Dick slunk to the back of his cage as the manicuring party approached. He let out a roar which shook the building

A hundred other beasts leaped to the bars of their cages and sent forth a reverberating volley. Only Miss Murphy, with a placid expression on her-broad counten-ance, looked on imperturbably from the hippopotamus tank. She saw Snyder mount to the top of Dick's cage with a rope. Dick glanced upward, and his eyes filled with a green and baleful light. A noose dangled above his head, The keepers thrust a scantling between his jaws. They snapped like a trap, and the finger-long fangs crushed the scant-ling. The muscles rippled over the tiger's body as it prepared to spring. The keepers shouted to divert the beast, and again terrific din filled the building as Dick and Welland Canal Opens.

"By night or by day, whenever an order is in course of execution for the Japanese Government, there in the workshop is the representative of Japan, supervising, testing, rejecting all that is not above the slightest suspicion of defect or flaw. When relieved by his colleague he does not rush out like a schoolboy from school, as if released from an irksome task. The twain observe together until the newcomer has picked up the threads and can apply himself as minutely as his predecessor to the details of the business. Indefatigable and incorruptible, working heart and mind for the honor of Japan, these watch-dogs of the Mikado have contributed, unseen but effectively, to the overwhelming triumph of their country.

The little birds fly over, And oh, how sweet they sing! To tell the happy children That once again 'tis spring.

The gay green grass comes creeping, soft beneath their feet;

A music clear and sweet. And buttercups are coming And scarlet columbine; And in the sunny meadows The dandelions shine.

The frogs begin to ripple

And just as many daisies As their soft hands can hold, The little ones may gather, All fair in white and gold.

Here blows the warm red clover, There peeps the violet blue; o happy little children, God made them all for you!

of good bread is good wheat. There is a difference between the abilities of women as cooks—and there is a difference between the mills where "FIVE ROSES" FLOUR is made and the ordinary mills, but unless the wheat is good neither the best cook nor the most up-todate mill can insure the best bread.

It is admitted that the finest wheat in the world is grown in Manitoba. The soil is a deep, rich alluvial deposit, containing just the elements needed for wheatgrowing. The raintall is moderate, and the days long and clear, giving the growing wheat a maximum amount of sunshine. The result is a wheat which is rich in gluten, phosphates and nutriment, and of such a hardness that it grinds to perfection.

With the numerous elevators we have scattered throughout Manitoba and the Northwest we are able to secure the pick of the harvest, and the users of "FIVE ROSES" FLOUR get the best flour that can be made from the best wheat in the world.

> The British consul at Salonica quoted a "typical instance," which involves the at-tempt of the authorities to discover the murderers of a Mussulman landowner's steward. After the murder the local officials appear on the scene, and, assisted by the undisciplined soldiery, endeavor, by beat-

ing and torture, to extract from the villagers the names of the assassins. Then follow the "procureur," with his abortive judicial inquiry, and the doctor, whose medicines had not been delivered to the sufferers three weeks after the event." Sir Nicholas O'Connor, the British ambassador at Constantinople, holds the insurgent bands mainly responsible for crimes committed between Jan. 1 and Aug. 27, 1905.
"If," he writes, "the number of persons killed by them, or on their account, were eliminated from the death roll, the gen-

A table published shows that out of a total of 362 persons killed by the insurgent bands in the seven months mentioned, 299 were Christians and 72 Moslems.

SNAP-SHOTS AT VARIOUS SPORTS

There were 252 delegates and 25 officers, past and present, entitled to vote at the C. L. A. convention, making a grand total of 277. Yet there were 279 cast for president. Something wrong somewhere, says the Star. Can it be that the C. L. A. is crooked?

The Torontos and Tecumsehs were turned down by the N. A. L. U. Great! To the village class for them!

The Toronto Telegram man has caught the fever from Mount Vesuvius, and spits out a roast at a Toronto contemporary and at sundry other people. One would imagine that Bat Masterson, that celebrated litterateur, was editing the Telegram's sporting page, it is so mild and even-tempered. But the apologist of the O. H. A. has to paw gravel, and becloud the situation in its remarkably facile way. It cannot get away from the Rowe case, although most of us were willing to let it rest until next fall. The great difference between the O. H. A. and its critics is that no anonymous letter writer or Jim the Penman should dictate to an executive of reasonable men. If the declarations had been statutory, all would have been well. As it stands, it is merely foolish.

The Rowe case has been illuminated with sparkling sawdust from the abundantly-stuffed intellect of a Toronto sporting column. The ignoramus musings of the journal which misused the Falconbridge decision are somewhat responsible for Barrie's misunderstanding of the points at issue in the

The O. H. A. deserved the good word of every journal that believes in amateur hockey. D. L. Darroch should have been praised, not blamed, for his share in the action of the case of Mr. Rowe. The suggestion that the action of President Darrach or of the O. H. A. was inspired by ill-will to Mr. Rowe = jealousy of Barrie is beneath contempt, but it is not lower than the tacses or the journal that has befooled Barrie in this controversy.

It was not ill-will to Rowe, but goodwill to the O. H. A., that inspired the action of the executive. To have left Mr. Rowe in, in the face of the facts presented, would have been to create a precedent that would have let everybody else in that could plead a similar state of facts. The O. H. A. executive satisfied itself that Mr. Rowe should go out. Accordingly, Mr. Rowe went

The critics of the O. H. A. could' have presented facts that would have vindicated Mr. Rowe if they could get at these facts. There was no desire to wrong Mr. Rowe or impair Barrie's chances of a championship. Mr. Rowe went out because the authorities constituted by the O. H. A. decided that the facts warranted his retiremen.

If the critics of the O. H. A. could have produced another state of facts, that would have warraned Mr. Rowe's reinsatement, the O. H. A. could have been overwhelmed by argument.

Brown & Wigle, Windsor, have just sent to Dan Hopkins the 4-year-old plack mare, Miss Daphne Direct, by Direct-Madam Daphne, by Alcantara. She is a very likely acting pacer, and is a full sister to Daphne Direct, 3:08 1-4, that won many starts in the big circuit a few years ago.

The British League baseball championship may occupy good space in the sporting columns of the English newspapers some of these days. And if this comes to pass, Cecil Rhodes may be credited with it. Many of the Rhodes scholars at Oxford from the United States are experts at baseball, and they are numerous enough to be able to make up two pretty evenly-matched nines. The game has aroused some interest among the Oxford undergraduates, though it has not yet succeeded in gaining a place among recognized

Some enterprising Americans have, however, become convinced that a league will be successful, and propose to try it anyway. Already the preliminary steps have been taken to form a club in London, and, it is said, that Richard Croker is back of a movement to start another in Dublin. If these prove successful others will be formed, and the British international league will follow. It is the purpose to bring over several professionals from the States to help get the game going in proper shape.

Great Britain expects to at least divide honors with the American athletes at the Olympian games at Athens. Since the American team was announced there has been a careful study of their records, and while it is admitted the race will be close between the two Anglo-Saxon countries for first honor, the hope is strong that the mother country will take most

J. W. Horne (late Cambridge University), the 400 and 800 meters races. S. H. Carnelly (Oxford University A. C.), the 5-miles and Marathon

Lieut, H. E. Hawtrey (London Athletic Club and Thames Hare and Tounds), the 5-miles and Marathon races.

D. W. Walters (Cardiff A. C.), the 110-meters hurdle race. R. E. Wilkinson (Liverpool A. C.), the 1,500-meters walking match.

Lieut. Wyndham Halswell (Edinburgh H.), the 400 and 800 meters race.

J. McGough (Bellahouston Harriers), the 1,500 meters race. A. E. D. Anderson (Bellahouston Harriers), the 400 and 800 meters

Each of these men is a champion.

Dan McEwen, the London driver is a busy man these days. For some time he has been giving his string of horses slow work, but since the track at Queen's Park has been getting in good shape, he has been stiffening their

His stable comprises fifteen horses at present, and they are the best bunch that has been gathered together for many years in these parts. When Dan goes around the big ring, he's liable to show them more sensations than last year. All the horses have wintered well. Most of them have come through without a drawback, and a month's hard work will keep them up to concert pitch. The fastest record horse in the stable is Geary, 2:06%. The chestnut "wiggler" is looking better than ever, and there is not a sign of trouble with him. He ought to be in the money down the big ring all right. Missouri Chief, 2:101/4, is a good one. He is in better shape than he has been for some time. Wise horsemen predict that the Chief will prove the sensational Canadian pacer of the season. He won a number of races last season on the Michigan circuit and look ripe for the big ring.

Delbars, 2:1114, is a Monbars mare of much promise. She is big and strong, and ought to clip a few seconds of her mark. She was not in good condition up till nearly the latter part of last season, but she came fast at the end. She ought to get something this season,

Wisdom King, 2:151/2, is going to get his first chance at the big purses. He is a great old campaigner, and should win a lot in his class.

Hal. Galvin, 2:2714, is a gray "paster," with a terrific burst of speed, but his legs went back on him last season, and he was let out. His underpinning looks good at present, and he ought to get down to a lower mark easily. Queen of Clubs, 2:151/2, is in good condition, and looks fair to go fast.

Tom Wood, 2:2014, is a fast trotter Dan is taking down the line. He is a big bay stallion with a splendid burst of speed. He has stamina and is game and ought to land right. This horse looks good. He is engaged in some big stakes, among them being the \$10,000 Hartford purse.

Henry Winters is a green trotter, belonging to Johnston Bros., and he is staked well on the Grand Circuit. He is a nice going horse, and has shown much speed. He ought to do.

There are a couple of other Grand Circuit horses to be sent in, and then his string ought to be completed. There are several other horses Dan is reparing for the Canadian and Michigan circuits. They include Grace lerton, a big lateral-gaited mare by Allerton, which has shown some fast Trials; Never Agein, by Mendocino; Humming Bird, a full sister to Blackbird, which Havers James is taking down the Grand Circuit, and on whose

chances James is so sweet; and Chrissy M., 2:231/4. Mr. McEwen will not race much off the Grand Circuit. He will probably start at Listowel, Stratford and London and then go down the line. The Canadians ought to take down a bunch of money this year with their fast COVERPOINT.

PORK REACHES A RECORD PRICE

the London Market This Morning.

Seven dollars and fifteen cents a hundred pounds was paid for hogs on the London market this morning. This is the highest price ever paid for live porkers in this city, and it can be attributed to no other cause than the great scarcity of pigs throughout the entire western district,

Farmers who have hogs to sell are matters in connection with the Dominnot holding back for higher prices, but even then the supply is very limited, and altogether insufficient to meet the needs of the packing houses. "There's money in raising hogs

now," one farmer said on the market this morning. He had reason to say so. In December he bought a pair of six-weeks-old pigs on the market for \$7. Today he brought them to Dan McIntyre, buyer for the Canadian Packing Company, for \$34. They weighed slightly less than 250 pounds On the Contrary, Horse Was Shown

The farmer said that the feeding of the hogs had not cost him over \$4, wing him a net profit of \$23. Another farmer brought a load seven, which aggregated nearly 1,600 pounds. He also sold to Mr. McIntyre, and received a check for \$109 75. This was certainly a great day for the man who had hogs to sell.

SNAP-SHOTS AT VARIOUS SPORTS

There were 252 delegates and 25 officers, past and present, entitled to vote at the C. L. A. convention, making a grand total of 277. Yet there were 279 cast for president. Something wrong somewhere, says the Star. Can it be that the C. L. A. is crooked?

The Torontos and Tecumsehs were turned down by the N. A. L. U. Great! To the village class for them!

The Toronto Telegram man has caught the fever from Mount Vesuvius, and spits out a roast at a Toronto contemporary and at sundry other people. One would imagine that Bat Masterson, that celebrated litterateur, was editing the Telegram's sporting page, it is so mild and even-tempered. But the apologist of the O. H. A. has to paw gravel, and becloud the situation in its remarkably facile way. It cannot get away from the Rowe case, although most of us were willing to let it rest until next fall. The great difference between the O. H. A. and its critics is that no anonymous letter writer or Jim the Penman should dictate to an executive of reasonable men. If the declarations had been statutory, all would have been well. As it stands, it

The grouch: The Rowe case has been illuminated with sparkling sawdust from the abundantly-stuffed intellect of a Toronto sporting column. The ignoramus musings of the journal which misused the Falconbridge decision are somewhat responsible for Barrie's misunderstanding of the points at issue in the Gowa case.

The O. H. A. deserved the good word of every journal that believes in amateur hockey. D. L. Darroch should have been praised, not blamed, for his share in the action of the case of Mr. Rowe. The suggestion that the action of President Darrach or of the O. H. A. was inspired by ill-will to Mr. Rowe = jealousy of Barrie is beneath contempt, but it is not lower than the taces or the journal that has befooled Barrie in this controversy.

It was not ill-will to Rowe, but goodwill to the O. H. A., that inspired the action of the executive. To have left Mr. Rowe in, in the face of the facts presented, would have been to create a precedent that would have let everybody else in that could plead a similar state of facts. The O. H. A. executive satisfied itself that Mr. Rowe should go out. Accordingly, Mr. Rowe went

The critics of the O. H. A. could' have presented facts that would have vindicated Mr. Rowe if they could get at these facts. There was no desire to Wrong Mr. Rowe or impair Barrie's chances of a championship. Mr. Rowe went out because the authorities constituted by the O. H. A. decided that

If the critics of the O. H. A. could have produced another state of facts, that would have warraned Mr. Rowe's reinsatement, the O. H. A. could have been overwhelmed by argument.

Brown & Wigle, Windsor, have just sent to Dan Hopkins the 4-year-old plack mare, Miss Daphne Direct, by Direct-Madam Daphne, by Alcantara. She is a very likely acting pacer, and is a full sister to Daphne Direct, 2:08 1-4, that won many starts in the big circuit a few years ago.

The British League baseball championship may occupy good space in the sporting columns of the English newspapers some of these days. And if this comes to pass, Cecil Rhodes may be credited with it. Many of the Rhodes scholars at Oxford from the United States are experts at baseball, and they are numerous enough to be able to make up two pretty evenly-matched nines. The game has aroused some interest among the Oxford undergraduates, though it has not yet succeeded in gaining a place among recognized

Some enterprising Americans have, however, become convinced that a league will be successful, and propose to try it anyway. Already the preliminary steps have been taken to form a club in London, and, it is said, that Richard Croker is back of a movement to start another in Dublin. If these prove successful others will be formed, and the British international will follow. It is the purpose to bring over several professionals from the States to help get the game going in proper shape.

Great Britain expects to at least divide honors with the American athletes at the Olympian games at Athens. Since the American team was announced there has been a careful study of their records, and while it admitted the race will be close between the two Angio-Saxon countries first honor, the hope is strong that the mother country will take most

Each of these men is a champion.

Dan McEwen, the London driver is a busy man these days. For some time he has been giving his string of horses slow work, but since the track at Queen's Park has been getting in good shape, he has been stiffening their work considerably.

His stable comprises fifteen horses at present, and they are the best bunch that has been gathered together for many years in these parts. When Dan goes around the big ring, he's liable to show them more sensations than last year. All the horses have wintered well. Most of them have come through without a drawback, and a month's hard work will keep them up to concert pitch. The fastest record horse in the stable is Geary, 2:06%. The chestnut "wiggler" is looking better than ever, and there is not a sign of trouble with him. He ought to be in the money down the big ring all right. Missouri Chief, 2:101/4, is a good one. He is in better shape than he has been for some time. Wise horsemen predict that the Chief will prove the sensational Canadian pacer of the season. He won a number of races last season on the Michigan circuit and look ripe for the big ring.

Delbars, 2:1114, is a Monbars mare of much promise. She is big and strong, and ought to clip a few seconds of her mark. She was not in good condition up till nearly the latter part of last season, but she came fast at the end. She ought to get something this season,

Wisdom King, 2:151/2, is going to get his first chance at the big purses. He is a great old campaigner, and should win a lot in his class.

Hal. Galvin, 2:2714, is a gray "paster," with a terrific burst of speed, but his legs went back on him last season, and he was let out. His underpinning looks good at present, and he ought to get down to a lower mark easily. Queen of Clubs, 2:151/2, is in good condition, and looks fair to go fast.

Tom Wood, 2:2014, is a fast trotter Dan is taking down the line. He is a big bay stallion with a splendld burst of speed. He has stamina and is game and ought to land right. This horse looks good. He is engaged in some big stakes, among them being the \$10,000 Hartford purse.

Henry Winters is a green trotter, belonging to Johnston Bros., and he is staked well on the Grand Circuit. He is a nice going horse, and has shown

There are a couple of other Grand Circuit horses to be sent in, and then

his string ought to be completed. There are several other horses Dan is reparing for the Canadian and Michigan circuits. They include Grace lerton, a big lateral-gaited mare by Allerton, which has shown some fast frials; Never Agein, by Mendocino; Humming Bird, a full sister to Blackbird, which Havers James is taking down the Grand Circuit, and on whose chances James is so sweet; and Chrissy M., 2:231/4.

Mr. McEwen will not race much off the Grand Circuit. He will probably start at Listowel, Stratford and London and then go down the line. The Canadians ought to take down a bunch of money this year with their fast COVERPOINT.

SEARS TAKES CUP.

New York, April 15.-The final results of the annual championship matches of the United States Revolver Association were made public yesterday. S. E. Sears, of St. Louis, won the revolver match with a total score of 451. Dr. N. B. Moore, of St. Louis, was second, with 447, and Lieut. H. R. Sayre, third, with 435. The pistol championship was won by J. A. Dietz, of New York, with a score of 447. J. B. econd, with 443, and Thomas Andonder third, with 440. This was the on Saturday evening, it was decided unanimous judgment at a caucus not to entertain the applications of the meeting of the members. The withdrawal of the club is entirely due to the fact that during the last three years fotball has not been on a paying button. basis in Galt. The attendance has Thomas Carlind, of Montreal, vice- fallen away to such an extent that to ENTRIES FOR STAKE continue in the game would be a financial loss. There are many reasons advanced for the small attendance which have marked the regular scheduled W. F. A. games during the past three seasons. The principal reason is that the competition has not been sufficiently keen. The Galt team has had so little diffi-

culty in trimming all visiting teams that the result has been taken as a foregone conclusion, and the element of doubt which is to a large extent the magnet which draws a crowd, has been removed. At the St. James' Anglican Sunday School yesterday eleven scholars were given prizes for attendance.

Rev. W. J. Clark preached the opening sermons at the new Presbyterian Church at St. Marys yesterday, and his pulpit here was taken by Professor Ballantyne, of Knox College.

Good singing by the choir, under the direction of Miss Raymond, was a feature of Sunday evening's services in Adelaide Street Church. Miss Kilgour's solo, "I Heard the Voice of Jesus Say" (Rathburn), was given with remarkable sweetness of expression and great clearness.

The special services commenced at the Dundas Street Church on Monday last by Miss Millar and Miss Angey Taylor will be continued every evening this week.

The organist and choir of the First Congregational Church must have felt amply repaid for their extra efforts in preparing for the Easter services by spiring. Miss Williams and Mr. Ernest Moule assisted the choir, and both were in fine voice, their solos adding much to the interest and impressiveness of the service.

Mr. Sonley, who has for some time been familiar with the locality, has collected a quantity of valuable relics from the vicinity, and the subject of this location will be discussed by him at the meeting of the London and Middlesex Historical Society meeting tomorrow (Tuesday) evening, at their regular meeting, at which any citizens interested will be welcome. Dr. Woolverton will give a paper descriptive of the fort.

TALKED SPECIALLY TO THE MEDICOS

Rev. E. B. Lanceley Addresses Students at Dundas Street Methodist Church.

Over one hundred students of the London Medical College attended the Dundas Street Mthodist Church in a body last evening, the pastor of the church, Rev. E. B. Lanceley, having consented to preach especially to them. Many members of the college faculty were also in attendance.

Mr. Lanceley, at the close of the sermon, made an announcement of special interest to the members of the graduating class. He stated that in addition to the medals, prizes and diplomas to be presented at the commencement exercises, there will be given a medal to the graduate who has exerted the strongest moral influence upon his fellow-students of the class during the college year. The question of who is entitled to the medal will be decided by the members of the class. The medal is to be donated by a member of gard.
