## CLARION CALL TO ARMS

A Vigorous Campaign in Favor of Provincial Prohibition Started -The Christian Guardian (Methodist) Outlines Plan of Agitation in Provincial and Municipal Politics.

Ontario is to be immediately plunged into a widespread agitation in regard to provincial prohibition of the liquor traffic.

The Christian Guardian, "published under authority of the Methodist Church" in Canada, and the most aggressive of the prohibition papers, in its number of this week has a clarion call to arms in behalf of the agitation. It declares that the time has come "to accomplish the great work before the Christian churches."

We are quoting below the two main articles of The Guardian this week. That paper is edited by the Rev. Mr. Courtice, a prominent and able minister in the service of the Methodist Church. He is a graduate of the University of Toronto and a forceful writer, at times, perhaps, over-zealous. But he has clear ideas, and, so far, has taken the leadership in this agitation, and it is more than likely will come to be recognized as the head of the movement, unless, indeed, the Hon. George E. Foster, who is now resident in Toronto, is pressed into the service and agrees to assume the responsibility of leading the prohibition hosts. Here are the articles of The Guardian:

PROVINCIAL PROHIBITION.

Editorial Christian Guardian (Toronto), Dec. 4. 1901. One element of great importance is made secure, namely, that the provinces of Canada have the constitutional power to remove all liquor licenses and to prohibit the selling of liquor to drinkers thruout the province. The manufacture of fermented or distilled liquors for scientific, mechanical or medicinal purposes, or for exportation to territory where prohibition is not in force, is not placed under provincial jurisdiction. The importation of fermented or distilled liquor into the province for the purposes mentioned above, or for private and domestic consumption, is not placed under provincial jurisdiction.

These distinctions mean that the provincial power cannot prohibit the drinking of liquor, which would be an extreme interference with personal habits; nor can it prohibit the manufacture or importation of liquor for certain purposes, which have always been deemed justifiable, and described as scientific, mechanical, medicinal and sacramental; nor can it prohibit the manufacture and exportation to territory outside the province where prohibition is not in force; but the provincial power may wipe out all wholesale and retail transactions in liquor which are now carried on in licensed places and under government regulations. The importance of this power is fully recognized by the press, by the politicians, by the liquor trade and by the people. Whether the power thus assured, and now universally accepted, shall be exercised to the full, and how soon, and by what methods, has become suddenly a practical, pressing, powerful factor in Manitoba, Prince Edward Island and Ontario, and, we doubt not, will soon be in Nova Scotia and New Brunswick. These forward strides seem to come upon us suddenly, altho we have looked forward to and expected them for many months.

"New occasions bring new duties,
Time makes ancient good uncouth,
We must upward press and onward,
Would we keep abreast of truth."

MODERATION.

Editorial Christian Guardian (Toronto), Dec. 4. 1901.

Moderation is grounded in self-control and calmness, and is expressed in terms that are not harsh, and in a spirit that is conciliatory. "Let your moderation be known unto all men," says the apostle to the Philippians. Moderation is the duty of all the friends of temperance just now. A hasty and intemperate spirit may betray the sacred cause into great peril and secondarion happened be nown how the contagration happened of the sacred cause into great peril and secondarion happened be nown without to Painippout y self to enact all sorts of laws, that in the day on business, his family having left for the city several weeks ago, and at time then will be sent to his own to have good uncount, we must upward press and onward, where the city several weeks ago, and at time then will be sent to his own to have good uncount, the city several weeks ago, and at the men will be sent on direct to Halifax. In any event the tier will be not ontoned that if the govern ments of Ontario and Mandroba put the mobolisation will take place there. In a then was in accord with His own calls, wisdom and moderation, and, the they were sincere friends, they were not wise counsellors. The temperance forces need a calm, moderate, courageous, far-seeing leadership just now. We must never shirk from this fundamental position, that this province, which is now under a license law, must, in the near future, go under a prohibition law. Courage and consistency call for the second the fight son-in-law proceeded at once to the scene of the sad fatality, and returned to the son-in-law proceeded at once to the scene of the sad fatality, and returned to the son-in-law proceeded at once to the scene of the sad fatality, and returned to the son-in-law proceeded at once to the scene of the sad fatality, and returned to the son-in-law proceeded at once to the scene of the sad fatality, and returned to the son-in-law proceeded at once to the scene of the sad fatality, and returned to the son-in-law proceeded at once to the scene of the sad fatality, and returned to the son-in-law proceeded at once to the scene of the sad fatality, and returned to the son-in-law proceeded at once to the scene of the sad fatality, and returned to the son-in-law proceeded at once to the scene of the sad fatality, and returned to the son-in-law proceeded at once to the scene of the sad fatality, and returned to the son-in-law proceeded at once to the scene of the sad fatality, and returned to the son-in-law proceeded at once to the scene of the sad fatality, and returned to the son-in-law proceeded at once to the scene of the sad fatality, and returned to the son-in-law proceeded at once to the scene of the sad fatality, and returned to the son-in-law proceeded at once to the scene of the sad fatality, and returned to the son-in-law proceeded at once to the scene of the sad fatality, and returned to the son-in-law proceeded at once to the scene of the sad fatality. A small be simply the name of the sad fatality and returned to the son-in-law proceeded at once to the scene of the sad fatality. A small b and intemperate spirit may betray the sacred cause into great peril and serious reverses. We should never forget that there are those who wished to push the world's Redeemer further and faster into the thick of the fight The basis of all liquor license is, "You may sell intoxicants"; the basis of prohibition is "You must not sell intoxicants." That very important prohibition features were found in our license laws is true, and it is likewise true that important license features will exist in our prohibition law, as we have indicated in another editorial. But the fundamental principle of the two systems is different, and our purpose must be to change from license in collision last night off Harwich. Essex. to prohibition.

When that has been accomplished, however, our greatest difficulties when that has been accomplished, however, our greatest carried on a will arise. No referendum or plebiscite proposal should weaken the sense of responsibility resting on the representative of a constituency. If the present Legislature is lukewarm on temperance, and unfavorable to prohibition, then a revival in the high places is needed, and several conversions would greatly help the revival. The new Legislature will be a great factor, helping or hindering our cause. Woe to the temperance voter who is represented in Parliament by a liquor representative. Let us go slow, and clean up the ground as we go, so that our foundations will be sure. There should be an earnest campaign in the individual constituencies in 1903 for municipal councils favorable to prohibition. This, also, is an important factor. The enforcement of the prohibition law in Maine was left at first to local officials, and the local officials notoriously neglected the enforcement. We must save ourselves as far as possible from local weaknesses and indifference. We are sure that other safeguards and methods will be suggested in good time.

The time for the enforcement of any prohibition law should not be left indefinite, but should be fixed far enough ahead to give due notice and opportunity to those whose money and living are in the trade, and, satsuma Faience Pottery, Carved Bronzes.

## THE PROSPECTS IN MANITOBA.

Our Manitoba and Northwest Conference correspondent writes as follows, touching the prohibition situation and feeling in the Prairie Province: Elegant and Costly Furniture By There is a general demand by the hotel keepers for compensation, but -it may be on account of an obtuse mind-we fail to see the reasonableness of compensation. Were the hand loom weavers and boot closers, with numerous branches of trade, compensated when machinery was introduced, and their means of livelihood destroyed? When the licenses were granted last June, they were given conditionally, pending the decision, and the licenses were told that they were liable to be cancelled at any time.

Halifax, Dec. 4.—The tug Gypsum King arrived at St. John this afternoon, and the captain reports that at 3 o'clock this morning the two barges he was towing broke away from the tug in the Bay of Fundy. There are grave fears that the barges, with their crews of five men each, have been lost, as there was a terrible gale blowing at the time. The lost barges are each of 1100 tons net, and are built of wood. They carried about 1000 tons of gypsum and belong to the J. B. King Transportation Company of New York. As soon as the wind moderates, the tug will go out in search of the missing vessels.

The directors of the Art School, at a meeting this afternoon, discussed the school's financial position. The Finance Committee's report showed a balance of \$103.24 in the bank, and \$12 cash in hand. This will not meet the requirements, and the directors signed a personal guarantee for \$500 on the Bank of Montreal.

In the absence of John Hoodless, the treasurer, W. F. Montague, was authorized to sign the cheques issued. Arrangements were made for a systematic canvass for subscriptions by the directors.

No Fear of the Future.

"I am not going to predict what will happen within the next three months. In my mind there is no fear for the future. I stand here with more confidence in the temperance cause than ever, in fact with every assurance of triumph."

Continuing. Mr. Spence quoted Hon. Mr. Ross as saying that if the people demanded prohibition the Legislature could not say nay. The Privy Council had made the course of the Legislature clear to pass prohibition legislation; the people were behind the Legislature, and the only fhing for them to do was to follow on that course or get out of the way. [Applause.]

Ring of Enthusiasm.

Ring of Enthusiasm.

A ring of enthusiasm characterized the convening of the division in the afternoon. It was the 53rd annual gathering, and many veterans who took an active interest in the cause of temperance in the early days of the order exchanged greetings with the younger workers, and both were happy and cheerful in the expectation of an early realization of triumph.

Do you have a feeling of undue fullness in the stomach, belchings, or sour or bitter risings? These are but a few of bitter risings? These are but a few of the symptoms of the diseased stomach. The worst thing which can be done for the stomach in such a case is to take some tablet or powder which merely gives temporary relief from discomfort. The best thing to do is to begin the cure of the disease by beginning the use of Dr. Pierce's Golden Medical Discovery. It cures diseases of the stomach and other organs of digestion and nutrition. It makes the "weak" stomach strong, and puts the body in a condition of wicerous health. The government of the union will be in the hands of a Board of Governors, made up of one representative from each affiliated organization and elected by these organizations for one year. In case of a vacancy occurring it will be filled by the "active member" whose representation is vacant. Sentences of disqualification or suspension by one member of the union are binding on all other members and appeal can only be made to the Board of Governors, who have power to review or reverse the decision.

These are the main features of the proposed new constitution, and those interested expect that it will be endorsed by the O.H.A. on Saturday, by the O.R.F.U. at its general meeting the following Saturday and by the other associations and leagues as their annual meetings come on. A body so constituted should be a powerful organization, and do a vast deal of good in the control of wholesome sport thruout Canada.

Organization Nearing Completion—
The Government.

The joint committee of the Canadian Amateur Athletic Union and the various governing bodies in sport that have not been in affiliation with the union held another session yesterday afternoon in The Telegram building for the consideration of the proposed new constitution. Inspector Stark occupid the chair, and Mr. A. W., Ballantyne acted as secretary. The other members present were: Messrs. James Pearson, F. H. Thompson, John Ross Robertson, J. A. Macfadden and Francis Nelson, representing the C.A.A.U., the Ontario Hockey Association. The basis of organization, it will be remembered, was agreed on at the first meeting, as a union composed of association. The basis of organizations to members of associations, leagues or unions holding membership in the union can also join, but can have no representation of the Roard of Governors. The union can also join, but can have no representation of the Roard of Governors will consist of representatives from the active members, and an active members is an organization composed of at least three members. An organization with three clubs shall have two delegates at the annual meeting of the union; organizations of from three to ten clubs, four delegates. Buffalo and the Circuit.

Buffalo, Dec. 4.—The annual meeting of the Eastern League is being held in New York to-day. The Buffalo franchise will be represented by Joe Franklin and Ald. John J. Kennedy. They left for New York last night. Messrs. Murray and Philbin, who hold an option on the Buffalo franchise, also left for the metropolis. It is said that they offered to pay the \$6000 due on Dec. 10 yesterday, but that owing to the fact that the Franklin estate is in the hands of an executor, they were unable to get the business transacted yesterday. They will, therefore, have no voice in the meeting to-day. Buffalo fans are anxiously waiting for news from New York. They want to know what cities will compose the Eastern League next year. It is known that Newark Jersey City, Scranton and Wilkes-Barre are applicants for franchises, but it is pretty certain that Newark and Jersey City will be chosen to succeed Hartford and Syracuse.

Harry Murray and J. S. Philbun, from a Buffalo syndicate, which holds an option on a Buffalo franchise, were also present. There was some doubt as to whether Buffalo would be in the circuit, but after hearing statements from all parties it was decided to retain Buffalo under the controll of Messrs. Murray and Philbiu. The formal transfer of the franchise to the new owners will be consummated at once.

President Powers, who lives in Jersey City, said, after the meeting: "The new circuit is the strongest in the Eastern League history. The total population in and surrounding our cities is in the neighborhood of 25,000,000. I am not at liberty to state who the people back of the Jersey City team are. Four different persons are after the franchise. The league nas left the matter entirely in my hands. You can say one thing, however, that we will have new grounds and the best of backing." Mr. Powers said that a bicycle track would be built in connection with the Jersey City grounds.

## The O.R.F.U. Suspend and Expel Ottawa, Hamilton and Granite. Players.

ARGONAUTS ARE AMATEURS.

The Crown Will Be Asked to Lool After Toronto's Forged

The Executive Committee of the Ontario House last night and a lot of importan usiness was transacted. The cards sen were marked special, as charges ionalism against players of Hami ton, Ottawa and Kingston Granites wer be discussed. The meeting opened shortly after 8 o'clock, with President Ba antyne in the chair.

The application for reinstatement was taken up and laid over, pending an investi gation against the Toronto Club for making false affidavits. In the matter of the Torontos' affidavits handed in by Secretary McIntyre, there were a number of them forgeries and the Crown will be asked to-day to look into the matter.

The executive passed the following resolution and will put it before the annual meeting on Saturday, Dec. 14:

To Join New Athletie Uñīon.

That we submit to the annual meeting the report presented by the joint committee of the O.R.F.U. and other athletic bodies, as well as the O.A.A.U. for reconstruction of the C.A.A.U. constitution, and we recommend that if the reconstructed constitution be adopted by the C.A.A.U., that this union apply for membership therein.

Ottawa, Hamilton, Granites and London gation against the Tor

ed by the C.A.A.U., that this union apply for membership therein.
Ottawa, Hamilton, Granites and London players were charged with professionalism.
Bunch of Players Expelled.
The executive expelled Tommy Palmer and Bik Young of the Granites for playing with London in 1900, under assumed names, against McGill. Palmer got \$25 for playing. Young is also a professional baseball player.

playing. Young is also a professional baseball player.
Chaucer Elliott of the Granites was expelled for playing professional baseball.
O'Brien of Hamilton was expelled for having run a foot race at Hamilton a year ago for money.
Billy Hamilton, who played centre-haif for the Rough Riders, was expelled as a professional for having played hockey in Pittsburg last winter.
Freeborn of Hamilton was also expelled, as evidence was produced to the committee showing that he had taken money for playing Rugby. This would have prevented his reinstatement this year if it had been known to the executive,
The following were suspended as suspected pros. and they will have to show good cause why they should be reinstated: E. Murphy, Ottawa; P. Murphy, Ottawa; J. Powers, Ottawa.
Green of Hamilton was suspended for unbecoming conduct.
It is a matter for congratulation that the only unsuspected team in the Ontario Union succeeded in winning the championship.

Inerc are several amendments to come up at the annual meeting. Peterboro has sent in notice to cut out the age limit from the junior series and let a junior player be one who has never competed in an intermediate or senior team. There is one to have the number of players on a team reduced to 12 men, in place of 15.

Mr. Thompson of the Argonauts has sent in an amendment recommending the adoption of the snapback game in the O.R.F.U.

The annual meeting of the Ontario Ragby Union will be held at the Rossin House on Saturday, Dec. 14, at 2 o'clock. This year there will likely be two candidates for the office of president, A. W. Ballantyne and F. H. Thompson. There looks to be only one candidate for the office of secretary and that is the present insumbent, J. D. McMurrich. The executive, will be composed of one member from each senior club, they to be named by the club, while the intermediate and junior champlons are each entitled to a representative.

stroy the germs of catarrh in the blood, and expel the catarrhal poison from the system.

Dr. Ramsdell, in speaking of Catarrh and its cure, says: "After many experiments, I have given up the idea of curing catarrh by the use of inhalers, washes, salves or liquid medicines. I have always had the best results from Stuart's Catarrh Tablets; the red gum and other valuable antiseptics contained in these tablets make them, in my opinion, far superior to any of the numerous catarrh remedies so extensively advertised. The fact that Stuart's Catarrh Tablets are sold in drug stores, under protection of a trademark should not prejudice conscientions physicians against them, because their undoubted merit and harmless character make them a remedy which every catarrh sufferer may use with perfect safety and the prospect of a permanent cure,

For colds in the head, for coughs, catarrhal deafness and catarrh of the stomach and liver, people who have tried them say that Stuart's Catarrh Tablets are a heusehold necessity.

CAUTION. Beware of concerns offering a thin yiece of felt as a substitute for my cushion electrodes. These cheap coverings are used only to disguise their bare-metal, blistering electrodes. They have to be soaked in water, which quickly dries and leaves them without current. My cushion electrodes are my exclusive invention and cannot be imitated.

If you have one of these old-style, blistering belts I will take it in trade for one of mine. I do this not that the old belt is of any use, for it is not, but to establish the value of my goods with people who have been misled by the false claims of concerns selling a cheap, worthless article.

C.P.R. Higher on Canadian Boards-Bank Stocks Firm-Market Quo-

Wednesday Evening, Dec. 4.

Stock dealing on the local exchange today was again of a fair volume, but price changes were not of any significant nature. C.P.R., no doubt helped by another week of very large earnings, recovered over a point of its loss today, selling up to 114. General Electric is being freely dealt in at from 229 to 220%, a slight failing of from its high ngure of last week. Twin City was easier to-day and closed 1/2 lower than the opening. Dominion Coal was arrive, but price of the stock remained about stationary at 47% to 47. Northern Navigation sold up 1/2 per cent. from last sale, changing hands at 108. Toronto Railway was sold for 117, Cable at 185, Canada landed 101, Toronto General Trusts at 103 and Carter-Orume preferred at 105%. Bank shares are still in demand at steady to fractionally higher prices. Commerce brought 154 to 154%, Ottawa 205 and Toronto 230. tions and Comment.

There was but small trading on the Montreal Exchange to-day and slight changes in prices. C.P.R. was a point higher, selling up to 114½, and Montreal Railway was firmer at 272. Toronto Railway brought 116½, Twin City 10734 to 107½; Dominion Steel preferred 81½ and Dominion Coal 47½. 

The New York stocks had a better tone to-day with a tendency to higher figures. Rock Island, N.Y.C. and Manhattan each had good advances during the day, and Copper, after a weak opening, rallied nearly three-points. No further gold engagements at present and the favorable impression created by the President's address are thought to be factors favorable to advancing prices.

Excitement Over Cotton.

Liverpool, Dec. 4.—There was a large attendance on the Cotton Exchange to-day, and considerable excitement prevalled owing to the news from New York regarding the government estimate of the probable production of the cotton crop. Prices opened 12 points above yesterday's closing figures. During the morning the excitement decreased and prices fluctuated, touching one or two points higher than the opening quotations. Then they settled down, leaving the tone very steady.

The official prices issued at 12.30 p.m. showed values to be from 10½ to 14 points showe yesterday's closing. Excitement Over Cotton.

Wall Street Pointers.

A rumor says that negotiations have been neactically completed by which a controlling in erest in Rock Island has passed from Chicago owners to interests affiliated with Pennsylvania. This had something to do with the strength to-day.

Atchison directors declared a regular semi-annual dividend of 2½ per cent. for preferred at their meeting yesterday.

Congressional opposition is expected to the President's proposal to reduce duties on Cuban sugar. on Cuban sugar.

A more cheerful sentiments prevails in London financial circles generally, and the tendency in the securities markets is towards improvement.

The banks have lost \$5,147,000 to the sub Treasury since Friday.

Railway Earnings.

St. Paul gross increase for fourth week November, \$77,345, and for month \$389,131.
Norfolk & Western, surplus after charges for October, increase \$131,240.

Fifty-two roads show net increase for third week in November, 10.51 per ce.t.
Hocking Valley, fourth week, November, \$121,206, increase \$11,421.

Denver, Rio Grande, fourth week November, \$23,300, increase \$12,400.

M. & St. L., fourth week, \$101,245, increase \$19,710.

Iowa Central, fourth week, \$62,105, increase \$1476.

London Street Railway, fourth week November, \$2,574.07, increase \$534.13. For month \$10,335.67, increase of \$1,055.35. Railway Earnings

part of the market to-day was in fair demand, the rate ruling about the rest of the railroad list was steady. The rest of the standard copper was erraite and the market showed a disposition to move independent of the vagaries of this stock. A favorable point was than 10 gold was engaged for export by the morrow's steamer, the state of the foreign exchange market not permitting shipments at a profit. Money was in fair demand, the rate ruling about 4½ per cent. for call loans. The strength of the near steed and the market is to a considerable extent in the hands of traders, affording opportunities for small profits on julck turns. Manhatan was unusually active at advancing prices, and was followed by R.R.T., but Metropolitan was extremely irregular, but it gave clear evidence that the continued ease in money and the general expression of satisfaction at the continued ease in money and the general expression of satisfaction at the continued ease in money and the general expression of satisfaction at the conservative tone of the President's message and was enimoney and the general expression of satisfaction at the conservative tone of the president's message eral expression of satisfaction at the conservative tone of the president's message eral expression of satisfaction at the conservative tone of the president's message eral expression of satisfaction at the conservative tone of the president's message eral expression of satisfaction at the conservative tone of the president's message eral expression of satisfaction at the conservative tone of the president's Ine stock market to-day was extremely irregular, but it gave clear evidence that it was under the control of the bulls. The suspension of the gold export movement, the continued ease in money and the general expression of satisfaction at the conservative tone of the President's message were the influences which affected general sentiment. Sugar, after an early sharp advance, lost 2 per ceat. on the realization that the question of reciprocity might command debate in Congress for a long time. Locomotive stocks were strong on reports of new orders for the company. P.O. was marked up sharply on the shorts. Amalgamated Copper received decided support on account of improvement in trade condition. The market closed strong.

## OIL WELL AT NORTHWOOD.

An oil well was shot yesterday at North-wood; on Wildblood's prace, by the Ontarlo and California Oil Company. The tarlo and California Oil Company. The shooting of the well is sery dangerous work, nitro-glycerine being the explosive used. Clinton Woodward of Woodward Sons, Petrolea, did the dangerous part of the work, and performed his work well, making a good shot. The nitro-glycerine is lowered into the well in large tia tubes. In this case 20 quarts of nitro-glycerine were used, and as many as 200 quarts have been used to shoot a well by Mr. Woodward. Another smaller tube is then partly filled with nitro-glycerine and a fuse is attached to it. This the shooter drops into the well and the explosion of the smaller 5 at 101, 6 at 101; Cable reg. bonds, \$300 at 101.

NOT A UNIT.

Washington, Dec. 4.—The wide diversity of views of leaders of the Presbyterian Church on revision of the creed was demonstrated when the committee of 20, appointed by the General Assembly to effect this work and submit it to the next assembly to effect was found that none of the members of any sub-committee or section had united upon any report of statement. The General committee decided to transact its work in full committee.

one of the dealers said it was reported that Mr. Robertson of the Department of Agriculture made a contract to purchase half a million bushels of oats in Manitoba, on the assumption that he could get the oats for 25 cents, and raffway charges. After counting the various charges, he found he could pay the farmers 27 cents, but this aroused the western grain dealers, who offered 30 cents, thus putting the price up to more than Mr. Robertson could pay.

One grain dealer stated that it was this same contract that was about to be filled from the granaries of Ontario by the Department of Agriculture at Ottawa. This dealer expressed the opinion that the government should leave the filling of such contracts to the dealers or business much of the country.

Alton, Dec. 4.—Between 6 and 7 o'clock this morning the foundry owned and operated by Alexander Dick was totally destroyed by fire. The fire was not discovered until it was too late to save any of the contents, and as a strong north wind was blowing strenuous efforts were required to save the buildings on the opposite side of the street, There was no insurance on either the building or contents, and great sympathy is felt for Mr. Dick, as his loss will amount to about \$8000. The five is supposed to have arisen from a defective stove in the woodworking department, where there was abundance of shavings and other inflamable material.

Lilicago at the close of the market to-day.

Wheat—Has shown great strength from opening to-day; volume of trade has been large. Cables did not show the weakness unticipated in view of our decline yesterday, which encouraged renewed buying by holders and also by bulls who had sold out yesterday. There was additional country buying noticeable which added to local bullish sentiment. Receipts were not so excessive as compared with last year, but export clearances were very light. Weather map indicated probable relief of dry weather next few days, but the bearish probabilities were ignored, the strength in coarse grains alone offsetting any news of bearish sort. Values look high considering the situation from supply and demand standpoint, and sales should pay profit in hear ruture.

Corn moved up 1%c to 1%c, getting to the best, prices so far. There was little reaction. Cables were higher. Country offerings were small. The market felt the big cash business of Tuesday. Kansas City and St. Louis reported their exchanges filled with western buyers on corn and oats. There was more of the same buying as Tuesday, led by the Phillips crowd. Offerlags small. A great big outside demand, but scattered thru many commission houses. Receipts 103 cars, with 105 cestimated for to-morrow. Clearances 21,000. Corn helped by oats strength.

Oats were up 1%c to 1%c over Tuesday, the July for a while going the fastest. Rids west last night at best prices and best premium of season and practically no purchases. Good cash sales here and a large business from Peorla. Receipts but 90 cars, with 105 for to-morrow. Big trade both ways in futures. New buying and profit-taking. The day's prices were the best so far.

Provisions opened fairly steady and afterward advanced on buying by the outside trade and advance in wheat. Hedgers sold moderately on the advance and toward the close market was shade easier. Cash demand was fairly good. Hogs to-morrow, 41,000.

The Witzel-Groch Co. had the following from Chicago at the close of the market to-day:

It looked reasonable to expect a small break this morning, but the dood of buying orders prohibited anything of the sort. Good profit taking around 70½ on the first advance put price down ½ c, but all the wheat was well taken, and second buige stronger than the first. Close was strong and eyery indication that to-morrow will see the price up another cent or two. The pit Shows all the earmarks of an old bull market. No matter how you figure it wheat is still far too low. Speculation has not run to such a high pitch for a year, and all concentrated in the one grain. Foreigners are buyers at this advance, and, considering that they have followed the hand-to-mouth plan, and have no great supplies to draw on, it is true that the price is already well up over low price of a couple of months ago, but this under such conditions as prevall in wheat at present counts nothing. There is a full head of steam on, and only one thing to do—go up with the market and don't haggle over fractions.

Corn fooled the trade, too, yesterday. The bulge looked much like short covering, but this morning it developed that a remarkably big cash business was done yesterday, largely to the southwest. Local receipts were light, and Liverpool up. These conditions started prices up again, till, alded by wheat, market topped at 674c, closing a full 1½c better than yesterday. Corn will sell a good deal higher, but seems beyond reach of the general public.

Charges Against Society.

Ald. Lamb got into a heated argument with Mr. Macdonald and Mr. Clarke when he referred to the charges which had been made against the society, which he claimed had not been refuted.

Mr. Clarke said that every statement as to maladministration of the affairs of the society would be probed to the bottom. He said that in not one of the charges was there even a scintillation of the truth, but, nevertheless, the society was now resting under the imputation of being the most mismanaged charitable organization in Canada. However, statements under oath had been secured to every one charge, and as early as possible those who made the charges would nave the chance to appear before the County Judge and either substantiate or retract them.

The board will further consider the matter.

Who Should Pay the Bill?

Who Should Pay the Bill? Who Should Pay the Bill?
Mr. Trowern, representing the Retail Merchants' Association, asked the city to pay \$485 balance of their expenses incurred in connection with the Eaton assessment appeal. He claimed that the city had gained nearly \$3000 as a result of the association's work and this gain would go

association's work and this gain would go on every year.

There was a lengthy discussion, during which it was admitted that the association had done the city a service in some respects, but had acted on its own responsibility, and it was a question as to whether the city could pay the account. Mr. Trowern said if the city refused it would be necessary for the association to tax its members individually, whereat Ald. Sheppard retorted that if the city paid the bill it would have to tax all the ratepayers. Mr. Trowern thought that as the ratepayers as a whole were the persons who had benefited it was fair that they should share in the cost.

The matter was finally referred to the Mayor and the City Solicitor to report upon.

Mr. Williams, in reply to Ald. Sheppard, said the radiators could be put in after the present plans had been carried out, without any material expense beyond the cost of the extra radiators.

It was decided to go on with the work. The special report was made owing to a difference of opinion between Architects Jarvis and Siddall.

school be submitted to the ratepavers at the coming elections. The motion
was concurred in by the board, subject to
the opinion of the Legal Department as to
whether the amount should be \$26,000 or
only \$16,000.

Ald. Sheppard took exception to the reported statement of a church minister last Sunday to the effect that there was much gambling in the city, and that the Board of Control was responsible because it had not allowed the Police Department money enough to stop the evil.

Ald. Lamb thought too much attention should not be given to such remarks from "popular preachers."

The Vossische Zeitung says the President's message indicated that the feet of the United States are well in the imperialistic path.

Taking the message altogether it has been favorably received, both popularly and officially. The references it contains to the late Empress Frederick are especially appreciated.

Chef Grasett, on behalf of the Police Commissioners, wrote recommending that Polleemen Ironsides and McColl be paid their salary for the period they were away in South Africa, and the board authorized the payment.

Ald. Hubbard took occasion to remark that he thought the temporary clerks in the Assessment Department should receive the small advance in pay so strongly recommended by the chief of their department. He said that it had been noticed lately in tenders received by the board that prices were generally higher for everything than they were a year or so ago, but men's wages had not gone up in comparison. He thought that, as the advance asked was small, but would be comparatively large to those who would be benefited, it should be granted. Ald. Lamb said the men were poorly paid.

London, Dec. 4.—Edward John Eyre, who was Governor of Jamilca from 1862-66, died on Monday. He was 86. Governor Eyre's administration of Jamaica was bitterly assailed in England for its severtly. It was, however, defended by Thomas Carlyle, and the special commission which was sent to the island to investigate the matter found that praise was due to Governor Eyre for the skill, promptitude and vigor he displayed in suppressing the insurrection, but they condemned the prolongation of martial law and excessive punishments inflicted. Governor Eyre was suspended from office. The actions brought against him in the English law courts ended in his favor.
