

What was his objection to bringing them down. The papers related to an institution which the country was very much interested in, and he thought the minority in this House had a right to ask for all the information which could be given with regard to that institution.

Mr. Fraser drew attention to the fact that the motion was entered in the votes and proceedings for Thursday.

The motion was accordingly allowed to stand.

Mr. Mowat moved, "That during the present session Government notices and orders shall stand and have precedence over Public Bills on Mondays, Wednesdays and Thursdays of every week commencing with Wednesday the 18th inst.—Carried."

A Committee was appointed to revise the rules and regulations of the House.

Mr. Mowat moved the second reading of the Bill for the further limitation of actions and suits relating to real property.—Carried.

Mr. Tooley will inquire on Tuesday next, whether it is the intention of the Government during the present session to make any provision for the erection of a Normal School in the Western part of the province, and if so, where said school is to be located.

#### The Kingston Election Trial.

The examination of witnesses in this trial closed on Wednesday, and Chief Justice Richards has reserved his judgment till Friday. At the commencement of the trial it was admitted by respondent's counsel that bribery by agents had been practised, which admission was sufficient to void the election. The evidence taken was, therefore, with a view of proving personal bribery by Sir J. Macdonald. A number of witnesses were examined, who took a more or less active part in the election, and who seemed to have the handling of considerable sums of money, which was freely distributed among the tavern and saloon keepers in treating, paying for rooms, and in the hiring of teams.

Sir John himself was examined by Mr. Bothune. The substance of his evidence was that he was doubtful about offering for Kingston until persuaded by his friends, who formed themselves into an Association, the Hon. Mr. Campbell being the most active member. Sir John thought that his own expenditure did not exceed \$2,000, but other sums were contributed—the exact amounts not being stated—by friends in Toronto and other places. Mr. Campbell had charge of the distribution of the funds, and it is a somewhat suspicious circumstance that this gentleman could not be found when wanted to give his evidence. He had been traced from Montreal to New York, and there had mysteriously disappeared. His evidence would have thrown more light on the way the money was spent than that of any other witness. All that could be got out of Sir John was that he had made a close personal canvass, had been around a good deal among the taverns, but, to use his own words, "did not directly or indirectly give any money, nor approve of, know of, or sanction the giving of money for bribery."

Mr. Bothune, in his opening speech, admitted that there was no case of personal bribery made out from the evidence given. He said Sir John knew it would cost a large sum to gain over the publican interest, which was held of so much importance. There was a violation of that branch of the Act relating to keeping open houses. It is true the respondent was not aware of the drink given by Hogan, but it was apparent that the respondent was desirous of obtaining the interest of the publican's class. If the respondent were cognizant of the facts it was repugnant to the Act, but it was not easy to suppose how the respondent could be unaware of the large expenditure for carrying on the canvass. He asked his Lordship to decide whether there had been corrupt practices by the agents, with the knowledge of the respondent. Respondent's counsel admitted that the expenditure during the election reached \$3,000. His Lordship said if Mr. Campbell were present, and stated that the money was paid out to agents, with instructions to spend it only in legitimate expenses, it would go far to determine what the decision would be.

The St. Catharines' Times makes the very wise remark, that the prime cause of Dr. Jukes' defeat in Lincoln was that he did not get votes enough. A most sufficient reason certainly.

From carefully prepared statistics, the Government will be able to show that a great saving of money has been effected by the purchase of the Guelph site for the Model Farm, even if the Mimico Farm should also be retained as Government property.

The London Advertiser says it is rumour 1 that the Tories are willing to allow Major Walker to be re-elected without opposition, if the Reformers allow Mr. Meredith to go in unopposed 2 for the Local Legislature. The Advertiser adds that the Reformers will never consent to any such compromise.

It is said that Daly, Scott, of Peterboro, and other Conservatives, make no secret of the fact that they would not support a Government including Rykert, Lauder and Boulbee, even if the formation of such were probable. It is also said that Mr. Cameron's absence is intentional, because he will not take part with the trio in their chosen mode of opposition.

THE CHARGES AGAINST RYKERT:—The motion for a committee on the McKellar-Rykert charges comes up tomorrow. Mr. McKellar will insist on having the Canada Southern, Great Western, Tilsonburg, and Toronto Street Railway matters all included in the scope of the committee's work. Rykert will be expelled if he fails to limit having taken the money, but claims that it was paid for professional services, not for support of the bills in the House. Of course such defence will not clear him from the charge of having perverted his position as M.P.P.

It is said that Mr. Dawson—of the notorious Dawson road—is canvassing the Sault district, in view of the coming election.

Incorporated under the Special Act of the Province of Quebec, No. 45, 3rd Session, 2nd Parliament, 37 Victoria, 1874.

Application will be made at the next Session of the Quebec Legislature to amend the Act in terms of this Prospectus.

Capital \$500,000, in 20,000 Shares of \$25 Each.

PROVISIONAL DIRECTORS:  
Hon. JAMES SKEAD, Vice-President of the Dominion Board of Trade.  
J. M. CURRIER, Esq., M.P., for City of Ottawa.  
ED. McJILLIVAN, Esq., ex-Chairman of Ottawa Board of Trade.  
R. S. CASSELLS, Esq., President Union Forwarding Company, Ottawa.  
EDWARD HAYCOCK, Esq., Ottawa.

BANKERS:  
THE ONTARIO BANK.  
SOLICITORS:  
Messrs. COCKERBURN, WRIGHT & CLEMOW.  
SECRETARY:  
R. W. CRUCE, Esq.

This Company has been formed for the purpose of purchasing and working the valuable iron mines situated in the Townships of Templeton and Hull, in the County of Ottawa, and Province of Quebec, called the Haycock Iron Location: the Company holding the power under the Act to "carry on the business of exploring for, mining, smelting, manufacturing, dealing in, and disposing of iron and other ores and metals, and the manufacturing, selling, dealing in, and disposing of steel workings, or the products of iron and steel."

The property to be acquired is fully described in the report of the eminent Mining Engineer, Dr. E. J. Chapman, Professor of Mineralogy and Geology, in the University College, Toronto (vide prospectus). It may be briefly described as follows:

1. The north half of lot 1 in the 11th range of Hull, comprising 100 acres of mineral land, and 10 acres of timber land, situated in the Province of Quebec, about eight miles north-west of the City of Ottawa, as described in the following statement:—

2. The adjoining lot 28 (north and south halves) of the 6th range of Templeton, comprising 200 acres of mineral land.

3. The contiguous south half of lot 27, in the same range, comprising 100 acres of timber land.

4. Ten acres in lot 2 on the 6th range of Hull, on the left bank of the River Gatineau, which has been secured, partly to serve as a storing place and loading ground for shipping the ore, but chiefly as a convenient site for the erection of furnaces. This area is connected with the mineral or iron area proper by a tramway of 6 1/2 miles in length, of three-foot gauge, has been very solidly constructed, and is now in complete working order. It runs for a short distance through the Haycock property, and is then continued along the town-line between Hull and Templeton, on to the furnace site on the Gatineau.

In addition to the 6 1/2 miles of tramway in complete working order, with full rights of way from the ore-beds to the furnace site and shipping ground on the River Gatineau, the assets of the property include a steam sawmill, of 20-horse power, sawn timber and logs, a boarding house, Manager's house, storehouse, office, stables, powder house and blacksmith's shop. Also a derrick and other mining plant, tools, &c., together with about 5,000 tons of raised ore, and 30 tramway cars.

The quantity of the ore as described by Professor Chapman is practically inexhaustible, it lies close to the surface, and is easily mined, while its quality may be estimated from the fact that it has been made direct from the ore. The fullest particulars of analyses and experiments proving these statements can be had at the Head Office of the Company, and at the agent's at Montreal.

The price to be paid for the purchase of the property is \$250,000; one half in cash, and the balance in fully paid-up shares of the Company; in consideration of which the proprietor will make over the freehold of the estate free from all incumbrances whatsoever.

And further, as a proof of his bona fides, and his entire confidence in the prospects of the undertaking, HE WILL GRANT TO THE SHAREHOLDERS A MINIMUM DIVIDEND OF NOT LESS THAN TEN PER CENT. PER ANNUM on the paid-up capital for three years from the date of the allotment of shares, and as security for the due payment thereof, he will deposit in the hands of the Company the whole of his paid-up shares, and give such further security in cash as may be thought necessary for the carrying out of his guarantee.

The capital will be called up as follows:—

On application.....	\$2 per share.
On allotment.....	3 "
15th January, 1875.....	5 "
15th February, 1875.....	4 "
15th March, 1875.....	2 "
15th April, 1875.....	2 "
15th May, 1875.....	2 "
15th June, 1875.....	2 "
15th July, 1875.....	2 "
15th August, 1875.....	2 "
15th September, 1875.....	1 "

The share lists will close on the 1st December, 1874, and as the shares will be allotted pro rata according to priority, an early application is desirable.

Prospectus and any further information relative to the Company can be had on application to the Head Office, or at the Montreal agents, Messrs. Drummond, Cassels & Co. wt

## FARMERS' DIARIES.

IF our farmers knew how little trouble it is to keep a diary, and with what satisfaction they would look over it in a few years, we feel sure they would, many of them, be induced to begin one. A simple record of the weather and the operations of the farm, the writing of which would not occupy two minutes a day, will, in after years, be not only a source of pleasure, but also of great practical benefit; by reference back to the record of former years, one can see how late he planted certain crops, and at what time they matured, also items of interest to the family prices, &c. At Day's Bookstore will be found a large stock of Diaries and Farm Account Books. Day will sell you a large foolscap Diary for 35 cents, and Pocket Diaries from 15 cents upwards. Begin now, and it will pay you well for the few minutes' lost in entering your day's work.

HELENA GRAHAM, THE BRIDE'S SACRIFICE.

CHAPTER IV.

"Well, Helena, one would think you were attending for the stage," said Captain Graham, drily, as he approached. Helena laughed gaily, as she sprang down on the white, level sands between her brother and lover.

"Well?" said Helena, inquiringly. Captain Graham, condensing the story, gave them the outlines and principal facts in a few words. Both listened with deep interest; but when he spoke of the pale, haggard face, with its dark, waving hair, glaring at them through the window, Herbert Clinton started violently, and turned pale. Helena's eagle eyes were fixed on his face, and she observed it.

"And what does Mrs. Ben take this nocturnal visitor to be?" inquired Helena. "A mortal like herself, or a spirit disembodied?" "Oh, a ghost, of course," replied her brother. "The spirit, perhaps, of the woman walled up to perish in the room with the murdered man. Ugh! The story altogether is hideous enough to give one the nightmare. And now that you have learned all, I believe I will go and send Evan down to enter the body."

"And what do you think of this story, Herbert?" inquired Helena. "I cannot tell. Yesterday, I should have joined your brother in laughing at it; but to-day— He paused. "And why not to-day?" breathlessly inquired Helena. "Helena, I do not wish to alarm you needlessly; but last night, as if to punish my presumption, I experienced something very like a supernatural visit."

"Good heavens, Herbert! Then the story told by the servants is true?" "It certainly seems like it. Had any one else told me what I experienced, I should think they were humbugging me; but I cannot discredit what I saw with my own eyes." "And what was the appearance of the nocturnal visitor?" "Exactly like the description Mrs. Ben gives of the face that appeared at her window—white as that of the dead, with dark, streaming hair, and wild, vacant dark eyes."

"Oh, Herbert, can it be that— But, no, it is impossible. At what hour did this apparition appear?" "Between one and two, as near as I can judge." "Strange, strange! I, too, heard something dreadful last night." "Is it possible? What was it, dearest Helena?" "Listen! About midnight I was awakened by something that sounded like a heavy fall right outside my door, followed by a groan so deep, so horrible, that the very blood seemed freezing in my veins. Trembling with terror, I half rose to listen; but all for a time was still. Trying to persuade myself that I was only dreaming, I was about to lie down again, when a shriek, the most appalling broke upon the air, and died away in an agonized moan. I dared not move, I could not sleep, and I lay covering in superstitious horror until morning. With the bright sunshine came renewed courage, and I feared to mention what I had heard to my brother or you, lest I should be laughed at—even as you feared the same. Herbert, there must be some horrible mystery here. Some foul crime, I fear, has at some time been perpetrated within these walls. She paused.

"Well, Helena?" he said inquiringly. "Oh, Herbert, what if this house has been the scene of that mystery the dying man spoke of? I thought of it from the first."

"Nonsense, Helena! What an idea!" And yet he looked disturbed himself as he spoke. "How otherwise are we to account for those ghostly visitings, those midnight apparitions and appalling shrieks?" "And yet nothing could induce your brother to adopt your belief. He would laugh at our credulity were we to tell him what we have seen and heard."

"Yes, and, perhaps, I had better not tell him, Herbert. I will have your room changed, and my own likewise. Even if they are less comfortable, they will be more endurable than to be disturbed by midnight spectres."

SLATE ROOFING PAINT!

AGENTS WANTED IN EVERY TOWN.

A Roof may be covered with a very cheap shingle, and by application of this slate may be made to last from 20 to 25 years. Old roofs can be patched and coated, looking much better and lasting longer than new shingles without the slate, for ONE THIRD THE COST OF RE-SHINGLING. The expense of slating new shingles is only about the cost of simply laying them.

The Paint is Fire-Proof

against Sparks or Flying Embers, as may be easily tested by anyone, and appears from the fact that Insurance Companies make nearly the Same Tariff as for Slated Roofs. For Tin and Iron it has no equal, as it expands by heat, contracts by cold, and never cracks nor scales. For Fences it is particularly adapted, as it will not corrode in the most exposed places. Roofs covered with Tar Sheathing Felt can be made water-tight at a small expense. The Slate Paint is

EXTREMELY CHEAP!

Two gallons will cover over 100 square feet of shingle roof, or over 400 of tin or iron. No Tar is Used in this Composition, therefore, it does not effect the water from the roof, if turned off from the eaves before the first few rains. On Decayed Shingles it fills up the holes and pores, hardens them, and gives a new, substantial roof that will last for years. Curled or Warped Shingles it brings to their place and keeps them there. It fills up all holes in tin or felt roofs, and STOPS THE LEAKS. The color of the slate when first applied is dark purple, changing in about a month to a light uniform slate colour, and is, to all intents and purposes, SLATE. The Paint has a very Heavy Body, but is easily put on, and, although a slow dryer, rain will not affect it in the least one hour after applying.

ROOFS EXAMINED. ESTIMATES GIVEN.

And when required will be Thoroughly Repaired.

Orders Respectfully Solicited.

**IT HAS BEEN WELL SAID THAT** THERE is great waste of time and energy by those reformers and phila-thropists, who to bring about man's amelioration, are always at reading themselves to the lead to the neglect of the Stomach. It is an elementary law governing the human system, that the Stomach and the Stomach are two neighbors who cannot afford to be at enmity for any length of time, without mental deterioration or destruction; and an improvement in one implies improvement in the other. By using DR. WHEELER'S COMPOUND EMERALD AND PHOSPHATE AND GALISAYA the Mind and Body will become harmonized by the perfection of Digestion and Assimilation of food, and the formation of Healthy Blood.

**BEARINE** on **REAL BEAR'S GREASE,** A HAIR BEAUTIFIER, Preserver, and Dressing. This elegant preparation named from the Canada Bear, from which its most essential element is obtained, is a scientific compound of Real Bear's Grease, and other ingredients, so combined as to retain for a great length of time, its original fragrance and purity. As a dressing for the Hair, nothing can be more beautiful or agreeable. It is elegantly perfumed, and renders the hair soft, pliant and glossy. It serves to give it that peculiar richness and color, which is so essential to a complete toilet. It is the cheapest, most harmless, and best Dressing in the world.

Before Taking. After Taking.  
 Cures all Nervous Diseases, such as Tremors, Debility, Prostration, etc., which, in many cases, are produced by over-indulgence in the use of tobacco, and alcoholic spirits; but the Specific Medicine is more especially recommended as an unfailing cure for Seminal Weakness, Spasmodic, Impotency, and all diseases that follow as a consequence of Self Abuse, as Loss of Memory, Universal Trembling, Pain in the Back, Dimness of Vision, Premature Old Age, and many other Diseases that lead to Insanity or consumption, and a Premature Grave, all of which, as a rule, are first caused by deviating from the path of nature and over-indulgence. The Specific Medicine is the result of a life study and many years of experience in treating these special diseases. Full particulars in our pamphlet, which we desire to send free by mail to every one. The Specific Medicine is sold by all Druggists at \$1 per package, or six packages for \$5, or will be sent by mail on receipt of the money, by addressing—
