\*\*OBJECTIONS TO

\*\*SENATOR LI

\*\*SENATOR LI Ottawa, Ont., Feb. 23.-It is reported in official circles that the Government has formally protested to the home Senators Lodge and Turner as two of the United States representatives on the Alaskan boundary commission. The feeling here against these two men is most intense. The treaty calls for the selection by each country of

three "impartial jurists of repute." One of the ministers said that it Company, Limited, Toronto, will be at would reduce the arbitration to a mere the Frazer House, London, Tuesday, Feb. farce to go ahead with Lodge and 24, and Barnes Bros.' Hotel, St. Thomas, Turner as members. If they are not Wednesday and Thursday, Feb. 25 and replaced by men who come within the category of "impartial jurists" it is more than probable that Canada will withdraw from the proceedings altogether, as it is held to be useless to go into the game with the dice loaded. Senator Lodge delivered a speech at Northampton, Mass, on Oct. 16 last, in which he remarked that the claims of Canada in regard to the Alaskan boundary were such that the United States could not accept them, and that no nation with an ounce of selfrespect could admit. Similarly, Senator Turner, when the treaty was under discussion in the Senate, strongly opposed the Canadian contention. It may be asked what is Canada going to do about it in view of this objectionable party having been nominated by President Roosevelt, and his determination that he will serve. Canada could do one thing, and only one, and according to rumor, that step may be taken. It could refuse absolutely to have anything to do with

London, Feb. 23, 1 a.m.-Mr. Brod-cheme will be assailed from both sides of the House of Commons today. Mr. Beckett, the Conservative member for Whitby, will lead the assault from the ministerialist side of the house, by moving an amendment to the address regretting that the organization of Great Britain's land forces is unsuited That Albanians Attacked to the needs of the nation. This amendment will have the support of a large number of Unionists, including Winston Churchill. They threaten to vote against Mr. Brodrick, but whether their courage will remain at the sticking point is rather doubtful.

DEPENDS UPON BALFOUR. The war secretary is a first-class fighting man, and his confidence in his cheme is described as being unshaken, but his ostrich-like attitude is hardly likely to mollify the anger of the malcontents. CRUELTY TO ORPHANS

Boys Say They Were Frequently ing, howling, but securely gagged, was Beaten With Loaded Whips.

Binghampton, Feb. 22.-Story after story of inhuman treatment was told yesterday afternoon to the board of trustees and assistant board of the Susquehanna Valley home, who with press representatives began an investigation into the reports of cruelty that have leaked out. The home is for orphans and has about 200 children. It is under the care of the state board of charities, and under the direct supervision of a board of trustees.

A month ago one of the boys complained to a member of the board of supervisors of this county that he had been thrashed until blood came. Clay Preston, special officer for the society for the prevention of cruelty to children, took the matter up and this week the charges were made public. At the hearing yesterday a few of the boys and three instructors were examined. Butts of horsewhips, loaded with metal, and a dozen rawhides "My from a square of an inch to three- rheumatism in the left arm, pains in quarters of an inch were shown as the implements with which the boys were whipped.

### IMPORTANTIREFORMS DEMANDED

Rebel Leader Sarafoff Has Organized Several Very Well-Equipped Bands.

Constantinople, Feb. 23. - The Austrian and Russian ambassadors presented on Saturday to the grand vizier identical memoranda embodying the demands for reforms in Mace donia. The proceeding was of a semi-official character. The chief proposal made in the memoranda is the appointment of an inspector-general for three years, with ample powers to act ndependently and to requisition troops in case of emergency. The plan of reforms 'also provides for the reorganization of the gendarmerie and police under instructors, for administrative and financial reforms, and for a more equitable collection of taxes. reforms do not affect the Sultan's prerogatives or wound the religious suscentibilities of the Mussulmans It is reported that the Macedonian

leader, Sarafoff, has organized within the past fortnight several well-equip-ped Bulgarian bands in Macedonia, each consisting of about 250 men. The armed Macedonians are concentrated forty miles from Sofia, and are preparing to attack the town of Melnik, in the Turkish Province of Seres. wholesome food, and this claim has proven by actual experiment which anyone can perform for himself the following manner: Cut hard boiled eggs into very small pieces, as it would be if masticated, place the egg and two or three of the tablets in a bottle or jar containing warm water heated to 98 degrees (the temperature of the body), and keep it at this temperature for three and one-half hours, at the end of which time the egg will be as completely digested as it would have been in the healthy stomach of a hungry boy.

The point of this experiment is that what Stuart's Dyspepsia Tablets will do to the egg in the bottle it will do to the egg or meat in the stomach and nothing else will rest and invigorate the stomach so safely and effectually. Even a little child can take Stuart's Tablets with safety and benefit, if its digestion is weak, and the thousands of cures accomplished by their regular ally use are easily explained when it is understood that they are composed of vegetable essences, aseptic pepsin, diastase and Golden Seal, which mingle with the food and digest it thoroughly, giving the overworked stomach a chance to recuperate.

Dieting never cures dyspepsia, neither do pills and cathartic medicines, which simply irritate and inflame the intes-When enough food is eaten and promptly digested there will be no con-

As the Revolutionists Are Greatly Pilgrims Journey 1,000 Miles to Worship John of Cronstadt.

Washington, Feb. 23.—It is a matter of comment in official circles here that perhaps without intending it, Germans are aiding the Venezuelan ervolutionists in St. Petersburg, Feb. 23.-Measures have ties to destroy the widespread belief in refusing to return at once President Cas- the divinity of the famous Father John of Cronstadt, but so far they have not attained their object. Only recently the ecclesiastical authorities of the Don territory were informed that a number of peasants of the district of Karpooka had left their homes for Cronstadt. The Cronstadt police searched the various lodging-houses of the town and discover-

persisted in their contention that he was the Christ. The pilgrims resent the disposition of ecclesiastical authorities to take

charge of the case.

The veneration in which Father John is held was well illustrated five days ago, when he was leaving St. Petersburg. Despite the secrecy that is always maintained concerning his movements, he had to be escorted at a considerable number of stations to the railway carriage by stalwart gendarmes, who joined hands and formed a ring around him. Despite these precautions, women in the crowd made every effort to get near him. made every effort to get near him. Some threw themselves on the ground and tried to crawl inside the ring of gendarmes and kiss his feet or even his garments. When he got inside the train gendarmes formed a line in front to prevent people from pressing too closely. The twenty passengers es-caped with bruises, but Firman Atchison and left the city going south.

The train dispatcher in Chicago wired the agent at Herbert to run the wild en-gine into the ditch, as it endangered incoming trains and also trains on Illinois Central, which cross the North-western south of this city. Half an hour later the escaped engine was found stalled on a hill three miles south of the city.

MURDER IS COMMON

Chicago Averages One Every Week-Day and Three on Sunday.

Chicago, Feb. 23.-The state attorney said today: "There are now pending in the Chicago courts 56 cases of murder. Were one court to handle all of the cases it would take over a year to try them, counting a week to each trial. There is now on an average about one murder for every weekday and two or three for Sunday. So common have they become that the public conscience is becoming dulled and murders are coming to be regarded with little more importance than fist fights. The jury in inclined to care when a man is tried for murder: 'It say, when a man is tried for murder: 'It is his first offense. We might as well let him go.' A Change in the Management Is Anounced From London.

London, Feb. 23.—The Dominion Steamship Company has changed management, in consequence of the shipping trust. Circulars have been issued from the office in Liverpool to notify agents that Richards, Mills & Co. have retired from the management of the line. In future all contracts made with passengers require to be signed by Wilding instead of Mr. James Mills, as heretofore. Wilding is the British managing director of the Morgan combination. The paragraph makes clear that the management of the Dominion Line has been undertaken by the trust. The circular states that plans for new steamers are being prepared, and will soon be laid before the agents. London, Feb. 23.-The Dominion Steam-

Dr. Radway & Co.—As an introduction I must make the following remarket Had each one of the lawmakers of our country the virtues and power of your pills. America would soon become a paradise. That your pills would conquer the obstinacy of my complaint is more than wonderful. The movement of my bowels is as regular as the works of a good watch. I began with four pills and decreased to two, and for a long time took one two hours before dinner, and have a watery movement of the bowels every morning. It is seven weeks since I have taken any of your pills, but still have regular movement every morning.

Kind gentlemen, I wish further to tell you: A poor washerwoman that suffered from a tumor and would have paid \$150 for an operation, I dissuaded from doing so. Owing to her tumor she was obliged to stay in bed, but now she has gone to Pennsylvania, cured through taking your pills and Resolvent, as you directed in your treatise on tumor. Respectfully,

One to three of Radway's Pills once in twenty-four hours will secure regular evacuations from the bowels. Persons who for twenty years have been compelled to use injections have been cured by a few doses of Radway's Pills.

True Comfort for the Aged and Others Afflicted With Costiveness and

Paralysis of the Bowels. Paralysis of the Bowels.

Persons advanced in life often suffer from indigestion, and from paralysis or inability to evacuate from the bowels; likewise from urinal difficulties. We have the evidence of a large number of aged persons from 60 to 80 years of age, who have been cured of this defect who had been compelled to resort to injections to empty their bowels, by the use of Radway's Pills. Two or three pills every night in all cases insure a natural evacuation from the bowels and the regular flow of urine. In cases where there is irritation of the bladder the Resolvent should be used alternately with the pills. If these organs are kept regular life may be extended to a much longer period. By keeping the liver, stomech, bowels and kidneys in a healthy condition, the blood will continue pure and dissolution be checked. If Redway's Pills and Resolvent are used by the aged, life will be prolonged to the full measure of time. Another great end is secured by nourishing the body with these remedies—the faculties will remain in a healthy condition. A weak, feeble and decaying body enfeebles the intellect and "ouds the brain.

London, Feb. 23. — The negotiations for the purchase by the Canadian Pacific Railroad Company of fourteen Beaver Line steamers from Elder, Dempster & Co., were satisfactorily concluded this morning. The price paid is not yet disclosed, but it is said to be about \$7,500,000. The deal is regarded here as having an important bearing on the proposed Canadian fast mail service, as it will probably eliminate the tender of Elder, Dempster & Co., therefor, and leave the Canadian Pacific Railroad Company in a better position to secure the contract.

## MINERS' CONVENTION

Five Hundred Meet in Victoria to Discuss B. C. Mines.

Vancouver, B. C., Feb. 23.—Delegates have been appointed from every mining camp and every town in British Victoria for the purpose of forcing the Provincial Government to change the laws so as to encourage capital to come in from the United States, giving better title to deep placer and other mining grounds, removing the heavy taxes on development work, and re-lieving all handicaps on the prospector. There will be 500 prominent miners at the convention.

JOHN S. BROWN. London should be proud to claim and possess so fine an athletic specimen of manhood as Jack Brown, who is one of London's first sporting men. He appeared and played on every team representing London up to two years ago, and was then on the team winning the Dominion championship. With this honor attached to his long string of victories, he will always be remembered as one of London's cleverest hockey players. He is an athlete of the purest and cleanest amateur standing, and a man whom no one can charge with trickery nor unsportsmanlike conduct. He is brave and has a nerve of steel. This he has proved upon several occasions, one of which was the rescuing of a child's life at tered somewhat this week owing to the Hortons-Aberdeens game tonight. This he jumped in front of a street car, was the only open date for them and he jumped in front of a street car, they had to take it in spite of the fact grasped the child and just cleared the track as the car grazed his leg, fortunately saving the child. Again he proved his athletic ability and good judgment on the day of the regatta at Rondeau. He was captain of the London four when they went there and captured a grand race, as well as returning with the cup. Jack is one of Canada's most noted cross country riders. "Holding the indicator is no easy

job, I can tell you, and we know when we are up against it. Of course, we are just as liable to make mistakes judging balls and strikes as the batters are, and you know how many times they misjudge the balls. On a cloudy day the pitcher with usually has the best success, because it is harder for a batter to judge a fast ball when the light is not good, but on the other hand a ball with a curve to it is seen to advantage when is shining brightly. The pranks of the ball do not affect the batter alone, the umpire has troubles in trying to render a fair decision. A curved ball is easily judged, but the man behind the plate with the indicator is up against a fast ball with an up or down shoot. Pitchers often have been fooled just as well as the umpire and the batter, but as all hands are fooled what is to be done? Why, make the best of it and render what appears to be the fairest decision. ### A Neat Blooklet On Patents.

We have received from Messrs. Marion & Marion, patent attorneys, of Montreal, an admirable compendium condensed information on the subject of patents and every-day statistical data. This little book, entitled "Invention," is just the proper size for the vest-pocket, 21/2 x41/2 inches, is bound in handsome celluloid covers, and contains not only quadrille-ruled blank pages for memoranda, but also 28 pages of interesting printed matter, including surprising amount of novel and useful information not heretofore published.
