SCHOOL COMMITTEE. D. Ferguson, Wm. Murray and R. B.

The usual appropriations were made for the Society's Scholarships and for charitable purposes, and the sum of forty dollars was voted to 'he President to procure a challenge cup or medal for competition by the several curling clubs in the County of Northumberland.

The Scholarship fund referred to above amounting to \$120 annually, is intended to aid the children of members who may require assistance in obtaining a colle-giate education. There are two Scholarships, one of the value of seventy dollars a year and tenable for three years, open to members or the sons of members, and one of the value of fifty dollars open to the daughters of members of the Society.
These Scholarships are under the control
of a Committee to whom application
may be made through the Secretary of
the Society.

Grip's last cartoon represents the Hon. another marked "East York," the capital as will provide for their pros-"risky" performance being witnessed by perity and happiness in a far higher denumber of persons, among whom are seen the familiar countenances of leading cuniary. politicians. Grip says "the Hon. Alexander Mackenzie has resigned his seat as member for Lambton and intends accept-ing the nomination of his party for the constituency of East York. This move is accompanied with grave risk, but the political circus must have something sen-sational occasionally, like other circuses. It is quite possible that the Hon. Alexander, in making this desperate 'leap for life' may come short of the object aimed at, and an inch of a miss is as good—or

Annual School Meetings.

The annual School Meetings through out the Province are by law required to be held on the second Thursday in Jan. and on Thursday last the Ratepayers met for the purpose of performing the necessary business, in passing the accounts for the previous and making the necessary changes for the ensuing year. At the meeting in District No. 7, Parish

of Newcastle, held in the Temperance by Mr. Joseph Hays. Mr. R. A. Lawlor was proposed as chairman, but wished

To the Editors of the "Advocate."

Durham, Restigouche Co., Jan. 13, 1882.

DEAR SIRE—During a ramble the other day I called at a friend's house, and while there was handed a file of newspapers, among which I observed the "Miramichi among which I observed the "Miramichi Advance," a paper seldom seen in this section of the Province, and not very popular. In scanning its contents my attention was directed to a letter signed "More Anon," which opened the conversation with my host, and caused me to keep my ears openduring the rest of my rambles through the County. As I am one of those somewhat interested in political affairs, I thought it would be a good pastime for me during my trip, and so made it the subject of discussion would be a good pastime for me during my trip, and so made it the subject of discussion wherever I went, in order to ascertain as to how the public pulse was beating. Well, I went through two parishes, and among the names spoken of as likely to be in the field for the Commons, I did not hear any name more highly spoken of than that of John McAlister, Esq., and my opinion is that whatever the Parish of Addington falls about of making his election certain, (if he short of making his election certain, (if he should be in the field) the deficiency will be should be in the field) the denciency will be more than made good by the votes in Durham and Colborne. From the opinion conerally expressed, it seems that neither Mr. Haddow nor any other opponent of the present Government will stand any chance of success at the Dominion election. As a private citizen Mr. Haddow is well enough, but in this Country his career as a represenbut in this County his career as a representative is about terminating,—the people are tired of his determined opposition to the Macdonald administration, which does not agree with his stand as an "independent" at the last election; and in addition to this there is objection to that gentleman on acthere is objection to that gentleman on account of the personal insinuations indulged The Rink is to be opened with a grand carnival on the 31st January. A costumer is to be here with a lot of costumer is to be here. to think of again returning an opponent of the Macdonald Government, and especially

presentative. The public have, with few exceptions lost confidence in our present member, and those who do hang to him are bolstered up in the belief that Mr. Anglin's support in the lower part of the County is going to save him at the next election. These few interested friends were never more mistaken in anything, which they will find when the time comes. Your correspondent has visited some parts of Gloucester, and has reason to believe that Mr. Anglin washington, Jan. 10—Judge Porter to the comment of the county is the comment of the county is made to break up the most troublesome cough in an incredible short time. There is no remedy that can show more evidence of real merit than this Balsam for curing Consumption, Coughs, Colds, Asthma, Croup, &c.

The Guilleau Trial. pondent has visited some parts of Gloucester, and has reason to believe that Mr. Anglin will have all he can do to save himself from defeat, on account of his ill-judged opposition to the Government in everything. The people, as a rule, are satisfied with the policy of the Government with reference to licy of the Government with reference to building of the Canadian Pacific Railcost the country—as a Government work it would cost greatly in excess of the bargain made. Mr. Haddow promised to vote according to his convictions, but if his convictions and in the direction of burdening the rising generation, and of such a nature as to be an obstacle in the way of our obtaining the public improvements so much needed in various parts of the Country, then it would be better to leave him at home, where he will have ample time to ponder over the

HIGH SCHOOL. Newcastle, 16th January, 1882.

To the Editors of the "Advocate" GENTLEMEN.—An erronous impression with regard to the Statistics of the High School Department appears to be entertained by many ratepayers of this District.

The figures forwarded to the Education Office, Fredericton, are the following:—

23 23 16 12 Enrolled pupils, Average daily attendance, Per centage of enrolled pupils daily present on an average during Term,

during Term, 69 52

The attendance at present is less than that of the corresponding term in the above statement, and is due to the fact that all the pupils except one of Grade 10 and some of Grade 9 have left school, and their places have not yet been supplied by pupils having satisfactorily completed the subjects of Grade 8, (Course of Instruction for Common Schools.) Pupils for admission into the High School must come from this Grade, and clearly it must want for them.

I may add that only your Pupils have the prisoner's own admission of insanity, and he argued that the prisoner had that degree of intelligence, legal knowledges and moral sense which rendered him responsible for his acts. He called attention to the High School must come from this Grade, and clearly it must want for them.

I may add that only your Pupils have the rullings made by Judge Cox on law points. The only question was that of insanity, and he argued that the prisoner had that degree of intelligence, legal knowledges and moral sense which rendered him responsible for his acts. He called attention to sanity, but who had been 'tipspired' during a specified period of time, making him irresponsible for that the prisoner had that degree of intelligence, legal knowledges and moral sense which rendered him responsible for his acts. He called attention to the prisoner had that degree of intelligence, legal knowledges and moral sense which rendered him responsible for his acts. He called attention to the prisoner had that degree of intelligence, legal knowledges and moral sense which rendered him responsible for his acts. He called attention to the prisoner's own admission of instance and the prisoner had that degree of intelligence, legal knowledges and moral sense which rendered him responsible for his acts. He called attention to the prisoner had that degree of intelligence, legal knowledges and moral sense which rendered him responsible for his acts. He called attention to the prisoner had that degree of intelligence, legal knowledges and mo I may add that only rour rupils have passed into the High School SINCE NOVEM-BER, 1879. Your insertion of the above will oblige,

Your obedient servant, C. M. HUTCHISON.

The injured are: John C. Jacobs, Schator, injured slightly about the heal and thighs; Alfred C. Chapin, assembly member from Kings Co., ent about the head; Sydney P. Nichols, police commissioner, slightly injured; Mary Daniels, Sherwood House. George Cartis is unharmed.

Mr. Valentine, sr., was the only passenger who saw the impending

and run across the track when the locomotive plunged into the "Idle-wild." A small man who stood on the platform with Mr. Valentine, saw Regular size only 75 cts. the locomotive, and instead of jumping as Mr. Valentine did ran into the car. He must have been almost instantly killed. Lieut. Governor Barstow, of Vermont, was in the party of which the Valentines were members. He had left his car and was at the forward end of the train when the accident occurred.

then the accident occurred.

Here, in Our Own Territory. It can dimost be asserted that St. Jacobs Oil works wonders. Shortly before the New Year, when I visited my family in Mitchell, I found my son Edward, a lad jittle more than ten years old warm sich. than ten years old, very sick. He suffered with rheumatism, and so terribly, that he was perfectly stiff in his limbs, could not possibly walk and had to be carried from place to place. At once I sent for some St. Jacobs Oil, used it according to directions, and in a few days could see evidence of conand in a rew days could see evidence of con-siderable, improvement. On the tenth of this month I sgain visited my family and was at trished to find him well and hearty. He once more has fresh color in his face and can go to school again. Whenever the old trouble threatens to return relief is immedistely secured by the use of the celebrated St. Jacobs Oil. From sheer joy over this result I cannot withhold recommending St. Jacobs Oil to suffering humanity as a true benefactor. Charles Metedon, office of the Volksfreund, German paper of Stratford,

began his argument shortly after ten o'clock and was listened to with marked attention. Nothing like it has been seen or heard during the Guiteau trial. As Judge Porter reviewed the conduct of the prisoner and the conduct of his coursel in court, the pris way by a Syndicate, who very wisely con-sider it much better to be a party to a cer-sider it much better to be a party to a cer-tain expenditure in connection with this tain expenditure in connection with this unable to say anything that in any great work than to build it as a Government unable to say anything that in any

would be better to leave him at home, where he will have ample time to ponder over the great difference between his public pledges and his public acts. As I may again trouble you, I shall close for the present.

Yours.

RAMBLER.

"Prisoner is mistaken, your honor," said Judge Porter, "if he believes by his unseemly bawling he can prevent my voice from being heard by the jury. The puppet cannot be moved in such good time as when he sat with his counsel, and by his outbursts now have it dishearing the hangman's he is fast tightening the hangman's poose about his neck."

Judge Porter concluded his argument at 11,40, and Judge Cox then be gan reading his decision. He con-sidered the questions of jurisdiction and the legal test of insanity, and npon every material point his rulings were directly against the prayers of the defence.

Washington, Jan. 12.-Mr. Davidge began his opening argument for the prosecution before the jury in the Gui-teau case to-day, at 10 o'clock. He briefly referred to the leading legal aspects of the case, and commented on the rulings made by Judge Cox on law tean's plan, he remarked upon his greater fear of the mob than of law, and exclaimed that we must say to our shame this estimate had foundation. It rested with the jury to show the world whether Gniteau's opinion was well founded.

Guiteau made several interruptions, most of them irrelevant and simply abusive. Guiteau announced that he had prepared a long argument with which he desired to close the case. Judge Cox requested Mr. Scoville to examine it and decide to-morrow whether it contained any points he

The court adjourned.
Washington, Jan. 13.—Davidge conboard, was run into by the Tarrytown special train near Spnyten Duyvil Junction with the Harlem main line. The two rear cars, Wagner's drawing room cars, of the Chicago express, were telescoped and set on fire. Nine dead bodies have been recovered, and it is thought twelve persons were killed. About 500 persons were on the train, embracing noted men of both political parties. Spinney of the New York Times, is missing, and Senator Wagner is undoubtedly killed. The accident appears to have been due to the failure of a brakeman to signal the following train properly.

New York, Jan. 14.

The conrt adjourned.

Washington, Jan. 13.—Davidge continued his argument for the prosecution in the Guiteau case to-day. Guiteau apologized to Davidge for his denunciation of the latter but declined to withdraw anything he had said of Corkhill. Davidge dwelt upon the fact that the prisoner when on the stand has shown wonderful memory, logic, reason and intellectual ability, all tending to refute the theory of insanity. He reviewed that portion of the testimony bearing upon the prisoner's moral character as evidenced in his past life. "All this time" said counsel "no one accused him of insanity. In the estimation of his New York, Jan. 14.

The Times, whose reporter was on the Chicago express train leaving Albany on Friday afternoon, which met with disaster, says: It is the old story of collision and fire, the first due to imperfect signalling and the second to the use of coal steves to heat the railread ears, and both being the direct results of the greed of railroad directors. It is nothing short of a piece of criminal neglect that within the municipal limits of the city of New Testimated Albany on Friday afternoon, which met with disaster, says: It is the old story of collision and fire, the first due to imperfect signalling and the second to the use of coal steves to heat the railread ears, and both being the direct results of the greed of railroad directors. It is nothing short of a piece of criminal neglect that within the municipal limits of the city of New Testimated Sciences of the city of New Testimated Sciences of the most interruptions which were adreitly turned by the counsel "no one accused him of insanity. In the estimation of his triends and family he was sane enough for all transactions of life; but when his hand is red with blood, and outraged law claims him as a sacrifice on the altar of justice we first hear of insanity." During the argument Guiteau made constant interruptions which were adreitly turned by the counsel with telling effect against the prisoner. Reed begins his opening argument for the defence to-morrow.

DRESS GOODS,

which was brought to a stand. It is no less discreditable to the richest railroad corporation in the country that the loss of life attending such occurrence should be increased by the presence of coal stoves in its drawing room cars.

The fullowing are the names of the killed and injured at the railroad disaster last night. Dead: Webster Wagner, senator, aged 65 years, burned to death; D. L. Ransom, guest of the Hoffman House of this city; Miss Maud Brown, New York; Oliver Miss Miss Maud Brown, N

CONVERSATION between Dr. Cochburn of St. Andrew's, and D. H. Perkins, St. John, six years ago, in Justice Byron's Store, Campobello, N. B. Dr. (Q.) Were you up to see my patient spectral PRICES yesterday?
Perkins. (Ans.) Justice Byron told me

yon were attending a man who had consumption, and I had better go up to see him, which I did, and I left him a bottle of Dr. WILSON'S BRITISH COUGH BALSAM, and a potele of my ALLEVIATOR, to bathe over the luags; and will you be kind enough. Dr., to tell me the nature of his disease?

Dr. (Ans.) He lost his mother and two sisters in consumption and ho will soon follow them, and if you can save him it will be more than I can do, as he is failing fast. Perkins. (Ans.) I am happy to state that by the use of 4 bottles of the Balsam and 2 of Alleviator he has been restored to more than his usual health and strength, and can do as good a day's work as ever. His business is fishing, and for the past 3 years he has enjoyed neverther bust he has a record never the state. business is using, and for the past o years he has capityed perfect health by the use of Dr. Wilson's British Cough Balsam.

Wm. Hay, of Chatham, will tell you his case was similar to the one described above. Rev. J. E. Bill, of St. Martin's, will tell you that he vsiited Miss Kierstead in her sickness, after she had been attended by three doctors; that it was his conjugate by would sickness, after she had been attended by three doctors; shat it was his opinion she would never go out of the house except to be carried to the grave, and who was cured by two bottles of Dr. Wilson's British Cough Balsam. Her trouble was Spasmodic Broachitis. And now, I ask the public will you suffer one night coughing when there is a spendy so

out coughling.

INDIAN HERB OINTMENT Is the remedy that will cure Erysipelas. It has been well tested for 15 years, and I challenge the world to show me a case where it was used according to directions and did not affect a cure. And now I ask the sufferer, do you want to be cured in a few days, or are yon satisfied with the old treatment of a hundred years ago, to be painted with Iodine and use the lotton of lead, and then die as thousands de under that treatment. Space will only admit of two parties who were given up to die with Erysipelas in the head, who were treated as described above, and were cured in a few days by Perkins' Indian Herb Olntment, John Bayliss, Pictou, N. S., Patrick Lawlor, Guysboro Co., N. S. Any one desirous of obtaining further infor ration with reference to the above can drop me a card to St John, N. B., and I will furnish you hundreds of names sent to me for publication, where they had been cured of Erysipelas after they had been given up to die.

The above remedies are manufactured by

Neuralgia can be cured positively by using Perkins' cramp and pain alleviator.

[Food and Health.] Diphtheria.

ITS CAUSE, NATURE AND CURE.

There may be an objection to calling diphtheria a winter disease pure and simple, but there is no doubt that this disease where it occurs is more malignant in the winter than in the summer season. Dirhtheria is really the child of malaria, cold and want of nutrition. Its quick action in detroying life shows that it has a disorganizing influence on the blood and consequently on the vital principle. We may say it disintegrates, attacking with its poison more particularly

Diphtheria is an illness of the rich and the poor, since there is neglect of health-measures in the houses of either, which may lead to the same results, though from a different ori-

Stagnant air, malarial air particles coupled with a low or insufficient diet and supplemented by drafts, or any quick succession of change of temdiphtherial poison. It is the third New England Farmer says :combination which is required for it to attack the throat. This peculiar to lay out a little more work than low state of the temperature has the he can possibly do just at the very result of affecting the organs of the best time, and yet it is not unusual throat more particularly, the system to find ambitious, energetic men who

there in March, 1881. The disease attention at the same time. had been engendered and had been mostly fostered in the lower ward. which was built on a swamp filled in

by sawdust. But the houses of the rich are as liable to promote diphtheria, when the poison has once reached them, if they are kept in a humid low state, from want of fresh air. Unfortu-

sewerage are also causes of diphthe rial poison, so are those of decaying vegetable matter, exhalations from swamps; low living and want of nutrition are the next associates, and finally a poor nervous state of the

The Ludington epidemic was so during 1880 was 1,023. terribly disastrous to little children. that it was considered the right spot

found in persons who had died with diphtheris. The "microcoii" were found to have so increased that they had choked up the internal organs of little children, especially affecting the the fishermen will do about as well. spleen and kidneys, where the plant The canning of mackerel is rapidly was seen under the microscope, fre- extending, the number of cans reportquently to fill up and choke the blood ed last year being 6.960 and this year vessels. In ultimate cases the member of the hold of the lease of the to be full of the little "Microcoii." The researches of these medical men have been tried, and are generally conseemed to be of the most thorough demned as a failure. The catch of her-kind, and as a remedial agent, it ring is put at 24,440, but the herring

tives, and in diphtheria, as in other importance, showing returns diseases, the best preventives are a than double those of all the other fish -13 constant watchful care of your eries combined. The number of cans health. Not a timid fear of doing against 3,551,050 last year.—Ex. this and that, because it may injure you, but the following up of straightforward laws of health. Breathe nothing.

We may here clash with many a preconceived opinion in starting our we the highest temperature for every sures are no longer advocated, and the scene. It is expected they wi eliminating and tonic medicines, de- overtake them near Chia Pass. tergent gargles and applications, to-ingrifes, and have about eighteen hun-gether with a nourishing diet, are approved of.

To us it appears that fresh air is diluted with water, and the most Winau's shooting grounds now extend strong beef tea; warm baths made of camomile flowers; feet placed in plans prepared for an extensive shoot-ing ledge, which, it is said will be one of the largest and most handsome wraps soaked in hot vinegar round the stomach.

The juice pressed from raw beef, heated in a farina boiler and given ings of the same within the mouth. Ing trains. commended.

Diphtheria is a preventable disease, and when we know more of the conditions under which the health of human life can exist, and are inclined to listed to it and act accord ing to it, we shall have fewer epidemics such as those of dipht heria.

Planning in Farming.

A good farmer will look ahead of his work, but, he must plan intelli-lief of the sufferers by the Vienna ture, creates the fungus growth of gently to produce good results. The

having no strength, to resist it. Low have far more leisure than the lazy spirits and mental distress aid diph and shiftless. Intelligent industry theria-in fact, it is in every respect, rarely fails to bring a reasonable de a negative disease, and consequently, gree of success. The difficulty with like all negative poisous, rapid in many farmers is, that they do not ction.

The term" diphtheria" was applied and are rather crowded along by it. to this throat disease by Bretonneau always a little behind. Their fault in 1821; from this term diphtheria is not so much the undertaking of too has originated, relating to the forma- much, as the failure to so lay out tion of a false membrane in the their work that one operation shall throat, analogous to that which not necessarily crowd upon another. characterizes the throat in croup. One must be able to look shead, and Recent researches have, however, in a measure realize what may be exestablished the difference between pected in the future. If one prothe two, showing that diphtheria is more of a constitutional disease.

The throat becomes affected as the a good deal of time will be required poison, which no doubt originates in tending it, especially during the in the blood, is breathed out, and so season when weeds are plenty, also quick is the action of this poison that at harvest time. Now if he puts in death often occurs within forty-eight several acres of roots which will rehours. If the larynx of the throat is attacked the danger is very much will need all his attention, one crop greater, as the patient is suffocated; or the other must suffer, and possiin other cases exhaustion or paralysis
bly prove a failure. If a farmer Tho has about all he can do in secur-This disease mostly appears as an ing his bountiful hay crop at the proepidemic, showing that the breath of the patient carries the poison further. branch out a little and raise an acre and also that local causes develop it.

It has been proved that low, damp because he has read of large returns and swampy neighborhoods develop from strawberries, and plants land diphtheria as an epidemic ia its most without planning for plenty of extra malignant form, and this was most help in picking time, he will be strongly shown by the epidemic in Ludington, Michigan, which occurred his strawberries, for both will require

Deferred Matter.

R. R. Accident.

A despatch of the 2nd instant, gives the following particulars of the accident on the Boston & Maine R. R.:

"The regular Portland train leaving Boston, on the Boston & Maine railroad"

"The regular Portland train leaving Boston, on the Boston & Maine railroad"

"The regular Portland train leaving Boston, on the Boston & Maine railroad"

"HE Subscriber has opened a FIRST CLAS TAILORING ESTABLISHMENT in the Shop formerly occupied by Mr. P. H. Ans lead, near Letson's Scales, Water Street Chatham. nately few houses are built with a Boston, on the Boston & Maine railroad thorough draft, and the air becomes stagnant within their walls; it is exhausted of oxygen, and divitalized, ready to transmit anything of a The train consisted of one baggage ready to transmit anything of a vitiating character. As soon as an evil or low smell is felt in a house, it should be seen to; not only on its own account, but because it will certainly develop into something worse. One unknown man was killed, one or two seriously injured, and some 60 others more or less bruised.

The train consisted of one baggage car, one parlor car, two passenger cars, and two engines, all of which went through the bridge except the engines. One unknown man was killed, one or two seriously injured, and some 60 others more or less bruised.

ENGLISH & CANADIAN CLOTHS if occasion offers, and malignant air The cars caught fire, and were comparticles are associated with it. It is not only that we suffer from an impure state of the atmosphere, but we are living in a medium of danger that will foster any disease brought cluding the cost of the bringe, at Cloth Purchased elsewhere will be o it. \$30,000. An inquest willbe held on the body of the man killed.

Immigration Statistics.

During the year just passed the total number of immigrants which arrived at Ottawa agency was 1,342, consistfinally a poor nervous state of the system, such as is often brought children. Of this total, 1051 had about among well-to-do people by a reached Canada by way of the St. peculiar indulgence of living in closed rooms and on small diet.

The latest researches in America and personal control of the The latest researches in America point out the diphtherial poison as that of a vegetable growth in the human body, called "microcoii."

The last light was thrown on it by the lecture of Prof. Horatio C. Wood, before the Academy of Naphram and Sciences Philadelphia who wood, before the Academy of Natural Sciences, Philadelphia, who start Sciences, Philadelphia, who shad worked in connexion with Dr. Henry F. Formad, to trace the diphtherial poison to its true origin.

Boston is to have a statue of Garto bring from it the poison as it was field, to cost not less than \$10,000.

PRINCE EDWARD ISLAND .- Accord. ing to the Charlottetown Patriot the Island mackerel catch has this year been only half as large as it was last year. The Norwegian gill nets for cod, recommended by Professor Baird, was pointed out that inoculation fishing was not so vigorously promight do for diphtheria what it is supposed to do for smallpox.

for the approaching cold weather. Our stock is too varied for enumeration, and our prices are lower than any house in this Province.

SUTHERLAND & CREAGHAN. Wholesale & Retail. Newcastle, Oct. 11, 1881.

THE BEST AMERICAN OIL IN THIS MARKET. This is the very highest grade of oil in every particular, colorless as spring water, stands a fire test of 150 degrees. Perfect burning qualities, odorless and does not crust the wick Be sure and ask the party with whom you deal for "HOME LIGHT" Oil, and if they tell you they have an Oil just as good, let it slone; for you may be sure they want to sell you an inferior Oil, enabling them to obtain a larger profit. All reliable dealers take pride in selling "HOME LIGHT" Oil, and never try to palm off an inferior Oil on their customers
