## CELEBRATION AT CARLETON, QUE.

Monument Erected to First D. A. Stewart Suffers Heavy Canadian Frost at Carleton Last Week.

On July 18th and 19th Carleton, Que., was the scene of a great Acadian celebration which will long be remembered by the residents of the district and also by the many guests who came to the celebration from all over the province. The day was extremely hot, but a great crowd of people gathered to witness the celebration.

The monument, which is a statue of Carleton, stands on a hill in the town of Carleton. It was erected to commemorate the first D. A. Stewart, who was a prominent Acadian in the town. The monument is made of stone and is about 10 feet high. It is surrounded by a low wall and is accessible by a path.

At 8 p.m. a great banquet was served in the spacious hall of the convent where, bishop, priests, laymen and ladies enjoyed the delicious food which the many good cooks of Carleton had carefully prepared. The banquet was a great success and was enjoyed by all who attended.

The day was followed by a musical concert under the direction of Mr. Arthur LeBlanc, a young Acadian who gives promise of a brilliant career. His selection of the violin was exceptionally fine. Such distinct talent is a rarity in a person so young.

On Wednesday at 9 a.m. a Pontifical High Mass was celebrated by Bishop LeBlanc of St. John who was the first Acadian bishop. Rev. Fr. Melanson preached an eloquent sermon at this service and the church was crowded to the doors with the throng of listeners all eager to honor the memory of their benefactor and father.

From every angle the celebration was a memorable success and from all quarters came expressions of gratitude to the good pastor Rev. Father Chouinard and his assistant, the Rev. Chas. LeBlanc who by their skill and careful preparation made the occasion such a success. Also, the host of visitors owe a debt of gratitude to Mayor Martin and others who greeted them with such hearty welcome and offered them unstinted hospitality.

Besides its significance as a memorial event the erection of this monument at Carleton, which not many decades ago was clothed in uninvited forest, proclaims the steady march of civilization. In 1755 when the Acadians were driven from their homes and taken prisoners by the English, Jos. Mathurin Bourg, then eleven years old (born at Riviere Aux Canards in June 9th, 1744), was taken to England with his parents who later sent him to France where he studied for the priesthood. Some years later he came out to Montreal and was ordained a priest and shortly afterwards was sent by the Bishop of Quebec as a missionary to the Bas de Chaleur district where a number of audacious Acadians had taken refuge. These hardy and enterprising pioneers had established rude huts for shelter from the elements and lived by hunting and fishing. Among these people Father Bourg labored for twenty-two years, travelling on foot and cheerfully sharing the misery and hardships of his parishioners, ever a friend in trouble and sickness and a councillor in death. During his mission here Father Bourg made his home at Tracadie where Carleton now stands. On a little island off shore at this point may still be seen the graves of early years a band of Acadians also buried near where Campbellton now stands and from these people the Sugarloaf mountain behind the town first got its name. ## FIRE DESTROYS LARGE WAREHOUSE

When Ingram playing with the Old Timers last Thursday night, bagged the first circuit run hit of the season and slammed out a three-bagger shortly afterwards, local baseball fans enjoyed a thrill previous to the season. This to this was added the two smallest scores and closest games of the season on Friday and Monday nights, the scores being 2-1 and 2-0 respectively.

The stock and all movables were rapidly removed from the barn, but its proximity to the burning warehouse made its salvation impossible as everything was in a very dry condition and it was only a matter of minutes until both buildings were wrapped in flames. This added to the threatening volume of sparks and incidentally increased the danger to Mr. Stewart's residence which was barely twenty feet from the fire. The heat from the flames was so intense that the paint on the rear walls of the house blistered and boiled and several windows cracked and fell to pieces.

The firemen were seriously hindered by small pebbles coming in through the main as these plugged the hoses and made it necessary to detach the nozzle in order to re-attach the passage. Several buildings in the immediate vicinity caught fire and owing to the skillful work of the firemen under Chief O'Donnell these outbreaks were quickly extinguished. By keeping the fire from spreading to the very shadow of a raging fire the department performed a seeming impossible feat. By three o'clock all visible signs of flame were extinguished but a detachment of firemen were left on the scene until well on in the morning. The cause of the fire is unknown.

The loss, which will be heavy, is partly covered by insurance. RECEIVES APPOINTMENT. Dr. R. G. Plamit has been appointed by the local government as a member of the Carleton District Board of Health.

BAZAAR. The annual Bazaar in aid of the New Church at Ashville will be held on Monday afternoon and evening, Tuesday and Wednesday evening, July 31st, Aug. 1st and 2nd, near the Opera House. Games and amusements of all kinds. Luncheon served each evening. All welcome.

## SMALL SCORES IN THESE GAMES

Improved Brand of Ball Now at O'Leary Field—Ingram to the Front.

When Ingram playing with the Old Timers last Thursday night, bagged the first circuit run hit of the season and slammed out a three-bagger shortly afterwards, local baseball fans enjoyed a thrill previous to the season. This to this was added the two smallest scores and closest games of the season on Friday and Monday nights, the scores being 2-1 and 2-0 respectively.

The game was exceptionally good all round. The outfielders of both teams were constantly on the job, both infields were practically airtight and the two working in union contrived to back up the batteries with steady and sure support. To crown the harmonious performance of both teams Dobson twirling for the Colts and Champoux for the C. N. R. delivered exceptionally good ball, Champoux striking out 10 and Dobson nine. In turns the men in the boxes both enjoyed the dependable support of a good backstop.

Naturally with the players meeting their individual responsibilities as they tried the game was an intensely interesting one. The fans were treated to two blank innings for both teams in the close play necessary to keep the score board clear. Then in the third inning the Colts, Monday night, witnessed the best game of the season. Both teams appeared in the pink of condition and each and every player contributed his share to make the contest an exhibition of real ball.

In the regular scheduled game between the Colts and the Fire Department on Monday night, fans witnessed the best game of the season. Both teams appeared in the pink of condition and each and every player contributed his share to make the contest an exhibition of real ball. The game was a long line of goose eggs, the Colts leading 2-1 in the seventh and last inning. But excitement died with the hopes of the latter team when Champoux struck out three batters as fast as the come on deck.

Score by innings: C. N. R. 1 2 3 4 5 6 7 Totals. 0 0 3 4 1 0 0 6. Colts 2 0 0 4 0 0 0 6. Runs Hits Errors. C. N. R. 8 11 1. Colts 6 8 4. Two Base Hits—Murray and Dunham. Hope run and three base hit—Ingram. Umpire—C. Tyler. Time—1 hour, 20 mins.

BRITISH WARSHIPS. VISIT BAY CHALEUR. Many Citizens Visit Dalhousie to Inspect Battleships Now in Port.

Dalhousie was the scene of much excitement yesterday morning when the British light cruisers Raleigh and Capetown of the British North Squadron appeared on the skyline about seven o'clock yesterday morning steamed stately into port and dropped anchor in the harbor of the shiretown. The newly commissioned vessels are in charge of Admiral Sir Wm. A. Pakenham who is Commander-in-Chief of the British N. A. West Indies Squadron.

An interesting circumstance is presented in the fact that Admiral Pakenham who sailed from Dalhousie approximately twenty-nine years ago as a midshipman on the old battleship Blake is now a full Admiral in the British Navy on his present visit at this port. The Raleigh which is the flagship of the West Indies Squadron is a vessel of 1200 tons and is equipped with seven 7.5 guns, six torpedo tubes and four anti-aircraft guns. She has a spread of thirty knots and has accomplished 31½ knots on test which makes her one of the fastest ships in her class. She is on her first commission being out from England one year this week.

The Capetown is a much smaller boat, having a displacement of 4,000 tons. Her equipment is similar to that of the Raleigh though not nearly so heavy. She too is on her maiden commission having left the shipyard at Plymouth only about six months ago. The cruisers have just completed a cruise through the St. Lawrence and after visiting several ports in Newfoundland will return to the Squadron-base at Bermuda.

### JASPER PARK LODGE AN IDEAL STOP-OFF POINT

With the advent of reduced fares to Alberta and British Columbia points, many who have long anticipated seeing the Canadian Rockies and Pacific Coast will make the journey this year. To them and to the individual travelling "Across Canada" for purely business reasons, the "National Way" and the Canadian National Railways' premier trains, the "Continental Limited" and the "National", appeal most strongly, the route connecting as it does the great urban centres of Canada, and traversing regions of outstanding interest. The various Canadian National hostels en route suggest excellent stop-off points and are noted for the excellence of their service. To their number is added this year Jasper Park Lodge on Lac Beauvert.

Jasper Park Lodge, in the Canadian Rockies, is the largest of Canada's National Parks, its area of 4,400 square miles offering unlimited holiday possibilities to the Tourist and the Sportsman. Dolly Varden trout lurk in the clear mountain streams. Beautiful transparent lakes mirror the encircling mountains, and a new unspoiled Alpine wonderland of snow-crowned peaks and verdant valleys gildens the eye. In this delightful setting on Lac Beauvert, three miles from Jasper Station (with which it is connected by motor car service), is Jasper Park Lodge, operated by the Canadian National Railways' Hotels Department, and now open for the reception of guests.

Of artistic log construction, the Lodge comprises a large, comfortable lodge building, surrounded by dining Hall and separate sleeping buildings, each containing sitting-room and four bedrooms, electric lighted, with all modern conveniences, running water in each room, baths etc. In conjunction with the Lodge is a Dancing Pavilion where good music assures to the guests delightful evening diversion.

From the Lodge a magnificent panorama greets the eye. Mount Edith Cavel, so-called in memory of the martyred British Red Cross Nurse stands out in bold relief, its glowing slopes making it appear as a sheet suspended from the heavens. The picturesque valley of the Athabasca is flanked by Pyramid Mountain, the richness of its varied color effects presenting a very striking contrast. Whistlers Mountain, Colon Range, Roche Bonhomme, are but few of the mighty peaks that meet the gaze. Riding is, of course, the popular pastime and ponies are available for this exhilarating sport. Within easy reach of the Lodge, afoot or by motor car, are numerous points of interest.

Most interesting attractions in the Park, is but six miles distant. Easily accessible streams will tempt the fisherman. The amateur photographer will revel in Nature's bounteousness. Animal bird and plant life is found in wonderful variety. Seventy different species of birds, seven hundred different species of plants and flowers have been accounted for, and within the confines of the Park which is a bird and game preserve are big horn mountain sheep and goat; bear, cinnamon, brown and black, caribou and moose, elk, beaver, otter, marten and deer.

For those more venturesome, who would explore the more difficult and extended trails, guides, ponies, pack-horses and complete outfits can be obtained at the Lodge, from which point also parties set out on hunting expeditions beyond the confines of the park.

This delightful region is fully described in a new booklet entitled "Jasper Park Lodge", copies which may be obtained from the nearest Canadian National or Grand Trunk Agent.

### HUGE FISH ON EXHIBITION

Captured by Local Young Men On the Flats Near Oak Bay.

On Thursday last three local young men had their first try at whaling. Their efforts were attended by success for on Friday morning they arrived here with a fish which measured 18 feet 10 inches, which they had towed up the river with the aid of two motor boats. After securing a license, the necessary means of transportation and a tent in which to house their curio they placed the monster fish on exhibition on a lot on Water Street where passing pedestrians gathered round to get a look at the novelty.

On returning from a trip down river on Thursday afternoon, a boating party brought the news that they had sighted a huge fish which looked like a small whale down along the Oak Bay Shore. This report inspired three young men who started down in a motor launch. They sighted the monster some five or six miles down river and at once engaged in a spirited chase, routing the huge fish aground on the flats. As they were equipped with two rifles they proceeded to make use of them but it was not until a number of shots were fired that the big fish showed signs of giving up the struggle and ceased lashing the water with his powerful tail. After some difficulty the amateur whalers succeeding in getting a tow line about their trophy and proceeded to tow it up river.

There is a division of opinion as to the proper name of the enormous fish, but it is generally believed that it is a grampus as its size, appearance and characteristics seem to correspond with those of that cetacean. The grampus belongs to the Delphinidae or Dolphin family and is the only cetacean which prays upon its own kind. It is found in the North Sea and off the coast of Greenland and is enormously strong and very voracious. Its special characteristics are the rounded head, conical teeth and high dorsal fin. The adult measures from twenty to thirty feet in length and is more than ten feet in girth. The upper part of the body is black, changing to white on the under surface and part of the sides. It sometimes appears in schools numbering hundreds.

### ATHOL TEAM DEFEAT CUBS

Exciting Five Inning Game Played Last Thursday Evening—Score 4-3.

In an exciting five inning game on O'Leary field diamond a picked team from Athol defeated the Cubs last Thursday evening by a margin of one run. The contest was snappy and full of thrills from start to finish.

In the first inning the Cubs took the lead with one score but the visitors tied in the second. There was no scoring in the third but this inning was productive of good ball by both squads. Murray relieved Dickie on the hill in the fourth and in this inning the visitors chalked up three more runs. When the Cubs came to bat they rallied and made assisted efforts to tie the score but their opponents held them to two runs. As both teams failed to get a runner home in the fifth the game ended with a score of 4 to 3 in favor of the Athol nine.

Fullbright did some good twisting for the visitors while Dickie and Murray both delivered good ball for the Cubs.

## RUNAWAY TEAM DAMAGE AUTO

Town Team Made Wreck of  
P. M. Shannon's Car Last  
Thursday.

A collision which will likely cost  
the town a neat little sum occurred  
at the corner of Cedar and King Sts.  
last Thursday afternoon about 5  
o'clock when a runaway team draw-  
ing the fire department hose wagon  
precipitately rounded the turn be-  
low the track and literally leaped  
upon Mr. P. M. Shannon's car which  
was coming in that direction, as he  
was making another car at the time,  
the young man at the wheel could not  
turn out or speed up sufficiently to  
avoid the collision. Moreover, it  
was only an instant from the time  
the runaway team was upon him,  
the young man, fortunately, was un-  
injured but the forward part of the  
vehicle was badly wrecked. The  
damage included the fenders, the radia-  
tor, the lights and two forward  
springs.

**BUSY CAMPBELLTON.**  
There is no unemployment in  
Campbellton. Every mill and work-  
shop is running with full crews and  
several houses are under construction.  
The town has no electric railway as  
yet, but it has two lines of motor  
buses—one to Dalhousie and one to  
Matapedia—running on schedule time  
at low rates. They are well patron-  
ized. The bus from Matapedia, Sat-  
urday evening especially, arrives with  
as many passengers as can get into  
it. The fare is very small in com-  
parison with the hire of a carriage or  
auto—Chatham World.

**LITTLE DAMAGE DONE.**  
The forest fire reported from Jac-  
quet River last week did little dam-  
age. It burned an area previously  
burned over, and was extinguished by  
the rains. Fifteen men worked on  
this fire and kept it from spreading.

Having been proceeding on a  
small scale during the week, but it  
now general on the Miramichi. The  
crop is big, but somewhat thin at the  
present in many sections, so the farmers  
say.

THE I. C. R. DISASTER.

The death at Campbellton, the other  
day, of the third victim of the fatal  
derailment of the Ocean Limited at

St. Moise on the Intercolonial section of the National Railways, in the person of the engine driver, naturally directs enquiry as to the cause of the disaster, which, but for the fact that the rear coaches being of steel, remained on the track, would have been attended by a much greater sacrifice of human life. The fact that the disaster was caused by a collision of the train, while running at a high rate of speed, with a sleeping cow on the track, calls forth from a Halifax contemporary the following very reasonable comment: "The law has given to farmers a very large measure of protection in respect of their live stock by the provision of cattle guards at railway crossings and in other ways which add to the responsibility and liability of the railways. This protection is afforded under the Railway Act, but the same law requires the farmer to keep his horses and cattle out of the railway inclosure except for the purpose of and while crossing the railway in charge of some competent person. There is thus a definite duty imposed upon the owners of cattle under this Act and there is a further provision, under the criminal code, which declares that "everyone

**DINGLE-DOHERTY.**

Dalhousie, N. B., July 21st.—St. Mary's Church was the scene of a very pretty wedding on Wednesday evening, July 19th, when Mary Helen, daughter of Mrs. William Woodbury Doherty, was married to Mr. Guy Elton Dingle, of Toronto. The Rev. R. J. Coleman was the officiating clergyman. The bride, who was given away by her brother-in-law, Mr. H. J. Hubert, was unattended, she wore a handsome gown of ivory satin, with draperies of pearl-embroidered georgette crepe. She wore a court train of white satin, and tulle veil caught with orange blossoms which had also been worn by her mother. She carried a bridal bouquet of sweetheart roses and sweet peas. The ushers were Mr. S. L. P. Clifford, and Mr. Stockton Barberie of Montreal. The church was artistically decorated for the occasion with ferns and roses.

PULP AND PAPER CONCERNS AMALGAMATE

St. Catharines, Ont., July 25.—Amalgamation has been completed of the Lincoln Paper Mills Company, Ltd., of Merriton and the Canadian Pulpwood Corporation, with offices at Little Cascapedia, Que. and timber

Stumpage receipts the previous limits in the Gaspé Peninsula under years were \$866,000 and the year before that when the after the war boom amalgamation includes both the Lin-las at its height, the receipts from the million dollar supply of high grade pulp mark. The quantity of lumber cut is assured and operations will be carried on crown lands during the past year tied on as usual in the pulp and paper was under one hundred million feet, mill at Merriton.

whereas the cut in 1919 reached 350,000,000 feet.

Colonel Loggie expressed the opinion that the reduced cut might be a blessing in disguise as he felt the cut had been too high. The spruce bud worm infestation, he said, had been especially serious and the department was now anxious to have the lumber which had been attacked, McLaughlin. The McLaughlin had been sidetracked by another car on the narrow section of road just at the P. Q. Lumber Co's property near Dalhousie and forced into the soft mud destroyed," he said, "at practically any of the ditch. The road and running board were damaged.

Asked the amount of timber thus destroyed, Colonel Loggie replied: "The estimates we have been given run all the way from ten to one hundred millions—take your choice."

The Minister of Lands and Mines advice is that there will be a moderate cut of lumber during the coming winter.

Very few children succeed in getting born into a rich family.

No wonder there is so much trouble. Everybody is making it.

THRILLING RESCUE IN THE FLOOD SCENE

From "THE CALL OF HOME" A R-C PICTURE

Full of big and thrilling incidents, especially the dramatic scene when the raging waters of a river overrun their banks and spread a wide swath of death, "The Call of Home" has completely enthralled audiences everywhere. It's an R-C Picture, produced by Gasnier. One of the biggest of the big episodes is the rescue of the wandering husband, imperiled by Ramsey Wallace, from death in the swirling waters of a rapid into which he has been hurled from a great height. The rescue is a thrilling and dramatic episode that has been the talk of the town.
