VERY PRETTY SEPT. WEDDING

St. James' Church the scene of a Popular Wedding Yesterday.

STOTHART—BELL.

Pretty Decoration.—Fashionable Assemblage—Congratulations and Rice.

St. James' Presbyterian church, Newcastle, was the scene of a very pretty wedding yesterday at eleven thirty o'clock when Mr. George Gilmore Stothart and Miss Annie Isabel Bell were united in the bonds of matrimony.

The church was elaborately decorated for the occasion with cut and potted flowers, greens and palms. The bride who was attired in a handsome gown of green and purple shot silk with trimmings of Persian and Point lace, and green polo hat to match and carried a shower bouquet of white roses, entered the church on the arm of her father, Mr. W. H. Bell, the choir singing an appropriate hymn. Miss Ida DeRoos who was becoming attired in a gown of shot silk with feather toque to match and carried a shower bouquet of carnations, acted as bridesmaid while Mr. Will Stothart supported the groom.

The ceremony was performed by Rev. Mr. Rainnie, the bridal party standing beneath a large floral bell suspended from the ceiling. The bride was given away by her father.

Mr. C. H. F. Bell, brother of the bride and Mr. Allan Ferguson acted as ushers. After the ceremony the bridal party and guests drove to the depot where the happy couple took the Ocean Limited amid showers of good wishes and rice for a trip to St. John, Boston and other cities.

The evening in which the bride is held here is evidenced by the many handsome and costly gifts.

VERY SAD SUDDEN DEATH.

Mr. F. R. Dalton Expired Suddenly Monday Night.

The town was shocked yesterday morning when the sad intelligence was spread about that our popular druggist, Mr. F. R. Dalton, had died suddenly the previous night.

Mr. Dalton was one of Newcastle's most popular and successful young men, and it was indeed a shock to his numerous friends to hear of his sad death.

The deceased had not been enjoying the best of health lately but was able to attend to business as usual. He was about town Monday evening and was as cheerful and bright. Shortly after going to his home he took suddenly ill and before medical aid reached him, expired. He was 27 years of age.

The bereaved family have the heartfelt sympathy of the entire community. The funeral will take place from his father's residence, Pleasant street, this morning at 9 o'clock.

I. C. R. EXHIBIT AT TORONTO

Was one of the Striking Features of the Fair.

ARTISTIC DISPLAYS

Designed by the Commissioner of the New Brunswick.—Fine Pictures.

The Intercolonial Railway of Canada's exhibit at the Canadian National Exhibit, Toronto, was contained in two rooms of the old Art Gallery, one 30x30 feet and 20 feet high with the light admitted from the top and the other about 15 feet square. The larger room was devoted to the display of big bromide pictures, more than 6x4 feet in area, made from photographs of actual shooting and fishing scenes, the bold and beautiful coast and forest landscapes along "The People's Line" from Montreal to the winter ports of the Atlantic, and the Prince Edward Island Railway.

There are two trophies of the hunt in the way of the big game animals and fish which abound in the region traversed by the road, including moose, caribou, deer and bears; and in the smaller room are the tanks for "Live sea Trout, from New Brunswick.

The treatment of the Intercolonial section of the old Art Gallery for the arrangement of its display is a new and striking feature of the Exhibition. The dominant idea with the artist, Fishery Commissioner Smith of New Brunswick, to whom the work was entrusted, was to produce bold, rustic effects. Rough Hemlock bark has been used to entirely cover the walls and ceiling of the big room, with the exception, of course, of the light apertures. There is a low wainscoting, the face of which is placed some six inches out from the line of the walls. The latter are covered with flat bark to a height of about 15 feet from the floor, where a nine inch bark cornice runs all around the room. Above this is an entablature, thirty inches deep, composed of bark, showing, in alternate sections, the rough and smooth sides, and surmounted by a nine inch belt course, above which is a four foot lean-to covering the original cove of the ceiling, which is relieved at the light slots by an eight inch belt course.

The middle square of the ceiling, bounded by the inner edges of the light slots, has an inverted pyramid of bark, six feet square at the base, the apex of which is ornamented by a symmetrical natural cedar burl, twenty two inches in diameter. From the base of the pyramid to the edges of the light slot there is a covering of flat bark which is finished around the slot by a belt course, eight inches wide.

A very effective transparency of rich coloring, the big feature of which is the Intercolonial's well known Moose Head emblem, is in the centre of the east end of the room, near the ceiling. This bears the words "The Intercolonial, the Fast Line, the People's Railway."

The large doorways entering from the main roundabout and Natural History room, are formed of bark, so as to look as if their jans and heads were composed of 14 inch round Hemlock logs, with the heads notched down upon the ends of the jamb logs.

In the two eastern corners, the wainscoting has been carried round semicircular lockers of bark for storing the surplus stock of advertising literature.

In the centre of the room a fountain jets forth its cooling sprays. It is of cement-stone, with water surface six feet in diameter, bordered by green lawn sodding. The basin is enclosed in Hemlock bark 20 inches high from the floor to the sodding. Luxurious green plants placed in the earth of the border, add materially to the effect of this pretty creation, which is protected by a rustic three inch cedar rail composed of pieces of that tree selected with the required natural curve.

The smaller room is treated so as to produce a very realistic rock tunnel effect. It is not one of the usual pieces of rock work made of cloth or paper and colored, but contact with it shows it to be firm and solid, and as hard as stone, the facing being of colored Plaster of Paris. It is ten feet high and six feet wide. It leads from the big room to the main vestibule of the building and the plate glass front of four live fish tanks relieve its rough frowning facing—three on one side and one on the other. In the top sea Trout from New Brunswick crowded in front of them daily congested than before any grounds.

As a whole, the Intercolonial exhibit is one which will be remembered because of its artistic merits. Mr. A. E. B. Staff, is in charge.

BIG GAME SEASON OPENS

Sept. 15th The Opening Day in New Brunswick.

SOME PARTIES HERE

Many More Expected This Week.—Good Game Prospects.

The big game season opens Friday. Already several parties of Americans have arrived here and have proceeded up river to the big game haunts.

Carl Rungers the celebrated animal artist of New York, who has several times visited the Miramichi is here again and is in for a long cruise with Guide David Manderville.

The following is the list of the gentlemen with their guides who have gone up to be on the ground when the season opens:

Carl Rungers, E. J. N. Y. Guide, David Manderville, Remond, Hunting grounds, North Br. on Reston. Mr. and Mrs. M. J. Pandexter, Reading, Pa. Guides, Arthur Pigeon, John Davis, Hunting grounds, Big Bald Mountain.

W. T. Sterling, London, England, Guide, Carl Berens, Hunting ground, North Branch big Seville.

Manderville, Duncan Manderville, Dr. S. W. Dougherty, Dr. W. E. Hughes, Philadelphia Pa. Guides, Howard Manderville, Jas. Warren, Hunting grounds, Dangarash.

Dr. Heber Bishop, of Boston, a well known big game hunter, will arrive in the city this morning on the Boston train. Along with him is coming Harry B. Coe, chief clerk in the passenger department of the Maine Central at Portland. Dr. Bishop will also be accompanied by the manager of the American Biograph Co., who is bringing along with him a complete outfit for making moving pictures. From St. John the party will go to Moncton, and from there will proceed north to Miramichi, where they will spend some weeks. They will endeavor to get a number of pictures of moose and other large game moving about in their natural haunts. These will be used for magazine illustrations and for exhibition purposes. Dr. Bishop is himself a magazine writer of some note. When the season opens the party will spend a few weeks hunting, but with guns, before returning home.—St. John Sun.

THE GAME LAWS. The big game season will open Friday Sept. 15th, and then until the last day of November it will be permitted each licensed hunter to shoot in one bull moose, one bull caribou, or deer, with this restriction, that the game must be taken between an hour before sunrise. Dogs and artificial lights may not be employed in the hunt, except that the former may be used to expel wild animals from cultivated fields.

The game laws of the province protect the beaver until July 1, 1907, or partridge until the fifteenth of the month after which the season will be the last of November.

Woodcock and snipe it kill from Sept. 1 to Dec. 1.

The law prohibits the use of punt gun or sawed off shot gun or any other illegal weapon.

The killing of a fish sparrow is prohibited. The killing of a bird is prohibited.

Hence every effort should be made to keep it "up" and growing from birth. No let up because it is too much effort to get it back. It is less effort to draw a wagon a given distance if constantly in motion than if stopped and started every once in a while.

will keep your hogs "up" and growing because it gives a better appetite, thereby increasing the digestive fluids, and these dissolve and assimilate more food and at a profit. It keeps them in tip-top health enabling them better to resist disease, thereby making a firmer flesh. It gets them to market weight much sooner, saving feed bill. Nothing better for runs. Equally good for Horses, Cattle and Sheep. Nothing injurious in it and can stop feeding it without harmful effects. ## A Handsome Booklet.

A new publication entitled "Montreal and Quebec" has just been issued by the Grand Trunk Railway system for general distribution through the several channels at their command throughout the world. The booklet contains a combination of interesting facts about the two most historical and interesting cities of the Dominion, and there are forty pages of good reading matter profusely embellished with half-tone illustrations from photographs of scenes recently taken of the principle sights and attractions in the cities, and in addition short chapters are given descriptive of Montmorency Falls, the miracle-working shrine of Ste. Anne de Beaupre and the attractive features of Levis.

## I. C. R. EXHIBIT ATTRACTS ATTENTION

A Fine Display at Toronto Fair—Designed by D. G. Smith

Daily since the opening of the exhibition the rooms, in the old art building, in which the display of the Intercolonial Railway of Canada is situated, have been thronged with admiring visitors who fully appreciate what the Intercolonial is this year doing to place before the people of Canada a correct conception of the wonderful opportunities offered the tourist and sportsman for recreation, hunting and fishing along the route. This railway with its seventeen hundred miles of steel, stretching from Montreal, eastward along the southern shore of the St. Lawrence, across the Gaspe Peninsula, down through New Brunswick to Moncton and St. John, then on through Nova Scotia to Halifax and the Sydney, traverses a country rich in beautiful scenery and abounding in fish and game.

To one who has never visited the Maritime Railway is a revelation. There is no monotony of scene. Glimpses of farm life, thriving cities and villages, primeval forests, rivers, lakes, streams, mountains, hills and valleys succeed each other so quickly as to almost make the traveller wonder where he is. This is as well the sportsman's paradise. In forests, as yet unmarred by the woodman's axe, roam unmolested the lordly moose, the supple caribou and graceful deer. In the lakes, streams and rivers salmon (the king of fish) trout and bass await the skill of the angler. The numerous bays

and inlets afford splendid opportunities for wild fowl shooting. The excellency of the train service is acknowledged generally by the travelling public. Two splendidly equipped trains, the Maritime Express the year round, and the Ocean Limited, during the tourist season, run between Montreal, St. John, Halifax and the Sydney. Of the exhibit itself too much cannot be said. The designer, D. G. Smith, fishery commissioner of New Brunswick, deserves credit for what he has accomplished. Immediately on entering the building the visitor passes through a rocky tunnel, along the sides of which are placed tanks with plate glass fronts, in which large New Brunswick sea trout swim about as contentedly as the fish in their native streams. Leaving the tunnel one enters the main exhibit, a large room done altogether in natural hemlock bark, the walls of which are hung with splendid specimens of mounted moose, caribou, deer, salmon and trout. Immense photographs of hunting and fishing scenes and tourists, resorts are also shown. In the centre of the room is a large fountain, also finished in bark, and surrounded with a border of grass and growing plants, while along one wall a magnificent New Brunswick black bear stands guard over its foster child, a tiny cub, christened "Little Johnny Bear," from its resemblance to that character in Seton Thompson's stories. —Toronto World.

## JAPANESE ANGRY.

Are Not Pleased With Peace Terms and Made Protests.

Tokio, Sept. 6 (delayed in transmission).—The first turbulence attendant upon the popular anger over the terms of peace arranged with Russia took place today. A mass meeting to protest against the action of the government was called to take place at Hibiya Park but the metropolitan police closed the gates and attempted to prevent the assemblage of the people. The municipality protested against the action of the police and finally the gates were thrown open and a large crowd gathered and voted in favor of resolutions declaring the nation humiliated and denouncing the terms upon which the treaty of peace was arranged. The crowd was serious in its conduct rather than angry and the police handled it discreetly. The gathering dispersed in an orderly manner. Later on, however, a crowd attempted to hold a meeting in the Shintomi Theatre and the police dispersed it. A portion of the

crowd then proceeded to the office of the Kojumen Chibun, the government organ, and began hooting. The employees of the paper, armed with swords, appeared at the door of the building and checked the attack and the police again dismissed the crowd.

It was thought that the trouble had passed, when suddenly a portion of the crowd made a rush at the building, hurled stones and damaged some of the machinery. Several persons were injured during the attack, but the police eventually cleared a number of the rioters. The disorder is not general and the situation is not serious. Similar meetings were held at Osaka, where the government was asked to resign. General sentiment throughout the country seems to favor reactionary measures, but it appears clear that the majority of the people will eventually accept the result of the peace conference, however disappointing it may be.

### SIR JAMES WATSON'S OPINION.

He says that the commonest of all disorders, and one from which few escape is Catarrh. Sir James firmly believes in local treatment, which is best supplied by "Catarrhazone." No case of catarrh can exist where Catarrhazone is used; it is a miracle worker, relieves almost instantly and cures after other remedies fail. Other treatments can't reach the diseased parts like Catarrhazone because it goes to the source of the trouble along with the air we breathe. Catarrhazone is free from cocaine, it leaves no bad after-effects, it is simply nature's own cure. Accept no substitute for Catarrhazone which alone can cure Catarrh.

'Say, paw,' queried little Johnny Peck, 'why do you wear whiskers? Haven't you any chin?'  
'I guess not, no son,' replied Peck. 'Your mother seems to have it all.'

### A BILIOUS HEADACHE

Is one of the meanest things in the world. To prevent biliousness use Dr. Hamilton's Pills which keep the system clean pure, regulate the bowels, give tone to kidneys and Liver. You'll never have a headache, you'll never have a sour stomach, but you will have vigorous lasting health by taking Dr. Hamilton's Pills, 25c. per box or five boxes for one dollar.

Are you not aware, said the kind lady, that there is something dignified about honest labor?  
Yes, ma'am, answered the un-laudered hobo. I have heard my fellows wot stood on their dignity, but I'm saterside t' set on mine.

The man who sold me this carpet, said Homer, as he paused to take a fresh hold the club he was wielding, told a deliberate lie.

I asked his good wife who was bossing the job.  
He told me, explained Homer, that it couldn't be beat.

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven Catarrh to be a constitutional disease and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials.

**HOW TO GET CONSUMPTION.**  
Ninety per cent. of the "lungers" contract consumption by allowing power of resistance to fall so low that a favorable condition for the development of the bacilli is provided. In a healthy system consumption can't take root. But where there is weakness and debility, there you find tuberculosis. For developing strength and building up the weak, nothing equals Ferruzone. It makes the blood nutritious and the nerves enduring. The way it converts food into nutriment, the appetite it gives is surprising. Just what the man verging on consumption needs,—that's Ferruzone. If tired and weak don't put off. Fifty cents buys a box of fifty tablets—at all dealers.

No, sir, said Meeker, I do not permit my wife to have her own way about anything.

The undersigned have received from Mr. Nash of Maine the agency for New Brunswick for his famous trout mezzc work. A trout mezzc is one half the fish set mounted upon a convex elliptical panel as to stand the fish out in bold relief, giving the effect of an oil painting or whole mounted fish, with the real thing to show at your prowess. The process of preserving fish in this artistic way was discovered by Mr. Nash in 1900 and patented by him.

## WCTU OF New Brunswick.

## TENTH ANNUAL CONVENTION.

The tenth annual convention of the New Brunswick W. C. T. U. met Tuesday morning in Union Hall, North End. Mrs. C. A. Lindow, of St. Stephen, president, called the meeting to order, and the crusade hymn, “White Ribbon Tidings,” was sung by the delegates present. A Scriptures reading from I. John x. by the president was followed by Crusade Psalm 146. Prayer was offered by Mrs. S. McLeod, and the delegates joined in the Lord's Prayer in concert.

Mrs. Catherine L. Stephen, was introduced and made a member of the convention. She made a few appropriate remarks in reply. An address of welcome was next delivered to the convention by Mrs. Lindow.

Roll call being made, it was responded to by twenty-five delegates. Miss I. M. Green, of Perth, and Miss I. M. Smith, of St. John, were introduced to the meeting.

A favorable report from the Sunday school work was read by Mrs. A. Asker, corresponding secretary. The subscriptions to the Lesson Leaves had been kept up, and about 1,000 copies were distributed per quarter, and greater interest has been manifested in the temperance work in schools.

Continuing with the reports, that from the work among sailors was read by the secretary, and, being incomplete, was laid on the table to be filled out. Mrs. L. Seaman, asked that the \$10 given to this work be added to the report.

The next report was that on narcotics, read by Mrs. J. Troy, of Newcastle, which is being discussed at this afternoon's session, when Dr. Inch's answer to a letter asking for the introduction of pledge cards

## PAINFUL PERIODS

## CANADIAN WOMEN FIND RELIEF

The Case of Ellen Walby is One of Thousands of Cures Made by Lydia E. Pinkham's Vegetable Compound.

How many women realize that menstruation is the balance wheel of a woman's life, and while no woman is entirely free from periodical suffering it is not the plan of nature that women should suffer so severely?

Thousands of Canadian women, however, have found relief from all monthly suffering by taking Lydia E. Pinkham's Vegetable Compound, as it is the most thorough female regulator known to medical science. It cures the condition which causes so much discomfort and robs menstruation of its terrors.

Ellen Walby, of Wellington Hotel, Ottawa, Ont., writes: “Your Vegetable Compound was recommended to me to take for the intense suffering which I endured every month and with which I had been a sufferer for many years getting no relief from the many prescriptions which were prescribed, until, finally becoming discouraged with doctors and their medicines I determined to try Lydia E. Pinkham's Vegetable Compound, and I am glad that I did, for within a short time I began to mend and in an incredible short space of time the flow was regular, natural and without pain. This seems too good to be true and I am indeed a grateful and happy woman.”

Women who are troubled with painful or irregular menstruation, should take prompt action to ward off serious consequences, and be restored to perfect health and strength by taking Lydia E. Pinkham's Vegetable Compound, and then write to Mrs. Pinkham, Lynn, Mass., for further free advice. Thousands have been cured by so doing.

in schools was read. A number of unions reported good work along the line of meeting, contributions, petitions and distribution of the Union's act, as well as occasional prosecutions.

Miss Simpson, of Fredericton, superintendent of the work at fairs followed and told of the difficulty experienced in getting room for the Union booths. Mrs. H. Sprague, told of the opposition encountered from others deals in the same lines at the Exhibition here.

An address was then delivered by Mrs. Seymour, on the “The Abundant Life,” How to Get It and How to Use It,” accompanied by a Bible reading from I. John x. and Romans xix.

The hour of noontide prayer was led by Mrs. Weyman, of Millstream after which, as some time remained the report on scientific temperance came before the meeting, and Superintendent Mrs. S. McLeod, Newcastle, read reports from several unions and told of the good work done in the schools along the lines of scientific temperance. This closed the session.

## WEDNESDAY.

This morning's proceedings of the New Brunswick W. C. T. U. convention began at 9 o'clock with the singing of the hymn, “Someone Will Enter the Pearly Gates,” followed by prayer offered by Mrs. Colter of Fredericton.

Mrs. Walter Cahill of Sackville, then gave an instructive talk, entitled “Bringing in the Tithes,” illustrating her remarks by a Bible reading from Malachi iii and x.

At the conclusion of the reading Mrs. McLeod, the vice-president, led the meeting in prayer, being followed by Mrs. Howard Sprague.

The president now came to the chair, and the business of the meeting was resumed, the various reports being read by the superintendents of the departments. First came the report, read by Mrs. Seymour, of the evangelistic and all work. Reports were read in detail from several unions, general good work being reported. Under the auspices of the various unions, gospel temperance sermons have been preached, comfort bags have been filled and mothers' meeting held, while a large amount of good literature has been distributed in the homes of the sick and poor as well as in the almshouses, hospitals and like institutions.

## THURSDAY.

The session of the Woman's Christian Temperance Union opened with a consecration service led by Mrs. McLeod, Newcastle, at 9 a. m.

The reports of the superintendents were then read. Mrs. McLeod of St. Stephen read the report of work done in aid of the Francis Willard home at Toronto.

Mrs. S. Hayden Shaw read an interesting report of the work among lumbermen and raftsmen. Mrs. Cotter read a report on the work among the militia.

A report on systematic giving was read by Mrs. Charlotte M. Lawson and on the Dominion World's Mission by Mrs. A. G. Adams.

The following contributions to the mission have been received.  
Campbellton \$10.00, Woodst. ck. \$3.00, Fredericton \$1.00, Lower Millstream, \$1.00, St. John, West \$1.35, St. John, North \$1.00, Chatham \$2.00, Richibucto \$2.05, Dalhousie \$2.20, Moncton \$1.10, St.

THE GREAT QUESTION  
 The Great Question  
 The Great Question  
 The Great Question

Fond Young Mother (with firstborn)  
 Now, which of us do you think he is  
 like?  
 Friend (laughingly)—Well, of course,  
 intelligence has not really dawned in  
 his countenance yet, but he's wonder-  
 fully like both of you!—Punch.

Easy When You Know How.  
 "It's remarkable," said the doctor,  
 "how much excitement a baby or some  
 equally small object can cause when it  
 is lodged in a baby's nose. This morn-  
 ing a frantic mother rushed into my  
 office and implored me to extract a bead  
 which her baby had put into its nose.  
 Improvising a suitably bent probe from  
 a hairpin I borrowed from the hyster-  
 ical woman, I succeeded in removing  
 the bead in less time than it would take  
 to count six. And the first thing the  
 woman said was:  
 "Why, I could have done that my-  
 self!"—New York Press.

No Pleasure in It.  
 Mrs. Chase—Oh, I wish I like to go to  
 that store! It's so unsatisfactory to do  
 our shopping there.  
 Mrs. Shoppen—Why, they have every-  
 thing there.  
 Mrs. Chase—That's just it. No matter  
 what you ask for, they can't suit you  
 right off.

Very queer.  
 "Well, well, that's a funny thing."  
 "What is?"  
 "Miss Passy is an old maid be-  
 fore she married. I know that her hus-  
 band is dead, but she has become a young  
 widow."

As to KITT's complexion.  
 "Maud—Have you seen Kitt Garling-  
 ton's complexion? It's nothing but an  
 imitation on the face of it."  
 Irene—Well, for her own skin.

It seems to me.  
 "There's nothing like perseverance,  
 it wins out in the long run."  
 "Not always. I know you ever see a hen  
 in a porcelain egg—Brooklyn Life.

Might be in some.

**FIFTY CENTS**  
 IN some conditions the  
 gain from the use  
 of Scott's Emulsion is  
 very rapid. For this  
 reason we put up a  
 fifty-cent size, which is  
 enough for an ordinary  
 cough or cold or useful  
 as a trial for babies  
 and children. In other  
 conditions the gain is  
 slower—health cannot  
 be built up in a day.  
 In such cases Scott's  
 Emulsion must be taken  
 as nourishment; a food  
 rather than a medicine.  
 It's a food for tired and  
 weak digestions.

One of the most interesting  
 comparisons.  
 For close upon a century, says The  
 London Express, Britain has enjoyed,  
 undisputed, the supremacy of the  
 sea won for her by Nelson's glorious  
 victory at Trafalgar ninety-nine years  
 ago. Nothing is more remarkable  
 than the complete revolution which  
 naval construction and naval warfare  
 have undergone in the intervening  
 years. If the great Admiral's fleet  
 could be restored as it was in 1805  
 a single cruiser would blow it out of  
 the water in an hour without ever  
 coming within range of its guns.  
 Steam propelled vessels were, of  
 course, unknown in Nelson's time,  
 and the issue of a battle depended to  
 a great extent upon seamanship and  
 the vagaries of the wind.  
 The range and destructive power of  
 the guns were then so small that of-  
 ficers and men were often killed by  
 rifle fire from picked shots placed in  
 the enemy's masts, and, as all know,  
 Nelson himself met his death in this  
 way. In modern naval warfare a de-  
 cisive battle may be fought, as at  
 Chancellorsville, without the combats  
 coming within four miles of each  
 other.

If we compare the navy at the com-  
 mencement of the nineteenth century  
 with the navy of to-day, the follow-  
 ing interesting comparison is ob-  
 tained:

	1800	1850	1900
Number of ships	150	471	471
Tons	481,000	1,867,100	1,867,100
Guns	24,500	137,000	137,000
Men	13,000	137,000	137,000
Cost	\$20,000,000	\$20,000,000	\$20,000,000

The actual average number of guns  
 to each ship, it is interesting to note,  
 has fallen from fifty-five in 1805 to  
 about fifteen this year. In striking  
 contrast to the increase in the range  
 and destructive power of the modern  
 gun. Comparing Nelson's flagship  
 Victory with the newest 16,000 ton  
 battle ship of the King Edward VII.  
 class, it will be found that while the  
 Victory's heaviest shot was sixty-  
 eight pounds, the twelve-inch guns of  
 the King Edward VII. will fire a pro-  
 jectile weighing 880 pounds.

With the invention of armor plating,  
 the first of which was made for the  
 Crimean War, the cost of warship  
 construction has increased enormous-  
 ly. A 100-gun man-of-war in Nel-  
 son's time cost £100,000. A modern  
 ship, like the King Edward VII.,  
 without its guns and ammunition  
 cost the immense sum of \$6,842,000,  
 or twenty times as much as Nelson's  
 Victory.

Britain's naval predominance over  
 other powers was much more pro-  
 nounced five years after the battle of  
 Trafalgar than it is to-day. In 1810  
 the British fleet was the strongest in  
 the world. As far as gun power is con-  
 cerned, she could have made a good  
 fight of it had she met the combined  
 fleets of the world combined against  
 her. The strength of the fleet of that  
 year was as follows:

	Ships	Tons	Guns
Great Britain	150	481,000	24,500
France	150	481,000	24,500
Spain	150	481,000	24,500
United States	150	481,000	24,500
Other countries	150	481,000	24,500
Totals	150	481,000	24,500
Great Britain	150	481,000	24,500

If the ships and the guns of the  
 navy have undergone such a revolution  
 since Nelson's day, so also have the  
 men. So difficult was it to obtain  
 sufficient seamen to man the ships  
 toward the close of the eighteenth  
 century that bounties amounting to  
 as much as \$300 had to be offered to  
 induce men to serve. This naturally  
 led to the introduction of the rif-  
 fling and m-r-d-wells of every class.  
 There is a striking difference, in-  
 deed, between those of the upper class  
 and the lower class of the navy. The  
 supply of officers was seldom de-  
 ficient. So great, in fact, was the  
 competition among the upper class  
 to enter the navy that the names of  
 children were often entered in the  
 ship's books before they were out of  
 the nursery.

A striking instance was Sir Ed-  
 ward Hamilton, who was born on  
 March 12, 1772, and was entered as  
 midshipman on May 21, 1779, when  
 he was only seven years old. It is  
 stated that he actually took part in  
 an action on board his father's ship,  
 the Hector, one year later.

The famous Thomas Cochrane,  
 tenth Earl of Dundonald, whose name  
 is associated with so many daring  
 and successful exploits as that of a  
 most able naval officer, was born in  
 December, 1778, and entered as cap-  
 tain's servant when five years old.  
 Nelson himself entered the navy at  
 the age of twelve and immediately  
 went west on a voyage to the West  
 Indies.

In the ship's customs in those days,  
 whether in the navy or army, for  
 going gentlemen to serve their ap-  
 prenticeship as page to some man of  
 note in politics and work their way  
 up, partly by flattery and partly by  
 force, to the higher grades of their  
 profession.

A preliminary training land was  
 not so important for Nelson's officers  
 as it is to-day, when a preliminary  
 training land was not so important  
 for Nelson's officers as it is to-day.  
 How many meals did you  
 have on the voyage?  
 Jewell's (Cass of 1842)

## Why Red Rose Tea is Economical

RED Rose Tea has all the good points of two good teas and none of the weaknesses of any. You never drank a cup of straight Ceylon or Indian tea that could compare in strength, richness, delicacy and fragrance with the "rich fruity flavor" of Red Rose Tea.

Yet Red Rose Tea goes further and costs no more than either Indian or Ceylon teas alone.

Red Rose Tea is better than either Indian or Ceylon tea and is more economical because it goes further.

Clarence—In accepting me, Cordelia, you have made me the happiest of men.

Cordelia—I'm glad to know it, dear, but I hope you are not superstitious.

Clarence—No, darling. But why do you say that?

Cordelia—Because you are the thirteenth man to propose to me.

### PERMANENT CURE FOR BRONCHITIS

"My second daughter was troubled with bronchitis from the age of three weeks oftentimes I thought she would choke to death. Dr. Chase's Syrup of Linseed and Turpentine brought relief and further treatment made a thorough cure. This trouble used to come back from time to time, but the but now the cure is permanent."—Mrs. RICHMOND WITHEROW, Shubenacadie, Hants N. S.

He—Then I may hope?  
She—Well, you ask papa.  
He—Impossible.  
She—Why do you say that?  
He—Because I haven't been able to get sight of him since I loaned him the \$10 before Christmas.

### HEALTHY AND VIGOROUS

Mr. JOHN SHELTON, the well known bridge builder, of 101 Sherwood St., Ottawa, states—"I have used Dr. Chase's Kidney Liver Pills for kidney and liver derangements brought on by exposure, and find them better than any pill or medicine I ever used. They cleaned my system and made me feel healthy and vigorous, and better in every way."

Myer—"I wonder why young DeBullyon does not marry? He has all kinds of money."

Gyer—"Oh, I suppose he thinks a wife isn't necessary. Money you know."

"It is true that Miss Tallman is going on the stage?" asked the young man.

Yes answered Miss Plumpkin, "but I'll afraid she'll make a hit."

Why not? he queried.  
Because, explained the other, she looks like a fright in a bathing suit.

## All Thin, Pale Women

Can Learn the Cause of Their Nervous, Used up Condition.

With women, ill health is usually traceable to nerve exhaustion. Feeling run down and tired most of the time is nature's warning that more nerve force is required.

You must build up, nourish the body, vitalize the nerves, get more flesh and blood.

It's the abundant nutriment and building material in Ferronine that enables it to cure so many sick women. It increases the appetite, adds weight and strength, restores lost color and develops a surplus of energy and nerve force that defies sickness of any kind. There is living proof in Mrs. Daniel Ferguson, Jr., of Prescott, Ont. Read her statement:

"A year ago my health failed. I grew thin and exceedingly pale. At times I was prostrated with nervous and sick headache. All day I was tired. At night it was difficult to obtain restful sleep. My appetite was variable and indigestion bothered me considerably. I became morose and suffered from heart palpitation. You could scarcely believe the benefit I derived in one week from Ferronine. Color came back to my cheeks. My vitality and appetite increased renewed nerve force and better spirits came also. Ferronine did a world of good and made me well."

Remember this: No alcoholic stimulant can nourish and build up like Ferronine. Fifty cents per box or six boxes for \$2.50. At all dealers, or N. C. Polson & Co., Kingston, Ont., and Hartford Conn., U. S. A.

Elmira—"How do you like married life by this time, dear?"  
Cordelia—"Huh! It isn't half as nice as courtship."

### MECHANICS, FARMERS, SPORTSMEN.

To heal and soften the skin and remove grease, oil and rust stains, paint and earth etc., use The "Master Mechanic's Tar Soap" Albert Toilet Soap Co., Mfrs.

Hyker—"Brokerleigh has at least one redeeming quality."  
Pyker—"What is that?"  
Hyker—"He always manages to get his watch of pawn."

## Had No Energy to Do Her Work

Was weak and run down and tired all the time—Restored by Dr. Chase's Nerve Food. What hosts of people find their trouble described in this letter. Loss of interest in work, waning strength, persistent feelings of fatigue—such are the symptoms which tell of the approach of nervous prostration, exhaustion and paralysis. The means of cure is at hand in the form of Dr. Chase's Nerve Food.

Mrs. Geo. BEATTIE, Carr's Brook, Colchester Co., N.S., writes: "Last spring I was very much run down, felt tired all the time, and did not seem to have life or energy enough to do my work. Three boxes of Dr. Chase's Nerve Food did me a world of good and made work a pleasure to me. I have not had occasion to use any medicine since, and have recommended Dr. Chase's Nerve Food to all my friends. Pains in the back and stomach troubles." You can be certain that each dose of Dr. Chase's Nerve Food is forming new blood, creating new nerve force, and building up the system. 50 cts. a box, at all dealers, or Edmanston, Bates & Co., Toronto.

Mrs. BEATTIE

## THE TREATY OF PEACE.

Signed at Portsmouth. Mouth Closes the War—Articles of Agreement as Signed by the Envoys.

Portsmouth, N. H., Sept. 5.—The peace treaty signed today, opens with a preamble that the Emperor, the autocrat of all Russia, and His Majesty, Emperor of Japan desiring to close the war now subsisting between them, and having appointed respective plenipotentiaries furnished them with full powers, have come to an agreement or treaty of peace arranged as follows:

Article 1.—Stipulates for establishment of peace, friendship between sovereigns, two Empires and between subjects of Russia and Japan respectively.

Article 2.—His Majesty the Emperor of Russia, recognizes preponderant interest from political, military, economical points of view of Japan in empire Korea, and stipulates that Russia will not oppose any measures for its government or control that Japan will deem necessary to take in Korea in conjunction with the Korean government, but Russia subjects and Russian enterprises shall enjoy the same status as the subjects and enterprises of other countries.

Article 3.—It is mutually agreed that the territory of Manchuria shall be simultaneously evacuated by Russian and Japanese troops both countries being concerned in the evacuation and situations being absolutely identical. All rights acquired by private persons and companions shall remain intact.

Article 4.—Rights possessed by Russia in conformity with the lease by Russia of Port Arthur and Dairen, together with lands and waters adjacent shall pass over in their entirety to Japan, but properties and rights of Russian subjects are safeguarded and respected.

Article 5.—The Manchurian railway shall be reported jointly between the Russians and Japanese at Kokiog Teheng Tse. The two branch lines shall be employed only for commercial and industrial purposes. In view of Russia keeping her branch line with all rights acquired by the convention with China for the construction of the railway, Japanese acquires the mines in connection with such branch lines which fall to her. However, the right of private parties and of private enterprise are to be respected. Both parties treaty remain absolutely free to undertake what they deem fit on expropriated ground.

Article 7.—Russia and Japan engaged themselves to make conjunction of two branch lines which they own at Kouang Teheng Tse. Article 8.—It is agreed that branch lines of Manchurian railway shall be worked with a view to assure commercial traffic between them without obstruction.

Article 9.—Russia cedes to Japan the southern part of Sakhalin Island as far north as the fiftieth degree north latitude, together with the island depending thereon. The right of free navigation is assured in the Bays of Laperous and Tartare.

Article 10.—This article repeats the situation of Russian subjects on the southern part of the Sakhalin Island, stipulating that Russian colonists there shall be free, and shall have the right to remain without changing their nationality. Japanese government shall have the right to force Russian convicts to leave the territory ceded to her.

Article 11.—Russia engages herself to make agreement with Japan giving to Japan subject to the right to fish in territorial waters of the Sea of Japan, Sea of Okhotsk and Bering Sea.

Article 12.—The two contracting parties engage themselves to renew the commercial treaty existing between the two governments prior to the war, in all its vigor with slight modifications in detail and with the most favored nation use.

Article 13.—Russia and Japan reciprocally engage to release all prisoners of war, on paying the real cost of keeping the same, such claim for cost to be supported by documents.

Article 14.—This peace treaty shall be drawn up in the languages of French and English, the French text being evidence for the Russians and the English text for the Japanese, in case of difficulty of interpretation the French document will be final evidence.

Article 15.—Ratification of this treaty must be countersigned by Sovereigns of the two States within 50 days after signatures. The French and American Embassies shall be intermediaries between the Japan and Russian governments to announce by telegraph the ratifications of the treaty.

Additional articles are agreed to as follows:

Article 1.—The evacuation of Manchuria by both armies to be complete within 18 months. The two parties will only be able to leave as guards for railway 15 soldiers per kilometer.

Article 2.—The boundary which limits the parts owned respectively by Russia and Japan in Sakhalin Island, shall be definitely marked off on the sheet by a special limitographic commission.

Article 3.—The boundary which limits the parts owned respectively by Russia and Japan in Sakhalin Island, shall be definitely marked off on the sheet by a special limitographic commission.

Article 4.—The boundary which limits the parts owned respectively by Russia and Japan in Sakhalin Island, shall be definitely marked off on the sheet by a special limitographic commission.

Article 5.—The boundary which limits the parts owned respectively by Russia and Japan in Sakhalin Island, shall be definitely marked off on the sheet by a special limitographic commission.

Article 6.—The boundary which limits the parts owned respectively by Russia and Japan in Sakhalin Island, shall be definitely marked off on the sheet by a special limitographic commission.

Article 7.—The boundary which limits the parts owned respectively by Russia and Japan in Sakhalin Island, shall be definitely marked off on the sheet by a special limitographic commission.

## Local and General News

Of Special Interest to Our Readers, Gathered By Our Reporters from Many Sources.

Attention is called to Mrs. Hagg's marriage, on page four.

Congratulations to Mr. and Mrs. Thos. Murphy on the birth of a son.

Rev. T. H. Cuthbert, will preach in St. Peter's Church, Derby, Sunday afternoon at 2.30.

Mr. A. Ryan, recently saved a young Arkham from drowning. The little fellow fell over the wharf but for Mr. Ryan's timely rescue would have drowned.

Mr. Frank Carruthers was ordained an elder in St. Andrew's church last Sunday. The service was conducted by Rev. D. Henderson, and Rev. Mr. Simpson.—World

The exhibit of the Int. Correspondence Schools, Scranton, Pa., in the Anderson store is attracting considerable attention and representative F. L. Jennings, reports that a large number of young people are starting on the road to success by means of an I. C. S. course.

A Picnic will be held at Redbank Wednesday Sept. 13th. Parties wishing to come on the Rustler will have a chance to have a moonlight excursion going home, as the Rustler will wait at Redbank for them. There will be a hot supper about six o'clock. Stables' Orchestra will furnish music for dancing.

We learn that Mr. Walter Fairley, son of Ben. Fairley, who was for years in business here, but who is now located in Winnipeg, is to marry in that city this week. The young lady is one of Winnipeg's latest and Mr. Fairley's friends here join in congratulating him.

The examination of the three Chisamen who are accused of robbing Lem Sam, was resumed today. The men are out on bail. Lem Sam, it is asserted by the defence, robbed and wounded himself, and his blood stained razor, offered as proof of the charge. The men will probably be sent up to next week's Supreme Court at Newcastle for trial.—World.

It will be of interest to students of the Int. Correspondence School of Scranton, Pa., that the prizes offered to students of the I. C. S., in New Brunswick, were won on the North Shore. The first prize of \$20 cash and free trip to Halifax exhibition, was won by Mr. D. J. Sikes, Loggieville, N. B. Second prize, \$12 cash and free trip to Fredericton exhibition was won by Mr. W. H. McGovern, Campbellton. Third prize, Fountain pen (I. C. S. Special) won by Andrew Hill, Chatham.

We have recently received many complaints in reference to down river and Nelson mails. Our subscribers say that the Advocate does not reach them regularly, sometimes it is a day or two late, and sometimes does not arrive at all. This must be the fault of the post office through which the mail matter goes. All mail leaves this office Tuesday evening. The people along the Fredericton branch of the I. C. S. also say their papers are often missing. We assure our readers that we are not at fault.

Unstinted praise was bestowed on the ladies of St. Mark's church, Nelson, by the one hundred and fifty people who partook of the excellent supper they provided in the Temperance Hall last Wednesday evening. After having satisfied the cravings of the inner man an audience of 160 assembled in the hall where an entertainment was given. The various numbers being contributed by the following:—Mrs. J. P. Burchill, Misses Layton, Edgar, (Chatham), Burchill, Messrs. J. G. Keith, J. P. Burchill, E. B. Miller, G. DesBrisay, Percy Burchill, and Dr. Leighton, Hon. J. P. Burchill, president, Mr. and Mrs. Danville, had charge of the Fish Pond; Misses Flett, and Harris, dispensed at the candy stall, Mr. J. G. Keith, acted as salesman at the Pound Sale. The members of the congregation would avail themselves of this opportunity of thanking the members of other churches in Nelson and Newcastle for their generous aid and patronage.

Charles O. Falconer has opened a new hardware store at 519 Selkirk avenue. Mr. Falconer is a young man full of energy and push, he has had five years in one of the largest hardware concerns in Boston, on one of the busiest streets, and he sees in Selkirk avenue a coming retail street for the North End. He has had experience also with the Miller-Morse Hardware Co., Winnipeg, which put him in good standing with the hardware business. In an other column Mr. Falconer has a "Little Talk" to North Enders. He will talk every week through these columns and we would advise readers to read them. He has an advertising idea of his own, as you will see from the following: "We solicit a call whether you buy or not, and we will show you the reason why there is no need to go down town." He will handle everything in the hardware line also kitchen furnishings, stoves, etc.—Winnipeg North End.

Mr. Falconer is a son of Mr. James Falconer of this town and is well known here where his friends wish him success in his new undertaking.

## Farmer's Sons

We want several good strong young men, 16 or 17 years of age, to learn trades in our factory. We apprentice them for three years and pay them sufficient wages to maintain themselves. After completing the term we will secure them situations where they can earn from \$1.50 to \$3.00 per day. This is an opportunity that seldom offers and the number that we can take is limited.
