It is the Enforcement of the Law That Will Produce Results Mere Passage of Act Only Cover for Inroads on the People

VICTORY FOR GOVERNMENT IN WAR WITH THE VATICAN PARISHES OBEY LAW

Net Result Will Be That Taking
 Over of Episcopal Buildings
 Will Occur Immediately Instead
 of in December, 1907.

Paris, Dec. 13.—To-day has been marked by the total absence of any sensational incidents in connection with the execution of the law of separation.

The parish priests everywhere celebrated mass in the presence of unusually large congregations, but the actions of the authorities were confined to noting infractions of the law.

Everywhere legal notices have been served for the evacuation of the ecclesiastical buildings. Several of these buildings were abandoned without further ado, but a majority of the prelates, while fully prepared to go, announced that they would not depart except under duress.

In many parishes laymen came forward to-day and spontaneously filed declarations for the holding of services in the designated churches during the coming year. If this practice is generally followed it will be a distinct victory for the government.

In the meantime the cabinet is preparing measures to be introduced before parliament to-morrow.

The net result of the uncompromising attitude assumed by the Vatican in this conflict with the French Government seems to be the clergy will lose their pensions that are stipulated by the concordat, and that the taking over of the episcopal buildings by the state department and the communes will occur immediately instead of in December, 1907.

BAGGAGE SMASHER O'HAYS (who has been severely butted): "All I ask is the handlin' of that gawd."

CRIMINAL TO SELL RAILWAY TICKET W. F. MACLEAN MOVES TO REPEAL STATUTE BILL PASSES ITS SECOND READING

Ottawa, Dec. 13.—(Special).—R. L. Borden has given notice that on Monday next he will move:

"That it is expedient that the board of railway commissioners for Canada enquire, determine and report, with the least possible delay, whether or not the tolls charged in standard passenger tariffs should be reduced so as not to exceed two cents per mile upon all or any of the railways in Canada.

"That the government, under the provisions of the Railway Act, and especially the 24th section thereof, should forthwith take such steps as are necessary for this purpose."

Telling Arraignment of the Minister of Justice for Failing to Enforce Railway Act—Mr. Emmerson Makes Very Little Effort to Defend Provision Which Prevents the Sale of Unused Portion of Ticket.

TWO CENTS A MILE. TO PREVENT LABOR WARS HON. MR. LEMIEUX HAS BILL

Report of Deputy Minister of Labor Foreshadows Legislation to Refer Disputes to a Board of Arbitration

Ottawa, Dec. 13.—(Special).—The formal notice which was posted to-night that Hon. Mr. Lemieux on Monday next will introduce a bill entitled, "An act to aid in the prevention and settlement of strikes, and lockouts in coal mines," lends additional interest to the report of Deputy Minister Maclean's 'Kink' which closes with the following significant paragraphs which no doubt foreshadow legislation.

"The purpose of parliament in enacting both the constitution and the railway labor disputes act, it seems to me, be considerably furthered were an act, applicable to strikes and lockouts in coal mines, similar in some of its features to the railway Labor Disputes Act, also enacted.

"Inasmuch as coal is in this country one of the most important industries, but also as the recent experience has shown, much of the coal and life itself depends, it would appear that if legislation can be devised which, without encroaching upon the recognized rights of employers and employees, will at the same time protect the public, the senate would be justified in enacting any measure which would make a strike or lockout in a coal mine a thing of the past.

"Such an end, it would appear, might be achieved, at least in part, were provision made whereby, as in the case of the Railway Labor Disputes Act, all questions in dispute might be referred to a board empowered to conduct an investigation under oath with the additional feature, perhaps, that such reference should not be optional, but obligatory, and pending the investigation and until the board has issued its findings, the parties be restrained on pain of penalty from declaring a lockout or strike."

WHY ARE THE RAILWAYS ENTITLED TO SPECIAL FAVOR

Ottawa, Dec. 13.—(Special).—Hon. A. B. Aylesworth, minister of justice, and ex-officio attorney-general of Canada, might have learned something of his duties under the law this afternoon had he not retreated to the cyclone cellar until W. F. Maclean (South York) concluded a strong arraignment of the Laurier government for its failure to enforce the Railway Act.

Towards 6 o'clock the minister re-entered the chamber and became very busy consulting the revised statutes in conference with the good-natured minister of railways and canals, who had borne the heat and burden of the day.

"Where is the attorney-general?" demanded Mr. Maclean. "I am sorry he is not here. By the way, does he come here at all?"

Mr. Emmerson: He is here when you are absent. Haven't you been away?"

Mr. Maclean: I am here when my bills are called.

Mr. Emmerson: Yes, on Mondays and Wednesdays.

Mr. Maclean: Where were you the first two weeks of the session, or can you remember? (Laughter.)

But no one made any effort to produce the attorney-general, and the debate broke up.

Legalize Ticket Selling.

The debate sprung up upon Mr. Maclean's motion for the second reading of his bill to repeal the statute making it a crime for any one to sell except to a railway company a railroad passenger ticket, or any unused portion thereof. To justify the continuance of this statute upon the statute book, as Mr. Maclean pointed out, requires some proof that railway companies are entitled to special favors not extended to bakers, dairymen, hotelkeepers, theatre owners and others who get money in advance for a consideration, to be furnished by the exchange of tickets or tokens for money.

It was, therefore, he argued, entirely competent to examine into the conduct of the great railroad corporations. It was notorious that they defied the law and oppressed the people. But the present government was 'supine and indifferent. In the U. S. there were numerous indictments and convictions registered by the department of justice. Could any man point to one corporate abuse corrected by Mr. Aylesworth?

Mr. Emmerson made little effort to defend the present statute, his only proposition being that round trip tickets were not sold by railways in the United States, a statement that was greeted on both sides by shouts of laughter.

Leighton McCarthy, who automatically rises to his feet when the G. E. R. is in danger, attempted to defend the railways and their extortion. Dr. Sproule (East Grey), who spoke

ROOSEVELT REVOKES ORDER ADOPTING SHORT SPELLING

House of Representatives Goes on Record and President Bows to Its Will.

Washington, Dec. 13.—President Roosevelt will withdraw his simplified spelling order to the public printer, and hereafter all documents from the executive department will again be printed in the old-fashioned style.

Representative Landis conferred to-day with the president, and the latter said that he did not wish to have his order for the new spelling in case the house of representatives went on record as opposed to the system.

Accordingly, late to-day Mr. Landis introduced a resolution by which he adhered to the old style, and the motion was adopted without dissent.

PROTECTION FOR PUBLIC IS SOUGHT HOLDING DIRECTORS RESPONSIBLE FOR ALL STATEMENTS IN NEW ACT REGULATING COMPANIES

Radical Changes Noted in Draft Bill Which is Submitted for General Approval and Criticism—Companies Desiring to Operate Public Utilities Must Lay Plans Before Municipal Board.

"WILD-CATting" PREVENTED WINDING-UP MADE SIMPLER

In the draft bill consolidating and amending the Ontario Companies Act, which was issued by the provincial secretary's department last night, and which is to be introduced at the next session of the legislature, among many radical changes it is clear that the simplification of legal process and the corresponding advantage of the public has been kept well in view. Several distinct steps in the direction of public control are also notable.

Copies of the bill are being distributed for comment, and the fullest and widest criticism is invited. This is a distinct innovation.

The bill is in such a shape that comment and criticism are more easy than usual. Notes showing the changes, and the object of many sections, are printed with the bill. There are references to many cases decided in the courts, in which sections of the act are construed. There is also added an index and a table showing what has become of each section of the existing statutes.

In some respects the changes wrought by this bill are not very great, and in other respects they are sweeping. The dividing of the act into sixteen parts, each relating to a distinct branch of company law, is important, and will be of assistance to anyone perusing the bill.

The bill provides for the incorporation not only of joint stock companies, but of corporations not having capital divided into shares. This will include the incorporation of many companies which had formerly to go to the legislature for private bills. It will also make a uniform system of incorporation for all corporations.

Acts Swept Away.

Under the present law, joint stock companies are incorporated under the Ontario Companies Act by the machinery of the provincial secretary's department; the provincial and benevolent societies are incorporated after a reference to the county judge by filing papers with the clerk of the peace; but

NOVELTIES IN THE DRAFT BILL.

The bill to be introduced next session embodies part of the consolidation and amendment of the Ontario Statutes now in course of revision. It is open to the fullest discussion and comment.

Very full returns are required to be made at annual meetings placing the whole affairs of companies in possession of shareholders.

The provisions of the Imperial Companies Act relating to share warrants are adopted. Share warrants entitle their holders to the shares specified in them, and the shares may not be transferred by the delivery of the warrant. They are in general use in Europe.

Directors formerly exempted from liability for error in statements are now made liable for all statements in their prospectuses. A two-thirds vote will be needed in future to vote themselves payment.

The Hoyle Act of last session is incorporated in the draft without change.

A fixed minimum share subscription to be fixed by the directors is insisted upon, so that companies may not be floated upon inadequate capital, and thus foredoomed to failure. No allotment of share capital will be permitted until this is complied with.

Corporation accounts must be examined annually, and if auditors be not appointed the provincial secretary may appoint them.

Companies seeking to operate public utilities are more fully subjected to public control. Many acts dealing with public franchises are consolidated and special provisions are relegated to other acts, as in the Cemeteries Act, where provisions applying to cemeteries only and not to other property are added to the Public Health Act, so as to apply to all cemeteries and not merely incorporated ones.

Any company desiring an act to operate a public utility of any kind, or any municipality submitting a by-law in such connection, must lay the whole scheme before the municipal board for approval. The winding-up act is superseded by sections providing for the economical and voluntary winding up of any company. This will be under the high court, which also administers the Dominion act. Should any unfairness appear, an interested person may apply to the high court for an order. No suit or action can be brought against a corporation after the winding-up proceedings have been instituted.

All companies must be incorporated in the provincial secretary's office, except that railways are excluded and insurance and loan corporations within the meaning of the Loan Corporations Act.

All companies must make returns to the provincial secretary's office, and these returns will be much more extensive than heretofore.

Benevolent societies holding real estate will be relieved of some difficulties.

Four different kinds of expropriation proceedings under the old act are exchanged for the method pursued under the Railway Act.

The provincial secretary will be enabled to investigate the books of any public utility company, such as the Consumers' Gas Company, if required.

The government will probably include a section limiting the capital of companies, or in other words, restraining the watering of stock.

ALL TOWN WILL REQUIRE TO EXPEND IS \$12,000—BYLAW GOES TO RATEPAYERS.

Berlin, Dec. 13.—(Special).—The light commissioners now feel satisfied that electric energy from Niagara can be taken by Berlin and be a benefit to the users of electricity.

As agreed by the hydro-electric power commission, two expert engineers in the employ of the commission were sent here to examine the municipal plant and study light and power conditions, and to confer with the commissioners on the question of bringing in Niagara power.

Engineer Phillips of the local plant reported the result of the conference to a joint committee of the light, water, gas and city council, who will recommend to council to submit a by-law to the ratepayers at the next municipal election.

It has been found that the town will not require to issue any debentures or expend any money for the bringing in of the power. The cost of power, which will be from \$18 to \$28, according to small output, and which includes all costs and charges that the present will require to expend, would be a sum not exceeding \$12,000 for distributing the power to customers. It will be so arranged that the present plant and the utilized power from Niagara can be used after Niagara power is here would need to purchase 25-cycle motors to conform to the present plant as it is received, and the amount of power required by the government only for one-tenth of the amount of power it asks for.

Summed up, the light commissioners on the subject shows that Berlin can obtain Niagara power for a comparatively small output, say \$12,000; that it can get it within two years; that its common will save the municipality the necessity of expending \$100,000 more on the plant to meet future needs; that the present plant can be retained and utilized under Niagara power, with an effected saving of one-third in present operating expenses; that the commission will sell this power and meet its debenture payments out of the power, which can be sold to present steam users at \$29 per horsepower and at a profit to the town.

CARNEGIE BELIEVES STATE SHOULD PROFIT FROM RICH

Declares That at Death Major Portion of Large Estates Should Be Confiscated.

New York, Dec. 13.—Andrew Carnegie, in an address before the National Civic Federation, to-day said he believed that the major portion of the estates of enormously wealthy men should go to the state upon the death of the possessor of the fortune.

"COLOR LINE" WAS ILLEGAL.

Granite Roller Rink Management Had No Right to Bar Negro.

Judge Morson yesterday decided that the "color line" cannot be always drawn in Canada without incurring liability for damages. Recently the proprietor of the Granite roller skating rink refused admission to a son of A. P. Taylor of Francis-street, after having been sold a ticket.

"The rink people have a perfect right to refuse to sell a ticket to anybody—colored or otherwise—if they so desire," said the judge. "But once a ticket has been sold to any person they are bound to admit them."

COMMISSION WILL GO.

Evidence in McGill Case to Be Taken in New York.

Judge Winchester yesterday granted the commission to New York to procure evidence to strengthen the crown's case in the charge against Chas. McGill of theft of \$1,000,000, the last one preferred.

George Angus will be the commissioner, and Mr. McKay will represent McGill, and Edward Bayley the crown. They will leave Dec. 15.

"There is no shadow of foundation for the report that the former directors of the Ontario Bank will effect any compromise with the shareholders. They have nothing to compromise. It has never been considered for a moment, and will not be."

MOTHER OF FAMOUS SONS ONE HUNDRED YEARS OLD

Centenary of Mrs. Featherstone Osler Will Be Duly Honored To-Day.

The housekeeper and the other young lady who answered the door at Mrs. Osler's house, 33 Wellesley-street, last night, stated politely that the estimable lady who became a certain to-day, was "perfectly well."

There are thousands of people who are Canadians and are glad that the old lady who today celebrates her hundredth year, has not been a part of the teachings of her distinguished son, and the news that Mrs. Osler is "perfectly well," will be greeted with great satisfaction by all who are immediately concerned, and many who are not, but who love the lady, who brought such eminent sons into the world and has happily lived to see their greatness.

To-day the famous family will gather to celebrate the centenary. Great preparations have been made, and it is understood a hundred candles will sparkle around the big birthday cake, each to represent a year of her life. The name of Osler has always been considered great for nearly all of the last century in Canada.

To the estimable lady, a prominent member of the family pays this beautiful tribute on behalf of children and grandchildren.

To each and all of them she has been all of their lives a centre and an influence for good. To see her and with her to receive peace, calm and strength into one's own being. Never stirred or excited, she lives as she will die, waiting God's time.

She was born in Cornwall, in the reign of George III. Her husband, Rev. Featherstone Osler, the pioneer missionary of the Church of England in Western Canada, was sent in 1833 by the Society for the Propagation of the Gospel, Mr. Osler resided in 1838, and came to Toronto, where he lived till 1855.

Mrs. Osler was an industrious member of the domestic auxiliary, and is still in perfect health, and in possession of all her faculties. She follows with interest the lives of her numerous descendants. Last August some of the visiting members of the British Medical Association met her, and were surprised at her tenacious gift of reports.

Mrs. Osler's sons and daughters are: Hon. Justice Featherstone Osler of the court of appeal; The late B. B. Osler, Edmund B. Osler, M.P., Edward Osler, M.P., Dr. William Osler, regius professor of medicine at Oxford.

Mrs. William (deceased). The late Mrs. H. C. Gwynne of Dundas. The grandchildren number 28, and are scattered thru Canada, England and the United States. Those in Toronto are: Henry S. Osler, K.C.; Britton Osler, F. G. Osler, Mrs. F. W. G. Fitzgerald, Mrs. W. M. McInnes, and Miss Mary Osler.

The birthday cake, adorned with its five score red and white candles, is in five layers. The decorations are in red and white traceries on the white lace ground. The top four layers are round, and the bottom is square. On the front of the top layer are the words, "E. P. Osler, Dec. 14, 1806; George H. Rex." There are designs of an old-fashioned coach, a cradle and an antique four-poster. The second layer bears the words "1830, George IV. Rex," with designs of a church, an antique chair, and an old-fashioned house. The fourth layer has the words "1837, Victoria Regina." The designs are a log cabin, a ship under full sail and a man-of-war. The last layer bears the words "1901, Edward VII. Rex, Dec. 14, 1906." The designs are an automobile, a gasoline launch, and a bicycle.

The mayor has sent a letter to Mrs. Osler, congratulating her on the occasion of reaching her 100th birthday. Many other congratulations have been received from official and private sources, including one from the Woman's Canadian Historical Society. To their congratulations the World would add its own.

WILL AMERICA INTERFERE IN THE FRENCH CRISIS?

Cardinal Gibbons Says He Will Be Disappointed Otherwise.

Baltimore, Dec. 13.—The American public does not understand the present crisis in France, said Cardinal Gibbons, when asked this evening for his opinion on the French situation. He continued: "If I believed that my countrymen would knowingly see a great and beneficent organization unjustly deprived of its property and the means of continued usefulness, would knowingly see tens of thousands of men and women who happen to be priests and nuns, and who are innocent of any crime, but that of loving God and serving—I say, if my countrymen can see and recognize all this injustice and tyranny and cruelty, and refuse genuine sympathy to those who suffer by their inaction, then I will leave life without that faith in American love of justice and liberty and humanity which has been my comfort and hope and support, during a long career."

"But the American people have not had those things put fairly before them. Our own press has to a considerable extent been the reflex of the Parisian anti-clerical press. I am weighing my words and I say with deliberate conviction that the leaders of the present French government are actuated by nothing less than hatred of religion. We have no split skin to theirs in this country. We have here much indifference to religion, but we have no body of men, no great power that makes it a chief aim to weaken the power of religion, and if possible to utterly destroy it out of the land."

SALARY GRAB IN U. S.

Washington, Dec. 13.—The house agreed to-day to vote on the resolution increasing the salaries of senators and representatives to \$7,500, vice-president and speaker to \$15,000, cabinet officers \$12,000, and making other increases.

Gentry of Massachusetts.

Ottawa, Dec. 13.—Napoleon Roy, on trial at Hull on a charge of murdering Arthur Richard, by stabbing him in a drunken row, was found guilty of manslaughter, the jury recommending him to mercy.

Dec. 16

DISCUSSED TWO REPORTS BUT ADOPTED NEITHER

Proceedings of the Church Union Committee—Next Conference in September.

The joint committee on church union yesterday discussed the reports on policy and the military, but neither was adopted as either revisions were considered necessary, objections being taken to the wording of clauses. Only two clauses were not thought to be sufficiently definite, as it was felt that when the government comes to take the matter up they will want a clear understanding of what the proposals are. The military committee occupied many hours of discussion, the important clause being that relating to the important of the sub-committee sought to combine the system of pastoral itinerancy with that of a regular pastor. Another phase of the report was to have a pastor continue as long as possible as the minister, and to demand a training course of the ministers, and the decision reached was a minimum of three years' study in arts and three years in theology.

The morning session was largely given up to correspondence from the Anglican and Baptist churches, stating their attitude on the question of union with the three denominations now discussing it. The report provided for the appointment of representatives of these two churches. The correspondence from the Baptists and the church in the east does not think at all favorably of an organic union with the Anglican union. The Baptists further proposed to consider what steps might be taken.

If the union is effected with the Church of England, four other denominations, that is, that the Bible is the sole rule of faith; the Apostles and the Nicene Creed; the sacraments must precede the other sacraments, and that the historical continuity of the church cannot be broken.

It was decided last night to hold the next conference on the subject in December was very inconvenient to many of the members.

ENGLAND'S DANGER.

To Vell Real Interference to Colonial Affairs Means Disruption. (Canadian Associated Press Cable.) London, Dec. 13.—"Tariff reform," writes The Times regarding the danger of reciprocity between Canada and the States as a result of British indifference, and The Times editorially asks: "Can we afford to let economic theories, true or false, stand in the way of a measure which would safeguard the empire against the dangers of absorption of Canada into the United States? If the government's attitude in approaching colonial conference is merely one of polite reserve and profuse hospitality, yielding no advance in the Canada and her sister states will inevitably come to the conclusion that England is incapable, and the empire, political or economic, will turn its attention elsewhere."

NOT ALL OF IT.

(Canadian Associated Press Cable.) London, Dec. 13.—In the house of commons Winston Churchill, in reply to F. E. Smith, says the recently published paper containing the correspondence of the Newfoundland fisheries was a complete record of all that passed between the three governments to date on the subject, but did not set out the whole correspondence.

REICHTAG DISSOLVED.

Berlin, Dec. 13.—Emperor William ordered the reichstag to-day and dissolved new elections in consequence of the government's defeat by 178 to 168 votes on the bill authorizing what the ministry contends is a inadequate number of troops to end the insurrection in German Southwest Africa, and hold the colony against a recurrence of rebellion.

U. S. BIGGEST BATTLESHIP.

Washington, Dec. 13.—Congress received today from Secretary of the Navy Bonaparte the plans for the big battleship provided for at the last session. The plans embodied many novel features, the broadside fire being 25 per cent. greater than that of any other battleship now built or building, and the percentage of weight of hull and armor exceeding by 3000 tons the largest battleship yet built. She is to be 510 feet long.

BRUCE WILL GET IT.

London, Dec. 13.—The revival of the use of James Bruce's name in connection with the appointment of ambassador at Washington to succeed Sir Mortimer Durand, meets with much more general credence than it has in the past. The name is not lacking indications, even in official utterances, that the author of "The American Commonwealth" may be the ultimate selection of the embassy.

BISHOP M'CALL IMPROVES.

New York, Dec. 13.—The condition of Bishop C. C. M'Call of the Methodist Episcopal Church, who is in the New York hospital, suffering from stroke of apoplexy, was reported to-day to be slightly improved.

BISHOP M'CALL IMPROVES.

New York, Dec. 13.—The condition of Bishop C. C. M'Call of the Methodist Episcopal Church, who is in the New York hospital, suffering from stroke of apoplexy, was reported to-day to be slightly improved.

goods are cheaper than they are at home, where imported diamonds have to pay a duty of 10 per cent. Another, and a very strong, argument against the imposition of a duty upon diamonds is that it will no doubt cause a great many of these precious stones to be smuggled into the country. They are the most valuable article for their bulk that can be imported, and we should be surprised to find a customs report a year from now does not show a considerable decrease in their importation, for this reason.

The revision of the tariff in regard to watch movements is not so satisfactory as that of jewelry, the duty upon watch movements (unadjusted) having been raised from 10 per cent. to 15 per cent. ad valorem. Watch movements are not made in Canada, and are not likely to be made here for some years to come. Under these circumstances, these being no home commodities, the consumer will undoubtedly have to pay the entire duty levied by the government. It is also feared that the public will have to pay 5 per cent. more for their watch movements than they would have paid had the rate in duty, which would mean a considerable amount of smuggling, in these watch movements, been raised up to 1887, the duty on watch movements was 20 per cent. In 1888 it was lowered to 10 per cent. In 1890 it was raised to 15 per cent. In 1892 it was raised to 20 per cent. In 1894 it was raised to 25 per cent. In 1896 it was raised to 30 per cent. In 1898 it was raised to 35 per cent. In 1900 it was raised to 40 per cent. In 1902 it was raised to 45 per cent. In 1904 it was raised to 50 per cent. In 1906 it was raised to 55 per cent.

The revision of the tariff in regard to watch movements is not so satisfactory as that of jewelry, the duty upon watch movements (unadjusted) having been raised from 10 per cent. to 15 per cent. ad valorem. Watch movements are not made in Canada, and are not likely to be made here for some years to come. Under these circumstances, these being no home commodities, the consumer will undoubtedly have to pay the entire duty levied by the government. It is also feared that the public will have to pay 5 per cent. more for their watch movements than they would have paid had the rate in duty, which would mean a considerable amount of smuggling, in these watch movements, been raised up to 1887, the duty on watch movements was 20 per cent. In 1888 it was lowered to 10 per cent. In 1890 it was raised to 15 per cent. In 1892 it was raised to 20 per cent. In 1894 it was raised to 25 per cent. In 1896 it was raised to 30 per cent. In 1898 it was raised to 35 per cent. In 1900 it was raised to 40 per cent. In 1902 it was raised to 45 per cent. In 1904 it was raised to 50 per cent. In 1906 it was raised to 55 per cent.

The revision of the tariff in regard to watch movements is not so satisfactory as that of jewelry, the duty upon watch movements (unadjusted) having been raised from 10 per cent. to 15 per cent. ad valorem. Watch movements are not made in Canada, and are not likely to be made here for some years to come. TEMPERATURE

The rural people are not in a hurry to get out of the city. The neighborhood when we come to the city is a relief.

It is in the end and results of our country's progress that we should be living in all the cities of the world.

The discussion of the value of the property in the city is a very important one.

But why should the value of the property in the city be so high?

It is up to the government to provide a solution for the problem.

It is up to the government to provide a solution for the problem.

It is up to the government to provide a solution for the problem.

It is up to the government to provide a solution for the problem.

Saturday Savings

Every Up-to-date Kitchen

is fitted up with a new enamel sink. It is not only a reason for you to come and see what we can do for you, but it is a reason for you to come and see what we can do for you.

if you do not use our new method of burning. It is a new thing, a new idea, a new method of burning.

Touch up Your Picture Frames

with our new method of painting. It is a new thing, a new idea, a new method of painting.

A Wonderful Cleaning Material

is a new thing, a new idea, a new method of cleaning. It is a new thing, a new idea, a new method of cleaning.

LEVEL CROSSING VICTIM

Belleville, Dec. 13.—(Special).—The deadly level crossing has claimed another victim in this city, the fourth in the last three years. The latest victim is an old lady named Mrs. Conroy, who about 5 o'clock this evening, while walking along the G.T.R. tracks near the Geddes-street crossing, was struck by a passenger train. A pilot engine, which was backing down the track, struck the old woman, killing her instantly.

BLOWN TO ATOMS

Campbellton, N.B., Dec. 13.—Joseph Levesque, 46 years old, foreman of the International Brotherhood of Bricklayers, was blown to atoms while examining a mine that hung fire.

CEMENT WORKS BURN

Rondout, N. Y., Dec. 13.—The plant of the New York Cement Co. was destroyed by fire to-day. The loss is estimated at \$200,000. As a result of the fire 200 men are out of work.

EARL SHANNON DEAD

London, Dec. 13.—(C. A. P.)—Earl Shannon died suddenly at Monmouth, Cardiganhire.

Canadian Club

The guest of the Canadian Club at the luncheon on Monday next will be Hon. Henry B. MacFarland, chairman of the board of commissioners of the City of Washington, D.C. As there is considerable interest in this city at the present time in the question of municipal government by commission, the executive committee has prevailed on Hon. Mr. MacFarland to come to Toronto to address the club on "The Capital of the United States."

Hotel Burned

St. Agathe, Que., Dec. 13.—The Hotel Belmont was totally destroyed by fire last night. Fire broke out in the upper story at 10.50 p.m. The fire brigade did good service, but had to use all its power to prevent fire spreading to neighboring properties. Loss about \$3000; insurance \$6000.

CHILD BURNED TO DEATH

Yorkton, Sask., Dec. 13.—The 2-year old son of Ed. Walls was standing before an alight heater when his clothes were drawn into the stove and he was burned to death. The child died before medical assistance could be procured.

CHARGE A MISTAKE.

Chief Engineer at O.E.B. Clears Himself of Partisanship.

Brantford, Dec. 13.—(Special).—Chief Engineer Wilson of the Blind Institute, charged with partisanship, submitted his defence yesterday morning. He made a complete denial of any partisan acts, outlined in the charge, which arose out of the testimony of Percy Davies, a Liberal worker. Davies again took the stand and corrected the misapprehension which had arisen, substantiating the evidence of Wilson.

At the afternoon session Walter Radcliffe, a former blind pupil, gave evidence contradicting many statements made by Truss, who lays the charge against Principal Gardner. The evidence of several teachers who were charged by pupils with wrong usage was also taken. The enquiry was adjourned until Dec. 26.

TAKING CARE OF IMMIGRANTS

Changes That Will Be Made to the Local Reception House.

Architect's estimates are about complete for the requisite alterations in the new government immigration lodging house at Peter and Wellington-streets. The most modern plans have been adopted and heating arrangements are being extended to the top-floor, which practically makes it necessary, it has been decided, to permit openings in the premises, as meals can be arranged for on cheap and satisfactory terms with restaurants in the vicinity. There is a good basement where conveniences for washing clothes will be installed. When complete there will be sufficient to lodge 200 or 250 persons. A record influx of immigrants is expected next season, and the new lodging house will be an admirable stepping stone between the old homes and the new.

LUMBER TRUST NEXT.

E. S. Investigators Will Find Out Why Prices Are So High.

Washington, Dec. 13.—The house today adopted a resolution of Mr. Miller of ansas, authorizing the secretary of commerce and labor to investigate the causes of the high prices of lumber in the various stages of manufacture and to ascertain whether or not the present prices are the result of a trust.

Town of North Toronto

NO. 318

A BY-LAW

To provide for the extension of the system of arc lighting and the instalment of a system of incandescent lighting in the town of North Toronto, by the alteration of the by-law of the Corporation of the Town of North Toronto, and to provide for the issue of Debentures to the amount of \$100,000 to meet the cost thereof and incidental thereto.

Whereas the Municipal Council of the Corporation of the Town of North Toronto deem it advisable and in the interests of the said town to extend the system of arc lighting and to install a system of incandescent lighting should be installed and erected upon and along the streets of the said town for the purpose of a Fire Alarm System;

And whereas it is estimated that the sum of \$100,000 will be required for the said purpose, and it is desirable that the said sum should be raised on the credit of the said town;

And whereas, in order thereto it will be necessary to issue Debentures of the Town of North Toronto for the sum of the amount of the debt intended to be created by this by-law, the proceeds of the said Debentures to be applied to the said purpose and no other;

And whereas the total amount required by the Municipal Act, 1905, to be raised annually by special rate for paying said Debentures is the sum of \$708.78 for each year, during the currency of the said Debentures;

And whereas the total amount of the said Debentures to be issued under the authority of this by-law, in addition to all other Debentures, shall be raised and collected annually by special rates on the rateable property in the said Town of North Toronto, the sum of \$708.78 for the purpose of paying the amount due on the said Debentures for principal and interest in respect of the said Debentures as shown in Schedule "A" hereto annexed, and that the said Debentures shall be payable to the order of the Treasurer of the said Town of North Toronto;

That the Debentures to be issued under the authority of this by-law, in addition to all other Debentures, shall be raised and collected annually by special rates on the rateable property in the said Town of North Toronto, the sum of \$708.78 for the purpose of paying the amount due on the said Debentures for principal and interest in respect of the said Debentures as shown in Schedule "A" hereto annexed, and that the said Debentures shall be payable to the order of the Treasurer of the said Town of North Toronto;

PROPOSED BY-LAW

To provide for the issue of "City of Toronto General Consolidated Loan Debentures" to the amount of \$3,000,000 to defray the cost of main intercepting sewers.

Whereas in the opinion of this Council it is desirable that the sewage of the City should be prevented from flowing into the waters of Toronto Bay, Ashbridge's Bay, and the lake in the immediate vicinity of the City and that a system of sewage disposal should be adopted for that purpose;

And whereas the mode of dealing with the sewage after it has been conveyed from the City to a point east thereof has not yet been approved by the proper authorities, but in order that time may be lost while the mode of dealing with the sewage is under consideration, it is desirable that the construction of main intercepting sewers should be commenced as soon as possible, the said intercepting sewers being necessary wherever mode of dealing with the sewage may be hereafter approved and adopted;

And whereas the estimated cost of such main intercepting sewers according to plans on file in the office of the City Engineer will be \$3,000,000; and it is desirable to raise by way of loan on the credit of the said City the said sum of \$3,000,000, to provide for the construction of the said sewers;

And whereas by an act passed by the Legislature of the Province of Ontario, in the 62nd year of the reign of Her late Majesty Queen Victoria, and chapter seventy-four, entitled "An Act respecting the Consolidation of the Debenture Debt of the City of Toronto," as amended by an act passed in the 63rd year of Her late Majesty Queen Victoria, it is amongst other things enacted that the Corporation of the City of Toronto may pass By-laws for authorizing the issue of Debentures of the said City to the amount of not exceeding in the whole the assessed value of the whole of the rateable property in the City up to the first one hundred millions of dollars, and not exceeding four per cent. per annum;

And whereas the amount of the whole rateable property in the Province of Ontario, according to the last revised Assessment rolls of the said City, being the first above recited act, is estimated at nine hundred and six, is being, 708; and

That the Corporation of the City of Toronto may pass By-laws for authorizing the issue of Debentures of the said City to the amount of not exceeding in the whole the assessed value of the whole of the rateable property in the City up to the first one hundred millions of dollars, and not exceeding four per cent. per annum;

And whereas the amount of the whole rateable property in the Province of Ontario, according to the last revised Assessment rolls of the said City, being the first above recited act, is estimated at nine hundred and six, is being, 708; and

That the Corporation of the City of Toronto may pass By-laws for authorizing the issue of Debentures of the said City to the amount of not exceeding in the whole the assessed value of the whole of the rateable property in the City up to the first one hundred millions of dollars, and not exceeding four per cent. per annum;

And whereas the amount of the whole rateable property in the Province of Ontario, according to the last revised Assessment rolls of the said City, being the first above recited act, is estimated at nine hundred and six, is being, 708; and

That the Corporation of the City of Toronto may pass By-laws for authorizing the issue of Debentures of the said City to the amount of not exceeding in the whole the assessed value of the whole of the rateable property in the City up to the first one hundred millions of dollars, and not exceeding four per cent. per annum;

And whereas the amount of the whole rateable property in the Province of Ontario, according to the last revised Assessment rolls of the said City, being the first above recited act, is estimated at nine hundred and six, is being, 708; and

That the Corporation of the City of Toronto may pass By-laws for authorizing the issue of Debentures of the said City to the amount of not exceeding in the whole the assessed value of the whole of the rateable property in the City up to the first one hundred millions of dollars, and not exceeding four per cent. per annum;

DISTURBANCES IN HUNAN.

Rebels Well Armed and in Large Force Moving Forward.

New York, Dec. 13.—A despatch to The Times from Hankow says official telegrams from Chang Sha indicate that the distribution in Hunan Province are becoming increasingly serious. The rebels, whose object is anti-

Freight Thru Lake Champlain.

Burlington, Vt., Dec. 13.—More towing power is needed on Lake Champlain, according to merchants interested in the lake's commerce. This year witnessed the first shipment of ice from the lake on the canal, since the great season of 1890. There was shipped from Ticonderoga, by way of the Champlain Canal, 25,715,300 pounds of ice for New York City. For one shipment suffered this year owing to the scarcity of boats. Coal shipments thru the canal have been falling off each year, the bulk of this product, which is consigned to ports in Canada, New York and Vermont, being largely diverted thru Oswego, Lake Ontario and the St. Lawrence.

Turf Association Guilty of Fraud.

New Orleans, Dec. 13.—A. G. Collins and J. P. Barrow of the "Co-operative Turf Association," were found guilty of using the mails to defraud. The association procured money from all parts of the country, on condition that on inside information on New Orleans races.

Take notice that the above is a true copy of a proposed By-law numbered 816, of the Corporation of the Town of North Toronto, being a By-law for the issue of Debentures to the amount of \$100,000, and that the said By-law was taken into consideration by the Municipal Council of the Corporation of the said town, and which will be finally passed by the said Council in the event of the assent of the electors being obtained thereto after one month from the first publication of the said By-law in the Toronto World a newspaper published in the City of Toronto, which first publication appeared on the 7th day of December, 1906, and that if the hour, day and place here fixed for taking the votes of the electors the polls will be held on Monday, the 18th day of January, 1907, at 10 o'clock in the forenoon and 5 o'clock in the afternoon.

A CLEVER PAIR OF THIEVES

Windsor, Dec. 13.—Evidence secured by Provincial Detective Mahoney in search of the men who stole \$1500 belonging to the Sovereign Bank from a Michigan Central train between Fletcherville and Chatham, indicates the pair went to Chatham after the robbery and remained a night, claiming they were inspectors. They visited several farmers and when they returned to Chatham the hunt by the police had ceased. Then they took the train to Detroit unobserved.

Instantly Killed.

Sturgeon Falls, Dec. 13.—About 9 o'clock this morning, at the Spryng Lumber Co's mill, Ivan Jonsson, foreman, was almost instantly killed. About 15 men were engaged in taking down a smoke stack when the pole gave way, striking the unfortunate man, killing him instantly. Jonsson came here from Buckingham three years ago. He leaves a wife and six children.
