STOCK MARKET COLLAPSE MAKES NEW 'LOW' MARKS

List Approaches Level of the March
"Panic"—Standard Oil Drops
25 Points on the Curb.

NEW YORK, Aug. 12.—Last week's
liquidation in the stock market was
resumed at the opening of business
today, and save for a few fitful rally-
es, was maintained throughout the ses-
sion. Securities came out in enormous
volumes for the first ten minutes, when
the situation was one of utter demoral-
ization. The greatest losses were
recorded by the Hill and Harriman
stocks, but many of the less-conspic-
uous issues were thrown over at severe
declines.

The break was checked before the
end of the first hour, but in the late
afternoon prices went still lower. New
low records were made by some issues
and the list as a whole was near the
low level made in the semi-panic of
last March.

Time money is becoming scarcer at
all the leading financial centres, and
this condition gives promise of be-
coming more acute here before the end
of the month, by which time crop
movement demands will have attained
their full proportions.

Other causes which contributed to
today's sensational declines were the
weakness of American securities in
London, persistent rumors of trouble
in Berlin, and the strike of the tele-
graphers.

The publication of a statement of
department of labor, which reflected
on Standard Oil in a well-justified
manner, and encouraged the shorts to
renew their attacks. Incidentally
Standard Oil stock made an
advance of 4 1/2 per cent.

Bonds declined 1 1/8 points. The
bond market was weak in sympathy
with the movement in stocks. Total
sales of bonds (par value) were \$2,
252,000.

Wheat Prices Break.
CHICAGO, Aug. 12.—Wheat prices
broke more than three cents a bushel
today because of security based
upon the spread of the telegraphers'
strike.

LOCAL STOCK MARKET
PRACTICALLY PARALYZED

The panicky conditions of the New
York Stock Market, which started
early last week, were continued with
greater virulence yesterday and at
times there seemed as tho there was
no bottom whatever to values. The
rallies were of very little consequence.
Even from the first early dip the sales
were precipitated throughout the day
almost regardless of values or cost.

At Toronto, the break had probably
less influence than has been the case
in this market for several years.
Speculators and investors have fought
valiantly since 1904, when they discovered
that the prices had little to do with the representa-
tion of the values of the properties.
There was more than the usual gather-
ing of interested individuals around
brokerage offices yesterday, and from
a casual glance of the crowd it would
seem that they were more interested
in watching the evolutions of the
stock prices than in anything else.

The down-fall of the Wall-street se-
curities had an undoubted influence
on the sentiment of the local market,
especially as it was felt that no mat-
ter what the semi-panic conditions
of New York portended, it must
ultimately find a place in commercial
conditions.

The local stock market was, as
usual on such occasions, practically
paralyzed; many stocks were un-
available because of the timidity of those
in the market who were not prepared
to take a broader view of things than
the present presented. In the discus-
sions in local financial circles it
was accepted that the abnormal low-
ering in the price of stocks must
broaden the reaction in general con-
ditions and a pessimistic attitude
in the immediate state of affairs
in Canadian financial and commercial
conditions.

Local brokers aver that it is im-
possible to secure loans from the finan-
cial institutions on stocks, no matter
of what character, at the present time,
and this has practically placed the
business on a cash basis.

STANDARD BEARERS.
Dourassa Followers Among Candi-
dates Announced.

MONTREAL, Aug. 12.—The following
candidates are announced for Dourassa
standard-bearers, and those who under-
stand the situation in these constitu-
encies say that most of them will lose
their deposits: Wilfrid Paquette,
Hochberg, Ernest Tremblay, Avocat,
Bogot, Joseph Rivaille, Avocat, Ver-
chères, O. Roudeau, Avocat, Richelieu,
St. Julien, Avocat, Vaudeville, Theo
Rheume, Avocat, Naperville; C. B.
Major, County Pontiac; Dr. John, Que-
bec; Enay, Jules Poirier, Journalist,
Soulange; M. Godbout, Lac St. Jean;
J. C. Bumbay, Avocat, Chateaugay.

WHAT STARTED IT.

Dating the convulsive move-
ments of the recent liquidation
from the reception of the
news of the Standard Oil fine,
there have been other and
equally important develop-
ments which have lessened
the belief of investors that
security in cheap or are
worth purchasing even at this
level. As each day passed un-
til Saturday last, there was
a series of statements issued
by an arm or quarter of the
government, or some hostile
group of state legislators,
which had the effect of para-
lyzing any desire or any in-
centive to buy stocks.

The results speak for them-
selves. The list of active
stocks shows declines ranging
from 10 to 15 points. In one
week Union Pacific declined
\$5 a share, while Great
Northern, Northern Pacific,
St. Paul, Reading and Smelt-
ers declined almost as much.

WE HAVE GONE FOR GOOD NOTE LEFT FOR HUBBY

Bruce County Woman and Daughter
Flit in Daylight With Black
Whiskered Man.

KINCARDINE, Aug. 12.—(Special).—
When James Shelton, a respectable
but close-fisted granger of Armow, six
miles from Kincardine, returned to his
house on Friday morning after being
out in the fields only half an hour
he found a note pinned to the table
cloth:

"We have gone for good."
Shelton's wife, Martha Ann, and his
daughter, Nora Ellen, had left the
house and farm, taking with them a
couple of grips packed with clothes.

Shelton reported the matter to the
police to-day, and asked that some-
thing be done to locate the runaway.
It was ascertained that Mrs. Shelton
and her daughter, who is 18 years of
age, fled on Friday afternoon for
Detroit, in the company of a man
who wore on the occasion a fine bunch
of black whiskers. Whether the
whiskers were faked is not known.
The man is supposed to be the fiancé
of the younger woman.

The father and his daughter were
well thought of by the neighbors, who
are unable to account for the elope-
ment, except to say that Shelton was
"tough-wad." They took no money
with them, except the proceeds from
the sale of a basket of butter and
eggs.

SAVED DROWNING MAN.

Dived Twice for Him in Muskokoda
Waters.

Well knowing that a protracted stay in
the water was dangerous, Norman Gen-
dron of Penetanguishene, formerly
owner of the King Edward Hotel grill
room of this city, saved the life of Harry
Harling at Sans Souci, Georgian Bay,
Sunday evening.

Harling, who is a waiter in the Yauka-
nuck Club at Sans Souci, was bathing,
when, in taking a dive, he failed to come
to the surface.

Someone ran shouting to Gendron, who
is head waiter at the club. He ran to
the wharf and, without even waiting to
remove his hat, dived for the drowning
man.

Under water he found him struggling,
and his frantic clasp closed about his
throat. Gendron, struggled and
at last freed himself.

Again he dived and found Harling un-
conscious, clinging to a rock at the
bottom. He had some difficulty in loos-
ing the grip.

He remained unconscious all the night
long, until medical aid was secured. Yester-
day he was taken on the steamer
Toronto to the Penetang-Midland Hos-
pital, where he was placed for treatment
by Dr. McPhedran.

SUES KINCARDINE TOWN.

J. B. Watson Claims All Land on
West Side Saugen-Street.

KINCARDINE, Aug. 12.—(Special).—
Mayor Temple was today served with
a writ issued on behalf of J. B. Wat-
son, against the town, for a declaration
presenting the question as to whether
the defendant is entitled as against
the west side of Saugen-street in the Wil-
liamsburg survey, and to establish his
title, and for unstated damages for
writfully entering upon his land and
for the destruction of fences. Watson
also asks for an injunction restraining
the defendant from leasing and occu-
pying certain lots which Watson claims
to be his.

The suit will be tried at the Decem-
ber session of the high court, before
Mr. Justice Mabee.

The action is taken because of the
statement that Mayor Temple has
decided to have an investigation into
the Baron Lepine charges, and then
call a session of the legislature.

OLD SOL'S GENEROSITY.
It seems reasonable that your straw
hat should be showing some of the
fruits of Old Sol's recent generosity with
his rays. The season was late this
year, and as it will likely continue,
don't forget that you can buy a straw
hat for half price now at Dineen's. An-
other special is the soft felt fedora,
regular price \$2.50 and \$3. for \$1.50—
telescope and tourist shapes. Corner

TROOPS SHOOT AND KILL TWO

Fatal Conflict at Belfast
Between Soldiers
and Riot-
ers.

BELFAST, Aug. 12.—Serious and fatal
disorders occurred here again this even-
ing. The troops fired into the crowd,
and a woman and a man were shot
dead and a number of others were seri-
ously wounded.

The conflict between the soldiers and
the rioters took place in the vicinity
of the constabulary barracks in the
Culling Tree-road. The trouble became
acute about 8 o'clock, when a mob of
men and women attacked a police in-
spector. Soldiers were at once sum-
moned to the scene, but they were met
by a hail of paving stones which re-
sulted in emptying some of the saddles.
The Riot Act was read, but the mad-
dened mob refused to disperse and
kept up a terrific fusillade of stones,
broken bottles and bricks against
the police and the military. Bayonet
and baton charges failed to rout the
frenzied rioters, and ultimately the
order to fire was given.

The number wounded from the rifle
fire and in the bayonet charges, and
otherwise injured, is very great, and
to-night the hospitals are overcrowded.

THREE MEN ARRESTED FOR ASSAULT ON DR. ROSE

Highwaymen Will Appear Before
Magistrate and Deliver to
County Authorities.

The detectives now have the three
men believed to be responsible for the
robbery and assault on Dr. D. A.
Rose on the Kingston-road.

The first man was arrested Sunday
night on College-street, where he was
found by tracing a messenger boy
whom he had sent to the doctor with
a demand for \$50 in return for the
promised return of his watch.

At No. 2 station he gave his name
as Thompson of San Francisco, but he
has been found to be John Blackwell,
No. 28 Ossington-avenue. His room
at his father's house there was search-
ed and the missing watch recovered.
On him was also found a stock cer-
tificate for 150 shares in the Gordon
Cobalt Silver Mining Co., a catseye
ring, a hypodermic syringe and a
watch chain, all taken from the doc-
tor's person.

Second Arrest.
The second arrest was made by De-
tectives Mackie and McMillan, who
gathered in Charles Oswald, a tailor,
who had secured a position with a
West Front-street wholesale house.
His address is 111 Euclid-avenue. The
trip led, leaving their victim un-
conscious in the roadway. They went
to Scarborough Beach and returned
in a King-street car, removing their
hats for fear of recognition.

Joel and Oswald have been out of
the city for three years. They have
been traveling together through Califor-
nia and the Yukon. Both come of re-
spectable Toronto families.

Neither the ruby ring nor the three-
stone diamond ring, valued at \$35,
which were taken from Dr. Rose, have
been recovered. The detectives learned
that the stones were taken from the
latter, and each of the men took
one of them. The one on Joel is
thought to have been lost in the ac-
tivity when he was arrested, and the
others to have been disposed of before
the men were arrested.

The trio will be arraigned in police
court this morning and may be hand-
ed over to the county authorities for
trial, as the crime was committed in
the county.

INVESTIGATE CHARGES.

Baron Lepine Business First, Then
the Legislature.

MONTREAL, Aug. 12.—The intimation
that there would be no Quebec pro-
vincial election this year was confirm-
ed today by a member of the legisla-
ture, close to the premier and one of
his strongest supporters. This gentle-
man states that it had not yet been
decided to have an investigation into
the Baron Lepine charges, and then
call a session of the legislature.

FLIES THE COOP.

Third Jailbird Inside Month Gets
Away From Kerr.

WHITBY, Aug. 12.—The third jail-
bird to "fly" inside the month is James
Wells, who escaped at noon today.
Turnkey Kerr had gone to dinner, and
young Wells succeeded in scaling the
jail walls by means of boards he got in
the cellar and a short rope. He is a
dark-skinned, black-eyed boy of 15.
Wells already had several charges of
stealing proven against him, and was
to have been sentenced to a reforma-
tory to-morrow. All efforts to appre-
hend him have proved unavailing.

PLACING DYNAMITE FOR THE WRECK

Coroner, Crown Attorney
and Railway In-
spector to Probe
Essex Explosion.

ESSEX, Aug. 12.—(Special).—Respon-
sibility for the cause of Saturday's ex-
plosion is to be placed, if it possibly
can be done. Not only will a coroner's
jury make a searching enquiry, assist-
ed by Crown Attorney Robb, but the
Dominion railway commission will also
enquire. Acting on a request made by
the mayor, E. C. Laonde, chief in-
spector of accidents, for the board, has
been detailed to come here.

Coroner Eriksen subpoenaed Wallace
Ritchie of the Ritchie-Lang Company
planning mills, whose place came top-
pling over on their heels. Mr. Ritchie is
expected to say that the car of explo-
sives remained from Friday, at 9 p.m.,
over night within the town limits, and
this is said to be illegal. Mr. Ritchie
was looking at the car half an hour be-
fore the crash and saw the stuff leaking
out of the dynamite. An expert on
nitro-glycerine and high explosives
generally, will be brought from Leam-
ington to testify.

The number who was labeled.
It is said here that several Michigan
Detroit officials acknowledge their lia-
bility for the explosion. In the most dan-
gerous extent. The coroner found to-day that
the car was labeled "explosives." It
bore a placard that it was dangerous
and that it was dynamite. The cars
of engine or caboose. The county
attorney wants to examine the firm
of the dynamite, both the pack-
ing, and the sending in the manner
done are against the law.

Licence Inspector J. B. Smythe allow-
ed the station agent, in the most dan-
gerous condition, but he hopes for his
recovery.

Genial Manager L'Honnedeu, of the
Michigan Central Railway, says that
if the shippers' manifest was correct,
the car was loaded with powder
cartridges, not with dynamite. The
rules for handling high explosives are
much more rigid than for powder. The
Michigan Central Railway, of Black
Rock N.Y., were the shippers.

Thought He Was Shot At.
Many incidents, some thrilling,
some humorous, are told concerning
the effects of the explosion. For in-
stance: Francis Comartin, a farmer
of the township of Tecumseh, who lives
sixteen miles from Essex, was asked
"Why did you shoot at us?" just a few
miles from Tecumseh. His in-
terrogator was one of two men in a
buggy. They were driving westward
towards Windsor when the explosion
sounded. The two had turned their
horse and driven back towards their
supposed enemy.

"Why should I shoot at you?"
asked Comartin.

"That we do not know," one of
the interrogators replied.

"Well the truth is I did not do so,"
the Tecumseh farmer replied.

"That was the noise?" was the next
question.

"To tell the truth when I heard the
detonation, I rushed down the cellar
thinking one of my wine casks had
burst."

The three enjoyed the double-bar-
relled fun. Two men in the rig re-
sumed their journey towards Wind-
sor; Comartin went back to his wine
cellar.

GIRL DROWNS IN BAY PLACE A DANGER SPOT

Viola Haw Falls From Plank While
Playing at Foot of Brock
Street.

That almost notorious danger spot
on the bay front, at the foot of Brock-
street, claimed another victim last even-
ing, when Viola Myrtle Haw, aged 9,
was drowned.

She was playing, about 7 o'clock last
evening, with her sisters, Louise, aged
12, and Frances, aged 6, and with Dinah
and Blanche Gougeon. Viola walked
out on a wooden plank and fell in the
water. She did not come to the sur-
face.

The screams of the other girls attract-
ed the attention of Samuel McCaig, an
employee of Martin's bootstore, who re-
covered the body with a pike pole in
about 15 minutes. Dr. George Smith
had been summoned, but attempts at
resuscitation failed.

Viola was the daughter of David
Cup, living in rear of 1 Portland-street.
Today she would have been 9 years
of age, and a birthday party was to
have been held in her honor.

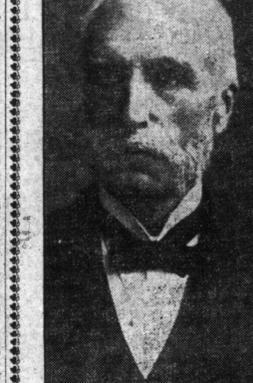

An inquest will be opened this after-
noon by Coroner Crawford, with the
object of finding out who is respon-
sible for the sources of danger said to
exist. Construction work is in pro-
gress, and chips, planks and stumps
form a covering on the water which
can easily be mistaken for solid.

On Saturday night a youngster is
said to have had a narrow escape, while
earlier in the season a drowning did
occur.

IN LONDON.

LONDON, Aug. 12.—Hon. Mr.
Fielding guided the party of Tor-
onto World ladies thru London
Sunday. They are described as
an uncommonly bright, intellectu-
ally party, whose popularity was
won by beauty and brains. In
imitation of the daughters of the
Buckeye State, who were recent-
ly here, they have been christen-
ed "Maple Blossoms."

A Birthday Appreciation

To-day, Dr. Goldwin
Smith, Toronto's leading
citizen, and one of the last
survivors of the great think-
ers and writers who advanced
the Victorian era of Eng-
lish literature, celebrates his
eighty-fourth birthday.

His years have far
exceeded the Psalmist's span
of three-score years and ten,
and that cannot be said, with
that degree of truth to
which he has himself always
aspired, that his eye is not
dim nor his natural force
abated, yet certain it is that
Dr. Smith is as clear of intel-
lect and as masterly in ex-
pression as at any point of his
distinguished career. No more
considerable compliment was
ever paid the Queen City than
his decision to make it his
permanent home. And we do
not draw the bow at a venture in saying that, in no part of the British
dominions, could it have been more deeply appreciated or more greatly
prized.

Dr. Goldwin Smith's influence has been peculiarly valuable, not
only in every department of academic life, but in the higher walks of
morals and the commoner field of public controversy. During this
formative period of Canadian history, the presence of so eminent a
scholar and a gentleman has been an inestimable benefit, difficult to-
day properly to appraise, but in later years certain to receive due ac-
knowledgment. Like Robert Browning, Dr. Goldwin Smith has been
ever a fighter, but, unlike that explosive poet, he has ever had his full
share of sweetness as well as light. Opponents have differed from
him, and differed widely; yet his weapons have occasionally been dipped
in gall, but the return thrust, however keen and trenchant, has had none
of that.

Thru Dr. Smith, Toronto is linked with a great epoch, and it is
matter of rejoicing that every passing year makes us more and more his
debtors. May it be long ere the link is broken to our eyes—it can
never be broken to our hearts and memories, or forgotten by the citizens
to come.

"Dr. Smith feels the heat, but is in good health." The World was
told, in reply to a query as to how he was on the eve of another anni-
versary.

He is not now engaged in any literary work, except reviews.

Oswald Richardson Rolls Peanut 200 Yards Because Adele Lost Race

To push a peanut with
toothpick on Carlton-street, from
Church-street to Yonge-street was
the feat accomplished by Oswald
Richardson, an employe of Jerrett's
barber shop, on Monday afternoon.

Richardson did not do the act be-
cause he like the exertion of trying
to lean up against anything so small
on a hot day, but it was so "nomin-
ated in the bond" he entered into with
Walter Jerrett before the Canada
Cup race at Charlottetown on Saturday.
Richardson was so sure Adele would
win that he accepted a bet on the pro-
position and agreed if he lost—that
was altogether out of the question,
that he would undertake to roll a
peanut of the common circus variety
along the sidewalk, using only to urge
the festive one, along an ordinary
toothpick.

When it was a sure thing Adele did
not win Jerrett tipped it off to his
friends that, there would be some
amusement on Monday at 3 p.m. So
that at the hour appointed there was
an audience, not a large one, but as
the society editors say, a "select" one.

Richardson was as good as his word.
He spent all morning selecting the
peanut. A nice plump round one was
picked out. It was not a large one,
but its proportions were satisfactory.
A bunch of toothpicks was laid in
the gutter, and the peanut was
Accompanied by the winner of the
Richardson sallied forth. He had
spent an hour precisiding the feat and
had got so he could make the peanut
roll at least one foot without making
a curve and getting off the track.
Only once in the 200 yards did the

NEW YORK, Aug. 12.—The strike of
telegraphers which originated last
Friday in Los Angeles, where it was
directed against the Western Union
Company, has gradually spread east-
ward, to-day it reached New York
city, where three spontaneous "walk-
outs" followed in rapid succession.
These were ordered against the West-
ern Union, the Postal Telegraph Com-
pany and the Associated Press. In
the latter instance, the strike was the
first against the news organization and
was fairly general throughout the
country west of New England.

"With the stopping of work by many
of the union operators here, a situa-
tion unparalleled has followed. The
telegraph business, tho by no means
tied up, being seriously handicapped,
and the Western Union company claim-
ing to be doing business as usual in this
city and to have all the help needed."

The Postal people claim to have
planned a force of about 200 people
working to-night, and that they were
doing business without serious delay.
The telegraphers' strike, however, the
Postal had not more than 12 operators
at work.

The strike against the Associated
Press here and in Chicago and the
west began at 8:30 o'clock (eastern
time), to-night. It was distinct from
the other strikes, as the Associated
Press controls its own leased wires,
and the operators are in the employ
of the news organization. The
agents here and in Chicago recently by
the men, the strike had been fore-
shadowed.

Thirty Quit in Montreal.
MONTREAL, Aug. 12.—The telegraph
operators strike hit this town this
morning shortly after 8 o'clock, when
approximately 30 of the Great North-
western Telegraph Co. went out. It ap-
pears that one of the operators refus-
ed to take stuff from a New York
strike-breaker, and he was discharg-
ed. This was a signal for 28 of his
fellows operators to walk out. They
are mostly union men who are out,
and the nine remaining in the office
are non-union. So far the C. P. R.
men have shown no sign of infection.
There was a rumor, however, afloat
that the C. P. R. operators would leave
at 7:30. So far they are at their posts.

NO STRIKE IN TORONTO.

Telegraph Offices Have Full Staffs
Still at Work.

Neither of the big telegraph com-
panies doing business in Toronto has
been affected by the strike so far, it
was claimed last night by officials
competent to speak on the subject.
The Great Northwestern had agents
around the brokers' offices yesterday
arriving on Monday. R. B. Mc-
Michael, the superintendent, said to
The World that the company had been
looking for good operators for a year
and a half, but this had nothing to
do with the strike that is tying up
many offices in the United States.

Mr. McMichael said a company had
lost no men—that he knew of.
The strike had its effect on the As-
sociated Press news service, which is
headed by the C. P. Only about one-
half the usual night service came over
the wires, and this was explained by
D. G. Sturrock, local manager, as in-
dicating that in many of the ordinary
services the news operators had
gone out.

MR. BARROW SAID O— IN DEFENDING HIMSELF

Series of Wrangles at Council Meeting—Department to Be Re-organized.

HAMILTON, Aug. 12.—(Special).—This evening's session of the city council was a succession of disgraceful wrangles. City Engineer Barrow, noted as a mild mannered man, asked for permission to defend himself against the attacks of Ald. Farrar, who, by calling Ald. Farrar "a d— liar," Mayor Stewart objected to the expression and Mr. Barrow withdrew it. A committee consisting of the chairman of the committees, the mayor and Aldermen Farrar and Peebles, were appointed to consider the advisability of reorganizing the city engineer's department. The majority of the committee is made up of Mr. Barrow's friends. Ald. Dickson intimated that Ald. Farrar was a grafter for seeking to use his position as alderman to get a sewer connection for his house on Sherman-avenue without paying what the other residents of the street paid, and he agreed with the sentiments expressed by Mr. Barrow. Ald. Farrar called Ald. Dixon "a Grit flopper," who had sold out his birthright for the position of

CRACK BRITONS TO SHOOT AT OTTAWA

Many Bisley Top Scorers to Compete in International Rifle Shoot for Palma Trophy.

LONDON, Aug. 12.—The British team which has been selected to compete for the Palma trophy at Ottawa on Sept. 9 against teams representing America, Canada and Australia is composed of the following riflemen, many of whom were among the top scorers at the recent Bisley meeting: Col. Cowan, R.E.; Sgt. Major J. Armer, School of Musketry, Warrant Officer Raven, R.N.; Armorer Sgt. Lawrence, 1st Dumbarton V. R. Co.; Armorer Sgt. McHaffie, Galloway V.R.; Lt. Col. Fulton, Queen's Westminster V. R.C.; Major Varley, Honorable Artillery Company; Armorer Sgt. Comber, 2nd V. B. East Surrey Regiment; quartermaster Sgt. Fraser, 1st Banff R. Co.; Sgt. Taitton, 2nd V. B. Royal Warwickshire Regiment; Sgt. Omandson, Queen's Edinburgh V. R. B.; and Sgt. Robinson, 4th V. B. Manchester Regiment.

Major Stephenson and Lieut. Peddie are attached to the team and the commandant is Col. J. Hopson, chief inspector of small arms. The shooting captain is Major P. W. Richardson, 2nd V. B. North Fife; and Capt. George Ford, 1st V. B. O.A.M.C., is the adjutant.

The team which is to represent Australia is the same that shot at Bisley, and includes Lieut. Addison, who won the King's prize at Bisley; Lieut. Dawson, Sgt. Edwards, G. Hewitt, W. Cutler, A. J. McLeod, R. Whittington, E. G. Arroll, H. Motton, J. McCullay, H. Hicks and W. Edgen.

HONOR FIDELITY

Huntsville Rejoices at Victory of Her Team at Tournament.

HUNTSVILLE, Aug. 12.—A grand celebration was held here to-night in honor of the champion Huntsville fire brigade, which won the tournament at Midland last Wednesday. The tournament was held under the auspices of Northern Volunteer Firemen's Association, and teams representing North Bay, Bark's Falls, Huntsville, Bracebridge, Gravenhurst, Orillia, Midland, Renfrew and Parry Sound competed.

Huntsville won, going thru the severe test in 60 seconds, 2 seconds ahead of Orillia, who got second. The enthusiasm took practical shape to-night, when, after a torchlight procession of the citizens, gold lockets were presented to the victorious team. Speeches were made by Mayor Fisher, J. S. May, Wright, M.P., A. Cameron, John R. Reece, D. M. Grant and others. Huntsville also won last year.

"I shall never forget my excitement," said Mr. Stormont Barnes, "the night I played Lacertes." "Dear me," replied young Mrs. Torkins, "did you play Lacertes, too?" You must be almost as lucky with the horses as Charley is!"—Washington Star.

The Incident at Rochester Adele Has Lost Only Two

To-Day May See Double Blow for Defender -- Eastern League's Best Batsmen -- Burns Should Beat Mistah Johnson.

Because Adele has lost two races it does not follow that the Canada's cup will stay in Rochester. The defender won the first two races in 1905 and last year the trophy crossed the lake. That was when the record book was first written and five from Strathcona. Then it looked all over but the shouting after the second day, just as the present indicates. However, Seneca has had her own wind, from seven to nine miles an hour, when Seneca only beat the limit; and only ten knots yesterday. Canadians in Rochester on Sunday hoped for a genuine blow that would materialize. So a breeze or two or three may come for to-day's race around the triangle, to continue until Wednesday night, and then the Jack's Payne sloop Adele and Skipper Jarvis at the helm may lift the cup and bring it back where it belongs.

Really the trophy has ceased to claim Rochester as its home, according to conditions. The R. C. Y. C. walked the right to a win by default, and the members are receiving encomiums from everywhere, like this in The Buffalo Express yesterday: "It would seem that the Canadian yachtsmen had considerable ground for their protest in the matter of the Canada Cup contest, now being sailed off Charlotte Beach, and it is a pity that they did not comply, very probably, as it is explained, owing to their inability to do so, the plans not having been worked over by Deane and his staff. That the Canadians withdrew their protest and that the American boat was weighed in order to qualify for the trophy, is a matter of sportsmanship for which the men from across the border must be praised. The contest for the trophy, which they have seen to be about as spirited in preliminary negotiations as any similar competition ever known on the waters."

The incident has created a considerable feeling, but the yachtsmen and Commodore MacDonald and Skipper Jarvis are quite at a loss to understand it. "Even the weighing protest was not made by the crew of the boat," said Skipper Jarvis. "Before she was weighed the figures Herreshoff forwarded showed her to be a 7-foot class which she had to measure into. After the accurate figures were obtained by weighing, Seneca measured up the class and Hanan had to raise her boom two feet to bring her into the class by reducing the sail measure. We will not stop the whole dam thing." Up in Bay City, Mich., last week the drug stores were charged with selling more than 200,000 saloons, and down in Greensboro, N.C., (a temperance state) the drug clerks draw whiskey from soda fountains at the rate of 100,000 gallons a day. A grand Rapids official of dignity and prominence refused the racing association there the privilege of smelling of each other's breaths and selling pools at the track, and the Michigan Circuit meet in Detroit in the absence had to be declared off recently. Over in Canada you don't see a newspaper on Sunday or look cross-eyed, while down in the States you see a newspaper on Sunday and look cross-eyed, and there are cockfights, and horse racing on the seventh day. Truly these are a strange and a singular conglomeration of truthful statements.

The Dons' annual fall regatta will be held over the club course in front of the boat house on Thursday, Aug. 23. This year's wind-up regatta will be a greater one than has been. The program will consist of the following: A four-oared race, the Argos' Loving Cup will be competed for by the four-oared crew of the Argos' eight-oared crew, that went to Henley in 1899. The Dons' boat house. The winners of this event have their names engraved on the Loving Cup. A special invitation junior four-oared race will be added to the program. Hamilton and St. Catharines crews, which made such a splendid showing at the Canadian regatta, are expected to compete. The novice single championship and a senior single championship will also be contested. Entries for the club fours and the singles club with Captain John Shea on Friday, the 16th inst.

Exhibition Dog Show. Entries for the dog show at the Canadian National Exhibition close on Thursday, with the manager and secretary, Dr. Orr, at the exhibition offices. There are 255 classes provided for, between which some \$5000 is divided in prizes, money and kind.

A Pointer For Exhibition Visitors. If you live out of town and contemplate visiting the world's greatest annual exposition, to be held in Toronto Aug. 26 to Sept. 9, you will do well to book accommodation at the Del Prentis in the West Queen-street. It is agreed that the match will be made and that Burns will get the long end of the money, as Johnson is so

NO MORE RADIAL FRANCHISES.

The people of the thriving Town of East Toronto have today to pay two street car fares in order to get home. The farthest point in that town from the corner of King and Yonge-streets is not more than five miles, and yet they have to pay two fares—one on King-street to the Woodbine, and one on the York Radial up the Kingston-road to their own town.

The people who live in Toronto-Junction have access to Toronto, but they have only to pay single car fares.

Not satisfied with having to pay two car fares to reach Toronto, an effort is now being made to induce the people of East Toronto to give another franchise to the York Radial along Danforth-avenue, which Mr. Moore promises to give over to the city when it is extended to Gerrard-street and Greenwood-avenue.

There is just one thing that will help to make East Toronto flourish, and that is a single-fare system, and the only way of getting it is to keep Danforth-avenue absolutely free from any franchise at present. In a very short time the Bloor and Danforth viaduct will be built, and a new line carried along Danforth-avenue, or Broadway-line will be carried along Danforth-avenue to East Toronto.

All the people who live in the Gerrard and Pape-avenue lines will have the privilege of a single fare, but if the people and the council of East Toronto are foolish enough to give another franchise on Danforth-avenue, they will ever be cursed with the two street car fares.

The Town Fathers ought to be very careful of the future interests of that prosperous suburb, which is ultimately bound to become one of the busy corners of the City of Toronto.

HARD HEADS.

In going from Montreal to St. John, the C.P.R. crossed the State of Maine and Western New Brunswick, until at Fredericton Junction it strikes the rich valley of the River St. John. For many miles before striking the valley, one is struck by the fields fairly covered with small boulders about the size of a man's fist, which look as tho they had been rained down by a hail-storm of stones. These glacial deposits are not unknown in Ontario, where the term "hard-heads" is sometimes used to describe them.

They look far from promising, but, as a matter of fact, they are of great economic value in growing potatoes. They do not interfere with the machinery, and by storing heat they perform an important function in ripening the crop.

Hard heads, provided they are not wooden heads, have been always esteemed among men. They are preferred to soft heads, paper heads and other varieties not uncommon. They retain ideas and give them a chance to develop into action.

Hence persistency is the quality that,

SABINE HAS FEW SHOTS FOR A TOURNAMENT

States That Some Critics Are Evidently Jealous of Nature's Luminary.

Many newspapers seem hard to please when it comes to the ruling of a court of justice against great corporations. When Judge Landis of the United States District Court at Chicago subpoenaed John D. Rockefeller, they assured us that John D. would never be served, or, if served, that he would never appear. But he was served and he did appear.

Next we were assured that only a nominal fine would be imposed; but as a matter of fact the Standard Oil Company was condemned to pay the maximum sum of \$29,000,000.

"It will never be collected," was then the cry. But as it appears that it may be collected, we are now assured that this enormous fine simply means an increase in the price of oil, and so no benefit will accrue to the people!

These gentlemen of the press are hard to please. The proceedings brought to compel the G.T.R. to put on a penny-a-mile service between Toronto and Montreal was pook-pooked as a waste of time, until the railway commission made the order. Now that the order is made, we learn that no one wants a third-class service, that third-class cars are "cattle cars," etc.

The moral of it all seems to be that no one should disturb the great corporations by bringing them before the courts.

The attorney-general of Canada should be very popular with the press.

THE OLD WAY.

Senator Lodge of Massachusetts, who usually speaks for the administration, has suggested that \$50,000,000 of the surplus in the United States treasury be applied to paying off the national debt. This has been the traditional policy and upon the whole it is a pretty good policy for any nation or any individual to follow. Before the debt was increased by the Spanish war, there was a time when it seemed possible that the United States might be able, without great effort, to pay off its entire debt. This was not desirable, because the National Bank currency rests upon the United States bonds, but it would have been a good example for the government to set to states and cities plunging into debt.

Liberating this \$50,000,000 at this time might ease the money market and this may have prompted Senator Lodge's suggestion. Still the people who pay a premium for a two-cent effort to pay off its entire debt, are not likely to be tempted very far into Wall-street. Possibly some of them might be attracted to Canada, could the Ottawa Government create a non-taxable bond, and especially could such a bond be required or accepted by the government as a deposit from banks and insurance companies.

Certainly the Dominion Government is paying out too much for interest, and apart from that, large instalments of our national debt must soon be refunded. For years there has been no financial question in Canadian politics, and the belief that Mr. Fielding is a great financial minister has been insisted upon, until people generally assume that it is beyond dispute.

When the minister has refunded the \$133,000,000 of debt falling due between now and 1910—assuming that task be allotted him—this belief, if it still exists, and with reason, will have a more substantial basis than it rests upon at present.

PITTSBURGER BUYS A TOWN.

Its People Too Slow to Suit Him, So Laughlin Signs Checks.

PITTSBURG, Aug. 12.—The latest motto among Pittsburgh millionaires is: "If you don't like the town buy it and move it."

James Laughlin, Jr., of the Jones & Laughlin Steel Company, has purchased the Town of Zellwood, Orange County, Florida, to add to his winter estate. The town people had become hostile to him.

Zellwood carried nothing for progress and refused to sell a lot to a Pittsburgh hotel man for a modern hotel, thinking it would bring too many people to the neighborhood and destroy its pastoral calm. This didn't suit Laughlin, so he wrote checks for the town.

The effect than the present fell-wind for his winter residence, considering it a place of unusual beauty and excellent climate. He has now changed the name to Sydnone.

Sir Wilfrid's Cabinet Problems

Discussed in Detail by E.W. Thomson in The Boston Herald—Some Popular Men in the Cabinet and Some That Ought to be Dropped—And Incidentally Some Strange References to Bourassa and Maclean—Special Correspondence of The Boston Herald.

The Boston (Mass.) Herald of July 31 had the following special article from Ottawa, written by E. W. Thomson, one of the most prominent journalists in the Eastern States, and who is particularly well posted on Canadian affairs, having been for years the Ottawa correspondent of The Boston Transcript:

Greater Boston there are about 85,000 Canadians, many of whom look to The Herald for correct information on the political affairs of the Dominion. The situation here is now unusual, curious, interesting. Hence I deem it expedient to explain the main features with some particularity.

Sir Wilfrid Laurier has returned to find himself personally more popular and more respected than ever in all Canada, and from the press of almost every shade of opinion. In fact, Canada was a republic on the United States plan he would be elected next President by a vast majority.

From this eminence he would still have to deal with two serious problems. First, that of convincing the public mind that maladministration of public money in lands, timber, mining tracts, and grazing leases is no less obnoxious to him than the private wrongs of a colleague. Second, that of replacing the fallen minister, by men who would not merely be considered as a moral laundress, but who could bring him political strength.

The first problem can be easily solved by the opposition and independent critics has been in connection with the department of the interior. The chief objection is that the various public lands have been so administered as to enrich ministerial speculators. Some of the charges are nonsensical, some are plausible, and in no case whatever has the interior minister failed to put up some sort of a reasonable defence. In these circumstances, because the public vehemently suspects the present incumbent, he might cook a dish "to the queen's taste" by establishing a royal commission of inquiry into the administration of the interior, and putting first-rate lawyers and accountants at the disposal of the commissioners and requiring them to advise as to what policy ought hereafter to rule in respect to the public domain.

Quite apart from the alleged maladministration of the seat of government, such a commission is evident in the western fuel famine of last winter, in the claim that the new public lands should be sold to the trust with the possession and administration of their lands and in the various public lands, and in the motive of prosperity among the prairie population.

If it had not been so patent for two years past that such a commission was due, it would be as a matter of course, and it is not surprising that Sir Wilfrid, because now personally powerful enough to defy all opposition, should see fit to set all eyes on waiting for the opportunity to do so. A moment ago Sir Wilfrid was when the enquiry was necessary to restore public confidence in his government.

What a great relief to the public mind, that of setting new, clean, popular colleagues, as it were, to the task of ruling the Dominion, and as Mr. Roosevelt, a strenuous foe to illegitimate graft by corporations, railway gamblers, telephone monopolists, etc. He stands well with labor, he is a man of a high moral character, and he would make an excellent minister of agriculture, which position seems practically vacant, since it is not strictly credible that the present incumbent will devote his entire time to the duties of his office.

Maclean has been jumped on by the opposition much more than by ministerialism, his criticism has ever been on Liberal lines; he has a clever paper of wide influence at his back; he is obviously the most popular federal politician in Ontario, a question for work, a good business man, a pattern of family morality. There is not one of these qualities which Sir Wilfrid should not take Maclean, if he can be had, as an offset to the corporationalist influence of Aylesworth, Maclean, and there is not another man in sight of whom that could be reasonably said. Now, one of the prime ambitions of Sir Wilfrid is to carry both Ontario and Quebec on one.

One merit of the Maclean appointment is that it might redound much to Sir Wilfrid's strength in the western province. For Maclean is a friend of Mr. Bourassa, whose growing popularity in Quebec seriously threatens to rival or surpass the Premier's. They are personally friendly, and alike in the principles of Liberalism; the younger man complains that Sir Wilfrid is too often swept apart from them in practice by expediency.

It is not probable that Bourassa would accept a portfolio, unless he were given some such guarantee for future carefulness in administration, and for future resistance to improper encroachments by corporational influence, as would be afforded by the

LAURIER AND BORDEN. Charlottetown Guardian (Lib.): Sir Wilfrid Laurier has had in some sort a series of triumph ovations since his return from the old country. And now Mr. Borden is about to make the trip to the Dominion to stir up the minds of the opposition, revive their hopes and increase their faith so far as may be done. When that time arrives the first step to be taken is expected to be an only less conspicuous luminary in the political sky for the time being.

As public men go these two are Laurier and Borden, are of our best, honorable, clean and patriotic. In these evil times the opposition has no other recourse but to surround himself by colleagues who will strengthen the hands of whatever principles he might have left in his ministry, and to retrieve the jeopardized reputation of Canadian Liberalism, which of old was the champion of the masses against the predatory classes.

"To-day, retired from active business, retired, that is, from business for myself, the capital I have invested makes work for thousands and opens opportunities for other thousands to place their savings profitably. No man with money can escape this responsibility or lessen this yoke from his neck."

"We are servants and not masters, we who are or have been engaged in large business affairs. It is to our vital interest that the country prosper, that the people prosper, that we may not be destroyed by our own success. We would probably suffer the most if we were to fail."

"The richest man can eat but three meals a day, and it does not take a fortune to dress very well, indeed, or to provide real luxury in living. Of men who have acquired the largest fortunes have not pursued wealth, but business success. If they desired money for the enjoyment of money they would have stopped far short of

Brockville Man Dead. BROCKVILLE, Aug. 12.—John McNish, for many years a public school trustee, and a member of the board of health, died at his residence, 36 of Mason and Ogdenville, died to-day at his home, of heart disease, aged 67. He lived in Brockville for 40 years, 36 of which he was employed on the G.T.R. He resigned in 1903 to become city street inspector, but he was forced to resign owing to ill health. His wife is dead, but two children survive.

PIERCED RIOT IN BELFAST
GO GO TO THE HOSPITAL

Half of the Injured Are Soldiers
—The Strikers Are Aggressive.

BELFAST, Aug. 12.—The wrecked condition of the streets and houses in the Falls and Grosvenor districts of this city testify to the severity of rioting, which occurred last night.

Hardly a window or street lamp remains intact, while doors have been smashed in by the heavy stones hurled by the strikers at the advancing cavalry, and the street pavement is torn up on all sides, having served the rioters with missiles.

There were no fatalities, but over 50 persons, about equally divided among the troops and rioters, are being treated in the hospitals for severe injuries.

The strikers are still in aggressive mood. Only the strong forces of troops on duty prevented the men from attacking the men who are at work.

TURCO-PERSIAN INCIDENT.
Influence of Foreign Powers Causes Porte to Investigate.

CONSTANTINOPLE, Aug. 12.—Thanks to the influence of the British and Russian ambassadors, and the representations of the Persian ambassador here, there seems to be a prospect for a satisfactory settlement of the Turco-Persian incident.

The Porte has instructed the Turkish commander at Bagdad to stop all forward movement of troops, and has despatched frontier commissioners to the scene to make enquiry as to responsibility for the incident.

New Trade Paper.

H. Gagner, Limited, publishers of numerous trade journals, announce a new periodical, "Construction," which will be published "for the promotion of the building and engineering interests of Canada." The magazine will be conducted by Ivan S. Macdonald, a well-known Canadian pressman, who has traveled extensively in the United States, and who for the past four years has been engaged in work directly in line with the new publication.

"Construction" is designed to give to Canadian architects and builders an up-to-date technical paper published in Canada and there will be various departments devoted to plumbing and heating, concrete construction, painting and decorating and kindred subjects. The first number will issue about Sept. 15. It will contain seventy pages handsomely printed and illustrated, and the leading article of general interest to Toronto will discuss the present tenements in "the Ward."

"Construction" will aim to notice all important architectural and building work done and projected in Toronto, and to encourage and stimulate building hereafter in accordance with the new building by-law.

This publication will fill a long felt want in Canada, and, under Mr. Macdonald's management, it will deserve and no doubt receive a bountiful measure of success.

FAVOR LIQUOR LICENSE.

Halleybury Club Members Vote For the Refreshments.

HAILEYBURY, Aug. 12.—(Special.)—A general meeting of the members of the Halleybury Club was held on Saturday night, at which a large number of local and visiting members were present.

The question as to whether the members did or did not approve of the continuance of the charter, recently granted to the club, entitling it to the privilege of furnishing its members with liquor, was discussed.

The continuance of the license, largely on the ground that it was not desired by the members. This decision ought finally to settle the question and disprove the only reasonable argument which could have been raised against the granting of the license.

DESERTED BY MINISTER.

Notorious Rogue Leaves Pretty Floretta Whaley to Her Ruin.

NEW YORK, Aug. 12.—According to news which has reached Hempstead the awakening has speedily come to Miss Floretta Whaley, the 17-year-old girl, who eloped on April 29 with her guardian, the Rev. Jere Knobe Cooke, pastor of the Episcopal Church at Hempstead.

Miss Whaley, it is stated, had been deserted by the unscrupulous minister, and is reported to be in a sanitarium in Canada, a nervous wreck.

The whereabouts of Cooke has not been learned.

MOTHER WOUNDED BY BABY.

Swinging a stick at his play, the little son of Mrs. L. Webster, 519 Seigneur-street, Montreal, struck his mother a blow over the eye, inflicting a nasty gash. Inflammation followed, and the wound looked very ugly, when a box of Zam-Buk was obtained.

The pain was soothed almost instantly the balm was put on," says Mrs. Webster, "and healing commenced. In four or five days the wound was closed, the inflammation gone, and there was only a faint red line showing where the gash had been. Even this mark is now gone. Zam-Buk is such a wonderful healer it should be in every home where there are children."

Zam-Buk is made from concentrated herbal essences, and suits the tenderest skin. Cures eruptions, heat spots, ulcers, ringworm, eczema, piles, chafed places, sore feet. It takes the pain from a sting or burn, cools sunburn patches, and makes red, rough skin smooth and supple. Excellent for children's tender skin.

All stores and druggists, fifty cents a box, or Zam-Buk Co., Toronto, for price. Three for dollar twenty-five.

English Preacher Here.

Rev. Dr. John Haslam, principal of New College, Harrogate, England, was in the city yesterday for a few hours, coming from Hamilton, where he preached on Sunday.

Rev. Mr. Haslam is one of the foremost leaders in the Baptist Church in England, and is a brother of Sir Robert Haslam, M.P.

He left yesterday for Pittsburgh, Pa. to visit his son, and will spend a couple of weeks at other parts of the United States before returning to England.

FOURTEEN DAYS MORE
AND EXHIBITION OPENS

New Buildings Will Be Completed and Everything Looks Promising.

Two weeks from to-day the 29th annual exhibition will be opened by His Excellency the governor-general, who is expected to arrive on Tuesday morning, and to open the exhibition at 2 o'clock the same afternoon.

He will be the guest of the lieutenant-governor, and on Wednesday will again visit the exhibition, here he will review the Boys' Brigade of the city, and prizes given by the association will be awarded the best drilled company. Every-thing on the grounds is well advanced towards readiness for the reception of carriage and harness exhibits. The horticultural building is practically new ready for occupation. Altogether, some extra speedy work has been done by the contractors on these buildings, under the supervision of Architect Gouinlock.

Poultry and pet stock entries close at the city hall offices to-morrow. Aid Chisholm is chairman of the poultry and pet stock committee, and is taking a great deal of interest in the forthcoming exhibition. He says that the arrangements this year will be found far more complete and convenient than in previous years, the poultry and pet stock being accommodated in separate buildings.

Entries for the trials of speed and for the dogs close at the offices on Thursday. No far a number of entries have been received for the dogs, but the same cannot be said for the cats, although many entries have been promised. King Palmetto Compound is not an insuring an extra good display. One gentleman in the city has offered to give ten specials to cats entered by school children, the idea being to encourage the children in the love of domestic pets. Entries for the cats close on Saturday.

Dr. Orr, manager of the exhibition, yesterday received a letter from Geo. E. Poston, champion long distance runner of Quebec, asking that the executive committee provide for an obstacle race foot race, as he would like to come up against the "cracks" of Ontario. The executive have the matter under consideration, and it may be that the people of Toronto will see at the coming exhibition a contest that will prove of more than ordinary interest.

On the first Saturday of the exhibition a series of bicycle races are to be run, under the auspices of the Canadian Wheelmen's Association. Another feature of the program for that day will be an automobile gymkhana and relay race. The gymkhana will be a novelty, but its success is already assured by the promise of a number of present owners of machines to take part.

Horses in the breeding classes in every department will be a long way ahead of last year, especially in thoroughbreds, an extra good exhibition of which type is expected. Mr. Robert Davies of Thorncliffe has entered very largely his entry in the three-year-old yearling fillies which he bought on his just completed visit to England, as well as nine Canadian-bred recently purchased in Scotland. Mr. Davies' entry of horses totals near half a hundred.

Will You Join the Happy, Joyful Throng?

It is delightful to travel to Muskoka and the other parts of the Canadian leaving Union Station at 11:20 a.m. The train always has a goodly number of merry passengers, who know the best way to the lakes. With this assurance, accompanied with comfort and picturesque scenery, it tends to make a happy, joyful throng. When you arrive at Muskoka Wharf and see the fine steamers awaiting to take you to your vacation, you will feel satisfied that you have traveled "the proper way." Call at Grand Trunk City Office, 100 King-street, for tickets and illustrated literature with maps.

Protection From Japs. SAN FRANCISCO, Aug. 12.—Private advices received from the cruiser Buffalo, which left here two weeks ago, state that it steamed away from the navy yard last week under telegraphic orders from Washington to protect American interests at Peihai Island from the poaching depredations of the Japanese, which have been persistently carried on of late.

Japan Missions. A statement issued recently shows an increase in the number of Japanese missionaries of the Anglican Church during the past 16 years from 10 to 62. This includes the native Japanese clergy. The contributions in 1906 amounted to 27,072 yen, or a little over \$13,000.

CITY GETS ONE-FIFTH.

Big Street Railway Earnings Aid in Swelling Civic coffers.

The city treasurer yesterday received from the street railway a cheque for \$46,970.15, being the city's share of the gross receipts of the company for July.

As the receipts for the present year exceed \$5,000,000, being \$22,466 more than the amount for the corresponding year, the city's share, under the agreement, entitled to 20 per cent. of the gross receipts.

The remarkable increases in receipts and city's percentage during the last five years are shown in the following table:

Table with 2 columns: Year and Amount. July, 1907: \$305,645.50; July, 1906: \$271,217.40; July, 1905: \$242,986.80; July, 1904: \$213,854.29; July, 1903: \$196,921.93; July, 1902: \$182,042.92.

ARE YOU IN THE RUT?

IF YOU ARE NOT, WE HAVE A GOOD JOB OPEN FOR YOU

What kind of a man are you? Has your teaching been at fault or are you familiar with all the new loose leaf systems and modern office devices which are used by up-to-date business houses?

The directors of Business Systems, Limited, who are closely in touch with business houses all over the country where modern methods have been installed, are continually being asked to recommend competent office men.

This gave them an idea, and the result is that arrangements were made for the opening of Business Systems Commercial School.

Business Systems Commercial School teaches practical methods such as are actually in use in commercial houses, instructing only by expert teachers who have had practical business experience and aiming at the highest standards of education.

Business Systems Commercial School teaches retail as well as wholesale business methods, and for those now occupying positions and who desire to improve themselves, there are special night courses.

Inasmuch as the directors of the school are now in demand by the largest business houses in the country, to devise new systems and improve present accounting methods, every student has an opportunity to thoroughly acquaint himself with the latest improved systems and most modern office devices.

By this it is not meant that the work of Business Systems Commercial School is confined to the forms manufactured by Business Systems, Limited. The course includes all modern accounting ideas, going into the matter so thoroughly that every graduate is capable of filling the best positions.

And the men who fill the best positions are the men who draw the largest salaries.

Is that the kind of a position you want to fit yourself for, and is that the kind of salary you want to draw? If so, write for further particulars and booklet on the courses. Fall term begins Tuesday, September 3rd.

BUSINESS SYSTEMS COMMERCIAL SCHOOL. 46-52 SPADINA AVENUE (Near King) TORONTO, ONT.

AVALANCHE OF SELLING BREAKS STOCK VALUES

Wall Street Undergoes One of the Periodical Panics—Canadians Are Affected.

World Office Monday Evening, Aug. 12. With a semi-democratic condition in existence at New York, it was not to be wondered at that local securities presented a draggled appearance today. Liquidation was not nearly as acute here as it was at Montreal, where a large outstanding speculative long interest made prices easily vulnerable.

BONDS OF SUBSTANTIAL PUBLIC-SERVICE CORPORATIONS

at prices which permit of large interest returns. Our latest list of offerings sent on request.

DOMINION SECURITIES CORPORATION LIMITED 26 KING STREET TORONTO.

The continuation of the selling movement, which was based entirely upon the fact that there could be found a long time past, more particularly the fact which has taken possession of security holders because of the extension to which the anti-corporation activity has been pushed, and the stringency in the time money market.

THE COURSE OF THE MARKET FOR THE NEXT DAY

The Pacific Cable report for the year ending March 31, shows a gross revenue of \$116,401, against \$94,456, net revenue, \$11,551; expenditure, \$90,222. After providing interest, sinking fund the deficiency is \$4,823, against \$7,255, traffic revenue, 1907-8, \$100,000, deficit \$69,383.

The outlook for the stock market is hardly promising. We can only continue our advice to our customers to be cautious in getting into debt. Stocks, even at these prices, cannot be regarded as cheap so long as money commands its present rates, with the prospect of going still higher. There is no real cause for the present congestion in the security markets, except liquidation, which is a painful but necessary remedy.

The tremendous effort produced upon the stock market by the wrenching efforts of government have depressed the listed prices of securities to a point where, were the horizon clear, investment buying would begin with alacrity. As it is, only the courage and the ability to avail themselves of opportunities, being the only factors in the world which will be necessary in stock market operation for the next few months.—Henry Clews.

UNSAFE EXCEPT TO INVESTORS.

World Office, Monday Evening, Aug. 12, 1907.

Sellers of Canadian listed stocks met a mighty poor market today. As on several days of last week, some specialties, such as Sao Paulo, Rio and General Electric were marketees, even in small quantities, without considerable concessions. The further break on Wall-street contributed to the timidity here, and only those with well-defined opinions of values and the money to pay for purchases dared venture to make bids.

LONDON ON THE WATCH.

Calm View of the Market Situation by European Financiers.

NEW YORK, Aug. 10.—The Post's London cable says: "The 'Rocket' fine," as it is termed here, proved a damaging blow, coming on the present highly sensitive markets. Yet, curiously enough, the fine itself meets with approval; the real trouble is that the judge's remarks are considered indiscreet and calculated to frighten capital.

The disposition is to recognize the intrinsic merits of American securities at these prices, and to look hopefully to their position when market conditions generally are healthier. Another money would accomplish this. No signs of such cheapness are yet visible, but the general apprehensions of the liquid market are perhaps the best guarantee that only moderate dearness will ensue, with a Bank of England rate no higher than 5 per cent.

This view presupposes that your market will not insist on taking gold from here. If you do, the bank would be compelled to adopt extreme measures. This week's remarkable 1-3-4 point rise in consols here is mainly due to the absolute abandonment of the market by real buyers—a policy dictated freely on this market, while heavy put and call options for consols, good to the end of March, have been opened as a hedge by speculative operators in Americans.

Having interviewed numerous authorities in the highest financial circles, I believe that the acute loan market is sound here; indeed, the really first-class demand for money is expected to occur in New York and Berlin, but nothing of international importance. Your people are using every possible means to borrow here, regardless of cost. This is apparently due to the fact that certain finance bills, which are usually drawn against New York local bills, have failed to find London acceptors in the usual quarters, and that maturing original bills expire in November and December. These bills are being placed here at 5 per cent.

Your market's ability to continue borrowing here must now depend on the value of your commodity exports. You take it for granted that your finance bills, not based distinctly on trade credits, will be boycotted later on.

The most that can be said of the copper market is that, unless a sudden collapse in trade occurs, some recovery is to be expected.

Cobalt, Aug. 12---(Special)---James H. Tighe, the acting treasurer of the Tighe Larder Lake Syndicate, arrived in Cobalt yesterday on his way to Larder.

This syndicate are closing arrangements with a firm of Toronto brokers to place their flotation on the market, and Mr. Tighe goes north to inspect the properties. His syndicate has had a gang of men recently at work since last fall, and has practically fulfilled the labor conditions on nearly forty claims.

World Office

Monday Evening, Aug. 12. The same feeling of depression which overhung the New York stock market was prevalent in the local mining market to-day. The only cause for congratulation in the day's business was that it appeared difficult to force out stock, the volume of transactions plainly showing that to a large extent holders were not inclined to sacrifice their stock.

SUBURBAN COMPANY HAVE LOST NO TIME

Await Permission to Build Thru Swansea—East Toronto Council Rush Thru Work.

TORONTO JUNCTION, Aug. 12.—Residents of the Junction, as well as of Swansea, will be gratified to know that the Toronto Suburban Railway Company will construct a railroad from the Junction down thru Swansea to the Lake Shore-road. The route was surveyed on Saturday last, and the work will commence just as soon as the by-laws are passed and agreements ratified. The company are anxious to have the work commenced as speedily as possible, so the councils of Toronto Junction and York Township are preparing plans and discussing proposed routes. The plans engineered by George C. Royce, manager of the Toronto Suburban Railway Company, seem the most suitable, and will likely be adopted. Mr. Royce proposes that the route be along South Keele-street to Annette-street, thence down, thru Swansea, connecting with the Lake Shore-road at the Bell Works.

Should the residents object too vigorously to the laying of tracks on Annette-street, the route will be along Dundas to Louise and down Louise to Elizabeth-street.

William Speers & Co., undertakers, are having their barn cemented, and the rigs have been transferred to the livery stable till the work is completed.

Robert Paterson, secretary-treasurer of the Maxwell-Harris Mining Company, left last night for Cobalt and Larder Lake, where he has extensive mining interests.

About 11.30 to-day a team of horses, hitched to a brick wagon, got frightened and bolted down West Dundas-street. Before being stopped, one horse was badly injured.

Dundas-street is in such a bad condition that heavy traffic is almost impossible. This morning half a load of flour fell off a wagon, and some of the bags burst. Later in the day a barrel of oil belonging to the Queen City Oil Company was jolted off the wagon.

The stonework and masonry on the new Bank of British North America is completed, and the derricks used for hoisting the stonework into position are being taken down.

Mr. Hall of Wiloughby-avenue, popularly known as Dad, leaves to-morrow for a month's vacation at Orchard Beach, Maine.

The water pressure at the Junction fire hall to-day was only 29 lbs. The usual pressure all summer has been from 35 to 40 lbs., but to be adequate for fire of much proportion 35 lbs. would be necessary. The pressure here is 125 lbs., and we cannot do any better, as the reply received from the pumping station this afternoon when the engineer was notified by one of the firemen as to the condition of affairs, in Carlton there was no water pressure at all, and the people could not even get sufficient water from the taps for domestic purposes.

Fred Connolly, one of the Toronto Junction firemen, left this morning for a two weeks' vacation, and there is a persistent rumor that he is to be married before his return. The lady is Miss Griffin of Carlton West, and the report says that after the ceremony the happy couple will spend a short vacation at the home of relatives at the other side of the international boundary.

RICHMOND HILL.

Scarcity of Water Hinders Local Firemen in Sharp Blaze.

RICHMOND HILL, Aug. 12.—A destructive fire took place in the village on Saturday when the frame residence of Mrs. Mayes on Centre-street, as well as the adjoining building of Mr. Deadman were burned to the ground. The flames spread so rapidly after the fire was first noticed that it could be done to save the contents, and these were for the most part destroyed together with a considerable sum of money belonging to Mrs. Mayes.

The fire originated in the latter's kitchen following the lighting of a fire in the stove, after which Mrs. Mayes left the house for a few moments.

Nearby houses on either side, only a few feet distant, were saved by the hard work of the local firemen. The water supply was very inefficient, and the efforts of the brigade were hampered owing to this cause.

The damage was probably amount to \$1000 in each case, but the amount of insurance, if any, is not known.

Mr. E. Barker is absent on a short visit to the city.

A joint meeting of the town council and the public school board was held in the town hall to-night to discuss the advisability of establishing a high school in town.

Mayor Fisher presided. Trustee Logie explained that the idea was to start on a small scale, and make the statutory application at New Year's.

Principal George H. Reed of the Markham high school was present, and in a short address advocated starting small, and cited the case of Markham. After considerable discussion, Mayor Fisher said: "I am in favor of a high school. We have to build up the town by some means."

The mayor's remarks gave great satisfaction to those present, a large majority of whom warmly endorsed the project.

Councillor Lawrence and Trustee Logie were appointed a committee to secure further information and report to another joint meeting to be held in the town hall on Wednesday evening next.

MAGISTRATE ELLIS' COURT.

Police Magistrate Ellis disposed of a number of cases at Monday's court. Wm. Heyworth and Herbert Payne were each fined \$1 for indiscriminate shooting on the highway on Sunday, July 28. These were the young men who were summoned in the case of McIntosh and failed to appear.

Collins and four other young men were charged with taking fruit from a social in the Don Mills Methodist Church. When all concerned are rounded up Magistrate Ellis will try the case.

W. J. Hill, a painter, living in Todmorden, will appear before Mr. Ellis on Thursday, charged with assaulting W. McConnell. Hill is now out on bail.

A number of minor cases were disposed of by the magistrate.

SEARCH FOR GANG.

Officers After Railway Thieves—Ex-Hotel Man Arrested.

NIAGARA FALLS, Ont., Aug. 12.—The quartet of young men arrested for burglarizing the C. T. R. cars were remanded for eight days to the county jail at Welland by Police Magistrate Cruickshank, to allow the crown to prepare their case, and, it is said, to enable them to gather more information of the workings of the gang that apparently have been working the cars for some time past, and other arrests may be made.

Another arrest was made to-day in the person of James Wadsworth at Queenston, who allowed his place to be made a fence for stolen goods. This is the place where the 800 pounds of butter was found. Wadsworth is an ex-hotelkeeper of Queenston. Since the village became local option he has been convicted twice for unlawfully selling liquor. The last time he served a term for doing so.

NEW DREADNOUGHT TO BE EVEN LARGER

Battleship of 30,000 Tons Roused Talk of \$20,000,000 Yankee Monster.

WASHINGTON, Aug. 12.—Naval circles are agitated over a report that the British admiralty is about to lay down the keel for a ship that will be 50 per cent greater in tonnage than the Dreadnought. It is difficult to secure information respecting the plans, and it is said that the British government is again proceeding, as in the case of the Dreadnought, to build the vessel behind closed gates. Thus the British navy can be kept at least two years ahead of any other country, at least in theory; in these days a battleship is frequently obsolete in five years.

It is understood that the new ship is to be of 30,000 tons displacement, against 20,000 tons of the Dreadnought, and to include many novelties, for instance, three guns in each turret, so the new ship will carry eighteen guns in her main battery.

The report of the British plan has caused the bolder spirits among the American ship designers to propose to lay down a battleship of 40,000 tons displacement, placing the American navy clearly in the lead. Such a ship would cost no less than \$20,000,000.

Local Players Play Great Ball Out at Long Branch.

BALM YBEACH, Aug. 12.—The victory of the senior Balm Beach baseball team at Long Branch on Saturday afternoon by a score of 9 to 5 greatly enthused the local men, and their home-coming was something of an ovation. Reward for the victors was very effective, and all the team did good service.

Balm Beach seniors would like to hear from some good fast senior nine for a game on Saturday, the 17th. American Watch Case, American Albert or any other Manufacturers' League team preferred. Address W. Parkinson, Balm Beach P.O., or phone Beach 112 or Beach 109 in afternoons.

On Tuesday evening the balance of the prizes won by the stalwart contestants of Balm Beach, will be presented at the club house, foot of Beach-avenue. A dance will be held afterwards, and a jolly time is expected by all beach residents. The sport committee deserve credit for the manner in which this branch of the club has been looked after, and a good crowd should turn out to help them in their efforts. The committee on sports this year was composed of W. Gunn, T. F. Hodgson and W. Parkinson.

Mayor Ross presided over a quorum of the town council to-night, but more practical business was put thru than
