Arrival of Canadian Troops in Britain Is Announced

CANADIAN FORCES ARRIVE IN ENGLAND

London, Oct. 8.—The Canadian troops landed in England today, and will be sent to an inland training camp.

MOVEMENTS SECRET.

With the announcement that Canada has decided to send a second contingent of troops for service in Europe, the official bureau stated that the first Canadian troops are now nearing England, but strict regulations have been laid down as to what is to be published of their movements and their composition.

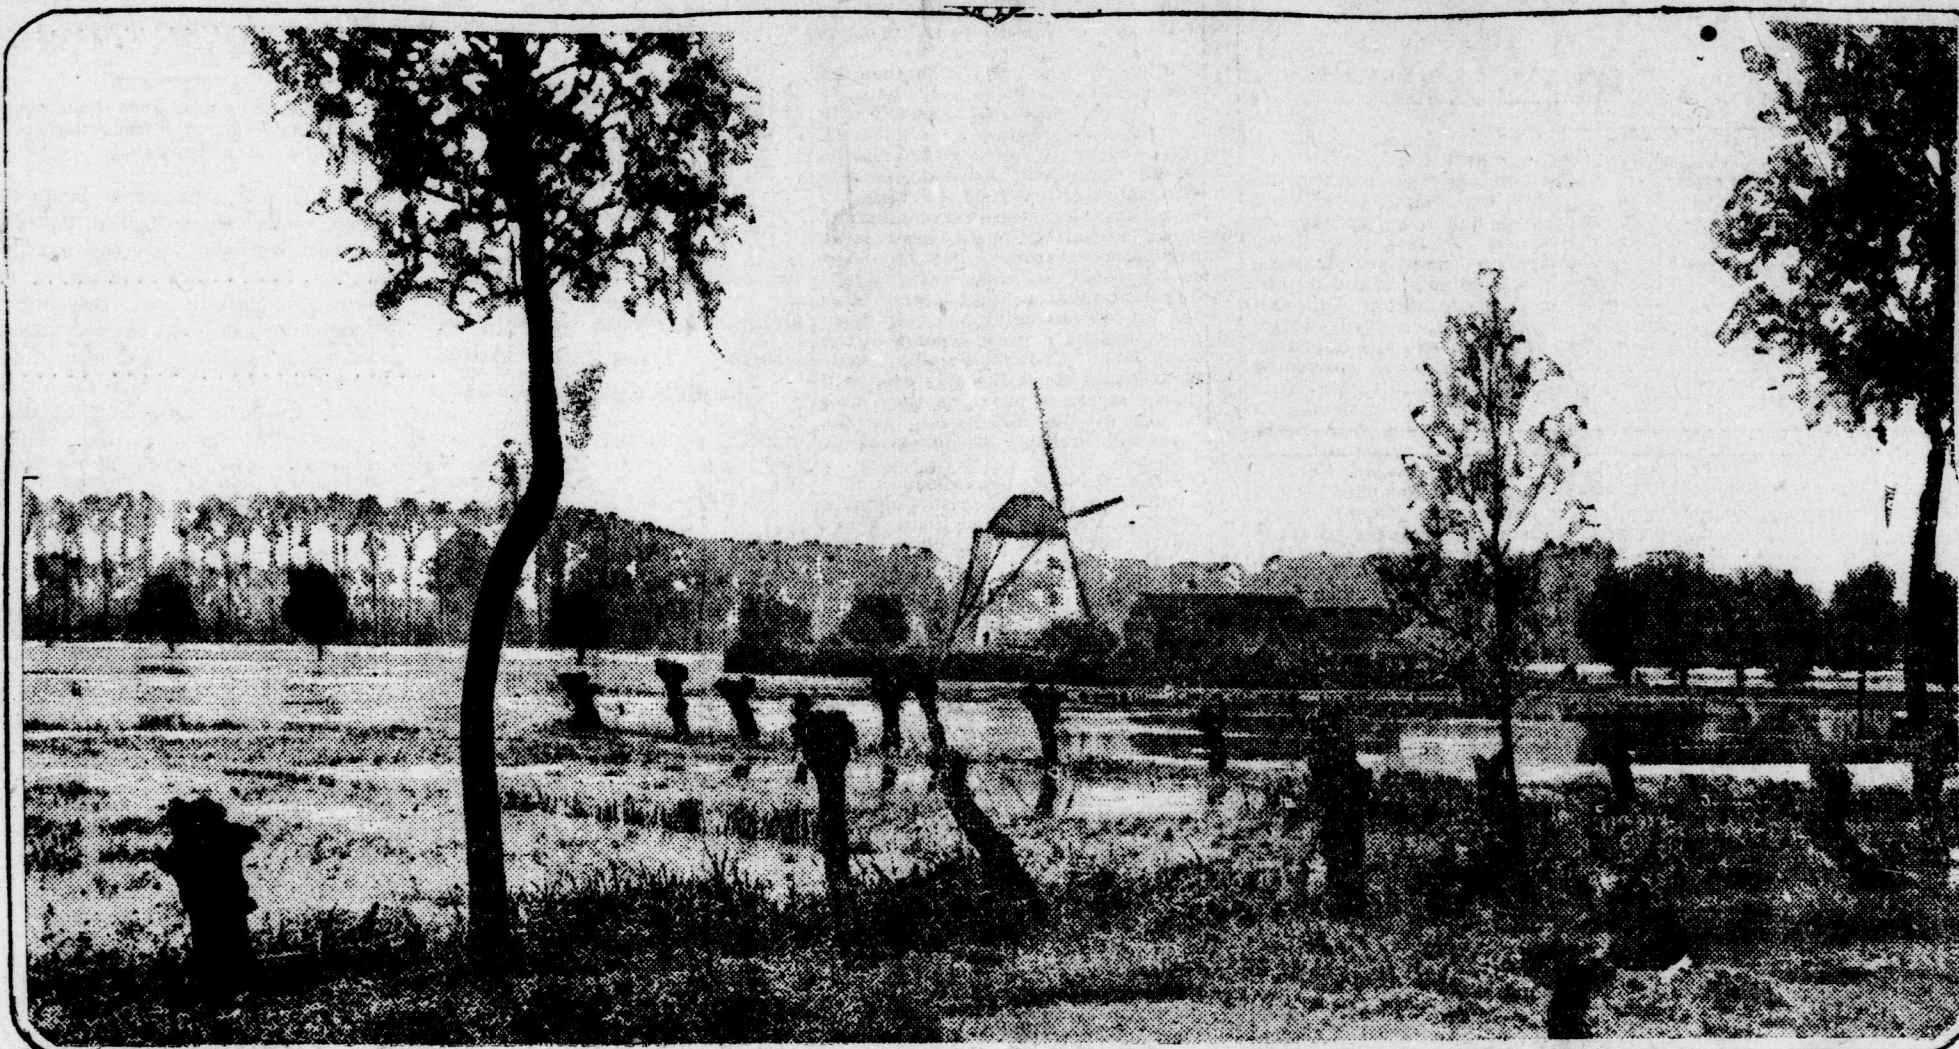

SEEKING SHELTER IN CELLAR; WRITES TO SONS IN LONDON

Russian Father Sends Blessings to Boys Here Before Austrians Attack Border City—"God Knows What Next 24 Hours Will Bring," He Declares.

Lying hidden in a cellar, afraid to venture out because of dropping Austrian shells, and not knowing what the next 24 hours would bring forth, T. Chirski, father of Stanow and Anton Chirski, 559 Dundas street, writes them what may be the last letter they will ever receive from their aged father in Russia.

refused to allow him to cut it. "If it is harvested the Austrians may have it," he said, and accordingly it was practically destroyed by the tramping feet of soldiers.

WHAT GERMANS HAVE TO CONTEND WITH IN TAKING ANTWERP

Photograph shows the outskirts of Antwerp, where the Belgians have flooded great stretches to make it hard for German infantry and artillery to move on the city. Stumps are what is left of trees cut down so as to give the Belgian gunners on the heights beyond a clear view and unobstructed range.

THOUSANDS OF TERRORIZED REFUGEES MANAGED BY SHELL AND ZEPPELIN IN HEADLONG FLIGHT

Antwerp Citizens in Awful Plight as German Siege Proceeds—City Not Worth Effort Enemy Is Making For Capture.

London, Oct. 8.—10:30 a.m.—All eyes today are turned on the devoted city of Antwerp, the fate of which is regarded here from the standpoint of importance as out of all proportion to the numbers of men engaged in its attack and defence.

Antwerp is fired only at infrequent intervals. Guns half the size of the destroyers of Liege and Namur are being used in the work of battering the ring of forts which surrounds Antwerp.

FEAR DESTRUCTION OF ANTWERP CITY

But the Belgians Have Determined to Resist Attacks to Last.

SHIPS' BOILERS BURST Precaution Taken To Prevent Germans Using Captured Boats in Harbor.

London, Oct. 8.—Telegraphing from The Hague, under the date of Monday afternoon, the Antwerp correspondent of the Associated Press says:

"I have just managed to leave Antwerp after a week of the closest, surly and inspection of the siege of Antwerp and the Belgian army is fighting with reckless courage. The Government officers openly declared that they expected a bombardment of the city by the middle of the week, but they were resolved to resist to the last, though they feared that this meant the destruction of the greater part of the city."

"As a precaution the boilers of all the German ships in Antwerp have been exploded so as to prevent their use of the Scheldt and Antwerp as a German base. The detonation of the bursting boilers resonated through the city as the excited Sunday crowds very near to a panic."

People Are Orderly. "The people generally are orderly, however, and are keeping up a cheerful demeanor. They are taking care of the endless stream of refugees coming in from four score of villages located between Antwerp and the forts."

The next day the village of Duffel was shelled and here the tall factory chimneys offered an excellent target. The populace fled to Antwerp. Antwerp is defended by a circle of fortifications, of which the most important are situated between the Rivers Nethe, Ruppel and Scheldt. The Germans evidently decided to force their way through this section, because, semi-circle of forts with their heavy artillery. A major with 60 Belgian volunteers inflicted heavy losses on the Germans, who expected to occupy the forts fighting until the last. The retreating Belgian army destroyed the bridge across the Nethe.

Tried to Ford Nethe. "The Germans spent Saturday trying to ford the Nethe. They were repulsed with heavy losses."

GRADUAL WITHDRAWAL OF ENEMY ALONG BATTLE LINE

At No Point Have Germans Made Progress, and Allies Are Forcing Them Back at Several Points and Retaken Positions.

Paris, Oct. 8.—The following official announcement was made in Paris this afternoon:

"First—On our left wing, in the region of the department of Nord, the enemy has made progress at no point. At certain points he has moved back, particularly to the north of Arras, where the fighting is developing under conditions favorable for us. The operations of the opposing forces of cavalry are developing at the present time almost as far as the seacoast on the north."

"Between the Somme and the Oise, in the vicinity of Roye, the enemy is still in force, but we have retaken the major part of the positions we were obliged to give up. "To the north of the Aisne the numerical strength of the German troops seems to have diminished. "Second—On the centre, between Rheims and the Meuse, there is nothing to report. On the heights of the Meuse, between Verdun and St. Mihiel, the enemy has drawn back to the north of the St. Mihiel, on the right bank of the Meuse."

DETECTIVES ARE INVESTIGATING STORY OF \$4,500 HOLD-UP

Rev. Isaac Wilson Gives Account of Supposed Slugging to Reporter—Says He Received Money from a Mysterious Mr. Comstock.

The police are conducting a searching investigation into the story told by Rev. Isaac Wilson, of Milan, Mich., who was found in a laneway on York street in the rear of the Grigg house last night. When picked up, Mr. Wilson stated that he had been knocked down from behind as he was passing the laneway and dragged into the passage between the two buildings. He did not see his assailants, he states. According to the story told detectives last night, he was relieved of \$4,500 in cash. Several gashes were found in his neck, when picked up. A wallet, identified as his, was picked up by the police this morning in the lane.

Caused by Small Knife. After the accident, Mr. Wilson was removed to the home of William Pearey, 769 Dundas street, a cousin. He is being attended by Dr. James Wilson. The gashes in his neck were caused by a small knife, according to Dr. Wilson. Mr. Wilson states that a small penknife that he carried in a vest pocket is missing, and believes that the gashes were made with the small instrument.

From his bed at his cousin's home this morning, he related the story to an "Advertiser" reporter. He explained that he was pastor of the Marble Memorial Church in Milan, near Detroit.

A Man Named Comstock. "I came to the city on the 4 o'clock G. T. R. train yesterday afternoon from Detroit," he said, in commencing his story. "A week ago when I was in the city I entered into negotiations with a man who gave his name to me as George Comstock. The deal was connected with some property which I owned, and which he wanted to buy. I had had dealings with him previously in Windsor, but knew little of him, beyond that he claimed to be connected with the real estate business in this city."

BOMBS DROPPED ON ANTWERP BY AIRSHIPS KILL A SCORE

Seven Houses Destroyed and People Panic-Stricken—Notice Given That Bombardment Would Begin at Three o'Clock Thursday Morning.

Antwerp, Oct. 7.—7:00 p.m.—Via The Hague and London, Oct. 8.—7:40 a.m.—The condition of panic among the people was increased today by the appearance at 11 o'clock this morning, and 3:00 this afternoon, of German air craft, which dropped bombs, destroying seven houses and killing a score of people.

Amsterdam, Via London, Oct. 8.—The Handelsblad learns from Antwerp that the commander of the German forces investing that city announced at 1 o'clock Wednesday afternoon that the bombardment would begin at 3 o'clock Thursday morning unless the city surrendered.

The Germans forced the crossing of the River Nethe by means of their heavy artillery.

Patetic Sight. On account of the Zeppelins' successful attack, the large square leading to the railroad station quickly became black with a struggling mass of people hurrying to escape from the city. It was a pathetic sight to see the poor people, some carrying on their backs their hopelessly maimed or idiotic relatives, who were crowded into railroad vans and transported northward, to remain in some cattle shed or railroad platform until rooms can be found for them in Dutch asylums and institutions.

Confidence Restored. The situation, however, quickly changed again. While at 2 o'clock even grown-up men were weeping with terror, and were fighting for places around the railway station, at 5 o'clock everybody was again certain that the Germans would be able to hold out against the Germans, and even throw them back across the River Nethe while everybody was telling his neighbor the Germans were superior to the German artillery.

The people remaining in the city tonight are taking to the cellars, prepared to hear the first German shell in the morning. The Belgian ministers are trying to reach Ostend through Flanders and via Holland.

The Belgian army is marching into the city, tired out, leaving the guarding of the forts for the night to fresh troops.

The asterisks are given to denote words cut out by the censor. CROSSED NETHE TUESDAY. [Canadian Press.] London, Oct. 8.—The Germans succeeded in crossing the River Nethe early on Tuesday, according to the Times correspondent in Antwerp. Telegraphing under date of Tuesday night,

SUBMARINE FLIES FLAGS OF VICTORY

Proclaiming Sinking of the Cruiser Hela and German Destroyer—How It Was Done.

London, Oct. 8.—A dispatch to the Mail from Harwick, describing the return to this port of the submarine E2, says: "Planting from her periscope are two flags, one bearing a death's head and crossbones on a yellow field for sinking the German cruiser Hela, and one for the destruction yesterday of the German destroyer."

This little privilege submarines have recently claimed heretofore, and have displayed racing flags and treasure them with great delight. The Telegraph's Harwick correspondent, in a dispatch describing the sinking of the German destroyer yesterday by the submarine E2, says: "The islands off the Province of Friesland, in the shelter of which German craft were known to lurk, was the scene of the sinking. "The E2 sighted a German cruiser and had to dive, but after a short interval, when it came to the surface again, the cruiser had disappeared. Resuming his watch, the commander of the E2 sighted the German torpedo-boat destroyer. The submarine sank sixteen feet and prepared for the attack, her crew, desperately eager, impatiently awaiting the right moment. At one time the E2 was too near the destroyer—100 yards away—to loosen a torpedo, an act which would have been self-destructive to the submarine itself. A second destroyer came on the scene, and it is reported that she tried to ram the submarine, although another statement is to the effect that the E2 was never seen by the enemy's ships. "At a distance of 600 yards the submarine fired the torpedo striking the enemy amidships. The tub was blown high in the air, the ship being torn in two. The second destroyer left at top speed."

MOST VIOLENT FIGHTING YET DURING WEEK

Enemy Has Tried Every Way To Break Through the Allies' Lines.

SUCCEEDED ONE PLACE

But Detachment Was Driven Back With Very Heavy Loss.

GERMAN FLAG CAPTURED

Found Under Heap of Dead in Trench Near British Lines.

[Canadian Press.]

On the Battle Front, Oct. 7, via Paris, Oct. 8—12:11 a.m.—The fiercest fighting which has marked the conflict in the French theatre of war has taken place since Monday on the western wing of the allied armies. New forces of German cavalry and infantry, which have appeared in front of the allies' force, but a contest every resource and every effort to attain success. They have thrown themselves again and again at the French and British, who have brought equally strong bodies of troops forward to oppose them.

The battle is no longer one of machine-like strategy; of two armies, but a contest centering in the powers of endurance of two bodies of human beings, each as determined as the other not to give up the struggle before victory is achieved. Here and there the lines have faltered and the way or the other under the shock, but again have lightened up and become firm.

Cavalry Broke Through. At one point the German cavalry even succeeded in breaking through the allied lines at a place which must remain undisclosed, but not in sufficient strength to make their flight of any remarkable importance. The retirement of the allies was, however, fully in accord with the plans of the general staff. The breach in the line was quickly made, and the Germans were placed in a very precarious position, from which they were ousted with great loss later in the day. All through last night and today the fight proceeded, continuing until this evening, when a period of calm set in.

Brave German Cavalry. Never, perhaps, in military annals have so many men come to close grips with cold steel and kept up the struggle so strong. On both sides many remarkable instances have been recorded of daring bravery, and the French and British troops, who themselves showed unparalleled coolness and courage, are, except upon, when the fury of the battle died down, expressed admiration for the fearlessness of the German opponents having disappeared.

The terrific nature of the fighting may be seen from this fact: One company of French infantry started the war with 150 men and a full complement of officers. Since then it has received drafts bringing the total up to 324. Today the company is composed of 90 men, commanded by a sergeant, all the higher officers having disappeared.

Self-Sacrifice. The heroic self-sacrifice shown by wounded men is exemplified in the reply of a British soldier who greeted a comrade coming to his assistance with: "Hike off! I'm no good any more." In an abandoned German trench opposite the British lines, unvisited since September 15, was found today a German regimental flag beneath a great heap of dead. The emblem was taken to the headquarters of the British field marshal, Sir John French.

It is generally expected that by tomorrow (Thursday) the fighting on the western wing will have extended to Belgian soil, as the cavalry of both armies is operating with incredible swiftness.

BELGIANS MOVE GOVERNMENT SEAT

Headquarters Established at Ostend, On Western Coast of Country.

ANTWERP BOMBARDMENT
Thousands of Refugees Leave Besieged City For Safer Points.

AMSTERDAM (via London), Oct. 7.—The Nieuws Van Den Dag says that the Belgian Government today was moved from Antwerp to Ostend.

The paper says that the German commander of the forces besieging Antwerp sent an officer carrying a white flag into the city this morning to announce that the bombardment of the temporary capital would commence at 9:30 o'clock this forenoon. Many refugees left for Holland and at noon the Government was transferred to Ostend.

LONDON, Oct. 7.—A dispatch to the Exchange Telegraph Company from Ostend says:

"Several ministers, with the personnel of the ministries, have just arrived here."

An Amsterdam dispatch to Reuters' Telegram Company says:

"Among the refugees who left Antwerp this morning were Cardinal Mercier and the Minister of Justice and other high officials. They travelled by auto to Flushing, from which point they proceeded to Ostend."

"More than ten thousand fugitives have arrived at Breda, at which place the bombardment of Antwerp can clearly be heard."

Fighting South of Ostend.

A dispatch to the Exchange Telegraph Company from Ostend says:

"Numerous skirmishes occurred this morning between the advance posts in the environs of Ypres (in Belgium, 20 miles south of Ostend), and in the southern part of West Flanders."

"The Germans threw themselves on the forts and entrenchments."

A dispatch to the Central News from Amsterdam says:

"A message received from Ghent says fighting of a violent character has taken place between Audenarde (15 miles southwest of Ghent) and Leuzepheun (a small town about a mile south of Audenarde)."

"After an hour's engagement the Belgians received reinforcements, and threw back the Germans, with heavy losses."

ENEMY'S BOATS CLEARED FROM SOUTH ATLANTIC

NEW YORK, Oct. 7.—Agents in this city of British steamship companies, whose vessels ply between New York and ports in South and Central America and the West Indies, were notified in cablegrams from London today that regular sailings might safely be resumed.

Agents of the Lamport and Holt line said they had been ordered to resume the sailing schedules, which were interrupted by the activities of the German cruisers Karlsruhe and Dresden. It was converted cruiser Kronprinz Wilhelm in the South Atlantic. It was assumed by the agents that the German war vessels had been chased away, bottled up in some port or had disastrous meetings with the British and French cruisers known to be in South American waters.

SUBMARINE SANK THE GERMAN BOAT

E-9, Which Sank Cruiser Hela, Repeats Its Operation.

SEEN BY DUTCH GUARDS

Enemy's Torpedo-Boat Destroyer Goes Down in Three Minutes.

[Canadian Press.]
Glasgow, Oct. 7.—3:30 a.m.—A dispatch to the Central News from Harwich, England, says that the sinking of a German cruiser in addition to the German torpedo boat destroyer.

LONDON, Oct. 7.—3:30 p.m.—Submarine E-9, of the British navy, under command of Lieut.-Commander Max K. Horton, yesterday made another raid into German waters off the mouth of the River Ems and succeeded in sinking a German torpedo boat destroyer. It was the same submarine under the same command, which made a similar dash and sank the German cruiser Hela off Heligoland, Sept. 2. As on the former occasion, the E-9 has safely returned to her home port.

The action took place at 1 o'clock yesterday and was witnessed by the Dutch coastguards on the Dutch island of Schiermonnikoog, in the North Sea, off the Province of Friesland.

The weather was clear and the sea calm, and the destroyer could plainly be seen cruising before the mouth of the Ems. Suddenly the observers saw a high column of water rise near the bow of the destroyer. The vessel immediately turned over and sank in three minutes.

Germans Come to Rescue.

Shortly after the explosion, the periscope of the submarine came above the surface of the water for a moment, but as soon as those on board the plunger saw that their torpedo had struck the vessel they again submerged. A German cruiser and torpedo boats came quickly to the rescue of the crew of the ill-fated destroyer, who could be seen swimming about in the vicinity of the disaster or clinging to the wreckage of their sunken ship.

As Schiermonnikoog is close to the island of Horkum, where the Germans have a naval base, and within 60 miles of Heligoland and the naval arsenal at Wilhelmshaven, the sinking of a submarine is considered here a particularly daring one.

The Dutch naval staff announces that the sinking of the destroyer occurred seven miles off Schiermonnikoog and well outside Dutch territorial waters.

MEMBERS OF CREW ARE JUBILANT.

HARWICH, via London, Oct. 8.—12:50 a.m.—The members of the crew of the submarine E9, which has arrived here, are jubilant over the second successful engagement of their little craft against a German war vessel. One of the members of the crew, in an interview, said that while the sinking of the torpedo boat destroyer off the Dutch coast was more easily accomplished than the case when the E9 sent the German cruiser Hela to the bottom, luck was with the submarine.

"We knew when we left Harwich harbor," said the sailor, "that it would not say whether our second successful engagement of their little craft against a German war vessel. One of the members of the crew, in an interview, said that while the sinking of the torpedo boat destroyer off the Dutch coast was more easily accomplished than the case when the E9 sent the German cruiser Hela to the bottom, luck was with the submarine."

WELLAND GUARD KILLS COMRADE

Pte. Hartley Shoots Pte. Burgoyne in Face During Quarrel—Puts Up Fight.

[Canadian Press.]
ST. CATHARINES, Oct. 7.—Theodore Burgoyne, 19 years of age, clerk in the St. Catharines branch of the Bank of Toronto, and a private in the Ninth Regiment, was shot dead by Pte. Frank Hartley, a member of the same regiment, about 7 o'clock this evening, outside the lock shanty of lock 9, Welland Canal, where both men were on guard duty.

There had been a trivial altercation, in the course of which Hartley suddenly raised his rifle and discharged it within a few feet of Burgoyne's face. The bullet entered the victim's eye and he expired in a few minutes.

Four other members of the guard, who witnessed the disarming of Hartley, and had to handle him roughly before he was finally placed under arrest.

Hartley was brought to this city and lodged in the police station, charged with murder. Little is known of him. He claims to be English by birth and to have spent some years in New York State. He joined the regiment a few weeks ago.

LONDON IS INSURING AGAINST ZEPPELIN RAID

LONDON, Oct. 7.—London is insuring against visits from Count Zeppelin's airships. GOVERNMENT ASKED TO CORRAL WESTERN GRAIN

Saskatchewan Growers Name Price of \$1.00 for Wheat and 50c for Oats—Keep It From the Enemy.

OTTAWA, Oct. 7.—Asking that the Dominion Government arrange to cooperate with the British Government to secure the grain direct from the farmers of the prairie provinces at a price of \$1 per bushel for wheat and 50 cents per bushel for oats for the next three years, the Saskatchewan Grain Growers' Association has prepared a memorial for Sir Geo. E. Foster, minister of trade and commerce.

The memorial points out the storage facilities at the disposal of the Government, and urges that the harvest should be secured for the empire's needs, rather than allowed to be exported south of the line, whence it might find its way into the hands of the enemy during the present war.

Owing to the absence of Sir George Foster from the city the Government has made no reply.

GERMANS CONTROL ARMY OF AUSTRIA

General Conrad Deprived of Ali Power and Auffenberg Punished For Blunder.

MILAN (via Paris), Oct. 7.—11:25 p.m.—A dispatch from Vienna to the Corriere della Sera confirms a previous report that the Austrian army in Gallia has been placed under the control of the German staff, despite the opposition of Emperor Francis Joseph.

The dispatch adds that Major-General Conrad, chief of the Austrian general staff, has virtually been deprived of all power on account of his alleged conduct during the battle of the Tisza, and that his son, who was killed in action, was posthumously promoted to lieutenant-general.

Dealing with the removal of Gen. Auffenberg from his command, the correspondent asserts this action was taken ostensibly because of the general's ill-health, but that in reality it was due to his move on Lublin, which was considered an enormous mistake, and responsible in great part for the Austrian defeat.

LONDON TERMINUS DEPRECATES WAY SUNDAY IS PASSED

FOR ALL P. M. CREWS

Until Recently Walkerville Trains Only Ran to St. Thomas.

ST. THOMAS, Oct. 7.—The Pere Marquette trains on the main line are again running into London. When the corporation of London took over the operation of the four Walkerville trains to Walkerville only ran as far as St. Thomas, and the crews were laid up here, but will now have London for their terminal.

It is understood the Michigan Central will open seven night offices at stations on the main line between Windsor and Niagara Falls. The railway commission, it is said, having rendered a decision that this was necessary for the convenience and safety of the travelling public.

HAD NO MONEY, SO WOMAN GAVE CHAIN

[Special to The Advertiser.]
BERLIN, Oct. 7.—The patriotic fund today passed the desired \$75,000 mark, the amount raised tonight at the close of the three-day campaign being \$82,781. This is not yet complete. The campaign has been extended a day in order that all returns can be made. At the meetings at the Auditorium tonight \$40 was realized by the sale by auction of a gold chain, donated by an aged woman with no money to give, but a strong patriotic spirit. President Williams placed the chain at auction and the bidding became brisk. A. J. Kimmel, of this city, being the successful bidder.

Making Catsup Red. Dear Miss Grey,—I have been a reader of your page ever since you started answering letters I believe, and seeing Mrs. Homebird's letter in today's paper I decided to write and tell her my way to make red catsup, as it is very simple. Make your catsup from any recipe you like, but before you put in your spice, tie it up loosely in a piece of cheesecloth or muslin, and hold it in the catsup. In that way the catsup has the flavor of the spice, yet is nice and red. Hope Mrs. Homebird sees this in time to try it.

A Guessing Contest. Dear Miss Grey,—You are so kind to all in answering so many questions, not too much bother?...

"I believe the Canadian apple to be the finest in the world."—SIR GEO. E. FOSTER "Canadian apples are all right—firm, juicy, well-colored, good keepers."—LUTHER BURBANK at the Top of your Thanksgiving Grocery List For the luscious, ruby-ripe and mellow-sweet Canadian apple, we should truly give thanks. Of all the harvest it is the most beautiful, the most healthful and nourishing fruit. Within its carmine-tinted skin is all the goodness and bounty of Mother Earth. How many Canadians realize that there is no fruit in the world so luscious, so beautiful, so economical and so health-giving? The Canadian Apple!—envied of all nations to such an extent that heretofore, until the war prevented their getting them, the wealthy foreigners have bid so high that the cream of our crop has gone to Europe! Which means that heretofore Canada—the home of the apple—has known only "seconds" and inferior imported fruit. Put apples at the top of your grocery list. Keep a box always open. Serve them Thanksgiving and every day in at least one of the 209 delicious ways given in our FREE BOOK OF APPLE DELIGHTS Send for a copy of this book today. Mailed free, and even your letter of request need not be stamped. APPLE LORE Not many people know that the English "coaster-monger" is so called after the Coaster Apple—now known to us as the Custard Apple. No finer apples than our famous Canadian varieties ever adorned the cart of coaster-monger nor graced the table of noble duke. APPLE RECIPE Apples, Nut Stuffing and Whipped Cream Scoop out apples and fill the shell with English walnuts and apple pulp mixed with mayonnaise; place in a circle on a large serving dish and heap whipped cream in the centre. A SPLENDID STORY OF WESTERN LIFE LAHOMA By JOHN BRECKENRIDGE ELLIS THE AUTHOR OF FRAN Copyright, The Bobbs-Merrill Company.

"They're one thing about us, Lahoma, which it ain't according to the big outside world, and that's we won't be changed. We are mighty glad we've got what we've got. And to be glad of what you've got is a sure way to multiply your property. Every time you brag on that window, it shines like two windows to me." Spring came late that year, and in the early days of March, Brick rode over to the cave behind the precipice after Bill Atkins. "I want you to come over to my place," he begged, "and answer some of Lahoma's questions. Being closeted with her in that there dugout all winter, she has pumped me as dry as a bone." Perhaps Bill Atkins had had his fill of solitude during that cold winter—or perhaps he was hungry for another hour of the little girl's company. Nothing, however, showed his satisfaction as he entered her chamber. "Here I am," he announced, seating himself on the bench. This was his only greeting. "Is it drug or drugged?" demanded Lahoma. "Drugged." "Why don't God send me a little girl to play with, after me asking for one every night, all winter long?" "Don't understand God's business," replied Atkins briefly. "I put it this way," Brick spoke up. "God's done sent one little girl, and it ain't right to crowd him too far. He'll be all they is or me, as long as I live." "Nobody won't never come to live in these plains," Brick declared, "unless its trappers and chatters like us. But we'll stay by you, won't we, Bill Atkins?" Atkins looked exceedingly gruff and shook his head as if he had his doubts about it. "You'll have to be taken to the States," he declared. "But what would become of Brick?" "Well, honey," said Brick, "you want to take your place with people in the big world, don't you?" "Oh, yes!" cried Lahoma, starting up and stretching her arms toward the window. "In the big world—yes! That's the place for me—that's where I want to live. But what will become of you?" "Well," Brick answered slowly, "the rock pile, 'other side the mountain is good enough for me. Your mother sleeps under it." "Oh, Brick!" She caught his arm. "You wouldn't die if I went away, would you?" "Why, you see, honey, they wouldn't be nothing left to go on. I'd just sort of stop, you know—but it wouldn't matter—out there in the big world people remember very long, and when you're grown you wouldn't know there'd been a cove with a dugout in it, and a window in the wall, and a brick window to carry the wood for the fire."

AL REICH, FORMER CHAMP, DEFEATED TOM KENNEDY

NEW YORK, Oct. 7.—Al Reich, former national amateur heavyweight champion, defeated Tom Kennedy, New York, in a ten-round boxing bout tonight.

TOM L. HAYGARTH SAYS:

"A forty-dollar Semi-ready suit will set the most jaded buyer on tip toe. Of course not all Semi-ready garments are expensive like these I show at \$35 and \$40.

"Some are \$15, \$20, and \$25—but not the most expensive tailor in Canada carries such an assortment of rare weaves in the most costly woollens—the first pick of the Botany flock.

"Sure, I make all alterations free; and I make it a point to trade money back without 'why' or 'wait.'"

LONDON, THURSDAY, OCTOBER 8.

THE WAR IN WINTER.

A LEADER of warfare, against whom even siege guns and Zep- pelins will not prevail, takes a hand in this contest within a short time. General Winter simply has to fire his blasts of icy chill and ten million soldiers will be rendered uncomfortable, if not help- less.

Peace does not seem to be in sight for many months to come, and the terrors of a winter campaign must have already come home to the dauntless leaders. They have only to recall the experience of Napoleon.

Even now comes some evidence that even the chill nights of fall can cause men suffering in the ranks. Fighting in flooded districts, or in wet trenches, can only lead to epidemics of pneumonia.

The advance guard of winter is already making its attacks, and in several localities in the war region snow and sleet have been reported. That is but the beginning.

Everything to the north of battle lines drawn through the countries has an average temperature in the winter months of 40 degrees or colder, and in some localities the mercury falls to 29 degrees below zero.

Will the armies go into winter quarters as the Americans did during the civil war, and as the Russians and Japanese did in 1904? It is hardly possible that either side will abandon its present positions unless forced to do so.

While Canada has been doing this, other countries have been taking an exactly opposite position. "Made in Germany" has meant to the German everything of excellence. "Made in Italy" has indicated in that country the stamp of efficiency.

POLITICAL TRICKERY.

WHEN Sir Robert Borden was asked as to the truth of the rumors that there would be a Dominion election soon, he only replied: "The subject is one I cannot discuss." His favorite organ, the Toronto News, referring to the same matter, while it does not come out plainly for an election, intimates pretty clearly its opinion that the weight of argument is in favor of such a course by the Government.

The argument for an election now is solely political. If any benefits may be expected, they are expected by the Conservatives who hope to snatch a victory that will give them power for another term. The argument of the Liberals, there should have been an election after the defeat of the Government's naval measure, there ought to be one now to secure the verdict of the public on the Government's line of action since, was commenced, is un- sound.

When the Liberals were calling for an election there was a grave difference of opinion in regard to a matter on which the people had never given a decision. Today, all parties are united in the prosecution of the war. On that subject, both in parlia- ment and out of it, there is practical unanimity—the only notable exception being Sir Robert Borden's friend and supporter, Mr. Bourassa.

Canada's migration department seems to be busier than its immigration department at present. Why not send Villa to the Azores? Perhaps he would get enough fighting there to last him for a while.

EDITORIAL NOTES.

Hon. Mr. Hearst has issued his first promises as Premier.

War Note.—The line of communication with The Hague peace palace has been temporarily cut off.

Canada's migration department seems to be busier than its immigration department at present.

The address of Hon. George P. Graham in Hyman Hall on Friday night will be patriotic, not political.

With Teddy Roosevelt on one side of the line and Sam Hughes on the other

party politics. That has been done by the Liberals most effectually. There has been no criticism of the Government; it has received our most loyal support. What is to take place if there is an election? Do the Conservatives suppose that Liberals will all drop their weapons, and allow the Government to sweep the country without opposition? That would be most un- likely. There will be a bitter political fight. The unanimity of Canada will disappear. So far as active support of Britain is concerned, there will be no difference of opinion. But on mat- ters of domestic administration; and on many details of its Imperial policy, the Government will have to fight on the defensive, for it will be warmly at- tacked.

It is quite possible that under present circumstances the Government would be able to snatch a victory at the polls. But it will be at the ex- pense of a complete rupture between the two parties, and a renewal of the old-time political rancour. Liberals are not desirous of a conflict because they believe the present political modus vivendi to be in the best inter- ests of the empire in this critical time. If that is to be destroyed, and parti- san hostilities resumed, the fault will not be theirs.

THE PATRIOTIC MEETING.

An address on the present war by Hon. George P. Graham, former minister of railways in the Laurier cabinet, will be given in Hyman Hall on Friday evening. The address will be entirely removed from politics, it being the intention of those who bring Mr. Graham to put Canada's interest in the present war squarely before the public. Some phases of the case that have not been made public are likely to be dealt with, and those who attend the meeting both from the city and vicinity will have the situation epitom- ized for them by a splendid speaker and a splendid Canadian.

It is believed that Mr. Graham holds the view that Canada should do even more than she has done, and that at once, but he does not advance this in any contentious spirit. He speaks as a Canadian to Canadians and it is more than probable that the hall will be crowded to hear him.

Mr. Graham is one of Canada's best orators and finest types. He has given this country great service in her national programs, and by many has been regarded as the logical successor of Sir Wilfrid Laurier. He has been al- ways logical and fair in debate, and a power in any gathering when clear- cut common sense was the need.

Apart from their political affiliations Londoners are urged to attend the meeting. It will be the first patriotic gathering of its kind to be held in the city, and those who are interested, which means all citizens, should avail themselves of the chance to hear Mr. Graham.

"IMPORTED."

THE word that has held the great- est magic for the Canadian buyer in days past is the one at the head of this article. If the gods are "imported," that stamps them as being a trifle bet- ter, at least, than anything that can be produced at home.

While Canada has been doing this, other countries have been taking an exactly opposite position. "Made in Germany" has meant to the German everything of excellence. "Made in Italy" has indicated in that country the stamp of efficiency. Canadians have allowed themselves to be carried away with the same spirit, only along the wrong line. Canada has agreed that "Made in Germany," "Made in Eng- land," or made anywhere else than at home, means superior quality. "Im- ported" may mean simply shipping in from the next county, but the glibbie Canadian buyer accepts it as proof of excellence. The goods so labelled may have been made by workmen he himself discharged for lack of efficiency, but that little word makes up for all faults so long as he knows nothing beyond the word.

This is as things have been in the past. Any honest Canadian will admit it. But it is not as things will be in the future. If the present war teaches Canada nothing more it will have been a great deal gained. There is no reason to suppose that Canadian workmen are inferior to those of other countries, or to believe that Canadian manufac- turing skill is of a lower order. It is not, or if it is, steps should be taken by everyone concerned to remedy the situation.

"Made in Canada" should mean to every Canadian that the goods so labelled are the products of the highest efficiency. "Made in Canada" should sell every piece of goods so labelled; it should be regarded in Canada as the merit trademark of the world. When Canadians come to believe that, they will not only produce greater prosperity in home industries by increasing the demand, but they will develop a desire on the part of the manufacturer and workman to live up to the reputation given their goods, and will also give Canadian-made goods a reputation and sale in other countries.

ENNISKILLEN TEACHERS MEETING AT PETROLEA

[Special to The Advertiser.] PETROLEA, Oct. 7.—The teachers' convention will be held here on Thurs- day and Friday, and those in charge have prepared a bright and extensive program. It is planned to have the chil- dren of the various town schools take a considerable part in the program.

The North Enniskillen school fair will be held on Saturday and the teach- ers who attend the convention will be able to see the exhibits, and many will help in the work involved in the un- dertaking. The fair was such a success last year that those in charge expect a still better attendance this year. The ex- hibits will consist of cattle, poultry, needlework, flowers and vegetables. A fine prize list has been prepared, and competent judges, including Messrs. Bramhill and McDougall, have been en- gaged.

An Appeal to Sir Robt. Borden The First of The War Letters of Civilis

Canada has been two months at war. Those who would serve their country must curb the risks of breaking the silence which patriotism imposed at the outbreak of hostilities. Proffer of support for high leadership may come from any citizen, but those who strive to secure you in the premiership are pecu- liarly concerned in what you now do, and what you may lead us to do.

It was believed, on the word of men who were understood to reflect the firm will of the Government, that a second contingent would be immediately pre- pared for the front. The public had come to think that at least a hundred thousand men would be forthcoming in the first year of the war, which a great meeting in Winnipeg demanded during August. British newspapers have con- tained Ottawa dispatches reporting the determination of the Government to bring the Canadian fighting line up to 50,000 men during October, and the as- scription of the militia department, on its behalf, that 150,000 would be forwarded, according to the need.

It was noted that in backing the de- mand for a war strength of more than a million and a half soldiers from the British Islands, the Prime Minister, the leaders of the Opposition, the Irish Nationalists, and political opponents in every corner of the Kingdom united to- gether, and in the hearing of assemblies of the people, sounded the call to arms which Mr. Asquith declared was of "im- portance and momentary importance."

In that campaign widespread use has been made of the cabled program of your Government, and especially of the statement of the Minister of Militia, in the House of Commons, that in August 100,000 volunteers for the front had come forward—a total which was increased by him, publicly here, in early September, to 200,000. These claims have not been followed by announcement that the second contingent would be pre- pared forthwith, to answer the imper- ious emergency. Volunteers who desired, in their own persons, to justify their country before the world, have been told they were not wanted, and have been re- pelled from further patriotic action.

It is now accepted harmoniously with a pronouncement issued after your first visit to Valcartier, that instead of a second contingent, there are to be re- forcements, and the French-Canadian brigade, which owed its being to private initiative. Of the 32,000 men reported to have gone to Europe your statement that about 10,000 will be rein- forced to repair wastage. It was ex- ceusable for the public to suppose that, as the undertaking to send a first con- tingent of 22,000 was given before the

What a pretty mess might have come of it. An election in Canada at the present time would be like commencing a fight between two brothers when the home was being attacked from the outside.

Pray! Pray! Pray!

More things are wrought by prayer Than this world dreams of. Wherefore Rise like a fountain for me night and day. For what are men better than sheep and goats, That nourish a blind life within the brain, If, knowing God, they lift not hands of prayer, Both for themselves, and those who call them friend? For so, the whole round world is every way Bound by gold chains about the feet of God. TENNYSON.

FINE FAIR AT TIVERTON. [Special to The Advertiser.] KINCARDINE, Oct. 7.—Tiverton annual fair and horse races yesterday drew a fine crowd from all parts of the district. The exhibits were never bet- ter, and the horses, cattle, grain, fruit, roots and poultry were all of the highest quality. The races were greatly enjoyed.

As previously announced in these col- umns, the advertiser has arranged to supply its readers with an accurate and complete book of the world's great- est war on an attractive plan which will appeal to every reader. A large illus- trated section consisting of forty pages printed on enamel paper will be issued every two weeks, and part one is now ready for distribution.

Every man, woman and child will want every one of these parts as they are issued, for the true story of this mighty conflict must now become a part of one's education. To show that you are a reader of this paper, clip a coupon and get the first section of the great war story.

No such timely offer was ever made before. The war was barely started and there was just time to untangle the true story from the mass of con- flicting reports, when this first part was brought fresh from the press to supply the wants of our readers.

The entire work will consist of a running narrative of the war itself, an account of the military and naval operations by which the fighting nations of Europe undertake to balance their long accounts, and all will be illustrated in a sumptuous manner such as has never before been done with a work of this character.

Save your coupons and present them as soon as possible. The War Book Coupon is printed daily in another col- umn.

BRITISH NATIONALIST SAYS PARTYSM IS DEAD

Feeling of Determination Strengthened By Overseas' Response.

TORONTO, Oct. 7. — Timothy M. Healy, K.C., M.P., the Nationalist member for Northeast Cork, in a speech at a meeting of the British Hours of Commons, who is spending a few days in Toronto, on private business, having come here from New York, where he arrived last week. "Partysm is dead in England, the feeling in Britain over the war has developed into a quiet determination to go through with the present crisis at any cost. And I may say that the support that has been given by the overseas Dominions has done as much to arouse that feeling of determination as the obliteration of partysm in England itself. It is pleasant, indeed, to find feeling in New York, and American sentiment as a whole, so favorable to Britain's cause."

DR. CHASE IS NO STRANGER

In This Home—Receipt Book and Medicines Kept at Hand All the Time.

There is no better safeguard against disease and suffering than a good cathartic medicine. In the great majority of homes Dr. Chase's Kidney-Liver Pills are constantly kept at hand, because they quickly awaken the action of the kidneys and bowels, and cure the most common ills of life. Mrs. Thomas Smith, Jamestown, Ont., writes: "Dr. Chase is no stranger in our home, for we have two of his Receipt Books in the house. My father and my husband's father each had one, and I have been familiar with it ever since I can remember. It was only natural that we should use the Kidney-Liver Pills, and we found them so satisfactory in regulating the digestive system and curing the common ills of life that we always keep them on hand. Many a time these pills have saved me much suffering and prevented serious disease. We also keep the Ointment in the house all the time."

PRZEMYSYL UNDER VERY HEAVY FIRE

All Efforts of Austrians To Relieve Garrison Have Failed—Losses Are Considerable.

LONDON, Oct. 8. — 3:28 a.m. — Dispatches from Lemberg, according to the Reuter correspondent at Petrograd, say that the Russian heavy artillery is continuously bombarding Przemysl, and gradually destroying the fortress and the town, while the shell fire falls on many houses. All Austrian efforts to relieve the garrison have failed, and their attempts, the correspondent adds, have resulted in considerable losses.

TO FOUND INSTITUTE OF INDUSTRY AND COMMERCE

LONDON, Oct. 7. — Far and away the most important movement yet to meet the present urgent problem of organizing the imperial commerce is to be discussed tomorrow at a public meeting. Earl Grey, Lord Abernethy, Sir Charles MacArthur, Sir Robert Hadfield, Mr. E. J. Holden, Sir George Bell, Sir John McCall, Sir James Heath, Sir John Taverner and some two hundred other leading men of the official and commercial world will participate. The idea to be considered is the foundation of an "Institute of Industry and Commerce," to be linked with Earl Grey's mooted scheme for the union of the London offices of the self-governing dominions under one roof in a stateily dominion house shortly to be built here. The new institute will be housed in the same building, and in this way the associations representing every branch of British industry can be under one head, keeping in immediate touch not only with each other, but also with the colonial agencies.

GERMAN TROOPS WITHOUT FOOD FOR 48 HOURS

LONDON, Oct. 7. — 10:30 p.m. — An Ostend dispatch to the Exchange Telegraph Company says that a German detachment, about 1,000 men with artillery, arrived Tuesday evening at Courtrai, where it took up quarters. The men seemed very tired. One of them said he had been for 48 hours without food. The detachment came from Metz, by way of Liege.

GERMANS ADMIT AWFUL SLAUGHTER

Say Cavalry Held Out Against Russians Until Only Three Men Were Left.

[Canadian Press.] BERLIN, Oct. 7. — Via The Hague and London, 4:25 p.m. — The German forces on the frontier of East Prussia have assumed a strategic defensive movement. They abandoned their bombardment of Ossowietz, a Russian town in Poland. After setting the city of Ossowietz on fire with shells, they were able to retire with their heavy guns and a pontoon train. They destroyed the railroad in the rear and are now holding in check superior Russian forces from heavily entrenched positions near Trask. The fighting at Augustow and Suwalki was most sanguinary. The German machine guns finally turned the Russian advance back. One German battery lost all its men and cavalrymen had to be drafted to serve the guns. The cavalrymen held out until they had only three rounds of ammunition left. They then retired with the Russian infantry only a furlong away.

THREE-YEAR SENTENCE FOR CHECK ARTIST

Boer War Veteran at Ingersoll Pleads For Leniency.

[Special to The Advertiser.] CLINTON, Oct. 7. — Warden D. Cantelon, of Huron county, held a meeting here today with his advisory committee to discuss the ways and means of collecting from the farmers of Huron county their donation to the British Government in the shape of apples, oats, potatoes, beans, butter and cheese. The committee has set aside \$5,000 towards supplying to the farmers the necessary barrels and bawls for the apples and potatoes also the expense of seeing that the apples are properly packed, when delivered at the several collecting points. The committee of each township will be asked to take charge of their own municipalities under the direction of the warden. The fruit, oats and potatoes will be delivered to the farmers at the different cities and then packed by certified packers. Nothing but hard varieties of winter fruit can be accepted, such as Baldwin, Golden Russets, Mann's, Canada Reda, Nonpariel Bendavis, etc. Bags will be supplied for oats and beans. Cars will be used for potatoes. The committee of each township will be asked to take charge of their own municipalities under the direction of the warden. The fruit, oats and potatoes will be delivered to the farmers at the different cities and then packed by certified packers.

ASQUITH'S SONS VOLUNTEER.

LONDON, Oct. 8. — 2:25 a.m. — Three of Premier Asquith's sons have volunteered for active service. Two are now training. The third, who is convalescing from a recent illness, has failed to pass the physical examination.

MRS. EDWARD WHITE

In March, 1911, November 1, 1912. I noticed an enlargement of the glands in my neck. I went to my physician, who first told me that the trouble was inflammation. After doctoring me until late in the fall of 1911, he told me that the trouble was tuberculosis of the glands, and advised me to submit to an operation. I was operated upon on January 2nd, 1912, on one side of the neck, and was not strong enough at the time to have both operations performed on the same day. The neck soon healed up, but in July, 1912, both sides of the neck were again showing enlargement of the glands, one side having opened into an open sore. I was in a very emaciated condition, and had about given up hopes of getting well, when in August I met a friend, and decided to try to get well. I heard about Nature's Creation through a friend, and decided to try it. I have since used four treatment courses, and the swelling has gradually left the glands until now it is hardly perceptible. I am now a great deal better than when I first began to use Nature's Creation, and I would be glad to tell of my remarkable improvement to any person who is suffering from tuberculosis of the glands. I can do all my own work now, and have gained a good deal of weight. I would be glad to tell of my remarkable improvement to any person who is suffering from tuberculosis of the glands. I can do all my own work now, and have gained a good deal of weight.

WIRELESS STATION NOT NEEDED FOR MESSAGES

FLORENCE, Italy, Oct. 7 (via Paris)—4:02 p.m.—Father Alfani, director of the Florence observatory, said today he thought that the invention of the priest, Domenico Argentieri, of a system to receive wireless messages without the use of poles of batteries, was scientifically sound. He related that after the declaration of war the Italian Government forced all private wireless stations, including that of the Florence observatory, to be discontinued. The next day Father Alfani obtained from Argentieri copies of official wireless messages, which the priest had been able to intercept without wireless installation. There were many ways to do this, Father Alfani explained. One of the most simple is the use of the very elemental expedient of sliding two steel needles into a petalo.

HURON FARMERS SEND PRODUCTS TO BRITAIN

Donations to Government To Be Packed and Sent at Public Expense. [Special to The Advertiser.] INGERSOLL, Oct. 7.—Identified by Mr. and Mrs. Chas. DeWitt as the man who victimized them in July last, by passing a worthless check on the Bank of Nova Scotia at Belmont, and admitting his guilt, J. C. McArthur, 34 years of age and claiming Galt as his home, was today sentenced to three years in Kingston penitentiary by Magistrate Patterson.

IN FIVE MINUTES NO SICK STOMACH, INDIGESTION, GAS

"Pape's Diapepsin" is the quickest and surest stomach relief. If what you just ate is souring on your stomach or lies like a lump of lead, refusing to digest, or you belch gas and eructate sour, indigestion, or have a feeling of dizziness, heartburn, fullness, nausea, bad taste in mouth and stomach headache, you can surely get relief in five minutes. Ask your pharmacist to show you the formula, plainly printed on these fifty-cent cases of Pape's Diapepsin, then you will understand why dyspeptic troubles of all kinds must go, and why it relieves sour, out-of-order stomachs or indigestion in five minutes. "Pape's Diapepsin" is harmless, like candy, though each dose will digest and prepare for assimilation into the blood all the food you eat; besides, it makes you so to the table with a healthy appetite; but what will please you most, is that you will feel that your stomach and intestines are clean and fresh, and you will not need to resort to laxatives or liver pills for biliousness or constipation.

This city will have many "Pape's Diapepsin" cranks, as some people will call them, but you will be enthusiastic about this splendid stomach preparation, too, if you ever take it for indigestion, gases, heartburn, sourness, dyspepsia, or any stomach misery. Get some now; this minute, and rid yourself of stomach misery and indigestion in five minutes.

RECRUITING FOR SECOND CONTINGENT TO BE TAKEN

Evidence of Enthusiasm in Renewed Corps of Montreal. MONTREAL, Oct. 7.—While actual recruiting for the second contingent cannot be opened till instructions have been received at the various stations—and these are expected within the course of a day or two at most—the progress of the recruiting is such that the call will be as enthusiastic as it was by the men who went to Valcartier. The ranks of the Victoria Rifles, the Grenadier Guards and the Fifth Royal Highlanders, depleted by the departure of volunteers with the first contingent are being rapidly filled.

BLAMES CONFUSION FOR THE ACCIDENT

Jury's Verdict On Death of Toronto Traveller Holds Driver's Mistake Responsible.

SPEED WAS EXCESSIVE Companions of John Fennel Tell How Fatal Auto Accident Occurred.

That confusion on the part of the driver and the almost simultaneous swerving of the front right wheel were responsible for the death of John Fennel, Toronto traveler, who was almost instantly killed on Thursday last when the machine in which he was riding with three Londoners, left the road and turned turtle in the ditch near Hyde Park.

Evidence Straightforward. The young man told a straightforward story which was evidently satisfactory to the jury.

Verdict Returned. "Hyde Park, Oct. 7, 1914.—We, the coroner's jury, empanelled to inquire into the cause of the death of John Fennel, after fully considering the evidence, do find that the said John Fennel came to his death as a result of an accident to the auto in which he was riding, driven by John Irwin, at the job corner of the Hyde Park side road and the fifth concession of London Township, county of Middlesex, after fully considering the evidence, do find that the said John Irwin lost his presence of mind and became confused on the close approach of the turn, and in his attempt to make the short turn and avoid the ditch, he turned the wheel, which collapsed, resulting in the loss of control of the car which took the ditch, turned turtle and crashed into the ditch.

Kossuth—Greatest of Hungarians THIS noble lover of Liberty was to his beloved Hungary what Patrick Henry was to American Independence. Give me Liberty or give me death meant to Kossuth all that made life worth the living. He lived for ninety-two years, and his long and honorable career was devoted solely to secure for Hungary National Independence. For it he suffered imprisonment and exile. For it he worked as few men have ever worked. His fiery soul was expressed in his writing, and his impassioned oratory thundered across the two continents. All the world read and listened to this high-souled Hungarian Patriot. When exiled our government sent the U.S. Steamship Mississippi to Turkey and brought him to our shores as the guest of the Nation. To-day we have millions of Hungarian citizens, each one a lover of Personal Liberty; to secure it they sought our shores, and to a man they will fight to the death to keep forever alive the spirit and letter of our immortal Declaration of Independence. They make good citizens, and like Kossuth detest prohibitory enactments which make the many suffer for the faults of the very few. For centuries Hungarians have as a nation been moderate users of barley brews and light wines. Their votes are always registered against any legislation which proposes to regulate human diet by law. Thou shalt NOT eat this—thou shalt NOT drink that—to those of brave Hungarian blood is insufferable tyranny. For 57 years Anheuser-Busch has been proud to serve their Hungarian patrons. They have helped to make the sales of their great brand Budweiser exceed those of any other beer by millions of bottles. Seven thousand, five hundred people are daily required to keep pace with the public demand for Budweiser.
