On the appearance of any of these maladies the Ointment should be well rubbed at least three times a day upon the neck and upper part of the chest, so as to penetrate to the glands, as ealt is forced into meat: this course will at once remove inflammation and ulceration. We know that many of the tenants have great hardship in paying their rent, and many are dissatisfied, while their neighbors ave free-holders. But after the answer we have received from the colebration of marriages that they may be no doubt anong themselves insamuch as there was no mention made of their playing their rent, and many are dissatisfied, while their neighbors ave free-holders. Without loss of time, the child's dripping clothes were torn off his body, and he was placed in warm blankets before a blazing fire. He was laid on his face, blankets before a blazing fire. He was laid on his face, with the head lower than the rest of the body, and table calt sprinkled over him. He was then rubbed with the bare hand, and moved gently from side to side. The blankets, as they cooled, were constantly replaced by warm ones, and the rubbing was not slackened for a single instant. After being treated in this way for about ten minutes, the child showed faint symptoms of returning life. His feet and temples were rubbed with spirits, after which he came to rapidly. In about an hour after the child was taken out of the water, he was able to take some toast-water; and the next day, after passing a somewhat restless night, he was running about the somewhat restless night, he was running about the

The Austrian Government ascribes its defeat in the "Seven Day's War" of 1856 chiefly to the superior military organization of Prussia. A HINT TO SMOKERS.—M. Melsens, a French chemist, has found that tobaccoes from various countries contain micotine in very different proportions. In tobacco from some parts of France there is 7.90 per cent. of nicotine; while Havana tobacco contains only 2 per cent. He proposes to smokers a way of preserving them from the effects of the alkaloid, by putting into the tube of the pipe or eigar holder a little ball of cotton, impregnated with eitric and traine acids. As the smoke passes through cotton, it will deposit the nicotine therein, in the shape of the tennate and citrate.

SUPREME COURT-JUNE TERM.

The June term of the Supreme Court was opened at the Court House, St. Eleanor's, on Tuesday, the 9th instant, Indee Peters presiding.

The following gentlemen composed the Grand Jury .-The following gentlemen composed the Grand Jury:— James Campbell, Esq., Forman; Charles Green, R. Gordon, Wm. Haywood, B. L. Lydiard, H. Coughton, D. McLellan, A. McGougan, A. Montgomerv, John Miller, R. Gaudet, R. Wright, W. Tuplin, John Oreen, Andrew Campbell, R. McC. Stavert and G. Crosby, Esquires.

McC. Stavert and G. Crosby, Esquires.

Nearly all the members of the bar were present, and each seemed to have a bag full of briefs. Litigation is evidently prosperous in Prince County, and the sooner we have a new and more commodious Court House the better. The old thing which now stands in the village of 8t. Eleanors, and is suffered to answer the parposes of both Jail and Court House, is indeed, a shabby affair and utterly insufficient for the present requirements of the County.

The Grand Jury found bills of indictments for lareery, forgery, assault, &c., against several parties; but on their being called for arraignment, it was ascertained that the accused, as well as their bail, in all cases but two, had left the Island for parts unknown. The crown prosecutors were, therefore, relieved from some little trouble.

were, therefore, relieved from some little trouble.

On the civil side, the docket of causes was unusually lengthy—and the number of appeals from inferior tribunals was nearly forty, many of them being sent up in a manner that indicated either gross ignorance or culpable negligence on the part of the officials in the courts below; and Judge Peters intimated that if an action or two were brought against some of the erring "justices," or their clerks, it would have a wholesome effect on them and tend to bring them to a reali-

ation of their responsibility.

Unquestionably the blunders of many of the Small Debt Unquestionably the blunders of many of the Small Debt Courts are becoming too frequent, and call for severe reprehension. In fact, one or two gentlemen of the bar, the other day, obtained from the Court rules nisi against some of the Commissioners Courts for irregularity in filing appeal papers, &c. Any one who refers to Laird's or Harvie's Almanac, will see that the "Magistracy" of the Island is quite imphsing and formidable in point of numbers; but many of the names might be appropriately transferred to the retired list.

The Jury cases tried this term were not of special importance, save, perhaps, that for verbal stander, which we give in our list of causes. This case created a great deal of interest and attracted a numerous assemblage to the Court. There were probably forty witnesses subpened, and most of them examined, and the trial lasted two days. Many circumstances of a nature too indelicate to mention, were disclosed by the evidence, and we, therefore, refrain from publishing any of the details. As far as the verdict is capable of vindicating the plaintiff's character, that vindication has been established to the extent of £200 damages, and probably £100 costs. The Jury cases tried this term were not of special impor
