Antigone is Adjudicated in Moncton Festival

The UNB Drama Society's presentation of "Antigone," was termed last night by British adjudicator Andre Van Gysegem "oddly academic production, but clear mentally, and clearly understood."

He considered this, the second entry in the New Brunswick Regional Drama Festival in St. Joseph's University, as "not having fully interpreted the emotional implications of the play."

There were moments in the play which were "not real theatre," he said. Scenes had been "built-up as arguments" were as playwright Jean Anouilh had intended "a magnificent duel between right and wrong." Mr. Van Gysegem said he didn't get the feeling of "tug-of-war." The tremendous clash which had been Anouilh's intention in seeking "to defy the people and spirit of France against opposing power."

However he was "delighted in other respects" to see what had been done with "this very excellent play."

He was "delighted" with "the ingenuity of the producer in adapting the play to a setting other than that called for in the script."

The director, Prof. Alvin Shaw, "expounded the situation well" as the Greek "chorus".

Mrs. Eleanor Boby had "good appearance", but "lacked warmth". Walter Macdonald was "lacking in emotion"; Jack Sheriff was the nearest to "making a real person."

Ian Barr had "nice presence, but not sufficient power." Alda Mair, in the lead role of Antigone, was "not sufficiently human" and did not "touch the audience with her problems," but tended to present "sculptured pictures on a frieze." However, she had "good voice and splendid variety."

Robert Hawkes, said the adjudicator, could have given a good performance since he "had good attack in a small role," but "played all his part down to the footlights."

NEWS BRIEFS

RED 'N BLACK

Bill Barwick, director of the Red 'n Black has announced that only three quarters of the show is cast to date, and the show is badly in need of good skits. He would also appreciate the assistance of those who play musical instruments. Whoever heard of a Red 'n Black without a band!

YEAR BOOK

Bill Barwick, Editor of the Year Book is making one last drive to acquire photos for the "Hodge Podge" section. Contributions from all faculties are badly needed.

FIRST TV SET

The University of New Brunswick's Department of Electrical Engin'g has received its first television set.

Donated to the university by the General Electric Company, the television receiver will be used for laboratory purposes. It was presented to the university by Herbert Smith, vice-president and general manager of the Wholesale division of the General Electric Company. Mr. Smith himself is a graduate of U.N.B.

NFCUS GO TO GOV'T RE TAX

A delegation from the University of New Brunswick and Mount Allison University asked the provincial government on Monday to remove the sales tax on university text books.

The delegation had an appointment with Premier Hugh John Flemming and the minister of education, Hon. Claude Taylor, on Monday afternoon.

Representing UNB was Don Fowler, president of the Students Council, and Jack Ernst, chairman of the UNB committee of the National Federation of Canadian university students.

Representing Mount Allison was Len St. Hill, president of the Students' Council, and Wendell Fulton, chairman of external affairs.

NO GAS DISCOUNT

The NFCUS Committee regrets that it has been unable to obtain a discount on gas for student car owners. The trouble lies mainly with an organization in Fredericton of gas and service station owners which apparently forbids any dealer to offer discounts under penalty of a price war.

DAL STAYS IN

Students at Dalhousie University have voted to remain in the National Federation of Canadian University Students.

The vote was 399 in favor and 60 against. The student body numbers 1,500.

Acadia University of Wolfville, N.S., and the University of Montreal withdrew from the national body this year.

It was said today at U.N.B. that the NFCUS is an active group up the hill.

RESIDENCE FANTASY

The residence lawn crawling with approximately forty house members late last Wednesday evening and the results of their labors can be seen above — a satire in snow.

Pert, Peacock to McGill; Debaters Active at UNB

Norman Pert and Hugh Peacock will represent U.N.B. at an International Debating Conference to be held at McGill University from Feb. 17-19. Both debaters are Senior Arts students, and have participated successfully in several intercollegiate debates. This team will also represent U.N.B. at St. Dunstan's University, Charlottetown, P.E.I., on the preceding week-end, as part of the Maritime Intercollegiate debating schedule.

The International Debating Conference will be part of the annual McGill Winter Carnival. Top American and Canadian Colleges will be represented. Each team debates five times before the final debate, when the winning team receives the Bucklari Cup. This trophy has been won by N.Y.U. and McMaster University in the past. The topic this year is: "Resolved that peaceful co-existence between the Soviet Bloc and the Western Powers is possible". This marks the first occasion that U.N.B. has been represented at an International Debating Conference in many years.

At Mt. A.

Pat Gundry and Warwick Gilbert will debate with Mount Allison University in Sackville on the week-end of Feb. 12. Both men have participated in intercollegiate debates as representatives of U.N.B.

At Acadia

On home grounds Ellsworth Briggs and Marvin Meloche will meet a team from Acadia University in Wolfville, N.S. The public and all students are invited to attend this display of "mental gymnastics" which will be judged by distinguished men from Government and Business.

On the Campus

Thus far, many entertaining and successful debates have been held, one of which took place two weeks ago. Marvin Meloche and Nell Mulvaney upheld the Affirmative of the resolution, "Resolved that Red China should be admitted to the United Nations". Opposed were Ellsworth Briggs and Vernon Smitz. Each debator spoke for fifteen minutes and argued for five minutes in rebuttal. The judges, Dr. Fred Cogswell, Prof. J. K. Chapman and Prof. Donaldson awarded a unanimous decision to the supporters of the affirmative.

Last Thursday evening two impromptu debates were held. Robert Staples and John Reinsborough successfully supported the resolution "Resolved that Intercollegiate Athletics Promote the Best Interests of Colleges". The

negative was maintained by Bruce MacFarlane and Eugene McGinley.

In the second debate of the evening Barry Poole and Lyndon Gray defended the affirmative of the resolution "Resolved that peaceful co-existence between the Soviet Bloc and the Western powers is possible". They were defeated by Dennis Matheson and Merton Moriarty of the negative side. The judges for the two debates were Dr. Alec Lucas, Prof. Lovell Clark, and Prof. Hugh Whalan.

It Should Happen Here

Toronto (CUP) — A pen-sketch of a boy and girl embracing one another in the nude, which was on display last week in a Hart House Art exhibition, has caused a storm of controversy. In spite of an attack by Toronto's new mayor-elect, Nathan Phillips, however, the sketch will remain until the close of the exhibit.

Mayor Phillips found the sketch "objectionable" when he made a newspaper-incited "flying visit" to the campus last Tuesday — the day of his inauguration.

Next day, literally thousands of undergraduates — and the odd faculty member too — swarmed into the little art exhibition room in the basement of Hart House to grab a peek at the forbidden creations which, it appeared, might be taken down at any moment. Attendance skyrocketed to ten to twelve times normal.

MACAULAY'S PROPOSAL IS CONSIDERED; ATHLETIC BOARD GOOD IDEA—SAYS SRC APPROVAL MUST BE SOON OR TOO LATE

The S.R.C. voted unanimously to appoint a seven-man committee to discuss plans for setting up an Athletic Board at their regular Wednesday night meeting last week. The committee, which is composed of seven members of the Students' Representative Council met with members of the Administration last week to consider student representation on the proposed Board. No word of the outcome of the meeting was available at press time.

The decision to form the committee followed a twenty-five minute talk on the proposal by U.N.B. Business Manager, Beverly Macaulay. It was felt by members of the Council that certain details relating to the actual formation of the Board and its functions should be discussed in detail before the S.R.C. gave its approval.

SCM SEC'Y VISITING CAMPUS

Miss Rhoda Palfrey, B.A., Associate Secretary for missions of the Student Christian Movement of Canada, will visit the SCM of U.N.B. from January 26 to February 2. While in Fredericton Miss Palfrey will meet the cabinet and the advisory board of the SCM. She will address various youth groups in the city and the combined women missionary societies. On Sunday evening, January 30, Miss Palfrey will speak to an inter-denominational group in a fire-side discussion at Brunswick Street Baptist Church. She will speak on "Opportunities for Christian Service".

Communism and Christianity

The Student Christian Movement is holding a study group on the campus on Communism and Christianity. The study group is being led by Prof. Lovell Clark and Mr. Bob Rogers. The study group started yesterday (January 25) and it is held each Tuesday from 1 to 2 p.m. in the seminar room downstairs in the library.

S.C.M. Elects Officers

At the first meeting of the New Year, the student Christian Movement elected a new slate of officers for 1955. Retiring president Jim Kennedy handed over the mallet to incoming president Jim McKenzie, 2nd year Business Administration student from Hampden, N.B. Last September Mr. McKenzie attended the National Council of the SCM held in Ontario as a U.N.B. delegate. Jack Ernst, 4th year Civil Engineer, was elected Vice-president. Willard Murray, 3rd year science, was elected treasurer and Miss Betty Steeves, first year Arts, Secretary.

The cabinet, appointed by the president and the executive, is made up of the following: Janet Beck, Jim Kennedy, Bill Griffin Evelyn King, Merton Moriarty, Wally Robbins, Bob McLean and Bob Platts. General Secretary for the SCM at U.N.B. is Miss Esther Harrison.

SCM SEC'Y VISITING CAMPUS

Mr. Macaulay's talk was most enlightening and members of the Council agreed that the formation of an Athletic Board would have definite beneficial effects on the financing of Athletic teams. The proposal, as outlined in the talk, was, however, rather vague and many details had not been considered to the satisfaction of the Council.

Photographs are seen on Campus

Dr. Mackay opened the Canadian Intercollegiate Festival Sunday afternoon. He stated that photography is an art which we can all take part in and was glad that there was so much interest in it at U.N.B.

The exhibit at the Arts Centre consists of 50 entries from 5 Canadian universities and colour pictures exhibited by Canadian Kodak. They will be adjudicated tonight by Mr. Donald Peacock, Mrs. Donaldson. The U.Y. Club has donated prizes for the best entries.

There was a color slide exhibition on Tuesday night in which over 100 slides were shown. They were taken in Europe, U.S.A. and Canada by U.N.B. students.

The U.N.B. camera club has not a darkroom on the campus but is sharing with the Y.M.C.A. camera club. They expect to move into a darkroom in the Forestry Building in February. The next meeting of the U.N.B. camera club is next Monday January 31 in the Forestry Building room 206 at 7.30 p.m. All those interested are urged to attend.

Morning Devotional Services

The Student Christian Movement is conducting morning Devotional Services on Tuesday and Friday morning from 8:40 to 8:55 a.m. in the old chapel room on the first floor of the Arts Building.

STUDENT CENTRE WILL OPEN SOON

The University of New Brunswick Memorial Student Centre is nearing completion. All that remains in the line of actual construction is some interior finishing. The lighting fixtures, plumbing, windows, interior plastering and heating system have been installed leaving only the flooring, specialized walling, installation of doors and kitchen equipment to be completed before the painting and decorating can begin. The color scheme and the furniture are at present being decided upon and orders are being placed. Due to the possibilities of construction and order delays Jack Murray, Alumni Secretary and Chairman of the Memorial Building Committee, would not hazard a guess as to when the final completion date would be but it is expected the building will be finished in two months, three at the most.

Left: The photo on the left is a view of the semi-completed main lounge on the second floor. The window faces the gym and the river. The space in the sub flooring area roof is where the double fireplace is to be built. The ceiling is done in acoustic tile.

Right: Above the main stairway and facing the main entrance to the buildings will be a wall containing the names of all former students of the university who died in battle. The names have not been inscribed as yet.

Pig In A Poke . . .

The refusal of the Students' Representative Council to buy a 'pig in a poke' last Wednesday evening was clear evidence that, in spite of rumors to the contrary, all the students Up the Hill are not a bunch of irresponsible kids.

Members of the Council listened respectfully for some twenty-five minutes to U.N.B. Business Manager, Beverly Macaulay, while he expounded on the virtues of establishing an Athletic Board which would alleviate the present cumbersome method of financing athletic teams. He backed up his arguments with evidence drawn from other Canadian camps that have systems similar to the one he proposed, and concluded by saying that he thought it would be to the benefit of students and athletes if the S.R.C. gave their support to the proposal.

In theory his argument was a good one. The adoption of the proposal would insure that all teams fielded had adequate funds for their efficient operation. It would enable the athletic directors to budget ahead, and in time, for their equipment; and all budgets would be underwritten by the University. There were few, if any, who disagreed with the advantages of the set up.

Since all funds and budgets were to be handled by the Athletic Board the natural question for a Council member to ask was: "How will the students be represented on the Board?" Mr. Macaulay replied that the matter hadn't been considered in detail as yet.

To the question of whether or not the proposed system would bring more money for athletic purposes, he replied, "I should imagine." To the question of whether or not students would be required to pay their way into games (after having given twelve or thirteen dollars to the University for athletics upon registering) he replied, "I don't know for sure, but I imagine that they would have to pay for some games." Finally, the question was asked as to whether or not such question would be answered before the S.R.C. was asked to ratify the proposal. Mr. Macaulay replied that there wasn't sufficient time remaining to "cross all the T's and dot all the I's" if the system was to be set in operation before next fall. (The O.K. of the S.R.C. would have to be obtained within the next two weeks so that the budgets may be drawn up under the new system and submitted to the Senate meeting in February.)

The S.R.C. decided that they would like to see a few T's crossed and a few I's dotted before they gave the go ahead. Consequently, a committee of seven S.R.C. members was appointed to meet with the administration and discuss the details which Mr. Macaulay seemed to know little or nothing about. In view of the fact that it has taken over one hundred and fifty years for such a proposal to evolve it seems just a bit ridiculous to suppose that the Council would pass it with only two weeks consideration while it was still in the nebulous stage. If it takes more than two weeks to define the terms then the time will be well spent.

N.F.C.U.S. SEEKS \$5,500,000 ST. LAURENT NOT READY

(Ottawa CUP) — No immediate action on suggestions that the federal government set up a \$5,500,000-a-year scholarship and bursary fund for needy Canadian university students, will be taken.

This appeared here recently as the outcome of a visit with Prime Minister Louis St. Laurent by a five member student delegation.

The Prime Minister told the delegation—two of them University of Toronto students—that the Ottawa government would not over-step what he called "provincial rights" in the matter.

The two University of Toronto students in the delegation were Peter Martin, Vice-President of the Ontario region of the National Federation of Canadian University Students, and Bill Angus, President of U. of T's Students' Administrative Council.

Others attending the meeting were Douglas Burns, President of NFCUS, Antonio Enriquez, past president of the organization and J. Yves Pilon, General Secretary of NFCUS.

The Prime Minister was reported by the delegates to have been "receptive" to the idea of a Canada Council.

The Prime Minister was reported to have made a definite promise to present a separate copy of the brief presented to him by the delegation to every cabinet member.

The question of setting up the Canada Council, to pursue the furtherance of education across the dominion—a recommendation of the Massey Commission on arts, letters and sciences—was not discussed at yesterday's conflag.

The MP commented that NFCUS (the five-man delegation was representing the organization) — in presenting the brief, had taken the proper channels. He said a Canada Council bill will come before the next session of parliament.

The Prime Minister emphasized that humanities should receive the same support at graduate level as scientific research projects.

NFCUS SCHOLARSHIP PLAN
1. \$2,500 Federal government scholarships and bursaries averaging around \$500 per year tenable for four years. This would give financial aid to ten thousand (20%) Canadian students each year.
2. This would particularly aid students who now cannot attend university because of lack of money and those now attending who might have to quit because of finances.
3. It would cost the federal government \$5,500,000 per year (one-seventh of one per cent of the budget).

FWOYER, BRACKEN WIN SCHOLARSHIPS

Two undergraduate scholarships in entomology, valued at \$200 each, have been awarded at the University of New Brunswick.

Dr. J. Miles Gibson, Dean of Forestry, announced today that D. P. Fowler, a fifth year student, and Dell F. Bracken, a fourth year student, have been awarded the scholarships.

Mr. Fowler comes from Naugatuck, Conn., and has been taking regular work in entomology at the provincial university since his third year. During the last two summers, he has been engaged in research work and he intends to go on to take graduate work in some field of biology.

Mr. Bracken, whose home is in Niagara Falls, Ont., has spent the last two summers with the Department of Agriculture at the Forest Insects Laboratory at Sault Ste. Marie, working on field projects in forest entomology. He intends to take graduate work in this field.

Student Financing Problem Discussed

Robert Platts, publicity director of the National Federation of Canadian University Students, was guest speaker at the weekly meeting of Fredericton Rotary Club.

Mr. Platts, a fourth-year student in civil engineering at University of New Brunswick and a native of Charlottetown, dealt with the topic of university student financing.

The speaker outlined the results of Dominion-wide survey conducted by the federation to determine the average annual cost of financing a university education and to what extent same might be met by net income derived from summer wages.

The survey indicated that continually-rising educational costs posed a real problem to many worthy students, necessitating borrowing and in some cases abandonment of their proposed courses of study.

Mr. Platts explained the need for a program of student financial aid, pointing out that in England and France, government assistance is afforded students at the university level.

FEATURES

The city of Fredericton is preparing itself for the most important event of the year — "Engineering Week". Pete Atkinson, President of the Engineering Society at UNB, claimed that the events this year will be the best ever. Plans are well underway for the big dance scheduled for February 11 at the Lord Beaverbrook Hotel. Several days ago some fifteen eager UNB engineering students were found waiting in line for their "Wassall" tickets. Everyone is getting in the mood.

The Engineering Brunswickan should be tops and this can be accomplished with your help. If you have anything to contribute please pass it along to Bill McNamara or place it under "Mc" in the Arts Building.

At 2 p.m. January 17, 1955, three wise men of the engineering staff gathered to remove a "Pellet Wheel" from its shipping box. The cover was removed, the braces thrown aside and an all-out effort was made to remove the pellet wheel without damaging the box. After a thorough examination it was discovered that the pellet wheel was spiked firmly to the box. A fruitless search for a nail puller was made. To the sorrow of all, the box had to be destroyed before the pellet wheel could be freed. It is rumored that the nail puller has been removed by a certain "backwoods" Association.

Engineers, don't forget to hand your Hodge Podge pictures to Bill McEwan or Bill Barwick.

Now we come to a portion on "Got To Know Engineering". This week:—How Electrical Engineering was originated.

On Faraday, January 10, 1855 A.C., the Kilowatt Kid was sent by the Daily Shmeener to cover the opening session of Parliament. Here is a copy of his report:

"A large crowd attended the opening session filling the gallery to capacity as members from both positive and negative parties filled the cell. It wasn't long before the negatives threw charge after charge at the positives, but the latter put up much resistance causing the discussion to get hot. One of the members tried to shunt the discussion and the assembly soon broke out in hysterics. The Prime Mover, sitting in his arm-a-ture, called for order. Just then, a member of the positive party made a switch, and both parties saw the light. A vote was taken and the negative won by 110 volts."

"WATT is the purpose of this story you ask? This verifies the fact that the Kilowatt Kid was the first to use electrical terms and hence is the originator of electrical engineering.

Tight clothing doesn't stop circulation—the tighter a girl's clothing the more she circulates.

Reflections

by "LIZ"

There are many ways in which a man may court the young lady of his choice. The sending of flowers and bringing of chocolates are well known to us. Less known is the giving of a Love Spoon. This is an old Welsh custom, which, it is claimed, has given to the English language that expressive term Spooning.

According to the old custom, a love spoon was offered by a man as a sign that courtship was desired; thus a village belle, if she were a coquette, might accept a spoon from several would-be suitors.

Some of the most simple spoons were intended for use, but many were to oelaborate to be more than symbolic. The actual symbolism, according to courting, seems to have originated in spoons of similar size fitting closely into each other.

Most exciting love spoons are eighteenth or nineteenth century work, but the old Welsh craft is still practised by a few wood-carvers, and the spoons may still be purchased.

Remember last week when I mentioned that three out of five women in the United States tinted their hair? Since last week's edition, Canadian news has been released. The "lustre brown mink" shade so popular in U.S. is rivalled in Canada by "chestnut satin" and "Russian Red", and statistics have been changed to read, in Canada, four out of five.

AH PROPHECY!

"The improvement in city conditions by the general adoption of the motor-car can hardly be over-estimated. Streets—clean, dust-free and odorless—with light rubber-tired vehicles moving swiftly and noiselessly over their smooth expanse would eliminate a greater part of the nervousness, distraction and strain of modern metropolitan life."

From the July 1899 Scientific American.

Confidentially

Hope you fellows have started to use your charms, etc., on the Co-Eds by now, as lists are starting to appear already. The agenda for the big week is as follows: Monday, sleigh ride; Tuesday, pool party; Wednesday, toboggan party; Thursday, show; Friday, Apache Dance; Saturday, hockey game and wolf night.

The Card Party held by the Faculty Wives for the Co-Eds was very well attended and everyone enjoyed the evening with its variety of entertainment.

One of our seniors has been stricken with pneumonia and has been removed to the hospital. We all miss Sandra and wish her a speedy recovery.

You Co-Eds who frequently hop over freight trains do take advice from Di Johnston and don't get suspended in mid-air.

Clara, our cook, left us last week-end. With Mrs. MacArthur and Frances both pitching in, we are finally back to our former hearty eating habits.

Writer's Workshop

When I first saw Cynthia in her fresh light frock, she enchanted me with her loveliness and candor. Her golden-brown hair was brushed abundantly down her back, and although she must have been well past twenty, her hair made her look like the picture of Alice, which I had seen in the "Alice books" as a child.

"Would you not like another cup of tea?" she asked, with a curious intent look, like a fox peering out from cover. I answered yes, and passed my cup and saucer to her. She handed them gingerly, making fine little scrolls with her fingers. I admrred the nice shy manners which she displayed as she served the tea.

I liked her voice. She had a soft flurried way of speaking, which carried with it a kind of purity, making her seem very innocent and maidenly. Her speech showed the results of careful teaching, and she did not resort to Canadian slang.

"Do you like the biscuits?" she began.

"I always call them biscuits. Some people call them 'crackers'. I think we all ought to call them the same thing. I like to call them biscuits because they crackle so when you break them. I think that 'biscuits' is better than 'crackers' because 'crackers' sounds as if they are all cracked, but some biscuits just bend you know!"

After saying this she looked very pleased with herself, as if she had just established some law from which all of mankind would benefit. She reached for the biscuits and delicately lifted one from the dish.

She nibbled at it, and although she took great care not to spill any crumbs, a few wild tallow tumbled down on to her flat chest. She quickly brushed them off, offering a great flow of apologies for her clumsiness.

Then she smiled at me charmingly with her little mauve-ringed moist mouth, and I could not help but remark that her small cupid-bow lips were really too turgid to kiss. She laughed, her voice hitting precise little notes, as she said:

"Why, you haven't eaten a single biscuit!"

Her face was beaming with enthusiasm, and since I could see nothing to be enthusiastic about, I thought I should do something or other. I fished out my package of cigarettes and offered one to her.

"Oh! No thank you!" she cried, her voice again hitting those precise little notes.

"I do not smoke!! I think that ladies who smoke are really quite vulgar and sordid."

Her facial features pulled tight in an expression of complete disgust, which reminded me of an expression which was quite often displayed by a frustrated splinter school marm whom I once knew.

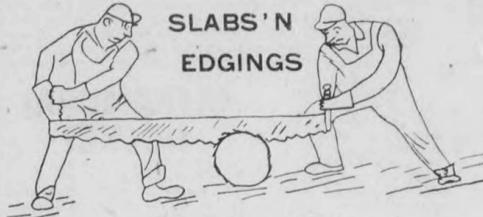

She spoke of her singing in the church choir, and placed special stress on the fact that she knew all the hymns by heart. Apparently I didn't seem to be too impressed by this, for she quickly changed the topic, and began to speak of her University training.

She told me that she had gone to the University and that she had majored in German. In order to impress me further, she chirped off a few idiomatic German phrases with a very strong English accent. It was quite plain that she had studied German straight from the book, and she had read Goethe without even being able to pronounce his name.

I found myself wishing that I could slough off that life of the small town, which she put on when she woke every morning, like some cursed, indestructible dress of girlhood.

I could see many reasons for her being interested in me. I was young, handsome, irresistible, and a bachelor. But her efforts to impress me fell flat, and since I was now perfectly bored with her company, I made some weak excuses and rose to leave.

She followed me to the door, begging me to stay a bit longer. When we reached the vestibule, she paused and looked up at me expectantly. I said good-bye quietly, and bent over and kissed her on the cheek!

by Jack, Jim and Paul

Forty members were present at the regular meeting of the Forestry Assoc. on Monday the 17th. The main topic at the meeting was the fourth annual MONTE CARLO. The date for this event has been set for Friday, February 18. This is the popular event of the year for which students and professors have been waiting. Do you remember the wonderful time you had there last year? How can you forget?

We have received word from the St. John Ambulance Assoc. that the following have successfully passed their Senior Saint John Ambulance exams: J. Lister, N. Dymant, A. La Breque, G. Miller, H. Diechman, L. Grey, R. Marachya, D. Moran.

The Forestry New Year's Social was held on the 14th on the third floor of our building. Three interesting movies were shown. The reading room was turned into a dance floor and Room 305 became a card room. Coffee and donuts were served. What fun!

The Assoc. has again put itself in the limelight by sponsoring a UNIVERSITY WATER SAFETY PROGRAMME. The course is broken into three parts: 'Learn to Swim', 'Canoeing', 'Water Safety'.

We were surprised to see BULLDOZER in our paper. The 'ears' have not had a column for years, perhaps because they were all too illiterate to write one. Seriously, we might say here, we are surprised and glad that our largest faculty has scraped the surface with 'Bulldozer'. Welcome to the paper and may the 'ears' be able to read.

During the Christmas holidays the form reproduced below was discovered by a Forester. No survey forms were available for males. Consider the two words on each line to represent the extremes of a continuum, along which you should rate any Co-Ed you are interested in. We are told that the ratings have been experimentally checked by the Chi-Square analyses system and it has been shown to be significant with a high level of confidence.

BY

DIAGENES

Last week there was a lot of excitement around the Residence. Due to the large snow fall in Fredericton the boys decided to do a bit of sculpturing. In the wee hours of the morning of the 20th, half of the Residence Members gathered outside in the front and began to build snow men. All sorts of weird things began to take shape as the boys got into action. In the morning there appeared two likenesses of Residence Administrators, along with inmates of the Residence pleading mercifully for some TEA. Residence Lawn now seems to have turned into a Grave-yard.

MEALS: OH TO BE HOME AGAIN

We would like to take this opportunity to welcome the Engineers Column ??? We have had a bit of difficulty in deciding if the name suits. We agree with the BULL but we will leave it up to the readers discretion as to the rest of it. Anyway, better late than never.

As for the men of the week we have decided to choose the four man committee who were investigating the Case of The Missing Tea Cups.

The Monkey's Disgrace

Three monkeys sat in a coconut tree, Discussing things as they're said to be. Said one to the others, "Now listen, you two, There's a certain rumour that can't be true, That man descended from our noble race; The very idea is a disgrace.

"No monkey ever deserted his wife, Starved her babies and ruined her life; And you've never known a mother monk To leave her babies with others to bunk, Or pass them on from one to another Till they scarcely know who is their mother.

And another thing, you'll never see A monkey build a fence around a cocoanut tree And let the cocoanuts go to waste, Forbidding all other monkeys to taste. Why, if I put a fence around a tree, Starvation will force you to steal from me.

"Here's another thing a monkey won't do; Go out all night and get on a stew, Or use a gun, or club, or knife, To take another monkey's life. Yes, man descended, the ornery cuss, But brother, he didn't descend from us."

DEVILS TIE TOMMIES 3-3 Raiders Droop? Bloomers Whoop!

Intercollegiate hockey for U.N.B. opened Saturday night in an action packed contest at York Arena. After 70 minutes of play the game went into the records as a 3-3 deadlock. The stage is now set for a thrilling return match at St. Thomas on February 19.

The first period of Saturday night's game was marked by fast, wide open hockey. Moeckler at the 4 minute mark missed an open net. Halfway in the period Ron Ketch got a break-away and had Frass completely beaten only to have his shot hit the goal post. In the dying minutes of the period Griffiths rose to great heights as he outgassed Creamer of the Tommies who came in on him after having caught the Devil's defense off guard. Three penalties were called in this period.

The Tommies opened the scoring in the first few moments of the second period. At the 37 second mark McKee was Johnny on the spot when he received a pass from McMullen to put the Tommies in the lead. At the 9:55 minute mark Tommies again blinked the red light behind Griffiths when McMullen scored on a pass from Rousseil. Minutes later Coombes caught Frass of the Tommies flat-footed only to have the puck roll off his stick at the last second. In the period there were three penalties which were all handed out to St. Thomas.

The third period opened with the Red Devils fighting to get back into the game. Finally at the 8:10 mark Ed Dohaney broke through and fired the puck past Frass to put U.N.B. in the game. 50 seconds later the ever hustling Red Devils evened the game when Kennedy combined with Baker to tie the score with Kennedy scoring. At the 11:03 mark with Tommies a man short, Ross working the point on the power play scored on assists from McElmon and Moeckler. Three minutes later the Tommies tied the game when McKee scored from McMullen on a screen shot. Play during the remainder of the period was very wide open. Five penalties were called with Tommies setting four.

The overtime period was again marked by fast hockey. U.N.B. missed a great opportunity when after 3 minutes of play, Corbiel set Dohaney up in the open only to have the right winger shoot wide of the open net.

The game ended with U.N.B. one man short. Trzop being in the penalty box, for interference. 3 penalties were called in the period with U.N.B. getting two.

The netminding during the game was outstanding for both teams with Frass stopping 38 shots, while Griffiths at the other end was called upon to handle 29.

Next Friday night finds the Red Devils at home to Mt. A. The Sackville team is reputed to be very strong and should thus produce good hockey. Game time 8 p.m.

U.N.B. — Goal, Griffiths. Defense Baker, Todd, Corbiel, Trzop, Frass, Moeckler, Coombes, McElmon, Ketch, Ross, Dohaney, Kennedy, Auger, Robinson, Benson.

ST. THOMAS — Goal, Frass. Defense McKee, Woodhouse, Chis-olm, Murphy, Frass, Creamer, Boyle, Rousseil, McMullen, Keating, McGinn, Moar, Noel, Murphy, Barry.

1st P. — No scoring. Penalties — S. U. Woodhouse. 14:07 Griffith (McElmon served). 15:52 McEinn.

2nd P. Scoring 37 St. T. McKee. 9:55 St. T. McMullen (Rousseil). Penalties. 10:51 McGinn. 12:30 McKee. 19:41 McMullen.

3rd P. 8:10 Dohaney (una'd) 9:00 Kennedy (Baker) 11:03 Ross (McElmon, Moeckler) 14:56 McKee (McMullen). Penalties. 5:46 Boyle. 11:05 Moeckler. 15:21 McMullen. 15:33 Woodhouse.

Overtime: No scoring. Penalties. 6:22 Trzop. 9:25 Trzop.

IMPORTANT TRACK

Will all eligible students who wish to train and are willing to remain to compete in the M.I.A.U. track and field championships to be held at Acadia University on May 14, 1955, please register with Coach Legere before Jan. 31, 1955.

The interest indicated will decide whether U.N.B. will or will not field a team.

INTRAMURAL HOCKEY

FORESTERS 1, 2, 3, 8 ENGINEERS 4'S 1

Campbell, Bird and Howe snapped in three quick goals to give the Foresters an early lead. With 45's Benwell in the sin-bin the ex-men ground in another two to lead 5-0 at the twenty minute mark.

In the opening three minutes of the final twenty, Howe fired two more to complete his hat trick. Butler came back for the Timbermen a minute later to drive in the eighth tally. At the half-way mark Campbell for the Engineers spoiled Burrows shut-out on a net scramble to end the scoring.

Goals:—Campbell (F) 2, Bird (F) 3, Campbell (E).
JUNIOR ENGINEERS 4 FORESTERS 4 & 5 1

The game started slowly, both teams playing heads up hockey. The Juniors broke into the score sheet the four-fifty mark on goals by Douglas and Wright. With Lindsay in the cooler Wright blinked the light again for the Juniors. At this point the game roughened up with both teams sending a man to the penalty box at the two minute intervals.

The second half started with a snap; first a penalty to the Engineers, then a goal by Miller for the Pine Trees. The remainder of the game looked more like lacrosse than hockey, with tripping, cross-checks, high sticking, interference and boarding pre-dominating. (Fortunately there were no casualties). In the dying minutes of the game Richard drove a sizzling shot from the blue line catching the right hand corner to chalk up the Engineers fourth goal.

SENIOR CIVILS 2 — ARTS 1

The Senior Civils squad emerged victorious in a hard fought battle with the Artsmen. Cormier was the first goal-getter for the winners when he hooked the puck from an Artsman and went in alone on Peacock. The Artsmen tried desperately to tie it up with Dunphy of the Civils in the sin-bin. However the Civils hung on and Dunphy got on just in time to set up Landers Insurance tally. Barter was credited with the Arts only goal and it was vigorously protested by the Civils. The Civils received two more penalties with Eliss sitting out a tripping penalty and Broholt an interference misdemeanor. The Artsmen tied at Peacock in the dying seconds but they couldn't tie it up.

SOPH. ENGINEERS 7 SCIENCE 2

Hebert was the big gun for the Engineers as they crushed the Scientists. He accounted for three goals and assisted in another. Goeten was another big point getter as he accounted for two goals and an assist. Lavolette and Robinson each had one goal and an assist to their credit. The Scientists fought gamely though, McKinnon scoring on a play begun by Patterson and Prime tallying unassisted in the final minute of play. Will Morell of the Scientists had the dubious honour of attaining the only penalty of the game.

40 yd. breast stroke: Pauline Saunders.
40 yd. back stroke: Pam McCready.
Diving: No contestant.

ALUMNI 70 FRESH. FOR. 49

In the final set-to of the night the Alumni drubbed the Freshers soundly, under the automatic eye of Moose and his 46 points. However, the Freshers were given the win since the Alumni hoopers forfeited for lack of men. The high-scoring game remained close the first frame with the Foresters almost matching Alumni point for point. But in the final stanza the "oldsters" proved too much for the Freshmen squad and built up a considerable margin, holding Smith to 2 points for the half.

Top Scorers: Alumni — Flemming, 46; Simpson, 13.
Foresters — Smith, 14; Harris, 13; Gaele, 12.

Bloomers

U.N.B. co-eds defeated Dal 53-46 in their first intercollegiate game of the season in the Lady Beaverbrook Gym. Saturday, January 22.

The action packed game constituted some fine shooting as well as clean passing and terrific rebounding. The home team was five points behind at one time in the first quarter but at half time the Red and Black were in the lead 28-22. U.N.B. received fourteen fouls while Dal. was called down only seven times, however the home team took the edge on free shots as they sunk 8.

Barb Clancey of Dal. was high scorer of the game as she swished 28 points with Captain Bliss close behind with 26 points for U.N.B. Both players scored mainly through long shots beyond the foul line. Lois Lange of U.N.B. came up with 16 points and was especially effective on rebounds.

The girls on the team wish to thank the members of the illustrious cheering squad who so wholeheartedly gave their support. This terrific spirit gave the girls confidence in getting their 7 point lead in intercollegiate competition.

The U.N.B. squad will journey to Halifax to battle Dal. once again Thursday, Jan. 27 and on the way back they will tackle Acadia on Friday night.

Lineup:—Dalhousie—B. Clancey 28 F, Flemming 7 F, Montgomery 5 F, Wilson 6 F, Stoney G, Thompson G, MacDonald G, Mynden G.
U.N.B.—Drew P, Bliss 26 F, Johnstone 7 F, Hornbrook 4 F, Lange 16 F, Scovil G, Millar G, MacNaughton G, McDade G, Tre-carten G, Edwards G, Caughey G.

Raiders

Playing a scheduled game in the Northeastern Conference on Jan. 22, the Madawaska Training School squad from Fort Kent, Maine, nosed out U.N.B. Red Raiders by the close score of 70-64.

Beginning with a quick basket by Milligan on the tap, the boys from the Hill opened up at a terrific pace sinking baskets from all angles. After a few minutes of this one-sided play, the Maine hoopers settled down to a steady brand of ball and slowly gained on the Varsity players, ending the half with a 2 point deficit of 34-32.

With the beginning of the second stanza, the visitors showed their passing and play-making superiority by continually faking out the Raider players and tipping in lay-ups.

Dick Smith at centre, outstanding floor-man of the game, led the Madawaska boys in their excellent showmanship. Without a doubt the visitors squad proved to be the best ball-handling team to be seen this year at the Lady Beaverbrook Gym.

Led in shooting by Sammy Hale, who gathered 21 points during the evening, the Maine team built up a comfortable lead during the second half, at one time 17 points over the home team. In desperation the Hillmen's coach pulled the first line.

AAA Drive

Herewith is presented the proposed point system for athletic awards. This tentative arrangement has been drawn up by the A.A.A. as a lasting means of awarding athletic letters. Under this proposed system a varsity letter would be worth 400 points. Intramural awards would be given and special distinction for a certain number of varsity letters. Special awards are to be devised for presentation to team managers (varsity), cheerleaders and band.

PROPOSED PLAN

VARSAITY SPORTS—I, Hockey, Football, Men's Basketball, Ladies Basketball, Soccer.
(a) 100% attendance at practices.
(b) Attitude such as to be a credit to the team and the university.
(c) Must appear in 75% of the periods of competition in that sport for that year.

II. Swimming, Track and Field, Skiing.
(a) 100% attendance at practices.
(b) Attitude (as above).
(c) Must compete in all scheduled meets and (1) earn 8 points in any one intercollegiate dual meet or (2) earn 6 points in any one intercollegiate triangular meet. Hockey, Football, Basketball, Swimming — 200 pts.
Soccer, T. & F., Skiing — 150 pts.
Championship award bonus for above — 50 pts.
Badminton, Tennis — U.N.B. representative at meet, 100 & 75 res.
M.I.A.U. Champ — Bonus — 50 pts.

Cross Country: 1st—100, 2nd—50, other team members—25 pts.
If winning team in meet — 50 pt. B.

III—INTRAMURAL SPORTS—Water polo, Bowling, Softball, Soccer, Hockey, Basketball, Volleyball.
Player 25, Manager 40, Player-Manager 40.
Badminton, Tennis, Golf, Hand-Ball, Table Tennis, Squash, Fencing, Champ 25, Runner-up 15.
Only (4) intramural activities towards a point total in one year.

W' POLO

Two games were played Saturday 22nd in the ardent swimmers league. Water Polo, although a greatly modified game as played "at the pool", proves to be a great sport for all interested swimmers.

The first game saw the Foresters 4's down the Soph. Engineers by the lopsided score of 16-1. But it must be taken into consideration that the winners have played together 3 or 4 years and are without a doubt the best all-around players in the league. Every man on the team is capable of scoring and did so during the game, dividing the points quite evenly between them. Another great factor is their passing skill and their position-playing. The Sophs were unable to do much damage, but referee Legere says that with a little more experience, they will be a team to beat.

The Frosh Engineers won by default to the engineers 34's, due to lack of swimmers for the losers. However, in an exhibition game, the 34's swam to a rollicking victory over the frosh lads rifling past 11 shots to the losers 5. Again experience in shooting, passing, and better conditioning marked the pace in this set-to. The Frosh tried hard to overpower ability with eagerness but to no avail. Their 10 lads on hand, however, proved that in years to come there'll be a tough team waiting for one and all.

NOTE: No water polo next two Saturdays because of swimming instruction and meets.
