ARE WORKING HARD TO EFFECT HARDENED PACT DEADLOCK

Democratic Leaders and Mild Reservation Republicans Hold Further Meetings.

WILSON MUST CONSENT

Washington, Jan. 12.—Further progress toward compromising the senate peace treaty controversy was reported tonight by Democratic leaders and "mild reservation" Republicans, but spokesmen for the Republican faction favoring the Lodge reservations and those opposing the treaty declared they could see no indication of early action.

Senate lobbies and private offices were crowded again today with individual conferences, being principally on the Democratic side. Among the "sounding out" developments was further exchange of views between the "mild reservation" Republicans and Senators Kendrick of Wyoming and McKellar of Tennessee, Democrats, regarding reservations suggested by the two Democrats.

The Democrats must secure President Wilson's approval of any compromise suggestions. Republican spokesmen said, before substantial progress be made, the Democratic senators of the Democratic senators said they hoped negotiations would reach a stage soon when conferences between the president and Democratic senators regarding some definite proposals affecting the reservations would be in order.

Telegrams from William J. Bryan urging ratification of the treaty by next Friday, when the inaugural meeting of the league of nations council is to be held, reached several senate members during the day. Some of the Democrats said they believed it might be possible to dispose of the treaty at that date, but Republican leaders said such action was improbable.

EARLY DISCUSSION WATERWAY PLANS

Ottawa, Ont., Jan. 12.—Governments of the United States and Canada have both passed orders approving of the proposed investigation by international joint commission into the St. Lawrence-great lakes ocean navigation and power scheme. The inquiry will commence at an early date and will be in two phases—engineering and economic.

What has just been approved are the questions which will be submitted to the international joint commission. The number nine. The first question has to do with the improvements necessary between the Canadian and Montreal to open the way for ocean-going vessels and of what draught. Questions 3 to 6 are all on engineering problems and have to do with the regulation of Lake Ontario and the low water flow of the St. Lawrence below Montreal, while questions 7 and 9 are to do with the development and navigation traffic likely to result from the work.

The products of the plan is to let the head of the lakes. Essential to the undertaking is the removal of the obstructions between Lake Ontario and Montreal by joint action of the United States and Canada.

LACK OF NEWSPRINT LIKELY TO CAUSE SUSPENSION OF WESTERN NEWSPAPERS

Canadian Press Despatch. Ottawa, Jan. 13.—Probability that a number of daily newspapers in western Canada would have to suspend publication for lack of newsprint developed today when the Fort Frances paper finally and absolutely refused to fulfill the order of the paper controller, Mr. Robert A. Pringle, according to the committee of the publishers now in Ottawa.

Early in the day the paper controller representative at the mill, Mr. J. L. McNicholl, in compliance with instructions from Ottawa served notice on the Fort Frances Pulp and Paper Company, to resume shipments. Declaring his intention of this order, he declared his intention of enabling the western papers to continue publication. The mill refused to obey the order.

Why Beck Was Called to Save Railway Situation on Border

Five Towns and Cities Adjoining Each Other Needed Strong Body to Combine Advantages of Public Ownership and Independent Management.

Special to The Toronto World. Windsor, Jan. 12.—"You want to know why Sir Adam Beck and the Hydro came into the Windsor city railway?" said the Hydro champion of Windsor, at lunch in Detroit. "Look at this map, and you'll see—but come into this little room, where we can talk," and we went across the upstairs corridor of the club, from which we could see the thickest traffic of Autotown.

Detroit Side of Windsor. And, by the way, it is one of life's little anomalies that when you visit the Canadian border cities to learn about Canadian development, you are taken for lunch into a foreign country—that is if you have been vaccinated within seven years and your friend happens to belong to a Detroit club. Something may be said later about the international side of the border cities. Meantime bear in mind that Windsor is much nearer the business centre of Detroit than many parts of Detroit are; and imagine the talk which follows taking place on this foreign but friendly soil.

"Look at this map," said the H.C. O. W., "and the situation will be clear. Here's a shore-line, facing the United States like a bow for twelve miles from Willow Beach to the southern part of Fighting Island. Windsor Ferry is in the centre of the bow. It is also in the centre of the industrial expansion which has begotten the name of 'the border cities.'"

"But there aren't border cities. The name is a little ahead of the lawyers. The chamber of commerce uses it, but ordinary legal documents can't. The legislature doesn't know the border cities. Nor does the Ontario Hydro Commission, which lays an embargo on the entrance into Canada, for the time being, of immigrants who are mechanics, artisans or laborers, skilled or unskilled, unless they possess a monetary qualification of \$250, as well as transportation to destination. This restriction operates from Dec. 31 last and will remain in force until March 31 next, unless otherwise ordered."

Price of shoes will go higher, declare retailers. Predict an increase, but tell public to save by home shining.

All materials are up. Boston, Jan. 12.—Have shoe prices reached the limit? A committee of shoe retailers and shoe dealers' association, after canvassing the situation in the trade, says "No." The question and answer are contained in a report to the public, a draft of which was given out today.

Shoes now on sale for the fall of 1919 were made from leather costing 60 cents to a dollar a foot. Shoes now being made for spring are from materials costing 80 cents to \$1.25 a foot, plus higher costs for other materials and additional grants to labor, with less profit per man produced.

Comparison of the cost of a nine-inch black kid woman's boot in September, 1914, and September, 1919, involving 21 articles entering into its manufacture, was presented to show that it cost \$10.04 four months ago, and now costs \$13.85 in 1919.

Official Notice is Issued Of Railway Strike in Spain. Madrid, Jan. 12.—Official notices of a general strike of the railway men in Spain, to be effective January 20, was issued by the committee of the National Federation of Railwaymen today.

whereupon the sheriff, who had been summoned to the scene with the paper controller's representative, proceeded to effect a seizure, says a statement from the committee of publishers. Mr. E. W. Backus, president of the company, had instructed his employees to refuse admission to Mr. McNicholl by force if necessary, but reports received late last night indicated that the seizure had been effected.

The seizure will not be effective in providing newsprint for the publishers as the company had, in anticipation of this action by the paper controller, refused admission to Mr. McNicholl by its customers in the United States, it is declared. To further complicate matters to the detriment of the publishers, the seizure of paper by the controller, the company tore up the switch by which cars are moved from the mill to the tracks of the Canadian National Railways.

Canadian Embargo On Workmen's Entry

Montreal, Que., Jan. 12.—Attention of shipping companies has been called to order-in-council No. P. C. 2499, which lays an embargo on the entrance into Canada, for the time being, of immigrants who are mechanics, artisans or laborers, skilled or unskilled, unless they possess a monetary qualification of \$250, as well as transportation to destination. This restriction operates from Dec. 31 last and will remain in force until March 31 next, unless otherwise ordered.

PRINCE BANQUETED BY CANADA CLUB

Says it is impossible to say what part of the Dominion he likes best. Duty of the Empire.

London, Jan. 12.—The Canada Club had the largest gathering in its history when tonight it entertained the Prince of Wales, the Earl of Athlone, Earl Reading and Lord Byng of Vimy were amongst the other guests.

The prince raised his glass to the outset when he reminded the audience that it was at a Canada Club gathering "before there was any word of it in the press," that he originally announced his intention to visit Canada. "Little did I think," he continued, "how that visit was to influence the rest of my life. People have asked me which part of Canada I liked best. It is a question impossible for me to answer, not only for diplomatic reasons, but simply because I do not know."

He went on to speak of incidents which had been featured in the movies. The prince spoke of the vigorous and progressive spirit that atmosphere which he felt he would find in Australia and New Zealand in a few months' time.

Issues the call for league meeting. President Wilson fixes date for next Friday, but U. S. unrepresented on council.

Washington, Jan. 12.—President Wilson today issued the call for the first meeting of the council of the league of nations to be held at Paris, 10:30 p.m., Friday. It was directed to the ambassadors of the entente nations which have become a party to the executive agreement.

Presidents of German States Have Submitted Resignations. London, Jan. 12.—A wireless message from Berlin says that the presidents of the governments of West Prussia and Posen have submitted their resignations.

Japanese Cruiser Was Escort Of Munition Ship to Mexico. San Antonio, Tex., Jan. 12.—Government reports that a recent big shipment of arms and ammunition to Mexico was escorted by a Japanese cruiser, have been sent here for the information of the senate committee investigating the Mexican situation.

Secretary to Missing Millionaire Has Not Yet Been Reported By Friends. John Doughty, who acted for 18 years as secretary to Ambrose Small, is still missing and his prolonged absence is causing considerable anxiety to his relations.

Complain That M.C.R. Officials Refuse Canadian Currency. Ottawa, Ont., Jan. 12.—(Special)—The Western Ontario Federated Boards of Trade protested recently to the railway commission against the action of the Michigan Central Railway in western Ontario refusing to accept Canadian money on its sleeping and dining cars.

SUGGEST LAWYER AS CORONER AND ABOLISH SYSTEM OF JURIES

Magistrates Discuss Police Court Procedure Reform With Attorney-General. NIGHT POLICE COURTS.

Following a number of representations on police court procedure made by J. W. Curry, K.C., M.L.A., to Hon. W. R. Massey, attorney-general, the latter conferred at the parliament buildings yesterday afternoon with Magistrates Denison, Cohen, Kingsford and Ellis, Mr. Curry also being present. Also nothing of a definite character was decided upon, the following were among the subjects discussed with a view to some action being taken in the near future:

Night courts at various police stations for the trial of petty misdemeanors. Issuing of warrants only in serious cases, or where there is good reason to believe a summons will not be answered. Better facilities for bail and bondsmen not being limited to freshets.

Change in constitution of board of police commissioners. Evidence in police court to be taken in shorthand. Appointment of a legal practitioner to conduct all inquests in Toronto, holding of post-mortem examinations only in necessary cases, and abolition of jury system.

Antiquated System. It was pointed out during the discussion that the present system of holding police courts in Toronto has not been changed in its main features for the last 40 years, and it was felt that something should be done to relieve the central court as well as to consider the convenience of dependents in per cases. There are twelve police stations in the city, all of which, it is urged, could be used at night for the trial of minor cases, so that those charged with breach of by-laws or other minor offenses could attend without losing their day's work. Branch courts in the east and west ends are suggested for a start.

WAR BATTERIES RETAIN IDENTITY

Do Not Believe in Eight-Hour Day for All Classes of Workers. Quebec, Jan. 12.—An important delegation of national labor men called on Sir Lomer Gouin today to submit a number of articles extracted from a memorandum adopted at the general national convention held in Three Rivers last summer. The main article under discussion was the eight-hour day proposal.

The national labor men exposed a program for the application of the proposed eight-hour day. They do not believe in the eight-hour day for all classes of workers, advocating preferably an agreement between industrial heads and workers, whereby the length of the day would be established according to the particular and individual needs and occupations of every class. For instance, men or women who work in certain plants cannot stand the eight-hour day, while clerks and office men may stand eight and more hours. They proposed that the matter of length of the day's work be left in the hands of industrial heads and their employees, who would later come to the government for sanction of their agreements.

Do Not Believe in Eight-Hour Day for All Classes of Workers. The ex-kaiser's hope which up to last August, so visitors told me, was quite strong, that he would mount Germany's throne, is now gone. The statement of Colonel Bauer, Ludendorff's right hand man, in speaking of the ex-kaiser, that he is still an abstemious eater. He makes an effort to maintain a soldierly appearance, but only with great difficulty. He gives the impression of having grown shorter.

His Mental Condition. Visitors do not agree regarding his mental condition. Some told me he showed considerable vigor; to others it was plainly evident a medical commission would quickly declare him no longer—if ever—mentally competent. It is even urged that an examination by such a commission would best solve the problem for all concerned—Holland, Germany, the allies and Wilhelm himself, at times haltingly. Occasionally he appears to lose the drift of the conversation, but when he gets excited or some chord of his memory of bygone things is touched, he breaks into his old vivacity.

Taxes on State Monopolies Yield Big Increase in France. Paris, Jan. 12.—The yield of indirect taxes on state monopolies for December, 1919, amounted to 193,685,000 francs, an increase of 341,364,000 francs as compared with the corresponding period of 1918.

HAS ABANDONED HOPE OF AGAIN MOUNTING THE GERMAN THRONE

Former Emperor is More Concerned About Bolshevism Than Extradition. AGED AND CORPULENT.

Special to The Toronto World. BY KARL-H. VON WIEGAND. The Hague, Jan. 12.—That men that you saw me, but that you did not see me saw."

Ex-Emperor Wilhelm II., self-invented and uninvolved, mounting the same time Holland's greatest advertising feature, had one of his rare moments of high spirits when he made his final remark to a former Dutch minister, who related him at Amerongen a few days ago.

To help keep up his spirits, the ex-kaiser lately has been allowed to receive increased number of visitors, but newspapermen are not considered as belonging in that category of entertainers, and "cheers-up" of the former emperor. The Dutch government courteously, but firmly, explained that Wilhelm Hohenzollern has given his word not to receive reporters.

"We expect him to keep it," was the statement made to me. "When his status is clear and his fate determined we may have no objection to your seeing him, if he wants to receive you."

At The Hague, not in Amerongen, I found a place to get information about the ex-monarch in Amerongen visitors behave like oysters when they leave the ex-emperor's refuge. Here and in Berlin they "loosen up" and talk freely in private circles.

Faire Bolshevism. The ex-kaiser is much concerned about Bolshevism that he is about the probability of Holland giving him up, according to persons who have seen him recently. Bolshevism is his favorite topic. He sees in it the greatest peril to the world—peril which, he thinks, may sweep the globe.

He considers it one of the consequences of the dethronement of the late Czar Nicholas and of himself, and wonders whether the world prefers Bolshevism to the dethronement of the former emperor is said to be thoroughly informed and to appreciate America's attitude of opposing the killing demand for his extradition, but that has in no way softened his feelings against President Wilson, whom he holds responsible for his forced abdication and whom he accuses of having "tricked" Germany by promising "Wilhelm" rarely discusses Germany with his visitors. He regards Germany as lost. He is capable, however, on world politics. General Gortard, who is back at Amerongen again in place of General Downes, and is acting as the ex-kaiser's private secretary, a few days ago declared to a member of the Dutch government that Wilhelm has read Socialist Deputy Kuyper's book, as has been reported.

Another visitor, however, a German, told me that while the denial was true, and the kaizer had not himself read it, the text was portions of it were read to him.

Wilhelm Past History. The ex-kaiser's hope which up to last August, so visitors told me, was quite strong, that he would mount Germany's throne, is now gone. The statement of Colonel Bauer, Ludendorff's right hand man, in speaking of the ex-kaiser, that he is still an abstemious eater. He makes an effort to maintain a soldierly appearance, but only with great difficulty. He gives the impression of having grown shorter.

In contrast with his former rapid flow of speech, the ex-monarch now speaks slowly, at times haltingly. Occasionally he appears to lose the drift of the conversation, but when he gets excited or some chord of his memory of bygone things is touched, he breaks into his old vivacity.

His Mental Condition. Visitors do not agree regarding his mental condition. Some told me he showed considerable vigor; to others it was plainly evident a medical commission would quickly declare him no longer—if ever—mentally competent. It is even urged that an examination by such a commission would best solve the problem for all concerned—Holland, Germany, the allies and Wilhelm himself, at times haltingly. Occasionally he appears to lose the drift of the conversation, but when he gets excited or some chord of his memory of bygone things is touched, he breaks into his old vivacity.

Taxes on State Monopolies Yield Big Increase in France. Paris, Jan. 12.—The yield of indirect taxes on state monopolies for December, 1919, amounted to 193,685,000 francs, an increase of 341,364,000 francs as compared with the corresponding period of 1918.

FOCH TO SUPERVISE EXECUTION OF PACT

British, French and Italian Premiers Agreed After Waiting for U. S. to Consent.

Paris, Jan. 12.—Marshal Foch, it is understood, has been agreed upon by France, Great Britain and Italy as the unified military director charged nominally with supervising the execution of the peace treaty.

Marshal Foch not only will be consulted on all measures taken, but will be authorized to take the initiative in proposing to the governments whatever he deems necessary. The allies had hoped until the last that the United States would agree to the proposal in its main features, but the commission and deferred action until yesterday, when Premiers Clemenceau, Lloyd George and Nitti met and concluded the arrangement.

Ministers to Meet Railwaymen Today. Sir Eric Geddes and Sir Robert Horne Have Conferred With Lloyd George.

London, Jan. 12.—Sir Eric Geddes, minister of transportation, and Sir Robert Horne, minister of labor, returned here tonight from Paris, where they conferred with Premier Lloyd George on the situation created by the railway employees' rejection of the British government's wage proposals.

After a cabinet meeting tomorrow at which an attempt will be made to decide the government's attitude, Sir Eric and Sir Robert will meet with the representatives of the railwaymen.

Delegates representing the Railway Employees' Union at a meeting today, decided by a large majority to accept the government's proposal for representation of the men on the railway advisory committee.

National Laborites Call Upon Gouin. Do Not Believe in Eight-Hour Day for All Classes of Workers.

Quebec, Jan. 12.—An important delegation of national labor men called on Sir Lomer Gouin today to submit a number of articles extracted from a memorandum adopted at the general national convention held in Three Rivers last summer. The main article under discussion was the eight-hour day proposal.

The national labor men exposed a program for the application of the proposed eight-hour day. They do not believe in the eight-hour day for all classes of workers, advocating preferably an agreement between industrial heads and workers, whereby the length of the day would be established according to the particular and individual needs and occupations of every class. For instance, men or women who work in certain plants cannot stand the eight-hour day, while clerks and office men may stand eight and more hours. Complain That M.C.R. Officials Refuse Canadian Currency. Ottawa, Ont., Jan. 12.—(Special)—The Western Ontario Federated Boards of Trade protested recently to the railway commission against the action of the Michigan Central Railway in western Ontario refusing to accept Canadian money on its sleeping and dining cars.

The report, which is known at army headquarters here, and which has been forwarded to the war department, is that the ship bearing the arms and ammunition reached Manzanillo December 23. The Yakuza, manned by 300 officers and men, anchored along the coast. A part of the Yakuza's personnel were students from the Japanese military academy.

Anticipating the arrival of the warship there appeared at the port a committee representing the Mexican department of war and marine, which invited the commanding officer and as many of his organization as could go to visit Mexico City.

YORK COUNTY AND SUBURBS

PRIVATE RADIALS ALMOST ACQUIRED

Controller Maguire Assures Announcement on Return of Sir Adam.

PROJECT ENDORSED

"Our information is that the negotiations looking to the acquisition of the Hydro-Electric of all the private radial interests in the province, if not entirely concluded, are practically concluded, and that on Sir Adam Beck's return there will be an announcement."

Speaking at Willowdale last night in interests of the Toronto and Eastern radial scheme, Controller Maguire gave the foregoing reply to a question as to the progress of the radial negotiations.

A large crowd filled Willowdale School to hear details of the plan on which the ratepayers will be asked to vote next Saturday, to guarantee the bonds of the radial line between Toronto and Bowmanville. The speakers included two Hydro-Electric engineers, Messrs. Hewson and Purcell, Hon. George Henry, Controller Maguire, ex-Ald. Bell, Reeve Miller and Deputy Reeves Graham and McDonald of York Township, and others. W. Wallace was chairman.

For Township's Benefit. In opening the meeting Reeve Miller said that the township stood to benefit greatly from the proposed radial and he hoped all the ratepayers would support it. The time had arrived to put forth a greater effort to develop the township. He strongly favored public ownership and fully expected that Sir Adam Beck would shortly get possession of the Metropolitan Railway.

Engineer Hewson fully explained the project and the fact that the trunk line assured before the question of feeders could be taken up and he dealt with the proposal to bring the northern radial into the heart of the city by diverting at York Mills to the Don Valley and perhaps connecting with the eastern radial in the vicinity of St. Clair. There was no certainty about the route, he said, but it was planned to make the run from York Mills to the lower part of Toronto in 20 minutes, which would out the present schedule in half.

Toronto Has Faith. Controller Maguire emphasized the success that had marked Hydro-Electric development and said that Toronto was showing its faith in the project by undertaking further commitments to the extent of about \$10,000,000. Without the Toronto and Eastern trunk line any radial system could not be a success and he strongly urged East York to link up with the radial system which the commission was preparing to build.

Ex-Alderman Bell said the time was not far distant when the Metropolitan railway would be taken off Yonge street and a service provided to the heart of the city in its second by the Hydro commission. Sir Adam's system would pay its way and the people would be given a service at cost. He asked the residents to give the radial proposal a hearty welcome.

Hon. George S. Henry said that with the reputation of Sir Adam Beck and the Hydro Commission behind it the Toronto & Eastern Radial project would receive the hearty approval of the ratepayers. While the trunk line scheme might not be as beneficial to the northern part of the township as to the southern part, yet the northern district would have its radial projects shortly and it would be able to appeal to the south with a better grace by supporting the present bylaw.

Deputy Reeves Graham and McDonald both declared that as members of the township council they earnestly endorsed the radial.

Meeting at Don Road School. A crowded meeting was held in the Don school on Don road last night and at its conclusion a resolution was adopted in favor of the radial bylaw.

REEVE IN FAVOR OF SUBDIVISION

Live Issue in York Township is Creation of New Towns.

The question of subdividing York township and creating one or two new municipalities will be a live issue this year, according to the statement of Reeve F. Miller to council when the first meeting of the year opened in the council chamber yesterday. He pointed out that York's assessment is now getting up into the millions and the township is paying about 45 per cent of the total cost of county administration. Several alternative proposals were being considered, but personally he favored the creating of two towns, one east of Yonge, and the other west of Yonge, adjoining the city, with the township lying to the north of these.

The reeve also said that the council would be asked to consider the proceedings in connection with the taking over of the Toronto Street Railway by the city and urged the extension of city limits into the populated districts of the township. He said that if satisfactory arrangements could not be made with the city for water for certain sections, the township, with the approval of the ratepayers, would have to install a system. Plans would also be forthcoming for sewer systems for both the west and east ends and would be carried out with the approval of the ratepayers. Reeve Graham expressed sympathy with the proposal to establish two new towns in the southern parts of the township.

Grant Refused. Council was obliged to refuse an application from the Great War Veterans of East Toronto for a grant for their Christmas tree on the ground that the authority under which they formerly made patriotic grants had become ineffective on Jan. 1, 1920.

John Bayliss, J. P., asked that legislation be sought by the township creating a board of education for the Mount Dennis section of the township. Mr. Phillips, with 14 petitioners, asked for an investigation of the expenditure shown in the treasurer's report to have been made in road division six. Mr. Phillips referred to two items, one \$445 paid to Foreman Wicks for 95 hours' work, and \$85.50 paid to Arlington Tomlinson with team for 95 hours at 90 cents an hour. "Mr. Wicks was never on the job at all," declared Mr. Phillips.

Asks Investigation. Mr. Wicks, who was present, came forward and asked Mr. Phillips if he was making the charge that he (Wicks) had cheated the township. "I am making no charge," replied Mr. Phillips. "I am asking the council to investigate these items."

Reeve Miller announced that the matter would be taken up on Thursday and investigated. Council by resolution strongly approved of the request of soldiers for a grant of \$2,000 by the federal government to all soldiers who have seen active service.

Among the communications was a statement from Sheep Valuator Jas. Waite that Mine Brothers, in north Donlands, had suffered the loss of about twenty sheep worth \$68, which had been killed by dogs. A deputation also appeared and declared that the district was overrun by Alameda dogs. Council decided that the situation was serious and the matter of compensation was allowed to stand over for two weeks and in the meantime the county

W. F. Maclean occupied the chair and other speakers were Engineers Hewson and Purcell, instead of Ald. John B. Harris, of Danforth ave., E. A. Dunlop, Mayor Church, Controller Maguire and several others. All questions concerning the radial were satisfactorily answered and much enthusiasm in support of the radial prevailed the meeting. A meeting will be held to-night in Torrens ave. school.

LAUNDRY PERMIT

The Chinaman was already being twice refused a permit to erect a laundry on Runnymede road, came back again accompanied by his lawyer, and a petition signed by over 20 residents of the district, asking that his request be granted. Deputy Reeve Graham pointed out that 17 of the petitioners were residents of the city, and only 5 of the signers resided in the township. The request was again refused. The Chinaman paid \$3,000 for the lot and has spent several hundred dollars in improvements.

SCARBORO COUNCIL

Inaugural Meeting Ends in Ratification of Bylaw for Utility Commission.

Scarboro Township council held its inaugural session yesterday at Woburn, Reeve Stewart presiding, with McCowan, first deputy; P. Heron, second deputy; D. Crawford, third deputy, and J. T. Weir, councillor, present. The election this year was run on a straight cut issue, the farmers versus the front, the farmers winning on all counts. Reeve Stewart, reviewing the progress made in the township since his election, seven or eight years ago, referred especially to the enormous increase in population chiefly along the front of the township, together with the corresponding increase in assessment. The bylaw ratifying the appointment of a utility commission was adopted. The members are Reeve Stewart, W. H. Paterson, Albert Essex and W. D. Annis, clerk. The commission will deal with the Hydro matters, in which there will be a great expansion in Scarboro this summer. Ten acres of land formerly held by

a lot in Mount Dennis from Thomas Godda and J. A. Marshall for \$1,350 for a new hall site. The council will meet again on Thursday next at 11 o'clock.

SCARBORO COUNCIL

Inaugural Meeting Ends in Ratification of Bylaw for Utility Commission.

Scarboro Township council held its inaugural session yesterday at Woburn, Reeve Stewart presiding, with McCowan, first deputy; P. Heron, second deputy; D. Crawford, third deputy, and J. T. Weir, councillor, present. The election this year was run on a straight cut issue, the farmers versus the front, the farmers winning on all counts. Reeve Stewart, reviewing the progress made in the township since his election, seven or eight years ago, referred especially to the enormous increase in population chiefly along the front of the township, together with the corresponding increase in assessment. The bylaw ratifying the appointment of a utility commission was adopted. The members are Reeve Stewart, W. H. Paterson, Albert Essex and W. D. Annis, clerk. The commission will deal with the Hydro matters, in which there will be a great expansion in Scarboro this summer. Ten acres of land formerly held by

HAMILTON

Hamilton.—At the inaugural of the city council today the unexpected happened. Ald. Newlands, instead of Ald. Tope, received the chairmanship of the council.

The labor faction caused the slip-up.

The identity of the returned soldier who died in Dr. Burns' office today is announced. He was Henry Reeve, son of A. Reeve.

SIMPSON

HIS MASTER'S VOICE RECORDS

"You'd be Surprised" is the title of the new song by Billy Murray and it's a "corker." He sings of the fellow who does not show up so well in a crowd—but when he gets you alone—well—you'd be surprised

"That's Worth While Waiting For" on the reverse side, is equally as good and sung by the same artist in which he tells of many things worth while waiting for. These are two rattling good songs, and Billy Murray sings them in a manner that leaves nothing to be desired.

No. 216077 90 cents for the two selections

Why Think of Replacing it?
Why Not Have it Re-covered?

In the comparative quiet of the mid-season our upholsterers are able to give such work their best, unhurried attention.

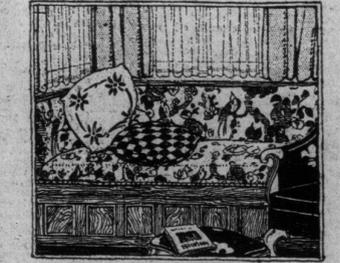

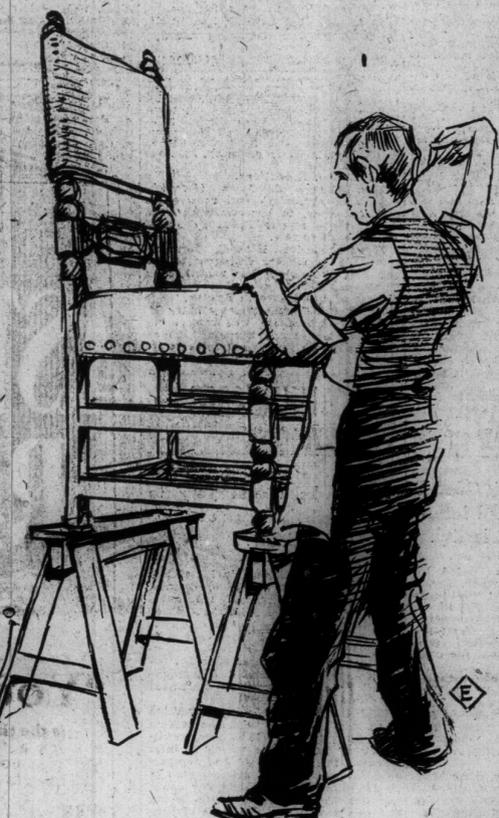

If you are uncertain as to the cost, style of material, etc., telephone Adelaide 5000, and ask for the Drapery Section, or drop a line to the Drapery Department, and a man will be sent to your house to take measurements, offer suggestions and supply an estimate of the charges.

Perhaps loose slips of chintz or block linen are your special desire. On the staff are men who specialize in this particular phase of the work. Moreover, should the frames of the furniture require mending or refinishing, there are cabinet-makers qualified to undertake all such repairs.

Chairs, sofas, footstools, couches, cushions for inglenooks or hall benches, bedroom boxes—any or all of these come under the category of things which find their way to the workrooms to be re-covered.

Draperies, special Window Shades, Cushions, etc., will also be made to order. If you wish, an outside salesman will give information as to cost.

—Second Floor, Furniture Bldg.

They're in effective open-work striped border designs, and are of a fine clear quality that should give excellent wear, and make splendid curtains for dining-room or sitting-room or bedroom. In ivory shades only; 34 to 35 inches wide. January Sale, per yard, 49c.

Dainty Hemstitched Scrim and Marquisette Curtains, 32 to 35 inches wide by 2 1/4 and 2 1/2 yards long, in white, ivory or ecru shades; most trimmed with cluny lace on the edge; some patterns have insertion to match, handsome curtains suitable for any room. Sale price, today, pair, \$2.95.

THE T. EATON CO LIMITED

BISHOP FARTHING AT CANADIAN CLUB

Tells Members of Simultaneous Forward Wave Through the Churches.

A league of churches was a possibility which the chairman, Major Percy Brown, saw arising out of the example set by the model of the league of nations. He made the suggestion at the luncheon of the Canadian Club yesterday in introducing Bishop Farthing of Montreal, who addressed the club on the "Forward Movement."

All the religious movements in Canada except the Roman, said the bishop, were engaged in the forward movement. In the United States it was not known by this name, but a movement among the churches was going on there. It was a simultaneous movement, not one going before or after the other; but all together. There was no attempt to arrive at church unity as this might lead to friction, and this was the last thing they wanted at the present time.

What was needed was the creation of an atmosphere in which the spirit of unity might develop. The request of the Presbyterian Church that the Anglican should co-operate with them had led to the formation of a united national campaign committee in which the Methodists also had a share, and since then the Congregationalists and Baptists had come in. A great deal of literature could be used in common, and in publicity work there was efficient co-operation.

Different Departments. Administration, transportation, current revenue and other matters were included in one department; education in another; missionary work in a third. The sums asked by the several churches for these objects were detailed by the bishop, the total sum being \$1,200,000; the Congregationalists, \$700,000; the Baptists asking \$100,000; the Methodists and Presbyterians, \$4,000,000 each, and the Anglicans \$2,000,000.

could not be adopted in commerce and industry. He remembered his father agreeing that the Christian ideal could not be put into practice in diplomacy. The power of might and material force was admitted. Sir Henry Wat- ton had defined the diplomatist as a good man sent abroad to tell lies for the benefit of his nation. This, he thought was squarely fair, and he instanced Ambassador Goschen's answer when the invasion of Belgium was proposed to him. The whole nation had risen when the abomination of this doctrine of might was brought home to them. Punch had contrasted the two ideals of the cross of Christ and of the German field marshal, and the Christian ideal had been vindicated in the war. Liberty, justice and right for every man, not because they had the might, but because it was right for every man to have right, was what appealed to the young men of the nation, and they had conquered in that spirit. Were they going back to the semi-pagan ideals of pre-war days? he asked.

Kaiser's Attitude. A friend whom he trusted implicitly, a Scotsman, and a Presbyterian, told him of a man who boasted that he had the money and the pull and he was going to get what he wanted. The bishop could see no difference between this and the attitude of the kaiser when he set out for Belgium.

If they did not adopt the ideals of Christ, he feared they would drift on the rocks to a disaster as great as came from the semi-pagan ideals that led to the great war.

When he spoke of the church it meant the whole church of all those baptized into Christ, and with all the organization they had, in which their brotherhood was limited to the bound of their creed, but what they must have in Canada was a brotherhood of life, a brotherhood of life in Christ and of God in Christ, and where was this brotherhood to be found except in the church?

doms of commerce, of politics, must be made the kingdom of Christ. Why did they smile when they spoke of politics, and assent to the idea that politics must be corrupt? The ideal was that Christ should reign over all their activities every day of their lives.

Their young men had faced this higher ideal, had gone out and fought for it, had suffered for it, and many of them had died for it. The task before them now was a big task, but not too big for Christ, and not too big for men like themselves. They wanted, as an American had said, 100 per cent. Christians, not adulterated 10 per cent. Christians. They did not want money altogether. Money might be a curse. A million dollars had been raised by one church. They had got the money, it had been said, but nothing else. What was needed was to get the lives of the people and let the money follow. The task was quite within the possibilities of the churches of the land. The spirit of God had brooded over chaos, and out of it came the beautiful order of evolution. The same spirit could bring out of the chaos of society the order and the harmony that followed the spirit of Christ, and he appealed for the lives and the service of those who heard him in aid of this forward movement.

AGREEMENTS CANCELLED

In October, 1913, George Beaver agreed to pay \$900 for a lot in Scarborough, which he was buying from the Dovercourt Land, Building and Savings Co. He paid \$75 and then fell into arrears. There is at present \$1,184.99 with interest since November last owing on the property and the company has been unable to locate the purchaser. Yesterday morning Chief Justice R. M. Meredith at Osgoode Hall gave judgment cancelling the agreement and declaring forfeit all moneys paid by Beaver.

Ida at the City Council Inaugural

BY IDA L. WEBSTER.

At 11 o'clock yesterday morning, the members of the city council and their wives and admirers gathered in the council chamber, which was most appropriately decked with flowers, and settled themselves to look either pleased or bored, as the case may have been, until such time as it was legally possible to adjourn to lunch.

A prayer was offered for the good of the members, which we trust will be heard, so that they may be directed in paths a little less rocky than those usually adopted by people representing the city and its business.

After the prayer, his worship the mayor read his message to council, and you can take it from one who knows, it was no slouch of a message, either. It took exactly 46 minutes to read, and at that it was not mouthed out slowly, because whatever other fault Thomas Langton, Church may have, it cannot be said that he is one to linger over unpleasant duties.

During the "issuing" of the message, the audience dispersed themselves in various ways. For instance, the controllers talked almost all of the time, as did a few of the aldermen. The ladies for the most part adopted very weary expressions, tho it must be said that there were a few who were game enough to look partially interested to the bitter end.

unanimously carried, and straightway there was a human string from the city hall to the Caris-Rite Hotel.

The lunch part of the day was, perhaps, the greatest success, chiefly because there were no speeches allowed from the rank and file. The new members, or rather, the controllers, and Mrs. Hamilton spoke for a few minutes each, but they were more or less interesting.

After some enthusiastic singing, the party said good-by, and went their various ways, not, however, before the charming Mrs. Scadding of Cleveland and Miss Church (both sisters of the mayor) had time to exchange greetings with the guests.

QUEEN HONORS COLONEL MARSHALL

Marie of Rumania Sends Personal Letter and Highest of Orders.

class as his special appreciation of your kindness. "I shall never forget what you have done for my people." (Signed) "Marie."

Col. Marshall returned yesterday morning from Ottawa, where he had been spending the week-end as a guest of Their Excellencies the Governor-General and the Duchess of Devonshire at Government House.

LEFT FOR RANGOON
Rev. and Mrs. Gordon S. Jury, two

A MAN OF RENOWN

Among the notable professional men of this country who achieved great success along strictly legitimate lines was Dr. R. V. Pierce, founder of the Invalids' Hotel and Surgical Institute at Buffalo, N. Y. Devoting his attention to the specialty of women's diseases, he became a recognized authority in that line. His work, "The Common Sense Medical Adviser," is now in over two and a half million homes in this country and Europe. At one time Dr. Pierce represented his home district in Congress.

graduates of McMaster University, left last night for Rangoon, Burma, to join the staff of Judson College. Mr. Jury is a son of Mr. and Mrs. J. H. Jury of Bowmanville, and before the war was pastor of the Baptist Church at Cobourg. He served in France as a sergeant in the C.A.M.C. Mrs. Jury is the youngest daughter of the late Rev. John McLaurin and of Mrs. McLaurin of Toronto, who for over forty years were missionaries to India. A number of prominent Baptists' bade their couple farewell at the union station last night.

Just fifty years ago This Winter he gave to the world a Prescription which has never been equalled for the weaknesses of women. Many women in every hamlet, town or city will gladly testify that Dr. Pierce's Favorite Prescription did them a world of good.

Another of this great physician's successful remedies is known as Dr. Pierce's Golden Medical Discovery and, like the "Prescription," is now sold by druggists everywhere, in both liquid and tablets. This is probably the most efficacious discovery ever made in medicine, for the list of men and women all over the universe who have successfully used it for indigestion and as a blood tonic and system builder, makes an amazing total of thousands.

"The name of 'Canada' is now known throughout Rumania, and it is a sweet satisfaction to me to hear her name blessed by thousands of suffering women and children." "The king hopes that you will accept the Regina Maria Cross, first

DRURY AND BIGGS DENY PATRONAGE

Contractor Declared Political Opponent of Public Works Minister.

Hon. F. C. Biggs, minister of public works, yesterday adhered to his statement that there was nothing in the nature of patronage in the placing of orders for \$100,000 worth of motor trucks with one of his constituents in North West, Len Parkin.

Premier Drury also denied the patronage charge. He said the trucks were obtained at the same price as they could have been secured in Toronto or in any other place. He considered the transaction perfectly desirable, as Mr. Parkin, Dundas, was a political opponent of Hon. Mr. Biggs.

Mr. Drury added that Grace Motors of Toronto did not submit a tender, and that Mr. Parkin's tender was the only one put in for Sterling motor trucks, which were considered the only ones equal for the purpose for which they were to be used.

The premier also took the opportunity to state that the government had already statutory power to appoint a central purchasing agent, and that the matter would be filed as soon as a suitable man could be found. The best possible would be done in the meantime to protect the province.

Tenders Asked. By letter, "Tenders were invited in the usual way by letter," said Mr. Biggs. "Although they were not advertised in the daily papers, I saw L. C. Parkin at Dundas and told him we were buying trucks. He asked if he might tender, and I said everybody could do so."

"So far as I have been able to trace, it has not been the practice of my department to advertise for tenders. I have not been able to trace anything that would show tenders were ever advertised for. The contract for these motor trucks was O.K.'d by me on the approval of my two chief department engineers, who recommended that the tender in question be accepted. We invited tenders from all those who we thought might be interested. We always invite the freest competition in such matters. It doesn't follow that the lowest tender is the best." Mr. Biggs said that the department would have to make many more similar purchases.

"It was a mighty good stroke of business, for since the contract was let, the prices of trucks have materially advanced," he added. "I have since learned that there is a fleet of thirty-five of the same make traveling between Toronto and Hamilton daily, and that Buffalo has bought forty of them for its own use. Parkin is the recognized agent of the company."

Decent Deal, Parkin Says. Mr. Parkin, in the course of a statement, said: "This deal has been a decent one. There has been no crooked work, and nothing but a legitimate transaction has taken place. I am prepared to go before any government officials and explain it, if necessary, but those who are talking about the matter now don't know the ins and outs of the thing. Do not play politics. The last vote I cast was for G. P. Wilson, the Unionist candidate in the 1917 elections." He declined to make public the letter he received from the public works department. He said the contract did not come thru the Grace Motors of Toronto, because he was the wholesale distributor of the trucks for Dundas, Niagara Falls and Hamilton.

F. A. PARSONS SHOWS HOW TO DECORATE

Gives Carpet Convention Illuminating Hints on House Furnishing.

How intimately art is associated with good salesmanship, furnishing and decorating a house and making a home comfortable and livable, was one of the many things illustrated and taught by Professor Frank Alvah Parsons, president of the New York school of fine and applied arts, at the convention which opened yesterday at the Prince George Hotel under the auspices of the Toronto Carpet Manufacturing Co. Limited.

The lecture room was draped with a number of rugs that hung ready to demonstrate points in the speaker's discourse and the meaning of art and how it may be applied to carpets and rugs followed the introductory talk on the fundamental relations of the floor covering to the decoration of a house.

The speaker pointed out that there should be a proportion of proportion between ceiling, walls and floor, that they would at once appeal to the one who entered as a unit, moreover that the place of the rug and their furnishings must always be subservient to the people who live in the house—a house being for the people and not the reverse.

In furnishing a room the first thing to consider is the carpet or rug, if the latter they should be laid parallel with the lines of the room. Furniture, too, should conform in line with those of the windows, doors or other pronounced lines—if straight, edges of chairs and other furniture should correspond. If windows are rounded, chairs should be the same. Pictures should be hung in a line, the top edge being preferable as the even one. Pictures hung in groups should preserve a certain unity of line, and the space not less than half nor more than two thirds of the width of the smaller picture between the two. A man must be able to sit comfortably in his chair, the table near at hand must be according to the known correct distance and the lamp by which he reads must have certain distinctive features of simplicity, size and color, before the man may be said to be comfortable, mentally and physically, and the room be called artistic. Without these essentials of proportion and harmony there can be no art.

Hints to Designers. Hints to designers and salesmen were given when Mr. Parsons made his audience see that a circle was more a harmony when placed within a square than an oval and that the latter was more harmonious when placed in an oblong than a square would prove. Speaking of art, it was pointed out that a picture is not art—no it may be—neither is hunger, thirst, shelter, air nor sex, art. This the speaker explained by the statement that looking at the picture of an orange and whetting the appetite by doing so does not prove that the picture has any artistic quality, and so on with other sensations. Broadly speaking art was defined as "functioning harmony." If a thing is both useful and harmonious it may be called artistic.

The lectures continue today, when how to choose and harmonize color will be the very attractive subject of the sessions. The convention, which is attended by delegates from many parts of Canada, will conclude on Friday with an inspection of the Toronto Carpet Manufacturing Co.'s factory and lantern description of manufacturing processes.

CHANGES IN STAFF BASED ON MERIT

J. W. Burns Succeeds Secretary W. C. Wilkinson for Board of Education.

That James W. Burns, chief accountant of the treasurer's department, will be the new secretary of the board of education, is not denied by the executive of the finance committee of the board of education and his appointment may be regarded as settled.

The other two executives under Mr. Pearse will be W. Kerr, who will continue to be clerk of supplies, and Mr. Doughty, chief heating and ventilating engineer.

"In my recommendations," said Mr. Pearse, "I am looking forward to promoting all those competent to the important position. Promotion, so far as possible, is going to be my policy."

Mr. Burns has been with the board for 30 years. He was accountant until four years ago, when he was promoted to be head of the department.

"This is a big year," said Mr. Douglas. "We have the teachers' salaries to settle, the appointments, and many other important financial questions." Questioned about the feeling of the committee on advancing the salaries of the teachers, Mr. Douglas thought that the board and the finance committee was in favor, almost unanimously, of an increase, but whether it would be as much as was demanded was doubtful.

SEEK MAYNARD'S RELEASE

Friends of Louis M. Maynard, who was manager of the Dundas and McCaul streets branch of the Dominion Bank in 1918, are endeavoring to obtain his release from Kingston penitentiary on the grounds of ill-health. Maynard was accused of embezzling \$53,000 and was sentenced by the late Judge Winchester to five years.

GOOD ROADS CONFERENCE

Hon. F. C. Biggs, minister of public works, left Toronto last night for Ottawa, where he will today meet a good roads deputation from Kemptonville, North Gower and Prescott, which will urge the necessity for the speedy completion of the Prescott highway and other roads. He will address the Ottawa Board of Trade tonight.

MINISTER BEREAVED

Hon. R. H. Grant, minister of education, was called to Ottawa last night by news of the death of Mrs. Grant's mother.

G. A. C. BRANCH AT ELMIRA.

J. F. Marsh, general organizer in Canada for the G.A.C. returned last night from Elmira, where he organized a new branch of the association. The meeting which was very largely attended, overwhelmingly endorsed the gratuity petition, fathered by the

eight largest veterans' associations in the province. The new branch elected the following officers: President, A. Morris; first vice-president, T. H. Brown; second vice-president, L. Ross; third vice-president, L. Gray;

pull; secretary, J. F. Mulholland; treasurer, A. Aylesworth; executive, J. Bayne, E. Bronte, Ed. Plant, O.

Lutz, C. Nethery, H. Hengler, L. Darlow, H. Strom, O. Quelhel and A. East. Thru the courtesy of the

The Call:-More Dunlop Cord Tires Wanted.

The Answer:-A New Factory Costing \$1,500,000.

Another Dunlop Tire Factory Being Rushed to Completion

An appropriation of \$1,500,000 has been set apart for building and equipping a new factory in Toronto.

Up to the minute in every respect, the new Building will be devoted especially to the manufacture of

DUNLOP CORD TIRES

The demand for Dunlop Tires to-day justifies this Building. That fact is self-evident. Had it not been for war conditions, the new building would have been up before.

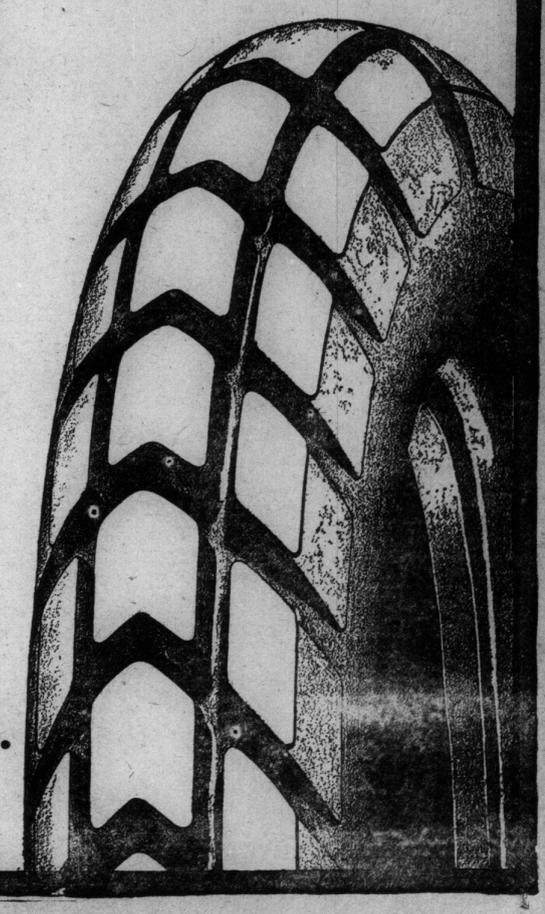

The 1920 Dunlop Tire will be even better than the 1919—and last year's product has certainly made fame for the name—Dunlop.

- Unassailable Fact No. 1—More dealers than ever are stocking **Dunlop Tires**
- " " No. 2—More car owners than ever are using **Dunlop Tires**
- " " No. 3—More tire users than ever are boosting **Dunlop Tires**

You might as well get Quality Insurance with your tire purchases: Dunlop Tires Made-in-Canada not only represent the best that this country can produce, but Dunlop supremacy the world over furnishes the additional security of the "Master Brains of Tiredom."

THIN PEOPLE NEED BITRO-PHOSPHATE

Increases Weight, Strength and Nerve Force in Two Weeks' Time in Many Instances.

Judging from the countless preparations and treatments which are continually being advertised for the purpose of making thin people fleshy, developing arms, neck and back, and replacing saggy hollows and angles by the soft curved lines of health and beauty, there are evidently thousands of men and women who keenly feel their excessive thinness.

Thinness and weakness are often due to

starved nerves. Our bodies need more phosphate than is contained in modern foods. Physicians claim there is nothing that will supply this deficiency so well as Bitro-Phosphate, which is in fact a phosphate and is sold by most all druggists under a guarantee of satisfaction or money back. By feeding the nerves directly and by supplying the body cells with the necessary phosphoric food elements, Bitro-Phosphate should produce a welcome increase in weight frequently being astonishing.

Increase in weight also carries with it a general improvement in the health. Nervousness, sleeplessness and lack of energy, which nearly always accompany excessive diet, should soon disappear, dull eyes with the bloom of perfect health. Miss Georgia Hamilton, who was once thin and weak, reporting her own experience, writes: "Bitro-Phosphate has brought about a complete transformation with me. I gained 15 pounds and never before felt so well."

CAUTION: While Bitro-Phosphate is unsurpassed for the relief of nervousness, general debility, etc., those taking it who do not desire to put on flesh should use extra care in avoiding fat-producing foods.

The Toronto World

FOUNDED 1890. A morning newspaper published every day... M. J. MACLEAN, Managing Director

TUESDAY MORNING, JAN. 13.

Ald. Mrs. Hamilton.

Ald. Mrs. Hamilton was only given a place on one of the committees, but she will be able to demonstrate her business ability in the parks and exhibition committee...

Mayor Church and the Mount Pleasant Line.

Tenders have been called for the construction of the Mount Pleasant road car line. The new council should see that this is no camouflage measure...

City First Things First.

Ald. Burgess has proposed that steps be taken in the direction of acquiring the Consumers' Gas Company for the city. The world is altogether in favor of the public ownership of public utilities...

Retrenchment and economy.

Lower tax rate; elimination of deficits; definite policy re capital undertakings; power to finance commissioner and council to revise expenditures of out-lets boards; co-operation of council with Sir Adam Beck in radial negotiations...

Are We Losing Our Zeal for Liberty?

A French writer observed the other day that the Englishman—by which he meant the English-speaking man—was losing his passionate love for liberty. No one is heard today demanding to be given either 'liberty or death'...

the writ of habeas corpus, the right of trial by jury, and the control of the public purse by the representatives of the people in parliament assembled. The writ of habeas corpus might be abolished in Ontario tomorrow without exciting comment from the great bulk of the people...

The situation in Ottawa is parliamentary government turned topsy-turvy. Yet in some way the parliamentary machine will have to carry on at least until the time comes for a general election...

Daylight Saving.

Mayor Church is prepared to issue a proclamation once more establishing daylight saving. There is no doubt in any reasonable mind of the advantage of this measure...

NEW CITY COUNCIL BEGINS BUSINESS

For First Time, Women Attend Inaugural Banquet at Carls-Rite. The inaugural meeting of the new city council yesterday was indeed a love-feast. The only divergence from the program was by Ald. Miskelly...

SHORT CIRCUIT CAUSES FIRE IN SUB-STATION

Two men were injured last night when fire broke out where they were working. Fred Patterson, electrical operator in the Toronto Electric Light sub-station, at 147 Brandon avenue...

WHY SIR ADAM BECK WAS CALLED TO SAVE RAILWAY SITUATION

Windsor, the town of Walkerville, the town of Ford City, the town of Sandwich, the town of Ojibway and the townships of Sandwich East and Sandwich West. In connection with these municipal bodies are the township of Anderson and the town of Amherstburg...

ENJOYING WINTER SPORTS IN ALGONQUIN PARK.

Ideal conditions for winter sports continue to be enjoyed in the Algonquin Park. The snow is excellent, and fishing through the ice tobogganing, skiing and skating. Among the latest arrivals at the Highland Inn are Mr. K. Dalrymple, Bullis, New Zealand; Miss M. Jagers, Huddersfield, Eng.; Mr. and Mrs. Hobbart, Toronto; Mr. and Mrs. Brantford, Ontario; Mr. and Mrs. J. Ruddy, Miss E. Ruddy, Mr. R. Cook, Miss C. McFarland, Miss M. Cook and Miss H. Kephart.

CITY HALL SITE FOR GRATUIT DUGOUT

Following a round table conference of all the large veterans' associations except the G. W. V. A., held last night at G. A. C. headquarters, it was decided to petition the board of control for the gratuity. The board of control granted permission to erect a dugout opposite the city hall to be used as a centre for the champions of the Calgary Order and the Labor party...

COUNCIL LUNCHEON

For the first time in civic history women were present as guests and aldermen who had no wives brought their daughters. Those who had no daughters brought their sons and daughters-in-law. In fact, it was just a happy family party.

HELD-UP MEN IDENTIFIED

Bob Dorland and Bob Cowan, arrested last week on charges of vagrancy, have been identified by Sidney Brown, 18 Dundas street, as the two men that held him up at the corner of Wellesley and Park at the corner of Wellesley and Park at the corner of Wellesley and Park...

MOONLIGHT AND MONEY

BY MARION RUBINCAM. SHE GOES IN BUSINESS. CHAPTER 86. So after all, it was Mr. Driscum who sailed, and Louise who stood on the pier and waved a farewell to him...

VACCINATION FACTS

THE half page published at public expense by the Provincial Board of Health is an excellent example of the contemptible scare-mongering to which advocates of vaccination are accustomed to resort for lack of argument or evidence.

ARE WE LOSING OUR ZEAL FOR LIBERTY?

A French writer observed the other day that the Englishman—by which he meant the English-speaking man—was losing his passionate love for liberty. No one is heard today demanding to be given either 'liberty or death'...

Simpson's—Main Floor.

The average father

takes great pride in seeing that his boy is well clothed on the "inside," at least three times a day. As for the exterior, he is naturally interested there, too, but that of course, "is particularly the mother's affair, don't you think?" Except however, that Father expects the bill. And so it falls out. When Johnny needs a suit or an overcoat, he and his mother may be discovered at the noon hour in the

Boys' Clothing Dept., Second Floor

making the choice. Johnny stands off and critically eyes the pocket, and the cut of the garment. "Will it wear well?" his mother is asking. That night, in the glow of the reading lamp, Father will be confronted by his young counterpart decked out in new array. And Johnny will "turn round" to display it from every angle. Then with his hands in his pockets will swagger off to bed.

"It'll wear like iron"

says Mother to the man behind the newspaper. "I have always found that Simpson's Boys' clothing has a quality and durability that could not be surpassed." "What did it cost?" asks John Sr. "It cost no more than the majority of boys' suits on sale today, but from the standpoint of long service and general utility, it cost far less than many suits at the same price." That is the story of a Simpson suit for boys. Johnny delighted, Mother satisfied, and Father pleased.

Boys' Clothing Department—Second Floor.
