MINISTER OF LABOR TALKS OF INDUSTRIAL CONDITIONS

Labor Market Excellent - More Work Than Men - The Question of Asiatic Labor - Standing Aloof from Coal Strikes - His Interesting Career

Hon. Charles Murphy, Secretary of State, and Hon. W. L. McKenzie King, Minister of Labor, who will be among the guests of honor at the banquet to be given in the city on the Atlantic express this morning.

They, with Dr. Pugsley and a few others, were the guests of Col. H. H. McLean, M. P., at luncheon at the Union Club at one o'clock. During the afternoon they were given an opportunity to view the chief points of interest in the city, including the wharves and other harbor facilities, being taken around in an auto by Mr. Pugsley. They were invited to remain over for a week by the Minister of Public Works, but owing to the pressure of other business will only be able to stay another day in St. John.

In conversation with the Star this morning Hon. Mr. King spoke in an interesting manner of his career and the work of his department. The Minister of Labor is still a young man although he has already progressed rapidly in an unusually brilliant career. After leaving college he was for some time engaged in newspaper work in Toronto. He next went to Chicago where he continued his journalistic work. Returning to Toronto he was engaged in writing special articles until he entered the service of the Department of Labor. Since then his career has been a matter of public record and his has become one of the best known names in Canada.

Speaking of the labor situation throughout the country Mr. King said this morning that conditions were unusually good. Owing to the rapid expansion which has taken place in many of the manufacturing industries there is now more men than can be found in many of the sections. Speaking generally, he said that there was very little unemployment at present and the industrial situation was much better than it has been for a long time.

In reply to a question as to the attitude of his department towards the suggestion of the G. T. P. officials that Asiatic labor would be required in order to complete the proposed extension of the National Transcontinental Railway, within a reasonable time, Mr. King said that the department would request for permission to bring in Asiatic labor has been received by the government, and there is no reason for either the labor unions or the employers to become alarmed over the proposal yet. I will add that such permission will not be granted to anyone until every body that wishes to do so has been granted the opportunity to give their views on the matter.

"I suppose," he said, "that the subject is not of such vital concern to you in the east as it is to the west. The subject of Asiatic immigration is of such vital importance to the people of British Columbia especially that their interests have to be carefully considered in such a matter."

Touching on industrial conditions on the Maritime Provinces Mr. King said that Mr. Andrew the deputy minister, who had recently spent three weeks in these provinces, had reported that the people of British Columbia especially that their interests have to be carefully considered in such a matter.

Speaking of the strikes at Sydney and Springfield, the Minister said that when articles were for the purpose of securing recognition of a union as there are, he thought it better for the department to keep clear of the matter as much as possible.

If either party wished to seek government intervention he thought it wiser to leave the dispute to the machinery provided by the Industrial Disputes or "Lemieux" Act, which is already provided to take care of all disputes between employers and employees.

Mr. King remarked that the new building which has been provided for his department has been about completed and that he will be soon moving into his new offices. For this, he added, he had reason to be grateful to the Minister of Public Works. "I am glad to have this opportunity to visit St. John again," said Mr. King in conclusion. "I have been here before but it was only while passing through. I know that you have a splendid harbor and I am looking forward to inspecting it more thoroughly this afternoon."

HON. CHARLES MURPHY, who, approached by the Star representative, said that there was nothing new in affairs of his department that he could give out at present. He expressed his pleasure at having an opportunity to visit St. John under the present circumstances. This is his first visit to St. John and he said, after he had seen a little more of it he would feel better able to comment on affairs of interest to St. John people.

JOHN P. BURCHILL AT DEATH'S DOOR

Not Expected to Survive More Than a Few Hours - Stomach Trouble the Cause - Disease Has Developed Very Rapidly During the Past Few Days.

CHATHAM, Sept. 28 - John P. Burchill, M. P. for Northumberland, is lying at death's door and no hope is held out for his recovery. Mr. Burchill has not been able to stand on his feet for some time and for the past two weeks has been confined to his house. The trouble was considered to be trifling until a few days ago when he became seriously ill. Dr. Hayes and Dr. Marven have been attending Mr. Burchill and last night Dr. Walker arrived from St. John. Mr. Burchill is suffering from malignant stomach trouble and Dr. Walker considered it out of hope of recovery. The end is expected within a few hours.

Newfoundland Minister Called to Toronto

Teamster Killed by Slide of Earth - Investigation of Baby Farms Being Carried On.

TORONTO, Ont., Sept. 28 - The congregation of St. James Square Presbyterian Church decided last night to extend a call to Rev. Andrew Ebbett, son, D. B., pastor of St. Andrew's church of St. John's, Newfoundland, to the pastorate of the Church in succession to Rev. Dr. A. Gaudier, recently appointed principal of Knox College. The stipend offered is thirty-five hundred a year.

TORONTO, Sept. 28 - James Martin, aged 77 years, a teamster, was killed yesterday by being caught by a falling bank of earth and crushed against his wagon. The accident occurred at a sand pit north of the city.

HAMILTON, Ont., Sept. 28 - Thomas W. Sheffield, of Toronto, a well known swimming authority, had a peculiar experience while swimming near Oakville. A big fish took a bite out of his side causing a painful wound.

TORONTO, Ont., Sept. 28 - Following the recent starting charges associated with the adoption of infants, Inspector Robert Wilson, of the Medical Health Department, has begun a series of investigations into the matter. The first result of his search is a number of men to girls wearing Orange lilies which ended in their knocking the lilies off their dresses.

THOSE NORTH POLE PICTURES CAUSE SOME COMMENT

New York Paper Finds That They are Old Photographs - The Herald's Explanation.

NEW YORK, Sept. 28 - Another twist was added to the Peary controversy yesterday when the Brooklyn Standard-Union in an editorial pointed out that two photographs printed in the New York Evening Telegram, controlled by the New York Herald Company, were almost identical with those taken in the far north by Herbert Herz, of Brooklyn, in 1861. They appeared in the Telegram on Saturday as photos taken by Dr. Cook on his latest North Pole trip. The Standard-Union charges that the "whole world is being deceived by these pictures."

ANSWERING the charge, the New York Herald says this morning: "Through an inadvertence, the line over the pictures declared them to have been taken by Dr. Cook on his North Pole trip. The pictures were taken in 1861 by Dr. Cook and were used on Saturday as illustrations of Arctic scenes to accompany his article on the discovery of the North Pole. Dr. Cook said last night: 'The similarity of the pictures is fully understood. It is noted that Dr. Cook and Mr. Herz made photographs of icebergs from the deck of the same vessel.'

ST. JOHN'S, Nfld., Sept. 28 - The Arctic vessel Jeanie with Harry Whitney, the New Haven big game hunter, on land coast by way of Indian Harbor, Labrador.

The dog show opened this morning at eight o'clock and promises to be a bigger success than ever. There are at present 125 dogs in the show and the classes are all good which means close competition. The judging will commence this evening.

TEN KILLED, SIX INJURED IN CHICAGO TRAIN WRECK

MONCTON HAS A NEW SENSATION - Serious Charge Against Sect Known as "Go-Preachers"

Alleged They Carry on White Slave Traffic, and Rinu Homes - Police Will Investigate Complaints From England.

MONCTON, N. B., Sept. 28 - It is possible that the provincial authorities may be given charge of matters in connection with the "Go Preachers," whose headquarters are said to be at low the George, near Moncton, and concerning whom startling complaints have been received by the local police from England alleging that the "Go Preachers" have induced many young girls in the Old Country to leave their homes, and afterwards ensnared them into lives of shame.

Circulars received here from England quote some startling incidents, and the local police are in further communication with the English authorities after which the matter may be handed over to the Attorney General. There is a good deal of excitement in some rural communities near Moncton, where the "Go Preachers" have been at work, and in some cases it is reported that domestic infidelities and family divisions have followed in the wake of the preacher's visits. Some hearers have been aroused to a high pitch of religious fervor, contributing freely to the cause. One woman had a child christened three times in a day and another buried a valuable fur coat and gold watch in her zeal to follow the teachings of the sect. The police here are going to investigate. There are many rumors afloat. "Go Preachers" broke into the M. A. A. Club house and stole a quantity of valuable athletic goods from one of the lockers. There is a considerable epidemic of petty thieving about the city at the present time.

HE LED THE ORANGEMEN IN A FATAL RIOT - Richard Birch, of Buckingham, Dead - Unfortunate Disturbance Recalled.

MONTEAL, Sept. 28 - Richard Birch, of Buckingham, P. Q., died at Waterboro on Saturday. He led the Orange Brigade which came from that district to Montreal for the procession on July 12, 1878, when the riots occurred in which James Hackett was killed. The riot started by remarks made by a couple of men to girls wearing Orange lilies which ended in their knocking the lilies off their dresses.

THINKS THE BRITISH BUDGET WILL CARRY

Will Crooks Believes Britain on the Eve of Great Reform

Big Hotel for Toronto - Tacoma Woman Complains of Quebec Official - Boy Hurt in Explosion.

CHATHAM, Ont., Sept. 28 - Daniel Phillips, sixteen year old son of John Phillips, of Tilbury, lost his left eye as the result of the explosion of a bottle of gunpowder at his home yesterday. The lad set fire to paper in which the bottle was wrapped, and when the powder exploded a piece of glass penetrated his eye.

TORONTO, Sept. 28 - Will Crooks, labor member of parliament for Poplar, England, spoke at a labor meeting in this city last night and advised that the British budget would carry and that the British nation was on the eve of great advance in all matters pertaining to the welfare of the people.

A new million and a half dollar hotel is to be built in Munro Park, east of the city fronting on the lake shore. It will be constructed on most modern lines and will contain 850 rooms. The intention is to cater to the tourist trade in the summer and family trade in winter. Canadian capital only is wanted and the stock will be open for public subscription.

WEDDINGS O'NEILL-CORNELL - A pretty wedding took place Sept. 27 at St. Peter's church when Mr. Joseph O'Neill and Miss Mary Cornell were united in marriage by Rev. A. J. Duke, C. S. R., in the presence of relatives and friends. The bride was becomingly attired in a mauve princess costume with hat of black moire, with ostrich plumes.

NO BALL GAME TODAY - Owing to the unfavorable weather conditions the baseball games between the Marathons and the Worcester team which were to have been played this afternoon had to be postponed. A meeting is being held this afternoon to discuss whether or not the team will stay over to play tomorrow.

HIS MOTHER'S DEATH REVEALED BY A DREAM - Toronto Man Saw His Mother Struggling in the Lake - Day Brought News of the Tragedy.

TORONTO, Sept. 28 - Dreaming that his mother was drowned, John Connolly, an employee of the Toronto Electric Light Company, woke his wife Sunday night and the dream was so real that he could hardly go to sleep again. Yesterday came the news that when he woke with the fear for his mother so strong on him, she was struggling for her life in the cold waters of Lake Erie and she lost the fight. Mrs. Connolly was the cook on the schooner Van Straubenzon which was runned off Dunkirk by the steamer City of Erie.

There is more catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly falling to cure with local treatment, pronounced it incurable. Science has proven catarrh to be a constitutional disease and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials. Address: F. J. DEATH IN A SCRATCH

Simple Injuries With Serious Results.

Morris Quatman, an eleven year old Windsor boy, has just died as the result of a scratch on his wrist. Poison entered the wound, which was caused by falling off his bicycle, and despite the physicians, the boy died. Such incidents as these—by no means infrequent—ought to make people realize the danger that may lie even in the smallest flesh wound.

Takes a simple illustration. When a dirty knife, a rusty needle, a splinter of dirty wood, a barbed wire fence, or a thorn, scratches the hand, the latter is inoculated with germs, of which the air about is full. Directly these germs are introduced through the breach in the skin, a battle royal ensues between them and certain organisms in our blood.

When the invading germs are too strong for Nature's defenses, in a few hours the finger will become hot and throbbing. A little later the wound may exhibit a whitish appearance in the middle of the swelling, and we have what is known as a festering serious wound.

The way to avoid such serious results is to cleanse the wound and apply Zam-Buk. Zam-Buk is a powerful yet painless germ killer, and when applied to the broken skin is absorbed into the tissue, instantly destroying the germs that spread the disease and inflammation.

The flesh is thus soothed and purified, the wound made perfectly healthy, and all poison and cause of festering removed. Having done this, Zam-Buk then proceeds to heal the wound or sore with new healthy tissue—a quick, an easy, and perfect manner.

Zam-Buk must not be confused with ordinary ointments. Zam-Buk is a unique preparation, possessing antiseptic, soothing, and healing qualities that are not to be found together in any other preparation. It is not only a unique healing and healing qualities that are not to be found together in any other preparation. It is not only a unique healing and healing qualities that are not to be found together in any other preparation.

THEY DECIDED TO LET THE SKUNK ALONE

Augusta Citizens, at Earnest Plea of Mayor, Forbore to Slay an Umpire.

The six best hated men in the United States, if it were possible to pick them out from so many likely candidates, would undoubtedly be the six baseball umpires who officiated in the six closest games before the largest attendance, says the Atlanta World-Herald.

They mobbed one down in Augusta, Ga., the other day, and after he was rescued from the indignity of the mob, the police the Mayor of Augusta came to his defence in a public address that was a real classic. The fair city of Augusta had been foully wronged by this man, said his Honor the Mayor, but for the good name of the city he pleaded with his people to "let the skunk alone." And the people, with a due sense of humor, for the unfortunate criminal, forbore to do more than slug the umpire in the face, hit him in the head with pop bottles and choke him.

LOOKS TO ATHLETES FOR FUNDS TO BUILD CHURCH

Rev. John D. Morrow, Once Famous Quarter-Miler, Now in Montreal on Unique Mission.

The Reverend John D. Morrow is in Montreal, the scene of so many of his athletic triumphs.

He is there to collect money for his new Athletic Church in Toronto, and the goes about as fast as if he were on one of his famous quarter-mile runs.

He has hosts of friends and he looks forward both in athletic circles and outside of them and looks forward to his former associates at McGill and the M. A. A., holding him out in his lifeline.

He looks as hale and hearty as when he made his celebrated fastest quarter mile in 49 3-5 and represented Montreal athletically at New York and Milwaukee.

The new Athletic Church is to be called the Dale Presbyterian Church, and is to be on the corner of Hillwood Avenue and Queen St. The congregation realized \$14,000 from the sale of a property. The bequest of the late Mr. Dale amounted to \$10,000. Their own contributions are bringing up the total of their resources to \$25,000. The church planned, when fully equipped will cost \$35,000. He is asking help to raise \$8,000, to give the equipment.

Rev. John Morrow's visit to Montreal is a busy one. He is busy with his work in Toronto from early morning to late at night and he has got a motor cycle recently to get around quicker.

He left the following message with Montreal papers for the athletes of Montreal:

"I am here for the purpose of enlisting the athletes to support me in placing before the people a monument for all time, namely, a church to be built entirely free from debt by the athletes of Canada, and I only ask the boys of Montreal to do their part which I know they will, for I have always found them true sportsmen."

ROLLER-SKATE REVIVAL IN THE OLD COUNTRY

Thirty-Three Thousand Pairs of Skates Ordered by Europe—Will Introduce Hockey Also.

Nothing ever seen in the United States abroad the fact that the popularity attained in Great Britain and on the continent by roller skating. One corporation, the American Skating Company—operates a chain of 115 roller skating rinks in Great Britain, France and Germany, and this fall will add fifty-two more to the list. A roller skate manufacturer, of Worcester, called for Europe last week in the interests of his company, which is now filling an order for 33,000 pairs of roller skates, the largest single contract for skates ever awarded.

An interesting feature of the roller skating craze abroad is the fact that the managers are now planning to introduce ice skating indoors. Most of the new rinks will be interchangeable, providing an ice surface in the winter, which will be transformable into a floor for roller skating during the rest of the season. The Canadian game of ice hockey also will be introduced.

SPORTING NOTES

MATTY WILL NOT QUIT

A rumor to the effect that pitcher Mathewson intends to quit the Giants after this year has been denied emphatically by the great bowler.

Mathewson says he will go back to insurance business next winter, but there is no intention to leave the diamond just yet. He is naturally eager to earn as much money as possible and it will not be at all surprising if he demands a salary of \$10,000 for next season. In view of the fact that Mathewson is the mainstay of the Giants his friends say the New York club will be glad to pay him an ever salary he demands, for without his services the Giants would have a hard time of it.

Mathewson has been in the past a manager, who has agreed to supervise the negro's training for the season. He has never attempted to hold up the New York club and has been satisfied with his past contracts. But he says himself that the time is not far distant when he will lose his effectiveness and that he is anxious, therefore, to make hay while the sun shines.

JOHNSTON UNDER FITZPATRICK'S WING AGAIN

Word comes from Frisco that Jack Johnson has patched up his differences with Sam Fitzpatrick, his former manager, who has agreed to supervise the negro's training for the season.

Ketchell fight in addition to acting as chief second. Fitzpatrick made Johnson fight in the world's championship, which he has since been willing to charge the loan to profit and loss because of the ungrateful manner in which Fitzpatrick was discarded by the negro after the Burns fight at Sydney. Much of the severe criticism of Fitzpatrick purely for business reasons has been advanced a bankrupt to Fitzpatrick to aid him in his attempt to make Johnson champion of the world, which he has since been willing to charge the loan to profit and loss because of the ungrateful manner in which Fitzpatrick was discarded by the negro after the Burns fight at Sydney. Much of the severe criticism of Fitzpatrick purely for business reasons has been advanced a bankrupt to Fitzpatrick to aid him in his attempt to make Johnson champion of the world, which he has since been willing to charge the loan to profit and loss because of the ungrateful manner in which Fitzpatrick was discarded by the negro after the Burns fight at Sydney.

SCHOOL ATHLETES

Undoubtedly a great work is being accomplished in Toronto by the organization which controls sports in the public schools.

The publication today of the fall football schedule of games, which will bring hundreds of boys of all ages out upon the fields in the fresh autumn air, striving to wrest athletic honors from one another cannot but be beneficial to an even greater degree than is generally known. The games begin next Monday, and continuing week after week in the first week of November.

In that time a good deal should be accomplished toward giving strong constitutions and correct ideas of sports to a vast number of youths who will be the better for it the rest of their lives. No more commendable work is being done in Toronto than is so successfully conducting athletic sports in the schools.

"BURGLAR'S CONFESSION"

On April 22 Davis appealed to the Court of Criminal Appeal in London, and then the first step was taken in this act to procure the release of Davis, although at that time the other three prisoners had, as far as he knew, nothing whatever to do with it.

Davis wrote some instructions on the back of his depositions, and handed them to a friend named Ellis, who was interesting himself in Davis's case. The important thing for Davis to make out was that original deeds had existed, and he endeavored to persuade Ellis to forge a document and commit an offence which he himself had committed.

Ellis was wise or honest enough to refuse to fall in with Davis's request. The appeal was dismissed, and Davis was sent back to Wornwood Scrubs, and subsequently transferred to Lewis gaol.

There he commenced to do, with the help of other people, what Ellis had refused to do. Letters were sent out from the prison which were not authorized, and he believed he should succeed in proving that Davis corrupted one of the warders.

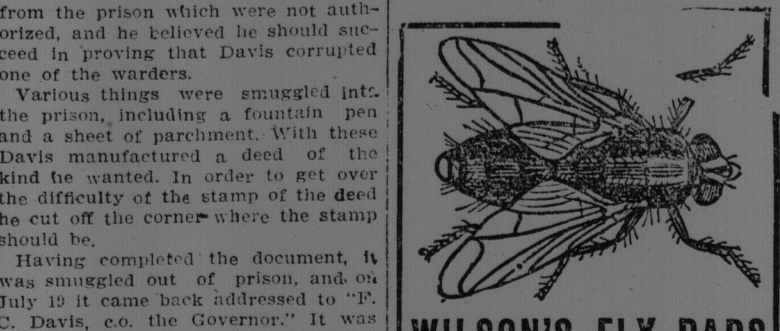

Various things were smuggled into the prison, including a fountain pen and a sheet of parchment. With these Davis manufactured a deed of the kind he wanted. In order to get over the difficulty of the stamp of the deed he cut off the corner where the stamp should be.

Having completed the document, it was smuggled out of prison, and on July 15 it came back addressed to "St. C. Davis, c/o the Governor." It was enclosed in a letter which purported to come from a burglar, who was supposed to have broken into Davis's house some time before and found the deed in a coat and torn off the stamp to sell it; then, seeing the report of Davis's trial in the paper, the supposed burglar wrote the following letter—

Sir, I see in an old Bromley paper that you are in the clink for something to do with deeds. Well, when we broke into your crib at Hildley some time ago we found this paper in the pocket of a coat we took, and thought it was a will and would be paid for handsome.

We tore the stamp off to sell, and hope it does not matter. We are sorry you are doing time, and hope it is not through us. We were going to have another go at your house, but ain't going to now. Last time we both got boozed with your whiskey and slept in your bed. As we did not do bad we hope this will do you a bit of good. Good-bye, and back up, old cock.

Counsel said that great pains had been taken to carry out the instructions Davis had suggested to Ellis. The parchment was dried and crumpled, and there were marks upon it as if a glass of water or other liquid had been accidentally placed upon it.

One Killed and Fourteen Injured When 1000 School Children Made Mad Rush for the Doors.

PHILADELPHIA, Sept. 27—Terrorized by Black Hand stories, 1,000 children stampeded in a Polish parochial school in Jersey City today when fireworks were set off in the street below, and in the mad rush for the doors fourteen were trampled, one so seriously that death will probably result.

Uncle Walt The Poetic Philosopher

A tall and pompous citizen pursues his stately way. "That man is worth five million bucks," we hear admirers say, and folks salute him as he goes, and wear the servile smile, and while he lingers in their view, they talk about his pile. It's good to have five million bucks, or half a million less, but being wealthy doesn't mean that you are a success.

SOPHIA BECK JAILED; TRAILED FOUR YEARS

Most Daring Woman Swindler Arrested at Shore—Sorry Only for Child—Fled With \$2,000,000 and Storey Cotton "Pais."

Here are pertinent facts of Sophia Beck's career after she joined the Storey Cotton swindlers. DREW \$500 A WEEK FROM crooked company and shared in surplus. Helped to lure dupes who gave up \$3,000,000.

It was a different Sophia Beck that was locked up in the Camden county jail last night. The heavy hand of the law that clutched her did not shake her nerve, but it wrung her heart, for Sophia Beck, or Graham, is now a mother.

When they looked her up in the Camden jail they parted her from her 2-year-old son Jamie for the first time since he was born. Jamie is a sturdy, chubby, nigger that the average child is at 3, and very much attached to his mother. In his physical beauty he suggests the charms of his fat father, which captured the heart of Sophia Beck, who was the leading spirit of the cotton swindle, and when she used her wiles to obtain the things which she most desired in the world, Ross-cheeked Richard Graham was one of these.

It is significant of the change that motherhood has wrought in this queen of confidence women that she admitted her identity when arrested, and admitted three of the aliases used in the indictment, she emphatically denied the fourth alias. This was "Mrs. Edward Dunn." It is alleged by the authorities that at one time in her career Sophia Beck lived in New Orleans with Francis C. Dunn, a turf swindler, yesterday when arrested, the Beck woman denied the Dunn alias, although admitting those under which she is charged with other crimes against business honesty.

It was on March 16, 1905, that the Storey swindlers, frightened by the crusade exposing the character of the business, gathered up \$2,000,000 in cash and left for parts unknown. The Storey Cotton Company was the conception of an Englishman with a criminal record. His name was F. Evans Storey. The idea took the fancy of Francis C. Dunn, who had been living on his wits for several years. The idea of the Storey swindle was similar to one that Dunn had previously conducted under the name of Dunn.

How PUBLIC WAS DUPED. With alluring advertisements the public was invited to send its money to the Storey company. This offer, it was represented, had inside information about the cotton market. Through the use of this information it would invest the money of its confiding clients so that it would double it in a few weeks.

Rubber Things Of Quality

CHOICE STOCK of seasonable Fruits and Confectionery. Also recortes, cigars and tobacco. No more action our Post Master General could not be imagined. He would scorn an act in the above described manner in private relations but now triumphantly points to the enormous and unparalleled newspaper and magazine postage from this country.

Francis was convicted of conspiracy to defraud through the use of the mails. He was sentenced to \$5,000 and four and a half years in prison. His term expired last Friday, and he is serving out his fine. He probably will be released next month.

Francis was the promoter of paper companies when the Storey men had picked up a position in a business office. It was there that he was arrested by Inspector Cortelyou. He was convicted in the United States court here, appeared, got out on bail, went to New York and was arrested on another charge. It was his first crime, committed four years before. He had swindled a client, a widow, out of her entire fortune. He was convicted, and is now serving a term of one year in Sing Sing.

SOPHIA THE LAST ONE. Sophia Beck was the last of the big swindlers. Inspector Cortelyou kept her in the city for a long time, with which she was now charged in the stealing of \$2,000,000. It was not extrajudicial. If she had stolen \$50,000, she would have been sent to Sing Sing.

SOPHIA ENTERS THE GAME. What part the Beck woman had in the Dunn race-track swindle has not been made clear, but it is alleged that she came to William Grove, a well known gambler, and was introduced to a circular of the Storey Cotton Company swindle, of which the Beck woman and Francis C. Dunn, alias Judge Franklin Stone, were the principal swindlers.

Up to read it over, and read it again. Then she read it the third time. There was no doubt about it. It was indeed her own handiwork. She noted the address, took a train for town, and walked into the office of the Storey company, hung them up and announced that she was in on the game.

From that time the business of the cotton company fairly boomed. Sophia Beck is said to have assumed charge of the entire correspondence of the concern, and to have written a circular of advertisement for that line of business than any person alive.

Complaints of clients alarmed or annoyed over the delay in their dividends were turned over to her, and she dictated replies that not only soothed the fears of the investors but coaxed bigger sums than ever from them.

DREW \$500 A WEEK. Money fairly flowed into the coffers of the concern. Sophia Beck fixed her own salary at \$500 a week, besides taking an interest in the surplus. She saw Richard Graham, a respectable young man of Jenkintown, who was a driver for her brother, who was in the feed business in Jenkintown.

SOPHIA BECK ARRANGED TO meet Richard Graham, she denied him her wit and her wealth, and they were married in the Episcopal church at Jenkintown.

She had enough pride in her husband to wish to give him an appearance of utility so she set him up in business. It was called the Graham Lamp Company, and it had a big store in Chestnut street.

ONE SWINDLER REMAINED. Finally, when the hunt became too hot, "the bunch" disappeared, leaving Richard Graham as the only member of the firm remained to face the music.

NOT SLEPT IN. "Porter, this berth, has been slept in," said the porter, who had just seen the man who had been sleeping in the berth.

GREAT BRITAIN BENEFITS BUT CANADA PAYS

J. Henniker Heaton Scores the Present Arrangement of Rates on Newspapers and Magazines. LONDON, Sept. 28—In giving a few examples indicating the necessity for Governor-General of Canada announcing through the Hon. Rodolphe Lemieux, her Post Master General, asked for cheap newspaper and magazine post from the Mother Country. The reason given for this request was that it was in order to counteract the pernicious influence of "Yankee literature" and to keep up and sustain a patriotic interest with Great Britain and Ireland.

It is scathing terms the present Governor-General of Canada announced that this request had been granted by Mr. Sydney Buxton, the Post Master General, but at Canada's expense. "Meaner action our Post Master General could not be imagined. He would scorn an act in the above described manner in private relations but now triumphantly points to the enormous and unparalleled newspaper and magazine postage from this country.

Canada, however, bears the entire burden and the British post office takes its old profits.

If the ability to provide laughter is the standard of success, the Robinson Opera Company's new bill, Ship Ahoy, made a very decided hit last evening. The piece has been announced as a musical comedy. It is full of fun from start to finish. The story relates the adventures of an operatic troupe shipwrecked and stranded on a lonely island. The chorus girls adopt the principles of suffrage, organize, and take charge of affairs. A ship arrives, and the comedians, while in a state of hilarity, changes clothes with the manager of the company. With the change of raiment their positions are reversed, and the efforts of the theatrical man to handle the vessel are as entertaining as those of the comedians in rigging the choral suggestions. The leading ladies fall in love promiscuously, the officers of the ship prove not unwilling victims, and the seamen and chorus girls following the examples so placed before them. A day of reckoning comes between the manager and the comedians, and all differences are settled by a few rounds with the gloves. This boxing scene is the climax of the show, and is riotously funny. The comedy was happily handled by Edward Beck and Jack Leslie, as comedians and manager respectively; a number of popular ditties were introduced and there was some clever dancing.

Machine Which Ran Over Her Cub Is Smashed to Pieces by Her Cunning Device.

BANGOR, Me., Sept. 27.—Up at Passadumuck, in this State, where black bears once owned the land and all upon it, and where to this day their fondness for nutmeg and honey is sadly realized, the wise man, the historian and the horse hunter of the village foregathered on the bench outside the post office to talk of many things.

Uncle Penny, the wise man, declared beasts of the forest had no real courage—that they fought against desperate odds merely through ignorance. Sim Betts, the historian, pondered deeply to rake up some instances, but before he could recall or invent anything Peleliah Jones, the boss hunter, declared that while a bigger fool than the bull moose ever stalked the earth bears had, on the average, more brains than men. And he proceeded to prove it.

"Now," said Jones, "you don't never hear a bear a-bucking injines on no mountain 'no?'"

"No," said Jones, "you don't never hear a bear a-bucking injines on no mountain 'no?'"

"Pretty soon the old bear come out an' snuffed at the carcass of the dead cub, sniffed it over with her paw and grunted around as though she expected to wake it up. Seeing that the cub laid there stiff an' still, the old one huddled off into the bushes with another cub taggin' on behind. It appeared that was the last of it—but that's where I had something new to learn 'bout bears.

"Just a few rods up from where the old bear went into the bushes, an' standin' close to the road, was a big spruce, with an old stub (dead trunk) lodged agin it. That stub was two feet through, an' it just barely caught on the spruce, so's the least jolt would bring it down, slam bang, right across the road.

"Well, sir, I never see the like an' for some time I set there, wonderin' what the old bear was up to. Then, grudgingly, it began to leak through me that she was after revenge on the sports that killed her cub. She was a-buckin' of the road open the time they'd come back.

"Well, I says to myself, says I, 'there's no tellin' when the fellers'll come back; it may be a week—and so, havin' other fish to fry an' it bein' none of my mess, anyway, I kept on. I was gone a couple of hours an' when I come back along, cuss me if that old bear an' her cub wasn't a-sittin' there in the edge of the bushes as though they expected company. When I went past, they never budged, an' havin' no gun, I come right along an' left them to tend their own business.

NEED FASTER BOATS FOR WEST INDIES

J. S. Allan Chief Witness at Yesterday's Session of Royal Commission in Toronto.

TORONTO, Ont., Sept. 27.—Evidence was taken here today by the Royal Commission on trade between Canada and West Indies, and the commission left tonight for St. John, N. B., Lord Halifax of Burleigh said the preference given by Canada had increased trade from the West Indies. He said that Canada handled about one-fourth of the annual trade of the West Indies which totaled \$194,000,000. He complained that the steamer in which they went only travelled "one knot an hour. They needed a fifteen knot steamer.

KNOW NOW And Will Never Forget the Experience

The coffee drinker who has suffered and the been completely relieved by changing from coffee to Postum knows something valuable.

He or she has no doubt about it. A California lady says:

"I learned the truth about coffee in a peculiar way. My husband who has for years been of a very bilious temperament decided to leave off coffee and give Postum a trial and as I did not want the trouble of making two beverages for meals, I concluded to try Postum, too, and the results have been that while my husband has been greatly benefited I have myself received even greater benefit.

"When I began to drink Postum I was thin in flesh and very nervous. Now I naturally weigh 16 pounds more than I did at that time and I am stronger physically and in my nerves, while my husband is free from all his ailments.

"We have learned our little lesson about coffee and we know something about Postum, too, for we have used Postum now steadily for the last three years and we shall always continue to do so.

"We have no more use for coffee—the drug drink. We prefer Postum and health."

SUN'S RAYS IN POLAR LAND WAS PAINFUL

Cook and Party Compelled to Wear Amber Glasses

---Exquisite Arctic Skies---The Movements of the Ice Floes.

The Conquest of the Pole

By Dr. Frederick A. Cook

Seventh Instalment (All Rights Reserved)

On snowshoes and with spread legs I led the way. The sleds with their light loads followed. The surface vibrated as we moved along, but the spiked handle of the ice axe did not easily pass through. For about two miles we walked with an easy tread and comparative anxiety, but we had all been on similar ice before and we knew that with a ready line and careful watchfulness there was no great danger. A cold bath, however, in the temperature, 40 degrees below, could have had some serious consequences. Two crossings all our supplies were safely landed on the north shores, and from there the lead had a much more picturesque aspect.

For a time this huge separation in the pack was a mystery to me. At first sight there seemed to be no good reason for its existence. Peary has found a similar break north of Robeson Channel. It seemed likely that what we saw was an extension of the same lead following at a distance the general trend of the northernmost land extension.

This is precisely what one finds on a smaller scale wherever two packs come together. Here we have the pack of the central Polar Sea meeting the land ice. The movement of the land ice pack is intermittent and usually along the coast. The shallows grounded ice and projecting points interfere with a steady drift. The movement of the central pack is quite constant and almost in every direction.

Here the children have listened with eager delight to the stories of the double discovery of the North Pole. They were then told to write essays in the subject.

Here are some selections from essays in a London suburban school.

"There is now a lot of talk about the discovery of the North Pole," commenced a girl of ten, "Dr. Cook was supposed to have reached it, but when he got there Captain Peary came over the side and told Mr. Cook the Pole belonged to him. They both became very angry and waved the Stars and Stripes, but presently agreed to leave it in the hands of the President of America."

LAND CLOUDS STILL VISIBLE

Satisfactory observations at noon on March 24 gave our position as latitude 83 degrees, 31 min., longitude 86 degrees, 27 minutes. The land clouds of Grand Land were still visible and a low bank of mist in the west occasionally brightened, offering an outline suggestive of land. This we believed to be Crocker Land, but mist persistently screened the horizon and did not offer an opportunity to study the contour.

Until midday the time was used for observations and a study of the land conditions. The dogs sniffed the air as if scenting game, but after a diligent search one seal bled through the big lead a few algae were gathered, but here the sea was sterile. The signs of seal and bear, however, were encouraging for a possible food supply. In returning the season would be more advanced and the ice might move northward, thus permitting the extension of the time allowance of our ration.

WITHIN AN ACE OF SUDDEN DEATH.

As we skrimished about for a little while, flushing the newly driven snow in warm tones. The thermometer during the storm rose to 26 below, and now the thermometer sank rapidly below 40. The west was still smoky and the weather did not seem quite settled. It was too early to start, as we disrobed again, slipped into the bags and sought a quiet slumber.

A few hours later we were roused by a loud explosive noise. Looking about nothing unusual was detected about the igloo and a pop through the eye part gave no cause for the disturbance. It was concluded that the ice was cracking from the sudden change of temperature in the usual harmless manner, and we turned over to prolong the bag comfort.

Then there came a series of thundering voices, with which the ice quivered and broke in a series of great cracks and sank into a newly formed crevasse, which up to that moment we had held with snow—and a man in a bag is a helpless creature—and with water below and tumbling blocks of snow from above pressing one deeper and deeper the case was far from humorous at a

AMBER GLASSES RELIEVE EYE PAIN.

Though the heat of the sun was barely felt, the rays began to pierce the eyes with painful effects. The bright light, being reflected from the soft surface of the storm driven snow, could not long be endured even by the Eskimos without some protection. The amber colored goggles that we had made at Annotok from the glass of the photographic supplies now proved a valuable asset. They were effectively removed one of the greatest torments to Arctic travel.

The relief to smoky glasses, blue glasses and ordinary sunward automobile goggles had all been tried with indifferent results. They failed for one reason or another, mostly because of an insufficient range of vision or a faulty construction, making it impossible to proceed more than a few minutes without removing the accumulated condensation.

This trouble was entirely eliminated in our goggles. The amber glass perfectly made the eyes to stare through the eye, but did not interfere with the range of vision. Indeed, the eye, perfectly making the eyes to stare through the eye, but did not interfere with the range of vision. Indeed, the eye, perfectly making the eyes to stare through the eye, but did not interfere with the range of vision.

ICE IMPROVES, BUT SNOW STORM DELAYS.

On this March 18 in the early part of the afternoon the weather proved good. Improved as we advanced, the ice started ahead our work close to the chill of midnight, and before we were quite ready to camp the signs of another gale from the west. Little snow clouds with ragged edges hurried along at an alarming pace, and beyond a huge smoky bank blackened the party directly.

Suitable camping ice was sought, and in the course of an hour an igloo was built. The structure was built stronger than usual. Double tiers of snow blocks were placed to the windward of the top to cement the blocks. The dogs were fastened to the lee of humplashed and staked to the ice.

We expected a hurricane, and had not long to wait to taste of its bitterness. Before we were at rest in our igloos the wind brushed the snows with a force inconceivable. The air thickened with rushing drift, and in a few moments the dogs and sleds were buried under banks of snow and great drifts encircled the igloo. The continued blocks of our dome withstood the sweep of the blast very well, but many small holes were hurled through the snow wall, permitting some drift to enter.

Early in the morning, after a rush of but a few hours, the storm ceased as suddenly as it came and left a stillness which was appalling. The dogs soon began to howl desperately, as if attacked by a bear, and we rushed out, by trace and jamness they were motionless, hardened masses, so much so that few could rise and stretch, which is a severe torment to dogs after a storm. We freed their traces, beat the cemented snow from their fur with sticks, and their empty tails and pointed noses told of common gratitude.

MICROSCOPE AT LAST FOR THE FIRE DEPARTMENT

Safety Board Decides to Probe Department's Affairs—Tenders for New Fire Station.

At last evening's meeting of the Board of Public Safety it was decided to have an investigation into the fire department. The tenders for the building of the new engine house on the West Side were referred to the council and tenders for the making of police clothing were ordered to be called for.

Those at the meeting were Ald. Vanwart in the chair, Ald. Kelley, Ald. Fotts, Ald. Hayes, Ald. Wilson, Ald. Sproul, Director Wisely, Chief of Police Clark, Chief Kerr and the common clerk.

Tenders for the construction of the new engine house on the West Side were referred to the council on the motion of Ald. Sproul. The application of Daniel Coram for the lease of lot 15 on the south side of Protection street was laid on the table until further information could be obtained.

OLD MAN FATALLY INJURED; PECULIAR DEATH OF A BOY

Edw. Scribner Struck by Wind and Dead—Fellows—Cochrane Boy's Strange Malady.

Another death out of the ordinary took place near Hampstead on Saturday. The deceased is a ten-year-old lad named Cochrane, a son of John Cochrane, of the Lyon road. It is said that legal action will be taken against the medical practitioner who attended the boy.

About two weeks ago the lad complained of curious pains in the elbow of his right arm. The trouble grew so serious that his parents summoned a doctor, who said that the boy's arm had been broken. Acting upon the diagnosis that the pain was caused by a mis-set bone, the medical man broke a bone in the arm and re-set.

The boy grew worse, however, and manifested strange symptoms, one of which was the loosening of his teeth, almost to the point of dropping out. He died on Saturday. His people and their neighbors are convinced that the boy was not treated properly, and that instead of a broken arm, the boy was the victim of some bone disease, of which the doctor knew nothing.

FOURTY-TWO CELESTIALS ARE UNDER ARREST

Halifax Police Made Big Haul in Gambling Joint—Games in Progress.

HALIFAX, Sept. 27.—The biggest raid in the history of the Halifax police department was made late tonight when a squad of men led by Chief Ruffland and Detective Hanrahan swooped down on the Chinese headquarters, 45 and 47 Duke street, and arrested 42 Celestials for gambling. Two big games were on in the basement of the building, the tables being crowded with Chinamen playing poker and fan tan. There was the wildest excitement when the police entered, cards, tables, chairs, money, etc., being hurled in all directions. The Chinamen made a dash for the exits, but all were lured and not one of them escaped. The Chinamen were sent in batches of ten to the police station, which is directly across the street, and there were not enough cells to accommodate them. The proprietor of the joint is Ah Tom, who is now awaiting trial before the supreme court on the charge of keeping a gambling house. The police gathered up all the paraphernalia. They also found several large guns.

HIGHEST ENDURABLE TEMPERATURE.

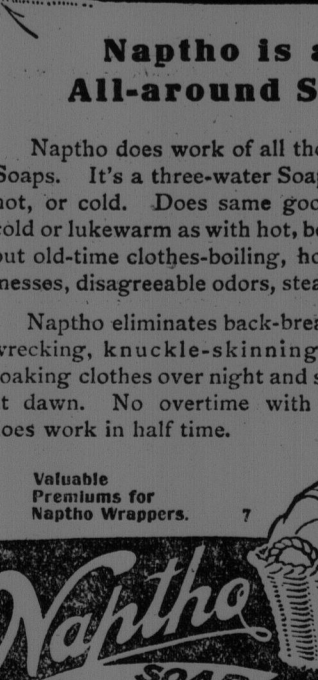

It is difficult to say what the highest temperature is that a human being can live in. In the sidewalks of some of the great hotels and in the stock-holds of some steamships the temperature goes to 140 or 145 degrees. Cooks and their helpers have to endure that temperature for hours at a time, and they seem to get along pretty well. The hottest place, perhaps, where human beings work is in the volcanic factories, where the temperature is 212, the boiling point of water. There are a few who can stand this heat for a little while at a time, but man can endure no more.—New York American.

Napho is an All-around Soap

Napho does work of all those "special" Soaps. It's a three-water Soap—lukewarm, hot, or cold. Does same good work with cold or lukewarm as with hot, besides cutting out old-time clothes-boiling, hot suds, dirty messes, disagreeable odors, steam and health.

Napho eliminates back-breaking, health-wrecking, knuckle-skinning rubbing—soaking clothes over night and starting wash at dawn. No overtime with Napho—it does work in half time.

Valuable Premiums for Napho Wrappers.

"For revenge," snarled the crabbed housewife. "You laughed at my pies."

"But dia coffee don't resemble revenge, lady."

"It don't, hey?"

"No, revenge is sweet. Pass over the sugar bowl."

FELL ON THE FLOOR, THEN DISAPPEARED

Chicago Man, Long Missing After an Accident, Finally Found in Racine

Brought Back Home, He Seems to Recognize His Wife, But Knows No One Else.

CHICAGO, Ill., Sept. 27.—Frank H. Whitten, president of the Bible class of the California Avenue Congregational Church and an employer of the People's Light and Coke Company, who had been missing since September 10, returned home after a few days' absence.

Throughout the day friends called at the home of his wife, Dr. Lawrence Ryan who is attending him, and Dr. D. F. Fox, his pastor, were allowed to enter the deserted room where Whitten lay.

Mr. Whitten was brought back to Chicago from Racine by Grant Seaton, who had conducted a personal search for the missing man. Whitten had entered the quarters of the Young Men's Christian Association in Racine one evening and in a rambling and incoherent manner managed to make his identity known.

"I cannot express myself for my joy," said Mrs. Whitten, "at the fact that we have him home again, whatever his condition. He will have the best of medical attention, and I am sure he will soon be himself again."

On the morning of September 10 Whitten fell heavily while crossing the floor of a gas company's office where he worked. He was carrying a bulky ledger and in some way lost his balance and fell.

BY-ELECTION TO CHOOSE MCINTYRE'S SUCCESSOR

OTTAWA, Ont., Sept. 23.—A writ was issued yesterday for the by-election in Strathcona to fill the vacancy in this respect, by the death of Dr. McIntyre last month.

The nomination is set for October 20th and polling on October 27th. The contest will probably be between two Liberals.

MONTREAL, Q., Sept. 27.—The Montreal Heat, Light and Power Co. in this respect, by the death of Dr. McIntyre last month.

The threat on this occasion is more serious than it was when held over the heads of the city council at the end of last year, because of the very important legal question now involved as to whether the company can continue the lighting service and collect rates in a better position than ever.

The Food Route

is the safest way to steady health.

Many people are kept ill because they do not know how to select food that their own particular bodies will take up and build upon.

What will anger for one will not do for another. If one is ailing it is safe to change food entirely and go on a plain, simple diet—say—

- Cooked Fruit, Sauces of Fruit-Nuts and Cream, Soft Boiled Eggs, Slice of Toast, Cup of Soup.

That's enough. Such a diet makes one feel good after a few days. The most perfectly made food human use is

The regular monthly meeting of the Board of Public Works will be held at the city hall this evening at 8 o'clock, and a quorum is expected in spite of rival attractions. Among the matters to be brought up is a claim for damages on behalf of a lady who was hurt on the Portland Bridge.

Owing to a washout on the line the early train from Fredericton did not reach St. John this morning. The damage was repaired as rapidly as possible and a special train bearing the passengers from the capital was sent along in time to connect with the Boston express which was an hour and a half late. The eastern lines were all in a rather bad condition and the latter train had to go slowly over some of the worst places.

MONEY POURING INTO THE CHAMBERLAIN'S OFFICE

Citizens Showing the Customary Anxiety to Save the Discount on Taxes— Collections Same as Last Year

The chamberlain's office at the City Hall is a busy place these days. There are only three more days in which those citizens who wish to save the five per cent. discount on their taxes may avail themselves of that privilege. The number of persons paying their taxes has been steadily increasing each day and even with the help of the extra clerks the staff has all it can do to cope with the business.

Yesterday the amount received was \$25,000 and it is expected that today's receipts will be even larger.

The condition of financial workers industrial conditions or other matters which affect the collections of business houses have little influence on the amount of money taken in by the chamberlain.

The taxes have to be paid sometime, with the exception of a small percentage which is never secured, and the majority of those who can do so usually try to get their money in by October 1st in order to save the five per cent. discount.

Speaking to the Star this morning Comptroller McIntyre said that the whole staff was too busy taking in the money to find time to figure up the receipts to date but as far as could be estimated the amount was just about the same as in other years.

The rush of the tax payers will continue until Friday 1st, which is the last day on which the discount is allowed.

On this evening as is the custom the office will be open until midnight to accommodate those who cannot get to the City Hall during day time.

PREESE AND HOGAN COMMITTED FOR TRIAL

On the Charge of Robbing a Camp at Drury Cove—Had Nothing to Say.

The two prisoners Preese and Hogan charged with breaking into a camp near Drury Cove and stealing a number of articles, were before the court again this morning.

G. E. W. Merrill, one of the four who had the camp at Drury Cove, said he missed a sweater, a pair of pants and a bathing suit. Preese had the sweater on last Sunday when arrested by the detective. Witness identified candles soap, two bottles, tennis racket, revolver and a box of blacking as his property which was found in Preese's dress suit case.

Witness said he went to Rothesay about the others and located the defendant's camp.

To Preese, witness said that he visited their camp twice last Sunday and defendant, Preese, had witness' sweater on at the time.

The prisoners were sent up for trial and both said they wished to keep their statements until the time of the trial.

Dogs Take Their Holidays at License Time

Dead Ones Tell No Tales—Some Unique Excuses Offered in Court Today.

"I had a little dog, but I ain't got it now," seemed to be the favorite excuse in the police court this morning, when a large number of persons were present to give reasons why they had not taken out licenses in May or since then. There were very few persons present and only one woman in the lot. She represented her husband who was at sea.

For two hours the court listened to excuses and then adjourned the cases for a week. There were a few fines which were allowed to stand for a week to enable the dog owners to get out licenses.

The fine for the owner of a female dog is \$7.50, and for a male dog, \$5. The license fee in May was one dollar for a male, and two dollars for a female. This fee was doubled on those who did not get their dogs licensed before July.

Besides those summoned to court there were present twenty-five policemen who had served the summonses. The following are the names of those who appeared in court and the excuses that were given:

Mrs. Martin Penny—"I had a little dog, but I ain't got him now. He took his and I drowned it two weeks ago."

DIVIDED HIS ESTATE AMONG MANY RELATIVES

Thos. Hastings' Will Probated—Heirs Object to Jas. McEivry's Brother John Being Put in Charge.

In the Probate Court, Estate of Thomas Hastings, farmer, who died will proved whereby deceased gives the following legacies: to his sons Dr. Joseph Hastings, \$1000; Harry P. Hastings, \$500; and Abner J. Hastings, \$200; to his daughters, Lucinda Brown and Elsie Hastings, \$200 each; to Emily Lyons, wife of Stephen Lyons, \$200; to his nieces, Belle Levey Armstrong's Corner, Lizette Howe, of Peterborough, Mary Jane Howe and Sarah Reed, wife of Joseph Reed, \$200 each; to Josie Amelia Carroll, \$200; to Sarah Carr, \$200; to Lizette Corbett, \$200; to Laura Corbett, \$100; to his niece, Julia K. Thornton, \$100; to Robert Thornton, son of John Thornton, \$50; to Margaret Barnett, \$20; to John Thornton, \$100; to Mabel Hastings, \$200. The rest of his estate he gives to his children above named or their representatives. No real estate. Personal, \$2,000. John Thornton and Leonard F. D. Tilley, barrister, are sworn in as executors. Mr. J. MacMillan Trueman, proctor.

Estate of Sarah A. Tisdale, Citation returned to pass the accounts of Mr. James H. McAvity, surviving executor. After taking the evidence of Mr. Harry P. Puddington, barrister, who has acted as agent for the executor, the executor not being able to present the further hearing adjourned until Thursday next at 11 a. m. Mr. Fred B. Taylor, proctor.

Estate of James McEivry, peddler. The estate of the deceased has been placed by the Equity Court in the hands of a committee. John McEivry, of Pittsview, a brother, petitioner for administration. All the other next of kin being represented oppose the application of the brother and ask for the appointment of two of the committee as administrators, and accordingly they are appointed, namely James A. McEivry, of Upham, storekeeper, a nephew, and Andrew McEivry, of St. John, retired postal clerk.

The estate consists of some dozen houses, freehold and leasehold. Mr. Edmund S. Ritchie, proctor for the petitioner. Mr. W. B. Wallace, K. C., proctor for the rest of the next of kin. Estate of Robert S. Jones, water. The funeral expenses and the bill of the Commissioners of the Public Hospital not having been paid a application was made on behalf of the latter for administration. On return of the citation Robert M. Rooker, of Boston, a great-nephew of deceased, on giving proper bonds is appointed administrator. Dr. A. W. MacIntae, K. C., advocate for the petitioner. Mr. Cyrus P. Inches, advocate for the next of kin.

EQUITY COURT

In the matter of Arthur M. Gregg, an infant. This morning A. A. Wilson, K. C., made application before His Honor Chief Justice Larker in Equity Court Chambers for the appointment of a guardian of the estate of the said infant. Order made appointing infant's mother, Isabella Gregg, of St. John, sole guardian of his estate and person.

The infant is entitled to a one-third interest in the estate of Harriett M. Gregg who departed this life at Moncton on the 15th of May last. Catherine Jane Manners of the City of Ottawa, and John G. Gregg, of the City of Boston, have each a third interest in the same property.
