Charge on Which H. B. Willing is in Toils—Woman Says She Was Lured From England.

WHITBY, July 15 .- (Special.)-Chief Jamieson this afternoon arrested Henry B. Willing, charged with bigamy. The information was laid before Magistrate Harper by Gertrude Lomax, handsome young English woman. She says she has known Willing from his youth in England, where his father is a manufacturer in Manchester. When visiting his people there last fail Willing told her glowing tales of his prosperity in Canada. Later, by letter, he arranged for her to meet him in New York in May last, and they were married in Jersey City on May 5. Claiming to be a commercial traveler, he said it necessitated his being away from her for long periods. After a while she became suspicious and finally Willing wrote admitting his first marriage, but proposed to run away from his family here in Canada and begin a new life with her in the western states. He had been sending her money meanwhile. his youth in England, where his father

The first was in the sixth round of the consolation between Walker of Hamilton. Thistles and Dr. Hamill of Alexandra, the playing all thru being of the highest, especially that of Marks, the lead for Dr. Hamill, whom his friends have labeled "The best bowler in the world." This game required an extra end, Walker, whose playing all thru had been perfect, drawing two close to the kitty on the line, after-Hamill's third mas had run the kitty thru and lay shot.

The other game was between Begg of Canadas and Ecclestone of St. Kitts, the playing here seeing almost impossible shots being made, the players being able to put the bowls where they were wanted, Begg winning out by one shot after a measurement in the last end, thus leaving the finals for the association, Green, wood defeating Code of Granites 15 to 1. The finals for the association, Green, wood defeating Code of Granites 15 to 1. The finals in the association and consociation will be played to-morrow, while doubles and singles will narrow down to the semi-flials.

One shot is worth a lot to a rink some times and this Tremble of Caer Howell has found out, he losing in all three competitions by one shot, putting him out of everything. Scores:

Vancouver and New Westminster lacrosse clubs are at loggerheads as a result of a game at the Royal City Saturday, when Westminster won by Saturday, when Westminster won by 8 to 7. The Westminster club is talking of defaulting next Saturday's game because Vancouver is insisting on neutral referees. In last Saturday's game Fred Lynch, the Westminster judge of play, walked off the field because Mat Barr, the Vancouver referee, overruled him and took away a penalty check which Lynch gave to a Vancouver releaser.

The local Capitals are preparing for a large crowd to see their Junior C.L.A. fixture with All Saints on Saturday in Jesse Ketchum Park, and it sure should be some game, as the All Saints are being touted as the coming Junior C.L.A. champions. They have not lost a game this season and have combination work and team play down to a degree that would turn some of the N.L. U. teams green with envy, while the Caps are out to win this game and have an idea they can just about wipe out last Saturday's defeat. The Caps' team will be picked from: McArthur, Kent, Richards, Twigg, McQuarrie, Bullen, Parkinson, Stevenson, Law, Pollock, Hewitson, Harman, Black, Capties and Collins. The game will be

PUBLIC RIGHTS AND PRIVATE IN-

Having signally failed to browbea; the Ontario Government, to influence public opinion and to discredit the province and its municipalities with the British investor, the opponents of the Whitney-Beck power policy are new concentrating their last desperate effort on the federal authorities. Ottawa is appealed to with almost frantic entreaty to step in and override the clear and reiterated verdict of the provincial electorate, and the municipalities concerned, in favor of a public supply of Niagara white coal. It is hardly credible that the Dominion Government contemplates the disallowance of the acts of the provincial legislature now before it, which have for their object the protection of the municipalities from vexatious and oppressive litigations at the instance of the abettors of the financial rings whose plans to sew up the province have been so effectively frustrated.

A document has been put into circulation purporting to give the opinions of Dr. Albert Venn Dicey, K.C., Viperian professor of English law in the University of Oxford on the Cobalt cases and on the London power case. The learned council admits that the legislature has power to pass the acts in question and that they are valid, but holds that the governorgeneral has unlimited power of disallowance. He proceeds to answer other queries which indicate, without directly charging, that these acts are unjust and impolitic, and Professor Dicey follows the lead. It is not our purpose nor is it necessary to suggest that his opinion is not an honest one, but every one knows how easy it is to get just the answer wanted by submitting a memorial with its statements carefully edited to suit the purpose. The parties who have gone to the expense of obtaining these opinions from the Oxford expert carefully refrain from printing the information on which he proceeded and the omis-

The character of that information can, however, be gathered in part from the nature of the replies made to the various questions, particularly the fourth. The professor says that "the idea naturally suggests itself that a so-called law which without compensation confiscated the property of an individual or of designated individuals, or imposed upon an individual or on designated individuals, liability for a contract into which he or they had not in fact entered, might be held invalid as not being a law at all." This is enough to show the imperfect and one-sided, and therefore misleading nature of the information with which Professor Dicey must have been supplied. The strength of the provincial government's case and the justification of the challenged acts he in the fact that no valid property right has been affected and that so far as the power act is concerned it simply carries into effect the will of the great majority of the people. Things have come to a pretty pass in a democratic country when it is sought to restrict. hamper and defeat the right of the province to protect its natural resources from private exploitation and to administer them in the public interest.

#### THEIR EXPERT OPINION NOT AS COUNTED UPON

Prof. Dicey, in Survey of Florence Mining Co. Litigation, Admits the Power of Province

In the cases of The Florence Mining Company versus the Cobalt Lake Min-ing Company and Smith versus City of London, opinions were sought on the London, opinions were sought on the legal merits of the questions raised from A. V. Dicey, K.C., LL.D., Vinerian Professor of English Law, Oxford, honorary LL.D., Cambridge, Glasgow, and Edinburgh, and author of several standard works on legal subjects.

Mr. Dicey was retained by the Electric Power Corporation interests of Ontario with a view of attacking the present Ontario Government. Mr. Dicey's opinion was evidently not so favorable for the power interests as

Dicey's opinion was evidently not so favorable for the power interests as was hoped, and on the legal aspects of the case he admits that the law is with Sir James Whitney. The matter is dealt with editorially elsewhere.

The opinions following have not been given general circulation, but there is nothing to be gained by concealment.

The two cases, namely, the Cobalt case and Smith v. City of London (London power case) appear to raise the following questions:

the following questions:
First question—Does the B.N.A. Act,
1867, s. 92 ss. 13, confer upon a provincial legislature (in this instance the
Legislature of Ontario) power to deprive individuals of substantive rights, and especially of property rights without compensation?
(See Mr. Labatt's opinion in Canada Law Journal, April 15, 1909, p. 257.)

His Answers. Answer to first question-The B.N.A. Act, 1867, s. 92, ss. 13, confers upon a provincial legislature power to make provincial legislature power to make any law in relation to "property and civil rights in the province," and thus appears to confer upon such legislature power to deprive (if it sees fit) individuals of substantive rights, and, even the they be property rights, without compensation. There is nothing in the act, as far as I can see, which provides that a law passed by a provincial legislature shall not be palpably unjust; nor is there anything in the act, as there is in the constitution of the United States, prohibiting the passing of a "law impairing the obligation of contracts" (Constitution of U. S., article 1, sec. 10). The guarantee provided by the B.N.A. Act, 1867, against possible injustice resulting from the legislation of a provincial legislature is to be found, if anywhere, in the governor-general's power under the B. N. A. Act, 1867, ss. 56, 90, to disallow any law passed by a provincial legislature. Second question-Does the B. N. A.

tive operation which deprived an in-dividual of his right to maintain an action, especially if it were already nenced for interference with an actually acquired right.

Power of Governor-General. Third question—Does the B.N.A. Act, ss. 56 and 90, give the governor-general mited power of disallowing the acts

of a provincial legislature? Answer to third question.—The whole working of the constitution of the Dominion, which is created under the B. N.A. Act, 1867, appears to depend upon the possession of, and the use by the governor-general of this unlimited and general power of disallowance. (See Lefroy, Legislative Power in Canada, propose 18 pp. 185-297). On this point proposn. 10, pp. 185-207.) On this point I entirely agree with Mr. Goldwin Smith, that the enactment giving the power of disallowance plainly "refers to a power of political control to be exercised in the interest of the nation, not to a mere power of restraining its legal stretches of jurisdiction, a function which belongs, not to a mere power of restraining its minion.

Second question—Does the B. N. A. Act, 1867, s. 92, ss. 18, give power to a provincial legislature to enact a law staying actions for the enforcement of the substantive and actually acquired rights of individuals?

Answer to third question—The act does, in my opinion, confer such power. I do not think it possible to draw in principle a distinction between a law which without compensation deprives an individual of his property rights and a law which deprives him of his rights to enforce such rights by action. It is, of course, true that, unless the plainest language be used, any court would be unwilling to presume that a law was intended to have a retrospective operation which deprived an individual of his right to meantain the cobalt case. But the obvious unfairness of a law con hardly affect its validity if the law falls within the terms of the B. N. A. Act, s. 92, ss. 18. The idea, indeed, naturally suggests itself that a so-called law which without compensation confiscated the property of an individual or of designated individuals, liability for a contract into which he or they had not in fact entered might be held invalid as not being a law at all, i.e., as lacking that generality which some writers ascribe to a law (see e.g., Pollock, First Book of Jurisprudence, p. 35), and that, e.g., the Power Commission Act, 1909, sects. prudence, p. 35), and that, e.g., the Power Commission Act, 1909, sects. 2-8, might thus be treated by a court as falling outside sec. 92 altogether on the ground that it was not a law at all. But I doubt greatly whether this posi-

tion could be maintained with success before the privy council. Persons who suffer from unjust 13g152 lation of a provincial legislature have the following remedies:

1. They may, if a given act, e.g., the Power Commission Act, 1909, is still liable, as I believe from the papers sent me it is, to disallowance by the governor-general, petition for its dis-allowance. It is hardly, I may add-possible to conceive a stronger case in favor of disallowing an act.

2. They may influence the public opinion of Canada so as to induce the

It is argued that the license is a tavern, not a club, license and that no attempt is made to ac-commodate the general public as required by law. The supposition is that the temperance forces are behind the application.

#### Tariff Receipts Expand.

Customs receipts at the port of Toronto are growing at a stupendous rate. For the first 15 days of July the collections were \$300,000 in excess of the amount collected in the same period ast year. It is estimated that the increase for the first six months of this year when totaled up will be found to exceed the first six months of 1908 by at least \$1,000,000.

The open letters of Ex-Mayor John Fisher and Nicholas Garland, each of whom has had a long and honorable connection with the town, will go far toward reassuring those who had not previously decided to support the two measures.

The accompanying letter of Mr. Warren is dictated largely by personal considerations, and applies wholly to the parallel roads matter, and is not intended to reflect on the sewerage question.

Now that a large number of leading townsmen have signified their hearty approval of the bylaws, it is hoped approval of the bylaws, it is hoped approval of the large and representative vote to 8 p.m. An admission fee of 26 cents.

To the Citizens of North Toronto:

As a very old resident and ratepayer of the town I take the liberty
of writing to you with regard to the
important vote which is to be taken
next Saturday, the 17th of July, on the
bylaw for the purposes of establishing
a sewage system and the opening up
of roads parallel to our main thorofare, Yonge-street.

With regard to the first question,
you are aware of the tremendous increase in our population and that it
is absolutely necessary on sanitary
grounds that a sewage system be
adopted, otherwise our town would be
subject to various diseases resulting
in costs and expenses far exceeding
the cost of the sewers, leaving out other considerations of health and comfort.

You are no doubt aware of the
tready inverses in the price of land in
least the streets which were on the misrepresentations made by the chairman
of the parallel roads committee in the
report of an interview which appeared
in The Toronto World of July 13. The
facts of the case are these: Ten years
ago my brothers and myself came to
Eglinton and purchased three acres of
land, intending to make a home for our
selves. We knew nothing about a
special assessment on five-acre lots until our attention was drawn to it by
some then members of the town council, and we then purchased two acres
more, making a five-acre lot. Before
making any improvements we secured
a map of the town and found that a
street ran thru the property we acquired, and we asked the council if
there were any likelihood of the property being split up at a later date. We
were informed that there was not, unprincipal feature of the vote was for president, the two candidates being W. Glockling and J. W. Bruce, with the result that the former was re-elected.

Mr. Whaley, in his estimate for the property thru which the proposed road is to pass on the south side of Woodward-avenue, 800 feet further east from the piece I offered the town at \$4 a places the cost at \$11 a foot. Does this look like speculation on my part? I would invite Councillor Howe, or any Persian Cossacks and the Nationalists. The insurgants continue in the ascendancy. The shah will probably hold out until the Nationalist guns are trained on his palace. The fighting to-day centred around the British legation.

REAL ESTATE BROKERS. OPEN EVENINGS 7 TO 9 Deer Park, North 644. 1421 Yonge Street MORTGAGES BOUGHT, SOLD AND PLACED

Workingmen, salaried men, tradesmen, retired men and others, take a glance over the following list of properties we are offering for sale. Whether you are a homeseeker or an investor we can satisfy you. We are the greatest Real Estate Brokers in the north end of the city. Our advice is "put your cash into north end property and you will make money." A gold mine could not give you better results. Call and see us and let us show you over this Eldorado. Fortune lies right here. Why seek elsewhere?

Special Offerings in the Town of North Toronto

North Toronto

PER FOOT-WE HAVE A VERY bolist let us put this through for you.

\$2500-DAVISVILLE AVE., DETACH-detached, brick, 9 rooms, all solid brick, 6 rooms, gas and water. A splendid residence, situated high and dry on a lot 80 ft. by 135 ft. This is a bargain.

\$2600-BALLIOL ST., DETACHED, solid brick, seven rooms, furnace, bath. This is a cracker. If you have been show you this property.

\$2600-SOLID BRICK, 8 ROOMS.

PER FOOT—SHERWOOD AVE.—
One lot 54 by 185. This lot is in a good location, and there are splendid fruit trees on this property, and it is only a few minutes walk from Yongestreet. One sold.

\$20 PER FOOT—ONE OF THE BIG-gest bargains of the season. A large lot on Roehampton-avenue. The lot has a frontage of 200 feet by a depth of 200 feet. This will make a good, sound investment. Make an appointment with

PER FOOT—A FEW SPLENDID level lots we are still offering at this price on Glenwood-ave. This is a workingman's chance to secure a good home site. The terms are easy.

\$7.50 PER FOOT—WE HAVE TWO beautiful lots on Glenwood-avenue. They are only a few minutes' walk from the Glen Grove cars. Now is the time to buy; these properties are increasing in value every day.

\$14 PER FOOT — ON GLENWOOD avenue, quite close to Yonge-street, nicely situated in an orchard of young fruit trees. This is a most desirable location. Trot along and see this property.

PER FOOT IN DAVISVILLE—
These are the choicest building lots in this locality. They are situated only a few feet distant from Yonge-street, in a first-class residential district. These are the cheapest lots, bearing building restrictions, to be obtained in the Town of North Toronto. We have but a few of these lots, each having a frontage of 50 feet, by a depth of 150 feet. If you wish to buy don't delay, as we expect to turn over these lots during the next few days. We can thoroughly recommend these as worth seeing. You won't fail to buy.

#### Steady Upward Movement In Some of the Stocks

Steel Trust Shares Mount' Steadily Higher-New Record Made Lake-of-the-Woods.

Thursday Evening, July 15.

Out side of a few speculative issues trading at the Toronto Stock Exchange to-day was on the quiet side. Business was dull the stocks in the main being inactive. The regular mid-summer apathy has apparently taken hold of the exchanges and for the present at least an easy running and listless market is looked for.

The continued strength of Lake of the Woods was the one prominent feature of the Canadian exchanges to-day, this issue selling up to 125 on the local market, a clear gain of five Young Farmer Falls From Load on Upturned Tines.

ture of the Canadian exchanges today, this issue selling up to 125 on
the local market, a clear gain of five
points above yeseterday's closing figures, thus making a new high record
for the year. In Montreal the shares
sold as high at 125 5-8.

Sao Paulo, which closed strong yesterday around 147, sold up a point
on the morning board, but weakened
later, closing at 147 3-4. Dominion
Steel was easier both here and in
Montreal, closing at 44 1-2 on the exchange here for the common. Rlo
sold down half a point on the morning
board, but recovered later and closed
around yesterday's figures.

C. P. R. has been much in the limelight of late, and advanced again today, selling up to 185, a gain of almost a point. Twin City was dealt in
to a small extent around yesterday's
figures. The regular quarterly dividend of 1 1-4 per cent. has been declared on these shares, payable Aug.

In the mining section La Rose and Dunn Township.

He, his nephew, Arthur Anger, and Harry Dickson, were drawing in a lead of hay. Part of the load slid off, and Anger and a fork went with it. The handle of the fork struck the round first, and before it could turn Anger alighted on the upturned tines with his full weight, entering over the heart and under the left arm. The tipes penetrated the lungs and heart At the request of his companions they pulled the fork out, and, with blood gushing from his nostrils, he died without uttering another word.

More Voluntary Concessions to Thousands of Policyholders by the Metropolitan Life Insurance Company.

A remarkable spirit of liberality toward its policyholders is again the
striking feature of the periodical-statement or report of the Metropolitan Life
Insurance Company, a summary of
which is published this week.

The attitude of the Metropolitan Life
toward the millions of individuals who
have relations with it invites comment,
and affords some ground for interesting comparisons. The inducements offered by responsible life insurance
companies to insurable persons are of
two kinds. One consists in a proposition to carry a definite amount of
'straight'' insurance at low cost; the
other offers innumerable plans by
which in return for excessive premium
payments the person insured is to
"participate" in the earnings of the
company, receiving benefits that are
not definitely stated in the policy itself.
The first plan appeals to the man of
judgment as a clearcut business contract under which all obligations are
mutually understood. The other appeals to the speculative instinct, and
demands a higher degree of confidence
in the insuring company, which carefully avoids an absolute guarantee of
benefits proportioned to the high rates
demanded.

The business of the Metropolitan Life
has increased tremendously year by clared on these shares, payable Aug.

In the mining section La Rose and Nipissing were both strong. Nipissing selling up to \$11.10 on the Toronto exchange and \$11.15 at the Standard.

La Rose remained firm around \$8.45.

TO CUT RAILWAY TIES.

Tenders for the right to cut railway ties are being invited by the department of lands, forests and mines in the following districts, viz.: Sudbury, Algoma, Thunder Bay, Kenora, and Rainy River.

This method of inviting tenders inaugurates a new system introduced by Hcnl Frank Cochrane, minister of lands, forests and mines. In the legislature last session Hon. Mr. Cochrane condemned the practice of issuing permits to privileged contractors to cut ties, and promised to remedy the evil. This is the first sale under the new regulations.

than that of the immediate past. Transactions were pretty evenly distributed thruout the list, and whole prices changes were generally narrow, they were in the main towards higher levels.

Nipissing continues strong on all markets to-day, selling up to \$11.15 for a small block of the shares. La Rose maintained the recent high prices reached, selling as high as \$5.50, with the bulk of transactions around \$8.46.

The recent movement in Green-Meehan, Silver Leaf and Cobalt Lake has stocks being comparatively inactive on to-day's: boards. Green-Meehan sold around 16 1-2 cents, but was weaker at the close: Cobalt Lake remained steady at about last night's close, and steady at about last night's close, and steady at the close: Cobalt Lake remained steady at about last night's close, and city of Cobalt after selling up to 48.1-2 declined some three points and closed at 45.

steady at about last night's close, and City of Cobalt after selling up to 48 -12 declined some three points and closed at 46.

Nova Scotia was the centre of activity for the day and sold up over a point, part of which was lost later, and the point part of which was lost later, however.

Temiskaming remained firm at 33 deents and closed fractionally above that figure. Beaver was stronger, advancing two points above yesterday, and closing firm at 30 3-4. Clisse was moderately active and firm, quotations at the close being strong at 45 1-2.

The other issues, while dealt in to a greater or less extent, remained about unchanged.

At the close the market was dull, but on the firm side. There is still a lack of outside buying and market sentiment in general favors slightly lower levels until the present mid-summer apathy has disappeared.
