. Wednesday, June 7 and will proceed to the rifle range for collective firing at 1:30 p.m. on the same day.

The following officers have kindly of-

fered their services to arrange for a military tattoo, to be held on Thursday, June 8, at 9 p.m.: President, Major Denison, R.C.I.; Lieut.-Col. Hegler, Twenty-second Battalion; Surgeon-Lieut.-Col. ### INTENTIONAL **ASPHYXIATION**

Mother and Three Daughters Found Dead-Mother and Son Killed by Lightning.

ASPHYXIATED. New York, June 6. - Mrs. Johanna Schilling, 35 years old, and her two young daughters, Gertrude, aged ten years, and Edna, aged eight, were found dead in a tenement on Eightyfirst street. All had been asphyxiated by gas, doubtless intentionally turned on by the mother. The tragedy evidently grew out of a quarrel between the woman and her husband, Otto Schilling, a tailor.

FATAL LIGHTNING FLASH. Penetanguishene, Ont., June 6.-During a very severe thunderstorm which passed over here last evening, lightning struck a small log house about two and a half miles out, killing the wife and son of Wm. Ladoucer and shattering the house, stove and pipes, and the windows. The family had just finished tea and were all assembled in the house when the storm came, and the lightning came down through the stovepipe.

Galt, Ont., June 6.-A very heavy rainstorm, accompanied by hail, wind and lightning, passed over Galt yesterday afternoon. The stables belonging the Baker House were struck by lightning and burned. The horses were rescued, but the hay and other contents were destroyed. Loss about \$3,-

SUDDEN DEATH AT AYLMER. Aylmer, June 6 .- On Saturday afternoon, when Mrs. Candy was in the act of purchasing a pair of shoes at Cronk & Rusling's shoe parlor, she put her hand to her head, saying, "Oh, my head; oh, my head," and by her groaning showed she was suffering great pain. She was helped to a stool, where she immediately fell into unconsciousness. Doctors were summoned at once and worked over an hour, when they parried her to her home at Albert Trim's, where she died a short time afterwards. She never regained consciousness.

BANK OF MONTREAL. Montreal, June 6.—At the annual meeting of the Bank of Montreal yesterday afternoon, reports were present-

ed showing that the bank's bu for the past year had been one of the largest on record, and General Manager Clouston and Senator Drummond spoke in high terms of the general prosperity of the country. The old directors were re-elected as follows: Right Hon. Lord Strathcona and Mount Royal, G.C.M.G., president; Hon. G. A. Drummond, vice-president; A. T. Patterson, Sir W. C. Macdonald, K.C.M.G., Hugh McLennan, R. B. Angus, W. W. Ogilvie, Edward B. Greenshields and A. F. Gault.

LIFE SAVED-Mr. James Bryson Cameron writes: "I was confined to my bed with inflammation of the lungs and was given up by physicians. A neighbor advised me to try Dr. Thomas' Eclectric Oil, stating that his wife had used it for a throat trouble with the best results. Acting on this advice I procured the medicine, and less than half a bottle cured me; I certainly believe it saved my life. It was with reluctance that I consented to a trial, as I was reduced to such a state that I doubted the power of any remedy to do me good.
