CATHOLIC CHRONICLE

VOL. XXXIV.—NO. 48. MONTREAL, WEDNESDAY, JULY 9, 1884. PRICE—FIVE CENTS.

CRIME UNDER THE CROWN

Bestiality and Omnicidalism—O'Brien, M.P. Meets with Government Opposition in his Exposure of the Monstrous Doings of Castle Officials.

Officers of the Irish News Agency, Palace Chambers, London, S.W., June 21st, 1884.

Once more all Ireland is swept across with indignation, because of the employment by a Court of Justice of the unscrupulousness of the worst form of political partisanship.

Some months ago the editor of United Ireland was informed that Mr. James Ellis French, the head of the detective force in Ireland, had been dismissed from the service on account of the commission of nameless offences.

The next step was in the House of Commons. Here again every obstacle was put in the way of Mr. O'Brien. The Speaker and the Clerk at the table exhausted all their efforts to render it impossible to bring the question forward.

Mr. O'Brien was anxious to make a general motion to the effect that he would call attention to the conduct of the Government towards "certain officials" in Ireland.

Such are the facts of this case. If any Irish Nationalist required stimulus to help Mr. Parnell and his colleagues in the work of getting rid of the unholly rule of Dublin Castle, it is given by the record of these transactions.

DISASTROUS FIRE

A PORTION OF THE VILLAGE OF LACHINE BURNED DOWN—NINETY FAMILIES HOMELESS—LOSS FIFTY THOUSAND DOLLARS.

On Monday, the 7th inst., the village of Lachine was the scene of the most disastrous fire that ever took place within the municipality.

The Lachine fire brigade were at once warned of the conflagration, and an effort made to get them into working order.

Had it not been for the presence of mind of an onlooker both horses and engine would have been destroyed; as it was, the horses were badly burned about the legs and body, and the wheels of the engine were badly charred.

ALARMING PROPORTIONS

In this emergency the mayor of the village, Mr. L. Pigeon, telegraphed into the city for assistance. The message was received by His Worship Mayor Beaudry, who at once laid it before Ald. Hood and the members of the committee.

On the spot, when Guardian Mann ordered several powerful streams to be played upon it, which in a short time effectually extinguished the flames.

A GERMAN NOBLEMAN'S ROUSE TO AMERICA—FROM A BAR-TENDER TO A FORTUNE AND A TITLE

ALBANY, June 27.—Some very romantic facts have been disclosed to-day in a report in connection with the adventures of a young German bar-keeper here who was sent to be a hair to a fortune and a title in Germany.

THE LOSS

must be at least \$50,000, only one quarter of which, it is estimated, is covered by insurance. The fire spread to the very edge of the town, destroying the premises of Messrs. Daoust & Archambault, boat manufacturers, and a number of valuable skills.

PROVING HIS CHARGES

O'BRIEN, M.P., UNCOVERS OFFICIAL ADOPTIONS—EXCITEMENT OVER THE DISCOVERIES.

LONDON, July 7.—The excitement in Dublin over the libel suit of Mr. Cornwall, secretary of the Dublin post office, against William O'Brien, M.P., editor of United Ireland, reached fever heat to-day.

Every one of them admitted that he had participated with Mr. Cornwall in the crime of libel against the secretary by Mr. O'Brien. The room for the defence insisted upon making out their case completely, which they accomplished in doing, by a long series of sworn revelations on the part of the witnesses, unqualified for the unparliamentary scene.

IBERVILLE CONVENT

Long before the sun had shed its golden rays over our hemisphere, the pupils of this handsome little villa were eagerly awaiting the tinkle of the little bell which would announce to them the breaking of that joyful day, the day so long expected which would crown with success all their efforts of the preceding year.

Silver medals were taken by Misses M. Bessette and R. Lasnier, and gold medals, including general proficiency, were won by Misses R. Loisele and R. Warren. The exhibition of work took place on Sunday, when a choice selection of drawings, hand-painting, embroidery, etc., etc., were displayed.

A BOLD BAND OF THIEVES

AN EXTENSIVE SYSTEM OF RAILWAY TICKET FRAUDS DETECTED—SELLING BAD FOR GOOD.

NEW YORK, July 2.—The largest and boldest swindle of which any financial corporation has been made the victim in years has been slowly unearthed for some weeks past by the police, who to-day descended upon a gang of thieves, captured three of its leaders and booked them up.

THE CENSURE RESOLUTION THE FRANCHISE BILL IN THE LORDS

LONDON, June 30.—In the House of Commons to-day, Mr. Gladstone moved the vote of censure of the Government's Egyptian policy given precedence of all other business. The motion was defeated by 100 to 113. The result was wholly unexpected.

A BOLD BAND OF THIEVES

AN EXTENSIVE SYSTEM OF RAILWAY TICKET FRAUDS DETECTED—SELLING BAD FOR GOOD.

NEW YORK, July 2.—The largest and boldest swindle of which any financial corporation has been made the victim in years has been slowly unearthed for some weeks past by the police, who to-day descended upon a gang of thieves, captured three of its leaders and booked them up.

THE CENSURE RESOLUTION THE FRANCHISE BILL IN THE LORDS

LONDON, June 30.—In the House of Commons to-day, Mr. Gladstone moved the vote of censure of the Government's Egyptian policy given precedence of all other business. The motion was defeated by 100 to 113.

THE EGYPTIAN MUDDLE

PARIS, July 7.—In the Chamber of Deputies to-day Ferry said China was guilty of foul treachery at Langson and France would exact immediate and complete satisfaction. He has telegraphed the French minister at Peking to demand a war indemnity of \$25,000,000 francs, and has also instructed Admiral Courbet to seize the Fort Cheou arsenal as a guarantee for the payment of the indemnity.

ARCHBISHOP CROKE AND THE FUTURE OF IRELAND

DUBLIN, July 7.—Archbishop Croke in dedicating a church at Ballysheeh yesterday, exhorted his hearers to pray that Ireland might be a nation again. He insisted upon energetic action for the attainment of civil and religious rights.

AFFAIRS IN IRELAND

A MAJORITY ELECTION—A PARTY FIGHT—AN ORANGE DEMONSTRATION AT NEWRY—THE TWO O'BRIENS.

CORK, June 30.—By a coalition of Whigs and Conservatives, Sheehan (Liberal) has been elected Mayor by a majority of two over the Nationalist candidate.

NEWRY, July 1.—The Orangemen to-day celebrated the anniversary of the battle of the Boyne Hills. Banners were lighted in various parts of the country about. A procession, preceded by bands, marched through the streets carrying an ensign marked "The Traitor Family," which was afterwards burned. The police dispersed a crowd of Nationalists which was stoning the procession.

A BOLD BAND OF THIEVES

AN EXTENSIVE SYSTEM OF RAILWAY TICKET FRAUDS DETECTED—SELLING BAD FOR GOOD.

NEW YORK, July 2.—The largest and boldest swindle of which any financial corporation has been made the victim in years has been slowly unearthed for some weeks past by the police, who to-day descended upon a gang of thieves, captured three of its leaders and booked them up.

THE CENSURE RESOLUTION THE FRANCHISE BILL IN THE LORDS

WEDNESDAY JULY 9, 1884.

CATHOLIC CALENDAR

THURSDAY, 10.—The Seven Brothers, and St. Rufina and Secunda, Martyrs. FRIDAY, 11.—St. Pius, Pope and Martyr.

IN view of the prospect that the House of Lords will reject the Franchise Bill, Mr. Labouchere, member for Northampton, proposes that Mr. Gladstone create a sufficient number of Liberal and Radical peers to overcome the adverse majority.

On a revision of the returns from their agents, Dun, Wiman & Co. report that the number of failures in the Dominion for the past six months was only 752, instead of 793, as first published and the amount of liabilities \$10,742,600, instead of \$11,243,500.

The Toronto Mail must be a singularly demoralized organ to assert that the principal planks in the platform of the Liberal party of the Dominion are no Confederation, no Christianity, no morals, no manners.

The Orangemen at Ottawa have issued their programme for their coming celebration on the 12th of July. The lodges, it is said, have so managed that the line of procession will pass through the Catholic quarter of the city.

The writ for the new election in the county of Muskoka, Ont., to fill the place of Mr. Faugher, who has been unseated and disqualified, has been issued. The nomination is to take place on July 16th, and the election a week later.

RAILWAY traffic is experiencing a decline which is almost calamitous, and which is far from speaking well of the trade of the country. The Grand Trunk Railway returns for the past half year show that the aggregate traffic receipts during that period have been only \$7,963,503 as against \$9,032,379 in the same time in 1883.

A CURE is said to have been found for the dread disease of cholera. Advice from the scene of the plague at Toulon state that five cases of cholera have been cured by inhaling pure oxygen.

The New York Sun has figured out that there are 153 electoral votes which are ordinarily regarded as sure to be Democratic, 174 electoral votes which are set down as surely Republican, and 74 electoral votes that are doubtful.

The feeling against the present Government in France is daily becoming more bitter. That revolt of the military students at the national school of St. Cyr is of deep significance.

called upon to seize and hang the Premier, Jules Ferry, as it is to his colonial policy that is attributed the appearance of the cholera scourge on the shores of France.

The Ottawa Free Press expresses the conviction that Orange loyalty in Ireland is nothing but another name for riot. Commenting upon the official reports which distinctly show that the Orangemen were the offenders in the recent riots at Newry, our esteemed contemporary says: "To prevent murder the police were compelled to break into the Orange Hall, arrest the would-be murderers, and take their pistols from them."

The Toronto Mail and its correspondents are pretty much alike. It was only the other day that the fellow who represents the Tory organ at Hamilton fell into the hands of the law on a charge of criminal libel against a prominent citizen, and only escaped jail by offering a humble apology.

The international postal office established at Bern, Switzerland, has just published the financial results which the postal service has brought about during last year in every one of the countries forming the Universal Postal Union. The United States leads the rest of the world in the use of postal facilities.

Mr. McTAVISH, Land Commissioner of the Canadian Pacific Railway, has been figuring on the prospective yield of the wheat crop in Manitoba and the Northwest. He estimates that there will be a surplus of nearly seven million bushels this year.

Table with 2 columns: Item and Value. Estimated wheat acreage 350,000; Yield at 23 bushels per acre 8,000,000; Estimated wheat acreage, N.W. Territories 63,000; Yield at 23 bushels per acre 1,500,000.

This magnificent yield cannot but have a decidedly beneficial effect upon the trade of the whole country. The farmers of the Northwest have not met with much prosperity during the past two years, and it is accordingly a matter for congratulation and thanksgiving that their arduous labors are promised such a splendid reward.

The militia of Toronto have quite a genius in their ranks. His name is Lt.-Col. G. T. Denison. At a concert given by the U. E. Loyalists in the Queen City this distinguished soldier delivered a Napoleonic oration, in which he fired off some remarkable volleys at Canadian nationalists.

that he was attached to a body of British troops; he could not carry the British flag, but would have to fight under the Canadian flag which now consists of the old flag with a patch upon it to show that it is no longer the British flag, and no one in England would dream of displaying it.

COL. DENISON, who played such an idiotic part in the semi-centennial celebration of Toronto by his ultra-loyal declarations and his coarse assaults on people better than himself, is being pretty well broiled on the grid-iron of public opinion. The Colonel is an audacious ass, and he is being told so in pretty plain terms.

The beneficial results of the great work of the defunct Land League are only beginning now to make themselves felt in a palpable and emphatic manner. According to the official returns, the reductions made in the rents of the Irish peasantry by the Land Commission will amount this year to nearly £3,000,000 sterling.

DEFEAT OF A GODLESS PARTY.

The anti-radical Press of Europe expresses deep satisfaction over the triumph of the Catholic party in the recent Parliamentary elections in Belgium. In no European country, not even in Spain or Ireland, do staunch Catholics constitute so numerous and powerful an element of the population as they do in Belgium.

result of the election of June 10th is deplorable. All our hopes are dashed to the ground. We have suffered not merely a defeat, but a disaster, very much worse than the most pessimist anticipations could have made us expect.

Supplementary elections have been held since that date, and they also have resulted in Catholic victories, so that the Conservative majority in the new House of Representatives will be thirty-four—a larger figure than the Liberals ever commanded since the establishment of the kingdom.

THE RECORD OF BUSINESS FAILURES.

The report of Dan, Wiman & Co. on the state of trade both in Canada and in the United States for the past half year, has just been issued from their mercantile agency. It shows business interests to have largely suffered in both countries.

In the United States the number and amount for the first six months of this and the two previous years are as follows: 1881—5,510, \$124,391,282; 1883—4,637, \$90,189,034; 1882—3,397, \$50,780,920.

That such is the case may be gathered from the fact that the average indebtedness, compared with the number that have failed, has risen from \$18,000 for each failure to \$35,000, indicating that most of the casualties, involving large interests, occurred in speculative circles, where the nominal liabilities pass into the millions.

It can, in fact, be safely stated that two-thirds of the entire liabilities are the direct result of the gambling spirit which for years has been pervading the people of the United States. Under the circumstances it cannot be said that the trade of the country at large has suffered as much as it has done in Canada, where the failures are due, not to speculation, but to actual business depression.

A DECAYED LEGISLATIVE BODY.

THE HON. EDWARD BLAKE delivered a speech the other day at Hamilton, in which he put forth his views regarding the Dominion Senate. They were put in clear and forcible language, which leaves no doubt as to the kind of estimation in which that body of legislators is held by the able leader of the Canadian opposition.

known fact that vacancies in the Upper House are filled by men who have lost the confidence of the people, and who have been rejected at the polls in their capacity as parliamentary candidates. This mode of renovating the Senate has brought it into contempt and as unworthy of notice by the press and by the people in the discussion and the framing of our laws.

It is decidedly wrong and against the right of a free and independent people, to be legislated for by men who are not chosen by the popular voice, directly or indirectly, but it is infinitely worse to be forced to abide by legislation that comes from men who have already been rejected by the popular will.

If a second Chamber is necessary to act as a check on or a safeguard against hasty and unwise legislation, let that body come from the people in some shape or fashion; let it be a sound, healthy and responsible body; let it be identified with popular interests. We have no more use for a Senate that represents nothing but themselves and a political leader; that is nothing but a receptacle for played-out or defeated politicians; that is rusty, old, decrepit and irresponsible, and that places the security of a political party before the interests of the country.

HOW TO DEVELOP CANADIAN LITERATURE.

During the past month over 200,000 children throughout the Dominion have received prizes at the various schools. Most of these prizes have consisted of books on a variety of subjects, and we regret to say that with exceedingly few exceptions these books have been imported and written by foreign authors.

We have the talent here, but without patronage is seed without soil. It is true that of late years our Local Government have done much to promote education, and in this Province there is a vast field for the schoolmaster, as, according to Mr. Lake, nearly twenty per cent. of our people can neither read nor write, and a very large percentage of the remainder has received but most elementary education.

A VERDICT OF "GUILTY" AGAINST GOVERNMENT OFFICIALS.

The conduct of Mr. William O'Brien, M.P., editor of United Ireland, in exposing the abominations of British officials in Ireland, has just been triumphantly vindicated by, no less a body than a Castle packed jury. The excitement throughout the country, and the anxiety in Parliament over the result of this celebrated libel suit, had reached fever heat.

In Parliament, the Irish Chief Secretary, Mr. Trevelyan, representing the Ministry, threw the mantle of official protection over his pet subordinates, and refused to have the charges investigated. Mr. O'Brien complained of the impediments placed in the way of enquiry, and at last denounced the bestial offenders in a manner which permitted no mistake as to meaning and tendency.

THE DUTCH SUCCESSION.

NEGOTIATIONS AFOOT BETWEEN ENGLAND AND FRANCE—A SHORT REVIEW OF THE PRESENT SITUATION.

LONDON, July 4.—It is reported that negotiations are afoot between England and France regarding the Dutch succession.

The recent death of Alexander, Prince of Orange, Crown Prince of the Netherlands, may prove to be a serious event in the dynastic history of Europe, and the question of succession which his death has opened may, and very likely will, assume the dignity of a European question.

THE SITUATION. The recent death of Alexander, Prince of Orange, Crown Prince of the Netherlands, may prove to be a serious event in the dynastic history of Europe, and the question of succession which his death has opened may, and very likely will, assume the dignity of a European question.

is said to have secretly affianced his daughter to Prince Balthazar, the nephew of Leopold IX. of Belgium, who, on the death of his uncle and father, is thus to reunite the crowns of the two kingdoms, separated by the revolution of 1830.

ABSORPTION OF THE NETHERLANDS by Germany, however, as would be the result in case the Duke of Nassau should come to the Dutch throne, would make Germany what she is now, a first-class maritime power, by giving her control of Holland's coasts, colonies and navies.

THE RUSSIAN PRIENT.

MARRIAGE COMPULSORY, BUT THE OFFSPRING DESPISED—GROSS SOCIAL INJUSTICE.

Every parish priest in Russia is obliged to be a married man; that is to say, he must have a wife as a preliminary condition to the possession of a parish, but must be married before he has been ordained priest, for a priest cannot marry.

ENGLAND'S FIRST MARTYR IN THE CAUSE OF WOMAN SUFFRAGE.

MISS MULLER OF THE LONDON SCHOOL BOARD REFUSING TO PAY TAXES UNTIL SHE HAS A VOICE.

LONDON, July 4.—Miss Muller a member of the London School Board for the Lambeth district, is the first woman in England to

pose as a martyr in the cause of woman suffrage. She has undertaken in her own person to prove her devotion to the principle of "No taxation without representation."

FOR TAXES ON HER HOUSE. This is situated in the fashionable precincts of Cadogan square. The collector argued and implored in vain and finally distrained a portion of the furniture in Miss Muller's residence in satisfaction of the levy.

AN EDUCATIONAL MEETING was afterwards held in Miss Muller's drawing room, and many bitter and vehement denunciations of the tyranny and injustice of the law were indulged in.

DEATH OF GENERAL TODLEBEN, THE FAMOUS RUSSIAN SOLDIER.

LONDON, July 2.—General Francis Edward Todleben, the famous Russian engineer, is dead, aged 66. The great soldier, who became famous as the defender of Sebastopol, during the Crimean War, was the son of a small shopkeeper, and was born at Mitau, in Courland, May 8, 1818.

Vital Questions

Ask the most eminent physician of any school, what is the best thing in the world for quieting and allaying all irritation of the nerves, and curing all forms of nervous complaints, giving natural, childlike refreshing sleep.

CATHOLIC EVENTS IN EUROPE.

The Pope and Lord Carnarvon—Blowing up and Consecrating Churches—Election of Victor in Rome—Revolutionary Proceedings.

Rome, June 25.—The Roman correspondent of the Liverpool Catholic Times writes: The protest made by Lord Carnarvon, Grand Master of Freemasonry in England, against the recent Encyclical of the Holy Father on this subject, is discussed in the *Moniteur de Rome*. This journal says:—"The first question that one should ask himself, in reading this protest against the Holy See, should be this: Suppose that the secret societies of Great Britain are distinguished from the lodges of other countries, that they preach neither impiety, nor atheism, nor sedition, is it true that Leo XIII. has branded, without distinction of groups or individuals, the doctrines and the acts of all Masonic Lodges? Has he united all the secret societies in one same condemnation? The simple reading of the Pontifical document sufficiently demonstrates that Leo XIII. admits varied gradations in the Masonic sect."

THE GRAND LODGE OF ENGLAND, besides, should never forget that it is from Great Britain that Freemasonry spread upon the continent, in France, Italy and in other countries. The radical doctrines of the most advanced Lodges are but the natural and logical development of the general ideas with which the English secret societies of the last century were inspired.

MUNICIPAL ELECTIONS—CATHOLIC VICTORIES.

The municipal elections at Rome last Sunday resulted in a splendid victory to the list of candidates chosen by the Catholics. The aim of the *Unione Romana*, or union of Catholics for municipal election purposes, is to set aside political differences and to take the religious question as the sole basis of selection of candidates.

OUTBURST OF ANTI-CLERICAL HATRED OCCURRED IN THE CHURCH OF THE MINERVA ON THE EVENING OF TRINITY SUNDAY.

It was the conclusion of a solemn triduum of reparation for the blasphemies recently published in anti-clerical journals against the Blessed Virgin. This fact alone aroused the hatred of the sects, and slight disturbances had marked the first day of the triduum.

AN EXTENSIVELY MARRIED MAN.

LOUISVILLE, Ky., July 4.—"Doctor" Hirschberg, who was captured by the police immediately after his release from the workhouse, proves, according to reports, to be the most extensively married man who has been seen in Kentucky since many days.

has been furnished in Genoa. On Tuesday night two cartridges containing dynamite were placed close to the cathedral and to the Church of the Immaculate Conception in the Via Assarotti. Shortly after midnight the explosions of these cartridges took place.

MORE CONFISCATION.

On Saturday last the Abbé Le Rebours, the respected curé of the Madeleine, Paris, was served with a notice to the effect that the Church of the Assumption in the Rue St. Honoré was to be taken away from the parish after a lapse of fifteen days.

A LEGEND OF FRANCE.

In the darksome days of 1793, when France was drinking deeply of the cup of woe, filled by the number of her crimes, there stood on the left bank of the Meuse River, about fifteen miles from Valenciennes, a small village called Domrémy. It was distinguished by an old and picturesque church, built in the thirteenth century; on one side was seen the cottage of the venerable curé, and on the other the village burial ground where many of the faithful had reposed for years.

BEAUTY ON TRICYCLES.

WASHINGTON, July 4.—Tricycling is beginning to be the fashion among Washington women. For a long time Mrs. Lockwood, who has a lawyer's license to practice, has bowled over the smooth asphalt streets on a tricycle; but lately two or three ladies have appeared, one riding a tricycle while her husband accompanied her on a bicycle.

PEACH TREES IN THE ST. CATHERINES DISTRICT.

Of the 251 applicants for admission to Harvard, forty-nine are ladies.

REVIEW OF BOOKS, &c.

The monthly part of the *Ave Maria*, Rev. D. E. Hudson, O.S.C., editor, contains a great deal of edifying and interesting literature. It is not less pious for being popular.

THE CATHOLIC WORLD.

The July number of this valuable magazine presents a well filled table of contents, which runs as follows: 1. Mexico To-day; 2. Is the American Anomaly in History; 3. A Tragi-Comedy; 4. The Last Night of a Martyr; 5. Phillis Wheatley, the Negro Poetess; 6. Agatocles of the Pyrenean Provinces; 7. A Lesson of Life; 8. The Irish Words in Shakespeare; 9. Katharine; 10. The Religion of Ancient Egypt; 11. New Publications. Price \$4 per annum; single copies 35 cts.; sold by D. & J. Sadlier & Co., Notre Dame street, Montreal.

THE MANHATTAN.

The July number of *Manhattan* has for its frontispiece a fine portrait of Mrs. J. D. Griffin, engraved from a photograph by Topley of Ottawa. An account of our ex-Governor General by J. L. Whittell does justice without exaggeration to his great abilities. "Fair Verona," the beautiful city of Romeo and Juliet, of Dante and of the Scaligers is described in a pleasant manner by J. W. Davis, numerous engravings illustrating the letter press. The same is the case with a paper on nearer scenes, those of "Riverside Park" by Martha J. Lamb. In "The Ancient Water Supply of Constantinople," Margaret P. James shows, with the aid of Frank Waller's illustrations, the attention that the Romans paid to this important subject, even to the extent of magnificently ornate architecture.

VEILS.

It is supposed that veils are worn principally for ornament, and not for use, as they are too fragile to afford any material warmth. They may cover some defects, or may improve personal appearance, in certain cases. They are of no real advantage in any respect, as it seems to me, and are objectionable in two particulars at least. It is impossible for the wearer to secure pure air, as the veil prevents the free supply, while it retains a part of the foul gases thrown off by breathing.

IT LEADS ALL.

No other blood-purifying medicine is made, or has ever been prepared, which so completely meets the wants of physicians and the general public as

Ayer's Sarsaparilla.

It leads the list as a truly scientific preparation for all blood diseases. If there is a lurking taint of Scrofula about you, SCROFULA AYER'S SARSAPARILLA will drive it out, and expel it from your system.

ULCEROUS SORES.

"At the age of two years one of my children was terribly afflicted with ulcerous sores, which were on his face and neck. At the same time his eyes were swollen, much inflamed, and very sore. Physicians told us that a powerful eye medicine would do no good, and that the only chance of recovery was in the use of Ayer's Sarsaparilla. A few doses of this medicine effected a permanent cure. No evidence has since appeared of the existence of any scrofulous tendency, and no treatment of any disorder was ever attended by more prompt or effectual results."

Prepared by Dr. J. C. Ayer & Co., Lowell, Mass. Sold by all Druggists; \$1, six bottles for \$5.

FREEMAN'S WORM POWDERS.

Are pleasant to take. Contain their own Fungicide. Is a safe, sure, and effective Cures of worms in Children or Adults.

WANTED—A situation as housekeeper for one or two gentlemen, willing to do light work or take charge of a house for the summer. Good references. Apply to 100 Bleury street.

A CHICAGO DRUMMER AND HOW HE "SWORE OFF."

"No, I won't drink with you to-day, boys," said a drummer to several companions, as they settled down in the smoking car and passed the bottle. "The fact is, boys, I have quit drinking—I've sworn off. He was greeted with shouts of laughter by the jolly crowd around him; they put the bottle under his nose and indulged in many jokes at his expense, but he refused to drink and was rather serious about it.

BEAUTY ON TRICYCLES.

WASHINGTON, July 4.—Tricycling is beginning to be the fashion among Washington women. For a long time Mrs. Lockwood, who has a lawyer's license to practice, has bowled over the smooth asphalt streets on a tricycle; but lately two or three ladies have appeared, one riding a tricycle while her husband accompanied her on a bicycle.

CHOLERA IN MONTREAL. ITS RAVAGES IN THE PAST - TERRIBLE EFFECTS IN 1832.

The cholera plague has now reached Lyons and by latest advices we learn that there are 110 cases in the Toulon hospital, and we also learn that the sanitary condition of Paris is excellent. Can the same be said of the city of Montreal? The Post a few days ago pointed out that in the region of the St. Lawrence Main street and St. Mary's Ward that instead of water closets connecting with drains they were mere cess-pools and apt to breed pestilence.

Table showing cholera statistics for 1832-1834. Columns: Deaths, Per cent.

The dates of the commencement and end of the disease, as nearly as can be ascertained from the reports, were: 1832, June 18 - Sept. 15; 1833, July 11 - Aug. 30; 1834, July 1 - Aug. 18.

"TRUTH" AND THE MIND READER. LONDON, July 1. - Truth's savage crusade against Irving Bishop, the American fraud reader, has resulted in a libel suit which that young gentleman has brought against Mr. Bishopp, and which threatens to become quite an celebrated case.

TORONTO'S SEMI-CENTENNIAL

AN IMMENSE CROWD OF SIGHTSEERS—GLORIOUS WEATHER—THE CITY IN HOLIDAY ATTIRE—THE OPENING PARADE—SMALL IN NUMBERS AND BADLY ORGANIZED.

TORONTO, June 30.—The opening day of the celebration of the Semi-Centennial of the "Queen City" was favored with glorious weather, and at an early hour the city was astir.

At fifteen minutes after two the head of the procession, led by the Chief Marshal of the day, Ald. Harry Piper, gaily decorated with light green regalia and splendidly mounted, swung out on Yonge street.

Following him came the full band of the Queen's Own under Bandmaster Bailey, numbering thirty-five pieces. Then Chief of Police Draper, also well mounted on a princeling steed that he sat on with grace and ease.

Then came Deputy Chief of Police, Inspector Seymour, and P. C.'s Whiteside, Golding, Watson, Dixon, Wirth, and Ross (99), also well mounted.

Deputy Chief of Police and Inspector Ward led a body of 100 policemen that for soldierly bearing and the precision with which they marched cannot be excelled by any equal number, military or civilian, in the country, even if we do say it, as shouldn't.

The Royal Grenadiers' band, under Bandmaster Toulmin, forty-five strong, headed the civic representatives that came next in carriages.

These were followed by the members of the public and separate school boards. Next followed the 2nd, 3rd and 4th divisions, as given in the programme already published in the Post. After the fourth division, and drawn by three pairs of oxen, came a heavy lumbering lorry on which was a large painting representing early life in the backwoods.

Next came the first log cabin, rude, snug and old-fashioned. On the wall was nailed a coon skin, and in the shade sat the settler's wife resting beside her spinning wheel, and watching the poultry which fed before her.

In the foreground was a stump on which sat the settler in buckskin shirt and with his old-fashioned and rusty rifle resting in the hollow of his arm, while his bright eyes were fixed on the neighboring forest as if in expectation of game.

Then came the tableau representing the landing of Governor Simcoe at Toronto. The governor and his aides sat in the stern, while four stalwart British tars held the oars.

"The naming of York harbor" followed. This was represented by a boat-load of marines carrying the Union Jack, while in the background was a stockade fort with two cannon in front.

"York" was the next and most impressive tableau. Before a representation of Britannia was a tiny cradle with "Toronto" printed on its sides. Behind Britannia sat a York pioneer, and around them stood settlers, soldiers and Indians, armed with rifles, axes, hatchets, scythes, etc.

Next followed the tableau representing the first meeting of Parliament. There was the speaker in his high chair, and around the table before him were gathered worthy representatives of the people.

"The Incorporation of Toronto" was the tableau which followed. An officer of the Royal army held the proclamation of His Majesty before a beautiful girl, representing Toronto, who graciously received it seated in her chair. Behind them sat Britannia beside a full-blooded Indian.

A wagon loaded with bags of grain, sheaves of wheat, plows, etc., represented Toronto as the center of agriculture.

"Education" followed. It represented the public library, and was covered with colorful scenes on brackets and gowns, school children, teachers, etc. The bust of Ryerson was elevated in front of the tableau.

"The Queen City" was represented by paintings of the city, and representations of telegraphy, steamboats, agriculture, manufactures and roadways.

The last tableau represented "Toronto Welcomes All." All nationalities were represented in this tableau, and they presented a very picturesque appearance.

The various tableaux and representations were carefully executed, lacking taste in design and execution. The one labelled "Toronto Welcomes All" contained a most offensive representation of the stage Irishman. Such a miserable caricature would not have passed in safety for any distance in the streets of Montreal.

The numbers taking part in the parade were comparatively small, and it only occupied thirty minutes in passing the Rossin house. The day was extremely hot, and told severely on the endurance of those principally in the parade. Lieutenant-Governor Robinson and Mayor Boswell were apparently overcome by the heat, and left the procession at the corner of King and York streets.

The police force presented a most creditable appearance, as did also the fire brigade. In the evening the city was brilliantly illuminated and the streets were crowded.

The hall in the pavilion in the evening was largely attended and was a great success.

TUESDAY'S EVENTS.

This is the great military day, and one of the most important of the celebration. At 9.30 a.m. the corps marched on the following order: The cavalry, under command of Col. G. T. Denison, in column of troops, on King street immediately west of Simcoe street, facing east. The Hamilton, Toronto and Wellington field batteries in column of half batteries under command of Major Gray. Fusilier brigade, Lieut. Colonel Ross commanding; "C" company Infantry school; Governor-General's Foot Guards; the 6th and 7th Fusiliers; and Tenth Royal Grenadiers in column in rear of battery. Wellington street, west of Simcoe, under command of Lieut. Col. Skinner, the 12th, 13th, 34th, 77th and any other infantry battalion which may be on parade in column facing east.

Rifle Brigade, under command of Lieut. Col. Kerr, in column facing north on Simcoe, south of Wellington street, the Queen's Own Rifles and the Prince of Wales' Own Rifles. King street east, and presented a very soldierly appearance. The 8th Fusiliers of Montreal, looked well and received considerable applause along the line of route.

The Wheelmen's parade in the afternoon was a grand success.

TORONTO, July 2.—The third day of the semi-centennial celebration has been favored with the same lovely weather that has prevailed for the past week. Last night and the early morning witnessed the departure of the military, amid the cheers and plaudits of the multitude. Yesterday all was military glory; there were gaudy uniforms, the tramp of armed men and the booming of cannon everywhere. To-day all is indicative of peace, harmony, godd will and industry.

The trades and labor parade was pronounced the largest and most creditable that has ever been witnessed on Toronto's streets. There were fully three miles of it, and the time occupied in passing a given point was an hour and fifteen minutes. The parade was led by the Mounted Police, following which came the Fire Brigade, with a long line of reels and hook and ladder wagons, then came the main body of the first division led by the band of the Bolt and Iron Company. The balance of this division was made up of the several trade unions of the city.

The second division was composed of a number of machines, the manufacture of the Massey Company, also the wagons of the Kubber Co. and Inglis and Hunter's wagons.

The third division was made up of a long line of wagons and carriages displaying the wares of various city firms.

The fourth division was composed of the piano manufactures, the wagons of the Dominion and American express companies.

The fifth division was an immense line of coal carts, of which 600 were iron the yard of Mr. Patrick Burns, Toronto's coal king.

The day's parade was in every way a creditable one and worthy of the Queen City. This evening there is a grand illumination of the city, and the streets are densely crowded, notwithstanding that thousands have left this evening by out-going trains.

TORONTO, July 3.—This is the fourth and quietest day of the celebration. The U. E. Loyals held their meeting in the Pavilion of the Horticultural Gardens this morning, and the time was occupied in speech-making, relieved by a few songs. Col. Denison was the chief speaker, and the theme of the British Empire.

The streets have been remarkably quiet during the day, owing to the absence of a parade.

The lacrosse match between eleven of the Torontos and twelve of the Royal Caughnawaga Indians this afternoon was drawn. The Indians won the first game in about an hour, and the Torontos the second game. Play throughout was of a loose character. Ross Mackenzie did not take part. The one-mile bicycle race was won by C. F. Lavender, Toronto, in 3m. 6s., by six inches. The other starters were Russ, of Montreal, Davis and Campbell, of Toronto, and Smith, of Rochester. Ross came in second, and the mile bicycle race was won by F. J. Campbell, of Toronto, in 10m. 4s., Lovv, of Montreal, second. Johnston, of Toronto, and Smith, of Rochester, also started. There were about 4,000 people on the grounds.

This evening one of the grandest events of the celebration took place, viz., the boat parade and fireworks display on the Bay. All the steamers were crowded and every row and sail-boat was in use. The wharves were filled with people, and the roofs of the warehouses in the vicinity of the Bay were packed. The boats were illuminated with Chinese lanterns, and as they moved in line around the harbor the sight was most interesting. Forts were erected on the Bay, and for over an hour a mimic naval combat with rockets and Roman candles was waged, closing with a brilliant display. Fortunately everything passed off without any serious accident.

Another interesting feature of to-day's proceedings was the production of the Oratorio of the "Redemption," by the Phillarmonic Society, in the pavilion of the Horticultural Gardens. There were 500 voices and 87 pieces in the orchestra.

To-morrow will be the Benevolent Societies' Day.

TORONTO, July 5.—The great semi-centennial celebration is at an end, and the city is again assuming its normal appearance. The demonstrations of the several days were fairly successful, with the exception of Friday, the societies' day, which was rendered almost a blank owing to the very unfavorable weather. The societies mustered for parade in the morning, but before a start could be made the downpour of rain was so heavy as to cause the assembled members of the societies to seek shelter, and finally to disperse. It was decided to have the parade this morning, but notwithstanding the exertions of the committee only a few of the societies could be induced to assemble, and the parade at noon to-day consisted of three divisions of Uniformed Patriarchs, 125 members of the Young Men's Protestant Association, 100 Foresters and about 80 Sons of England.

The display, therefore, was a failure, and very little interest was taken in viewing these few men and boys trudging through the mud and drenched with rain, which fell at intervals during the day. None of the Catholic societies took part in the parade, although they had made extensive preparations, and the two principal ones, the Irish Catholic Benevolent Union and the Emerald Beneficial Association, assembled on Friday morning, but afterwards decided to return to their halls and disperse.

The closing feature of the celebration, viz., the parade of the school children, took place this afternoon and they made a respectable show, although the numbers were small. The children assembled in the Queen's Park shortly after noon and were accompanied by a few of the trustees and teachers. Although the rain continued to fall at intervals it was decided to parade, and the line of march was taken up in the following order:—

ISLAND DIVISION.—E. P. Roden. Dufferin School, 300; Hope Street School, 300; Bolton Street School, 73; Bathurst Street School, 200; Boys' Home, 50; Brant Street School, 300; Church Street School, 300; Cottingham Street School, 100; Band—"Anderson's Band."

John Street School, 30; St. George's Street School, 120; Givens Street School, 168; Elizabeth Street School, 180; Louisa Street School, 176; 2ND DIVISION.

Chief of Division—Capt. J. T. Thompson; Pioneer Rifle and Drum Band. Ryerson School, 290; Ketchum School, 240; Palmo School, 120; Howard Street School, 30; Niagara Street School, 154; George Street School, 164; Park Street School, 192; Eastern Avenue School, 120; Riverside Juvenile Band; Phoebe Street School, 400; York Street School, 240; Victoria Street School, 224; Orphans' Home, 60; Parliament Street School, 130; Winchester School, 294; Wellesley Street School, 300.

3RD DIVISION.—Chief of Division—T. Hebert.

Bolt Works Band. Separate School Band. Maple Leaf Band. 16 Boys Separate School Pupils. 400 Girls.

Down the Queen street avenue the sidewalk on which the children marched was thronged with spectators, who heartily applauded the splendid marching of the senior boys. Had the day been fine, the children's parade would have been a most imposing sight.

To-night all visitors from a distance have departed and the crowds on Yonge and King streets are only the usual Saturday night promenaders, who are to be met on these thoroughfares. The flags and hunting arc yet fluttering in the breeze to remind one of the semi-centennial, but on Monday these will disappear and then the citizens will count their gains.

Merchants, tradesmen and general dealers are sorely disappointed over the week's business, which they assert, has been most discouraging, in fact, less than an ordinary week. Even the hotel keepers say that they are disappointed in the result and that their receipts do not at all approach their anticipations. However, taking it all in all, the celebration has been a success and worthy of the Queen City.

THE GRAND RIVER BRIDGE CATASTROPHE.

MONROVIA, Mo., July 4.—The list of the drowned and seriously wounded in the Grand River bridge catastrophe is increasing as the work of clearing the wreck progresses. It is now estimated that twelve men were drowned and as many more fatally injured. The names received this morning are—John Long, drowned; James Barker, wounded; Edward Young, shot; Fred. Young, drowned; A. Fisher, drowned; D. Hayward, internal injuries, cannot live; Ward West, badly cut; James Bruce, temple crushed; J. B. Brown, leg broken, internal injuries; John E. Dillon, crowned; George Brown, thigh broken; Phil Beck, engineer of train, badly crushed; James Dick, fireman, hips crushed, both arms broken, cannot live; James McCord, hips crushed, died since; James Hogan, back and hips hurt; Arch. Hill, badly crushed; Abraham Webb, of Cunninghamham, and John Long, of Summer, are still in the vortex; J. P. Mapewell, of Summer, badly bruised on hip and back; Al. Short, of Summer, rib broken and internal injuries. Three more identified bodies have been recovered by divers. The portion of the bridge down represents the centre span of about 150 feet long. The structure is what is called the false-work. It was forty feet from the water to the track. The cause of the accident is not fully established. The engineer was backing the train on the bridge, chugging speed to cross a trestle. The trestle of the bridge was brought almost to a stop in the centre of the bridge, and when extra steam was put on the frail bridge began to totter and soon sank beneath the ponderous weight. The engineer saw that nothing could be done to prevent the disaster and began sounding the whistle, which was continued until his engine struck the water. But for the alarm not a single occupant of the eight cars could have been saved.

A DUDE'S TROUBLE.

LONDON, July 4.—A local dude, employed in a prominent monetary institution, has just got himself into trouble. It seems that money had been missed from the till of the establishment in which the fellow was a clerk; the various sums amounting to \$150. Examined at a lively state, the clerk had stated that his salary was \$28 a month, showed that he had been in the habit of spending more than his actual monthly wages (\$10) in horse hire. A trap was laid which proved successful, and on being confronted with a police officer he confessed everything, and the manager gave him fifteen minutes to leave the city. In his drawer were found a bundle of love-letters, showing that he was engaged to marry seven girls—two in Victoria, Ont., three in Pontiac, Mich., and two in London South. The letters showed that he had given jewellery to the girls, and to one he had promised money with which she was to come and meet him. The manager has corresponded with the girls, offering to return their letters if they return him the jewellery. So far he has received in response three rings, a watch, and the promise of more to follow.

FINANCE AND COMMERCE.

FINANCIAL.—The local market was fairly steady at yesterday's prices. New York was weak, the principle break being Jersey Central, which fell to 47, a drop of 2 1/2 per cent. from last night's closing.

London consols were the same at 99 1/16, money 100 1/16; Erie 12 1/2; Illinois Central 120 1/4; Canada Pacific 44 1/4; New York Central 102 1/4.

Morning Sales—115 Bank of Montreal 183; 55 Montreal 106; 25 Toronto 165; 14 Merchants 107 1/2; 47 do 107 1/2; 10 Commerce 114; 112 do 114; 85 do 113 1/2; 55 Montreal Telegraph 110 1/2; 25 Nicholson & Ontario Navigation Co. 54 1/2; 300 Montreal Gas Co. 172 1/2. New York, 1 p.m., July 5.—Stocks weak. Am. Ex. 85; C. S. 28 1/2; D & H, 91; L & L, 109; Erie, 12 1/2; pfd., 25; Ill. C. 116; L. S., 73; M. C. 55; Mo. Pac. 96; N. J. C. 53 1/2; N. Y. 17 1/2; pfd., 43 1/2; N. W. 89 1/2; pfd., 122 1/2; N. Y. C. 100 1/2; P. M. 40 1/2; Reading, 23 1/2; R. J. 107; St. P. 66 1/2; pfd., 105; St. P. M. & M., 85 1/2; Tex. Pac., 8 1/2; U. P., 31 1/2; Wab., 6; pfd., 13; W. U., 55 1/2.

COMMERCIAL.—WEEKLY REVIEW—WHOLESALE MARKETS.—The financial world appears to be steadily regaining confidence after the recent threatening events in this city and Toronto. Trade as a general thing is exceptionally quiet; the usual condition at this season of the year. This inactivity, it is expected, will have a lengthy continuation, and for the next two months at least, things may be expected to remain in statu quo. In the meantime business men are calculating on the prospects of the winter trade, and the outlook, while generally acknowledged to be by no means alarming, is, on the other hand, not promising. Everything appears to depend upon the crops, and with a better grain crop than has been predicted, the winter's operations would in all probability be eminently successful. There is very little doing at the present in the dry goods trade, operations being confined principally to filling the orders of a few odd travellers who have just returned. Fall samples are still out on the point of being, and a stir will soon follow. An improvement is desirable in payments in this trade, but taken altogether they are fairly well met.

IRON AND HARDWARE.—There has been a slight improvement in this trade during the week an unexpected demand springing up. The principal business has been in pig iron, of which prices are a shade firmer. Remittances in the general hardware trade are good. We quote: We quote: Colts, \$19.50; Langdon, \$19; Calder, \$18.25; Gatscherie and Summerville, \$17.75; Dalmington \$17.25; and Edlington, \$16.75. Tin plates \$4.50 to \$4.75 for I. C. channels, and \$4.20 to \$4.40 for coles. Canada plates, Penn and equal, \$2.90. Ingot tin, Straits, 2 1/2 c. and Lamb & Flag, 2 1/2 c. London, 2 1/2 c. 2d. Ingot copper 16c; best selected in London £60 10s. Lead, \$3.25, soft Spanish in London £10 10s.

GROCERIES.—This market is quiet and weak, and the only feature was a further decline in sugar, in which a slight business has sprung up lately. We quote: Sugar—Yellows, 5 1/2 to 6c; syrups, 2 1/2 to 50c per gallon; new crop Barbadoes, 32 1/2 to 34c, and old 2c less; English Islands sugar, nominal at 25c. Valencia raisins 3c, choice brands 3 1/2 to 3 3/4 as to size of lot, old fruit 3 1/2 to 4c; currants at 4 1/2 to 5 1/2c; Greenoble walnuts 1 1/2c; almonds 1 1/2 to 1 3/4c; filberts 9c; figs 10c to 12c; lemons \$5 to \$6 per box. The tea market is quiet and unchanged, but steady. Coffee is very quiet, with only a light jobbing business. Javaea range from 1 1/2 to 1 1/4c; the English market is stronger. Rice is firm and unchanged at \$3.50 to \$3.60. Spices remain quiet and generally firm. Black pepper 1 1/2c; white 2 1/2c to 2 7/8c; ginger, 1 1/2 to 1 3/4c; nutmegs 50c to 70c; cloves 1 1/2 to 1 3/4c; cassia 10c to 1 1/2c.

LUMBER.—This trade is fairly active and several purchases for export are reported. The prices current are: Pine, 1st quality, per M., \$35 to \$40; 2nd quality, per M., \$22 to \$24; do, shipping, per M., \$20. Spruce, per M., \$18 to \$20; do, 4th quality deals, per M., \$12; do, mill cuts, per M., \$3 to \$10; spruce, per M., \$10 to \$13; hemlock, per M., \$10; ash, run of log, cuts out, per M., \$18 to \$25; bass, run of log, cuts out, per M., \$17 to \$25; oak, per M., \$40 to \$50; walnut, \$60 to \$100; cherry, per M., \$50 to \$80; butternut, \$25 to \$35; birch, per M., \$20 to \$25; hard maple, per M., \$20 to \$25; laths \$1 1/2 to \$1 3/4; shingles, \$2 to \$3 1/2; do cedar, \$1 60 to \$3.

LEATHER.—There has been a better demand for this staple and the trade has assumed a hopeful tone. Prices are unchanged at Spanish sole, No. 1, B. A., 26c to 27c; do No. 2, B. A., 23c to 24c; China, No. 1, 23c to 24c; do No. 2, 21c to 22c; Buffalo, No. 1, 21c to 22c; do No. 2, 19c to 20c; slaughter, No. 1, 26c to 28c; rough light, 24c to 25c; harness, 26c to 32c; waxed upper, light, 36c to 38c; do, do, medium and heavy, 33c to 36c; grained upper, long, 35c to 40c; Scotch grained upper, 38c to 42c; buff, 14c to 16c; pebbled cow, 12c to 15c; split, medium, 22c to 28c; do, junior, 18c to 22c; calfskin, light, 60c to 75c; do, heavy, 75c to 85c; French calfskin, \$1.05 to \$1.35; English kid, 60c to 70c; patent cow, 15c to 16c.

HIDES AND SKINS.—There is but a very slight business doing, but the demand is ample to absorb the supply, and consequently no strain is felt anywhere. Prices are steady. Western buff hides are quoted at 9 1/2 to 9 3/4 for No. 1, and 8c to 8 1/2 for No. 2. Toronto inspected are at 9 1/2 for No. 1, and 8 1/2 for No. 2, and Hamilton at 9c for No. 1, and 8c for No. 2. Dry hides are quiet at 16c for No. 1 and 14c for No. 2, and dry flints at 20c for No. 1, and 17c for No. 2. There is some disposition to quote green butchers' hides higher, but the advance is not generally admitted. Receipts have been moderate. We quote 8c to 8 1/2, 7c, and 7 1/2 and 6c to 7 1/2 for Nos. 1, 2, and 3 respectively. Calfskins are unchanged at 12c, and sheepskins at \$1.00. Lambskins are higher, a lot changing hands at 35c.

BOOTS AND SHOES.—A change in a much needed direction that of improvement, is noted, and things are beginning to look promising. Prices are steady and nominally unchanged as follows:—Men's thick boots, waxed, \$2.50 to \$3.00; do split boots, \$1.50 to \$2.25; do kip boots, \$2.50 to \$3.25; do calf boots, pegged, \$3 to \$4; do buff and pebbled Balmorals, \$1.75 to \$3.00; do split do, \$1.25 to \$1.65; short shoe packs, \$1.00 to \$1.25; long do, \$1.25 to \$2.25; women's buff Balmorals, \$1.00 to \$1.25; do split do, 85c to \$1.10; do prunella do, 50c to \$1.50; do congress do, 50c to \$1.25; buskins, 60c to 75c; men's pebbled and buff Balmorals, 85c to \$1.20; do split do, 70c to 90c; do prunella do, 60c to \$1.00; do congress do, 60c to 70c; children's pebbled and buff Balmorals, 60c to 90c; do split do, 55c to 65c; prunella do, 50c to 75c; infants' cacks, per dozen, \$3.75 to \$6.50; women's summer button and the shoes, 80c to \$1.25; misses' do, 60c to 90c; children's do, 60c to 80c.

Oil.—This business is quiet, about the only change being an advance in lincsed oil. Steam refined is held at 62 1/2 to 63c, but buyers are considerably lower. Pale seed oil is dull and lower at 52 1/2 to 53c. Coal oil is easy at 60c to 62 1/2c, with a moderate amount of business, and is held at 50 barrels. Insect oil is quiet, but strong, and quoted higher at 52 1/2 to 53c for raw, and 50c to 57 1/2c for refined. Cod liver is easy and a shade lower at \$1.10 to \$1.20. Olive oil remains at \$1 to \$1.10.

PETROLEUM.—There has been a moderate business in this product, and on the strength of a similar movement in the West prices have been raised a cent. We quote car lots, 14 1/2c; broken lots, 15c to 15 1/2c, and single barrels, 16c to 16 1/2c.

CITY BREADSTUFFS, DAIRY PRODUCE AND PROVISIONS.

Flour.—The market yesterday was dull and unchanged. The sales reported on Chicago were 250 barrels medium bakers at \$4.65. Wheat.—Prices are unchanged and business is quiet. We quote: Canada white winter nominal at \$1.13 to 1.14; Canada spring, \$1.15 to 1.17. Peas continue firm at 92c ex-warehouse and 92 1/2c afloat. Corn (American) is steady at 60c in bond and 67 1/2c duty paid in cargo lots; 65 1/2c in bond, and 73c to 75c duty paid ex-warehouse in small lots. Oats are firm at 37c to 40c. Local provisions.—There was an improved appearance in the market yesterday and prices are firm. Eggs.—The market has not undergone any change and prices are steady at 15 1/2 to 16c. In Boston Canadian eggs are quoted at 10c to 17c. Ashes.—The market continues quiet at quotations. We quote:—Pots, firsts, \$4.30 to \$4.45, according to tars; seconds, nominal at \$4.25; thirds, none offering. Pearls nominal at \$5.25.

HAY AND STRAW.—Straw is weaker and lower for inferior. Prices range from \$3 to \$5 per hundred bundles as to quality. Hay is steady and in moderate demand at from \$5 to \$7.50 per hundred bundles. A few loads of new hay are coming in, but values are not yet established.

CORDWOOD.—There is no change to announce with reference to cordwood, the demand for which continues quiet and not more than an average. Prices for good long wood delivered ex-yard are as follows:—Maple, 57; birch, \$6.50.

Churches, CONVENTS, SCHOOLS, CHAPELS, Decorated with BIJOU Stained Glass, Manufactured by W. N. SEARS & CO., 139 Church Street, 3 TORONTO. Makes a Window Look equal to the finest Real Stained Material. SEND FOR CIRCULARS. Send sketch of Window with full sizes for estimate. P. S.—W. N. SEARS has no connection with any other firm in Toronto.

beech, \$6; tamarack, \$5.50; and soft wood \$5. Wharf rates 50c less, cartage extra.

CHEESE MARKETS.—Six hundred and fifty boxes cheese sold at Utica, N. Y., yesterday at 8c, 600 at 8 1/2c, 1,200 at 8 1/2c, 1,300 at 8 1/2c, 370 at 8 1/2c, 840 at 8 1/2c, 300 at 8 1/2c, 1,450 consigned; market was active.

CHEESE SALES AT LITTLE FALLS YESTERDAY WERE 50 boxes at 7 1/2c, 52 at 7 1/2c, 5,013 at 8c, 2,873 at 8 1/2c, and 46 at 8 1/2c.

THE CATTLE MARKETS.—Receipts of live stock at Point St. Charles since Thursday were heavy, aggregating 186 car loads. Of these 134 cars, or about 2,412 head, were export cattle, 40 cars butchers and 9 cars sheep. The export movement has also been larger, reaching 2,288 head last week. The total number of cattle shipped to date is now 18,225 head, against 22,035 during the same period in 1883. The export would be larger were it not for the scarcity of freight. The market for shipping cattle at Auer & Kennedy's yards yesterday was more animated, owing to the heavier receipts, most of which, however, are held awaiting shipment. A moderate business was done at steady prices, general sales being made at 5 1/2c to 6 1/2c, which latter is about the best price obtainable. Last year at this date the range of values was from 6c to 7c per lb. live weight. Freights are quoted at \$2 10c to \$3. Receipts of sheep are beginning to increase, and the season may now be considered to have fairly opened. Prices are on a low basis, and no immediate improvement is looked for.

We hear of the sale of a choice lot for export at 4 1/2c per lb. live weight, and quote prices at 4 1/2c to 4 3/4c. Live hogs were in fair demand and steady at 6c to 6 1/2c per lb. At Viger market over 200 head of butchers' cattle were received. A few head of extra choice sold at 5 1/2c, but the general range was from 4c to 5c, inferior selling down to 3c. About 600 sheep and lambs were offered, the demand for which was good. Sheep brought from \$5 to \$8 each, as to quality and lambs \$2 to \$4.50 each. Calves were in light supply, about 60 head, and were of poor quality. Sales were made at from \$2 up to \$8 each.

MARRIED.—HOLLAND-ROGERS.—At St. Joseph's Church, on Tuesday, 1st inst., by the Reverend Martin Callaghan, of St. Patrick's, John E. Holland to Catherine Ann Rogers, of Montreal. 2-2
