

ST. JOHN OR HALIFAX AS THE WINTER PORT?

Interesting Debate in St. Mat w's Presbyterian Church—Judge Undecided as to Victor.

A very interesting and instructive debate was held last evening in St. Matthew's Presbyterian church, Douglas avenue, when the question "Which is Canada's Natural Port, Halifax or St. John, was argued before an intensely interested and enthusiastic audience.

The debate was held under the auspices of the Young People's Society and Rev. J. H. A. Anderson, of St. John's Presbyterian Church, acted as Judge and critic.

Each side was allowed two speeches and the question was debated with William N. Collins and Rev. Gordon Dickie arguing in favor of Halifax and J. Fraser Gregory and F. W. Holt speaking for St. John.

Rev. J. J. McCaskill acted as chairman. In opening the debate, William N. Collins, who spoke for Halifax, argued that the time advantages gave preference to the sister city. The situation of Halifax in respect to the mother country and other trading centres was touched upon. The natural facilities of the place and the cost of transportation were all mentioned in favor of Halifax.

J. Fraser Gregory, arguing for the port of St. John, was the next speaker. He spoke of the position of St. John and argued that it was the nearest distributing centre and that along with its natural facilities would retain for it the distinction of the winter port of Canada.

Rev. Gordon Dickie speaking in favor of Halifax said that the natural advantages of Halifax made it preferable as the winter port of Canada. He argued that because of the housing facilities Halifax was the better port for the working man.

F. W. Holt gave expert knowledge of the facilities and conditions at St. John for handling the trade and argued that this port possessed advantages over Halifax.

As both sides were equally strong Rev. Mr. Anderson was unable to give a decision last evening, but he was inclined to favor St. John.

The Bon Accord Circle served supper from six to eight o'clock in the evening.

CAMPAIGN TO RAISE \$4,000,000 FOR NEW BUILDING FUND

A remarkably successful campaign on the part of the Y. M. C. A. and the Y. W. C. A. to collect \$4,000,000 for a building fund is now going on in New York. Wearing their most ingratiating smiles and armed with pads and pencils for jotting down figures, a company of young women is daily invading the financial district of the metropolis to ask for subscriptions of money. In two weeks the committee hopes to have the \$4,000,000 subscribed. Up to date a total of \$2,091,000 has been collected. To advertise the money raising campaign a "clock" showing the growth of the fund has been installed on the tower of one of the big downtown skyscrapers. Among the society women taking part in the monster campaign are Miss Grace Potter, Mrs. W. Fellowes Morgan, Mrs. Francis Louis Slade and Miss Dorothy Perkins.

OPINION IN WASHINGTON THAT HUERTA GOVT WILL SOON CRUMBLE

(Continued from page 1)
The landing of marines has not been found necessary so far and no instructions to that effect have been sent, nor has there been any request for such instructions. In the meantime, Admiral Fletcher will be instructed to take whatever steps he thinks necessary to protect all foreign interests.

Huerta Fast Losing Control.
The parleys with the constitutionalists have been carried on in no formal way, but merely for informative purposes. The administration thought not confiding the inhumanity of the armed strife generally in Mexico, is inclined to view with some complacency the republicans by constitutionalists and federals on those officers or men who have been deserting from side to side.

These salient facts were obtained from those with whom President Wilson discussed the Mexican situation today. The impression that the Huerta government is fast losing its control over territory hitherto dominated by it is based on the despatches to the State Department, which show also that diplomatic pressure from without is having much to do with weakening the resources of the provisional government. There was some emphasis in the denial emanating from the White House that any steps of a summary character had been taken through instruction to Charles O'Shaughnessy within the last few days. The President made it clear that beyond what has already been published, there were no moves in the situation, as far as the United States was concerned, which were unknown to the public.

The President holds the view that as a result of all the influences now at work, Huerta will slowly but inevitably be compelled to yield to the force of circumstances and retire. As to the future programme of the United States, the President believes that of necessity it must be kept within the secret councils of the administration, and that publication thereof might impair its efficacy. As a consequence, there was no information obtainable as to the plans and purposes of the Washington government in the event that Huerta should retire. It was made plain by the White House that in the parleys between General Carranza, the constitutional chief, and William Bayard Hale, no effort was made to map out plans for the future.

It was intimated that Mr. Hale had gotten the desired information from White House officials stated that the parleys conducted by Mr. Hale did not affect the pending plans of the American government, and that there had been no debate of any future progress which the constitutionalists or this government would follow.

The meeting tonight of the Mexican Congress was one of the events around which much interested centered here. It was not expected that the Washington government would make any further moves until it could observe the acts of the new congress.

There are many people here conversant with the situation who believe Huerta merely wishes ratification for his acts, so that he can retire in a dignified way.

ONE BODY RECOVERED AND IDENTIFIED

Goderich, Ont., Nov. 20.—A rigid search of the shore was made today by the Lambton Tug Morton, and a gasoline launch, and one body was found and identified by papers in the pockets as Chief Engineer Smith of the McGeeen of Lorain, Ohio. With a life preserver on, the body was found floating about half a mile from shore off Naflet's Point by the gasoline launch. From appearance the body had never reached the shore, and it is probable that this is the body that the Lambton passed entering the harbor Sunday night and which disappeared again. Smith had his son with him on the boat as pilot, but as yet his body has not been identified, if found. The body will be shipped to deceased's home tomorrow.

Huerta displayed his cordiality toward Nelson O'Shaughnessy, the American Charge, and the way in which he applauded the playing of "The Star Spangled Banner" by the military band at yesterday's reception in Chapultepec Castle were the subject of much comment today. Although the entire diplomatic corps was present, General Huerta did not converse at length with any of the diplomats except Mr. O'Shaughnessy, with whom he spoke for a quarter of an hour.

The Provisional President appeared to be in high spirits, while he was informing Mr. O'Shaughnessy of the substance of the message he was about to deliver to the new congress, and telling him that he would send a copy to the American embassy in advance of its delivery.

At the same time Senora Huerta showed great warmth in her reception of Mrs. O'Shaughnessy.

The reception was on a very elaborate scale, and the rooms were profusely decorated with flowers, while the refreshment bill alone is said to have amounted to \$20,000.

Besides the diplomats, the high military officers, the leading civilian officers and their wives, nearly all the members of the new congress were present.

JAPAN'S INTENTION.
New York, Nov. 20.—Masano Hanbara, ex-secretary of the Japanese legation at Washington, who is proceeding to Mexico to board the launo to assist the Japanese minister, is quoted in the Tokio newspapers as saying:

"Japan's intention is to maintain strict neutrality in the matter of the American and Mexican relations. The launo will protect the Japanese residents, and if necessary, will establish communication with the Japanese in the interior. I will confer with the diplomatic representatives in the Mexican capital."

THE DECIDING GAME FOR STANDARD TROPHY TO BE PLAYED TODAY

Grade VIII Teams of Albert and High Schools Meet this Afternoon in Final Clash.

This afternoon on the Shamrock grounds will be played off the final game of the Inter-School Football League, which will place victory with either the Albert or Grade VIII High School team and determine the winners of the coveted cup, donated by the Standard, which has been keenly contested for since the formation of the league early in the gridiron season.

In what was scheduled to be the final game last Wednesday week, when the Alberts and the Grade VIII High School boys had come off the field with three scores rolled up to their opponents either, and a hearing before the league committee in the Y. M. C. A. building on Wednesday afternoon decided that the game should be postponed to today.

To simplify matters and possibly add more interest to the games when the league was first organized it was thought advisable to divide the competing teams numbering ten and form two leagues. These teams in each sub-league played a scheduled number of games, and the Albert and Grade VIII High School teams came in for the first place in their respective sub-leagues. The play-off of these teams was to decide the champions in the Inter-School Football League. But the protest in the game of last Wednesday week, when the supposed final was being played resulted in a setback, and both teams are again out strong this afternoon with anxious eyes on the much prized silver trophy.

The interest throughout the league season has been very strong and the game this afternoon promises to give an exciting finish to the one sport which, partly through the medium of The Standard, has lent untold amusement to the youth of the public schools and at the same time aided in physical development.

When the league committee heard both arguments on Wednesday afternoon it was decided that it would clear matters considerably if the protest was allowed, and the disputed game was played over. Grade VIII, aided by the decision, and they are out today to carry off the cup. The game is scheduled to commence at four o'clock.

LATEST ASPIRANT TRIMMED.
New York, Nov. 20.—Ed Hogan, the latest aspirant for the heavyweight championship, was knocked out in the seventh round of a ten round bout with Battling Levinsky, the Philadelphia light-heavyweight here tonight. Gunboat Smith was to have been Hogan's opponent, but a damaged leg, caused Smith to withdraw and Levinsky was substituted to meet the man from the northwest. Levinsky weighed 170 pounds, while Hogan was sixteen and one half pounds heavier.

IS THREATENED WITH DEATH.

JUDGE LUCIEN F. BURPEE.

A new development in the case of Mrs. Beattie J. Wakefield, who is under sentence of death as an accomplice in the murder of her husband, was made known recently at Waterbury, Conn.

A letter has been received by Judge Lucien F. Burpee, who tried the case, which threatens him with death if Mrs. Wakefield is hanged. The Judge asserts that he did not consider it important enough to turn over to the police.

However, his friends take the death threat seriously because of the white protest being made by indignant persons over the outcome of the trial. Mrs. Wakefield will be the first woman hanged in Connecticut since Colonial days if the sentence remains unchanged.

Heart and Nerves Were Bad.

Could Not Sleep.

To the thousands of people who toss a sleepless pillow night after night, who pace the bedroom floor with nervous jump, the heart action all wrong and to whose eyes sleep will not come Milburn's Heart and Nerve Pills are the blessing of the world. They are the only remedy that restores the equilibrium of the deranged nerve centres and correct wrong action of the heart.

Mrs. Charles F. McCormack, Ontario writes:—"Just a few lines to let you know what Milburn's Heart and Nerve Pills did for me. My heart and nerves were so bad I could not sleep, and the noise or excitement would make me feel so that I used to think I was going to and I would tremble until I could hardly stand. I took doctor's medicine, it did not do me much good. At last I tried Milburn's Heart and Nerve Pills and can certainly say they did me a great amount of good. I recommend them to anyone who is suffering as I was."

Milburn's Heart and Nerve Pills have been on the market for the past twenty years, and have done more to steady shaky nerves and strengthen weak hearts than any other known preparation.

Price, 50 cents per box, or three boxes for \$1.25, at all dealers, or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

A WONDERFUL CASE

Three Months in Hospital And Came Out Uncured.

Zam-Buk Cured Him in Few Weeks.

Mr. Fred Mason, the well-known upholsterer and mattress manufacturer of St. Andrews, N. B., says:—"I had eczema on my knee, which caused me terrible pain and inconvenience. The sore parts would itch and burn and tingle, and then when rubbed or scratched, would become very painful. When the knee got warm, it burned worse, and the itching and burning and smarting were almost unbearable. I tried various remedies, but got no better, so I decided to go to Montreal and take special treatment. I received treatment at the Montreal General Hospital for thirteen weeks, but at the end of that time I was not cured, and almost gave in. A friend advised me to give Zam-Buk a trial.

"Almost as soon as applied Zam-Buk stopped the itching and the irritation I persevered with the balm, and it was soon evident that it would do me good. Each day the pain was reduced, the sore spots began to heal, and by the time I had used a few boxes of Zam-Buk I was quite cured.

"Since then Zam-Buk has cured blood-poison in my finger, and at a time when my finger was in such a terrible condition that I feared it would have to be amputated."

For eczema, blood-poisoning, piles, ulcers, sores, abscesses, varicose ulcers, bad leg, cold sores, chapped hands, cuts, burns, bruises and all skin injuries and diseases, Zam-Buk is without equal.

TRAILED BY MURDERER, WHO WAS LURED BY \$100,000 NECKLACE.

MRS. POTTER PALMER.

For several days Mrs. Potter Palmer, a well known Chicago society matron, was followed by Henry Spencer, self-confessed murderer of Mrs. Mildred Allison, who followed her in the hope that he would be able to rob her of her \$100,000 diamond necklace, according to a further confession made public by the authorities.

Spencer said that the \$100,000 prize he sought would probably have been his, but that Mrs. Palmer would have met the fate of his other victims, nearly all of whom he says he killed after robbing, but he could not find a favorable opportunity to attempt to seize the necklace.

MR. MCNICOLL GIVES REASON FOR OPPOSING

Increase of 400 ft. Neutral Slip will Hamper C.P.R. Plans for Providing Additional Trackage.

D. McNeill, vice-president of the C.P.R., is opposed to any invasion of the 400 foot neutral strip for the purpose of lengthening the proposed wharves on the West Side. Yesterday after an inspection of the West Side he met the Mayor and told him that if the 400 foot strip was invaded it would hamper the C.P.R. in its plans for providing additional trackage facilities. He told His Worship that he would forward plans of what the C.P.R. intended to do on the West Side to support his views.

The need might come for wharves 1,000 feet in length some day, he said, but when it did the extended work would have developed further towards the breakwater, where there would be room for them without injury to the harbor. He stated that he was pleased with the progress that had been made on the new elevator, which would be ready in time for the opening of the season. The grain conveyors which the government was building would not be completed under the contract until March, but he hoped that the contract would have them ready before that time.

The question of the Dominion Coal Co's pocket near the Carleton ferry slip was referred to and the Mayor stated that while their lease of the property expired on December 1st no effort had been made to secure a renewal. A number of complaints had been made of the nuisance of having the pocket so near the ferry landing. Mr. McNeill said that the line obtained their coal supplies from the Dominion Coal Co, and asked if the city was going to interfere with this. Mr. McNeill emphasized the need of an immediate start on the second of the West Side wharves now under contract, saying that the first wharf would not be of much use until a second one was built to protect it.

Mr. McNeill stated that it was taking so long to get the 700 foot wharves at Carleton completed that it would be folly to attempt 1,000 foot ones until the others were done. He refused to discuss the possibility of the return of the Empire steamers to this port, as they are planned for the Atlantic at present. The new steamer St. George, he said, would shortly be sent to New York to undergo repairs, and for the replacement of several parts that needed renewing.

The project of running car ferries across the Bay of Fundy for the Halifax service via Digby, Mr. McNeill stated, had been considered by the C.P.R.

WHEN BACK AGES WATCH KIDNEYS. If Neglected Serious Diseases May Follow.

When the kidneys are clogged up and inactive, nature always warns you. Backache is one of the first symptoms. You may also be troubled with disagreeable, annoying bladder or urinary disorders; have attacks of numbness or rheumatism; become nervous, tired, or feel all worn out; puffiness shows under the eyes, or the feet and ankles; or the urine becomes light and pale, dark-colored or cloudy. If such symptoms are neglected, diabetes or Bright's disease, which so often prove fatal, may result.

It is not only dangerous but needless for you to suffer and endure the tortures of these troubles, when a little Croxone will quickly and surely end all such misery. There is no more effective remedy known for the prompt relief and cure of such troubles, because it cleans out the clogged up kidneys and makes them work properly. It soaks right in through the walls and linings; cleans out the little filtering cells and glands; neutralizes and dissolves matter, and makes the kidneys filter and sift the poisons from the blood and drive it out of the system. This new, scientific preparation, is entirely different from other remedies. It is so quick-acting and effective that it is practically impossible to take it without results.

An original package costs but a trifle, and all drugists are authorized to return the purchase price if Croxone should fail in a single case. Three doses a day, for a few days, is often all that is ever needed to end the worst backache; relieve rheumatic pains or overcome sleep-disturbing urinary disorders.

DANISH EXPEDITION ON DEEP SEA EXPLORATION

Copenhagen, Nov. 20.—A Danish scientific expedition headed by Dr. Mortensen, will start from here tomorrow on a deep sea exploration and biological and zoological investigations. The expedition will first visit the Philippines, and from there will proceed to Japan, Australia, New Zealand, Hawaii, Vancouver, and the Gulf of Panama, and will return by way of the United States.

It will occupy two and a half years in the work.

BASEBALL ATHLETICS BOWLING

GOV. TENER NAT. LEAGUE PRESIDENT

Harrisburg, Penn., Nov. 20.—Governor Tener said tonight that only a few minor details are to be arranged before his acceptance of the presidency of the National League of Baseball Clubs. He made this statement on his way to a train for Philadelphia after a four and a half hour conference with a committee of four representing the clubs of the league, and Charles H. Ebbets of the Brooklyn club stated that he regarded the matter as all settled.

Governor Tener of Harrisburg, Pennsylvania, has been assured of the votes of all the clubs by W. H. Hempstead, representing the New York club; Harry Ackerman, representing Chicago; Charles H. Ebbets, representing Brooklyn, and W. F. Baker, representing Philadelphia.

After a conference of clubs representing the league he said "We had hoped the matter would be settled, but some minor points in the negotiations remain to be considered, and the representatives here will consult with their colleagues who are not present. These matters will be taken up later."

"In case I accept the presidency of the National League I will not resign as Governor. Neither will I give my undivided time to the affairs of the league for the balance of my term as governor."

It was suggested to the governor that it looked as though he would be chosen, and he replied: "It looks that way, I do not know that the terms in detail are of any special interest. I will accept when they are all arranged."

It is understood that the governor desired to have some further communication from the club owners not here, but from all accounts all have declared that they desire to see the representatives here said they considered it as closed.

The term will be for four years and the salary \$25,000, according to reports circulated, but the governor and the representatives would not make any official statement on these points. Nor would they say what are the minor points referred to by the governor.

John Kinley Tener was born in Tyrone, Pa., in 1853. He came to this country when a boy and settled in Pittsburgh, where he was educated at the public schools. His first employment was as a clerk. His health soon broke down, and upon the advice of physicians he sought outdoor employment. While working as a clerk he had earned \$5 a week pitching for local towns on Saturday afternoons, and gained considerable fame as a player.

In 1875 Tener secured his first professional engagement as first baseman of the Pittsburgh club. At that time he stood six feet three inches and weighed 200 pounds. He was released before the season was half over and joined the Baltimore club.

At his own request he was released to the Haverhill, Mass. club, where he played until the close of the season. He again secured a position with a business house in Pittsburgh, but continued to play baseball at every opportunity.

Captain Anson offered Tener a position as pitcher on the Chicago White Stockings after having chanced a stroll into a small park where Tener was pitching. After playing on the Chicago team about three years Tener returned to the world in 1883-4.

Tener gave up baseball to go into business at Charleroi, Penn. From the time he quit baseball, nearly a quarter of a century ago, until last winter, Tener dropped out of the national game and politics. His recent visit to business and politics. His return was made when he helped the late William H. Locke to purchase the Philadelphia National League Club from Charles P. Taft of Cincinnati.

Although he has agreed to accept an election at the next meeting of the league in New York on December 3, Governor Tener declared he will not assume any duties that will interfere with his responsibilities as chief executive of Pennsylvania.

INTERNATIONAL RIFLE MEET
New York, Nov. 20.—A spring exhibition series between the New York American League and the Brooklyn National League teams was arranged today. The series is to consist of five games, on April 2, 3, 4, 8 and 11, all to be played at Ebbets' field in Brooklyn as the New York Nationals exhibition arrangements call for the use of the Polo grounds by the Giants during early April.

BROOKLYN'S NEW MANAGER FORMER STAR

According to Charles H. Ebbets, president of the Brooklyn club, Robinson signed a contract yesterday morning. The contract calls for one year, but Mr. Ebbets said it would be extended indefinitely if he should turn out a winning team next season. The reason "Jake" Daubert was not chosen was that the club desired a non-playing manager. It was the united opinion of the owners that the captaincy and managerhip would be more than Daubert could cope with. It was feared it would affect his playing of first base, an rather than take any chance a non-playing manager was picked.

Robinson hails from Hudson, Mass., where he was born about forty-five years ago. In the old American Association Robinson shone as catcher for the Athletics. He was later with Washington, where he and his bat tery mate, "Sadie" McMahon, starred. With the three time pennant winning Baltimore club, of 194, '95 and '96, Robinson became one of the leading figures in big league baseball. McMahon and Robinson became widely known as the "Dumpling Battery," both having a strong tendency to avoid rousing.

In 1889, when the Brooklyn and Baltimore clubs were consolidated under the eight club league arrangement, which dropped the Maryland city from the circuit, Robinson and McGraw were headed for Brooklyn. "Ned" Hanlon, manager of the Dodgers, turned McGraw and Robinson over to St. Louis club because of the large salaries attached to their services and the large supply of stars on hand. When the American league club was established in Baltimore McGraw and Robinson were together. They have been business partners in several enterprises, and for several seasons McGraw has counted upon "Robbie" to go south with the Giants' colts for spring practice and pay special attention to the young pitchers. On several occasions Robinson has been acting manager of the Giants.

New York, Nov. 20.—Wilbert Robinson, the new manager of the Brooklyn National League team, announced his training place for next season at a luncheon attended by officers of the Brooklyn club today. The "Rockies" will start for Augusta, Georgia on February 29, and the regular on March 1. The team will remain in the southern camp until March 25 and then will work its way north playing exhibition games and arrive home on April 1. Games will be played here with the New York and Philadelphia Americans and the Newark of the International League. It was stated that Governor Tener of Pennsylvania, who is slated to be the next president of the National League, had promised to throw out the first ball at Ebbets' field next season. Manager Robinson caught for Mr. Tener when the latter broke in as a pitcher.

Robinson said he would be on the lookout for several experienced big leaguers, one or two right-handed batters to alternate with the present left-handers in the outfield, and would follow generally the system of John J. McGraw and Ned Hanlon.

Nice, France, Nov. 20.—A rifle team from the United States yesterday (Utah) had a shooting contest today with the crack team of the Twenty-fourth battalion of Chasseurs and three teams from the 163rd infantry. The Americans had no difficulty in defeating the infantry teams, but the Chasseurs proved too strong, scoring twenty-three points to the Utah's sixteen.

AMERICAN WHO WON IN OXFORD MEET

England got another exhibition of American athletic supremacy in the annual freshman track and field meet held recently. Norman S. Taber, formerly captain of the Brown University track team and one of the foremost distance runners in America, and V. B. Havens, of Rutgers College, were the athletes who showed up well in their initial performance.

VANCOUVER MAY HAVE BIG ATHLETIC MEET

Vancouver, Nov. 20.—An all-round track and field competition, open to the leading athletes in Canada, will be inaugurated in 1914 if the recommendation of the Vancouver branch of the British Columbia Amateur Athletic Union is approved by the A. A. U. of Canada at the annual meeting of the parent body in Montreal on Saturday, November 22. It is proposed to hold the first all-round test on the Pacific Coast next year, as Vancouver has two athletes, Archie McDiarmid and John Cameron, who intend going after the world's all-round title.

Rev. A. E. Vort, who will represent the B. C. A. U. at the Montreal conference next week, will leave early in the coming week. He will take up the swimming question with the governing body, and will, as announced a few days ago, make application for the national boxing championships. Montreal and Halifax will also bid for the championships this year, while it would be a dull meeting if Toronto is not in line with a similar request.

CANADIANS WON HONORS YESTERDAY

New York, Nov. 20.—Canadian exhibitors carried off the honors at the afternoon session of the horse show in the contest of pairs of jumpers going over the hurdles abreast. Sarah Moore and Billy, the entry of Captain W. T. Rodden, of Montreal, and ridden by Major D. Douglas Young and Captain W. H. Bell of the Royal Canadian Dragoons, gave a splendid performance. They took the hurdles cleanly and worked so closely together that they seemed moved by one spring. They took the blue ribbon, winning over the Sifton entry, The Wasp and Elmhurst, ridden by Jack Hamilton and Captain J. W. Sifton, after a spirited contest. The decision for third place between the Glen Riddle Farm and the French team was also close, The Virginia and Willow King winning out for the Pennsylvania exhibitor.

That Was Strange
A young minister had gone to the home of his boyhood to preach. At the close of the service one of the deacons engaged the young preacher's wife in conversation. "It was a strange coincidence," said he, "that your husband's text was the one from which his father preached his last sermon in this pulpit." "Indeed," said the lady, "that was strange." "No," she continued, brightly, "that it was not the same sermon." "Oh, no," said the deacon earnestly, "his father was a very smart man."

AROUND THE CITY

Good Progress on Valley Road.

Hon. J. K. Flemming, who was in the city yesterday, said good progress was being made on the Valley Road, about 60 miles of steel now being laid. The section from Woodstock to Centerville had been practically completed to within a few miles of Centerville, where a bridge had to be built before it could enter Centerville. The section between Fredericton and Gasquet was also practically completed with the exception of the building of a bridge.

Tendered Novelty Shower.

A novelty shower was given last evening at the home of Ethel Brown, Clarendon street in honor of Mary Lang, who is soon to become a principal in an interesting musical event. A large number of young lady and gentlemen friends of the popular young lady of the North End were present and a number of nice gifts were received. Refreshments were served and the evening was very pleasantly passed with song, games and music.

Will Hold Conference.

A conference will be held today between the city commissioners and Mr. Mackenzie of the Dominion Coal Company with a view to coming to some understanding in regard to the coal pocket on the West Side. Mr. Mackenzie had a brief interview with the Mayor yesterday, when he said that the company was anxious to settle the matter as soon as possible so they could make arrangements for the winter. The city authorities owing to complaints about coal dust from the pocket blowing on to the passengers, have frequently discussed the question of making the company remove the pocket to some other part of the harbor.

POLICE INVESTIGATION CONCLUDED LAST NIGHT

Com. McLellan Decides no more Witnesses Necessary — Cross-Examines Chief Clerk Regarding Evidence Already Taken — Will Make Report of Inquiry to City Council.

The police investigation was brought to a close last evening and Com. McLellan stated he would prepare a report for the City Council. He stated he did not consider it necessary to call Mr. A., or other witnesses, as his report would show that the Chief Clerk was contradictory. Chief Clerk was on the stand last evening and the questions asked him reviewed the evidence already given. To the Commissioner he said he did not recollect being asked by the Commissioner shortly after his election if the officers loaded in hotels. Q.—Did you say to me, if you listen to everything told you on the streets they'll make you crazy? A.—I think I did say something like that. Witness remembered going into the matter of plans for the installation of police alarm boxes with the Commissioner. Q.—Was this matter ever gone into as thoroughly before? A.—Yes. The old council went into the matter and had a box set up in City Hall. Q.—Did you ever tell Pine the police officers were going to take action against him? A.—I think I spoke to him one time on the street. Q.—Did you advise the officers to take action against Pine? A.—I have no recollection. Q.—What did you mean when you said in your statement that the investigation had weakened the discipline of the force? A.—Just what I said. Q.—How did it weaken the force? A.—Well, for instance, you have been taking two men off their beats to attend the hearings. Who is the Head. The Commissioner asked a lot of questions as to what the Chief meant by his statement that the force had been weakened, and the Chief claimed that he had been interfered with and the policemen were uncertain whether the Commissioner or the Chief was their head. Witness said he still thought the force was efficient. Some little things were wrong. He could not be up night and day, and had to rely on his sergeants. Q.—What have you done personally to find out how things were going? A.—I don't think I should answer that question. Q.—Frequently, the Chief said he frequently went out in the night in different clothes and walked around to see how things were going. Q.—Do you believe your men obeyed all the rules and regulations? A.—According to this hearsay investigation some of the men did not obey them all. Force Was Overworked. The chief said that for fourteen years the force had had too much to do. In no other city did they have to work such long hours.

ACCEPT FINDING FREE BOOKS OF THE BOARD AND PENSION FOR WIDOWS

Shipping Federation Sends Word Decision of Conciliation Board Acceptable Signed in Few Days. J. E. Tighe, business agent of the Longshoremen's union, stated yesterday that the Shipping Federation had agreed to accept the decision of the Conciliation Board appointed to deal with the dispute between the shipping companies and the Longshoremen. The union has notified the department of labor that it has agreed to accept the award. It is expected that the agreement will be formally signed by representatives of both parties in a few days. The Conciliation Board has forwarded its report on the dispute between the Dominion Coal Company and the coal handlers' union to the labor department. The general opinion is that both parties will accept its award in this case also. The Marine Checkers' Union will hold a meeting this evening to consider the wage question. There was no conference between the shipping men and the checkers yesterday.

Trades and Labor Council will Ask for Act Providing these — Amendments to Present Acts.

At the meeting of the Trades and Labor Council held last evening there was a long discussion on the programme of labor legislation which it is proposed to submit to the next session of the legislature. One of the matters which will be brought to the attention of the government is that of providing free school books. The legislature will be asked to adopt an act providing for pensions for widows, so as to enable them to keep their family together and give their children an education that will fit them to become good citizens. The idea of the act is to preserve the home and obviate the necessity now imposed upon many widows of sending their children to institutions or turning them over to strangers. Minor amendments to the Workmen's Compensation Act and the Factory Act will also be asked. A committee was appointed to make arrangements for the meeting of the Trades and Labor Congress to be held here next year. Another matter dealt with was that of holding a series of entertainments during the winter, including a carnival at one of the rinks. The refusal of the city council to hold an investigation into the cause of the collapse of the building on Peter's street when several men were injured was again discussed and the opinion expressed that the city had better spend its money on such an investigation with a view to adopting regulations designed to prevent such accidents in the future than on a police investigation.

Next Year's Programme for Paving

Commissioner Agar is Already Giving Attention to Permanent Paving Work Next Season. Com. Agar is considering a permanent paving programme for next year. "It's rather tentative," said the Commissioner. "I may be elected to stop at home next year. But I think a programme should be outlined for the guidance of next year's council, and also because it will be up to the property holders to make first claims upon the city if they want to have their streets improved." The Commissioner said that in view of the streets which should have immediate attention was Mal street. A great deal of traffic went over this street and the portion of the roadway not paved was in bad condition. Among the other streets which the Commissioner thinks should have first consideration in a permanent paving programme are Chipman Hill, Charlotte street, between the Dufferin Hotel and Queen street, Orange street between Sydney and Pitt street, Prince street between Germain and Wentworth, North Side of Queen Square, Union street between Charlotte and Dock, the remainder of Gadsden street, King street east between Sydney and Pitt, Union street between Sydney and Camarthen, and Market Square. The portion of Water street paved years ago between Princess and Market Square needs to be graded again. Com. Agar stated that it was the intention of the council to move for an amendment to the local improvement act at the next session of the legislature, so that the city if it deemed it necessary, to pave a street might go ahead with the work and charge up half the cost to property owners interested, whether they wanted to pay or not.

TOLD BOY SCOUTS OF NEW BRUNSWICK

How James Gilchrist, Provincial Immigration Agent Carried on Missionary Work in Great Britain. A. B. Wilmut who was in the city yesterday to attend to various matters in connection with the work of the Provincial Immigration Office has received a letter from James Gilchrist giving an account of his work in the interests of immigration in Great Britain. Mr. Gilchrist writes that on his way across he met a Mr. Ashton who is prominently identified with the Boy Scout movement, and was invited by him to visit the Scout Farm and deliver a lecture on New Brunswick. The Scout Farm is a training school for cadets of good family. There they are given a good training in farming, such as will fit them for life in the overseas dominions. Mr. Gilchrist hopes that as a result of his lecture a number of the boys will be induced to come to New Brunswick. He thinks they would be a desirable class of settlers, as their parents would be able to purchase farms for them. In company with Mr. Bowdler Mr. Gilchrist has been delivering lectures in various parts of England. At the time his letter was written Mr. Gilchrist stated that they were booked to go to Scotland where they would deliver two lectures a night, illustrated with cinematograph pictures of the province.

Next Year's Programme for Paving

Commissioner Agar is Already Giving Attention to Permanent Paving Work Next Season.

Com. Agar is considering a permanent paving programme for next year. "It's rather tentative," said the Commissioner. "I may be elected to stop at home next year. But I think a programme should be outlined for the guidance of next year's council, and also because it will be up to the property holders to make first claims upon the city if they want to have their streets improved." The Commissioner said that in view of the streets which should have immediate attention was Mal street. A great deal of traffic went over this street and the portion of the roadway not paved was in bad condition. Among the other streets which the Commissioner thinks should have first consideration in a permanent paving programme are Chipman Hill, Charlotte street, between the Dufferin Hotel and Queen street, Orange street between Sydney and Pitt street, Prince street between Germain and Wentworth, North Side of Queen Square, Union street between Charlotte and Dock, the remainder of Gadsden street, King street east between Sydney and Pitt, Union street between Sydney and Camarthen, and Market Square. The portion of Water street paved years ago between Princess and Market Square needs to be graded again. Com. Agar stated that it was the intention of the council to move for an amendment to the local improvement act at the next session of the legislature, so that the city if it deemed it necessary, to pave a street might go ahead with the work and charge up half the cost to property owners interested, whether they wanted to pay or not.
