Lynch himself took the floor in opposition to the "Progressives" proposal to appoint board of eighteen directors, who would be given much of the power would be given much of the power pow wielded by the president and the executive council of three. Turning the gavel over to Vice-President George A. Tracy, Lynch, in a fiery speech, condemned the anti-administationists as "theorists with quack remedies" for imagined fils of the organization. He declared that every secalled progressive measure that has so-called progressive measure that has yet been offered would if adopted, mean \$50,000 to \$60,000 a year for a writ of habeas corpus was field greater expense. Although the proposed legislation contemplated the Detroit today by Attorney James H. elimination of autocracy, Lynch said Found, on behalf of William Ferguthat if it were passed and he could "the most complete existence," he would of Immigration Inspector H. You are told I have a machine. Well, maybe I have, but if you want to see a smoothly running, well-oiled machine, just attend the next convention ccurts. The hearing of the applica-tion will come up probably next of the American Federation of Labor and watch the workings of its executive board of eleven members. That is what your eighteen members board of directors would be.' For fifteen minutes a demonstra-

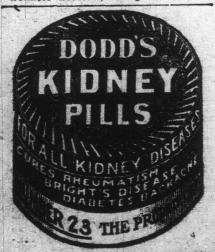

tion for Lynch continued on the conclusion of his speech, and shortly ter the convention defeated the board proposition overwhelmingly. The ladies' auxiliary of the union

is still in turmoil. Tonight the main body is awaiting the return of the books by Mrs. Frank W. Long, secretary and treasurer, who walked out of the conventon, followed by a small coterie, because her choice for stenographer was not that of the auxiliary. Today a registered letter was sent Mrs. Long, demanding the return of the books and records. The only acknowledgment was the re-ceipt of their letter. The auxiliary has consulted a lawyer and also has advised its bank to honor no drafts made by Mrs. Long upon the body's

[Special to The Advertiser.] Newbury, Aug. 15.—The second Gld Eoy's reunion opened here under ideal weather conditions. Every train brought its quota of visitors and all had a good time. The park committee greatly improved the park since the last reunion in 1997. A commodious grandstand has been and the Croton band rendered the first music from the newly exected

A Fine Program.

The program for the first day was well carried out, the various games and races being keenly contested. The eception and rehearsal of old times on the grandstand on Tuesday evening was delightful.

Claim Canadian Courts Have Investigation to Take Place Over Row Between Officials

at Windsor Windsor, Aug. 15.-An application [Special to The Advertiser.] Windsor, Aug. 15.-A merry war is

between various members of the staff at the customs house here. Col-lector of Customs Dr. J. A. Smith and several of the members of the local customs staff have been unable to agree on several ethical points of late. Today, when John Barnett, who for a quarter of a century has had superision of the mail and express department, was instructed by the collector to remove his office to an old disused building formerly occupied by the department of weights and measures, he flatly refused to obey the order, on the ground that the old building was insanitary and unfit for occupancy in its present condition.

Another officer, G. H. Bennet, who for years has been on duty at the ferry landing, was recently ordered to report for duty at the Michigan Centrat tunnels but declined to pay an attention to the mandate, and has taken steps to bring the affair to the attention of the Minister of Customs at

Patrick Handahan, who was re-cently named as chief landing waiter, and was presumably in charge of the officers, was not consulted in the matter of the changes, it is alleged, and this has proved to be another thorn in the official side. It is probable the affair will lead to a thorough statistics department of the Dominion investigation of certain matters in the department at this point, which for some time have required attention.

Yet the imports were 7 per cent, above those of 1910-1911, and the exports 8 per cent, higher; compared with the returns of 1901-2, the figures show an increase of 70 and 83 per cent. respectively, a splendid growth. Revenue for 1911-12 amounted to \$280,000,000, expenditure to \$250,-000,000, a gratifying surplus of \$20.-000,000 being shown.

Estimates are hard to make with accuracy in Indian finance. So much depends on the crops of the coming year, and opium prices cannot be gauged. In our country frost is perhaps the greatest factor of uncertainty. In India drought is the enemy. Last year, for example, while the grain crops turned out finally pretty well, they came very near to being a complete failure in large regions of India. A Vision of Carlyle

Thomas Carlyle, of Chelsea, living on the shores of Shoal Lake, a little sheet of water in Northwestern Manitoba! That was the strange intelligence which reached a Winnipeg friend of mine when he was indulging in a cheese dream the other night. And in his dream it seemed to him that when he heard the wonderful news he made all haste to visit the prosaic little town. After making diligent inquiries where the grand old prophet was, he came to a little shack on the lake shore. It was built of green poplar logs and was located in a picturesque little cove whose pebbly shore sloped down to the blue water. He took in "An', teacher," he cried, "they had the scenery incidentally as he rapped on the rude door of the literary shrine. LONDON SCORED 5 IN FIFTH INNING

Chaput Twirled His First Game and Was Hit Hard-Fox Starred in Field.

[Special to The Advertiser.]

Ottawa, Aug. 15.-Ottawa and London went nine weird but exciting innings to an 8-8 score yesterday afternoon in the second game of the series under way at Lansdowne Park. Darkness hove in sight after two hours and a half of riotous going, so Umpire Phyle called off the hostilities, and a double-header will be staged Saturday to decide the tie. Each team had two great big three-

ringed innings, but the fifth, in which London sent six men across the rubber, was the most wonderful of the lot. Incidentally, it brought very much into the limelight Artie Schwind, who has been setting the cium fell on the crack shortstop at a time when he would have preferred to have been behind the curtain. In Four Hits, Including a Double and this one Schwind dropped a pop fly beoted a grounder and threw two balls to the grand stand, every error costing runs. It was a bad day for the little fellow, but he sort of aton-ed for his bad showing in the field by cracking out three safe hits, and started the rally in the sixth that enabled Ottawa to overcome a three

Chaput Was Hammered. "Frenchy" Chaput, London's new pitcher, just fresh from the South, was sent in against Fred Herbert, but didn't look very good after two or three rounds. Herbert, on the other hand, started off splendidly, and beyond a slight liberality with passes looked master of the situation up till the time Schwind ran amuck. With 2,000 followers in the stand, half of whom were lady fans, the Senators set out to put the game away at the start. They came through with one in the first, another in the second and London, in the two in the third. meantime, secured one in the third, ed as if affairs would continue this way, when the hippodrome

transpired in the fifth.

THE BIG INNINGS. Speer, the first man up, popped a fly inside the diamond which both Robertson and Schwind went for, and which Schwind proceeded to drop. Neale singled. Speer was caught napping off second. Chaput walked and Linneburn hit to Schwind, who had plenty of time to make a double but juggled the ball so long Neale was round third and hit for the plate. Schwind then threw fifty feet over Hooper's head in an attempt to catch Neale, and the latter scored with Chaput. Dinsmore then singled to centre, sending Linneburn to third. Gilhooley hit to Schwind, who fielded the ball cleverly but threw it to the grandstand in an effort to head off Linneburn. Bierbauer hit to centre, Gilhooley scoring. Kelleher walked, and Bierbauer scored on Fox's infield tap. Speer came up for the second time and flew out to left. Neale end-ed the horror by striking out.

A chagrined crowd suddenly became joy-stricken when the Senators hit right back, with three runs, tying the game. In the eighth London went ahead again on the squeeze play, but Ottawa got it back in their half. Darkness then drove the teams to cover.

It was announced today that Otta-wa had sold Pitcher Erwin Renfer to Providence International team club, and he will report there at the close of the present series with London. Pitcher McManus has also been sold o Cincinnati, and will report as soon as he recovers from his recent ill-1

NAT GOODWIN BADLY INJURED

Los Angeles, Cal., Aug. 15.—Nat Goodwin was badly injured today at Rocky Point, near Hueneme, by being thrown on the rocks from a skiff. The heavy breakers threw the actor out of the boat upon the rocks, and then, while he was helpless, the boat was dashed upon him. His injuries are mainly internal, and doctors can't tell whether they will prove fatal.

Goodwin and a woman of his company engaged the launch Nora, Captain Albert Hyder, of Santa Monica, to make a trip up the coast today with a view of locating some land which, Goodwin said, he wished to buy and convert into a summer

The woman had a note, which she told Captain Hyder was for an Indian who lived near Hueneme, and when a spot 12 miles of that place had been reached she espied an Indian's hut, and demanded that Captain Hyder take her note ashore and give it to the Indian. Hyder refused, because of the strong and give it to the Indian. Hyder refused, because of the strong tide and rough breakers, but Goodwin, taking off his coat and vest, grabbed the note and jumped into a rowboat.

As the boat reached the breakers line it was overturned. Goodwin was thrown upon the shore and stunned. With the roll of breakers the boat was thrown upon Goodwin.

Hyder got Goodwin into the launch, and hurried to Santa Monica, where the actor was placed in a hospital.

THREE FOR AN INQUIRY

Dismissal of City Inspector at Instance of a Contractor Came Before the City Council Again.

There will be no investigation by the city council into the dismissal of Inspector Rymill. At the session held last evening the report of the committee named some time ago to investigate the charges that the dismissal of Rymill would intimidate the other inspectors was read. The finding was to the effect that the various inspectors had been examined, and it was found that no intimidation existed. To this report Ald. Bennett objected, and asked that the scope of the committee's powers be enlarged to include a thorough investigation of the Rymill case, and the dismissal of any other

inspector. "The committee investigated some charges alleged to have been made by myself," said Ald. Bennett. "I never THREE PHONES:

"It is a tempest in a teapot," opined Ald. Wright. "The fact that Rymill is still in the employ of the city is suffi-
