Provincial Elections Oct. 9; House Dissolved And Writs Issued Today

GIVE N. S. MINERS PRACTICALLY ALL THEY ASKED FOR

Terms of Award of Royal Commission Increased Wages and Better Conditions Are Recommended—Strong for Improved Housing for the Men's Families.

(Canadian Press.) Halifax, Sept. 16.—The Halifax Herald today publishes under an Ottawa date line the full text of a report of the royal commission which recently investigated mining conditions in Nova Scotia. The effect of the report is to grant the demands of the miners, touching wage increases and living conditions in full and approximately to meet the demands of the men regarding technical conditions both underground and on the surface. Summarized the recommendations are: 1. That the wage increases demanded (broadly \$1 a day for distal men and 25 cents a ton on all tonnage rates) be granted, but it is to be distinctly agreed that operators and men will agree to cooperate and bring about the adjustment referred to, and within twelve months, or say on or before Sept. 1, 1921, adopt the partial advance and sliding scale scheme with a view to increasing coal production. 2. Finds general living conditions of Nova Scotia miners "with few exceptions, absolutely wretched" and recommends that companies take necessary steps to remove all conditions referred to, and provide proper sanitary arrangements, men to pay increased rental of fifty cents a month per \$100 or fraction of \$100 expended on improvements, this increase in the rental to provide for extraordinary repairs after recommended improvements have been made. 3. Finds also at some points both operators and men are prejudiced by inadequate equipment. Finds, in some instances, washrooms are inadequate. Recommends special attention by companies to general question of equipment and sanitation. 4. Recommends the more universal installation of radial machines in fitting places. 5. Recommends that, where practicable, electric lights should be installed by operators, "as a means to greater efficiency and larger production." 6. "The present" says the commission is not a time for increasing expenditure, but, in view of the requirements for reconstruction and repair of the damages of warfare, is rather a time for increased energy and carefully-guarded thrift. 7. Deprecates practice of men taking "vacations" and "time off" for grievances, and asks U. M. W. officials to condemn and discourage such practices. 8. Points out advantage of United States coal in competitive market, due to lower cost of production, as against Nova Scotia coal, and asks miners to put forth every effort to turn the balance "as a matter of self-preservation." 9. Recommends establishment of an "adjustment board" of co-operation between men and operators "to determine all disputes which may occur during the life of this contract," such adjustment to be regarded as "most effective and businesslike method of settling any minor disputes that might arise." 10. Increases are to be made retroactive dating from July 1, 1920. Living Conditions. Regarding living conditions in the colliery districts the report says: "That in view of the fact that the housing conditions of the miners are, with few exceptions, absolutely wretched and that such conditions have a deterrent effect on the miners' ability to produce coal, and are a menace to themselves and families and further, that children brought up in such an environment, have not the same chance of life and health as children reared under better conditions, as proven by government statistics as to infant mortality, it is therefore recommended that the companies that own the houses put and keep them in proper repair, and that a sewerage system be devised and inaugurated whereby surface closets will be eliminated, or that installation of a modern sewerage system be provided where it is found that it is not feasible. Suitable kitchens should also be provided where they do not now exist." An adequate water supply is recommended. The royal commission was made up of Chairman Quirk of Ottawa, W. P. Hutchinson of Moncton and Sir William Staveart of Montreal.

HOLDING COMPANY FOR ALLEN THEATRES. Toronto, Sept. 16.—A holding company, to be known as the Allen Theatres Ltd., has been formed to control the Allen Theatres here and, sixty other similar houses throughout Canada. It is proposed to make an issue of \$5,000,000 preferred stock and 200,000 shares of common stock of no par value.

SHORT AND SHARP CAMPAIGN IN PROVINCE BEGINS AT ONCE

Government Goes to the Country With an Admirable Record—October 2 Will be Nomination Day and Polling Day a Week Later.

The provincial elections in New Brunswick will take place on October 9. At a meeting of the provincial government held in St. John on Monday evening it was decided to go to the country, and on Tuesday Premier Foster waited upon Lieutenant-Governor Pugsley and laid before him the reasons why a dissolution of the House was deemed advisable. His Honor assented and formal steps were at once taken to dissolve the House of Assembly.

The writs have been issued and will be mailed to the sheriffs in the various counties tonight. Saturday, October 2, will be nomination day, and Saturday, October 9, election day.

There have been four sessions of the legislature since the last general election, and while another might legally be held a general election has been generally expected this year and the announcement will not be altogether a surprise.

The Foster government will go to the country with an admirable record, and every confidence. Its conduct of public affairs has been progressive, straightforward and free from scandal of any kind.

Among the rumors of the hour is one to the effect that Hon. James Murray, leader of the opposition, will retire and will be succeeded by Hon. J. B. M. Baxter.

Dissolution Proclamation. Fredericton, N. B., Sept. 16.—(Special to Times)—The legislature of the province of New Brunswick has been dissolved by His Honor the Lieutenant-Governor, Hon. William Pugsley. Dissolution dates from today, September 16. An extra edition of the royal gazette of the date of the 16th instant contains the following proclamation: "Whereas the legislative assembly of this province stands prorogued to Thursday, the thirtieth day of September instant, I have thought fit to dissolve the said legislative assembly, and the same is hereby dissolved accordingly."

And I have thought fit further to order and direct that writs for calling a new legislative assembly, to meet on the fourth day of November next, be forthwith issued in due form, returnable to our provincial secretary, treasurer at Fredericton.

Given under my hand and seal at Fredericton, the sixteenth day of September in the year of our Lord one thousand nine hundred and twenty, and in the eleventh year of our reign.

By command of the Lieutenant-Governor, Robert Murray, provincial secretary-treasurer.

The dissolution of the legislature does not come as any great surprise as a general election apparently more or less certain has been current for some time on account of the date of the date set for voting.

In 1917 the legislature was dissolved February 2nd, and polling took place on the 16th.

It is expected that political activity will begin at once. In some sections of the province organizations have been formed for some time. The registration of female voters for the first time in the history of the province will mean a heavier poll and more numerous voters.

It is also expected that new features will be introduced into campaigning.

London, Sept. 15.—Terence MacSwiney, lord mayor of Cork who today began the 30th day of his hunger strike was much weaker this morning after a night, according to the report from the Brixton prison physicians. They said he had enjoyed less rest than for several nights passed, "the morning bulletin issued by the Irish Self Determination League, "passed a very bad night indeed, and was very weak and worn out this morning."

Call to British Labor. Pittsburgh, Pa., Sept. 16.—The convention of the International Union of Steam and Operating Engineers yesterday passed a resolution urging the British trade unions to demand the withdrawal of British troops from Ireland, endorsing Irish freedom and urging the release of Lord Mayor MacSwiney from Brixton prison.

NOT IN FAVOR OF SEPARATE PARTY. G. A. U. V. Urge Soldiers to Support Party Adopting Their Programme.

Toronto, Sept. 16.—At a meeting of representatives of Grand Army of United Veterans here yesterday afternoon it was decided not to form a separate political party, but to urge the veterans to support the political party that adopts the soldier programme of reforms.

REVIVE AUSTRALIAN WOOL AUCTION SALES. Ottawa, Sept. 16.—D. H. Ross, Canadian trade commissioner in Melbourne, cables the Department of Trade and Commerce that Australian wool auction sales will be revived and will commence on October 1, in Adelaide and thereafter in other centres. One hundred thousand bales are being catalogued for the October sales.

WILL NOT HELP IN THE APPEAL AGAINST FREIGHT RATE INCREASES. Montreal, Sept. 16.—The Montreal Board of Trade yesterday, through its counsel, stated that it was satisfied with the recent decision of the Railway Commission regarding freight rate increases and declined to take part in any appeal against such decision.

As Hiram Sees It

"Hiram," said the Times reporter to Mr. Hiram Hornbeam, "I have been requested to select a name for a kitten. I have been hesitating between Kathryn and Gwendolyn." "Her you anything about the cat?" quired Hiram. "Why, no," said the reporter. "Is it a very pretty little kitten, as cunning as can be?" "I thought maybe you had a spite again it, said Hiram. "Is it your cat?" "That mends me of Bridie McWha," said Hiram. "Hiram had a call give to 'er by 'er father, an' she hed to put a pink ribbon on it an' call it Gwendolyn. But that wasn't what she said the day it hed 'er over in the pasture. If I was you I wouldn't lose no sleep over findin' a name fer that cat. When it walks in some day with four or five kittens lookin' for names you might hev a weak spell. 'Tis here craze fer fancy names fer dumb critters is plum foolishness—yes, sir. Did you read in the paper the day the ladder that tortured cats an' kittens an' then left 'em to die—right here in town? Well, sir, if folk s'nd spend a little more time over teachin' 'em to be human they'd be doin' a lot more good than by pamperin' a cat or a dog an' givin' it a fancy name an' feedin' it to death. That's what I say—an' I don't care who knows it."

GETS HOT AS FINISH NEARS IN BIG LEAGUES

New York, Sept. 16.—The eyes of the baseball world today turned toward Ebbets Field where Brooklyn and Cincinnati will clash in the first of a series of three games that will have an important bearing on the outcome of the pennant race in the National League.

Brooklyn, now leading the league by a comfortable margin, has twelve more games to play. If the Superbas break even in the coming week they will finish the season with 90 victories and 64 defeats.

Cincinnati, the runners-up, to nose out Brooklyn under these conditions would have to capture fifteen of its nineteen games, while the Giants would have to win fifteen out of seventeen games.

The fluctuating, feverish race for first honors in the American League also held the close attention of fandom.

The New York Americans perched on the top round of the pile, expressing reports had thirty dead.

The United States sub-treasury, immediately opposite the scene of the explosion, was placed under heavy police guard to protect the millions of dollars in gold, silver and paper money lodged in the great granary structure.

Stock Exchange Closed. At 12:15 a report that the stock exchange had closed for the day was confirmed. The board of governors ordered the closing two minutes after the explosion occurred.

Newspaper men counted eight bodies in the street and the bodies of several horses. The Morgan building appeared a shambles and part of the front of the sub-treasury and the street was torn.

The forty-story Equitable building was rocked by the explosion as was all of lower Manhattan.

Death Estimate Grows. New York, Sept. 16.—The first efforts of the police were directed toward the removal of the bodies of the dead.

At 12:40 fourteen bodies were seen lying on the sidewalk and ten others were reported to have been taken away by volunteer workers.

The unofficial estimate of dead at 12:50 was 80, with the number of injured estimated at 200. According to Charles Matthews, of Brooklyn, a salesman of typewriter specialties, four persons, one a woman were killed while working in the Morgan office.

Matthews said he was passing the office of Mr. Lamont, when the explosion occurred. Mr. Lamont, he said, was dictating a letter at the time and apparently was unhurt.

Mr. Morgan Abroad. Seventeen victims of the explosion were taken out of the side door of the Morgan banking house at 12:35. J. P. Morgan himself is now abroad. After suspending trading in stocks for the day, the governing committee of the exchange ordered that all deliveries of securities be deferred until Monday except by mutual consent. The committee called another meeting for later in the day to take further measures in connection with the effect of the explosion on trading.

Many of the injured were girls working in offices. Hundreds of persons were thrown to the sidewalk by the explosion.

Morgan Heads Safe. So far as could be learned no prominent financiers or members of the stock exchange were injured. Thomas W. Lamont and Henry P. Davison, members of the firm, were in the Morgan offices but were not hurt.

An hour after the explosion the police were inclined to the theory it had been caused by a collision of a T. N. T. truck with an auto in Wall street between the Morgan office and the sub-treasury building.

They pointed to the fact that a demolished truck and a wrecked auto were found at the spot.

At 1:30 several representatives from the district attorney's office arrived to start an investigation. The police bomb squad expressed the opinion that a bomb had exploded. They said that fragments of metal were picked up in the street.

The financial district this afternoon presented a scene of greatest demolition. Great blotches of blood appeared on the white walls of several of Wall street's office buildings. Almost every pane of glass in the vicinity was shattered.

Two hundred infantrymen are patrolling the area.

Morgan Corner Wrecked By Explosion; Lower New York Shaken; Many Lives Are Lost

WHETHER BOMB OR T. N. T. POLICE ARE NOT YET CERTAIN

Thirty Dead, Is Early Estimate—Bodies Lie on Sidewalk, Some of Them Girls From Financial Offices—None of Heads of Morgan House Hurt.

New York, Sept. 16.—A terrific explosion rocked all of Lower Manhattan occurred at noon today outside the offices of J. P. Morgan & Company in Wall street. Several persons were killed and many others injured.

Junius Spencer Morgan, son of J. P. Morgan and a member of the firm, was badly cut by flying glass. Officials of the company denied first reports that a bomb had exploded in the Morgan building.

The list of casualties, mounting as excited word passed from mouth to mouth, at 12:30 was reported to have reached fifteen killed and fifty injured, but an accurate count was impossible in the intense confusion that swept the financial district. It was equally impossible an hour after the explosion occurred to determine either its exact nature or location for spectators were held back by the police. It was reported, however, that shortly before noon an automobile with two men drove up in front of the Morgan offices and that when Morgan detectives approached the machine one man alighted and either accidentally or purposely dropped what appeared to be a bomb.

Occupants of a skyscraper looking down on Wall street told another version. They declared they had seen the car draw up and the men leave it. These spectators advanced the theory that the bomb—if it was a bomb—had been timed. This version differed from the first, as regards the two passengers and their chauffeur. The first story had it that they were among the dead or injured.

Never in its history has lower Manhattan witnessed such excitement as prevailed today. Trading on both the stock and curb exchanges was ordered suspended for the day a few minutes after the explosion occurred, and from then on lower New York forgot its business matters in attending to the needs of the injured.

Fire apparatus and ambulances dashed through the narrow, crooked streets of the financial district, on which lay a covering of shattered glass and the broken remains of men and horses.

Bodies of Three Girls. Among the bodies were those of three girls, terribly mutilated. A police station was hastily thrown around the scene, the financial district when thousands, hearing the explosion, flocked to the tip of Manhattan Island. Police reports at 12:35 had fifteen dead. Unofficial reports had thirty dead.

The United States sub-treasury, immediately opposite the scene of the explosion, was placed under heavy police guard to protect the millions of dollars in gold, silver and paper money lodged in the great granary structure.

Stock Exchange Closed. At 12:15 a report that the stock exchange had closed for the day was confirmed. The board of governors ordered the closing two minutes after the explosion occurred.

Newspaper men counted eight bodies in the street and the bodies of several horses. The Morgan building appeared a shambles and part of the front of the sub-treasury and the street was torn.

REPORT ON THE MINTO MINES

Pay Increases Are Included in Recommendations

Matters Affecting Operation of Mines and Surroundings of Men Gone Into—Suggestion for Coal Mining Laws.

Halifax, N. S., Sept. 16.—The Herald says that the royal commission on the N. S. miners' demands reports as follows re Minto: Demand 1.—One dollar a day increase on all present day rates and 37 per cent increase on all contract rates. Granted with exception that increases are added to rates in effect at Minto previous to May 1, 1920. Demand 2.—Better ventilation of mines. Commission states that one Minto operator already has ventilating equipment on spot and that others have expressed willingness to improve conditions in near future. Demand 3.—Check off of union dues through pay office. Commission does not see its way clear to make any positive recommendation but suggests that in view of the adoption of this practice in Nova Scotia that Minto operators take into consideration advisability of taking favorable view of request. Demand 4.—All pushing of boxes to be paid for. Commission finds that owing to local conditions pushing at Minto cannot be eliminated or even largely reduced but recommends that cost of pushing should be included in tonnage rate or made the subject of negotiations in the different cases between men and operators. Demand 5.—Better housing conditions and adequate water supply for workmen. Commission finds that while Minto mines do not appear to have character of permanency possessed by Nova Scotia mines same recommendations as regard living conditions should apply with the exception of that regarding sewage systems, which is waived. Demand 6.—Bell rope on both sides of shaft and a by-path to pass from one side of shaft to the other. Commission makes no recommendation in its report. Demand 7.—All workmen to be paid time and a half for overtime and double time for Sundays and holidays. Commission recommends that custom now prevailing be continued. Demand 8.—When a miner is taken from the working of a mine to do shift work he be paid \$6 a day. Granted. Demand 9.—When a man reports for work he must be given work or a day's pay. Commission finds that "companies have expressed willingness to place such men under such circumstances to be best advantage, recognizing the hardship and injustice to men so affected without consideration" but takes no definite action in its report. The report further states:—"The attention of the commission has been drawn to the absence of coal mining laws and regulations regarding the Province of New Brunswick and recommends that the attention of the provincial department of mines be brought thereto."

"NICKY" WAS NEAR THE PRISON DOOR

Arnstein's Counsel Succeeds in Warding Off Commitment for Contempt.

New York, Sept. 16.—The shadow of imprisonment loomed before Jules W. (Nicky) Arnstein here yesterday after Federal Judge Manton had ordered the once reputed "master mind" of Wall street bond theft plots into custody for contempt of court. Arnstein's counsel, however, came to the rescue and after two and a half hours of pleading succeeded in having his client paroled in his custody until this afternoon when Judge Manton will hear arguments on an application for a writ of habeas corpus.

SINGER CUTS TOUR

Abrupt Ending of McCormick's Australian Visit Reported.

London, Sept. 16.—A despatch to the Exchange Telegraph from Melbourne says that John McCormick has cancelled his Australian engagements and is to leave immediately for London to escape the disagreeable situation which has arisen as a result of part of the audience at a recent concert rising and singing the British national anthem and some of them shouting that Mr. McCormick was a Sinn Feiner.

A DANGEROUS WARNING —BLEEDING GUMS

Are your gums tender? Do they bleed when brushed? If so—watch out for Pyorrhoea.

This disease of the gums, which afflicts four out of five people over forty, not only destroys the teeth, but often wrecks the health.

In Pyorrhoea, the gums become spongy, then recede; the teeth decay, loosen, and fall out—or must be extracted to rid the system of the infecting Pyorrhoea germs which breed in pockets about them. These germs lower the body's vitality and cause many diseases.

You can keep Pyorrhoea away. Visit your dentist often for tooth and gum inspection, and use Forhan's For the Gums.

Forhan's For the Gums prevents Pyorrhoea—or checks its progress, if used in time and used consistently. Ordinary dentifrices cannot do this. Forhan's keeps the gums firm and healthy—the teeth white and clean.

Start using it today. If your gums have receded, use Forhan's according to directions, and consult a dentist immediately for special treatment.

35c and 60c tubes in Canada and U.S. If your druggist cannot supply you send price to us direct and we will mail tube postpaid.

RECENT WEDDINGS

At the home of Mr. and Mrs. Silas McDiarmid, 63 Gooderich street, their daughter, Miss Audrey Elizabeth, was united in marriage with Louis Alberton Titus, at 4 o'clock yesterday afternoon, by Rev. S. S. Poole. The bride wore a becoming gown of white charmeuse satin, with veil trimmed with orange blossoms, and carried a shower bouquet of Ophelia roses. Miss Norma Hayward, a niece of the bride, was flower girl, dressed in pale pink organdie and carried a basket of sweetheart roses. Percival Bonnell played the wedding march. After the ceremony a buffet luncheon was served and Mr. and Mrs. Titus left for a motor trip through the province. Among those present at the ceremony were Mrs. Geo. B. Baker and son, Charles, New York; Mrs. James Floyd, Bloomfield; Miss Freda Wren, St. Andrews.

At 5 o'clock yesterday afternoon in St. David's church, Rev. J. A. MacKeigan united in marriage Miss Helen West, only daughter of Mr. and Mrs. Frederick Shaw, 172 Waterloo street, and William Louis Gifford. The bride was dressed in a dark brown traveling suit, with brown taffeta hat and beaver fur, and carried a shower bouquet of cream roses. Miss Jean Connell, who was flower girl, wore a white dress trimmed with lace and a pink and white hat and carried a basket of roses and sweet peas. Mr. and Mrs. Gifford left for Muskoka and from there they will go to Toronto, where they will reside. Among those present at the wedding were Miss Nita Pratt and the bride's brother, James McLaren Shaw, both of New York.

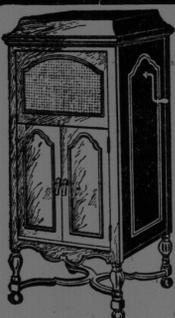

On Wednesday, September 8, the home of Mr. and Mrs. Eben Slocum, Jernise, was the scene of a quiet wedding, when Rev. H. H. Gillies united in marriage their eldest daughter, Myrtle Zelma, to

many friends remembered them with beautiful gifts, including china, cut glass and silver. The groom's gift to the bride was a necklace of pearls.

At the Germain Street Baptist church, last evening, Charles Wesley White of the staff of the Canadian Express Company, was united in marriage to Miss Bertha Elizabeth Flewelling. The marriage ceremony was performed by Rev. Dr. David Hutchinson in the presence of a few relatives and friends. Harvey Whitney supported the groom and Mrs. Whitney the bride. The young pair will have their home in City Road.

Amherst, N. S., Sept. 15—A wedding of wide interest was solemnized in the First Baptist church here at 5 o'clock this afternoon when Rev. C. W. Rose united in marriage Miss Francis L. Foster, daughter of Mrs. Eva Pride Foster, of Amherst, and Frank Stewart Scott, son of Mr. and Mrs. N. C. Scott, of St. John. The bride entered the church on the arm of her brother, Archibald W. Foster, to the strains of the Voice That Breathed O'er Eden by the church choir, accompanied by Mr. George Shires, organist. Oh Promise Me was played softly throughout the service and as the bride party left the church, Mendelssohn's Wedding March was played.

The bride was dressed in white brocade satin trimmed with silver lace and pearls. The bridal veil, trimmed with orange blossoms, was the same as worn by her mother. The shower bouquet was of Ophelia and sweetheart roses. The bride was attended by Miss Dorothy Christie, attired in pale green organdie with picture hat to match and a bouquet of deep pink roses. The groom was attended by his brother, C. Harold Scott. The bride's mother wore black duchesse satin trimmed with jet and sequin, and the groom's mother black silk with head embroidery and oriental scarf and bouquet of white roses. The ushers were the Misses Mary and Helen White, Francis Quigley and Muriel Cahoon attractively gowned in dainty colors.

The groom's gift to the bride was a handsome seal coat, to the bridesmaid a gold pin with pearl setting, to the groomsmen a pearl stick pin and to the ushers gold bar pins. The gifts were many and beautiful including a chest of silver from the groom's employees, Messrs. Morrison & Co. and a check

maritime for Quebec, Toronto and other upper Canadian cities. They will reside in Amherst.

Among the out-of-town guests present at the wedding were the parents of the groom, Mr. and Mrs. N. C. Scott, of St. John; Gordon Scott, of Toronto, and Mrs. J. A. Coughlin and F. C. Bonnell, of St. John. The happy pair left on the

trials for the Lake George trophy, concluding event of the Gold Cup regatta, here. An official speed of 77.85 miles an hour was attained in one of the six one-mile dashes. In one trial which had to be thrown out because only three of the six watches caught his time, Wood was clocked at the rate of 78.94 miles an hour. His average time for the six dashes was 78.73 miles an hour.

SPEED RECORD.
Detroit, Sept. 15—Another speed record for hydro-planes was set up today by Gar Wood, driving his Miss America to victory in the one mile championship

RECENT DEATHS
Miss Lillian Matthews.
After an illness of about one year and a half Miss Lillian Matthews, a highly respected young woman of West St. John, passed away yesterday. Miss Matthews is survived by three sisters, Mrs. J. W. Campbell, Mrs. Harry Wooden and Mrs. Charles Peterson, all of West St. John; and two brothers, Frank Matthews, of this city, and John Matthews, of Woburn (Mass.). Miss Matthews was a native of Hoyt, the daughter of the late Andrew Matthews. She had lived in West St. John for several years. The funeral service will be held at 8 o'clock tonight at 165 Guilford street, West St. John. The body will be taken from the undertaking rooms of W. E. Brennan tomorrow morning to the Boston train. Interment will be at Hoyt.

The death occurred at her home in Montreal on Monday, Sept. 13, of Clara Gertrude McDermott, six-year-old daughter of Henry N. McDermott, formerly of St. John.
Mrs. John F. Peterson, who has been ill at her home for several months, passed to her rest last night at the age of eighty-five years. She was a woman of a kindly, lovable disposition, beloved by her family and greatly esteemed by a wide circle of acquaintances. She is survived by two sons, John and James Peterson; and three daughters, Mrs. R. E. Armstrong, and Misses Lillian and George Peterson. The funeral will take place on Friday afternoon from her late residence, 202 Duke street.

Moncton, N. B., Sept. 15.—The death occurred at the Moncton city hospital at 12 o'clock today, of Mrs. Elna Gauvin.

WIFE KILLED; SURGEON HURT; TRAIN HITS AUTO.
Spellsiss Carried 300 Yards on Locomotive's Pilot in New Jersey Tragedy.
Point Pleasant Beach, N. J., Sept. 16.—Mrs. Joseph M. Spellsiss, wife of a noted Philadelphia surgeon, was killed and her husband may die as the result of a grade crossing accident here on Sunday. Their automobile was struck at the Foreman Avenue crossing of the New York and Long Branch Railroad by an express train. A woman guest of the Spellsiss escaped with minor injuries. According to a witness, Dr. Spellsiss attempted to cross the track in front of the approaching train. The machine was struck broadside, and the three occupants were carried on the pilot of the locomotive amid the wreckage for 300 yards before the train was stopped. Dr. Addin Hewson of Philadelphia, a close friend of the Spellsiss, worked for more than an hour in an effort to save the woman's life.

THOUSANDS OF GALLONS OF MILK SEIZED.
Since the beginning of January the Montreal Health Inspectors have confiscated 7,159 gallons of milk that were declared of inferior quality, impure and unfit for consumption. The proportion of these seizures was 6,831 gallons in Montreal and 628 in country places. They have also in this period of time made 13,878 inspections in the city, groceries, restaurants, boarding houses, market places, etc., and 4,504 inspections in the country.

STUDENT GETS PRISON TERM
(Canadian Press Despatch.)
Woodville, N. H., Sept. 15.—Robert T. Meads of La Grange (Ill.), the Dartmouth College junior, who shot and killed Henry E. Maroney of Melford (Mass.), a fellow student, after a drinking bout in a college dormitory last June, pleaded guilty to manslaughter today. He was sentenced to serve fifteen to twenty years at hard labor in the state prison.

ARRESTS MADE AS RESULT OF RIOT IN THOROLD, ONT.
St. Catharines, Ont., Sept. 15.—Thirteen residents of Thorold were arrested today in connection with the riot at Thorold in August, when an attempt was made to lynch David McNeal just after he had been committed for trial on a charge of having murdered Margaret Bosck, the four-year-old child whose body was found in an unfrequented spot some distance from the town of Thorold, several weeks after she had been missing from her home.
The Thorold police have received anonymous letters threatening violence worse than that of the night of the McNeal affair if any arrests were made as a result of the attack upon the Thorold town hall and attempt upon McNeal's life.

ST. JOHN SCHOONER A TOTAL LOSS
The St. John schooner Selma, which went ashore recently across the Bay of Fundy at Apple River, has been given a thorough examination and has been pronounced a total loss. The outfit will be taken off the wreck before the heavy fall tides come and will be sold. The Selma was built in a St. Martin's shipyard in 1892 and was registered at this port. She was well known for years in the Bay of Fundy trade and was in St. John harbor every few weeks for a long time.

VICTORIAN ORDER
A meeting of the Victoria Order of Nurses' Board of Governors was held on Tuesday evening at the home of the order, Judge Forbes presiding. Reports from the nurses showed 873 visits made during the month of August by the eight nurses on duty. Miss Munde, the superintendent, also reported the success of the order's department at the exhibition and declared the work generally progressive. An application from Rothsay for a nurse for three days each week was considered and tentative plans made for a three month trial of this plan of meeting the requirements. The board decided to ask the city council to include the Home among the buildings freed from taxation on the general ground that it is a public institution.

NETHERWOOD OPENING.
A good attendance marked the opening of Netherwood school for girls at Rothsay yesterday morning. Eighty pupils enrolled, thirty of whom are day girls. The new pupils numbered seventeen and there were some changes in the teaching staff. Miss Matson, from England, who has been engaged to take charge of the intermediate department, has had several years experience in English schools and comes well recommended. Two other new teachers were engaged, Miss Trueman, who is to teach French grammar, and Miss LeRoy, who is to teach French reading and composition. A very successful school year is anticipated under the able management of Miss Gannon, the principal, and her efficient staff of teachers.

The Evening Times and Star

ST. JOHN, N. B., SEPTEMBER 16, 1920.

The St. John Evening Times is printed at 27 and 29 Canterbury Street, every evening (Sunday excepted) by The St. John Times Printing and Publishing Co., Ltd., a company incorporated under the Joint Stock Companies Act.

VANCOUVER AND ST. JOHN

Another illustration of how Hon. Mr. Ballantyne gained the approval of the people of Vancouver by "identifying himself with the aspirations and purposes of the citizens concerning the future of the port" has come to hand.

"It is true that Mr. Ballantyne's statements are strengthened by the fact that he produces something more than words. Some contracts are already made. The way has been opened to others. The programme is taking definite form."

The people of Vancouver are to be congratulated on the deep interest the minister is taking in the development of their port, and also on the fact that the traffic of the port is not to be burdened with such heavy interest and sinking fund charges as harbor commission would impose upon St. John.

PREMIER TASCHEREAU

Premier Taschereau of Quebec, as the spokesman of his province, in his address to the Imperial Press delegates, voiced the devotion of the people to the Empire. He was able to tell of splendid service done by Quebec in aiding to save Canada to the Empire in the early days, and of not less notable service in the cause of responsible government.

The French premier says that France, Italy and England are agreed on the fundamental principles of the proper attitude toward the Soviet government and minor variations in policy are due to different internal conditions in the respective countries.

The slight decline in the cost of living which has taken place in the last month or two is to some extent offset by the increase in freight rates, which will be passed on to the consumer.

In October Manitoba and Saskatchewan will vote on the question of liquor importation. It is said there is little general interest, probably because the liquor interests feel that their case is hopeless.

La Presse wants to know in regard to attraction at exhibitions, something really amusing cannot take the place of buffooneries. It may be further asked why the fakirs should not be replaced by features quite as entertaining but much less objectionable.

There has been a sharp decline in the number of cattle and sheep in Great Britain during the last year. If this continues the discovery may be made that Canadian cattle are not so undesirable after all.

THE TARIFF

It will not be the fault of the Canadian Manufacturers' Association if the Canadian tariff is not made even higher than it is. Some other countries have increased their tariffs, and this, in the opinion of the manufacturers, is an example for Canada.

The purpose of this suggestion is plain. It is intended to deceive. Happily the people are stupid. They know what the manufacturers want, and realize that to give them all they would be to increase the crop of millionaires at the expense of the consumers of the country.

In Italy the industrial dispute is likely to be settled by a compromise which will carry important concessions for the workmen. The moderates among them have won the day and paved the way for negotiations, unless the radical element should prove wholly untractable.

The French premier says that France, Italy and England are agreed on the fundamental principles of the proper attitude toward the Soviet government and minor variations in policy are due to different internal conditions in the respective countries.

The slight decline in the cost of living which has taken place in the last month or two is to some extent offset by the increase in freight rates, which will be passed on to the consumer.

DEMPSEY

Jack Dempsey will battle 'em all, the short and the fat and the tall; he'll meet any chap who's intent on a scrap, and plaster him over the wall. Oh long have we yearned for a champ who'd fight at the wink of a lamp and it's been a long day, I am prompted to say, since we had a good boy of that stamp; But Dempsey, he rather would fight, than go to a lecture at night; he has no excuse when he's asked to produce "invincible left" or the right. I hope in some bright coming year the prize ring will quite disappear; outworn and outlaid it will rest 'neath the sod, and no one will hand it a tear. But while it's a human devil I think that the pugs should cut ice, and put up a mill with a hearty good will when anyone offers the price. So Dempsey's a solace to me; I watch all his motions with glee; a fighter who'll fight is a joy to the sight, whatever his conditions may be!

CANADA—EAST AND WEST

Dominion Happenings of Other Days

A HALIFAX PRIVATEER

In the late days of the fall of 1756 a privateer was being fitted out at Halifax for service against the French for war between the English and that nation had been declared about six months previously. Robert Sanderson and Malachy Salter, two merchants of the pioneer city, had obtained permission to fit out and send to sea a 100 ton craft to prey on French shipping. The craft was called the Lawrence. She was fitted for a six months cruise when she cleared for sea on November 16, 1756. She carried a crew of about 100 men who had as armament on the frigate fourteen small cannonades, and twenty swivel guns. Her skipper was Captain John Ross who had been a right hand helper of the English in all their fighting along the maritime coasts.

The career of the privateer from November until the following March is not known but at that time she was at the Bermuda repairing. When she sailed again it was to the north where in a day or two she encountered a strange ship at sea. As the vessel did not answer her shot and heave to, a shot was put into it and the main mast brought down. Then it was discovered that it was a British vessel and says the chronicler "there was much laughing."

On the voyage north the vessel ran into terrible weather which almost stripped the rigging and split the craft. It was only by putting the guns to sea and holding and taking extreme precautions that the vessel was kept afloat or off the rocks. But the gale was hardly over when the vessel encountered a French sloop and ordered it to surrender. After a sharp encounter the French craft fled from the battle and the weather beaten vessel was left to drift off the bay of which it arrived on April 23, 1757 safe, but with, as far as is known, no captures to its credit as a result of the six months of sailing.

LIGHTER VEIN

Not Fussy. "So you have accepted him? Are you sure he is the sort of a man you want for a husband?" "Yes, mother. The sort of a man I want for a husband is the one I can get."

Used to Change. "Is it true Smith's wife has left him?" "Yes, my dear. But what can you expect? She was a cook before he married her."—Passing Show.

Impossible. Photographer (busy posing client before camera) "Yes, increased wages are the main cost of materials have enabled me to raise the price of pictures 100 per cent. Now, will you please look a little pleasant?"—Houston Post.

They All Are. "She says she has an ideal husband." "How long have they been married?" "Three weeks." "Shucks, all husbands are ideal for the first three weeks."

Don't Get Fat. The stern father put on his sternest look as his erring son entered his presence. "Where were you last night, Charles?" he demanded. "Let me think—" began the young man. "I will help you think," observed his father, "salute, silver and sandalini restaurant, acting host to a party of frivolous chorus girls. Is not that so?" "Well," said the young man, seeing that evasion was useless, "I was."

The Main Reason. Because I simply can't determine "twist, salute, silver and sandalini, I've just about decided that I'll have my fun of pussy-cat."

DROWNS SAVING SISTER. (N. Y. Times) A pathetic incident was related yesterday at Ellis Island when the 1,300 steerage passengers from the Cunarder Kaiserin Auguste Victoria arrived there having been quartered at Hoffman Island since Friday afternoon because there was no room for them at the immigration depot.

Several of the young women went into the water on Sunday afternoon when the heat was 80 in the shade, and Eva Beattie, a Scotch girl, 17 years old, was drowned while trying to save her younger sister, Rose, who had waded out beyond her depth. Rose, who was three years younger, was saved by the guards. The body of Eva, who wore around her neck a little bag containing all the funds which the sisters brought to the United States, has not yet been recovered.

NOTRE DAME DE LORETTE

If there is one sector of the Western battle front which holds more sacred memories than another, both for Frenchmen and for Britons of every part of the Empire, it is that which surrounds the ridge of Notre Dame de Lorette which, according to a despatch published in the London Times, has been chosen for a great battle, which is to be fought to Allied dead. Ypres may mean more to the British and Verdun to the French but the heights of Notre-Dame have looked down on some of the fiercest struggles and the most bitter sacrifices in the history of either nation.

Its commanding position alone might well have marked it as the most fitting site for a monument. Running due east and west for six miles and towering above the fields of France the ridge, scarred by trenches cut in the chalky soil and surmounted at its western end by the woods and the windmill of Bonny, must be a familiar object to almost every British soldier who served on the western front. McCordonnier has designed to replace the little shrine at the eastern end of the plateau with the tower of his Pantheon and this will look out over the La Bassee Canal and beyond it across Givenchy, Festubert and Neuve Chapelle, as far as Arras and Ypres. No longer does the great landmark of the Lower Bridge stand sentinel at Loos and Lens but in its place is a tragic heap of ruins, symbolic of the valley that was once the valley of death, the famous Vimy Ridge. What memories the very name recalls to Canadians.

To Canada, says the Times, Vimy Ridge speaks of the final triumph after months of preparation. To Frenchmen it means the final check to the high hopes of 1915, to hundreds of Englishmen it recalls plans of mines and counter-mines, of attack and counter-attack. To many will recall a dark night in May, 1916 when Conroy valour and the sacrifice of many lives, laid down in weariness and without murmur, stopped a break in the German line which would have meant disaster which we hesitate to visualize. How many tired gunners from their observation posts on Lorette have watched the British dropping in Lorette and Givenchy directed stratagem on "the Pimple" that German O. P. of ill fame which for so long dominated the position.

Below the ridge of Notre Dame on the south, where it can be approached only by steep steps, separated by ravines, is the little Souchez River, and all that remains of Souchez, Carey and Ablain St. Nazaire. It was here that the fiercest fighting of the great battle of Arras took place in the spring and summer of 1915. Cut off by the barrier of the ridge the British divisions, holding on for dear life in front of Bethune, saw little of the great struggle which our French Allies were carrying on so near at hand. It was not until later that they had won the ridge and surrendered it—not without pang—to our safe-keeping that the graveyards and the broken guns of the shattered town of St. Nazaire church and the scrap iron that once had been the famous sugar refinery of the Souchez, told its tale. The view from Lorette must look far different from that which it was in the days when one could watch from its heights the German shells crashing into Carey mingling the black smoke of their bursts with clouds of pink dust from some ruined farmhouse or the transport crawling in the dust along the Ablain road. It was in those days that the gipsy bomber whose story was told in the pages of Punch a few years ago found his favorite spot in the battlefields from which he could not tear himself away on the slopes of Notre Dame.

"But most he loved to lie upon Lorette. And, crouched on cornflowers, gaze across the lines On Vimy Ridge—we had not Vimy yet— Pale Souchez's bones, and Lens among the mines. Till, eagle-like, with hoarse indignant shrieks, Gunners arose from their sacred peaks And cast him down to Ablain St. Nazaire."

There are no sentinels today on Lorette and one may walk unscathed and without fear on its chalky heights. The duck boards in the Souchez marshes must be gone. Cabaret Rouge is no longer a cameo Piccadilly Circus and there is perfect peace in the Zouave Valley. But the dead lie thick around Notre Dame de Lorette. And the citizens of the "lantern of the dead" that is to shine from the belfry tower may have a thought for the men who gave their all for the city's freedom, for France and for the Right.

ONTARIO POLICE REFORM

(Toronto Mail and Empire) Whiskey runners along the Canadian border have called attention in a highly sensational manner to the inadequate police system of the Province of Ontario. Despite the efficiency of individual officers, municipal, county and provincial, the system under which they operate has been outgrown for a generation. The Drury Government is responsible for the defects in the system, but will be held to account for failure to correct them now that they have been so glaringly exposed. At the root of the trouble is a dual control, or rather the two forces which often fail to co-operate in harmony. When a serious crime is committed the country or in a town that has no detective force, the practice is for the local officers to work on it, and exhaust the obvious possibilities of the case before calling upon the Attorney-Gener-

**Great Bargains In
Ladies' American High
Class Footwear
Offered By
Waterbury & Rising, Ltd.**

Read the Reason Carefully

The 80 p.c. duty on shoes and the exchange on Canadian money, makes it impossible for us to give our customers value in American boots and shoes, it really means about 50 p.c. added, for which no value is received.

Therefore, we have decided to close out all our Ladies' fine American shoes at startling prices, including 578 pairs of the famous "Dorothy Dodd" quality in Black, Grey, Brown and Patent leathers as follows:

- 10 different styles at \$ 8.00 per pair, present value \$11.00 to \$12.50.
- 8 different styles at \$11.00 per pair, present value \$13.00 to \$15.00.
- 10 different styles at \$12.00 per pair, present value \$16.00 to \$21.00.

A great many of these goods were bought before the big advance and have even better stock than if purchased today.

Call early for first selection. Positively no sale goods on approval.

Why Canada Needs a Protective Tariff

A FEW REASONS

Why Canada should retain the present fiscal policy of adequate protection for Canadian agriculture, industry, labor and business.

- 1. Canada has shown wonderful growth in agriculture, manufacturing, forest production, mineral production, transportation, banking, insurance, and other business since the adoption in 1878 of the National Policy of adequate protection for all classes.
2. Because Canada was strong in all departments of national activity, she made a great record in the war.
3. Since the war practically all civilized countries have retained or increased their protective tariffs.
4. Over 2,000,000 Canadians are supported by wages paid by Canadian factories.
5. Over 80 per cent. of all the produce of Canadian farms is consumed in Canada.
6. The tariff has caused over 600 branches of United States factories to locate in Canada.
7. The tariff provides a great portion of the revenue of the Dominion Government.
8. The present tariff of Canada is very moderate; the average rate of duty on all dutiable importations is 22 1/2 per cent.; the average rate of duty on all importations, free and dutiable, is only 14 2/3 per cent.
9. Canadian products should not be exported in the raw state but should be manufactured in Canada in order to create business, provide employment and add to the national wealth.
10. Canada has maintained a protective tariff for 42 years. The United States, our greatest competitor, has maintained a protective tariff for 131 years. Their manufacturers have a home market of 105 million people. Our manufacturers have a home market of about 8 million people. Last year each inhabitant of the United States bought, on the average, \$4.41 worth of Canadian goods, while each Canadian, on the average, bought \$100.26 worth of United States goods. United States purchases from Canada were largely raw materials. Canadian purchases from the United States were largely manufactured goods. Is it surprising that the rate of exchange is against Canada and that our dollar is at a heavy discount in the United States? This is the situation with a Canadian tariff. What would it be if the tariff were removed? Remove the tariff, and in the words of ex-President Taft, Canada will become "an adjunct of the United States."
11. The destiny of Canada is a fully developed nation within the British Empire.

Summary of statement submitted to the Committee of Cabinet Ministers at Winnipeg, September 14, by the Canadian Manufacturers' Association.

According to the Dominion Census, about 700,000 people are employed in the factories of Canada. Including their families the number of people who depend for their living on the wage rolls of Canadian factories number 2,000,000. In addition there are probably half as many more who are indirectly supported by the wages of the factory workers.

Any civilized country that aspires to greatness must be strong in the following departments of national activity: agriculture, manufacturing, transportation and finance. Purely agrarian countries have never reached any degree of greatness; purely industrial countries cannot exist; both manufacturing and agriculture are helpless without the machinery of finance and transportation systems to carry produce.

What part does the factory play? Remove the factories and imagine the effect on the wholesale and retail trade, on the banks, on the financial and brokerage houses, on real estate, on the professional men, on the tax-collecting departments? In the majority of Canadian cities and towns the factories are the direct or indirect cause of a very considerable part of business transacted because the welfare of many allied activities depends on the ebb and flow of the factory output, the buying capacity of the factory purchasing department and the spending of the factory payroll.

The Principal of Protection. As the Canadian Customs Tariff has not been revised since 1907, revision is now overdue. After careful investigation it may be found that the rates of duty on some articles are too high and will consequently be lowered; or, in certain other cases, where the rates of duty are too low and will consequently be raised; or, in other cases, that the rates of duty will be considered fair and remain unchanged.

Definition of Protection. The objects of the protective system in Canada have been and should continue to be: (1) To diminish, as far as possible, the importation of goods from foreign countries which can be produced at home. (2) To facilitate the importation of raw materials for manufacturing processes, which cannot be produced at home.

The tariff protects domestic industry by increasing the difficulty of importing competing products; in the second place, it secures revenue for the Government; and in the third place, it can be used either as a weapon against any foreign country that is using discriminatory methods, or to bargain with a foreign country for tariff concessions that will open desirable markets for Canadian products.

Support of the protective principle should not be confused with advocacy of a high tariff; and does not advocate a high tariff now, but it is a conservative statement of fact to say that the Canadian customs tariff as it stands today is not a high tariff and that in comparison with tariffs of other countries it is very moderate.

During the year ending March 31st, 1920, the average rate of duty on all dutiable importations, less the customs war tariff collections, was 22 1/2 per cent. The average rate of duty on all importations, free and dutiable, after deducting the customs war tariff collections, was 14 per cent. On the 18th day of May, 1920, the customs war tariff rates were completely removed by Parliament. Surely it is reasonable to say that the average rate of duty of 22 1/2 per cent on all dutiable

importations and the average rate of duty of 14 2/3 per cent on all importations, dutiable and free, now imposed by the Canadian Customs Tariff, constitute a moderate tariff.

The World Tendency Towards Protection. Fiscal policies of countries are inter-related and swing together like a pendulum towards protection in one period and towards free trade at another period. This fact is significant because the present swing of the world pendulum is strongly towards protection.

Following the armistice, industrial countries, especially those that had been engaged in the war, took precautions to safeguard their home markets against a deluge of foreign goods, in order that their demobilized soldiers and war workers could secure employment in their own countries. The United Kingdom, notwithstanding statements to the contrary, is not a free trade country. She now applies various protective duties, and has a measure before Parliament designed to prevent dumping, arising from exchange depreciation or other causes.

France increased her tariff rates during the past year, on most goods, by amounts varying from ten to three hundred per cent.; and as late as April 28th, 1920, she announced a new and extensive list of prohibited imports. Italy, Switzerland, Austria, Spain, Roumania and the Balkan States have made marked increases in their tariffs. Recent dispatches show that still higher protection is being provided in most of these countries, and especially in France, Italy and Spain. Japan has now in operation a high protective tariff.

In South America, all countries have tariffs designed not only for the purpose of producing revenue, but also to provide for a reasonable measure of protection for home industry. The average rate of duty on all importations, both free and dutiable, for these countries, for 1918, the latest year for which statistics are obtainable, follows:—

Table with 2 columns: Countries and Average rate of duty on all imports. Argentina 20.0, Brazil 35.9, Bolivia 17.1, Chile 20.0, Ecuador 19.9, Paraguay 61.1, Peru 21.9, Uruguay (1918) 35.2, Venezuela 26.7.

The following clause was adopted by the National Republic Convention of the United States at Chicago, June 10th, 1920: "The uncertain and unsettled conditions of international balances, the abnormal economic and trade situation of the world, and the impossibility of forecasting accurately even the near future, preclude the formulation of a definite programme to meet conditions year by year. The Republican Party reaffirms its belief in the protective principle and pledges itself to a revision of the tariff as soon as conditions shall make it necessary for the preservation of the home market for American Labor, agriculture and industry."

A tariff was introduced in Australia on March 24th, 1920, which is highly protective in character. All British colonies outside the United Kingdom, have tariffs that are protective in character, with the exception of certain Eastern countries, such as India and the Straits Settlements, which impose duties on certain imports for revenue.

Official records show that there is not in the world to-day one country making any pretensions to industrial development that is without a protective tariff. This Dominion's tariff legislation, designed for national development, must be affected by the fact that every great industrial nation to-day throughout the world has erected protective tariff barriers against the exportation of its products by other nations. Were our customs tariff removed whilst other countries maintain and strengthen theirs, our markets would be filled with the flow goods from protected foreign countries, while our goods would be largely shut out of foreign markets. This would reduce the resources and prosperity of the great majority of the citizens of each country.

The tariff protects domestic industry by increasing the difficulty of importing competing products; in the second place, it secures revenue for the Government; and in the third place, it can be used either as a weapon against any foreign country that is using discriminatory methods, or to bargain with a foreign country for tariff concessions that will open desirable markets for Canadian products.

have shown the following great increase in values under the National Policy:

FOREST PRODUCTION.

Table with 2 columns: Year and Log Products and Wood Pulp and Resin. 1881 \$ 29,546,570, 1919 \$ 140,981,584.

MINERAL PRODUCTION.

Table with 2 columns: Year and Value. 1880 \$ 14,013,118, 1919 \$ 173,975,913.

FISHERY PRODUCTION.

Table with 2 columns: Year and Value. 1879 \$ 13,629,254, 1918 \$ 60,243,429.

CHARTERED BANKS.

Table with 2 columns: Year and Paid-up Capital. 1888 \$ 79,213,565, 1919 \$ 213,912,111.

Public Bank Deposits.

Table with 2 columns: Year and Value. 1878 \$ 71,900,195, 1919 \$ 1,941,478,895.

AMOUNT OF FIRE INSURANCE POLICIES IN FORCE.

Table with 2 columns: Year, Dec. 31st and Amount. 1878 \$ 84,751,937, 1919 \$ 1,187,833,596.

AMOUNT OF FIRE INSURANCE POLICIES IN FORCE.

Table with 2 columns: Year, Dec. 31st and Amount. 1878 \$ 409,899,701, 1919 \$ 4,904,396,461.

Since 1878 the composition of our population has changed. Then the great majority of the people were engaged in farming, lumbering and fishing. There was comparatively little business activity and those who could not be employed in these industries were forced to emigrate, with the result that some millions of Canadians are living in the United States and today it directly supports Canada if opportunities for employment had been available. After 1878 the industrial system of Canada began to develop and today it directly supports 2,000,000 Canadians, and in addition, yields indirect opportunities to several millions more.

Transportation.

In 1878, the year after the adoption of the National Policy, there were only 6,484 miles of steam railways in Canada. A glance at the following table will show a great increase in the number of miles of the amount of freight carried, and gross earnings:—

Table with 3 columns: Year, Miles in operation, Gross earnings. 1879 8,484, \$1,925,056, 1899 19,725,629, \$19,225,056, 1919 82,243,784, \$145,056,236.

The railways opposed the reciprocity agreement in 1911 with the United States on the ground that such an agreement would build up north and south traffic at the expense of east and west traffic, and would depreciate the value of the huge investments in our transportation systems. This is even a more important question than it was in 1911, because the Government now owns two out of the three transcontinental railways, and will have to pay out of general taxation. The organization of the Canadian Government Merchant Marine marks a new period in the history of the country's development. The first vessel was commenced in May, 1919, and by the end of the year, twenty-two ships ordered by the Government were completed. It is expected that by the end of 1920, sixty ships will be in commission. These ships were built in Canadian shipyards, largely from Canadian material, and by Canadian workmen. The outfitting of these vessels is done in Canadian ports and with Canadian goods. They are manned chiefly by Canadian seamen, and are now carrying Canadian cargo and passengers.

British and Foreign Capital Invested in Canada.

One of the most remarkable developments attributable directly to the adoption

of the National Policy is the growth of Canadian agriculture. The Canada Year Book of 1918, published by the Dominion Bureau of Statistics, and the Dominion Department of Agriculture, gives interesting statistics in regard to Canadian agriculture. On page 219 of this volume, the following extract appears:— "If to the estimated value of agricultural production in 1917, viz., \$1,621,028,000, be added for land, \$2,922,229,000, for buildings, \$27,548,000, for implements, \$387,079,000 and for live stock \$1,102,261,000 the total estimated agricultural wealth of the Dominion of Canada for 1917 amounts to \$8,330,145,000. That was Canada's agricultural capital in 1917.

Realizing the importance of agriculture, the Dominion and provincial governments have given special attention and substantial financial assistance to this basic industry. Of recent years the money appropriated for railway extension has been spent almost entirely with a view to the provision of better facilities for the agricultural communities, and possibly no commodity carried by the railways of Canada enjoys a better rate than farm products. All these measures are sound, and consistent with the doctrine of protection, because they are designed to stimulate and safeguard the great basic industry of agriculture.

Replies to Free Trade Arguments.

Free trade arguments are being used today as the spear head of the attack against the protective system in Canada. It may be that many who use the free trade arguments do not believe in them, and are merely trying to create a diversion from which they may profit. But, since these free trade arguments are being used to attack the National Policy, it is necessary to show why they cannot be applied profitably to Canada.

One of the chief free trade arguments is to belittle the value of the home market, especially for farmers. It is stated that Canadian farmers sell their products in an open market where the prices are fixed by international competition, and that they buy what they need in Canada, which is described as a closed market. For 1919 the gross value of the agricultural production of Canada has been officially estimated at \$1,975,841,000. During the same year, exports of unmanufactured farm products were valued at approximately \$313,000,000, or if butter and cheese included, at a little over \$361,000,000. In other words, only between sixteen and 18 1/2 per cent. of all the produce of Canadian farms was exported in the unmanufactured state while between 81 1/2 and 84 per cent. was marketed in Canada.

The home market under normal conditions is a constant market. In a country where the population is steadily increasing it is a growing market. The foreign market or open market is an uncertain market. It may be lost entirely through war. It may be restricted through legislation or economic causes. Not so many years ago wheat was sold in foreign markets and buying in protected markets should be most strongly urged in Western Canada, where grain is grown for export. But the conditions of agriculture are changing very rapidly in Western Canada. Not so many years ago wheat was the principal source of farm revenue in Ontario. What is the case now? Figures for the year 1917 show that wheat constituted 5 per cent. of the total value of the farm produce of Ontario. Roughly speaking, a new country starts growing wheat and gradually develops into mixed farming, and the

progress of the Prairie Provinces away from the wheat growing stage to the mixed farming stage has already reached extensive proportions.

The increase in farm live stock between 1911 and 1916 in the Prairie Provinces is set forth in Table 18, page 193 of the Canada Year Book, 1918.

Prairie Provinces: Increase per cent.

Table with 2 columns: Item and Increase per cent. Horses 59, Milch Cows 64, Other Cattle 45, Total Cattle 58, Sheep 73, Swine 91, Poultry 22.

The growth of industry in Manitoba, Saskatchewan, and Alberta is also extraordinary. In 1909 the value of goods manufactured in these three provinces was a negligible quantity. For the present year a very conservative estimate would place the value of the goods manufactured in the three Prairie Provinces at \$800,000,000. In 1900 there was not a single member of the Canadian Manufacturers' Association located west of the Great Lakes. At the present time there are seven hundred—five hundred of these in the Provinces of Manitoba, Saskatchewan and Alberta. In fact Western Canada is becoming rapidly industrialized—the industries which have made the greatest strides being milling, building, steel and iron, clothing, textiles, and paper.

The Canadian home market that absorbs farm produce is the population of cities, towns and villages. Analyze city, town and village, and it will be found that a considerable part of the activities of their inhabitants has its origin in the existence of factories. Manufacturing is the life blood of wholesale and retail trade, transportation, professional practice, and commercial enterprises. Business clusters around the factory. Close or restrict the factory and business dwindles and the home market declines.

Another free trade argument is that under the protective system industry is developed at the expense of agriculture. Taking the Canada Year Book's estimate of the agricultural capital of Canada in 1917 of \$8,330,145,000, and dividing this sum by the number of farms in Canada, given by Government statistics as 780,000, we find that the average capital per farm was \$9,856. Moreover, our industrial development has not caused any undue depopulation of the rural areas. In 1911 the rural population of Canada was 54.47 per cent. of the total population. This was a marked contrast to Great Britain, where the rural population was 49.8 per cent. of the whole when free trade was adopted in 1846 and had fallen to 21.9 per cent. in 1918.

It is also argued that Canadian manufacturers during the war produced munitions which compared favorably with those produced by other countries; they do not need protection now. This argument ignores the extraordinary conditions governing the munition industry. There was no competition. The price of munitions was fixed and calculated to yield a reasonable margin of profit where the business was efficiently conducted. The work was done to standard specifications. No selling force was required; because the market took all the supply. More important still, Canadian manufacturers secured the opportunity to manufacture in large quantities. This is the pressing need today, and the home market is necessary to supply it.

It is also argued that protection causes greater efficiency, better quality and lower prices. Improper organizations can be prosecuted under existing laws. In any case, industrial combination has not reached undue proportions to date in Canada. The census places the number of manufacturing establishments at about 85,000 although this includes concerns which can scarcely be called factories. As the number of factory employees is guaranteed their employment by the number of employees per industrial establishment in Canada is about twenty.

A more serious charge is that Canadian manufacturers are being protected by the tariff, for example, by adding freight and duty to selling price of competing products in fixing their own selling prices. We do not defend such practice, but we submit that specific charges should be made against the tariff, rather than general statements against all manufacturers, or against the protective system.

We beg to draw attention to an entirely new method of attacking manufacturers, and through them, the protective system. A few manufacturers who have enjoyed marked prosperity are singled out. They are attacked in a sensational

manner in the press and on the platform. Their profits for particularly successful years are advertised. Their financial statements are analyzed unfairly. No attempt is made to average the lean years with the good years. No tribute is admitted to efficiency, economical management, or unusual business ability. These outstanding examples of prosperity are held up to the public as a general condition of entire industries. This method of argument is as unfair as it would be to hold up some phenomenal case of profitable farming, or a lucky strike in mining, as an example of how agriculture or mining pays generally.

A recent survey of the shoe manufacturing industry shows, first, that a very considerable number of firms have tried to succeed in this industry but have become bankrupt, and second, that the average return on the capital invested in the shoe industry was 5.29 per cent. per annum. Dun's estimate of failures of Canadian manufacturing firms for the years indicated are as follows:

Table with 2 columns: Year and No. Failures of Mfg. Firms. 1911 222, 1915 655, 1908 426.

This is the other side of the story. For the year ending March 31st, 1921, the Minister of Finance, in his budget speech, estimated that Canada's balance sheet will be: Estimated expenditure (including capital outlays) \$549,649,428, Estimate revenue \$51,600,000, Estimated deficit \$498,049,428.

Adopt free trade, lose the customs revenue, which he estimated at \$167,000,000, and the deficit will be \$331,049,428. Those who would abolish the Canadian customs tariff and thus lose the revenue which it produces, suggest that this revenue should be replaced by the imposition of the following taxes—a direct tax on unimproved land values and natural resources, increased taxation on personal incomes, increased inheritance taxes, and increased taxation on corporations. As to taxing unearned increments as such, no objection is offered, but it must be remembered that vacant land now pays taxes to the municipalities and in some provinces additional taxes to the provincial government. In fact, much vacant land has been given up by the owners in preference to paying the taxes now imposed. Income taxes are now paid by individuals to the municipalities and also the Dominion Government. Inheritance taxes are now imposed by all the provinces. Corporations are taxed as persons by municipal governments, provincial governments and the Dominion Government. It is submitted that the suggested forms of direct taxation, while capable of some extension, cannot produce in one year the huge sum of \$331,000,000 (or almost the present entire revenue of Canada).

The fact that the per capita amount of revenue raised by the tariff is greater in Canada than in the United States is often used as an argument against the Canadian tariff is too high. The explanation of this fact is simple. The United States imposes a high tariff on imports which compete with domestic products. But, because the United States has built up home industry by constantly adhering to the protective principle for 181 years, comparatively little is imported. Consequently, the amount of duty collected is smaller per capita than in Canada, not because the United States duties are lower, but because the volume of imports is comparatively much smaller.

United States Competition.

The United States, with a population of 105,000,000, buys from this country 8,000,000 people only about one-half the value of the goods which it sells us. Our exports to the United States and imports from the United States for various years since 1907 follow:

Value of Imports from United States.

Table with 2 columns: Fiscal Year and Amount. 1907 (9 mos.) \$15,943,029, 1912 35,354,478, 1917 67,631,616, 1920 809,096,817.

Value of Exports to United States.

Table with 2 columns: Fiscal Year and Amount. 1907 (9 mos.) \$7,021,480, 1912 120,534,634, 1917 486,870,890, 1920 464,029,273.

Last year each inhabitant of the United States bought \$4.41 worth of Canadian goods, while each Canadian bought \$100.26 worth of United States goods. Significant also is the fact that our purchases from the United States were largely in manufactured goods while their purchases from Canada were chiefly raw material. It is not surprising that the rate of exchange is against Canada and that our money is at a heavy discount in the United States. This is the situation with a Canadian tariff. What would it be if the tariff were abolished? Canada, in competing with the United States, operates at present under certain disadvantages which may be summarized as follows:

- 1. The United States has maintained a protective tariff for 131 years; Canada for forty-two years.
2. The United States has a more highly organized industrial system, supported by immense wealth.
3. The United States manufacturers are guaranteed their employment by 105,000,000 people, guaranteeing a large output and specialization. The Canadian home market of 8,000,000 has already been seriously invaded.
4. The United States has comparatively a greater labor supply.
5. The Customs regulations of the United States discourage Canadian imports while the Customs regulations of Canada encourage United States imports.

Briefly, we cannot manufacture extensively in Canada at the present age and stage of our industries, unless these industries are given protection against the industries of the United States. We have two choices. We can abolish our tariff and allow the United States to continue to develop as a manufacturing country for us, while we produce raw materials for them, or we can persevere in our determination that Canada shall continue to develop as a manufacturing country as well as an agricultural country. In Europe there is a well-known phrase "peaceful penetration." Trans-

lated, this means the domination of a small country by a big country. The small country, if it is true, often keeps the forms of national independence, freedom has departed, and remains bound in fetters of financial and commercial subservience.

During the reciprocity campaign of 1911, ex-President Taft and the late ex-President Roosevelt were agreed that reciprocity would be a good thing for the United States. They wrote confidential letters to each other on the subject; then came the quarrel over the nomination of Taft as President. The correspondence was published in an issue of the 25th of April, 1912, at Boston, Mass.

In a letter from ex-President Taft to the late ex-President Roosevelt, the following extract occurs:

"The amount of Canadian products we would take would produce a current of business between Western Canada and the United States that would make Canada only an adjunct of the United States. It would bring all their important business to Chicago and New York, with their bank credits and everything else, and it would increase greatly the demand of Canada for our manufactures. I see this is the argument made against reciprocity in Canada, and I think it is a good one."

In his reply, the late ex-President Roosevelt stated:

"It seems to me what you propose to do with Canada is admirable from every standpoint. I firmly believe in free trade with Canada for both economic and political reasons."

Those who do not believe Canadians when they point out the dangers that free trade or a lowering of the tariff would bring to Canada, will perhaps be much more ready to accept the late ex-President Roosevelt's view.

The above references to the United States are made in a purely general way. A certain amount of trade between the two countries is necessary and most desirable. But the people of the United States will appreciate the natural desire of Canadians to promote their own national development, while maintaining with the United States the most cordial relations.

Conservation.

There are two courses we can pursue in regard to our natural resources. We can plunder these resources and ship the raw or partly finished products to every country to other countries, which will take these materials, manufacture them and sell them back to us in the shape of finished articles at greatly enhanced prices. The other course is to conserve, to manufacture in Canada not only the preliminary processes, but also the succeeding processes and export the products in a finished state. Under the first plan, for example, we would export our timber, ores and pulp to other countries, and the second plan we would manufacture them into highly finished products for domestic and foreign consumption. Under the first plan the natural abundance of Canada is being squandered. Under the second plan we would conserve the resources of the country, and the proceeds of the business connected with the processes of further manufacturing, affecting banking, transportation and insurance, would go to enrich other countries, and part of our own population would be forced to emigrate in search of employment. Under the second plan we could carry these processes of manufacturing to the highest stage here, providing employment and creating a home market for the first time in free trade. The second plan is protection.

Preferential Tariffs Within the British Empire.

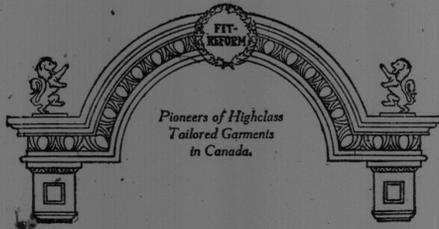

On the whole, prospects seem bright for the general extension of British preferential tariff systems to other British countries. Such an arrangement amongst British Overseas Dominions would correspond with the policy followed between the United States and various countries, including Cuba. A similar policy is followed toward their respective possessions by France, Italy, and was followed by Germany.

Canadian Factories in the War.

Shortly after the beginning of the war the Canadian factory system was practically put on a war basis, and munition making was organized. How Canadian factories succeeded in their production is illustrated by the following statement from the report issued by the War Cabinet and presented to the Imperial Government: "The manufacturing resources in Canada have been mobilized for war production almost as completely as those of the British Isles." Munition work was done chiefly under the control of the Imperial Munitions Board—which placed orders in Canada amounting to \$1,200,000,000. At the peak of the war, between 250,000 and 275,000 workers were employed in making munitions including shells, parts, 64 wooden ships, 44 steel ships and 3,000 aeroplanes. At the same time Canadian factories largely supplied the Canadian army at home and the Canadian army abroad. About half the Canadian army came from the factories and half returned to the factories on demobilization. If we had not built up a factory system and allied business, if our manufacturing and business had been done for us largely by other countries, then Canada could not have sent as many men to the war, could not have supplied shells, ships and aeroplanes, could not have given large financial aid, and could not have absorbed her demobilized soldiers.

Conclusion.

In the course of this statement an effort has been made to show that manufacturing in Canada is inseparably connected with other industries of the million wage earners and dependents secure their living through manufacturing, and that the most of the remainder of the population derive indirect benefits; that his country as a whole has made remarkable progress under the National Policy of protection; that, with the entire world swinging towards protection, Canada cannot relinquish it; that the revision of the tariff should be scientific and take into consideration the requirements of all classes, that a stable fiscal policy of protection with some assurance of permanence is a vital need; and, finally, that the aim of the late policy determined as a result of this enquiry should be to advance Canada towards her destiny as a fully developed nation within the British Empire.

As Fine and Accurate As a Beautiful Watch

In the fineness of the work—in the perfection of every detail of designing, and shaping, and putting together of the individual parts—a Fit-Reform garment closely resembles an expensive watch.

The accuracy of the watch depends on the perfection of the hidden parts. So with a Fit-Reform garment.

The intricate hand tailoring of the parts you do not see, makes possible the perfection of fit, the long wear, the elegant appearance of Fit-Reform Suits and Overcoats.

ARTIST LOSES BRIDE IN STORM ON LAKE MICHIGAN

Former Anna Mitchell, Painter, of New York, Drowned Off Racine, Wis.—Washed from Motor Boat.

Chicago, Sept. 16.—A thrilling story of having clung to his overturned motor boat six miles out in Lake Michigan off Racine, Wis., for eighteen hours and seeing his bride of six weeks whom he had chained to the centreboard, washed off by the waves after an eight-hour struggle was told on Sunday by John A. Jones, a landscape artist, following his rescue. His bride was Anna Mitchell, a portrait painter of New York. No trace of her body has been found.

Mr. Jones was rescued by the fishing tug Williams, and is in a serious condition at a Racine Hospital.

Mr. Jones and his bride were on their honeymoon. Jones obtained a divorce last July from his first wife, Elizabeth Elizabeth Gurney Flynn, the Socialist, and married Miss Mitchell at Crown Point, Aug. 18. Her family had objected to the match and so the two eloped. They had left Chicago on their honeymoon in an eighteen-foot launch, which carried a square sail. The put in to Ephraim, Wis., Aug. 21, with much difficulty. A storm had disabled the boat and it was half swamped. They went as far as Washington Island, subsequently and were on their return trip. They left Milwaukee Saturday afternoon.

At 3 o'clock the motor suddenly stopped. The waves were high, and while Mr. Jones tinkered with the motor the day passed into night and suddenly the boat capsized.

"I found my wife struggling in the water," Mr. Jones said tonight. "I got her into the boat after I had righted it. I put her in the bow. Then came another heavy sea and the crazy boat tipped over again.

"Then I got the chain and fastened the poor girl. I thought she was secure, but the waves released her from the chain, shot her into the lake and carried her beyond my reach.

Meantime, I had been burning clothing soaked in gasoline. Nobody saw the signal. Nobody came. I saw passing craft all day today but could not attract the attention of any of them."

THE WOODSTOCK EXHIBITION

Woodstock, N. B., Sept. 15.—This, the third day of the Woodstock provincial exhibition, was marked by better weather and the crowd began arriving early. Between 8,000 and 10,000 passed through the gates as well as hundreds of automobiles. In the evening the crowds moved restlessly through the brilliant lights gives to the grounds a brightness and animation of scene that attracts. Down through the midway one can hear the wild uproar of the showmen, orators, the crash of music from the many shows, the shouts of the hot dog vendors interspersed with the cries of alarm from the thrills of enjoyment. There is an almost endless opportunity to "take a chance" on anything from a baby teddy bear to hitting a nigger in the head and getting a ten cent cigar, like in the olden times. There is no need of anyone being shy for those things that are not barred by prohibition are to be had in all quantities, even two per cent. One can be separated from an endless chain of dimes and have lots of fun in doing it.

Most of the live stock were judged today, a big interest being taken in the live stock sheds. The prize winners have their ribbons displayed and the showing made exceeds all previous records. There was the keenest competition in all classes. Interested spectators could be seen in earnest debate over the merits of the respective winners.

It will be of interest to local fanciers of Holsteins to know that the exhibition of this breed is especially good, a heifer coming in for very special commendation. This animal is to be shown in the Chicago exhibition. It is said the owners have received and refused an offer of \$1,500 for this animal.

An interesting contest featured at the exhibition was the live stock judging competition open to young men not exceeding twenty-six years of age. A dozen young men faced four hard classes of stock, heavy horses, dairy cattle, beef cattle and sheep, which were brought into the arena to test the young men's judgment. The young men were given twenty minutes to express their opinions, having to place the animals and write their reasons in that time. After each class had been judged, E. P. Bradt, deputy minister of agriculture, who supervised the competition, called upon the exhibition judge in the respective classes to judge the animals and tell the young men reasons for so placing them. A committee consisting of the exhibition judges and Mr. Bradt corrected the cards submitted and gave each competitor his standing. The final summing up showed that Ralph Lloyd, Gordonville (N. B.), sixteen years of age, was the winner of the handsome cup donated by E. W. Mair, Woodstock.

It was interesting to note that the first six young men, listed in order of proficiency, were students who attended the agriculture course at the Carleton county vocational school, Woodstock. These young men, together with their classmates, expect to again enter this institution this fall to complete their two years' course. To become the permanent property of a person the cup for judging must be won two years in succession. The Woodstock exhibition executive is to be congratulated on its featuring a contest of this nature, as it is by such educational medium as this that the standard of live stock will be raised and maintained.

Tomorrow is children's day and it goes without saying that the little tots will have the time of their young lives. They will march to the grounds under the guidance of their teachers and of course their big attraction will be the midway.

The weather looks good and if tomorrow opens well there will undoubtedly be a record-breaking crowd.

LOCAL NEWS

T. J. O'Rourke whose resignation from the office of registrar of vital statistics for the parish of Lancaster has been accepted by the board of health and will continue to exercise his duties in that office until his successor has been appointed.

Upon invitation of Commissioner Jones, Mayor Schofield and the other commissioners, Superintendent Power Co., Ltd., drove to Missep yesterday afternoon for the purpose of ascertaining the condition of the wooden buildings which have been at the site of the old pulp mill but old metal and broken brick of no commercial value.

Martin Daley, one of the best known conductors on the C. N. R., has been superannuated and it is understood that another well known passenger train conductor will be retired on a pension shortly. Conductor Daley has been on the road about forty years. In his early railroading days he was brakeman on the St. John-Shediac accommodation train and of late years has been running the St. John-Halifax night express. He lives in Moncton and has a small farm on the Salisbury road. He was one of the most popular conductors on the C. N. R. Another old time conductor, Albert J. Welling, of Shediac, who ran here for several years on the Maritime, was superannuated last winter.

ESCAPES BY LEAP THROUGH WINDOW

Lad on Way to Prison Jumps from Moving Train.

Guelph, Sept. 16.—The local police have received word that Raymond Moss alias Albert Heilm, who was arrested here after breaking into Savage's jewelry store, broke custody while being taken from Guelph to Mimico, where he was to have served a year's sentence. Moss was escorted as far as Toronto by Inspector Ryan, but was turned over to another official there, and while on the train near Coldwater Junction he made a leap through the window while the train was moving at 25 miles an hour. Another prisoner named Palmer also made good his escape at the same time, but he was later captured. So far as is known Moss is still at large.

CRIPPLED CHILD 17 YEARS IN CELLAR

Joliet, Ill., Sept. 16.—State and county authorities have started an investigation to determine the persons responsible for the condition of Marie Kobrowski, a crippled, aged 19, who, they say, had been kept hidden for 17 years in the cellar of her home here.

Official announced that they had learned that the girl was placed in the cellar when she was 8 years of age. They said she had the physical appearance of a child of 6 and her limbs were twisted and shriveled and her face gaunt and discolored. The girl was found in a crib in the corner of the cellar covered with a quilt. The only light came from one small window.

Authorities reported that the upper part of the house was clean and comfortable. There are three other children in the family. The girl's step-father, Steve Zam, is a railroad employe.

AUTOMOBILE ACCIDENT AT MONTREAL

Montreal, Sept. 15.—Victor Depatie, a waiter, of 876 Laval avenue, this city, was instantly killed, and Marie Pettit-jean, twenty, is lying in the Montreal General Hospital with a fractured skull and is in a critical condition, while seven others, of whom five are women, were slightly injured when the automobile in which they were driving turned turtle at Bordeaux today, opposite the prison gates. The overturned machine pinned Depatie to the ground, killing him instantly.

Rosario Degonzo, of 11 Charlotte street, Plattsburg (N. Y.), had hired the machine and had taken a party of girls for a drive to Bordeaux, where they had stayed.

The accident was caused by the car skidding over the road which was slip-

WRIGLEYS

TO ATTEND CONFERENCE

Ottawa, Sept. 15.—R. H. Coates, Dominion statistician, sails at the week-end to attend a statistical conference under the auspices of the League of Nations. The purpose of the gathering is to adopt some uniform system of compiling and exchanging statistics of countries signatories to the covenant of the league. Since the league was established the statistics have been collaborated by the existing organizations but experience has demonstrated the urgent need of coordinating methods and having some central organizations. It is because of this that the coming international conference of statistical experts is to be held.

MEXICO ORDERS SHIPS IN CANADA

Ottawa, Sept. 15.—The new government of Mexico has placed an order with the Prince Rupert Drydock Company for the construction of thirty-seven ships, mostly oil tankers. The contracts have been placed in the hands of the minister of marine for endorsement, the company applying for the government guarantee on such orders as provided for in the aid to shipping legislation passed at the last session of parliament.

SUPREME COURT CASES

Fredericton, N.B., Sept. 15.—The appeal paper was continued and completed this

afternoon before the appeal division supreme court.

In Dube vs. Morneau, A. T. LeBlanc for defendant supported the appeal from the Restigouche county court. R. B. Hanson, K.C., contra. Court considers matter of the estate of Charles Dickens, deceased, Dr. J. B. M. Baxter, K.C., supported appeal from the Northumberland probate court, Dr. W. B. Wallace, K. C., contra. Argument was unfinished when court rose.

USE The Want Ad Way

FRIDAY AND SATURDAY Footwear Bargains

- Some people will say that shoes are high in price. But are they? We will admit that you have to pay high prices for shoes in some places, but if you will come around to our store and see our display of special prices for the week-end, you will change your opinion of high prices, at our store at any rate. Ladies' Black Kid Lace, Welt. Regular value \$14.00; Week-end \$8.95. Girls' Tan Calf Blucher School Boot. Regular value \$8.50; Week-end 5.95. Ladies' Mahogany Calf, Lace, Rubber Sole. BANK CLEARINGS.

St. John bank clearings this week were \$3,040,021; last year, \$3,057,742; in 1918, \$2,269,003. Halifax clearings this week were \$5,909,228; Moncton, \$920,327.

IMMIGRATION OFFICIAL HERE.

Percy Reed, of the department of immigration, Ottawa, is in the city inspecting the facilities for the handling of immigrants at West St. John. He arrived in the city yesterday from Halifax.

GOING TO OXFORD

Messrs. A. B. Gilbert and G. T. Bridges of the U. N. B. are to leave tonight on the Montreal train and will sail on the Metagan on September 18. Both are Rhodes scholars and will take up residence at Oxford early in October.

WINS PRIZE.

Miss Sutherland, nurse with the Anti-Tuberculosis Association is the winner of a very nice centre piece in connection with Rev. H. L. Coughlan's recent picnic. The drawing took place at Black River yesterday. The winning ticket was No. 255.

PRESENTATION

Several members of St. Matthew's Church spent a pleasant afternoon yesterday at the summer home of Mrs. Robert Brittain, Morna. A presentation was made to Rev. H. L. Eisenor who will soon leave the city. The presentation was made by Mrs. Roy Harding.

AGAIN QUIET.

In the police court this morning only two names were on the police sheet, that of John Kousyuro, charged with vagrancy, and one man charged with being drunk. Both were remanded.

LUMBER REQUEST.

The secretary of the board of trade received an inquiry this morning from an upper Canadian firm asking for the names of firms that could supply them with white spruce. The names were sent.

MAGISTRATE AWAY.

Hon. R. J. Ritchie left this afternoon for Glace Bay, Sydney, Louisburg and Mulgrave. While in the latter place he will be a guest of his nephew, Rev. Donald Patton. During his absence Sir John Magistrate Henderson will preside over the police court.

NOVELTY SHOWER.

A novelty shower in honor of Miss Josephine Sheehan was given last night at the home of Mrs. J. E. Ryan, 15 Partridge street. Mrs. Ryan and Mrs. Sheehan, sister-in-law of the guest of honor, were joint hostesses. About twenty-seven young people gathered at a most enjoyable evening was spent. Dainty refreshments were served.

INVESTIGATING SUICIDE.

J. V. Lantala, local agent of the department of immigration, is carrying out an investigation of the case of William Ambrose John, the young Welsh miner who committed suicide in the Salvation Army People's Palace a few days ago. He will submit a report to the department at Ottawa.

LEFT FOR COLLEGE.

The fall term at St. Francis Xavier College, Antigonish, opened today and last night most of the local students left on the midnight train. Amongst those attending this year from the city are Cyril Driscoll, John Fitzpatrick, Arthur Chaisson, Frank Murphy, Edward Jennings, Frederick Jennings, Jack McGrath, Gerald Fishery, Charles Agar, Ronald McGillivray, William Maynes and Victor Moran. It is expected that others will leave for Antigonish later in the week.

THE BY-ELECTION.

One man, a commercial traveler, received a certificate from Hon. J. R. Armstrong, revising officer, this morning, so that he could vote at the advance polls in the federal by-election, which are to be held at the county court house in the city and at Fairville tonight, tomorrow night and Saturday night between 7 and 10 o'clock. For this purpose Judge Armstrong is sitting at the Pugsley building each day at 11:30 a. m. to receive applications from and give certificates to voters affected by the regulations.

ON VISIT HOME.

An interesting visitor to the city this week is John F. Melliday, a former St. John man, now of the firm of Melvin & Melliday, of Broadway, New York, who is visiting his parents, Mr. and Mrs. F. X. Melliday, Sydney street. Mr. Melliday has been in the American metropolitan for nineteen years and has achieved much success in the cotton goods business. Speaking of the present conditions, he said that there was a general falling off of prices in his particular line and the present indications were that prices would drop still further. At the present time, however, business was dull, all the dealers being stocked and fewer buyers in evidence. He said a revival of trade was expected in the near future. Mr. Melliday's brother, S. Louis Melliday, of Business Systems, Ltd., is also here from Montreal visiting his old home.

BOSTON SCULLER HERE FOR RACE

Jerry Shea a Likely Looking Oarsman — Shell Follows Him.

Jerry Shea of Cambridge, Mass., arrived in the city on the Boston train today to compete in the maritime rowing championships, which are to be held in Courtenay Bay on Saturday afternoon, under the auspices of the Athletic Association of the Commercial Club. He was met at the station by Fred A. Coombs, chairman of the Athletic Association. Reginald Wright, chairman of the reception committee of the Commercial Club; Frank White, who is arranging for the meet; Peter Clinch, J. Fred Belyea, and Frank Belyea.

Mr. Shea is a likely looking oarsman, standing about five feet ten inches in height and weighing about 165 pounds. He won the single scull championship of New England on the Charles River July 4, when he defeated Folkins, former champion, and three other aspirants for the title. They rowed a mile and a half and time for the distance was ten minutes and twenty seconds.

Mr. Shea, who rows under the colors of the Riverside Boat Club, was unable to bring his own shell with him, but is having it sent here on the Boston boat. In the meanwhile he will be given a shell to practise with. His own boat is twenty-six feet six inches long and weighs only twenty-seven pounds. It was designed and built by his brother.

AGAIN APPEAL FOR EXTENSION OF WATER MAIN

Visart Street Matter Before Common Council — The Douglas Avenue Service Pipes — Ambulance Meters.

John Richardson, Melvin Akerley and John Moore appeared before the common council in committee this morning on behalf of the residents of the old Adelaide road to urge upon the commissioners the necessity of extending the water and sewerage systems in Visart street. Mr. Richardson said that there were sixteen families there and that a previous application had been refused as Visart street was not incorporated. He said that D. Mullin, K. C., attorney for the estate through which the street ran, had expressed the opinion that it would not be necessary to have the street taken over by the city.

Commissioner Jones read the report of the city engineer in which it was stated that, on account of the solid rock excavation, the job would cost \$18,500. Commissioner Frink said that the extension would mean also the grading of the street which would mean a total cost of \$20,000. The same condition existed in Somerset street.

The mayor asked that Commissioners Jones and Frink bring in further reports on the matter. Doctor Frink suggested that if the water was not supplied to the people in this street they should be exempt from water rates.

Commissioner Thornton recommended the purchase from the St. John county hospital of a Chalmers ambulance at a cost of \$200. He said that in this year's appropriations he had \$3,500 set aside for a new chassis for the present ambulance but that this sum was not sufficient. The ambulance was laid up at the present time and the department had nothing to take its place. His idea was to use the new car as a patrol wagon and a relief for the ambulance. The car, when put into condition, would cost about \$1,100, which he intended taking from the appropriation for the new chassis. His motion carried.

Commissioner Frink recommended that the N. B. Telephone Company be authorized to erect seven new poles on Mount Pleasant. The motion carried and the commissioner was asked to take up with the company the matter of improving the poles if possible.

On motion of Commissioner Frink, it was decided to recommend the renewal of the following retaining walls to be paid for by bond issue: On property of D. J. Purdy, Bridge street, \$475; H. Wills, Gullford street west, \$230; David Jones, Mecklenburg street, \$135, and J. D. Coes, Sydney street, \$75. Concrete walls will replace old log walls in some of these places.

Commissioner Frink reported, regarding the poles at Breeze's corner, that there were two poles there, one belonging to the power company and one to the telephone company, that the power company having been removed to make room for a round turn in the sidewalk which would give three feet more of roadway at the corner. When completed there would be a radius of fifteen feet from curb to track. Mr. Bullock suggested that one pole might do for the two services and the other be removed, and Mr. Jones was of the opinion that both companies should use ornamental poles in the main streets. Doctor Frink agreed to take the matter up further with the companies.

Douglas Avenue.

Commissioner Frink brought up the matter of the Douglas avenue paving and said he thought something should be done right away. The mayor said he was waiting for the board of railway commissioners regarding the overhead crossing. Mr. Bullock suggested that the matter of service pipes being laid to vacant lots might be taken up in the meantime so Commissioner Jones read a report from the city engineer, dated September 13, in which he stated that the work to be done there would cost \$116,000.

Commissioner Thornton said he thought the city should go ahead with the work under the act and compel the owners to pay for it. He said that although some of the lot owners had protested that the land was not worth the expenditure, he noted that the Simonds estate had refused to sell property to the school board.

After some discussion Commissioner Jones promised to bring in a further report and a recommendation next week. The meeting then adjourned.

The mayor presided and all the commissioners and the common clerk were present.

EXHIBITION AVIATION.

A letter to the Times from Eastern Canada Air Lines, Toronto, of which Captain L. E. D. Stevens is managing director, expresses thanks to W. A. Quinton, who gave the use of his field to the aviators during the exhibition without charge, and Captain Stevens says he thereby showed the right spirit. Many notable passengers were taken up during exhibition week and the flights were a most attractive feature of the show.

BURIED TODAY.

The funeral of Edwin Peters was held this afternoon from his late residence, 188 Germain street. The service was conducted by Rev. G. A. Gubring and interment was in Fernhill.

The funeral of Mrs. Cornelius Hefferan was held this morning from the Mater Misericordiae. Home to the Cathedral where high mass of requiem was celebrated by Rev. Zoel Landry. Many spiritual offerings were received. Requiem services were held in the cathedral in the old Catholic cemetery.

MONTREAL MARKET.

Montreal, Sept. 16.—The tone of the local stock market was fairly strong at its opening this morning while a few fractional overnight gains and losses were registered. Brompton opened a half point higher than yesterday's close at 76-1/2 and immediately rose to 77. Atlantic opened a half point lower at 140-1/2 while Abitibi made an overnight gain of half a point to 81. Dominion Steel went down a half point to 56-1/2 and then rose to 56-5/8. Brazilian was firm at 37. Other issues were quiet.

EXCHANGE TODAY.

New York, Sept. 16.—Sterling exchange firm. Demand 348-1/4 cables 349-1/2. Canadian dollars 97-8 per cent discount.

OAK HALL - SCOVIL BROS., LTD.

King St. Germain St.

Value---

The one dominant thought and purpose which has directed every activity and impulse of Everett's since the store first opened its doors to the public, has been to give to our patrons the best values that thoughtful, intelligent merchandising could make possible.

Such success as we have achieved has come through constant adherence to this policy, and without resort at any time to alluring inducements or other artificial influences.

Service---

The day of the "furniture store" in its earlier interpretation is past. Today, those who would beautify their homes seek a real home furnishing service—a service that brings to bear the combined counsel and judgment of home furnishing specialists, and insures results accordingly.

Competency and ability to render such a service do not come from self-appointment. They come from years of specialized training, constant study, and research, and from fidelity to a definite ideal.

This store renders such a service in St. John. This service is really the most important consideration in furnishing a home, for it insures most effective results at least cost.

We believe you will agree that any service based on such sincerity of purpose must command confidence and assure economy.

A. Ernest Everett

THE HOUSE FURNISHER

91 Charlotte Street

We have decided to continue Saturday half-holiday during September. Store open Friday evenings until Ten. as usual.

School Hats for Juniors

School seems to be extra demanding on the boy or girl in the direction of clothing and especially headgear; and it is in this direction that we address ourselves today—hats for the junior going to school.

And for the ultra in hats we have the Velour from England, Priced from \$5.50 to \$13.50

D. Magee's Sons, Limited, Saint John, N. B.

INSURANCE FOR
WAR VETERANS

Provisions of Act by Which Returned Soldiers May Secure Life Insurance Without Examination.

Instructions have been received from Ottawa by Lieut.-Colonel S. S. Wetmore, director of the D. S. C. R., for New Brunswick, outlining the procedure to be followed in connection with the Returned Soldiers' Insurance Act, an act which was passed during the last session of parliament and which came into force on September 1.

All matters in connection with the enforcement of the act are to come under the direction of the D. S. C. R. for the various provinces. This act applies to all persons domiciled and resident in Canada at the date of application for insurance who are returned soldiers, i.e., any person, male or female, who served in the naval military or air forces during the Great War or having been domiciled and resident in Canada on the 4th day of August, 1914, has served in any of His Majesty's naval, military or air forces in the Great War and who has been granted or obtained honorable discharge therefrom; also a widow of a returned soldier as defined above who has died after retirement or honorable discharge from the service and before the expiration of twelve months from the coming into force of the act.

Any application will be received for insurance under the act up to September 1, 1922. Policies will be issued for a minimum of \$500 and for multiples thereof, not, however, exceeding \$5,000. The insurance money is payable only in the event of the death of the insured. Endowment or term policies are not issued.

The maximum amount which may be paid in one sum at death of the insured is one-fifth of the amount of insurance. The balance of the sum insured is payable at the option of the insured in equal or annual instalments as an annuity certain over a period of five, ten, fifteen, or twenty years or as a life annuity of the beneficiary, or as an annuity for life, guaranteed for five, ten, fifteen or twenty years.

The various plans of payment are mathematically equivalent and the option is given only in order that the interests of the beneficiaries may be better met. If, for example, the amount of insurance is \$5,000, and the insured has children, the remaining \$4,000 can then be converted into an annuity certain for five, ten, fifteen or twenty years. If a five year term is chosen the annual payment for five years will be \$898.52 each. If the beneficiary dies before the payments are completed the remaining payments will be made to the beneficiary's heirs. If a ten year period is chosen, the annual payments will be less, and so on.

There is also a "disability benefit" clause, by which if the insured becomes totally and permanently disabled, he receives the annual payment of one-twentieth of the amount of insurance during his life and continued disability of the insured, but not exceeding twenty such times in all.

There is also a "paid-up insurance" clause, a "cash surrender value" clause and an "automatic extended insurance" clause. The premiums are payable monthly, quarterly, semi-annually or annually.

A very important feature of this act is that no past-due premium is required. It is thought that many of the former members of the forces who have been refused insurance in the insurance companies will avail themselves of this opportunity of government insurance.

All persons wishing information may apply to any representative of the D. S. C. R. in any of the cities throughout the province or to the Assistant Director, "R" Unit, D. S. C. R., Fredericton, N.B.

WOMEN DOING WAR WORK

During the war women were called in to almost every vocation in life, and right well did they assume the responsibilities and fill such positions. In many instances, however, their strength has been overtaxed, and such ailments as are peculiar to their sex have fastened themselves upon them. Such women should remember there is a tried and true remedy for their troubles in Lydia E. Pinkham's Vegetable Compound, which for more than three generations has been relieving the women of America from some of the worst forms of female ills.

FAMOUS CASE IS SETTLED

(Canadian Press Despatch.)
Vancouver, B.C., Sept. 15.—Without the necessity of arbitration, the famous False Creek sea wall case here was settled yesterday by the handing over of checks aggregating \$108,000, drawn by the Canadian National Railways. Of this sum Messrs. Clouston and White receive \$60,000 in lieu of their rights on False Creek, and Messrs. A. G. Creelman, contractors, receive \$40,000 compensation for being prevented from completing their work. The case went through every court in the Dominion.

JOY ENTERS THE
MCDONALD HOME

Daughter Again Picture of Health After Several Months Illness.

"Tanlac has certainly brought joy to our family for it has restored my seventeen-year-old daughter to perfect health," was the statement made a few days ago by Mrs. Mary McDonald, of 16 South Kilbuck street, Halifax.

"Florence was operated on about a year ago and she has never been able to get the effects of it until now. She didn't seem to have any strength or energy and just had to drag herself about all the time. Often she went all day long without eating scarcely a bite of anything and that kept me worried all the time.

"Every morning she complained of feeling weak and dreary, and it just seemed to take all the strength she had to get out of bed and dress herself. Quite frequently she had awful headache spells and we could not get a thing that would relieve them. In spite of everything we did she gradually grew worse and fell off in weight all the time.

"Finally I decided to get her some Tanlac and see if that would help her, as several of our friends spoke of it. That was two months ago and today she is the very picture of perfect health. She looks like a different girl and all our friends are surprised to see her so well and strong.

"Her appetite is just splendid and everything she eats seems to agree with her perfectly for she never complains of even so much as an uncomfortable feeling now. Those headaches have all left her and she has gained back all her lost weight and strength. She is bright and cheerful all the time and takes a new interest in everything. I am certainly thankful that I tried Tanlac and I wish every mother in Halifax knew what I know about it."

Tanlac is sold in St. John by the Ross Drug Company and F. W. Munro; by G. W. McKay, Beaver Harbor; Willard J. Colwell, Evans; C. V. Parsons, Highland; John F. Meagher, Debec; O. D. Hanson, Lepreau; E. L. Conley, Leonardville; N. H. Johnson, Clarendon Station, and by the leading druggists in every town.—(Advt.)

CANADA LOSING AN OPPORTUNITY
There are excellent trade opportunities in the British West Indies for Canadian manufacturers and shippers, but they are being neglected and United States business men are gradually improving their status. It is the substance of a report brought to St. John by David Morris, a shipper and importer of Demerara, Barbados and Trinidad. Mr. Morris, who called at the board of trade rooms and also interviewed several St. John business firms, impressed them with the necessity of doing something and doing it quickly to make Canada's position stronger in the British West Indies.

Mr. Morris said that Canadians are not sending samples to the West Indies as they should and they are not quoting prices in a way that will give West Indians an idea of what they will have to pay for goods ordered in the Dominion. For instance, factory prices are often quoted, but the West Indian importers have no idea how far the factories are from seaports and what the total cost to them will be.

The United States exporters are quoting the exact cost of the goods and freight, so that the West Indians know what the goods will cost them landed at their doors. Canadians are so indefinite, as a rule, on the item of cost that the Americans are getting a large volume of trade which rightfully belongs to Canada. Mr. Morris said it was up to the Canadian exporters to protect themselves.

CADET CORPS FOR DUFFERIN SCHOOL
Organization of a new cadet corps in the Dufferin school will take place today, when Colonel A. B. Snow, provincial organizer for the corps, will make the first enrollment and will give the new members instructions in their new duties. In eight of the city schools cadet corps already have been formed and it is the ambition of Colonel Snow to have a corps in every school. The movement is gaining great popularity with the boys. At the Dufferin school yesterday Colonel Snow spoke with the principal, M. E. Brown, and then addressed the boys and about thirty expressed a desire to enroll at once. Besides the eight school corps there are in the city two church corps, those of St. Andrew's church and Knox church, which are well known in the city by their picturesque Scottish uniforms.

CONFIRMATION AT GOLDBROOK
Confirmation service was held by His Lordship Bishop Richardson at Goldbrook in the new church, last evening at 8 o'clock, the first time a service of that nature has been held in that church. There was a very large congregation and the church was tastefully decorated with flowers. There was special music appropriate to the occasion. Rev. H. Taylor McKim, rector of St. Mary's church, presented the candidates, twelve in number, to the Bishop for confirmation. Rev. Canon Danie of Robbsey, read the preface to the service after which W. E. Fuller, who has been acting as lay-reader of this mission church, read the scriptures, following which the Bishop addressed the candidates and exhorted them especially to remember four things: First, the need of personal prayer; second, bible study; third, attendance at communion; and fourth, personal service. A hymn was sung after which the rector of the parish presented the candidates to the Bishop for the laying on of hands in the following order: Miss Rena Hayter, Miss Christian Shand, Miss Annie Shand, Keltie Edwards, Miss Florence Leiford, Mrs. Whipple, George Johnson, William Sinclair, Ernest Whipple, Jack Edwards, Arthur Callaghan and Walter Kelle. A special offering was taken amounting to \$16, which is to be applied to the reduction of the mortgage on the church.

As a result of injuries received while mixing concrete at Long Wharf, yesterday afternoon, Frank Vernal, 36 Long Wharf, was taken to the General Public Hospital. He received painful injuries to his head, but his condition is not considered serious.

Mrs. Lilian Taylor Tells How Cuticura Healed Her Baby

"Our baby was two weeks old when his face became very red and terribly itchy, and he was fairly crazy rubbing and scratching till the skin broke and bled. He could not sleep, and did nothing but cry. His face looked as though he might be disfigured for life.

"I thought I would give Cuticura Soap and Ointment a trial. I found the free sample so good that I bought more and two boxes of Cuticura Soap and a fifty cent box of Cuticura Ointment healed him." (Signed) Mrs. Lilian M. Taylor, Box 99, Brackley, Muskoka, Ont., Dec. 30, '18.

Cuticura Soap to cleanse and purify. Cuticura Ointment to soothe and soothe and Cuticura Tablets to powder and perfume are ideal for daily toilet purposes.

Soap 25c, Ointment 25c and 50c, Sold throughout the Dominion. Canadian Importers, Limited, St. Paul St., Montreal. Cuticura Soap always without cost.

MOTHER! "California Syrup of Figs" Child's Best Laxative

Accept "California" Syrup of Figs only—look for the name California on the package, then you are sure your child is having the best and most harmless physic for the little stomach, liver and bowels. Children love its fruit taste. Full directions on each bottle. You must say "California."

"DANDERINE"
Stops Hair Coming Out; Doubles Its Beauty.

Squeeze the juice of two lemons into a bottle containing three ounces of Orchard White (shake well) and you have a quarter pint of the best freckle, sunburn and tan lotion, and complexion whitener, at very very small cost.

Your grocer has the lemons and any drug store or toilet counter will supply three ounces of Orchard White for a few cents. Massage this sweetly fragrant lotion into the face, neck, arms and hands and see how quickly the freckles, sunburn, windburn and tan disappear and how clear, soft and white the skin becomes. Yes! It is harmless.

GIRLS! USE LEMONS FOR SUNBURN, TAN
Try it! Make this lemon lotion to whiten your tanned or freckled skin.

DR. PIERCE'S GOLDEN MEDICAL DISCOVERY
In The Oden Time

hoop skirts were worn by those who first asked the druggist, and insisted on having the genuine Golden Medical Discovery put up by Dr. Pierce or fifty years ago. Dress has changed very much since then! But Dr. Pierce's medicines contain the same dependable ingredients. They are standard today just as they were fifty years ago and never contained alcohol.

Dr. Pierce's Golden Medical Discovery for the stomach and blood cannot be surpassed by any remedy today.

At this time of the year some people feel "all out of sorts"—their vitality is at a low ebb—the blood becomes surcharged with poisons! The best blood medicine and tonic is called Dr. Pierce's Golden Medical Discovery. It puts vim, vigor, vitality into the blood. Try it. This is what folks say about it:

LINDSAY, ONT.—"Doctor Pierce's Golden Medical Discovery is the best medicine I have ever taken for stomach trouble. For many years I suffered with gastric stomach trouble and nervous indigestion. I would be so bad at times that it was necessary for me to be in bed two or three days at a time. I have doctored and taken many different medicines with little relief. Just recently I began taking the 'Golden Medical Discovery' and it has given more relief than all the other medicines I have ever taken. My stomach does not bother me and I have not had any indigestion since taking this medicine. I can highly recommend the 'Discovery' to others who suffer with this ailment."—MRS. GEO. WELLINGTON, No. 6 John Street.

STRIKING TRIBUTE TO FAMOUS SINGER

Event in New York in Honor of Jenny Lind

One of the Most Remarkable Careers in Music Circles—Was a Child Marvel.

On October 8, there will be a remarkable musical event in New York City, one of the most unusual that the city has ever staged. It will be given in honor of the centenary of Jenny Lind, and those in charge of the undertaking are doing their best to recreate the scene of the first concert the Swedish Nightingale gave in the United States. Her old songs will be sung by Mme. Freida Hempel, of the Metropolitan Opera Company; the tickets will be reproductions of the old tickets; the ushers will be in costumes such as they wore seventy years ago. We do not recall that any other singer was accorded such posthumous honor as is planned for Jenny Lind and no doubt the reason is that there never was a singer quite like her. Whether she was greater than Patti, whether she was the greatest singer ever heard, are questions for debate among musical critics. That she made a popular appeal such as no other singer ever made in this century is not to be denied. Great as she was as a singer, she was greater as a human being.

A Child Prodigy.
Her career was one of the most remarkable ever recorded of an artist. Born in Stockholm, on October 6, 1820, she was one of nine children. Her father appears to have been incurably afflicted with a desire to sing in the little rooms back of hotel bars, and the consequence was that her mother had to support the family. The strain became too great for her and finally Jenny was handed over to her grandmother, who made a living as a charwoman, but who gladly promised to provide for the little girl. From babyhood, Jenny Lind had a voice of unusual quality and sweetness. One day when her grandmother was away at work, Jenny was singing to herself when a member of the chorus at the Royal Opera went by and was struck by the beautiful voice of the unseen singer. She made it a point to seek her out, and then brought her to the notice of Croelius, the music master. He in turn introduced her to Count Puuck, director of the Royal Opera, and after great difficulty induced him to accept her as a pupil in the vocal school.

The Lost Voice.
She was nine years old at the time, and for five years more she studied and sang, and at the end of that time had attracted much attention in Stockholm. Then, suddenly, her voice broke. No reason was apparent and it seemed that Jenny would have to go back and help her grandmother on the floors. But she had saved up enough money to take her to Paris, where she consulted the great Garcia. He said her voice had been ruined by overwork, but promised if she would rest for three months and at the end of that time return to him he would pronounce it as final relief. She came back and then he told her that he was willing to give her lessons, but that she never would be anything more than a second-rate chorus girl. Jenny accepted the offer and resumed her studies. Three years later she was back in Stockholm in the chorus, and there one evening her great opportunity came.

A Miraculous Recovery.
One of the numbers of the concert to be given was a solo from the role of Alice in Meyerbeer's "Robert le Diable," but the advertised singer, angered at the smallness of the part, stayed away, and when the time came for the song there was only Jenny Lind who appeared to know the music. She stood on the wings waiting for the opening bars of the orchestra, feeling certain that she would miserably fail. Then she stepped on the stage, opened her mouth and with the first note knew that her voice had returned as miraculously as it had disappeared. Despite the small part she made a tremendous sensation. From that day she never looked back. Her career thenceforth was a series of triumphs almost unparalleled. She was feted at the courts of Europe, and could command any amount she asked for her services.

A Generous Gift.
When she came to the United States under the direction of P. T. Barnum

she received an average of \$1,000 a concert, with all her expenses paid. Jenny Lind received \$176,675.00 for that series of concerts, and it is said that she spent \$60,000 in charities in the United States having spent \$60,000 the year before in England. Nobody appealed to her in vain. She was generous with her purse as with her voice, and of the latter it may be said that one of the conditions of her contract with Barnum was that she should be free to sing for charity as often as she chose. On the other hand, she agreed that her first concert in any city was not to be for charity. It was her love for humanity that made Jenny Lind beloved over every other great singer, and that is responsible for the work of the congress tribute to her memory that is to be held in New York City.

LABOR CONGRESS DELIBERATIONS
(Canadian Press Despatch.)
Windsor, Ont., Sept. 15.—There will be no secretary-treasurer appointed to the Trades and Labor Congress of Canada, who will be on a salary and devote all his time to the work of the congress for this year at least. This was decided upon this afternoon.

Another resolution, which was under discussion when the convention adjourned until tomorrow morning came from the Hamilton Local No. 2612, Brotherhood of Carpenters and Joiners of America, and planned the cutting down of the representation of local unions and trades and labor councils. It suggested trades unions and federal labor unions be allowed one delegate for each 800 members or under and one delegate for each 800 members or an additional fraction thereof, and two delegates from each trades council and national trade union.

TO VISIT EXHIBITIONS.
In order that residents of other parts of the province may have an opportunity to hear her, Hon. Dr. W. F. Roberts, minister of public health, has arranged for Mrs. Gertrude Hasbrouck, field secretary for child welfare in the United States, to visit the Woodstock exhibition today and the St. Stephen fair tomorrow. Later she will speak in Moncton. Dr. Doris Murray, who has specialized in child welfare work at Johns Hopkins University, will accompany Mrs. Hasbrouck.

EXPERIMENTAL FARMS AND MORE SCHOLARSHIPS
(Canadian Press Despatch.)
Montreal, Sept. 15.—Twenty experimental farms are to be established in the province of Quebec under the direction of Hon. J. E. Caron, premier. Hon. L. A. Taschereau announced today in the offices of the provincial government here. These farms will serve as models for farmers and colonists in the neighborhood and, amply supported by the government, will render valuable service in the development and achievement of agriculture in the province.

Mr. Taschereau also announced that the Hon. Mr. Caron had decided to award scholarships to a certain number of the best students in the forestry schools, in order to let them study a year or two in Europe.

The St. John harbor beacon gas buoy is not burning. J. C. Chesley, marine and fisheries agent, says that it will be relighted at the first opportunity.

MASTER OF SHIP AND PILOT ARE BOTH SUSPENDED
(Canadian Press Despatch.)
Montreal, Sept. 15.—The master of the Canadian Government ship J. A. MacKee, James Lintop, loses his certificate for a period of two months and the pilot, Edmond Paquet, is suspended for the remainder of the season in connection with the stranding of the vessel on Lark Reef near the mouth of the Saguenay river, on August 26, last. This was the finding handed down today by Dominion Wreck Commissioner L. A. Demers. Both master and pilot were found to have been at fault in permitting the ship to proceed through foggy weather at full speed.

WORTON DAVID
THE FAMOUS SONG WRITER.
(Author of "The Heart of a Rose," etc.)

Mr. Worton David writes:—"I would like to register here my appreciation of your wonderful 'Phosferine.' When feeling utterly run-down and unfit I invariably use Phosferine, which has tided me through influenza and many a complaint which has attacked the nerves. I am a firm believer in this excellent cure."—Care Lawrence Wright's Music Co., 8, Denmark Street, Charing Cross Road, W.C.2.

Mr. Worton David is perhaps the most popular living lyric writer. His "Heart of a Rose" and "A Night of Romance," "The Kingdom Within Your Eyes," "Back from the Land of Yesterday," etc., etc., are outstanding successes.

This celebrated song writer attributes his freedom from brain fog and nervous exhaustion entirely to the revitalizing properties of Phosferine. Phosferine enables the nerve centres to create the vital force to outlast any extra effort or emergency.

When you require the Best Tonic Medicine, see that you get
PHOSFERINE
A PROVEN REMEDY FOR

Influenza, Neuralgia, Lassitude, Rheumatism, Indigestion, Premature Weakness, Malaria, Sleeplessness, Menstrual Decay, Fatigues, Headache, Exhaustion, Mental Exhaustion, Brain Fog, Nervous Debility, Loss of Appetite, Anemia, Herpes, Sciatica.

Phosferine has a world-wide reputation for curing disorders of the nervous system more completely and speedily, and at less cost than any other preparation.

SPECIAL BUSINESS AND TRAVEL NOTE
Phosferine is made in liquid and Tablets, each sold in two sizes. The Tablet form is particularly convenient for business men and women, all outdoor workers, travellers, sportsmen, etc. It can be used any time, anywhere, in accurate doses, as no water is required. Ten years without a corn
Countless people boast that record now. Years ago they started using Blue-jay. Never since has a corn pained twice. And never has a corn stayed a week. You can quickly prove that corns are needless. Millions have already done it. Think what it means. No more paring, no more pain, no more unsightly pads. Dainty shoes without unhappy hours. Apply a touch of liquid Blue-jay or a Blue-jay plaster. The corn pain will end. And soon the whole corn will loosen and come out. The action is gentle but sure. Blue-jay is the scientific method, created by this world-famed laboratory. It is not like the methods which are harsh and crude. Try Blue-jay on one corn. Buy it tonight from your druggist. Live the rest of your life without corns.

Phosferine has a world-wide reputation for curing disorders of the nervous system more completely and speedily, and at less cost than any other preparation.

SPECIAL BUSINESS AND TRAVEL NOTE
Phosferine is made in liquid and Tablets, each sold in two sizes. The Tablet form is particularly convenient for business men and women, all outdoor workers, travellers, sportsmen, etc. It can be used any time, anywhere, in accurate doses, as no water is required. The No. 2 tube is small enough to carry in the pocket and contains 90 doses. Anyone affected by unhealthy localities or climatic conditions will be the better for Phosferine—always put a tube of Tablets in your outfit.

NOTICE TO CONTRACTORS. The New Brunswick Electric Power Commission.

TENDERS will be received by the above named Commission up to Noon, 21st Day of September A. D. 1920 for the following work: (1) The construction of an earth dam across the East Branch of the Musquash River, including Spillway, intake, by-pass, etc., and the grading of a bed to carry a penstock from the dam site to the power house. (2) The construction of an earth dam across the West Branch of the Musquash River, including Spillway, intake, by-pass, etc., and the grading of a bed to carry a penstock from the dam site to the power house. (3) The construction of an earth dam across the Shogomac River, including items named above, together with the construction of a canal and grading for the penstock from the dam site to the power house. Sites one and two are situated about twelve miles from St. John and about one mile from the line of the New Brunswick Southern Railway. Site three is situated about 40 miles North from Fredericton on the line of the St. John and Quebec Railway. Plans, profiles and Specifications can be seen and detailed information obtained at the office of the Commission, Canada Permanent Building, St. John. A certified cheque for 5 per cent of the estimated cost of the work must be attached to tenders. The Commission does not bind itself to accept the lowest or any tender. C. W. ROBINSON, Chairman.

REID McMANUS, Secretary. C. O. FOSS, Chief Engineer.

RAISE A STATE LOAN AS INCOME FOR PALESTINE

London, Sept. 16.—Plans are being formulated for raising a state loan of £2,500,000 for Palestine, according to an authoritative source here. The purchase is to guarantee an income for Palestine and the entire amount is first to be absorbed by Jewish bankers here and in New York who in turn will offer it for public subscription.

MISREP POWER.

The mayor and commissioners made an inspection of the old pulp mill and the Misrep dam yesterday with a view to considering the matter of harnessing the power for the purpose of generating electricity to light the city streets. It is said that about 800 H. P. can be generated but whether this could be transmitted to the city at a rate that would justify the expenditure of \$150,000 is a matter for careful consideration. It is said the local government has had an engineer taking readings of the flowage of the stream for the last two years and it is expected a report will be filed during the coming fall. When this information is at hand the possibility that the Misrep stream may be developed, but the matter will be carefully considered by the common council.

EXMOUTH STREET WINS.

The Women's Missionary Society of Exmouth street Methodist church held a meeting yesterday afternoon with the president, Mrs. G. F. Dawson, in the chair. The subject was "Personal Service" and an interesting programme was carried out. Miss Rose Hopkins, who for the last few years has been doing "service" in Halifax and Toronto, was present at the meeting and will be in St. John during the winter. Plans for the winter work were discussed at the meeting. Mrs. Lawson, superintendent of the Christian stewardship, read a paper. A vote of thanks was extended to Mesdames Alex and Charles Magee for their hospitality at the August meeting.

Ruth Denied Injunction.

New York, Sept. 16.—(By Canadian Press)—Supreme Court Justice Guy yesterday denied the application of George H. Ruth, better known as "Babe" Ruth, star of the New York American baseball team, for a permanent injunction restraining the Educational Film Corporation and others from displaying the moving picture entitled "Babe Ruth, How He Makes His Home Run." Justice Guy cites a decision in the case of Mrs. Grace Humiston versus the Universal Film Mfg. Company, in which that body ruled that the use of a person's picture as a matter of current news should not be restrained. Justice Guy does not prejudice the bill for \$1,000,000 which Ruth has brought against the film company.

English Season Ends.

London, Sept. 16.—(By Canadian Associated Press)—A brilliant cricket season came to a close yesterday with Middlesex, the champion county, against the rest of England at Kennington oval. The rain spoiled the closing event, which ended in a draw. Middlesex made 818 and 192 for four wickets and the Rest of England declared at 608 for five. Hobbs, for the Rest of England, scored 215. Hendren, for Middlesex, heads the batting averages for all first class matches with 61.66 per cent per innings. Hobbs comes second with 68.89. Rhodes, of Yorkshire, has the best bowling average of 161 wickets, for 18.16 per wicket.

GROCERY REPORT FROM THREE CITIES OF THE DOMINION

The following comment on the market situation as regards food stuffs appeared in Canadian Grocer last week.

All grocery markets are generally steady although slight declines and also some advances have taken place during the past week on some lines of commodities. Fall trade has started favorably and merchants and manufacturers are looking for an active business this coming winter.

Montreal.—The sugar market here is inclined to be panicky and reports and rumors circulating are not tending to keep prices on an even keel. Molasses market is not so seriously disturbed and there has been a bigger decline in that market than on sugar. Coffee prices will be lower. New medium grade Java beans are on the market at stiff prices. The spice market is quiet. Raisens are sure to be higher. French sardines have advanced. Wrapping paper has shown another advance. Oranges are higher and apples much lower. General fruit prices are lower. There is a splendid vegetable market. Package oats will be lower in price. Rolled oats are cheap. Cloth balls, soda bicarbonate and lamp burners are higher.

There are no price changes on the produce market this week. The whole market is very strong. Butter prices continue high. Eggs are being imported to Montreal. There is a scarcity of cattle on the market but beef is expected to be strong. Cheese is coming in in better supply.

Toronto.—The markets for general groceries are generally steady to firm with a few advances and some declines. There are no new developments in the sugar situation, the movements from refineries remains quiet but second hand sugars are moving at a variety of prices which are below that quoted by refineries. Retailers are selling sugar at prices ranging from twenty to twenty-one cents per pound which is also below market quotations. Those who have sugar to sell are all anxious to do business and are offering their stocks at prices below those at which it can be replaced from the refineries. The raw sugar market continues easy with very few sales being made. One brand of pancake flour advanced during the week also ice cream salt, carbonate of soda and one brand of salad dressing. Corn reduced quotations. The cereal market is generally steady although rolled oats show a decline. There is apparently considerable competition in canned matches played in the Scottish league yesterday follow: Aberdeen 8; Hamilton Academicals 1. Morton 1; Raith Rovers 8. Falkirk 4; St. Mirren 0.

Scottish League.

London, Sept. 16.—(By Canadian Associated Press)—Results of football matches played in the Scottish league yesterday follow: Aberdeen 8; Hamilton Academicals 1. Morton 1; Raith Rovers 8. Falkirk 4; St. Mirren 0.

Idle Money

Perhaps you are waiting for a new Victory Loan? Reports from Ottawa are state that owing to the recently imposed taxes the current revenues are now sufficient to carry out the wise policy of paying out our way as we go, and that there will be, in all probability, a substantial balance to apply to the retirement of Victory Bonds. There will, therefore, be NO NEW VICTORY LOAN.

Yet—money has accumulated in Canada in unprecedented amounts. Further heavy crop payments are now being made. Our trade—foreign and domestic—is breaking records.

Are your funds idle? Are they working to the best possible advantage? It is difficult to conceive of funds lying idle in these days of such exceptional investment opportunities.

Victory Bonds are the greatest investment "buy" today. The following, in addition to the maximum of security, give the greatest returns over the longest possible period: 1937 (1 Dec.) (tax free), 98 and interest, yielding 5.68 P. C. 1934 (1 Nov) 93 and interest, yielding 6.24 P. C. (Subject to usual income taxes.)

Orders may be entered for any amount from \$50 upwards. Your order will receive our best attention.

A. E. AMES & CO. Established 1889. TRANSPORTATION BLDG. - MONTREAL. VICTORIA CHICAGO. TORONTO NEW YORK

THE TORTURES OF RHEUMATISM

Happily Stopped When He Began to Take "Fruit-a-lives"

8 Ottawa St., Hull, P. Q.

"For a year, I suffered with Rheumatism, being forced to stay in bed for five months. I tried all kinds of medicine without relief and thought I would never be able to walk again.

"One day while lying in bed, I read about 'Fruit-a-lives' the great fruit medicine; and it seemed just what I needed, so I decided to try it.

"The first box helped me, and I took the tablets regularly until every trace of the Rheumatism left me."

LORENZO LEDUC. 50c. a box, 6 for \$2.50, trial size 25c. At all dealers or sent postpaid by Fruit-a-lives Limited, Ottawa.

Millfeeds are in scant supply, brought about by the slow delivery of new crop wheat and until this condition is improved no relief in the shortage can be expected.

Fresh beef cuts, spring lamb and wutton are easier and quotations are lower. Calves are firm with slightly higher prices. Lard has advanced. Butter, eggs and cheese are steady at firm quotations. Fresh fish is in active demand with herrings slightly higher.

Winnipeg—Wheat cutting is practically now finished in the prairie provinces, and thrashing is in full swing. There is without doubt a renewal of confidence in the general condition among the retail trade. Sugar is being offered at about a cent and a half lower in Manitoba than in the Eastern Provinces. Retailers state that their sugar stock has been greatly reduced and no doubt there will be a heavy demand for sugar during the next few weeks. Roger's cane syrup declined 45 cents a case on 2 1/2 and 95 cents on 5's and 10's during the week. Corn syrup and starch remain steady. It has been intimated by manufacturers that there will be no decline in these lines for at least 60 days.

HAVE YOUR EYES EXAMINED.

The only safe plan is to have your eyes examined before this strain weakens the delicate nerves and muscles that control the vision—just as filling a small cavity will save a tooth. Our examination is safe, sane and scientific. Let us examine your eyes.

OPPOSITE CITY MARKET

SPORT NEWS OF
A DAY; HOME
AND ABROAD

THE TURF.

At St. Stephen.
St. Stephen, Sept. 15.—The racing this afternoon was of gilt-edged variety. The 2:30 mixed was probably the most interesting as it was unfinished and will be put up for first tomorrow afternoon. In the last heat of this race Jennie Hal, who was picked to win went lame, and Comewague Kate landed the heat. In the 2:16 trot Bill Sharon had things mostly his own way and was never in any danger only in the last heat when he made two breaks and Border Prince took the lead but only to hold it a short time. The 2:24 trot was a race from start to finish all three horses at many times could have been covered with one blanket although Nutwood was probably the biggest rival that Bingen Worthy had as the Machias mare made the big stallion step from wire to wire. In the third heat Nutwood threw a shoe which landed back on the wheel of her sulky and which was a big hindrance to her. Following is the summary:

- 2:16 Trot Stake, Purse \$500.
Bill Sharon, 2:11 1/2; Peter Carroll, Chatham 2:11 1/2; H. C. Jewell, Fredericton 2:11 1/2; Border Prince, 2:13 1/4; F. Boutillier, Halifax 2:15 1/4; F. Boutillier, Halifax 2:15 1/4; 2:16.
2:24 Trot Stake, Purse \$400.
Bingen Worthy, 2:17 1/4; L. R. Acker, Halifax 2:17 1/4; Nutwood Lou, 2:26 1/4; F. Southard, Machias 2:23 1/4; Native Worthy, 2:24 1/2; James Belyea 2:24 1/2; 2:20.
2:30 Mixed Stake, Purse \$400; Unfinished.
Jennie Hal, P. A. Belliveau, Moncton 3:21 1/3; Comewague Kate, F. Southard, Machias 3:24 1/4; Signature, L. R. Acker, 2:14 3/4; Helen T. G. W. Reed, 4:32 1/2; Fort Fairfield, D. W. Groves, 4:55 1/2; Mary Heir, D. W. Groves, 4:55 1/2; College Fleet, R. L. Todd, Milltown 4:55 1/2; Time—2:22 1/4; 2:21 1/4; 2:22 1/4; 2:22 1/4.
Officials: Starter, R. M. Webber; Milltown Judges, Dr. McCoy, Fredericton; D. Berry, Woodland; W. H. Keys, St. Stephen; Timers, A. Reid, Montreal; G. McLean, Milltown, and H. N. Ganong, St. Stephen.

At Woodstock.
Woodstock, Sept. 15.—When the races were started, two thousand persons were in the grand stand and the space around the home stretch was lined two and three deep with interested and excitable faces. The track was in excellent condition and it was a horse race in every event, from start to finish.
The summary:
2:18 Trot and Pace, Purse \$500.
Delia Patch, P. Doherty, Houlton 2:31 1/3; Nero Bingen, T. M. Hoyt, Presque Isle 2:31 1/3; Tommy Cotter, H. G. Kitchen, Fredericton 2:32 1/4; Corwin Hal, John P. Smith, Kinkora (P. E. L.) 4:44 1/2; Time—2:16; 2:16 1/4; 2:17 1/4; 2:17 1/4.
2:24 Trot and Pace, Purse \$500.
Don Q., Ralph Carey, Presque Isle 2:31 1/3; Sis Peters, H. M. Dewitt, Woodstock 2:32 1/4; Lady Ashbrooke, C. T. Black, Woodstock 2:32 1/4.

It's a pretty strong claim to say a cigar is the best on the Continent.
But we claim this distinction in the 7c field for the Pippin.
7c will entitle you to one—a quarter will secure you 4.

may be made to do double and triple duty if you'll bring them here for attention at the first indication of wear.
D. Monahan & Co.
MARKET ST.

Rich delicious Purity Ice Cream served plain or with crushed fruit, is not only delightfully refreshing, but healthful as well.
Its purity and smoothness make it doubly palatable. One portion hardly satisfies the normal appetite.
Thousands of people order it by name, because they are then certain of highest quality. Only the finest materials go into the making, while the most sanitary precautions are exercised in keeping it pure. Be sure and order it by name. You'll then be sure of getting the genuine.
Purity Ice Cream Co. Ltd.
"THE CREAM OF QUALITY"
MAIN 4234
92-98 Stanley Street.

Myrtle Rysdick, J. W. Gallagher, Woodstock 4:44
Time—2:25 1/4; 2:27; 2:29 1/4.
2:25 Trot and Pace, Purse \$400.
Northern Bell, C. F. Higgins, Presque Isle 1:11
May Grattan, A. Faulkner, Montreal 4:29
Zecida the Great, T. M. Hoyt, Presque Isle 2:43
Robbie Lee, G. Perkins, Glassville 3:33
Cassie, W. G. M. Mead, Hartland 5:53
Lady Bell, C. R. Dewitt, Hartland 6:04
Time—2:22 1/4; 2:21 1/4; 2:22 1/4.
The performers tomorrow will class: 2:15 trot and pace, 2:15 trot, 2:20 trot.

World's Record.
Syracuse, N. Y., Sept. 15.—A world's record was broken and another equaled at the State Fair Grand Circuit meeting today. Prince Loree set a new mark for a double gaited horse when he paced a mile in 2:02 1/2, breaking the world's record held by Darvester, at 2:08 1/4, for the trot and 2:04 1/4 for the pace. Prince Loree's mark for the trot is 2:03 1/4; Loree is owned by Captain David Shaw, Cleveland (O.), and was driven in today's exhibition by Michael McDevitt. The performers tomorrow will class: 2:15 trot and pace, 2:15 trot, 2:20 trot.

AQUATICS.
Shea Leaves For St. John.
Frank S. White has received a wire from Jerry Shea saying that he would leave Boston last night and will arrive here today at noon. He is to compete in the single scull event on Saturday afternoon on Courtenay Bay.
Presentation of Prizes.
The cups for the winners in the two series of rowing races held here during the summer, which have been on display in the windows of the Commercial Club, and the medals which will be given to the successful competitors in the maritime rowing championships, which are to be held on Saturday under the auspices of the Commercial Club Athletic Association, will be formally presented on Saturday night in the Imperial Theatre, so it was announced yesterday. The presentation will be made by Mayor Schofield between the show.

Additional interest has been aroused in the Maritime Aquatic Championships which will be held Saturday afternoon in Courtenay Bay, by the entrance of a four-oared crew representing the Y. M. C. I. of St. John. This crew will be made up as follows: Walter McGinnis, bow; Jack Ward, forward-mid; Edward McGinnis, after-mid; Walter Lockhart, stroke. This crew, with the St. John Power Boat crew, formerly Belyea crew, Renforth crew and the Stackhouse four ought to furnish close competition in the four-oared event.
No doubt thousands will turn out to root for Hilton Belyea when he rows Jerry J. Shea, the fast Boston sculler. Shea left last night for St. John and will arrive in the city today. He is a very good man and for several years has been rowing in fast company. He won the New England championships on July 4, but was beaten in the National Regatta at Worcester on Labor Day by C. Faulkner.
No further word has been received in regard to Halifax entries.

Great Girl Swimmer
Had breast and back-stroke swimming for women been featured at the recent meet in Antwerp, writes L. de B. Handley in the New York Evening Post, America's mermaids would have found opposed to them a formidable British rival—Miss Mary Spencer of the Garston Swimming Club of Liverpool. This remarkable girl of eighteen has reaped high honors at home and accomplished feats which proclaim her a dangerous candidate for international leadership.
Over the championship course, 200 yards for the breast stroke and 100 yards for the back stroke, she has done officially 3 minutes 8 seconds and 2 minutes 15 seconds respectively. And at the time these marks were credited to her, last winter, both represented world's records. The fastest performances previously chronicled were 3 minutes 10 1/2 seconds for the breast stroke and 2 minutes 17 1/2 seconds for the back stroke, the former by Miss Eleanor Smith of the local Morningside Athletic Club, the latter by her twin sister, Ruth.

Miss Ethelida Bleitrey of the New York Women's Swimming Association has since lowered the back stroke standard to 2 minutes 10 1/2 seconds, but no other fair natator has equaled Miss Spencer's figures to date, nor has her breast stroke record been touched. It seems logical to conclude, therefore, that in international competition the British lassie would prove Miss Bleitrey's foremost antagonist at the back stroke and stand favorably for honors at the breast stroke.
CRICKET.
Brits Win.
Philadelphia, Sept. 15.—The English cricket team of England defeated the Germantown Cricket Club's eleven in their two day match yesterday by five wickets and 112 runs. Germantown scored 276 in two innings, having been obliged to follow on. The visitors scored 245 in their first innings on Monday and increased that total by 143 for five wickets before the stumps were drawn yesterday.

FOOTBALL.
H. M. S. Constance, 1; East End, 0.
The football eleven of H. M. S. Constance defeated the East End football club, 1 to 0, on the East End grounds last evening. The navy played an extra good game and kept the East End men on the move constantly. The home club was short three of its best players who were unable to enter the game. Alfred Pirritt was the referee.
Another game between these teams will be played on Friday evening. The East End eleven will play matches at Hampstead at Hamstead on Saturday.

BASEBALL.
Toledo, O., Sept. 15.—Babe Ruth knocked two home runs in the first part of the game here today between the local American association team and the Yankees. Babe Ruth homered in the first and fourth innings.
At St. Stephen.
St. Stephen, N. B., Sept. 15.—The ball game between Woodland and St. Stephen today was won by Woodland by a score of 9 to 2. Batteries for Woodland by Rice and Dolan; for St. Stephen, Dupliss, H. Vanstone and Vanstone.
LAWN PARTY.
A lawn party held on the grounds of the Church of the Good Shepherd in Fairville last night was a great success. A fine display of home cooking was for sale, beside which there were a well stocked country store, ice cream, fruit and confectionery, books, men's and ladies' bean toss and a rifle range. The fair will be continued tonight and tomorrow night. Tonight the Martello Band will play. A large number were in attendance last night and all enjoyed themselves to the full.

NEW YORK STILL
LEADS BUT GAIN
FOR CLEVELAND

Brooklyn Clings to First Position in Nationals—The Big League Results.
New York, Sept. 16.—Three of the six contenders for the pennant in the two major leagues were all yesterday. New York retained the American League lead, but Cleveland gained a few points by defeating the Athletics. Brooklyn maintained its lead in the National League by winning from Chicago and is now five full games ahead of Cincinnati. The Gains are half a game behind the Reds.

National League.
Brooklyn, Sept. 16.—Smith pitched his second successive shutout in a week yesterday, when he blanked the Cubs 1 to 0, and further strengthened Brooklyn's chances in the National League pennant race. Griffith prevented a tie in the ninth when he made a sensational catch of O'Farrell's line drive in deep right centre that would have been a safe triple. Martin pitched a good game, but lost in the sixth inning when Johnston was safe on Leathers' error and scored on Wheat's double. Chicago, 0; Brooklyn, 1.
Philadelphia, Sept. 16.—Cincinnati solved Meadows in one inning yesterday, beating Philadelphia in the final game of the series 3 to 2. Luque struck out nine and pitched himself out of several tight places. Cincinnati, 3; Philadelphia, 2.
Boston, Sept. 16.—Pittsburg closed its season in Boston yesterday by winning the first game of a double-header, two to one, and losing the second game, four to one. Grimm's triple scored Pittsburg's runs in the first game, and Holke's triple broke up the second game. First game—Pittsburg, 2; Boston, 1. Second game—Pittsburg, 1; Boston, 4.

National League Standing.
Won. Lost. P.C.
Brooklyn 54 58 .592
Cincinnati 75 59 .560

IMPERIAL
Friday and Saturday
SPECIAL NOTICE
It is a melancholy fact that the mortal remains of the dear little actress who plays the stellar role in today's pretty picture are now en route from Paris to America for burial. Miss Thomas' death has been declared due to accidental poisoning. She was the wife of Jack Pickford and sister-in-law of Mary.

"The Glorious Lady"
From Cocoon to Butterfly and Then—An Outcast Creature—
A Plaything of Fate

It really seems as if Fate has been playing with this film looking today. First it is said to note the recent demise of the leading player in the picture, then comes the singular coincidence that the fiction she portrays closely approaches the very circumstances surrounding her death. In many ways this feature holds a weird fascination.
In Addition Our Program Will Include:
Chap. No. 2—"The Lost City"—Serial Story
ALSO OUTING CHESTER'S SPORTING MOVIES
IMPORTANT!—One Show Friday, Matinee 2 to 3:30; One Show Friday Night, 7 to 8:30; Wigmore Meetings 4 and 9 p.m.

DRESS CLOTHES
That Establish Your Right to
a Position in the Smart Set
Once upon a time a Dress Suit for \$75 was a Semi-ready Special—the best value ever produced.
Lightweight chevots are not dependable today, and until they are we stand for the best quality only.
A Dress Suit today for \$100 is an achievement.
We have Dress Suits for \$115 that are as good as the King wears—exquisite quality in soft dark chevots, woven from fine Botany wool.

87 Charlotte Street

SAYS IMPERIALISM
TO KILL SOVIETISM
London, Aug. 26.—Just as imperialism is killing czarism so will imperialism be killed by Russian Sovietism, is the prediction made by M. Phip, the Estonian Foreign Minister in London, in analyzing the consequences of the Bolshevik offensive in Poland.
While Foreign Minister, last year M. Phip pitted his wits against the Bolsheviks at Dorpat and he is regarded as one of the best authorities in Europe on Russian political economic conditions.
In common with representatives here of other Russian border states, M. Phip is watching with profound concern the developments in Poland.
"The Bolsheviks are lighting Poland with the Allies ammunition which they captured from Denikine and Kolchak," he said. "This is now almost exhausted and Russia cannot renew it."
Discussing the possibility of an attack by the Estonians, M. Phip said:
"We are ready for them. The Estonian frontier is now closed by our troops except the gates through which we are trading with Russia. The Soviet government must know that if it succeeds in obtaining a foothold in Estonia the Allies would instantly cut off Russia from the vitally needed supplies it is now receiving through us. We might perish but the Allies would grow fat."
M. Phip asserted that Russia's economic condition was rapidly getting worse because this season's crop was a failure. He said it was not unlikely that the cities will soon be wholly depopulated.
"The Soviet government dare not reduce its enormous army," he concluded. "Unemployment is now a critical problem throughout the whole of Russia and if the men who, as soldiers are comparatively well cared for, were thrown on their own resources a revolution would result. The chief terror which Soviet rulers have to face is peace and demobilization."
CHINESE FRUITS
Some of the Chinese fruits, cunningly coated and lovely encased through many centuries, are said by experts to be delicious. There is an orange grown in China that is reported to surpass the sweetness and delicacy any of the oranges to which the people of Europe or America are accustomed; and it may be grown in places where the temperature falls 20 degrees below freezing. There is a peach unlike any to which the West is accustomed, and a vigorous fight in a convention here over the question of admitting women to membership in Masonic lodges.
The principle was adopted finally by a meagre majority subject to modification when delegates of the Grand Lodge attend the Masonic world conference this winter.

Constant Headaches
EVERY headache has a meaning—and you should heed this warning of nature, if you would avoid more serious complaints. A headache frequently points to the failure of the kidneys to perform their natural functions.
Gin Pills remove both headaches and cause, by restoring the kidney action to normal. If you let the cause go unchecked, you may incur years of suffering, with frequent attacks of backache, bladder trouble, lumbago, swollen joints, and other evidences of deranged kidneys.
Give Gin Pills a trial. At all druggists—50c a box. Write for a free sample to National Drug & Chemical Co. of Canada, Limited, Toronto, Ont. U. S. residents should address Nat. Drug Co., Inc., 202 Main St., Buffalo, N.Y.

THE MYSTERY OF ASPHALT LAKE

Trinidad's Wonder — Apparently Inexhaustible Bed of Asphalt a Valuable Commercial Asset to Island.

The island of Trinidad is chiefly famous for its possession of a great natural wonder—the so-called pitch or asphalt lake of La Brea.

To the visitor, at first glance, there is nothing at all impressive in its appearance. It looks like a large, round pond about a hundred acres in extent, which has been substantially dried up, with little rivulets of water irregularly intersecting its bed.

If one walks upon the surface of the lake the feeling is as of walking on velvet. If one stands still for a few minutes one's shoes begin to indent the asphalt.

sweetens without waste fine!

resting in standing upon it for ten or fifteen minutes, during the heat of the day, will sink nearly over their hoofs.

Science attributes the origin of the pitch to petroleum springs far beneath the surface.

One unique characteristic of the Trinidad asphalt is that when a hole is dug in the lake, and the asphalt is removed for shipment, within twenty-four hours or less the cavity is filled up again.

This phenomenon might appear, first, to be caused by freshly formed asphalt coming into the hole from some underground source.

\$550.00 Piano — \$125.000 Phonograph and Other Valuable Awards for the Best, Neatest, Correct Solutions to the "ALLADIN'S MAGIC SQUARE PUZZLE"

FIRST PRIZE \$550 Brand New Amherst Make Piano—For the best, neatest, correct and most original solution to the Alladin Magic Square Puzzle.

SECOND PRIZE \$125 Crenophone Phonograph—For the second best, neatest correct solution to the "Alladin" Magic Square Puzzle.

Every person submitting a solution will receive a letter in reply even though the solution does not win one of the first two prizes.

THERE ARE TWO CAPITAL PRIZES—ONE PIANO FREE—ONE PHONOGRAPH FREE—and these to the best solutions as stated above—all other contestants entering correct solutions will be awarded purchasing vouchers.

Can You Solve This Puzzle? It Can Be Done!

DIRECTIONS—In the magic squares fill in any series of numbers from one to fifteen—using no number more than twice—in such a manner that the total when added Vertically and Horizontally and Diagonally will total 21.

Our Reason for Doing This—Pianos and Phonographs have never been as high in price as at the present time.

CONDITIONS—Any family not owning a Piano or Phonograph are eligible to enter this contest.

Bear in Mind the Following—One Piano will be given free to the best solution—One Phonograph will be given free to the next best solution.

AWARDS—The first Prize will be awarded to the best, neatest, correct and most Original Solution.

CONTEST CLOSES SEPT. 25th—Send Your Solution Today
