WALL PAPERS

Special Opening Display, Wednesday, March 29th.

To make our house furnishing department more complete we have added to it a magnificent collection of Wall Papers.

We have obtained for this district the sole agency of the famous Birges' Wall Papers. These papers are manufactured in Buffalo and bear the reputation of being the finest grades manufactured in America.

In addition to Birges' Papers we have purchased a large consignment of Canadian Papers in low and medium grades, so we will be able to fill your Wall Paper needs at 5c a roll or \$1.50 a roll.

To give special prominence to this new department we will on Wednesday of this week have an opening display in our Carpet department, 2nd Floor, and cordially invite you to come and see the most strictly up-to-date designs in new Wall Papers.

Thos. Stone & Son.

Premier of Ontario Writes Premier of the Dominion.

Correspondence With Reference to the Proposed Expansion of the Provincial Boundaries Laid on the Table of the Legislature—Sir Wilfrid Laurier Hon. Mr. Whitney That He Had Formatted the Dominion's Action.

Toronto, March 28.—In the Legislature yesterday the Premier laid on the table the correspondence between the Government and Sir Wilfrid Laurier with reference to the division of the territory of Keewatin, between the Provinces of Ontario and Manitoba.

The House sat about ten minutes and the only other matters touched upon were the selection of a committee to strike the standing committees, and an announcement by the Premier concerning the funeral of the late Andrew Miscampbell. Mr. Whitney said the death of Mr. Miscampbell, who was a former member of the House, had carried grief to a large number of his acquaintances.

The Premier moved that the following be the members of the special standing committee to prepare and report lists of members to compose the select standing committees: Attorney-General, Matheson, Willoughby, Preston (Lanark), Mahaffy, Thompson, (Simcoe), Hoyle, Clarke (Bruce), MacKay, Pense, Graham and Preston (Brant).

Mr. Whitney remarked, with a dry look across the floor, that on looking up last session's record he found that the striking committee had not reported for twenty-two days after it was appointed. He hoped the present committee would do better than that.

The correspondence with Sir Wilfrid Laurier is as follows:

Whitney to Laurier.
My Dear Sir Wilfrid Laurier,
I have noticed several statements in the press of the Province during the past week referring to an alleged proposed division, by the Dominion among the Provinces, of the territory lying to the south and west of James Bay and Hudson Bay, and known as the territory of Keewatin.

Presumably the Province of Ontario should be entitled to a large portion of this territory, and should be heard with reference to any proposed division of it.

Assuming that such a division is in contemplation, I respectfully and earnestly urge upon you that the details of such division be decided upon, or even considered, the Province of Ontario be allowed to submit to the Dominion Government for consideration with reference to such division, its claim to that portion of such territory as it may fairly urge should be allotted to it.

Yours faithfully,
(Signed) J. P. Whitney.
The Right Hon. Sir Wilfrid Laurier, Ottawa.

Laurier to Whitney.
Ottawa, March 4, 1905.

My Dear Mr. Whitney:
I have the honor to acknowledge the receipt of your favor of the 2nd of March. You have anticipated the action which I intend to take. The Province of Manitoba has asked us to have its territory extended to Hudson Bay. It seems to me that this is a matter in which the Province of Ontario might have an interest. I will ask the Secretary of State to send you an official copy of the claim of Manitoba. In the meantime, I send you one under cover.

Yours respectfully,
(Signed) Wilfrid Laurier.
Hon. J. P. Whitney, Toronto.

Mr. Hoyle (North Ontario) has given notice of his intention to introduce a bill to amend the Joint Stock Companies' Act, compelling companies to give complete information in their prospectuses of lands and money and also what commission is to be paid agents for soliciting subscriptions, so that investors may know just what the bona fides of the company is. This bill is patterned after the British act, and is designed to protect the public from wildcat schemes.

TORONTO TO HON. J. P. WHITNEY.

Queen City Representatives Honor the Premier of the Province.

Hon. J. P. Whitney, Premier of Ontario, was given a flattering reception in the Council chamber of the City Hall yesterday. The finest palms and flower-giants from the Park Commission's greenhouses were lavishly used to decorate the room. In addition to all of the heads of the civic departments, and loud applause greeted the Premier as he entered, escorted by Chairman Graham of the reception committee, and followed by Controller Ward, who preceded Hon. Mr. Fox and Hon. Dr. Fyne, the city's representatives in the Cabinet.

Mayor Urquhart, received the guests, and, escorting Hon. Mr. Whitney to a seat on his right, at once began the reading of the address.

The Civic Address.

To the Hon. James P. Whitney, K.C., Premier of the Province of Ontario.

"We, the mayor and council of the city of Toronto, take this, the first opportunity afforded us of congratulating you upon your accession to the high office of premier of the Province of Ontario. Representing as we do, without respect to their political views, the inhabitants of this city, it affords us much pleasure to know that the chief place in the councils of this great province is occupied by one so well fitted by his ability, integrity and experience to direct with skill and prudence the affairs of the government.

Appreciate Past Hope in Future.

"Many of us have had occasion to meet you, while you were discharging

your duties as a member of the legislative assembly, and later as leader of the opposition, and we are confident that the courtesy with which you met all the demands on your time, and the attention which you gave to the business of the hour, will be exercised, if possible, in a greater degree in the discharge of the duties of your present position; and we feel assured that nothing will be left undone on your part in furthering the development, protecting the interests, and economically and efficiently administering the affairs of our province.

City Will Help Government.

"Recognizing the fact that the welfare and prosperity of the province means the welfare and prosperity of its chief city, we have no hesitation in giving the assurance that it will always be the aim of this council to strengthen the hands of your government in everything which will tend, not only to the material, but also to the moral advancement of our people.

"In congratulating you upon your selection of colleagues, it is a pleasant duty to give expression to the pride and satisfaction with which our fellow citizens appreciate the honor which has been bestowed upon two of our worthy and popular representatives in the legislature.

Desired as a Resident.

"In offering you a hearty and cordial welcome to our city, we would express the hope that in the near future we may have the pleasure of learning that you have decided to reside permanently in Toronto. In this event we feel that we can confidently assure you that nothing will be left undone on the part of our citizens to make the residence of the Premier of Ontario a pleasant one.

"We conclude with an earnest expression of hope that long life, prosperity and happiness may be yours, and be safely to yourself and the members of your household.

After the applause had subsided, the Premier said it was with great satisfaction that he heard the formal and somewhat elaborate expression of the acquiescence of the people of Toronto in the verdict given by the people of Ontario in regard to the Government of the Province. The function was an other evidence of the good old British practice that from time to time the people should express officially their acquiescence in the Government of the Province, and the acceptance of the verdict of the people. He hoped the rule in future would be continued as Governments came and went, and the will of the people as to who their rulers should be would be respected.

There was nothing of a party nature in the function. If it were not so, it would not have been as satisfactory to him as it was.

Delighted to Honor.

On the conclusion of Mr. Whitney's address, Controller Hubbard moved that the Council adjourn for 15 minutes, and during the interval the members and civic officials, with many representative citizens, were presented to him by the Mayor. The Premier then resumed his seat on the dais and Council concluded the business of the day, after which an informal levee was held in the members' room.

In Honor of the Dead.

The funeral services were held at the home of the late Andrew Miscampbell last evening by Rev. P. M. Macdonald, Cowan Avenue Presbyterian Church. Rev. P. F. Sinclair, of Sarnia, and Rev. D. C. Hosack, among those who were present were: Premier Whitney and the Honorable St. John, Matheson, Fyne, Monteith and Willoughby, W. R. Smyth, M. P. F., and Robert Galna, M. P.

Wreaths have been sent by the Legislature, the Cabinet, the Opposition, Hon. Mr. St. John, Messrs. Gurney, Smyth and Galna, representing New Ontario, the Masonic Lodge, the Conservative Association, and Ward's Conservative Association.

The remains were taken to Barrie this morning.

G. T. P. BONDS.

Rothschild's Concession re Three Per Cent. Causes Surprise.

London, March 28.—(C. A. P.)—The city is somewhat surprised at the decision of Rothschild & Sons to bring out \$3,200,000 of 3 per cent. sterling bonds of the Grand Trunk Pacific at 95, especially after the Canadian Northern, Masco, which offered the same terms. Messrs. Rothschild, however, make a concession in giving a full half year's dividend at the beginning of October, instead of interest on the instalments paid only. It will be very interesting to see how things develop. At one time in the afternoon the issue was offered at 1-4 discount, but it was afterwards supported at par. The Canadian Northern issue stands at 1-4 discount.

Motors Affect Horsebreeding.

London, March 27.—(C. A. P.)—At one of the recent spring farm sales in the north of England there was a heavy fall in prices of cart horses. A prominent horse-breeder, asked by the Canadian Press the reason of the drop, replied that he attributed it to the increasing use of motor vehicles for town work. The motors are affecting the horse-breeder in many ways. Canadian breeders, if they have not already done so, as the omnibus companies are at present, their "omnibuses" and very soon the horse-drawn omnibus will be scarcely seen in London streets.

TEN YEARS FOR MRS. CHADWICK.

Still Sentence Given to the Woman With Compelling Eyes.

Cleveland, March 25.—Judge Taylor, in the United States District Court yesterday afternoon, overruled a motion for a new trial in the case of Mrs. Cassie L. Chadwick and at once sentenced her to ten years' imprisonment.

Some false teeth look so natural that they ought to ache.

There are ways of issuing commands which make them seem oppressive.

"ON TO VLADIVOSTOCK"

Main Army of the Japanese Turning in That Direction.

Idea is Borne Out by Withdrawal of Army 35 Miles South From Gunsu Pass—Russia Will Mobilize Five Corps—Internal Situation of Russia Daily Becoming More Ominous—Russian Loan to Issue.

St. Petersburg, March 28.—The impression prevalent in some military circles that the Japanese, having removed the possibility of the main army in Manchuria assuming the initiative, will now turn their attention to the next objective point of the war, Vladivostock, is strengthened by an Associated Press despatch from Gunsu Pass, announcing the withdrawal of the Japanese from the immediate front of the Russian army for a distance of 35 miles south. It is realized, of course, that this may be merely a blind, to cover flanking operations, but it is not improbable that the Japanese, having cleared Southern Manchuria of the Russian troops and secured a position whence expulsion would be a long and difficult process, may be satisfied to hold the Tie Pass line, without further extension of communications.

Preparations are reported to be making for the mobilization of five corps. The Government is advised that Chinese bandits are appearing in great numbers along the Siberian Railroad, and causing interference with the train service.

Internal Situation Ominous.

The internal situation in Russia is becoming daily more ominous. The Polish situation is causing great anxiety, though it is said "intellectuals" and the educated classes disapprove of the revolutionary spirit, which is permeating the peasantry and laborers in Poland. The Crimea is boiling with discontent, and the strong hand of the military force has been invoked to crush the incipient revolution at Yalta, near the Emperor's residence. The authorities of the Government of Saratoff are closing the schools there on account of the peasant disturbances.

Will Conclude Russian Loan.

London, March 28.—The Daily Telegraph this morning says that it is understood that the principal French bank house which opposed the Russian loan has now yielded and that the loan will be concluded.

Plot Was Trough.

Warsaw, March 28.—Baron Von Nolken is believed to be out of danger. He is suffering intensely.

Further investigation shows the carelessness with which the plans of the conspirators were laid. A number of persons of the poorer class, proceeding on different streets in the direction of the palace, just before the bomb was thrown, were warned by persons evidently posted for that purpose to go in some other direction.

Finnish Demonstration.

Helsingfors, March 28.—To-day was marked by a great demonstration at Abo (former capital of Finland), and Helsingfors, thousands of workmen, parading with the Finnish national colors, bands playing national airs and the people singing patriotic songs. Resolutions were adopted favoring opposition to conscription. The gatherings were orderly.

Alexis Has Not Fled.

St. Petersburg, March 28.—The report published abroad that Grand Duke Alexis had fled from Russia is untrue. He has not left St. Petersburg.

Watch Refugees in Paris.

Paris, March 28.—The police are exercising extensive surveillance over Russian refugees in Paris owing to reports that they are organizing to assist the revolutionary movement in Russia.

Balfour Reticient on Peace.

London, March 28.—The House of Commons yesterday afternoon, Swift MacNeill (Irish Nationalist) tried to elicit information regarding the peace negotiations. He asked Premier Balfour if he could make any statement on the subject, but as no previous notice had been given of the question the Premier took no notice of it.

Peace is Prominent.

London, March 28.—It is reported that M. d'Isolsky, the Russian Minister to Denmark, left St. Petersburg on Saturday for Copenhagen.

A St. Petersburg despatch to the Reuter Telegram Co. states that the majority of the Council of Ministers is agreed on the principle of the opportuneness of initiating steps in the direction of peace, and correspondents in the principal European capitals all report that peace is in the air.

"According to The Daily Telegraph's correspondent at Kobe, who reports having interviewed the American officers and foreign correspondents captured at Ujlen, all were surprised that no armistice or peace proposals had been made. They confirm the previous statements that nobody had the least idea that retreat was imminent until Gen. Kuropatkin's order was suddenly received late on March 9.

WILL BE ALFONSO'S BRIDE.

Marriage Arranged of Spanish King to Princess Victoria Patricia.

New York, March 28.—A Madrid special to The Herald says: In official circles the assurance is given that during the present visit of the Duke of Connaught to the Spanish Court at Madrid the marriage of King Alfonso to the Princess Victoria Patricia has been definitely arranged. The difficulties with regard to the religious question have been settled.

It doesn't take two pairs of half-hose to make a whole.

A cheerful countenance betokens a good heart.

MERIT

SPRING FEVER.

Now that spring is here, many will think they should have some sort of spring tonic—something that will do away with "that tired feeling." We are pleased to learn that the "spring fever" is not fatal, being a mental rather than a physical condition. At times we feel very much tired out and attribute it to overwork. Other times we feel fatigued when we cannot account for the feeling from excessive exertion. Dr. Cater, a British physician, discusses the question whether it is excess of work or merely a faculty method that is really to blame for a person's physical or mental collapse. Among other things, he says: "Consciousness of fatigue by no means implies that our stock of energy is played out or that our powers of endurance have been unduly taxed. Such is seldom, if ever, the case, and to encourage such a thought means simply a more acute state of depression. The fact is that, despite the sense of fatigue we still have considerable reserve force left, and it is against drawing unnecessarily upon that reserve force that Nature gives timely warning." It is only when we have exhausted our natural energy and begin to draw unnaturally upon our force in reserve that serious devitalization ensues.

Suppose, Dr. Cater goes on to say, we ignore the feeling of weariness or fatigue, and—thus disregarding the warning of Nature—proceed with our work by sheer effort of will. We then enter upon quite a different physical condition, because under such circumstances a demand is made upon our reserve force, and matters soon reach a very serious state. "Once our reserve force is brought into action a peculiar debilitating effect is felt; and if the new source of energy is drawn upon to the limit the time quickly arrives when our total strength is used up. And here comes the point to be emphasized. Assuming that we have completely exhausted our energy, the reserve as well as the natural, we are then confronted by genuine physical disaster, and it is too late even to talk of taking a rest." Nature's powers of recuperation would in such a case have become so weakened that the work of repair cannot be accomplished.

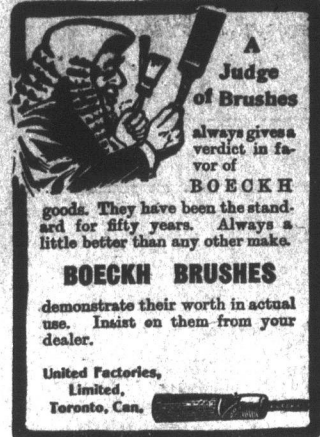

The wearied worker should endeavor to ascertain to what extent his tired feeling is real. For if the feeling is that of momentary lassitude or even mere laziness no warning or need for rest has been given. "A practical method of determining the measure of fatigue is to trace the tired feeling to its source—that is, to discover whether it is situated in that part of the system which has recently been exerted. Thus, if work has been done with the brain and the tired feeling comes in the legs, which have been resting, it cannot be regarded as indicating any approach to overwork." Thus, it may be learned that what is called overwork is nothing more or less than worry or boredom, the condition requiring, therefore, change of scene and occupation rather than absolute rest, and for most normal individuals change is rest.

PARK ST SERVICES

There was a very large congregation present Sunday morning at Park street church and all seemed to enjoy the pastor's discourse on the sixth, seventh, eighth and ninth commandments. Under the sixth commandment speaking of national homicide as defence of war the growing tendency to employ boards of arbitration was referred to. "The United States in vetoing the treaty proposed by their President had refused their possible place as the world's vanguard, while Great Britain had proven in the North Sea affair that she was a world's leader. The world's chief steward because the ablest and the best." The outrage upon a few of her humblest toilers had caused the greatest naval demonstration the world had ever seen, but the object lesson of Britain restraining her imperious strength and agreeing to arbitrate. One question had impressed the world more even than the speedy and satisfactory settlement that had been happily reached.

In the evening the pastor continued his series on the home circle with the subject "Parent and Child," and outlined the responsibilities of parents for feeding their children mentally, morally and spiritually. Under the text "Train up a child in the way he should go: and even when he is old he will depart from it." The importance of noting and developing a child's individuality was dwelt upon. "A child does not love to do wrong rather than to do right, but it does love to do because in doing it develops its selfhood."

The focus throughout the day was of a superior quality. In the morning Mr. Holliday's solo, "O Dry Those Tears," and in the evening the ladies' quartette, composed of Misses Potter, Hill, Sandison and Peate, who gave "Now the Day is Over," was very much enjoyed. Next Sunday evening the pastor's theme will be "Parents and Young People."

NASTY FACTS

Assessor Thomas French says that he has no desire to find fault with the health authorities, but they should investigate a house on Park street belonging to A. S. Holmes and situated between the residences of James Sterling and Mr. Moore. The house is inclined at an angle of 45 degrees to the ground. In it three families live—one white and two colored. The house has four rooms and is frightfully dirty and unhealthy. A piece of string serves for a door latch. There is another house on Wellington street belonging to Edward Anderson. The rent paid is \$1.25 a month. Mr. French says that he hopes never again to go into houses like these. Both buildings should be condemned, as they cannot help but be hot beds of disease.

WHAT ONE MAN HAS DONE

The Remarkable Achievement of a Remarkable Man—A splendid Example of what Untiring Devotion can do.

For years Dr. J. S. Leonhardt, of Lincoln, Neb., studied the problem of how best to prevent and cure disease. He was not satisfied with the methods and treatments in general use and after long study and much experiment he had declared that—"The poisonous products of the fermentation and decomposition of undigested foods absorbed by the system are the first cause of almost all disease."

He knew that all the medicines prescribed for the stomach and bowels contained resinous properties which left behind them a dried up condition of the mucous membrane lining of the stomach and bowels—this after effect invariably resulting in Chronic Complaints.

Dr. Leonhardt therefore determined that to correct disorders of the stomach and bowels he must produce an effective medicine containing absolutely no resinous substances such as are found in the ordinary pill.

He succeeded and the result he called Anti-Pill.

Dr. Leonhardt's Anti-Pill will cure permanently any case of Dyspepsia or other Stomach Trouble, Biliousness or Constipation.

GOOD SERVICES

Large congregations were in attendance at the morning and evening services in the William street Baptist church Sunday. The church has been holding special evangelistic services every night last week, conducted by the pastor, and good results have followed the special effort. For the morning discourse Mr. Hoyt took the words of Paul in I Cor. 9:27, "Least when I have preached to others, I myself should be a castaway," and preached a heart-searching sermon from this text. He said that these words did not mean that it was possible for a man to lose salvation and be forever lost after once believing in Jesus, but it did mean that God might cast us aside and no longer use us to any marked degree in His service because we were out of touch with Him. The preacher urged all present to examine themselves to see if God was using them, and if not, to know the reason why.

"Naaman, the leper," was the subject for the evening discourse, and a strong gospel sermon was preached. Mr. Hoyt drew attention to the many mistakes made by this great general in seeking a cure for his leprosy, and stated that men-to-day are making the same mistakes in seeking forgiveness of sins. Naaman was not cured until he complied with the prophet's demands, and men are not saved to-day until they come to Christ.

The special services will be continued every night this week except Saturday night. Special music will

THROAT SORE? CATCH COLD EASILY?

NO MUD IN OURS! WELLS, RICHARDSON & CO.'S IMPROVED BUTTER COLOR

Gives the True Golden June Tint that Guarantees Prize Butter. The Largest and Best Creameries and Dairies in the World Use It. LOOK FOR THE DANDELION TRADE MARK. BEWARE OF SUBSTITUTES AND IMITATIONS. ALL DRUGGISTS AND DEALERS.

The coal and ice business of J. L. Scott is being run by the Bank of Montreal. William Campbell has been appointed by the Bank to look after the business.

W. S. Teft, travelling representative for the Matthews Northway Works, Buffalo, N. Y., was in the city yesterday calling upon friends. He is an old Planet employee.

Assessor Thomas French is inclined to believe that the residents of this city live to a ripe and hearty old age. On Saturday he met Mrs. Hawkins going to market, aged 84 years, and in the house he found Mrs. Taylor, sister of the late Bishop Hawkins, sweeping. She is 99 years old and will soon have passed the century mark.

WANTED—Dining room girl and cook at Montana House. 10

GIRL WANTED—For general housework. Apply at Sanitarium. 10

Minard's Liniment Cures Dandruff.

THE T. MILBURN CO., LIMITED, TORONTO, ONT.

He who can at all times sacrifice pleasure to duty, approached sublimity.

Could Not Walk Ten Yards Without Resting.

Mrs. D. Herkimer, Hall's Bridge, Ont., Was Troubled with Weak Heart and Sleeplessness.

How many women are troubled with a weak heart? How many lie, night after night, trying to sleep, and can't? Perhaps you are one of them? If so, read what Mrs. Herkimer says. It may save you years of suffering if you take her advice.

"I am now enjoying the best of health, after having used Milburn's Heart and Nerve Pills. I was troubled with a weak heart, and was afraid to draw a long breath, for the pain it would cause me. I could not sleep at night, and it was impossible for me to walk ten yards without resting myself. I cannot speak too highly of your Heart and Nerve Pills; they are the greatest pill I have ever used, and can recommend them to all sufferers."

The price of Milburn's Heart and Nerve Pills is 50 cents per box, or 3 boxes for \$1.25. For sale by all dealers, or mailed direct on receipt of price.

THE T. MILBURN CO., LIMITED, TORONTO, ONT.

HOME HANDICRAFT.

HOUSEHOLD CONVENIENCES, SIMPLE, BUT JUST THE THINGS NEEDED.

Made With the Home Tool Kit and Inexpensive Material—A Safe Medicine Case—A Very Taking Nest For Shoes—Handy Pockets.

Almost any one capable of handling the ordinary house tools will find little if any difficulty in making the useful objects pictured or mentioned here and selected from among suggestions for a number of such conveniences submitted in Farm and Fireside. As for the

MEDICINE CABINET.

wood, it can be had from a carpenter, or perhaps in the cellar, while the other things may be purchased for a trifle at any hardware or dry goods store.

A medicine chest, with shelves and drawers, in which everything can be kept orderly and in place, so it can be had at a moment's notice, is not a difficult thing to be made at home, and a simple one is shown in the illustration. This is made from boards obtained from two shoe cases, which are carefully broken apart so as not to split the wood. For the wash room of moderate proportions it can be thirty inches high, twenty-four inches wide and from four to eight inches deep. It need not have a wood back, as the wall will take the place of one, thereby saving space. The frame and shelves are attached securely to the wall with screws both at the top and bottom. A batten two inches wide is nailed to the wall under the chest, on which it can rest. This makes a good anchorage and relieves the greater part of the weight. A similar arrangement is made at the top. The top of the chest projects one and one-half inches beyond the sides and front, forming an overhang, and at the lower part of the chest two or three small drawers are arranged for the accommodation of small boxes and packages. Enamel paint will give this chest a good finish.

A box can easily be converted into a shoe nest like the one shown in the second illustration, where shoes, slippers and rubbers may be kept in orderly condition. This double deck shoe nest requires but little skill and very little practical knowledge to make, and as no definite size can be given the drawing shows quite clearly how one or several of them can be made to fit the space in any closet. In a small closet no less will be required under one corner of the nest, as both ends can rest on the top of the subbase. In a large closet, however, where it is not desired to extend it along the side, the unsupported end is held up by a leg.

For dust cloths, string, felt and worsted slippers pockets on the inside of a closet door will be found convenient. A nest of ten pockets can be made of denim or other stout goods and tacked fast to a batten arranged at the inside of a door, as shown in the illustration, while another one consisting of two large pockets will afford a convenient

CATERPILLARS AND LAW.

Actions Against the Insects in the Courts of France.

In the year 1846 the owners of the vineyards of St. Julien, Savoy, France, solemnly took action in the law courts against a host of hungry caterpillars which had played havoc with their vines. This grave matter was referred to arbitration and came in due course before the bishop as ecclesiastical judge.

Two lawyers were retained in the interest of the insect ravagers, letters admonishing them to discontinue their mischief were issued, and a commission sat to estimate the damage done. The judge held that no hasty decision should be given, since it was possible that the caterpillars had not acted maliciously, but had been sent as a scourge.

At the end of a year from the first proceedings it was held that the farmers must submit to the infliction and pay all costs. After an interval of forty-two years another army of caterpillars invaded the vineyards, another action was brought, and it was decided that they were only exercising their legal rights, while the owners were advised to provide a piece of land where they might range at will.

SMITH & SMITH.

Shampooing the Head.

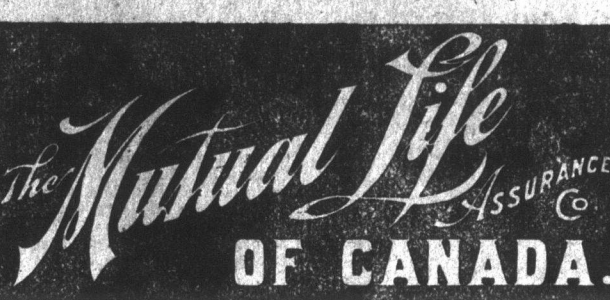

The hair itself should be well washed every few weeks, and a good shampoo wash is made as follows: The yolk of an egg well beaten into a pint of tepid rain water, into which have been put two ounces of spirits of rosemary. A little of this can be rubbed into the roots of the hair also before brushing it. Where there is irritation of the scalp it shows that the head needs washing. Many people are not half enough particular about this duty and have an idea that frequent washing will injure the hair. While this may be true to a considerable extent, it is also certain that unless the head is washed often enough to keep it really clean the scalp gets into a state of irritation and causes much annoyance.

For the Sickroom.

A simple and effective means to clear the atmosphere of a room, recommended by an experienced nurse, is to place a lump of camphor in a saucer and apply a very hot poker to it. This will cause strong fumes to arise which will cleanse the air very speedily and act as a powerful disinfectant.

PERTINENT POINTS

in reference to the substantial gains made in every department of its business during 1904 by

INSURANCE ACCOUNT

The volume of new business exceeds that of any former year, being 3,452 Policies for \$5,048,168, all of which, except \$30,000, was written within the Dominion. Total assurance now in force is \$40,476,970.88 under 27,742 policies, the net addition for the year being \$2,889,419. While many of our native Companies are seeking business abroad, some of them in distant parts of the world, it is thought by this Company that foreign Canadian business is preferable to foreign business, which is secured at excessive cost and with less certainty as to its quality.

INCOME

The total income was \$1,725,308.90, being \$1,373,364.69 for premiums, and \$351,944.21 for interest. The gain over 1903 was \$164,238.87.

DISBURSEMENTS

The payments to Policyholders amounted to \$24,615.34, and consisted of Death Claims, \$220,304.50; Endowments, \$160,053; Purchased Policies, \$52,394.54; Surplus, \$83,183.40, and Annuities, \$8,679.90. The claims by death were exceptionally light, being \$51,404 less than previous year, and only 41 per cent. of the amount expected.

EXPENSE AND TAXES

The expenses and taxes were \$300,807, being 17.4 per cent. of the total income, or about 1 per cent. less than in 1903.

HEAD OFFICE, WATERLOO, ONT.

ROBERT MELVIN, PRESIDENT
GEO. WEGENAST, MANAGER

A. HOSKIN, K.C., HON. JUSTICE BRATTON, VICE-PRESIDENTS
W. H. RIDDELL, SECRETARY

The Attitude of Prayer.

The effect and value of association was dwelt upon by Mrs. Cutler in her lecture on "Literature and Life" at the Round Table Club in Toronto recently. One learned to love good music by hearing it, and a taste for good literature was acquired by reading it. The more frequently spiritual dominance was sought, the more readily it was induced in time of need. Our lives lacked the daily support of prayer because we did not know how to assume the attitude necessary. We tried to change the attitude mind—of God, when prayer was to change our attitude towards His will, and to silence the material consciousness. Sometimes in extreme need a sudden cry would go forth, and in the quick moment of purity burst through the veil, and there would follow peace and vision. It was only in such sudden, intense reach that the real could be attained. By association with the good the undesirable ceased to attract. In music, sensuous pleasure passed into spiritual enjoyment. Truth reached the spiritual consciousness as harmony, and all true harmony was a spiritual quality, as Christ perceived in realizing the inner harmony of being.

DR. SLOCUM'S WARNING

THE GERMS OF CONSUMPTION SWARM IN THE LAND

Consumption who sits on the doors of ears, public conveyances, halls, or on the streets, leaves the seeds of death behind them. In factories, or other places in cities or towns, where consumptives have worked and eaten, the very walls are full of germs of disease. Theatres and lecture halls are dangerous to those who breathe the air, and the utmost care should be taken to fortify the system and avoid contagion. A teaspoonful of "Furine" taken before going out will prevent all chances of attack from this source.

EXPLAINS THE SYMPTOMS

The symptoms of consumption are not hard to discover:

Spitting of Blood, Loss of Flesh, Cough, Afternoon Chills and Fever, Night Sweats, Women's Infirmities, Wasting Conditions, Tongue Coated, Pale and Thin, Extreme Exhaustion, Lack of Stamina, Catarrhal Affections of the Nose, Throat, and Chest.

Dr. Slocum says: "Consumptives almost always until the last moment, do not believe that anything is the matter with them. They say, 'If only this cough or that ache were gone I would be all right.' My remedy, 'Furine,' will at once relieve the cough and pain, soon after you begin to take it. 'Furine' must be taken regularly, for a disease like Consumption cannot be cured in a day or a week. It is well to remember that 'Furine' is not in the usual class of patent medicines, but, on the contrary, is the remedy used daily in Dr. Slocum's extensive practice.

'Furine' is pronounced 'Fur-keen' and is sold at all drug stores, or a small bottle free of charge if your druggist does not have it in stock. Mention Dr. Slocum's name. Write Dr. T. A. Slocum, Limited, 179 King Street West, Toronto, Ont.

Dr. Slocum's valuable treatise on the Cure and Prevention of Pulmonary and Bronchial Troubles mailed free to every sufferer.

which we mail in a perfectly plain wrapper, you can secure regular full-size packages from druggists at 50 cents each, or we will mail direct in plain package, upon receipt of price, Pyramid Drug Co., 2125 Main Street, Marshall, Mich.

A woman's influence may be strong but she seldom used it judiciously.

Some men find fault with everything just because they can't do otherwise.

There is nothing like Burdock Blood Bitters for bad blood, boils, pimples, dyspepsia, indigestion, or any trouble arising from the Stomach, Liver, Bowels or Blood.

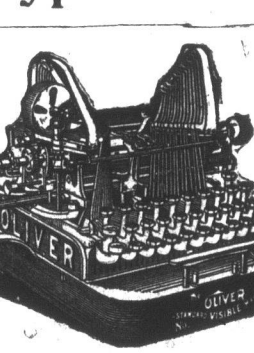

YOUR EYES

Are surely worth more to you than the price of a pair of glasses. If you value your eyes have them properly fitted at once. Delay and your eyes may become so bad that no glasses will help them, then you will regret it the rest of your days. This is true every word of it. Do not trust travelling Opticians and peddlars to fit you with glasses. They get your money and you get the experience. This we know because it is told us by people that comes to us for glasses after having bought of the Spectacle peddler. Our Optician is a graduate of the Detroit Optical college and is fully equipped with all the modern conveniences. We will examine your eyes free of charge, at the sign of the Big Clock.

PROBABILITIES.

Special per G. N. W.
Toronto, March 28.—11 a. m.—Unsettled, very mild with showers, mostly general, to-night and on Wednesday, also local thunderstorms. The best treat of the season Thibodeau & Co.'s Millinery Opening tomorrow.

THE LOCAL BUDGET

First Class Butter at The King Edward.

C. B. Moore, of Erieau, was in the city on Saturday.

S. J. Sullivan, of Blenheim, was a visitor in the city yesterday.

All kinds of furniture repaired and upholstered; Chatham Carpet Cleaning Works.

All Costworth, of Romney, spent yesterday with his many Chatham friends.

W. D. Killeen and Ed. Thomson, of Petrolia, were guests in the city yesterday.

Notice—Telephone 440 and give the job of taking up, cleaning, disinfecting and relaying carpets. All work guaranteed.

A man named Jewers, living on Baxter St., has complained to the police that other boys throw his lad. The matter will be investigated.

The annual meeting of the Peate Fuel Co. was held today. W. D. Samson, of Blenheim, and J. D. Elliott, Ridgeway, were in the city attending the meeting.

Willie Taylor, the young son of Adam Taylor, met with a very serious and painful accident in the Manchester factory at 8 o'clock this morning. The little fellow was running a machine when he got one of the fingers of his right hand caught and badly jammed in the machinery. The wound was so serious that the surgeon found it necessary to amputate the finger. The little fellow is doing as well as can be expected.

A splendid meeting was held by the younger lacrosse enthusiasts of the city in J. B. Stringer & Co.'s office. Tracy Waddell presided, and after the usual preliminaries the following officers were elected: President, Alfred Stone; Captain, Fred Chrysler; Managers, James Boyd and Chas. Sheldrick; Secretary-Treasurer, Percy Chinnick. Last year the Junior Lacrosse Club played about eight games and were successful in the majority. This year an effort is being made to arrange a schedule between Ridgeway, Blenheim, Thamesville and Dresden.

Windsor Salt

the best salt that Canada's best salt works can produce, and that's the best anywhere

COUNT THE NOSES

Of the people who wear glasses and spectacles and you will find a large percentage of the glass-wearing people in Chatham. That's proof positive of two or three things. ONE—That people who need eye sight aids know where to go. TWO—That they get eye relief at my store; THREE—That I don't charge them too much. You will find the chorus in praise of my work if you try your glasses at

LEADING JEWELLER
AND OPTICIAN

There was in the evening the ladies' quartette, composed of Misses Foster, Hill, Sandison and Peate, who gave "Now the Day is Over," was very much enjoyed. Next Sunday evening the pastor's theme will be "Parents and Young People."

Colds, Hoarseness, Whooping Cough, Croup, by removing the cause. Nothing better for Children. Price 10c and 25c a bottle. Dr. T. A. Slocum, Limited, Toronto.

WERE ON BOAT

Mr. and Mrs. James Riseborough, of Kent Bridge on Ocean Liner Parisian Sunk in Halifax Harbor—Were Rescued.

Mr. and Mrs. James Riseborough, of Kent Bridge, were passengers on the ocean liner Parisian, which sank at her dock in Halifax harbor, after colliding with the Albano. Mr. and Mrs. Riseborough were returning from an extended visit with friends and relatives at Norwich and London, England. The Parisian had a very narrow escape, there is no doubt about that, and the many friends of Mr. and Mrs. Riseborough are glad to hear that they are safe. Mrs. George Wright, Selkirk St., is a daughter of Mr. and Mrs. Riseborough, and George Riseborough, Bridge End, is a son.

NOTICE

The J. L. Scott Ice, coal and wood business is again opened up and all orders can be sent to office, Fifth street, as usual. All accounts due the late firm are to be paid to W. Campbell at the above office, as he has been appointed Receiver for the estate.

BANK OF MONTREAL.

Fight San Jose Scale.

Toronto, March 28.—Secretary P. W. Hodgett, of the Fruit Growers' Association, will continue this week his anti-scale campaign in the Niagara peninsula and the Essex fruit districts, with a view to seeing that the fumigating of stock for sale is being properly carried out. He has already completed part of the work, and finds that the nurserymen are living up to the regulations, all being anxious to guard against the San Jose scale. The outlook in this regard is not particularly bright in the Niagara and Essex districts, however. The scale continued to spread in both last season, and nurserymen and fruit growers anticipate a hard fight this year.

Robbers Cut Phone Wires.

Ottawa, March 28.—Three robbers entered the manor house of T. C. Keefer, C. M. G., at Rockcliffe last night and held the engineer up at the point of a revolver and made him disgorge his watch and what money he had on his person. The robbers took the precaution of cutting the telephone wires before entering, to prevent an alarm. Chief de la Ronde has put entire detective staff on the case.

WHAT IS THERE IN IT?

Scott's Emulsion is a careful blend of the purest cod liver oil, hypophosphites of lime and soda, glycerine and a dash of flavoring. The combination of these valuable ingredients emulsified as in Scott's Emulsion represents the greatest remedy yet discovered for weak lungs, poor blood, low vitality, child weakness and all wasting diseases.

We'll send you a sample, free

SCOTT & BOWNE, Chemists, Toronto, Ont.

TUNNEL TO P. E. ISLAND.

Deputation Will See the Government About It on Thursday.

Ottawa, March 28.—Thursday has been fixed by the Government for receiving a deputation from Prince Edward Island to permit of the construction of a tunnel between the island and the mainland. Rev. Father Burke, the advance guard, has already arrived.

West Indies Would Wed Canada.

Toronto, March 28.—"There is a strong feeling throughout the British West Indies for confederation with Canada. We feel that our trade would be much improved. Personally, I hope confederation will soon be an accomplished fact."

This is the opinion of James Cox Filan, of Dominica, B. W. I., owner of the most profitable plantation there, and known as "The Lime Juice King of the Indies." He is here while on a world tour. Mr. Filan is a member of the Legislature of Dominica, which is a Crown colony.

Centre Toronto Bye-Election.

Ottawa, March 28.—Orders have been given to print the voters' lists for Centre Toronto to permit of the holding a bye-election in that constituency at an early date. The present expectation is that a successor to the late B. F. Clarke will be had by the fifteenth or eighteenth of next month.

Last night T. C. Robinette, D. A. Rose and W. B. Rogers left for the capital, to interview the Government regarding the Centre Toronto Liberal nominations and discuss matters in reference to the vacant seat.

The woman who has the reputation of being sweet tempered knows how to push along the deputation.

NEW ADVERTISEMENTS.

DESIRABLE BUILDING LOTS—On King St. West, 3 lots 52x150, at \$400 each. These are the choicest building lots in the city. Apply Westman Bros.

C. AUSTIN & CO.

NEW DRESS GOODS AND SPECIAL OFFERINGS

Our counters are filled to overflowing with every new thing that we could discover in the line of DRESS GOODS. The well dressed woman will be satisfied here as nowhere else in soliciting her Spring wearing apparel. The array of new Spring Dress Goods is broader and more complete than any previous showing. Here are a few of them.

Cream Lustres and Serges—Secure them now, as shortage is reported; we have a well assorted stock of cream lustres at 25c, 40c, 50c, 75c. Special 48 inch cream suiting serge, all wool, 65c yard.

See our big display of English and Scotch mohairs, every quality, good styles, in browns, blues, greens, blacks and castor, prices are in your favor, 50c to \$1.40 per yard.

Fine Venetians—If you want an up-to-date tailored suit buy a fine Venetian; nothing more stylish. We have them in brown, black and navy, 48 inches wide, at per yard \$1.40.

French Checked Voiles for cool garments, pure wool, very sheer, up-to-date goods, in black and grey, green and white, and brown and white checks, special per yard 50c.

Checked suitings for children's school dresses, light colors, with embroidered spots, per yard 50c.

Look through our melange and plain lustre brilliancies; values here that are convincing—Black lustres from 25c to \$1.25 yd. Hair line melange suitings in navy and black, 54 inch, 75c yard.

Plain Amazon and Broadcloths for fine tailored garments or separate skirts, in browns, greens, navy, royal, grey, fawn and black, 54 and 56 inches wide, special value \$1.00 and \$1.25 yard.

All wool Voiles for your midsummer gown, qualities unexcelled, in shades of cream, peach, grey, castor, champagne, rose and D. K. green, also navy and brown shades, per yard 40c, 50c, 75c.

Creme de chene for fine summer dresses, in a big variety of light shades, at 50c, 75c, \$1.00 and \$1.25 per yard.

New Balmoral Carpets

We have just put into stock a handsome range of this most desirable weave of Carpet, combining as it does almost equal wear with Brussels, with the pretty blendings of Velvets, they are shown with borders and stains to match. Cut, made and laid at our special price, **75c per yd.**

Lace Bed Sets

In this season's newest creations with ruffled Valance, edged and Insertions of Cluny, Battenburg and Valenciennes Laces. Medallions in centre of Coverlet and Bolster of same lace to match, a pleasure to show you these lines at **\$6.50, 6.75, 7.50, 10.00 and 16.00 each.**

CLOTHING DEPARTMENT

With the keen knife of merit we have cut the bonds of prejudice that dressy Men traditionally held against ready-to-wear clothing.

We are selling agents for the celebrated Progress brand of clothing. We invite you to inspect this noted brand of clothing designed and made especially for Austin & Co., to portray the correct 1905 styles for particular dressy men. Every garment being made on the principle of not how cheap, but how well serving to produce the very highest type of modern clothes known to artistic tailoring.

The unexampled energy and thought devoted to manufacturing details is responsible for the advance of Progress clothes. While other manufacturers have concentrated their attention to their advertising solely, the house of Progress brand has devoted its efforts to improving its product and making it worthy the respect and admiration of the most genteel dressers of Canada.

With a life time of experience as a basis they have been in a position to seek out, and make use of, all the new work facilities as rapidly as they have been devised, so that their merchandise more clearly approaches perfection than that of any other clothing manufacturer in America.

The senior member of the firm is commonly known to be the greatest buyer and judge of woolsens in this country. Their head designer is a man of liberal education and creative force. Their tailors are the cream of the craft, most graduates as it were, and their factories are noted for their wholesome cleanliness and modern equipment, with such a combination of intelligence and skill it is easy to understand why this house has advanced to the head of this great industry and is making clothes that the retailers are eager to get and the public proud to wear. If the Progress brand have any competitors they are in the ranks of the foremost custom-tailors, outside of this the Progress brand stands absolutely alone. They have dignified the clothes making industry, their methods have dissipated the early prejudice against the ready made and demonstrated "where there is a will" to make the kind of clothes the people want. "There is a way". That the Progress clothes have found the way is proven by the fact that this has determined to handle their line only after the most rigid investigation of the leading makers in America.

The merit of Progress clothes lies principally in the extraordinary effort invested in their manufacture. It is not a difficult matter for any tailor to make a suit or overcoat, but to make clothes that will win and hold the favor of intelligent people who like good things, and which will satisfy the eager, craving for development, requires an average life time of thought, study and attention in detail. The determination of the Progress brand to make the best clothing in America has never wavered in the slightest degree since the house was established some few years ago, and the ruling thought has been "Better facilities, better ideas, better everything, in fact until their product reaches the point beyond which no human skill can go" this is the condition and fact today. Progress brand clothing for men at \$10, \$12, \$15.00, and \$18.00. Progress brand clothing for boys, \$3, \$3.50, 4, and 5.00. Spring lines now ready.

Will It Pay You?

That is the question. Will it pay you to trade here? We say yes, decidedly so.

We give you the best goods that money will buy. You are absolutely sure when you buy here that you are getting good things.

Our prices are generally lower than you can buy the same quality goods anywhere else.

We do not make many mistakes—it is impossible not to make some—when we do, we make what is wrong, right, quickly and gladly. On these we rest our claim for public confidence.

May we have your orders?

CANNED PEAS, 3 Cans for 25c

GOOD PRUNES, 5 Pounds for 25c.

BONED CODFISH, 8c. a Pound

BAKER'S COCOA, 25c. a Can

FINEST JAMS, 50c. a Pail.

H. Malcolmson

FRESH SEED

No old stock. All fresh goods. Much better to buy our seeds than to buy some old stock that has lost all its growth. We have nearly every kind and we charge very small prices for them too, try some. Either in package or bulk.

Seed of all kinds,
Garden Trowels,
Hoes,
Rakes,
Spades,
Hedge Trimmers,
Tree Pruners, etc.
Everything for gardening.

A woman's influence may be strong but she seldom used it judiciously.

Some men find fault with every thing—just because they can't do otherwise.

There is nothing like Burdock Blood Bitters for bad blood, boils, pimples, dyspepsia, indigestion, or any trouble arising from the Stomach, Liver, Bowels or Blood.

REASON NO 22 WHY YOU SHOULD USE Red Rose Tea

Because of the care in Selection and Blending.

My agents in the east are expert tea tasters, and every lot of tea that is sent down from the Gardens has to pass their inspection. They take samples from the chests and carefully taste them, then if the tea is fully up to the Red Rose standard, it is accepted and shipped; if not it is rejected.

The most important test of all, however, is when the tea arrives here, as during the passage through the Red Sea, the very great heat often affects the Tea very seriously. Immediately on arrival, samples are taken from each lot and subjected to the most rigid tests, and only those teas which have retained all their original flavor and strength are used for Red Rose (the balance is jobbed off in bulk).

When blended and ready to be put into sealed packages, it is tested again just to make sure no mistake has been made in the blending; nothing is left to chance.

Will you test us by ordering a package?

T. H. ESTABROOKS, St. John, N. B.

Wonders of Memory.

The memory may be cultivated to an extraordinary degree, as all are aware. Seneca, the Roman rhetorician, was able to repeat 2,000 words upon once hearing them, each in its order, though they had no dependence or connection on each other. Pontius Latro retained in his memory all the orations he had ever spoken, without fail in even a single word. Cynaeus, Ambassador to the Romans from King Pyrrhus, in one day so well learned the names of his audience that the next morning he saluted the whole Senate and all the populace assembled, each by his name. Cyrus knew every soldier in his army by name, and Scipio had a speaking acquaintance with all the citizens of Rome. Herr von Neublin, a celebrated German scholar, was once clerk in a bank of Copenhagen, in which capacity he gave proof of miraculous memory by restoring from recollection alone, the entire contents of a leaf in the bank ledger which had been accidentally lost by fraud or accident.

The Insanitary Home.

"The Insanitary Nature of That Sacred Institution, the Home," is the subject of one of Mrs. Charlotte Perkins Gilman's contributions to her favorite subject. Charity is said to begin at home, she says, but sanitary science does not, a circumstance which bears very hard upon the women who are "pleasantly, piously and poetically imprisoned" in houses and the children therewith for, say, twenty-two out of the twenty-four hours of the day. Mrs. Gilman suggests as a model for the home that institution which now takes in the "wreckage" of the same-named hospital. The one need not be so coldly colorless as the other, but should achieve its decoration without masses of dust-generating cloth. It might be as lovely as a sea shell and as smooth, with thrilling beauty of color and of line, pure satisfying proportion and all manner of tender ornament and decoration and yet have not a needless thing in it.

CANADIAN ARCHIVES.

The History of the Country Must Be Preserved—Let the Facts Speak.

"If in Canada we had less to say about our illimitable resources, and worked with steadfast purpose to have the most irreproachable politics in the world, our patriotism would not be slumbering the while," said Dr. C. W. Colby, Professor of History at McGill University, in the course of an address on "Patriotism and History" at a recent Toronto Canadian Club luncheon.

Dr. Colby remarked that it had been urged more than once that the rank and file of Canadians would be more loyal citizens if patriotism were more carefully taught as a lesson in the days of boyhood. They were also not infrequently reminded of the efforts which were being made throughout the United States to instill love of country at the same moment with the elements of spelling. The whole argument resolved itself into: First, that a somewhat militant spirit of patriotism was desirable, and, second, that the historical manual should be used as a means of setting forth in picturesque and convincing fashion the facts which helped to glorify the national past or the arguments which went to defend the national cause. Those who repeated with unctious the sentiment, "Our country, right or wrong," would doubtless be content to have a colored, one-sided version of the national annals presented to children in Public Schools through the medium of the elementary manual.

"What is the attitude of the professional historian toward this state of mind, and toward this form of patriotism?" asked Dr. Colby. He said that during the past two generations an attempt had been made by leading students to render the investigation and the writing of history impartial, colorless and scientific. Truth was the ideal, not patriotism, nor even religion. Under modern conditions, therefore, it would be difficult to find a decent historian who would undertake to write a school manual with the fixed intent of justifying the national cause, or so to speak, of presenting part of the truth as though it were the whole truth.

Against which nothing could be urged. "We all recognize, I imagine, the existence of patriotism under two forms, the lower form of beating the big drum or waving the bloody flag, and the higher form of doing something for one's country," said Dr. Colby, and neither was the connection of history with the higher patriotism less close than it was with the screaming of the eagle or the roaring of the lion. He referred to Switzerland's sound type of patriotism and gave some of the characteristics of the people. So far as Canada was concerned, history, Dr. Colby thought, ought to have a large part in the national life. There was certainly a history worth honoring, and Dr. Colby thought that so far as the case of Canada, the materials upon which a good co-operative history could alone be founded did not exist.

A few weeks ago he had a conversation with Dr. Doughty, the Dominion Archivist, regarding a project for a co-operative history of Canada, to be brought out in connection with the Champlain celebration in Quebec in 1908. Whether such a work would be attempted was another question, but Dr. Colby thought that most experts would agree with Dr. Doughty in thinking that anything at present done on these lines would be of a purely provisional character. It would be a tentative nature for the simple reason that the monograph stage had not, with Canada, as yet been passed through. It would, he said, be ridiculous to deny that the literature of Canadian history was wholly lacking in good monographs. Books like Beaumont's "Quebec," Lord's "Frontenac," Doughty's "Siege of Quebec," and Biggar's "Early Trading Companies," spoke eloquently to the contrary. Still, an enormous amount of pioneer work must be done before a bibliography of Canadian history could show any such results as were represented by a little book like Channing & Hart's "Guide to American History."

"We need to have at Ottawa a well-endowed and creditable Archives Department," urged Dr. Colby. In the past an important duty had been neglected by treating the archives in a purely incidental fashion. For many years the main affiliation had been agricultural. The time had come when it was out of place in a broad and national sense. Theoretically, at least, all desired that there should be sound and learned histories of Canada, but those could not be prepared until a large number of special topics had been investigated with minute care. Owing to the present limitation of the National Archives, the work of preparing good monographs was extremely difficult and costly. Therefore, it must be conducted in a broad and national sense, to collect and arrange these original materials without recourse to which the historian would be wasting his time in writing at all on Canadian subjects.

Dr. Colby said that the question hinged less on the lack of holding our own than on the more difficult one of making up lost time. He did not wish to be regarded as adopting the tone of a pessimist, or as disparaging the best contributions already made to Canadian history. He only desired to go to the bottom of the matter and insist on the need of laying a solid foundation. Special studies, based on a first-hand knowledge of the sources, were the solid pedestal upon which the work of art, the great national history, must stand. Materials for local history should be looked to with particular care, as they were so perishable, and already it was difficult, and often impossible, to make up the loss of local newspapers from the beginning, whilst domestic correspondence, even where most valuable as among the members of leading families, tended to disappear after a generation or so. Indeed, the proper custody of historical materials was among the chief duties which each age owed to its successors.

Best Bank at Monte Carlo. An automatic gambler has beat the famous bank at Monte Carlo. If gambling must be, there is reason in backing a machine against human nature. It is all a matter of chance, and a cold-blooded automaton will play on and on, and never get rattled over gains and losses.

NOT ONE TO SPARE.

"Which shall it be? Which shall it be?" I looked at John—John looked at me (Dear, patient John, who loves me yet as well as though my locks were jet). And when I found that I must speak, my voice seemed strangely low and weak. "Tell me again what Robert said," And then I, listening, bent my head. "This is his letter: 'I will give a house and land while you shall live, if, in return, from out your sewer, one child to me for age is given.' I looked at John's old garments worn, I thought of all that John had borne of poverty and work and care, which I, though willing, could not share. I thought of seven mouths to feed, of seven little children's need, and then of this: 'Come, John,' said I, 'I'll choose among them as they lie asleep'; so, walking hand in hand, Dear John and I surveyed our band. First to the cradle lightly stepped, Where Lillian, the baby, slept. Her shining curls, like said light, And dream or whisper made her stir. So the father stooped to lay His rough hand down in a gentle way, And hushed her, and she lay still. And hushly he said, 'Not her!' We stepped between the trunk and bed, And the boyish face faced there. In sleep so pitiful and fair: I saw on James' rough, red cheek A tear undried. Ere John could speak, 'He's but a baby, too,' said I, 'And kismet him as we hurried by.' 'We'll choose among them as they lie,' said John, while our eyes were dim. Poor Dick! had Dick, our wayward son, Turbulent, reckless, idle one, I could be spared? Nay, he who gave Bids us befriend him to his grave; Only a mother's heart can be Patient enough for such as he. 'And so,' said John, 'I would not dare To send him home for bed-time prayer.' Then stole we softly up above, And knelt by Mary, child of love. 'Perhaps for her I would better be,' I said to John, 'Quite silent.' He lifted up a curl that lay Across her cheek in wilful way, And shook his head, 'Nay, love, not that.' The while my heart beat audibly. Only one more, our eldest lad, Trusty of trust, good and glad— So like his father, 'No, John, no, I cannot, will not, let him go.' And we wrote, in courteous way, We could not give one child away; And afterward tell lighter seemed, Thinking of that of which we dreamed, Happy in truth that not one face Was missed from its accustomed place. Thankful to work for all the seven, Trusting the rest to Om in heaven. —Ethel Lynn Beers.

Walled Up Alive.

A very interesting bird is one which follows the trade of a plasterer—the hornbill.

It makes its home in faroff Africa, and this home is in the trunk of a hollow tree. You see, monkeys run wild in this country, and there is nothing they like better than hornbill eggs for breakfast, so in order to save the lives of her young the mother hornbill consents to what do you think? To be walled up alive!

She and her mate select a suitable tree and work together, plastering up with mud any opening there may be in the trunk. Having made it small enough to only just admit the passage of her body, the mother hornbill goes in, and her mate continues plastering until there is only a little round hole left, enough for him to put in the tip of his beak. Through this he passes in food to the mother while she is hatching her eggs and rearing her babies; nor do the latter get out into the light and air until they have donned their first suit of feathers. Then the door of the nursery is broken down, and the family begins to enjoy free life again.

About Marmosets.

Marmosets are too expensive and too delicate to make very good pets for children, but they are the cunningest little things in the world. Probably you have seen them in the animal stores. They are very small monkeys, you know, and come from South America. As to disposition, they are both gentle, tame and intelligent. As you know, they are only the size of squirrels, but their faces are owl-like and wise.

That Was Different.

When naughty Jim pulled Jenny's braid, Sue Sussie laughed (the jolly maid): "Oh, what a funny thing to see! Tee-hee, tee-hee, tee-hee!" But when Jim twitched at Sue's own curl, She cried (the incontinent girl): "Oh, what a naughty thing to do! Boo-hoo, boo-hoo, boo-hoo!" —Youth's Companion.

STRICTURE AND KIDNEY DISEASE CURED.

"I had stricture for eleven years. It finally brought on Bright's Disease of the Kidneys. I had an uncomfortable shooting pain in the groin and feeling as though something was in the urethra. My back was weak and I could scarcely stoop over. Urine was full of sediment. Had a desire to urinate frequently. Family doctors, so-called specialists, patent medicines, electric belts, all failed. I was discouraged. I had spent hundreds of dollars in vain. Finally I consulted Drs. Kennedy & Kergan as the last resort. I had heard a great deal about them and concluded from the fact that they had been established over 25 years that they understood their business. I am delighted with the results. In one week I felt better and in a few weeks was entirely cured. Have gained sixteen pounds in weight."

G. E. WRIGHT, Lansing.

City Garbage By-Law

The following rules will govern new city garbage system:

1. Residents wishing to have their garbage and rubbish collected can do so by paying Mr. A. Harbert, collector, 25 cents per month.
2. Residents must furnish two suitable garbage cans or boxes and keep same in a convenient place; also keep all rubbish, cans and glass separate from ordinary waste.
3. Collectors will call twice a week during the months of May, June, July, August, September, October, and once a week for all other months.
4. Collector will collect and bury all dead animals, fish or other objectionable matter to be found in the river, lanes, alleys, or streets, for which no owner can be found.
5. All parties throwing rubbish or other objectionable matter in the street or lanes will be prosecuted.
6. The By-law and Collector will be under the supervision of the City Health Inspector, Mr. Mounter. Residents wishing to have the Collector call will kindly send their names to Health Inspector Mounter or the Collector, Mr. Harbert, as soon as possible. All complaints will be made to Health Inspector or Chairman of Property Committee.

Mineral Baths

Chatham, Dec. 18, 1901.

To CHATHAM MINERAL WATER CO.
For some years I was so badly used up with rheumatism in my hip and leg that I could not walk without suffering severe pain and finally got so bad that I was confined to my bed. I tried almost every kind of patent medicines beside consulting physicians, but obtained no relief. At last I was persuaded to try the mineral water and used it in liberal quantities. From the first I felt a decided change for the better, and now I can say I have entirely recovered. I cannot recommend the mineral water too highly and am pleased to such a magnificent establishment erected for the treatment of cases like mine.

GAME LAWS ARE VIOLATED

New Government Should Take up the Matter of Illegal Shooting and Stop it.

Good Suggestion to Appoint a Competent Local Man to Attend to this Matter.

An esteemed Harwich correspondent to The Planet writes as follows:—

"How is it that the G. H. J. does not get after those who are shooting our marsh duck at Erieau? Or have we any game law in Ontario? Why not advocate appointing a good local man to see the law enforced—pay him salary sufficient to attend to this matter well, spring and fall, and not simply depend on fines for remuneration?"

The matter is, The Planet believes, well worth the prompt attention of the Government. This spring shooting, which is a direct violation of the law, has been going on, we are told, for years and it is time an effectual and emphatic stop was put to it.

The remedy suggested by our correspondent seems to be the right one, viz., the appointment of a good man under salary, resident in the constituency, to undertake the enforcement of the law.

The matter is well worth the full consideration of the department.

HE WAS LAID UP FOR OVER A YEAR

Till Dodd's Kidney Pills Cured
Kidney Troubles.

Now He's Perfectly Healthy and Able to Work—Gives all the Credit to the Great Canadian Kidney Remedy.

Wajella, Asa, N. W. T., March 27.—(Special).—Cured of Kidney Disease that had laid him up for over a year, Mr. Geo. Bartleman, a well-known man here, is loud in his praises of Dodd's Kidney Pills for to him and nothing else he claims he owes his cure.

"Yes, I had Kidney Trouble," Mr. Bartleman says. "I felt pains in my back and in other parts of my body and thought the doctor did what he could for me, I grew worse till I was unable to work."

"Then I started to take Dodd's Kidney Pills, and I took them all winter and summer while I was unable to work. I took in all twelve boxes, and now I am perfectly healthy. My pains are all gone and I am able to work. I heartily recommend Dodd's Kidney Pills to all sufferers from Kidney Disease."

Dodd's Kidney Pills always cure the Kidneys. Healthy Kidneys strain all impurities, all seeds of disease, out of the blood. That's why Dodd's Kidney Pills cure such a wide range of diseases, including Bright's Disease, Rheumatism and Urinary Troubles.

RIVER OVERFLOWING

The river remained about normal all day, but came up a little during the night. At two o'clock it was just about 18 feet above low water mark. This is some two feet lower than it was last year during the jam at Prairie Siding.

McKeough & Trotter and the Canada Flour Mills Co. are the only two industries shut down. The water is half across Dover St. in one place. Cellars are full all along King St., but no particular damage has been done. The Canada Flour Mills Co. and McKeough & Trotter will lose the use of their plants for a few days, however much that may mean. The residents of Thames and Dover streets are having an enjoyable time running around on the floating sidewalks of the valley.

George Crow, of Prairie Siding, was in the city to-day. He said that the dikes down the river were doing their work this year and that the Raleigh and Tilbury plains had so far escaped. A force of men were kept busy all night banking up the dike at the low spots. Dover, however, is decidedly worse off. Mr. Crow says that some parts of that township are five feet under water. Ald. William Potter says that the highest point reached by the river was on March 29, 1904, when it was 80 feet nine inches above low water mark. In 1898, on March 15th and 16th, the river was higher than it had previously been in years. The city was in darkness.

GOES WEST

Sam Mercer, son of the late Robt. Mercer, and one of Chatham's own young men, left last evening for Utica, New York, where he will spend a month, after which he will establish a home in the Northwest. Mrs. Mercer is at present in Utica and she will accompany her husband to the Northwest.

Sam was a very popular young man and his many friends are sorry to see him leave Chatham. He was interested in all manly sports and took an active part in cricket, football, hockey and lacrosse.

His many friends wish him every success in his new western home.

It is understood upon good authority that the managers of the Sovereign Bank are negotiating for property on King street and that they will soon open up a branch office in Chatham.

HIGH WATER

The residents around the Indian Creek bridge called on Mayor Cowan this morning and asked for a boat to carry people over the Indian Creek.

The water is so high in the Creek that teamsters and pedestrians are unable to use the bridge. The Mayor complied with the request and ordered a boat to be sent out.

Abraham Huff, who resides on the other side of the Creek, says that one end of the bridge is floating and if it is not fastened in some way the whole bridge will be carried away. The water is running over the road at a high rate of speed.

RETURN HOME

Mr. and Mrs. Wm. Blight have returned home from a very pleasant four months trip to the Old Country.

Mr. and Mrs. Blight spent most of their time in England, Gurnsey and Jersey Islands and they report having had a very pleasant time. Mr. Blight has a brother living in London and one in Gurnsey Island and his father also lives in Gurnsey Island.

Mr. Blight has been 34 years in Chatham, coming here directly after his marriage from Gurnsey Island. Once before he visited his old home and that was 20 years ago. He found the place very much improved. In Gurnsey Island in the month of January people were picking wild flowers and planting potatoes. The present Chatham weather is average weather for this island all during the winter. Mr. Blight saw the first snow he has seen this winter at Buffalo when he was on his way home. He also saw holly and mistletoe up the trees in England.

Mr. Blight is looking the picture of health and says he lived high on fish, crabs and lobsters during the time he was in England.

They returned on the Baltic, the biggest ocean steamer afloat. There were 3,000 passengers on board. Two of the passengers died on the way across and were buried at sea.

"While I think every man who is able to take the trip should do so," said Mr. Blight, "I still feel there is no place like Canada and Chatham."

THE ARCH-ENEMY OF THE AGE

Not war, more deadly than ever this modern butchery—catarrh, which leads to consumption and annually kills more than famine and war combined. The doctors now successfully fight catarrh with a remedy that never fails—"Catarrhoxone," it's death to every kind of catarrh. It destroys every root and branch of the disease so thoroughly that a relapse need never be feared. If troubled with colds, nasal or throat catarrh, or subject to bronchitis or asthma use Catarrhoxone and you'll be cured forever.

A citizen calls attention to the fact that the dust on King street is becoming a source of annoyance to pedestrians and merchants. He suggests that it would be a good idea for the Board of Works to get the city sprinkler at work again.

Thornton & Douglas

Are manufacturers of Clothing, with three large stores of their own, in three different cities—that means volume of business. Volume of business means every economical advantage in manufacturing. That means a saving to their customers.

Give us a chance to demonstrate to you the difference between buying from the man who buys from the maker, and buying from the maker himself.

LIMITED**

A HIGH TRIBUTE

Ald. Wm. Potter, who is a former member of the Waterlool Society, has received a memento of the current issue of the Caledonian Telegraph containing an account of the 23rd annual meeting of the Society, which contains the name in reference to Prof. Wm. Potter, formerly of this city.

After the election of off. Mr. A. B. McBride, in one of his characteristic and happy efforts, led a vote of thanks to the Mayor, Mr. Philp. He said the boys thought they knew it all, found out that Mr. Philp knew little more than they did. He can instance where he himself, in his first year at law, knew a bit, but when he came on to the 4th year began to see that he didn't know half as much as he thought he did, and finally when he passed his year and began practicing law realized how little he really did know. He was confident that they all agreed that Mr. Philp was the best bandmaster they ever had, that the band boys had improved greatly. Mr. E. Haeckle, in seeing the motion, also referred to excellent qualities of the bandmaster as a leader.

The motion was enthusiastically carried.

Finish every day and come with it. You have done what you could. Some blunders and omissions no doubt have crept in. Put them as soon as you can.
