CRIMINAL PHONE TRIAL AT WHITEVALE TO-DAY

President of Bell Telephone Company
Charged With Violating the
Criminal Code.

FAMED CONTRACT TO BE ON EXHIBIT.

County Crown-Attorney Farewell of
Whitby Will Prosecute on
People's Behalf.

THE DEFENDANT

C. F. Sise, President Bell Telephone Company.

THE COMPLAINT.

H. J. Hurd, Constructor of Independent Line.

THE PEOPLE'S ATTORNEY.

Col. John E. Farewell, K.C., of Whitby.

Whitevale, Feb. 25.—(Special).—The Bell Telephone monopoly will make its first appearance in court to-day in response to the demand of the people for equal rights in the field. The issue of the case has been forced by the farmers around Brougham to meet, is of a criminal character, involving President Charles Sise in a charge of criminal conspiracy for having secured an exclusive contract with the C.P.R. for the use of all stations along its lines for telephone instruments. The trial will occur this afternoon before Magistrate Davidson here. It promises to develop into one of the most sensational cases in Canadian jurisprudence.

When the case was instituted by the rural subscribers of the independent telephone, the Bell Company officials were having all manner of fun at the expense of the poor fellows who had the temerity to oppose the monopoly. That was two weeks ago, and President Sise from Montreal "opened" his reporters to the press, explaining that he would have to go through a "joke"-trial, it really too good a joke—a very ridiculous.

These are some of the retrospective features of the case which started a flame thru the rural districts of Canada that will probably end in the rout of the monopoly.

They got together. Dr. Fish and Frank Gieson of Brougham, Harrison Johnston of Whitevale and other prominent men got together and organized the Markham and Pickering Cooperative Telephone Co. They constructed thirty-two miles of spliced line between the points mentioned, and equipped some twenty-four

Men Injured by Dynamite It Went Off When Thawed

Accident on G. T. R. Extension Work at Port Britain, Near Port Hope—Miraculous Escape of Those Sitting Near, Workers Maimed.

Port Hope, Feb. 25.—(Special).—A few minutes saved as many lives to-day in a dynamite explosion near Port Britain, three miles from here, as it is, two men are perhaps fatally injured and two more had a most miraculous escape. The accident occurred at noon, and only four men were in the vicinity. Had it happened fifteen or twenty minutes later thirty or more men would have been in the building, which was wrecked.

There is, or rather, was a workshop near the track, where the employed on the extension congregated for their midday meal. Those nearest to the building had arrived and were opening their dinner pails, while a man had some sticks of dynamite thawing out near the boiler. The explosion occurred at the boiler, and a terrific explosion of 75 pounds of dynamite followed.

Two Men Injured. The four men who were commencing their meal were hurled through the air by the falling walls of the building and two of them were killed, bleeding and unconscious, beneath the debris. The other two, who were in the streak of fortune, were only bruised.

The injured men are Robert Hewson and Curtis Brownell, both of whom have families here. Hewson is at his home suffering from awful injuries to his head and face. There is a terrible wound in his chest, which makes his future uncertain.

LET THE GOVERNMENT DO IT OR LET ONTARIO GUARANTEE BONDS.

Union of Municipalities or Private Franchises Advocated by Mayor Cant and Others.

Galt, Feb. 25.—(Special).—A large and representative meeting of power users and business men was held in the Town Hall this evening. Mayor Cant occupied the chair. After a debate extending over two hours and a half, the following resolution was carried, without a dissenting vote, the same failed to stand ye or no:

Resolved, That this meeting would instruct its representatives at the convention in Toronto, re electric power, as follows:

That the work of developing and transmitting of electrical power from Niagara Falls should be undertaken by the government, and should be supplied to users within a reasonable radius at a price that would completely cover all the expense, allowing for wear and tear, renewal, etc.

Should the government refuse to do this, the franchise should be granted to the municipalities, subject to the following restrictions: That the government should be entitled to the power on equal terms.

That the municipalities within a certain radius should be supplied with the power at the same price in proportion to the distance of transmission.

That the franchise should be granted to all municipalities that came in and pay their share should be served on an equal basis.

That instructions should be granted to all applicants who could comply with the terms laid down by the government, and that the franchise before being granted by the government should be hedged around with restrictions, only allowing those to whom the franchise are granted permission to charge a reasonable percentage of profit on the investment, and that all applicants within a certain radius should be entitled to the power on equal terms.

That the municipalities within a certain radius should be supplied with the power at the same price in proportion to the distance of transmission.

CIVIC OWNERSHIP FACTS PRESENTED BY EXPERTS

Mayor Urquhart Attending Municipal Ownership Convention Being Held in New York City.

Compensation of Private Corporations Should Be Limited to a Fair Return for Services.

New York, Feb. 25.—The convention on municipal ownership and franchises, which is to continue until Friday, opened here to-day. The delegates were welcomed by John G. Agar, who said conditions in American cities are such as to make the thoughtful and patriotic seek some method of improvement.

Clinton Rogers Woodruff of Philadelphia opened the discussion of recent history of municipal ownership in the United States. He said in part:

British Experience. A paper on "Recent British Experience of Municipal Ownership," by Robert Douglas, editor of The Municipal Journal, of London, was read by the secretary. Mr. Douglas said, in part:

It may be true. The debate on Mr. Price's amendment occupied the night session. Mr. Hanbury, President of the Board of Agriculture, opposed the amendment on the ground that it would be a dangerous precedent to admit Canadian cattle, thus giving them preference over others.

He said he was anxious to meet the wishes of the colonies, but that 99 per cent of the farmers in Great Britain were opposed to the admission of Canadian store cattle, and nothing would induce him to abate a particle of the present act.

Both Substantial. C. R. Bellamy, general manager of the Ontario Electric Co., said in his address, "The advantages of municipal ownership are considerable. It regulates fares, provides for workmen's care, and secures the best of both worlds."

Can Be Carried Out. In conclusion he said: "The municipalities of Canada in large towns can be carried out with perfect security to lasting advantage of the public."

Mr. Charles Tverke's paper on "Municipal ownership and franchises" was read by the secretary. He said:

President Hanbury Declares Their Admission Would Be Dangerous Precedent, Giving Us a Preference Over Other Countries—Present Embargo Stands.

London, Feb. 25.—Mr. Price (Liberal) in the House of Commons to-day moved an amendment to the address providing for the repeal of the law excluding Canadian store cattle from British markets.

GANG OF THREE BAD MEN RUN AMUCK IN HAMILTON

Sensational Attempt at Robbery Was Frustrated by a Picky Nineteen-Year-Old Youth.

THEN MURDER WAS ATTEMPTED.

Hamilton, Feb. 25.—(Special).—The north end of the city is wildly excited tonight over one of the most sensational attempts at robbery that ever took place in the history of the city. A gang of bad men with revolvers struck the town about dusk and put on a wild West act.

One of them shot at two men, and it was no fault of his that he did not kill them. He is a young fellow about 23 years of age. He gives the name of Matthew Thomas, and his address as New York. He is a stranger to the police, and they have no means of knowing whether he is telling the truth or not. His pals made their escape. The police are searching the city and the district for them, and as they have good descriptions they have hopes of capturing them.

At Littlewood's Hotel. The scene of the gang's operations is Thomas Littlewood's hotel, at the corner of Barton and Bay streets. It is only a few blocks from the Stuart-street police station. About 8:50, after the workmen who are in the habit of making an evening call at the hotel had all gone, a stranger slipped into the back of the hotel to size up the place. He reported to his comrades outside that there was no one in the bar but a boy.

Soon after he stepped out the back way and three men sauntered in by the front door. Two of them took their stand at one end of the bar and called for drinks, while the third stationed himself at the other end of the counter. The pair threw down a quarter, and the minute the bartender, Fred Littlewood, a 19-year-old son of the proprietor, revealed the situation of the bill by placing the coin in it, the man who stood by himself covered him with a revolver, shouting "Hands up."

What for? demanded the bartender, as he flew to the door back of the bar, yelling "Father, father." One of the pair who stood together tried to stop the youth, who struck him with a beer glass. The man with the revolver fired, and the ball grazed the latter's head, crashed about the door behind him and buried itself in the wall.

The bartender shied another glass at the shooter and it caught him on the face, stunning him for a moment. His younger brother, Fred, and the father, rushed into the barroom from the kitchen. The two men beat a hasty retreat, but the man with the revolver was not able to follow them. The father dealt him a blow with his fist and grappled with him. The pistol was discharged again, but did no harm.

FOR AN OLD BOYS' REUNION

Preliminary Meeting Held Last Night in Hamilton and Many Suggestions Adopted.

FIREWORKS WILL BE TO THE FORE.

Transformer Burned Out in the Wireless Telegraph Apparatus and Test Not Made.

Hamilton, Feb. 25.—The Program Committee of the Old Boys' reunion held a preliminary meeting last night, which was well attended and most enthusiastic. A large number of suggestions regarding the form of entertainment to provide were sent in, ranging from a street fair to a ball, and including a night water fight, with illumination of the bay. This latter suggestion, with a superabundance of fireworks for the occasion, was practically decided upon. A number of suggestions from the list were selected and will be further discussed at another meeting to be held soon.

Summoned Four Greeks.

The police are weary of telling the Greek peddlers who come to the city with their wares, to move on and they have summoned four of them on the charge of obstructing the streets. The wares were taken to the police station and the men were released. Children's Society Shook.

A shocking state of affairs has been reported to the Children's Aid Society. It is alleged that many children are being reared in houses of bad repute. Trust Officer Hunter has been instructed by the members of the society to make a thorough investigation. If he finds the reports are true he will bring the keepers of the dwellings before the Police Magistrate and have the youngsters removed.

Telephone stations, at a cost of eleven hundred dollars. After paying out this amount they absolutely own the system. The line was extended to the door of the Leominster station on the locality, then they were informed that no instrument could be put in the depot without the consent of the Bell Company. This was a month ago.

They discovered for the first time the exclusive contract of the Bell with all Canadian roads, and the Bell refused absolutely to permit the farmers' line to run into the station in the fact that the Bell had no phone in the depot, but they were informed that no instrument could be put in the depot without the consent of the Bell Company. WANT MUNICIPAL LINE.

People of Toronto Junction Pay \$110 a Year for Phones

Municipal ownership and cheaper telephone service is the cry now being raised by the people of Toronto Junction. The horns that is being raised all over this section of Canada on this subject is being well supported at the Junction. Here is a curious illustration of the grasp that the Bell monopoly has on the smaller towns and rural sections of the Dominion. The Junction has a fine service at a rate of pay \$35 annually, and also ten cents extra whenever they wish to talk with Toronto.

WEST END FEARFUL.

Police Utterly Unable to Cope With Lawless Stanley Park Gang.

The seeming immunity from police interference enjoyed by the "Stanley Park gang," a number of hoodlums who have taken to further exploits in the way of licensed "derring do." On Monday night two burglaries and an assault were credited to the activity of the notorious crowd which makes its headquarters in the neighborhood of Stanley Park, and to the south and west of that breathing spot.

WATSON TO BE EXTRADITED.

Glueh Jugg Overrules Objections Made by Prisoner's Counsel.

Glueh, Feb. 25.—The extradition proceedings in the case of the State of Illinois against James Watson for subornation of perjury of the same name to an end this morning, when the prisoner was committed to jail to await transfer to St. Louis, Ill., for trial. In committing the prisoner, His Honor Judge Chudleigh said that he had taken time to consider the objections raised by the prisoner's counsel, and that the gentleman was not present he would not state them, but he could have them later if so desired. The objection, however, did not prevail. It had been shown by the evidence that the prisoner had committed an offence in East St. Louis that justified his being placed on trial there. His duty and he was compelled, His Honor said, to order his return to St. Louis for trial. He would then inform Watson that he was not to be surrendered for 15 days unless he could produce a bail bond for a habeas corpus writ and appeal to a higher court. The prisoner was then returned to jail.

CHILD AID STRYCHNINE TABLETS.

Albany, N.Y., Feb. 25.—Alonso Winter, aged 2 years, son of Alozo Winter, ate three strychnine tablets, each containing 1/100 of a grain, while visiting his grandparents today. He suffered convulsions and died before a physician could be summoned. His father, who lives on the farm, is the father of the child.

Police Are Powerless.

Monday's girl's events are not a small police force is making. It is admitted that the police are powerless to cope with the gang efficiently because, even if they were, it is difficult in the Police Court. The gang is made up of a lot of hard characters who know the topography of the section theory, and the appearance of a man in a dark coat and a hat, who is followed by a hurried scamp into the darkness, where they disappear constantly. PIERCE GALE SWEEP LONDON

Trees Uprooted, Walls of Buildings Being Constructed Blown Down, Houses Unroofed.

WIND ATTAINS VELOCITY OF 70 MILES

Coasts Suffered Severely and it is Feared Many Vessels Are Lost.

London, Feb. 25.—A severe gale prevailed here and along the coast last night, causing much damage to property.

In this city, trees were uprooted, walls of buildings in course of construction were blown down, and many houses were unroofed.

The Chatham and Dover Railroad was blocked for a considerable time by a brick shed which had been blown across its tracks.

It is estimated that the wind attained a velocity of between 60 and 70 miles an hour at times during the night.

The gale was very severe along the coasts and it is feared that a number of vessels have been wrecked.

Magnets that are attracting Capital—Western Canada Has Easy Access to Every Continent on the Globe.

Made \$200,000 in one year from 160 acres, besides paying for the farm and its running expenses.

Such returns are the magnets that are attracting capital into the country at a rate that is astonishing.

Development unparalleled in any agricultural country. The risks attending investment in the Western prairie for wheat raising are at a minimum.

The soil is practically inexhaustible in fertility, the climatic conditions furnish all requisites for perfect maturing of crops.

and make crop failure an impossibility. The railroads are keeping pace with the rapid increase in production.

and are making extensions into the newer districts. The Canadian wheat is of the best quality, and commands first place in all markets.

She can ship her products from two seaports, and has easy access to every continent on the globe.

Wheat raising on a large scale is attended by less expense, proportionally, than on the small farm.

The figures given above are not exceptional, and indicate the possibilities in the case of extensive operations.

Great aggregations of capital are going into the country for this purpose. Investments are regarded as safe as government bonds.

One of the first companies to take advantage of the situation is the British-Canadian Wheat Raising Co., which represents 10,000 acres of the choicest wheat lands in Astoria and is considering extensions.

Its present holdings represent a wheat-producing capacity of 200,000 bushels per year, and, owing to the prolific nature of the Western Canadian soil this product can be duplicated each year for a century to come.

Keep Fire-Arms Out of China. Washington, Feb. 25.—The United States government recently has been addressed by the other signatory powers to the Treaty of Peking respecting the exclusion of firearms from China.

It may be stated that the government is doing all it can to carry out the treaty agreement on this point.

Schwab Sails March 11. New York, Feb. 25.—Cables from abroad, stating that Charles M. Schwab and his wife are expected to return to this country on March 11, were confirmed by a member of the Finance Committee of the United States Steel Corporation today.

Vermilion River Boom Company. As the result of a deputation which waited on the Deputy Commissioner of Crown Lands yesterday, the Vermilion River Boom Company will be granted power to construct timber slides, dams, piers, etc., on the north shore of the river.

Members of the company hold limits representing 800,000,000 feet of timber. An ambitious arrangement was made with the Sable and Spanish River Boom and Slide Company, which already holds a charter for the construction of improvements on Vermilion River.

There were present: W. N. Wright, A. A. Wright, R. H. Roys, Joseph Turner, William T. W. Bigwood, E. P. Stone and J. Driver.

Hymn Claimants in Court. The claimants of the Eli Hyman estate appeared, personally or by counsel, for three days in court yesterday morning. There are now two widows among the claimants, a third is said to have been born in 1870, and it is rumored that a fourth may put in an appearance.

Samuel King, acting for the National Trust Company, administrator of the estate, applied for a commission to go to New York to take the evidence of the witnesses, who were well acquainted with Hyman. The application was granted, the Master saying that he may go himself.

Search for Two Sisters. A letter from Miss Emma Littlehouse of Elsie, Mich., was received by Inspector Stark yesterday morning, inquiring as to the whereabouts of Mrs. Nellie Park and Mrs. Susie Bates, who were last heard from in Toronto about nine years ago. The inquiry is made in behalf of another sister, who is ill, and not expected to live.

A Narrow Escape. At the corner of Yonge and Wellington-streets, about 10 o'clock yesterday morning, a southbound car struck one of the R. G. McLean Co.'s delivery wagons. The driver, Charles Wilcox, 98 Sussex-avenue, was thrown to the ground, and the frightened horse started to run away, but was quickly stopped. Fortunately, the car was running slowly, and neither man nor wagon was injured.

Says He is From Toronto. Inspector Stark has received a letter from J. R. Pattee of Connersville, Ind., making enquiries about a six-year-old boy in that place, who claims to have been kidnapped from somewhere in Toronto. He speaks of Toronto as Mr. Pattee wants to know if the Police Department here have any knowledge of the child. There is no record of the case here.

North Student Dies. Montreal, Feb. 25.—J. L. King of Barabado, a colored second year medical student at McGill, and one of the best cricketers ever represented the university on the cricket field, especially as a bowler, died at the Royal Victoria Hospital this morning from tuberculosis of the lungs.

Drops Judge Off. In the reorganization of the Egan-Uit Company, for colonizing New Ontario, ex-Judge Uit has been dropped. Mr. Egan will be in town shortly to complete arrangements with the government for the taking over of 2,000,000 acres.

MRS. J. E. O'DONNELL

Was Sick Eight Years with Female Trouble and Finally Cured by Lydia E. Pinkham's Vegetable Compound.

"DEAR MRS. PINKHAM—I have never in my life given a testimonial before, but you have done so much for me that I feel called upon to give you this unsolicited acknowledgment of

MRS. JENNIE E. O'DONNELL, President of Oakland Women's Riding Club, the wonderful curative value of Lydia E. Pinkham's Vegetable Compound.

For eight years I had female trouble, falling of the womb and other complications. During that time I was more or less of an invalid and not much good for anything, until one day I found a book in my hall telling of the cures you could perform. I became interested; I bought a bottle of Lydia E. Pinkham's Vegetable Compound and washed it; I continued its use and in seven months was cured, and since that time I have had perfect health. Thanks, dear Mrs. Pinkham, for the health I now enjoy."

—Mrs. Jennie E. O'Donnell, 278 East 21st St., Chicago, Ill.—\$5000 forfeit if above testimonial is not genuine.

Women suffering from any form of female ills can be cured by Lydia E. Pinkham's Vegetable Compound. That's sure.

Mrs. Pinkham advises sick women free. Address, Lynn, Mass.

DIFFERS WITH WILLIAM

German Theologian Discusses Kaiser's Recent Letter on Religion.

Berlin, Feb. 25.—Dr. Harnack, the foremost liberal theologian of Germany, in discussing Emperor William's recent letter on religion, differs from his Majesty's view in regard to the revelation of the divinity of Christ and contends that Protestantism recognizes the revelation in persons alone. Revelation in things is no longer admitted. The thinking mind cannot, he says, possibly content itself with two kinds of revelation running parallel with each other, as the Emperor assumes. Religious conception of history must be uniform, and any judgment confusing Christ with other masters will be rejected.

Dr. Harnack predicts the time is coming when all Protestant denominations and Catholic alike will join in a simple recognition of Christ as Lord and in a determination to do His will.

Completed To-Day in Montreal. Terminal arrangements of the Trans-Canada Railway with the C. P. R. and G. T. R. will probably be completed in Montreal today. A. E. Ames, P. E. Ryan, D. E. Thomson and the engineer of the railway went to Montreal last night with that purpose. The Hamilton Steel and Iron Company has been awarded the contract for 2,800 angle bars and 37,000 tie-plates.

Alaska Enquiry to Cost \$50,000. Washington, Feb. 25.—Senator Culom, from the Committee on Foreign Relations, today reported an amendment to the sundry bill appropriating \$50,000 for the payment of expenditures on the part of the United States for the joint committee for the adjustment of the differences between the United States and Great Britain in respect to Canada.

Get Gaelic Scholarship. Kingston, Feb. 25.—The M. C. Cameron College has been awarded a scholarship by Queen's senate to D. J. McDonald, a first year student in medicine.

Home Secretary von Posadowski-Wehner remarked that the American bill prohibiting the export of import of internal trade of adulterated food or goods treated in an unwholesome manner. A motion to exempt borax from this prohibition had been voted down in that House.

The Secretary added that the government was determined to strictly enforce the regulations until borax was proved not to be injurious by indisputable scientific authority.

Length of Session. Ottawa, Feb. 25.—(Globe Special) — In inner official circles the belief does not prevail that the session of parliament will last all the summer. "Why should it?" inquired a well-known authority today. "It is true there will be a redistribution bill, and probably important legislation affecting railways, but the former need not be a contentious measure. The fact is that, if a bill of this kind were proposed by the government, it would not suit the Tory party. But the government neither looks for nor expects their approval. The redistribution bill will be a measure as to satisfy public opinion, and the great mass of the people. It will be eminently fair in its character."

Belonger Acts Strangely. Montreal, Que., Feb. 25.—A telephone message from St. Scholastique, where Theophile Belonger, self-confessed murderer of Mayor Seguin of St. Eustache, is confined, stated that the cure of the prisoner's parish called upon him in his cell this morning, and found Belonger acting strangely. It is believed that his mind is affected by the weight of the crime.

Is Not Favored. London, Feb. 25.—The Canadian government's proposal to render financial assistance to that country is not looked upon here with much favor. Many here consider the money will be simply thrown away, as the majority of the population are returned to city life and know little or nothing of agriculture.

Sues for \$50,000. Mrs. Quinn is suing the Grand Trunk Railway Company for \$50,000 damages for the death of her husband, Russell Quinn, who died at the Victoria Hospital shortly after being injured in the wreck at Waukegan.

Meet at St. Catharines. The Liberal-Conservative Association for Lincoln and Niagara will meet at St. Catharines on Saturday, Feb. 25, at 2 o'clock p.m.

Anti-Duelling League Active. Berlin, Feb. 25.—The anti-duelling league, under the presidency of Prince von Lowenstein, is especially active at present organizing branches in the principal cities. One has just formed in Berlin under the chairmanship of Count von Bernstorff.

Fancy Cambrics, White Lawns and Nainsooks, Friday 10 Cents Yard

This one offering alone is of sufficient importance to bring all the activity we could wish for to the wash goods section to-morrow. We're now at the closing stretch of the clearing up time, which final period that just precedes the arrival of new goods, so whatever section has odd lots and left-overs it's there that price cutting falls heaviest. With a view to clearing the field for things to come several departments have "clearing up" orders for to-morrow. Read the whole list carefully:

A special table which contains in the aggregate several thousand yards of bright, crisp wash materials, including Crum's celebrated English Cambrics, in light and dark colors, regularly sold at 15c yard; about 200 yards in odd lengths of Real French Cambrics, regularly sold at 25c yard; 38-inch White English Nainsook with soft Cambric finish, for fine white wear, and 38-inch White Victoria Lawn, smooth, even thread with India Linen finish, regular 15c value; all these grouped to clear Friday, Price Section, per yard..... 10c

TELEPHONES AT YORKTON

How Thomas Paul Instituted a Service in the Progressive Town of Assiniboia.

Office Place in C.P.R. Station

J. A. Magee Tells of the Advance Made by the Citizens of the Town.

From many sources come the information that the Bell Telephone Co. is not the only party on the beach. The account of the doing of the good folk inhabiting the little town of Yorkton, Assiniboia, is of peculiar interest, in the light of recent happenings nearer home, and the history of their telephone service, as given to The World by Mr. J. A. Magee yesterday, should form a fitting parallel to the experiences of Locust Hill people, with, however, a different conclusion.

About five years ago one Thomas Paul, an Englishman, opened a jewelry store in Yorkton. This man, being something of an electrical genius, installed a telephone between his store and one or two other establishments in the village. This proved successful, but he was constrained to extend the service, especially as he had invested an improvement which greatly simplified the work of the central exchange, and very soon he had thirty subscribers. This village system, established without any capital, grew to such an extent that Paul set about extending it to the other end of the town. He endeavored to get the telephone company to take up the line, but they refused, and he was obliged to do it himself. He had no doubt but that he had done a good thing, and the system is being extended. The company has found it profitable to give an excellent day and night service for \$18 per year for business places and \$12 for private dwellings. In addition to the ordinary service, the telephone company will, upon request, call up subscribers at 6 a.m. to enable them to get the early train from the depot.

Mr. Magee of Yorkton, who is staying at the Rossin House, was asked if the telephone had been installed in the depot.

"Yes, a phone was put in early in 1902, but was, for some reason or other, removed."

"Was it because of any action of the Bell company?"

"No, it was probably on account of the alleged annoyance of people calling up the depot in an improper manner, and asking unnecessary questions of the local agent."

"In the fall of 1902, Thomas Shaughnessy visited Yorkton, and the town people took the opportunity of requesting that the local phone might be re-installed at the depot. Mr. Magee agreed readily, and the phone is still in operation at the Yorkton terminus. The nearest point on the C.P.R. where the company is Minnedosa, some 150 miles distant."

Speaking of the proposed new road, Mr. Magee said: "I do not think the people of Manitoba and Assiniboia would take kindly to any proposition for a road to receive government subsidy that did not, whilst opening up new districts, afford some relief to the settled sections. The proposed new Grand Trunk road will probably run some 100 miles north of Yorkton, through an entirely unsettled portion of the country. This new district is certainly a very beautiful country, and just as rich, considered from an agricultural standpoint, as the parts already settled. But even now, with the railroads doing all they can, with the C.P.R. endeavoring to buy locomotives in Germany, Scotland, England and the States, there is great congestion, and it is constantly increasing. Every motor in our part of the country is full, and it is next to impossible to get a local freight service."

"Only last fall 20,000 cattle were driven 110 miles to the nearest point on the Canadian Northern, and they shipped to Liverpool, because the C.P.R. could not handle them. These cattle went via Portland. It is probable that the C.P.R. will put in a branch from Wrentham, on the Calgary and Edmonton road, at an early date."

"Land values in Yorkton have greatly increased, some tracts that could be bought two years ago at \$15 per foot, now being worth \$40."

Morocco on a Holiday.
New York, Feb. 25.—J. Pierpont Morgan, accompanied by several members of his family and a party of friends, left town today on a southern trip, which will probably take them as far as Cuba. The trip will be one of recreation, and Mr. Morgan is expected back in this city the second week in March.
