TELEPHONES FOR TRAINS

C. P. R. Introduces New Equipment for Trains.—
Despatching between Trains and Stations
to be Effected by Telephone—In-
valuable in Case of Emergency

With the advent of a telephone line for the despatching of C.P.R. trains between London and Toronto, a stretch of one hundred and fourteen miles, comes an innovation that will prove invaluable in an emergency. Not only can trains be operated with greater ease by telephone than by telegraph, but there is the important fact that in case of accident or delay from other causes while a train is between stations, the train crew will be able to use the telephone.

Each train will be supplied with a collapsible pole, with which to connect the telephone wire, and with a full telephone equipment. Should a train, from whatever cause, require to communicate with a station, the ways and means will be at hand. This innovation is likely to be of great service.

The despatching between London and Toronto, as between Toronto and Montreal, is now effected by telegraph entirely, but, commencing on March 1st, the stations between London and Toronto will communicate

with one another by telephone. The telegraph operators will do the work, and they will retain their telegraph lines, of course, as during an electric storm, the telephone cannot be used.

There will be no change in the staff, and no increased operating expenses, apart from the cost of the telephone line. The citizen was told by an official of the company, "The telephone for train despatching is a success. There is no doubt of that. It is in use on the Lake Superior division, and also east of Montreal, as well as in some of the divisions in the west. The telephone is a quicker method than the telegraph, particularly in getting replies. With the telephone and telegraph combined, the result will be satisfactory from whatever standpoint."

Should the London-Toronto telephone line work satisfactorily, and there is every reason to think that it will, the system may be adopted between Toronto and Montreal, as well as on the Ottawa-Montreal short line.—Ottawa Citizen.

Important to the Merchant

The buying public has a distinct interest in whether or not a merchant advertises. For it is an economic truth that only the merchant who advertises can afford to offer actual values to make price-consciousness that are really competitive—to do business on the smallest possible per-centage profit.

The buying public has come to know this—to know that the buyer has a direct interest in the question of whether the seller advertises. The buying public has come to know that the buyer pays the penalty of patronizing the non-advertiser's store where small volume of sales make large per-centage profits inevitable.

It has come, therefore, to be a matter of personal interest to a progressive buyer as to whether he or she is dealing with a progressive or non-progressive merchant. This personal interest is a purchase-interest (no we didn't say "purchase-interest") and therefore comes nearer home than the mere matter of price in preferring to buy at a LIVE STORE although it is.

That sort of pride, somewhat generally held by the people of a city, is what makes the town worth living in—worth doing business in—worth being in!

A Mute Wedding

A large number of persons witnessed a unique and very interesting service in the Baptist church, Aylesford, on Feb. 15th, at 9 a.m., when Mr. Frederick C. Bowly and Miss Ada L. Tufts, both deaf mutes, were united in holy matrimony, Rev. L. F. Wallace and C. R. Freeman officiating. Mrs. C. R. Freeman presided at the organ. Accompanied by the principals in the happy event marched to the altar, the bridegroom being attended by Mr. William Goucher, of Melvera Square, the bridesmaid Miss Lettie Jodrey, being conducted by the ushers, Misses Edith Reed and Alice Bowly, and the bride being supported by her father, Major Tufts.

At the altar Rev. C. R. Freeman offered prayer and Rev. L. F. Wallace read the service prayer and the plighting of troth, being rapidly translated into the sign language by Mrs. L. F. Wallace, who showed great skill in this method of expression. The service was, under the circumstances, most impressive.

The bride was prettily gowned in white silk, trimmed with lace, with bridal veil and orange blossoms. She carried a bouquet of white roses and maidenhair fern, this bouquet having been presented by the Principal of the Deaf and Dumb Institute, Halifax.

The bridesmaid was dressed in pink silk, with lace trimmings.

The groom's present to the bride was a fur-lined coat, to the best man gold cuff links and to the bridesmaid a gold brooch.

The very numerous and valuable gifts show the high esteem in which the young couple are held.—Outlook.

Benefit Carnival Great Success

The Grand Masquerade Carnival given on Monday night for the benefit of Recreation Hall was an unqualified success. The ice was perfect, the masqueraders numerous and attractively attired and there were a goodly number of spectators to witness the brilliant scene.

The prizes were awarded as follows: Best lady's costume, silver butter dish, donated by Mrs. A. R. Bishop, won by Mrs. H. B. Hicks.

Most original lady's costume camera, donated by S. N. Weare, won by Miss Louise Ruggles.

Most attractive lady's costume, clock, donated by J. E. Lloyd and Son, won by Mrs. F. R. Fay.

Best girl's costume, umbrella, donated by J. Lockett and Son, won by Juanita Bishop.

Most original gentlemen's costume, clock, donated by K. Freeman, won by Mr. Myers.

Most attractive gentlemen's costume, umbrella, donated by Strong and Whitman, won by H. Abbott.

Best boys' costume, dress suit case, donated by J. Harry Hicks, won by Gerald Hoyt.

Some very nice costumes were worn which made the work of the judges difficult.

The masqueraders who registered were as follows. A number of them did not register.

Edwin the Edifier

The Clarke's Harbor Coast-Guard says—You remember Edwin Smith the "edifier" who presided here, in Yarmouth and other places, two years since, and departed, leaving several people on the anxious seat, till he wired them he had been unfortunately drowned? Well, the Coast-Guard, working through the secret service agencies, kept on his track till it now discovers him in Newfoundland, under another name, but wearing the same old wig. All newspapers should sound the trumpet before that hypocrite and crook.

Sketch of Late Dr. I. B. Freeman's Professional Career

In addition to the particulars recorded in the last issue of the Monitor relative to the death of Dr. I. B. Freeman, of this town, the following brief review will be of interest to his many friends. He was born at Milton, Queens Co., in 1833, his ancestors being Freemans and Kemptions, a stock celebrated for their sterling intelligence and strength of character. In early life he availed himself of the fine educational privileges afforded by our Province, and he supplemented his common school training by attending the regular classes at Acadia University where he made rapid progress in the Arts course. He afterwards pursued the usual curriculum of medical studies in Jefferson Medical Institution in the United States, receiving his diploma soon after his twentieth year.

His first practice was at Cornwallis, Nova Scotia, where he was associated with Dr. Hamilton, and where he rapidly gained an excellent reputation for professional skill and for gentlemanly qualities. Some years afterward he came to Bridgetown and united in partnership with Dr. Parker, the resident physician. Here too he met with a good degree of success and formed many pleasant acquaintances. His next removal was to Sackville, N. B., where for some years he ministered to the physical needs of a large constituency. There, too, he united in fellowship with the Baptist church and to the tenets of that denomination he remained an adherent throughout life.

From Sackville he removed to Sydney, C. B., in the furtherance of his medical labors. There he removed to Richibucto, N. B., for a residence of several years. He afterwards settled in Newcastle, where he had a large share of public patronage, and where he had the honor of being appointed to several important positions under Government support, such as Surgeon for the Intercolonial Railway, Physician for the Indians and for the Militia. His reputation as a first-class doctor was highly creditable to him; but impaired health resulted in his being compelled to seek retirement and rest. In view of this necessary change he decided to return to Bridgetown. For twenty-three years past he has enjoyed undisturbed quietude in his beautiful home, a faithful wife ministering to his comforts with more than ordinary devotedness and care.

The end was not altogether unexpected, though it came with surprising suddenness. Reference has already been made to his death. Dr. Freeman was a quiet, peace-loving man, esteemed highly by all his acquaintances. His familiar form will be much missed in our town, and Mrs. Freeman will have the sincere sympathy of her many friends.—Com.

A Temperance Hotel Paying

A Story With a Moral For Other Localities.

Bowmanville, Ont., Feb. 4th.—Local opinion as to the propriety of being exempted in Bowmanville. The business men of the town have run a temperance hotel successfully for a year and a half, and this week they purchased the remaining hotel, and will operate the two of them. The story is one which has a moral for other municipalities.

When local opinion was first broached in the town there were the usual objections, the strongest that if the bars were abolished the accommodation for travellers would go too. The business men of the place met this by a move as effective and practical as it was unusual. They each put \$100 in the bank as a guarantee that there would still be a hotel in Bowmanville. Under these circumstances the bylaw carried easily.

The business men became Bowman, limited, purchased the Bowman house and put \$3,000 on improvements. There was a mortgage on the contents for travellers would go too. The business men of the place met this by a move as effective and practical as it was unusual. They each put \$100 in the bank as a guarantee that there would still be a hotel in Bowmanville. Under these circumstances the bylaw carried easily.

Travellers say that the Bowman house is the best town hostelry between Toronto and Belleville. It is a two-up whether a commercial man will stop off at Bowmanville, the Bowman house gives the casting vote in favor of a visit. The bare does not seem to be missed. Soft drinks are sold to some extent, but the house practically exists without bar trade of even the "spiritless" kind.

The remarkable thing about this undertaking of Bowmanville's business men is that it pays expenses, though the rates—\$1.50 a day—are lower than in licensed hotels of the same grade. Probably they will be raised soon. The hotel could get better rates without losing customers. Newcastle, five miles from Bowmanville, is still under license, the three-fifths clause having been twice fatal to attempts to secure local option conditions. Port Hope, by the way, is the only other licensed municipality in the county.

It was thought at first that the nearness of Newcastle would mean a continual pilgrims' progress to that place of Bowmanville people who are thrifty. At first there were quite a number who made the trip, but their pilgrimages have practically ceased. Police Magistrate Horsey pays a remarkable tribute to the result. "In a year and a half," he says, "there have been only two drunks in court, and those were both strangers working on railway construction work. Previous to the abolition of licenses drunks were almost daily visitors to the court. Assaults such as usually result from drinking have almost entirely disappeared from this community. In fact, I've been wondering whether the court has not outlived its usefulness. I said to the chief the other day that we had better either go into insolvency or get six months' leave of absence."

Bowmanville merchants say that debts are paid nowadays as never before. They point to concrete cases in which families have been "set on their feet" by the banishing of the bar.

And now the business men have purchased the second hotel, the Balmoral house. Residents say that this sets the final seal upon the impossibility of restoring the bar to Bowmanville.

Yarmouth to Have Old Home Week

Yarmouth is going to have an Old Home week celebration between July 23rd and 30th. The committee in charge of the affairs are making elaborate preparations for the occasion, to make the celebration a success. The general program has not been completed yet. Hundreds of former residents of Yarmouth will be present from all parts of the world. The town council by an act of parliament has voted \$1000. The prize list is large.

No Negotiations For Lease or Sale of the Intercolonial

Toronto, March 6.—"No negotiations have been going on for acquisition or lease of the Intercolonial Railway by any private company, and the line will remain a government railway."

This statement was made by Hon. Geo. F. Graham last night in Toronto.

ENCOUNTERS EIGHT ICE-BERGS

Immense Ice Fields Float on the Atlantic.—Steamer Shenandoah Has Perilous Passage.—St. John's, Newfoundland, Cut Off by Ice in Harbor.

Halifax Herald, Tuesday.—The steamship Shenandoah arrived yesterday from London, via St. John's, Nfld., after encountering one of the greatest fields of ice that ever floated on the Atlantic. The Shenandoah left London on Thursday, February 10th, and encountered heavy northerly and westerly gales until she arrived at St. John's. On Monday, February 27, when 260 miles east of Newfoundland, the ship got into a tremendous field of ice, in which were eight high bergs. The ship was in so perilous a position that she lay-to all night. She proceeded on her journey next morning. Little progress was made, however, for the ship had to go far off her course to elude the ice. It was impossible to escape it all tho, and she ploughed through many miles of it. The chief officer says that it was the largest field of ice that he ever saw. As far as the eye could reach there was nothing but ice. He says that the field must have extended over one hundred miles.

The steamer got clear of the ice at two o'clock Tuesday afternoon and no more was encountered until Wednesday night, when she was off St. John's harbor. There was a solid mass of ice there, which prevented the ship entering port. The anchors were lowered and she remained outside all night.

The Shenandoah sailed from St. John's Sunday morning and encountered ice most of the way to Halifax.

The chief officer says that the ice conditions in Newfoundland are becoming serious, and that he believes this is one of the worst winters that the island has ever experienced.

STANLEY WAS UNABLE TO LAND MAILS

St. John Times.—The return of the Gov. Steamer Stanley on Sunday marked the failure of the first attempt to land mails on the Magdalen Islands during the winter season. She reports the winter there particularly rigorous, and that it was impossible to get nearer than forty or fifty miles.

The Stanley had a hard battle with the ice in the struggle to accomplish her mission and was twice caught in the heavy foe—going and coming. It was with the greatest difficulty that the steamer kept from being hemmed in. Signals of distress were shown from Flint Island, but on approaching it, it was found that those inhabiting it were only anxious to find out why the relieving staff had not reached them.

Some members of the crew managed to get ashore on St. Paul's Island by walking over the ice. The ice was reported as being of great thickness and surrounded the islands for many miles. The weather was bitterly cold and there was considerable snow.

The sturdy little vessel bears evidence of her hard experience as she is coated with snow and ice of a great thickness, covering decks, deck house, rails and masts. The mails were unloaded from the steamer at the ballast wharf this morning, and the many missives, both business and of a personal character, addressed to the ice-bound folk of the Magdalen were returned to the senders to await the opening of navigation in the spring. The Stanley will leave soon to relieve craft frozen in the ice at Lunenburg, LeHave and other Nova Scotia ports.

Four Thousand on the Ocean on Way to Canada

Close to 4,000 passengers in five steamers are enroute to this port and will arrive during the next ten days. The exact number is 3,893 and of these 2,453 are now due on two steamers, the Donaldson liner Saturday, from Glasgow, with 238 cabin and 210 steerage, and the C. P. R. liner Lake Michigan with 785.

The C. P. R. liner Lake Champlain sailed from Liverpool on the 1st, with 142 cabin and 784 steerage. Allan liner Sardinian sailed from Havre on the 3rd, with sixty-one cabin and 222 steerage and Allan liner, Virginia sailed from Liverpool for St. John via Halifax on the 3rd, with 1,440—fifty-six saloon, 459 second cabin, and 925 steerage. A number of these latter, however, will be landed at Halifax. All indications point to the immigrant rush being on.

How trusts are fostered by the German government in order to advance the commercial supremacy of that country will be explained in the March Scribner by Elmer Roberts. The whole question is solved from a point of view opposed to the one now prevailing in America.

Judge of Hague Tribunal is to Visit Canada

Havre, March.—Baron D'Estournelle de Constant, judge of The Hague tribunal and president of the French parliamentary group for international arbitration, was a passenger on the steamer La Province, which sailed on Saturday for New York.

He is to deliver a series of addresses in Canada and the United States. After visiting Washington and New Orleans, he will go to the Pacific coast and return east by the Canadian route, visiting the principal cities.

Retail Merchants' Association

MEMBERS OF THE ASSOCIATION FAVOR READJUSTMENT OF TAXATION SYSTEM AND CONSIDER PARSEL EXHIBITION ETC.
 Primarily to better the condition of trade throughout the Province and at the same time build up Nova Scotia, is the aim of the Nova Scotia Retail Merchants' Association. The Retail Merchants' Association was formed in September of 1909 and at this time is quite a sturdy youngster with a membership of about five hundred, including merchants in all classes of retail trade throughout the Province.

At the time of its formation, the Association had but a small membership and the members were scattered all over the Province. Its growth has been rapid and it is confidently expected that before another six months has past it will have on its roll two thousand of the retail merchants of the province.
 The annual meeting of the Association held at the Board of Trade Rooms on February 21st and 22nd dealt with a large number of important matters pertaining to the retail trade and to the Province generally. What was perhaps the most important matter to the Province as a whole was a resolution introduced by G. W. Silver of Lunenburg and W. D. Lockett of Bridgetown, relating to the method of taxation. The resolution, which follows, passed unanimously and will be presented at the present session of the Legislature by C. U. Mader, M.P.P.

"Whereas, the present Law of Assessment and Taxation as now practiced in the Province of Nova Scotia, and which has existed for generations past, while being right and just during the days when consumers were obliged to purchase all their goods, (clothing, food-stuffs, etc., etc.) from local dealers, has today become unjust and behind the times, because it requires the local merchants to pay too large a proportion of the public expenses.

"And whereas modern means of transportation, mail, telegraph and telephone services enable merchants transacting business and holding stock in one city to gather trade from all parts of this Dominion on the one hand, and consumers on the other hand being in a position to get all their wants supplied from abroad, the time has come when a new law of assessment should replace the present one. One that will equalize, as far as possible, the cost of public services, both in Municipalities and in incorporated towns.

"Therefore Resolved, that the retail merchants of Nova Scotia here assembled, desire to have the present assessment law repealed, and a new one enacted, based on Real Estate or Land Values, Income, a Business Tax or Rental Values, and a heavy License on Peddling and that this Association will use whatever means and powers it may possess to get such a law placed on the Statute Books of the Province of Nova Scotia of Nova Scotia.

THE PROVINCIAL EXPO.

A special committee, consisting of L. C. Layton, Great Village; F. E. Bentley, Middleton; C. O. Cook, Waterville; W. E. Porter, Kentville, and G. W. Silver, Lunenburg, was appointed to do with and report on a number of matters including the Provincial Exhibition, Long Distance Telephone Rates and the extension of Parcel Post privileges.
 In the report on the question of the Provincial Exhibition the committee reported in favor of the Exhibition being held annually, but were opposed to its being held before September 15th. The Association adopted the recommendation of the committee, and passed a resolution to the effect that it was to the best interests of the Province that the Exhibition be not held until after the middle of September. They held that throughout the Province the retail merchants cannot spare the time to come to Halifax on the first of September, nor could they allow their help to come then. The fruit growers and farmers were also opposed to such early dates.

PHONE and PARCEL POST

In regard to telephone rates and Parcel Post privileges the following resolution on the recommendation of the Committee was adopted:—
 "The Committee would recommend the secretary to take the matter of parcel post with the Dominion Secretary as action taken by other Provinces and the agentive be empowered to join with them in finding the best way to meet the conditions, and in event of any bill coming to the Federal Parliament, seeking enlargement of parcel post privileges, the Secretary at once notified the members asking them to petition federal representatives to oppose such measures."

You Take No Risk

Our Reputation and Money are Back of This Offer
 We pay for all the medicine used during the trial, if our remedy fails to completely relieve you of constipation. We take all the risk. You are not obligated to us in any way whatever, if you accept our offer. Could anything be more fair for you? Is there any reason why you should hesitate to put our claims to a practical test?

The most scientific, commonsense treatment is **Rezall Orderlies**, which are eaten like candy. They are very palatable, gentle, and agreeable in every way. They do not cause diarrhoea, nausea, flatulence, griping or any inconvenience whatever. **Rezall Orderlies** are particularly good for children, aged and delicate persons. We urge you to try **Rezall Orderlies** at our risk. Two sizes, 10c and 25c. Remember you can get **Rezall Orderlies** in this community only at our store—The **Rezall Store**, W. A. Warren.

THE TELEPHONES.

"The Committee would recommend the Association ask the time limit for long distance messages be extended from three minutes to five minutes for any continuous conversation on a business phone. Also that the Secretary get in touch with other Association respecting same."
MAIL ORDER BUSINESS
 The Association also put itself on record against the mail order business that has grown so extensively of late years. This business, it is held, takes ready cash out of the Province that should be spent here. Many of the consumers send to mail order houses for goods without giving the local retail an opportunity to compete. This is something which the Association deprecates. They are of the opinion that the merchants of Nova Scotia should at least be given a chance to show what they can do.

In regard to early closing the Association favors the idea of keeping the stores open one or two nights a week, so that the people who have no opportunity during the day may be able to do their shopping, without inconvenience to themselves. The Association has also under consideration the establishing of a credit reporting department which would be for the benefit of both the dealer and consumer.

TRADE CONDITIONS FAIR.

It is quite likely that a summer meeting will be held in the Annapolis Valley. Trade conditions throughout the Provinces are reported as being fair. Collections are slow in the Cornwallis Valley, which is probably due to the shortage of the apple crop.
 The officers of the Association are as follows:
 President—A. S. Burgess, Canning.
 Vice President—Edwin Hubley, Halifax.
 Secretary-Treasurer—I. MacDonald, Halifax.
 Executive Committee, the officers with a Vice President from each County, as follows:

Dropsy

Given up by Doctor
 "I had dropsy, and was told by my family physician that there was no chance for me. My family also gave me up. My limbs and body were swollen one-third larger than natural, water collected around my heart and I had to be propped up in bed to keep from smothering. I took Dr. Miles' Heart Remedy until I was entirely cured. This was in 1902, and I am now able to do any kind of work on my farm. My cure was certainly marvelous."

Dr. Miles' Heart Remedy has been wonderfully successful in relieving heart trouble. Its tonic effect upon the heart nerves and muscles is a great factor in assisting nature to overcome heart weakness.

Joker's Corner

THE LAST STRAW.
 An American lady asked Conan Doyle one day why he had given up the practice of medicine. He said the work was too hard, and to prove it he went on to tell of his first case.

"My first case came to me in the middle of the night. It was January, and a cold rain was falling. The jangle of the doorbell awoke me from a sound sleep, and, shivering and yawning I put my head out of the window and said: "Who's there?"
 "Doctor," said a voice, "can you come to Peter Smith's house at once?"
 "What's the trouble I asked."
 "Smith's youngest girl has taken a dose of laudanum in mistake for paracetamol, and we're afraid she'll die."
 "All right, I'll come," said I.
 "Tramped three miles through the cold and rain to Smith's. Twice on the way I fell on the icy pavement, and once my hat, blew off, and in the darkness I was nearly half an hour finding it."
 "Finally, though I reached Smith's, the house was dark—shutters up—all closed—not a light. I rang the bell. No answer.
 "But at last a head stuck itself gingerly out of the window.
 "Be you Mr. Doyle? It said.
 "Yes, said I. "Let me in."
 "Oh, no need to come in doctor," said the head. "The child's all right now. Sleeping very quiet."
 "But how much laudanum did you give her?" said I.
 "Only two drops, doctor—not enough to hurt a cat. I guess I'd better take my head in now. The night air is cold. Good night. Sorry to have troubled you."
 "I buttoned my coat and turned homeward, trying as best I could to stifle my mortification and anger. But suddenly the window was raised again, and the same voice cried:
 "Doctor—I say doctor!"
 "I hurried back, I thought the child had suddenly taken a turn for the worse. "Well, what do you want?"

"Answer me, Clara," he said, in a moment of passion. "I can bear this suspense no longer!"
 "Answer him," Clara!" echoed the old man in the hall, thinking of the coal and gas bills. "I can't bear this expense much longer."

It has only been within recent years that we have come to really know about the white corpuscles of the blood or the phagocytes and what their function is.
 That they are the policemen or scavengers of the body.
 Devouring every disease germ that enters the body when they are strong enough or in sufficient numbers.
 Or being devoured in turn by these disease germs when inferior in strength.

It has only been within the last few years that scientists have found out that certain herbs strengthen and increase these white corpuscles, or bodily scavengers.

 And these herbs largely compose **Psychine**.
 For thirty years **Psychine** has been strengthening and increasing the white corpuscles of the blood.
 For thirty years **Psychine** has been building up run-down vitality, curing many of apparently hopeless diseases.
 We have sold millions of bottles of **Psychine** in that time.
 We have cured hundreds of thousands.

And we have received hundreds of thousands of unsolicited testimonials.
 All due to this marvelous power of strengthening and increasing the white corpuscles of the blood.
 Here are the diseases in the treatment of which **Psychine** is indicated.
 Here are the diseases of which **Psychine** has cured many thousand cases:

THE HOME

TRUE AND FALSE ECONOMY.

Grandma Brown's niece, Mrs. Evans, and her two children, were making a two weeks' visit on the old farm. Grandma, while no longer young, was good to look upon. She was busy, cheerful, energetic and always had time to sympathize and talk with her little visitors, who privately thought she was the nicest grandma in the whole world.

Mrs. Evans sat in the large roomy kitchen while grandma sat in her chair paring the potatoes. She was putting a frill edged with lace on Evelyn's apron. "You ought to take a complete rest, dear. You look so pale and tired, I fear your health is failing. That exhausted, worn-out expression is very different from the one you wore ten years ago. I fear a collapse, my dear."

"Yes, I suppose you are right but the truth of the matter is, I must economize. I must do my own housework and sewing. Of course I do hire my washing done sometimes. But you know, auntie, living in a city is different from the country."

"Why so, dear?" "Oh, you know, one must dress so much better, live in a better style and then society has so many claims upon one. You know our income is limited. I am not complaining; many have much less to live upon. But it is imperative that I must economize."

"I see," said grandma, with a kindly smile. "Did you ever consider that there is a false and true economy. Health is the first requisite for happiness, and the heaviest drain upon our purses when we lose it, is it not true economy to use every means to maintain health, and shun everything which mars it, be it pleasure, food or money? Is it true economy for you to spend your strength upon that dainty frill, which will require great care in wearing also? Is the laundry and the nerves require? Did God mean you to be a machine? Is His sunshine and fresh air, so freely given, to you as to be lightly despised?"

"I never looked at it in that light, auntie. I think the apron will look much better with the frill."

"Certainly, some might say so, but as you say, you must economize. If your income was so large that you could afford to hire that sewing done, and not feel the pressure you must endure. But as it is, take my advice and make it plain. In a few months your frill will not remember if it had a frill or a plain hem. When I visited you in your home I felt so sorry for the extra strength you used for my benefit. I forgot to enjoy myself. No one despises you for going your own work, but, my dear, make it as simple and plain as possible. A plain meal, given with ungrudging hospitality, has such a good flavor. I called at the home of a young bride not long ago. She, too, did her own work and she invited me into her kitchen so I could visit while she prepared dinner."

"I could not afford meat today," she said. "I do buy it sometimes, but we are trying to be very economical. You know a steak of one and a half pounds means a good many pennies nowadays."

"Well, the dear girl was making angel cake, in which she used a dozen eggs, with other ingredients, a pound of pie and ice-cream. She used a vast amount of untrained skill, time and money's worth in those preparations. Was it true economy? A steak, properly cooked, served with a vegetable so much more nourishment. Don't be angry at your old auntie, my dear. She would like you to be wiser than she herself was when she undertook the task of housekeeping."

"I am not angry. I sincerely thank you. I can see many places where I have used false economy. It is not too late to reform however, and auntie my eyes are opened with a vengeance. Imagine me spending so much time ripping my last winter's suit to make over. It will not do for my best this winter. I must have a new one. I could have worn that for second best just as it was and saved time and a dressmaker's bill in the bargain. I believe, auntie, I will take the platform and talk to all my friends on the subject of 'True and False Economy.'"

perly cooked, served with a vegetable so much more nourishment. Don't be angry at your old auntie, my dear. She would like you to be wiser than she herself was when she undertook the task of housekeeping."

MOTHERS, UP-TO-DATE AND OTHERWISE.

In these days of widespread knowledge of social usage and in this country where everyone is given the chance of education and the possibility of winning his way to a higher place than his parents ever aspired to, there is much being said and written on the duty of the mother. She should study with her children, we are told; she should not allow herself to be old-fashioned in dress; she should, no matter how hard it is, allow herself to be guided and instructed by the rising generation in social usages. She should learn to match her dress, her conversation, her whole life to that of the young people around her. What could be wiser than such an ambition, and what more natural to the loving mother heart than the desire to do credit to the stalwart boys and dainty maidens she has worked and planned and saved to make what they are.

But is there another side to it? What about the honest pride in the humble life and earnest, useful work? One of the New York papers writing of Andrew Carnegie's fabulous benefaction, usefulness for future generations, adds:

There is another aspect of our perennial Santa Claus, however, having nothing to do with his determination to die poor, which is of distinct ethical value to the world and to America in particular just now. It was well illustrated in his informal talk to a group of working girls recently. He said:

"I owe a great deal to my mother. She was a seamstress, cook, washday, and never until late in life had a servant in the house. I shall never forget how proud I was when I got my first wages of \$1.25 a week, and how I felt when I was raised to \$1.50 as a telegraph operator. To take home that sum to my good mother gave me such a feeling of many independence. I owe a great deal to my mother."

He positively glows over the early hardships and the way he shouldered the stirring life of the early days of the Confederacy. Later she was much in Richmond in political circles and afterward became a figure in New York life. All these phases of her interesting career will appear in her Recollections in Scribner's.

FACTS FOR THE FAIR. What the Little Girls Are Wearing in Millinery—Good Weather Gloves. Miniature wreaths of roses and other flowers made from soft ribbon are much in evidence on children's hats. The white cotton crepe waist if smocked with old blue is exceedingly smart and attractive. Reindeer gloves both for men and women are a delight to wear on cold days. They are very stylish in appearance and last for several seasons in good condition with normal treatment. It is best when buying these gloves to get a size larger than one usually wears. The price for women's reindeer gloves is \$3.75.

HOW TO USE HAM. Sliced ham is more tender if it is baked than if fried. Cut a piece three quarters of an inch thick, put it into a small enamel pan, turn three-quarters of a cupful of milk over it, cover and bake for an hour and a quarter, basting every fifteen minutes with milk.

For luncheon grind the ends of a boiled ham and mix it with a bit of onion that has been chopped fine and a little minced parsley. Put the mixture into a pan with a little butter and moisten with hot water or cream. Simmer four or five minutes and then heap on slices of toast.

THE FARM WORKSHOP.

A well equipped workshop on every farm would go a long way towards solving the problem of keeping the boys on the farm. Farm boys naturally like to use tools and they should be encouraged in this respect. On the farm the tool outfit on the farm is of special service and will aid greatly in keeping the boys employed and contented to remain at home. The writer will remember the old barn where we had our workshop, and how on rainy days the boys always a resort for making or repairing various things. Too much should not be attempted and it is doubtful if such work as horse-shoeing, wheelwright work, and repair work which required special machinery can be economically performed on the farm except where the farming operations are sufficiently extensive to justify the establishment of a shop and the employment of the mechanic.

Not only the farm machinery but the fences and buildings need the constant attention of the wide-awake farmer. This is an age when appearances count for much and a farmer's standing in the community is largely governed by the appearance of his farm equipment. We believe in the liberal use of paint and this should be used not only on the buildings, but the implements as well. The man who spends his spare moments in the repair of fences and gates and in maintaining a neat appearance of the entire farm, will easily be a leader among his neighbors.

Mrs. Burton Harrison, so long prominent in the social and literary life of New York and Washington, will begin in the March Scribner a series of "Recollections 'Grave and Gay,'" beginning with her girlhood in Virginia before the war, and describing the stirring life of the early days of the Confederacy. Later she was much in Richmond in political circles and afterward became a figure in New York life. All these phases of her interesting career will appear in her Recollections in Scribner's.

SARTORIAL NEWS.

A Smart Note Struck in the Latest Neckwear—Half Mourning Stole. An enticing new note struck in neckwear is colored embroidery sets of collars and cuffs. These are not in one tone, but delicate shadings of oriental hues. A stole intended for half mourning wear is a plain broad band of ermine.

without tails, bordered with black chiffon. The chiffon on one side is only the depth of a wide hem, but on the other it forms a band wider than the fur. The only trimming on a big white hat is a butterfly that has wings of heavy white corduroy edged with white fur and a body of the fur, capped with antennae of black velvet.

Bordered chiffons with Watteau colorings are much affected by the debutante this winter. Waists that overlap at the front yet are closed at the back are among the novelties of the season. This one is designed for misses and small women. The little trimming portion at the center front over which the fronts are arranged allow effective use of embroidery.

This May Manton pattern is cut in sizes for misses of fourteen, sixteen and eighteen years of age. Send 10 cents to this office, giving number, 558, and it will be promptly forwarded to you by mail. If in haste send an additional two cent stamp for letter postage, which insures more prompt delivery.

FLOTSAM AND JETSAM. Dots have had their day. Now the woman who embroiders is working little blunt arrows on her frocks and smart waist; the little arrows being placed in rows, one beneath the other, and all pointing the same way. An afternoon frock of dull blue marquisette over silk of the same color has these little arrows embroidered on the blue in a darker shade. There were three arrows on either side of the bodice front and three down the outer side of each sleeve.

Fur as a trimming is as prominent a feature on children's costumes as it is on those of the grownups. The combination of ostrich feathers and marion sounds extravagant, but there are many persons who possess our ostrich feathers that can be dyed—curled, if necessary—stripped from the quill and cut into small pieces. These could be neatly sewed into the strands of marabout and will do much toward increasing the beauty of a scarf or muff.

A simple little apron such as the one seen in the cut is most useful and pretty for the wee girl. This one is made of ring dotted lawn and trimmed with bands of tucking and with insertion.

WEDNESDAY, MARCH 8, 1911.

The United States Congress has adjourned without passing the reciprocity agreement, the bill passing the House of Representatives but not the Senate, and President Taft has issued a proclamation calling an extra session for April 4th. The view that the United States has everything to gain by the proposed legislation is not so apparent to them as it is to the opponents of the measure in Canada.

The parliament of Great Britain is making another effort to dispose of the "veto bill" which was introduced by Mr. Asquith, providing that the House of Lords shall have no power to amend or reject financial bills passed by the House of Commons. It is hoped that the bill will be disposed of before Coronation Day, otherwise the element of dissension and antagonism may interfere with what should be an harmonious and peace-crowned observance.

Co-operative Fruit-Shipping

On Tuesday of this week a meeting was held in Middleton of parties interested in the organization of a co-operative fruit shipping company. Mr. F. M. Chipman, of Nietaux presided. The chairman called upon Mr. S. C. Parker, of Berwick, who told of the successful operation of the co-operative company at Berwick and these in other places in the Valley. He also explained the scheme to form a central organization by which the different co-operative companies will be enabled to co-operate.

The steps in organizing a local company were outlined by Mr. Parker and were followed by the meeting. The following were chosen provisional directors: Messrs. F. M. Chipman, F. A. Chipman, Dr. J. A. Sponagle, F. E. Elliott, C. C. Slocumb, H. V. Gates and A. B. Gates. At a meeting of the provisional directors Mr. F. M. Chipman was chosen president, Mr. A. B. Gates, vice-president and Mr. F. A. Chipman secretary.

Birthday Centennial at Karsdale

A rather unique service was held at the home of D. M. Foster, Esq., of Karsdale, Lower Granville, on Feb. 17th, the celebration of the centennial of his father, James VanBuren Foster. Mr. Foster was born at Hampton Feb. 17th, 1811. On the 8th of Jan. 1835 he married Elizabeth Marshall. Six children were born to them. The four remaining are Elias and Judson living at Hampton, David and Joshua, twins, one living at Karsdale the other at Berwick. Twenty-two years ago Mrs Foster departed this life. Since then Mr. Foster has resided with his son David, who with his devoted wife and son tenderly care for him.

About one hundred people assembled at his home to offer congratulations. Relatives from Hampton and Bridgetown were present, also Mr. James Anthony aged 93 years, a deacon of the Lower Granville church and others who have passed the four-score years. About thirty letters and post cards were received from relatives and friends in the United States and Canada. One was from his first and only day school teacher, J. P. Foster of Fort Lorne, aged 93 years; another from a friend in New Jersey whom he met last summer, and was greatly impressed with his deep-toned piety. He was also remembered by his late Pastor, Rev. J. K. West, and a friend in Ottawa.

The exercises were quite informal consisting of singing a number of old time pieces, Invitation, Contrast, The Heavenly Vision, Pure Testimony, times that were sung long before Moody and Sankey. Scripture reading and prayer by Bro. Foster and Anthony. It was good to hear the old time saints pray. The greater portion had never heard before and probably never will again hear a man one hundred years old pray. Short addresses were given by the pastor and others followed by singing. Nearest Mr. God to These and God be With You Till we Meet Again. Refreshments were then served and congratulations offered.

Bro. Foster has lived under six sovereigns. When he began life there were no Banks in Canada, no telegraph, telephones, wireless telegraphy, railways, mowing machines, no Responsible Government and no free schools. In 1811 there were 18 Baptist churches with a membership of 123; in 1911 there are 880 churches with a membership of 70,000, in the Maritime Provinces—no home or foreign missions.

Bro. Foster's bodily health is good bidding fair to see more birthdays. In the spring of 1833 he with his wife and others were baptised at Hampton by the late Rev. T. H. Porter, thus spending 76 of the 100 years in his Master's service. His faith in God is strong, being ready to depart and be with Christ or to remain in the flesh. It is good to be with him to hear him talk. His heart is filled to overflowing with love and praise. One cannot visit him without receiving encouragement and help.

I will add here, Bro. Foster belongs to a long lived family. His father attained the age of 96, an uncle 108, an aunt 107. M. S. BROWN.

Many hearts were grieved last week by the sad news of the passing away of one we had loved—Mrs. James E. Thorne (nee Elisa Thorne) of Granville.

Those knowing her as the faithful daughter, loving sister and kind friend can only realize the great loss of the dear and dear ones left behind. Flank not the gorgeous flower on her grave, but rather those typical of her life—the modest unassuming violet, the sweet and gentle lily of the valley, the modest unassuming violet, the sweet and gentle lily of the valley, the modest unassuming violet, the sweet and gentle lily of the valley.

Bill to Amend Compensation Act

Mr. McGregor wishes to bring Saw Mills Under Provision of Act. —Some Opposition

In the House of Assembly last week Mr. McGregor moved the second reading of a Bill to amend the Nova Scotia Workmen's Compensation Act, and if the amendment is adopted some more thousands of Nova Scotia workmen will be affected. A clause of the Act is as follows:

"Notwithstanding anything hereinbefore contained, this Act shall not apply to employees engaged in agriculture, fishing, cutting, packing, or the manufacture of fish, or fish products, or ship-building or employed in lumbering or in saw mills."

The effect of the amendment is to eliminate saw mills from the clause, and thus bring them under operation of the Act. When the Bill was introduced Mr. Mader moved a three months' adjournment of the committee, and the Bill went to committee.

Mr. McGregor urged that workmen in Western Nova Scotia are as deserving of protection as those of any other part of the Province. He claimed the occupation of workmen employed in saw mills was one of the most hazardous in the world.

Hon. Mr. McPherson did not think the work in a saw mill the most hazardous. From Hon. Mr. Daniels' remarks it would seem that other amendments are proposed. He said—"I trust when it gets in committee we will have an opportunity of asking that committee to make some other amendments that will relieve certain other industries in the western part of Nova Scotia from the operations of that Act which weigh on them heavily at the present time. Evidence will be forthcoming that there are industries injured already by the passage of this measure through the House."

The result of the introduction of the Bill to amend, and Hon. Mr. Daniels' remarks has been to stir up the labor men and others interested in the operation of the Act and labor will probably be represented when the matter comes up for hearing in committee.

It is contended that the elimination of the word "sawmills" from the clause will affect thousands of men in Nova Scotia and perhaps a thousand in Halifax County, including a number in the City.

John T. Joy, of the Labor party, was asked Friday how many men he thought would be affected. He said he has no complete statistics of the lumbering industry at hand, but he thought the number might run up to eight or ten thousand, of whom perhaps a thousand are in Halifax County. He thought the point aimed at by the Bill was to restore the particular provision of the Act as it stood when it passed the Lower House last year, the saw mill feature being added in the Council.

Mr. Joy had no idea what amendments Hon. Mr. Daniels had in view, but the attention of officials of the labor interests had been called to the situation with suggestion that the matter be followed up. It is more than likely representatives of the Trades and Labor Council will keep in touch with the situation and look after the workmen's interests.—Chronicle.

KILLED BY AUTO. Toronto, March 6.—Edward Jacobs, run down by an automobile on Friday night, and left unconscious in the road by the reckless motorists, is dead. The police have been seeking to identify the occupants of the automobile, but have learned only that it was of the tourist car type, dark in color, and contained two men. The automobile was going so fast that its number could not be caught.

The police will ask the Ontario Motor League to assist them.

The public generally are invited. The regular offering for League work will be received.

J. N. Chute expects in the near future to see practically the whole apple yield of the Valley marketed through co-operative organization. From this system he expects a gain to the growers of twelve cents and a half in the packing and an equal amount in freight rates. This is twenty-five cents a barrel and on an export of 700,000 barrels of 1909 would mean a saving of \$175,000. This is a nice bonus to distribute among the farmers of the Valley and the amount will grow with the rapidly increasing fruit production. -Outlook.

TOWN COUNCIL

The regular monthly meeting of the Town Council was held in the Council Chamber on Monday evening, with Mayor Harlow in the chair and Councilors present as follows: A. L. Anderson, A. B. McKenzie, C. B. Tupper, S. P. Pratt and W. H. Burns.

A number of bills were ordered to be paid on labor, streets and poor accounts.

The resignation of James Goldsmith of all the offices held by him in the Town to take effect April 1st next, was read by the Mayor and by resolution accepted.

The Town Clerk laid before the Town Council the assessment roll for the current year as finally passed by the assessment appeal court and certified to by him under section 76 of the assessment act, and it was resolved that the Town Council of the Town of Bridgetown authorize the levying and collection of a rate of one dollar and thirty cents on the hundred dollars of assessed value of the property and income assessed in such roll to raise the sum required to defray the expenses of the Town of Bridgetown for the current year, and also a rate of sixty-five cents on the hundred dollars of the assessed value of the property and income assessed rolls of the school section of the Town of Bridgetown and of all property outside the said school section liable for taxation for the support of the schools of the Town of Bridgetown, to defray the expenses of the public schools of the Town of Bridgetown for the current year, and also a rate of fifty-eight cents on the hundred dollars of the assessed value of the real estate in the said Town of Bridgetown, liable to be taxed for the new sewer system, and of a rate of thirty cents on the hundred dollars of the assessed value of the real estate in the said Town of Bridgetown liable to be taxed for the old sewer system, to provide interest and sinking fund for the two loans made for sewer purposes.

A resolution was passed authorizing the Town Solicitor to procure the necessary legislation for renewing the three old water debentures of \$500.00 each numbered 45, 46, and 47, which were issued under the provisions of chapter 197 of the Acts of Nova Scotia for the year 1889, for the purpose of borrowing money for water supply and which matured on the first day of July 1910, and paid on the 11th day of July 1910, amounting to the sum of \$1500.00 in all.

Also resolved that four thousand dollars per value of Town Debentures be issued under the provisions of chapter 67 of the Acts of Nova Scotia for the year 1909 entitled "an act to enable the Town of Bridgetown to borrow money for the permanent repair of the streets of the Town."

It was ordered that the Clerk be authorized to give Mr. Alfred Munro a rebate of \$2.50 per month, of his license of \$5.00 per month, so long as he continues a citizen of the town and gives a clean show.

Mr. Moses, of Moses and Young made application to have permission to establish a slaughter house on his property on Granville street east. The matter was referred to a Committee.

Councillor C. B. Tupper was appointed Presiding Councillor.

Appeals for rebate on water tax by two citizens were referred to the Town Clerk.

A Committee to revise rate book was appointed to report at next monthly meeting of Council.

J. R. DeWitt and H. Egan were appointed extra constables.

Beauty Rural Homes

W. T. Macoun, the capable Dominion horticulturist, in a recent open letter makes a plea for more beautiful country homes. In many cases of country homes the plea is based on reason. Frequently one sees a beautiful garden about the farm home. But too frequently it is a bare, barren place devoted only to the getting of the dollar and one that takes no account of the best instincts of human nature. But Mr. Macoun's words explain things very well. He appeals to reason and shows what can be done and how it should be done. He says: "Much has been done during recent years towards the beautifying of Canadian cities and towns by the awakening of the people to the importance of making their homes more attractive by the planting of trees, shrubs, vines and herbaceous plants. Many influences have been at work, chief among which are the horticultural societies which through their organizations have been able to do much to bring about the great improvement which is already apparent.

FOUR YEARS IN DORCHESTER FOR PERJURY.

Judge Langley Makes Cape Breton Sentence Heavy—Postmaster Gets Four Years.

Sydney, N. S., Feb. 23.—The supreme court which has been in session here during the last week, rose this morning, having completed the docket. His Lordship, Judge Langley delivered sentences. Capt. Edward Dix, who was convicted of perjury, was sentenced to four years in Dorchester penitentiary. Wm. O'Neill, the New Waterford post-master was given three years in Dorchester. In the case of Dix, Judge Langley said that it was necessary, as the crime of perjury was a serious one, that an effort be made to impress society with the gravity of swearing falsely. Judge Langley will leave Halifax tomorrow.

It Is Curable

Dyspepsia may be completely eradicated if properly treated. We sell a remedy that we positively guarantee will completely relieve indigestion or dyspepsia, or the medicine used during the trial will cost the user nothing.

This remedy has been named **REXALL DYSPEPSIA TABLETS**. Certainly no other could be more fair, and our offer could be more proof positive that **REXALL DYSPEPSIA TABLETS** are a dependable remedy.

Inasmuch as the medicine will cost you nothing if it does not benefit you, we urge you who are suffering from indigestion or dyspepsia to try **REXALL DYSPEPSIA TABLETS**. A two-cent box contains enough medicine for fifteen days' treatment. For chronic cases we have two larger sizes: 50 cents and \$1.00. Men and women can obtain **REXALL DYSPEPSIA TABLETS** at—**The Rexall Store, W. 4, Warren.**

A great authority gives us a rather peculiar opinion on the origin of the practice of shaving. He says: "The practice of shaving probably originated from the painful discovery that the beard afforded too good a hold for an enemy in battle." It seems that in only days, when battles were often hand-to-hand contests, these old headed fighters had a way of catching each other by the whiskers and holding on while dealing telling blows with their stone battle-axes, or, at a later period, with their swords. This is the cause assigned for the origin of shaving among the Greeks about the time of Alexander, and in most countries we find that the practice was first adopted by military men, and that men of pacific and learned pursuits retained their beards much later.

ENGLISHMEN IN HOUSE.

There Are Several Prominent Old Land Mark Commonwealths in the House, Martin Burrell, of Yau-Cariboo, stands out prominently. He came in at the last general election, after one of the most spectacular contests in the whole Dominion, and he made his mark and considerably surprised Sir Wilfrid Laurier, by jumping into the fray on the opening day of the new Parliament, and promptly presenting the attack of the Premier on the campaign methods of the Opposition in that province. Since that memorable day, Martin Burrell has always commanded the ear of the House. On the Opposition side he is among the foremost and speakers. At a practical fruit-grower, he is continually camping on the trail of Hon. Sydney Fisher. Mr. Burrell is still in the prime of life, being 54. He came to Canada in 1883 and for six years engaged in fruit farming in the Niagara Peninsula, afterwards removing to British Columbia, where he is at present engaged in that industry on an extensive scale. In a Conservative administration, Mr. Burrell's claims for preferment would be hard to ignore, and it is doubtful if they would be overlooked. And since the famous crossing of swords with Sir Wilfrid Laurier on the opening day of this Parliament, the Premier has entertained a profound respect for the little man from Grand Falls, for after all the Liberal chieftain really loves a fighter.

Speaking of Englishmen, it may surprise many to know that several of the prominent members of Parliament hailed originally from the little island. There is Ralph Smith, the white-haired philosopher from Nova Scotia, who served the practice of medicine in Newcastle-on-Tyne only a few years ago to take up farming life in Alberta, and who is the only supporter of the Liberal party who stands up in his place in Parliament and declares that absolute free trade is the inevitable destiny of Canada. Arthur Cyril Boyce, the great little lawyer from Saint John, who is one of Mr. Pugsley's "beige boys" and who first saw the light of day in a Yorkshire village, is now taking up land in Saskatchewan, and is one of the stalwarts of the Opposition from the West. Then last, but not least, comes Edward Arthur Lancaster, who sits for Lincoln, and was born within the sound of Bow Bells. When Mr. Lancaster is not serving the public from a level crossing point of view, he is planning the destruction of the Senate. One of his ancestors must have been Guy Fawkes, for Mr. Lancaster has a house which he is about to explode, which, if the fuse catches fire and Sir Wilfrid Laurier does not intervene, will result in the disappearance of the Upper Chamber. Of the various nationalities which make up the Commons, the little coterie of Englishmen is by no means insignificant, both as regards ability and industry.

A Toronto Practical Joke.

This is not so much an anecdote as it is a warning. As a result of the trouble between the Toronto Electric Light Co. and the city, some actual young men have planned a practical joke. It has been played upon a young man who has a telephone, but who has a telephone number which is a victim. It is so simple that a person fails to do it. On cold evenings, when the wind whistles through the telephone rings. You go to the phone and the following conversation ensues:

"Is that Mr. A?"

"Yes."

"This is the T.E.L. speaking. You know we have been having considerable trouble lately. Would you mind letting us know if the arc light at the corner of the street is burning?"

"Deceived by the business-like voice, you express your willingness to be obliging. It is necessary for you to go to the bottom of the verandah steps or even to the sidewalk to secure the desired information, and you return shivering to the phone in about five minutes.

"Yes," you say, "the light is burning."

"Well, the city says they do not need it," says the voice at the other end of the line. "Will you kindly blow it out?"

Then he rings off, and you say things—Saturday Night.

Mother's Pet.

That breaking off an engagement is at least a little more serious than the comic papers would have us believe is the lesson which a Toronto man of some thirty-five years learned two or three weeks ago. The girl, who was at least a dozen years younger than he, left her position and was well on with the preparations for her marriage when the man's mother very strongly objected to the proposed marriage.

Panic on thereupon broke off the engagement.

A few nights later he was at a dance which was attended by many of the friends of the disappointed girl, but he didn't realize how his action had turned them against him.

"May I have the pleasure of the next dance?" he asked one of them. "Well," said the young lady frigidly, "hadn't you better ask your mother?"

Politeness as a Business Asset

The home and in a very secondary way, the school, is the place where the child must be taught manners. In fact the difficulty is that manners are not so much taught as absorbed from one's surroundings. But it is not only the child to whom politeness is valuable; it is more and more becoming recognized as a business asset of no mean value. As an instance of this, the Dominion Express Company issued to its staff on January 1st, 1910, under the heading of "Our Motto," "service and civility," the following statement:

"The public, in their dealings with us, are entitled to prompt and polite attention; a kindly greeting and a polite 'Thank you' to customer will secure more trade than a cut in rates. Be patient to persons who may appear to you unreasonable in their demands, remembering that 'A kind answer turneth away wrath.' Where the business is by telephone put a 'mile into your voice.'

To child or man, in the home or in business courtesy pays big dividends, whether the pay be, as in social intercourse, in added esteem and lack of friction, or in commerce in a satisfied clientele.—Ottawa Journal.

Prof. J. W. Robertson, one of the most reliable authorities upon education in Canada, declares that the moving picture show may be "one of the greatest influences for good in civilization" if the films are properly selected. The moving picture performance had a strong educational influence, said Dr. Robertson, and was furthermore an invaluable means of brightening the lives of the employees of the big factories. In his opinion the monotony of their work produced a species of trophy which, especially in the case of young girls, killed their interest in the world about them. This expression of opinion by so eminent a man as Dr. Robertson is worthy of serious thought by our legislators and law-makers, who should see to it that there is some sort of wholesome censorship provided for the films. There is no reason why the display of vicious, criminal, or ultra-sensational pictures should not be suppressed vigorously, and also the senseless vulgarity which mars too many of the scenes displayed. There is plenty of clean entertainment to be given. It is enjoyed just as much as the objectionable stuff and it improves all who behold it. As Dr. Robertson says, there are great possibilities for good in the moving picture film.

Do you know, of all the minor ailments colds are by far the most dangerous? It is not the cold itself that you need to fear, but the serious diseases that it often leads to. Most of these are known as germ diseases. Pneumonia and consumption are among them. Why not take Chamberlain's Cough Remedy and cure your cold while you can? For sale by all dealers.

Price Collier, in a vigorous paper in the March Scribner—"Religion and Caste in India"—reveals the almost insuperable complications which the divisions of caste make in the whole social and political problem of India. Brother and Sister

Perished in Flames

New Glasgow Feb. 24.—A horrible catastrophe occurred last night about twelve o'clock at Irish Mountain, when two aged people who lived alone met a horrible fate, through being burned to death in their beds. The victims were John McDonald, better known as John (Tailor), aged 73 years and his sister Annie, aged 76 years.

Neither has ever married and all their lives had lived in the old home now a mass of smoking ruins. "Our Motto," "service and civility," the following statement:

"The public, in their dealings with us, are entitled to prompt and polite attention; a kindly greeting and a polite 'Thank you' to customer will secure more trade than a cut in rates. This Valley of Ours!

Mr. W. V. Spurr of Redwood Mines writes to the Outlook as follows:
We have a great future in store for us in this Valley of ours, this Quebec of the Valley, the Annapolis. Anyone who is at all given to looking into the future cannot, I think fail to agree with me. It is in that greatest of all natural resources, fertility of land, combined with a climate favorable for fruit culture, that we can see our great future possibilities.

When we see the shrewd active men of this Valley, men who have accumulated money, investing it in real estate in the "West" instead of using it to reclaim some of our own uncultivated land, we again must reiterate that the men of this province are blind to its possibilities.

But when that time comes, if nothing has happened to awaken us before, we will then get our innings. When that time comes as you look over this Valley, there will be no fertile land growing up with shrubs and bushes as there is today.

But even the dogs are beginning to change in the wretched country. When four huskies can't hitchhike to a potato cultivator and get away with it, some of our old-time traders and missionaries are beginning to find out that the eyes of the outside world are on "Little Great Canada."

Alberta is what a poet might call a "vastitude." It's the most beautiful fun of them. The men thought, it was a waste of good birds, and made suggestions that some hunters liked to have decoys which could kill and get out when the first birds escaped.

Timber Cut Last Year.
Figures showing the amount of timber cut on crown lands last year and the estimated cut for 1911 have been issued by the Department of Lands, Forests and Mines. They are as follows:
Pine, cut in 1910, 555,000,000 feet, board measure; estimated cut for 1911, 540,000,000 feet, board measure; increase 35,000,000 feet.

Member of Alberta Legislature
Athabasca Has Only 500 Voters from His Polling Lists and Comes from the Furthest Outpost of His Province—Huskies Dogs Do the Farm Work.

There is a member of the Alberta Legislature whose constituency contains 55 million acres and 500 voters. J. K. Cornwall's parish is exactly five times the area of all the cultivated land in Ontario, and it is a parish without a mile of railroad.

But there's a big active brain to the member from Athabasca, and of all men in the Alberta Legislature, from parallel 50 to parallel 60, up near Great Slave Lake, he is probably the most interesting. First of all, because he has a hair curling almost as unusual as Siberia, yet plumb on the edge of the railroad and the commercial traveler.

But even the dogs are beginning to change in the wretched country. When four huskies can't hitchhike to a potato cultivator and get away with it, some of our old-time traders and missionaries are beginning to find out that the eyes of the outside world are on "Little Great Canada."

Suggested a Substitute.
As persons who are interested in empire builders know, the official life of Cecil Rhodes has recently been issued, and although it is a sensational, it naturally arouses considerable interest. A man in Toronto thought he would like to secure a copy, and went to one of the book stores. To a clerk who was sitting beside one of the counters, he said, "Have you got Mitchell's 'Cecil Rhodes'?"

JOSEPH SCRIVEN.

Reminiscences of the Canadian Hymn Writer.
Within walking distance of the town of Clinton, Ont., on the road leading to Rederick, in the home purchased by his father before the former town existed, lives a pioneer of seventy-four years who knew Joseph Scriven, the hymn-writer, says E. J. Lindsay in The Globe.

I remember once, after he had been reading the "Master Christian," he had a knock on his door, and he had ever known anyone as good as "Cardinal Bonpere," whose character seemed to me to have been a little overdone by the distinguished author. "Yes," he said, "his name was Joseph Scriven. He lived just across the road from us, and 'bushes' with another man. I have worked whole days with him, exchanging work, and he had been in my house another more than once.

But even the dogs are beginning to change in the wretched country. When four huskies can't hitchhike to a potato cultivator and get away with it, some of our old-time traders and missionaries are beginning to find out that the eyes of the outside world are on "Little Great Canada."

Electric Beans Are a Natural Remedy for Nerve, Stomach and Liver Disorders.

Once upon a time disease was thought to be due to direct influence of evil spirit and magic was invoked to cast it out. Science has taught us wisdom. The evil spirits still exist we call them "Disease Germs," and they must also be cast out. Once lodged in the stomach or intestines biliousness with its aches and pains, or in fact seventy-five per cent. of the ills that affect the human race, is the result.

Electric Beans are approved remedy for driving out disease germs. Their action is quick and thorough, they clear the intestines, rouse the torpid liver to new life, stimulate mucous membranes to healthy action and cleanse and invigorate the whole digestive tract.

See our booklet of remarkable, true, testimonials. Test this remedy at our risk, if it is not satisfactory we will cheerfully refund the money paid for it.

Electric Beans can be had from the stores of S. N. Wear, W. A. Warren, Mrs. S. C. Turner, J. E. Lloyd & Son and C. L. Piggott or direct from us in a box.

Our young people have enjoyed two sleighing parties during the past week.

Parfers Cove

Death entered our community and claimed one of our aged sisters, Mrs. Maynard Sarty, aged seventy-two years. She died of paralysis. Mrs. Sarty was a consistent member of the Baptist church. She leaves a husband, five sons and one daughter to mourn the loss of a loving wife and mother. Rev. J. W. Smith conducted the services before a large congregation on Sunday last.

That dread disease consumption claimed one of our most promising young men on Feb. 23rd, in the person of Mr. George Sarty aged twenty-one years, a son of Ephraim and Armanella Sarty. He leaves a father, mother, four brothers and one sister to mourn their loss. Another sad feature is that a brother is stricken down with the same disease. Rev. Mr. Davis conducted the funeral services.

Postmaster Trimper and wife spent Sunday with relatives at Springfield.

Mr. Avaril Wesley was called to New Hampshire last week to see his mother, who is seriously ill there at the home of her daughter, Mrs. Berry.

Mrs. Millett returned home from Bridgetown this week. She was accompanied by Mrs. Frank Millett and child. Mr. Millett is also spending a few days at home.

Mr. A. L. Danielson spent part of the week in St. John.

Mr. and Mrs. Tupper, Miss Bawling and Miss Gillhart, of Clements-Port, spent Sunday here.

Hampton

There has been a remarkably good month's sleighing. Everybody has got a beautiful supply of wood and stove pipes are accumulating in the door yards.

The S. Ruby L. made her first call of the season here on Monday en route for St. John.

Mrs. John Titus was visiting in Granville last week.

Our young folk have enjoyed several sleighing parties quite recently. One drove to Bridgetown, where they were hospitably entertained at the home of Mr. and Mrs. W. Avaril Marshall, and one to Paradise where they passed a very pleasant evening at the home of Mr. and Mrs. Shearer.

MINARD'S LINIMENT CO., Ltd.

Gentlemen—Theodore Dorais, a customer of mine, was completely cured of rheumatism after five years of suffering, by the judicious use of MINARD'S LINIMENT.

The above facts can be verified by writing to him, to the Parish Priest or any of his neighbors.

LAW.

There is too much partisanship and not enough patriotism in America. There is much wrong done owing to disrespect for the law. The laws may be sufficient, but they are not efficient. The greatest thing in our own country is law, and it is the greatest thing in the universe. Law has been end ever will be. In our country the law is made for the benefit of the people—to protect the poor to enable the workman to collect his wages and to maintain him in enjoyment of his rights under the constitution. Disrespect for the law by public servants and corporations drags the respect of the law in the dust.—John A. Johnson.

\$100!

Swasted then Zam-Buk Cured me for \$1.

If you are suffering from any form of skin disease or injury, read this!

Mr. Arthur Fairbank, of 547 Lansdowne Ave., Toronto, is the speaker, and he says: "A bad eruption on my forehead quickly spread until it covered my scalp with oozing and painful sores. I went to a doctor who treated me for it. Still the sores spread until almost the whole of my head was affected. At his doctor's treatment did me very little good. I left it off and tried various home remedies. "This I did for months, but not one of them did me any good. I was by that time in a shocking condition, and as a last resource I went to a skin specialist. He treated me for a period until I was nearly blind, but the sores got no better. They would look and burn like fire until I was nearly mad. I must have spent over \$100 on medicines and doctor's fees. I thought I had had the worst of it when I read of Zam-Buk. This little bit of Zam-Buk did me more good than all the long treatments I had from doctors at a specialist. I immediately sent for a supply of the balm. Very soon I began to see and feel a great difference in my sores, and finally Zam-Buk cured me at a trifling cost. If I had got that first it would have saved me dozens and dozens of hours of pain."

For all forms of skin disease, ulcers, abscesses, eczema, ringworm, head poisoning, etc., Zam-Buk is a sure cure. It also cures all wounds, cuts, burns, bruises, cold sores, chaps, and corns, etc. A little goes a long way. Send for a trial bottle, or Zam-Buk Co., Toronto, for price. EVERY HOME NEEDS IT

A House on Your Hands

Did you ever figure out how small a percentage of our population uses your house when they could see a "To Let" sign or how large a percentage read our paper? Good tenants are not the kind that have time to waste in going around looking for signs. They look in our Want Ads.

If you have a house on your hands, a "House to Let" ad. will bring them to you.

BRITISH OPINIONS DIFFER.

The Right Hon. Henry Chaplin, former President of the Local Government-Board, and Board of Agriculture, speaking at Wimbledon on Friday night said "he strongly objected to the British Ambassador at Washington aiding and facilitating the reciprocity treaty between Canada and the United States. Mr. Asquith had said that Mr. Boyce had had nothing to do with the negotiations, but unfortunately such a statement was directly in conflict with what had been said by Mr. Fielding, the Finance Minister for Canada. This was not the first time the Prime Minister had made statements by which the country and Parliament had been entirely misled.

Earl Beauchamp, speaking Friday at the City Liberal Club, said that to describe the agreement, as an Imperial disaster as Mr. Balfour had described it, was not merely an exaggeration but a great misfortune.

Col. Sealey, Under Secretary of State for the Colonies, described Mr. Balfour as coming an Imperial cropper. He regarded the agreement as a source of immense strength and further as a guarantee for the continuance of the peace of the whole world.

A spooky tin made to fit the oven is a time saver on baking day, as a large number of cookies may be baked at one time. A tinmer made of galvanized iron, turned up about half an inch on the edges. This sort of tin needs no greasing, another thing in its favor.

Painful chilblains can be relieved by anointing them with sweet oil and carbolic acid. Mix them in proportion of twelve parts of oil to one of the carbolic, smear liberally on a piece of soft linen, and lay over the affected parts.
